Eastland Man Tells Lions Of Growth Of Oil Industry

Henry Taylor of Eastland told members of the Cisco Lions and guests of the progress of the oil industry in Texas and the nation during the past 30 years in an address at the regular luncheon meeting at the Hotel Victor Wednesday. Simon Copeland was in charge of the program.

Mr. Taylor told how the industry had grown from the first well drilled in Pennsylvania 90 years ago to the present time when thousands of companies produce almost five million barrels per day even under modern conservation rules.

He told of the more than 1200 products that come from petroleum products producted in thousands of plants in the country and of the vital part played by the industry in the everyday life of the average American.

The program was brought as a part of the activities of Oil Progress Week proclaimed by Governor Shivers for October 16-21.

It was pointed out that Texas and Eastland County played a vital role in the industry with Texas producing more than 40 per cent of the total production of the nation. The industry plays a vital part in the lives of every individual through development that effects the working conditions, leisure, social and economical activities.

Optimism was expressed over the prospects of the industry. Taylor pointed out that known reserves now are adequate for the nation's needs until 1965 and that new discoveries are being made regularly.

CREDIT ASSOCIATION SECRETARY RETURNS FROM TWO-DAY SCHOOL

Mrs. Roy Huffmyer, secretary of the Merchants Credit Association, returned this week from Austin where she attended a two-day School of Instruction, sponsored by the Associated Credit Bureaus of Texas, Inc.

The purpose of the school, she said, was to inform Bureau members of the latest trends, methods and ideas in the credit field and to exchange information on how various credit problems can be met.

Credit bureau officials from all parts of the State attended the meeting, and authorities on all the various phases of credit and credit problems were on hand to give instructions.

Among the topics discused at the school were "Responsibility of a Credit Department to a Credit Bureau," "How to Increase Collection Revenue," and "Inter-Bureau Reports."

Bureau managers in small towns, as well as large cities, had an opportunity to gain information that fitted their paticular community, Mrs. Huffmyer said. At one of the sessions, the Managers were divided into groups according to the population of the communities they serve and discussions were held on problems peculiar to cities in their population bracket.

Speakers at the school included Howard G. Chilton of Dallas, President of Associated Credit Bureaus of Texas; F. William Johnson of Dallas, second vise-president of the Retail Credit Executives of Texas; Gordon L. Lewis of Corpus Christi, Comanager of the Credit Bureau of Corpus Christi; A. S. Billingsley of Fort Worth, vice president of the Associated Credit Bureaus of Texas; Carl O. Erman, manager of the Retail Merchants Association of Longview; R. D. Williams, manager of the credit Bureau of Bay City; Mrs. Agnes Park, manager of the Retail Merchants Association of Midland; Carlos L. Carter, manager of the Credit Bureau of El Paso and president of the Retail Merchants Association of Texas; James F. Bain, Corpus Christi; C. R. Pennington of Abilene, M. E. Truitt of Houston; C. C. Witchell, Sr. of San Antonio; Mrs. Claire D. Maze of Temple; Miss Claire Key of Brownsville, Mrs. Beulah Oborski of Beaumont; Miss Loleete Thatxton of San Angelo, Mrs. Lucile Huffmyer of Cisco and Charles T. Lux of Austin, executive secretary of ABC of Texas.

551 Bales Cotton Ginned To October Ist Against 346

Cotton Census report shows that 551 bales of cotton were ginned in Callahan County Texas from the crop of 1949 prior to October 1st. as compared with 346 bales ginned from the 1949 crop to same date.

This is a gain over the 1948 crop of 205 bales or about 59 percent more than was ginned to the same data of 1948. If there had been any acreage planted the county would have made a bumper crop. Plenty of land will grow a bale to the acre and some of it may make a bale. J. A. Yarbrough in the Union community has already gathered 16 bales from 27 acres and it looks as though he may get the other 11 bales to make a bale per acre.

Wranglers And Loboes Play On Enemy Soil This Week

Loboes To Open Conference Race In Stephenville

The Cisco High School Loboes will open the 1949 conference chase Friday night when they travel to Stephenville to play the Yellow Jackets on the John Tarleton gridiron.

Sports writers over the state give the Loboes little chance of a win over the Yellow Jackets but local fans are backing them to pull an upset Friday night.

Coaches Jack Everett and Buck Overall will vary the offense between a split-T and the single wing with Sophomore Doug Johnson handling the ball on the T and playing tailback on the single wing. Johnson has shown remarkable ability in his first year as a regular and was responsible for the one score made in the San Angelo game.

Hub Harwell, senior back, has been injured much of the season but should hit his stride in the Stephenville game. Jackson and Evans will divide time in the blocking oackposition when the Loboes go into the single wing and Jackson will probably be in at a half under the T. Evans will divide his time in the game between blocking back and defensive center.

Donald Watts will probably start at center and Suggs and Waddell will be in at guards. Porter and Boggs will start at tackles and Brunkenhoefer, McGowan and Sawyers will divide time at end positions.

The Yellow Jackets have displayed a tricky offense so far this season and the Lobo coaches have spent much time in revamping their defensive formations designed to break it up.

The game in Stephenville will be the fourth in succession that the Loboes have played on enemy territory. They have one more game away from home before they meet Weatherford in Cisco on Nov. 4. Next week, they go to Mineral Wells to take on the Mountaineers for the secgame in the conference race.

Rupert Jackson Jr. Chosen C. of C. Director At Baird

Rupert Jackson Jr., local attorney at Baird, has been elected as West Texas Chamber of Commerce as town director in Baird.

The selection was made by the Callahan County Luncheon Club, an other name for the chamber of commerce.

STILL GOING STRONG—Mrs. Jane Saylor celebrates her 103rd birthday at the GAR Home for Civil War veterans and their widows in Philadelphia, Pa. The Rev. Russell A. Pavy, a guest at Mrs. Saylor's party, waits for a slice of fancy birthday cake as his sprightly hostess prepares to cut it.

LOBO 'B' TEAM TO PLAY GRAHAM SUBS AT CHESLEY FIELD TONIGHT

The Lobo "B" Team will meet the Graham Steer Subs at Chesley Field tonight in what promises to be a fast game of hard football. The game will get underway at 7:30 p. m.

The junior Steers are a powerful group of boys and have made a good record for themselves so far this year. In a recent game with the Eastland Maverick regulars the Graham boys held the Eastand team to six point margin. The final score was 26-20 with the Steers threatening to tie up the ball game when the whistle blew.

Coach Jack Everett listed as probably starters, Leach at center, Herbert Coats and Red Melton at guards, Voss and Farmer at tackles, Pinnell and Taylor at ends, Bob Black at quarter, Jerry Cowan at full, Doc Dawson and Roy Gallagher at halves.

Melton has been on the sick list for the past few days and Bob White will probably spell him at the guard slot much of the game.

The program of games for the "B" string players was developed by coaches Everett and Overall in order to give the younger and lighter boys a chance to obtain more experience. Most of the boys are Freshmen and Sophomores and will be expected to fill the shoes of graduating team members in next season's line-up.

Audrey Ezzell and Mr. and Mrs. Elbert Ezzell of Cisco went to Dallas Sunday for a visit with their nephew and grandson, Johnny Bert Ezzell, a patient in the Scottish Rites Hospital. The boy is reported as slowly recovering from an attack of polio. He is the son of Mr. and Mrs. Bert Ezzell of Matador, Texas.

PTA WILL HAVE COVERED DISH SUPPER AT CHRISTIAN CHURCH NOVEMBER 21

At a meeting of the West Ward Parent-Teacher Association at 3:45 p. m. Wednesday at the school building members decided to have a covered dish supper at the First Christian Church on the night of Nov. 21.

Mrs. Bill Kendall, president, appointed committees to handle the details of the supper and to decorate the dining room. The committee members are as follows: menu, Mrs. J. T. Richardson, Mrs. O. O. Odom, Mrs. M. W. Kring and Mrs. Stanley Webb; decorations, Mrs. Dewey Sage, Mrs. Wallace Smith and Mrs. Tom Smallwood.

Mrs. Delmar Johnson had charge of the program and gave readings on the home and children. She took excerpts from poems by famous authors and combined them to make an interesting program.

In the business session it was announced that Mrs. Charles Graham had been appointed as chairman of the room mothers and that the mothers would entertain the students three times during the school year -- on Christmas, Valentine's Day and Easter.

Reports were heard from the treasurer and the membership committee. The group now has 194 members. Some 80 attended the meeting. It was voted to have a float in the Christmas parade on Dec. 19 and to send the president to the state meeting in Waco to be held on Nov. 16-18. Mrs. T. E. Lisenbee will also attend the meeting.

It was announced that the local association would entertain the county council on the second Friday in January and members were urged to make plans to attend the meeting at that time.

C. B. Midkiff presented the association with a check for $147 to be applied on the lunchrom indebetedness. The money was made by students of the higher grades in their magazine selling project. The club voted to entertain the students Friday to show their appreciation for the fine work.

Wranglers Not In Top Form For Decatur Indians

A crippled Wrangler team was to leave at 1 p. m. today for Decatur where they will engage the Decatur Junior College Indians in a conference game on the Indian home field.

The Wranglers will enter the game without the services of speedy Doug Garner, who pulled some ribs loose in the game with Hillsboro Thursday. Also ailing is J. M. Moore, guard, who received a cut over the eye in the same game. The cut required five stitches and Moore will be on the sidelines most of the game. Garner will probably not play until Clifton College comes here on Nov. 11.

The Decatur team boasts a fast running attack and a fair passing game. The running game is sparked by 170-pound Turner, who is a hard charging back. The passing chores are handled by Price, who is not listed in the starting eleven.

The Wranglers will enjoy a slight weight advantage over the Indians. They have been working harl on blocking and tackling this week and have run defensive plays against the speedy hard charging backs of the Indian team.

Coach Stormy Davis was undecided as to his starting lineup but indicated that Peter would bein at full and that Sides will be shifted to [illegible] to take the place of [illegible]ture Garner. Varner, wh[illegible] been on the injured list [illegible] the past few days, will see little action.

Davis will also be robbed of the services of Kinard, hefty substitute tackle. Kinard suffered a sprained ankle while hunting and will be unable to help Price and Flood. Bills and Hill will probably see lots of action.

The Indians will be the second conference team to meet the Wranglers this season. On Oct. 6, the locals met and defeated Odessa.

Thank You, Mr. & Mrs. N. M. Davies of Congers, New York

We're Sure That Millions of Farmers and Consumers Feel Just as You Do!

One of the wonderful things about Americans is their great sense of fair play.

Ever since the anti-trust lawyers announced their intention of putting A&P out of business, tremendous numbers of people like Mr. & Mrs. N. M. Davies of Congers, New York, have deluged us with letters, wires and phone calls.

These people are telling us, as Mr. & Mrs. Davies do in the following letter, why they like A&P and why they don't want to see this company destroyed.

Gentlemen:

We have been distressed by the possibility that the A. and P. stores, because of unfair accusations, may cease to exist. I wonder if you will see that our letter reaches the proper source, if there is one.

We are farmers, as you know, and not only sell our products, but buy necessary food from local A. and P. stores. We deliver farm produce, daily, to approximately eighteen stores in nearby villages. This includes two A. and P. markets, whose managers very wisely buy on-the-spot, thus saving deterioration due to excess handling, transportation and longer time from the farm to store. Our price to sixteen stores is the same as we get from the two A. and P. stores.

We wondered whether the low prices we see all the time in A. and P. stores might mean that sales people were underpaid. Evidently not, for we have noticed that the same employees stay on year after year, and we know high-school students in our town who have started at the bottom with A. and P. and risen to responsible positions.

Then what is this all about, if the consumers, the salespeople, those who manufacture your brands, the truckmen, the laborers and the farmers are ALL satisfied?

We believe the answer is simple. The A. and P. has developed an organization whose efficiency should be an example to all stores handling food. If this were so, independent grocers could well expect larger profits. The solution is not in destroying something that has taken years to build, but in encouraging all merchants to still further improve the efficiency of their operations.

Very sincerely,
Niles M. Davies
Erica Davies

For 90 years this company has tried to build a sound business on the basis of giving consumers more good food for their money and giving farmers better markets for their products.

It is heartening to know that the public approves of the job we have done . . . to know that our policy of fair, honest dealing has won us the friendship of millions of consumers and farmers.

We will always be grateful to all our good friends who have offered us their help.

We are proud to live in a country where such things can happen.

Health Officer Says Oysters Safe If Packed Right

AUSTIN, exas, Oct. 15 - Some people claim oysters are good only during the months which have R in their spelling.

But the Texas State Health Department says oysters are not safe any month, with or without the R, if the seafood has not been cultivated, shucked, packed, and shipped under sanitary conditions.

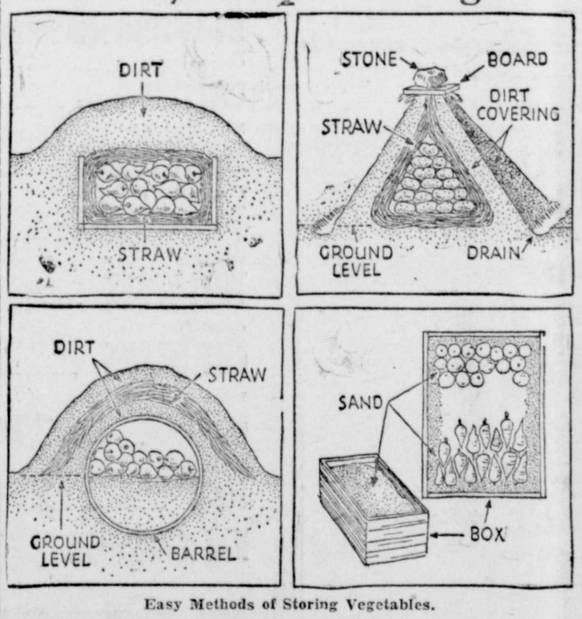

Texas' veteran state health officer, Dr. Geo. W. Cox, says oysters have much to comment them as a source of food.

"They have protein of good quality, iron, and copper (important as a protection against anemia), iodine, which is essential to proper working of the thyroid gland, and a fair amount of vitamins," Cox says. But he adds emphatically, "Beware of the uncertified oysters."

According to the doctor, each oyster grower in Texas is given a certificate of approval for the opster beds he uses, provided health department officials find the beds are free from pollution, and the shucking houses are clean and well-kept. Otherwise no certificate.

Each shucking house (where oyster ore opened) must have a certificate showing all employees are free from communicable diseases, especially typhoid fever. The certificates are issued annually .

Vegetables for Winter Are Saved by Simple Storage

Easy Methods of Storing Vegetables.

Vegetables which remain in good condition in the home vegetable garden after frosts begin may easily be stored safely for winter use. Kale, Brussels sprouts, parsnips and salsify will stand freezing, and are usually left in the garden and harvested as needed, until just before the ground freezes deeply.

If parsnips and salsify are dug at this stage, washed and enough for one meal packed in a paper bag, the bags can be stored outdoors in any convenient place where they will remain dry and safe from animals. They can be taken into the kitchen and thawed out for use as needed.

Tomatoes should be harvested after the first hard frost. Many can be ripened if laid on a shelf in a warm basement; some prefer to hang them up, still attached to the vine.

Carrots, beets, turnips, rutabagas, potatoes, apples and cabbages can be stored in an unheated garage or shed for several weeks, until the outside temperatures have fallen to several degrees below freezing. If the carrots, beets and turnips are placed in boxes packed in soil, which is kept moist, in the protection of the garage or shed they will keep well except in extremely low temperatures. Sand is not good for this packing, as it does not retain moisture well. Potatoes should not be packed in this way.

Pumpkins, squash and sweet potatoes should be stored in a temperature between 55 and 65 degrees, which is often found in a heated basement. The crops requiring lower temperatures may be kept in heated basements for some time if they are packed in boxes with wet sand about them.

Where the quantity to be stored does not warrant an expensive outdoor root cellar, various adaptations of the idea may be used, as shown in the illustration.

Vegetables stored should be in good condition, not too old or too immature; and tender vegetables which have been exposed to frost should never be stored. Avoid vegetables with bruises or skin punctures as decay will start from these, and never store vegetables which are wet. Even the hardiest vegetables should not be stored if they have been frozen.

Do not close outdoor root cellars tightly until the temperature inside has dropped close to freezing, and do not cover vegetables in earth pits until the soil has cooled off thoroughly.
