En Route To Prison, Al Capone Says His Racket Career Over

DISILLUSIONED AND DEJECTED HOODLUM CHIEF VOICES OPPOSITION TO PROHIBITION LAWS

BY VICTOR HACKLER
Associated Press Staff Writer

ON BOARD CAPONE TRAIN, AT DANVILLE, ILL., En Route To Atlanta, May 4 (AP)—Al Capone, disillusioned and rejected gang chief, approached federal penitentiary at Atlanta, Ga., today with the assertion he was "through with the rackets."

Tonight he will start serving an 11-year sentence for evading income taxes. Giving up hope at last, he said there was "nothing to do but make the best of it."

Shows Disappointment

As his train cut down toward the southland, the Gangster jested and kept up a rapid fire conversation with guards, but did not try to hide his disappointment.

"How would you feel if you had eleven years staring you in the face?" he parried when newspapermen questioned him.

Although his long exile has been expected to rob him of his rule over Chicago's underworld, it was still Capone the big boss of gangland that was being taken to prison.

At every stop from Chicago to Atlanta provisions were made for local police or railroad detectives to watch the train from the outside while nine guards kept vigil inside his car. United States Marshal H. C. W. Laubenheimer took charge of the party himself with the assertion his main object in life right now was to get Capone off his hands.

It was not a special car bearing Capone to prison but it amounted almost to that since it was occupied only by Capone, one other prisoner, the guards and newspapermen.

With time off for good behavior, Capone can cut down his sentence to about seven and one-half years. When he gets out, he said, he intends to "stay out of politics and all the other rackets." If he had any plans for the future he failed to reveal them.

A few minutes later, however, he indicated he had not lost all interest in the liquor-gambling syndicate that is reported to have built him a fortune.

"Anybody that says I'm for prohibition is all wet," asserted the gang czar. "It would be better if prohibition was out of the way and we could handle beer legitimately. There would be more profit, no payoffs, no loss of trucks and a cheaper price for the stuff."

DEPUTY NAMED TO PLACE AT MULESHOE

ALLEGED SHORTAGE IN TAX FUNDS CITED IN SUIT ON FILE

(Special To The Journal)

MULESHOE, May 4.—Sheriff H. Sterling of Bailey county was forced to resign and a deputy sheriff, Jim C. Cook, was appointed to fill Sterling's unexpired term late Tuesday by Bailey county commissioners' court, acting on recommendations of a district court grand jury.

County Commissioners court previously had filed suit against Sheriff Sterling, who also was tax collector, alleging a shortage of more than $1,400 in tax funds. The suit probably will be dropped, it was said today unofficially.

Shortage Canceled

Sterling appeared before commissioners court, April 18, and an auditor reported the sheriff and tax collector's funds were short $1,471.01. Sterling attributed the shortage to issuance of tax receipts and sale of automobile license plates to responsible persons on credit. Given until April 22 to raise the shortage, he turned over $861.50, canceling the shortage in county moneys, on that day.

The petition filed in court was set for hearing May 17. Sterling's bonding company at Dallas has been notified by commissioners court that the firm will be expected to assume the remaining shortage.

Sterling was reported, since April 22, to have raised virtually all of the remaining shortage of $609.51, only to find that most of it was in worthless checks.

E. A. Bills, Littlefield attorney, represented Sterling before the commissioners court.

HEAVY MARGIN GIVEN TEXAN IN PRIMARY

WIN OVER ROOSEVELT AND SMITH PLACES SPEAKER IN RACE

(By The Associated Press)

With more than three-fourths of the precincts in, Speaker John N. Garner of Texas today held the commanding lead of 32,000 votes over Franklin D. Roosevelt in California's three-way Democratic presidential primary battle.

Alfred E. Smith was running 42,000 behind Garner, with the vote from 8624 out of 10,271 precincts standing as follows:

Garner 188,723.
Roosevelt 156,066.
Smith 126,730.

Would Slow Roosevelt

Should the remaining precincts hold up the Texan's lead and give him victory, which his forces were claiming, Garner will have seriously impeded the chances of Roosevelt for the presidential nomination. He also will have taken himself out of the favorite son class, as Texas has promised him her 46. With California's 44, he would have a block of 90 convention votes.

VICTORY ASSURED

SAN FRANCISCO, May 4 (AP)—Victory for the John N. Garner delegation in yesterday's presidential primary appeared certain today on the face of returns from 8,617 precincts out of 10,271 which gave Garner 191,612; Franklin D. Roosevelt 150,822 and Alfred E. Smith 127,964.

Roosevelt, who appears to have captured Alabama's 24 votes in yesterday's primary, now has 313 pledged and claimed votes with at least 100 promised him from New York and Pennsylvania. A total of 770 are needed to win the nomination.

Conservative Republicans appeared to have won another northwest victory in South Dakota where an uninstructed delegation of 11 friendly to President Hoover was maintaining a good lead over a faction pledged to a "progressive."

Hoover Has 788

With these 11 and California's 47, the latter won without opposition, the president today boosted his pledged and claimed conven-

NAVY TO HOLD DEFENDANTS

MASSIE AND OTHERS NOT TO BE JAILED PENDING OUTCOME

(By The Associated Press)

HONOLULU, May 4.—Definite assurances that Lieut. Thomas H. Massie and three others convicted with him of manslaughter will not go to prison as long as their right against conviction is in progress were forthcoming today.

Both prosecution and defense counsel said the four probably would remain in custody of the navy at Pearl Harbor and it was authoritatively understood Judge Charles S. Davis would commit them to the custody of naval officers when they appear before him for sentences Friday.

Meanwhile, pressure was brought on Governor Lawrence M. Judd by official Washington and civilian circles to pardon the quartet convicted of lynching Joseph Kahahawai, who allegedly had confessed a criminal attack on the wife of the naval officer.

Assistant Defense Attorney George S. Leisure said he would ask the court to leave the defendants at Pearl Harbor.

Public Prosecutor John C. Kelley told The Associated Press he had no objection to such action.

A petition is being circulated in congress asking Governor Judd to pardon the defendants and he is about to receive a similar appeal from the citizens of the territory.

SPECIAL TO COME TO SESSION HERE

Lubbock committeemen at 4 o'clock this afternoon will meet a train in which 50 to 100 delegates to the quarterly district convention of the Texas Farm Bureau federation will arrive at the Santa Fe station. The train of three pullman cars will carry visitors from the Rio Grande valley, Houston, and other South Texas cities.

The convention will open Thursday and continue through Friday. About 1,000 farmers and agricultural leaders are expected to attend.

RAILROAD COMMISSION TO PROBE ALLEGED IRREGULARITIES

(By The Associated Press)

TYLER, May 4—Chairman C. V. Terrell of the state railroad commission and Lon A. Smith, commission member, resolved themselves into a court of inquiry here today for the purpose of investigating alleged irregularities on the part of certain men in the employ of the commission in the East Texas oil field.

The entire East Texas personnel employed by the commission, from supervisors to checkers, was present. The employes had been summoned by Chairman Terrell.

To Hear Testimony

Colonel L. S. Davidson, commander of troops enforcing production regulations in the field; Major Harry S. Johnson, provost marshal of the national guard; and Carl Estes, Tyler editor, also were due to testify before the commission members this afternoon.

Replying to a telegram dispatched to them last night by Pat M. Neff, the other member of the commission, suggesting the course of the inquiry, Terrell and Smith issued the following statement:

"Pat Neff, true to his projected program, again appears in the headlines of the daily press in the role of critic. He ever covets front page stuff, playing consistently to the galleries.

"We expected no cooperation from him, today, in our efforts to untangle a most complex web woven by experts in a game where only honest men should play.

"He, Neff, sallies forth again from his tent as a mailed knight, who, like the ancient Achilles, seemed to think 'he', the honorable Pat Neff, with many 'exes' attached to his name, is invulnerable to public criticism.

Role Of Critic

"He has played the role of critic consistently since Feb. 1931, when the commission placed Terrell as chairman of the railroad commission, a position to which Neff was never entitled under any construction of the principles of right, justice and practice.

"Of all times in the history of the commission, now is the time for

Curtis On Another Secret Kidnap Trip

NORFOLK, Va., May 4 (AP)—Another secret trip by water was made by John Hughes Curtis today in his work as a negotiator in the Lindbergh kidnaping case.

Participants in the last cruise, after returning aboard the yacht Marcon last night, were believed to have remained at the naval base in readiness for still another boat trip. The Marcon was seen coming through the Virginia capes late yesterday afternoon to dock at the naval base.

Fall May Be Freed From Prison Soon

WASHINGTON, May 4 (AP)—Albert B. Fall probably will be released from prison in the next four days.

By deducting the time allowed off for good behavior, May 6 is the expiration date for his sentence, imposed for accepting a bribe while secretary of the interior under President Harding.

Serving in the New Mexico state penitentiary because the climate at Santa Fe was considered favorable to his bad health, Fall is understood by Washington officials to have behaved well.

STAGE SEARCH FOR OFFICIAL

PUBLIC DEFENDER IN CALIFORNIA OBJECT OF EXTENDED HUNT

(By The Associated Press)

SAN FRANCISCO, May 4—Mystery today shrouded the disappearance of Frank J. Egan, San Francisco public defender. He vanished Monday night after Charles Dullea, captain of detectives had received a telephone call, supposedly from Egan, saying:

"These men have got me, captain."

Deputy Coroner Jane Walsh revealed Egan had been named chief beneficiary in the will of Mrs. Jessie Hughes, widow, whose body was found in a street gutter several days ago. Police believed Mrs. Hughes was either struck by a hit-run driver or killed and then thrown from an automobile. She was a friend of Egan's.

The missing man's wife, on the verge of collapse, told authorities she received a telephone call Monday night from a man who said: "We've just taken Frank for a ride." She said her husband had acted somewhat strangely recently but she was unable to account for his disappearance.

Egan's automobile was found yesterday by police in a downtown garage where attendants said he left it the night before.

THREE TIRES STOLEN

ECONOMY BILL SHELL GIVEN APPROVAL

MERE SHADOW OF HUGE MEASURE IS PASSED BY LOWER HOUSE

(By The Associated Press)

WASHINGTON, May 4—Virtually useless as an aid to budget balancing, the economy bill was through the house today, a mere shadow of the $210,000,000 measure originally drafted.

It was passed and sent to the senate easily enough last night, carrying $42,300,000 of savings, but only after the insurgent majority had withstood on nine successive roll calls the desperate efforts of regular leaders to force reinstatement of big economies previously voted down.

Action Is Assured

The final outlook for the bill was uncertain. The senate, busy with the tax bill and other legislation, has so far given the measure scant attention but, being attached to the legislative appropriation bill, it is sure to get action.

All the bill can accomplish in its present shape is:

Authorize President Hoover to reorganize government agencies subject to congressional approval and create a public works administration to concentrate all but military and rivers and harbors work; disbanding or reduce the Philippine scouts, and reorganize the shipping board to save $2,500,000.

Suspend all overtime pay, automatic promotions and salary raises and retire all superannuated government employes, reducing traveling allowances of railway mail clerks and congressmen, and curtailing the transfer from post to post of officers and enlisted men of the army and navy.

Would Cut Salaries

Cut by 11 per cent all government salaries above a $2,500 exemption and prevent retired military and naval officers holding government positions from drawing more than $3,000 a year through their retirement compensation.

Reduce government printing expenditures by $4,000,000; set a $10,000 limit on salaries in government boards, corporations and commissions, and transfer and consolidate several departmental activities.

TAX PUT ON BOND SALES AND CHECKS

WASHINGTON, May 4. (AP)—A flat tax rate of four cents on the sale of each hundred dollar bond was voted today by the senate finance committee.

The rate was the same as set yesterday for stock sales. The House had fixed its bond sales tax at two cents on each bond, or not less than one eighth of one per cent of the selling price.

The finance committee made all checks subject to the two cents tax, eliminating the $5 exemption allowed in its original proposal.

Stricter Enforcement Of Traffic Laws Is Planned

SAFETY CAMPAIGN IS STARTED HERE AFTER SERIOUS MISHAPS

Lubbock police today reminded that a traffic safety educational campaign, begun after an automobile-pedestrian fatality here Sunday and interrupted by a similar accident resulting in serious injuries Monday, would be followed by more stringent enforcement of traffic laws here.

Virtually no change was reported at Lubbock sanitarium this morning in the condition of T. L. Simpson, jr., 10, of Lubbock, who suffered a severe skull fracture when hit by an automobile driven by an unidentified woman Monday night. Funeral services were conducted Tuesday for Mrs. Jesse McIlhaney, 20, of Lubbock, fatally injured when hit by a car here Sunday night.

The Simpson boy was unconscious late Tuesday, although he had been rational for short periods that day. Sanitarium attaches this morning said he was conscious intermittently.

Police Monday issued a list of "good things to remember" for motorists. "Don't drive over a fire hose; don't deface or destroy traffice signs; don't park within 10 feet of a fire plug; don't fail to obey the traffic officer when he signals you to stop, go ahead, or turn; don't stop your car abreast of another car, for you are double-parking; don't fail to observe the traffic signs when parking—they can save you money; don't give wrong arm-signals—learn to signal correctly; don't turn in the middle of a block anywhere—go to the corner; don't allow bicycle riders to hang to your car; don't disregard the child on the curb—remember, he can start quicker than you can stop; right-of-way does not mean right to speed; don't forget the stop-signs—come to a complete standstill," were some of the admonitions.

HUSBAND HELD FOR SLAYING

CHARGES THAT NEGRO KILLED WIFE, CHILD ARE DISCREDITED

(By The Associated Press)

MEMPHIS, Tenn., May 4—Stanley A. Puryear, garage operator, was held today on a charge of murdering the negro he said killed his wife and daughter with an axe and police sought a young divorcee for questioning about Puryear's family life.

Meanwhile, Detective Inspector Will T. Griffin charged in a formal statement that members of the Puryear family had done "everything possible to block the investigation."

Will Jamison, negro in whose slaying Puryear was charged with murder yesterday, died protesting his innocence of having killed Mrs. Puryear and the daughter. He said the garage operator offered him work early Monday morning and then shot him when they got to the Puryear home.

Puryear has maintained he shot the negro after his wife's screams awakened him and Jamison shot at him.

Smith Urges Debt To Raskob Be Paid

NEW YORK, May 4 (AP)—Alfred E. Smith last night appealed to the Democratic party to pay back to National Chairman John J. Raskob $320,000 it still owes him, both because it is a just debt, he said, and in order that the party may function as an untrammeled organization.

"I make no appeal for Mr. Raskob as an individual," the 1928 Democratic standard bearer said. "I speak for him in his official capacity as chairman of the national Democratic party."

RAINEY HOLDS NO HOPE FOR PROPOSALS

REVENUE GROUP WILL MEET TOMORROW TO CONSIDER BILLS

(By The Associated Press)

WASHINGTON, May 4.—Representative Rainey, the Democratic leader, told newspaper men today that the new-money plan for cash redemption of the soldiers' bonus "hasn't a chance of becoming law this session."

Commenting on proposals for the $2,000,000,000 outlay after over three weeks of continuous hearings, Rainey said the house ways and means committee "is not going to approve any such idea."

"The committee won't approve any flat money plan and that is what this is," Rainey said.

To Meet Tomorrow

The Illinois leader is a ranking member of the revenue group. It will hold its first closed meeting tomorrow to discuss the bonus payment bills.

"The committee will not report such a drastic inflationary scheme and even if its sponsors do get it out on the floor, it cannot become law this session," Rainey said.

Meanwhile, Representative Patman (D., Tex.) said in a statement that the action of the senate finance committee on striking from the tax bill an estate revaluation provision would prevent Secretary Mills "from making a personal inside raid on the treasury."

Patman charged yesterday before the ways and means committee that the treasury head would profit many millions through this provision of the tax bill he helped write but withdrew this criticism when acting Chairman Crisp of the ways and means committee pointed out that Mills had declined to make any recommendation on this section of the revenue bill.

TYLER, May 4 (AP)—Authorities planned to call for trial today the murder case of Barney Blackshear, 23, indicted for the slaying of Mr. and Mrs. George Brimberry, thrifty German couple of near Arp. Blackshear was ordered to go to trial first on a charge of killing the woman with a flat iron.

The defense indicated it would plead insanity. Officers said Blackshear confessed, ascribing robbery as the motive. The double slaying occurred at the Brimberry cabin.

Two Inmates Break Jail At Amarillo

AMARILLO, May 4 (AP)—Two prisoners brought to Amarillo for trial in United States district court escaped from the Potter county jail atop the new eight story courthouse last night.

The prisoners sawed their way from the dining and recreation room about 7 p. m., dropping on a rope made from blankets to the projecting roof of the fifth story. They broke through a window into the courtroom of the seventh court of civil appeals, then dropped down the fire escape to the ground.

D. T. Moore of Abilene, charged with violating the Dyer act, and Truman Franklin of Fort Worth, charged with counterfeiting were the escaping prisoners.

MANSFIELD, O., May 4 (AP)—Four persons were injured seriously and possible loss of life was feared in a mysterious explosion which wrecked and set fire to a two-story tenement building here early today.

A belief that Joseph Letecia, a tenant, and six members of his family perished in the blast was dispelled when they were found alive in Cleveland. Firemen said, however, they believed other occupants of the tenement may have perished.

DR. MYERS

Doctor Myers' Daily Column On Child Welfare

BY GARRY C. MYERS, PH. D. Head Division Parental Education Cleveland College, Western Reserve University

HELPING CHILDREN

WITH LITTLE or no added expenditure, parents can do much at home to help their children further their progress at school. In almost every home is a newspaper. In most newspapers are special articles and exercises which prove interesting and helpful to children. Some are very valuable, indeed.

No parent needs to urge the child to read the comic strip. About eight or ten million children every evening and morning are on their stomachs, or on knees and elbows over the funnies. In spite of the bad spelling and perverted forms of English read from the legends, there is no text-book which so effectively motivates silent reading in the child of elementary school age.

High school students will find good English models on the editorial page of the newspapers; even on the front page there can be found useful stories written in very forceful English. We parents often wish that some of the stories written there did not appear; but our opportunity is to lead our children to select wisely. If we do, the next generation may demand better newspapers for their children. Rather they will help the newspaper editor to print a newspaper more to his own liking.

We shall have gone far ahead educationally when high school graduates can write as well as the average newspaper reporter writes. Despite the speed with which copy for a newspaper must be written and printed, an error in spelling rarely occurs. Skilful parents, whose children find verbal problems in arithmetic boresome, can write for these children very alluring problems based on the daily newspaper.

• • •

Then there are good magazines in many homes. Don't destroy them. For school work today children need to have numerous sources for pictures to illustrate their written work. Most parents live near a public library or they shop every now and then in some center which has a library. Blessed are those children whose parents go with them to the library as soon as they can toddle, borrow books from which to read to their children who later go themselves to borrow books to take home to read.

Relatively inexpensive self-teaching materials now can be purchased in numerous stores or can be ordered from catalogues of at least a score of publishers of such home-helps. Go to your teacher or principal to learn where you may write for such catalogues or where such materials can be bought right in your neighborhood.

• • •

Every family needs at least a small dictionary, supplemented, if the purse permits, by a standard unabridged copy such as Webster's New International. Also one or several encyclopedias are now indispensable to the pupil above the fourth grade who is taught at school by modern methods. In days when the family purse is very lean, the home supplies which the school child needs to prepare his school work cannot always be had. Then, let his parents induce him to work in the nearest public library.

In many homes the purchase of learning helps for children may merely mean a readjustment of the family budget. Where the child is placed first, and the needs for his mental growth are recognized, some other things usually considered necessities, can be denied in order to provide him adequate equipment for effectual home learning. Whether the child in the home of moderate economic level has ample learning tools or not depends almost entirely upon how important his having such tools is considered to be by his parents. With our children let us try harder to put first things first.

Seat Officers For Year In P-TA Unit

With Mrs. W. W. Royalty officiating, an installation ceremony for new officers was held in the City Parent-Teacher council meeting Tuesday afternoon at the Senior High school. Mrs. N. L. Peters was seated as president to succeed Mrs. H. F. Godeke, whose term officially ends with the close of the spring school term.

In addition to Mrs. Peters, the new officers include Mrs. E. B. Wheelock as first vice-president; Mrs. C. E. Maedgen, second vice-president; Mrs. Jerome Smith, third vice-president; Mrs. F. A. Kleinschmidt, secretary; Mrs. R. V. Kimmel, treasurer.

Mrs. Godeke read the president's report, standing committees reported and Mrs. Peters told of the Summer Round-Up at the meeting, which was the last until in September. However, a program committee is to meet soon, according to Mrs. Peters, to plan next year's program.

Mrs. Peters intends to meet with the presidents and will build the program around the one selected by city parent-teacher associations.

After the installation service, a program was given. Members of the Sanders choral club and of the Mothers' chorus gave selections. Mesdames Wheelock and Paul Barrier sang vocal parts in the Mothers' chorus and Mrs. Joe Wilson was accompanist.

Mrs. Hub Jones Is Camp Fire Leader

Mrs. Hub Jones will be president and Mrs. O. L. Peterson first vice president of the Camp Fire executive council next year, according to announcements made following a meeting Tuesday evening.

Summer camp was discussed at this meeting. Miss Maurine Henderson, chairman of guardians, and Mrs. Charles Hatchett, city executive, made reports and general business was discussed.

NOW that the skinny lad was gone, wee, lazy Duncy, with a yawn said, "Well, I guess I'll take a nap I'm tired as I can be.

"There's nothing much that I can do right now to help the rest of you. Our boat just travels by itself while sailing out to sea.

"Why don't two of you join me now? The last one can get by somehow until it is his turn to snooze That way we'll all keep fit.

"We'll sleep a half an hour or so The one on watch can then shout Ho! Wake up, one of you Tinies and right in the guard's seat sit.

• • •

"A GOOD idea," Scouty said "The rest of you go right ahead and have your little catnap. I'll be first to stay awake.

"Don't worry! I will steer our boat and safely keep the thing afloat A half hour's snooze will be too short. An hour you'd better take.

It wasn't very long until all those on board the boat were still Kind Scouty watched the other three drift into slumberland.

He smiled when they began to snore and wondered what folks did that for. They're dreaming now, thought Scouty, and he hoped their dreams were grand.

• • •

ON went the boat, across the sea. Soon Scouty, startled as could be, jumped to his feet and cried, Awake! A strange thing's happening here."

The others opened their eyes. You can imagine their surprise when they all saw an old man in the water, very near.

The man exclaimed "I'm water king and good advice for you I bring. If you would have some real good fun, continue on your way."

And then he added, with a smile, "You'll shortly reach a little isle Be sure and land your boat there It's a wondrous place to play."

(The Tinies reach the little isle in the next story.)

They've Never Tasted a Tonic!

THESE are *not* patent medicine children. Their appetite needs no coaxing. Their tongues are never coated, cheeks never pale. And their bowels move just like clockwork, because they have never been given a habit-forming laxative.

You can have children like this—and be as healthy yourself—if you follow the advice of a famous family physician. *Stimulate the vital organs.* The strongest of them need help at times. If they don't get it, they grow sluggish. Dr. Caldwell's syrup pepsin is a mild, safe stimulant.

When a youngster doesn't do well at school, it may be the liver that's lazy. Often the bowels hold enough poisonous waste to dull the senses! A spoonful of delicious syrup pepsin once or twice a week will avoid all this. It contains fresh laxative herbs, active senna, and pure pepsin, and does a world of good to any system—young or old. You can always get this fine prescriptional preparation at any drug store. Just ask them for Dr. Caldwell's syrup pepsin.

Get some syrup pepsin today, and protect your family from those bilious days, frequent sick spells and colds. Keep a bottle in the medicine chest instead of cathartics that so often bring on chronic constipation. Dr. Caldwell's syrup pepsin can always be employed to give clogged bowels a thorough cleansing, with none of that painful griping, or burning feeling afterward. It isn't expensive.

"I'M NOT AFRAID TO ADMIT MY AGE"—*says Judith Anderson*

"I'm 30 years old," says Judith Anderson, famous Broadway star. "On the stage you have to stay youthful, so we all are very careful about our complexions. *"I've* used Lux Toilet Soap for years—it's such a sure way of keeping your skin soft and attractive."

In Hollywood, of the 694 important actresses, including all stars, actually 686 use this fragrant white soap. Surely your skin should be kept youthfully aglow. Buy several cakes—at just 10¢—today!

About Finicky Husbands and Coffee

Here's Why Changing the Brand of Coffee You Use Has Not Made the Coffee You Serve Any Better

IF you've changed your brand of coffee and your way of making it a dozen times without success, don't give up. There's a simple way to get the kind of coffee you want.

In spite of all the different "brands" you've tried, you have probably been getting the *same kind of coffee all along.* Almost 70 per cent of all coffee sold in stores is this one common kind. It's all grown in one producing country, though it's put up in countless packages. Do you wonder that you got the same flavor in all those different brands?

There's only one way to get a real change. Use coffee that comes from a *different producing country.* Any coffee expert will tell you this.

Rare Mountain Coffee

The world's choicest flavored coffees, as any expert will tell you, come from a few tiny districts. They are grown chiefly along the West Coast of Central America. From this famous region we procure coffees with a rare tang and rich mellow body, utterly unlike any coffee you have ever used before.

This is the coffee that Folger brings you today packed in vacuum. It's not only delicious, but thrifty. Its extra richness and quality make it go much further. And its rare flavor is kept fresh from the roaster right to your coffee pot by the latest type of key-opening vacuum sealed tins. If you want a real change—*in coffee*—and not merely in name, try it.

A 3-Day Test of Flavor

Just go to your grocer and buy a pound of Folger's. Drink it tomorrow morning.

Next morning serve the coffee you have been using. The third morning serve Folger's again. Then choose between them.

If for any reason you decide against Folger's, your grocer will refund your money. We'll pay him. That's fair, isn't it? ©F. C. C., 1932

BROOKLYN DODGERS BEGIN TO REVEAL LATENT POWER AT BAT

SPYING ON SPORTS

BY COLLIER PARRIS

Dalton Blagg, regular right end on the championship Westerner football lineup last year and one of the outstanding performers on Coach Chapman's track and field team this spring, will be Lubbock's sole representative at the Texas Interscholastic league athletic carnival at Austin this week-end. Blagg does the broad jump. His leap of 22 feet plus at the District 2 meet here set a new district record.

* * *

Since the league does not allow expenses for trips to the state meet and since Lubbock High school authorities are not interested in sponsoring a full delegation to the meet, Coach Chapman could not afford to send but one man. Other Westerners who placed in the District meet are eligible, however. We are glad to see Blagg make the trip. He deserves it and should appreciate it. He was never given enough credit for his work on the football field last fall, and it is good that he had the opportunity of making the trip. A jump of 22 feet may not be good enough to win the state first place. The record established last year by Scrimsher of Main Avenue High of San Antonio, is 24 feet and one-half inch. It is also a world's scholastic record.

* * *

An appeal is being made through the schools, colleges, universities and athletic organizations to Mr. American Citizen in an effort to raise funds to warrant the proper entry of the United States in the 1932 Olympics. No less than $350,000 must be in the coffers, it is announced, before America can strut before the reviewing stands at the Olympic games in Los Angeles this summer. Lubbock and Texas Tech has been asked to do its part in this patriotic movement. Thus, the Tech athletic department will throw another big stag party and fun night on the night of May 19 and will charge admission at the rate of two bits per throw.

* * *

Now this department is as interested as anybody in athletics and would take great pride in seeing America win the Olympiad this summer. It is a fine thing for the entire world, for it brings great athletic teams of nearly every country in the world upon mutual and neutral grounds in friendly combat. But we can't, for the life of us (and we've been trying for the past 12 hours since Cawthon told us about it) work up a lather and break into a furious sweat over the prospects of asking an already over-taxed American public to ship three hundred and fifty grand to Los Angeles, Calif., this summer and take chances on American athletes' possible victory.

* * *

Bigger and perhaps better men than this correspondent have fallen for the idea, which smacks of loyal patriotism for the fatherland, and are busily engaged in promoting rackets, proceeds of which will be kindly handed over to the American Olympic finance committee; it is barely possible that we are behind the times, have no such patriotism and need to be dried off Loads and reams of publicity have been given the great financial movement, the cost of which will itself amount to several thousand dollars, and honest efforts are being made to collect the dough.

* * *

The American government does not sponsor its Olympic teams. No, if it did some poor senator or cabinet member might have to give up a third chauffeur and even forego that much desired Super Suffering Sixteen. The majority of American citizens would much rather see that money, now spent on capital city executives and their luxuries, used to further the cause of American athletics in general and the Olympic teams in particular. Instead we gnash with fury at the latest tax assessment. Other countries have governments which appropriate definite and liberal sums for their Olympic teams. Expense bills are promptly sent to the head office and there is no kickback. Not so in America. So you can't blame the Olympic finance committee for trying every way in the world to collect the money.

* * *

Cawthon, Smith and Morgan promise a highly entertaining program for the May Fun and Fight Night, and if the crowd is like the usual run, the Olympic finance committee ought to take the hint and throw another Fun Nite For Men Only. About two would turn the trick.

GIANTS ARE IN POSSESSION OF CELLAR

BOSTON BRAVES, CUBS MAINTAIN FIGHT FOR LEAGUE LEADERSHIP

BY GAYLE TALBOT
Associated Press Sports Writer

The Brooklyn Dodgers, who have had neither pitching nor hitting to speak of since they completed their course in calisthenics this spring, at last show symptoms of recovering their batting eyes.

The latent power in their bats burst forth yesterday against the Giants. Trailing by five runs going into the ninth, they fell on three ofMcGraw's curvers for eight runs to win, 11 to 7, and leave the Giants in complete possession of the National league cellar.

Braves Hold Pace

The Boston Braves and Chicago first place in the senior league, the Braves clinging to their one-game advantage by beating the Phillies, 9 to 4, while the Cubs came from behind to trim the Pirates, 8 to 6.

"Dizzy" Dean, the Cardinals' much publicised rookie, finally came through with a shut-out victory over Cincinnati, 9 to 0. In winning their last three games, Hallahan, Johnson and Dean have granted the opposition just two runs.

Although three Washington pitchers issued 16 passes, the Senators staggered through to a 5 to 4 win over the Yankees. It was the leaders' third straight over the Yanks and their sixth win in a row.

Cleveland's winning streak was snapped at nine straight when the St. Louis Browns outslugged the Indians, 11 to 8.

George Earnshaw was in rare form, yielding only four hits as the Athletics won another from the Boston Red Sox, 6 to 1.

Detroit and Chicago were rained out.

WHITNEY HORSE MAY WIN DERBY

LOUISVILLE, Ky., May 4 (AP)—A Whitney horse may win the Kentucky Derby after all, in the opinion of scores of railbirds who thronged Churchill Downs to watch the first gallops by Stepenfetchit and Overtime, Mrs. John Hay Whitney's eligibles for Saturday's $50,000 classic.

Withdrawal of C. V. Whitney's crack filly Top Light and Mrs. Payne Whitney's Curacao from the Derby field left Mrs. John Hay Whitney the only member of that prominent turf family to have representation in the historic race.

Stepenfetchit will be ridden in the derby by the veteran jockey, L. Ensor. Earl Sande himself, who has had mounts on three Derby winners, will ride Overtime in his attempt to make his recent turf comeback decisive.

Mrs. L. G. Kaufman's Tick On is the pre-derby favorite and the leading eastern candidate. Col. E. R. Bradley's entry of Brother Joe and Burgoo King bear the hopes of the west.

TWO CHILDREN HURT

A small boy, Bobbie Griner, 2001 Avenue J, fell out of a tree about noon yesterday, and underwent treatment for a fractured arm at West Texas hospital. A needle was removed from the knee of Marjorie Johnston, small daughter of Guy R. Johnston, state highway department engineer, of 1804 Avenue X, at West Texas hospital about noon yesterday. Both children were dismissed.

One-Armed Player Stars In Contest

NEW HAVEN, Conn., May 4 (AP)—Captain Eddie Warren of the Yale nine doesn't intend to have the loss of his left arm interfere with his baseball career.

Dissatisfied with watching his team from the bench, he convinced coaches and physicians that he still had a lot of good baseball in his system. Yesterday he went out to right field for the Yale-Wesleyan game to clinch his argument.

His contribution to the Yale 15 to 2 victory was one hit, one run, one run batted in and the snappy fielding of two hot liners.

Warren lost his arm in a motorboat accident last summer after receiving the baseball captaincy.

BOXERS ARE TO SEEK CROWN

AMATEURS TO BATTLE TONIGHT WITH EYE ON OLYMPICS

NEW YORK, May 4 (AP)—With one eye on the forthcoming olympics, the class of this country's amateur boxers, 165 holders of titles in 29 A. A. U. districts, will compete in the national championships, starting in Madison Square Garden tonight.

The four top men in each of the eight divisions will be eligible for the final olympic tryouts at San Francisco the second week in July.

In point of numbers, the middleweights lead all the rest. Twenty-four youngsters from every section of the country seek the 160-pound crown. There are 22 entries in each of three other divisions, light heavyweight, featherweight and lightweight. The heavyweights, welterweights and flyweights each number 19 while the bantamweights bring up the rear with 18.

Eddie Flynn of Loyola university of New Orleans is the only 1931 king back for another shot at a title. He will defend his welterweight crown.

MUSTANGS, OWLS TAKE CONTESTS

COLLEGE STATION, May 4 (AP)—The Rice Owls today were ahead of Texas A. and M. and Baylor in their fight for third place in the Southwest conference baseball race. The Owls yesterday defeated the Aggies 3 to 1 while Baylor was dropping a 2 to 1 contest at Dallas to Southern Methodist university. "Smokey" Klaerner, the Owls' ace, limited the Farmers to five hits and struck out nine. The Owls got only three singles off Bob Scheer but they were aided by six Cadet errors.

Another pitchers' battle was staged at Dallas between Raymons Alford of the Bears and "Bud" McLeod of the Mustangs. A Baylor rally in the ninth was almost disastrous to the Methodist prospects of winning their first conference tilt of the season but a relief pitcher saved the game.

DALLAS TAKES SAN ANTONIO INTO CAMP

FT. WORTH CONTINUES TO LEAD BY WINNING 15 OUT OF 20

BY BILL PARKER
Associated Press Sports Writer

A new move was made yesterday in the Texas league race. Dallas jumped Houston and went into second place because the Buffaloes were defeated by Wichita Falls while Dallas washed the war-paint off the San Antonio Indians. However, Fort Worth checked all movements to oust them from first place by beating Beaumont for their fifteenth victory in twenty starts.

The Steers beat San Antonio 3 to 2 to help George Murray, ace right-hander, chalk up his fourth victory this season. Both clubs made six hits. Sanders pitched well for the Indians. In spite of the good hurling, the game was listless.

Boot Game Away

"Cowboy" Jones, recently released by Dallas and signed by Beaumont, tried his best to give his new team a victory over Fort Worth. He made two hits and batted in three runs but his mates booted the game away in the pinches. Jones hit a triple and home run but errors in the seventh allowed Fort Worth to cash in.

Gus Whelan's home run in the second inning with two men on base was the blow that gave Shreveport a 6 to 3 verdict over Galveston. Milt Steengrafe went the route for Shreveport and was hit hard but pulled through.

Manager Henry Severeid of Wichita Falls showed his boys how when he hit a home run in the sixth inning with the bases loaded to help beat Houston, 10 to 5. This rally enabled the Spudders to overcome a three-run lead. Pressnell pitched a fine game, allowing only four hits. Two of them were successive home runs in the sixth by Joe Medwick and Homer Peel.

GUS MORELAND IS DEFENDING TITLE

DALLAS, May 4 (AP)—Match play started today in the annual Dallas city golf championship. Gus Moreland, Texas amateur champion, is defending champion over his home course, the Dallas country club. He met John Noble, crack municipal star, in his first round match after qualifying with a 154.

O'Hara Watts, Southwest conference golf champion, won medalist honors with a 75-75—148. Watts met David Clark, high school star, in his first round match.

Moreland, who plans to compete in most of this year's outstanding golf tournaments after winning eight major southwestern events last year, had one of his worst rounds yesterday since he attracted major attention. He carded an 80 after playing the first 18-holes in 74. However, he was the outstanding favorite when the first round matches started today.

INTRASQUAD GAME SCHEDULED TODAY

Texas Tech field is the scheduled site of a football game this afternoon when two Lubbock High school teams meet in the third contest of a bitter series. The game features the long grind of spring football practice.

Coach Weldon Chapman's Jellies will clash with Coach Burl Hoffman's Toughs at 4 o'clock on the Matador gridiron. In two previous games the scores were tied once and in favor of the Toughs, 6 to 4, once. Packed with bitter rivalry which sometimes results in hand to hand combats, the games have drawn fairly large crowds heretofore.

Thought For Today

Oh, that I had wings like a dove.—Psalms 55:6.

WAS never secret history but birds tell it in the bowers.—Emerson.

Interesting Data

Sometimes during the next few years some uncommonly interesting new histories of the Revolutionary War ought to be written.

The William L. Clements Library of the University of Michigan has just acquired a vast bundle of letters, diaries and other documents written by Hessian officers who served with the British troops in America during the Revolution. For a century and a half these papers rested in a trunk in a German castle, and no historian ever saw them. Now they are to be made available for presentation to the public.

The Hessians have always been the villains of the Revolutionary story. But even the most unimaginative student must have wondered about them occasionally. What did these hired soldiers think of the epoch-making struggle in which they had been paid to take part? What sort of a time did they have in America? How did they get along with their red-coated comrades in arms, and what were their opinions of the ragged continentals?

So far we have never been able to do anything but guess. There has been an indication or two, of course. It is known, for instance, that of 30,000 Hessian soldiers brought to America during the war, only 17,000 returned to Germany after peace had been signed. Many, of course, had been killed in action; but many more, sick of the war and attracted by the open new country, had deserted and had become pioneer settlers. How many old American families, one wonders, could trace their ancestry back to some disgruntled hireling of the Landgrave of Hesse-Cassel who went A. W. O. L. and forgot to return?

Now we are about to find out in considerable detail just what the Hessians felt about everything; and it ought to make mighty absorbing reading. As the quaint old tombstone in the Boston cemetery says, the Hessians came 3000 miles and died "to keep the past upon its throne." They failed; and so far they have been mute actors in the drama. History will be the richer when their private thoughts are finally spread upon the record.

Movies

The bull fight is popularly supposed to be Mexico's favorite diversion; but a brief article in a theatrical magazine recently indicates that the movies have pushed the bull ring into a very poor second place.

During 1930, there were sold in Mexico City and its environs some 18,500,000 admissions to places of public amusement. Of these, almost 16,000,000 were tickets to the movies; and only 160,000 were tickets to bull fights.

Just what all of this proves is not entirely clear; in the United States, for example, the movies outdraw baseball by a wide margin, but baseball is far from losing its popularity. It does indicate, though, that the bull fight may not be quite as great an obsession with the Mexicans as we commonly suppose.

AMONG various and sundry special writers whose material comes regularly to The Journal is J. J. Mundy, whose feature 'Once Overs' appears in practically all the newspapers operated by William Randolph Hearst.

Perusing Mr. Mundy's latest endeavors, The Plainsman came upon one of his articles which is worthy of attention in Lubbock and everywhere else—particularly in times like these. Under the caption "Your Mind", Mr. Mundy remarks:

"How about making definite plans for the next day, during the evening?

"Do you drift from one day to another with your work?

"No definite plan laid out in advance—just a routine machine, is that you?

"No thought given to improvement in your production, means going backward.

"Or are you one of those employes who is 'not paid to think'?

"Have you carried this spirit so long that you find sustained thought almost impossible on any subject?

"Even in the game you play, you realize that you might be a better player, if you were willing to concentrate as do the others who are more expert.

"But you are unwilling to exert control over your mind enough to give full attention to what you are doing.

"You do not like to think because it entails effort and so you just jog along through life, from one day to another, almost aimlessly.

"Thus you have wasted what might have been to you a faithful servant.

"Your mind would serve you more and more with the years.

"It is only disuse that slows up and dulls the mind.

"The more you make your brain work, the more capable it is of working.

"Cultivate the greatest power you have on earth, your mind."

WHEN you get right down and consider it, human beings are the most peculiar species of life in the world. There is no way of measuring human thought or desire—and certainly there is no way of fathoming the reasoning powers of the genus homo.

Consider, for instance, the Doukhobors—that bunch of Russians who are now living in Canada, who insist on parading without any clothes on. Can you figure the 'why' and the 'wherefore' of that?

* * *

Every once in a while you pick up a paper and read about a riot that has resulted from the desire of the Doukhobors—men, women and children—to run up and down the streets naked, and you really can't blame the conservative citizens of Canada for objecting to nude parades.

If there's any logical reason for it—that is, for the nude parades—it's powerful hard to uncover. About the only way it can be explained is by saying "oh, well. People are funny!"

Ain't it so?

WHILE no patron of the Goddess Terpsichore himself, The Plainsman finds no hesitancy in suggesting to those who like dancing that they attend the Doube-T club dance Saturday night at the Uptown Dance palace.

The frolic will be a benefit for the Tech Athletic association and is being engineered by Parker Prouty, Pete Cawthon, Soffie Wells and various and sundry other grid fans.

* * *

Management of the Dance palace has very kindly donated the hall as well as Saturday night's time for the party. Mrs. Doak has ok'ed the dance and Smiling Sam Shumate, in person, will lead his Varsity Rhythm Kings in the musical numbers.

All in all, the offering is promising for those who like to dance and, at the same time, want to do something patriotic for the Tech athletic department.

* * *

PERSONALLY, The Plainsman doesn't expect to do much dancing but he does expect to be on hand for awhile, just to hear the Rhythm Kings and the aforementioned Mr. Shumate who, incidentally, is quite a showman.

Mr. Shumate has already promised The Plainsman that he'll sing "Oh Monah", "Jig Time" and "The Wooden Soldier and the Painted Doll", which alone should be worth the dough.

Better go and help the game along.

SOLDIERS RID WEST TEXAS OF THE INDIANS

Other important Indian fights of West Texas fit in here very well. These have been told before, but I may be able to add a few facts. Even West Texas has an interesting historical background, and I am telling these facts in order that our citizens may know more of the actual truths concerning this background of our country and the pioneers who made possible its development.

Jim Chick, a Texas ranger, with whom I used to work and knew very well back in Palo Pinto county, told me the story that follows. He was a participant in the expedition and fight and knew the details.

Sul Ross, later governor of our state, on one of his trips out to West Texas to fight Indians that were raiding the frontier, captured an Indian boy, carried him back to Waco and raised and educated him. His white captors gave him the name of Pease Ross, the first name for the Pease river where he was taken, and the last for Sul Ross.

Cynthia Ann Parker

Cynthia Ann Parker, whose name is better known to the reading public, was taken in the same battle. That was in 1860. About 25 years previously, the Indians had captured Cynthia Ann as a small girl during a raid in Central Texas. She grew up, learned the Indian language and ways of living, forgot her native tongue, married the Indian chief Nocona, and was the mother of the late Chief Quanah Parker of the Comanches, for whom Quanah, Texas, is named.

Ross and about a hundred or more rangers, soldiers, and other Indian fighters surprised the band of Comanches at their camp on the Pease, killing men, women and children before the Indians realized what was taking place. Noticing a woman with blue eyes and light hair among the Indians, Ross saved her and the small child she carried in her arms. Although she was returned to her white relatives, she was never satisfied living with her own race. The Indian boy was also picked up from the battle field by one of the rangers and carried to camp. Ross took a liking to the boy and adopted him.

After Pease had grown up, he left Ross and came out to Palo Pinto county and went to work for the Slaughters in 1874 or '75. I knew him well and worked with him there for several months in 1876. He was a good cowhand, but he soon left and we never heard of him again.

On Mackenzie Trail

When we came to Crosby county, the trail Gen. Mackenzie and his men made on their expedition through that country in 1874 was still visible. The wagons had been driven two abreast in order that they might be close together for use as breastworks in case of an Indian attack.

The slaughter of the buffalo was then on. An attempt was being made to keep the Indians confined in Indian territory, but the killing of the buffalo probably irked the redskins a little and they were giving more and more trouble among the settlements. The U. S. Government set about to stop these Indian depredations and commissioned General Nelson A. Miles and General Mackenzie to make war against all Indians caught off the reservations.

Miles worked up in Kansas and the Northern Panhandle and drove many Indians back to the Territory. But one large tribe, instead of going back to the Territory, headed south down the Palo Duro Canyon. Mackenzie, who was the best Indian fighter in the Southwest, and his company of 650 or 700 men came up from the south by way of Fort Griffin and Blanco canyon, going out on the Plains just above Silver Falls. Marching on to the Palo Duro, he met this large tribe and soon the famous Mackenzie battle was on. Many of the Indians got away, but Mackenzie captured and killed about 1500 head of their horses, those killed being left almost in one pile. He killed the horses in order to put the Indians afoot so that they would have to return to the Territory.

Soldiers Were Rivals

After the battle, Mackenzie and his men went on north to the Tascosa country. At this time both Mackenzie and Miles were rising Army officers and full of ambition. Miles possibly had a strong political pull at Washington, at least he was in line for advancement. There was possibly a bit of rivalry and enmity between the two. The story is told that one moonlight night Mackenzie was sitting on a log and looking into the starry skies when a fellow-soldier walked up and asked him what he was doing.

"Oh, just star-gazing", was Mackenzie's reply.

"There are Miles between you and that star", was the discouraging but truthful remark returned by the soldier.

Following one of the raids on down-state outposts by Indians, in about 1875, I think, Captain Nolan and his company of negro soldiers, the 10th U. S. Colored Cavalry, set out in pursuit of the trouble-makers. In addition to the soldiers, Nolan had a Mexican guide, Jose by name, and several buffalo hunters. Among the latter were Dick Wilkerson, Jim Harvey, and Bill Chris, who told me the story of their expedition and its fatal ending.

Indians Trick Soldiers

The party followed the Indian trail across the rough country east of the Plains and out onto the prairie of Lynn and Terry counties. It was summer time—hot and dry—and all the water the party had was in their canteens. Jose was supposed to know the country. But the Indians knew it better, and through their cunning starved out their foe and "gave them the slip". With Nolan well to their rear during the chase, the Indians, knowing the country perfectly, would take turn dropping away from the main tribe in small parties to nearby lakes for water. This they kept up for about two days. Nolan and his men, not realizing the close proximity of water or the meaning of the Indians' antics, soon were almost starving. This led to dissention in the party. Some wanted to turn back. Jose said water was closer to the west than to the east. Nolan wanted to go on and gave the order to do so. Wilkerson, Harvey, Chris, and the other civilians said they were their own bosses and would turn back. Whereon, the negro soldiers also refused to go ahead. Thirst- crazed, the party split up, finally ending in each man, including Nolan, attempting to return to water and civilization on his own hook.

At least 14 negroes starved to death or were never accounted for. Some of the men killed a horse and drank the blood to keep from starving until they could finally straggle to watering places. Some of the negroes were said to have starved near lakes of Lynn and Terry counties where they could have gotten water from springs.

Many Indians Killed

These Indian fighters, the buffalo hunters, and the settlers who were rapidly extending their lines westward finally put the Indian back on his reservation and opened up this great section to development. The fighters killed many Indians and kept them harrassed by hostilely meeting them on every front.

Frequently the buffalo hunters are censured by our present-day folks for the wanton slaughter they practiced in killing off the buffalo. However, this was a great factor in putting the Indian out of the way so that the settlers could come in.

The buffalo was almost the sole existence of the Indian. It was his food; its hide furnished him clothing for his body and cover for his teepee. Not before the millions of buffalo that roamed the pariries of West Texas until the late 70's had been killed off, was it possible to force the Indians into confinement. And when we start censuring those who slaughtered this wild game by the thousands for sport and profit we should take into consideration the fact that had these animals not been killed it would have been many more years before the Indians could have been subdued.

BEHIND THE SCENES IN Washington

BY RODNEY DUTCHER

COURAGE IN CONGRESS

WASHINGTON, May 4—Bravery in politics seems to become increasingly rare and occasional instances of it usually create a major sensation.

Dutcher

Few persons expect it any more, of course, but this particular season, when it might be argued that a more than ordinary degree of courage is called for in Washington, seems to be accentuating an unusual amount of caution or cowardice or whatever you want to call it.

You can find plenty of seeming or alleged examples of brave words and deeds, but close scrutiny usually proves them to be phoney, in the sense that they are dictated by the common passion of all politicians for salvation of the epidermis.

* * *

Attack the Weak

This gallant battle for federal economy, for instance, is a mere panic. The Congress has been so thoroughly scared by a grim, national demand that it has grabbed an ax and started a career of slaughter—but slaughter only of such weaklings in the field of government expenditures as can't possibly fight back.

The net result is uncertain, but most members have thus far seemed perfectly willing to fire thousands of poorly paid government employes, cut the salaries of the rest—by what in some instances runs as high as 25 or 30 per cent through pyramid economies, while ignoring possibilities of hundreds of millions to be spent on various forms of refined political graft, pork, veteran appropriations and huge military and naval expenses.

Constructive, educational, humanitarian activities of the government are those hardest hit.

Getting any intelligent, courageous, careful, humane economy programs through Congress would be out of the question.

* * *

Hoover and Roosevelt

But the practice of picking fights only with little fellows who can't fight back is not confined to Congress. It is also a confirmed presidential practice. Whether this is a personal weakness or an inescapable fault bred by the political system need not be discussed, but anyone will promptly get the point by considering President Hoover and Governor Franklin D. Roosevelt, one of whom probably will be the next president.

Few men have taken more severe sarrastic pannings for vacillation and lack of courage than those two gents. The one consistent, constant criticism of Hoover has been that he lacked what, for the sake of a dear Aunt Emma who reads these dispatches daily, may be called intestinal stamina. Today that's the thing you hear oftenest about Roosevelt.

The occasions those two heroes select to get really "fighting mad" have become almost a standing joke. One refers not to their noble last ditch determination to battle for prosperity, the flag and the sanctity of the home, but to their clashes with actual live issues, groups or other personalities.

* * *

The President's Battles

Prior to nomination and election, Mr. Hoover's favorite fight was with the Russian Bolsheviki. Standing behind the banquet tables, he used to wipe the floor with those fellows time and again.

As president, he has hurled the lightning of his powerful office at such obscure persons as William B. Shearer, William Howard Gardner and Congressman Louis T. McFadden. Shearer was the lobbyist for shipbuilding companies alleged to have broken up the Geneva conference. Garner, head of the Navy League, had criticized the Hoover navy policy. With mighty roars, the president brought down his wrath upon them and held them up to national scorn.

And McFadden, severe critic of Hoover and his moratorium policy, felt the vast pressure of the administration when he was deprived of his patronage and assured by a presidential spokesman of political extinction.

Another Daring Fight

Roosevelt's most daring onslaught to date is his recent attack on the two New York clergymen, Dr. John Haynes Holmes and Rabbi Stephen Wise, who urged him to fire a Tammany official accused of graft.

The governor reached new heights of moral indignation and dauntless fortitude as he belabored them for their impudence.

It looks as if most politicians this year would confine their slashing attacks to the iniquities of the Eskimos.

Abernathy To Hold Livestock Exchange

ABERNATHY, May 4.—(Special).—The first of a tentatively scheduled series of livestock exchanges for farmers of Abernathy's trade territory in northern Lubbock and southern Hale counties will be conducted here Saturday under auspices of the Abernathy Chamber of Commerce, J. T. Carlisle, temporary chairman, has announced.

Other members of the committee are: W. H. Brown, H. E. Richter, and W. C. Jenkins. Continuation of the exchange days through the sumer months is an oject.

Pens of J. J. Riley, local cattle shipper, have been secured for the exchange. Farmers who have livestock to trade, are asked to bring it to the pens Saturday morning. The exchange starts at 2 o'clock in the afternoon.

It is hoped to hold these exchanges at least bi-monthly and later weekly.

She THINKS it's "RHEUMATISM" ... but it's really SELF POISONING

Do those twinges of pain in your muscles and joints mean that you have rheumatism? Not necessarily.

Thousands of people who think they have rheumatism are really suffering from self-poisoning. Poisons from putrid waste in the intestines have been absorbed into the blood. The polluted blood in turn carries the poisons all over the body. They not only torture the joints and muscles, but soon attack the kidneys and other vital organs. In time they even irritate the brain.

So if you have pain in the muscles and joints don't be in a hurry to call it "rheumatism." First make a little test to learn the truth.

AN AMAZING TEST

For the next three nights take a dose of B-L Tonic. If your case is like those of thousands of other so-called rheumatism sufferers you will be amazed at the improvement in three days. The pain will rapidly disappear. Your system will eliminate a startling amount of foul-smelling poisons. You will begin to feel healthier, happier. But that is only a promise of the reward to follow. Continue taking B-L Tonic every night for three weeks. You will thus keep the poisons from regaining a foothold in your blood. Meanwhile the stimulating properties of B-L Tonic will sharpen your appetite, improve your digestion, and thus help build up a more robust resistance to disease. Nine chances out of ten that's all you need to get rid of your "rheumatism." Get B-L Tonic at Mark Hainey Drug Co., and druggists everywhere

DAIRIES HERE GET RATINGS

ONLY ONE OUT OF 45 FAILS TO OBTAIN GRADE A RATING

The city health department gave Grade A ratings to 44 dairies distributing milk in Lubbock, D. F. Wulfman, the department's bacteriologist, said Tuesday in announcing the classifications. Failure to meet plant requirements prevented one dairy from receiving higher rating, he said.

For a grade A rating, raw milk must show a bacteria count of less than 50,000, Wulfman explained. The bacteria count per cubic centimeter for pasteurized milk to be given the top rating must be less than 10,000.

Several Tests Given

Texas Tech dairy and Bell Ice Cream company milk, both pasteurized products, had a count of 2,000 and 3,000, respectively. Four or more tests were made before the ratings were fixed. These dairies, with the bacteria count of their raw milk according to the tests, rated grade A:

F. W. Austin, 6,000; Clifton Barrier, 12,000; Frank Bowles, 16,000; G. B. Bowles, 27,000; A. C. Brown, 31,000; Clover Leaf, 31,000; B. C. Clutter, 14,000; R. L. Coker, 12,000; N. R. Cogburn, 30,000; Ben Dixon, 19,000; J. T. Dodd, 26,000; M. B. Dresser, 33,000.

NEGRO PUPILS IN CLEANUP DRIVE

Pupils in the Lubbock negro school Tuesday completed a drive in which they picked up 641 pounds nails and tacks. They were instructed by E. C. Scruggs, principal o fthe negro school, to pick up only nails and tacks. The principal offered individual prizes in the nail pickup, which was a part of the third annual cleanup and paintup campaign under way here.

Confined to their own district, the negro children collected nails, many of them tiny and most of them rusty, which filled several large cans and sacks. Officials of the cleanup drive announced the poundage, and commented on the work of the pupils, saying the pickup not only would improve appearances but would lessen the grief of motorists. The nails are on display at the school.

Lubbock Boy Scouts picked up 9,316 pounds of junk on Lubbock streets Saturday, April 23, in connection with the cleanup drive.

tion vote to 788 as Rhode Island instructed eight for him. Only 378 are required to nominate for the Republicans.

Representative McDuffie of Alabama, the Democratic whip, a Garner supporter, had this to say on the California returns:

"Mr. Garner has never been a party to the stop-Roosevelt movement and whatever happens at the national convention in Chicago, I hope the meeting will not be long drawn out and that a short platform will be adopted."

Speaker Garner maintained his silence about the nomination when asked by newspapermen for comment on the returns from California, but he did say:

"The most interesting thing to me is the large Democratic vote. I understand it was the largest on record in California. I think it most significant."

Senator Connally (D., Tex.) in a statement said "Garner's victory in California is significant and encouraging.

"The factional fight between Smith and Roosevelt is making Garner stronger every day. The party can unite on Garner and elect him."

DAILY MARKETS

Cotton Market

NEW YORK REPORT

NEW YORK, May 4 (AP)—Cotton opened steady today at a decline of 7 to 10 points on local and scattered selling. July sold at 5.56.

Reports of favorable weather in the south and reiterated talk of nothing more than a moderate reduction in acreage seemed to be coming for a little more attention while slight bulges right after the call met a little more selling, which may have been influenced by reports of weakness in the stock market. July contracts sold off to 5.61 and December to 6.00 by the end of the first half hour, making net losses of about 11 to 13 points.

Liverpool cables reported hedging and liquidation combined with some selling on the advance in sterling and the weakness of Egyptian cotton in that market and houses with Liverpool connections were among the early sellers here. According to the new York cotton exchange service, sales of fertilizer tags in the nine principal cotton growing states for April totaled 787,000 short tons against 1,005,000 for the same month last year.

Some southern selling also was in evidence during the morning and while offerings were absorbed by covering and trade buying, the decline extended to 5.58 for uly and 5.82 for October with the market at midday showing net losses of about 12 to 18 points. The weekly report of the weather bureau said germination and growth were unfavorably affected in most sections because of low temperatures but in other respects attracted favorable comment.

NEW ORLEANS REPORT

NEW ORLEANS, May 4 (AP)—Cotton opened slightly easier today in sympathy with lower cables than due. First trades here showed losses of 2 to 4 points. Prices recovered one to two points right after the start on a little covering, July trading at 5.70 and October at 5.93.

The market soon turned easier again owing to opening weakness in the stock market and a renewal of liquidation and July dropped to 5.59 and October to 5.84, down 11 to 12 points from yesterday's close.

Near the end of the first hour the market was quiet and rather easy, prices showing a downward tendency.

The market continued to ease off all morning, owing to continued liquidation and lack of encouragement from the stock market. July dropped to 5.54 and October to 5.77, down 17 to 18 points from yesterday's close.

Near mid-session the market was slightly steadier and had recovered one point from the lows.

The weekly weather and crop summary was regarded as rather unfavorable.

Stock Market

WALL STREET REPORT

NEW YORK, May 4 (AP)—A moderate quickening of selling early today in the stock market was followed by some abatement of pressure.

On the whole, however, the financial markets still reflected uncertainty and discouragement. Weakness of C. S. government bonds and some further selling of the American dollar abroad again reflected uneasiness over the federal government's difficulties in balancing its budget.

Issues losing 2 to 3 points at the worst included American Telephone, Allied Chemical, Coca Cola, Hershey, American Tobacco "B", Norfolk and Western, W. T. Grant and Jewel Tea but after midday there were numerous recoveries from fractions to a point. U. S. Steel sold off 1 3-8 to 36 3-8, then recovered a minor fraction.

Two White Men And Negro Escape Jail

COOPER, May 4. (AP)—Two white men and a negro charged with burglary escaped last night from the Delta county jail. They were J. T. Singleton, Dock Goodyarn and Ernest Stewart, negro.

The men had been left in the runaround. They crawled through a ventilator in the roof and lowered themselves to the ground with a rope made of blankets. A few minutes later Weldon Jones, charged with assault to murder, reached the outside in the same manner, went directly to the courthouse and notified officers.

Liquor Dispensing Stores Are Closed

AGUA PRIETA, Son., Mex., May 4 (AP)—All liquor dispensing establishments in this border town were closed today in protest against the new government liquor permit tax.

The saloon owners describe the tax as confiscatory, and say they might as well close as they cannot pay the tax and make any profit. The duty is approximately twice that of the old.

All liquor dispensaries, including those run in connection with cafes, in Agua Pieta have been closed since Saturday at midnight when the new tax became effective.

Grain Market

CHICAGO REPORT

CHICAGO, May 4 (AP)—Upturns in Chicago grain prices early today resulted from relative strength shown by the Liverpool wheat market. Absence of selling pressure here was conspicuous. Opening unchanged to 5-8 higher, Chicago wheat futures soon rose all around. Corn started at a shade decline to 1-4 advance and later held near the initial figures.

FISHING NOW ON IN SHANNON LAKE

Fishermen of Lubbock are now enjoying fishing again in Shannon park, formerly known as the county park, a half mile east of the city. Scores of fishermen are lining the edges of the lake daily and several excellent catches have been reported since Sunday, County Commissioner Claude Burrus, who has charge of the lake, says.

The county court has adopted the same plan as in previous years of allowing fishing in the lake and permits for fishing are now on sale daily. Daily permits are sold at twenty-five cents each.

Fishermen are assured of better catches this season than ever before in the lake, Mr. Burrus said. New stock of bass, crappie, catfish, and goggle-eyed perch were placed in the lake late last summer.

cooperation of all connected with the organization, when an effort is being made by scheming crooks to debauch and destroy one of the state's greatest industries.

"At this pivotal moment when the oil industry is in the throes of pain, when designing men seek to defraud the honest yoeman of East Texas out of a god-given birthright, Pat Neff remains away from the scene of action and continues his policy of criticism, refusing cooperation, but suggesting what should be done in the premises, in lordly newspaper headlines.

"If Neff knew of irregularities among the more than 170 employes of the commission, as a servant of the public, who has been the recipient of many honors in the past, from a people always grateful to any faithful public servant, he should have given us the benefit of his information. It is too late to lock the stable door when the horse has been stolen."

The revolt flamed afresh along the Hulan-Hailun railway north of here where the former followers of General Mah Chan-Shan went into action and dynamited a bridge. General Murai's Japanese brigade, just returned from the eastern section of the Chinese Eastern railway, set out northward from Hulan in armored trains to put down this new rebellion.

MIAMI, Fla., May 4. (AP)—Captain W. N. Lancaster, British war flier, framed his own defense in the county jail today and admitted his position in the case was such that Dade grand jury may indict him for murder of Haden Clarke, writer and fiance of Mrs. J. M. Keith-Miller.

"I should like to act as my own attorney, if I am brought to trial," Lancaster said, "I know that is not possible, but I know I can convince twelve reasonable men that I am innocent of shooting that boy."

CHICAGO, May 4 (AP)—Death came today to Carlton Coon, 38, and ended a 13-year partnership with Joe Sanders in the famous Coon-Sanders orchestra—a partnership born of a music store meeting of two World war soldiers and never broken in a rapid climb to national radio and vaudeville fame.

Coon died this morning in a hospital of blood poisoning caused by an abscess in the jaw which developed mysteriously last month while he was directing the orchestra jointly with Sanders in a Loop hotel.

MISSING CHILD OBJECT OF HUNT

LOS ANGELES, May 4 (AP)—Hampered by rain, driven by cold winds, deputy sheriffs and ranchers continued a search today in the wild, mountainous area around Quail lake for 3-year-old Cecelia Mitchell.

Lured by hillsides of flaming wild flowers, the youngster wandered away Monday noon from the home of her mother, Mrs. Geneva Mitchell, ranch housekeeper, and disappeared.

She was lost in a section in which there are known to be rattlesnakes, coyotes, half wild hogs and mountain lions. Assuming she escaped harm from animals, it was feared rains through the night might cause her to succumb to exposure.

Borger Mayor Will Face Recall Vote

BORGER, May 4 (AP)—The Borger city commission last night set a recall election for June 11 for Mayor John R. Miller and members of the commission.

The action was taken in compliance with a district court order issued by Judge E. J. Pickens in a suit brought by the state to force calling of the election.

Huey Long Seeking New Appointments

WASHINGTON, May 4 (AP)—Huey Long of Louisiana, wants a new set of committee appointments to replace those he threw up last week.

Soon after the senate yesterday accepted his committee resignations and parceled out the jobs among its junior Democratic members, the irrepressible Long explained he had resigned the posts so as not to be under obligation to Senator Robinson of Arkansas, the party leader, when he jumped all over him in a speech from the floor.

Now, he said, he expects the Democratic caucus to give him a new list of jobs.

Death Sentence Of Johnson Affirmed

AUSTIN, May 4 (AP)—The death sentence given Richard Johnson, negro, by a Wichita county jury for slaying Ted Nodurft in a holdup near Wichita Falls last September, was affirmed by the court of criminal appeals today.

The court last week affirmed a death sentence against Richard Brown, negro, convicted for participation in the same holdup, when Nodurft was slain and his fiancee robbed. The Brown conviction was for robbery of Nodurft's young woman companion.

Mr. and Mrs. C. E. Patterson, 2806 22nd street, are the parents of a daughter, Dayne Elmer, who was born Tuesday, May 3, at the Lubbock sanitarium.

ANNUAL CLINIC CONDUCTED HERE

From 45 South Plains homes, children maimed and deformed came Tuesday with poor but hopeful parents to an annual clinic conducted at Lubbock sanitarium under auspices of the Crippled Children's council, inc., supported by Amarillo's four service clubs. The patients ranged from one to 19 years old. Most of the parents were without money.

Encouraging advice—about the use of exercises to develop untrained and flabby muscles, sorely needed braces, or for surgical treatment—was given by the attending physicians. A complete case record was made of every patient.

Children came from Petersburg, Anton, Ralls, O'Donnell, Wilson, Tahoka, Idalou, Amherst, Sudan, Meadow, Littlefield, Ropesville, Crosbyton and Lubbock.

Dr. John T. Gray of Amarillo, assisted by Drs. J. T. Krueger, M. C. Overton, J. W. Rollo, H. C. Maxwell, J. P. Lattimore and Olan Key of the sanitarium staff, conducted the clinic. J. C. Paschall, Amarillo, secretary-treasurer of the council, and G. A. McCullough, chairman, also spent the day at the sanitarium.

ROTARIANS CLOSE DISTRICT CONFAB

MINERAL WELLS, May 4 (AP)—Rotarians and their wives who have been in Mineral Wells since Sunday attending a tri-district club conference scattered to their homes last night after attending separate luncheon conferences at which six cities bid for next year's meetings.

Galveston presented an invitation for the forty seventh district meeting. San Angelo, Big Spring and Amarillo sought the forty first district conference and Greenville and Sherman, the forty eighth district.

Club presidents and secretaries of the three conferences will decide the convention cities at an October meeting.

Three new governors, elected without opposition, were introduced at the luncheons. They were H. C. Anderson, Ranger, forty first; C. C. Todd, Bryan, forty seventh and Charles Ashcroft, Sulphur Springs, 48th.

DRY LEADER WILL TALK ON SALOONS

"Is the Saloon Coming Back?"

Dr. James A. Crain, nationally known dry leader, of Indianapolis, will attempt to answer that question at 8 o'clock tonight at the First Baptist church.

Doctor Crain is secretary of the board of temperance and social welfare of the Disciples of Christ, and a member of the National Prohibition Board of Strategy.

The speaker, a native Texan born at Clarksville, is a graduate of Texas Christian university. He contends that liquor interests are taking advantage of the present economic distress to agitate for repeal.

SCHEDULE PARTY

There is to be a social meeting of the First Methodist Wesley class at 3 o'clock Thursday afternoon in parlors of the church.

DELEGATES TO BE SELECTED

DEMOCRATS TO MEET SATURDAY TO NAME COUNTY GROUP

Delegates to the county convention at the courthouse next Tuesday will be named by Lubbock county Democrats in precinct conventions at their voting boxes Saturday.

Official call for the county meeting, which will name representatives to the state conclave, has been issued by Chairman J. K. Wester. Each precinct except five in the county will be entitled to one delegate at the May 10 meeting. Precinct No. 1 of Lubbock is entitled to 17 votes; No. 4 of Lubbock to four; No. 18 of Idalou to two; No. 24 of Slaton to four; and No. 27 of Lubbock to five. The meeting opens at 2 p. m.

Ratio One To 25

Representation is based on number of voters for governor in the last general election in each precinct, the ratio being one delegate to 25 votes cast for governor, said Mr. Wester.

At the state convention, the chairman pointed out, delegates to the national convention, which nominates candidates for president and vice president, are named.

Pledge Is Cited

"All Democrats may participate in the primary conventions who are qualified voters under Texas laws and who will subscribe to the following pledge, "I hereby pledge myself to support the nominees of the Democratic party for president and vice president of the United States by voting for the Democratic electors of the state of Texas'," Mr. Wester ruled.

"Let each precinct be represented in the county convention at Lubbock," the chairman urged. "I hope the Democrats of the county will take an interest in these primary conventions and turn out and organize and elect delegates to the county convention. We hope the Democrats, not only in Lubbock, but also throughout the United States, will unite, bury their differences, and nominate a good man, who has the interest of the people at heart; and if we are united we can elect him. Lubbock county is a good place in which to start."

The pledge which Mr. Wester mentioned was adopted by the state Democratic executive committee, was sustained by the Texas supreme court, and was endorsed by the Lubbock county executive committee.

Sign Contracts For Drilling Of Wells

PLAINVIEW, May 4.—(Special)—Two contracts for drilling of irrigation wells were made here recently.

F. W. Vandershoot, who recently came here from Rulo, Neb., has secured J. C. Cook to drill a 125-foot well on his 10 acre tract in the Seth Ward area near town. The place was formerly known as the J. O. Duensing place. A 500 gallon pump will be installed by a local concern, the Asher Supply company.

D. W. McGowan, owner of the McGowan and Son store at Circle, west of Olton, in Lamb county, has started drilling a well. It is now below 80 feet. The land is north of the McGowan store and comprises 40 acres. Mr. Cook is drilling the well and the supply house will furnish the pump.

Bent grass is found in nearly all countries and climates.
