

All About Nothin'

The 1935 Study club is talking plans for a Girl Scout organization here. If you girls are interested, contact Mrs. Ray Pinson, or other members of the club.

The Review office is to be moved next door east in the building formerly occupied by Oliver Bakery.

Although their candidate for Harvest Queen did not win Friday night, members of the Junior class helped the cause of National Defense while working to secure votes for her. Several boys of the class collected a load of junk iron and sold it, using the money in the voting activities.

Add "Car-Confused": My neighbors, Leck Adams and T. B. Stone, have cars of the same make, model and body type, with the only difference being in color. Often, they drive off in the wrong car, but the greatest confusion came recently when Leck had Mr. Stone's car radiator drained in preparation to filling it with anti-freeze. The difference was not noticed until the radiator was emptied. It was a costly mistake for Leck, because Stone had his car serviced out with anti-freeze when he bought it a few months ago.

Called to active duty at different times and from separate localities, Lt. George Tracy and Lt. H. H. Tracy, Jr., are now in the same office of the quartermaster corps at Fort D. A. Russell, Marfa. They are sons of Mr. and Mrs. H. H. Tracy of this community.

O. Rutledge said peace and quiet reigned here Halloween night, and he is grateful for this fact, he stated. Three local residents observed their birthday Saturday. They were Mrs. W. R. Evans, Perry McAlister and Kenny Rankin.

Fred Kveton exhibited an Irish potato vine which, in addition to those under the ground, had several small ones growing above the ground.

Monroe may be on a hard surfaced road from Shallowater to Idalou if present plans materialize, reports said.

Save your waste paper for the Boy Scouts. Notify a scout and he will come to your home or place of business for the paper.

METHODISTS END CONFERENCE YEAR

Next Sunday is the last service before the Pastor goes away to Annual Conference which meets at Big Spring, Nov. 12. Rev. Foote reports a good year in spite of much rain and many hindrances. He has received 22 into the Church, six by vows. It appears now that all finances will be paid in full and that everything will be in readiness for beginning the new church building.

The Pastor reports that the Church has been greatly hindered because they have had no adequate place to take care of the various departments of church work. But when the new building is completed there will be a place for every class and a place of meeting for all departments of the Church School. Much interest in the new building is being shown and everyone seems to be in full accord with a building program.

Rev. Foote is anxious to have the entire membership present next Sunday morning and evening for the last services. He has special messages and some work of great importance. He urges all the membership to be present and invites all friends of the Church to visit with them. It is to be an important meeting for all the church.

R. Heggen and children, Garland and Garnette, were in Dallas early this week.

Good News For the Boys In Service

Here's good news to the boys serving Uncle Sam in his great army, navy, marine corps, etc. Mrs. Jack Hackler's Future Homemakers of Texas club members are to send you gifts—cookies, candy, book markers, etc. and etc.

BUT, they must have your address, NOW.

We make this plea to parents and friends of the boys—please send the Review the name and address of your boy, or your friend, and we will compile them and give them to Mrs. Hackler.

Abernathy had ginned 2,588 bales of cotton to this date last year.

All men who are not otherwise engaged in services Sunday morning are cordially invited to attend the men's class at Rita theatre at 10 o'clock.

Cage Season Opens Dec. 2

The Abernathy Antelope basketball teams will meet several new opponents when the cage season opens December 2 with Cotton Center boy and girls coming here for the initial games. Abernathy is included in a new district, 6-B, set up by the State Interscholastic officials. It includes seven other schools: Hart, Nazareth, Hale Center, Petersburg, Kress, Happy and Cotton Center.

Coach J. Russell Smith and Supt. R. Lee Snider met with coaches and officials of the other schools in Plainview last week to work out the double round robin schedule of play.

All games here are to start at 7:30 p. m. with the girls playing the opener followed by the boys.

Schedule Given

Coach Smith announced the following 14-game schedule for Abernathy boys and girls teams:

The teams will be open for four games between Jan. 27 and the time for the district meet, about Feb. 21.

The local boys team is to open the season with new suits.

Twenty-four boys reported for practice Tuesday afternoon.

SENIOR CANDIDATE NAMED HARVEST QUEEN

Hazel Nivens, senior class candidate, was elected Queen of the Harvest for 1941 in the pageant held in connection with the Harvest carnival at the school Friday night. Votes for the candidates were cast at one cent each with \$173.94 being paid for votes for the six girls.

Voting for the senior candidate brought \$67.20; junior class candidate, \$56.63; sophomore, \$11.71; freshman, \$7.97; sixth grade, \$22.34 and third grade, \$8.09.

Other attractions in the carnival made \$77.25. They were: program after carnival, \$19.95; football jackets, \$16.46; homemaking booth, \$19.14; band booth, \$9.20; debate club, \$5.00; Boy Scouts, \$3.55; girls basketball club, \$3.95.

Total amount received during the event was \$251.19. Expenses were \$26.37 leaving a net profit of \$224.82. This money is to be used for library books, band suits, debate club, grade school equipment, and various other things needed by the school system.

This amount exceeded the total made in last year's carnival, Supt. R. Lee Snider stated.

Issuance of bonds in the total amount of \$45,000 will be voted on by the electorate November 21. Of the total amount, \$25,000 worth will be revenue bonds, secured only by revenue from the plant after expenses of operation have been paid. The remaining \$20,000 will be in general tax bonds of the city. Splitting up of the total amount of bonds necessary to finance the cost of construction of the sewer system was done by the city council after it was pointed out that such a procedure would be most likely to result in a lower interest rate on the entire amount, and a possible bonus on par value when sale of the bonds was made.

Statistics gathered by the council indicated that in a town the size of Abernathy, an adequate sewer system constructed at a cost within the \$45,000 limit of the bond issue, the revenue from such system will be sufficient to operate the plant and retire the entire amount of bonds issued.

The election order calls for an interest rate on the bonds not to exceed 4 1/2 per cent, and with a maturity not to exceed 30 years.

Pending result of the election, full details of the proposed sewer system have not worked out, but the amount set in the bond issue will be sufficient to construct a fully approved, up-to-date, efficient plant capable of caring for present needs, and for any reasonable increase in population that may seasonably be expected.

Those qualified to vote in the forthcoming election are urged to read the full text of the election order published in this issue of the Review, wherein full details of the proposed bond issue are set forth.
