

The Gay Philosopher

By J. W. S.

THANKS FOR the many comments The Press has received for the Sunday editorial on the sick plant situation. The Chamber of Commerce has been busy most of the week on the project. There are at least two prospects for reopening the plant as the result of the editorial.

We're reporting this because so many of you have expressed genuine interest and concern. And, certainly, it's something in which Cisco should be vitally interested.

DROPPED OUT to Lake Cisco yesterday to see how Mr. Judia's fishing eradication party was getting along. Our call to volunteers to help him certainly paid off. Some 15 or 20 motor boats were on patrol to pick up the fish as they came up, and scores of spectators came to watch. And it was very interesting, indeed.

THERE'S DUE to be a lot of outstanding bowling activity at the White Lanes tonight. The Lions Club is taking on the Rotary. Dr. C. E. Paul and Les Vann are ramrodding the Lions, while R. L. Ponsler is chairman of the Rotary team.

Hear that the Lions have challenged the Rotarians to a softball game. Rev. Chief Warden has named captain of the Lions team. The Rotary was due to act on the challenge.

A FRIEND just called to comment The Press on its series of feature stories on farm and ranch leaders. The series runs each Wednesday.

FOR THE BENEFIT of good fishing, Mr. Ray Judia reports that 75,000 baby bass were turned loose in Lake Birnie this week. The lake is entirely full and ready to run over the dam to Lake Cisco if it rains again soon.

Stocking a lake is not as easy as you think. If the 75,000 little bass were turned loose together, they would stay in a big school, and big fish would raid the school until school was out.

Judia used a special boat for turning loose the fish. The water comes through a trough in the front and out the back. And the fish are turned into the trough a few at a time. They went all around Lake Birnie before all of the little fish were turned loose. Scattered, they fight and run for their lives if attacked.

IF YOU'RE THINKING of going fishing, you may as well stay home until May 15. Our Spang calendar says there's not a chance.

WAS LOOKING around at Lake Cisco park last evening. The upper pool has been filled and a dozen swimmers were having fun. And Mr. Gene Abbott's miniature golf course was open. Hear that Stormy Davis is going to be the pro out there this summer.

EACH YEAR The American Legion Auxiliary sends a girl to Austin for the Girls State event. And through the process of selecting a local girl, there was a tie for first place. So two girls are to be sent this year. It costs \$40 to send a girl.

The Auxiliary, we're told, has \$4 on hand - enough to send one girl and \$14 on the cost of sending the other girl. They need \$26.

If anyone wants to help, let us know. If 25 men will go with us, we'll each give \$1 each and hand the \$26 to the Auxiliary. Who wants to help?

Revenue Collections Are 8 Per Cent Down

AUSTIN, May 4 — Federal internal revenue collections in Texas from July 1, 1949 through March 31, 1950 fell 8% from the similar 1948-49 period, the University of Texas Bureau of Business Research reported.

Income taxes for the first 9 months of this fiscal year offset a 3% gain in withholding taxes and a 1% rise in employment tax.

First District (South Texas) had a 6% decline in revenue as compared with a 9% decrease for North Texas (Second District).

CISCO HIGH BAND WINS MANY HONORS IN SAN ANGELO MEET

By LELA LATCH

Ten firsts and four seconds in solos and a second in sight reading and marching with a third place in concert playing were the honors captured by Cisco High School's Lobo Band at the Interscholastic League meet at San Angelo last Saturday.

Competing without a professional director, the band members had worked under the guidance of Supt. Arlin Birt and musical director R. L. Clinton since the resignation of Paul B. Forgy some weeks ago.

Hints Offered To Aid Small Stores

Many small retail stores and service establishments become casualties or produce low earnings because the operators fail to avail themselves of information that would help them succeed, according to Ray L. Miller, regional director, U. S. Dept. of Commerce, Dallas.

Ten factors which can lead to success in retailing are discussed in a leaflet prepared by the Department and issued as a part of a series of "Small Business Aids," designed to help small business men improve their operations.

Desirable location, skillful buying, adequate financing, effective stock control, sound merchandising, proper pricing, adequate records, good service to customers, a friendly personality and good housekeeping are factors generally associated with successful business operation, the leaflet asserts.

The greatest service the retailer can give his customers is to provide them with merchandise they want when they want it. Failure to furnish such service results in the loss of many profitable sales and sometimes the future patronage of the customer.

Good housekeeping is a valuable contribution to the success of retail stores and service establishments. Some stores attract customers because they are well ordered; others lose them because of their disorder. Adequate light, fresh paint, good ventilation and orderly arrangement of merchandise invite patronage, Miller said.

Single copies of the leaflet entitled "Ten Factors in Successful Retailing" may be obtained free from the U. S. Department of Commerce, Room 1114, 1114 Commerce Street, Dallas. Ask for the Small Business Aid No. 501.

Mesdames James Moore, Travis Farmer, and Opal Blackstock accompanied the group as chaperones.

Judges for the musical contest were: R. L. Maddox, Odessa band director, Oakley Pittman, SMU, Maurice McAdoo of NTSC, and Joy Heeder of Baylor.

Soloist first place winners were awarded medals; second place winners received certificates, and the band was given plaques for the group honors.

Oakley Pittman, Mustang Band director of SMU and judge at San Angelo, wrote in his comments: "Congratulations to the boy (Richard Moore who won first place as student director) directing and to a band that has the spirit to play under bad conditions. You're a great bunch of kids and you've delivered the goods. Wish all the bands had your spirit. Carry that on into life for that is what makes this country great. Zeld Sandler (now a member of the Mustang Band, formerly a Lobo Band member) is one of you, too. Wish I had two dozen like you. Again, congratulations."

Two of Cisco's soloists entered two solo contests each and placed first in each. Richard Moore received top honors in the French horn and as student director. Anita Carlin won firsts on the flute and piano. Other Lobo musicians placing first were Virginia Weiser on the French horn; Jane Huestis and Scrippy Cluck at the piano; Sara Ellis with the clarinet; Darlene Parmer at twirling the baton and Nanette West on the flute.

Four second places were awarded to Herschel Rains on the trombone; Bobbie Reynolds at twirling and to Geneva Birt and Philip Porter on the clarinet.

Other band members making the trip were: Carol Donoho, Morris Ray Hill, Buddy Wright, Joe Stamey, E. L. Hazelwood, Fred Shockey, Albert McCurdy, Dorothy Rice, Neota Moad, Wilma Thomas, Marcia Anderson, Barry Kendrick, Philbert Kendrick, Nancy Taylor, Faye Moore, Mary Nell Whitten, Daniel Grey, Bob Frost, Nelda Johnson, Mary Scott, Nada Wagley, Patsy Gardenhower, Bill Mitcham, Frances Latham, Jane Flint, Patsy King, Lura Bess Cowan, Anna Ruth McCrary, Bonnie Erwin, Bernie Ann McCrea, Bobbie Benie, Jacqueline Douglas, John Essel, Nixie Gregory, David Gray, Peggy Housh, Leon Mc Crary, Blair Paul, Shirley Suggs, Anita Strobel, Charlotte Thetford, Sammy Raelsback, Daniel Gray, Pansy Pippin, Betty Gallagher, and Edward Courtney.

Mesdames James Moore, Travis Farmer, and Opal Blackstock accompanied the group as chaperones.

Judges for the musical contest were: R. L. Maddox, Odessa band director, Oakley Pittman, SMU, Maurice McAdoo of NTSC, and Joy Heeder of Baylor.

Soloist first place winners were awarded medals; second place winners received certificates, and the band was given plaques for the group honors.

Power Consumption Slips Two Per Cent

AUSTIN, May 4 — Electric power consumption in Texas slipped 2% from February to March, the University of Texas Bureau of Business Research reported.

Industrial power usage was down 1% from February, and commercial and residential use dropped 5%.

In comparison with a year ago use of power was down 9% in March. Residential usage fell 6%; commercial, 8%; and industrial, 11%.

Texas Movie On Wild Deer Will Be Shown Soon

AUSTIN, May 4 — The first Texas-made movie about wild deer, staged in their natural habitat, will be released soon by the Texas Game, Fish and Oyster Commission, according to the Director of the Department of Publications.

The film is in color, bears complete sound, and has been almost two years in the making. The name is "Master Whitetail." It is an historical and documentary story of the white-tail deer in Texas, linking the animal's original and present status with the arrival and advance of civilization.

Tentative plans are to make probably a dozen copies of the movie. Demands on the department's motion picture library indicates a growing interest in wildlife movies. The new cinema is expected to attract even greater attention toward authentic wildlife films made in Texas.

"Master Whitetail" typifies the educational trend in wildlife activities. It emphasizes the crisis to game after man began cultivating the soil on an ever increasing scale. It stresses the restoration efforts of game management forces and above all explains the indispensability of public cooperation in modern conservation programs. The part set aside for sportsmen is magnified.

"Master Whitetail" begins with a covered wagon scene depicting settlers moving into a land "almost untouched by human hands."

New developments in oil were shown to be the result of demand by continuous improvement in engines.

These figures are not official. Census reports for the three cities are expected to be available in the near future.

Fly Infestation Warning Sounded By Health Officer

AUSTIN, May 4—"Go in and out the window" is a line from a children's game which thousands of little youngsters have played for years. It may be used to describe something else, too. Flies like to go in and out of windows. Dr. Geo. W. Cox, State Health Officer, predicts that fly infestation will be heavy this year. So, now is the time to kill those early flies . . . before they have a chance to produce thousands more during the summer.

These pests love to buzz around in uncovered garbage pails, stables, old privies, and in homes around uncovered food. Do you have a metal garbage pail with a tight-fitting lid? Are screens on your windows and doors in good repair? Waste should be removed from stables often, for horse manure is one of the chief breeding places of flies. Children can help to keep flies out of the house by keeping screen doors closed, and swatting the flies that enter the house.

Flies carry germs on their fast-moving wings, in their tube-like mouths, and on their furry legs and feet. What are some of the diseases they spread? Typhoid fever, dysentery, and tuberculosis are spread by these insects who feed on germ-laden filth.

Clean-up campaigns, screening, and spraying with insecticides are the best methods for getting rid of flies. Special care should be used in the use of DDT, other insecticides . . . directions should be followed carefully. Let's clean up on the new crop of flies to protect the health of our families.
