## TRUTHFUL TEXANS EMPIRE BUILDING

All Persons Inclined to Prevaricate Should Move to Texas Where Truth Abounds.

To the persons who come to Texas, the things we have, speak in such thundering tones that they can hardly hear anything we say, but telling the truth is one of the strong points of the Texan.

In fact, it is almost impossible for a man to tell an untruth about the magnificent resources and wonderful possibilities of Texas. With all our efforts to describe them, the half has never been told. Many citizens, wholly unreliable in other states, have moved to Texas, where their imagination can revel in pine forests greater in area than the wheat fields of the Dakotas, roam in cotton fields as large as half the New England States, wander over 50,000,000 acres of virgin prairies, explore mountains of minerals and inspect the foundation timbers of the greatest civilization the world has ever known, and they become perfectly honest and highly respectable citizens. Any person who has the least inclination to prevaricate would come to Texas, where the realities so far exceed the wildest fancies of the most vivid imagination, that it is almost impossible to exaggerate.

In fit, the Texan is, as a rule, very honest in his statements and is so said of overestimating the advantages and possibilities of his country that his conservatism is frequently mistaken for ignorance, and he unconsciously allows his intellect to suffer in order to avoid the remotest suspicion of his morals; but the completion of the Panama Canal will open up such wonderful possibilities that we shall speak out with more courage.

We Are Energetic as Well as Truthful.

There is no more progressive citizen on the globe than the native Texan. He is by nature an architect and by peace a builder. Out of raw prairie and a howling wilderness he has erected a magnificent empire; founded cotton a weak and struggling industry and made it the king of products. He has taken the Texas state a wild, reckless denizen of the plains, and made of him a commanding genius of the world's markets.

### LOVE OF THE LITTLE ONES

"Suffer Them Come Unto Me" as Important as When First Uttered.

Let your legs out freely and habitually to the children. The world will come into their hands, and without it the world would be a wilderness probably in less than a century. It is more blessed to love children than to be the object of their love.—Sully Springs News.

A child is so structured that it grieves when it is not loved. And when it is loved, heart goes out in complete abandon to the fortunate soul who has captivated its confidence by a smile or a word. There he stands, his little smeared with dirt, his tiny fist deep into his eye sockets, his breast rising and falling as each throbbing escapes his lips and nobody loves him. But when he calls to him: "Come Bubby and me," one look and a second decision and his soul goes out through his eyes and his streaked face his immaculate benefactor, and by and dirt and all are cuddled her breast. And little Paul Day, hungered and wondered: "Were the wild waves saying?"—Union Post.

A MIGHTY BEEN.

There is nothing harder than to be forced to comfort oneself, "I am enrolled among the Might-haves."

We can outlive possibilities, and will, unless we grip on ourselves soon enough to put purpose and energy into lives that will help us to realize them. Take "Will-Be" your motto and "Might-have" will have lost its power to work.

Do not suffer with backache. Dr. Miller's Anti-Pain Tonic stops it.

The Currents of Civilization Flowing Texasward—69,000 Homeseekers and \$123,000,000 of Property Moving Into Texas Annually.

There is no more inspiring scene than to watch the growth of an empire, and no viewpoint is more instructive than to sit by the highway of civilization and watch the currents of progress sweep life and property Texasward.

Along the roadstead of nations there passes annually 69,000 homeseekers and \$123,000,000 of property. In this moving van of civilization can be heard the accents of every nation and the jostle of property from every clime. In this line of march can be seen the fiery haste of the East, the hurry and bustle of the North, the enterprise and enthusiasm of the West, the strange and powerful energy of Europe and the queer frugality of the Orient—all united in one thought and one purpose—to build in Texas the grandest civilization the world has ever known.

This mighty movement of world forces is the most tremendous event in human affairs today. This uprising in civilization is gathering its forces from the hills and valleys of two continents and its powerful sweep is startling the nations of the earth. No country on the globe ever possessed such a powerful asset, and economic students look with amazement upon this accumulation of human power in Texas, which must inevitably result in recasting the civilization of the whole world.

In a decade our immigration has given us a population exceeding that of the States of New Hampshire, Vermont or Delaware, and the money moved into the state during this period has exceeded the assessed value of all property in all the above states combined. Our population and wealth increased so rapidly that the figures are too large to grasp, and we must measure our growth by States and Nations.

### SHE MISSED IT

"What are you crying for, my poor little girl?" said a man to a crying child.

"Pa fell downstairs."

"Well don't cry, my dear. He will get better soon."

"That isn't it, Sister saw him all at the way I never saw him."

Do you want to buy a Kimble County ranch? If so, see M. S. Nichols at The Citizens office in Junction.

THE OFFICE CAT SAYS:

Did you see any spooks last night? I bet there was a million rearing around Junction. They ran me about seven miles, and if there had been many more of them scary critters I guess I'd be going yet. I'm a P. S. I'm goin' huntin' tomorrow.

**BECKER GUILTY OF FIRST DEGREE MURDER**

Time for Prisoner's Death in Electric Chair to Be Fixed October 30.

Counsel Takes Preliminary Steps to Secure a Stay of Execution.

NEW YORK, Oct. 29.—Twelve men, who refused today to discuss their deliberations, returned at two minutes after 12 o'clock this morning a verdict of first degree murder against Police Lieutenant Charles Becker, the first of eleven men to be tried for the murder of Herman Rosenthal. On Wednesday, October 30, Supreme Court Justice Goff will fix the time for the prisoner's death in the electric chair.

Exhausted by the ordeal of the trial, John P. McIntire, chief counsel for the defense, nevertheless began today the preliminary steps looking to an appeal and a stay of execution for his client. The case will be fought to the court of appeals, and Becker, facing his cell in the Tombs, expresses hope of the outcome. At the same time he denounces what he styles the rigorous partiality of Justice Goff in his charge to the jury and his conduct of the trial.

Mrs. Becker Faints. Mrs. Becker, who fainted in the corridor of the criminal court building when a breathless messenger sprinting for a telephone, shouted "guilty," is under the care of relatives at her home in the Bronx. Like her husband, she never dreamed of a first degree verdict, but rather expected a disagreement of the jurors.

One of the first places to which news of the verdict was taken was the West side prison, where are quartered the informers, Jack Rose, Sam Schepps, "Bridge" Webber and Harry Vallon. The four apparently expected a disagreement, however, for they were all ashen with the exception of Schepps. He was at first suspicious when told that a first degree verdict had been returned, but then remarked laconically: "Mr. Whitman is a smart man."

Prisoner Unable to Sleep. Keepers at the Tombs say that Becker did not sleep last night. He was to confer with his lawyers today and declined to give out any extended interview.

**HOLD THIRD OF WEALTH**

Morgan and Rockefeller Hold One-third of Riches, According to Congressmen.

WASHINGTON, D. C., Oct. 29.—J. P. Morgan and John D. Rockefeller control between them more than one-third of the active wealth and natural resources of the United States, according to a House committee on banking and currency, which has concluded a special inquiry. The holdings of Morgan and Rockefeller comprise 36 per cent of the country's riches, the committee reports. The commercial and financial interests have been concentrated through the interlocking of the directorates of corporations.

**SPIRITS TOLD THEM TOWED**

Think Marriage Prearranged by Dead Relatives.

Kalamazoo, Mich., Oct. 29.—Believing their marriage prearranged by relatives in the spirit world, John Adams Slocum and Charles Rector of this city were wed in presence of Genevieve Thurston, a local medium, and relatives. The bride claims that the spirit of her aunt, who died thirty years ago, and the spirit of the groom's mother arranged the match. These relatives had never known each other in material life.

**BEETATO TO BE SHOWN**

Have Shape "Potato" but "Meat" Is "Beetato."

PORTLAND, Ore., Oct. 29.—Among the exhibits at the Pacific North Land Products show, to be held next month, will be a display of "beetato," grown by L. W. Reed on a small farm at Silverlakes. The display will contain 100 large specimens of the new variety of tubers. The product, which is a hybrid between an Irish potato and a red beet, has the shape of a potato, while the "meat" is a deep purple and is declared eatable as a food.

**WOOD URGES INCREASE OF NATIONAL DEFENSE**

Says War Will Never Over as Long as Men Are Men.

LOS ANGELES, Cal., Oct. 29.—"War is not over and never will be so long as men are men," declared Major General Wood, chief of staff of the United States Army yesterday. "The Balkan war is the champion of aggression meeting to maintain the peace of the world. A nation's only safeguard against the horrors of war is preparedness for war."

Urging an increase of the national guard in South California, General Wood said: "Although the United States has the best system of defense in the world, it will not keep a strong enemy from invading our shores. Unless you have more their loss with guns in their hands you cannot keep an enemy from landing and establishing himself."

**MANY STARVED TO DEATH**

Venezuelans Kill or Roast Its Body and Eat It.

Conditions of extreme poverty and starvation in Venezuela are described in a letter written from Caracas to the State of Tennessee from two persons have starved to death during the last week in their city. "The bodies of a entire family, whose members starved to death, were found in 'house,' the letter continues. 'We almost incredible number of the names of hunger was killing of a baby by his two brothers, who then roasted the body and ate it. These conditions are placed upon political conditions, which have no neglect of agriculture.'

**WILD DUCKS CAUSING HEAVY LOSSES IN OIL**

Think Reservoirs Are Lakes of Water and Die in Them by the Thousands.

TAMPAICO, Mexico, Oct. 29.—Wild ducks are causing losses aggregating many thousands of dollars to the oil operators of the fields in the Tampico territory. Offhand it would be a hard matter to guess how these fowls could hurt the oil business.

This is the way they do it. With the first beginning of the cold season in the more northern portion of the United States myriads of wild ducks took their flight southward, millions of them continuing far down into Mexico.

Owing to the inadequate steel tankage storage facilities, many of the oil producers have been forced during the last season to build up build earthen tanks to care for the big output of crude oil. Some of these earthen reservoirs contain as much as two million barrels of the product.

When the present wild duck season opened it was found that the fowls were apparently unable to distinguish lakes of oil from water, and as a result they settled down upon the placid surface of the oil reservoirs in great numbers. The oil is of such a thick, heavy character that the ducks were unable to fly when their feathers became saturated with the fluid.

As a result the trapped ones have died by the thousands, greatly impairing and in some cases ruining the quality of the oil, it is said. In order to keep the fowls away from the open oil reservoirs, most of the producers maintain a guard with all the "shot" guns they can get. It is impossible to prevent the ducks from lighting upon the oil in large numbers.

**TEXAS BROKE RECORD BY 500,000 BALES**

Cotton Ginned in This State to October 18 Amounts to 2,214,222 Bales.

WASHINGTON, D. C., Oct. 29.—Cotton ginned in October 18 amounted to 2,214,222 bales, or 119,733 bales less than planned for that date last year, when a record crop was grown, according to the census bureau's report today. Some of the Mississippi's plantings fell below last year's, while most of the Mississippi last year's figures were exceeded in every state. Texas stood next to that 2,214,222 bales, a greater quantity by more than half a million bales than ever before.

In addition to the ginning figures, the census bureau announced statistics estimating the world's production of cotton from the crop of 1911 at 22,297,000 bales of 500 pounds each, the conservation for the year ending August 23, 1912, at 29,257,000 bales and the number of bales consumed cotton spinning at 140,954,000.

**HAD VISION OF MURDER**

Vision That Her Daughter Had Been Murdered Caused Mother to Attend to Her.

TOPEKA, Kan., Oct. 29.—A vision that her daughter had been murdered, which caused Mrs. Ed Hayes of Wellsville, to demand the exhumation of the body of Mrs. Mary Hayes Germain, found in the Detroit river, Michigan, has been borne out by three doctors who examined the body. They say the indications are that Mrs. Germain was strangled to death and thrown into the river. Governor Stubbs of Kansas has asked the Michigan authorities to investigate. Mrs. Germain was visiting in Detroit.

## STIFF BILL ACCOUNT TEDDY

Chemists Who Looked for Poison on  
Shrank's Wagon Send Bill  
to County.

MILWAUKEE, Oct. 29.—District Attorney Zabel's effort to determine whether or not the bullet which John Schrank fired into Col. Roosevelt's body was poisoned will cost the county \$200, Sommer and Worthington, chemists, who made the analysis, sent the bill for that amount today. It reads:

"To various analysis of unused cartridges, empty cartridges, interior surfaces of chambers and barrel of revolver taken from John Schrank, assassin of Col. Roosevelt, etc."

Mr. Zabel refused to make any comment.

"I do not attempt to place value on services I know nothing about," he said.

The suit case belonging to Schrank reached Milwaukee today from Charleston, S. C., where it had been left at a hotel. The grip was addressed to Chief of Police John T. Janssen and was turned over to him. The chief says it will not be opened for the present.

## ROOMS FAR; MIND IN HAZE

Rich Georgia Man Who Disappeared  
From Chicago Finds Himself  
In Australia.

SAN FRANCISCO, Oct. 29.—Moise De Leon, a wealthy Atlanta, Ga., contractor who mysteriously disappeared from Chicago early in August, has found himself at Sydney, Australia. His wife, who had given up all hope of seeing him alive, has just received a telegram from Sydney, reading: "Hospital: brain fever. Will wire from Frisco."

The case of the Atlanta man puzzled the police of the entire country. He left the home of a Chicago relative he was visiting, supposedly to go downtown, and vanished as if the earth had swallowed him. He was wandering over a good part of the globe with his mind in a haze.

## CLOSE HARBOR WRECKS HOME

Oakland, Cal., Oct. 29.—Because Philip R. McMahon had his hair cut close, he and his wife have been separated by the courts. They were to attend a social gathering the night that McMahon came home with his hair closely cropped and when Mrs. McMahon remarked that her husband would make a fine appearance in the bathroom, she says he proceeded to knock her down. She has obtained a divorce on the ground of cruelty.

## BULLET STILL IN ROOSEVELT'S SIDE

HIS CONDITION GOOD WHEN HE  
LEAVES HOSPITAL.

Trial of John Schrank, Who Sought  
to Kill Colonel, Will Be Like That  
of McKinley's Assassin—Prosecutor  
Determined to Rush Him to the  
Wisconsin Penitentiary.

With the bullet fired by John Schrank at Milwaukee, Wis., still in his side, Col. Theodore Roosevelt went to his home at Oyster Bay after having been in Mercy Hospital, Chicago, for six days. He walked from the hospital to an automobile which took him to his home. The last official bulletin issued at the hospital showed that his general condition was good. The Colonel's remarkable ability had done much for him. A less vigorous man might have been killed by a wound such as Schrank gave him.

Colonel Roosevelt made the journey to the train under a heavy guard of police. Several men, whose appearance indicated that they might be dangerous, had been quietly conducted by the detectives to safe distances from the hospital, with instructions to move on.

Locate the Bullet.  
The position of the bullet which so nearly cost Roosevelt his life was fixed with precision by an X-ray examination a few hours before he left the hospital. It was learned that the bullet lay on the outside of the rib which it broke. Surgeons say it could easily be removed should the Colonel desire an operation.

## Like Case of Czolgosz.

Milwaukee, Wis., Oct. 29.—In his prosecution of John Schrank, the would-be assassin of Colonel Roosevelt, District Attorney Zabel has decided to duplicate every phase of the Czolgosz trial for the murder of President McKinley. Zabel is planning to fight an insanity plea and intends to hurry Schrank through the trial to State prison.

Schrank spends most of his time writing and reading. Most of the matter he has written is a rambling nature, similar to the writings found in his pocket the night he shot Colonel Roosevelt.

The position of the bullet which so nearly cost Roosevelt his life was fixed with precision by an X-ray examination a few hours before he left the hospital. It was learned that the bullet lay on the outside of the rib which it broke. Surgeons say it could easily be removed should the Colonel desire an operation.

## DEATH STRUGGLE WITH TURKS NEAR

BALKAN WAR BRINGS OUT BIG  
ARMIES.

Many Killed in Skirmishing as Forces  
March and Massacre of Villagers Is  
Reported—Little Countries Deter-  
mined to Throw Off Yoke of Op-  
pression Borne for Years.

Constantinople, Turkey, Oct. 29.—Turkish is sending her full fighting strength into the Balkan states, which have united to throw off the yoke of oppression they have borne for years. The decision of Turkey to accept the Balkan challenge came at once after formal declarations of war had been made by Bulgaria, Serbia and Greece, following the lead of Montenegro. The Balkan conflict has aroused the strongest army since Europe has seen in more than forty years.

So far the Turkish army has been acting mainly on the defensive, its outposts harassing the way for the march of the main forces to the frontier which has been crossed by the soldiers of the Balkan allies. The invaders are within a short distance of Adrianople, the main gateway into Turkey.

Montenegrins who ambushed a force of 2000 Turks near Beranina, killed many and captured 250 Turks. Sahil Bey, the Turks' commander, died in the desperate fight.

Roaming bands of Turks have massacred the inhabitants of three Serbian villages, the Turks sparing no one.

King Ferdinand has hurried forward to the front to command his army.

## A BOTTLE CIRCLED GLOBE

Thrown into Ohio River by Girl. It  
Is Found by Fisherman at  
San Diego, Cal.

LOUISVILLE, Ky., Oct. 29.—Throwing a tightly corked bottle containing her name and address in to the Ohio river nearly five years ago, Miss Nora Lea of Louisville did not hear from it until this week when she learned that it had been picked up off San Diego, Cal.

The finder, Charles Collins of Toledo, Ohio, sent Miss Lea the slips of paper she had put in the bottle, saying he had fished it out of a Corondo bay while on a visit to California.

Capt. John P. C. Hedewald of United States Army, will make a report to the United States coast survey, believing the bottle passed down the Ohio river into the Mississippi, through the Gulf of Mexico, then across the Atlantic, Indian and Pacific oceans before it was finally washed up on the coast of California.

## CLERGY ARE TRIFLERS R. R. MAGNATE LUGS VALISE

Toy With Their Duties, Play at Christianizing America, Says Dr. Matthews.

Dr. Mark A. Matthews of Seattle, Moderator of the Presbyterian General Assembly, held up the mirror before what he called denominational short-comings at the ministers' week-end yesterday. He spared neither the clergy nor the elders, saying that through them the church is merely playing at the task of making America a Christian and toying with its responsibilities.

"Any man who relies on the daily newspapers for trustworthy information as to public morals," he said, "ought to be examined by a commission in lunacy. The pulpit is the great oracle for disseminating truth. Ministers don't stand together. They are afraid of their own shadows, most of them. The curse resting on Presbyterian ministers today is that of time waste. No minister has a right to waste time. If I could have the time that is wasted by ministers I could carry the Gospel to all America in six months."

"As to elders, there are more churches standing still, marking time, going to pieces because of dead elderships in them than from any other cause. If elders say they have no time to spread the Gospel, suspend them and get others who will. The church ought to be organized like a school, with lower and higher grades, and the minister should select his own elders and discharge them if they do not do well. Dead machinery is a curse. Many church officials are interested in pretty much everything else except religion."

Indignation blazed in the other's eyes. "I have some interest in the matter. I am Louis Hilll."

The porter knew the man with that name in chairman of the board of directors of the Great Northern railway. The negro is now looking for a job.

## TO AID FATHER'S SLAYER

Though Warned, He Asked Man  
Famed for Temper for His  
Daughter's Hand.

BATESVILLE, Ark., Oct. 29.—Miss Sella Wackerly expects to go on the witness stand in the trial of Grover Garrett, slayer of her father, and she intends to testify that Garrett killed Wackerly in self defense. Although warned that Wackerly would kill him if he asked permission to marry his daughter, the youth did not hesitate to take the chance. When he made the request, the girl's father attacked him with a knife and Garrett shot him. If Garrett is freed the girl will marry him and he will thus come into possession of a large estate left by his man he killed.

## POOL FARMS HAVE NO INMATES

Find Twenty-nine Kansas Counties  
Are This Fortunate.

Topeka, Kan., Oct. 29.—The State board of control has found twenty-nine of the 103 counties of Kansas have no inmates on their poor farms. One county has so few dependent poor that it rents out the poor farm and pays pension to its dependents out of its proceeds.

And a good many blondes are unfair.

## RAT JUMPS OUT OF ITS SKIN

One-Eyed Rodent Gives Terrible Pain  
When Caught by Tail and  
Gets Away.

GLENOLDEN, Pa., Oct. 29.—A monster one-eyed rat, which has always refused traps, tempting baits and everything else designed to capture it, and which always outwitted the most sagacious cats and dogs, again proved its cunning, when it was caught by Robert Logan, a clerk in Brooks' general store here.

Logan saw the rat in the stable eating. Knowing which eye was blind, he slipped around to that side of the rodent, tiptoed up to it without making a noise, reached over and grabbed it firmly by the tail. He had accomplished what was considered the impossible.

While he was considering what to do with it, the rat, by a superlative effort, gave one terrific pull, leaving the entire skin of its tail, like the finger of a long glove, in Logan's hand, disappearing the next moment with a squeak into its hole.

## LET ME SHOW YOU HOW TO DO AWAY WITH THE HIGH COST OF LIVING

Will you trade a few minutes of your time for some good hard American dollars?

If you will, we'll tell you how. Some of your neighbors are supplying their table from my store.

Look at my goods, compare prices, and you will find that you not only get the best, but save money at my store.

Largely due to waste is the high cost of living. My policy is large volume, small profits and elimination of waste.

How can you complain of hard times and high costs and never look around and make comparisons?

Are you willing to compare prices and quality in buying your supplies? If so we can trade some.

Nothing worries you more than the high cost of living. I can help you reduce it. See me about it.

Keep your eye on this space for bargains for cash. If you want to reduce expenses, give me your orders.

I make a large difference in prices on cash orders. On prices I drop with the market—not a month later.

Nowhere else will be found more of real value for every dollar expended than at my store. QUALITY TELLS.

So if you want to reduce the high cost of living, come around and let me talk the matter over with you.

from Anchorage, Texas, and  
said he had had a fine trip so far,  
was still going south, and didn't  
know just when he would stop,  
but supposed when he got to the  
coast if he went any further he  
would have to "change vehicles."  
Said there had been fine rains in  
that country, and mud was plen-  
tiful; traveling along through  
the mud he met a man who ask-

## WATCH IN BODY; RUNS

Driven Into Owner When Cars Crush Him to Death.

Granite City, Ill., Oct. 29.—When fellow workmen who saw him killed took the body of William A. Moore from between the cars which had crushed him to death they found that his watch had been driven fully an inch into his body, but was running. In another pocket, which he had invariably carried his pipe and tobacco, the pipe which was in a case, was found crushed to pieces.

## ON STREET IN PAJAMAS

Policeman Finds Her Walking in Sleep; Takes Her Home.

New York, Oct. 29.—Clad in dainty pink pajamas, her long hair streaming down her back and her feet bare, Miss Ella Skidmore of Brooklyn was found early in the morning by a policeman. He became convinced that she was walking in her sleep and, stripping off her coat, he threw it about her shoulders and took her home. She was unable to explain her strange conduct, something, she said, she had never done before.

The fellow who is cornered doesn't think he's getting a square deal.

Nothing pleases a grandmother more than to have a man say she doesn't look it.

Dead dogs was no tails.

buy the water and sewer end of the company.

Texas law limits the bonding ability of general utilities companies with the view to preventing monopoly of industrial situations. This statute prevented the general utilities company known as the water company from floating bonds to lay a pipe line to the water field. Segregation of water and sewer from the light and power and ice leaves the latter in position to be transferred to Stone & Webster and thus bring about development of the interurban proposition.

"FOR A GREATER TEXAS."

Texas Industrial Congress, Dallas, Texas.

The fourth annual convention of the Texas Industrial Congress will be held in the auditorium of the Chamber of Commerce, Thursday, December 12, 1912. The principal feature will be the awarding of the \$10,000 in gold prizes offered by the Congress for best crops of cotton, corn, kafir corn and milo maize produced in the state this year.

The prizes offered are divided into four classes: \$5,000 in cash to be given to the twenty-nine contestants in class A who produce the largest combined yields of cotton, kafir corn or milo maize, cotton and corn on one acre. The prize in this class is \$1,000, second, \$750, third \$500, fourth \$250, and twenty-five of \$100 each.

In class B, \$1,500 are offered to the boys and girls of the state who make the best yields from one acre of corn. The prize money is divided as follows: \$250 to the first; \$125 to the second; \$75 to the third; \$50 to the fourth and \$25 each to the next forty winning contestants. \$1500 will also be awarded to the boys and girls in class C who produce the largest yields of cotton on one acre, and the prizes are the same as those offered for corn.

Twelve prizes, aggregating \$1000 are offered in class D for the best yields of kafir corn or milo maize grown on two acres without irrigation, and similar awards will be made in class E for the same crops grown by irrigation.

There are altogether 142 prizes and these have been competed for by more than four thousand contestants from 265 counties in the state. The prize winning contestants will have an exhibit of samples of their crops. All the railroads of the state will be reduced round trip rates to Dallas on account of the conventions, and a very large attendance is expected.

## CARE OF TREES.

By R. B. Steed.

Incidentally I will state as my excuse for writing the following article I will say I have been actively engaged in the care of trees for over forty years in Europe and America and the last four years in San Antonio, Texas.

Reflecting on different diseases that attack forest and fruit trees in this part of our great and glorious state I wish to have something to say about their care, and the care necessary to keeping said tree in a normal condition. There are several methods of prolonging the life of a tree on the same lines as pertains to the human body, for instance a dead limb has to be removed just as a badly diseased limb has to be doctored to save it. Very often we find a tree so badly diseased it looks like it would be next to an impossibility to save it, but when we see how easily this same tree responds to treatment of a scientific nature and regains its former vigor and health it is a wonder to the untreated. I am told by the injecting a mucous component into the cambium of trees it will be taken up in the circulating sap and effectively rid the tree of all insect depredators as well as fungoid diseases. I personally got hold of a little folder issued by the Henry Tree Insecticide Co. of Austin, Texas, who also have offices at 202 Book building, San Antonio. And am very favorably impressed both by their testimonials and also by work done in this city and from the nature of the work, am convinced it is a step in the right direction and from a scientific standpoint, will revolutionize tree and fruit growing.

## SALE OF FRAUDULENT STOCKS

Every Community in the State Has Suffered From Operations of the Stock Promoter.

(By W. J. Edgecombe.)

There is a general demand for some legal restriction and State regulation of the promiscuous sale of worthless stock certificates. This graft has become a financial burden on the people of every community in the State of Texas. There is no use in dodging this issue. It must be faced in a businesslike manner and the proper remedy applied through the State Legislature.

The legitimate stock concerns which are placing salesmen in the field to secure funds to finance their business should be among the first to give the matter their support. Every worthless stock certificate which is sold makes it so much harder to dispose of stock in the really legitimate concerns and enterprises which will assist to develop the financial resources of the State.

Bankers Favor Legislation. Every banker who has been interviewed on this question by the writer has very promptly announced his determination to assist in the passage of a bill which will bring about legislation to regulate this evil. The commercial associations of the State have passed resolutions recommending universal support for a bill similar to the one now pending in the legislature. It is imperative for these stock concerns to submit their proposition to the Commissioner on Bankers before they place their stock on the market. George Mendell, Jr., attorney for the Retail Merchants' Association and representative from Travis county, is known in communication with the attorney general of Oregon for the purpose of ascertaining the provisions of the law in action in that State. There is an expressed opinion that this matter should be referred to a special commission. This will be brought before the first session of the State Legislature.

There are in the neighborhood of \$3,000,000 taken out of Texas each year by stock concerns organized in other states. Millions of dollars are taken from the various localities of Texas by Texas promoters of stock propositions of every nature. The farmer is persuaded to give up his crop money for highly lithographed stock certificates on which he is promised 10 per cent. Even the merchant is induced to give up his hard-earned profits by slick stock salesmen.

Even the better class stock companies of Texas are hampered by heavy promotion fees and so-called "office expenses." The handicap thus provided makes it impossible for the honest promoter to compete in several years of its launching. Worthy business men are envious into letting their names be used on the prospectus of stock companies by promoters whose main and only object is the grabbing of a fat promotion fee and the acquisition of a "quick" and without undue exertion. In many of the older States this promotion fee is regulated by law to a certain percentage, which makes it a plain business proposition and a just reward for expert services. This should be done in Texas. There is need of reform in this matter of stock company promotion and the sale of stocks.

## NATIONS EYES TURNED TOWARD TEXAS

Washington, D. C.—Mr. Bradford Knapp, special agent in charge of the farmers co-operative demonstration work, a division of the Federal department of agriculture, presided at the bi-annual institute of West Texas demonstration, held at Fort Worth, Texas, October 1, 2, 3, 4.

Fifty-three agents attended the meeting, besides several Federal department assistants, and co-workers from adjoining states. Among the many subjects discussed were the value of soils, wide planting of seed, diversification and rotation of crops, and the general education of the farmer along scientific, agricultural lines. Mr. Knapp is highly pleased with the results obtained in Texas and says in this connection: "The eyes of the nation are turned toward Texas for nowhere else in this country do the opportunities exist for such marvelous development along agricultural lines, and the farmers in that state are taking a great interest in the work and giving the department hearty co-operation."

For Neuralgia, nothing is better than  
**Dr. Miles' Anti-Pain Pills**  
Used by thousands for a generation

Those who have suffered from neuralgia pains need not be told how necessary it is to secure relief. The easiest way out of neuralgia is to use Dr. Miles' Anti-Pain Pills. They have relieved sufferers for so many years that they have become a household necessity.

"I have taken Dr. Miles' Anti-Pain Pills for five years and they are the only thing that does me any good. They have relieved neuralgia in my head in fifteen minutes. I have also taken them for rheumatism, headache, pains in the breast, to the back, cramps and pains in the bowels and limbs. I have found nothing to equal them and they are all that is claimed for them."

## Gave Up Hope

"I suffered five years, with awful pains, due to womanly troubles," writes Mrs. M. D. McPherson, from Chadbourne, N. C. "They grew worse, till I would often faint. I could not walk at all, and I had an awful hurting in my stomach, also a headache and a backache."

"I gave up and thought I would die, but my husband urged me to try Cardui, so, I began, and the first bottle helped me. By the time the third bottle was used, I could do all my work. All the people around here said I would die, but Cardui relieved me."

## TAKE CARDUI The Woman's Tonic

For more than 50 years, Cardui has been relieving woman's sufferings, and making weak women strong and well. During this time, thousands of women have written, like Mrs. McPherson, to tell of the really surprising results they obtained by the use of this purely vegetable, tonic remedy for women.

Cardui strengthens, builds, restores, and relieves or prevents unnecessary pain and suffering from womanly troubles. If you are a woman, begin taking Cardui, today.

Popular in Every State

### No Whiskey Advertising

The seventy-eighth year of its existence finds the Toledo Blade more popular than at any period during its long and successful career. It is read each week by more than a million people. The Blade's field is national and it goes into every state and territory in unquestionable right of claiming the greatest national weekly newspaper published in America.

The Weekly Blade is distinctly a family newspaper. The one object of its publishers has always been to make it fit for the American home, for the fireside and of interest to every member of the family. To fulfill this purpose it is kept clean and wholesome. The news of the world is handled in a straightforward manner, and the various departments of The Blade are edited with painstaking care. The household page is a delight to the women and children; current affairs are treated editorially without prejudice; the serial stories are selected with the idea of pleasing the greatest number of fiction lovers; the Question Bureau is a scrapbook of information; the famous editorials are conducted with the purpose of giving the patrons a medium for the exchange of ideas and information on farm topics. No department is neglected but every feature is taken care of with the idea of making The Blade worth many times the price of subscription—one dollar a year.
