Robison Visits Here

New seating sections of the Jones Stadium in Lubbock are pointed out by Polk Robison, assistant athletic director of Texas Tech. The stadium has been enlarged to seat 41,500 persons. A water color of the completed stadium is in the background.

City May Employ Student For Filter Plant Training

By JACK RADER
A Big Spring High School student may get the chance to work for the city through the distributive education program, city commissioners decided Tuesday night.
City Manager A. K. Steinheimer was authorized to work out a plan with the school to give a boy a job in one of the city departments, probably the water filter plant or sewage treatment plant.
Steinheimer presented the plan he received a request from Louis R. Maneely, distributive education advisor, to give students work in the school program.
Maneely suggested an electrical apprentice to work with Roy Rogan, city electrician, in learning the traffic signal light system. The complicated nature of the lights, however, led commissioners to believe that a student could be more readily utilized in some other phase of city work.
The water filter or sewage treatment plants were suggested as alternatives because the operations are less technical. After a year of apprentice work at one of the plants a boy could become a licensed operator, Steinheimer said.
Under the school's program, the boy would work five days a week, 1-5 p.m., at the rate of 60 cents per hour. No money is set up in this year's budget for the expense...

But Commissioner Paul Kasch said that training a boy would be a good investment.
Steinheimer said that whatever plan is worked out, any boy who works for the city must be at least 16 years old and preferably 17. The city manager also recommended that the city secure a parent's release.
RECOMMENDATIONS
The city commission approved two recommendations from the traffic commission and okayed a third after alteration.
The speed limit through school zones, which the traffic commission recommended for 15 miles per hour, was changed to 20 miles per hour. The speed limit, along with the use of Safety Sue caution signs for all schools, was approved.
The caution signs will cost about \$11 each, with the school district paying half the cost. About 80 signs are needed.
The city commission approved the formation of a driver education school, similar to that under the old Citizens' Traffic Commission, and voted to discontinue city participation in the National Safety Council, upon recommendation of the traffic commission.
Under the driver's education school plan, motorists found guilty of a moving traffic violation have the choice of paying a fine...

or attending school. The choice is left to Municipal Judge Grover Cunningham Jr.
The school will be held one night each week for five weeks in the police building. Classes will be conducted by a uniformed police officer or other qualified instructor.
The recommendations were presented to the city commission by George Oldham, chairman of the traffic commission, and Glenn Coates, vice chairman.
PARTICIPATION
City participation, costing \$5,742.50 for oversized water and sewer lines in the Marshall Fields Estates, was approved by the commission.
Included in the program is \$2,330 for sewer lines and fittings, \$2,330 for sewer lines and \$112.50 for overhead piping.
The Marshall Fields Estates participation makes a total obligation in subdivision development for the 1961-62 city budget of about \$15,000.
The commission okayed a plan to dismantle the old Airport Administration building on West U. S. 89 adjacent to Webb AFB, salvaging all material possible and possibly turning the site into a roadside park. Steinheimer said he would contact the State High Department about the possibility of constructing a park.

Bypass Work Nearing As State Sets Project

AUSTIN (AP)—Big Spring bypass on U. S. Interstate 30 is included in the Texas Highway Commission authorization to spend \$188,550,000 filling major gaps in the interstate road system.
The commission approved the authorization today. This is the fourth in a series of right-of-way and construction programs to be started under the Federal Highway Act of 1956.
In a statement issued by the commission dealing with the program over the state it was:
"The west we will finish up the interstate loops at Abilene and Colorado City. We will also start work on the bypass around Big Spring. Today's action authorizes grading and structures for this project."
In Abilene, Jake Roberts, district highway engineer, said that he expected complete details on all of the projects in his district during the day. He said that when this information reaches his office, he will be in a position to discuss the amount allocated for each project and the scheduled work plan for the jobs.
Action of the commission today earmarks \$180,912,000 for 548 miles of controlled access highways. For buying right-of-way it will set aside \$27,638,000.
Work will be concentrated in major metropolitan areas as well as in closing gaps between already completed sections, the commission said.
The program will complete the gaps on Interstate 35, the long section of major highway from Laredo to Oklahoma.
The commission gave these de-

tails of the program:
Interstate 35:
Hays County, from San Marcos to two miles north of Round Rock in Williamson County is either complete or under construction.
"With this new program we will go ahead with grading and structures from the Round Rock area on up to the Bell County line," the commission said.
"We are going to start grading on the 34-mile section from three miles south of Hillsboro to south of Waxahachie. The program also provides for surfacing part of Interstate 35E highway around Hillsboro.
"On the Interstate 35W leg, we will start buying right of way on the 14 miles from Hillsboro on up to the Johnson County line. With what we are currently buying, this will complete the right-of-way phase all the way from Hillsboro to the expressway connection south of Fort Worth.
"This program authorizes the grading for the section of Interstate 35W from 2.5 miles north of Alvarado on up to Burleson.
Interstate 30. (In addition to the Big Spring program).
"We will complete 33 miles of Interstate 30 expressway from State Highway 64 in Van Zandt County to U. S. 69 northwest of Tyler. We will then start grading from U. S. 69 to U. S. 271 northeast of Tyler. This is a 14.6 mile section.
Interstate 45:
"On Interstate 45 in Galveston, from State Highways 6 and 146 southeast to 61st St., we have programmed a four-lane expressway with frontage roads and grade sections.
In Harris County, we will add additional main lanes, frontage roads, and three grade separa-

tions from Alameda-Genoa Road to FM 1959. This is a part of the Gulf Freeway.
Interstate 45 from Houston to south of Conroe is either complete or under construction. Under this program we will finish up that 14 mile section from present location at Esperanza to two miles south of Conroe. This program authorizes the final phase—surfacing.
We will also complete the 28-mile section from Huntsville loop to U. S. 75 north of Madisonville. From the point north of Madisonville, this program enables us to start the grading work to just south of Centerville.
We are presently buying right-of-way from a point south of Centerville up to State 7 in that city. Today's program authorizes purchase of right-of-way from State 7 on up to the Freestone County line near Buffalo, a 16-mile section.
Interstate 10:
"Surfacing is now authorized for 20 miles of Interstate 10 in Jefferson and Chambers counties, on which grading is now under way. This is the section between Beaumont and Winkles. This, along with the work already under construction, will complete Interstate 10 from the Louisiana border to Houston.
Other Interstate 10 work authorized today is surfacing and completing the highway loop at Columbus in Colorado County.
The commission explained that previous programs have authorized a great deal of work on the three other interstate routes—Interstate 30, 37, and 40—and that the projects are moving from the right of way stage to construction according to schedule.

British Not Fooled, Potsdam Report Says

Tech Pair Here To Boost Stadium

Texas Tech's assistant athletic director Polk Robison and J. T. King, first assistant football coach, were in the Settles Hotel lobby today as part of the good will tour through this area and to provide Big Spring residents with the information and opportunity to purchase specific seat options in the newly expanded Jones Stadium.
The pair spoke to the Lions Club at noon. Robison talked on the overall athletic program at Texas Tech and King reported on the football situation.
Options may be purchased for \$100, \$200, or \$300 in the open stand depending on location. An option in an enclosed section of the press box may be bought for \$1,250. The options begin this year through the fall of 1974. Funds from option sales are being used to finance the expansion.
During the expansion, the east side of the stand, some 240 million pounds of concrete and steel were moved back 240 feet to allow for the addition of more seats. Robison said that as far as he knew, this was the first time such a thing had been done in enlarging a football stadium. The playing field and some 30 rows of seats are beneath ground level, construction on the project was started after the football season last year.
This year, for the first time, Texas Tech is a full member in the Southwest Football Conference. Robison said that the Tech team for this year is not a strong team, but is a young one composed mainly of sophomores and offers a great deal of potential. He added that there is more depth in this year's team than last year.
Given a low rating in the football polls, Robison noted that this is where a school likes to be in Southwest Conference football and said that he looked forward to a real interesting season.
In the Southwest Conference you have a situation not found in other conferences. The players on most of the teams have played with or against each other in high school and just carry along the spirit of rivalry to college," he stated in explaining the upset tendencies of the Conference.
Here the coaching jobs are always a battle of attitudes, trying to get just a little more out of the players," he said.
Texas Tech has participated in five other Southwest Conference sports for the past three years and has usually stayed in the upper part of the Conference.
Robison said that a considerable interest had been shown in the seat option plan throughout the area. Football fans, he said, have been most interested in the homecoming game when the Red Raiders meet SMU.

struction on the project was started after the football season last year.

WEBB WILL LIGHT UP SKY

Big Spring and Howard County will be treated to a sky display of brilliance tonight and Thursday night as Webb AFB launches a practice program for rescue crews.
Four flares of one million candlepower each, will be dropped each night over the base beginning at about 8 p.m., according to Capt. Thomas C. Seebe, head of the helicopter activities in Webb AFB base operations.
Purpose of the air drops is for helicopter and rescue crew practice in night air search for crash and natural disaster victims.

Martin Farmer Gins 1st Bale

LAMESA — Walter Nichols, a farmer in Martin County, presented the first bale of cotton for ginning in Lamesa Tuesday, but he was not eligible to win the \$250 premium offered by the Lamesa Chamber of Commerce for the first bale in Dawson County.
Nichols, who farms 5 1/2 miles southwest of Knott, received a \$50 check and free ginning of the first bale.
Martin County's first bale of cotton was harvested two days ago and ginned in Tarzan since the Stanton gins were not open.
Nichols farms 430 acres of cotton and yesterday's bale was ginned by the Lamesa Co-op Gin.
Dawson County farmers still have the opportunity to pick up the premium being offered by the Chamber of Commerce for the first bale grown, harvested and presented for ginning inside the county. The award is sponsored annually by the agriculture committee of the chamber.

Soviet Intentions For Europe Known

DES MOINES, Iowa (AP)—British leaders had no illusions at the 1945 Big Three Potsdam conference about Soviet intentions toward nations newly liberated from Nazi rule, it was reported today.
Newly published reports of secret state papers picture Britain's Winston Churchill and Anthony Eden as tough negotiators who took the lead in fighting many Soviet demands, generally with American backing.
The account was carried in the Des Moines Register and Minneapolis Tribune in the last of four copyrighted articles by Fletcher Knebel and Charles W. Bailey, described as being based on the official papers of the July 17-Aug. 2, 1945 conference near Berlin.
The Potsdam meeting was the last of the major World War II meetings between the Big Three allied powers—Britain, the United States and the Soviet Union. It discussed postwar plans for Europe, first outlined at Yalta, including provisions for democratic processes in Eastern European nations. These the Soviets did not live up to.
Knebel and Bailey wrote that the conference "marked the end of America's illusion that a peaceful world could be rebuilt from the wreckage of World War II.
On a whole range of questions—Russian looting, repression, violations of the Yalta agreement, rebellion, subversion—Churchill and Eden slugged it out at the conference table while the U.S. delegation listened, the article said. It described the Britishers as wise in the long dark conflicts of Europe.
It added that U.S. Secretary of State James F. Byrnes and British Foreign Minister Eden argued vainly with V. M. Molotov, the Soviet foreign minister, over Red tactics in Bulgaria, Romania, Yugoslavia, Italy, Greece and Poland.
The Knebel-Bailey account said Churchill vehemently opposed Stalin when the Soviet Premier:
1. Demanded that the Soviet Union receive reparations payments

from Italy. Churchill's retort was: "What about Bulgaria and Romania?" These nations already occupied by the Soviet Union.
2. Pressed for what he called "his share" of the German Navy and merchant marine, and the right to inspect ships in harbors occupied by English and American forces. Churchill told Stalin that would be agreeable if the Soviets would allow the Western Powers to inspect what the Soviets had seized at Baltic ports.
3. Complained that Greek troops were making trouble on the Yugoslav and Bulgarian borders. Churchill gave a rundown of relative troop strength—showing Yugoslav, Albanian and Bulgarian troops far outnumbered the small Greek border guard.
4. Demanded a joint declaration by the Big Three denouncing Francisco Franco and Spain. Churchill refused to let the matter be referred to the Big Three foreign ministers for study, saying it was a matter of not interfering in internal affairs of a non-belligerent.

Light Rain Reported

Scattered light showers dotted the county late Tuesday but no rainfall of significance was reported.
Black cloud banks rolled up in the late afternoon and offered promise of supplementing the rains which fell Monday. Other than for a light shower, during which the Big Spring switching plant of the Texas Electric Service Co. gauged .06 inch, there was no measurable moisture.
Rains fell in parts of Glasscock County. TESCO had no rain reports from any of the observation posts it maintains in the Big Spring area, other than its switch station.

Police Car Wrecked

An accident involving a city police car Tuesday noon was one of two traffic mishaps within the city during the past 24 hours. No injuries resulted in either accident.
Patrolman L. W. Gorum was in collision with R. M. Stroup, Jr., 810 E. 6th, at 7th and Nolan. The police car incurred about \$160 in damages. Damage to the other vehicle was estimated at about \$50.
At 16th and Donley, Leo Benard Vollmer, 1017 E. 21, and Aaron Douglas, Wilmon, 808 E. 13th, were in collision.

32 Enroll For Chamber Course

Enough interested persons enrolled in the "Action Course in Practical Politics" course sponsored by the legislative committee of the Chamber of Commerce for two classes.
Thirty-two persons enrolled and will be divided into two classes. One class will meet Sept. 8 at 7 p.m. in the Chamber conference room and on each succeeding Thursday at that time. The other class will meet Sept. 10 at 7:30 p.m. and each Saturday thereafter.
There are eight openings left to be filled.
Chairman Douglas Orme expressed his pleasure with the response and interest shown in the course.

Herter Asks OAS Concern On Cuba

SAN JOSE, Costa Rica (AP)—Secretary of State Christian A. Herter today urged American foreign ministers to show their grave concern over Cuba's "toleration and encouragement of Communist intervention in the hemisphere's affairs."
Taking up the Cuba question at the meeting of the Organization of American States' foreign ministers, Herter declared events indicate Cuba's leaders are directing the island nation "in the Communist direction."
Some of the foreign ministers already have urged Cuba to disavow its ties with the Soviet Union and Red China and reaffirm its faith in the inter-American system.
In Havana, Fidel Castro today hurled a defiant vow of friendship for the Soviet Union and Red China into the teeth of the OAS, Organization of American States.

Strike Closes Chilean Hospitals

SANTIAGO, Chile (AP)—Hundreds of patients were removed from hospitals to their homes Tuesday for lack of facilities caused by an eight-day-old strike of 30,000 workers in health institutions. The workers seek a wage increase.

Pilot's Parents Have Hopes For Freedom

COPENHAGEN (AP)—Francis Gary Powers' parents arrived from Moscow today with a cautious hope that they soon may see their son who is under sentence of 10 years detention for espionage.
During a two-hour stopover before their plane left direct for New York, the 17-year-old pilot's parents said "with God's help" we hope that we'll have him back with us before much time has passed.
Oliver W. Powers of Pound, Va., and his wife, Ida, landed in Copenhagen about two hours after taking off from the Soviet capital in a Soviet jetliner.
The pilot's wife, Barbara, stayed on in Moscow, hoping to see Premier Nikita Khrushchev and plead with him to lighten the 10-year sentence given her husband last week for his ill-fated U2 flight over the Soviet Union May 1.
Barbara plans to leave for home Saturday unless Khrushchev agrees to see her. The Soviet Premier is vacationing in Yalta, on the Black Sea.
Ida Powers made the only parting comment as the family boarded the plane in Moscow.
"I would have enjoyed the trip more if circumstances had been different," she said.
Mr. and Mrs. Powers were accompanied by their daughter, Jessica Hileman of Washington, D.C.; Mrs. Powers' doctor, Lewis Ingram; a friend and adviser, Sol W. Curry, and attorney Carl McCaffee.
They were seen off by the U.S. consul in Moscow, Richard Snyder of North Plainfield, N.J.
The family was in a cheerful mood and did not discuss their son's plight with newsmen who had coffee with them as they waited for the plane. Mrs. Powers and Mrs. Hileman bought souvenir enameled pins at the airport shop. Curry bought black caviar for friends.
The American flier said goodbye to his family Tuesday at interviews in the Soviet Supreme Court's six-story yellow sandstone building, with a uniformed guard and interpreter present. He is to be moved soon to a new prison outside Moscow.
Powers expressed belief, his parents said, that good conduct will reduce his 10-year sentence. He said there have been rumors in the Moscow prison where he has been held that he will serve only 7 of the 10 years detention.
We are convinced that, with God's help, we shall have him at home with us before too much time has passed," they said.
After his family left, Barbara visited the flier with her mother, Mrs. Monteen Brown of Milledgeville, Ga. Mrs. Brown left after a few minutes.

Satellite To Make Visible Passages

The U.S. balloon satellite is due to make two passes over Texas this evening and another in the early morning hours of Thursday.
The first pass will be at 8:12 p.m. and the moon will be high over the northern horizon, traveling northeast. A latter passage, at 11:18 p.m., will be in a southeasterly direction and the satellite will be lower on the horizon.
The early morning passage will be at 1:23 a.m., and the artificial moon will be traveling southeast across the northern horizon at about two-thirds of zenith.

Ship Hits Pier

HOUSTON (AP)—The J. E. Dyer, Sinclair Refining Co.'s largest tanker, hit a pier in the Houston ship channel Tuesday. The ship was not damaged but loss to the Todd Shipyard pier was estimated at several thousand dollars.

Dr. Hunt Schedules Talks On City Improvement Plan

Series of talks designed to give detailed information on the city's capital improvements program has been scheduled by Dr. W. A. Hunt. Dr. Hunt is chairman of a subcommittee working in behalf of the city bond issues which will be decided at the polls on Sept. 13.
Before the voters will be eight propositions involving the issuance of \$4,300,000 in bonds over a five-year period. The planing charts expansion in water and sewer systems, provides for fire stations, street paving, park development and flood control measures.
The need for these projects to accommodate Big Spring's present needs, and to permit continued growth, will be outlined by speakers designated by Dr. Hunt.

Dr. Hunt said this schedule already has been adopted:
Evening Lions Club, Aug. 29, Dr. Hunt; Rotary Club, Sept. 6, Taylor; Lions Club, Sept. 7, Taylor; Kiwanis Club, Sept. 8, Dr. Hunt; American Business Club, Sept. 9, Dr. Hunt; Jaycees, Sept. 12, Dr. Hunt.
Special women's groups will assemble Thursday morning at the homes of Mrs. W. F. Taylor and Mrs. Harold Talbot, at which time speakers will outline the improvement programs, and give details on how it has been planned, what the execution will be, and how it is to be financed.

After Visit With Powers
Mrs. Barbara Powers, left, leaves the Soviet Supreme Court Building in Moscow after a farewell visit with her imprisoned husband, U2 pilot Francis Gary Powers. With her is her mother, Mrs. Monteen Brown of Milledgeville, Georgia.

Like Takes A Light Poke At Kennedy

WASHINGTON (AP)—President Eisenhower said today Sen. John F. Kennedy could get what he wants from Congress if he can get the Democrats together.

With this mild gibe at the split among the Democrats, Eisenhower brushed aside at his news conference complaints by Kennedy, the Democratic presidential nominee, that the threat of an Eisenhower veto and lack of Republican support caused the Senate to reject his Social Security plan for medical care for the aged.

In making that complaint, Kennedy said that to get effective legislation "we're going to have to have an administration that will provide leadership and a Congress that will act."

Asked for comment, Eisenhower replied vigorously that the Democratic nominee has a 240-1 majority of his party in the membership of Congress.

GETTING NOWHERE

He said he doesn't see how much more Kennedy could want. Even with more than enough, he added, the Democrats are not getting anywhere in Congress.

Eisenhower said that as for leadership, he had provided it by sending to Congress a program first outlined in January and then repeated in May and August.

The President said the Democrats have such a great majority that they can do what they want to in Congress if they can get together among themselves.

The news conference was devoted largely to politics, but the Cuban situation also came under discussion.

The President said he does not regard the Cuban situation as hopeless. He said that he will attend the fall meeting of the United Nations only if he finds later that some questions have come up that he thinks he should speak on personally.

OTHER ITEMS

In the political field, the President touched on these topics:

EQUAL TIME—He announced he had signed a bill under which Kennedy and Vice President Richard M. Nixon, the Republican presidential nominee, can debate on television without the networks having to give time to minor candidates.

Eisenhower called the networks' offer to give free time a fine thing and a public service.

CAMPAIGN ISSUES — Eisenhower said he does not regard the Cuban situation as hopeless. He said that he will attend the fall meeting of the United Nations only if he finds later that some questions have come up that he thinks he should speak on personally.

STUDENTS MAY GET SCHOOL SCHEDULES

Big Spring high school students are urged to pick up their schedules for the new year on Monday and Tuesday.

Principal John Smith said seniors should pick up schedules between 9 a.m. and noon Monday. Juniors may get schedules between 1-4 p.m. Monday and sophomores may call for schedules between 9 a.m. and 4 p.m. Tuesday.

A general assembly has been called for Wednesday morning at 9 a.m. in the high school auditorium for all students.

HOSPITAL NOTES

HOWARD COUNTY HOSPITAL FOUNDATION

Admissions—W. J. Carter, Sweetwater; Nancy Tuck, 1462 Pickens; Buck Harris, Garden City; Ruby Ragdale, 711 Washington; Beverly McCowen, 1906 Pennsylvania; Valerie Richardson, 1810 S. Monticello; H. L. Eason, 960 Dixie.

Dismissals—Luann Hood, 1708 Scurry; J. W. Morgan, Box 1307; Sigurd Johnson, Crane; Dorothy Earhart, 381 Mesquite.

WEATHER

EAST, SOUTH CENTRAL, NORTH CENTRAL AND SOUTHWEST TEXAS: Partly cloudy with showers Thursday, widely scattered thunderstorms at night. 70-80. Important temperature changes. Lowest in 70s lower South Plains and 60 to 70 elsewhere. Highest in 80s Thursday.

WEST TEXAS: Partly cloudy through Thursday with widely scattered thunderstorms at night. 70-80. Important temperature changes. Lowest in 70s lower South Plains and 60 to 70 elsewhere. Highest in 80s Thursday.

lower said politics ought to end at the water's edge. He said, however, that while foreign policy is self should be an issue, the conduct of international affairs obviously is going to be injected in the campaign.

On the domestic front, he said he supposes the farm problem will be a basic issue.

He said the Republicans will make sound money and fiscal responsibility one of their major talking points.

DEFENDS BENSON

BENSON—Told that Democrats contend Secretary of Agriculture Ezra Taft Benson has brought agriculture to a disaster point, the President reacted with a vigorous defense of his Cabinet member.

Eisenhower said Benson has struggled for years for real reform in the farm laws, some of which go back to 1930. He said Benson had traveled the world trying to increase the markets for American commodities. To say that Benson and the administration are responsible for the farm problem is all wrong, the President said.

OWN DECISION

No one participates in his decisions, Eisenhower replied forcefully, and no one can make actual decisions except himself.

He said he has all sorts of advisers and Nixon has been at the top in this group.

Even if he didn't admire and respect Nixon as he does, the President said he would still keep the vice president completely aware of what is going on in the government. He said he thought he owed that to the country.

Mrs. Newman Rites Slated

LAMESA — Mrs. Earl Newman, 42, died at the home of her mother, Mrs. Mary Bartlett, at 7 p.m. Tuesday evening. She had been ill for several weeks.

Raised in Dawson County, she had lived in Corpus Christi for the past nine years.

Funeral services have been set for 3 p.m. Thursday in the Bryan Street Baptist Church with the Rev. Don F. Pruitt, pastor, officiating. Burial will be in Lamesa Cemetery under the direction of Higginbotham Funeral Home.

Crews Work On School Zoning

Painting stripes on streets to designate school zones should begin sometime this week and will probably be wrapped up by the time school opens next Wednesday.

City workers are presently installing pipes at school intersections as holders for portable safety cone caution signs. The pipes are imbedded in the street flush with the surface. The signs will be mounted on a smaller pipe and inserted in the holders.

Stabilization Begins On 7th

Asphalt stabilization on 7th, behind Boydston school, was slated to get under way today with a prime coat of asphalt applied prior to spreading the surface penetration mix.

City workers were moving dirt this morning in preparation for the prime coat. Dirt removed from the street was being used to help fill low spots on the two high school parking lots.

Services Held For 7 Youths

WINOOSKI, Vt. (AP)—Most activities in this city of 7,000 were suspended today for the funerals of seven youths killed in an auto crash early Sunday.

meetings of the administration for nearly eight years. He added that he was glad that the vice president had never hesitated to express his opinions.

RELIGION — Eisenhower was told that evangelist Billy Graham had said religion is going to be one of the principal issues in the presidential campaign. Kennedy is a Roman Catholic, Nixon a Quaker.

CONSTITUTION

The President said he always goes back to the constitutional provision guaranteeing freedom of worship. He said he thinks the Constitution means what it says and it is incumbent on everyone to respect the rights of others.

Eisenhower then went on to say that while he thinks religion should not be an issue he is not so naive as to believe it will not be in certain areas where there are strong emotions.

POLITICAL SPEECHES — Eisenhower said that on two or three occasions and probably not more he will speak on partisan political matters. He said that naturally he wants to help persuade his party in the White House and increase its strength in Congress.

But he still has the responsibility of running the government, Eisenhower said. The mapping out of political campaigns is for others to do.

SHORT SPEECH

Eisenhower pinpointed only one speech, a Sept. 29 address to a Republican fund-raising dinner in Chicago. He said he probably will make only a 10-minute speech.

But the President said he has a great many nonpolitical speaking dates. He said some of these are to economists, educators and accountants and others will be at charitable affairs.

JUDGESHIPS — Questioned about Congress' failure to act on a bill to provide 40 new judgeships, Eisenhower said the legislators will have to make their own decisions whether they are ignoring the welfare of the United States. He said he had recommended additional judges and he doesn't know why Congress doesn't provide them.

Graveside Rites For Hugo Infant

Graveside rites were set for 4:30 p.m. this afternoon at Trinity Memorial Park for David William Hugo, infant son of L.L. and Mrs. W. L. Hugo, Chaplain Lewis H. Dunlap, Webb Air Force Base, was to officiate.

The infant died at 8:35 p.m. Tuesday evening in a local hospital. He is survived by his parents, Mrs. Deborah DeBorja, and two other children.

Odessan Slates Shallow Tests

Odessa operator Joseph P. Grinnan has staked three new Sharon Ridge (1,700) field projects in Mitchell County. All are to drill to 1,800 feet with cable tools.

The new projects are No. 1-C C. Berry, 2-C C. Berry and 3-C C. Berry. They are about four miles south of Ira.

Howard

Midwest No. 1 Haneey is drilling below 6,700 feet in lime, sand and shale. Site is 2,213 feet from south and 330 feet from east lines of section 30-32-32; T&P survey.

Martin

Hunt No. 1 Griffin is drilling at 11,156 feet in lime and chert. It is 1,120 feet from north and 1,320 feet from west lines of section 138-M. Curtis survey.

Mitchell

El Cinco No. 1 Thornton is drilling in anhydrite and redbeds below 1,025 feet. Location is 660 feet from south and 1,900 feet from west lines of section 8-29-11; T&P survey.

Borden

Humble No. 1-B Conrad is bottomed at 2,232 feet in lime, waiting on cement. Operator has set 7 5/8 casing at 2,243 feet. This wildcat is 660 feet from south and west lines of section 71-20-Lavaca Navigation Co. survey.

Dawson

Forest No. 1 Broyles is making hole below 11,942 feet in lime and shale. Site of this wildcat is 2,229 feet from north and 534 feet from east lines of labor 4-4-Taylor CSL survey.

28 Attend 2nd Training Session

The second meeting of the YMCA leadership training class drew 28 leaders.

The next meeting will be Thursday and will involve the understanding of youngsters and discipline. Two 30 minute films will be shown. James M. Hardy, general secretary will conduct the classes.

Ordinance Would Regulate Sale Of Used Auto Parts

The Big Spring City Commission Tuesday ordered an ordinance to regulate the sale of used auto parts.

The plan was discussed with Chief of Police Jay Banks who agreed that some regulation could aid in investigation of stolen articles. The city has long been plagued by petty theft of automobile parts and accessories, it was pointed out.

Gets Degree

The master of education degree will be conferred Sunday by Texas Southern University at Houston on Mrs. Essie Lee Perren, 908 N.W. 4th. Mrs. Perren took the B.A. degree in English from Carvis Christian College in Hawkins and has been working intermittently on her M.A. during the eight years she has been on the Lakeview faculty. She also is active in Mt. Bethel Baptist and Lakeview community affairs.

Legion Post, Auxiliary To Install Officers

The American Legion and Auxiliary will install new officers at a joint meeting at the Legion Home Thursday at 8 p.m.

Arrangements for the installation are being made by Fay Dunlap, post commander, and Mrs. Lois Hill, president of the Auxiliary. A reception honoring the new officers will be held following the meeting.

Legion officers to be installed are Joe Pendleton, commander; C. Roscoe Cone, 1st vice commander; J. G. Littlejohn, 2nd vice commander; Henry Stewart, 3rd vice commander; Clyde Hollingsworth, finance officer; Clarence Daves, chaplain; W. A. McElrath, historian; Cui Grigsby, service officer and Tim Jones, Sgt.-at-Arms. The post adjutant will be appointed by the new commander.

Mrs. Zeida Rea will serve as new president of the Auxiliary. 1st vice president will be Mrs. Clea Teague; 2nd vice president, Mrs. Erma Stewart; secretary, Mrs. Melba Jones; treasurer, Mrs. Helen Segrest; chaplain, Mrs. Dene Dunlap; historian, Mrs. Marie Eason and Sgt.-at-Arms, Mrs. Sue Broughton.

New members of the Legion Executive Committee will be retiring commander, Dunlap; George Zachariah, C. A. Walker, Horace Beene and J. V. Gregory.

Gregory, a past commander of the Post, will serve as installing officer and will be assisted by the other past commanders.

An invitation to all members, eligible veterans and servicemen has been extended both for the installation and the social hour to follow.

Caton Accepts Scout Project

Ralph Caton, presiding judge of the 11th Judicial District, has accepted the chairmanship of the Together project of the Lone Star Boy Scout district.

Joe Moss, chairman of the organization and extension committee, said Wednesday that Judge Caton would enlist some 13 committee members to assist in the organizational promotion on Sept. 9.

The traditional pattern will be followed of inviting representatives from various institutions to a dinner, where brief descriptions of the scouting program are given and organizational steps are outlined.

The committeemen will be making contacts with numerous institutions who are suggested as potential sponsors of one or more scouting units (Cubs, Scouts or Explorers). Moss urged that organizations or institutions which may be able to sponsor a Scout unit of some type to contact him or Judge Caton and arrange to be guests at the Together dinner at the HCCJ Student Union Building.

Glasscock Gets Important Rains

GARDEN CITY—Most parts of Glasscock County have received important rains during the present week only Garden City and an area to the north and west of the county seat have missed out in the moisture. Some of the rains were reported to have been as much as an inch and some parts of the county were well soaked with rains Tuesday afternoon.

Two Youths Held For Robbery, Theft

Two 14-year-old boys are being held in city jail in connection with the attempted robbery of a service station and theft of a pickup truck Monday.

The youths were apprehended Tuesday evening by the highway patrol near Pecos and held by sheriff's officers there. Detectives Jack Jones and Aubrey Hurley brought the pair back to Big Spring.

Rape Charges Filed Against Stanton Man

GARDEN CITY — Charges of rape have been filed against William Wayne Lawson, 27-year-old Stanton filling station worker, Buster Cox, Glasscock County Sheriff, announced today.

Lawson allegedly criminally assaulted a 16-year-old Stanton girl on a lonely road in Glasscock County at 11 p.m. Tuesday. The girl, Cox said, was the defendant's sister-in-law.

Cox arrested Lawson at his home in Stanton at 5:30 a.m. today. The girl had been left in Garden City and reported the alleged attack to the sheriff around midnight.

Cox brought the man to Big Spring where charges were prepared by the district attorney's office. Cox said that Lawson made a statement to Bobby West, investigator for the district attorney.

Cox said that Lawson is married and has a child about 13 months old.

Court Officials Attend Meeting

Wade Choate, district court clerk, Mrs. Pauline Petty, county clerk, and Jerry Spence, court reporter, left Wednesday afternoon for El Paso. They will attend the Texas County and District Court Clerks Assn. convention. The meeting will continue through Saturday.

Congress Moves On Medical Aid

WASHINGTON (AP)—Congress moved swiftly today to enact a compromise medical care plan for the aged.

The House by unanimous consent agreed to the Senate request to refer the legislation, passed in different form by the two chambers, to a conference committee.

Education Post

AUSTIN (AP)—Rep. B. H. Dewey Jr. of Bryan has been named by Gov. Price Daniel as legislative member of the Southern Regional Education Board.

DEAR ABBY

HOUSEWORK (?)

By Abigail Van Buren

DEAR ABBY: My husband works all day in an air-conditioned office. When he comes home he grips his head off about what a tough day he's had. He should stay home and take care of an eight-room house with four kids under his feet and see how he likes it.

I wish you'd say something in your column about husbands who keep telling their wives what a cinch housework is. What's wrong with husbands anyway?

DEAR OVERWORKED: All men have to grip. Let him get it out of his system. It's good for him. He just wants you to put your arms around him and tell him how wonderful he is. Try it. He'll wind up telling you what a doll you are.

DEAR ABBY: Please don't give me a lecture. I know I did wrong but I am in trouble and need help.

I am 19 and work in a large store. One of my supervisors started taking me out for coffee breaks and lunches and then it got serious. I knew he had a wife and family, but the attraction was too strong to fight. Now I am expecting his baby. He says I can't expect any help from him, financial or otherwise.

I'll have to quit work soon. I can't face my parents. Should I go to his wife or should I tell our employer?

DESPERATE: DEAR DESPERATE: Don't go to his wife. You would only hurt an innocent family and gain nothing. Don't tell your employer. He'd probably fire the man, which wouldn't help you either. SEE A

LAWYER. He should be able to convince your "friend" that he has a responsibility to face up to.

DEAR ABBY: Do you think it is right for old people about 40 or 50 to come to your house as a guest and tell your mother to please turn that racket off when a member of the family who lives there has his record player on? I am 12 years old and that is my problem.

LIKES ROCK AND ROLL: DEAR LIKES: "Old" people of 40 or 50 should be catered to. When you reach that age, if youngsters are still rocking and rolling with hi fi and stereo, then you'll appreciate the same consideration.

DEAR ABBY: About large families with small incomes: The oldest girl in a large family is born into a life of slavery. From the time she can toddle she is looking after the younger ones—dressing them, bathing them, changing their diapers. At an early age she becomes a "second mother" helping with cooking, scrubbing, cleaning and ironing. Then she has to get a job on the outside to help put the younger ones through school. Then she has to turn around and spend the best years of her life supporting a sick mother and a senile father. I ask you, is this fair? This was the story of my life and I wonder how many others.

OLDEST DAUGHTER: If you want a personal reply from Abby, write to her in care of the Big Spring Herald and enclose a stamped, self-addressed envelope. She answers ALL letters.

Medical Aid Plans By Both Candidates Are Defeated

WASHINGTON (AP)—The issue of medical care for the aged was marked down today by Sen. John F. Kennedy for extensive treatment in the fall campaign after his defeat in the Senate on the issue.

A 51-44 vote defeated the proposal backed by Kennedy to write broad medical care benefits into the Social Security system and to raise payroll taxes to pay for them.

The defeat of the Democratic measure came only a few hours after the Senate had voted down a Republican-backed plan for a federal-state subsidy to help the aged with their medical bills.

A less liberal medical help program of federal grants to the states was approved after the plans backed by both the presidential candidates had been defeated.

The Democratic presidential nominee blamed his setback on the threat of a veto by President Eisenhower of including any health benefit plan in the Social Security system.

GOOD TEST: Kennedy said he regarded the vote on this question as a good test of whether it would be possible to pass any progressive legislation in this politically charged congressional session.

Once it was taken, he said, the remaining course was to "take the matter to the people of this country in the election in October and November."

After rejecting the Social Security approach to medical care for the aged, the Senate Tuesday night passed 91-2 and sent to conference with the House a limited bill dealing with this problem.

The Senate version of the legislation follows the lines of the House bill on medical payments, but contains more liberal grant formulas. Sen. Robert S. Kerr (D-Okla.), author of the Senate language, said he believed the House would accept it.

Only one Republican, Sen. Clifford P. Case (N.J.), plus 43 Democrats supported the Kennedy-backed Social Security plan. Thirty-two Republicans and 19 Democrats were opposed.

Also beaten 67-28 was a broad Republican health insurance protection plan for the elderly. This was backed by the Republican presidential nominee, Vice President Richard M. Nixon.

Not a single Democrat voted for it. Five Republicans and 62 Democrats said no.

Several Democrats who deserted Kennedy on this issue agreed with his analysis that the threat of an Eisenhower veto was responsible for rejection of the Social Security approach.

They said the increase in the public assistance grants was so attractive they did not want to jeopardize enactment of the bill.

They said the administration previously had opposed such increases but now was supporting them in order to beat down the Social Security medical care plan.

Sen. Henry M. Jackson (D-Wash.), Democratic national chairman, promptly announced the Democrats would seek to make a major issue of the plan in the campaign.

But Sen. Hugh Scott (R-Pa.), a former Republican national chairman, said tartly "this was a vote of no confidence in Kennedy's leadership. Sen. Kennedy has failed to unite and lead his party."

Sen. James Buckley (R-N.Y.), another Republican, said he would support the plan if it included a provision for a federal-state subsidy to help the aged with their medical bills.

Sen. James Buckley (R-N.Y.), another Republican, said he would support the plan if it included a provision for a federal-state subsidy to help the aged with their medical bills.

Aristocrat Tries Labor For Good Reason: Money

By ALVIN J. STEINKOPF LONDON (AP)—An aristocrat in overalls swings a pick and shovels broken bricks on a demolition job near Piccadilly Circus.

He develops callouses five days a week, knocking down an old building along with a lot of Cockney mates. Weekends he retires to his family's stately home near King's Lynn and gives orders to the butler.

He is Charles (Tiggy) Birkebeck, 24, nephew of the Earl of Munster. His mother is Lady Joan Mary, sister of the earl.

Tiggy, educated at Gordonstoun, Prince Philip's old school, might have found polite occupation in the financial district, where the traditional uniform is morning coat, bowler and umbrella. But he chose the overalls and the shovel to "get down to something essential."

"I was sacked from my job in an advertising agency. I was told I would never get to top class in that field."

Three weeks ago he persuaded the weather-beaten foreman of the wrecking crew to try his hand with a pick.

"He's a grand worker," said the foreman. "And he's got persistence. He came along every day, asking for a job. You should have seen him, all dolled up in bowler hat, stiff collar and carrying, of course, an umbrella. He finally broke down my resistance, and now I've got a fine hand. His workmates love him."

Old habits got Tiggy into a bit of bother at the start. When the lunch breaks came there seemed to be nothing more natural than to eat in a posh restaurant in the neighborhood.

"Then one day the manager called me aside and said, very politely, that he would be obliged if I didn't come in there with my overalls," said Tiggy.

Bill Evans Gets NTSC Diploma

DENTON—Bill Garfield Evans of Big Spring was one of 14 seniors graduating with honors in commencement exercises at North Texas State College Tuesday.

Evans, son of Mr. and Mrs. Earl C. Evans, 2410 Johnson, received the bachelor of music degree.

The college awarded 428 bachelor's, 213 master's, and eight doctor's degrees. This brought the number of 1969 NTSC graduates to 1,541.

Youth Revival Plans Discussed

The planning committee for the First Baptist Church Youth Revival met Sunday afternoon in the home of Dr. P. D. O'Brien to coordinate plans.

Judy Reagan, secretary for the revival, discussed ideas for the theme, "Christ—The New Way." The revival is set for Aug. 31-Sept. 4.

Plans for the youth choir were brought out by Hubert Murphy, while Frank Hagerty and Dick Snyder discussed arrangements for the fellowships and prayer meetings.

The team for the revival will be Dave Michael and Tommy Ryan.

Ledbetter Among Top Medical Grads

Abbe Ledbetter Jr., Houston, son-in-law of Mr. and Mrs. H. G. Keaton, is among the 15-top ranking medical graduates taking the June examinations of the Texas State Medical Examiners. Dr. Ledbetter is the husband of the former Margy Keaton.

He was among those averaging over 90 on 12 rigid examinations given by the board. Top man in the 341 taking the exams was William Christopher Duncan, Houston, graduate of Baylor Medical School, who averaged 92.2. Dr. Ledbetter's father is a Houston heart specialist.

Elena Patterson Named President

Elena Patterson was elected president of the Steer Pep Squad Monday.

Assisting her will be Fredda Bonfield as vice president, Anne Homan as secretary, Deanna O'Brien as treasurer, Lyn Clawson as reporter, and Wanda Boatler as drill leader. Ruth Anderson is sponsor of the squad.

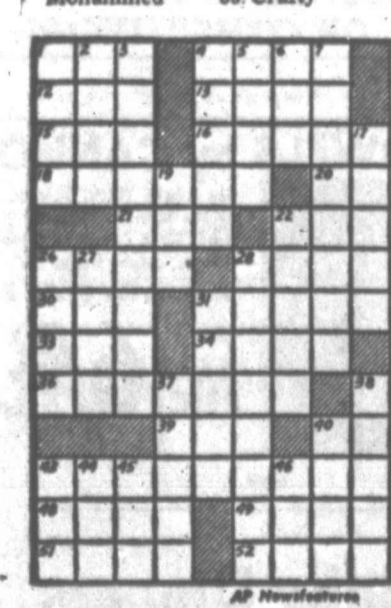

At the meeting in the high school gym, the group of about 60 discussed money making projects and practiced some new yells with the cheerleaders.

The Pep Squad will meet again at 10 a.m. Wednesday.

Crash Kills 2 Near Sweetwater

SWEETWATER (AP)—A head-on collision 5 miles east of here on U.S. 80 killed Richard Guthrie, 82, of Abilene and William Goodwin, 44, of Pittsburg, Tex. Tuesday. Each was alone. Two Abilene women suffered minor injuries as their auto hit the wreckage.

Amidst Overtones, Rome Is Ready For Olympics Start

By JERRY LISKA

Associated Press Staff Writer
ROME (AP)—Amid tranquility which even sent 10 Communist athletes to a special audience by Pope John, this ancient, storied city was poised today for the start of the 17th Olympic Thursday.

The papal audience for all-Olympic athletes and officials in St. Peter's Square just preceded the arrival of the Olympic torch from Greece.

At City Hall, the torch will be set in a tripod, remaining lit until it is carried to the Olympic Stadium for the official opening of the games.

A pro-Communist newspaper, Paese Sera, disclosed Soviet Premier Nikita Khrushchev sent an Olympic message to Rome, to be delivered by the Soviet embassy to the Italian games organizers shortly before today's papal audience.

REDS TO CONCLUDE

The newspaper said as a result of Khrushchev's message, confirming a "spirit of brotherhood," that 10 of the Soviet Union's 400-member athletic delegation would attend the audience by the head of the Catholic Church.

After the opening ceremonies before an expected 100,000 in the Olympic Stadium, the games proper will start with eliminations in boxing and water polo Thursday night.

On Friday, seven more sports will move into action. But the kingpin of the games, track and field, does not start until next Wednesday and the last of the 18 sports to be contested, equestrian, gymnastics, weightlifting and shooting, not begin until the week of Sept. 4.

NO BIKINIS IN OLYMPICS

ROME (AP)—The International Swimming Federation wiggled out of a ticklish situation today—it ruled out bikinis in the Olympics.

These brassiere-wearing and hooding swimmers had brought up the subject. They proposed elimination of the rule which sets certain standards for the cut of a girl's swim suit.

If adopted the move would have opened the door for two-piece bikinis or similar scant attire.

The federation voted a prima "no."

"Our rule on swim suits isn't extreme," said Max Ritter of Jenkintown, Pa., longtime member of the federation executive board. "Mainly we set forth just two demands—the suit must be modest and it must not be transparent."

Bonus Billy Benched By Bruises, Better Back

HOUSTON, Tex. (AP)—Right paw Billy Cannon is a \$100,000-a-year bench warmer.

And he is going to stay that way, Houston Oilers football coach Lou Rymkus said, until he looks better than Charlie Tolar.

Tolar, a 190-pounder from Northwest Louisiana State, took over for Cannon Saturday night against the Denver Broncos.

Cannon injured a knee against the Los Angeles Chargers Aug. 21 and missed some workouts the week before the Denver game. He didn't play against Denver.

But he was back in pads Tuesday. But he was working as a second team running back.

Tolar will be the Oilers starter against the New York Titans in their exhibition game in Mobile, Ala., Friday night.

In three Oilers exhibitions Tolar has averaged slightly over five yards each time he carried the ball. He scored twice in Houston's 42-3 victory over Denver.

"Tolar is our starting running back until somebody else proves differently," Rymkus said after studying game movies.

In two games Cannon has a 3.4 carry average with 48 yards on 14 tries.

Cannon may be joined on the bench by another rookie expected to be a star—Ohio State's Bob White.

White was sent to the bench by another rookie, Dave Smith of Ripon, Smith, voted the Denver-Houston game's outstanding player, gained 60 yards on 10 carries and caught three passes for another 70 yards—including a 39-yard touchdown pass from George Bland.

Cannon is the most publicized player in the American Football League, what with his huge contract and the court battle for possession of his talent. Cannon reportedly was signed for about \$100,000 a year plus a string of service stations and health studios.

BEAN BALL

Early Wynn Seethes Despite Victory In Crucial Game

By ED WILKS

Associated Press Staff Writer
Now that Early Wynn has cut the New York Yankees down to size, the next step is to knock 'em flat.

The 40-year-old right-hander, a tough guy with a brush-back pitch, promised to do just that after he pitched the second-place Chicago White Sox to a 5-1 victory over New York and trimmed the Yankees' American League lead to a half-game Tuesday night.

What got Wynn riled was a ninth-inning pitch by Yankee reliever Jim Coates that just missed his head. Wynn made for the mound, but in hand, before teammates and the ump checked his charge.

"Sure it was a beanball," Wynn said afterward, "and someday I'm going to get all nine of 'em (the Yankees)."

"And if I get Coates outside the park, I'll put a knot on his head." With Wynn, a first-inning replacement for Billy Pierce, in a switch that led the Yanks to protest the game, putting away the 20th victory of his career, the Sox took over sole possession of second place. The hot-running Detroit Tigers knocked Baltimore to third, 1½ games behind, by beating the Orioles 5-3 in 11 innings. Wash-

EARLY WYNN

ington defeated Kansas City 3-1 and Cleveland edged Boston 3-2 in 10 innings.

Wynn, now 10-8 with his third straight victory, allowed only four hits and faced the minimum 14 men over the last 4 2-3 innings after giving up a fifth-inning home run by losing pitcher Ed Grba, (3-2). It was Grba's first in the majors, and ended Wynn's shut-out string at 16 innings.

Wynn struck out six, pushing past Hall of Famer Eddie Plank for ninth place on the all-time list with 2,114.

The Sox beat Grba with three

Wright, Cheek Top Qualifiers

Bobby Wright and Bill Cheek appeared Tuesday to be off to the best start in qualifying for places on the local team for the Cosden Cup Matches here Sept. 2.

Red McCullah, only one to fire the four required rounds, appeared off his game and went 13 over par for the distance. He has 76-78-75 for a total of 301. J. R. Farmer, another veteran-linksman, also ran into trouble, and at the end of three rounds he was 11 over par with 72-78-77.

Bobby Wright, an ex-champ of the Big Spring Country Club tournament and one of the area's sharper golfers, shot a sizzling 67 on his first round but slipped to one over par 73 on his second. For the two he still was four under par. Bill Cheek had shot only one round, a three-under 69.

Completing two rounds were John Pipes 74-75 and Paul Mosely 77-72 for five over; Jack Cook 76-75 for seven over; Daryl Hertz 76-76 for eight over; Bernard Rains 75-75 for six over; Jimmy Patterson 76-80, 12 over.

Completing the initial round were Jerry Scott 75, Dick Pfeiffer 81, Gil Jones 82, R. H. Weaver 73, Don Lovelady 77, Jimmy Newsom 75, Earl Reynolds 74.

Jack Wallace, team captain for the cup event which precedes the annual Big Spring Country Club Coronado Hills invitational during the Labor Day holidays, said he expected twice this number to shoot qualifying rounds for cup team places.

Garvin Leads PGA Qualifiers

MILWAUKEE (AP)—Buzz Garvin, 19-year-old sharpshooter from Denver, Colo., the youngest golfer on the PGA circuit, led a qualifying field of 81 players Tuesday in the preliminary test of the \$30,000 Milwaukee Open Golf Tournament when he shot a 2-under-par 68.

Garvin and 70 other players qualified with 80 exempt golfers for competition in the 72-hole medal play meet that begins at the North Hills Country Club Thursday.

Ed Meyerson of Los Angeles, Ray Montgomery of Indianapolis and Tom Rayer of Little Rock, Ark., each came in with a 69. Bill Krause of Los Altos, Calif., Huston La Clair of Birmingham, Ala., and Paul Farmer of Sacramento, Calif., tied in par 70.

The low amateur was Emil Esposito of Chicago with 72.

Teen-Age Park Plans Talked

Plans are still pending for developing a new park for the teenage baseball program here.

However, there is considerable interest in the project as a result of last week's meeting of those interested in teen-age baseball. John Ed Brown is the president of the league and is to call a meeting later to consider steps toward re-locating the ball park, which has been off N.E. 12th Street. When the Interstate 40 loop is built that way, the park site will be abandoned. The meeting last week was one of the best attended in many months.

Hornsby Kayoes Oscar Ortegon

LOS ANGELES (AP)—Jimmy Hornsby of Los Angeles knocked out Texan Oscar Ortegon of Robstown in the sixth round of their scheduled 10-round Tuesday night fight.

Both fighters weighed 138. Ortegon grimaced and writhed in pain from a swift right to the body that canceled the round at 2:22. He was believed to have suffered two broken ribs.

FIGHT RESULTS

By THE ASSOCIATED PRESS
LOS ANGELES—Jimmy Hornsby, 138, Los Angeles, knocked out Oscar Ortegon, 138, Robstown, Tex., 6 rounds, 2:22. MIAMI BEACH, Fla.—Freddie Bladon, Fort Lauderdale, Fla., outpointed Benny Ray, Chicago, lightweightweights, 10 rounds. SAN ANTONIO, Tex.—Santiago Ortiz, 138, San Antonio, outpointed Karl Heins, 138, Chicago, 10 rounds. PHOENIX, Ariz.—Lauri Salas, 138½, Phoenix, outpointed Chuck Flores, 14½, Phoenix, 10.

Bulldog Backfield Crop

These boys will be carrying the ball for the Coahoma Bulldogs this season. With a couple of them—Dewayne Richers, fullback, and Royce Abernig, quarterback, two-year veterans, Coach Jimmy Spahn will have considerable experience. The others are lettermen. Pictured in the front row are Aubrey Darden, halfback, and Abernig; back row, Gorman Finley, halfback, Richers, and Ronnie Lindsey, stand-in at quarter and full.

Burdette Gets Another Win

By ED WILKS

Associated Press Staff Writer
It looks like Milwaukee Manager Chuck Dressen really started something when he started using Lew Burdette strictly as a starter.

The fidgety right-hander, who last worked in relief on July 30, when he beat Los Angeles with a home run, has pitched five consecutive complete games since, and has won four of them—one a no-hitter.

He extended his shutout string to 29 innings with his third straight shutout, a seven-hit, 7-0 breeze at Los Angeles Tuesday night as the second place Braves belted Dodger pitching for five home runs.

It was the Braves' sixth success in seven games, but left them 6½ games behind Pittsburgh. The Pirates rapped Chicago's Cubs 8-3. Third-place St. Louis, eight games back, beat Philadelphia 4-2. San Francisco smacked Cincinnati 6-1.

SIX STRAIGHT
Burdette, matching roommate Warren Spahn's 15-7 record, struck out four and didn't walk a man while winning his sixth in a row at the Los Angeles Coliseum.

Mel Roach (No. 3), Al Dark (No. 4), Hank Aaron (No. 33), Ed Mathews (No. 20) and Johnny Logan (No. 5) walked the homers for the Braves, all with the bases empty.

Stan Williams (12-6) gave up two of the home runs and four of the Braves' 11 hits. It was his fourth defeat in the last five decisions.

The Pirates were shut out on six innings by Dick Ellsworth (6-10), then came from behind against the Cub lefty with four runs in the seventh. A bases-loaded walk, Dick Groat's two-run single and an infield out brought the runs home. Harvey Haddix (9-7) was the winner, with saving relief by Elroy Face. Haddix had given up just two hits, but trailed 1-0 when lifted for a pinch-hitter in the seventh.

1960 FOR STAN
The Cardinals—beached—bookie Ray Sadecki (7-7) with a two-run single by Hal Smith in the second inning, and a clinching, two-run homer by Walt Moryn in the sixth. Stan Musial, who had walked, came in on Moryn's shot for his 1,000th run scored. That's the second only to Mel Ott's 1,059 in the N.L. Gene Cooney lost his fifth in a row for a 7-1 record.

Jack Sanford, 0-3 in his last five starts, beat the Reds with a five-hitter for a 10-11 record. The big right-hander also walked and scored as the Giants came from behind with a pair of unearned runs in the sixth against loser Bob Purkey (13-8).

Sands Crippled By Tiny Squad

ACKERLY (SC)—A week ago Marlin Dodds was the bluest man in three counties. His Sands football team had been upgraded to 11-man status in District 4-B and he had 12 men out for the squad.

Things have improved since then, thanks to some vigorous bush-beating—by Dodds—but with a squad of 18 men for 11-man ball—including two sophomores and four freshmen is a pretty thin one. But Dodds is in fair shape in the first team. He has 10 lettermen returning, including Pat Fortune, an all district performer at center last year and currently running to good advantage at fullback.

Three other seniors out are Weldon Mennix, back, David Bearden, end; and Jeffery Jones, lineman.

The juniors reporting for duties include Eugene Coleman, guard; Larry Hold, tackle; Don Newsom, guard; Lonnie Taylor, end; Billy Rasberry, Ike Wasson and Robert Smith, backs; Don Shortes, lineman.

SERVICE FOR SOPHS
Bill Metcalf, back, and Jimmy Schuelke, lineman, are sophomores counted on for regular duty. Up the squad are these freshmen: Jesse Franklin, Bobby Gaskins, Johnny Merrick, backs, and Glenn Hanks, lineman.

Dodds wouldn't be surprised if Franklin and Gaskins will see a substantial amount of service during the season.

NEW ASSISTANT
Assisting Dodds is Van H. Koutz, who attended Texas Tech. He is handling the backfield while Dodds is concentrating on the line. In addition Koutz is coaching girls basketball—he started Tuesday with a 11 a.m. workout and will miss this in during the season. He played high school ball at Fort Davis under W. L. (Diddle) Young, football at San Angelo College, and graduated at Tech.

Dodds is cutting grid workouts to one a day. He was to have his first scrimmage Thursday.

The 10-game schedule, with six home contests, gets under way here against Ropes on Sept. 2. This is the way it stacks up.

Sept. 29 Is Major Event For Republicans

By The Associated Press
Republican leaders have circled Sept. 29 on their calendars as one of the major nights of their 1960 campaign.
President Eisenhower will make his first political speech of the campaign that night at a GOP fund-raising dinner in Chicago. His talk will be relayed by closed-circuit television to similar dinners around the country.

Vice President Richard M. Nixon, the Republican presidential nominee, and his running mate, Henry Cabot Lodge, are expected to round out the big evening with speeches to other GOP dinners.
Nixon's more immediate plans include speeches Friday in Atlanta, Ga., and Birmingham, Ala., after an address today in Detroit to the Veterans of Foreign Wars convention.
Sen. Barry Goldwater (R-Ariz.) said he had advised Nixon to continue his campaigning in the South "because I believe the majority of Southern states will go" for the Republican ticket.
The Senate Republican Policy Committee told Nixon Tuesday that his campaign was going well. Nixon later told newsmen the

group had given him "quite optimistic reports."
Nixon's Democratic opponent, Sen. John F. Kennedy, was scheduled to address a rally tonight at Alexandria, Va., just across the Potomac River from Washington. Gov. J. Lindsay Almond Jr. said he would interrupt a vacation to welcome the nominee.
Virginia's powerful Democratic leader, Sen. Harry S. Byrd, has not said whether he will support the Kennedy ticket.
Separate measures backed by the two candidates to provide medical care for the aged were defeated Tuesday by the Senate. Finally approved was a program of federal grants to the states—a less liberal plan than those favored by either candidate.
Kennedy's measure would have placed the health benefits under

the Social Security system. The Nixon-backed measure called for a federal-state subsidy.
Kennedy blamed his setback on the threat of a presidential veto. The Democratic national chairman, Sen. Henry M. Jackson of Washington, emphasized political implications when he said "with a Democratic president we will pass this program. We will bring it up next year as one of the first orders of business."
A former Republican national chairman, Sen. Hugh Scott of Pennsylvania, said the defeat of the Democratic measure "was a vote of no confidence in Kennedy's leadership. Sen. Kennedy has failed to unite and lead his party."
The religious issue—Kennedy is a Roman Catholic—bobbed back into the political news, North Carolina news executives

attending a Capitol Hill luncheon asked Kennedy about the religious issue in the campaign. He said "I can't believe in the year 1960 the United States is going to say I cannot be president because of the church I go to. I think the country is going to be fair about it."
Mrs. Charles Hynes of Minneapolis, president of the National Council of Jewish Women, urged all voters—particularly Jewish women—"to combat the religious prejudice which has entered the presidential campaign."
Killed in Crash
ORANGE (AP)—Mrs. Geneva Richard was killed Tuesday in the crash of her car with a truck during a rainstorm on U.S. 90 west of here.

Big Spring (Texas) Herald, Wed., August 24, 1960 7-A

Elector Won't Vote Democratic

TOMBALL, Tex. (AP)—A Democratic presidential elector said Tuesday he will not vote for the Democratic ticket.
George Charlton of Temple said he will not take a pledge to support the Democratic nominee.
He said he would resign if he is required to pledge support to the Democrats.
"I haven't supported the Democratic presidential nominee for many years," he said, "but they appointed me in spite of it."

Texas Approves N.M. Highway

AUSTIN (AP)—The State Highway Commission has agreed to extend U.S. 82 from Lubbock to the New Mexico state line, concurring with a New Mexico Highway Department decision to extend the route to Las Cruces.

Employment Falls

OKLAHOMA CITY (AP)—The state reports Oklahoma's July employment dropped 23,100 below 1959. Employment was placed at 850,000 and unemployment at 40,600.

New Modern Store

The new Wacker's store, modern in every respect, is completely air conditioned and, for the winter months, will be heated through four ducts in the ceiling. One new concept in variety-store display is featured at the new store at 11th Pl. and Maple. The 13 counters with their displays of merchandise are, in part, equipped with perforated metal counter tops, the first of their kind to be utilized in this part of the nation. In addition to the rows of counters, some 200 feet of wall space counters stretches around the east,

north and west walls, offering a wide choice of dry goods and other items. The entire north wall, about 100 feet, is given over to dry goods and a variety of clothing articles. Twenty departments are contained in the store, including such things as sedans, cosmetics, drug items and clothing. As an added feature Wacker's has provided 78 parking spaces for ease and convenience. Spaces are provided south of the store and on the west side. Both areas are accessible from 11th Pl. and Maple.

Wackers Opens 62nd Store In Big Spring

About three decades ago, G. F. Wacker opened his first West Texas store in Big Spring. Thursday, the company's No. 2 store will be opened at 1003 Eleventh Place, across from Piggly Wiggly, and officials hope this won't be the end of it.

"In opening our second store in Big Spring," said Ernest McGrow, Hobbs, N.M., district supervisor, "we are exhibiting our confidence in the future of this growing city. We believe that some day we will be adding another."

The new business here is the 62nd in the Wacker group in Texas, Oklahoma, New Mexico and Louisiana.

Wacker Opened 1st Store In Oklahoma

The Wacker 5 and 10 Stores date back more than two score years ago and had their beginning in the southwestern Oklahoma town of Hugo.

G. F. Wacker opened the first modest store, but the response was so encouraging that he moved to Pauls Valley, and to this day this city is the general offices for the 62-store chain in four Southwestern states.

The general warehouse for the Wacker chain is located in Dallas in a new brick and concrete building occupying 40,000 square feet. Because the warehouse is approximately in the center of the growing chain, any of the stores can obtain overnight service on merchandise orders. Big Spring is particularly fortunate in this respect due to fast rail and truck connections.

This policy of central warehousing makes for rapid turnover and thus insures the freshest and latest stocks for Wacker customers.

Several company officials, including L. B. (Bill) Edwards, who opened the first Wacker's store in West Texas here approximately 30 years ago, will be on hand for the opening. Edwards, now personnel director and in charge of the fixture purchasing department of the Wacker chain, has continued to make his home here through the years.

The store here, as in other Wacker enterprises, operates under the slogan "Shop as You Please, Pay as you Leave." The objective is to make good on the Wacker policy that "your dollar buys more at your Wacker Store," said Bill Haggarty, manager of the No. 2 store.

The No. 1 store will continue to operate at the location it has maintained in the 200 block of Main Street since it was first opened here, although it has been twice enlarged.

Budget Hearing Set Sept. 12

Howard County Commissioners Court has set 10 a.m., Sept. 12, as official date for a public hearing on the 1961 Howard County budget.

The commissioners and Lee Porter, county auditor, have been discussing the budget at numerous sessions and Porter said the figures are now tentatively completed.

All persons who are interested in the budget for the county are invited to attend the open meeting.

Huge Amusements Park Is Planned

DALLAS (AP) — Plans to build a huge amusement park between Dallas and Fort Worth were announced Tuesday.

Angus Wynne Jr. of Great Southwest Corp. said the park will present "Texas Under Six Flags." It will be larger than California's Disneyland, he said. The park will cost \$ to 10 million dollars.

World Citizen Afoul Of Law

NEW YORK (AP) — Garry Davis, 39, who once gave up American citizenship to proclaim himself a citizen of the world stood before the judge in traffic court.

When police noticed a tag reading "World Government 1" instead of a license plate on his motor scooter Tuesday, they filled out a summons. He claimed diplomatic immunity as coordinator of world government.

"Your government," observed Magistrate Irving Schreckinger, "is not recognized, and thus you can't have diplomatic immunity."

When Davis said he couldn't fork up \$50 for bail and wouldn't even if he could, he was jailed pending a hearing on a charge of improper vehicle registration.

Davis, son of band leader Meyer Davis, some time ago announced he wanted to be a U.S. citizen again.

Costa Rica Is Investing Wad In OAS Meeting

SAN JOSE, Costa Rica (AP) — The conference of foreign ministers of the Organization of American States is costing Costa Rica a wad of money but the glare of the spotlight may lure more tourists, not yet a major economic factor.

One reason the ministers chose Costa Rica for the conference is because it is one of the most peaceful and free of tension. It doesn't even have an army.

Costa Rica is sometimes called the Switzerland of Central America. The climate is excellent the year around, temperatures ranging in the 70s generally. The best time to visit is during the dry season from December through April. Temperatures are so unvaried you see few thermometers.

San Jose, the capital, is a bustling city of about 215,000 sitting in a broad, fertile valley at 3,570 altitude. It was founded in 1756.

It is clean, tropical, colorful with good hotels and better food than can be found in many Latin-American nations.

It's one place in Latin America you can drink water out of faucets.

It's tropical with bamboo, bananas, bougainvillea, and huge coffee plantations turning out the country's major export. There are wild orchids and smoking volcanoes.

There are beaches on the Atlantic and Pacific oceans, between which Costa Rica is wedged.

The city with its narrow streets, many not much wider than some sidewalks of New York, is bustling and happy.

Television has come to Costa Rica, and stores display them in windows—going full blast during programs—blocking the narrow sidewalks with awed children and even adults. Stores are well-stocked with European and American merchandise.

Finding your way around is difficult because few buildings have street numbers, and almost no streets have signs.

Tax Expert Dies

DALLAS (AP) — John Paul Jackson, 56, a nationally known tax attorney, died Tuesday after a long illness.

County Cotton In Need Of Moisture

Howard County cotton is standing up well in the face of the prolonged drought but there is no question but the fields need moisture now. Jimmy Taylor, county agent, said that the older cotton is far enough along that it is possible it can survive and make some sort

of crop even if rain is not forthcoming. There are many late fields, however, which are facing a bad situation. Rain now would help importantly on these fields although the long dry spell has worked a lot of damage.

Guilty Pleas To Be Heard Monday

Plans are complete to hear any guilty pleas arising from the recent grand jury on next Monday. Gil Jones, district attorney, and Judge Ralph Caton agreed to reserve time Monday for this purpose.

There were 19 indictments voted by the grand jury in its report on Tuesday. If the usual conditions prevail, a considerable number of the defendants in these cases will choose to plead to the charges against them rather than go before the jury.

4 Teen-Agers Die In Highway Crash

OPELOUSAS, La. (AP) — A sedan packed with five teen-agers smashed into a trailer-truck about six miles east of here Tuesday night, killing four.

The dead were Kenneth McKunkins, 18; Connie Hatten, Shirley Randall and Sherry Mayer, all 17. In a critical condition was Freddie LeBlanc, 18. All were from Port Barrie.

If there had been rain last week or perhaps 10 days ago, the field crop would have been tremendously improved, Taylor said. However, grain is doing fairly well. Much is nearly ready for harvesting. A few fields have been harvested.

The drought has had one effect of a beneficial nature. There has been a shortage of insect pests. Relatively little poisoning has been done. One cotton farmer, anticipating a heavy infestation of insects, bought a ton and a half of poison early in the season. So far, he has not used a pound of it.

Some cotton, even with the dry weather, will make half a bale or better per acre, Taylor estimates. The quality this year should be as good or better than last year. If it would rain between now and the end of this week, the prospects for a better than average crop would be materially enhanced.

Taylor says that he anticipates as much cotton will be ginned this year as in 1959.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

HOSSPOWER

podner here's real

is your car a rocking horse... or is it a nimble, high spirited vehicle? There's horsepower under the hood of your car—there to give you steady dependable power for easy driving. To get all the horsepower your car can deliver, fill your tank with COL-TEX gasoline. COL-TEX gives you instant, alert, high spirited performance, mile after mile, and with top-notch road economy. COL-TEX gasoline, regular and premium is refined in the Southwest from Southwestern crude oil.

QUALITY GASOLINE REFINED IN THE SOUTHWEST FROM SOUTHWESTERN CRUDE OIL

Texas Size

This mother cow looks "plumb wore out" and she should be. The calf she gave birth to, standing beside her, weighs 152 pounds, about 70 pounds more than a Holstein normally weighs at birth. The cow and bull calf are owned by Elmo Woodard, a Claburne dairy farmer. The cow was bred by artificial insemination and the calf's sire was Dees Superb, owned by Curtiss Candy Company at Calro, Ill.

A Devotional For Today

God said, Let there be light: and there was light. (Genesis 1:3)
PRAYER: O God, our heavenly Father, forgive us that we so often walk in darkness. Grant unto us the light of life, that we may reflect in our lives Him who is the light of the world. In His name we pray, Amen. (From The 'Upper Room')

On The Horns Of A Dilemma

Texas, smarting under the necessity of sharply curtailed oil production, may have a partner in commiseration. Major oil companies with vast holdings in the Middle East have reduced their prices, and others are due to follow suit. A year ago a similar step was taken with the result that Saudi Arabia lost \$35,000,000 and Iraq lost \$24,000,000.

It is significant that the cause of the price cut is not altogether due to the dulled domestic market in the United States, the prime consumer of petroleum. Soviet Russia is hitting the market and in an increasing volume of petroleum and petroleum products, and it is underselling the Western-owned concerns.

Don't Put Off Pre-School Checks

This is a last minute appeal to parents to attend to pre-school checks before the doors of the schools are opened. Every child beginning school ought to have a physical examination. As a matter of fact every child ought to have periodic checks, but certainly those who have never yet been in school should be screened by the family doctor to see that they have no physical infirmities which would stand in the way of unimpeded learning.

In possession of the same number of hours a day as everyone else, they hardly can squeeze in more than a fixed number of pre-school checks along with their more urgent practice. So don't wait until the last minute and jam the office, getting hot under the collar because you have to wait a lot longer than usual, or maybe not being able to get in at all.

David Lawrence

Powers Trial A Theatrical Presentation

WASHINGTON — The Communist dictatorship in Moscow, by its conduct of the Powers trial, has unwittingly disgraced itself in the eyes of the world wherever the words "law and justice" are understood.

for it . . . I do not feel nor have I ever felt any enmity whatsoever for the Russian people."

The mere mitigation of the sentence from the death penalty to ten years is not the true measure of the Soviet's spectacular piece of propaganda. It is the revelation to people everywhere—that in the Soviet Union millions of innocent persons are constantly punished without benefit of a fair trial—without a jury, without a chance to select counsel of their own to cross-examine witnesses, and without a chance to appeal to a higher court.

ALL THIS was doubtless planned as a bit of political propaganda to go over the air waves. But somehow the United States didn't fall for it. President Eisenhower said publicly that the sentence was "severe." The Communists had expected that their alleged show of leniency would win them friends and sympathy throughout the world. The Communist strategy on this point was disclosed in a broadcast afterward from behind the Iron Curtain which said:

THE WHOLE THING was a carefully rehearsed piece of stagecraft and gives every appearance of either "brainwashing" or intimidation of the defendant, forcing him to say things that his so-called counsel probably told him to say in order to help reduce the severity of his sentence. The defense counsel in his closing speech referred vaguely to a "preliminary investigation" which took place sometime during the 100 days of Powers' solitary confinement. Nobody knows what "written testimony" he gave during that time. Contrary to custom in civilized governments, no American Embassy representative was allowed to see Powers.

"The sentence will be an unpleasant surprise for many elements in the United States. They would have liked to have seen Powers dead and buried."

AS THE MOSCOW correspondent of Reuters News Service—a British press association—puts it, the "script" was all prepared in advance. He writes: "There was too much agreement among all parties here, too many expected lines without even the need of a prompter. This was 'socialist legality.' Nobody seemed to miss his cue."

WHY DID the Soviets, who are known for their cruelty, give Powers a ten-year sentence? They realize perhaps that their own spies are constantly being caught in America and that never has the death penalty been imposed. Maybe they are afraid their spies will not get off so easily in the future. The United States has caught 21 Russians spying, and all but three were simply told to go home. Two were given suspended sentences and ordered to leave. Only one was imprisoned.

WHAT WERE the Communists afraid of? That Powers, who had been carefully rehearsed for the part he was to play in the trial, might break down emotionally and spoil the show? The Reuters correspondent Hall of Columns says: "Each session of the three-day trial fitted a Westerner's conception of a theatrical presentation. The ring of reality often faded from the scene in the magnificent Hall of Columns."

What about Powers himself now? Opinions differ as to how far he can be considered responsible for what he said at the trial. The Reuters correspondent in Moscow makes this significant comment: "THE WESTERN diplomats and press corps seemed to be more personally involved than the Russians. For instance, a feeling of animosity built up among some Westerners when Powers confessed the espionage and blamed 'the people who sent me.' This thought is not how a soldier should behave, in fact, as the Russians claimed, he was a military man."

FOR A YOUNG man who said he never had been interested in anything political, who didn't know when there was to be a "summit" conference, and who had never voted, though he is 21 years old, some of his statements to the court sounded as if they had been prepared for him, as, for instance, the following: "I realize I have committed a grave crime and I realize I must be punished."

The mystery of the Powers testimony may never be solved. But the whole world now knows more than it ever did before about so-called "Soviet law and justice."

WHAT OTHERS SAY

The "moderate" in American politics and government is more and more becoming the man without a political voice. Such is the clear indication of events leading up to the national conventions for both major parties.

BUT CAN HE MAKE IT STICK?

James Marlow

Kennedy Puts Himself On The Spot

WASHINGTON (AP)—Sen. John F. Kennedy has put himself in an awkward spot.

The Democratic presidential candidate argued Tuesday that—if the medical care bill he favored failed to pass—Democrats could make it an issue in the campaign. He suffered a smashing defeat. The Kennedy-backed proposal was beaten 51-44 in the Senate where the Democrats outnumber the Republicans 66-34.

ern Democrats, turned their backs on him and teamed up with 22 Republicans to kill the proposal.

LAST JULY in Los Angeles the Democratic convention approved a campaign platform plank calling for a medical-care-for-the-aged program under the Social Security system and paid for by a slight boost in the Social Security tax. This was the kind of program supported Tuesday by Kennedy and his Vice-presidential running mate, Sen. Lyndon B. Johnson, leader of the Senate Democrats. Kennedy threatened to make

Hal Boyle

These Healthy Executives

NEW YORK (AP)—The average man today doesn't want to be a boss.

Ask him why, and he will probably say: "Too much responsibility, too many ulcers. You never get the job off your mind. It kills you young. I'd rather have less pay, less worry—and live longer."

This picture of the modern business executive as a harassed, ulcer-ridden, tension-ridden individual who works around the clock and succumbs early from a heart attack has become as much a part of popular folklore as Cinderella or Little Red Riding Hood. Bosses have done little to dispel this highly fictional portrait of themselves. After all, it flatters them and impresses the public. Why quarrel with it?

No, indeed! Not by their own testimony. A recent issue of U.S. News & World Report carried some results of a poll of 6,000 U.S. executives made by Dr. Harry J. Johnson, head of the Life Extension Foundation.

Executives worked an average of only 35 hours a week. They worked only five days a week, just as do most union members.

Only 30 per cent took office work home with them, and these averaged only 4½ hours a week at it.

In three-cases out of four, executive fatigue came from boredom rather than overwork.

About 75 per cent of the executives were in good health, and as a group they suffered from ulcers or heart attacks no more than their underlings in the same age bracket.

Only 13 per cent complained they were under undue tension from their work.

The corporation executive, however, does differ from the ordinary business employee in one significant way. "He can afford to dissipate—the lower-salaried fellow can't," said Dr. Johnson. "We have found that executives get too little sleep; 77 per cent of executives averaged seven hours or less of sleep per night."

His opinion is that all most executives need is to get another hour's sleep a night, take a 15-minute walk three times a day, and maybe lose a little weight.

The next time anyone offers you a \$50,000-a-year executive post, don't shrug him off like an ingrate. Accept his offer.

The hours are short, the fringe benefits are wonderful, you'll live just as long—and think how much fun your wife can have spending all that money!

this kind of program a campaign issue by warning the Republicans if they ganged up to kill it. "I think we should take the matter to the people of this country."

But how is he going to make it a campaign issue now by blaming the proposal's defeat on the Republicans when in 19 members of his own party joined the Republicans to administer the defeat?

Since the Kennedy-backed plan was defeated 51-44, if only four of the 19 Southerners who joined 32 Republicans in killing the measure had voted with Kennedy, the final tally would have been 48-47 in favor of it.

SINCE IT WAS his fellow Democrats who made repudiation of the platform promise possible, Kennedy will have a difficult time arguing that a Democratic victory in November will mean the platform promise can be carried out at all.

Earlier Tuesday a different kind of medical care program for the aged backed by Vice President Richard M. Nixon, the Republicans' presidential candidate, was also defeated.

The vote on that one was 67-28, with not one Democrat supporting it. In fact, five Republicans deserted Nixon to go along with 62 Democrats to beat it.

At the end of the politically tormented day the Senate finally rammed through—a 91-2 vote—a bill to make some medical provisions for needy old people. The two who voted against even this measure were Sens. Strom Thurmond, a South Carolina Democrat, and Barry Goldwater, Arizona Republican.

In the Kennedy-backed proposal, which was defeated, only one Republican, Sen. Clifford Case of New Jersey, joined 43 Democrats in voting for it. Otherwise the Republicans—32 of them on the floor at the time—voted solidly against it.

This was a kind of political tit-for-tat, the Senate finally completely solid Democratic vote against the Nixon-backed proposal. While 19 Southern Democrats were voting against Kennedy, by teaming up with the Republicans, only four Southern Democrats voted on his side.

They were: Sens. Albert Gore and Estes Kefauver of Tennessee and Sens. Lyndon Johnson and Ralph Yarborough of Texas.

Around The Rim

Some Things Don't Change

Soon school doors will be opened, and youngsters will flock to bright buildings, well-lighted, well-ventilated, well-heated, well equipped.

There is at least one thing missing—the bell in the belfry tolling the tidings of a new session. This came like the clap of doom on those who didn't cut a shine to school; it was like a note of hope and joy for those who enjoyed being back with the gang. To the mothers in cottages scattered around, it was a sort of "hear ye, hear ye, the honorable school is now in session."

There are some other things missing from yesterday, and perhaps it's just as well.

MAINTENANCE might as well have been a third year Latin word so far as most school systems were concerned, for when school shut down in May, the doors were barred and probably the windows nailed. The janitor's pay stopped and that meant simply that the work of tending up the plant for another year simply didn't get tackled. Maybe a week or so before the doors opened, the janitor would go back on the job so that the dust accumulation would be wiped away, a few broken windows replaced, and once in a great while a floor varnished.

But by and large, the buildings were pretty much as they had been left when school was out. There was invariably a musty odor from being shut-up all summer with nothing but the fragrance of floor sweep and dust left to soak into the surroundings.

THE SCHOOL GROUNDS grew up in weeds, mostly those gray, sticky silver

night shades, except in low places and along fence lines where the tumbleweeds abounded. Around the "giant stride," a swinging trapeze device, and about the merry-go-round apparatus and see-saws, the holes-made-by hundreds of feet the year before had accumulated a little sand washed in by the summer showers. The campus had been settled by these same rains so that the tiny pebbles stood in bold relief along its surface.

The sanitary facilities, improved by rest and lime, were patched. Perhaps a new hydrant was put on the so-called fountain, and a new bell rope strung down from the cupola. Inside, George Washington's picture was straightened and the blackboards were washed to give the illusion of something new.

STILL IT WAS A FORBIDDING piece of property, gloomy and brooding—until the first day of school. Suddenly, while the sonorous tones of the bell reverberated, children dressed in the newest and best, some starched within an inch of their lives, began to swarm to the grounds.

The teachers, in freshly ironed dresses, or new high-water pants and coat, arrived. Windows banged up and the sunshine and air streamed in. Presently, the old Victrola began whining-whanging out the "Washington Post March" and in the kids trooped.

Then, as now, they were happy to see each other, happy to start a new adventure of school, and anxious to see what the new teacher looked like, how far she could be pushed, and what the new books would be. Some things don't change.

—JOE PICKLE

Holmes Alexander

What Will Full-Grown NATO Be Like?

RACQUENCOURT, France.—What is NATO going to be when it grows up? The seeds of growth are mixed in this complex international body. The 10-year-old child, as NATO is today, will become father of the grown-up being—but what sort of NATO is developing?

SOMETHING CAN be conjectured from recent demands upon NATO. Communist Poland on July 20th raised the question of its Western frontier border dispute with West Germany—and with NATO. In other words, the People's Polish Republic, which is behind the Iron Curtain but in reasonably friendly relations with the United States, already looks upon NATO as a European nation. The borderline between West Germany and Poland was "temporarily" fixed at the Potsdam Conference in 1945 and was supposed to be adjudicated at the time of a final peace settlement, which has never come. In reply to the Polish note, the State Department dutifully described NATO as "a purely defensive alliance," but it is a lot more than that although not quite a full-blown nation, as yet.

NATO IS "PURELY defensive" only in a limited although very important sense. The long, thin line of coiled steel from Norway to Turkey belongs to all 15 of the NATO members. It will strike at the enemy only if struck or severely threatened first. But the offensive power of NATO is not owned jointly. It is owned separately by the nations of the West who can afford military striking power. Today these are mainly the USA with its Strategic Air Command and its Navy units, notably the Sixth Fleet, which is positioned in the Mediterranean and close to the Soviet heartland; the British who have a useful complement of V-Bombers which carry nuclear bombs; and France which is just emerging as an atomic power.

THUS, IT IS ALWAYS officially said that NATO has no "sword," only a "shield," although swords can readily be available if the need arises. The shield is NATO's strength, but it is subject to change as NATO grows to maturity. Let us hear the NATO Supreme Commander, General Lauris Norstad, on the subject: "The requirements of NATO in the nuclear field are responsive to the facts

and circumstances of the hour. Knowledge refuses to be contained. Ideas are in flux. Military requirements necessarily reflect changes—technical, tactical and political."

WHAT DID NORSTAD mean in this speech, made about a year ago? He was reflecting the opinion of many men with NATO connections—that this Alliance must inevitably own its own sword, a nuclear sword, as well as a shield. Later, last December, Norstad became more specific and mentioned "the creation of a multi-national atomic authority" within NATO. Today at the Supreme Headquarters, while everybody is very circumspect about advancing political ideas, the vision of a nuclear sword for NATO hovers in the air.

BUT HOW IS A "North Atlantic" power going to stay in the North Atlantic these days? Although the Congo is geographically outside the NATO radius, the summer commotions in the former Belgian colony have suggested another way in which the Alliance may develop. It may develop as a nation or "community" (which is the preferred term) with worldwide spheres of interest.

Can this come to pass? The answer is that De Gaulle is the strongest man in a European bloc—the Inner Six. This bloc is not only taking on internal strength, but seems to be on the verge of acquiring the economic and political association of Great Britain and perhaps the whole group known as the Outer Seven.

IT IS NATURAL to ask that, as NATO develops, what of the USA? Well, the USA is already pretty much on the outside, looking in, at the economic integration of Europe. We have helped to build a serious competitor. The next thing that could happen would be the appointment of a European, probably a Frenchman, as Supreme Allied Commander—an event which would mark a major change indeed.

The foregoing does not by any means exhaust the developments that are in the air. NATO, it merely notes those which seem outcropping, and it means to suggest that here is a young political-economic-military body which is growing and changing with almost human complexity and rapidity (Distributed by McNaught Syndicate, Inc.)

The 'Image' Of A Communist Hero

Granted that one woman's Prince Charming is almost always another man's poison, still and all it would be a hard heart indeed that did not sympathize with the problem of the Bulgarian Writers Union.

The Bulgarian Communist party newspaper and the union's own secretary-general have told the members they have been weighed and found wanting. The 280 members of the union have been warned that they have failed to create the image of a modern Bulgarian Communist hero or Prince Charming.

"THE CREATION of such an image is an immediate task," they have been ordered, or else.

And just to make certain that there is no taint of gray flannel suitism, or angry young men or "beats" in the business, the party has thoughtfully laid down the qualifications for this paragon of party principles.

First off, this Bulgarian Don Quixote must be "the personification of the most beautiful human qualities forged by the party in the struggle for socialism."

AS I SEE THE STORY shaping up, by the time he is five, the lad has already displayed his heroic mold by turning in his grandmother as a counter-revolutionary after the old lady remarked one day that the blinis weren't what they used to be. She gets life in the salt mines and he gets to skip first grade.

Next, he must "sum up in himself the whole profundity and complexity of our epoch."

THE BULGARIAN Bayard, chevalier sans peur et sans reproche, accomplishes this at the age of 10 by the simple expedient of taking a tractor apart and putting it together again in such a way that it can either be used as a milking machine or launching pad for Molotov cocktails. The Bulgarian beau-ideal must also "reflect the tremendous civic and moral growth of contemporary man."

THE COMMUNIST Hercules, at 16,

easily polishes off this difficult assignment and is marked as a comer in his country. During the party's one-ticket election, his hero apprehends the only person in his village, his own father, who, instead of writing "yes" on his ballot wrote, "Nuts to you."

Such is the hero's moral indignation at such civic treachery that he does not even attend the funeral service for his old man after the latter is shot. "He asked for it!" is the hero's only comment.

So far, the Bulgarian strong boy has passed all the tests. But there are still more. He must be "the living expression of the maturity of the country's literature."

THIS IS A STIFF hurdle, but he makes it. Unlike the heroes of most Communist literature, he does not fall in love with a tractor. Instead, he fights off a number of blonde Bulgarian tractors to form a tender attachment for Lutnik with a little occasional hanky-panky on the side with an ICBM.

Finally, the Bulgarian Lancelot must be "the exceptionally brilliant, positive hero; the masterfully chiseled image which raises to the level of the summit the achievements of Bulgarian literature."

So with an abacus and a homemade side rule, this Balkan Ivanhoe squares the circle, invents the Theory of Relativity and, in his spare time in a homemade laboratory, perfects talking pictures.

HIS COUNTRY IS not ungrateful. In recognition of his heroic deeds, the national Romeo becomes a hero of Bulgarian Labor and is given a 24-hour leave from his collective farm. He spends his leave denouncing his mother as a capitalist entrepreneur who knits sweaters on the fly for money to help support the family.

As for myself, I have given away my copy of "The Sheik" and am trying to subscribe to the Bulgarian Book-of-the-Month Club. (Copyright, 1950, United Feature Syndicate, Inc.)

To Your Good Health

All Kidneys 'Float' To Some Extent

By JOSEPH G. MOLNER, M.D.

From time to time questions arise concerning floating kidney. It seems to me that it is better to give an over-all picture of the subject, rather than to answer particular questions.

Sometimes, when a patient complains about a floating kidney, I say, "Forget it." And another time—with the symptoms somewhat different and more severe—my answer is, "Let's find out whether surgery isn't the right answer for you!"

A diagnosis of floating kidney should not be made simply because one isn't placed exactly the way it is located in the anatomy charts. Kidneys (and other organs) seldom follow an exact pattern. After all, some of us have big ears, small noses, high foreheads, bow legs, narrow hips, broad shoulders, and all sorts of variations, good and bad, which doesn't have a thing to do with our basic health. We vary!

The same holds true with a kidney. It can be high or low, ranging from the diaphragm to a location pretty well down into the pelvis, and still be perfectly normal. The kidney, you see, is an organ which is anchored either loosely or snugly. So long as it does its work, the tautness of the anchorage doesn't matter.

The only time anyone needs to fret about a floating kidney is when it starts to cause trouble. The symptoms, if there is going

to be trouble, are those which occur in kinking of the ureter. This condition can occur with or without a floating kidney.

The ureter, you see, is a drain pipe which leads from the kidney to the bladder. If the ureter is too long, or if the kidney is too low, then there is a possibility that the ureter can form a kink.

The kink shuts off the flow of fluid through the ureter—and it is principally of academic interest whether this flow is shut off by a kink or by the presence of a kidney stone. Either way, the real problem is an interference with the flow of fluid. Whether the kidney is high or low by a few centimeters doesn't matter.

The prime symptom is discomfort, if there is any—pain in the flank, nausea and vomiting. When troubles such as these occur, and the source is traced to a floating kidney, in most cases surgery will solve the problem. The surgeon simply "anchors" the kidney more solidly. In some rare cases, the symptoms are caused by a ureter which is too long. Shortening it helps.

All kidneys "float" to some extent, by which I mean they are supposed to be flexible. They move to some extent as the body changes position. A floating kidney is one which moves too far, and as a result causes pain or a feeling of illness.

"Dear Dr. Molner: I found out

five years ago when I was married that I am sterile, and a check now shows the same thing. I had diphtheria when I was in the service and the doctor tells me my cells were destroyed. Is there anything I can do to build these cells up again?—T.V.H."

Sterility due to such a cause (as well as certain other "infections") may sometimes cause sterility. In such cases, I am sorry to say, there is no way of correcting what has happened.

"Dear Dr. Molner: Can a person with low blood sugar develop diabetes?—Mrs. L. S."

Yes, in certain instances a period of low blood sugar may precede diabetes. Your protection is to have regular checks of the blood and urine, to see if sugar appears in it—especially if other members of your family have had diabetes.

Are you bothered with ringing in the ears? If so, write to Dr. Molner in care of The Big Spring Noises—Their Causes and Cures, enclosing with your request 10 cents in coin and a long, self-addressed, stamped envelope.

Dr. Molner welcomes all reader mail, but regrets that due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible. (Copyright, 1950, United Feature Syndicate, Inc.)

Coke Party Given For Bride-Elect

Miniature wedding rings and tiny rolling pins were favors for friends of Julie Rainwater who were entertained at a Coke party in the home of Mrs. Horace Garrett Tuesday morning.

Miss Rainwater, who is to be married to Delbert Neal Shirey Saturday evening in First Methodist Church, is the daughter of Mr. and Mrs. Champ Rainwater, 716 Hillside. The prospective bridegroom is the son of Mr. and Mrs. C. O. Shirey of Midland.

About 20 schoolmates of the honoree were on the guest list and were served refreshments on the patio at the Garrett home.

The bride's colors, melon and white, were predominant in the serving accessories, and in floral arrangements placed at various spots throughout the home.

Other pre-nuptial courtesies planned for Miss Rainwater include a brunch and a bridesmaids' luncheon.

Afternoon Tea Honor For Modesta Simpson

Friends of the bride-elect and her family gathered for tea Tuesday afternoon at the home of Mrs. G. T. Hall when Modesta Simpson was guest of honor.

Miss Simpson, daughter of Mr. and Mrs. Dick Simpson of Vealmoor, is to be married to Ronnie King in the First Presbyterian Church Sept. 2. King is the son of Mr. and Mrs. Jim King, 600 Elgin.

Joining Mrs. Hall in the hospitality were her daughter, Marie, and Mrs. Harry Hurt. The three alternated in receiving guests and presenting the honoree and the mothers of the couple.

Assisting in the house party were girls who will serve as attendants in the wedding; they include Mary Read, Kay McGibbon, Jeanne Cauble, Sherry Lurting and Shirley Terry.

Also in the house party were the couple's grandmothers, Mrs. Tom Good, Mrs. J. W. Robinson and Mrs. J. A. Simpson of San Angelo.

Yum-m-m, Milkshakes!

Already getting hungry and thirsty are Kay Crownover and Lynn Clawson who watch eagerly as milkshakes are prepared at the local high school by Mrs. Roger Miller. The new machine, which Mrs. Miller prepares to fill will serve 22 gallons of milkshakes an hour. It has been installed in the new snack bar which will be in operation at the beginning of school. Milkshakes, doughnuts and sandwiches will be served.

Rebekahs Have School, Initiate

An initiation and the draping of the charter became the interest of the Big Spring Rebekahs Tuesday evening at a meeting in the lodge hall. The Big Spring Rebekahs were given a school of instruction.

KEE REBEKAHS

Mrs. Ida C. Kelley was initiated into the John A. Kee Rebekah Lodge in a candlelight ceremony read against a background of dogwood blossoms. A cross bearing the white blooms and the word "Love" stood at one end of the hall.

The charter was draped for the late Mrs. Ben Miller in a ceremony directed by Mrs. John Cate and Mrs. H. F. Jarrett.

During the business meeting, Mrs. L. L. Robertson gave a report on the project at the state hospital—serving cookies to the patients—and asked for four additional volunteers.

Members were reminded of the Odd Fellow—Rebekah picnic slated for Friday at the city park. Each family is to bring a basket lunch.

Thirty-six members were served refreshments by the host, H. F. Jarrett, and hostesses, Mrs. B. N. Ralph, Mrs. Jane Gray and Mrs. C. L. Lumpkin.

Guests were Mr. and Mrs. Jim Ferguson of the Big Spring Re-

HOLLYWOOD BEAUTY

Young Actress Asks Talent Recognition

By LYDIA LANE

HOLLYWOOD—Sheila James, known to her TV fans as Dobbie Gillis' girlfriend, Zeldia, is a junior at UCLA at an age when most girls would be graduating from high school.

"I skipped two grades, and all through school I have been the youngest girl in my class," she admitted as we chatted in her dressing room at CBS-TV.

An actress since she was nine, Sheila also writes novels in her spare time and is more serious than the average teen-ager.

"Teen-ager," she said. "I hate that word because it lumps one into an age group. And there is a loss of individuality when that is done. It seems today, once you are branded 'teen-ager,' the undeclared war against adults is on."

Sheila was wearing a freshly laundered green and white cotton. "This is the only full skirt I have left. I've discovered by seeing myself on TV that sheaths are more becoming. I dress myself on a budget and so I look around and try to buy the best I can afford," she concluded.

Lamesans

Observe Anniversary

LAMESA—Mr. and Mrs. C. S. Ruggles, who observed their golden wedding anniversary Tuesday, were married in Canadian in 1910; the couple came to Dawson County in 1924.

They are the parents of 10 children, eight living. They include Mrs. D. C. Williams of Lamesa; J. P. (Jay) Ruggles of Midland; Mrs. J. P. Jones, Ashdown, Ark.; Mrs. Nathan E. Patterson of Hobbs, N. M.; Hiram E. Ruggles, Mrs. Bill Moore, and Mrs. W. J. Minnix of Lamesa, and Mrs. W. K. White of Sherman.

The Ruggles have 14 grandchildren and eight great-grandchildren.

The pair operated the Deluxe Washateria here for a number of years, but they have retired and are taking occasional long trips across the country.

They are members of the Hillcrest Missionary Baptist Church.

Adieux Are Said Tuesday At Supper

A salad supper, given Tuesday evening in the home of Mrs. Bob Clark, was a farewell courtesy for Mrs. Bill Lansing.

Guests at the party were women employees of The Herald: Mrs. Lansing is leaving the employ of the paper to take a position in the local school system.

Mrs. Clark was assisted in the hospitality by her daughters, Jacie and Barbara. A gaily colored dotted cloth was used on the table at which 12 were seated, with Mrs. Carrel Glenn a special guest; she is Mrs. Lansing's daughter.

A gift was presented to the honoree by the group as they lingered for chatting.

Bridge Party Is Farewell

Pink and silver were used in the bridge party which honored Mrs. Herman Tillman Tuesday afternoon at the Officers Club.

Hostesses were Mrs. Russell Gradie and Mrs. Benjamin Yeargin.

Mrs. Tillman will leave soon for Baltimore, Md., where she will live, while her husband is stationed in Pakistan.

In games of bridge, the guest of honor won the travel prize, and she was also presented with a gift from the two hostesses.

Other winners were Mrs. LeRoy Brufat, high score; and Mrs. Donald Jonker.

'Tithing' Is Topic Of WMS Study

Scripture dealing with tithing was read and a discussion of the basis for tithing was presented for members of the Baptist Temple Horace Buddin Circle Tuesday morning at the church.

Bringing the topic, "Recognizing Ownership" were Mrs. J. M. Thomas, Mrs. V. O. Sorrells and Mrs. H. I. Cox. The meeting was opened with a prayer by Mrs. Sam Bennett.

Mrs. Rex Edwards read the missionary birthday calendar and offered prayers for the persons listed.

The group was dismissed with a prayer by Mrs. Cox and refreshments were served to six. After the gathering, members visited one of the circle who is ill.

Desires Individuality

Sheila James makes a plea to stop herding young people into a "teen-age" classification with an overemphasis on youth rather than individuality and ability. Sheila plays "Zeldia" on "Dobbie Gillis"—CBS-TV.

Society Sets Dinner For Sunday Noon

Plans for the dinner to be served Sunday were completed by members of St. Thomas Altar Society Tuesday evening at a meeting in the home of Mrs. Wayne Basden.

Hours for the dinner, slated for the church hall, are from 12 noon to 2 p.m. and the public is invited to attend. Price is \$1.50 for adults and 75 cents for children. The meals will be served buffet style. Proceeds will go into the building fund.

Other work was done on plans for the Fall Festival, which is set for Sept. 17 at the church.

Mrs. Felger Perring was awarded the attendance prize.

The next meeting was announced for Sept. 13 at the church hall.

Return From Trip

Mr. and Mrs. John Gregory, 3012 Drexel, have returned from a trip which took them to New York, Pennsylvania and Tennessee.

Hearing Set For Paving Additions

A public hearing concerning paving was slated for Sept. 27 by the Big Spring City Commission during its regular meeting Tuesday.

Property owners adjacent to streets which are being added to program may appear to discuss their participation. The hearing is set for 7:30 p.m.

The commission approved the additions during a meeting June 14. Streets in the addition include Parkway Rd., Wasson Rd., Yucca Dr., Yucca Dr., Parkway Rd. to Cactus, end of the street to Thorp Rd.; 13th, Johnson to Goliad; 15th, Dible to State; 15th, Gregg to Lancaster; Settles, Lloyd to 6th, and Young, 12th to 16th.

The commission approved non-conforming commercial use of property north of the Big M drive in on South U. S. 87 for the installation of a tramline center.

The request was presented by Carroll Cheate and Bill Ward, who have leased the land. They were present at the meeting and were represented by attorney W. H. Eysen, Jr.

The land approved is 100 by 150 feet, and provides parking space. The city commission did stipulate, however, that some arrangement be made with the State Highway Department for providing an entrance and exit to highway which is also satisfactory with the city engineering department.

A request from Jess Slaughter, president of the Old Settlers Reunion Assn. for enlarging a pavilion at city park, site of the annual reunion, was approved.

The association will furnish about \$1,300 in materials, and the city will provide about \$375 in labor to construct the pavilion.

City Manager A. K. Steinheimer will consult with Jake Roberts, district highway engineer, in securing state participation in a paving and flood control project for Birdwell Lane at 4th.

Early this month Steinheimer and Bruce Dunn, director of public works, discussed with Roberts the possibility of state participation in lowering the intersection at 4th. This would enable the city to install curb and gutter and an inverted crown paving on Birdwell from Purdue to carry water north during rains.

Roberts suggested delaying the work until materials are constructed. He said this delay in highway traffic on 3rd and 4th an alternate route when the intersections are under water.

The commissioners decided that the work should be done as soon as possible since traffic can be routed through college Park in times of flooding.

GARDEN TALK

What To Do About Those Changing Lepidoptera

Paul Vagt, who lives on George St., wants to know what to do about the little bugs that have rolled his red bud leaves into envelopes. These bugs are the immature stages of a lepidoptera, the moth and butterfly order of insects. They

come along as worms which riddle the leaves, and later they web up, making an envelope out of the leaves. Then they go into a dormant state called a pupae. This is the cocoon stage of their lives. Later they hatch out as an adult lepidoptera.

They may be killed by spraying, or dusting with a contact poison or a stomach poison when they are eating the leaves. Once they become a pupae they are hard to kill, and nothing much short of removing the leaves and burning them one by one will destroy this insect at this stage of the game. It should have been sprayed or dusted earlier in the summer season. This is a good point to make for next season.

Charlie Staggs gave me a product that is very interesting. It is called Vitis-Spikes and consists of a card with three little nails on it and a set of directions for using. The idea is that the spike is driven in the tree and it contains trace elements that may be lacking in the soil. These trace elements supply certain needs of the tree and make it healthy.

A long time ago I remember being told by some old timers that it would help a tree to drive a spike into it. It was supposed to supply iron or something like that. Perhaps it did. We often review old time practices and find merit in them, like the pilgrims planting corn and fish in the same hole as an old Indian trick for growing corn. We find fish products make very good fertilizers, so perhaps the spike idea is also sound horticultural practice. At any rate these spikes are impregnated with other trace elements and could do little or no harm and might cause help.

I have driven three into three of my trees and am now awaiting the results. I have about 30 hackberry trees in a grove and if you have tried the same experiment I may be able to see some results when compared with the other 29. It always gives me a thrill to start out on some such experiment.

If you have a garden question, write to Bruce Frazier in care of the Big Spring Herald, or if you have tried the same experiment just mentioned, let me hear how your results turned out. We gardeners are always trying to see how others are doing.

School Fight Figure Hired

MESQUITE, Tex. (AP)—Homer Bass, controversial figure in an East Texas school feud that cost one man's life, has been named supervisor of junior high schools at this East Texas County town. Trustees at Brownboro fired Bass last May after he had been superintendent of schools for 23 years. A community split over school affairs was followed by a melee June 16 during which Thurman Jackson was fatally shot at a Brownboro school board meeting.

Space Woman Has Fears, Too

NEW YORK (AP)—Geraldine M. Cobb, 29, the woman first found fit for outer space, isn't totally fearless by any means. The blonde from Ponca City, Okla., is a seasoned pilot and she's eager to be the first woman in the far reaches beyond the earth.

"Grasshoppers," she confessed Tuesday. "Miss Cobb recently passed tests to prove women can make the space trip as well as men. She told newsmen she hopes to enter a government training program in the fall.

"The fact that I passed the tests," she said, "means there will be a woman-in-space program. They are selecting the women now."

Sharon Schroeder In Dallas Hospital

Sharon Ann Schroeder, five-year-old daughter of Mr. and Mrs. Jack F. Schroeder, 1809 Owens, was admitted Friday to the Scottish Rite Hospital for Crippled Children in Dallas.

Thirty-five years ago, Scottish Rite Masons founded the hospital, dedicated to an effort to provide a chance at a normal life for the handicapped child. Since 1925, more than 130,000 children have been admitted for treatment to the hospital, which is supported by public contributions and bequests.

Sands Budget To Be Aired

ACKERLY (SC)—Public hearing on the proposed budget for the Sands Independent School District has been slated for Thursday, 8 p.m., in the high school here.

The proposed budget is rounded off at \$100,000 for the 1960-61 school year. Interested residents of the district have been invited to attend.

Officers Issue 40,000 Tickets

SAN ANTONIO (AP)—A traffic crackdown has resulted in the issuance of more than 40,000 tickets since Feb. 25, City Manager Lynn Andrews said today.

Youth Drowns

FORT WORTH (AP)—Guy Natoli, 13, drowned Tuesday when he was pulled a half mile through a pipe from a swimming pool he was helping to drain at Sylvania Park.

Oscar Hammerstein II, writer of lyrics for many of Broadway's best known musicals, died at his Doylestown, Pa., home. He was 65 years old.

'Outlaws' To Tell Badman Viewpoint

By CYNTHIA LOWRY
AP Television-News Writer

HOLLYWOOD (AP)—There really will be something new under the television sun, it turns out. "Outlaws," a new Western series on NBC, will tell its bad man tales from the viewpoint of the criminals.

Furthermore, it will be fate, not the marshal, holding the winning hand. And there won't be a fight or shoot-out to climax each episode.

All this is pretty revolutionary stuff, but, rest assured, crime won't pay. The TV code doesn't permit it.

"From the scripts we've already done," explained actor Barton MacLane, who plays the marshal, "it seems that we're taking some character who has committed a crime and showing what made him do it."

"Most of them started out as \$30-a-month cowboys who felt they were wronged—a real or fancied wrong—and then we tell what they did. Neither the marshal nor his two deputies are tough guys, and usually we're inducing searches, not chases. By the time we catch up with them fate has resolved the whole thing. Like a Greek tragedy."

plings from plots of completed shows.

"In one episode, the robbers got away with the money, but a storm blew up and they couldn't escape across a river. They started quarreling among themselves, and by the time we got to them it turned into a rescue operation."

"In another, the outlaw is dead when we reach him, but we take him in anyway. There's a \$10,000 reward for him, dead or alive, and my deputy wants to collect the money to give to the outlaw's pregnant wife."

"There's irony, too. We show how some crooks spent four months planning a bank robbery, and when they do the job they get away with \$120 in silver—less than they'd have made if they'd have worked as \$30-a-month cowhands."

The series is supposed to be based on real events during the 1890s in the Oklahoma Territory. MacLane says his marshal's role is pegged to a character who during his star-bearing career jailed 40,000 men.

"I forget his name," said MacLane, "but they aren't using real names anyway because some of these people might have descendants."

Drive Builds For Norstad To Step Down

LONDON (AP)—A campaign appears to be building up in the British press for the resignation of U.S. Gen. Lauris Norstad, 53, NATO's supreme commander in Europe.

Of the four supreme commanders NATO has had in 10 years, Norstad has stayed longest at his post. The U.S. Air Force general has held the job for four years.

"He should therefore be thinking of retiring, even if there were no likelihood of the change of president in the United States making a change at the headquarters of Allied Powers Europe inevitable," the Daily Telegraph said editorially today.

"In this exacting position, with its unique blend of military and political functions, the fresh mind and the inquisitive eye are critically important."

Another conservative paper, the Daily Mail, started the ball rolling with a front-page banner headline: "Norstad threat to go." The Mail said the general had warned the NATO governments he is considering handing in his resignation this fall.

The Mail said Norstad's official reason for quitting would be ill health; he suffered a slight heart attack in May. But the paper said he actually was making a final bid to jolt the Allies into realizing that quarrels within NATO are reaching "danger points."

Norstad swiftly denied the Mail story. "Gen. Norstad has no plans for leaving his present post," said a spokesman at his headquarters in Paris.

The Mail today reported that Norstad would be succeeded by Gen. Thomas D. White, the U.S. Air Force chief of staff.

Long, Opponent Vie For Office

BATON ROUGE, La. (AP)—A rough political battle between former Gov. Earl K. Long and youthful Rep. Harold McSweeney for McSweeney's seat in Congress today beckons to tourists and piney woods farmers alike in central Louisiana.

The Democratic second primary is Saturday, Long, 64 is attempting to unseat McSweeney, 34, first-term congressman who won two years ago by fighting Long.

The prize is the Democratic nomination for the 8th District seat from Louisiana, once held by Dr. George Long, Earl's brother. In heavily Democratic Louisiana, the nomination is traditionally as good as election.

McSweeney led Long by 3,000 votes in the first primary July 23, but a third candidate, Ben F. Holt, forced a runoff between the two by polling 10,000 out of 65,000 votes.

"McSweeney is the only man I know," Long said in one stump

speech, "who can talk out of both sides of his mouth, whistle, hum a tune, smoke a cigar and hold his hand out the back door for a payoff all at the same time."

McSweeney, who avoided getting personal in the first primary, detailed in one speech: "I didn't say Earl Long was crazy. His wife, his doctor and his close friends said that."

A Texas woman tourist who stopped for a Long rally giggled: "This and 'My Fair Lady' are the most entertaining things I've seen since coming to Louisiana."

In the background has sprung up what is called "The Committee to Save Louisiana From National Embarrassment."

The committee, headed by Roy Conn, Pineville salesman, has bought advertisements in newspapers showing a large picture of Long with a pillow case over his head during a Texas trip last year.

"Who is this man?" the advertisement asks. The picture was taken when Long took a western junket after his release from mental hospital.

The Long-McSweeney race is one of two for Louisiana House seats. The runoff in the 7th District between former State Sen. Arsene Stewart and T. A. Thompson, the incumbent, is polite and dignified in comparison.

Jerry Lewis Gives Clothes To The Needy

By JAMES BACON
AP Movie-TV Writer

HOLLYWOOD (AP)—Two of the best-dressed men in town are an impoverished freshman and a onetime Negro valet with six children.

The reason? They're the same size as Jerry Lewis and wear his castoff clothes. Movie designer Sy Devore said the comedian has spent as much as \$100,000 a year on his personal wardrobe, most of which he wears once or twice.

The college boy, rated a genius by his high school teachers, won a scholarship to an out-of-town school. But he owned only one suit. A friend told Lewis of the predicament.

Now the young student has 20 tailored suits valued at \$250 each; a dozen hand-made \$35 shirts; a dozen \$50 alpaca sweaters plus all accessories.

The valet once worked for Jerry but \$250 suits changed his whole personality.

"With that wardrobe," says an associate of Lewis, "he couldn't really put his heart in servitude. He now has a job as an executive."

Most of Jerry's castoffs go to struggling young comics and actors. Tony Curtis, in his hungrier days, wore Jerry's castoffs. So did Sammy Davis Jr.

Devore, who delivers clothes to Lewis like a milkman comes to your house and mine, doubts if any other male spends \$100,000 a year on clothes.

The movie stylist says there are several reasons for Jerry's extravagance for clothes.

"He grosses about seven million dollars a year and can easily afford to dress well. He's allergic to dry cleaning solvent and most important, Jerry once told me that when he went to high school in Newark, N.J., his family was so poor that he had to wear a beat-up sweater to his school prom. The other kids made fun of him because he was the only fellow at the dance without a suit. It hurt him deeply."

at home fall cottons

Hempill-Wells

This new fall collection of Pat Perkins at home cottons have fashion, charm and complete poise, for everything from home work to neighborhood coffee break to a quick trip to the supermarket... all are designed in new deep tone 'wash n' wear cotton fabrics... choose from ● Double-breasted style gingham plaid, ● Shirtwaist style with tie sash in a world print, ● multi-stripe shirt waist as sketched... all in sizes 12 to 20... ● Button front gingham check in sizes 16c to 22c...
