Rotary Hears Discussion Of State Parks

"Maintenance of the old Copano Causeway as a public fishing pier after the new one is built is largely wishful thinking unless the State Park set up changes," Jack Baughman told the Rotary Club at its Wednesday luncheon.

"Senator Patman and State Representative-elect Leroy Wieting are sincere in their belief that the fishing pier would be an excellent thing for this area," he said, "as are all other people pulling for this tourist attraction, which could be of inestimable value."

"But the fact remains that any structure in salt water requires a good deal of maintenance, and, unless the bill creating the pier carries some sort of appropriation with it, there is little chance that the money will come from anywhere else."

Baughman told Rotarians that such pier could charge enough for all license bearing fishermen to allow proper maintenance, and that this was probably the only method by which it could be kept in shape for any period of time.

"Any thought that the State Park Board will keep it up under the present set-up," he said, "is fallacious. Either that, or the people who fondly hope that this will be the case haven't paid much attention to the state park board record."

In WPA days, Texas state parks reached their highest stage of development, the newsmen pointed out, and since then these facilities have steadily deteriorated.

One of the largest in the area, Lake Corpus Christi State Park, has a maintenance budget of only \$100,000.

Goose Island Appropriation Asked By Board

Goose Island State Park is one of seven for which the State Parks Board has asked appropriations from the legislature, but, if past performance is any criterion, it is extremely doubtful, unless the community gets behind the thing and pushes, that any of the money will ever get this far.

The general course of affairs in the past has been for the Park Board to make the request to the legislature, and for the legislature to blandly ignore the request. Only once in recent years has any money been spent there, outside the tiny maintenance fund. In that year, the Chamber of Commerce got behind the move, entertained the Park Board on one of its junkets through the State, and convinced them that something should be done.

Since then, there has been little spent, not because the park manager wouldn't do it if he had it, but because the money just wasn't available from a legislature that has always been niggardly with the parks.

It is true that during the last session, there was some money set aside for capital improvements in some parks. The legislature approved \$150,000 for Lake Mathis, \$160,000 for State Park, and \$126,000 for Inks Lake. And, in the same budget that asks for another \$40,074 for Lake Mathis has asked for \$5,525 for Goose Island.

Whether the local park will ever receive a penny of the request is anybody's guess.

Jaycees Have Busy Month Scheduled

Local Jaycees have a crowded schedule for the next month or so.

On Aug. 17-19, members of the club will attend a three day long area convention in McAllen. Those going from here are:

Mr. and Mrs. Charles Speer, Mr. and Mrs. Charles Smith, Mr. and Mrs. G. P. Howland, Mr. and Mrs. Cloyce Hayden, Mr. and Mrs. Everett Perry, Mr. and Mrs. Leon Bateman, Mr. and Mrs. Gene Carter, Charles Garrett, Joe Earl Hunt, and Mr. and Mrs. Wallace Maley.

On August 25, the club will have a donkey ball game at the Little League Park. There will be a trick mule in the show, according to Jaycee President Charles Speer, who says that admission will be 75 cents for adults and 35 cents each for children between 6-12. Younger children will be admitted free; older ones will have to pay the adult rate.

Jaycee opponents in this game will be the Rockport Seamen's Lions Club.

On Sept. 2, the Jaycees are sponsoring a barbecue at the Lions Pit on the Rockport waterfront, and on the following day, Sept. 3, the club will have a Jaycee Rest Stop on the edge of town, with free coffee and sandwiches for passing motorists.

Safety literature provided by Glass, Sorenson and McDavid will be passed out to those motorists who stop.

C of C Directors Hear Reports On Hiways, Business

At the Tuesday night meeting of the directors of the Chamber of Commerce, they appointed Mrs. Dorothy Jarboe, public relations representative of the Aransas Natural Gas Company, local director to represent the area on the board of the Louisiana-Texas Hug the Coast Highway Association.

In other business, they listened to Mrs. Jarboe, who recently attended in Brownsville, report upon that meeting, to which she was sent by her company, as a Chamber of Commerce representative.

Also reporting to the directors were Seth Steele, for the membership committee, Tommy Griffith, for the Industrial Committee, and Jack Sanders, who headed a recent delegation to the Navigation District meeting.

The directors also directed that a letter of invitation be sent to the Commanding Officer of the Rockport AFB, inviting him to appoint a personal representative to sit in on Chamber of Commerce director's meetings as an honorary member.

President Bob Fleming also appointed Sanders, Seth Steele and Thomas D. Picton as a committee to confer with Mayor Herman Johnson and County Judge John D. Wendell on formation of a "Red Carpet Welcoming Committee" for this area, patterned after the one in Corpus Christi.

Mrs. Jarboe said the Brownsville meeting was a most successful one. It began on Sunday, July 15, with registration and dinner and dancing in Mexico that night at Matamoros.

On Monday, members at the conference toured a portion of the Valley and Padre Island to see highway developments, and wound up with dinner in the Holiday Inn, at which Ray Burgess, director of the Louisiana Department of Highways was the principal speaker.

On Tuesday, there was a director's meeting of the Association, followed by business sessions before the entire group left for a conducted tour over Mexican highways to Ciudad Victoria, Tamps., and back through Monterrey and Laredo.

At the meeting, the Association brochure, to which Rockport Chamber of Commerce had contributed was distributed for the first time.

Mass Immunization Here On August 19

Three Lions Clubs of Aransas County Are Underwriting the Cost of the Program And Are Urging Everyone To Participate Here

The three Lions Clubs of Aransas County are underwriting the cost of Sabin polio vaccine and mass immunization in Rockport, Fulton, and for the rural areas of Aransas County which will be available on Sunday, Aug. 19, according to Dr. H. F. Elliot, who is handling the vaccine orders.

"We are ordering enough for 4,000 people," Dr. Elliot said Wednesday morning, and if that is not enough, we'll order more and hold a second clinic. This is over fifty percent of the county's population and we feel that it is enough. However, we want everyone in the county to receive the vaccine."

Construction Moves Ahead On Several Local Projects

Construction is moving ahead on a number of local projects, most of which are connected with the school's building program.

The new band hall is rapidly approaching completion. Made from a portion of the old Fulton school, at a saving of several thousands of dollars, it has room for more than a hundred band students, with the necessary storage space for instruments and music. Also included are individual practice rooms.

Another portion of the school has been moved across the street from the high school campus, and has been made into a school warehouse, something that has been badly needed for a long time.

Construction on the caretaker's house, to which a garage was added, has been completed, and the presence of a family living there, plus the new lighting set up along the school campus has helped cut down on vandalism.

The old concession stand, long ago too small to take care of the demands made upon it, has been replaced with a new, larger, and more modern building.

And work is now proceeding rapidly on revision of the administration building heating system.

Vermillion Construction Company equipment moved in Monday on the ten acres recently condemned as a site for the new junior high school. Much of the acreage has been cleared of small undergrowth and saplings, and only the larger trees have been left.

In other, non-school construction, the Junior Oddfellow Band Shell on Rockport Beach is rapidly taking shape. This project, for the benefit of the community, has been sparked by the youths in the organization.

Band Boosters Chose Officers, Plan Calendar

Aransas County High School Band Boosters met this week, installed officers, elected committee chairmen, and laid plans for the band calendar for the coming year.

Officers of the organization are Mrs. J. D. Gray, president; Mrs. W. E. Beasley, vice president; Mrs. M. E. Wilson, treasurer; Mrs. Charles Garrett, secretary; and Joe Randow, band director.

Mrs. J. P. Keith and Mrs. G. L. Kriger were elected chairmen of the membership committee. Other standing committee chairmen elected were Mrs. R. C. Heimbuch, chaperones; Mrs. Charles Garrett, publicity; Mrs. A. L. Reed, telephone; Mrs. Everal West, hospitality; and Mrs. J. D. Gray, finances.

Band practice was held this week on Monday and will be held again Thursday, and there will be a meeting of the Band Boosters Thursday night to make plans for the band calendar. This will be the only money-making project of the year for benefit of the band, and members of the organization are asking cooperation from businessmen, clubs, other organizations, tourists, tourist court and motel operators and from individuals.

This year, they say, your advertisement can be placed on the face of the calendar; your meeting dates can be listed for the whole year; wedding anniversaries and birthdays may be listed.

The calendar will have a late picture of the band in its new uniforms. Contacts will be made by students in the near future, and the band boosters earnestly solicit the support of everyone for their project.

ARANSAS REWORK HAS 1.3 MILLION

Phillips Petroleum Co. No. 59 Copano Bay State, Aransas County, Fulton Beach Field workover, has been completed for a daily open flow of 1.3 million cubic feet of gas plus one barrel of 56 gravity condensate to 112,000 cubic feet of gas.

Production was through perforations from 6,996 to 7,004 feet in 5½ inch casing at 7,216 feet with total depth of 7,225 feet.

The vaccine is Sabin Type I, given in drop form on a cube of sugar, and can be given even to small infants.

The immunization centers will be at Rockport and Fulton Elementary schools, and in the VFW Hall in Rockport, from 10 a.m. until 6 p.m. on Aug. 19, Elliot said.

The Fulton Lions, the Rockport Lions, and the Rockport Seamen's Lions Clubs are underwriting the cost of the program, and a minimum donation of 25 cents each is asked from all those who take the vaccine.

However, any person unable to contribute this small amount, which is barely sufficient to pay the cost of the dose, will be given the vaccine through the courtesy of the Lions.

Whether you've got money or not, they say, come in and be vaccinated, and help stamp out polio. Doctors point out that only about one out of three hundred people with polio virus receives a polio diagnosis.

The others may be transient carriers of the virus, or may carry it for a long period of time, and be completely unaffected by it, or the cases may be diagnosed as intestinal flu or some minor disease.

Polio cases to be a minor disease and becomes serious when it strikes the nervous system. Then is labeled polio. In fact, polio is not one, but three diseases. The three are known as Type I, Type II, and Type III, and they are alike only in the way they affect the nervous system. Depending on the virulence of the particular type, at a particular time, each one may be paralytic or non-paralytic, and may affect children and adults.

Older people, while not as subject to polio as children, are still able to acquire it, and should take the vaccine along with everyone else, no matter what their age.

Type III Sabin vaccine and Type II will be given later, at intervals of six weeks, Elliot said.

The Lions of Aransas County are urging everyone to take advantage of this program.

Jerry W. Wright, seaman apprentice, USN, son of Mr. and Mrs. D. U. Wright of 1704 Maple St., Rockport Texas, completed a course in seamanship at the Naval Station, San Diego, Calif., Aug. 4, during two weeks of annual active duty training.

During the two weeks the reservists completed practical requirements for the rate of seaman through training which simulates shipboard life.

ELECTRIC SERVICE

'Round the house... 'round the clock... your family's biggest value

Ever count the number of ways you put electricity to work in your house? We bet you'd really be surprised!

What's more, your electric service is a better bargain today than it used to be — even if your electric bills are bigger. They're bigger because you're using so many more electric servants.

You're getting much more electricity per dollar than your mother did — and living better, electrically, too!

And that's how it is all through the U.S.A. ... for every one of the 140 million customers served by investor-owned electric light and power companies like CPL.

STATE PARK DISCUSSION—
(Continued from Page 1)

about \$2000, with the result that the buildings, walkways and other installations are deteriorating rapidly, and have become a home, in some instances, for coons and other wild animals.

"Take Goose Island," he said. "A few years ago, the Chamber of Commerce, under the leadership of Seth Steele, who was president at that time, raised enough of a fuss to get a little extra maintenance money to repair the concession building and do a little other needed work. But, since then, there has never been more than a nominal amount appropriated, and that the park is as good as it is, is largely a tribute to the park manager, A. Y. Wofford, and his untiring efforts to improve things with no money."

Baughman pointed out that dissatisfaction with the State Park set-up is steadily growing among people who have taken the trouble to inform themselves about this waste of recreational resources of Texas.

For instance, the State Park Board's acceptance recently of a 4788-acre Blanco County ranch with the provision that the state legislature appropriate \$250,000 for immediate improvement of the property has drawn a good deal of criticism.

Mayor H. P. Clarke, of Goliad, was one of those who thought this was out of line. Although the donors are to be commended for their gift, he said recently, the wisdom of the Parks Board is questionable, since apparently it does not even now have enough funds at its disposal to maintain existing park locations and other historic sites properly.

"Why should the Parks Board take on this burden when it claims to have insufficient funds for maintenance and improvement of certain sites badly in need of these services?" Clarke asked.

He indicated the ruins of Mis-

sion Rosario, built in 1754, as an example of where state funds were badly needed. Built to minister to the Cujane and Karankawa Indians at a site five miles west of Goliad, that the site was so completely overgrown that it required several days recently to clear even the central portion where main complex buildings had been located. And, although the site is a state park, the clearing had to be done through the courtesy of W. T. Barnhill, one of the county commissioners, and Mrs. Frances Johnston, of the Chamber of Commerce.

Baughman said that Mission Rosario wasn't the only portion of the Goliad State Park site that needed attention.

"Some years ago," after the WPA had restored Mission Espiritu Santo de Zuniga, on another part of the site," he said, "the interior was frescoed, and had the altar railing, and other items of these are gone. The museum there could use more money, also; and the Memorial Auditorium and stadium, built in Texas' centennial year, needs a lot of maintenance badly," he pointed out.

The Palmetto State Park, at Otine, was one of the finer parks of Texas at one time, and the cynosure of many eyes because of the magnificent variety of native vegetation found there. Botanists found it a wonderful place to collect plants, and the springs that were in the park were cleaned out, picnic places opened up, and the whole thing made available for public use. Now it presents but a shadow of its former self, because no money has been available for its care and upkeep.

Mrs. Teale Adkins, of Beeville, recently conducted a wide spread survey of the state park system, while a member of Governor Price Daniel's Study Commission on Padre Island Park, recommended, after this survey, that no further consideration be given to making the island a state park, and said that she felt that it would be of more benefit to more people if it became a National Seashore area.

Mrs. Adkins, who lives in Beeville, is this year's chairman of State Parks for the Texas Federation of Woman's Clubs, and she told Baughman:

"I think the state parks board does wonderfully well with the money they have, it is the public's fault that they can't do more. Until the public as a whole demand that legislators appropriate more money for the parks, the Board can do nothing."

It Really Is Dry

Everyone in Aransas County has been complaining about the dry weather we are having, and they have good reason to complain.

According to weather reports, furnished by Paul Clark Sorenson, and published each week in The Pilot, the last rainfall we received was on June 30 and what a down-pour that was, .06 inches. The day before, on June 29, we had .03 inches, June 28, .24 and June 27, .59 inches. Again on June 21 we had .51 inches of rain to go with the rainfall recorded on June 1, 1.15 and June 2, 1.36 inches, making a total of 3.94 inches of rain that fell during the month of June.

However, today is Aug. 9 and according to our figures, it has been 40 days since it has rained, and there is no apparent relief in sight.

NOTICE!

We want to take this opportunity to express our sincere regret at the inconvenience which has been caused to fishermen, and those whose livelihood depends on fishing, by our dredging on Key Allegro Island.

We are making an attempt to alleviate this situation, and hope to complete the dredging operation as quickly as possible.

In the meantime, we would like to recommend the fishing in our newly dredged channel on the south end of the Island, entering from Aransas Bay. It has been excellent, and anyone is of course cordially welcome to make use of it.
