

"I WANT MY FREEDOM"—Raymond Fernandez (right), accused lonely hearts slayer, tugs at his handcuffs and shouts "I want my freedom, I want justice, stop dragging me," as he is led from the Supreme Court in New York City by a Department of Correction officer. Fernandez was in court where his attorney had withdrawn a writ of habeas corpus. Fernandez and Mrs. Martha Beck are under indictment for the slaying of Mrs. Janet Fay in Valley Stream, N. Y., last January. (AP Wirephoto)

INSTITUTIONS BILL IS SIGNED

AUSTIN, June 4. (AP)—A bill to transfer control of state hospitals and all other eleemosynary institutions except three for juvenile delinquents from the Board of Control to the Board for Texas State Hospitals and Special School was signed today by Gov. Beauford H. Jester.

HCJC Officials To Make Inspection Tour Of Southwest

Administrative officials and board members of Howard County Junior College are planning to accompany architects on a tour of inspection on June 16 that will take them to several other colleges in the Southwest.

The HCJC officials will inspect buildings and other facilities during their tour, which has been planned chiefly to seek ideas for long-range planning at the local college.

The HCJC board retained Puckett and French, architect and engineers, several months ago to coordinate plans which the board hopes will ultimately lead to construction of a modern college plant.

Although exact itinerary has not been mapped for the June 16 excursion, colleges at Tyler, San Angelo, Paris and Hardin college at Wichita Falls, probably will be visited.

Reviewing The

Big Spring

-Week-

Joe Pickle

Gordon (Dogie) Stone, farm-ranch operator southwest of Lomax, is sporting a Panama chapeau in the Southern planter style. This is in deference to his discovery of what the term "planter" means. "Those guys lived in a rainy belt and were replanting all the time," said Stone, recalling the three and four times farmers have been over their fields this spring.

Oil valuations will remain on the same base as last year. Oil operators accepted the commissioners' court policy Friday. Some increase for new production will show up, and this, plus new construction is expected to push valuations toward \$25 million.

Oil interest centered on north-west Borden county last week where the Sinclair-Prairie No. 1 Sterling Williams showed for production in the Mississippian and Silurian-Devonian from 9,830-10,000. Southeast Dawson prepared to complete another producer, and one test was finished in the Vealmoor pool of northeast Howard.

Up to Saturday night, believe it or not, we had gone an entire week without showers. This is the first time this has happened since mid-April. We can remember when we

See THE WEEK, P. 8, Col. 1

AEC May Have To Tell Size Of Bomb Stockpile

WASHINGTON, June 4. (AP)—The size of America's atomic bomb stockpile might have to be disclosed to get a proper assessment of the work of the Atomic Energy Commission, Senator McMahon (D-Conn.), said Saturday.

McMahon is chairman of the Senate-House Atomic Energy Committee which is investigating charges of "incredible mismanagement" leveled by Senator Hickenlooper (R-Ind.) at AEC Chairman David E. Lilienthal.

The current investigation, McMahon said, "gives point and meaning" to his earlier suggestion for a study of the effects of lifting the secrecy ban on the number of bombs.

However, Hickenlooper told reporters he doesn't think that is "a safe area for publicity."

McMahon said: "We must carefully weigh the benefits and any military disadvantages that might come from divulging this information."

He added that he is making a study of this situation, as are some of his colleagues.

President Truman has opposed making public any information on the number of bombs stockpiled. Lilienthal recently promised a study of McMahon's suggestion, but the Connecticut senator said he had not received any report.

Hickenlooper made it plain that so far as he is concerned, the number of the bombs will not be divulged as a result of his questioning of Lilienthal with regard to commission policies.

The Iowa senator said he regards the number of bombs as "a matter that should be carefully guarded."

Fortified with commission documents supplied at his demand, Hickenlooper will resume his case against Lilienthal Monday.

Temperatures over the state were mostly in the eighties. But Laredo had 93 degrees, Salt Flat and El Paso 90.

Cotton Acreage In County Benefits From Dry Weather

Dry, hot weather worked wonders with the bulk of Howard county's bulky cotton acreage last week.

Fields replanted on Monday were up to stands Saturday in many instances, said County Agent Durward Lewter. Existing stands were thriving in the wake of hot days, cool nights and a good store of moisture.

Those who had to scratch in order to get young cotton up had a tough stand crust to contend with. Some areas had cotton to burn from the stinging grains, but in all the damage was not thought to be generally serious.

Tractors were still plowing Saturday in several sectors as farmers hurried to replant areas with poor stands. Bulk of the cotton planting, however, was past.

Prospects were that there would be around 110,000 acres of cotton to good stands, with the possibility this figure might reach 120,000.

Big Spring-Snyder Road Completion Virtually Assured

Plans for completion of State Highway No. 350 connecting Big Spring and Snyder apparently have moved another big step forward, according to recent reports from Scurry county.

The reports indicate that Scurry county commissioners have virtually completed acquisition of necessary right-of-way in that county, leaving only a short gap in Mitchell county which the commissioners court there already has agreed to obtain.

County Judge Edgar Taylor of Scurry county reported several days ago that right-of-way in that county had been obtained, except for a strip of about 20 feet across a lot in the town of Ira. Owner of the strip is unknown, but legal proceedings acceptable to the highway department already have started in an effort to acquire title.

One segment of the new highway, Big Spring to Vincent, already had been completed, and a contract is pending for construction work between Vincent and the Colorado river. Ultimate completion of the highway from Big Spring to Snyder will climax efforts that have been in progress for almost a decade.

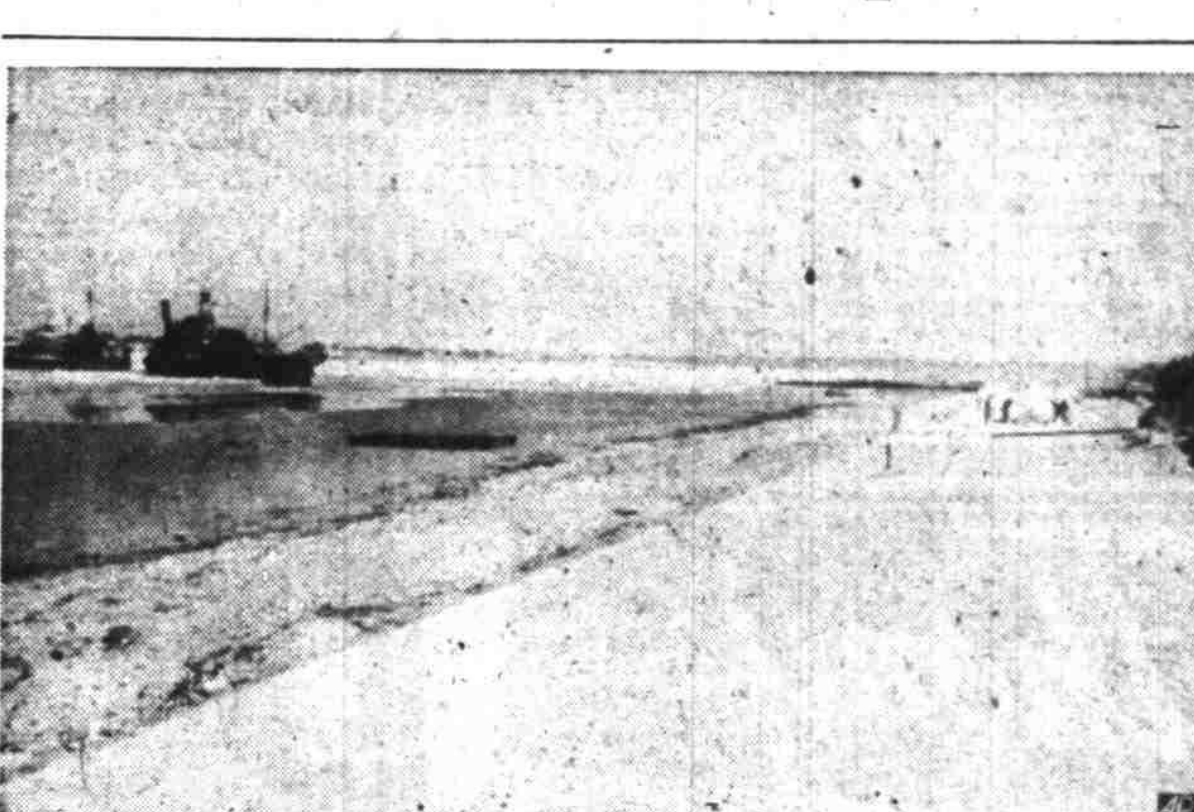

At the Medical Arts hospital he was under observation Saturday, but may have escaped with painful bruises to his abdomen.

Mrs. Walton said they were driving slowly and that the car came to a sudden halt. Her husband slumped and she saw the pipe jammed into his abdomen. She ran to a nearby phone and summoned an ambulance. On her return the car, with ignition apparently shorted, was heading badly.

The pipe had wedged through an opening between the chassis and motor, parting two wires (which may have stalled the car). Apparently part of an abandoned water line of which there was no record, the pipe was long enough to drag at the point of a union. This also helped stop the machine.

The pipe had to be pulled to one side in order to remove Walton. Only small amount of space was between its end and the back of the front seat cushion occupied by Walton.

U. S. Agents Board Eisler Escape Ship

SEA WALL BUILT ON OMAHA BEACH—French workmen construct a sea wall (right) along Omaha Beach where, five years ago, the United States First and 29th Divisions stormed ashore in the invasion of Normandy. Off shore can be seen a freighter broken in two with half of a second ship (extreme left) nearby. In the distance can be seen some of the ships that were sunk to form and artificial harbor. (AP Wirephoto)

WOULD DISCUSS NEXT STEP May Call CRMWA Meeting This Week

A meeting, looking toward the next step in certain of the Colorado River Municipal water district, likely will be called this week.

R. T. Piner, Big Spring, chairman of the executive committee, said Saturday that he was contemplating a conference between representatives of Big Spring and Odessa.

Time and place have not been fixed. The meeting, if called, would include a review of the project, summary of engineering conclusions. It also would involve explanation of enabling legislation, the calling of a referendum on the district proposal, and if possible setting a date for the election.

Enabling legislation is now assured, the last portion having cleared the House. It is being readied for the governor's approval and the main bill is on the governor's desk.

The district, under terms of the act, would be comprised of Big Spring and Odessa. Each member city would be required to approve entry into the district. Power to levy ad valorem tax would have to be confirmed at a subsequent election. The district would have authority to undertake water developments, namely construction of a dam across the upper Colorado river 25 miles northeast of here. The supply is estimated at 26 million gallons.

Studies on the proposal have been underway for three years. Originally Snyder, Colorado City and Midland were parties to the survey. Snyder withdrew at the outset; Colorado City had its supply solved by the Texas Electric Service dam on Morgan creek; Midland's city council said it was not interested at this time.

Marvin Nichols, representing Freese & Nichols, Fort Worth hydraulic engineers, is due to attend the meeting if convoked. John D. McCall, member of the district's legal counsel, and E. V. Spence, state board of water engineers chairman, will be invited.

Under the new state apportionment which was enacted recently, public junior colleges receive \$175 per year per student. The apportionment is based upon enrollment as of Nov. 1. Previously, the state apportionment for junior colleges was \$100.

E. C. Dodd, president of the college, said HCJC board members felt that tuition fees should be kept as low as possible, and that increased revenues from other sources should be used to compensate for reducing student assessments whenever an opportunity is afforded.

The student activity fee of \$7.50 will remain unchanged. The activity fee is optional for students carrying a classroom load of less than nine semester hours, but compulsory for those with nine or more semester hours.

The six members of the Coppinger and Balyeat families were returning to Pasadena after attending commencement exercises Friday at Texas A&M College near Bryan.

Six Killed In Highway Auto Crash Friday

HOUSTON, June 4. (AP)—Two persons remain in critical condition following a highway automobile collision which killed six other people, including five members of a Texas-Indiana family.

Two late model automobiles collided head-on shortly before midnight Friday night on the Bryan-Houston Highway near Waller 40 miles northwest of here.

Those killed: Mr. and Mrs. John W. Coppinger, Pasadena, Tex.

Mr. and Mrs. Thomas J. Balyeat, Bristol, Ind.

Mrs. John Thomas Balyeat, 24, Elkhart, Ind., daughter of the Coppingers and daughter-in-law of the Balyeats.

Mrs. E. L. Reid Jr., 23, Orange, Tex.

The injured: E. L. Reid, Jr., 27, Orange, Tex., attorney whose wife was killed.

John Thomas Balyeat, 33, Elkhart, Ind., whose parents and wife were among those killed.

Reid is in a Bellville hospital, while the younger Balyeat is hospitalized at Navasota. Hospital attendants said both remain in very critical condition. Reid received head injuries. Balyeat was said to have suffered severe internal injuries.

The six members of the Coppinger and Balyeat families were returning to Pasadena after attending commencement exercises Friday at Texas A&M College near Bryan.

The Reids were en route from Orange to Austin where the young attorney was taking \$40,000 in negotiable high school stadium bonds of the Orange Independent School District.

Captain, Crew Of Polish Liner Are Detained

111 Passengers Are Dispatched To Ellis Island for Hearings

NEW YORK, June 4. (AP)—The U. S. government covered the Gerhart Eisler escape ship and her pier with agents today, detained her captain and crew and sent 111 passengers to Ellis Island for hearings.

The immigration service served an order on the captain of the Polish liner Batory late tonight, directing him and all his 350 officers and crewmen to stay on the ship for the duration of hearings in American waters.

An immigration official said the order was a result of investigations aboard the ship tonight, when agents questioned the entire crew.

The official said inspectors doing the questioning had advised "no leave" for each of the crew—including the captain.

The captain, Jan Cwiklinski, said he had "nothing to say" after the order was served.

A little later loud speakers announced in Polish throughout the ship: "the entire crew, including the captain, is not granted shore leave."

Pete Esperdy, assistant immigration enforcement director, said whether the crew could have visitors aboard was "up to Washington."

He said District Director Edward Shaughnessy had left for Washington to confer with officials about the Batory affair.

"We will maintain such supervision over ship and crew as is deemed necessary until it sails," Esperdy said.

He said further details must come from Washington.

On the pier a strong guard of U. S. border patrolmen, all armed, surrounded the ship and dock entrance.

Customs guards and city police men also were posted around the pier.

When the order was broadcast, a junior officer commented in English: "Good—then maybe we sail back tomorrow."

But the captain said he had no comment on this possibility.

An immigration inspector, asked if there was any "unusual" reason for the action, replied: "The Batory has a bad record of wholesale ship-jumping by its crew."

Another said the crew had been questioned closely about membership in the Polish Workers party.

The inspector said the party was a "Red-front" organization and most of the crew were compelled to be members.

Crew members, questioned about the Eisler escape, laughed at reports that he had waited two days before showing himself on the ship.

A dining steward commented that Eisler was "a very poor tipper, even by our standards."

Throughout the day there were conflicting statements on whether the government was seizing the ship or only inspecting it.

Woman May Be U. S. Treasurer

WASHINGTON, June 4. (AP)—A vivacious midwestern woman banker is slated to become treasurer of the United States.

The President, it was learned Saturday, plans to send to the Senate on Monday the name of Mrs. Georgia Neese Clark of Richland, Kan., to succeed the late William A. Julian, killed in a car crash a week ago.

Banker, farmer, actress, owner of a small-town general store, and grain elevator operator — Mrs. Clark already was in the capital for conferences with the President and Secretary of the Treasury Snyder.

She arrived Friday by plane after a hurry-up call from Mrs. India Edwards, director of the women's division of the Democratic National Committee.

As treasurer, her signature heretofore would appear on all U. S. currency. No other woman has had that distinction. The job pays \$10,330.

Eight Escaped Felons Captured

OTTO NEFF

MOUNDSVILLE, W. Va., June 4. (AP)—Eight of the 14 long-term convicts who cut their way out of West Virginia's old state penitentiary were recaptured Saturday.

Planes, jeeps, and road-blocks were being employed by law enforcement officials to flush the six still at large.

The mass break was engineered before dawn Friday.

Otto Neff, 38, serving a life sentence for kidnapping a Wheeling, W. Va., policeman, was one of the escapees. Authorities believe he is the ringleader.

LOCAL VICTIM OF FREAK MISHAP ESCAPES DEATH BY HAIRBREADTH

H. T. Walton, victim of a freak mishap Friday evening, was alive today by a matter of an inch or two.

He came that near to being impaled by a section of three-quarter-inch pipe that slithered over the front spring of his car, rammed through the floorboard and drove to his lower abdomen.

The accident occurred on the west end of W. 4th street at about 8 p. m. Friday. He and Mrs. Walton were enroute to Howard County Junior College where Walton had booked a conference.

Walton, operator of the Radio Lab, said he noticed a small piece of pipe in the road. The next thing he knew he was being removed into an Eberley Ambulance.

At the Medical Arts hospital he was under observation Saturday, but may have escaped with painful bruises to his abdomen.

Mrs. Walton said they were driving slowly and that the car came to a sudden halt. Her husband slumped and she saw the pipe jammed into his abdomen. She ran to a nearby phone and summoned an ambulance. On her return the car, with ignition apparently shorted, was heading badly.

The pipe had wedged through an opening between the chassis and motor, parting two wires (which may have stalled the car). Apparently part of an abandoned water line of which there was no record, the pipe was long enough to drag at the point of a union. This also helped stop the machine.

The pipe had to be pulled to one side in order to remove Walton. Only small amount of space was between its end and the back of the front seat cushion occupied by Walton.

Monday Again Is Dollar Day Here

It's Dollar Day again in Big Spring.

The first Monday in June brings the special-value event, in which most of the city's retail business establishments are joining.

Summer merchandise specials, plus suggestions for the forthcoming Father's Day, are to be found in the offerings for Monday only. Advertisements in today's Herald list many of the specials, and serve as a shopper's guide for residents of Big Spring and neighboring communities.

Again, a coupon providing free bus transportation to town for women appears below. Housewives are invited to take advantage of the offer, made possible through courtesy of Bucher Bus Lines and The Herald, to make their shopping trips. The coupons will be accepted by all Bucher bus drivers in lieu of the regular fare, in accordance with the provisions stipulated.

Texas Kids To Have Own Rodeo At Hallettsville June 16-17-18

HALLETTSVILLE, Tex., June 4. —Boots and saddles! Lariats and Spurs!

On June 16-17-18, the small fry of Texas hold their own rodeo. Gov. Beauford H. Jester will lead their parade.

For the third consecutive year, the High School State Championship Rodeo will bring youngsters from all over Texas to Hallettsville to compete in calf-roping, tie-down, bareback bronc riding and bulldogging. Even the girls take part. They compete in the cutting horse contest.

The idea to feature youngsters of high school age was hatched one night three years ago while three men sat talking on the Hallettsville courthouse square. Nothing like it had been organized before in any of the other states and it seemed a good idea.

Since that first rodeo for boys and girls in 1947, five states have followed with their own. El Reno, Okla.; Sulphur, La.; New Underwood, S. D.; and Montana, all have had contests featuring teen agers. Rules here are strict. Only stu-

dents in good scholastic standing who did not graduate before May 1 of this year have been allowed to enroll in this year's rodeo. It is Texans only, but students from at least nine other states have written, pleading for a chance to participate.

Pete McKenzie, ranch-owner and cattleman, for the third year will act as the rodeo announcer.

The youngsters who display the highest sense of sportsmanship during the rodeo will receive from the National Quarter Horse Breeders' Association a n engraved Gladys Brown statue of a champion quarter horse. And the American Quarter Horse Association has a quarter horse statuette for the cowboy with the best-trained horse.

There are many other prizes ranging from Mano Miles of Mexico and Fred Neuhaus of Houston to expensive star-roped boots, elaborately stamped saddles and gold and silver belt buckles from the Hallettsville chamber of commerce.

"Scooter" Fries of Bandera, Tex., will participate in the rodeo

again this year. Scooter is 15. He won the roping contest last year. He has thrown 17 loops in competition in the last two championship rodeos and has never missed a loop. With three more years in which to compete, Scooter is a major threat.

Youngsters are housed by Hallettsville citizens in private homes. Some of the older fellows bring their bedrolls. You can find them at sunset, asleep in the park.

Chief Ramrods of the teen-age rodeo are Leon L. Kananek, president of the chamber of commerce; Claud Mullins, superintendent of the high school here; and Altur Allen, attorney of La Baca County.

Divorce Granted

VANCOUVER B. C. June 4. (U.P.) —Mrs. Constance McLeod told a court her husband tore a piece out of the middle of their marriage license and ate it. Then he "threatened to make me eat the rest of it." She got a divorce.

INDIAN NAMED TO WEST POINT—Emery Sekaquaptewa (above), of Phoenix, Ariz., a Hopi Indian, has been appointed to the U. S. Military academy at West Point. He is believed to be the first full-blooded Indian ever appointed to the academy. (AP Wirephoto).

Lambs To Seek Lost Library

CORONA DEL MAR, Calif., June 4. (U.P.) —Two intrepid California explorers, Dana Lamb and his attractive wife, Ginger, left by jeep today for unexplored jungle areas in southernmost Mexico in quest of the "Golden Library" of the Mayas.

The Lambs are covering familiar ground. In 1941 they sighted from an airplane the "Lost City" of the ancient Mayas and lived not far from it for three months with one of the lost tribes whose ancestors may have antedated the Chinese.

Lamb and his wife are starting back with 10,000 feet of color film to make movies of the people and the ruins of Mayan culture.

Legend has it that the lost city was established by or became a sanctuary for Mayan fugitives from the Spanish conquest. Those who survived the horrible brutality are known as the "Lacandon."

The leader of one of these tribes, known as Chief Ken-Tin, told the Lambs in 1941 that the Lacandon consider all the rest of the world "bad," and that near the tribal camp, buried deep underground are "true writings which say that people someday will destroy them."

No Wedding Trip For Mickey, Wife

NORTH HOLLYWOOD, Calif., June 4. (U.P.) —Because he is scheduled to start a picture next week, Mickey Rooney and his third wife will have no honeymoon.

But it doesn't seem to make much difference to the newlyweds, who today are comfortably settled in Rooney's newly-purchased one bedroom home.

The wedding, a sort of impromptu affair which ran into last minute complications, went off in unpretentious fashion Friday at Christ Memorial Unity Church here.

The third Mrs. Rooney, the former, Martha Vickers, wore spike heels which made her three inches taller than her husband. And she

selves because they all are warlike." The letters are inscribed in gold.

was 25 minutes late for the ceremony.

Rooney, who gave his age as 28, said he didn't know until Friday morning where the proceedings were to take place.

The couple appeared at the Glendale Marriage License Bureau at 12:05 p.m. and were told they would have to wait until the end of the attendant's lunch hour at 1 p.m. Then the actress had trouble proving she was of age. She is 24.

Rooney's first marital venture involved actress Ava Gardner. Shortly before Friday's wedding, a final divorce decree from wife No. two, beautiful Betty Jane Rose, was entered in court records. Wife No. three recently shed Movie Press Agent A. C. Lyles.

The couple exchanged plain gold bands bearing the inscription "Today, tomorrow and always I love you—M. R. to M. R." Quipped Rooney after the ceremony: "If this one doesn't work, there must be something wrong with me."

EMPLOYMENT PROSPECTS BRIGHT

Texas A&M Survey Shows '49 College Graduate Finding Job

COLLEGE STATION, June 4.—A survey here shows this year's college graduate is finding a job if he knows something about looking for one and will hustle. It is still pretty much the kind of job he wants, and the starting pay is fair.

To get it he must be willing to call on a lot of prospective employers and sell his services.

This is given as the experience of 1242 young men graduating from Texas A. and M. college in June.

The college placement bureau and an independent interviewer have just completed a study of the group's job prospects.

The veterans make up about 80

per cent of the class. Their average age is 24. About half the class is married. It is a mature group "Better prepared to look for jobs and hold them than any of our classes in the past."

Also, the study found, it is a group "aware of the drop in the number of jobs available and of the fact that this year's crop of job-hunting college graduates is the largest in history."

Most of them expect to go to work for \$50 to \$60 a week—slightly under last year's starting pay. They report agreeable surprise that "offers have dropped only about \$15 a month, from an average of about \$260 last year to \$245

now." Many offers in technical fields are higher, running \$275 to \$325.

In a "surprisingly larger number of cases" graduates placed more emphasis on type of work they wanted and the kind of firm they'd like to work for, than on starting pay.

The study showed sales jobs among the best being offered as business, faced with the first sales slumps in years, seriously hunts trained talent. Major merchandising concerns are paying \$50 to \$52 weekly while training youths for the sales field.

Men graduating with technical degrees are finding jobs more readily than those with degrees in the liberal fields. Engineers are finding places in the still growing petroleum and chemical industries of the Southwest. Science majors are still in demand in research fields. Business and Accounting Majors are finding quick placement. Accountants are drawing top starting pay. Many of the liberal arts men seek newspaper jobs. The majority of these say they want to work on small newspaper for experience and hope to start around \$200 a month.

Wendell Horsley, college placement director, says "a marked difference in job opportunities has been brought on by changing world and national conditions in the last three decades."

Engineering was the best field for Aggie graduates in 1929. In 1939 the best jobs were in agriculture, the farm programs. Some started in those jobs around \$200 a month. But a lot of graduates in 1939 thought \$125 monthly good starting pay. Some took teaching jobs for \$80 to \$100 a month.

This year a majority of the veterans and 20 per cent of the non-veterans said they'd like eventually to go into business for themselves.

The interviewer found "today's graduates going out with a tremendous sense of urgency. They are afraid the good times are about over and they want to get a foot hold before there are no footholds left."

'IN LOVE WITH GERMANY'—Daniel F. McCarthy, Jr., (above) of New Hyde Park, Long Island, N. Y., announced in Frankfurt, Germany, that he intends to renounce his U. S. citizenship and become a German. McCarthy, son of a New York stockholder who died in 1947, said there was no German girl involved in his decision. "I fell in love with Germany," he declared. "I like the German way of life." (AP Wirephoto).

Railways Ask New Rate Hike

WASHINGTON, June 4. (AP)—Eastern railroads have asked for another boost in passenger fares.

The 60-odd lines late Friday applied to the Interstate Commerce Commission for a 12-1/2 per cent advance—the third passenger fare increase they have asked since the end of the war.

Whether the Western and Southern railroads will follow suit on the request as they did the two previous times was not immediately clear.

The railroads operating east of the Mississippi and north of the Ohio and Potomac rivers said they need higher passenger fares because of continuing deficits coupled with recent and prospective wage increases.

They said they had a record deficit of \$232,177,000 from passenger operations in 1948.

The proposed increases would boost basic coach fares from 3 cents to 3.375 cents per mile and sleeping and parlor cars fares from 4 to 4.5 cents.

Countians Told What To Do If Polio Hits Area

Advice on what to do in the case of a polio outbreak is being distributed by the National Foundation for Infantile Paralysis, and the information has been sent to the Howard County chapter.

Headed "A Message to Parents If Polio Hits Your Area," the National Instruction sheet reads as follows:

AVOID CROWDS AND NEW CONTACTS in trains, buses or boats, if possible; avoid crowded places where you may be close to another's breath or cough.

AVOID OVER-FATIGUE. Too active play, late hours, worry, irregular living schedules may invite a more serious form of the disease.

AVOID SWIMMING in water which has not been declared safe by your health department.

AVOID CHILLING. Take off wet clothes and shoes at once. Keep dry shoes, sweaters, blankets and coats handy for sudden weather changes.

KEEP CLEAN. Wash hands after going to toilet and before eating. Keep food covered and free from flies and other insects. Burn or bury garbage not tightly covered. Avoid using another's pencil, handkerchief, utensil or food touched by soiled hands.

QUICK ACTION MAY PREVENT CRIPPLING.

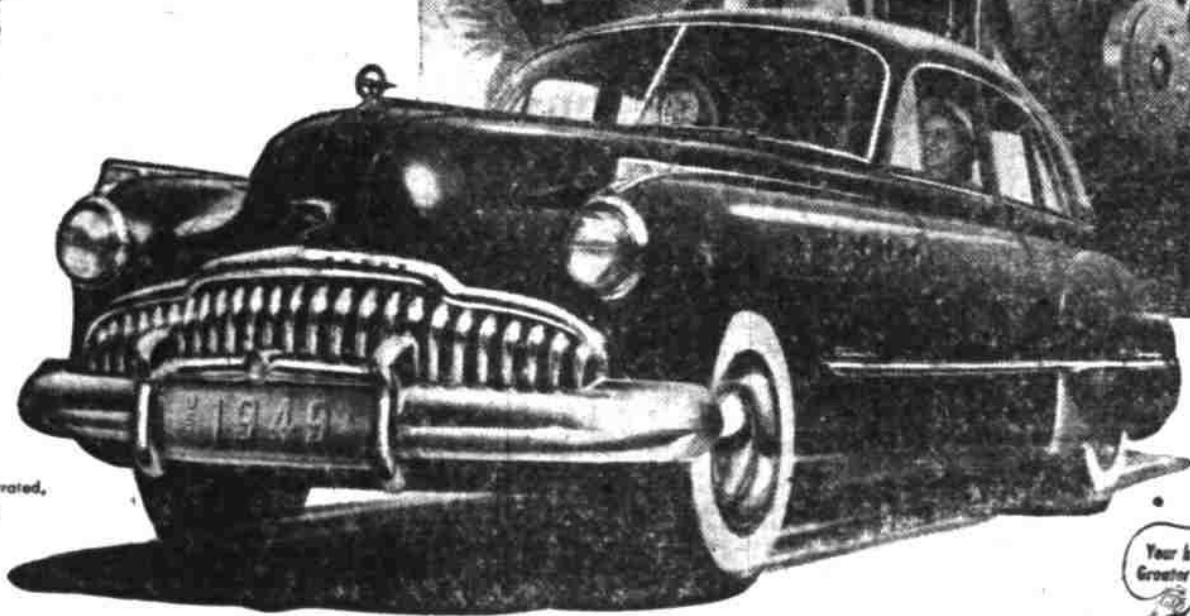

CALL YOUR DOCTOR at once if there are symptoms of headache, nausea, upset stomach, muscle soreness or stiffness, or unexplained fever.

TAKE HIS ADVICE if he orders hospital care; early diagnosis and prompt treatment are important and may prevent crippling.

CONSULT YOUR CHAPTER OF THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS for help. Your Chapter is prepared to pay that part of the cost of care and treatment you cannot meet—including transportation, aftercare and such aids as wheel chairs, braces and other orthopedic equipment. This service is made possible by the March of Dimes.

REMEMBER, FACTS FIGHT FEARS. Half or more of those having the disease show no after-effects; another fourth recover with very slight crippling. A happy state of mind tends toward health and recovery. Don't let your anxiety or fear reach your children. Your confidence makes things easier for you and for others.

Just how high is
"HIGH COMPRESSION"
?

White sidewall tires, as illustrated, available at extra cost.

WHEN the talk turns to cars and car engines these days, that's a topic you hear much about.

So it's fairly interesting to note that, even back before the war, Buick engines like this one were touring the testing grounds with compressions as high as 10 to 1.

Even later than that this same big Buick power plant has been filling our engineers' notebooks with data on 8 to 1 compression ratios.

What has come out of this? Two or three interesting points.

First of all, that this big Buick Fireball valve-in-head straight-eight already has a compression ratio that

gets as much out of present fuels as any engine on the market.

Next, that these ratios can readily be stepped up to fit higher octane gasolines as they become available.

And probably most important of all, that high compression is only one measurement of a good engine.

There's the fundamental matter of engine efficiency—power output per cubic inch of displacement, engineers call it. On that score, Buick stands where it always has—just about tops in its field!

Which means, in very simple words—better go see for yourself.

The fun you get from your car—the pleasure and satisfaction it gives you—are best measured in just one place—behind the wheel.

So we invite you to see your Buick dealer for a firsthand test of Buick. Take it in your own two hands and find out how good it feels, how full of get-up-and-go.

It won't take long to make it pretty clear that the place to get your order in is the place where you get Buick power.

MORE CLEARLY THAN EVER

Education's Job Said Not To Save World

COLLEGE STATION, June 4. (U.P.)—Texas A&M College's largest

graduating class in history was told last night education's job is not to save the world but to prepare man to get along in the world.

Dr. D. M. Wiggins, president of Texas Tech, Lubbock, told the 1,218 seniors and candidates for master's degrees:

"It is not the function of education to save the world."

"Sound education constitutes the underpinning of the social and economic fabric."

Dr. F. C. Bolton, president of Texas A&M conferred the degrees. G. R. White of Brady, president of the A&M board of directors, handed out diplomas.

William Paine Ryman of Matagorda was valedictorian.

Double baccalaureate services were held yesterday morning. The class and its hundreds of guests couldn't crowd into a single hall.

The Rev. Albert P. Shirkey, of St. Paul's Methodist Church, Houston, preached a baccalaureate sermon in the assembly hall to graduates of the schools of arts and sciences and agriculture.

Engineering and veterinary medicine students and candidates for master's degrees met in Guion Hall to hear a sermon by the Rev. Jo-

seph J. Copeland of the First Pres-

byterian Church USA, Denton. M. T. Harrington dean of the school of arts and sciences and acting dean of the college, presented faculty achievement awards to outstanding seniors in that school. They are James L. Liver-

man of Junction, John B. Singletary of Alto and Nicodemus J. Kutag of Hallettsville.

Charles Sheppardson, dean of the school of agriculture, presented faculty achievement awards to Elvis B. Chapman of Hewitt, Charles W. Green of Coleman, Truman G. Martin of Silsbee and Martin C. Riewe of Pottsville. Their names have been placed on a permanent plaque in the Agriculture Building.

Co-editors of The Battalion, college newspaper, received a silver cup for first prize in a national collegiate contest sponsored by National Advertising Service, Inc. Co-

editors of the paper are Kenneth Bond of Pampa and Tom Carter of Beaumont.

In Guion Hall, Hardy W. Barlow, dean of the school of engineering presented faculty achievement awards to Charles I. McGinnis of Kansas City, Howard R. Oliver of Dallas, Ralph L. Shannon of Bonita, Gene R. Summers of Bryan, Charles R. Holbrook of Highlands,

Charles P. Howard of Galveston,

Russell H. Ross of Bartlesville, Okla., Norwood K. Talbert of Port Arthur, and Elmo C. Livingston of Kilgore.

Indict Eight In Negro Whipping

MACON, Ga., June 4. (U.P.)—Willie V. Chapman, a Harris County deputy sheriff, is under federal indictment today charged with turning a Negro over to seven white men who beat him.

Indictments also were returned against the seven. One of them was charged with carrying an ax handle to administer the beating. Chapman and the others were taken into custody and released under \$1,000 bond each.

The Negro William Capers Jarrett, was whipped over a year ago. The indictment said Jarrett had an argument with one of the defendants, Elisha David Baker, Sr., April 23, 1948. Chapman arrested Jarrett that night.

Baker, Sr., was one of the seven indicted. The others were Thomas Edward Baker, Elisha David Baker, Jr., William Arthur Carpenter, William Thomas Satterfield, William Ralph Leverett, and Marion Rufus Dunn.

Three counts were charged against Chapman, who faces a maximum penalty of 13 years in prison if convicted. The others were charged on two counts and if convicted face minimum terms of 12 years, plus heavy fines.

Summer School To Begin Monday

Registration will be continued and summer school launched Monday at the high school.

Eighteen signed initially Friday, and W. L. Read, high school principal, estimated that this was possibly a third or fourth of the potential.

Several from Coahoma, Forsan and Stanton have made inquiry about the short-term. Opportunity for earning credits, making up incomplete work, or correcting failures will be given in basic high school subjects. Special review also will be given in eighth grade subjects. Pupils interested in summer work should be at the high school Monday morning. Morning sessions will be held over a period of 10 weeks.

Blount Says He Stands Neutral On District Judge Appointment

A position of "total and complete neutrality" in the appointment of a presiding judge for the new judicial district which will serve Howard, Martin and Glasscock counties has been taken by Rep. R. E. (Peppy) Blount.

Blount made this statement in a letter to the editor of The Herald, which requested publication. Blount pointed out that he devoted much effort to legislation providing for creation of the new district (the 118th), "in an earnest attempt to alleviate the crowded condition of the docket of the 70th district court, and in the sincere

interest of obtaining a new court for Big Spring."

The creation of the court comes first with him, the legislator continued, and he felt that the appointment of a judge could be "worked out to a satisfactory solution."

"I have contacted the Hon. Kilmer Corbin, state senator from our district, with the expressed purpose of maintaining a total and complete neutrality on the part of representatives of both legislative houses and assuring the Governor a free hand in determining and making his selection of a worthy appointee to this position. I have filed a similar letter with Gov. Beauford Jester, advising him to exercise his own discretion in the appointment of a judge to the newly created 118th district court."

Gov. Jester is expected to sign the bill creating the new district within the next few days, and may announce appointments to the bench and to the district attorney's office at the same time.

Names of Clyde Thomas, Sr., and Charley Sullivan have been openly discussed as those under consideration for the judicial appointment, while the names of Elton Gilliland and W. F. Greenlee have been linked with the attorneyship.

County Youths To Participate In Austin Boy's State

Five youths left Saturday night by bus for Austin and a week's participation in Boy's State.

They were Amos Jones, Howard Washburn and Jackie Jennings of Big Spring, Virgil Bennett, For-

san, and Donald Curry, Knott. Upon arrival in Austin at 9:30 a. m. today they will register and begin a round of activities which will center at the Texas School for Deaf, Young men from over the state will organize themselves into a state government (with some county units, too). They will elect a governor, lieutenant governor, speaker of the house. Other key officials will be appointed. For a week a state government program will be effected. The program is interspersed with recreational and entertainment features.

This is the third year that delegates have been sent from Big Spring. The Legion post is sponsor and is being joined by several other agencies in financing the trip.

Aged Tennesseans Become Fathers

MILAN, Tenn., June 4. (U.P.)—Two elderly Tennessee men, an 80-year-old well-digger and a 70-year-old fisherman, became fathers this week.

Mrs. John Pillow, 40, became the mother of a nine pound girl yesterday at Milan Hospital. Her husband works every day at his occupation of well-digging.

The Pillows, who have several other children live in Milan. The wife of fisherman William D. Wheeler gave birth Wednesday to an 11-12 pound boy.

Wheeler, who lives in nearby Greenfield, is the father of 17 other children.

Four Killed In Crash Of Bomber

LOVELAND, Colo., June 4. (U.P.)—An Air Force B-26 light bomber from Greenville, S. C., crashed four miles east of here Saturday, killing its crew of four.

Lowry Air Base in Denver said the plane was on a flight from Greenville to Great Falls, Mont. It refueled at the Denver base Saturday.

The State Highway Patrol said the crash occurred at 11 in the morning, and that the craft struck in an irrigation ditch just off a highway. Wreckage was scattered over a radius of 200 yards and the biggest remaining piece of the plane "was no more than two feet across," the patrol said.

City Optometrists To Levelland Meet

Dr. Allen R. Hamilton and Dr. Marshall Q. Cauley, Big Spring, are to attend the South Plains Optometric society meeting in Levelland Tuesday evening.

The program will deal with visual skills and speakers include Dr. J. W. Kimball, Floydada, Dr. C. M. Neel, Lubbock, and Dr. Glenn S. Burk, Lubbock.

Texas Mail Carriers, Postmasters Will Meet At B'wood

A state-wide meeting of star route mail carriers and postmasters will be held at Brownwood a week from today.

Earl C. Evans, Big Spring, president of the Texas branch of the Star Route Mail Carriers of America, said the meeting would celebrate the passage of a law last year adjusting pay scales for many carriers.

A barbecue at Coggin Park in Brownwood will open the session at noon. At Memorial hall, Dr. Thomas H. Taylor, president of Howard Payne College, will speak. Nat. Shick, Big Spring postmaster, will introduce star route carriers. It is possible that Frank E. Russell, Washington, D. C., president of the national association, will be present.

Evans, for eight years head of the Texas branch and until last year a national vice-president, was instrumental in securing passage of the adjustment law. He spent more than a month early in 1947 in beardings solons in behalf of pay scale reform.

Postmasters are being invited because of "their encouragement in getting adjustments," said Evans. Beef for the barbecue has been donated by J. H. Beale, Sr., Gail, and W. L. Wilson, Sr., Luther, both on Evans' route. Special awards have been posted by Phillips Tire and Thomas Typewriter of Big Spring, said Evans.

COLLEGE LASS WANTS SPECS

PITTSBURGH, June 4. (U.P.)—Please, says a pretty college lass, please return my glasses—a job depends on them.

Elizabeth Brennan, 22-year-old Carnegie Tech senior, is worried more about her stolen specs than final examinations on Monday.

If she doesn't get the glasses back she won't be able to take the examinations. And if she doesn't pass she'll lose a teaching job offered her in Alaska.

The glasses and a \$500 diamond ring were stolen from her purse in a parked auto. Miss Brennan says she can't see well without the glasses—and they can't be duplicated before Wednesday.

SEALED SHIP—Young Andrew Gilroy studies a colored glass ship that floats in a sealed water container, made in 1840, and exhibited by Ralph M. Meyer in the Chicago Antique show.

NEW MILITARY PAY MEASURE WOULD FAVOR CORPORALS OVER OFFICERS

WASHINGTON, June 4. (AP)—A new military pay bill giving corporals with over seven years' service a bigger percentage boost than officers was announced Saturday by the House Armed Services Committee.

But all members of the armed forces would get more money under the revised measure, including recruits who were left out of the original pay increase bill the House shelved less than two weeks ago. Rep. Kilday (D-Tex.), who was in charge of drafting both proposals, told reporters the new plan would cost about \$358 million a year more than present military pay outlays, as compared with the \$406 million price tag on the rejected measure.

He said he will introduce the compromise bill Monday and that his armed services subcommittee will hold a brief hearing Tuesday to allow members of Congress to express their views. He said the bill will be ready for House action during the week of June 13.

Chairman Vinson (D-Ga.) of the Armed Services Committee said the new bill had the support of House Democratic leaders and predicted it will get a favorable vote in the House.

However, the bill was not enthusiastically greeted by one World War II veteran, Rep. Sutton (D-Tenn.), who helped bat down the original pay measure May 24. The bill was sent back to the committee by a rollcall vote of 227 to 163.

Sutton said he disapproves of the new plan for the same reason that he fought the first one: Because it would increase higher ranking officers by a larger percentage than junior officers.

The revised measure would provide generally smaller percentage increases than the original measure. For example, brigadier generals would be upped 37 per cent instead of almost 50 per cent; major generals, 23 per cent instead of 34 per cent; and colonels, 20 instead of about 25 per cent.

Corporals, however, who have been in service more than seven years, would get a 69 per cent pay hike. Those with less service would receive 26 per cent more as compared with 28 per cent provided in the old bill.

COMPROMISE DRIVE HAILED

Jailed Reds Are Denied Visitors

NEW YORK, June 4. (AP)—Three of the 11 top American Communists on trial for conspiracy were in jail Saturday despite efforts of their attorneys to get them out. A guard at the federal house of detention said they were allowed no visitors Friday night.

The three were ordered jailed Friday after the 20-week, tension-charged trial exploded into a noisy hubbub of shouts, accusations, and defiance.

The immediate cause of the outburst was the refusal of a defendant to answer a U. S. attorney's question. However, the incident followed a long series of violent courtroom clashes.

Respected Federal Judge Harold R. Medina has repeatedly admonished the defendants and their attorneys to be more orderly, or face penalties.

In revoking bail of the three men Friday, the judge also warned defense counsel that he may seek disciplinary action against them when the trial is over.

John Gates, editor of the Daily Worker, Communist newspaper, was under cross-examination when the crackling exchange began.

He was asked to list the members of a Communist national veterans committee who had helped him prepare a postwar party booklet for veterans.

"These people are engaged in private industry," he said. "I will not disclose their names because they would lose their jobs."

Stock Market Is Approaching Danger Point

NEW YORK, June 4. (AP)—This was a sad week for the stock market—the saddest since last November.

The decline in the market value of all stocks listed on the exchange approached the \$2 billion mark.

Not since May, 1947, has the general price level been lower.

With only a little effort the market is in a position to fall to the lowest since 1945.

Three times since 1945 the market has approached its present position on the price scale. Each time the tide of selling has been rolled back and prices rallied. These three approaches established what Wall Street technicians term a resistance point because great resistance to further declines has developed in the past.

For the market to break through this resistance point would be regarded as a highly ominous portent regarding the future price trend. Hence the market is regarded now as being in extremely critical price territory.

The fact that the market, on average, broke those intermediate resistance points influenced selling far more than such news items as the seventh straight cut in steel production schedules and a decline in the London Stock Exchange to the lowest in nearly a year.

Herb Hoene, sophomore tennis prospect at Notre Dame, is the brother of Dave Hoene, Marquette's tennis coach.

You ought to be driving a

49 PONTIAC

Streamliner De Luxe Sedan Coupe

Chieftain De Luxe Sedan Coupe

Two of America's Most Popular Motor Cars

Pictured above are typical examples of the two smart and separate lines of cars which bear the current imprint of Pontiac goodness—The Streamliner and the Chieftain De Luxe Sedan Coupes.

Each is in such demand that, on its own, it ranks among America's most popular cars today. That two cars of such decidedly different

appearance should each enjoy such wide acceptance is easy to explain.

THEY'RE BOTH PONTIACS!

Both offer all the great basic Pontiac virtues. Both are conspicuously beautiful. Both carry the well-known promise of Pontiac quality—long life, dependability, and fine performance.

Both afford the smooth, enjoyable performance of Pontiac's two great engines—the

power-packed straight eight or its equally famous six-cylinder companion. And since both have Pontiac's exclusive Travelux Ride, both are notable for comfort.

And finally, both represent unusual values—a very fine product at a very low price. Either one you choose will make you mighty happy.

Hydra-Matic Drive, white sidewall tires, bumper using guards and fender shields available at extra cost.

MAJOR ISSUE YET TO BE FACED

51st Legislature's Work, So Far, Rates 'Well-Done' Verdict

AUSTIN, June 4. (AP)—You can hang the "well-done" tag on work of the 51st Legislature as soon as it gets up the nerve to face squarely the issue of spending and taxation.

Gov. Beauford H. Jester has signed into law more than 200 acts of the current session including a score deserving the label of major legislation.

Last week the session finished its work on acts enabling the revolutionary Gilmer-Alkins public school proposals to go into effect next fall. In terms of legislation that will vitally affect every Texan, it was the session's major accomplishment.

Very early in the session, the 51st gave Texas a reformed, modernized prison system and some-

what later it voted a record-breaking \$30 million for rural road building.

But after nearly five months of talk, and stalling, the Legislature's leaders have not been able to tell opinion on how to meet the cost of extending state services.

Among other major legislative questions still undrained of is the proposal to try a new and modern plan of dealing with juvenile delinquents. Other dangling issues are rent decontrol, a veterans bonus, repeal of the poll tax, and lifting of the ceiling on old age assistance spending.

Prison and school reform and rural road legislation were among top objectives listed on Gov. Jester's program for the Legislature.

Another was the question of a new juvenile code which appeared headed for enactment. Jester left the question of who would pick up the check with the Legislature, and there it remained today.

Here are some but not all of the other accomplishments of the Legislature:

Submission of a constitutional amendment calling for annual sessions and annual salaries for legislators.

Establishment of basic science requirements for all medical practitioners and setting up of a chiropractor-regulating board.

Setting up of a commission to regulate and promote the mammoth citrus industry.

Provision for local option control of underground water.

Provision of a plan for gubernatorial succession in case the governor-elect and lieutenant governor-elect die between date of election and swearing-in.

Lowering of the tax and increasing the benefit of unemployment compensation.

Establishment of the Sabine River Authority to develop the resources of this huge watershed.

Permitting voluntary pooling agreements for development of oil and gas fields.

Setting up a Real Estate Commission to administer real estate laws.

Approving the compact to end a long struggle between Texas and New Mexico for division of Pecos River waters.

Providing money to make up last year's deficit in rural aid school funds.

Barring Communists from the general election ballot.

Attempting to conserve shrimp in Texas coastal waters—a new plan to take the place of the present invalidated one.

Providing \$100,000 to pay for Texas' fight to retain title to its tidelands.

Passing of bills regulating anti-freeze, prohibiting the sale of horse meat for human use, ordering that wells which children might fall into be plugged.

Rewriting the state labor agency law.

Setting up a judges' retirement system.

Adolphus Hotel In Dallas Sold

DALLAS, June 4. (AP)—L. F. Corrigan, big real estate, apartment and hotel operator today said he had a controlling interest in the

Old-Age, Survivors Insurance System In Rapid Growth

Growth of the old-age and survivors insurance system in the United States, a recently reported to Congress in the 1948 Federal Security Agency's annual report, is reflected in this area by data from the local Social Security office.

George Clark, manager, said that as of June 30, 1948, when data in the Agency report was compiled, there were 1,747 people in the 30 counties served by the San Angelo office who were receiving \$27,663 monthly in old-age and survivors insurance benefits. By the end of April, 1949, these figures had increased to an estimated 2,000 people receiving \$32,500 monthly, or a general increase of about 17 percent during the 10-month period, Clark said.

The Social Security Administration section of the report, prepared by Arthur J. Altmeyer, Commissioner for Social Security, showed that in the United States on June 30, 1948, there were 2,163,000 persons receiving monthly benefits amounting to \$42,400,000. These Federal insurance benefits go to insured, retired workers over 65, their wives if over 65, and their dependent children, and to widows, children, and dependent parents of insured wage earners who have died.

The interim reports show that by April 30, 1949, the number of insured men, women and children receiving benefits at the rate of \$49,750,000 per month.

Caller Threatens Alabama Negro Minister's Wife

BIRMINGHAM, Ala., June 4. (AP)—The wife of a Negro minister said today a telephone caller warned her that their house would be blown up if they didn't move from an area zoned for whites.

The Rev. Milton Curry, Jr., and his family moved into the house Wednesday despite police warnings that they were violating the zoning law.

His wife said a woman told her on the telephone last night, "If you don't get out of there, you ———, we'll blow you out."

The person then hung up. A Negro group Friday asked aid of President Truman in protecting the homes of Curry and another Negro minister who lives next door to the Curry house.

825-room Adolphus Hotel in Dallas. Corrigan, at Houston, said he had promised the Busch interests of St. Louis, the sellers, he would keep the sale price a secret.

In a telephone conversation with the Associated Press he said he had bought "85 per cent of the common stock and 90 plus per cent of the preferred stock."

"The price," said he, "will not be announced until the next meeting of stockholders."

The Adolphus was built in 1912 by Colonel Adolphus Busch. A second portion was erected in 1916 and a third in 1926.

"I have always thought a lot of the old Adolphus," Corrigan said. "That's why I bought it. I feel that it has a grandeur that is unobtainable in buildings today."

"We are going to completely refinish and redecorate it but we'll be mighty careful not to lose any of its fine atmosphere," said Corrigan.

"It's a great old building," he added with satisfaction.

Asked to give an estimate of his holdings, Corrigan said he now owned 10,000 apartment units, eight office buildings, 600 commercial buildings and six hotels. Corrigan operates in six states.

Postwar Revival Of Polo Is Now In Full Swing

NEW YORK, June 4. (AP)—The past war revival of polo, which has been progressing slowly because of a lack of new players and suitable ponies, will hit a fast tempo this year.

The biggest match of the 1949 season will be held from Nov. 11 to 20 when the United States challenges Argentina for the cup of the American at Buenos Aires. Then, from Nov. 26 to Dec. 10, the world's championship will be held in Buenos Aires. In addition to the host and the United States, Mexico, Chile, Spain and India are expected to send teams.

The United States championships, slated for the Meadowbrook Club, Westbury, N. Y., in September, will be enhanced considerably with the addition of Argentina's El Trebol quartet.

Since the end of the war, the national championships have been confined largely to teams from the vicinity of the Meadowbrook Club. This year, however, George Oliver, one of the country's top players and executive director of the United States Polo Association, said it will be different.

At least six teams will ride in the open, with the possibility of the field being expanded to eight, he said. In addition to the home clubs and El Trebol, quartets representing California, Florida, Texas, Chicago and Detroit are expected to participate.

Lewis Recuses Contract Talks

BLUEFIELD, W. Va., June 4. (AP)—Contract talks between John L. Lewis and the Southern Coal Producers Association were in weekend recess today, while the United Mine Workers' leader returned to Washington for unexplained business.

Lewis permitted the Southern operators, and reporters, to guess whether he meant to see representatives of the northern or other segments of the industry in Washington.

He would not say whether he intends to return to Bluefield when the southern negotiations resume Monday afternoon.

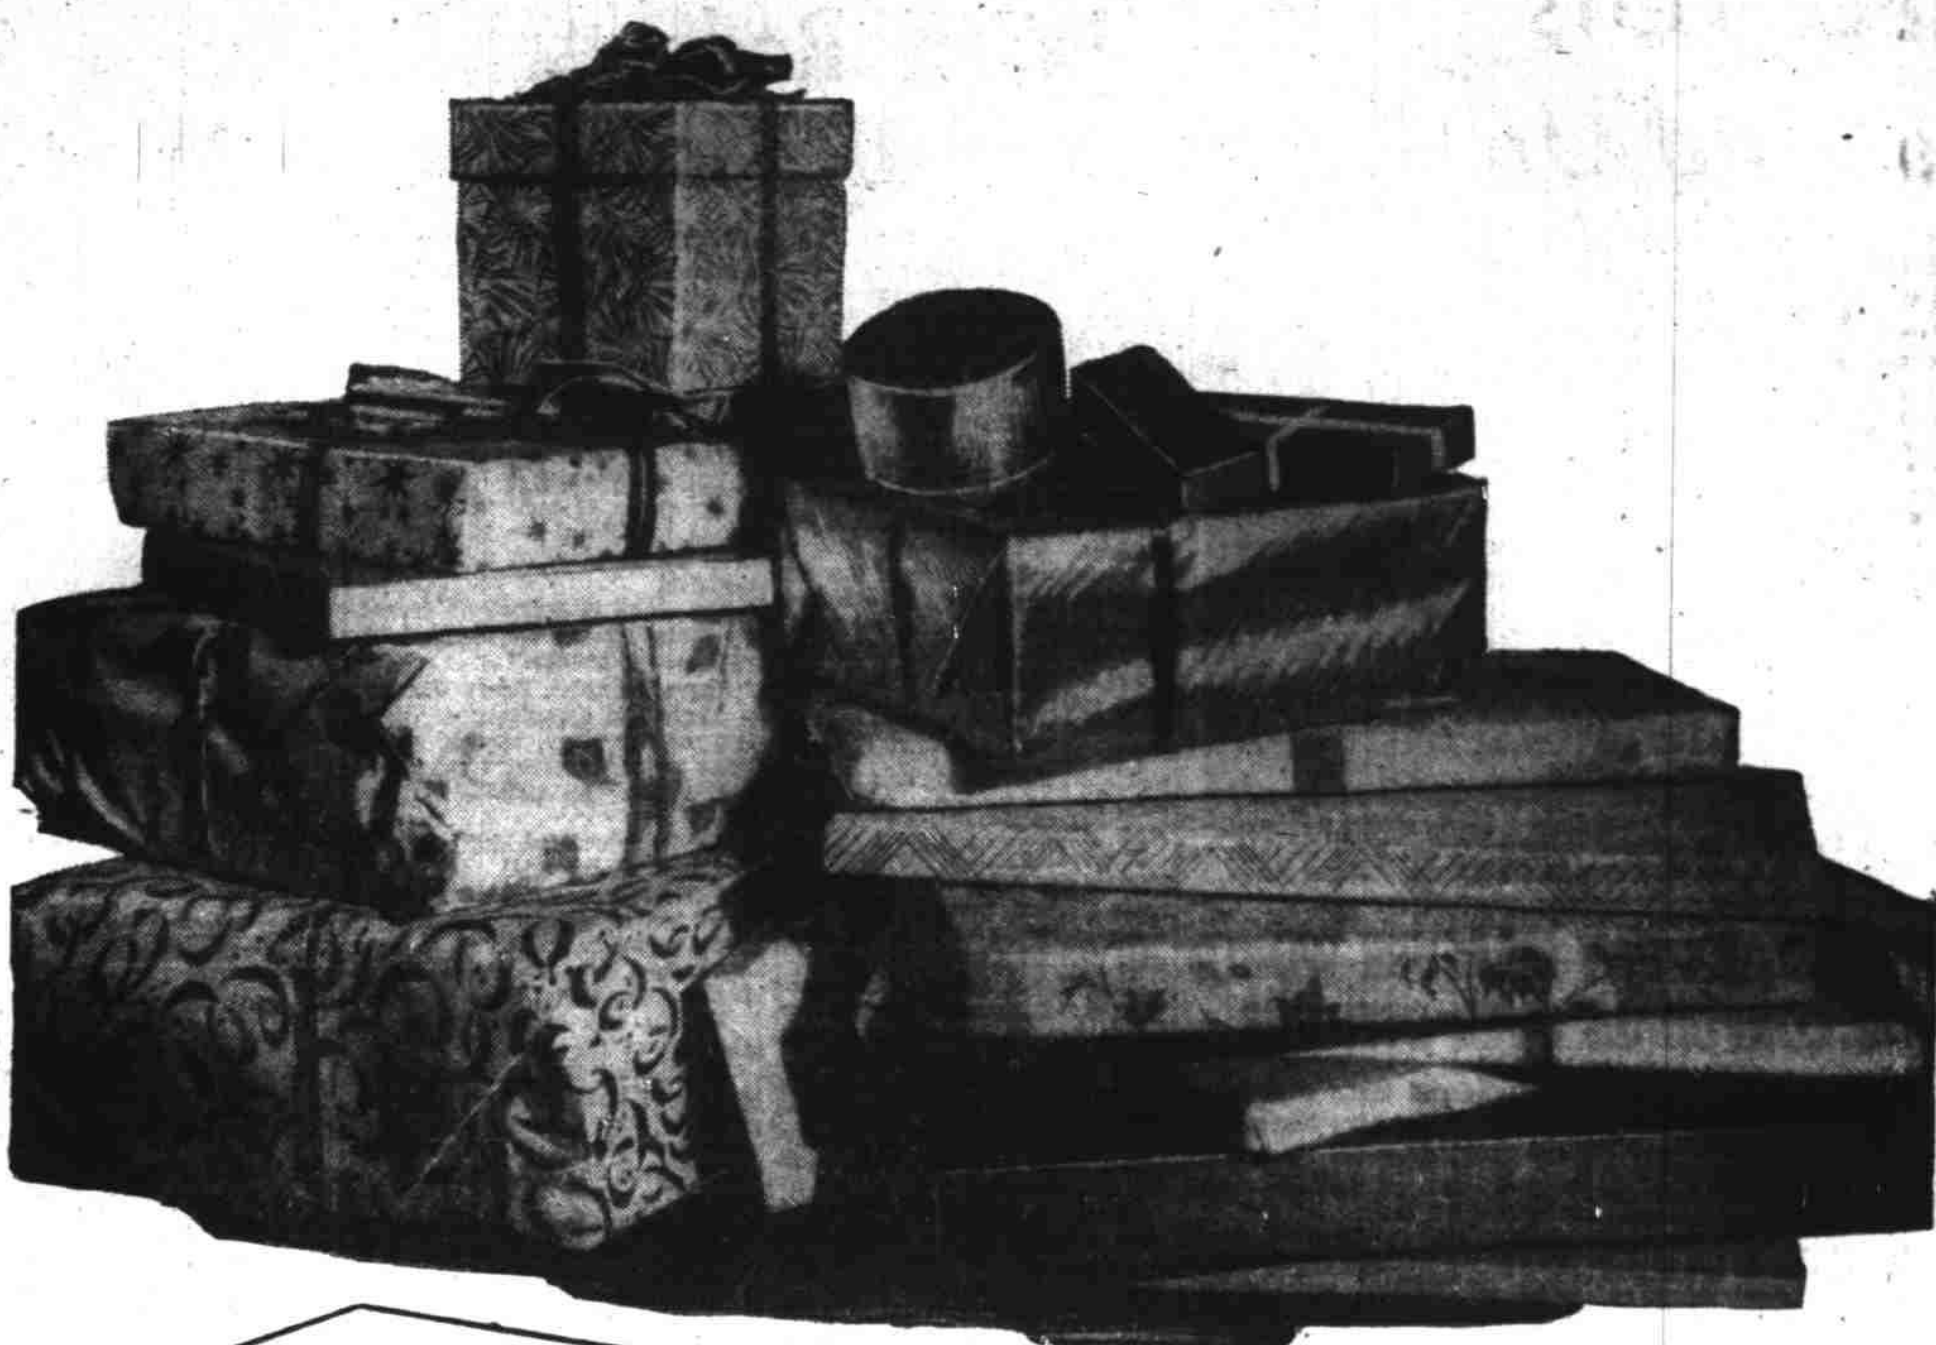

Rites For Gandy Infant Set Today

Services will be held at 3 p. m. today in the McDaniel-Boullouin chapel for Joseph Lee Gandy, 10-day old son of Mr. and Mrs. G. W. Gandy.

The baby died in a hospital here Saturday at 9 a. m. following a one-day illness.

The Rev. Cecil Rhodes is to officiate and burial will be in the city cemetery. Besides the parents, survivors include the paternal grandparents, Mr. and Mrs. R. L. Gandy, Blanchard, Okla., and the maternal grandfather, Joe Howie, Abilene.

The Harmsworth Trophy speedboat race was last held in 1933 when it was retained for the United States by Gar Wood.

A gift for the graduate! What shall it be? A pen, a watch, clothes, money? Yes, any of these gifts, will bring joy to the young graduate.

And so it's just a matter of choice. We make our purchase, and see that the package is delivered with our congratulations.

It is natural and right that we should yield to these generous impulses. But at a time when young people begin their own careers, with their own decisions to make, we should see that they are fortified with gifts that make for character and good living. At this turning point in life, we should do all in our power to help them establish their careers upon the strong foundations of godliness, love, honesty, charity, and friendship.

Let us give our graduates gifts of lasting quality. By example and advice let us teach them the merits of Christian living. Let us bring them with us to our churches, where they will find the greatest gift of all—the gift of God's love.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

AEC Tells How To Find Uranium

By The Associated Press
WASHINGTON, June 4.—You've got to have more than a pick and shovel and a hopeful heart to go prospecting for uranium—the "gold dust" of the atomic age.

The Atomic Energy Commission has come out with a booklet giving some of the low-down on how to search for uranium ore—the precious stuff that's used to make bombs as well as peace time products of atomic energy.

The whole idea of issuing the booklet, says the commission, is to stimulate more prospecting for uranium.

But—You've got to bone up on a little geology.

You've got to be a handy-man with a Geiger counter, an instrument for detecting radioactivity.

And it would be a big help, too, if you'd load into your modern covered wagon such gear as ultra-violet lamps, photographic plates or film, a metal key, an instrument called a "scintilloscope" and another called an "electroscope."

All of these aids in spotting the pay dirt.

The commission's 123-page booklet goes into some detail on how to detect the stuff and how to identify it when you find it, but it gives only very general information on the big question: Where?

That's something the AEC boys would like to know themselves.

The commission has even set up a kind of jackpot to encourage modern-day prospectors to get in there and dig. There's a bonus of \$10,000 "for the discovery of a new deposit and the production therefrom of the first 20 short tons of uranium ore assaying 20 per cent or more uranium oxide."

You can buy the booklet for thirty cents from the government printing office. Those three dimes may put you in the chips, because the AEC promises to pay a minimum price of \$3.50 a pound for uranium ore.

Here's a little on the detection tests described in case you want to start laying in equipment:

A Geiger counter gives audible "clicks" when there's radioactive material nearby. But you've got to get some fairly big-league clicking before you can be certain the trail is hot. Cosmic rays in the atmosphere can activate the instrument, too, and these may fool you. (Remember: You can't sell cosmic rays.)

If you find some rocks you think might contain uranium, take them into a dark room. Put a metal key on some photographic film and then lay the rock on top of the key. If you get an image of the

key on the developed film, you may be well on your way to paying off the mortgage.

Another test: If your mineral glows under ultra-violet light, you may have made a strike.

The "scintilloscope" is an instrument that produces bright flashes of light from radioactive material.

The "electroscope" is a gadget that has two leaves of gold which come together in the presence of radioactivity.

Will an AEC cop be after you if you go searching for uranium some place other than your own property? No, sir—

Open to prospectors for uranium and thorium (another radioactive material) are the "vacant and unappropriated public lands" in the states of Arizona, Arkansas, California, Colorado, Florida, Idaho, Louisiana, Mississippi, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming, and the territory of Alaska.

So are certain national monuments and one national park—Mt. McKinley.

You can even dig on your neighbor's land, if you get his permission.

If you make a strike on a public land and establish a claim, the commission reserves the right to go in and remove the uranium or thorium itself. It says this right "protects the government from, among other things, a claim holder's refusal to work a deposit."

You'd get paid for any damage or injury caused by this action—and for your services of discovery but you wouldn't get paid for the uranium or thorium the AEC removed.

The AEC says, however, it would not be its policy to exercise this right except "in case of emergency."

Slusser Motion For New Trial Denied

P. C. Slusser's second motion for a new trial, heard in district court here, was refused by Judge Paul Moss.

Slusser was convicted on an indictment for sodomy and was sentenced to 15 years in a trial by jury several weeks ago.

The defense gave notice of appeal to the court of criminal appeals in Austin. Slusser is now free on \$10,000 bond.

LOOK ME OVER, DOC!—All excited about the chances of a summer vacation, at the New York Children's Aid Society camp at New Hamburg, N. Y., these youngsters step forward for examinations at the society's New York West Side Center. (AP Wirephoto).

First Foreign Ship Arrives in Shanghai

SHANGHAI, June 4. (AP)—The first foreign ship arrived in Communist Shanghai today.

The S. S. Tjibadaka, operated by the Java-China-Japan Line, came in this afternoon from Java ports via Hong Kong. She will return to Hong Kong tomorrow afternoon with mail and Chinese passengers—but no foreigners.

Charles Gehring, former Detroit second baseman, this year became the 56th man named to baseball's Hall of Fame.

94,000 Vets Trained To Make Own Livings

WASHINGTON, June 4. (AP)—More than 94,000 disabled World War II veterans have been fully trained to earn their livings, the Veterans Administration said Saturday.

VA said those rated as rehabilitated represent about 20 per cent of all handicapped veterans who have entered training with government aid, the VA said.

VA said it did not know how many of the 94,000 actually are employed now.

Berlin Strikers Ask Rail Split

BERLIN, June 4. (AP)—West Berlin's railway strikers proposed Saturday that the German railroad administration split itself into two business offices along East-West lines to end the two-week walkout.

Rejection was implied, however, by a statement of the president of the Soviet-controlled system, Willy Kreikemeyer, to a West Berlin reporter.

"There is only one management," Kreikemeyer snapped. West Berlin's lord mayor, Ernst Reuter, offered in a letter to Kreikemeyer to lend the railway system West marks and proposed himself as a mediator in an effort to speed the settlement and get the 14,000 strikers back to work.

The strikers suggested that the railway, which is controlled by the Russians, could operate as one system, but have both West Berlin and East Berlin offices.

The western office, under this proposal, would recognize the striking Independent Trade Union (UGO), pay the workers in West marks, and guarantee the workers would not be fired for political reasons or for striking.

The Railway Administration, which has refused to deal directly with the western trade union, technically would save face. The East Berlin office could continue to do business in Soviet zone East marks and continue to bargain with the Communist-free German trade union.

One management official denied that any such proposal had been received.

UGO leaders said they were reluctant to advocate such a division but a spokesman said "We think they (the administration) will negotiate."

Because lines run through the western sectors, freight movements to Berlin from western Germany

have been stopped. American officials said that despite the strike a 60-day reserve of food and coal has been built up in West Berlin since the lifting of the blockade May 12. There was only a three-week reserve when the blockade went into effect almost a year ago.

Reserve Officers Being Aked To Serve Brief Periods

Brief periods of emergency service is being asked of reserve officers in the Army medical, dental and veterinary corps.

Maj. Gen. W. Bliss, surgeon general of the Army, has asked these reserve officers to signify availability for short periods of service ranging from one to 29 days a month. This would be to relieve the army's critical shortage of professional personnel.

Capt. Harold Standford, commander of the U. S. Army & Air Force recruiting station at 502 Petroleum building, said that a sufficient response from reserve officers would be most helpful. "If 5,000 reserve officers volunteer for only three days a month for a year's time the man hours would be equal to full-time service of 600 physicians, dentists and veterinarians. Assignment would be in the volunteer's geographic area."

Two men entered pleas of guilty in justice court here Saturday after they had been arrested by members of the sheriff's office on charges of assault.

R. J. Self, who admitted he fought with B. C. Mims, 36-year-old Fort Worth man, following a traffic pattern argument, was fined \$25 by justice of Peace Oren Leonard. R. H. Jones, also involved in the incident, was fined \$1 plus expenses.

Mim Complain to Authorities

Mim complained to authorities the two jumped him at a west-end garage after he had turned in from his highway. They complained he did not offer proper clearance.

Dodd Will Attend Austh Meetings

E. C. Dodd, president of Howard County junior college, will go to Austin Wednesday where he will attend to meetings over a period of four days.

The University of Texas Junior College laboratory conference is scheduled for Thursday and Friday, with the Texas Public Junior College association will hold its annual meeting at the state capital on Saturday and Sunday.

Among topics due for discussion are the governor's proposal that a group similar to the Gilmer-Alba committee be named for higher education, and the possibility of hitting the number of new junior colleges. Limitations of new public junior colleges has been suggested in view of the increased state apportionment for such institutions.

Two Plead Guilty On Assault Charges

Two men entered pleas of guilty in justice court here Saturday after they had been arrested by members of the sheriff's office on charges of assault.

R. J. Self, who admitted he fought with B. C. Mims, 36-year-old Fort Worth man, following a traffic pattern argument, was fined \$25 by justice of Peace Oren Leonard. R. H. Jones, also involved in the incident, was fined \$1 plus expenses.

Solons, Alarmed By Falling Farm Prices, Want Brannan Trial Run

WASHINGTON June 4. (U-P)—Concerned over falling prices and bumper crops, some farm-minded senators were ready Saturday for an immediate trial run of the Brannan farm program on wheat and pigs.

The two-way program urged by Secretary of Agriculture Brannan

Prosecution Looms In Oil Fouling Of City Sewage Plant

The City of Big Spring is anything but happy over some recent oil discoveries.

Lubricants have been detected on several occasions at the sewage disposal plant, and they wreak havoc in the plant's huge "digestor." For that very reason, a city ordinance exists which prohibits disposal of oil in the sanitary sewer system.

Oil has been reported at the plant several times during the past few days, and the city engineering department already has been instructed to search for the sources. Every effort will be made to locate the sources, and persons responsible will be subject to prosecution under terms of the ordinance, officials said.

Truman Plan For Health Insurance Slated For Lacing

ATLANTIC CITY, June 4. (U-P)—The American Medical Association—world's largest organization of doctors—prepared for its annual pow-wow today with indications that President Truman's call for compulsory health insurance would take a terrific lacing.

The A.M.A. declared it expected more than 16,000 doctors from this and other countries to attend sessions officially opening Monday at which the House of Delegates—policy-making body of the organization—will consider "such matters as education of the American public against the dangers of compulsory sickness insurance."

The week-long parley, said the A.M.A., "will be one of the most important ever held by the largest medical organization in the world. The decisions will be vitally significant in determining the future of medicine in this country."

Grass Fire Run

The city fire department was called to extinguish a grass fire at a vacant lot in the 800 block of West Third street at 3:05 p. m. Saturday.

Livingstonian Is Electrocuted

LUFKIN, June 4. (U-P)—Calvin Walter Copley, 22, of Livingston, was fatally injured Saturday. A drag line on which he was working touched a power line. He died in a hospital a short time later.

THE WEEK

(Continued from Page One)

went weeks on weeks without showers.

The city commission moved last week to issue \$16,000 in bonds, the portion unissued in 1942 when voters sanctioned \$70,000 for water and sewer extensions. The funds will be used for the original purpose to bring relief to the most acute areas.

Mayor G. W. Dabney has issued an appeal to individuals to do all they can toward maintaining sanitary conditions in and near their premises. His appeal was prompted by the epidemic of polio at San Angelo. Big Springers ought to do willingly anything they can to keep the situation under control here.

A meeting on the Colorado River Municipal Water district is in prospect this week. Essential legislation is over the hurdle in Austin and now it is time for Big Spring and Odessa to start talking turkey about the water district under consideration for three years. Core of the proposal is a 26 million gallon per day water supply from the upper Colorado river, 25 miles northeast of Big Spring.

Persons with notary public commissions are reminded once more that they have only through Friday to renew their commissions. That's the state deadline for renewals.

This week brings the Texas Electric Service annual show to Big Spring. This city has given the annual production some of its best support, and this year is due to be no exception. The show starts Tuesday at the high school gym and continues through Thursday with new as well as usual attractions.

Prospects are better than for House concurrence in the Senate's \$4,225,000 biennial appropriation for expansion of the Big Spring State hospital. While the effects would be felt locally, the important thing is that it would provide more adequately for the mentally ill of West Texas.

aims at lowering food prices to consumers and at the same time guaranteeing good incomes to farmers. The market prices of perishable farm products in large supply would be permitted to drop, with the government paying the difference to farmers as a subsidy.

Chairman Elmer Thomas (D-Okla.) of the Senate Agriculture Committee said Saturday he has asked Brannan to put the plan into immediate operation in the southwestern wheat belt.

"He promised to have an answer ready for our committee Monday," Thomas added.

Thomas said that the only legislative step necessary before the Agriculture Department could put the plan into effect would be to step up the effective date of the Aiken farm law passed last year.

Its effective date now is next Jan. 1.

Senator Aiken (R-Vt.) the author of that law, concurred in Thomas' appraisal of the legal situation. Aiken said, however, he wants full hearings first.

Thomas announced a five-member Senate subcommittee under Senator Gillette (D-Ia.) will begin hearings as soon as possible upon the pig and pork products proposal.

"We may be able to combine the wheat program with it," Thomas said.

Two Republicans on the committee, Aiken and Kem (Mo.), said they have "open minds" on both proposals.

Truman Organizes Atomic Mediators

WASHINGTON, June 4. (U-P)—President Truman Saturday completed organization of the special three-man labor relations panel authorized to settle disputes at atomic energy plants.

It already had a job cut out for it with a strike authorized at Oak Ridge, Tenn.

To serve with Chairman William H. Davis of New York, Mr. Truman appointed Dr. Edwin E. Witte, professor of economics at the University of Wisconsin and a former member of the War Labor Board and Aaron Horwitz, New York lawyer and labor relations consultant.

The threatened strike of CIO chemical workers at the Oak Ridge atomic energy plant is expected to receive the panel's first attention if mediation efforts fail.

Three Escaped Boys Remain At Large

GATESVILLE, June 4. (U-P)—Six youths escaped Friday from the state school for boys here. Three remained at large Saturday.

George Franklin Harless, 17, Dallas and Donald Brock, 17, Childress, both classed as delinquents fled in a stolen car Friday morning. Robert Rivers Belton, escaped Friday afternoon.

Names of three youths who escaped but were soon caught were not disclosed.

London Trainmen Strike Third Time

LONDON, Sunday, June 5. (U-P)—The third consecutive "Sunday only" strike of trainmen began at midnight keeping hundreds of thousands of would-be Whit Sunday holiday makers at home.

All rail traffic between London and Britain's North Country was shut down. The strike has been called for three Sundays to protest summer train schedules which require some engineers and firemen on the state-owned lines to spend nights away from home.

Fire Destroys Part Of Railroad Trestle

ORANGE, June 4. (U-P)—Fire destroyed 700 feet of a mile-long Southern Pacific railroad trestle over Gulf Coast marshland near here Saturday.

W. S. Jackson, Orange passenger agent, said the cause of the fire was not known.

He said the damage would cut Orange off from train service for at least 48 hours. Jackson said it would take that long to repair the trestle.

West Coast-bound trains from New Orleans are being detoured north of Orange by way of Lake Charles, La., and Beaumont, Tex., on Kansas City southern tracks.

Saucier Denied New Trial In Slaying

WICHITA FALLS, June 4. (U-P)—T. C. Saucier, 33-year-old former attendant at the Wichita Falls State Hospital, Saturday was denied a new trial in the slaying of Thomas Houston Gibbons patient at the hospital.

Saucier was assessed the death penalty May 21 on murder charges. He was accused of beating, stomping, and kicking Gibbons, a Sulphur Springs produce dealer, to death.

Judge Frank Ikard ruled against the new trial motion. Notice of appeal to the Court of Criminal Appeals at Austin was given by Defense Counsel W. W. (Bill) Ballard.

"VICE-PREXY"—Horace Hasson, terminal manager for Continental Air Lines became a honorary Lone Star vice-president of CAL, here last week on the occasion of the first visit of one of the line's new Convair ships. O. R. (Ted) Hauter, CAL vice-president in charge of operations, makes the presentation while Mayor G. W. Dabney, Hostess Anderson and Joseph Uhl, secretary-treasurer look on.

Little Is Done By Envoys In Berlin Talks

PARIS, June 4. (U-P)—Four weary foreign ministers broke up Saturday night a four and a half hour secret session on unifying Berlin and an American source said a "little progress was made."

"... was just a little," the informant added.

Western officials said there definitely was an area of agreement between Russia and the West, but this concerned broad general principles and could come to nothing in consideration of details.

Barely had the foreign ministers broken up their formal meeting at 8 o'clock when U. S. Secretary of State Dean Acheson and Soviet Foreign Minister Andrei Vishinsky went into a less formal huddle over their dinner plates at the American embassy.

French Foreign Minister Robert Schuman left the four-power meeting before it was over to catch a train for Lorraine, where he is to make a speech Sunday.

The meeting was the second of a series of secret sessions, from which reporters do not receive a briefing by official observers. Communiqué was issued saying:

"The foreign ministers, with Secretary of State Dean Acheson in the chair, continued in closed session today the discussion of the proposals of the United States and the USSR relative to Berlin. The next meeting will be Monday."

Grasshoppers In County Facing New Barrage Of Poison

More poisoned bait was to be distributed Monday as ammunition in the war against grasshoppers. County Agent Duward Lewter said that he had secured the loan of two barrels of poison Saturday at Lubbock. The supply had been exhausted here Friday after 15,000 pounds of poisoned bait had been distributed. The two barrels will mix some 5,000 pounds of bait.

Lewter said that someone would be on duty at the farm labor camp building at all times to supply the bait.

John Landrum, Lubbock, who is spearheading the grasshopper fight in this region, has put in a rush order for additional sodium fluosilicate. This compound is about 10 times more effective than white arsenic, yet is not lethal to livestock.

Happily, so far, grasshoppers are still in the pastures. Worst infestation is as usual around Vinland, with Luther, Richland and Vealmoor reporting mild to heavy infestation. Bait is being sprinkled around pasture fence rows to snuff out the hoppers before they reach young cotton.

Mother Of Local Man Dies Friday

Mrs. Bettie Kittrell, 82, mother of W. V. (Vivian) Nichols, died at a hospital here at 7:30 p. m. Friday.

The body was to be shipped today by Valley Funeral home to Linden, Tenn. where the services will be held at the Lance Duncan chapel on Tuesday.

Mrs. Kittrell had been a member of the Methodist church since childhood.

Survivors include three sons, W. V. Nichols, Big Spring, H. D. Kittrell, Linden, Tenn., Jack Kittrell, Monahans; and three daughters, Mrs. Blanche Cude, Franklin, Tenn., Mrs. Ruth Hunt, Chicago, Ill., and Mrs. Elizabeth Burns, Phoenix, Ariz.

Five grandchildren and one great-grandchild survive.

No Air-Conditioning For Chief Executive

LITTLE ROCK, Ark., June 4. (U-P)—There will be no air-conditioned hotel suite for President Truman when he visits here next week—he doesn't want it.

Manager Ben R. Shelley of the Marion Hotel disclosed Saturday that the President had written him requesting that air conditioning be cut off in his suite. "He just doesn't like it," Shelley said.

\$178,186,209 Balance

AUSTIN, June 4. (U-P)—State Treasurer Jesse James Saturday reported a cash balance in all state funds on May 31 of \$178,186,209. In the general revenue fund was \$83,616,650. Another \$12,587,032 was in the unallocated clearance fund.

Red Newspaper Joins War On RC Hierarchy

PRAGUE, Czechoslovakia, June 4. (U-P)—The official Communist newspaper Rude Pravo added its voice today to denunciation of the Roman Catholic hierarchy and the Vatican.

It repeated, ominously, the statement of Information Minister Václav Kopecky before a Communist Party Congress last week that "We shall not let anyone remain in doubt; we will not stand for high traitors even if they wear consecrated garb."

Rude Pravo is required reading for every Czechoslovak Communist. It not only reflects high government opinion but, with powerful Communist policy makers among its staff, it often moulds opinion.

It had kept silent until now on the church-state arguments, which currently concern education.

Although the article concluded with a statement that questions must be solved "in the interest of further peaceful evolution of the church-political matters," it bristled with statements intended to show that the solution would be on state terms.

A number of priests, including one cabinet minister, the Rev. Josef Plojhar, have gone along with the government, asserting that its program was designed for the common people. Many have been suspended as priests and Archbishop Josef Beran has hinted that already there has been ex-communication of Catholics collaborating with the government.

The Archbishop also warned that writing letters to the government upholding its propaganda for peace talks would be considered an ex-communicable offense.

County 4-H Teams Go To Town In Lubbock Contests

Howard county 4-H judging teams virtually swept the board in regional competition Saturday at Lubbock.

The grass and livestock teams topped first place in four district competition. Dairy team judges won district No. 6 competition and took third standing in the region.

All teams qualified for state finals at College Station on June 13. In addition, the tractor maintenance team will make the trip to College Station. The two-boy team will be selected from Jesse Overton, Buster Shortes, Billy Fryar, James Fryar and Martin Fryar this week.

Record of the livestock team was little short of uncanny. Howard county entrants took the top four spots in judging beef cattle, hogs, sheep and quarter horses. Jack Cathey was high point with 706 points out of a possible 800, followed by Lloyd Robinson with 704. Perry Walker had 690 and Marilyn Guitler, alternate, had 671. The three team scores totalled 2,100 out of 2,400, well ahead of 2,022 for the Ochiltree county team. Swisher county finished third.

Lowie Rice was first in grass judging with 147 points out of a possible 150. Jimmie White had 134 points and Roger Reagan 132, a team total of 413. This was well ahead of second place Childress county with 368.

Pat Lamb ranked third in individual scoring of dairy cattle with 550 points. James Cauble had 465 and Woody Cathey 420. Top in district No. 6, the team was third in regional finals.

In competition here last year Big Spring won first in district No. 6, being nosed out by Mason county in regional judging. Mason is regarded as the keenest competition at the state. Teams from extension districts 1, 2, 3 and 6 competed Saturday in Lubbock. Duward Lewter, county agent, was in charge of the teams.

Hermleigh Man Fined

Billy Ray Kinzey, Hermleigh, entered a plea of guilty in county court Saturday to the charge of driving while under the influence of intoxicants and was fined \$75 and costs by Judge J. Ed Brown.

Kinzey was apprehended by city officers Friday evening.

Prison Guards Foil Escape Try Of Six Felons At Darrington Farm

ANGLETON, Tex., June 4. (U-P)—Prison guards today broke up an escape attempt of six convicts at the Darrington prison farm. The inmates were rounded up

before they could get 200 yards away.

Prison officials said a crudely fashioned hacksaw blade was used to cut a hole in a corner of a 12-foot cyclone fence.

Five of the men were rounded up in a nearby gully. The sixth was captured near the home of Farm Warden Joe A. Batson.

The warden identified the men as Eugene Paul Hays, 22, serving time on Pottawatomie county for felony theft, William Howard Graham, 22, four years for burglary from Deaf Smith and Parmer counties; Harold Thomas Wilson, 21, serving three years from Gregg county for felony theft, and Elms R. Walker, 24, seven years from Lubbock and Howard counties for burglary; and Felton Thompson, 24, 10 years from Gregg county for felony theft.

City Schools Will Have Bumper Crop Of Kids This Fall

A bumper crop of first graders is coming up for Big Spring schools in September.

Just what the actual number will be is conjectural, but census figures indicate a potential in the neighborhood of 500.

The census reflects a total of 214 boys and 232 girls—a total of 446 six-year-olds. Sixteen of the number are Negro children. The number of seven-year-olds, some of whom will be in the first grade, is 373, of which 17 are Negro children.

Thus, any sizeable fraction would put the potential of first graders past the 500 mark.

Total census figure shows 4,125 on the rolls of the Big Spring Independent School district. Of this number 180 are colored scholars.

The aggregate is about 100 above the final figure of the past year, including transfers from other districts. Including the transfers during the summer, it is possible that the net gain will be around 200 scholars.

Additional classrooms, possibly a dozen, will absorb the increase and help slightly on the over-all crowded conditions in the lower grades. However, no contracts have been let for the classrooms. It may be mid-year before the new facilities will be felt.

County Bond Sales Reach \$51,671.25; Goal Still Remote

Howard county's E bond sales inched forward to nearly 30 per cent of its Opportunity Drive quota last week.

Sales of \$5,006.25 for the week boosted the total of \$51,671.25, said Ira Thurman, county bond chairman. This is the barest fraction under 30 per cent of the \$176,000 E bond quota set for Howard county.

The drive continues through June 30 and Thurman urged increased purchases of the E bonds. Many counties are over the top and the majority are past the halfway mark. By that standard this county is lagging badly.

Wins Divorce Decree

Bonnie Mae Smith won a divorce decree from Truman B. Smith and custody of a minor child in a case brought before Judge Paul Moss in 70th district court here Friday.

WEATHER

BIG SPRING AND VICINITY: Partly cloudy, little change in temperature Sunday and Monday; widely scattered showers Sunday.

Highest temperature this date, 103 in 1917; lowest this date, 33 in 1913; maximum rainfall this date, 1.17 in 1902. High today 88, low tonight 68, high tomorrow 92.

EAST TEXAS: Partly cloudy Sunday and Monday. A few late afternoon and night time showers in extreme northwest portion. Not much change in temperature. Moderate to fresh east and southeast winds on the coast.

West Texas: Partly cloudy Sunday and Monday. Scattered afternoon and night time showers in Panhandle and South Plains. Not much change in temperature.

Olds Backs Lower Prices For Autos

LANSING, Mich., June 4. (U.P.)—The last of the automobile industry's "old guard" of founders thinks the business should be able to sell cars for less than \$1,000 today.

But a spokesman of the present-day industry says that is impossible under existing conditions.

Ransom E. Olds, who founded Reo Motors, Inc., and gave his name to the Oldsmobile firm that now is a division of General Motors, Inc., used his 85th birthday Friday as an occasion to advocate lower priced cars.

The auto industry, he declared "has the equipment and the know-how to put out a popular-priced car right now."

To do it Olds said, car makers would have to "eliminate a lot of gadgets they put on now." He also suggested cutting down on the "expensive changeover to new models every year."

J. R. Davis, vice president in charge of sales at the Ford Motor Co. went into the price of cars in an address before the Michigan Auto Dealers convention in Detroit Friday night.

He told the dealers high taxes and the prevailing wage level prevents Ford and other car manufacturers from producing an automobile below the \$1,000 figure. Taxes alone make up at least \$379.78 of the price of a Ford car, he added.

A \$300 price cut in cars, Davis asserted, is no more likely before the end of the year than a 20 per cent cut in wages would be.

Olds commented at his birthday interview that he was the "only one left living of the old guard that founded the auto industry."

"Charles G. Nash was the last to go," he recalled and Henry Ford passed on just before him.

He praised the present Ford company head, Henry Ford II, as "quite a comer," and said the industry has "a great deal of respect for young Ford."

Johnson Planning 'Operation Lookout'

WASHINGTON, June 4. (U.P.)—Secretary of Defense Johnson announced plans Saturday for the most extensive test of the nation's air raid warning system since the war.

Over 26,000 civilian volunteers are slated to take part in "Operation Lookout," which will be conducted next September in a 10-state East Coast area ranging from Portland, Me., to Wilmington, Del.

Civilian spotters are to work with military personnel assigned to radar detection stations set up along the eastern seaboard in what Johnson called a "test of long-range emergency air raid defense plans."

Negro Siamese Twins Reported Doing Well

LOS ANGELES, June 4. (U.P.)—Los Angeles' Siamese twins are three weeks old today and doing as well as can be expected, their doctor says.

The little girls, joined at the top of their heads, are gaining weight and developing normally, Dr. Phoebe Berman of Los Angeles County General Hospital reported. He has said preliminary examinations indicate each baby has a complete set of organs, including a separate brain.

But it will be several months before it can be determined whether the twins can be separated surgically, Dr. Berman added. The babies are daughters of Mrs. John Jones, Negro mother of seven other children.

Ed Stevens pinch hit three home runs for the Pittsburgh Pirates last season.

TORNADO WRECKAGE—A tornado struck this farmstead three and a half miles southeast of Fairfax, Mo., splintering all the buildings except the house and garage shown in the upper left of picture. More than a score of persons were injured in this extreme northwest corner of Missouri, and in Nebraska, Iowa and Kansas where the twisters hit. (AP Wirephoto)

Andrews Devonian Pay Extended East Upton Venture Gets Shows

By JOHN B. BREWER
SAN ANGELO, June 4.—Cities Service No. 1-E Cowden extended Devonian pay in the Dollarhide field in Andrews county one mile north when it flowed 380 barrels of oil in 24 hours through a half-inch choke and casing perforations at 7,755-7,800 feet. The section had been acidized. The Clear Fork was being treated through perforations at 7,545-6,752 feet and dual completion was a probability. The well failed in the Fusselman and plugged back. It is in the C SE SW 14-A52-psl.

Magnolia No. 1 Flanagan estate in Gaines county, C SW NW 9-A23-psl, flowed 27 barrels of 33 gravity oil in one hour on a drillstem test of the Devonian from 10,350-405 feet. It showed oil and gas-cut salt water from 10,405-430 feet and drilled ahead projected to the Ellenburger. The test is an east offset to Shell No. 1 W. L. Hawkins, opener the Flanagan (Ellenburger) field, one location west, which also indicated Devonian pay.

Slick-Urschel No. 1 H. F. Neal, south extension to Fusselman, Silurian, production on the west side of the Benedum area in eastern Upton county, had gas at surface in eight minutes in a 30-minute drillstem test from 11,043-180 feet and distillate in 10 minutes. The well sprayed gas and distillate for 25 minutes with no gauges. Recovery was 510 feet of distillate. The test is deepening.

Texas Pacific No. 63-A-E John F. Lane, second Ellenburger producer for the McCamey (Grayburg) field in Upton, flowed 55 barrels of oil in eight hours from an acidized section between 7,948-8,002 feet. Location is in the C NE SW 5-GC&SF.

Ohio Oil Co. completed its No. 1 A. L. Baugh, Schleicher County wildcat which failed in the Ellenburger, as a small Strawn lime discovery. The well pumped 49.80 barrels of oil plus 80 per cent water in 24 hours. Production was from perforations in an acidized section, 5,790-5,800 feet. Location is 660 feet out of the southeast corner of section 18-M-GH&SA.

foot wildcat 1,980 feet from the south and west lines of section 25-39-3c-T&P, 12½ miles south of Midland in Midland county.

In Lubbock county, C. W. Chancellor, Slick Oil Co. and others staked location for their No. 1 Floyd Clud, 6,500-foot wildcat, 1,980 feet from the south, 660 feet from the east lines of section 22-D-S&SV.

WORM-FARMING IS ONE OLDSTER'S WAY OF SOLVING LIVING PROBLEM

CISCO, Tex., June 4. (U.P.)—What would you do if you were an old man faced with these two problems:

The need for making a living. An invalid wife whose side you couldn't leave for long.

Homer Lane, who is in his late

70's, found a way out. He has established a worm farm—in the heart of Cisco.

Until several months ago Lane worked for a furniture store here. But his wife's condition worsened. He felt he should stay at her side. Then Lane read of a man who "made good" worm-farming. Thousands of anglers come to fish in nearby Lake Cisco and Lake Bernie. Now he has a worm farm. He

estimated there are 20,000 fat, squirming worms ready to come off "the assembly line."

Lane started worm-farming in a small way. Now he has several large beds in which the worms have multiplied until the earth seems like a mammoth pepper box. Lane feeds the worms mash. He replenishes the soil often. Over the soil he places a layer of tow sacks, kept moist. The worms average 4½ inches long.

NAMES GIVEN TO TRIPLETS

DALLAS, June 4. (U.P.)—Mr. and Mrs. John Lancione named their triplet daughters Friday: Shariene, Marlene and Darlene.

The triplets born prematurely Thursday at Methodist Hospital, were doing well in their incubators. The mother was doing well, too.

DP's Due June 6

WASHINGTON, June 4. (U.P.)—Two U. S. Army transports will dock at Atlantic ports June 6 bringing 2,090 European refugees to new homes in this country. Thirteen are going to Texas.

Masonic Rites For Former Newsmen Set

DALLAS, June 4. (U.P.)—Scottish Rite funeral services will be held here tomorrow morning for Wilbur Keith, 72, formerly newspaperman and widely known Masonic worker who died Friday in San Antonio. Interment will be at Ladonia Sunday afternoon. Keith was a native of Rocky Mount, Ga.

Secrets Issue Up To Judge In Coplon Trial

WASHINGTON, June 4. (U.P.)—The question of how far the government must go in disclosing secrets when it prosecutes an espionage case rests with Federal Judge Albert L. Reeves.

The issue was dropped squarely upon the shoulders of the 75-year-old jurist as he presided over Judith Coplon's trial on espionage charges. He is expected to give his answer Monday.

Archibald Palmer, Miss Coplon's attorney, is demanding that the government produce 22 FBI reports relating to internal security matters and to suspected espionage agents in this country. The government says extracts of the reports were found in Miss Coplon's purse when she was arrested.

Prosecutors Raymond P. Wheatley and John M. Kelley, Jr. want instead to introduce photographs showing only parts of the reports. Miss Coplon, 28, a former Justice Department political analyst, is accused of pilfering secrets from the department's files with reason to believe the information would be used to aid a foreign power.

WHO, ME?—This steed, normally used to haul small casks of wine in his cart, looks skeptically as his driver waves a whip at him during the annual tournament of flowers in Rome, Italy.

CAGSTER DUPES FIREMEN—A sagster, left, promotes a cigarette lighter from the Luxor Obelisk, Paris, after seeing to see an inscription. Right, he descends by fire ladder.

1 1/2 FEET APART—Homestead (foreground), of Carnegie-Illinois Steel, beats the William Larimer Jones, of Jones and Laughlin by 1 1/2 feet in a race during Pittsburgh's Welcome Week.

CONSOLATION—After failing to win a ribbon, 2-year-old Katherine Keeling of Danville, Va., gets a gesture of consolation from a hound at the Sedgfield Horse Show, Greensboro, N. C.

SPORTSMAN—Denis Compton, English cricketer, who is also expert at golf, soccer and squash, holds the "Sportman of the Year" trophy presented to him in London.

ICED FLOWERS ON GRAVE—Ice-encased flowers stand on the Petersham, Eng., grave of Capt. George Vancouver who explored area bearing his name. He died 151 years ago.

EXTRY—This familiar-looking object is not today's newspaper made doubly useful in a shower, but is a scarf of waterproofed cotton designed by Brooke Cadwallader.

BOTTLE-FED PIGS—Lydia Decker supervises a mass bottle-feeding operation for these half-dozen pigs near Yakima, Wash. Their mother died shortly after they were born.

COUNTY 100 YEARS OLD—Gov. W. Scott Kerr, of North Carolina, greets 2 Winston-Salem policemen who, with other residents, grew beards to celebrate Forsyth County's centennial.

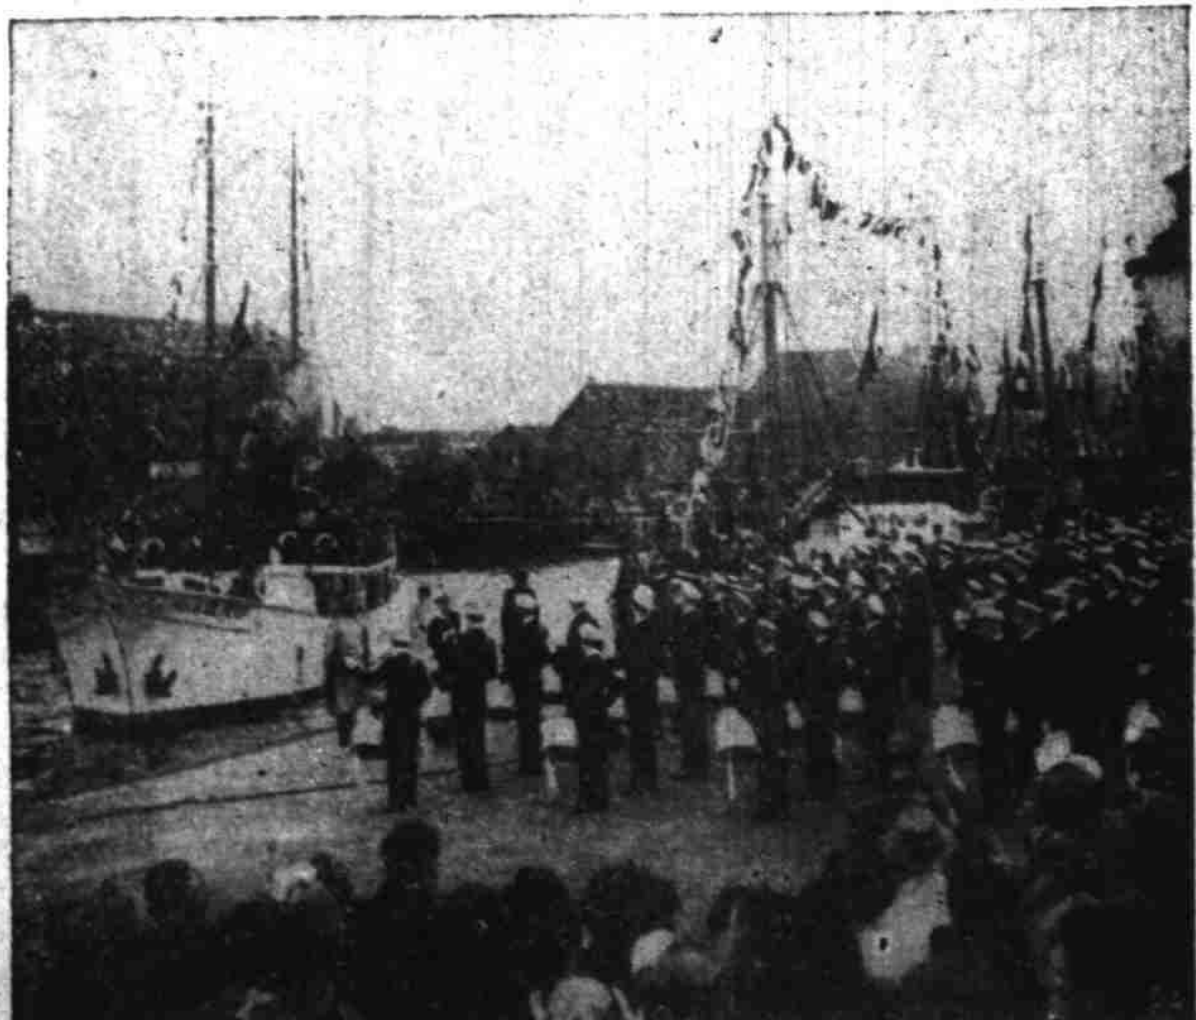

'DOWN' MARKER—Lee Grossman, of Los Angeles, demonstrates his new sideline "down" marker for football games. The number can be seen by players, officials and fans.

CHAMPION ARCHER—Ann Marston, 10, British junior champion, carries her arrows on a New York pier after arriving on the liner Washington to join her father in Detroit.

BEACH PATROL—Puerto Rican motorcycle police hit a bit of smooth Luquillo Beach during annual maneuvers which include crossing rivers, mountain climbing and precision riding.

NETHERLANDS FLAG DAY—Ships leave for the marine review at Vlaardingen, near Rotterdam, on Flag Day, the Sunday preceding the departure of the Dutch herring fleet for sea.

DENTIST-GUNMAKER—Dr. Elmer McKee, Huntington Park, Cal., dentist, shows guns built to fire .33 cal. blanks.

RESUMED AFTER 23 YEARS—Abandoned in 1924 when a hurricane caused defaults on pledges, work has started again on the University of Miami's main classroom building.

Harry Scherting Keeps Bat Lead

Harry Scherting, Vernon outfielder, continues to set a torrid pace for Longhorn baseball league batters with a mark of .458 in games through Tuesday, May 31.

Scherting is 18 percentage points ahead of Alex Monchak, Odessa, who is in second place.

Julio Ramos, Big Spring, boasts the best pitching record with eight wins and no reversals and has struck out 66 men, tops for circuit pitchers.

PLEBE FLASH—Bob Zastrow (above), a star back for the US Naval Academy freshman football team last fall, is due to fit into the Middles' varsity plans next fall. Zastrow weighs 205 pounds.

Nimbus Wins Epsom Derby For \$56,680 In Prizes

French Horse Is Runnerup

EPSON England, June 4. (AP)—Nimbus won the 170th running of the Epsom Derby today in a photo finish with two other horses.

The French invader, Amour Drake, was second while Swallow Tail was third in the mile and one-half classic.

Nimbus, owned by Mrs. M. Glen-lister and ridden by Charlie Elliott, thus took down a record first money of \$56,680.

It was another bitter disappointment for Gordon Richards, champion British jockey who never has won the coveted Derby.

He was aboard the favored Royal Forest in a field reduced by a late scratch to 32 three-year-olds.

Amour Drake, owned by Leon Volterra and Swallow Tail, owned by Lord Derby, almost caught the flying Nimbus after he had led

most of the way.

Nimbus closed at 7 to 1 in the betting. Amour Drake was 10 to 1 and Swallow Tail, whose mud running ability was doubted, was 100 to 8.

Nimbus also won the one mile 2,000 guineas in April—the first of the three British classics for three-year-old colts. The bay colt is by

Horses To Run Again At Local Track Starting At 2:30 O'Clock Sunday

Quarterhorse racing will be resumed here next Sunday, starting at 2:30 p. m., it has been

announced by Sheriff Posse's officials. The local track, which is located near the airport west of town, has been idle since the Big Spring Futurity was run in April.

Many of the animals which are now running at a Lubbock track will be transferred here the coming week for the first program.

Fems' Tournament To Begin Monday

CORPUS CHRISTI, June 4. (AP)—Many of the state's outstanding women's golfers were arriving here today for the sixteenth annual Texas Women's Public Links Golf Association Tournament opening tomorrow.

Qualification rounds will be played Monday, although the tournament will be opened tomorrow afternoon with Scotch foursome matches.

The field this year will be wide-open inasmuch as the defending champion Miss Betsy Rawls of Austin will not participate.

Favorites in the tournament will be Mrs. H. W. Tyson of Houston, state money runner-up to Miss Rawls last year, and Mrs. M. W. Morgan of Baytown state champion in 1947.

Forsan To Get Suits Monday

FORSAN, June 4.—Playing suits will be issued Monday to members of the Forsan American Legion Junior baseball team, which is staging workouts two or three times a week on the Oiler diamond.

Lewis Heuvel and Carlton King are managing the business affairs of the club while Heuvel will run the team afield.

Games with Big Spring and Coahoma will probably be lined up in the near future.

Local Riders In Gypsy Tour

Several members of the Big Spring Motorcycle club were in Fort Worth Saturday for the state gypsy tour.

Cell Thixton left Friday to attend a regional meeting of Harley-Davidson dealers and was due to meet with upwards of a score other riders from here.

The agenda called for a massive parade from downtown Fort Worth to Arlington Downs, where races were to be staged. Casual riders had their inning Saturday and the novices, amateurs and experts were to have their round this afternoon over the 1 1/8-mile track. There probably will be no local riders contesting.

Last Sunday Garner Thixton placed second in the 45 open class at the San Angelo hill climb. He made the 380-foot slope in 13.6 seconds, only .3 of a second off the pace for that class. Twenty members attended from Big Spring.

Pollet Leads Cards Over Boston, 2-1

BOSTON, June 4. (AP)—Lefty Hawke Pollet choked off a threatening ninth-inning rally to hurl the St. Louis Cardinals to a 2-1 victory over the top place Boston Braves Saturday night before a 38,315 crowd largest of the Boston National League season. The Cards scored both of their runs by banging Johnny Sain for four consecutive singles in the first inning.

Seminick Homers As Phils Win

PHILADELPHIA, June 4. (AP)—Andy Seminick's eighth home run of the season off Bob Rush in the seventh inning gave the Philadelphia Phillies a 1-0 victory over the Chicago Cubs Saturday. Ken Heintzelman blanked the Cubs with six hits for his fifth win of the season against three defeats.

Kimbrough Signs

LOS ANGELES, June 4. (AP)—Jarvin' John Kimbrough, of Texas A&M All-America fame, will be back playing this fall with the Los Angeles Dons of the All-America Football Conference.

Coach Jimmy Phelan disclosed today that the veteran fullback had signed his 1949 contract.

Swim Classes To Be Resumed

YMCA-Red Cross swimming lessons for beginners will be offered at the Munny pool again this summer, it has been announced.

Registration for the classes will begin at 9 a. m. Wednesday at the pool.

Teachers will be Bobo Hardy and Olen Puckett, both of whom were connected with the program in 1948.

Church Softball League Planned

Directors of church softball teams will gather at the YMCA office with Y Secretary Lee Milling at 8 p. m. for the purpose of organizing a church league.

Milling said any number of teams could be accepted in the league. The city park diamond would be utilized for league play, probably at least twice a week.

Public Links Meet To Begin June 23

GALVESTON, June 4. (AP)—Approximately 130 golfers from throughout Texas are expected to converge on Galveston this month to compete in the 22nd annual state championship tournament of the Texas Public Links Golf Association.

The meet, one of 36 holding sectional qualifying rounds for the National Public Links Championship, will be held on the 6,000 yard, par 72 Municipal Course here June 23 through June 26.

Ray Seymour of Galveston, president of the Texas Public Links Association, announced Friday that players entering the state meet only must register before 1 p. m. June 23. Those planning to play in the 36 hold sectional qualifying round must register before 9 a. m. June 3.

Big Seven Trackmen Clip S'West Champs

Giants Subdue Cincy, 9 To 3

NEW YORK, June 4. (AP)—The New York Giants smashed four home runs Saturday, three of them in succession in the sixth inning, to crush the Cincinnati Reds, 9-3. Whitey Lockman, Sid Gordon, and Willard Marshall homered consecutively. Winning pitcher Clint Hartung featured a five run, eighth inning rally with a three run circuit ball.

LaMotta Nearing Top Condition

DETROIT, June 4. (AP)—Jake LaMotta, only two pounds overweight and described by a boxing commission doctor as "fit as a fiddle," arrived here today to start training for his middleweight title fight June 15 with Champion Marcel Cerdan.

Locals Score Second Win

The Big Spring American Legion Junior baseball team won their second straight game from Coahoma in a game played on the Cosden diamond Friday afternoon. Final tally was 10-4.

Conn Isaacs' team agreed to permit Howard Jones, a local prep star, to hurl the first few innings for Coahoma and Jones held the Big Springers in tow. However, once he was out of there, the locals made use of virtually every boy he had in uniform.

Floyd Martin, who started on the hill for Big Spring, received credit for the win.

Missourian Sets A New Standard For Mile Event

KANSAS CITY, Kas., June 4. (AP)—Scoring heavily all the way, the Big Seven conference clinched its first dual of track and field championships over the Southwest conference tonight after 13 events.

The Big Seven was leading 72-45. Sparkling record runs by 14 sophomores gave the Big Seven an early edge.

Pat Bowers of Kansas, the Big Seven indoor and outdoor 880-yard titlist, lowered the half-mile standard for the meet to 1:51.1. The old record of 1:55.5 was set by Nebraska's Harold Kopl in 1947.

Sophomore Bill McGuire of Missouri ran a 4:13.8 mile, a new meet record, to give the Big Seven an early lead.

It was the third annual meeting of track and field champions from the two conferences.

The former mile record of 4:18.3 was set by Jerry Thompson, the Texas mile, two years ago. McGuire led another Big Seven boy, Hal Hinchey of Kansas, to the tape by about 10 yards. Julian Herring of Texas A. and M. got third place for the Southwest.

McGuire made the first quarter in 61 seconds, the half-mile in 3:12. It was the fastest mile ever run by the slum Missourian, who holds the Big Seven indoor mile record of 4:17.2.

J. D. Hampton, Texas A. and M.'s Southwest champion mile and two-miler, passed up the mile run in favor of the longer distance.

Donnie Can't Play Harmonica

VERNON, June 4. (AP)—Donnie Woodard came out of a coma late Saturday—too weak to blow the harmonica he's been wanting.

The 10-year-old farm boy was burned on 70 per cent of his body by flaming gasoline.

His physician said the boy had definitely lost ground since Friday. He was burned May 10 when an older brother accidentally flung a bucket of burning gasoline on him while the two were setting fire to weeds.

Donnie sank into a coma early Saturday and failed to respond to a blood transfusion. He rallied briefly Saturday morning to whisper to his father that he felt "fine, thank you." Then he dropped back into the coma.

Steeds Charge From Behind To Win, 12-5

Coming from behind with a six-run outburst in the fourth, the Big Spring Broncs defeated the Sweetwater Swatters, 12-5, in comparative privacy here Friday night. Only a few fans turned out to watch the proceedings.

The triumph enabled the Steeds to sweep the three-game set from the Nolan county gang and retain their three lengths' lead over second-place Vernon.

It looked as dark as a thunderhead for the Steeds for awhile. The Big Spring infielders were afflicted with a nacute case of butterflies, performing so badly

afraid that newcomer Bert Garcia had to leave the hill after the fourth. Garcia pitched well enough but the guests got to him for four tallies before he could turn around.

An error by Third Sacker Lazarus Coto, a tardy throw to second by Garcia himself, a double by Bill Peeler, a one-baser by Dick Gyselman and another misplay by Coto, who couldn't seem to zero his sights on first base, gave the visitors their four tallies.

The Broncs went to work, once they came to bat, however. Ray Vasquez banged out his first of two hits during the inning. Spud Pascual came in to hit for Coto and he did just that, singling into left center.

The Sweetwater defense came unbuttoned and the Steeds took every break to chase six runs home in a round in which Ace Mendez singled, Eddie Ramirez was hit by a pitched ball, Stasey walked with the sacks jammed and Vasquez hit again.

It was about as bad as the fifth when Bert Hernandez hit a two-run roundtripper and Stasey doubled home two tallies.

Despite the punishment, Dick Mordido of the guests stuck it out all the way and accepted his third loss of the campaign. Pablo Molina, who succeeded Garcia on the rubber for Big Spring, was the winner and rightly deserved it. He gave up only one run and that was unearned.

RAMBLINGS—Dave Steger, one of Sweetwater's better hitters, continued in his batting slump. He failed to connect for the third game in a row here, during which time he went to bat 11 official times.

On the other hand, Stasey continued torrid with the mace. He crashed out three-for-four, which ran his 'take' to 11 safeties in 16 trips. Mendez used his blinding speed to get a single in the fourth, the blow dribbling down to Louie Angella at third. Felix Gomez executed a perfect bunt in the fifth, the ball rolling to the pitcher's left. He then proceeded to steal second. Eddie Ramirez had a bad night. He was hit by a pitched ball in the fourth, and that after he had been struck in the throat by a ball thrown across the infield earlier in the round.

Forsan-Knott Game Set Back

The Forsan-Knott Tri-County baseball league game, scheduled to be played this afternoon in Knott, has been set back due to a death in the family of a Continental Oil company employee.

League rules state that the contest must be played within two weeks. Jack Lamb, business manager of the Oilers, said that the game would probably be unreeled sometime after June 12 due to the fact that the Oilers are already committed to play an exhibition bout with Kermit Friday of this week.

Allen Batte may be assigned for Forsan to pitch in that game, if he continues to show improvement.

Hawks. Ackerly In 3:30 Tilt

Howard County Junior college's Jayhawks go to Ackerly today where they play the Ackerly Eagles in a Tri-County baseball league feature.

The Hawks are currently nestling in second place in the standings and have a chance to move within a game of the front-running Forsan Oilers, who will be idle.

A. J. Cain or Howard Jones may pitch for the collegians and George Porter is ready to work for Ackerly.

The Hawks will probably play a makeup game with Coahoma sometime the coming week.

Bengals Blast Red Sox, 10-9

DETROIT, June 4. (AP)—The never-say-die Detroit Tigers spotted the Boston Red Sox a six-run lead and beat them 10 to 9 in a hectic game Saturday.

The Tigers were guilty of six errors and some sloppy base running in the early innings, but were given a helping hand by Red Sox pitchers who yielded 10 walks in the last three innings.

Derby Champ Gains Peter Pan Victory

Ponder First; Capot Seventh

NEW YORK, June 4. (AP)—Ponder returned to his Kentucky Derby form today and rambled home in a furious stretch drive to capture the \$18,450 Peter Pan handicap.

Trailing in a dusty eighth place in the early part of the mile and one eighth gallop at Belmont Park, Ponder got up steam in the stretch run and ripped under the wire a three-fourths of a length winner over Colonel Mike, owned by Eugene

Jacobs, was six lengths better than Clifford Mooers' Old Rockport at the finish. King Ranch's Curandero was fourth in the field of nine classy three-year-olds.

The winner, a dark bay son of Pensive-Miss Rushin got a brilliant ride by Jockey Steve Brooks. They were clocked at a good 1:49 2-5 given a lightning fast track. Ponder, off at 5-2, made his backers happy with a \$7.11, \$4.90, \$4.20 return in the mutuels.

In order behind the first four were Brandywine Stable's Cochise, Walter M. Jefford's Pibroch, Capot, Fred Hooper's Ocean Drive, and George D. Widener's Revellie.

Cleveland Loses To Philadelphia

CLEVELAND, June 4. (AP)—Philadelphia's Athletics snapped a five-game losing streak and returned to fifth place in the American League Saturday by defeating Gene Bearden and the Cleveland Indians, 10 to 3.

Dick Fowler, pitching his first complete game of the season, held the Tribe to eight hits.

Worth its Price in Peace of Mind!

SOON AFTER you take possession of a 1949 Cadillac, you will find that it has brought you something almost priceless which only ownership of the car can reveal. You will find that each time you start the motor, and roll out into the street or highway, you have the wonderful conviction that you are wholly the master of every driving situation. You will know—from experience—that the powerful, eager engine will put you any place in the traffic line you wish to occupy... almost as quickly as you reach the decision. You will know that the big, velvet-soft hydraulic brakes can settle you down to a stop or a snail's pace

—under the slightest pressure from the daintiest foot. You will know that you are as nearly free from mechanical failure as it's possible to be. And you will know that you and your passengers are riding in all the safety a motor car can afford. Sitting there at the wheel—with the motor running so quietly you can hear the soft ticking of the electric clock—and with the miles sliding by so easily that each one is a special delight—we think you'll agree that a Cadillac is worth its price in peace of mind! Why not move up to Cadillac when you purchase your next car—and enjoy this great mental satisfaction which only the "Standard of the World" can bring you?

STERLING WILDCAT

Borden Well To Final Upper Pay

Sinclair-Prairie No. 1 Sterling Williams, northwest Borden deep wildcat, recovered 6,300 feet of salt water on a three-hour drillstem test Saturday.
 The section was from 10,000-035 feet and gas was to surface in 55 minutes. Volume was not gauged or estimated. Recovery was 1,100 feet water blanket and 6,300 feet salt water. Oil shows were slight. Drilling was to be halted and the well completed from pays between 9,820-10,000, which for several hundred barrels of oil per day.

Lines of the southwest quarter of section 28-32-3n, T&P, was bottomed at 7,812 feet to run casing. Seaboard No. 1 Long, 660 feet from the north and west lines of section 33-32-3n, T&P, waited on casing.
 In southwestern Borden county, Seaboard No. 2 Good, 660.5 feet from the south and 660 feet from the west lines of the southwest quarter of section 37-33-4n, T&P, was at 7,189 feet in lime. No. 3 Good, 665 feet from the east and 661.3 feet from the south lines of the northwest quarter of the section was at the same depth in lime.

Seaboard No. 1 Clayton & Johnson, which previously had lower Permian shows, was at 7,384 feet in lime and shale. It is 660 feet from the south and west lines of section 37-31-6n, T&P, six miles northwest of Gail.
 Seaboard No. 2-D Shafer, C NW NW section 38-34-5n, T&P, southeastern Dawson, was being completed as a Sprayberry producer.

Fourteen States Cut Oil Output
 By the Associated Press
 Fourteen states last week were producing less crude oil than a year ago while nine were making more oil, revealed a comparison of the weekly reports of the American Petroleum Institute.
 Louisiana showed the greatest gain, having increased its production by 36,450 barrels daily. Texas had the greatest decrease, producing on a daily average 534,750 barrels less than in 1948.
 Other states showing increases over 1948 were Colorado, 15,300 barrels daily, Mississippi 19,450, Kansas 17,950, California 15,450, Michigan 4,350, New York-Pennsylvania 2,300, Arkansas 1,900, Kentucky 1,350, Alabama 1,150, Ohio 600, West Virginia 350, Nebraska 200, Virginia 150.

Joining Texas in the decline column were Wyoming, down 21,150 barrels daily, Mississippi 19,450, Kansas 17,950, California 15,450, Michigan 4,350, New York-Pennsylvania 2,300, Arkansas 1,900, Kentucky 1,350, Alabama 1,150, Ohio 600, West Virginia 350, Nebraska 200, Virginia 150.

Seaboard, et al No. 2 Hodnett, 1,958.2 feet from the east and 660 feet from the south lines of the lease in section 29-32-3n, T&P, flowed 165.15 barrels of oil in 24 hours. There was an additional 10 per cent water. Flow was through a 12-64th inch choke with gas-oil ratio of 393-1. Gravity was 45.1; top of pay was picked at 7,891 and bottom of hole at 7,906.
 Also in the Vealmoor pool, Seaboard No. 5 Zant, 662.8 from the north and 660 feet from the east

CARD OF THANKS
 I wish to tender most grateful thanks to the many friends of the late Mrs. Rose Lee Carder of Oklahoma City, Okla., particularly those of Big Spring, Oklahoma, who attended her funeral and for the beautiful floral offerings.
 Her brother, W. O. Wason.
CARD OF THANKS
 We wish to extend our heartfelt thanks to each and every friend for their great kindness in our time of sorrow, and for the beautiful floral offerings.
 Our most sincere thanks to the Fire and Police Departments of Big Spring, Colorado City and Sweetwater. Also our appreciation to the ones who conducted the services, Mrs. Mildred Colvin and Son Mr. and Mrs. J. H. Powell and Family Mr. and Mrs. W. C. Reynolds and Family Mr. and Mrs. H. C. Powell Mr. and Mrs. G. C. Flowers Mr. and Mrs. R. D. Hale.

Standard Spots Pennsylvanian Test In Scurry

Standard Oil Company of Texas is starting immediately on a venture into the Strawn lime of Pennsylvanian in the North Snyder field of North-Central Scurry county, where present production is from the Canyon-Pennsylvanian.
 It will be Stanolox No. 4-3 Jessie Brown, staked 1,960 feet from north and 330 feet from east lines of section 441, block 97, H&TC survey, about 10 miles north of the town of Snyder.
 The Strawn is expected to come in above 7,500 feet. Drilling will be with rotary tools.
 Only Strawn production in the immediate area is at J. L. Collins No. 1 Parks, recently completed as a discovery from that formation in the region just east of the pool. C. L. Nasworthy, Jr., No. 1 E. G. Williamson, Northwest Scurry county wildcat, eight miles northwest of Snyder, and 660 feet from north and west lines of section 256, block 97, H&TC survey, failed to develop any signs of oil, gas or water in a drillstem test in the Canyon lime at 6,965-80 feet.
 The tool was open one hour. Recovery was 15 feet of drilling mud, with no indications of oil, gas or water.
 The project then cored to 7,000 feet, and was due to be taking another drillstem test at the time this report was prepared.
 Three completions were noted in Southwest Scurry county.
 Lion No. 8 C. T. McLaughlin, section 19-97, H&TC, rated 384 barrels daily flowing from 6,580-6,731 feet. Flow was through quarter inch choke in 24 hours. The section was from 6,750-7,775. Pearson, Seibert No. 1-A R. A. Bishop, three miles south of Lion pay in the Diamond M. pool, flowed 745.96 barrels in 24 hours from 6,624-6,684. It is in section 16-97, H&TC.

Drilling is to be started soon on a wildcat to explore into the Ellenburger in Central-North Fisher county, about ten miles northeast of Rotan.
 The project will be Roesser-Pendleton, Inc., of Fort Worth, No. 1 Landy Jameson. It is to be at the center of the northeast quarter of the northeast quarter of section 109, block 1, H&TC survey.

Peso Holds Own
 MEXICO CITY, June 4 (AP)—The peso retained its strength and steadiness for the second day. Banks bought dollars at 8.20 and sold them at 8.25. At the market's close the rate was 8.22-8.25.

SURVEY LEASE Shooting Option For Big Spread

MIDLAND, June 4—Anderson-Prichard Oil corporation has acquired a six-month seismograph "shooting" option on a spread of approximately 120,000 acres located in Andrews, Martin, Midland and Ector counties.
 The spread covers all of the unleased acreage in the large block of land owned by Midland Farms in that region.
 The option was effective on June 1 and work of running the subsurface survey has already begun.
 Under terms of the contract for the "shooting" option, Anderson-Prichard has the right to select the equivalent of 50 sections out of the 120,000 acres, and take commercial oil and gas leases on those tracts, after the shooting is finished.
 No cash was involved in the option, according to unofficial sources and no information is available as to what the concern is due to pay for any leases it may take after the south edge of the Benedict pool in East-Central Upton county. The project was making hole from the survey is completed.

A drillstem test was scheduled in lower Permian lime and sand at Republic Natural Gas company No. 1 V. J. Powell, staked 10,500-foot wildcat in North - Central Upton county, about 25 miles north and a little west of Rankin.
 The exploration was bottomed on 8,628 feet. Operator was coming out of the hole for the test on last report.

Nolan Ellenburger Test Logs Shows
 Sun Oil company No. 1 Cook, southwest Nolan county prospector to 7,200 feet to explore into the Ellenburger logged some slight signs of oil and gas in cores at 6,292-6,307 feet.
 A core at 6,292-6,305 feet had a recovery of three feet of black shale with streaks of gray to tan sand, which had some dead oil status and some bleeding gas; one foot of shale with no shows; one foot of shale, with sand streaks and more signs of dead oil and bleeding gas; three feet of shale with no shows, and three feet of shale with another slight oil sign, and finally two feet of shale with two shows.
 The zone at 6,305.07 feet did not report any petroleum indication. Operator is now preparing to cut a core from 6,307 feet.
 The section being penetrated is likely in the Pennsylvanian.

Runnels Wildcat Has Free Oil
 Free oil and gas in the Strawn lime of the Pennsylvanian showed discovery possibilities for Humble Oil & Refining company No. 1 Odom, extreme Northwest Runnels county wildcat, six miles southeast of Blackwell and 785 feet from northeast, 660 feet from southeast lines of Felix Sosa survey.
 The show was on a two-hour drillstem test at 5,241-60 feet. Gas reached the surface in five minutes and was at the estimated rate of 80,000 cubic feet per day. Recovery was 450 feet pipe line oil and 38 feet of drilling mud cut oil. Corrected gravity of the petroleum was 42.3 degrees.
 The prospector has drilled ahead to 5,280 feet in lime and sand. Another drillstem test was in preparation.

ATTORNEYS HELPLESS

GOP Sees Demo Aid In T-H Fight

WASHINGTON June 4. (U-P)—Senate Republicans battling to keep a big part of the Taft-Hartley law contended Saturday that a Democratic compromise drive plays into their hands.

But Senator Douglas (D-Ill.), a leader of the move to revise the Truman labor bill, said.

"I think we've got a very good chance to put our program across. Senate debate on the administration bill is to start Monday. It would repeal the Taft-Hartley act and replace it with a slightly modified version of the old Wagner act."

Three Republicans, Senators Taft (Ohio), Donnell (Mo.) and Smith (N.J.), are sponsoring a substitute measure which would retain the basic provision of the T-H law.

Both their substitute and the administration bill amendments backed by Douglas and a group of other senators—including both Democrats and Republicans—provide for presidential seizure of struck plants in national emergency disputes.

That proposal came under bitter attack by the National Coal Association. John D. Battle, the association's executive vice president, said "seizure does not solve labor disputes; it only leads to more seizure and ultimately to nationalization and state-ism."

Five proposed amendments to the administration bill were outlined to an all-day meeting of Democratic senators Friday. Backers of the amendments claim they attracted some support which they said the administration bill otherwise would not get.

Original sponsors of the five amendments are Douglas, Senator Hill (D-Ala.), and Senators Aiken (R-Vt.) and Morse (R-Ore.).

Douglas said Saturday that Senators Withers (D-Ky.), Humphrey (D-Minn.) and Tobey (R-N.H.) had agreed to join in sponsoring the amendments.

In addition to seizure of struck plants for up to 90 days, the amendments provide:

A free speech guarantee to both employers and workers; union financial reports; collective bargaining in good faith on the part of both unions and employers; and for oaths by both union officers and

employers that they are not Communists, Fascists, or members of totalitarian organizations.

Taft, it is known, regards the compromise as less of a vote-getter than the one defeated in the House a month ago, despite the fact it had the backing of Speaker Rayburn (D-Tex.).

The Taft substitute would keep 22 of what he calls "the best features" of the Taft-Hartley law. The proposed amendments to the administration bill would retain only four of the 22 provisions in Taft's list.

Texas City \$200 Million Blast Suit Recessed

GALVESTON June 4. (U-P)—Testimony in the \$200 million Texas City disaster suit will resume next Wednesday in federal court here.

Judge T. M. Kennerly recessed the trial after Friday's testimony. One witness said a book listing the cargo of the S. S. Grandcamp disappeared after the disaster.

It was the Grandcamp, a French ship which caught fire, exploded and touched off a series of other fires and explosions at Texas City April 16 and 17, 1947. More than 500 persons were dead or missing after the tragedy.

Survivors are suing the government.

The witness, Mucio Ramos, was a warehouse checker at Texas City. Ramos said he and his brother used the book. It disappeared, he said from the U. S. Marine Hospital where his brother was being treated.

W. W. (Swede) Sandberg, president of the Texas City Terminal Railway, testified that considerable trouble was met in handling bags of explosive ammonium nitrate fertilizer which were loaded from the Texas City docks.

He testified later that attempts to drag the burning S. S. High Flyer into open water failed because "the ship was apparently stuck on something."

Judge Kennerly said he intends to keep the trial here through June 17.

Boys Club World Championship Rodeo Set At Lubbock This Week

LUBBOCK, June 4.—The American Business Club of Lubbock is readying Jones Stadium, on the Texas Tech campus, for the June 8, 9, 10, and 11 presentation of the exciting Boys Club world championship rodeo, with five big acts and \$4000, plus entrance fees, in prize money. It is a crowd-thrilling spectacle that has played to capacity audiences all over America, including Madison Square Garden and two previous appearances in Lubbock under the auspices of the Lubbock ABC's.

Again this year, receipts from the four-day showing of the ABC Boys Club rodeo will be placed in the capital fund of the Lubbock Boys Club. Concession earnings of the Lubbock Lions Club will also go to this fund. The entire show is sponsored to aid the boy-building projects of the Lubbock Boys Club.

A colorful parade of horsemen and ladies, horses, and vehicles of the old West will wind its way down Lubbock's principal thoroughfares on the afternoon of June 8, at 5 o'clock, to launch the big rodeo activities.

The rodeo features five special acts. Among them are: two separate performances of spectacular horsemanship by the skilled Hendricks family; the comedy team of Beeswax—the taxi mule—and the Moore family; an 18 horse quadrille; and four lovely trick riders.

For ropers, bulldoggers, and riders, the World Championship Rodeo offers \$4000 in prizes, entry fees added. Saddle bronc riding, bareback bronc riding, calf rop-

ing, steer wrestling, and bull riding are among the prize contests. The meanest and fastest stock from Everett Colburn's Lightning C Ranch in Dublin, Texas, will provide entrants with first-class opposition.

Swartz's

Lawman Tries To Commit Suicide

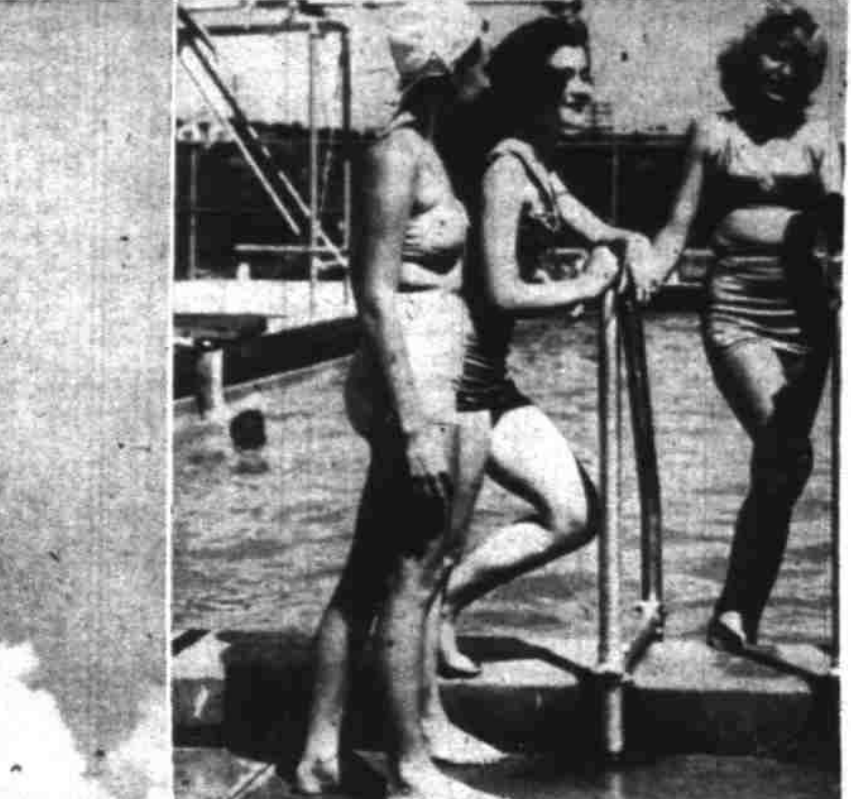

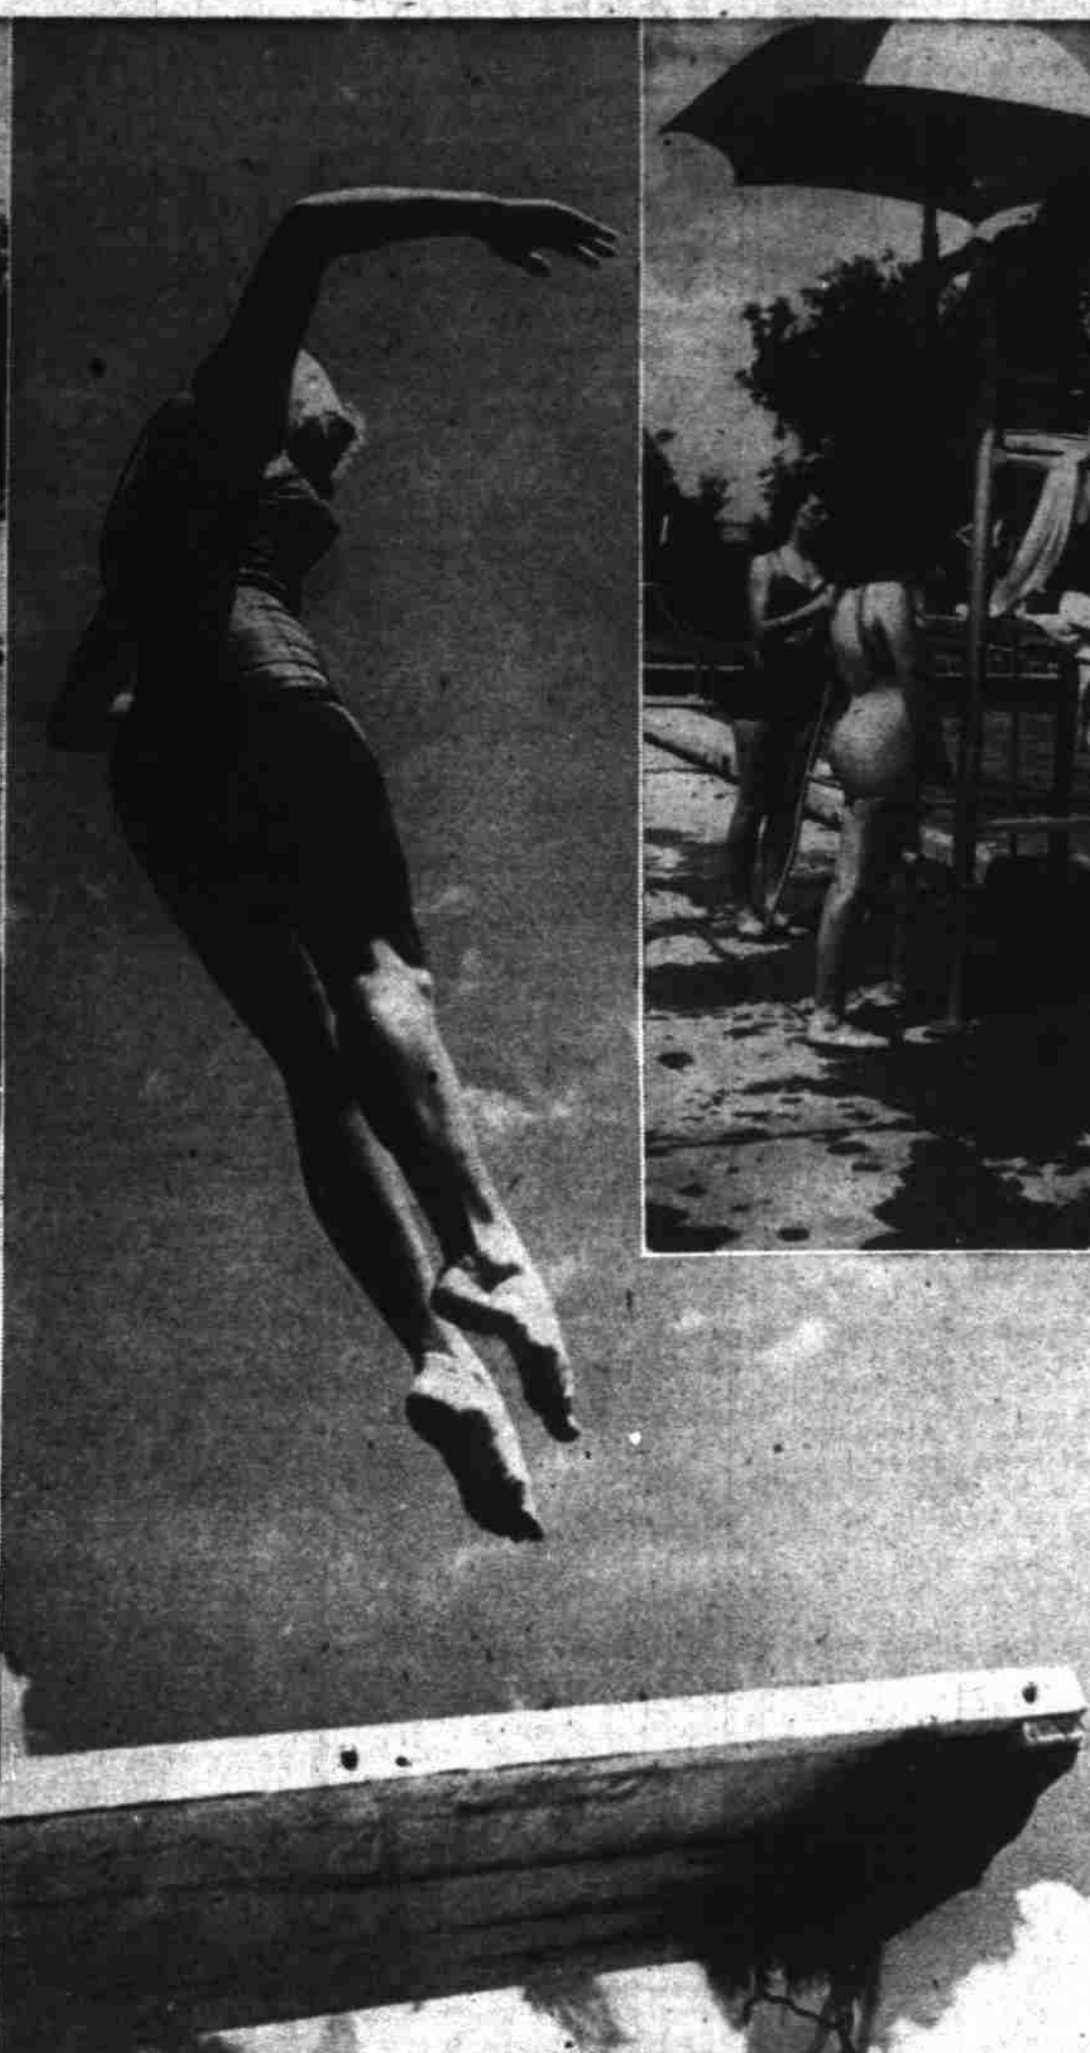

HOUSTON, June 4. (U-P)—A deputy sheriff who had been in ill health and despondent for several months, attempted to hang himself in the county jail shortly after 3 p.m. today, according to Night Captain J. D. Walters. He was dead on arrival at Jefferson Davis Hospital.

Deputy H. C. Spencer, 59, Baytown, was discovered and taken down before he died, however, Capt. Walters said. The Harris County Emergency Corps administered oxygen for about 30 minutes, he continued, bringing Deputy Spencer's pulse up strongly.

He was taken to the hospital, where he was pronounced dead. Capt. Walters said Deputy Spencer had suffered two heart attacks and had been on sick leave for about three months as a result.

Justice of the Peace W. C. Ragan returned a verdict of death from a heart attack. He said Spencer did not die of suffocation, although the heart attack probably was brought on by the hanging attempt.

Montreal's Canadians spent more time in the penalty box—782 minutes—than the members of any other National Hockey League team in 1948.

Rainbow Installation Held On Friday Night

Joyce Howard was installed as worthy advisor when the local Order of Rainbow for Girls held public installation services in the First Methodist Church Friday night with Vevagene Apple, outgoing worthy advisor in charge. New officers entered the room through an archway of greenery. Rainbow-colored letters formed the word, "Friendship," on another archway placed at the East Arrangements of pastel flowers were also used in the decorations. All installation furniture was covered in white.

Others who received the jewels of office were: Peggy Lamb, worthy associate; Kitty Roberts, charity; Quepha Preston, hope; Joy Williams, faith; Mary Ann Attaway, chaplain; Ann Crocker, drill leader; Patricia Dillon, religion; Jackie Marchant, nature; Mary Ann Collins, immortality; Diana Farquhar, fidelity; Shirley McGinnis, patriotism; Lillian Rowe, service; Marilyn Martin, outer observer; and Mary Frances Norman, musician.

Installing officers were: Vevagene Apple, outgoing worthy advisor; Charlotte Williams, recorder; Jean Stratton, chaplain; Jean Robinson, treasurer; Fern Crabtree, marshal; and Peggy King, musician.

Following the ceremony, Joyce Wood, accompanied by Nell Fra-

sier, sang "Coming Home," and Delores Howard, accompanied by Joyce Howard, sang "The Little Church In Lester Square."

Taking the topic, "Why Belong To Rainbow?" Floyce Brown gave some highlights of what it means to be a Rainbow Girl.

Vivian Peek, mother advisor, who is moving to San Angelo, was presented a gift. Joyce Howard presented the gavel used during the past term of office to Vevagene, who presented Joyce a rainbow Bible.

Gifts were also presented to H. F. Williamson, Mrs. Tracy Roberts, Mrs. J. B. Apple and Mrs. E. C. Howard.

Special guests, including Reba Roberts, past grand representative from New Hampshire to Texas, were introduced.

Refreshments were served from a lace covered table centered with a pastel floral arrangement. Rainbow-colored napkins were inscribed with silver letters which read: "Rainbow Girls, 1949."

Birthday Party Plans Are Made

Plans were made for the annual birthday party to be conducted at the WOW hall Thursday, June 16 at the meeting of the GIA Thursday evening, with Mrs. G. M. Burrow presiding.

Attending were Mrs. G. M. Burrow, Mrs. T. H. Amerson, Mrs. Zack Mullen, Mrs. E. A. Williams, Mrs. S. M. Barbee and Mrs. R. D. Ulrey.

Trainmen Ladies Have Meeting

Seventeen persons attended the meeting of the Trainmen Ladies in the 100F Hall Friday evening. Refreshments were served. Present were Reba Meador, Mary Alice Christensen, Ethel McCanness, Anna Belle Lane, Mary Jenkins, Winnie Ralph, Edna Knowles, Othafaye Nevins, Esther Powell, Mabel Spears, Lorene Tuckness, Sarah Moore, Ruth Pittman, Mildred Moore, Neiva Briden, Beatrice Webb and Edna McCoslin.

Come On In, The Water's Fine.....

SUMMER IS SWIM TIME — A trip to the municipal park swimming pool on most any summer afternoon will find a large crowd of boys and girls as well as older people having fun. Whether the swimmers are experts or only "dog paddlers," they all seem to have an enjoyable time.

UPPER LEFT — Trying to get another coat of that popular suntan are: (left to right) Susan Houser, Jan Masters, Sue Craig, Barbara Greer, Wanda Lou Petty and Marilyn Miller.

LOWER LEFT — Time out for refreshment is always in order. Seated on the "bank" are: (left to right)

Jean Pearce, Kitty Roberts, June Cook, Marletta Staples, Sue Wasson and Lynette Blum.

CENTER — Kitty Roberts gets ready to make a fancy dive from the highest diving board.

UPPER RIGHT — Mr. Popularity, the life guard, better known as Amos Jones, talks things over with Lynette Blum, Marletta Staples, Jane Stripling and Jean Pearce while Sue Wasson takes things easy.

LOWER RIGHT — Barbara Greer, Wanda Lou Petty and Sue Craig (left to right) get ready to test the temperature of the water.

Six New Families Make Big Spring Their New Home

Six new families were welcomed to Big Spring this week by the city hostess, Mrs. Jimmie Mason. Newcomers from Austin are Mr. and Mrs. T. A. Womble, 408 West 5th. Womble is with Western Electric.

Mr. and Mrs. W. T. Robinson, John, 17, and Sue, 15, have moved to 2202 Runnels from Units, N. M. Robinson is a drilling superintendent with the Condor Petroleum Company.

Another out-of-state family is Mr. and Mrs. R. M. Empanger, 510 Bell, who have moved here from South Key, Calif. Empanger is a fitter with Southwestern Engineering Company.

Also here in the interest of the Southwestern Engineering Company are Mr. and Mrs. Forest E. Ellis, Cynthia, 6, and Jewell, 2. They live at 1804 Scurry and are former residents of San Gabriel, Calif. Ellis is a boiler maker for the Southwestern Engineering Company.

Mr. and Mrs. Joe H. Rucker, 600 East 4th, have moved here from Fort Worth. Rucker is the new religious educational director for the East Fourth Baptist Church.

From Englewood, Calif., Mr. and Mrs. O. M. Greer are making their new home at Phillips Auto Courts. Greer is a boiler maker and fitter with the Southwestern Engineering Company.

Betty Lou McGinnis, daughter of Mr. and Mrs. T. B. McGinnis, will return to Fort Worth Monday where she will attend the summer session of Texas Christian University.

Monday To Be Big Day For Baby Contestants

Monday will be a big day for the small fry of Big Spring as redheads, blondes, brunettes, curly tops, pigtails and twins all vie for beauty honors in the Better Baby program sponsored by the Ladies Auxiliary of Big Spring Post 2013, Veterans of Foreign Wars.

The judging will be staged at the Municipal Auditorium. During the beauty judging, tots are to be dressed in simple sunsuits, bathing suits, tight fitting trunks, pinafores or diapers. The babies will be judged by their registration number and not by name. Six official judges whose names will be announced at the time of the judging will score the babies on natural beauty of form, features, charm and personality.

All entrants have undergone a

required physical examination.

The prettiest little girl baby and the most handsome and manly little boy baby will be chosen from the six age classes and awarded loving cups. The beauty winners will compete for the Supreme Beauty titles of Miss and Master Big Spring '49, both of whom will be presented with loving cups.

The final of the program will be staged at the Municipal Auditorium Thursday, June 16 at 7 p. m., where all winning babies will be presented to the public and awarded their prizes. At this affair there will be featured kings and queens, prince and princesses, dukes and duchesses, counts, countesses, lords and ladies-in-waiting who will reign in Babylonian Royal court. All will be dressed in royal robes, jeweled crowns and 18th century costumes. Prizes will include loving cups, trophies and royalty certificates.

Betty Farrar's Dance Studio will entertain the kings and queens and their royal court attendants following the program.

Following a brief wedding trip, Dr. and Mrs. Spanna will leave on a tour to 11 pastors' schools from Kentucky to Maine, Virginia to Georgia.

They plan to be at home at 113 Levee Road in Nashville after July 1.

Karen Montgomery Is Given Party On 8th Birthday

Mrs. Gordon Montgomery entertained Friday afternoon with a party for her daughter, Karen, in observance of her eighth birthday. The affair was held in the city park.

Pink and white was the color scheme. Favors were bubble gum, jaw breakers and balloons.

Refreshments were served to the following: Joan Jackson, Carol Hanson, Wilburn Petree, Judy Anderson, Rene Beth Metcalf, Jacqueline Smith, Elois Stephens, Jimmie Montgomery, Bob Stewart, Jimmie King, Johnny Kennermer, Gary Hanson, Billy Ray Grant, Jarvey Stephens, Glenda Ray, James Raley, Carolyn Sneed, Ronnie King, Cary King, Jimmie Reed, Linda Grant, Gretchen Briden, Jimmie Anderson, Bobbie Hale, Linda Petree, Carolyn Washington, Peggy Isaac, Mrs. Arlis Read, Mrs. Leonard Hanson, Mrs. Albert Davis, Mrs. Leta Metcalf, Mr. and Mrs. L. H. Rutledge, Mrs. M. E. Petree, Mrs. Dora Thorton, Mrs. Jim Kline Mrs. Sherman Smith, Mrs. M. S. Warren, Mrs. Elizabeth Moore.

Plans Made Friday By Golf Association

Betty Mims White of Dallas, Otis Grafe, Sr., Mrs. Clyde Waite, Jr., Mrs. J. W. McCoy, Mrs. J. W. Burrell, Mrs. L. B. Baird, Mrs. Richard Johnson, Mrs. Rafford Liles, Mrs. Jim Neal, Mrs. E. L. Powell, Mrs. Owen Ingram, Mrs. O. O. Craig, Mrs. Marvin House, Sr., Mrs. Poe Woodard, Mrs. C. G. Griffin, Jr., Mrs. W. E. Ramsey, Mrs. Franklin Dillon, Mrs. Tommy Jordan, Mrs. Douglass Orme, Mrs. T. C. Thomas, a guest, Mrs. Shirley Robbins, Mrs. Marvin Miller, Mrs. Frank McCleskey, Mrs. Hayden Griffith, Mrs. R. L. Tollett, Mrs. Olen Puckett and the hostesses.

Hostesses for July are: Mrs. Otis Grafe, Sr., Mrs. G. H. Wood, Mrs. Tommy Hutto and Mrs. Jim Neal.

Those present were: Mrs. Dee Davis, Mrs. H. W. Smith, Mrs. Mrs. Owen Ingram was welcomed as a new association member.

Happy Stitches held a regular session Friday afternoon in the home of Polly Sundry, 604 Scurry. Refreshments were served to Mardena Mathias, Ella Ruth Martin, Viola Sneed and the hostesses.

Happy Stitches Club Meets Friday Afternoon

Happy Stitches held a regular session Friday afternoon in the home of Polly Sundry, 604 Scurry. Refreshments were served to Mardena Mathias, Ella Ruth Martin, Viola Sneed and the hostesses.

An Obligation we're proud to Uphold!

Faith is a precious thing, and we are justly proud of the tremendous confidence our customers place in us... when they ask us to help them choose a diamond. We have an established principle of fair dealings... of sincerity... that transcends all other considerations. It is an obligation to which we pledge ourselves... permanently.

Nathan's JEWELERS

Candlelight Nuptial Vows Are Read In Baptist Church Saturday Night

Candlelight nuptial vows were repeated by Brookie Nell Phillips, daughter of Mr. and Mrs. Earl E. Phillips, and H. Charles Hodges, son of Mr. and Mrs. H. D. Hodges, in the First Baptist church Saturday evening.

The Rev. Elra Phillips of Sylvestor, uncle of the bride, read the solemn, double ring service as the couple pledged their troth before an altar banked with palms and flanked by baskets of picardy gladioli and white stock. Lighted cathedral tapers in graduated candelabra illumined the chapel.

Mrs. H. M. Jarratt, pianist, played a medley of love songs prior to the ceremony. During the candle-lighting service, she played "Trauerli," by Schumann and during the wedding, she played "Libesträum," by Liszt. She played "The Bridal Chorus," from Wagner as the recessional and Mendelssohn's, "Wedding March," as the processional. Wayne Nance sang "The Wedding Prayer," as the benediction, accompanied by Mrs. Jarratt.

Given in marriage by her father, the bride wore a gown of ivory satin, fashioned with a sweetheart neckline and long sleeves tapering to points over the hand. The bouffant skirt was gathered in scallops at the long fitted bodice and ended in a short train which cascaded to the floor. She wore a veil of ivory net and lace falling from a tiara of seed pearls and carried a white Bible topped with an arrangement of pink and white carnations and candy tuft. In carrying out the traditional something old, the bride chose a penny in her shoe belonging to Mrs. Alice Riggs, which is 102 years old; for something new, she wore her wedding ensemble; for something blue, she wore a garter belonging to Mrs. George Riggs and something borrowed was a white Bible, belonging to Ava Jane Hodnett, cousin of the bride.

Mrs. Eldon Hull, sister of the bride, served as flower girl. She wore a floor length dress of white taffeta, with pastel ribbon trim. Hal Wesley Phillips, cousin of the bride, was ring bearer. Candles were lighted prior to the ceremony by Bobby Earl Phillips, brother of the bride, and Danny Swafford, cousin of the bride. J. D. Jenkins, Jr. was best man. Other attendants were Bill Hix of Penwell and Barrie Fletcher, groomsmen. Ushers included Billy Yater and Bobby Gene Hodges, brother of the bridegroom. Mrs. Phillips, mother of the bride, wore a navy sheer dress, with white accessories and a corsage of pink carnations. Mrs. Hodges, mother of the bridegroom, chose a black dress, with black accessories and a red carnation corsage. Immediately following the ceremony, a reception was held in the church parlor. Members of the receiving line included the bride and bridegroom, the bride's parents, Mr. and Mrs. Phillips and the bridegroom's parents, Mr. and Mrs. Hodges. Mrs. Elmo Phillips presided at the guest registrar. The refreshment table was laid with a lace cloth and centered with a tiered wedding cake, topped

MRS. H. CHARLES HODGES

sage of pink carnations. Mrs. Hodges, mother of the bridegroom, chose a black dress, with black accessories and a red carnation corsage.

Immediately following the ceremony, a reception was held in the church parlor. Members of the receiving line included the bride and bridegroom, the bride's parents, Mr. and Mrs. Phillips and the bridegroom's parents, Mr. and Mrs. Hodges.

Mrs. Elmo Phillips presided at the guest registrar. The refreshment table was laid with a lace cloth and centered with a tiered wedding cake, topped

with a miniature bride and bridegroom. A floral arrangement of picardy gladioli and white stock completed the decor. Table appointments were of crystal and silver. Mrs. George Riggs cut the cake and Mrs. Otto Havins and Mrs. Bill Yater attended the punch service.

Out of town guests attending the wedding were Mr. and Mrs. John W. Hood, Albuquerque, N. M.; Mr. and Mrs. T. W. Gressett Hamilton, Colo.; Mr. and Mrs. Travis E. Reed, Lamasa; Mr. and Mrs. Leroy Gressett, Mr. and Mrs. W. A. Swafford and Mr. and Mrs. E. P. Gressett, Westbrook; Mr. and Mrs. George Shelton, Colorado City; Mr. and Mrs. Earl Hull, Coahoma; Mr. and Mrs. Brandon, Lamasa; F. B. Gressett, Westbrook; Mrs. G. T. Warren and Mrs. W. M. Hodnett, Abilene; Mrs. Rosa Phillips, Houston; Mrs. Jane Hudson, Midland; the Rev. and Mrs. Elra Phillips, Sylvestor; Mrs. Jimmie Mitchell, Shepherd; Bill Hix, Penwell and Mrs. Hollis Maddock of San Angelo.

The bride is a 1943 graduate of Big Spring high school and attended college at Howard County Junior college, where she was on the annual staff and runner-up for school favorite; Hardin Simmons University, Abilene and the University of Oklahoma, where she was a charter member of the Ruffettes.

The bridegroom attended Big Spring high school, H.C.J.C. Oklahoma University and Oklahoma A & M. He spent three years overseas with the Naval Forces. For traveling, Mrs. Hodges chose a navy hemburg sheer dress with white trim and black off-the-face hat with a veil and a corsage of pink and white carnations.

Following a wedding trip to Dallas, the couple will be at home in Oklahoma City, where they plan to complete their education at the University of Oklahoma. Mrs. Hodges is a sociology major and Hodges is majoring in geology.

Birthday Party Given In Park

Karon Koger was honored with a party given in the city park on her fifth birthday.

Those present were: Louise Ann Kling, Rachael, Phelan, Deane Mansfield, Susan Zack, Carolyn Thompson, Cleo and Kathleen Thomas, Jane Gdn, Ann Homan, Janell Hughes, Diane Baker, Jimmy Burk, Ken Lawrence, Red Schwarzenbach, Rep Patterson, Robert Phelan, Gary Williams, Mickey Gross, Gerald Farrar, Charles Driver and Bill Bonner.

Stanton Visits Reported Here

STANTON, June 4 (Spl.)—Mrs. J. N. Clark and daughter of Kermit visited relatives here during the week.

Mr. and Mrs. Wendell Centers and family of Plainview and Mr. and Mrs. Cook of Texon visited relatives here Sunday.

Mr. and Mrs. Speedy Moffett and family of San Angelo are guests in the home of their parents. Moffett has accepted a coaching position in Snyder and they will make their home there in the future.

Mr. and Mrs. Rob Miller and Mr. and Mrs. Roy Miller had as their guests Monday, Mr. and Mrs. R. A. Bennett and children, Ellis, Betty and Johnny.

Jerry Hall of Texas Technological college, Lubbock is visiting in the home of his parents, Mr. and Mrs. Morgan Hall.

Van Ross is visiting his parents, Mr. and Mrs. Ernest Ross. Ross is a student at Texas Tech.

Francis Rhodes is visiting her parents, Mr. and Mrs. Finley Rhodes. Miss Rhodes received her degree at Tech this year.

Carl Atchison, son of Mr. and Mrs. John Atchison, Jr. spent the week end in the home of his grandparents. Atchison was a member of the graduating class at the University of Texas this year and has accepted a position in Midland.

Four members of the Stanton school faculty plan to attend summer school. They are: Frances Carter, who will enroll at the University of Texas; Virgil Stephenson, who plans to enter Sul Ross, Alpine; Coach Fields, who will enter ACC at Abilene and Mrs. Pat Orran who will enter college at Commerce.

Bill Estes of Abilene is a guest in the home of Mr. and Mrs. Lidge Winters.

Mr. and Mrs. Charles Peterson of Oregon are guests of her parents, Mr. and Mrs. Forgy Atchison and other relatives.

T-Sgt. and Mrs. Pete Gregg and son of Pensacola, Fla. are guests in the home of Mr. and Mrs. Lewis Gregg. Sgt. Gregg will spend the succeeding two months in school at Wichita Falls and his wife and son will remain here during that time.

Coats Bentley of Lawton, Okla. was a week end guest in the home of his parents.

Jimmy Webb of the University of Texas has returned to school for the summer months, following a few days visit with his parents, Mr. and Mrs. A. D. Webb, 1615 State. Webb is majoring in geology.

BECOMES BRIDE—Pictured is Mrs. G. Ervin, who is the former Miss Mae Young of Stanton, daughter of Mr. and Mrs. J. B. Young of Stanton. The Ervins will make their home in El Paso.

Methodist Class Has Luncheon

First Methodist Susannah Wesley Class members held a luncheon at the church Friday noon.

Those attending were: Mrs. Charles Eberley, Mrs. A. C. Hart, Mrs. E. S. Dorsett, Mrs. W. D. McDonald, Mrs. Abbie Anderson, Mrs. Joe M. Faucett, Mrs. G. E. Fleeman, Mrs. John R. Chaney, Mrs. J. C. Walts, Sr., Mrs. D. H. Flewellen, Lucile Hester, a guest Mrs. C. E. Shives, Mrs. W. A. Underwood, Mrs. Alice Riggs, Mrs. Clyde Thomas, Sr., Mrs. Harwood Keith, Mrs. H. N. Robinson, Mrs. Mary Delbridge, Mrs. A. C. Bass, Mrs. J. A. Meyers, Mrs. H. F. Williamson, Mrs. W. F. Cook, Mrs. R. L. Warren, Mrs. A. E. True, Mrs. J. A. Iden, Mrs. Albie Carleton, a guest, and Mrs. Marion Simms, a guest.

Take Vacation

COAHOMA, June 4 — Mr. and Mrs. Troy Pierce and children returned Friday from a vacation trip to Fort Worth, Dallas, Shreveport, La., Jackson, Hattisburg and Lucedale, Miss., and Mobile, Ala. They returned by way of the southern route through Gulfport and Baton Rouge, La., Orange, Houston and San Antonio. They visited relatives in Lucedale, Miss., Mobile, Ala. and San Antonio.

FISHERMAN'S

GALA OPEN HOUSE—Approximately 500 couples called a week ago during the open house at the McDowell Half-Circle L' ranch in northern Glasscock county. Hosts for the occasion at the historic ranch headquarters were Mrs. L. S. McDowell, Sr. and Mr. and Mrs. Lorin McDowell. Upper left, Mrs. Ova Mae Edwards, left, and Mrs. Cliff Wiley preside at the table, laid with maroon linen cloth, centered by a purple aster floral brand design, with yellow centers to match the yellow candles and copper hurricane lamp appointments. A popular place for visitors was the bunk house where Hardy Morgan, left in the upper right picture, chats with Mrs. M. S.

Lila Winters Of Lenorah, Named Honoree At Shower Held In Stanton

STANTON, June 4. (Spl.)—Lila Winters of Lenorah, daughter of Mr. and Mrs. Lidge Winters, and bride-elect of Bill Estes of Burk Burnett, was named honoree at a bridal shower in the home of Mrs. S. J. Foreman in Lenorah Tuesday afternoon.

Cohostesses for the affair were Mrs. A. C. Fleming, Mrs. P. G. Yates, Mrs. C. D. Willingham, Mrs. Doc Bristow, Mrs. N. G. Harrad, Mrs. Truett Standifer, Lois Standifer, Mrs. George Cathey, Mrs. Denver Springer, Tillie Morrison, Mrs. Jimmy Jordon and Grey Butler and Mrs. Gus

New Mexico Residents Are Honored At Anniversary Dinner At Vealmoor

VEALMOOR, June 4. (Spl.)—An anniversary dinner honoring Mr. and Mrs. J. W. Harris, who have been married 30 years, and Mr. and Mrs. W. B. Owens, Jr., who were wed ten years ago, was held in the home of Mr. and Mrs. H. B. Moore Sunday. Both the honored couples reside in Hobbs, N. M.

Mrs. Jim Green was presented with a cake in celebration of her 89th birthday anniversary. Dinner was served in the backyard.

Forsan Young People Have Social Meeting

FORSAN, June 4.—Members of the Forsan Baptist Young People's Class held a social Thursday night. in crystal candelabra. Favors were composed of a silver bell enshrined with Lila and Bill, June 12th. Betty Bennett and Linda Cathey presided at the refreshment table.

A musical program was presented by Mrs. Jimmy Jordon at the piano, with Tillie Morrison, Lois Standifer, Billy Carlile and Betty Bennett presenting two vocal selections "Again" and "You Was."

The bride-elect was attired in a white waffle pique dress with white accessories and a red carnation corsage. Mrs. Winters, mother of the honoree chose a grey crepe dress and pink gladioli corsage.

Approximately 40 persons attended the affair. Out of town guests included Mrs. M. H. Brewer of Andrews, Mrs. Wesley Cathey, Mrs. Felton Thompson of Lamesa and Pauline Brewer of Houston.

Indiana's state motto is "The Crossroads of America."

Notes From Knott

KNOTT June 4. (Spl.)—Sunday guests of Mr. and Mrs. E. C. Airheart were Mr. and Mrs. Ben Elbott and son of Westbrook, Mr. and Mrs. J. E. Airheart and family of Sparenberg and Mrs. Lula Burchell of Lamesa.

Bobby Airheart and Jerry Adams of Texas Technological college in Lubbock are home for the summer months.

Mr. and Mrs. Fred Adams and Jerry are in New Orleans where they will attend the graduation exercises of their daughter, June, from the Charity Hospital School of Nursing.

Mr. and Mrs. Louis Harrell, Edith, Edna and Glen left Wednesday for a vacation tour through New Mexico, Arizona and California.

Mrs. C. E. Taylor of Westbrook visited her mother, Mrs. Herschel Smith, Tuesday.

Recent guests of Mr. and Mrs. W. N. Irwin were Mr. and Mrs. George Anders of Dallas, Mr. and Mrs. Gene Haston and James Robert and Mr. and Mrs. Marvin Sewell, Jo Ann and Carolyn of Big Spring.

Sunday visitors of Mr. and Mrs. H. R. Caffey and Mrs. J. P. Smith were Mrs. Hegg and daughter and Mr. and Mrs. Sam Coffey of Midland.

Mrs. J. W. Walker and Mrs. J. B. Sample visited Mrs. H. R. Caffey Sunday afternoon.

Superintendent and Mrs. H. E. Barnes and Don left Wednesday for Stephenville where their son, Tom Bill, will join them. From Stephenville, the Barnes family will go to Mexico City to spend the summer.

Mr. and Mrs. J. R. Coker have returned from three years in Austria and are visiting his parents, Mr. and Mrs. P. P. Coker. Other guests in the Coker home are Mr. and Mrs. Bill Darby of Aspermont.

Mr. and Mrs. H. Reeves have as their guests this weekend, Mr. and Mrs. Leamon Reeves of San Francisco, Calif., Mr. and Mrs. J. F. Hudson of Amarillo, Mr. and Mrs. Elton Reeves of Eastland, Don Reeves of A and M College, and Mr. and Mrs. H. B. Reeves of Coleman.

First Methodists Are Hostesses To Garden City Church Federation

GARDEN CITY, June 4. (Spl.)—Member of the Federated Missionary Society were entertained by the Woman's Society of Christian Service of the First Methodist church Monday afternoon in the home of Mrs. Jack Cook, Mrs. Clyde Reynolds presided during the business session and Mrs. J. W. Cox led the invocation. Mrs. J. C. Cunningham served as program chairman and Sandra Wilkerson and Helen Cunningham gave readings. Mrs. D. W. Parker directed the entertaining games.

Sunshine friends were revealed and new names were exchanged. Refreshments were served to Mrs. Clyde Reynolds, Mrs. Allie B. Cook, Mrs. C. G. Parsons, Mrs. A. Wade, Mrs. J. W. Cox, Mrs. J. C. Cunningham, Mrs. Steve Calverley, Mrs. E. M. Teele, Mrs. Jim Ratliff, Mrs. Ruth Cook, Mrs. Clyde Berry, Mrs. George Stripling, Mrs. D. W. Parker, Mrs. J. L. Parker, Mrs. Ila Keithley, Mrs. Vena Lawson, Mrs. Joy Wilkerson, Mrs. Lester Ratliff and Mrs. I. L. Watkins.

Mrs. Dan Houston entertained the members of the Double Deck Bridge club in her home Saturday evening. Marshall Cook and Mrs. Glenn Riley won high score. Glenn Riley won low and Mrs. W. J. Gibson binged. Refreshments were served to Mr. and Mrs. Glenn Riley, Mr. and Mrs. Marshall Cook, Mr. and Mrs. Buster Cox, Mr. and Mrs. A. Cox, Mr. and Mrs. W. J. Gibson and

Mr. and Mrs. O. L. Rich and children spent the week end in Vernon with her parents.

The Rev. A. T. Mason, pastor of the First Methodist church, has been transferred to Sparenberg where he will assume the pastorate there. The Rev. R. L. Bowman of Midland will arrive in Garden City during next week to take up the ministry here.

Mrs. J. L. Parker received word Tuesday that her daughter and son-in-law, Lt. Col. and Mrs. Woodrow W. Ramsey will arrive in the United States during the month of June. They have been stationed at Itazuke Air Base in Japan.

Mr. and Mrs. O. L. Rich and children spent the week end in Vernon with her parents.

Coahoma Study Club Installation Is Held In Home Of Mrs. Turner

COAHOMA, June 4. (Sp.)—Mrs. Sam Armstrong, retiring president, conducted installation services for the incoming officers at the business meeting and tea of the 1949 Study club in the home of Mrs. M. R. Turner Thursday. Those receiving their official status were Mrs. M. R. Turner, president; Mrs. I. H. Severance, vice-president and Mrs. J. Paul Eppler, secretary and treasurer. New committees appointed included Mrs. C. D. Read, Mrs. H. H. Tanner and Mrs. W. W. Long, program committee; Mrs. Lloyd Branson, Mrs. B. A. Thomason and Mrs. Roy Roxburgh, member-

ship; Mrs. Norman Read, parliamentarian; Mrs. J. Paul Eppler, reporter; Mrs. Morris Ledger, personal service; Mrs. Tom Barbee, Mrs. Norman Read and Mrs. I. H. Severance, social committee; Mrs. Sam Armstrong, historian; Mrs. W. W. Long, garden committee; Mrs. H. H. Tanner, international relations chairman and Mrs. C. D. Read, art chairman.

Mrs. Turner, the incoming president, announced the club flower to be the white carnation and the club colors to be green and white during her tenure of office.

Three new members, Mrs. Mark Reeves, Mrs. E. D. Cate and Mrs. Ed Carpenter, were received into the club.

A barbecue will serve as the entertainment for the club members and their families at the next regular session, June 20. Meeting place will be announced later.

Refreshments were served to Mrs. C. D. Read, Mrs. W. W. Long, Mrs. Lloyd Branson, Mrs. B. A. Thomason, Mrs. Norman Read, Mrs. J. Paul Eppler, Mrs. Morris Ledger, Mrs. Tom Barbee, Mrs. I. H. Severance, Mrs. Sam Armstrong, Mrs. Mark Reeves, Mrs. E. D. Cate, two guests, Mrs. E. T. O'Daniel and Mrs. D. S. Phillips and the hostess, Mrs. M. R. Turner.

Employment And City Building Up During Week

Employment figures and city building shared the spotlight on the major business front last week, both contributing substantial gains, based on Texas Employment Commission statistics and construction permit records.

Residential activity dominated the construction picture, with a new project of 14 houses listed by the Big Spring Lumber Co. The new dwellings, which will cost an estimated \$8,000 each, are being constructed in the McEwen Addition. The new activity boosted the year's building total to \$748,040.

The TEC reported that 67 new job orders were received last week, while new work applications totaled 43. The local office made 74 referrals to jobs which resulted in 61 placements, a heavy increase over prior reports. Reception contacts for the week totaled 432, while 323 active applications were on file at the end of the week. The TEC handled 59 claims actions for unemployment compensation during the week.

Real estate activity was light during the past week, with the 1949 warranty deed total remaining virtually unchanged at \$714,888. Passenger automobiles headed the list of new motor vehicle registrations with 35, while three trucks and one motorcycle also were registered at the county tax assessor-collector's office.

Fuglaar Honored At Schreiner Institute

A Big Spring student, Pete Fuglaar, shared in honors distributed at Schreiner Institute, Kerrville following year-end military review and competitions.

Fuglaar, as a cadet 2nd lieutenant, commanded the 2nd platoon of Company B, which was adjudged the best drilled platoon. Two thousands spectators were on the Schreiner parade ground to witness the military show.

Address: PATTERN DEPARTMENT, BIG SPRING HERALD, 121 W. 18th St., New York 11, N. Y.

The University of Illinois and Syracuse, who will play a football series in 1951 and 1952, have met twice before—in 1909 and 1910.

City Appliance Firm Invites Public To Open House Monday

The L. M. Brooks Appliance Co. is inviting the public Monday to inspect its new quarters at 110-112 West Second street, the location formerly occupied by the West-Tex Service store.

The appliance firm has moved to that site from 107 East Second. L. M. Brooks, who operates the firm under his own name, has been in the appliance business for the past four years, and he has been associated with Servel and Magic Chef, products his firm now features. Since 1937, Brooks has lived in Big Spring since 1927.

At the new location the establishment specializes in sales and service for gas ranges and other appliances, with factory-trained servicemen and salesmen. Refreshments will be served during the formal opening event between the hours of 9 a. m. and 10:30 a. m. and from 3 p. m. to 4 p. m.

One Man Injured In Galveston Blast

GALVESTON, June 4. (U.)—One man was seriously injured by an explosion that blew the end out of a brick building and shook up the Galveston waterfront late last night.

The blast set fire to a two-story building, which housed the Banana Supply Company. Firemen were hampered by ammonia fumes, but they brought the fire under control after a two and a half hour fight.

John C. Constantine, 20, night manager of the company, was the injured man. He ran from the building with his clothes blazing and was sent to St. Mary's Hospital.

The explosion collapsed the northwest end of the building. It shattered windows in the Armour Packing Plant across the street. A falling loading platform smashed a parked truck.

CUDDLE TOY DOG

E-358

Design No. E-358 is a cute little dog about 10 inches in length. It is crocheted in an easy-to-do loop stitch. Ideal cuddle toy for baby. Pattern No. E-358 contains complete instructions.

To order: Send 30 cents in coin, with pattern number, to Needlework Bureau, Big Spring Herald, Box 229, Madison Square Station, New York, N. Y. An extra 15c will bring you the Needlework Book which includes free patterns and a wide variety of designs for knitting, crocheting and embroidery.

VOWS ARE READ—Mrs. Gilbert R. Stewart, the former Colleen Davidson, daughter of Mr. and Mrs. Henry A. Davidson, 600 11th Place, was married in the home of Dr. P. D. O'Brien. Stewart is the son of Mr. and Mrs. T. E. Stewart of San Antonio, where the couple will make their home.

Crime Climbs 18 Per Cent In State

AUSTIN, June 4. (U.)—Crime throughout the state climbed 18 per cent during the first three months of this year above the comparable period a year ago, the Texas Department of Public Safety reports.

There were 23,278 crimes committed against lives and property during January, February and March, compared to 19,664 for the period last year, the report said. The biggest upswing in violence was an estimated 67.9 per cent increase in rape. Murder and homicide were up 11.8 per cent.

Big cities showed the lowest percentage increase, 11.2 per cent, while cities of 25,000 to 50,000 population showed the highest increase, 105.1 per cent. Rural areas with populations of less than 35 per square mile showed decreases.

Lolita Ann Barber Becomes Bride Of Richard Sidney Grimes Friday

Lolita Ann Barber, daughter of Mr. and Mrs. V. C. Barber, and Richard Sidney Grimes, son of Mr. and Mrs. George Grimes, were united in marriage in a candle-light ceremony in the East Fourth Baptist church Friday evening.

The Rev. James S. Parks, pastor, officiated at the double ring informal service as the couple stood before an altar banked with greenery and interspersed with arrangements of white gladioli and stock. Baskets of white gladioli flanked the altar and white cathedral tapers burned in upstanding, graduated candelabra.

Prior to the ceremony, Mrs. H. M. Jarratt, pianist played a medley of love songs. As the recessional and processional selections, she chose Lohengrin's "Wedding March," and the "Wedding March," by Mendelssohn respectively. Peggy Lamb sang two special selections, "I Love You Truly," and "Always," accompanied by Mrs. Jarratt. Miss Lamb was attired in a pale blue suit, with white carnation corsage and Mrs. Jarratt chose a two-piece dress of mauve and orchid and white carnation corsage.

Given in marriage by her father, the bride was attired in a white linen two-piece suit, with fitted bodice and back fullness. The skirt was fashioned to fit at the hipline, with soft flaring at the hemline. She wore white accessories and a white picture hat. She carried an orchid and white carnation bouquet atop a white Bible. With white satin streamers cascading toward the floor. For the traditional something old and borrowed, the bride carried the Bible belonging to her cousin, Mrs. Sam Wells; for something new, she wore her wedding ensemble and for something blue she wore a garter.

Mrs. R. N. Bryant, sister of the bride, served as matron of honor. Mrs. Bryant wore a blue linen suit, fashioned as the bride's, a black halo hat and black accessories. She carried white cloth gloves in her hands.

James Findley, cousin of the bride, was best man.

Ushers included John E. Brown, E. N. Bryant, Bob Kiser and Odell Vincent.

Mrs. Barber, the bride's mother, was attired in a pink tailored dress of satin cloth, with navy accessories and a white carnation corsage. Mrs. Grimes, mother of the bridegroom, chose an aqua crepe dress, black accessories and a corsage of white carnations.

A reception was held in the church parlor immediately following the ceremony. Those in the receiving line included the bride and bridegroom, the bride's parents, Mr. and Mrs. Barber; the bridegroom's parents, Mr. and Mrs. Grimes and the matron of honor, Mrs. Bryant.

The refreshment table was laid with a white cut-work cloth over pink with pink satin streamers and Technological college.

MRS. RICHARD SYDNEY GRIMES

Bows cascading toward the floor. The centerpiece was composed of greenery and white gladioli and stock. Crystal and silver appointments completed the table scene. Other floral arrangements were placed at vantage points in the reception room.

Mrs. R. I. Findley, aunt of the bride, attended the punch service and Mrs. Sam Wells, cousin of the bride, cut the tiered wedding cake. Other members of the house party were Mrs. O. B. Warren, Mrs. Nell King and Mrs. Denver Yates.

Visits-Visitors

Mr. and Mrs. Wesley Deats of Lubbock are guests in the home of their parents, Mr. and Mrs. Jack W. Davis, 1211 Lincoln and Dr. and Mrs. C. W. Deats, 400 Virginia. Other weekend guests in these homes will include Mr. and Mrs. B. J. Shelley of Lubbock. Wesley and Mary Deats will return to Lubbock Sunday to attend the summer school term at Texas Technological college.

The bride attended schools in Jacksonville, Fla. and in Big Spring. The bridegroom is a graduate of the local schools and is employed by Cosden Refinery.

Following a short wedding trip to El Paso and Mexico, the couple will make their home at 110 E. 17th.

Big Spring Band Makes Recording

Hoyle Nix and his West Texas Cowboys, Big Spring string band combination that is well known throughout this section, have made their first commercial recording.

Oscar Glickman, owner of the Record Shop, said the first shipment of the new release had arrived at that establishment, and Glickman predicted that the local group's first recording venture would meet with success.

Released by Talent Records of Dallas, the "A" side has the Nix band's arrangement of "I'm All Alone" with vocal by Ben Nix. On the "B" side is "A Big Ball's In Cowtown."

COSDEN CHATTER

Big Spring Herald

Section III SUNDAY, JUNE 5, 1949 Editorial

REDDY KILOWATT—Talking to his little friends is one of the favorite stunts of Reddy Kilowatt who will perform nightly at the Texas Electric Show of '49 at Big Spring High School.

WILL OPEN TUESDAY

'49 Electric Show Trucks Arriving

Vanguard of trucks bringing the Texas Electric Show of '49 to Big Spring had begun to arrive Saturday at Big Spring high school.

By Tuesday afternoon, everything will be in readiness for the opening of the electrical show with its varied entertainment and demonstrations. The high school gymnasium again will be the location for glittering displays of all types of electrical equipment and appliances for the home, arranged by local electrical dealers. A flame-proof tent on the school grounds will be the theater for the two-a-night presentation of "Light Sorcery," a 45-minute stage show consisting of amazing and entertaining demonstrations of tricks with light.

The Texas Electric Show opens at 6 p.m. Tuesday and continues for three nights from 6 to 11 p.m. "Light Sorcery" will be presented at 8 and 9:30 o'clock each evening. Both are free to the public.

The show in reality is about four shows in one. Another feature is the farm and ranch electrical exhibit, which will be housed in a flame-proof tent adjacent to the gymnasium. Here will be the baby pigs which feed on a bottle each hour, the baby chicks which are used to demonstrate the electric chick brooder, and other electrical equipment to make farm and ranch life easier and more profitable.

A feature of the farm-ranch exhibit is an elaborate soil conservation display, showing a continuous movie, "Prairie Harvest." This color film shows the harvesting of native grass seed for reseeding grazed-out pasture land, and the beneficial results from such planting.

Cecil Brower and his Western Band will provide music for the show. They will be presented three times each night, at 7, 9 and 10:30 with a program of novelty numbers from a bandstand on the school grounds.

Reddy Kilowatt, talkative as usual, will visit with his little boy and girl friends at a gaily decorated booth in front of the gymnasium.

The Texas Electric Show of '49 closed Thursday night at Graham after one of the most successful shows ever held in that city.

C. S. Blomshield, Texas Electric Service Company manager here, expects last year's attendance record to be exceeded. The show draws people from all over Howard county and surrounding counties, and is presented by the electric company in cooperation with local electrical dealers.

Bar Reporter From Fla. Senate Floor

TALLAHASSEE, Fla., June 4. (AP)—A formal request by the capitol press corps that Miami Herald reporter Steve Trumbull be readmitted to the Senate floor got a cold shoulder from the upper House.

Reporters covering the Senate walked out Thursday after their protest was read and filed with no discussion.

The Herald reporter was barred from the chamber as the result of dispute Tuesday during which he was struck in the face by Senator A. G. McArthur of Fernandez. The blow broke a small bone in Trumbull's cheek.

The altercation followed a heated Senate debate over a bill which would have given Gulfstream Park better racing dates at the cost of Tropical Park.

Senator Shands of Gainesville took offense at questions Trumbull asked him about action of the rules committee in putting the Gulfstream Bill in position for priority Senate consideration.

Shands went to fetch McArthur who is chairman of the rules committee. The two met Trumbull and the blow followed with scarcely any conversation between McArthur and the reporter.

McArthur voted for the Gulfstream Park bill. The Herald took no editorial stand on it.

The Legislative Correspondents' Association called the Senate action "entirely hostile to the constitutional guarantee of freedom of the press because it is based on individual resentment and not upon any principle of public welfare."

"As we see it, the issue is not the Senate's critical judgment of the quality or merits of any newspaper report but the duty and prerogative of a reporter to write the news as he sees it."

"If this right is not sustained as public policy there can be no press freedom."

Young Barry to Follow in Father's Footsteps

LOS ANGELES, June 4. (AP)—John Barrymore, Jr., has taken the first stride in his late father's footsteps.

He won court approval of his first movie contract Thursday. As his mother looked on, young Barrymore was given the right to act for Le May productions at a starting salary of \$150 a week for a minimum of three months.

The pact is for seven years and if all options are exercised will pay \$50,000 a picture the last year.

The latest Barrymore will leave soon for Texas for the filming of his first opus, a western. He will be 17 tomorrow.

TACTLESS TEXAN IS DISAPPOINTED IN HIT, 'THE DEATH OF A SALESMAN'

AMARILLO, June 4. (AP)—Gene Howe, the tactless Texan of the Globe-News, says the great Broadway hit, "The Death of a Salesman," isn't much of a play.

"First New York hit in years that I haven't been enthusiastic about," said Howe. "But this show, said to possess greatness, doesn't register with me."

Here is Crittie Howe's word to his home folks, after seeing the play:

"I don't know what they do in New York homes, but I know how people act in Texas. I know what would happen at Eighteenth and Harrison where I live, if I started stalking through the neighborhood shouting wildly and talking hysterically to no one in sight. My family would hold an emergency conference."

"The old man's crazy," they'd say in chorus.

"And they'd send for the sheriff. And by the time he arrived there would be Chief Harper. The neighbors would have sent for him."

"If there are people anywhere like I saw in 'The Death of a Salesman,' I don't know them."

FIRE CHIEF IN TOO BIG HURRY

NEW YORK, June 4. (AP)—Acting Battalion Fire Chief David Flynn was hurrying to a fire in his car Thursday night.

Suddenly flames began to shoot out of the auto. The ignition system had caught fire.

Flynn kept right on driving for several blocks—to where his firemen were battling a refrigerator motor blaze.

The firemen put out both fires.

RANCHER RELEASED UNDER \$10,000 BOND IN MEXICAN GENERAL'S DEATH

McALLEN, Tex., June 4. (AP)—Esteban Garcia, prominent South Texas rancher charged with murder in the shooting of a longtime friend and Mexican police official, was free today under \$10,000 bond.

Garcia gave himself up yesterday shortly after Brig. Gen. Heron Ramirez, 49, was shot to death as he walked across a lawn in an exclusive residential section here.

Ramirez was the chief of state police in the Mexican state of Nuevo Leon. His headquarters were at Monterrey. Ramirez was a member of a pioneer family at Reynosa, Mex. He was a relative of Garcia.

District Attorney Jack Ross charged Garcia with murder with malice aforethought. He was released from the Hidalgo county jail under bond late yesterday.

New York state has a population of 14,000,000.

Released To Parents

A Latin-American juvenile, taken into custody here after he had been accused of hop-lifting at a local business house, was released to his parents after questioning Thursday by Juvenile Officer Jess Slaughter.

You Can't Run From A Tornado In The Dark--So Sit Tight

Poliomyelitis, a name almost as fearful as the malady, is on the upsurge over the state and has reached epidemic proportions in some places. San Angelo, with more than three score cases since the beginning of the year, is currently a hot spot.

The word polio, even without coupling it with epidemic, is conducive to panic among some people. Those with children can understand why. Yet panic is never a happy approach to any situation. Action is the better answer.

Unhappily, it's like shooting in the dark. Sifted of all its qualifications, source of the spread of polio is pretty much a mystery. Increase in the incidence during warmer weather has pointed to some connection between flies, mosquitoes, etc. and polio--yet polio occurs in seasons when there are no flies and mosquitoes. Thus it goes with other angles of approach.

This does not mean that public health measures are futile. They may be the best weapons for all we know, but even

if they subsequently were found to not figure prominently in spread of polio, the investment would be well worth while. We do know that control of flies, mosquitoes and other carriers has been proven effective control for typhoid and many diseases commonly associated with summer. Thus, maintenance of private and public sanitation is of great importance.

Meanwhile, in the absence of any appreciable upsurge of the ailment here, certain preventative measures might be good insurance. One is to see that youngsters get ample rest, get good food, keep regular hours and maintain other habits that would tend to keep up resistance. That resistance factor is mighty important in dealing with most diseases.

So do all you can to keep your premises and city clean, fight insects and vermin, try to keep up resistance; and sit tight. You needn't get panicky and run--because it's like running from a tornado in the dark.

Irresponsible Criticism Is Threatening Capable Servants

By FRANK GRIMES
Herald Special Writer

There is an aspect of American journalism which, we believe, should seriously concern responsible editors and publishers with a sense of obligation to their readers. Most editors and publishers do have this sense of obligation and responsibility, although one of their practices do sometimes tend to throw some doubt on the claim.

We speak of the wide latitude most editors and publishers allow the syndicated columnists whose stuff they publish, a latitude they would not dream of extending to any of their own reporters or editorial writers. There seems to be a feeling in the industry that the syndicated opinion merchants are in a class by themselves, that their wildest and most irresponsible statements should therefore be allowed to stand as written "in the public interest."

We ourselves have been too lenient on our hired ivory-tower operators on occasion, though we have exercised the blue pencil innumerable times. We have never edited a columnist because we disagreed with his opinions, but only when we questioned his facts, or felt that he was indulging in arrant misrepresentation, or when he wrote something off-color and of a nature we found undesirable for our columns.

The recent death of James Forrestal raised the question whether the unmerciful pounding he took from newspaper and radio critics, particularly certain columnists, hadn't driven him to suicide. One of the first to sound off was Westbrook Pegler, who for years has taken the Roosevelt family as his special meat-and-potatoes project. We did not see Pegler's column, but we understand from others that he charged that Drew Pearson and Walter Winchell "slant their copy and

assassinate characters." Coming from Pegler, this was a new high in misplaced self-righteousness.

At any rate, Pearson tells us that he has sued Pegler for libel, which is a sheer case of a fire hydrant chasing a dog clear round the block.

Syndicated columnists are so cocksure of themselves. In one of George E. Sokolsky's columns this week he speaks of "the treacherous stupidity of the State Department policy in China." He happens to disagree with that policy, so the State Department is treacherous and stupid. Just to make himself clear, Sokolsky said a little farther along that "Without us, Japan and Korea must go as Manchuria, Mongolia and North China have gone. Maybe that is what the smart boys of the State Department always wanted."

The "smart boys of the State Department" are fair game; government officials are seldom in position to sue a columnist for slander.

And that brings us up to the main point of our discourse. It is getting more and more difficult to get able men to serve in government jobs. The pay is poor, and the bullying they take is no bargain. We certainly do not believe a public servant should be above criticism, but we do hate to see one of them get in dutch with some individual or clique who rides him unmercifully, in season and out, apparently without rhyme or reason. If this sort of indoor sport keeps on, if the self-appointed pointers with scorn and viewers with distaste don't mend their ways, or are compelled to exercise at least ordinary restraint, then we are heading for the day when all government will break down for want of capable men to administer it, and the throat-slitters and axe grinders will become the masters of our destiny.

God forbid.

Today And Tomorrow--Walter Lippmann

Hoover, J. Q. Adams Illustrate Aspect Of Government Problem

Mr. Hoover's own career illustrates an important aspect of the problem of government on which his commission has just completed its massive report. Mr. Hoover retired from public office seventeen years ago. During those seventeen years of the New Deal and of the war the functions of government expanded enormously, creating that very complexity, confusion and waste which the new Hoover blueprints are designed to cure.

In all that time, Mr. Hoover was only an eminent private citizen, an outsider who had no opportunity and no right to take part in preventing the disorders as they were being produced by ill-considered laws and executive orders. He could make complaining speeches and he could issue statements criticizing the work of his successor. But being an outsider, he could not speak with the constructive authority of real knowledge of the crisis in which the government was expanding, and therefore he was discounted as a partisan critic. How much better it would have been if during those seventeen years the ex-President had had as a matter of right a responsible part in the government about which he had learned so much. Then he would have been able to deal with the efficiency of government continuously over seventeen years, not merely in one encyclopedic report which no one will ever read the whole of.

In an interview to the United States News and World Report, Mr. Hoover has agreed that it would be a good thing if

ex-Presidents had a seat in the Senate with all the privileges except voting. At the age of seventy-five Mr. Hoover does not, as he points out, want that privilege for himself. But we may note that had he as a matter of right taken a seat in the Senate in 1932 when he was fifty-eight years of age, the Senate and the country would have had the benefit of his experience during seventeen critical years.

There is an inherent absurdity in the American practice of discarding ex-Presidents, and indeed other high officials, just when by the hardest and surest way they have acquired wisdom in government and public affairs. This absurdity has nothing to do with the Constitution. It is simply a bad habit which can be corrected whenever the American people wake up to the fact that the quality of a government like the quality of an army is maintained by bringing the raw recruits into contact with seasoned troops. The blueprints of reorganization, like the manuals of drill, are useful. But what really counts the most is that those who have fresh energy but are without experience should mix with those who, though they are beginning to be tired, have learned the facts of life.

One ex-President, and so far as I know only one, has shown how unreasonable and unnecessary it is to discard our high officials. John Quincy Adams, after one term, was not only overwhelmingly defeated by Andrew Jackson in the election of 1828, but his party, the Federalist, was split, and Adams found himself repudiated by a large section of it. He retired to his home in Quincy, Mass., where he tried to find something to do by reading books tending to his farm, and planning to write history. Then about 1830 he was asked to run for Congress. Unlike all other ex-Presidents, and indeed most ex-Senators and ex-Cabinet officers, John Quincy Adams did not think it beneath his dignity to become a member of the lower House.

He was elected, and then re-elected eight times, serving, as it happened, for seventeen years. His biographer, W. C. Ford, says that in those seventeen years after his defeat for the Presidency "he entered upon years of influence and combat which made his Congressional service unique and quite the most important part of his career." At the time of his election no member had sat in the House who possessed such varied experience and appropriate qualities. He was familiar with the inside political history of forty years abroad and at home.

"DON'T YOU KNOW WE'RE ECONOMIZING?"

Merry-Go-Round--Drew Pearson

Secret Report Is Submitted To Chiefs Of Truman's Economic Advisers Council

WASHINGTON--The eight top economists who compose the real working brains of the Council of Economic Advisers have just submitted a secret five-page memorandum to their chiefs--Dr. Edwin Nourse, John Clark and Leon Keyserling. The memorandum was prompted by the council's failure to present a clear picture of the nation's economy to the President several weeks ago.

In view of this failure, the eight economists have now spelled out the fiscal facts of life, and hope it may eventually reach the President. The analysis is most important because it represents pure economic thinking, whereas the council's reports to Truman are always diluted and distorted by the power politics and jealousies of the three-man board.

Here are the main points contained in the confidential report:

1. The government will be faced with a deficit next year even if Truman gets his four-billion-dollar tax increase. Lowest estimated deficit even with the tax increase is two billions.
2. The government simply cannot make significant cuts in federal expenditures in view of the large proportion of fixed costs, i.e., interest on debt, military establishment and veterans administration. Budget cutters will have to confine themselves to the six to eight billion dollars allocated for reclamation farm programs and the civilian agencies of government. And Congress just can't squeeze any significant funds out of the latter. They were grunted to the bone during the war.

3. It is quite evident that the American economy is slowing down, and if we strain at this time to avoid a deficit--a goal which cannot be achieved, anyway--we will be walking right into a serious economic decline because:

- (A) If we try to avoid a deficit by increasing taxes, we deflate the economy--by taking money away from consumers, leaving them with less purchasing power.
- (B) If we try to avoid a deficit by curtailing federal expenditures, it will decrease the flow of money through the economy. This, in turn, will add to the speed with which we go into a depression.

4. The economists' pointed out, that even today--while government expenditures are going up--the economy is slipping down. Curtailing government expenditures at this time would simply force it into a more rapid decline.

The economists concluded with the warning that the government must place first things first and that the important thing to avoid is a business recession. A deficit, they said, is of only secondary importance.

"We will be in good shape, they argued, if we develop a small deficit and thus avoid a depression. However, it would be tragic to try to avoid a small deficit and thereby throw ourselves into a 200-billion depression."

Significantly, the government's eight top economists agreed to this report unanimously. Political considerations played no part in their decisions. Until this morning, it had not yet reached the White House. Perhaps someone will give Mr. Truman a copy of the Washington post so he can read it today.

TAKES OFF GLOVES

Members of Congress customarily don't cast too much aspersions on each other. Also, a lady Congressman is supposed to be demure, winsome, and follow the leadership of the males.

However, California's Congresswoman Helen Gahagan Douglas, who is as smart as she is beautiful, has chucked all this folderol aside and really taken off the gloves with the senior senator from California--Sheridan Downey.

In a memo circulated to California leaders, Mrs. Douglas has pretty much shown up the senator for what he is--a turncoat on his campaign promises.

She hit the alleged Democrat from California where it hurt most--by recalling the manner in which he climbed into the Senate as a California ham-and-egg. In those days, opportunist Downey was the personal counsel for Dr. Townsend of old-age pension fame. But forgetting his onetime great solicitude for the poor and the aged, Downey recently held up federal money for 2,500,000 old people, 1,200,000 dependent children, and 86,000 blind--all because of his fight for the big power and farm interests of California.

PUTS ON SHOES
Mrs. Douglas didn't put it in these words, but Downey, once the barefoot senator from California, has now become a rampant and prosperous defender of California's big interests. But she did point to the ludicrous fact that, 25 years ago, when the Republicans wanted to defeat the 160-acre limitation on federal reclamation land, they kicked out another Commissioner of Reclamation, Arthur Powell Davis--on the grounds that he was an engineer! Real reason, of course, was that he was strictly enforcing the 160-acre limitation.

But in 1948-49, Sen. Downey and Republican friends reversed this tactic in effect and provided that neither Commissioner of Reclamation Mike Straus nor his California deputy, Richard Boke, could hold office because they are not engineers. Like Davis, they also were enforcing the law.

And when the current House of Representatives overruled Downey and the GOP, Downey then threatened a filibuster, and did hold up payments to the old people he once championed for two months while the pay bill was stuck in conference.

"Sen. Downey," concludes Mrs. Douglas, "was more concerned with winning the fight for the private power interests and the corporate farmers than with seeing government checks go out to 2,500,000 old people, 1,240,000 dependent children, 86,000 blind and 15,000 federal workers."

HOLLYWOOD, June 4--(AP)--"Little trace of the American motion picture industry has come down to us," Dr. Adam Fission told a historians' meeting at Uranium University in the year 2049.

"And much that remains is confusing," he added.

"For instance, motion pictures appear to have been popular, with millions watching the flickering screens every night. And yet, judging from the printed records of the critics of the time, the quality of entertainment was very poor."

"There is also confusion about the so-called stars--the men and women who took leading roles in the photoplays. We have unearthed records from the studio files and 'fan' magazines, all of which indicate the stars were paragons of virtue."

"Unlike the solar system," Dr. Fission said with a smile, "The motion picture industry seems to have revolved around the stars. They were public heroes. Each time they got married, which was often, the wedding appeared to have been a kind of national festival."

"One of these events took place just 100 years ago when a star named Rita Hayworth wed an eastern potentate. Another occurred the year before when Lana Turner also married a man from the east."

"The stars earned fantastic salaries, even more than interplanetary pilots do today. In fact," he added with irony,

Around The Rim--The Herald Staff

Centennial To Be A Staggering Job; Everybody Must Have Part

There hasn't been a great deal of fanfare (rest assured that this will come in due course), but a lot of work is going into the groundwork for Big Spring's rather unusual birthday celebration.

That would be the "centennial" event, to commemorate the 100th anniversary of the official discovery of the "big spring" by Capt. R. B. Marcy and his troupe of army scouts.

Not many towns take time off to honor a hole in the ground, and it's gratifying to this department to know how much real interest is being taken in all sources for the big celebration.

What I thought some of you people will be interested in is the great scope of the Centennial as it is now shaping up.

In the first place, you ought to mark down the dates--and start mentioning them in your correspondence, and considering them in your plans for this fall. One of the big results to come from the Centennial will be the national publicity Big Spring can achieve. The dates are October 2-8, from Sunday through Saturday.

Incidentally, the last three days of this special week will coincide with the 1949 edition of the Howard County Fair.

Then, it is of interest to know of the "special days" which are on the calendar. The opening will be an inter-denominational religious day with a great mass worship planned at the city park amphitheatre.

Monday has been set aside as "Homecoming and Governor's Day."

This is when all the old-timers will be given an opportunity to gather for a reunion, and will be honored. It also will be the day when notables will be present to appear in the gala opening parade, and the day when a Centennial Queen is crowned.

For the rest of the week, there will

be such events as Youth and Civic Day, Military and Veterans Day, Business and Industry Day, Good Neighbor Day, Agriculture Day, Parades of distinctive character are contemplated for practically every one of these days, and each is to have special visitors and attractions of note.

One of the major shows of the week will be the staging of Monday through Wednesday, of a big and colorful historical pageant, based on items of history connected with the spring, and the later development of Big Spring. The John B. Rogers Producing Company of Ohio, biggest such concern in the spectacle business, will handle this, sending professional directors to handle the show, arranging for all the scenery, costumes, props, etc. The show will be done with a local cast, and certainly looks from this distance as the biggest such thing the community has ever undertaken.

The Rogers company already has historical material for developing a script for the spectacle.

Then, there will be a Queen's Ball on one night, a great square dance festival on another night.

In fact, it looks like there will be something doing almost every minute of the Centennial Week.

It's staggering to know how many details will have to be handled by the citizens of the town who want to put on a celebration that will long be remembered and one that Big Spring will be proud of. It's a 100-to-1 bet that, between now and October, you will be called in to serve on one or more of the committees. If you are, it is hoped that you will serve enthusiastically. The Centennial can be a good one if everybody takes an interest in it and if everybody does his assigned task in it. It can be a flop otherwise.

—BOB WHIPKEY.

Modern Young Men Seek Career Insured At Start Against Risk

NEW YORK--(AP)--CAN YOU FIND SECURITY?

Security used to be something that only the old folks dreamed of--and the old nations.

Today the young people and the young nations want it. They feel tired even before they are tested in the crucible of effort and the changing years.

They want a guarantee. And there is no guarantee.

There are as many patterns in security as there are in plaid suits. And the styles change in both.

Right now the pattern of security in America is changing. Or at least the pattern is more clearly visible. For the present generation is markedly different in its goals from any previous generation in America.

THE TRADITIONAL IDEAL OF SECURITY in this country has been the security of equal opportunity. The real frontier in America was always the small farm a man could enlarge, the little business he could found and make bigger. Security lay in the possibility of growth and expansion. You started low, aimed high. And if you missed your aim it was your own fault. Today young men follow a different pattern.

ment, employee prestige, recognition, and incentive to improve their efficiency.

Government work was considered superior to private employment on these grounds: Security, opportunity for public service, and employee benefits like retirement, leaves, health.

What were the things the 3,448 were looking for? These things, in this order: Salary; opportunity for promotion; job security; interesting associates and work; opportunity for personal development; opportunity for public service; prestige and recognition; leaves, retirement, and health benefits.

THESE WERE ALL YOUNG PEOPLE, so far that reason they probably put retirement and health benefits last on their list. It would be interesting to see what answers would have been given by older people asked the same questions.

But 674 former government career employees who had left federal service in the past 10 years were asked other questions, and 300 who answered said:

Their average salary when they quit the government was \$7,767 after an average of 13 years working for Uncle Sam. But they quit for these reasons: Half said their pay wasn't enough; more than half didn't see enough chance for advancement; and only 13 per cent said they would voluntarily return to work for the government.

Chow Line Called Mighty As A-Bomb

NORFOLK, Va.--(AP)--The United States' chow line is "as great a military weapon as the atomic bomb ever will be," according to Dr. Berton S. Clark. The re-elected president of the Associates of the Quartermaster Food and Container Institute says this country's ability to feed vast overseas armies was one of its decisive weapons in World War II. "A-bombs or no A-bombs," says Dr. Clark, who is research director of the American Can Company, "the millions of men fighting in distant points of the world still have to be fed."

CATTLE BARON IS FRIENDLY, MODEST

Texas Rancher Who Flies Own Plane Is Visitor In Capital

By TEX EASLEY
AP Special Washington Service
WASHINGTON, June 4.—A

big, strapping Texas rancher who flies his own plane stopped the other day for a visit in the national capital.

Joe B. Finley of Encinal who runs the 240,000-acre Callaghan ranch 27 miles north of Laredo, is a friendly, modest Texan and, unless you happened to know him, you'd never guess he operates on such a vast and modern scale.

At the Agriculture Department he is recognized as one of the first American cattlemen to warn about the foot-and-mouth disease outbreak in Mexico. He urged speedy and vigorous action, even though it meant he had to write off as a loss the thousand head of livestock he owned in Mexico.

Accompanied by his attorney, G. C. Mann of Laredo, rancher Finley flew up from Texas in his medium-sized twin-engine plane. Several hundred head of Callaghan ranch Herefords are fattening on blue grass in Virginia's Shenandoah valley.

"We are not sure yet," Finley commented, "but we think this is going to turn out to be as good grazing as any place in the nation. Right now we send a lot of our cattle to the Flint Hills in

Kansas, which is the best we have yet found. This grass up here may be equally as good."

A steer can fatten much faster on the Flint Hills than in Wyoming, Colorado or other western states because of the mineral content of the soil, Finley said. He has been sending three-year-old steers to the Flint Hills to fatten. He hopes to send two-year-olds to Virginia or surrounding states to get them ready for market.

If the limited scale operations in the East prove profitable, the Texas plans to ship 5,000 to 10,000 or more head annually and contract with more land owners back here for use of their pastures. He flew over and inspected a 150,000-acre tract of land in North Carolina and is keeping it in mind for leasing. It's timber and marsh lands along the Atlantic coast.

One of the obvious advantages of fattening cattle in this part of the country, he pointed out, is the fact that they would be near the big cities and the shipping savings would be considerable.

While here Finley called on his new congressman, Rep. Lloyd Bentsen of McAllen. He also went to the Agriculture Department to urge action on plans to build a foot-and-mouth disease research laboratory. The law authorizing the project provides it shall be on an island, but so far no site has been selected.

Around the Capital:
A. M. Felts, Austin lawyer has been appearing before the Interstate Commerce Commission on behalf of two Texas bus lines which want to expand their systems to serve the Panhandle and Rio Grande Valley. Felts was a guest of Rep. Homer Thornberry at a Texas congressional luncheon.

McKinney's mayor R. Fitzhugh Newsome and wife have been visiting their son, R. Fitzhugh, Jr., an instructor at the Naval Academy in Annapolis, Md. When they stopped at a downtown hotel Speaker Sam sent his official limousine to bring them to the Capitol. The Newsomes and the Speaker have been close friends for years.

William Pettus Hobby, Jr., son of the former Texas Governor and Oveta Culp Hobby, graduates this month (June 4) from the Episcopal Church's National Cathedral School for Boys. His mother took time out from her job on the Houston Post to come here during war years and became the first director of the Womens Army Corps (WAC).

Washington's social life is not made up completely of cocktail parties and banquets.

A picture of the home life of a congressman is given in an account written by Rep. Bentsen for newspapers in his Rio Grande Valley district. Telling of a visit to his newly-bought home by a Texas colleague, he wrote:

"Speaker Rayburn might find himself subject to a suit for alienation of affections.

"At dinner the other night the Speaker thoroughly won over our youngest son, Lan, age two. The Speaker and Lan retired to a corner all by themselves and fed each other popcorn. After they downed a couple of boxes between them, we finally managed to put an end to the gustatory performance by threatening to call the Speaker about midnight to walk the floor with Lan and the stomach ache he was bound to have. We didn't have to make good our threat, because Lan didn't have the tummy ache."

German Theaters Have Tough Time

FRANKFURT, Germany.—An estimated 50 per cent of Western Germany's private theater closed after last year's currency reform. There are even some state-subsidized houses which fear their curtains will never rise again.

Some people feel that the Germans have lost their interest in cultural things. Balding, bespectacled Erich Otto, president of Western Germany's Players' Association, says no.

"Germans are as hungry for stage plays as they were fifty years ago," he added, "but they don't want to be disillusioned." Eighty per cent of Germany's playhouses were either destroyed or badly damaged when the war ended. New theaters were soon started in barns, cinemas and private houses.

"But you can't perform an opera of Verdi or a French comedy in a former gymnasium. It's too disillusioning. This especially is meant for those depressing ultra-modern plays. If they see a play like this performed on a pastry board, people become bored."

Soak The Rich
PARIS.—Harder economic conditions for the rich seem reflected in a Paris press report that the network of state-controlled pawnshops will soon be extended to more wealthy districts of the city, where they expect to receive mainly luxury goods such as jewels and furs.

Local Troubles Plaguing Two Indian States

NEW DELHI.—Two years of independence have brought India and Pakistan to a crisis in their one-party systems. A reorganization of some kind probably will have to be made if the ruling parties, the All-India Congress in India and the Moslem League in Pakistan, are to survive.

The central governments at New Delhi and Karachi are sound and stable. But in the provinces governments flounder in tangles of personal feuds, maladministration, group cleavages and corruption, especially in those near the border between the two new countries.

A series of failures to form a stable ministry in West Punjab forced the Pakistan government to authorize the British governor, Sir Francis Mudie, to run the ad-

ministration himself, even without advisers.

In East Punjab, the Indian government may be forced into an equally drastic move.

The main impulse of the strength and unity of both the Congress and the Moslem League vanished Aug. 15, 1947, when Britain quit India.

The rank and file of party members thought the time had come to compete for political spoils. Local rivalries, personal bickerings, pressure politics and corruption upset province after province.

The first scandal was in Sind in western Pakistan. A succession of ministries collapsed. One Sind premier, M. A. Khurro, was tried for corruption and abuse of power and convicted.

In India a similar situation arose in Vindhya Pradesh, a new union of princely states. The central government had to intervene, dismiss the ministry and ask the prince heading the union government to take the government in his own hands.

Alabama normally raises about one tenth of the nation's cotton.

Students Appreciate Teacher's Automobile

LAWTON, Okla.—Students who have been taught by Miss Lily Stafford—and ridden in her old jalopy—for the past 29 years are going to show their appreciation.

A "Lily Stafford Appreciation Fund" has been started to purchase the Lawton high school science teacher a new car. Miss Stafford now is driving "Joan" her 1930 car which has 71,000 miles.

"Joan" is still being used by Miss Stafford to carry students to meets and events.

She said the car was named after Joan d'Arc because "she has risen to the occasion many times."

Kelly, Sinatra And Esther Williams In Color Musicomedy

There may be more girlies and more music than baseball, but nevertheless, it's "Take Me Out To The Ball Game," as the Technicolor feature at the Ritz theatre today and Monday.

Gene Kelly and Frank Sinatra are two of the stars, being teamed for the first time since the enjoyable "Anchors Aweigh." More comely among the stellar attractions are Esther Williams and the rising comedienne, Betty Garrett.

Placing emphasis on comedy, music and romance, the story is of a song-and-dance team, vintage 1906, who put away their greasepaint in the spring and join a big league baseball team. There they score hard fought victories both on the diamond and in the hearts of two of the loveliest young ladies who ever wore corsets!

With songs by Roger Edens, Betty Comden and Adolph Green, the musical numbers present Sinatra at his singing best and also give Kelly a novel background for some of his most spectacular dance creations. Sinatra comes to the picture from his role as the romantic "Kissing Bandit" Kelly last scored in "Words and Music" and "The Three Musketeers."

Esther Williams, presented with her first real opportunity to sing and dance on the screen portrays an athletic-minded young lady who takes charge of a baseball team, wins a championship and loses her heart!

Betty Garrett plays Sinatra's romantic interest in the new film; Edward Arnold is cast as a gambler; and another featured role is filled by Jules Munshin remembered as the comic waiter in "Easter Parade."

"Take Me Out to the Ball Game" was produced by Arthur Freed, responsible for such recent musical hits as "Words and Music," "Easter Parade" and "The Pirate." The picture was directed by Busby Berkeley, one of the screen's top directors of film-tuners.

BALL PLAYERS!—Gene Kelly and Frank Sinatra appear as vaudeville men turned ball players in the Technicolor musical comedy, "Take Me Out To The Ball Game," which is at the Ritz theatre today and Monday. The charming Esther Williams is the romantic interest, and Betty Garrett and Jules Munshin are the comics. Kelly and Sinatra are together in songs and dances for the first time since "Anchors Aweigh."

THE WONDER DOG!—That's Rusty, who shows his good table manners in this scene from "Rusty Saves A Life," and adventure story of interest to animal lovers which is at the Lyric theatre today and Monday.

HIGHLIGHTS ON KBST

'Oklahoma' Offered Monday Evening

With singing host Gordon MacRae and songstress Lucille Norman in the leading roles, the dramatic behind-the-scenes story of the production of the Broadway musical comedy, "Oklahoma!" will be retold on the ABC-KBST broadcast of the Railroad Hour Monday, June 6, at 7 p.m.

Miss Norman and MacRae will sing many of the hit songs from the Rodgers and Hammerstein score, termed by critics "the greatest musical comedy score ever written." Among these will be "Oh! What A Beautiful Morning," "The Surrey With the Fringe on Top," "People Will Say We're In Love," "Poor Jud Is Dead," and the title song.

"JOHN LOVES MARY"
For its final production of the season "Theatre Guild on the Air" presents Norman Krasna's hilarious hit "John Loves Mary," this evening at 8:30 over KBST, starring Robert Cummings and Ann Blyth.

"John Loves Mary," the comedy-romance which delighted both stage and screen audiences tells the story of a young GI who returns to his New York sweetheart after three years overseas. The plot is complicated by the fact that John owes his life in

battle to his friend Fred who married the latter's English girl friend in order to get her into the United States.

"GREATEST STORY"
"He Who Exalted Himself" the story of a man who learned almost too late the real meaning of doing good, will be dramatized on the Greatest Story Ever Told this afternoon at 5:30 p.m. over KBST.

"COUNTER-SPY"
From a hide-out deep in the heart of Brooklyn, a sinister criminal works out a series of robberies to be committed by a group of juveniles, but quick intervention by David Harding saves the misguided group at the last moment in the exciting "Case of the Flatbush Fagin," the Counter-Spy episode to be aired over KBST, Tuesday, June 7 at 6:30 p.m.

"MY TRUE STORY"
Cleo Smith ruthlessly set out to break up a long friendship between her husband and Kirk Grantley, a man he had known and liked for a number of years. She used every subtle device of her sex to alienate the two and ultimately went so far as to approach the wife of the man who was president of the firm which employed both her husband and his old friend. How the matter was finally resolved will be told on a dramatic broadcast of My True Story, Monday, June 6, at 9 a.m. over KBST.

Bogart, Robinson In Tense Drama At The Terrace

Star talent in profusion has been grouped for the cast of the exciting drama, "Key Largo," which is at the Terrace Drive-In theatre tonight and Monday night.

Humphrey Bogart, Edward G. Robinson, Lionel Barrymore, Lauren Bacall and Claire Trevor play the top roles.

"Key Largo" was directed by John Huston, the ace director who made film history with "Treasure of Sierra Madre," another Bogart smash.

Jerry Wald produced "Key Largo" under the Warner Bros. banner. It is an action drama, probing the reactions of a disillusioned World War II veteran, who having helped win the war, is disinclined to help win the peace. Bogart plays this role, with Robinson heading a band of mobster cohorts.

Bogart reads a portion of Franklin D. Roosevelt's now-memorable Declaration of War to Congress in January, 1942 in a sequence of the drama. Edward G. Robinson, as a mob leader, plays the kind of role which brought him to screen fame a number of years ago, while Miss Bacall supplants her usual sultry personality for that of a straight heroine role here.

Huston's distinctive insight into character is clearly presented in several scenes, where Bogart, Robinson, Barrymore, and Miss Bacall and Miss Trevor actually all come in for an equal share of the spotlight.

Stonecutters, Not Woodcarvers, Visit Old English Church

BRIGHTLINGSEA, England (U.S.)—The council of 700-year-old All Saints Anglican Church sat down and tried to figure out how to keep visitors from carving things in the stone walls.

They formed a plan. They had a wooden board nailed to a nearby oak with a sign saying: "If you must leave your name or initials, please put them on this board, and not on the church walls." That was 25 years ago, the vicar, the Rev. Charles So what happened? Report from Here:

"Not a single initial has ever been carved on the board. Visitors still carve their initials on the walls, at the rate of several hundred a year."

'Plunderers' Action Drama Of Old West

It's the old west again with bad Indians, the sheriff against the rowdy, with riding and shooting—all presented in "The Plunderers," featured offering for today and Monday at the State theatre.

Rod Cameron Iлона Massey, Adrian Booth, Forrest Tucker, George Cleveland, Grant Wither and Taylor Holmes are in the cast. The story presents Cameron in the role of a U. S. Cavalry Major who goes in pursuit of an outlaw gang, puts himself in the guise of a bad man and has a fake fight with the sheriff to further his plans.

The officer is trapped when his true identity is revealed but is saved when he and the outlaw have to join forces in a fight for their lives against the Sioux Indians. The Cavalry man learns that his erstwhile bad man has good qualities and would attempt to save him but another mass attack by the redskins brings the story to a thrilling climax.

The picture is filmed against the wide open spaces of western scenery, has color and swift action as well as tense plot and excitement.

Dallas Negro Identified In Assault Case

GEORGETOWN, Tex., June 4.—Mrs. Mozelle Slack of Dallas today in court identified Clifton Okra, 25-year-old Dallas Negro, as the man she said criminally assaulted her last Aug. 17 and beat her with a hammer.

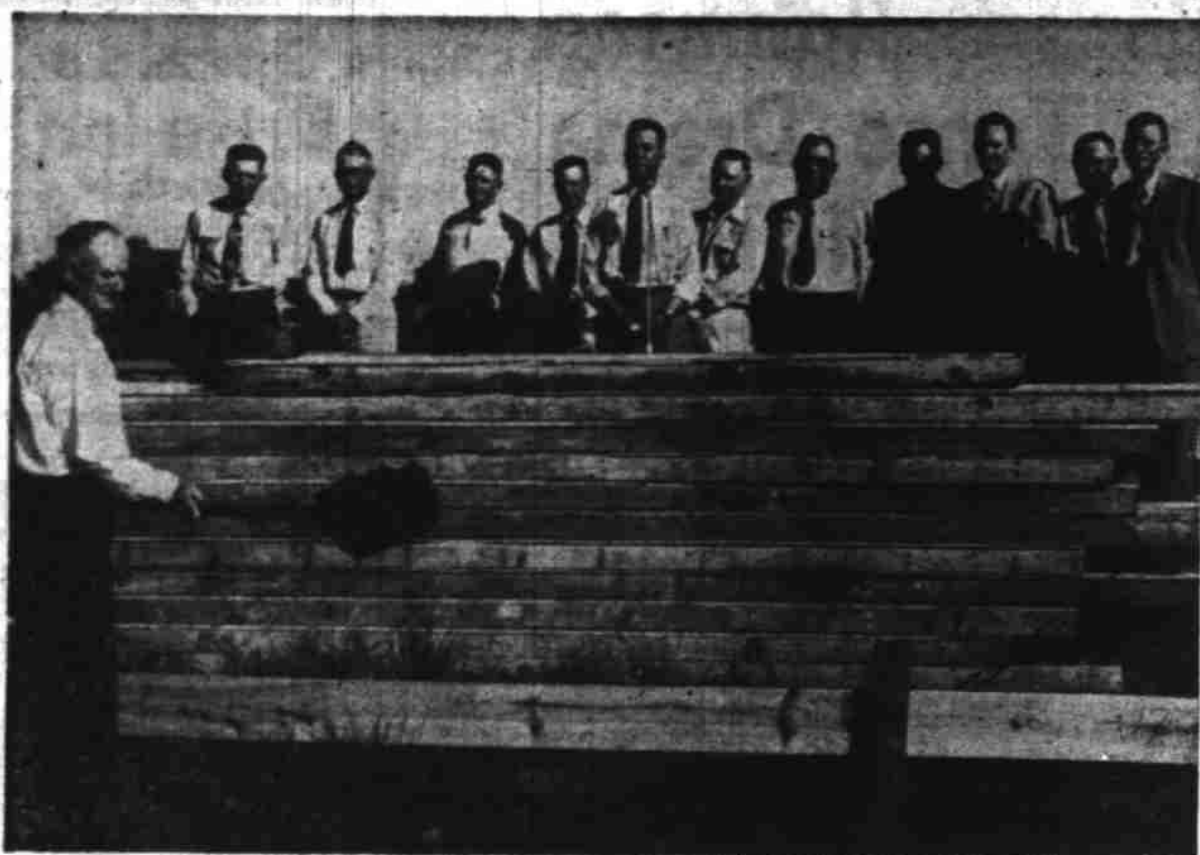

Okra is on trial here on charges of criminal assault against Mrs. Slack and maiming her husband, William Slack, who was almost blinded by acid thrown in his face.

Carlton Mason, Dallas Negro, testified that he roomed at the Okra home and identified a shotgun as the property of Okra.

Tom Thompson, former Dallas county deputy sheriff, testified that he and two other deputies arrested Okra and took him to the courthouse where a statement was reduced to writing in which Okra confessed assaulting Mrs. Slack.

The Slacks have said they were sitting in a truck in West Dallas last Aug. 17 discussing a reconciliation when they were accosted by Okra. Slack said a bucket of acid was thrown in his face. The trial was brought here on a charge of venue after Okra was brought into court at Dallas in wrist chains in the presence of the jury.

The All-American Conference champion Cleveland Browns have scheduled a pre-season game with the Chicago Hornets at Toledo's Glass Bowl on Aug. 14.

HOSPITAL BEGUN—George Teague, selected because of exemplary support of the project, turns the first spadeful of dirt for the \$200,000 Martin County Memorial hospital project at Stanton. Other members of the board looking on, (left to right), are G. Tunnell, Valley View, Walter E. Kelly, Courtney, Jim Tom Stanton, finance committee head, W. D. (Bill) Howell, Lenora, Cecil Bridges, who presided at the ceremony, C. B. Jones Lenora, M. L. Graham, Stanton, and at extreme right, B. F. White, board chairman. To the left of Graham is Rev. T. R. Hawkins, First Baptist pastor, Ellmore Johnson, Church of Christ minister, and Supt. of Construction Clark. The groundbreaking was held Saturday. (Jack M. Haynes Photo)

ARRANGEMENTS FOR COURSE MADE

City School Children May Get Remedial Reading Instruction

Remedial reading for school children is a summer possibility here.

Dean Bennett, supervisor of elementary education, said that arrangements had been made to offer such a course if there is sufficient demand.

It has been planned in response to many inquiries about a summer school for elementary grade level pupils.

"Since reading is now recognized as the chief tool for securing an education, in school and out," said Bennett, "we feel that it is essential that a student learn to read well. Surveys from over the nation indicate that one-fourth to one-third of children are retarded readers. Therefore they are unable to profitably use their textbooks and other reading matter to further their education."

The course is designed to strengthen retarded readers. It would not offer any grade credit—any promotion or make-up of a failure to be promoted. Object is to attempt to strengthen retarded readers so that they might be able to do better work during regular terms.

Retarded readers, explained Bennett, are of two types. The vast majority may be helped in regular school reading programs or by special instruction. Others have such complications that they need clinical work—something not available in regular sessions.

In the remedial course, therefore, attention would be devoted to trying to locate the "block" for individual pupils. Once the "block" has been eliminated or lessened, the student may and can make rapid progress.

The course would be, in a sense, private corrective instruction. Mrs. Cecil Hamilton is to be instructor and the South Ward school facilities would be used. Period of instruction would be about 10 weeks and would correspond roughly to the high school summer school. Daily schedule would be about three to three and a half hours in the morning and the per

student charge would be \$15 for each five-week period. Only a limited number could be served because of the individual nature of the work.

Persons interested should be at South Ward at 10 a.m. Thursday, or telephone Bennett at his office (1206) or his home.

Cowboy Has His Ups And Downs

LAWTON, Okla.—Cowboy Jack Howentine of Cache, Okla. is going to stick to his bucking bronchos.

He entered the self-service county court house elevator and pressed the button to go to the second floor. The elevator then shot up to the top floor where the jail is housed.

Howentine quickly jammed the button to go down to two—and the elevator didn't stop until it got to the basement, where it got stuck. After some fancy yelling, bystanders gave the cowboy instructions for getting out.

New Zealand Hero Warns Against Drink

AUCKLAND, New Zealand.—Sir Bernard Freyberg, New Zealand war hero, has a word of advice for the young of the world: Don't drink spirits, and don't smoke too much. Sir Bernard, who won the Victoria Cross in World War I, is now New Zealand Governor General.

"I am disturbed when I see

Snake Lives Three Years In Old Well

SYDNEY, Australia.—A large brown snake has lived in a well at Marysville, South Australia, for three years. It fell in there when half-grown and made its home on the roots of trees which have broken the cement walls of the well. The snake's home is about seven feet down and it has no way of escaping. It is in good condition and provides continual debate on how it manages to get food.
