

Artesia Advocate

ARTESIA, NEW MEXICO, THURSDAY, AUGUST 8, 1929.

NUMBER 34

Advocate answers the
for a constructive
medium in the
middle valley.

All of the news told inter-
estingly and accurately each
week in the Artesia Advoca-
cate.

THE TWENTY-SIX

Pueblo Well Standing Development The Week

No. 4 Flows 100
In An Hour When
Swabbed Yester-
Other Wells Are
Promising.

Well No. 4, of the Pueblo
the NW 1/4 NW corner of
30, is clearly the out-
development of the oil
Eddy county during the
week.

A break carrying con-
oil was found at 3,350 to
and at 3,464 feet the well
feet of oil standing in the
last and biggest break.

entered from 3,471 to 3,475.
filled rapidly with oil and
afternoon flowed over 100
one hour after being swab-
drillers have been unable
line whether they are thru
break. Prospects are very
ing for completing the best
in the area. From all indi-
Russell No. 4, will be a
than the discovery test,
the, the Jackson No. 1, of
and Y. Oil Co.,

Other wells now drilling in
area look very promising
action. These being the
No. 1 of the F. W. and Y. Oil
SW sec. 12-17-30, which
below 3,430 feet with
of oil in the hole. The
No. 1, Lee No. 1 in the
34-17-29, has approximate-
of oil in the hole, as
underway below 3,340 feet.

Keel No. 1 of the Prairie
in the SW SW sec. 7-17-31,
ing about 400 feet of oil
while drilling is under-
3,377 feet.

March No. 2 of the Grayburg
in the NW SW sec. 19-17-
completed as a producer at
2. The same company an-
a location for their Keely
the center of the SE NE
7-29.

well will likely be added
production column of Lea
before another week passes.
the Wells No. 1 of the
Oil Co., in the SE NE sec.
which is reported to have
10,000,000 cubic feet
and spraying twelve bar-
oil from around 3,100 feet.

Information states that the
1 encountered water and
plugged back and shot. The
th of the well could not
ed, but is believed to be
1,150 feet.

LOVINGTON FRANCHISE
County Development Co.,
a dollar concern, recently
will apply for a franchise
Lovington and Lea county,
to the Lovington Leader.
ern will ask the Lea county
oners for a franchise to lay
for natural gas along the
also for the right to con-
ght and power lines along
ways. In Lovington, the
County Development Co., has
application to lay a sewer
water system, light and
gas mains.

BER OF NEEDED
OVEMENTS BEING
AT HIGH SCHOOL

highly desirable improve-
being made in the Artesia
school this month. Five small
in the second floor of the
building have been thrown to-
making a large combined li-
study hall, both of which
ly needed. The room is
tractively finished and suit-
niture, tables, chairs, book-
e, have been ordered and
om of which the town can
proud. The High school li-
equipment was found sadly
by the High school inspec-
year, but as planned it will
of the best and most com-
school libraries in the
hen completed. We under-
is arranged so that one in-
can keep the study hall and
as librarian.

ONE SERIOUSLY HURT IN AN AUTOMOBILE ACCIDENT SUNDAY

C. C. Curry and family sustained
painful injuries in an auto accident
on the highway near here Sunday
afternoon, while trying to pass a
truck. While the details concerning
the accident are somewhat cloudy,
it appears that the driver of the
Curry car attempted to pass the
truck and in so doing locked the
front bumper of his car with the
rear bumper of the truck and caused
the car to over turn twice. Gillis
Stephens, brother-in-law of Mr. Curry
sustained a concussion of the
brain and fared worse than other
members of the party. The others
were shaken and bruised but their
injuries were not serious.
Mr. Curry is bookkeeper for the
Bond-Baker Co., at Roswell.

BOYS GIVEN SENTENCES IN REFORMATORY FOR BURGLARY HERE SAT'DY

Knox Bewley and Bud Smith, local
youths were arrested here Monday
by local officers on charge of
robbing the cash drawer of the Amer-
ican Railway Express Co., Sat-
urday. Entrance into the express
office was made by prying up a
window and \$19.80 was taken from
the cash drawer, while the office
attendant was out at lunch.

The youths were arraigned before
Judge Richardson at Carlsbad Tues-
day and plead guilty as charged.

Knox Bewley was given two to two
years and ten months in the state
reformatory at Springer, while
Smith's sentence was assessed at
two to two and a half years. Hardy
Wheeler another Artesia youth, who
is charged with a number of petty
robberies, committed in the busi-
ness district during the past two
weeks, was given his liberty, after
entering a plea of guilty, but will re-
main out of custody on probation.

The special session of the Eddy
county district court, called by Judge
Richardson at Carlsbad, Tuesday
morning will likely last three days.

INSTALLS NEW APPLE GRADER

D. J. Shreeengost and Company
are installing two units of the latest
improved machinery for grading and
washing apples. One will be located
at the E. B. Bullock warehouse and
the other at the Barley orchard at
Hope. The machinery is installed
preparatory to harvesting one of
the largest apple crops in the history
of the valley. Artesia and Hope
have the best grade of fruit in pros-
pect ever grown in either locality
and the production of these localities
is expected to be the choicest of
the valley. The first shipment of fruits
will be made about the 15th.

MARTIN YATES CHOSEN
PRESIDENT ARTESIA
CHAMBER COMMERCE

Martin Yates, local operator, was
elected president of the Artesia
Chamber of Commerce, at a meeting
of the directors Friday evening. Mr.
Yates succeeds C. C. Tebbets, who
moved to Ruston, Louisiana, some
months ago. The presidency of the
Artesia Chamber of Commerce was
given to Mr. Yates by a unanimous
vote of all directors present in re-
cognition of his untiring activities
in community affairs during the
years that he has been a resident
of Artesia.

REPAIRING GIN MACHINERY

Workmen have repaired the ma-
chinery of the Association gin plants
at both Artesia and Atoka, prepar-
atory to starting the season about
September 1. The plant at Espula
is undergoing an overhauling also.
A new bolting machine has been in-
stalled at the Artesia plant.

HIGHWAY TO MAYHILL MARKED

The Chamber of Commerce has re-
cently marked the new highway
west as far as Mayhill, directing
the tourist traffic by the way of
Cloudercroft. Increased travel over
the new highway was given as the
principal cause of the action of the
Chamber of Commerce.

CREAM PRODUCTION INCREASE

If local cream shipments mean any-
thing, farmers generally are taking
more interest in the dairy industry.
Wilson and Anderson, local produce
dealers report that cream shipments
have shown a gradual increase for
the past four or five months. July
shipments included 7,556 pounds of
cream and 2,729 pounds of butter
fat.

CARLSBAD MOTORCADE MAKES THE FIRST STOP HERE THIS MORNING

Motorcade of 55 Carlsbad
People Invaded City This
Morning At 7:40 — Are
Given Breakfast At The
Bullock Hall.

The Carlsbad Good Will motorcade
arrived here this morning at 7:40,
ten minutes behind the official sched-
ule and stopped for breakfast at the
Majestic cafe. The motorcade was
composed of fifty-five Carlsbad resi-
dents, including the Carlsbad Muni-
cipal band and male quartette and
traveling in sixteen cars. The visi-
tors were guests of the Artesia
Chamber of Commerce at the break-
fast hour. A large delegation of
local citizens met the motorcade mem-
bers on their arrival and escorted
them to the Bullock banquet hall,
where breakfast was served.

After the meal was served, Mark
Corbin, acting in the capacity of
toastmaster, called on C. Bert Smith
for a short address of welcome.

The address of Mr. Smith, referred
to as his maiden speech was along
the line of cooperation between the
various communities of the state.

The response was made by Victor
Minter, secretary of the Carlsbad
Chamber of Commerce.

A short program was rendered
on Main street by the Carlsbad band
just before the departure of the mo-
torcade to Hope, the first stop.

TRACTOR AND GRADER
PURCHASED FOR THE
NORTH END OF COUNTY

The Eddy county commissioners
court convened in regular session
Tuesday at Carlsbad and considered
several important matters. Among
the transaction of local interest was
the purchase of a new tractor and
grader for the north end of the
county.

The court is now advertising for
bids for the construction of a new
jail. Some of the tax payers may
be glad to know that the commis-
sioners were not compelled to go
above the five mill levy to finance
the new jail.

The commissioners also ordered
Armstrong and Armstrong, road
contractors to proceed with the con-
struction of the Lakewood-Carlsbad
stretch of the south highway. The
contract for this road was let more
than a month ago. The order called
for hard surface, oiled road, complet-
ing the link of the improved highway
from Roswell to Carlsbad.

Notification of the approval of the
county budget by the state tax com-
mission was received at the meeting
Tuesday.

BRICK CLAY

Noticing an article in a recent
issue of the Advocate about a search
for a suitable brick clay, G. W.
O'Bannon, Cottonwood farmer, be-
lieves that he has located the spot.
About a year ago a surface well
was drilled to a depth of 135 feet
near his dwelling. A promising clay
was found at a depth of twenty-five
feet.

BOY'S DAY AT ROTARY

Tuesday was boy's day at the
luncheon of the Artesia Rotary club.
The program following the luncheon
was in charge of the boys work com-
mittee. Speakers to discuss the ac-
tivities of the club along this line
were J. E. Robertson, Rev. Harold
Scoggins and C. O. Brown. Eleven
boys were guests of the club on
this occasion. Among the visiting
boys present included, Donald Pior,
David Clowe, Mark Corbin Jr., James
Robertson, Billy Paris, Charles Bul-
lock Grant Scoggins, Cavitt Jackson,
John Gates, Sinclair Yates and Stan-
ley Stromberg.

Ed Muncy and family, of Slidell,
Texas arrived the last of the week
to visit his brother, Bert Muncy, and
family and other relatives. They
were accompanied here from Elkins,
this state, by Henry Sorrell and
family, Mr. and Mrs. Rube Faircloth,
who were guests at the Bert Muncy
home until Tuesday, when they left
for their homes. All of the visitors
made the trip through the Caverns
on Monday.

F. C. Smith, wife and six children
arrived Monday from Shidler, Okla-
homa and were the guests of Mr.
Smith's brother, Guy Smith, and
wife until yesterday, when they left
for Avis, in the Sacramento moun-
tains, where they will visit his
father, W. E. Smith. They took in
the Carlsbad Caverns Tuesday.

ARTESIA LOSES SUNDAY GAME-DARKNESS ENDS TIE GAME THURSDAY

Holds Fast Roswell Nine To
Tie On Opening Day Of
New Park—Loses Sunday
Contest By A Score Of
6 To 4.

The newly organized Artesia ball
team made an auspicious start Thurs-
day afternoon at the new ball park
holding the Roswell nine to a tie
the score stood eleven all when
darkness ended the game.

Brainard Hits First Home Run
Roswell started the fireworks in
the first inning by running in three
scores. Artesia secured one score.

Neither team was able to cross
the plate until the fourth inning,
when Brainard, Oiler's manager slam-
med out a home run and won the
\$25.00 prize offered by Jackson-
Bolton Chevrolet Co., for the first
home run knocked over the fence.

The game was more or less of a
see saw affair until the eighth in-
ning when Artesia tied the score and
darkness ended the game.

Score by innings:
Roswell -----3 0 0 0 2 0 4 0 2
Artesia -----1 0 0 3 0 0 0 7 0

New Park Named
W. E. Morgan won the two season
passes for naming the park, The
Brainard Athletic Park, was the
name selected by judges in recogni-
tion of Mr. Brainard's activities in
(Continued on last page, column 3)

LOCALS MAY REPENT
OF HASTE IF THEY
RUSH MADLY TO FIRE

Motorists who insist on getting
to the fire first, may suffer a pen-
alty for their haste after town or-
dinance No. 217, is effective. Or-
dinance No. 217, relating to the park-
ing of cars at the curb, when the
fire alarm is sounded has been pass-
ed by the City Council, as an em-
ergency measure and at the request
of the local fire department.

For an extended time the work
of the Artesia Fire Department has
been more or less handicapped by a
few thoughtless motorists, who in-
sist on rushing out on the streets
when the alarm is sounded. Many
times, members of the department,
who are delayed in making a quick
response when the siren blows, find
their way blocked by cars when they
arrive at the fire. Fortunately Ar-
tesia has yet suffered no serious loss
as a result of this practice and the
fire department is anxious that the
practice be stopped before a heavy
loss is sustained.

Ordinance No. 217 makes it unlaw-
ful for any car to travel under five
hundred feet behind the fire truck
and park within less than three hun-
dred feet of the scene of the fire.
In violation of this ordinance a fine
of not more than \$25.00 may be
assessed or the guilty party may be
imprisoned in the county or city
jail for a period of ten days.

See ordinance No. 217, published
elsewhere in this issue for further
information relative to it's provi-
sions.

OPEN AIR BAND CONCERT

The Artesia Community band will
give another open air concert at the
City Park, next Friday evening at
8:00 p. m. under the direction of
Ernest Harp Jr., after Friday even-
ing's concert the date will be changed
and the next program will be render-
ed on Thursday evening, August 15th.
The following numbers will be given
Friday evening:

1. March, "On Parade"-----Sousa
2. Overture, "King Lear"-----Hazel
3. Waltz, "Marjorie"-----Loos
4. March, "Edgewood Brigade"-----Lake
5. Selection, "Tanhauser"-----Wagner
6. Mexican Dance, "La Cybeline"-----Held
7. Indian Novelty, "Napanee"-----Williams
8. March, "108th Medical Regiment"-----Mader
9. "Star Spangled Banner"-----Smith

POSTAL RECEIPTS
CONTINUE INCREASE

The local post office receipts con-
tinue to show an increase, according
to E. A. Hannah, post master. The
July 1929 receipts increased twenty-
one per cent over the corresponding
period of 1928.

Mr. and Mrs. R. A. Brewer of Las
Cruces, former residents of Artesia,
arrived at Hope yesterday for a visit
with Mrs. Brewer's parents, Mr. and
Mrs. J. W. Reed. Mr. Brewer was
shaking hands with friends in Artesia
this morning.

SODA JERKERS ISSUE A FORMAL CHALLENGE FOR GAME AUGUST 22nd.

The "Soda Jerkers" of Artesia
have issued a challenge to any other
organization (professional and semi-
professional baseball players exclud-
ed) to meet them on the diamond in
the new Brainard park, Thursday
afternoon, August 22nd. The chal-
lenge is sweeping in its effect and
is meant for any and all comers,
except members of the regular town
team or professional baseball players.
The "Soda Jerkers," expect their
challenge to be accepted in time for
publication in the next issue of the
Advocate. The game is to go from
four to nine innings and will in all
probability last until the members
of the team become too tired to play.
The gate receipts will go to the new
park fund or they may be split be-
tween the new park and the com-
munity chest.

MRS. HALSEY GRANTED A NEW TRIAL BY THE STATE SUPREME COURT

Katherine Halsey, convicted a year
ago at Clovis by a Curry county
jury on a charge of being an ac-
cessory before the fact in connection
with the death of her husband, Fred
Halsey, has been granted a new trial
by the state supreme court.

Following her conviction Mrs. Hal-
sey was given a life sentence in the
state penitentiary by Judge Carl A.
Hatch, and since that time has been
in the Chaves county jail awaiting
the outcome of an appeal.

The case has been reversed and
remanded back for a new trial ac-
cording to notice received Friday by
Attorney O. O. Askren, Roswell at-
torney for Mrs. Halsey, the decision
being rendered by Justices Watson,
Simms and Catron.

The case was reversed upon the
grounds that Judge Carl A. Hatch
permitted the testimony of Zack
Teal, who was absent, to be read be-
fore the jury, the supreme court in
a former decision having determined
that the defense in a former trial
had not been permitted to thorough-
ly cross-examine Teal, who testi-
fied that Mrs. Halsey had offered
him various inducements to kill her
husband. The decision in the for-
mer case was rendered by Justices
Parker, Bickley and Watson.

Mrs. Halsey together with Luther
Foster and William Archer, were or-
iginally convicted here of first de-
gree murder in connection with the
death of Fred Halsey, who was killed
at his home near Hope. The three
were sentenced to death and upon
appeal Mrs. Halsey was granted
a new trial and Foster given a
life sentence which he is now serving.

The decision as to Archer was af-
firmed and the death sentence was
later commuted by the governor to
life imprisonment.

RAINS CONTINUE TO
FALL OVER AREA—THE
RANGE IS VERY GOOD

"See you after the rain," may be-
come a slogan with Artesians, if
the continued wet weather keeps up.
Showers have fallen here two suc-
cessive nights. Last night more than
a quarter inch of moisture fell and
the rain on the previous night was
heavier. The extent of last night's
moisture could not be determined,
but travelers from the south report
the moisture extended as far as
Carlsbad. Rains in the Sacramento
mountains have been almost daily
occurrence during the past ten days.
The Penasco river is flowing a good
head of water and Hope farmer have
had an abundance of water for ir-
rigation purposes.

The range to the west is probably
in the best condition of the past
twenty years. Weeds, flowers and
grass are growing in profusion and
the stockmen are assured of a good
fall and winter range.

W. H. STRUNK DEAD

News has been received here of
the death of Henry Strunk, which oc-
curred on his eighty-fifth birthday at
Santa Anna, California, July 20th.
Mr. Strunk was a former resident
here and is well known to many of
the old timers. Burial was made at
Savannah, Missouri.

FIRE AT REAR ADVOCATE BLDG.

Prompt work of the Artesia fire
department averted a serious fire
at the rear of the Advocate building
Thursday evening, when a pile of
lumber caught fire. Fortunately
little damage resulted and the only
inconvenience suffered was a loss of
power the following morning, caused
by burning the electric wires in two.

Prospects For Big Cotton Crop Still Very Good

Some Leaf Worms Appear-
ing, But Have Done Little
Damage Yet — Plant Is
Fruiting Heavily — Big
Fruit Crop Too.

Crop prospects are very promising
as this is written and a record pro-
duction is in prospect in practically
all of the leading crops. Although
the yield is menaced by an unusual
amount of rain for this season of
the year, cotton is reported to be
fruiting heavily. The leaf worm
has made its appearance in some
localities and has caused some un-
easiness among growers. Many farm-
ers have made preparations to spray
in the event the worm tribe increases
and starts working on the plant.

Notwithstanding the fact that cot-
ton is a comparatively new crop in
this section, numbers of growers de-
clare they have never seen better
prospects and are preparing to har-
vest a bumper crop, unless the weath-
er hinders too seriously. Present
indications point to the fact that
nearly all of the cotton growing lo-
calities will register an increased
yield. With the increased acreage
over the section amounting to five
to ten per cent, recent estimates
say that the 1929 yield will be 33-1-3
per cent higher than in 1928. The
Atoka district which has been hard
hit by hail will gather about the
same yield as 1928, it is believed.

Other Crops Heavy Too

Alfalfa and row crops will make
a heavy yield too, in comparison with
the past year. Not all of the third
cutting of alfalfa hay has been com-
pleted and in some instances the
fresh cut hay has been damaged by
rain. There is a greater variation
in the hay cutting time than usual.
While some hay growers are finish-
ing the third cutting, others will start
on the fourth cutting within ten or
twelve days.

Fruit Crops Large

The fruit crop is unusually large
with the biggest per acre yield of
apples in prospect. Apples at both
Artesia and in the Hope section are
of choice quality this year and the
harvesting operations are already
underway. Estimates place the pro-
duction in the valley at 700 cars.

The peach, pear and a miscel-
laneous variety of fruit has and will
make a fine yield. A major portion
of the fruit outside of the apples
will be consumed on the local market.

INSTALLS APPLE GRADERS

The Alfalfa Association yesterday
completed the installation of two ap-
ple grading machines. One was in-
stalled on the association yard and
the other at Hope.

SOUTHLAND, TEXAS NINE
WILL BE HERE SUNDAY

The strong Southland, Texas nine
will be here Sunday for a game
with the Artesia Oilers. Interest is
high among the baseball fans and
a good game is expected.

R. B. KISHBAUGH DIES
AT AZUSA CALIFORNIA
BODY IS SHIPPED HERE

R. B. Kishbaugh, age 56 years,
former resident of Artesia and well
known building contractor died at
Azusa, California, Monday follow-
ing an extended illness of about four
years duration. Mr. Kishbaugh liv-
ed in Artesia at different intervals.
About a year and a half or two
years ago, he moved his family from
Artesia to Azusa for the benefit
of his health. The California cli-
mate apparently benefitted his health
for a short time, but he gradually
grew worse after a few months stay.

The deceased is survived by a wid-
ow and three sons, R. W., Morgan
and Gordon all of Azusa.

The body is being shipped here
for burial and will arrive on the
south bound passenger train after-
noon. While funeral arrangements
are pending it is likely that the
burial will be made by the local
Masonic lodge of which the deceased
was a charter member.

TELEPHONE NO. 7

OUR POSTERITY

Most of our forward looking citizens agree that
the present generation deserves more educational ad-
vantages, rather than conserving major share of the
possible sources of educational revenue for our pos-
terity, such as the federal government proposes to do
under order 338, which would curtail to a considerable
extent oil developments on government lands.

CUT OFF FROM THE PIE COUNTER

The fact that Francis C. Wilson has been relieved
of his job on the tri-state water commission has caused
much comment through the press. Mr. Wilson did not
get much sympathy from this neck of the woods, after
he insisted on submitting a minor report on the Colo-
rado Springs oil conservation conference. Most of the
local people here agree that if Mr. Wilson knew as
little about his position as water commissioner as he did
about the objects of the oil conservation conference,
he should have been relieved several months ago.

A GET ACQUAINTED BANQUET

Roswell did something last week that well deserves
emulation in Artesia, in staging a banquet for the
new comers in the town. Perhaps we should not have
used the word emulate for a new comers banquet
would not be what we would like to sponsor. We would
be pleased to see a get-together banquet, or a get ac-
quainted banquet for everybody.

There is no substitute for knowing your neighbor.
Perhaps if we knew each other better, it would go a
long way toward promoting a better feeling among
the citizens of the town. Certainly all citizens could
work together in better harmony if they understood
each other better.

ROADS TO CIBOLA

We have recently received a copy of the "Roads
to Cibola," an interesting booklet of the State High-
way Department, containing mention of what to see
in New Mexico and how to get there. Cloudercroft
and the Sacramento mountain area, however, was left
out. The omission was not unintentional, for at
the time the material was assembled for the booklet
the Cloudercroft area was almost inaccessible, especially
from the eastern side. It has been suggested that an
insert be added to the booklet, describing the Clou-
dercroft section.

Let us add another suggestion that New Mexicans
adopt the slogan of "See New Mexico First."

THE CURFEW LAW

A number of local people have advocated the re-
vival of the curfew law, as an effective remedy for the
control of the irresponsible youth. Child training is
a problem that most parents have difficulty in coping
with and nobody cares to give advice except the
bachelor and the old maid.

The curfew law could be made very effective, if the
parents would lend their cooperation. This is the only
essential lacking. The matter of making Artesia a
law abiding community is a matter of public response.

We have heard the remark more than once during
a public gathering that parents will bring out their
children and turn them loose, to engage in whatsoever
entertainment they may see fit.

OIL FACTS

Some interesting facts relative to the problems of
the oil industry are gleaned from the address of Wirt
Franklin, president of the Independent Petroleum As-
sociation, in a address at Roswell last week. Chief
among the problems which confronts the American
oil operator is the flood of foreign oil, the imports of
which is increasing each year. Losses sustained from
a low priced crude must be borne by the operator, who
must sell his crude. The saving which one would natu-
rally anticipate from a low priced crude is not passed on to
the consumer in the price of gasoline.

If the oil business was suddenly wiped out, many
of the southwestern states would go into bankruptcy.
Oil forms an important part of the revenue for many
of our state governments.

It has been demonstrated that prosperity for the
masses rather than prosperity for a few, makes for
contentment and happiness.

If the people permit their rights and freedom to
be restricted such as is threatened, unless order 338,
relating to the development of oil on government
lands is modified, it will form an undesirable pre-
cedent. If a government tramples the rights of its
citizens in one instance it may do so in other instances.

A fellow ought to have a right to present a stiff
shirt front and a dirty chin, now that the water melon
season is on.

DO IT NOW

A black spot on the record of American progress
and prosperity is fire waste.

For two years, since the high mark of over half
a billion dollars was reached in 1926, losses have de-
clined, an indication that fire prevention work is
bearing fruit. Yet we have the greatest per capita loss
of any country in the world.

The tragic part of the waste is that at least eighty
per cent of all fires are preventable and inexcusable.
We sacrifice thousands of lives and millions of dollars
in property, merely because of carelessness or ignor-
ance.

Fire prevention organizations, both public and pri-
vate, have labored untiringly to instruct the people
in the menace of fire and the means of prevention. It
is a common occurrence for losses to greatly decrease
during the annual "Fire Prevention Week," only to
rise again when the period is past.

Fire is the most hopeless and terrible of all wastes.
Property and lives destroyed can never be com-
pletely replaced, and the indirect loss, in time and
business and employment, is inestimable.

Americans who pride themselves on intelligence and
education must further reduce the fire waste. They
would do well to glance around their homes, offices
and factories and eliminate hazards they are sure to
find. Do it now, not after the fire.

NEWSPAPERS AND THE COMMUNITY

George M. Adams, publisher of the Wyandotte
(Michigan) Daily Record, says:

That few people, even the most consistent boosters
of a newspaper, realize what a wonderful asset for
good a real newspaper is to a community.

Day in and day out, week in and week out, month
in and month out a good newspaper is constantly
boosting the community in which it does business,
broadcasting its residential advantages, advertising its
commercial possibilities, inducing new residents to lo-
cate there and in a dozen other ways doing that which
no other single business man or enterprise can or does
do.

A good newspaper is an advocate of better gov-
ernment and, with the idea of improving the local sit-
uation, is constantly calling attention to possible inno-
vations that will make the old home town a bigger
and better place in which to live.

A good newspaper is without any question the
greatest asset the local business can possibly have. In
addition to advertising the town, inducing new factories
and new residents to locate within its corporate limits
it boosts home-trading, it advocates the prompt pay-
ment of bills and a better credit situation, it acts as a check
on fly-by-night shyster business enterprises and thus
contributes directly to the success of the old stand-by
local business concerns.

A good newspaper exceeds by a hundred fold the
church as an agent of moral righteousness. While
the preacher talks to a comparative handful on Sun-
day morning, the newspaper owner talks to thousands
weekly or daily. If he be the right type of owner,
he weilds an indirect influence that is not exceeded
by any other individual in the city in which he lives.

When one stops and figures it up very carefully
and then realizes that the newspaper owner talks to
more people every week than all the ministers, school
teachers and professional men put together, I wonder
if it is not just possible that people are not giving the
newspaper credit for far less than it rightfully de-
serves.

THE FEDERAL FARM RELIEF MEASURE

The consensus of opinion concerning the farm re-
lief measure recently passed by congress and signed
by the president is that its value will depend largely
upon the ability of the farm relief board and the
stabilizing committees and corporations yet to be
organized. Congress followed the usual custom, when
it meets a problem which it is unable to solve, by ap-
pointing a board or a commission to make a study of
the subject. The farm board is not much more than a
committee appointed for the purpose of finding some
means of bringing about economic equality for agri-
cultural and kindred industries. It will have \$500,-
000,000 at its disposal, but cannot spend one cent of
it. It may loan this money to encourage cooperative
marketing. It can loan money to stabilizing corpo-
rations yet to be organized, but in itself it cannot dis-
pose of a single penny except through the agencies pro-
vided. Stabilizing organizations can be organized
through the commodity committees to be appointed.

These corporations can buy and sell farm commodities;
they will be empowered to build elevators and ware-
houses or lease storage facilities. When there appears
to be a surplus, or when prices drop below cost
of production or lower than economic conditions war-
rant, then these stabilizing corporations can buy and
hold off the market quantities of that commodity, or
dispose of it in other ways. If the prices go up and
they get their money back, or if they make a profit,
it goes back into the revolving fund. If they lose money,
your Uncle Samuel foots the bill.

This, in substance covers the farm relief bill as
it is now understood. Just what will be done, and how,
no one knows at this time, not even the members of the
board. At any rate, it is an attempt on the part of
congress to keep pre-election pledges by doing some-
thing for the farmer. Farmers, however, should not
forget that self-help is the best help. Unless those en-
gaged in agriculture continue their efforts towards ef-
ficiency in production and in merchandising their
products, no government is strong or rich enough to be
of more than temporary service to them—Farm and
Ranch.

EAST VERSUS WEST

Senator Moses declares that the east is growing
restless over the taking of the tariff off those things
we must make and sell in order to buy things to eat,
all to boost prices on agricultural products—the things
we must buy and eat. The senator must recognize
that the people who produce the things for the east
to eat must also buy the things the east makes to wear
and the machinery to produce the food for the nation.
So far the east has had the best of it. There is now
and has been for a long time a crying need for a re-
adjustment that fairness may be done to both the east
and the west.—Roswell Record.

"There are lots of people who do not know where
their next check is coming from," says a writer. An
exchange replies that there are lots with a suspicion
that their last check is coming back.—Grants Review.

INSIDE INFORMATION

Always use the correct needles
for your make of sewing machine,
and keep a supply on hand to fit
the sizes of thread you expect to use.

Chocolate that appears white on the
outside has been kept in an over-
warm place, so that some of the fat
has melted and come to the surface.
It is not injured in any way for use.

A wire basket is a good ac-
cessory to have in canning tomatoes
or peaches. As these fruits must be
scalded to get the skins off, use
the wire basket to lower the material
quickly into boiling water and out
again.

Fried okra is one of the vegetables
that can be enjoyed from time to
time during the summer. Select
young okra, wash it, and cut it cross-
wise in pieces between a fourth and
a half inch thick. Allow 6 table-
spoons of butter or 1 cup of salt
pork, diced, for cooking 2 quarts of
okra. If salt pork is used, cook it
in a skillet until crisp. Then re-
move the pieces and use 6 to 8 table-
spoons of the fat. Put in the okra,
cover and cook about 10 minutes,
stirring frequently to prevent burn-
ing. Remove the cover and continue
to cook until the okra is tender and
slightly brown. Add the crisp pork
and serve at once.

CAVERN VISITORS INCREASE

The largest number of visitors to
Carlsbad Caverns in any month of its
history was recorded in July, when
15,649 persons were registered from
44 states and the District of Colum-
bia and foreign countries including
Japan, Holland, Mexico, France,
Greece, Russia, Canada, Italy and
the insular possessions of Porto
Rico and the Philippines.

Attendance during the past month
was 83.8 per cent increase over July
1928, and is also equalled total visita-
tion during the entire years of 1924,
1925 and 1926.

Daily visitation averaged 501 per-
sons, and the total number of auto-
mobiles registered at the cavern
during the month was 4,558.

Superintendent Boles forecasts 20,-
000 visitors during August.

Many an owner has arrived at his busi-
ness in the morning to find it was
"shot" to ruin by fire at dawn.

Suppose that happened to you? Like a
flash you'd measure your loss against
the possibility of inadequate insurance
—or wonder if you had let your insur-
ance lapse even for a single day.

Let us inspect your premises, advise you
fully, and keep your protection up to
the proper margin of your needs.

OIL SURFACED ROAD TO BE BUILT 20 FEET IN WIDTH SAYS REPORT

SANTA FE.—To increase the suc-
cess of the oil surfacing type of
road, and to insure its durability, all
oil surfaced projects to be built
in the future will be twenty feet
wide, it was announced recently at
the State Highway offices.

The move to widen the roadways
has become about in order to over-
come shoulder breaks, it was ex-
plained. The greater width of road
will combat this tendency. The new
roads will be twenty-two feet wide
over all, twenty feet of surfacing
and a foot shoulder on either side

Why Paint Sticks to Wood

Bringing a New Kind of Store-Service to Your Door

- a Store Service founded on the Golden Rule;
- a Store Service attuned to local needs;
- a Store Service backed by National Resources buy-
ing goods for more than a thousand Stores;
- a Store Service that will inspire confidence in our
merchandise;
- a Store Service that sells for Cash, eliminating
expensive Credit and Delivery overhead;

WHEN MR. J. C. PENNEY opened the small
store in Kemmerer, Wyoming in 1902, he had
a vision of Local Service for that community.

That first small store filled a definite need.
It proved its worth to the people of Kemmerer,
thru Service—in Ideals, in Merchandise Values,
in Thrifty Prices.

And every J. C. Penney Company Store—
this Store—must prove its worth as a LOCAL
SERVICE ENTERPRISE.

Because we operate more than a thousand
stores does not reduce the individual store's re-

sponsibility; THIS STORE, and this store alone,
must PROVE itself as a definite asset to this
community and must fill a tangible shopping
need to its people.

Because of our National Resources and Eco-
nomical Buying and Distribution facilities,
our New Store will be well equipped to sup-
ply you with Dry Goods, Wearing Apparel,
Shoes and Furnishings of highest quality at
lowest possible prices.

Our New Store will have a Cordial Courtesy
Service. Its one idea will be to "Pack Your
Dollars Full of Value and Satisfaction."

DOUBLE WEDDING AT ROSWELL

A unique as well as an unusual wedding ceremony was solemnized Tuesday morning at 9:30 in Roswell at the home of Mr. and Mrs. Emery Carper, when their twin daughters, Misses Nelle and Frances were married. The wedding will be of interest to many local people owing to the fact that the Carpers are former residents of Artesia and the brides are former students of the Artesia schools. An account of the wedding is contained in the Roswell Record of Tuesday and follows:

A wedding of particular beauty and unusual interest was solemnized this morning at nine-thirty o'clock at the home of the brides' parents, Mr. and Mrs. Emery Carper, 311 West Alameda, when their twin daughters, Miss Frances Carper and Mr. Clarence D. Hunter, and Miss Nelle Carper and Captain Grady H. Booker were united in marriage in the presence of fifty relatives and close friends.

The rare charm of exquisite simplicity was in the decorations of baskets of Shasta daisies, pink gladioli, with an altar of tall palms and fern trees. A young cousin, Ruthene Champion of Tularosa, with her mother Mrs. R. D. Champion, at the piano preceding the entrance of the bride party, sang with sweet tenderness "I Love You Truly." To the strains of the Lohengrin wedding march played by Ruthene Champion, the brides entered with their father who gave them in marriage and were met by the grooms before the altar, where Rev. R. C. Edwards, pastor of the First Methodist Episcopal church south, made the ring service of his faith especially impressive and beautiful. During the ceremony Mendelssohn's lovely "Consolation" was softly played.

Charming and smart were the brides going-away ensembles of black and ecru satin, with hats, shoes, bags, all in harmony. The happy couples left for three weeks honeymoon motor trips, Mr. and Mrs. Hunter going to Yellowstone National Park after which they will be at home at Tularosa, and Captain and Mrs. Booker to Denver and other Colorado points of interest, after which they will be at home in Roswell.

The Carper twins were graduated from Roswell High school in 1925, and then attended Texas Woman's College at Fort Worth. The past two years Frances has been with the Lowrey Auto Company and Nelle at the Chamber of Commerce. They are two of Roswell's fairest and finest young girls.

MARRIED AT ROSWELL

Tom Blakney, pioneer resident of Hope and Mrs. Bettie Cowman of Artesia were quietly married in Roswell yesterday. Further details concerning the wedding could not be learned.

FORTNIGHTLY BRIDGE CLUB

Mrs. John Lanning, of Roswell, entertained the club at its regular meeting Tuesday at the home of her mother, Mrs. C. Bert Smith. There were two substitutes, Mrs. Richard Attebery and Miss Helen Mann, besides Mrs. Lanning, who also played for an absent member. The customary two course luncheon was served at one o'clock.

BRIDGE PARTY

Mr. and Mrs. Stanley Blocker entertained four tables at bridge Friday evening following the playing with refreshments in two courses. Their guests were Messrs. and Mesdames Jack Curry, T. C. Bird, Carl Joiner, Finn Watson, C. R. Blocker, and John Richards, Miss Helen Mann and Mr. Tex Henson.

THE SECOND BRIDGE CLUB

The club met with Mrs. Beecher Rowan Tuesday with five substitutes playing of whom the hostess was one. The others were Mesdames Wm. Compton, Clarke, S. D. Gates and Stanley Blocker. The hostess was assisted in serving light refreshments by her daughter and granddaughter, Miss Aline Rowan and Miss Marjorie McLean, the latter having accompanied the Rowans home Sunday from their visit at her home at Dimmett, Texas.

THE PASSTIME CLUB

The club held its regular meeting at the home of Mrs. S. B. Barnett last Thursday afternoon with only two tables playing. Mrs. Jim Berry won high score and Mrs. Charles Mitchell low score. Light refreshments were served.

LEGION AUXILIARY MEETING

The transaction of special business necessitated holding the August meeting a week early and it occurred at the home of Mrs. Jack Clady on Monday afternoon with a good attendance of members. Plans were made for attending the department meeting of the Auxiliary, which will be held in Las Cruces September 5th, 6th and 7th. Mrs. Albert Richards, vice president of the department of New Mexico, Mrs. Frank Linell local president and department chairman and Mrs. J. M. Story chairman of national defense and Mesdames H. A. Stroup, Frank Seale, Ben Prior and John Michael were elected to go to the meeting from the Artesia unit, the latter four being regular unit delegates.

Recognizing the value to the community of a hospital in our midst the unit voted to donate \$15.00 worth of supplies to this very worthy institution, which needs financial assistance to function properly. It means much to sick and injured people to have a hospital at hand thus saving them a long and oftentimes distressing trip to such an institution and financially it means much to the town to keep business at home. Mrs. Flinchbaugh is making a gallant effort to put the hospital across and deserves the generous support of the community.

After the close of business the hostess, with the assistance of Mrs. Michael, served a delicious ice, wafers and grape juice.

JUNIOR MISSIONARY SOCIETY

The Junior Missionary Society of the Methodist church put on an interesting little missionary play, "America for Americans," at the regular meeting of the adult society last Thursday. The meeting was held at the church and there was a good attendance of missionary members and mothers to witness the program, which was given by about a dozen members of the Junior Society. Following the program there were light refreshments, the Junior girls assisting with the serving. The play will be given at the Fourth (Missionary) Sunday session of the Sunday school.

S. S. CLASS TO HAVE OUTING IN MOUNTAINS

Mrs. J. H. Jackson is planning to take her Presbyterian Sunday school class of small people on a delightful outing in the mountains. They will leave Saturday morning for the Artesia-Sacramento camp with anticipations high for a week of unalloyed bliss. Class members going will include Hannah Belle McCaw, Virginia Gates, Joan Wheatley, Avis Clowe, Martha Sinclair, Olin Woodside and Junior Bryan. Cavitt Jackson will drive up to the mountains with the party, but will return after a short stay.

THE YOUNG MOTHERS' CLUB

The Young Mothers' club and the babies were entertained at a picnic in the park last Friday afternoon by Mrs. John Dunn. There were informal talks on child training, but

LOCALS

Lola Chapman, the little orphan protegee of the Baptist W. M. U., is here enjoying a vacation from the Orphan's Home at Portales. She is being entertained by her various foster mothers, the members of the Artesia Society.

Mr. and Mrs. Will Ballard and son Joe Bill, attended the wedding in Roswell Tuesday morning of Mrs. Ballard's two nieces, the Misses Frances and Nelle Carper, daughters of Mr. and Mrs. Emery Carper, and former residents of Artesia.

T. E. Hinshaw and his wife, Dr. Lura Hinshaw, left to-day for a two or three weeks' vacation through the northern part of New Mexico and Arizona. They expect to visit the Grand Canyon and may go as far north as Salt Lake City, Utah.

Miss Gladys Cowan and brothers Ray and Don returned the last of the week from Hagerman, where they had been for a couple of weeks at the home of their sister, Mrs. Leon Meeks, while Mr. and Mrs. Meeks were away on an outing in the mountains.

Rev. J. H. Walker, wife and three daughters are expected to-day from Hutto, Texas and the last of the week will accompany L. P. Evans up to the Artesia-Sacramento camp, where they will spend a few weeks, guests of Mr. Walker's daughter, Mrs. Evans and family.

The afternoon was given over principally to visiting, playing with the kiddies and disposing of quantities of delicious watermelon.

FRIDAY EVENING BRIDGE CLUB

The club met with Dr. and Mrs. J. J. Clarke last Friday for their regular supper and evening of bridge. Substituting were Mrs. E. J. Brooks, and Messrs. and Mesdames Vasey, Wm. Compton and L. B. Feather.

WATER SHEDS WILL BE TAKEN CARE OF BY THE FOREST SERVICE

Recreational values and water-sheds will be taken care of by the forest service, if they take over the management of the timber harvest on state lands, but at the same time there will be no unreasonable restrictions of timber cutting, according to M. M. Cheney, assistant forester in recreation for New Mexico and Arizona, who is at Alamogordo in the interest of state timber sale scheduled for August 12.

Forest rules provide that certain recreational strips be left undisturbed. Upon application of an Alamogordo lumber company for state timber in the Sacramento mountains near the New Mexico Girl Scout camp, Pecos valley citizens protested and petitions asked the state land office to stop the sale entirely.

The matter was turned over to the forest service by the State Land Department for investigation and leading forest experts were in conference Monday at Alamogordo. Besides Cheney, the group includes Assistant Forester E. E. Carter, Washington D. C., in charge of lumbering operations of national headquarters; Hughes Calkings and Quincy Randels, head of lumbering operations in New Mexico and Arizona, and O. Fred Arthur, supervisor of the Lincoln forest.

The committee spent Monday in the woods and will work out a plan to be submitted to the state land commissioner for his information in consummation of the sale August 12, it is said, with a view to protective recreation and water users, and still not to eliminate lumber industry.

"WHERE THINGS ARE NEWEST"

SPARK PLUG A 1913 CHEVROLET STILL IN USE AT GOLAD

SAN ANTONIO, Texas.—A Chevrolet with a chassis built in 1913, a year before the World War and a motor that was as good as when our doughboys were sent back in 1917, is still in use at Golad, Texas.

Called "Spark Plug" by its owner, Hugo Wilks, and of millions of Chevrolets in use on both hemispheres it is the oldest. The 1929 Chevrolet with its six cylinder motor can out-out-speed and out-haul it. "Spark Plug" appears antediluvian when contrasted with the handsome new Fisher bodies of 1929 Chevrolets. But "Spark Plug" can do plenty of climbing, hauling on its own and is beyond question an outstanding example of a long-lived dependable automobile.

Several occasions Wilks has hauled a trailer to "Spark Plug" filled with a load of 2,000 pounds, the 815 pounds which the trail-trucks, all the way to San Antonio, 125 miles distant. Long ago he piled it high with a pound load of cotton bales and drove it through a dry creek bed which no other driver would dare traverse in his car. Many times he has driven it with water up to the floor.

Will in the section is too tough for "Spark Plug", and Wilks says it is sufficiently economical, giving as good as 20 to the gallon. Objection, however, is lodged at it by Wilks and this is a one. It is his complaint of the crowds which his car attracts when he drives to San Antonio.

"Spark Plug" had many owners—about to be exact—before Wilks purchased it from the Voght Chevrolet company of Schulenberg, Texas, nine years ago. For four years he got service from the 1913 model which might yet be encased beneath the 1913 hood but for the accident which occurred five years ago. At that time a 1917 Chevrolet owned by one of Wilks' brothers caught fire and its chassis was destroyed. The motor was unharmed so it was given to "Spark Plug's" original owner a well deserved rest and the newer one.

"Spark Plug's" total mileage is innumerable. Since Wilks has had the speedometers have been in one registered 75,000 miles, and 60,000 and the present one up to 15,000.

Total repair bill during Wilks' years ownership has been \$150. In connection, however, it might be said that Wilks does all his repairing. Recently fifteen new wheels were placed in the car and minor adjustments made. The Wilkses are mechanical-minded and all prefer the Chevrolet. The father of "Spark Plug's" has had four Chevrolets. One brother is still driving a 1917 and another brother has a model.

"cents worth of mixed nuts," Andy McPherson to the proprietor of the nut store, "and be put in a couple of cocoanuts."

ated Diner: "You can't expect to eat this stuff! Call the waiter."

er: "It's no use, he won't eat it."

er: "It gives me great pleasure, mark you 85 on your expense."

Y: "why not make it 100 and yourself a real thrill?"

THE CHURCHES

CHRISTIAN SCIENCE SOCIETY
613 W. Main Street

Sunday August, 11, 1929.
Sunday services at 11:00 a. m.

Wednesday services at 7:30 p. m.
Subject of the Bible lesson for Sunday is "Spirit." In this lesson the following scriptural selection is found, "It is the spirit that quickeneth; the flesh profiteth nothing; the words that I speak unto you, they are spirit and they are life. (St. John 6:63).

Also the following citation from Science and Health with Key to the Scriptures, by Mary Baker Eddy, page 272. "It is the spiritualization of thought and Christianization of daily life, in contrast with the results of the ghastly farce of material existence; it is chastity and purity, in contrast with the downward tendencies and earthward gravitation of sensualism and impurity, which really attest the divine origin and operation of Christian Science." Visitors always welcome.

THE CHURCH OF CHRIST
Corner 7th and Grand Ave.

We were made glad to see the good increase also several new members added to our Bible school last Sunday. There was one added to the church by baptism Sunday night. Our Bible school is now getting back to normal with an increase in attendance every Sunday, yet there are a good many staying away. Brother Jeff Coats of Arkansas will begin an old time camp meeting at Pinon next Saturday night running for two weeks, the stockmen will furnish plenty of meat free, and everybody is invited to attend this meeting. You will hear some good preaching and will have a good time.

We hope to have a larger increase in our Bible school next Sunday. All visitors receive a most hearty welcome. If you are not attending some Sunday school, you are invited to come and be with us. There is always a good Bible lesson given by some of the brethren at the Communion service. Bible school starts at 10:00 a. m., you are invited to attend our services.

FIRST PRESBYTERIAN CHURCH
Fourth and Grand
Rev. John P. Sinclair, Pastor
Phone 249.

Sunday, August 11, 1929.
9:45 a. m., Sabbath School.

11:00 a. m. morning worship and sermon. Subject, "The Secret of a Happy Sabbath Day." Ought we to legislate people into Sabbath observance? Should we allow the great commercial amusement organizations to destroy the Lord's Day? What should genuine Christian people do?

7:15 p. m., Christian Endeavor.
Two groups.

8:00 p. m., Popular people's service.
Music by the church orchestra.

Sermon subject, "Something Too Precious To Be put In The Moving Van." What is it?

Wednesday 7:30 p. m. Praise prayer and Bible study.

Whatever temple, science or amusement may seek to rear in any age, there will always need be, hard by, a Gothic chapel for wounded souls. Therefore support your church by your attendance!

TO MAKE RELIGIOUS SURVEY

At a meeting of the Council of Churches held Wednesday, July 31, in the Methodist church study it was decided to make a religious survey of Artesia on the first Sunday in September. The present influx of new residents seemed an opportune time for such a church census to be made.

The council and all the churches will tender a public reception to the school faculty on Friday evening September 6th, in the Baptist church. This will be a fine opportunity for the school patrons to especially welcome and get acquainted with the new teachers.

Sunday September 8th will be celebrated by the Artesia churches

Pastries and Cakes

You will always find a large assortment of Pastries and Cakes at our Bakery—deliciously flavored, well prepared and appetizing.

as a "Go to Sunday school day." It was decided by the Council of Churches to hold the usual fall rally day of the Sabbath schools simultaneously and work for a record attendance.

JOHN P. SINCLARI,
Secretary of Council of Churches.

THE FIRST BAPTIST CHURCH

Dr. Stumph of Albuquerque, Secretary of State Missions was with us last Sunday and brought us a fine message. A goodly number were present and seemed to greatly enjoy his message. We were glad to have him with us. We also had a good service at the evening hour with a good hearing. We had splendid music.

Next Sunday morning the pastor will speak on, "Taking Passage On The Wrong Ship." At the evening hour he will speak on, "Coming Short of the Glory of God." We are expecting to have good music with the orchestra helping out at the evening service. We have had some fine music which adds much to the interest of each service. You will enjoy the music. We had an increased number at our Bible school last Sunday morning whereof we are glad. Let us all be in our places

GASOLINE TAX SHOWS 27 PERCENT INCREASE OVER JULY LAST YEAR

SANTA FE—Gasoline tax collections for July 1929 increased \$46,455.63 over July 1928 according to the monthly gasoline tax report, by Miss Mary Bartolino, collector.

The total collections for the past month were \$214,498.24 which included \$538.53 in station license fees, while the total collections for July 1928 were \$168,053.61 including \$200.79 in station license fees. The increase in sales was about 922,157 gallons or an increase of 27.4 per cent over July last year.

Red, White, Blue and Yellow carbon paper for tracing on cloth.—The Advocate.

Next Sunday morning. Remember the B. Y. P. U.s at 7:00 p. m. We extend you a hearty invitation to all our services.

R. PETERSON, Pastor.

\$734,000 IN LICENSE FEES

SANTA FE—Receipts for the motor vehicle department for the 17th fiscal year totalled \$734,000, an increase of 40 per cent over the 15th fiscal year, according to a report submitted to Governor Dillon Tuesday by Charles Roehl head of the department.

Expenditures increased from \$51,000 to \$54,000 or five per cent during this time the report states. The department has a balance of \$31,000 in its office operating fund Mr. Roehl says.

Calling Cards, 100 for \$1.75, on best grade paneled or plain stock.—The Advocate.

Announcing Two New Models of the CHEVROLET SIX

Broadening the appeal of a line of cars which has already won over 950,000 buyers since January 1st, Chevrolet presents two distinguished new enclosed models of the Chevrolet Six—the Imperial Sedan and the Sport Coupe. With beautiful new Bodies by Fisher available in a variety of striking color combinations and with numerous advanced convenience features—these new models provide, in abundant measure, those elements of distinction ordinarily associated with more expensive automobiles.

When you examine the new Imperial Sedan and Sport Coupe,

you will be impressed by their individuality and completeness. But you cannot fully realize what an achievement they represent until you get behind the wheel and drive! For here are all the qualities of six-cylinder smoothness, power and acceleration which Chevrolet alone provides in the price range of the four—combined with economy of better than twenty miles to the gallon of gasoline!

Come in today. Learn for yourself the new standards of quality and luxury that Chevrolet has made available in six-cylinder cars—at prices within the reach of all!

The Roadster, \$525; The Phaeton, \$525; The Coupe, \$595; The Coach, \$595; The Sport Coupe, \$645; The Sedan, \$675; The Imperial Sedan, \$695; The Sedan Delivery, \$595; The Light Delivery Chassis, \$400; The 1½ Ton Chassis, \$545; The 1½ Ton Chassis with Cab, \$650. All prices f. o. b. factory, Flint, Mich.

COMPARE the delivered price as well as the list price in considering automobile values. Chevrolet's delivered prices include only reasonable charges for delivery and financing.

Jackson-Bolton Chevrolet Co.

ARTESIA, NEW MEXICO

A SIX IN THE PRICE RANGE OF THE FOUR

LOCALS

J. H. Jackson was attending to court matters in Carlsbad Tuesday.

Mr. and Mrs. M. W. Evans left Tuesday to spend a couple of weeks at Hot Springs.

Miss Annabel Prude, of Hope, is spending the week here with her sister, Mrs. Finn Watson.

Carl E. Bildstone is spending a fortnight's vacation at Tucuman, his former home and at Denver, Colorado.

Miss Emma Briscoe has been visiting friends in Carlsbad this week while taking her vacation from the Peoples drygoods department.

Mrs. J. W. Brown and Mr. and Mrs. N. L. Dickey, of Baird, Texas stopped off in Artesia Monday for a short visit en route to Santa Fe.

Mrs. W. E. Jackson and son, of of Marvell, Arkansas, are visiting at the home of Walter Graham. They are en route home from a visit to El Paso, Texas.

Mrs. F. P. Harris accompanied by her daughter Sybil and son James arrived Thursday for a visit with Mrs. Harris' daughter, Mrs. W. C. Martin and family.

J. W. Carruth, Fort Worth, Texas oil operator accompanied by his wife and daughter, Miss Waldine, arrived here yesterday and plans to spend several days here looking after oil interests.

E. F. Priest, former coach of athletics in the Artesia High school, has been employed as instructor of science in the Clovis High school, according to reports reaching here the first of the week.

George Threlkeld was looking after business affairs here on Tuesday. He was en route home to Roswell from Cloudcroft, where he spent the week end with Mrs. Threlkeld, who is summering there.

Mrs. E. N. Bigler and daughter, Miss Ruth, are at their cabin in the Artesia-Sacramento camp, having gone to the mountains Sunday. Mr. Bigler motored up to the camp with them and returned after a short stay.

James L. Allen, high school coach, returned Monday from Iowa City, Iowa, where he attended the first semester of the Iowa University. Mr. Allen is making preparations to start his work in the high school next month.

Rev. Mrs. Mary Hartline and her daughter, Mrs. Mary Jane Wilde with her children, of Clovis, also her daughter and Miss Alice Owens of Jefferson, Iowa, arrived Monday to visit their relatives, Mrs. Rigdon and Mrs. Clarke Wilde and family.

Mr. and Mrs. Jim Conner of Electra, Texas, are spending a few days here visiting Mr. Conner's brothers Abe, Ed and Ross and their families. Mr. Conner is one of the early residents of this section. He moved from Artesia with his family eleven years ago.

Mr. and Mrs. Gerald Adams, of Ardmore, Oklahoma, were in town Tuesday calling upon old friends of Mrs. Adams, who will be remembered as Miss Mildred Larsh. They were on their way to Pampa, Texas to visit Mrs. Adams' parents, Mr. and Mrs. H. L. Larsh.

Mr. and Mrs. Carl Black arrived Monday from Cisco, Texas, for a visit with their relatives, the Dunns. They drove to Alamogordo by way of Cloudcroft, to visit Aubrey Dunn and wife, and will return this evening. They also expect to visit the Ceriland Cavern while here.

Mrs. E. D. Osborn and children, Miss Gladys and little Harry, who have been visiting at the home of Mrs. Osborn's sister, Mrs. I. C. Dixon, left Tuesday for their home at Deming. Mrs. Dixon and Miss Katherine Filbert motored to Roswell with them.

Mr. and Mrs. Joe Womack, who had been visiting Mrs. Womack's sister, Mrs. Fletcher Owens and family, left Tuesday for their home at Sylvia, Kansas. Mr. Owens and family and Miss Ruth Wilde accompanied them home and will visit there for two of three weeks.

Mrs. William A. Fletcher of Berkeley, California, arrived in Artesia Tuesday for a visit with her daughter, Mrs. J. W. Collins and Mr. Collins and family. En route to Artesia Mrs. Fletcher made a visit with Mrs. C. M. Botts and Lon M. Fletcher and their families of Albuquerque.

Mrs. Clara Morthland, a former resident of Artesia, now of San Diego, California, arrived Sunday and is spending the week here visiting Mrs. J. H. Jackson and other friends. She was accompanied here by her daughter, Alva Dee and the latter's husband, of Amarillo, who drove on to Carlsbad and are spending the week with Mr. and Mrs. Ellis Hall (Bertha Shattuck) also formerly of Artesia.

Mr. and Mrs. Jim Stagner were up from Carlsbad Sunday visiting home folks.

Messrs. Glenn Naylor, Leo Jackson and J. Terry returned Saturday from a visit to El Paso.

Mr. and Mrs. Lewis Story and children left Sunday for Denver, Colorado on a combined business and pleasure trip.

C. C. Allinger of Shattuck, Oklahoma is visiting his son, A. L. Allinger and Mrs. Allinger for a few days this week.

Mrs. Percy George accompanied by her daughter, Miss Mattie, left Saturday for a fortnight's visit with Mrs. George Threlkeld at Cloudcroft.

W. T. Cook and nephew Frank Cook of Puente, California, and former residents of this section were visiting friends at Lakewood for several days last week.

J. H. Slayter, managing editor of the Hagerman Messenger, accompanied by Rev. Bryan Hall and Rev. Harold Dye, also of Hagerman, were pleasant callers at the Advocate office Saturday.

Doc B. L. McLeer of Lakewood, staunch Al Smith democrat was shaking hands with friends here Saturday. Doc, who has a nice little corn patch near his dwelling, estimates the production at fifty gallons per acre.

Dr. J. Z. Brown and daughter Miss Bertha of Leuders, Texas, spent several days here the past week visiting at the home of his son, Otis Brown and family. Dr. Brown who is a former resident of the Hope section was very favorably impressed with the fine range and crop conditions of the valley.

URGES REGISTRATION OF EVERY BIRTH AND DEATH

The following letter received from M. W. Stewart, director of census in the Vital Statistics department of the United States Department of Commerce, is self explanatory and follows:

August 1, 1929.
Editor, Artesia Advocate:

Dear Sir:
The importance of birth and death registration is now universally recognized. Vital records have become indispensable to the adjustment of problems involving heredity, legitimacy, property rights and identity. In certain of our states and territories, the question of citizenship itself may be determined upon the basis of birth records. Federal registration, however, is accomplished wholly through the cooperation of the states in furnishing transcripts of their records to the bureau of the census, the federal government paying for the transcripts at an established rate.

New Mexico, Texas and South Dakota are the only states not now included in the federal registration area. This bureau is now making a test to determine whether birth and death registration is sufficiently complete to justify New Mexico's admission into the area. Post cards like the samples inclosed herewith are being mailed in Washington to all postmasters in the state who will see that they are distributed to all private homes.

To insure a large proportion of returns, it is earnestly requested that you give publicity to the importance of the work. In this way you will render a valuable service to the state of New Mexico and to the federal government.

In each of your articles or references to the test, please request that each family in which a birth or death has occurred during the past year

fill out the card and mail it promptly. Please lay special stress upon the fact that we desire the cards to be filled out and returned even though the family knows the birth or death has already been registered locally. Thanking you for your assistance, I am

Very truly yours,
W. M. STEWART,
Director of the Census.

TARIFF ON AUTOS REDUCED

WASHINGTON, D. C.—Republicans, engaged in amending the house tariff bill yesterday reduced the duty on automobiles from 25 to 10 per cent and reaffirmed their previous action in eliminating the existing countervailing clause permitting the United States to raise its motor vehicle tariff to meet foreign levies.

By the change, trucks valued at less than \$1,000 also would be dutiable at 10 per cent, but trucks worth more than \$1,000 and buses intended to carry ten or more persons would bear the 25 per cent rate.

Previously, the tariff framers had eliminated only the countervailing clause; the cut in the duty decided upon yesterday, they said, was made after it was learned that Alvan Macaulay, president and the National Automobile Chamber of Commerce has reversed his position and had agreed to both the duty reduction and countervailing clause elimination.

Ned: "Well, how is your companionate marriage working out?"
Jed: "Terrible—I've lost my wife's address!"—Judge.

Constable: "Here, you've been walking round this square for an hour and it's three in the morning."

Jones: "I've got insomnia, officer."
Constable: "Well, you can't walk about here—you'd better go to bed and sleep it off!"

A NEW SYMBOL OF A GREATER SERVICE

CONOCO

Two old established oil companies join forces better to serve their millions of customers

A STATEMENT

The consolidation of the Marland Companies and the Continental Oil Company has combined the producing, refining and marketing facilities of these widely known manufacturers and distributors of petroleum products.

The high standards of manufacture which have established and maintained the reputation of the high quality products heretofore sold under the Conoco and Red Triangle brands will be strictly maintained.

The same chemists and engineers, the same refineries and, above all, the same policies, will support the new trade mark "A new symbol of a greater service."

DOVES NUMEROUS THROUGH NEW MEXICO

SANTA FE—Doves are reported to
be unusually numerous over the
state, E. L. Perry, state game warden
said Monday.

The season on doves opens Septem-
ber 1 and lasts until December 15th.
These birds migrate from higher
to lower altitudes as cold weather
sets in, Mr. Perry said and dove
hunting in the southern part of
New Mexico should be unusually
good during the fall.

More TOURISTS RIDE on Goodyear Tires than on any other kind

Tourists travel for pleas-
ure, not to be delayed in
a strange country by tire
troubles. Experience has
shown them that for en-
durance on long trips, at
sustained high speeds and
in all kinds of weather and
for traction over all sorts
of roads, Goodyear tires
have no equals.
Millions more people ride
on Goodyear tires. Why
not?—they're the best yet
cost no more.

LOCALS

Mrs. Sidney Wood, of Carlsbad,
formerly of Artesia was in town
yesterday calling on friends.

Dee Burdette, who is employed as
watchman at a well in Lea county
spent Sunday with his family in
Artesia.

Alf Coll and family left this morn-
ing for the Coll cabin on the Rui-
doso, where they expect to remain
until Monday.

Mr. and Mrs. Beecher Rowan and
daughter, Miss Aline, and Mrs. Fer-
ris Arnold, returned Sunday from a
visit to relatives at Dimmitt, Texas.

Mrs. Tom Spivey and daughter,
Miss Vella, are expected home the
last of the week from a visit to re-
latives at Graham, Wichita Falls and
other points in Texas.

Dr. Puckett, wife and daughter
were in town from Carlsbad yester-
day. Joe Young, whose wife is a
patient in a Carlsbad hospital, came
up from there with them on his way
to his ranch home, west of Hope.

Hoyt Keller and wife, of San An-
gelo, Texas, spent several days here
last week, guest of Mr. Keller's
cousin, Ike Keller and family. On
Thursday Mr. and Mrs. Keller ac-
companied their guests on a trip to
Roswell.

Lee Vandagriff drove over to Pecos
Texas Saturday to meet his father
J. C. Vandagriff of Iraan, Texas.
Mr. Vandagriff will visit with the
Vandagriff family here for a short
time before leaving with his son
Lee for Oklahoma next week.

Miss Hazel Morris, a former teach-
er in the Junior High school, has
been re-employed and will take her
old position here. Miss Morris was
a popular teacher and will be wel-
comed back by her many friends.
She has been teaching at Cisco, Tex-
as for the past few years.

The Misses Arless O'Keefe and Lil-
lian Hagens, also a brother of the
former Wallace O'Keefe, of Pan-
handle, Texas, were week end guests
at the E. B. Bullock home while on
a trip to the Carsbad Caverns, which
they visited on Sunday. The young
ladies were school mates of Miss
Ethel Bullock at Texas State Teach-
ers' College at Canyon, Texas.

IN THE PROBATE COURT, COUNTY OF EDDY, NEW MEXICO

IN THE MATTER OF THE ESTATE OF JIM L. HARRIS, Deceased.
No. 608.

NOTICE

Notice is hereby given that the undersigned was on the 22nd day of June, 1929, appointed administrator of the Estate of Jim L. Harris, Deceased, by Hon. M. O. Grantham, Probate Judge of Eddy County, New Mexico.

Therefore, all persons having claims against said estate are hereby notified to file the same with the County Clerk of Eddy County, New Mexico, within one year from date of said appointment as provided by law, or the same will be barred.

Dated July 20, 1929.
EUGEN F. HARRIS,
Administrator.
32-4t

ORDINANCE NO. 217

AN ORDINANCE REGULATING THE DRIVING AND OPERATING OF A MOTOR VEHICLE IN THE TOWN OF ARTESIA, NEW MEXICO, AND PROVIDING FOR THE PARKING OF SAME WHEN THE FIRE ALARM IS SOUNDED. ALSO PRESCRIBING THE PENALTY FOR VIOLATION OF THIS ORDINANCE.

Sec. 1. BE IT ORDAINED by the Board of Trustees of the Town of Artesia, New Mexico, that, upon the sounding of the Fire Alarm, or the approach of any Police or Fire Department vehicle, giving audible signal by bell, siren, or exhaust whistle, the driver of every other vehicle on any street shall immediately drive said vehicle to a position as near as possible to the right hand edge or curb of the street, clear of any intersections of streets, and shall stop and remain in such position, unless otherwise directed by a Police or Traffic Officer, until the fire alarm has ceased to sound.

Sec. 2. It shall be unlawful for the driver of any vehicle, other than one on official business, to follow any fire apparatus, travelling in response to a fire alarm, closer than Five Hundred Feet, or to drive into, or park, such vehicle closer than Three Hundred Feet of the place where the fire apparatus has stopped in answer to a fire alarm.

Sec. 3. Every person convicted of the violation of any of the provisions of this act shall be punished by a fine of not more than Twenty Five Dollars, or by imprisonment in the County or Municipal Jail for not more than Ten days.

Sec. 4. All ordinances, or parts of ordinances in conflict herewith are hereby repealed and this ordinance shall be in full force and effect from and after its passage and publication, being hereby declared an emergency ordinance on the ground of urgent public need.

Signed: C. E. MANN,
Mayor.
Attest: EDWARD STONE,
Town Clerk.

Passed, adopted and approved this 5th day of August, 1929. 34-1t

TERRACING STARTED IN COLFAX COUNTY

The Corsicana Grader and Machine Company, of Corsicana, Texas, sent their best field man to New Mexico on August 5 and 6 to assist with the terracing demonstration on the farm of O. F. Harris in the Kiowa valley, in Colfax county. This flat and fertile valley offers one of the greatest opportunities for successful terracing and increasing crop production of any section of the state.

Business men as well as farmers were invited to attend this demonstration. Posters announcing the date and showing the benefits derived from terracing were hung in conspicuous places. Farmers and others interested were given demonstrations on how to run terracing lines, lay out terraces, build the proper type of terraces and were shown what might be expected by a farmer who follows this system of farming.

Due to the fact that a county agent has been in Colfax county only a short time, no similar demonstrations have been held previously in this community. By terracing, Mr. Harris will be able to hold back a large amount of water that runs over his fields and he is now planning on seeding a part of this land to alfalfa. At present there is very little alfalfa grown in this community, but with the added stored moisture, good crops will be possible.

Typewriter Ribbons—The Advocate

ALL ROADS MUST BE SMOOTH ROADS IS THE CHRYSLER SLOGAN

"All roads must be smooth roads to a Chrysler car," is the slogan of engineers at the Chrysler plant at Detroit.

As a result of continuous and exhaustive research on the part of these engineers, the Chrysler "65" "75" and the "Imperial" are noted for their riding ease over any road and under all driving conditions.

Experience in building quality cars has proved to the satisfaction of Chrysler engineers that no part of an automobile is more important to real comfort in riding than the springs, which in Chrysler cars are designed especially for the model into which they are built.

Exhaustive tests and continued research in the Chrysler engineering laboratories have resulted in standards being set for the springs on each Chrysler model. Those on the roadster are different from those used on the sedans, coupes, or phaetons, etc.

In arriving at these standards, springs are designed to be used in the various models are tested for hours in a device which automatically reproduces upon the spring the same effect to which it would be subjected in actual road operation. To be approved for production, they must operate satisfactorily for a million applications of the apparatus. Every spring, made according to the standard thus arrived at, is first tested for resilience and balance with the other springs which will be installed in the chassis, and then tested for fatigue. Only when found perfect are they accepted for use on any Chrysler model.

The riding comfort of Chrysler "65," "75" and "Imperial" cars is further enhanced by the manner in which springs are mounted in rubber insulators instead of being shackled to the frame by bolts. These rubber mountings require no attention or lubrications and effectively cushion the frame and body of the car against road shocks. To add further to the smoothness with which these cars overcome the roughest roads, they are equipped with hydraulic shock absorbers. These effectively control spring action and any tendency to rebound, being constructed also to a standard arrived at through tests which subject them to movements similar to those experienced

Why Sailors Don't Whistle

A navy man may sing but he seldom whistles, for there is an old superstition that whistling will bring a hurricane. Today, however, this superstition is replaced for the nonwhistling sailor because when an order is about to be passed throughout the ship the boatswain's mate, to whom this duty is given, first calls attention of all by sounding his pipe or whistle. If whistling were permitted it might be mistaken for the preamble of an order.

when the car is actually on the road. All shock absorbers installed also are tested before being placed in the finished car. Chrysler engineers, not satisfied with these preliminary, individuals tests of springs, shock absorbers and rubber spring mountings, test them in the finished product on the noted road test apparatus at the Chrysler plant, where all equipment installed in finished cars is given final inspection to determine that each unit operates perfectly with its component.

STATE TO JOIN FEDERAL BUREAU IN A TRAFFIC CENSUS

SANTA FE.—Joining in with other states and the Federal Bureau of roads New Mexico is to have a uniform traffic census such as prescribed by the government road bureau, the state highway commission having authorized cooperation with the government for this purpose.

The expense will be borne partly by the federal bureau and partly by the state, it was declared by highway officials. Several other states in the Rocky mountain region have recently signified their intention of joining with the government engineers in the great nation wide census they are urging.

Previous census takings which the state has done have proved highly beneficial, the highway men say. It is expected that the results of the close and accurate census which the bureau will sponsor will not only be of major help in studying road problems, road capacities, effect on design and other technical problems but will also be of aid commercially to business men whose ventures depend on traffic rise and fall.

Dining Places Use Name "Pig and Whistle"

Every little "Greenwich Village" has its "Pig and Whistle"—in fact, the number of "Bohemian" restaurants, both in America and England, which call themselves "Pig and Whistle" is legion.

Just why this should be so is a curious illustration of how two such apparently unrelated and meaningless terms should be applied to a place of eating.

The fact is that the expression "Pig and Whistle" is a corruption of the original language, which read "Bowl and Wassall" and "Wassall Cup and Wassall."

In old English "Wassall" was a sort of salutation used in drinking with the raising of the cup. It was the near equivalent of our "To your health."

Also, in old English, the "pig" was a small cup or mug.

So "Pig and Wassall," in reality meaning "Drink hearty," achieved a wider and perfectly logical use as a name of identification for a place in which to dine and toast one another's health.—Kansas City Star.

For Real Filling Station SERVICE

Visit the new Phillips Station on the highway for a real grease job, drive on the hydraulic grease rack—the only one like it in Artesia. Every working part of the car chassis is greased thoroughly and in addition we have a special air force spray in which we use a special prepared spring oil that sprays your springs and every working part that doesn't have a grease cup.

WE ARE ALSO PREPARED TO GIVE YOU

First Class Tire Service AT ALL TIMES

We carry a complete line of the well known Federal Extra Service Tires and Tubes.

Phillips Station

OTTO CONLEY, Manager

Another FINE FEATURE.. Plymouth has Over-Size Tires

PLYMOUTH
AMERICA'S LOWEST-PRICED
FULL-SIZE CAR

YOU will find on Plymouth the largest tires of any car in the low-priced field. Real over-size balloons—4.75—more than ample for this full-size car.

That is why the improved Plymouth, with so much else to talk about, devotes an entire advertisement to over-size tires.

Many motorists lose sight of the fact that tires can make a big difference in riding ease—and forget how much tire size means to safety.

Larger tires mean riding on more air, which in turn means greater buoyance and comfort. Then, too, larger tires wear longer, add much to appearance and, most important of all, give the car greater traction which means sure-footed safety.

From tires to roof, from radiator to tank, Chrysler engineers have endowed the improved Plymouth with qualities and abilities never before available in a car of low price.

\$655
and upwards f. o. b. factory
Coupe, \$655; Roadster (with rumble seat), \$675; 2-Door Sedan, \$675; Touring, \$695; De Luxe Coupe (with rumble seat), \$695; 4-Door Sedan, \$695. All prices f. o. b. factory. Plymouth dealers extend the convenience of time payments.

Lesson for August 11

DANIEL AMONG THE LIONS

LESSON TEXT—Daniel 6:1-28.
OLDEN TEXT—The angel of the
encampment round about them that
aim, and delivereth them.
PRIMARY TOPIC—Daniel Is True
to God.
INTERMEDIATE AND SENIOR TOPIC—
The Meaning of True Courage.
JUNIOR PEOPLE AND ADULT TOPIC—
The Courage of Faith.

Daniel the Prime Minister of the
Persian Empire (vv. 1-3).
The king's worth brought him to the
king and kept him there. The new
king was even to discern his worth
to give it recognition.

An Occasion Sought Against
Daniel (vv. 4-9).

The reason for (v. 4). No doubt
which prompted this effort was
jealousy.

Failure of (v. 4).
Daniel's official record was blame-
less. They could not even find an
error in his life.

Envy is still in the world.
Those who excel in any line are sure
to suffer in some way for their ex-
cellence. The successful business
man in relation to his competitors, the
pupil in school, the child of
merit in the home, will be
envied by the others. In politics many
of those who honestly strive to do
their duty are persecuted. Even in
church we find ministers are some-
times of their superiors.

The wicked plot (vv. 5-9).
Daniel was trumped up a charge on the
ground of his foreign religion. They
were not careful about their method.
The king's end was attained. In spite
of Daniel's loyalty, the decree was
issued by the king which would put
him to the test of lions.

Daniel's Noble Confession (vv.
10-12).

Though Daniel knew that the
decree was signed, he knelt
before God as usual. Note the silence
of the king. Weak men bluster;
strong men have little to say.

He continued his usual habit (v.
13).

He knew that the civil law had
nothing to do with his re-
ligion. God's law is first. Laws for-
getting the Bible, praying, or
worshiping God, have no au-
thority over men.

Daniel reported to the king (vv.
14-15).

The wicked men watched to find
whether Daniel would pray be-
fore God, and when they found
he continued his worship, they
reported to the king and reported that
he disregarded his decree.

The Foolish Decree Executed
(vv. 16-17).

The king displeased with himself
for not heeding Daniel's counsel
labored till the going down of
the sun to deliver Daniel, conscious
he had been entrapped.

The king's helplessness (v. 15).
The king's ruler found that he was
helpless. To enact laws which change
the height of folly.

Daniel cast into the den of lions
(v. 16).

The king's parting word to Daniel
was, "God deliver thee." Daniel's
poor, feeble excuse for his
conscience.

The double seal (v. 17).
The double sealing shows the king's
desire to abide by the unfortunate
decree.

Daniel Delivered (vv. 18-23).

The contrast between the
lion's den and the one in
the palace. In the palace there was
peace, no wrath. Daniel's quiet in-
terference of the safety and peace
were the portion of those who
do God's will.

The king's question in the morn-
ing (v. 20).

Daniel's answer (v. 22).

God has done many wonder-
ful things. The early Christians
were persecuted, stripes and death.
Daniel delivered (v. 23).

The manner of hurt was found be-
cause he believed in his God.

The Doom of His Accusers (v.
24).

They were cast into the den of
lions. For ever they came at the
den of the lions, their bones were
in pieces. Daniel's enemies
were the same trap which they pre-
pared for him.

Darius' Decree (vv. 25-27).

They were to tremble and fear be-
fore Daniel's God. As to whether
there was a change of heart we do
not know.

Daniel's Prosperity (v. 28).

He goes higher into the king-
dom than ever. He continues in his place
even though dynasties change.

In a Better World

A comfortable old age is the re-
ward of a well-spent youth; there-
fore of its introducing dismal
prospects of decay, it
gives us hopes of eternal youth
in the world.—Palmer.

When a Cross Is Formed

Our will runs parallel with the
will of God; no cross is formed; but
our will runs counter to God's
will, a cross is formed which is heavy
and painful.—Aughey.

THINGS THAT NEVER HAPPEN

By GENE BYRNES

Drinking water for the poultry
flock should be kept out of the
sun in hot weather and renewed
twice a day.

Feed silage to the dairy cow im-
mediately after milking. It may
flavor the milk if given before or
during milking.

"Dehorning, castrating, branding
and marketing beef cattle" is the title
of a recent Farmers' bulletin, 1600-
F issued by the U. S. Department
of Agriculture. It can be obtained
by writing to the department at
Washington, D. C.

The time-worn theory that "sheep
having a covering of wool over
their faces are the best," is now
being exploded. Studies made by the
U. S. Department of Agriculture
show that ewes of the Rambouillet
breed that are free from heavy face
covering yield the heaviest fleeces,
both scoured and unscoured.

The only redeeming trait that cock-
roaches have, according to ento-
mologists of the U. S. Department
of Agriculture is that they some-
times eat bedbugs, but most people
don't want to keep roaches for this
purpose. Fortunately it is easy to
kill them, by sprinkling powdered
sodium fluoride or sodium fluosilicate
wherever they appear.

There are in the United States
more than one thousand dairy-herd
improvement associations which
provide for the testing and classifying
of nearly a half-million dairy cows.
The cows entered in these organiza-
tions produce an average of 295
pounds of butterfat yearly while
the average production of all cows
in the United States is but 180
pounds of butterfat a year.

A runaway team can not be stop-
ped with weak reins, nor will weak
tugs and straps on the harness with-
stand heavy work. Harness should
be looked over to see that the leath-
er parts have no cuts, holes, brands
thin places or other imperfections
that impair its strength. New harness
leather that shows cracks on the
grain side when sharply bent
is practically worthless, and cracks
in old harness show that it is rotting.
Breaks and rips in the leather should
be repaired promptly.

A grain mixture for cows on good
pasture as a rule need not have as
high a percentage of protein as the
winter ration. The two following
grain mixtures for supplementing
pasture, without other roughage, are
recommended by the U. S. Depart-
ment of Agriculture: Ground oats,
100 pounds, wheat bran, 100 pounds,
and corn meal, 50 pounds; or wheat
bran, 100 pounds, corn meal, 100
pounds, and cottonseed meal, 25
pounds.

"Docking" the losses from dockage
in spring wheat can be accomplished
by the use of a self-cleaning screen
at threshing time, says the U. S. De-
partment of Agriculture. The self-
cleaning screen consists of a series
of agitating racks rubbing on the
underside of the screen which pre-
vent it from clogging. Over 800 of
these self-cleaning screens were used
in the spring wheat area in 1928 and
successfully removed large quantities
of small weed seeds and part of the
wild oats. The average feeding value
of dockage produced each year in

HED MACKEY HERE SCHEDULED FOR N. M.

Arrangements have been made
by the extension service of the New
Mexico Agricultural College for A.
K. Mackey, chief of the sheep and
goat husbandry section, Texas, A.
& M. College, to conduct a series of
meetings in different parts of the
state, beginning August 6 and end-
ing August 15. The schedule of
meetings is as follows: Lordsburg,
Hidalgo county, August 6; Pinon,
Otero county, August 8; Roswell,
Chaves county, August 10; Artesia,
Eddy county, August 12; Clayton,
Union county, August 14; Springer,
Colfax county, August 15.

Mr. Mackey will discuss such sub-
jects as range management, breed-
ing and grading and marketing of
wool and mohair, also samples of
injurious substances which are some-
times found in wool, such as needle-
grass, etc.

Mr. Mackey received his training
at the University of Illinois and was
later Professor of Sheep Husbandry
at that institution. He later took his
post-graduate work under Dean Hill
at the University of Wyoming. Dean
Hill's course is recognized as being
the best training it is possible to re-
ceive in the United States. Mr.
Mackey then accepted a position as
herdsman of the King Bros. ranch,
Laramie, Wyoming, which is one of
the leading Rambouillet breeding es-
tablishments of the United States.

For the past several years Mr.
Mackey has been in charge of the
sheep and goat work at Texas A. &
M. College, and in addition to hav-
ing a profound knowledge of his
subject, is considered one of the
leading judges of the United States.
He is also a very interesting speak-
er and a man who meets men upon
an absolute equality. His meetings
are characterized by the feeling on
the part of the audience that he
is one of them and does not attempt
to obtain any special consideration
or credit for the work he does.

THE TEST OF A MAN

The test of a man is the fight he
makes.

The grit he daily shows;

The way he stands on his feet and
takes

Fate's numerous bumps and blows.

A coward can smile when there's
naught to fear,

When nothing his progress bars,

But it takes a man to stand up and
cheer

While some other fellow stars,

It isn't victory, after all,

But the fight that a brother makes;

The man, who, driven against the
wall

Still stands erect and takes

The blows of fate with his head held
high,

Bleeding and bruised and pale,

Is the man who'll win in the by and
by

For he isn't afraid to fail.

It's the bumps you get and the jolts
you get,

And the shocks that your courage
stands,

The hours of sorrow and vain regret,

The prize that escapes your hands

That test your mettle and prove your
worth;

It isn't the blows you deal,

But the blows you take on this good
old earth

That shows if your stuff is real.

—Exchange.

tions, Engraved or Printed—Advocate
Wedding Announcements and Invita-

the spring wheat area from wheat,
flax and rye is about \$10,000,000.

If this dockage is removed as part
of the threshing operation, it can
be used as livestock feed and handling
charges for it will be saved. All
dockage fed to livestock should be
ground to prevent spreading weed
seed on the farm.

Telephone News

More Days of Vacation Pleasure

Winding Roads Lead to Summer Playgrounds

August—late summer still calls the motoring world.
Everywhere, vacation lands invite you from beyond the
hill ahead or the next bend in the road.

As you travel, telephone
ahead for reservations. The as-
surance of a comfortable place
to stay makes each day's trip
more pleasant.

Whether your trip takes you to a quiet mountain re-
sort or a distant city or town, daily contact can be main-
tained with home or office—by telephone. It's quick and
inexpensive.

Know the Number?

On most out-of-town calls by number you can generally
hold the line while the connection is being made, just as
you do on a local call.

If, when placing a long distance call,
you tell the operator you will talk with
anyone at the called telephone but do not
know the number, she will inform you just
before completing the connection. Calls of
this nature are known as station-to-station
calls and are less expensive than person-to-
person calls.

Keep a record of those out-of-town numbers you fre-
quently call. When the operator gives you a number you
had not known, jot it down. It will save you time and
speed your service on future calls.

Baseball Notes

Carl Manda, dean of valley third basemen was out of Sunday's fray with an injury sustained in the opening game on Thursday.

The Roswell outfit just couldn't agree with the two umpires Sunday. H. Etz started aching early to umpire Leftwich at the plate alleging that catcher Maxwell was tipping his bat. The other players kicked on practically every decision rendered thereafter by both umpires.

Lefty Gifford had an unusual day in the field for a pitcher, having eight assists without an error. He made three assists in one inning to retire the side.

Rocky Kyle fell over the first bag in making a play early in the game, but managed to stop the ball and get his man.

Mickey, visiting third sacker hit the left field fence twice, both blows going for two bases.

The strong Southland, Texas team will be the next attraction at the local ball yard, playing the Oilers Sunday. This was one of the best clubs to appear in the valley last season and the locals are prepared for a hard tussle with the invaders. Be on hand at Brainard Park Sunday afternoon at 3:00 if you want to see some real baseball.

Roselawn avenue should be sprinkled before another game. The heavy fog of dust is a constant menace to the heavy traffic, besides being a great injustice to local residents along the route.

NINE BIRTHS THREE DEATHS RECORDED IN THE MONTH OF JULY

Nine births and three deaths were recorded by S. E. Ferree, sub-registrar for the Cottonwood, Atoka and Artesia districts for the month of July. The births registered were: Mr. and Mrs. Fred Savoie, twin boys; Mr. and Mrs. Otis Brown, son; Mr. and Mrs. Earl H. Kendall, daughter; Mr. and Mrs. Charles Morgan, son; Mr. and Mrs. Ysidro Alvarez, son; Mr. and Mrs. E. Hernandez, son; Mr. and Mrs. V. Molina, son; Mr. and Mrs. Ed Emery, daughter. Death certificates were issued for John Vogel, John McCormick and R. Erdia.

LAKE VAN AT DEXTER TO BE STOCKED WITH BASS BY GAME DEPT.

Announcement was made last week that the State Game and Fish Department was preparing to stock Lake Van near Dexter with bass. All of the rough fish are to be poisoned preparatory to stocking the lake. When the project is completed the east side of the lake will be opened to the public, while the west side will be reserved for club members.

The End of Vacation Time is Still a Long Way Off

One of our good Used Cars will take you where you want to go safely and economically. Our Used Car list for this week includes the leading models of the popular cars.

LOCALS

A. D. Hill of the Cottonwood community and grand son, Oscar Montgomery Jr., were pleasant callers at the Advocate office Saturday.

Mrs. Wallace Merchant, who has been a guest at the home of her daughter, Mrs. Ballard Spencer, for the past two weeks, left Tuesday for the Merchant ranch in the Capitan mountains. She was accompanied by Mrs. Spencer, who will spend a few days there. Mr. Spencer left this morning to make a visit to one of his goat ranches.

Mrs. Osborne and Mrs. Granville Powers, mother and sister of Mrs. Ike Keller, returned Saturday from a few days stay at the home of Mrs. Powers in Albuquerque. On Monday Mrs. Osborne left for an extended visit with another daughter, Mrs. Branch Williams of Bluffdale, Texas. Mr. Osborne remained for a longer visit at the Keller home.

Dr. Russell and wife, and daughter Miss Dora Russell and nephew, John Hogins, returned last evening from their vacation trip. The first week they spent at the Artesia-Sacramento camp and the rest of the time they were in Albuquerque. Miss Ruth Russell came with them and will spend her three weeks' vacation from her duties in the University library with her brother and family.

Mrs. W. G. Donley of Carlsbad accompanied by William Lewis of Old Mexico were pleasant callers at the Advocate office yesterday. Mrs. Donley was in Artesia in the interest of the Carlsbad Daily Current-Argus subscription campaign. Mr. Lewis is now a U. S. Consul to Old Mexico and is spending a short vacation in Carlsbad visiting friends.

The Misses Eunice and Eugenia Jackson and Edna Reddy of Wichita Falls, Texas, were here from Friday until Sunday visiting Miss Reddy's aunt, Mrs. D. I. Clowe, and family. On Saturday they took the trip through the Carlsbad Caverns and on Sunday left for a visit at Portales en route home. Miss Eunice Jackson is county clerk of Willbarger county, in which Wichita Falls is located.

MAGIC GOLD PIECES

Magis Gold Pieces is the title of a thrilling little playlet to be presented by the Artesia Girl Scouts at the Majestic Theatre, Friday evening in connection with the benefit picture, "Scarlet Seas." No advance in prices. Come and see a good show and help the Scouts. You will like it.

BRIDGE PARTY

Mrs. Finn Watson entertained a number of her friends yesterday afternoon with two tables of bridge. A delicious two course luncheon was served at the close of the afternoon's entertainment. The guests present included Mesdames Harold Dunn, J. D. Jackson, J. A. Clayton, S. W. Blocker, Misses Helen Mann, Opal Martin, Annabelle Prude of Hope.

BASEBALL STORY (Continued from first page.)

helping to promote both a ball club and a ball park. Due credit is also given Howell Gage, G. S. Deane, Earl Bigler and Landis Feather for their untiring efforts in securing finances necessary for building the park.

Drops Last Contest

When hostilities ended between the Roswell Giants and the Artesia Oilers Sunday afternoon at the newly named Brainard park, the locals were on the small end of a 6-4 score. The game was well played and hard fought throughout and was witnessed by one of the largest crowds ever attending a ball game here. The game went to the visitors largely because they were able to turn some hard hit balls into double plays or force outs, just when the locals were all set for a bunch of runs.

Lefty Gifford went the route, on the hill for the locals and pitched a steady game, although he was touched for eleven hits during the fray. He was opposed by three Roswell hurlers. Pirtle started, but was relieved by Busby at the start of the seventh; who in turn was succeeded by Mickey in the ninth, after giving pinch hitter Martin a free ticket to first and following it up by hitting Fessler in the ribs. Mickey struck out the only two men to face him.

Brainard, McCutcheon and Jackson furnished most of the stick work for the local club, with a double and single each. Mickey was the big gun for the Battery A outfit, gathering two doubles and a single.

The visitors started scoring early, making two in the first on singles by Fellows and Packingham, and H. Etz's double. The locals countered with two in their half of the same frame on a two bagger by McCutcheon, Bird's single, an error by H. Etz and Brainard's single. The local scoring was cut short, however when both Jackson and Brainard were caught trying to make extra bases on the play.

The Giants again took the lead by scoring one in the second. Mickey rattled the left field boards for two bases, advanced to third on Kee's short single and scored on a long fly to left by Pirtle.

Roswell filled the bases in the third, but Gifford whiffed Kee for the final out and escaped without damage.

Brainard reached first on a bad throw to start the fourth. Kyle followed with a single, but Gifford rapped into a sharp double play by the way of second base.

The locals were victims of another twin killing in the next frame. On the hit and run play, Maxwell was doubled off first when Watson hit a hot liner to the pitcher.

The Oilers tied the score at three all in the sixth. With one away, Jackson shot a hot single to second that R. Etz made a good stop of, but could not make the throw. Manager Brainard drove one to center for two bases and Jackson counted.

Roswell took the lead again in the eighth by scoring two on singles by Short, Mickey and Neymeyer, with a passed ball sandwiched between.

McCutcheon dropped a Texas leaguer back of first for the beginning of Artesia's half of the eighth. Bird was a strike out victim, but Jackson came through with a two bagger to center sending McCutcheon to third. Brainard was intentionally passed, filling the bases. Kyle then hit a hard smash that Mickey stopped with his knee, but managed to hobble over third base, forcing Jackson before calling time out. McCutcheon scored on the play. Gifford sent a hard drive to Kee in right for the final out.

Roswell concluded the scoring in their half of the ninth, with Packingham's single and a double by Short that bounced off Bird's shins into a row of cars along the foul line.

FUNERAL SERVICES FOR W. S. HASKINS HELD YESTERDAY AFTERNOON

W. S. Haskins, age 76, died Tuesday evening about 6 o'clock at the home of his son, W. J. Haskins in the Phillips Petroleum camp, following an extended illness. Funeral services were held yesterday afternoon in the Methodist church, at 1:30, Rev. Harold Scoggins officiating. The body was shipped on the north bound passenger yesterday afternoon to Tahlequah, Oklahoma, where burial will be made.

The deceased is survived by two daughters, Mrs. G. F. McNett, of Tahlequah and Mrs. S. W. Wardworth of Nelagana, Oklahoma, and W. J. Haskins of Artesia, who is superintendent of the Phillips Petroleum Co. plant in the oil field.

PLEA MADE FOR CITY HOSPITAL — DESERVES SUPPORT OF PUBLIC

All of our local institutions must have the support of the public, if they are to function properly. For several years Artesia has needed a hospital to care for the sick and afflicted and in order to serve the need Mrs. Nellie Flinchbaugh, recently equipped a dwelling for a hospital. The venture has been rather expensive, in addition to the fact that it has taken quite a bit of effort on the part of the sponsors.

If the hospital continues to grow and function, it must not only have the patronage of the public, but financial aid as well. A number of local citizens feel that the City hospital can serve our present needs and will not interfere with the establishment of a larger institution, if the opportunity arises. To get the matter straight in the minds of the people, Mrs. Flinchbaugh, Tuesday issued the following statement:

To clear up a misunderstanding in regard to the status of the Artesia hospital I wish to explain that it is not a personal proposition, but a community institution and all property donated will be the property of the hospital and in the event of my giving up the management I will relinquish all claim to it. Also should a larger community hospital be started I agree to turn over all donated property to it.

CELEBRATES 77th BIRTHDAY

J. L. (Dad) Taylor, celebrated his 77th birthday the past week at the home of his daughter, Mrs. Jim Cullen and Mr. Cullen and family of the Cottonwood community. Plenty of entertainment was provided during the day with an all day picnic, with swimming, horse racing and a fish fry as the principal features. A dance in the evening concluded the festivities.

In addition to the host and hostess there were present the six children and about twenty-five grand children of Mr. Taylor, including the families of Mr. and Mrs. Will Taylor, Mr. and Mrs. Zack Taylor, Mr. and Mrs. Andrew Taylor, Mr. and Mrs. Steve Taylor, Mr. and Mrs. J. C. Garner, J. A. Penson, Mr. and Mrs. Glenn O'Bannon, Lloyd O'Bannon, Mr. and Mrs. Lad Weber, Mr. and Mrs. W. T. Henderson, Mr. and Mrs. Ben Graham, Messrs. L. C. Legg, Will Boggs, Walter Knowles, Buster Knowles, George Westall.

ORDER CHANGING BUFFALO VALLEY GAME REFUGE BOUNDARIES

Under authority conferred upon it by law, the Game and Fish Commission of the State of New Mexico does this 16th day of July, 1929, decree that the boundaries of the Buffalo Valley Game Refuge, heretofore created, are revised so that the said Game Refuge shall hereafter cover the following described area:

SE $\frac{1}{4}$, S $\frac{1}{2}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, NW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 7; SW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 8; NW $\frac{1}{4}$ Sec. 17; NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 18, Twp. 15 S., R. 27 E., SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 12; NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 13, Twp. 15., R. 26 E., N. M. P. M.

Situated in the County of Chaves, State of New Mexico.

BY ORDER OF STATE GAME COMMISSION.

34-ltc A&M E. L. PERRY, Secretary.

NEW MEXICAN WINS HIGH HONORS IN THE EDISON CONTEST

WEST ORANGE, N. J.—Wilbur B. Huston, a youth from Port Madison, Wash. was named the winner Friday of the Thomas A. Edison competition for choice of a protegee and follower in the footsteps of the inventor.

The forty nine contestants—one from each state and the District of Columbia—were lined up on the lawn of the Edison home in Llewellyn Park as the announcement was made by Dr. S. W. Stratton, president of the Massachusetts Institute of technology, who was chairman of the committee of judges.

Dr. Stratton was high in his praise of the boys, who Thursday participated in a grueling examination on subjects ranging from morals and ethics to sciences.

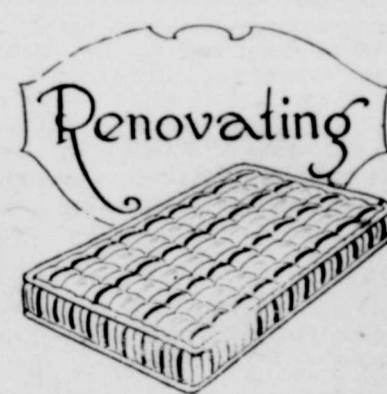

The committee announced that four other boys, who rated high in the examinations, would be given scholarships of four years in technical institutions. They were Charles A. Brounissen, of West Redding, Conn.;

REGULATE VEHICLES ON STATE HIGHWAYS

SANTA FE—Under a law by the recent legislature the minimum gross weight allowed on the state highways is 12,000 pounds, the maximum width of a vehicle is eight feet except farm trucks which may be nine feet, maximum height is 14 feet, way bulletin released Tuesday. The bulletin is in answer to numerous complaints received by the department charging trucks damaging the road with weight and with endangering motorists.

Trucks and other vehicles metal tires are allowed only 12,000 pounds to the wheel, the law says.

James Seth, Santa Fe, N. M. A. Getting of Pittsburgh, Pa. and Bernard Sturgis of Baltimore, Md. The other four averaged between 88 and 92.

OLD MATTRESSES RENEWED

We specialize in the renovation of mattresses of all kinds and we promise to make your old mattress as good as new at a very small expense. You need refreshing sleep to make you fit for the duties of the day, but you do not find comfort on a hard lumpy mattress. Ask us to renovate it and put it in first condition. We will do it quickly.
