NUMBER 9

Ochiltree County Leads Texas in '42 Wheat Crop

Two-thirds of County's '43 Red Cross Quota Raised

Collect \$1,200 \$1,800 Quota In Three Days

Judge Dave Shanks, County Chairman, Urges All to Give

With \$1,205.50 of Ochiltree County's 1943 Red Cross quota collected Wednesday afternoon, Judge Dave Shanks, county chairman, urged workers to all-out efforts to reach the quota of \$1,800 today, Judge Shanks, in planning the 1943 drive, set four days, March 1, 2, 3 and 4, in which to reach the goal.

The minimum goal of the national campaign is \$125,000,000. Of the county goal of \$1,800 or as much more as may be subscribed, two-thirds will go to national headquarters and the remaining one-third will go to the local Red Cross chapter.

Members of the 66 county-wide committees met with Judge Shanks in the district court room Saturday afternoon for instructions and supplies. Workers were hampered by the severe cold weather this week, but it now appears that the goal will be reached before nightfall.

Mrs. G. L. Kengle, roll call chairman; Mrs. Ida Garrett, and Miss Myrtle Mae Conley, chapter secretary, are serving as a general committee to check solicitors.

Persons not contacted by workers can send or mail their donations to Judge Shanks at the courthouse, Miss Conley at the Herald office, or Miss Molina Caldwell, treasurer, at the First National Bank.

Second Sale At Pavilion Tues., Mar. 9

The Perryton Sales Pavilion held their opening sale on schedule even though Tuesday was one of the coldest days of the winter. Much of the livestock that was listed was not brought in due to the storm. However, Kenneth Munger, owner of the pavilion states that he was very well pleased with the sale. Several hundred farmers, stockmen and dealers were present to make a good fast auction.

All the livestock, hogs, cows and calves brought a good price. The top price paid for hogs was \$14.35 per hundred. Fat cows brought \$12.50 per hundred and tops on calves was \$12.30. Top steers sold at \$13 per hundred. Many buyers were present to buy all types of stock.

The next sale is scheduled for Tuesday, March 9. Mr. Munger states that stock listed for last week did not bring in because of the storm. The sales ring along with hundreds of head of other animals. Farmers of this area need the Perryton Sales Pavilion as a buying and selling medium and will do well to give their whole hearted support to it.

WAAC Recruiter In Perryton Today

Gov. Coke Stevenson has joined other chief executives of states comprising the Eighth Service Command in proclaiming March as Women's Army Auxiliary Corps Recruiting Month. Lt. Rose L. Smith, WAAC Recruiting Officer, will be in Perryton today to interview young women interested in joining the WAACs. She will be at the courthouse from 2:00 p. m. to 8:00 p. m.

A meeting of representatives from the various clubs last Wednesday a county committee was organized. Officers are Mrs. Van W. Hart, chairman; Mrs. G. W. Hart, vice chairman; and Mrs. C. L. Dodd, secretary. Others present at this meeting and representing organizations were: Mrs. Mark Manning, Mrs. F. B. Sumpter, Mrs. Jack Allen, Mrs. Sadie Seward, and the army officers.

A young woman desiring information about the Women's Army Auxiliary Corps may contact any of the county committee named above.

February War Bond Sales

Last minute sales of War Bonds and Stamps brought the February sales for Ochiltree county to \$41,527.35, slightly over the assigned goal for the month of \$38,400.

Carl Ellis, chairman of the Ochiltree County War Bonds Committee, was well pleased with the February sales. Sales were expected to show a decline due to the fact that taxes, both state and federal, are now being paid.

February sales by local agencies for February were as follows: First National Bank, \$30,200; Perryton National Bank, \$5,300; Perryton Postoffice: bonds, \$4,175; stamps, \$1,852.35.

Equity Elevators Handle 3,156,554 Bus. 1942 Wheat

Aldon Bell, general manager of the Perryton Equity elevators, stated today that a compilation of figures up to March 1, 1942, show that their elevators had handled 3,156,554 bushels of 1942 wheat. The Perryton Equity is one of the largest organizations of its kind in the entire United States. They maintained elevators in Perryton, Twichell, Huntton, Farnsworth, Waka, Lord switch, Spearman and Morse. The Spearman and Morse elevators were added to the chain last year.

The Equity along with their grain business serve farmers, dairymen and stockmen over the North Panhandle with one of the finest lines of feed made. They grind and mix their own feed at their Perryton elevator. The Equity feed has done much to help farmers over this area to meet increased production goals.

At the present time the Equity is featuring tested bulk garden seed which can be obtained in any quantity. They have a large variety of every kind of garden seed.

Directors of the Perryton Equity will hold their regular monthly meeting at their offices Monday, March 8. The directors are: F. L. Bell, president; N. G. Nelson, vice president; Audie Conley, secretary; treasurer: H. C. Brillhart, Sam McLean, Fred Butler, L. H. Lance, C. F. Saunders, A. E. Dewers, Pruner Apple and J. W. Sims, directors, and Aldon Bell, general manager.

Former directors of the Spearman Equity Exchange will be present at the meeting. W. M. Deck, R. D. Tomlinson, J. W. Daniel, T. I. Harbour and E. A. Greener, now Perryton Equity stockholders.

Rationing at a Glance

War Ration Book No. 1—Used for sugar, coffee and shoes.
War Ration Book No. 2—Blue stamps now being used for rationed processed foods.

Mileage Ration Books—Books A, B and C used for passenger car gasoline; E and R books for non-highway uses; D for motorcycles; T for trucks and commercial vehicles.

Rationed Food Commodities
Sugar—Stamp No. 11 in Book No. 1 good for 3 pounds until midnight March 13, 1943.
Coffee—Stamp No. 25 in Book No. 1 (for those 14 or older on the date the book was issued) good for 1 pound until midnight, March 21.

Shoes—Stamp No. 17 in Book No. 1 good for 1 pair of shoes through June 15.
Meat—Voluntary share-the-meat program sets limit at 2 1/2 pounds per person per week. Meat will be rationed under the "point system" sometime after Book No. 2 is distributed.

Processed Foods—Blue A, B and C stamps (48 points) in War Ration Book Two good for purchase of rationed processed foods until midnight, March 31.

Mileage Rationing
Gasoline—Value of each coupon in A, B and C books is 4 gallons. Second 8 coupons in A book are good until midnight March 21, 1943. Those who think they are eligible for supplemental rations should see their local ration board.

Tire Inspection—All "A" book holders must have first official tire inspection by March 31, 1943. Subsequent inspections for A book holders will be once every six months. "B" book holders must have second official tire inspection by June 30, 1943. "C" book holders must have second official tire inspection by May 31, 1943. Second official tire inspection for "T" book holders must be made 60 days from Feb. 28, 1943, or every 5,000 miles, whichever comes first.

Volunteer Wheat in Excess of Quota May Be Harvested in 1943; Can Sell 1942 Volunteer

Panhandle Gets Touch Of Wintery Blasts

With the mercury hovering close above the zero mark on Tuesday and Wednesday mornings, the Panhandle got the second coldest snap of the winter. About one inch of snow fell Monday night. The weather moderated during the day Wednesday. Thursday dawned clear and warmer.

Partners may harvest volunteer wheat in excess of allotments and still receive wheat payments according to announcement of Secretary of Agriculture Claude R. Wickard and information received in the County ACA office this week. Payments are conditioned on the farmer's planting at least 90 per cent of the war crop goal for the farm.

Grain sorghum is the only designated war crop for Ochiltree County. This means that the average farm operator can harvest all the volunteer wheat on his farm and dispose of it in any way he sees fit and still receive his wheat payments, provided he plants his grain sorghum goal which in most cases will not be more than 40 to 50 acres per section.

At the same time it was announced that all 1942 volunteer wheat which is stored under bond has been released and may be sold or fed without restrictions. This answer many questions which have been in the farmer's minds since the announcements have come out of the radio and newspapers that wheat marketing quotas had been suspended.

This years conference will be a streamlined war geared program, so states Superintendent of the Perryton Public Schools, Mr. Wedgeworth. A member of the executive committee of the Panhandle Conference and will take an active part in the meeting.

In connection with the above conference, the 8th District Texas Congress of Parent and Teachers will present Dr. Bernice M. Moore, consultant and lecturer from the Hogg Foundation, University of Texas. Dr. Moore will be the principal speaker on the P. T. A. section of the program, three to five o'clock in the afternoon.

Rangers Start Spring Football

Tom Slack, head of the athletic department of the Perryton High School, expects to start the 1944 Ranger squad on their spring football training schedule about March 15.

Mr. Slack has served with credit to himself and the school as assistant athletic director for the past two years. His promotion to head coach when George Philbrick resigned was well deserved.

Gidley Resigns from City Police Force

P. E. Gidley, night watchman and city fire marshal, submitted his resignation to the city council Tuesday night, to be effective March 15. Mr. Gidley has made no announcement as to his future plans.

If It's Co-Op It's OK. 9-tfe

Teachers Annual Meeting Amarillo Friday, Mar. 19

At public schools in the Panhandle will be closed Friday Mar. 19, when faculty members go to Amarillo for the Panhandle Educational Conference of the Texas Teachers Association.

This years conference will be a streamlined war geared program, so states Superintendent of the Perryton Public Schools, Mr. Wedgeworth. A member of the executive committee of the Panhandle Conference and will take an active part in the meeting.

In connection with the above conference, the 8th District Texas Congress of Parent and Teachers will present Dr. Bernice M. Moore, consultant and lecturer from the Hogg Foundation, University of Texas. Dr. Moore will be the principal speaker on the P. T. A. section of the program, three to five o'clock in the afternoon.

At the same time it was announced that all 1942 volunteer wheat which is stored under bond has been released and may be sold or fed without restrictions. This answer many questions which have been in the farmer's minds since the announcements have come out of the radio and newspapers that wheat marketing quotas had been suspended.

Water Rate Halved For Victory Gardens

So that Perryton people can cooperate with the war effort by the raising of more fresh vegetables to supplant processed foods on the rationed lists, the Perryton city council at their Tuesday night meeting slashed the rate half for summer irrigation.

Under the special summer irrigation rate, the minimum charge of \$1.75 for the first 4,000 gallons will be the same. For all water over 4,000 gallons the charge will be 10¢ per 1,000 gallons. The regular charge is 20¢ per 1,000 gallons over the minimum. The special rate is for non-commercial users.

The summer rates will be effective on billings of June 1 to Sept. 1, inclusive. As meters are read on or about the 20th of each month this means that the reduced rate will be in effect on water used from April 20 to Aug. 20, four full months.

The summer rates will be effective on billings of June 1 to Sept. 1, inclusive. As meters are read on or about the 20th of each month this means that the reduced rate will be in effect on water used from April 20 to Aug. 20, four full months.

Community to Observe Week For Children

According to 1942 production figures just released by the Texas Wheat Improvement Association, Ochiltree is again the banner wheat producing county of Texas. The association compilation gives this county a total wheat production in 1942 of 4,605,497 with no report on 2499 seeded acres.

Production was as follows: 4,011,614 bus. on 185,778 seeded acres; 582,883 bus. from 30,251 acres of volunteer wheat. No production figures were available on 2,499 seeded acres.

Farm Goals for the War
Ochiltree is apparently well over the 1943 war production goals, especially livestock. The 1943 cattle and calf goal is 20,920, the same as 1942 production. It is estimated that there are at least 15,000 more cattle in the county than the 1943 goal.

The 1943 sheep and lamb production was 11,799 head. This years goal is 11,814 head and sheep men estimate that the goal is now exceeded by at least 20,000 head.

Other livestock goals have been in creased for 1943 over 1942 production as follows: cows and heifers kept for milk, 1,789 to 2,190; hens and pullets kept for laying, 64,608 to 70,425; sows for farrow in spring, 740 to 910; sows for farrow in fall, 570 to 655; chickens raised, 75,439 to 90,130; turkeys raised, 6,891 to 7,925.

The 1943 goal for grain sorghums has been set at 18,491 acres.

HOME DEMONSTRATION
CLUB NEWS

● Missouri Ave. Club

The Missouri Ave. Home Demonstration club met Friday, February 26, in the home of Mrs. C. A. Zirkle. Since knitting for the Red Cross is to be a special project for the second meetings of each month, most of the afternoon was spent getting the work outlined and knitting started. Mrs. Roy Hoghland was present to help the beginners and others seeking advice. After everyone was started to work, Mrs. Shanks talked on the kinds of garden seeds suitable for this community. Some varieties of vegetables mature much earlier than others.

The club was happy to have Mrs. LaMaster return her membership to this club.

Visitors enjoying the afternoon were Mrs. Lloyd McGarrugh, Mrs. G. L. Bozeman, Mrs. Roy Hoghland and Grandma Zirkle. Members present were Mesdames E. W. Witt, Bill McLanahan, J. H. Kershaw, J. S. Slaughter, John Johnson, W. R. Zenor, Harold Hawk, G. M. Cooper,

Albert Ackley, D. D. Shanks, W. B. LaMaster, A. W. Henry, Earl McGarrugh, and the hostess—Mrs. Ackley, reporter.

Missouri Ave Club
Will Meet March 12

Mrs. W. B. LaMaster will be hostess for the regular meeting of the Missouri Avenue Home Demonstration club on Friday afternoon, March 12, 2:30 o'clock. Miss Sadie Seward will give a demonstration on Cheese Making. Visitors are welcome.

McMillen H. D. Club
To Meet March 11

The McMillen Home Demonstration club will meet in the home of Mrs. Willis Hardy on Thursday, March 11, 2:30 p. m. Miss Sadie Seward, county demonstrator, will be present and give a demonstration on Cheese Making. Visitors who would be interested in this, are especially invited.

It looks like every farmer in the county is going to put out some kind of garden this year. Also many town people will have Victory Gardens of varying sizes. There are several things of great importance to consider at this time if success in growing a garden is to be achieved.

First is of course selection of the garden site. Generally there is little choice in this matter for the part of the garden that is to be irrigated either from the windmill or city water. However, most farmers will want to plant a rowing ear patch and a patch of blackeye peas and perhaps watermelons, canteloupes and pumpkins or cushaws, and these should be planted if possible where extra water will drain from other parts of the field or pasture. Generally yields will be increased on irrigated gardens by the application of limited quantities of barnyard manure. A small garden 10x20 feet will need 200 pounds of manure. A large garden of 100x100 feet will require a load of the manure.

Tomatoes, cabbage and pepper seed should be planted in flat boxes at this time in order to have the plants ready to put out as soon as danger of frost is over. Earliana is one of the best varieties of tomatoes for this climate. Potatoes may be planted any time before March 31, preferably by Saint Patrick's Day.

Mrs. C. R. Cudd returned Friday from Wheatland, Mo., where she spent two weeks with relatives. She was called to Missouri by the illness of her mother, Mrs. Anna Riley, who passed away on February 17. There are three other children beside Mrs. Cudd, Hugh Riley, Ola, Ark., formerly of Perryton; George Riley, Wheatland; and Mrs. Forrest Hart, Deerfield, Mo.

Mrs. J. H. Miller and her sister, Mrs. Roy Bailey and family were in Tulsa, Okla., over the week-end. They met P. J. H. Miller there. He is stationed at Ft. Leonardwood, Mo.

Christian Science

"Man" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, March 7.
The Golden Text is: "As many as are led by the Spirit of God, they are the sons of God" (Romans 8:14).
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "This people have I formed for myself; they shall shew forth my praise" (Isaiah 43:21).
The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The Science of being reveals man as perfect, even as the Father is perfect, because the Soul, or Mind, of the spiritual man is God, the divine Principle of all being, and because this real man is governed by Soul instead of sense, by the law of Spirit, not by the so-called laws of matter" (page 302).
Mrs. E. L. Whippo left Wednesday for St. Louis for a visit in the home of her son, John Stroop and family.

marines stationed at San Diego. Mrs. Horace Skeen, formerly of this community, is reported ill at her home in Beaver. Mrs. Eleanor Kilman and Jimmie visited the first of the week with LaJanta Nelson.

The ladies club will meet March 10 with Mrs. Burl Teague. Miss Venie Ann McDuffie, assistant home management specialist, will give a demonstration. All members are urged to be present.

● Boyd, Oklahoma

Our weather is very changeable. Saturday we had a cold south wind with plenty of dirt Sunday was a real spring day. Monday winter.

Cpl. Wm. A. Carter Jr. of the U. S. Coast Guards, came in Friday for a visit with his parents, Mr. and Mrs. Wm. A. Carter, Hardesty, and other relatives. This is his first visit home since Christmas 1940.

Ed and Emma Claybrook visited Saturday in the Ed Overton home. A large crowd gathered at the Chas. Gift home Monday, March 22, to charivari the newly weds and wish them a long and happy married life. Mrs. Gift is the former Mrs. Ellen Hazel.

Mrs. Carter and Ed and Emma Claybrook spent a very pleasant evening with Mr. and Mrs. C. F. Gates, Tuesday.
Leroy Gift, who is stationed at Sheppard Field, visited with home folks one day last week.

Lloyd and Orville Black made a business trip to Beaver Monday. While in Perryton Saturday, we enjoyed a visit with Mrs. Ruth Seitz and Bruce.

● Huntoon

Rita Ann Hurter and Bobby Pletcher spent several days last week visiting in Amarillo.

Mrs. O. E. Griffin and children of Dallas, Mrs. O. A. Rutledge and Mrs. Roy Doerrie visited Mrs. Clyde Devers, Tuesday afternoon.

Ozella Pearson spent Saturday night with Mrs. Corwin Trosper.

Mr. and Mrs. Clyde Devers were in Amarillo Thursday. While there they visited Wesley Rutledge who has been in the hospital.

Betty Hurter spent Friday with Marion Day.

Mr. and Mrs. Roy Doerrie and Helen, Mrs. Corwin Trosper and Ozella Pearson visited in the Clyde Devers home, Sunday.

J. W. Rice was called to Pampa, Tuesday to see his father who is in the hospital there.

Mr. and Mrs. Sim Payne spent the week with Mr. and Mrs. A. E. Devers and Mr. and Mrs. Virgil Devers and daughter spent Sunday

CARD OF THANKS

I want to take this means to thank my friends for the beautiful flowers and cards sent me during my illness. They helped so much to shorten the hours.

Mrs. Jim Anderson.

Mrs. Horace Lackey accompanied by her sister, Mrs. Geo. Gentch, went to Waxahachie Saturday for a week's stay with their parents, Mr. and Mrs. D. H. Kyle. While there they will take the mother to Temple for medical attention.

Afternoon with Mr. and Mrs. June Devers and family.

Mr. and Mrs. Clyde Devers and sons spent Friday evening with Mr. and Mrs. Charley Pinkerton and son.

Mr. and Mrs. Rayford Nowlin and Miss Olive Nowlin, Amarillo, spent the week-end in the C. S. Nowlin home.

Roy Earl and Gene Devers spent Friday with Buddy Pinkerton.

Lt. Theo Lehman
Is Again Promoted

Lt. Theodore Lehman was promoted from a second Lieutenant to First Lieutenant in the Army Air Corps on February 9, and transferred to Lake Charles, La. He entered service February 9, 1942, and received his wings and commission in the Air Corps, Oct. 15, 1942.

Lt. Lehman is the son of Mr. and Mrs. John Lehman, Gray, Okla. After graduating from the Perryton high school in 1937, he attended college, completing his work at California A. & M. College in June 1941. He received his air corps training at several fields, having been stationed at Kelly Field, Texas; Midland Flying School, and Maxwell Field, Tampa, Fla. His present address is: Lt. Theodore Lehman, 386 Group, 352nd Sqdn., Lake Charles Army Air Base, Lake Charles, La.

Don't Waste Food! Prepare It Carefully—Buy It Sensibly!

The GOLDEN RULES of
Food Rationing—

1. Share your food with the fighters, protecting your home.
2. Don't hoard anything. Accept rationing cheerfully—help make it work.
3. Learn to use your ration book right. Use the 8 and 5 point stamps in settlement when possible, reserving the 1 and 2 point stamps for low point articles. Your storekeeper cannot give you "change" in stamps.
4. Use your point stamps wisely—don't run short of stamps by buying "high point" foods where "low point" foods will do. Buy only what you need.
5. Plan your family's diet carefully—plan menus ahead for a week or a month—see that everyone gets enough nourishment.
6. Eat fresh fruits and vegetables instead of canned, bottled and frozen. Use the more plentiful non-rationed foods whenever you can.
7. Lighten congestion in the stores—shorten the waiting line at the cash register, by shopping early in the day and early in the week.
8. Don't complain if your favorite food is all gone. Select your next choice and enjoy it. This is war.

HAROLD HAWK, Mgr.

Mr. Farmer---

**YOUR ACHIEVEMENT
OF 1942 WAS
A JOB**

Well Done!

**What Will
the Harvest Be in 1943?**

DO YOU KNOW THAT OCHILTREE COUNTY PRODUCED IN 1942

4,602,500 Bushels of Wheat

(20.2 Bushels per Acre)

★ ★ ★ ★

Thousands of Head of Cattle, Hogs, Sheep

(Estimated Cattle 20,920; Sheep 11,799; Hogs 7,800)

It is Estimated that 15,000 Cattle and 20,000 Sheep were Shipped Into Ochiltree County in Addition to Above Figures,
Grazing on Wheat Pasture

★ ★ ★ ★

THAT OCHILTREE COUNTY CITIZENS PURCHASED

\$612,375.00 in War Bonds

★ ★ ★ ★

Over 2,000 Tons of Scrap Metal Totaling 44 Carloads

WAS SHIPPED FROM PERRYTON

★ ★ ★ ★

**OCHILTREE COUNTY GOALS FOR LIVESTOCK,
POULTRY and CROP ACREAGE in 1943**

Kind of Livestock and Poultry	1943 Goal	1942 Production
All Cattle and Calves	20920	20920
Cows and Heifers kept for milk	2190	1789
Sheep and Lambs all ages	11814	11799
Hens and Pullets kept for laying	70425	64608
Sows for farrow in spring	910	740
Sows for farrow in fall	655	570
Chickens Raised	90130	75439
Turkeys Raised	7925	6891
Grain Sorghums, acres	18,491	
Wheat, acres	218,628	

Now we are called upon to produce in even greater quantities than in 1942 . . . more WHEAT, LIVESTOCK, POULTRY, EGGS, WAR BONDS and SCRAP METAL. As a sound banking institution we stand ready to serve the people of this area as we have in the past. To show that we have had a part in these production figures this bank made in 1942 a total of 6286 loans in the amount of \$4,258,344.35. Our deposits reached a new high in 1942 of over \$2,000,000.00.

If you are planning an expansion of operation and need advice or our services in any way we welcome an interview.

**Evidence of Increased War Bond Quota for 1943 is Seen by Vast Amount of Equipment Needed on Every Front—

Time To Clean House

In a sweeping denunciation of "unnecessary government agencies," Senator Guy M. Gillette, speaking with a bluntness that stunned seven hundred fellow Democrats at a \$25-a-plate Jackson Day dinner, declared that, "We have to clean house. We can't do it," the Senator from Iowa asserted, "by refusing to admit our mistakes, without eliminating some of the hordes of locusts living off the people through agencies that aren't necessary."

In his discussion of the postwar responsibilities of the nation, Senator Gillette said that "charity should begin at home even though it should not stay there. Let us first set our own house in order and prepare first to recover powers and authorities belonging to the people which we have surrendered during the stress and need of war."

Postwar Wonders

According to Arthur W. Hixon, professor of chemical engineering at Columbia University, the average postwar American family may own a small helicopter, which while taking up no more room than present-day cars, will be able to hover and rise or land vertically in the back yard or on the tops of tall buildings.

No less amazing is the prediction that houses and furniture may be so light that they can be moved to new sites by giant helicopters. You could take your home to the country with you in the summer and bring it back in the fall.

The future can hold a rosy picture for the common man. He knows that when improvements come he will benefit from them because industry's mass production genius will place new things within his economic reach.

Warn Against Danger of Kite Flying

A soaring kite dives into a power line. A small boy climbs a pole to untangle it. Suddenly there is a flash and a limp little body hurtles to the ground.

Dodges of times each year this tragedy is enacted in communities throughout the land. Dozens of little children annually lose their lives or suffer painful injuries in accidents involving kites and wires, either through lack of knowledge of the hazards involved or because of a youthful disregard of danger.

It is to prevent occurrences of this kind from happening here that the local power company annually publishes warnings in the newspapers and schools. This year the company again asks the cooperation of parents in calling the following safety rules to the attention of their children:

1. Don't use fine wire or metallic string.
2. Don't use wet string or fly kites in damp weather.
3. Don't use metal kite sticks.
4. Don't climb poles to get kites caught in wires.
5. Don't poke sticks at tangled kites or attempt to pull them down by their tails.
6. Always fly kites in open fields clear away from power lines and busy highways.

"Both fine wire and the tinsel string sold for gift wrapping are conductors of electricity and so is string that is wet," cautions J. D. Maberry, power company manager. "When any of these falls across a power line, it may result in a fatal shock to the kite flyer, and may also cause a short circuit that will interrupt power service. Children should use only dry cotton string in flying their kites and they should avoid the use of metal or wire in making them. If a kite becomes tangled in electric lines, it is best to call the light company office and let one of our men take it down. In climbing a pole to get a kite a child may come in contact with a live wire or in attempting to pull it down by its tail or poke it loose with a stick, he may cause two wires to come together causing a service interruption."

Mr. and Mrs. Tom Shirley, who have been living at Plainview, returned Sunday to Perryton and are staying with her mother, Mrs. J. M. Grigsby, who spent the past week with them in Plainview.

Mrs. L. H. Anderson and children, Elva Jean and Harold of Pampa and Mrs. Earl Smith and Milton of Borger visited from Thursday until Saturday with the ladies' sister, Mrs. Glen Ragan, and Earlene.

Mrs. Augusta Malaney and Edwin came in Thursday from Vista, Calif., to make their home in Perryton. They are staying in the home of Mr. and Mrs. Dempsey Malaney.

Ray Ward and son, Ross, and Lee Cruse of Topeka, Kans., were Sunday guests of Mrs. B. H. Murphy and family. Mr. Ward is a brother of Mrs. Murphy.

Philbrick Resigns; Graves Succeeds; Perryton School

George Philbrick, athletic director of the Perryton school, has submitted his resignation to accept a post in the physical education department of Texas Tech. Lubbock. At Texas Tech, Mr. Philbrick will direct physical training of the military unit of 1,200 to 1,500 young men, now assigned to the college.

Mr. Philbrick goes to Lubbock with the best wishes of his many friends in Perryton who wish him well in this advanced position. He was a member of the Perryton Rotary Club and popular with students, faculty members and fellow townsmen.

Tom Slack, assistant athletic director for the past two years, has been promoted to fill Mr. Philbrick's place.

W. M. Graves, member of the Spearman high school faculty for the past eight years and at present high school principal, has been elected to succeed Mr. Philbrick on the teaching staff. He will teach history and government, and will also serve as assistant athletic director.

Gray Community
Mr. and Mrs. Burl Bohling left Tuesday for Missouri to attend the funeral services of his brother, who was killed in a bomber crash. Our sympathy is extended to the family.

Mrs. Frank Leatherman accompanied the Bohlings to Missouri. Her daughter is staying with Mr. and Mrs. Carl Delano while she is away.

Mrs. Wayne Lewis left Wednesday for Sweetwater after a week's visit in the home of her parents, Mr. and Mrs. E. R. Tregellas.

Mr. and Mrs. Jack Lallament and Mr. and Mrs. Frank Leatherman were guests Saturday evening of Mr. and Mrs. Carl Delano.

Mr. and Mrs. C. F. Tregellas were Sunday dinner guests of Mr. and Mrs. E. R. Tregellas.

Grandma Kykendal has been confined to her bed the past week. Elaine McCarter spent the weekend in the home of her parents Mr. and Mrs. Bill McCarter.

Mr. and Mrs. Frank Leatherman were Beaver visitors Monday.

Mr. and Mrs. J. W. Mounts, Mr. and Mrs. Clarence Mounts, Mr. and Mrs. Johnnie Mounts and Mrs. Nell Mounts were Sunday dinner guests in the home of Mr. and Mrs. Henry Helfenbier Sr. of Borger.

Harold Malone, manager of W. W. Virtue Dry Goods, who is convalescing following an appendectomy, was able to return home Sunday from the Shattuck Hospital.

J. B. Cartwright Sr., who has spent the past two months in Amarillo, Borger and Canyon, returned home Sunday.

Mr. and Mrs. A. H. Nichols, Dumas, were dinner guests of Mr. and Mrs. Cecil Dodd, Sunday evening.

That Extra Something!
...You can spot it every time

The dry cold air and the exertion of skiing bring a mighty thirst. Ask an expert ski instructor what's the perfect drink to find at the end of a ski run. Ice-cold Coca-Cola. For ice-cold Coca-Cola not only quenches thirst, it adds refreshment.

A quality drink made the quality way, Coca-Cola offers all the difference between something truly refreshing and just something to drink. A special blend of flavors gives it a taste all its own. Coca-Cola had to be good to get where it is.

Your own experience, many a refreshing experience, tells you the best is always the better buy.

War-time limits the supply of Coca-Cola. Those times when you cannot get it, remember: Coke, being first choice, sells out first. Ask for it each time.

"Ice-cold Coca-Cola" in the midst of ice and snow! Ski enthusiasts will tell you that's when it's mighty welcome. Coke offers real refreshment.

The best is always the better buy!

ACTED UNDER AUTHORITY OF THE COCA-COLA COMPANY BY PERRYTON COCA-COLA BOTTLING CO., INC.

Uncle and Nephew in Armed Forces

JAMES E. BATTIN

OTTO H. BATTIN

Two members of the Battin family are serving in Uncle Sam's forces. James E. Battin, son of Mr. and Mrs. Fred E. Battin of this city, enlisted in the navy September 15, 1942, and Sgt. Otto H. Battin, brother of Fred E. Battin, is stationed with the army at Temple, Texas.

James E. Battin, better known as Bud, was born at Kim, Colo., and came to Perryton when a small boy with his parents. He entered the Perryton schools as a beginner and graduated from Perryton High School in 1941. The last seven years in school, he was neither absent nor tardy. After graduation, he then took a course in the NYA welding school, Enid, Okla., and also completed a welding course of five months at the U. S. Aluminum Company in Connecticut. He is with the Seabees in the Navy.

Sgt. Otto H. Battin, born in Nebraska in 1898, lived in Oklahoma before moving to Canada in his childhood. He enlisted in the Canadian army during World War I in August 1915, and served three years and eight months overseas. He also served in the American army. He could have been deferred in World War II because of his trade, but he wanted to do his part. He has two sons in the armed forces, one in the army and one in the navy.

Mrs. A. J. Lackey, Borger, was a Thursday visitor with her sister, Mrs. J. W. Short.

FSA to Stop Milk Cow Slaughter

To help halt the slaughter of good milk cows and potential dairy producing animals, the Farm Security Administration announces the inauguration of a new program in Texas, designed to maintain essential dairy production levels in the state.

Details of the plan, called the Dairy Animal Conservation Program, were received here by Arthur R. Turner, county supervisor for the FSA, from Jesse B. Gilmer, regional director at Amarillo, Texas.

The plan provides that Mr. Turner has authority to purchase milk cows, heifers, and heifer calves from farmers who contemplate liquidating their herds or surplus parts of their herds. These animals will be resold to farmers who have the facilities to keep them in essential production.

"This new war-time function," said Mr. Turner, "provides for the government purchase of dairy animals from farmers, who because of inadequate supplies of feed, labor or other facilities, have been sending their animals to slaughter. The government is not competing with commercial buyers, but is trying to keep dairy animals on local farms by reselling them to farmers in the vicinity who do have the facilities to care for them."

The supervisor explained that in the event local dairymen or farmers can not take on the additional animals, they will be sold to individuals in other parts of the state. He said only healthy dairy cows or potential producing animals will be

saved from slaughter. Dairymen or farmers in this area who may be compelled to market surplus animals or those individuals who wish to purchase surplus animals are asked to contact the FSA supervisor at his office in the courthouse at Spearman.

Nelda Rose Pearson On Okla. U. Honor Roll

Mr. and Mrs. D. P. Pearson of the southwest part of the county, are in receipt of the following letter regarding their daughter Nelda Rose from Joseph A. Brandt, President The University of Oklahoma, Norman, Okla.

"I have just learned that your daughter Nelda Rose, earned the grade of 'A' in all her courses at the University during the semester that closed January 14. 'Such a fine scholastic average is worthy of high praise even in normal times; and today, when the emotional impact of the world crisis is affecting the classwork of so many undergraduates, a 'straight A' record is still more remarkable. You have every right to be proud of Nelda Rose and this note is just to tell you that we, too appreciate

How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Methodist Young People Give Play Sunday Night

A play, "Why Should I?", will be presented Sunday at the evening service of the Methodist Church. The young people of the church under the direction of Miss Vivian Chenault will appear in the play and conduct the service, starting at 7:45 p. m. Following is the opening program:

Piano solo, "The Beautiful City," Cleo Fae Turner; Hymn No. 74, "A Charge to Keep." Congregation; Prayer, Rev. W. E. Fisher; Announcements, Rev. W. E. Fisher; offertory, "Beautiful Isle of Somewhere," Cleo Fae Turner; scripture, Genesis 4:9, Galatians 5:19-21, Mary Kathryn Allen.

The play, "Why Should I?" has the following cast: Richard Conrad, a very unhappy man, Gale Rogers; Anna, his sister has long been in the motherless household and has

only the interest of the family at heart, June Lance; Jim Carey, the county sheriff, John Faglesong; Jane Carey, his daughter, Mary Lou Rupprecht; Doctor Peel, a serious young minister, Bruce Baumann; Mimi Konrad, Konrad's daughter, Billie Fae Bell; Dick Konrad, Mimi's brother, Bill Allen.

Closing numbers are: quartet, "An Evening Prayer," Kathleen Brillhart, Pauline Cotner, Anna Evans and Ann Herndon; Hymn No. 235, "God of Grace and God of Glory," congregation; benediction, Psalm 90:12.

Committees assisting with this program are: greeting committee—Marguerite Jean Orrill, Mary Jo Hulsey, Oneal Wilson, Mary Ann Cudd, Vivian and Virginia Williams; Ushers—Bobby Turner and Wilber Cotner; stage arrangements—Billie Lou King, Kathleen Pinkerton, Joy Lance, Ruby Ann Patton, Christine Portenberry and Jerry Carmichael. Mrs. Herring Lance has assisted with the details.

Farnsworth S. S. Elect Officers

The Farnsworth Union Sunday School has been increasing in attendance each Sunday. A "red and blue" contest, directed by Captains Lillian Tevis and Captain Billie Jo Smith, is helping to arouse interest. At the close of March, the losing side will entertain the winners. Fifty-four were present Sunday.

New officers were elected. They are J. M. Morgan, superintendent; Omar Truax, assistant superintendent; Mrs. Norman Crum, secretary; Omar Truax, song leader; and Mrs. N. P. Dear, pianist. Teachers are Mrs. Harold Simpson, primary; Mrs. Harlan Hawk, juniors; Mrs. S. P. Tevis, young people; and Mrs. F. P. Rogers, adults. These hold office for six months.

Our Defenders Speak!

The Herald asks that men and women from this community
serving in the armed forces write letters to this department
for publication. Letters to relatives that would be of interest
to the public will be published under this heading.

Somewhere in North Africa
Feb. 1, 1943. 4:30 p. m.
Hello Mr. Stewart and all the rest:
I have a little leisure time this
evening so will try to get off a short
letter to you. First of all allow me
to apologize for this writing paper
and pencil. I have no other paper
and my pen went haywire some
time ago. I'm darned lucky to have
this much left! We have been up
on the front lines here for several
days now, and it's quite a job to
keep up with what equipment that
is absolutely necessary up here.
much less writing paper and such
stuff.

Yeah, I'm up here diving in slit
trenches and fox holes. And I'm not
such a slouch at it either. I can
dive into one of those babies with
the ease and grace of a bathing
beauty doing a swan dive from a
twenty-foot tower. It's no trouble at
all after the first hundred times.

Van, the weather here is grand
right now, but I'm afraid it's going
to get mighty hot before too long.
Right now the nights are real chill-
y but the days are just like you
would order them. Seldom see a
cloud in the sky and very little
breeze at all—just typical old desert
weather. It's impossible to get
on the right amount of clothing
for both day and night. If you put
on enough to keep warm during the
night you can't stand them the
next day and visa versa. It's hard
to believe the temperature can
change so much in twenty-four
hours, unless you've spent some
time on the desert.

Mr. Stewart, the Arab people
here are a very interesting type of
people, if you care to call it that.
At least they differ from any race
I've ever seen before. Actually they
can be divided into two types. One
type builds adobe huts and farm
this desert soil, while the roaming
type has no home at all and just
sits down and goes to sleep wher-
ever night comes upon him. He has
all his earthly belongings packed
on a camel and just follows that
camel all his life. I guess I've never
seen one attempt to guide the
camel, except to get him out of the
road to let a vehicle pass. Otherwise
I think the camel goes any place he
sees fit. And both he and the Arab
have that expressionless look on
their faces. Also you can get about
the same amount of information
from either. At least the camel's
expression does change slightly
when he bites a chunk out of a big
cactus. I can't say about the Arab,
I've never caught him eating cactus,
but they do have some method
of extracting the juice and using it
for water. That accounts for your
seeing them out in the desert miles
and miles from the nearest water
hole.

Home on Furlough

Sgt. Guy W. Allen, in the army
air corps and at present stationed
at Pyote, Texas, recently enjoyed
a ten day furlough with his moth-
er, Mrs. Clara Allen, and visiting
friends. Sgt. Allen, who was in-
ducted March 10, 1942, took his
basic training at Sheppard Field.
He also has been stationed at
Tampa, Fla., Walla Walla, Wash.,
Rapid City, S. D., and Pocatello,
Idaho. Prior to his induction, Sgt.
Allen was with the Texas Com-
pany in Oklahoma.

one was. Altho by this time, no
doubt, many of them have been
shifted around.

No more news for now. It has
already begun to get cool and soon
the cooks will call "chow," so I'll
sign off for now. Hope all are well
and happy.

Sincerely,
Buck
(Sgt. E. W. Garrison)

Pl. Oglethorpe, Ga.
February 22, 1943

Dear Folks:

As they asked us to leave out all
dates in letters, it is impossible to
tell you when we arrived. The trip
to Ft. Oglethorpe was interesting.
We came by Little Rock, Memphis
and Chattanooga. It came as a total
surprise to us as our orders were
changed in Lubbock to be here. The
Texas group help make up this
company so we will all be together
for the next four weeks.

Esther Bearden, Mrs. Buckhaults
and I are in the same barracks.
Hallie Payne is next door. Mrs. B.
was on KP yesterday and the cooks
and mess sergeant wanted to keep
her. Esther is on today. I haven't
talked to her. I had detail duty
Sunday morning. We had to clean
three barracks that men had moved
out on a minute's notice and get
them ready for auxiliaries coming
in. I drew the kitchen, three of
them. I had some help as five were
assigned to that detail.

It is all very interesting. Today
our regular classes started, they are
interesting but so much to remem-
ber and know. First Class: "Care of
Clothing and Wearing of the Uni-
form"; Second Class: "Organiza-
tion of the Army"; Third Class:
"Safeguarding Military Informa-
tion"; Fourth Class: "Physical Edu-
cation." Then drill for about three
hours. March to classes and to
meals. The shots weren't bad we
had those Saturday afternoon.

Now, I realize what each boy has
gone through. No time to call his
own, so Uncle Sam doesn't allow
for letter writing as we are on the
go all the time. I like it and I
sincerely hope I can do a job that
will help bring victory for us all. All
girls are serious about this and
anxious to get assigned. This fore-
ign service looks hopeless. It isn't
going to be a snap for promotions
as every girl is out to make Cap-
tain or higher.

We heard the Major speak this

afternoon. We haven't been issued
all our clothing as yet. So far I've
made my bed to suit them. I have
the lower bunk. We have morning
and afternoon inspection. I thought
I'd suggest if you cared to send the
paper to just one of us we could
pass it around as we are all in the
same company and regiment. We
sure would like to see last week's
paper too. Thanks to you and the
U. S. O. in advance.

I'm glad I got to see so many be-
fore I left and we certainly appre-
ciate your support. My best wishes
to all.

Sincerely,
Kathryn LaMaster

'Town and Farm in Wartime'

May Still Get Ration Book One
Any person who did not register for War Ration Book One before January 15, 1943, may get it from his local war price and ration board after February 22, provided the necessary application has been examined and approved.

Ration Calendar
Gasoline—A-Book Coupon No. 4 expires March 21.
Sugar—Coupon No. 11 (3 lbs.) expires March 15.
Coffee—Stamp No. 25 (1 lb.) expires March 21.
Tires—Class A. First inspection deadline March 31.

Increase Canned Vegetables for Civilians
Civilian supplies of canned vegetables from next summer's estimated pack will be increased by approximately 10 million cases under new food orders which provide changes in the amounts of certain processed foods that must be reserved for Government requirements from the 1943 pack. Most of the increase will be in canned tomatoes and snap beans with no significant change in fruits and juices.

Gas to Drive to Work
Car owners who drive to work and do not get enough mileage from their B Ration Book may now get additional allowances—if they show they cannot get to their jobs any other way.

Applications must be made to local rationing boards and must fulfill the following conditions in addition to needing more gas:

1. That driving is between home and a fixed place of work in connection with their principal occupation;

2. That either a ride-sharing arrangement has been made or that the vehicle carries a full load; and

3. That alternative transportation is inadequate.

Sugar Stamp 12 Worth 5 Lbs.
Sugar Ration Stamp No. 12, which becomes valid March 16, is worth five pounds, but it must last through the end of May, a period of eleven weeks. Stamp 11, good for three pounds, is valid from February 1 to March 15.

Dehydrated Vegetable Increase
A sharp increase in dehydrated vegetable production in the U. S. may be expected by July 1, this year, according to the plants, with an estimated capacity of 200 million pounds annually, have been approved for addition to the domestic vegetable drying industry.

Wheat Quotas Suspended
Wheat marketing quotas have been suspended by Agriculture Secretary Wickard in a move to insure adequate food and feed supplies. This action lifts marketing quotas and releases at once for food or market any wheat which has been stored. Wheat farmers who meet 90 per cent of their farm war crop goals in 1943 will be eligible for AAA wheat payments and wheat loans even though they exceed their wheat allotments. About 650,000 victory farm volunteers will be recruited from non-farm youth for farm work during the spring and summer months. Troop units from nearby military installations will be used for emergency labor to harvest the long staple cotton crop in the area near Phoenix, Arizona.

Rice, Bicycles
Rice is not rationed, the OPA has reassured consumers. Another announcement by OPA stated that prices for used bicycles will be substantially reduced in the near future.

More Rubber for Recapping
Owners of tires smaller than 7.50 x 20 now may have their castings recapped with reclaimed rubber "camblock" without applying to their rationing boards for certificates. This does not relax the need for continued observance of rubber conservation measures. The change was made to reduce the demand for replacement tires by encouraging recapping, which takes less than half as much reclaimed rubber as a new tire.

Outerwear Garments Prices
Consumers will find women's and children's dresses, suits, coats, skirts and blouses, for sale at approximately the same price levels of last spring and summer for substantially the same quality of apparel, OPA has announced.

This is assured through issuance of the OPA pricing rules that retailers and wholesalers of these outerwear garments will use. Ceiling prices for these garments must be plainly marked on the apparel or posted in that part of the retail store where the commodity is offered for sale.

V-Mail Safest
More than fifty thousand individual V-mail letters from American soldiers in England to relatives and friends in the U. S. were destroyed when a Canada-bound RAF plane crashed in Newfoundland. The original letters were reproduced at the Army Postal Service's V-mail station in England and dispatched by a later plane for the U. S. This incident shows the value of V-mail over ordinary letters.

Farmers Get Gas For Six Months

Farmers may obtain gasoline for their tractors, engines, and other non-highway equipment for a period of six months instead of three months under a change in rationing regulations announced by the OPA.

Size of Armed Forces
President Roosevelt said the goal of 7,500,000 men in the U. S. Army by the end of 1943 was decided on last August, has never been changed, and will not be changed. The goal for 1944, he said, will probably be decided this fall. This year's Army goal calls for 700,000 officers, which would make a total of 8,200,000 men in the Army. Adding the goals set for the other armed services, the grand total of all our armed forces by the end of 1943 would be almost 11,000,000.

Outlaw "Combination Sales"
Sales of used wheel tractors, combines, corn pickers, corn binders, or power-operated hay balers in combination with other used farm equipment or commodities have been prohibited by the OPA. Numerous complaints have been received that the combination sales device is being employed to force farmers to pay exorbitant prices for such items. The scheme used is to sell an uncontrolled machine of little value jointly with a controlled item at a price which greatly exceeds the ceiling for the machine which is under price control.

Soybean Seed Available
Processors of soybeans and the Commodity Credit Corporation are cooperating to make additional supplies of soybean seed available for planting the 1943 crop. Supplemental supplies will be available to farmers from government stocks at not more than \$2.50 per bushel. These stocks are stored in bins and country warehouses in areas where there was no frost damage last fall.

Changes in Tire Quotas
The quota of Grade 1 passenger car tires for March has been practically doubled. The increase will take care of accumulated applications, but will not be continued in succeeding months. The quota of truck tires for March was reduced as compared with February but the truck tire recapping quota is increased.

Small Business Gets Contracts
Taking of its first prime contract for 10 million dollars and the negotiations of 38 loans totaling \$2,568,770 were reported to Congress by the Smaller War Plants Corporation. In addition, the Smaller War Plants Division recommended to the procurement agencies 1,191 firms who received business in the amount of \$195,000,000 during the last 60 days.

Wheat and Corn Loans
The Commodity Credit Corporation through February 13 had completed \$32,716 loans on 404,415,794 bushels of 1942 wheat amounting to \$487,235,968.57. The average amount advanced was \$1.13 per bushel. In that same period 39,088 loans were made on 46,176,893 bushels of 1942 corn in the amount of \$283,693,064.02. The average amount advanced was 77 cents per bushel.

Continued from Front Page

In April with meat rationing expected to cut average consumption 25 per cent. The hope is that meat in cold storage lockers need not be declared.

It is said that no more declarations of "hoards" are planned by ration officials. Declaration worked for sugar but very poorly on canned goods.

Continued from Front Page

Restaurants were told they cannot serve meat and fish taken from cans while the canned meat and fish "freeze" applies to householders.

Moving further to insure adequate food and feed supplies, Secretary Wickard suspended wheat marketing quotas and released at once all stored wheat for food or market.

Farmers who meet 90 per cent of their farm war crop goals this year will be eligible for AAA wheat payments and wheat loans even though they exceed their wheat allotments.

The OPA also announced a change in rationing regulations whereby farmers may get gasoline for their tractors, engines and other non-highway equipment for a six-month period instead of three months.

Cadet Hearn Finishes Ground School Work

ATHENS, GA.—Naval Aviation Cadet Hamilton Dale Hearn, Perryton, Texas, has completed three months physical conditioning and ground school work at the U. S. Navy Pre-Flight School here and has been ordered to the Naval Air Station at Memphis, Tenn., for primary flight training.

Hearn, son of Mr. and Mrs. Emil Hearn, Perryton, graduated from high school in 1938. He studied engineering at Texas Tech, Lubbock, for two years, and completed CAA Primary and Secondary Training there.

At the pre-flight school here, Hearn ranked among the upper 20 per cent of his large Battalion. Since entering the Navy Pre-Flight School here three months ago, Hearn has had ground work in military and academic subjects, and has undergone a rigorous physical conditioning program which is designed to make Uncle Sam's Naval aviators the fittest and best trained in the world.

At his new base, he will have more ground school instruction and begin flying. From there, he will have three months of advanced flying, and, if successful, will be graduated from the Naval Air Station at

Federal Income Tax Material No. 9

Expenses of Farmers

A farmer who operates a farm for profit is entitled to deduct from gross income as necessary expenses all amounts expended (other than those constituting capital expenditures) in carrying on the business of farming. The cost of feeding and raising livestock may be treated as an expense deduction insofar as such costs represent actual outlay, but not including the value of farm produce grown upon the farm or the labor of the taxpayer. Also deductible is the cost of seed, minor repairs to farm buildings (other than the dwelling of the farmer), and small tools used up in the course of a short period.

The cost of fuel and oil used for farm work, as well as repairs and maintenance of farm machinery, is deductible as a business expense, but the cost of farm machinery, equipment and farm buildings represents a capital investment and is not an allowable deduction. The cost, however, may be recovered by depreciation allowances. In the case of a farmer, the farm dwelling is not depreciable, except such part of it as may be used directly in farming operations. The cost of gasoline, repairs and upkeep of an automobile if used wholly in connection with the taxpayer's farm operations, as well as depreciation thereon, may be deducted, but if an automobile is used partly for business and partly for pleasure or the convenience of the taxpayer or his family, the cost of operation may be apportioned according to the extent of the use for purposes of business and for pleasure or convenience.

A Week of the War

The Tunisian battle-lines, which last week were changing rapidly under the German advance, are now pretty sharply delineated. When veteran Axis divisions broke through the southern range of mountains at Paid Pass and Sidi Bou Zid, overran Gafsa, and poured into the plains at Sbeitla, Kasserine and Feriana, the Allied forces were forced to retreat forced also to abandon three airfields and destroy or abandon quantities of equipment and supplies and to take up positions in the second range of mountains, the so-called "Grand Dorsal" that runs from Pont du Pals southwestward just east of the Allied stronghold of Tebessa.

The threat to the right rear of the British First Army, immobilized by mud in Northern Tunisia just in back of Bizerte and Tunis, was apparent when the German columns continued their advance, pushing through the Kasserine Pass of the Grand Dorsal range toward Thala and Tebessa. Had this drive been successful, had the German forces succeeded in storming the passes and moving up toward the coast, the Axis could conceivably have broken the whole Allied defense in this area.

That this did not happen was a credit, said Secretary of War Stimson, to the fine action of American ground forces, the great skill of our air support, and the valuable help given by the British First Army. Our forces were not broken by the Germans. On the contrary, the counterattack that checked the enemy in the passes northwest of Kasserine and hurled him back almost 10 miles was a success. And although American losses in the first 10 days of the Axis offensive were heavy, they were probably not as large as first expected, as several American units which were cut off have made their way back through the Axis lines. Losses admittedly included substantial quantities of tanks, scout cars and field guns, but much of this material has already been replaced.

For the immediate future, Mr. Stimson predicted heavy fighting all along the Tunisian front. "We must expect setbacks and casualties. We must not expect any easy or quick victory in Tunisia." And to correct a misunderstanding on the employment of "green" American troops in the recent fighting, Mr. Stimson explained that although our men are highly trained up to the point of experience under fire, there is no substitute in training for actual battle experience. "Men must learn under fire the strategem of war."

The Battle Against the Submarine
Following the Navy's disclosure that a German submarine had been sunk by an American destroyer in the Atlantic and a Japanese submarine destroyed in the Pacific by the armed guard crew of an American merchantman, Secretary of the Navy Knox stated that although our merchant ship sinkings were less last month than the month before, and although no doubt there

Pensacola, Florida, or Corpus Christi, Texas, and win a commission and Navy wings. After graduation comes Operational Training, with carrier-based planes or multi-engine bombers, the final part of a 12-month training period. Completing this, Hearn will be a full-fledged fighter Pilot—ready to join the fleet.

"AMERICAN" by Fostoria

"AMERICAN" FOR GIFTS So Easy To Give . . . So Nice To Get

There are many ways to settle your difficult gift problems. But none easier than selecting "American." For here is a crystallized pattern that has fascinated many generations. It sparkled out upon a time in ancestral homes. Recreated, by Fostoria, it sparkles again in modern homes which are sympathetic to colonial traditions. Rightly, "American" has proved to be America's most popular pattern. Its fascination derives from sheer simplicity of design and its jewel-like capacity for reflecting light and color. You will be proud to give "American" gifts to everyone. Prices are exceedingly attractive; some individual pieces costing as little as 50c each. And, in our displays, you will find a great variety for your selection.
