VICTORY BOND DOLLARS HELP HOSPITALIZED WOUNDED VETS — VICTORY LOAN

Solons Assail Plans For Loan To British

HST Approves Four Billion Credit As Boost For World Trade Plan

By JOHN M. HIGHTOWER
Associated Press Staff Writer

WASHINGTON, Dec. 6—The Truman administration agreed today to grant Britain a $4,400,000,000 credit in return for British steps to promote world trade—and battle lines immediately formed in Congress.

The British promised to carry out a broad program of commercial and financial reforms if Congress approved the credits.

The "if" may be a big one. Even before the official announcement was released some Congressmen were on their feet in both chambers with objections.

Solons Oppose Plan

In the House, Rep. Celler (D-NY) shouted that the loan "will promote too damned much Socialism at home and too damned much imperialism abroad." Rep. Short (R-Mo.) asserted he would not vote one dollar "as long as they've got the crown jewels in London."

In the Senate, Senator Moore (R-Okla) demanded that the balance of a $390,000,000 RFC loan made in 1941 be liquidated by the British before new credits are given.

Hill Favors Grant

But Senator Hill (D-Ala), majority whip, told reporters:

"The loan should be made. In making it we are promoting the interests of the United States as well as the stability and peace of the world."

The exact form in which Congress will be asked to approve has not been decided, officials said. But efforts are being made to reach a decision within the next few days and some authorities thought President Truman would send a message to Congress.

To Consider Other Requests

As soon as the British loan is out of the way the administration is expected to go to work on requests from other countries. Russia once informally suggested a $6,000,000,000 loan but has made no formal requests. France and China have talked in terms of billions to meet their needs.

The agreements were completed at a brief ceremony in Secretary of State Byrnes' office. Secretary of the Treasury Vinson signed for the United States and Ambassador Halifax for Britain. Halifax and Byrnes also initialed agreements for organizing world trade on a free trade basis at an international conference to be held next spring or summer.

Details Are Set Forth

Here are the main provisions of the accords worked out after 87 days of negotiation:

The United States agree to lend Britain $3,750,000,000 as soon as it can be put through Congress to finance Britain's reconversion to

Improved Trade Setup Is Urged

WASHINGTON, Dec. 6. (AP)—The United States, with the backing of Britain, proposed today that the nations of the world act collectively to break down international trade barriers and promote full employment.

In a detailed "white paper," issued with the announcement of the British-American financial agreement, this government strongly opposed high tariffs, trade preferences and cartels.

Urges Trade Conference

Although conceding that "no government is ready to embrace 'free trade' in any absolute sense," the document proposed that the nations make a determined start in that direction through:

1. An international conference on trade and employment, to be convened next summer under United Nations sponsorship.

2. A permanent international trade organization, to be set up under the United Nations as the central agency for promoting world trade.

Would Curb Economic War

The document declared collective action to prevent economic warfare is a necessary supplement to efforts of the United Nations organization to prevent military warfare.

A joint statement on commercial policy said Britain was "in full agreement on all important points" in the American proposals and accepted them "as a basis for international discussion."

The white paper said international trade was curtailed by four general factors:

1. Government restrictions such as tariffs, export licenses, import quotas, and exchange controls.

2. Restrictions by private combines and cartels, which divide the world into exclusive markets; stifle competition; keep prices up and production down.

3. Fear of violent and sudden changes in the demand for and supply of certain primary commodities.

4. Wide fluctuations—and the fear of them—in production and employment.

PRINCE FUMIMARO KONOYE
. . . He Is Ordered Arrested

* * *

Konoye Faces Arrest Order

(By The Associated Press)

TOKYO, Friday, Dec. 7—General MacArthur today took steps to make certain that Japan—the country that shuddered under two atomic bombs—never can develop an atomic bomb of its own.

The action came only a few hours after MacArthur had ordered the arrest of two of Emperor Hirohito's most trusted advisers—Prince Fumimaro Konoye and Marquis Koichi Kido—and seven other top criminal suspects.

May Ban Mining

MacArthur's headquarters announced in its newest order that every mineral resource which might permit creation of an atom bomb will be taken from Japan, even if it means shipping such minerals out of the country. Wherever possible, mining of such minerals will be banned absolutely.

Under direction of Lt. Col. H. G. Schenck, director of MacArthur's natural resources section, every potential war mineral is being studied for a place on the ban list. All mining will be limited to peacetime needs and research for war will be outlawed. A staff of civilian scientists already is undertaking an exhaustive study.

Armies Demobilized

More than 5,000,000 soldiers and sailors have been demobilized, and just to make certain they never make more trouble, occupation officials are making certain the Japanese do not get key jobs where they might build up militarism.

Konoye, three times premier, member of the royal family and vice premier of the surrender cabinet, had been writing a new Japanese constitution and preening himself for a re-entry into politics.

Kido, maker of premiers such as Tideki Tojo, confident of the emperor throughout the war, was keeper of the privy seal until that position recently was abolished.

Others Ordered Arrested

General MacArthur also ordered the arrest of seven others, reaching into Japan's highest military and civilian circles just as he did Sunday when he posted a list of 59 wanted Japanese.

The impact of this mounting role of Japan's suspected war makers was falling heavily upon the cabinet of Premier Kijuro Shidehara, threatening its life.

Shidehara appearing before the Diet said his government was in no position to criticize the Allied orders, nor could he say who might be named next.

Wife Of Former U. S. Chief Justice Dies

WASHINGTON, Dec. 6. (AP) — Mrs. Charles Evans Hughes, wife of former Chief Justice Hughes, died tonight at their home here.

Death came one day after the 57th anniversary of their marriage, Dec. 5, 1885.

Mrs. Hughes was Miss Antoinette Carter, daughter of the senior partner of the law firm with which Hughes was associated as a young lawyer.

Hughes retired as chief justice June 30, 1941.

CRIMES LIST ENLARGED

LONDON, Dec. 6. (AP) — The sixteenth war crimes list, bearing 1,080 names, was issued tonight by the United Nations War Crimes commission. The names were not made public.

Young Demos Rebel, Oust Lubbock Man

By DAVE CHEAVENS
Associated Press Staff Writer

FORT WORTH, Dec. 6—A faction characterizing itself as the "Loyal Democrats" overwhelmed opposition and seized control of the first post-war convention of the Young Democrat Clubs of Texas today.

Leaders of this group have been prominently identified with the pro-Roosevelt forces who took over the Texas Democratic party organization after the historic struggle two years ago. Elected temporary chairman was Jack Carter of Fort Worth, chairman of the Tarrant County Democratic organization. He was the leader of the pro-Roosevelt faction that was seated, after a contest, at the state Democratic convention a year ago in September.

Harris Opposes Plan

His election came quickly after a short, sharp struggle early in the first convention of young Democrats since 1942. Carter started it himself immediately after the opening prayer with a motion that the regular order of business be set aside and temporary officers be named immediately.

President C. L. Harris of Lubbock held him out of order and Carter appealed from the ruling of the chair. Harris named Lewis Dickson, floor leader of the Harris county delegation, to put the vote.

Question Vote On Issue

"I don't know whether there is any element of Democracy in this or not," said Dickson, whose delegation opposed the group that gained control. "We do not know who is entitled to vote, but let's vote."

On the showdown, there were only a few scattered votes to sustain Harris, and Dickson dispensed with a count. Joe Luther of Dallas jumped up and nominated Carter as temporary chairman — with the attendant power of naming important communities and otherwise taking over management of the session.

Carter Denies Charges

Carter was elected by acclamation. Three no votes were heard from among the approximately 200 persons attending the session.

In his keynote address, Carter was quick to deny that the Young Democrats of Texas have any intention of backing any candidate.

Chinese Charge Jap Atrocities

YENAN, Dec. 6 (AP)—The Chinese Communist war crimes commission today charged that Gen. Yasaji Okamura, former commander of Japanes forces in China, personally directed and witnessed the massacre of an entire North China village in 1942.

Naming Okamura its No. 1 war criminal, the commission through Chairman Wu Yu-Chang, demanded that he be placed under immediate arrest. Okamura is in Nanking as chief liaison officer between Nationalist troops and the remaining Japanese.

Still "Free" In Tokyo

Lt. Gen. Takashi Tada, Okamura's predecessor as commander in chief of the North China expeditionary force who, the Reds say, still is free in Tokyo was listed as No. 2 war criminal. He is accused of having ordered mass executions of more than 1,000 men, women and children in an eastern Hopeh village in 1941.

Okamura's sanction of and presence at the destruction of the entire village of Peitan in central Hopeh on May 1, 1942, was one of two known atrocities he personally ordered and witnessed, Wu declared.

Wu charged that:

More than 800 men, women and children of Peitan were driven into a tunnel north of the town, sealed in and suffocated. On July 1, 1941, Okamura ordered more

UAW Bluntly Rejects Latest Wage Proposal By GM Heads

Tropic Dusk Swallows Up Five Bombers

Six Planes, 27 Men Missing In Atlantic

By ROGER GREENE
Associated Press Staff Writer

MIAMI, Fla., Dec 6.—Mysteriously swallowed up in the swift dusk of the tropics, five Navy torpedo bombers with 14 men aboard and a sixth Navy rescue plane with 13 crew members were the object of a great air-sea hunt covering thousands of square miles off the Florida east coast tonight.

Dwindling hopes marked the search, described as one of the greatest in peace-time history, but Navy officials said the planes had a high degree of bouyancy and that in similar emergencies the crews had been able to launch their life rafts "without even getting their feet wet."

Reinforced by a baby flat-top, the U. S. Escort Carrier Solomans, hundreds of Army, Navy and Coast Guard planes and scores of surface craft searched the waters on a 400-mile front from Jacksonville in northern Florida to Miami in the south.

The front extended 150 miles out into the Atlantic to the Bahamas, where the Royal Air Force pressed every available plane into the quest.

A last, flickering message of distress, sent by radio from the flight of five Avenger torpedo bombers, puzzled officials as the hunt intensified.

May Be In Storm

"Have gas for 75 minutes more . . . Can't tell whether over Atlantic or Gulf of Mexico," the message is reported to have said, in effect, indicating they had been caught in a blinding storm.

Marshall Says Japs' Attack Could Have Been Disrupted

By WILLIAM T. PEACOCK
Associated Press Staff Writer

WASHINGTON, Dec. 6—General George C. Marshall testified today that the Japanese, in assaulting Pearl Harbor Dec. 7, 1941, took such tremendous a gamble that he didn't think they would try it.

The retired chief of staff told the joint committee investigating the disaster that there were forces at the Pacific base sufficient to have disrupted the enemy thrust. Such a result, he said, would have ruined the whole Japanese campaign of aggression.

Hawaii Not Alert

"Non-alertness" in Hawaii, he said, was the reason for both the attack and its success. He testified that the prowling enemy fleet could have been recalled before the attack if the Japanese learned the defenders were ready.

Marshall said the risks of the attack were so big that he did not actually visualize it at that time, though his testimony recounted that for 18 months beforehand he had been concerned over the possibility of a surprise raid and had been taking precautions against it.

FDR's Papers Introduced

The general's testimony accompanied introduction of documents from the late President Roosevelt's secret files, including a memorandum from Marshall saying "Britain is reaching limit of usable manpower. We must supplement her forces."

That memorandum bore no date but Gerhard Gesell, committee counsel, said it apparently was written in the summer of 1941, before we were in the war.

The chief of staff proposed to prepare task forces for bases in the British isles and to "secure, when opportunity offers," additional bases encircling Germany.

"Germany cannot be defeated by supply of munitions to friendly powers and air and naval operations alone," Marshall wrote, "large ground forces will be required."

He also suggested speeding the increase of air power in the Philippines and "small increases" in ground Army forces and equipment to "restrain Japan from advance into Malaysia or eastern Siberia."

Hawaii Said Powerful

Another document from the Roosevelt files covered the Hawaiian defense situation. It mentioned the island of Oahu as "believed to be the strongest fortress in the world." Written across it, however, in what Gesell said was the handwriting of the late Maj. Gen. E. M. Watson, Mr. Roosevelt's military aide, was this notation:

"Modern planes have complete-

First Donor List To Be Published Today

Chief Goodfellow, the anonymos head of Lubbock's Yuletide Cheer brigade wants to "wind up" his organization's financial campaign in the shortest possible time this year so he and other Goodfellows can get down to the details of the job of assuring a Merry Christmas to the citys youngsters of 14 years and under.

First list of donors to this year's fund of $1,500 will be compiled by Chief Goodfellow by noon so names may be published in today's Evening Journal. Those who plan to contribute to the eleventh annual fund are urged to bring or mail their contributions in as early as possible—by noon today if at all convenient.

Goodfellow funds are spent for toys for boys and girls who, without Goodfellow organization, might miss out on a Merry Christmas. The Goodfellows make no distinction of race, color, or creed and all children are treated exactly alike.

Turn to Page 8, now and fill out the coupon in order that no child shall be overlooked. And bring or mail your donation—anything from 25 cents upward— to Chief Goodfellow, c/o The Avalanche-Journal, 1211-13 Texas avenue as soon as you can!

Let's make the Goodfellows Eleventh Annual Christmas party the best ever for Lubbock's boys and girls!

Hurley Hurls New Charges

By MARVIN L. ARROWSMITH
Associated Press Staff Writer

WASHINGTON, Dec. 6 .—Maj. Jen. Patrick J. Hurley asserted today that American foreign policy had been "defeated," and charged it was an "inside job."

The former ambassador to China also told the Senate Foreign Relations committee that Undersecretary of State Dean Acheson had played "a leading part" in what Hurley termed destruction of this country's policy in Iran.

Asks For State Papers

Hurley, who resigned his diplomatic post last week, did not go into any particulars. He said simply that his accusations would be borne out by documents he had asked the State department to produce.

Hurley clashed with Chairman Connally (D-Tex) and other members of the committee several times in the course of today's hearing on his complaints that State department career officials were sabotaging United States foreign policy.

Clashes With Connally

At one time the white-haired soldier-diplomat demanded to know whether he was on trial.

"If you are" Connally replied, "you put yourself there."

Hurley said in the statement that he had been asked to name the men "guilty of leaks from the State department, which leaks are designed to defeat the foreign policy of the United States."

He said that while he did not have intimate knowledge of what had been happening in Washington, "I do recall that career men were arrested on information supplied by the FBI."

"They usually base their arrests on facts," Hurley added.

He offered to supply the committee confidentially with "a list of witnesses they might call from the Army services."

UAW LEADER — Walter P. Reuther, above, as UAW vice-president in charge of General Motors unions, today is in the middle of a major deadlock with GM officials over the UAW's demands for a 30 per cent wage boost. Reuther, as vice president of UAW's unions in GM plants, is spokesmen strikers and currently is leading the fight for higher wages. See story to the right.

Land Near LAAF Sought For Tech

The City Planning commission, meeting at the city hall last night, instructed its secretary to request in a letter to the Surplus Property board in Washington that government-owned land adjacent to Lubbock Army Air field be turned over to Texas Technological college, if the property and the field are declared surplus.

The land consists of approximately 200 acres suitable for agriculture, the commission reported after study. Directors of the college already have accepted offer of the City of Lubbock for a lease on facilities at LAAF, if the field is declared surplus.

Building Changes Made

Members of the commission favored a recommendation of the zoning committee that the City commission change blocks 28 ,29, 30 and 31 in F. E. Wheelock's 2nd. Addition, Carver Heights, from an E to a B district, restricting construction in those blocks to one and two-family dwelling units. It also recommended that block 44 be changed from an F to H classification, permitting construction of business buildings.

Request of the Atchison, Topeka and Santa Fe railway for a zone change which would permit picking and dressing of poultry in railroad property adjacent to Fourth between Avenues U and V was not approved. Reason given for the action was that such a

Ten Per Cent Boost Refused

(By The Associated Press)

DETROIT, Dec. 6—The United Auto Workers (CIO) tonight rejected a General Motors offer to "reinstate" its offer of a 10 per cent wage rate increase which the union turned down prior to the start of the GM strike 16 days ago.

Walter Reuther, UAW vice president, told a press conference after the meeting between GM and UAW officials adjourned, "the strike continues with no change in status."

Another Session Planned

Both GM and UAW spokesmen said, however, that another negotiating session would be held Friday.

Harry W. Anderson, GM vice president, said in a prepared statement, "the offer to the auto workers was made on a 10 per cent basis subject to a final adjustment after detailed analysis."

Reuther, commenting on the company offer, declared, "the corporation still refuses to discuss arithmetic and the fact that ability to pay should be a factor in wage discussions.

"We still maintain that an adequate wage to settle this strike is a 30 per cent increase without increase in prices."

R. J. Thomas, president of the UAW, added, "I told the corporation that it was my opinion that the proffered wage increase was inadequate. And the strike will continue until such time as an agreement has been made on satisfactory terms."

Reuther told newsmen that during the conference a GM spokesman declared, "We don't say we can't pay 30 per cent; we won't discuss it."

Won't Talk Economics

Thomas interjected that he asked directly if GM could afford to pay the 30 per cent, but that GM spokesmen refused to answer.

Reuther reiterated the union stand that it does not want to "take a wage increase if it "means increased prices." He said "90 per cent of today's conference was spent in trying to get the company to discuss economics."

The union officials disclosed there was no discussion at today's session on the company's charges that the UAW had engaged in "illegal picketing."

"We will try tomorrow to get these people to accept some very sound practices in collective bargaining involving arithmetic. We are going to keep trying and trying," Reuther concluded.

Treachery In Norway Told

By NOLAND NOGAARD
Associated Press Staff Writer

NUERNBERG, Dec. 6. — Grand Admiral Erich Raeder, seeking U-boat bases, planned the invasion of Norway from the moment the war started in 1939, and with Dr. Alfred Rosenberg easily sold Adolf Hitler the idea, the Nazis' own official record disclosed today.

A story of cold-blooded treachery against the Norweigian government, which was lulled by German assurance of good will, was unfolded before the international military tribunal by the British prosecutors.

British Held Up War

Earlier the British introduced a statement of Hermann Goering in which the Reichmarshal said that the British pledge to aid Poland in the event of hostilities delayed the start of the war for seven days, while Hitler sought to keep the British neutral.

Texts of pleas for peace or negotiations from President Roosevelt, British Prime Minister Neville Chamberlain, French Premier Eduard Daladier and Pope Pius XII, which the Fuehrer rejected in the three weeks before launching his attack on Poland, were submitted as the British sought to give the full story of Hitler's decision to go to war.

Italy Said Unprepared

The British also introduced the minutes of the August 12, 1939, meeting between Hitler and Count Galeazzo Ciano, Italian foreign minister, in which Mussolini's son-in-law indicated almost childlike surprise at Hitler's announcement that he planned to strike at Poland.

Ciano claimed his country was unprepared for the general European war that would result. Other documents disclosed that Mussolini had pleaded with Hitler for an Armistice 24 hours after the Germans drove into Poland but the plea met with a cold reception from a hot-for-war Hitler.

Had Been Ready

A Wehrmacht directive dated April 3, 1939, showed the German army had been ordered to be ready for the Polish invasion "at any time from Sept. 1, 1939, onwards."

For the first time in the trial Raeder and Rosenberg heard themselves portrayed as the evil geniuses who actually talked Hitler into betraying Norway.

During the winter of 1939-40 Rosenberg and his organization found the tool they needed—Vidkun Quisling, who later began a series of visits to Berlin.

The documents showed that Quisling informed Raeder of a plan for a coup to overthrow the Norwegian government by quick training of Quisling's key men in Germany and reinforcement of them with "experienced and die-hard national Socialists who are practiced in such operations."

Leukemia Victim May Get Early Christmas

ABILENE, Dec. 6. (AP) — Mary Jacqueline Moore, three-year-old daughter of Mr. and Mrs. Walter Moore of Blackwell, Tex., a victim of leukemia, may be given an early Christmas this year.

Mrs. Harry Cannon of Leucadia, Calif., a relative of the child's parents, said Winters, Texas., that it was her understanding that the early Christmas had been planned.

Jacqueline has been suffering from the usually fatal disease for two or three months. She has been given several transfusions at a Dallas hospital.

Use Of Atomic Power Planned

By JOHN F. CHESTER
Associated Press Business Editor

NEW YORK, Dec. 6.—Nine leaders in the atomic bomb project estimated variously today that possibly in three and almost certainly in 20 years we could have atomic power capable of competing with $15-a-ton coal.

In an extraordinary symposium, held on the spotlighted stage of the grand ballroom of the Waldorf Astoria hotel, the scientists outlined in detail before the 50th annual convention of the National Association of Manufacturers the possibilities of harnessing the atom for peacetime use.

Maj. Gen. L. R. Groves, director of the entire bomb development, was top man in guessing "how soon." He placed his estimate in "decades."

Immediately, several of his assistants declared flatly he was "too pessimistic." Dr. Charles Thomas, vice president of the Monstanto Chemical Co., estimated 10 years would do it. Dr. J. A. Wheeler, professor of nuclear physics at Princeton university, declared the goal could be realized in from three to 10 years under ideal circumstances.

Difficulties Are Cited

Other points stressed by the atomic headliners were that:

The problem of producing atomic heat already has been solv-

World Looks Back On Four Years Of Horror And Bloodshed Today

Nation Observes Anniversary Of Jap "Sneak Attack"

By GEM BOB CALLEY
Avalanche Staff Writer

LIVING under wartime conditions for more than four years has erased from the minds of many people what they were doing, how they were thinking, what national, international and local events were shaping up that fateful day, Dec. 7, 1941, when the Japs delivered their sneak attack on Pearl Harbor.

On this day, fourth anniversary of Pearl Harbor and first peaceful Dec. 7 since 1941, thinking people will pause to consider the marked change that has been wrought in their lives, in this community, all over the nation and throughout the world. No one's life remained untouched by the war. In some way everyone was affected by the global conflict.

Today these thinking people will offer a prayer of thanks for peace on Dec. 7, 1945.

To refresh the memories of Lubbockites on pre-Pearl harbor news, what people were talking about four years ago today, here's a summarized review.

Headlines were "Japanese-U. S.

(Turn to Page 8, Column 8, Please)

The U. S. A. Must Remain Strong!

"Remember Pearl Harbor!"

Four years ago today, the Japs struck without warning in an effort to break our Pacific lifeline and render us incapable of fighting off our foes on the two extremes of the world.

As our statesmen in Washington ponder our future needs for national defense—and for some reason or other timorously avoid taking action—we think it well to remind them once again:

"Remember Pearl Harbor."

And while they're remembering Pearl Harbor, we hope they will remember, too, the nearly four years which followed December 7, 1941—the American lives which were lost and the American blood which was spilled, some, if not all, needlessly.

Until human nature changes more than it has in 1,000 years, the best way we can assure ourselves and the world of peace is to stay strong.

That's something the U.S.A. should remember today along with Pearl Harbor!

(By The Associated Press)

THIS IS the great uncommemorated anniversary of American history.

This is Pearl Harbor Day — the date on which, four years ago, on a bright Sunday morning, a surprise Japanese attack smashed the United States Pacific fleet in its confined Hawaiian moorings.

Not even those shots that the embattled farmers fired at Lexington and Concord were "heard 'round the world" with greater clarity than the Pearl Harbor explosions.

Foretold Axis' Doom

Those explosions foretold the violent ruin of Hitler's German empire, the collapse of woebegone Italy, and finally, three months ago, the adject surrender of famished, fire-blackened, "faceless" Japan.

Four years ago Tin-Pan Alley contributed a tinny refrain, "Remember Pearl Harbor," and President Roosevelt proclaimed Dec. 7 as a day that would live in infamy.

Yet today, on this first peacetime anniversary of Pearl Har-

Halsey Assails Merger Of Army And Navy, Says Plan Dangerous

WASHINGTON, Dec. 6. (AP)—Bluff Fleet Admiral W. F. "Bull" Halsey fired a salvo of his typical verbal shots at proposed unification of the Army and Navy today.

But he let down a roomful of Senators, Army and Navy officers and other spectators by terming the procedure merely "dangerous" instead of "damn dangerous." The expletive was in his prepared text.

Fears Army Dominance

There is no question about need for "unified command" in actual combat, Halsey declared, but that does not require that the War and Navy departments, which he said were complex and widely differing, be mixed together.

The admiral said he feared the merger advocates wanted to give the Army a "two-to-one" vote over control of the Navy.

He likened the unification plan to asking a "Protestant, a Catholic, and a Jew to save our national souls by recommending a national church and creed."

Bowles Scores NAM Plan To Up Prices

NEW YORK, Dec. 6. (U.P.)—OPA Chief Chester Bowles told the National Association of Manufacturers today that the nation already had saved $66,000,000,000 "by not accepting your leaders' advice."

Bowles, in a plea to the NAM's Congress of American Industry to reverse NAM's stand on price controls, said in his opinion that this figure was "only a proportion of what your official proposal (a NAM recommendation to Congress on reducing price controls) would have cost the nation."

The NAM has asked recently that all price controls be lifted by Feb. 15, 1946.

Murder Charge Filed In Woman's Death

NEW ORLEANS, Dec. 6. (AP)—The Orleans parish grand jury returned indictments charging murder today against two negroes, Wilbert Powell, 18, and Joseph Besser, 19, in connection with the death of Miss Bernice Roy in a holdup here last Saturday.

Miss Roy, formerly of Port Arthur, Texas, had resided here about a year. She died of a bullet wound in the forehead.

Trial of the two men charged was set for Jan. 16, 1946, before Judge J. Bernard Cocke.

Texas Flower Poses Navigation Problem

GALVESTON, Dec. 6 (AP)—The public's fondness for a flower is causing multifold headaches for several federal agencies whose representatives will meet Dec. 13 in Galveston to determine a course of action for Texas.

The flower is the water hyacinth, whose thick, heavily-matted undergrowth has for years plagued navigation interests in Louisiana and Florida.

It is also blamed for mosquito breeding, killing fish, and for being a general nuisance in other respects.

Hyacinths are propagated in several ways, but mostly through the public's fondness for the flowers, leading people to plant them in their back yards, from which the pollen spreads, says A. B. Davis, of the Galveston District Army engineers, who has been studying hyacinths in Texas.

The flowers are to be found as far south as Brownsville on the Texas coast, and are especially numerous in the Sabine area.

Taking cognizance of the troublesome flower, the House Rivers and Harbors committee has authorized conferences to be held at several gulf coast points, including one in the office of the district army engineers at Galveston on Dec. 13.

Representatives of the United States public health department, department of agriculture, Fish and Wild Life service, the War department and possibly several state agencies will attend.

After the Federal agencies have discussed all aspects of problems created by the hyacinths, the district army engineers will call public hearings, probably in January, in several Texas cities.

Davis said that the undergrowth of hyacinths, when matted, has a strength equal to that of Manila rope. This undergrowth frequently halts navigation along narrow streams in Louisiana, and has at times proven an obstruction to shipping in the Texas-Louisiana intracoastal canal, which passes through the Sabine area, Galveston, Corpus Christi, and will eventually reach Brownsville.

Boyhood Dreams Are Realized As Veterans Go In Drug Business

DENTON, Dec. 6. (AP)—Boyhood dreams over ice cream sodas in a Denton drug store came true for three young war veterans.

Savings from overseas paychecks brought the three into ownership of the 45-year-old Curtis Drug store, one of Denton's oldest and best-known business places.

The store fascinated the Jackson brothers, Hal and Brent, and Don Hall, their pal. As barefoot boys they made for it to spend their pennies for ice cream cones and candy. In school days they graduated to sodas.

Then Came Pearl Harbor

Pearl Horbor ended those happy times. Hal became a Navy flier and served in the European and Pacific theaters. Brent aided the Army intelligence in Europe. Don joined the U. S. merchant fleet.

Three years passed before they came together again. Two months ago they met at the drug store Don recalled when he was chief soda clerk, Hal thought of the time he ran the elevator. Both remembered how between customers and elevator calls they dreamed of managing the store.

Just Bought The Spot

Then they realized they had a little extra cash and no special plans for the future. Why not buy their old hangout?

So, with a fourth partner, Denny Vinson, a pharmacist for 16 years, they did. And today Hal sums up the new venture this way:

"I'll admit the drug business isn't quite as exciting as diving on a hunk of Jap shipping, but if it's all the same with all concerned I'll take my excitement in soothing irate customers with chocolate ice cream."

Locations Approved For New Hospitals

WASHINGTON, Dec. 6. (AP)—The Veterans administration announced today presidential approval of locations for 29 new hospitals and one new home.

In addition, the agency said Mr. Truman has authorized additions to several existing hospitals, and transfer to the veteran administration of seven Army general hospitals, five for temporary use.

Bonham, Texas, was selected as the location for a new 350-bed home, including a 50-bed infirmary.

The locations for new hospitals as approved by the president include: Houston, Texas, 1,000 beds.

Mexico Plans Study Of Royalty Claims

MEXICO CITY, Dec. 6. (AP)—A government commission to study royalty claims unpaid since expropriation of oil companies in 1938 was created today.

The commission will endeavor to straighten out the royalty situation, confused since the government has taken all subsoil rights and holders of royalties before 1938 are pressing claims.

Youths Sought After New Mexico Escape

GRANTS, N. M., Dec. 6 (U.P.)—State police were continuing their search today for two teen-age youths who escaped from their jailer here yesterday.

The pair was identified by Acting State Police Chief A. B. Martinez in Santa Fe as John Rowe, 17, and Gregory Slavey, 18. Martinez said it was believed the youths were wanted in Massachusetts.

Rowe and Slavey were being held for questioning, after having been apprehended by Patrolman Archie White as they were allegedly breaking and entering a Grants service station.

Teague Brakeman Is Victim Of Accident

DALLAS, Dec. 6 (U.P.)—William Cartwright, 43-year-old Rock Island brakeman from Teague, was injured fatally today in an accident in the rail yards at nearby Irving.

The victim of the unexplained accident lay besides the track after losing both legs in the accident for about three hours before he was found. Crewmen did not miss Cartwright until the train pulled into the Dallas yards. He was alive when found, but died soon after reaching the hospital.

East Central States Give Heavy Appropval To Peacetme Training

By GEORGE GALLUP, Director
American Institute of Public Opinion

PRINCETON, N. J.—While Congress ponders the question of peacetime military training, an unofficial sampling referendum in the East Central States—Illinois, Ohio, Indiana and Michigan—shows an overwhelming vote of approval among the people of that area for the one-year training program.

GALLUP

Their approval matches that of voters in the large eastern states.

The sounding of public sentiment was done through interviews with a cross-section of voters on the following issue:

"In the future, do you think every able-bodied young man should be required to take military or naval training for one year?"

The vote in the East Central States:

	Yes	No	No op.
Illinois	74%	24%	2%
Ohio	75	22	3
Indiana	69	27	4
Michigan	76	21	3

Earlier this week sentiment in New York, Massachusetts, New Jersey and Pennsylvania was reported, showing all four states in favor of peacetime military training by majorities ranging from 74 to 79 per cent.

• • •

Veterans Interviewed

There has been discussion recently as to how veterans of World War II feel about requiring young men in the future to take military training in peacetime.

Veterans interviewed by the Institute showed a high vote of approval for the proposed program, as reported Nov. 21.

A survey made by the Selective Service headquarters in New York City among very recently discharged veterans in that area showed a closely similar vote on the issue. Draft boards throughout the city submitted a question on peacetime training to all veterans as they reported back to their local boards.

The vote follows:

"Are you in favor or against a universal military training law which would require all men, upon attaining the age of 18, to enter military training for a period of twelve months?"

New York City Veterans		
In favor	22,026	86.7%
Against	3,198	12.6
Undecided	177	0.7

The Institute's poll of veterans, covering the whole country, found the following vote in late November:

All Veterans	
In favor	80%
Against	15
No opinion	5

Military Training Is Hit By Church Group

WASHINGTON, Dec. 6 (AP)—Spokesman for church, veterans and labor organizations fired a verbal broadside today at proposals for universal military training.

Testifying before the House Military committee, they urged that before the United States resorts to peacetime conscription it seek to outlaw universal training throughout the world.

Picketed Executives Discover More Food

STAMFORD, Conn., Dec. 6 (U.P.)—Fourteen executives who are keeping the furnaces going at the Yale and Towne Manufacturing plant surrounded by pickets reported today they were running low on cigarets, but had discovered a cache of spaghetti to relieve their diet of soup and canned salmon.

Charles E. Horne, departmental superintendent, said in a telephone conversation that the men had found enough spaghetti in the plant cafeteria "to keep the whole town."

Meanwhile, outside the plant pickets of the International Association of Machinists (AFL) maintained their 24-hour vigil in freezing cold weather. They said they were determined that the executives would not get back into the plant if they once left.

The company's 3,500 employes have been on strike since Nov. 7, when they walked out in a dispute over wage demands and the closed shop.

Junkers Estates Are Cut Up Into Farms

BERLIN, Dec. 6. (AP)—One of history's great land shuffles has been almost completed in the Soviet [illegible] zone of Germany, where 7,000 large estates belonging to Junkers and other big owners have been parcelled out to 281,155 small farmers.

This was announced today by Edwin Hornle, German Communist head of the Russian-supervised administration for agriculture and forestry, who declared the liquidation of "large properties of feudal masters" in effect breaks up "the fundamental support of Fascism and militarism in our country."

County Judges Wind Up Annual Meeting

FORT WORTH, Dec. 6 (AP)—The County Judges and Commissioners association of Texas today just before adjournment of its three day session here, authorized its president to appoint a committee of five to study and report in 1946 on social security, financing of rural roads, soil conservation, collection of delinquent taxes and civil service for county employes.

County Judge Sid J. Callavet of Orange was elected president, succeeding Gilbert Smith of Anson. Commissioner Joe Thannisch of Fort Worth was elected vice president and County Judge C. F. Sullivant of Gainesville, secretary treasurer.

Sullivant, who is president of the North Texas Judges and Commissioners, succeeds Caillavett. San Antonio was chosen for the 1946 convention.

A resolution adopted opposed the United States Senate taking any action on any international oil treaty that would force Texas to surrender any of its regulatory powers over petroleum production and marketing.

Costa Rica was discovered by Columbus in 1502.

If dry scalp itches rub on a few drops of Moroline Hair Tonic. Helps remove loose, unsightly dandruff flakes.
MOROLINE HAIR TONIC

AFL Machinists Get 15 Per Cent Boost

BEAUMONT, Dec. 6. (AP)—The 300 members of the American Federation of Labor Machinists union will go on a 40-hour week next Monday with 15 per cent increase in base pay, the Magnolia Refinery announced here today following Navy approval of the agreement.

It was the second such agreement worked out with an AFL affiliate since the strike of the Oil Workers International union (CIO) and the reopening of the plant under Navy supervision. Members of the electrical union accepted a similar contract, effective last Monday.

Baylor Gets Housing For Student Veterans

WACO, Dec. 6 (AP)—One hundred trailer defense housing units have been secured on government lease for Baylor university's veteran students with Roy J. McKnight as business manager. They will be moved to the campus from Laredo and Freeport and will be ready March 1. The housing waiting list is 150 veterans.

The university previously obtained 50 units, 20 of them now occupied and the others rented.

BAYER ASPIRIN
RELIEVES SIMPLE HEADACHE

Woman Badly Hurt In Fighting Fire

MARSHALL, Dec. 6. (AP)—Mrs. Van Burt, veteran employe of a Waskom, Texas, clinic, was recovering from second and third degree burns about the hands and face today as the result of her efforts to battle flames which destroyed the clinic yesterday afternoon.

Fire Chief Carl Bechtold of Marshall estimated the damage at $12,000. Origin of the fire was undetermined.

Due to increased air traffic, the United States Department of Agriculture has a fierce fight on its hands with regard to rangerous plant pests, which arrive in ships and planes from abroad.

The cocoanut palm trees fringing Palm Beach (and from which the resort island derives its name) are the result of the wrecking of a Spanish cargo of cocoanuts off the Atlantic coast in 1879.

TOYS TO SUIT ONE-TO-EIGHT

WHEN buying clothes for youngsters you select them according to the age and size of your child. Toys should be bought with these same requirements in mind, cautions the National Safety council. To guide you in selecting playthings for Christmas, the council made a study of what is safe and suitable for each age group's strength and interests. Because we know that buying toys for kiddies is a big item in many Lubbock homes, we are devoting today's column to the recommendations of the council:

• • •

Up To 1 Year, choose things the baby can look at, feel, chew, hold and bang. They can be light, non-inflammable rattles, too large to be swallowed with no small attachments to come loose. Washable rag dolls, large colored balls, rubber or washable cloth squeak toys and non-breakable cups are safe for the infant.

• • •

1 To 2 Years is the age when a child becomes curious about the world. Choose toys he can take apart and put together. Nests of objects which fit together teach him co-ordination. Large blocks with rounded corners, large cloth or heavy picture books, push and pull toys with strings of rounded handles and no small parts to come loose are suitable.

• • •

2 To 3 Years is the age when a child likes to build with blocks and turn pages of books. Choose playthings which develop the senses and muscles. Beware of sharp, pointed objects which might cut him. Give him a tip-proof kiddie car or rocking horse. Finger painting sets, with paints made of vegetable or fruit coloring are interesting to him. Sand box and pail, or sturdy miniature wheelbarrow are appropriate.

• • •

3 To 4 Years is the time when a child tries to imitate grown-ups. Give him small brooms, carpet sweepers, toy telephones, miniature wooden garden tools, suitcases to pack and unpack, buggies and doll beds. Also suitable are non-poisonous paint sets and adjustable easel (we can already hear some young mothers howling at that suggestion!). Wooden puzzles with parts large enough so they can't be swallowed, will teach him to think and co-ordinate.

• • •

4 To 6 Years is when children begin to read and write. Give them books with pictures and some large print, or blackboard and dustless chalk. Dolls and doll houses or furniture scaled to their size are excellent gifts. Let them cut out pictures, but give them scissors that have blunt ends. And for their make-believe plays, give them costumes made of fabrics that are not highly inflammable.

• • •

6 To 8 Years means games and puzzles. Sewing materials, carpenter bench and simple tools, puppet shows or construction sets and there should be a rubber shock-absorber under the front wheel shaft for ease in turning. Kites should have nonconductible string to prevent shock if the kite drops across a power line. This is also the age for footballs and cowboy uniforms.

Nurse To Conduct Institute Here

Miss Emily J. Hicks, R. N., associate general secretary of the Texas Graduate Nurses' association will conduct an institute, sponsored by the Texas Graduate Nurses' association, District 18, Monday. Problems of organization and the critical questions facing the nursing profession will be discussed.

Morning session will be held in the West Texas hospital nurses' classroom and the afternoon meeting will be in the Lubbock Memorial hospital classroom.

Hardin-Simmons Exes Plan Dinner Tonight

Tonight at 7:30 o'clock in First Baptist church annex, South Plains Hardin-Simmons Alumni and Ex-Students association will have a dinner, an annual get together.

Dr. Rupert N. Richardson, president of the college, will speak and music will be furnished by the University. Harry H. Hunter is president.

Reservations may be made with Mrs. A. C. Hamilton, 8052.

Baptist To Conclude "Week Of Prayer"

"Thanking God and Taking Courage" is the topic to be discussed by Dr. C. E. Hereford this afternoon at 2:30 o'clock in the church chapel for First Baptist Women's Missionary society. The meeting will complete a Week of Prayer program.

A devotional will be given by Mrs. R. S. Wilkinson. Miss Theda Beth Porter and Mrs. C. N. Hallmark will sing solos. Mrs. A. T. Cocanoughter will speak on "Europe and Africa" and Mrs. Claude Key will discuss "Latin America."

Gerald Liner, 7, Is Honored At Party

Mrs. Howard Liner of 2219 Sixth entertained her son, Gerald, on his seventh birthday Tuesday afternoon.

Christmas stockings filled with candy and nuts were favors. Refreshments were served to Carma Jean Williamson, Frankie Gene Ward, Scott and Sharla Pepper, Larry Hay, Mrs. Dale Pepper and little Mary Ruth Liner.

Many face creams have a petroleum base.

Christmas Dinner Is For Society

At a Christmas dinner party given for South Plains Dahlia society and guests Wednesday night at Tech Social center, Mrs. H. S. Weiss gave the club's history, gifts were exchanged and carols sung.

Mr. and Mrs. J. C. Stansell and Mrs. W. D. Hord were announced as new members.

Guests were Dr. and and Mrs. W. W. Yocum, Mr. and Mrs. A. N. Baldwin, Mr. and Mrs. W. C. Barnett, H. D. Lemon of Dallas, Miss Clyde Duncan, Mrs. J. W. Dennison and Miss Lena Marie Skeen.

Members present were Messrs. and Mesdames E. C. Pool, Weiss, A. L. Faubion, H. G. Knight, James Samson, W. B. Sides, R. C. Badgett, H. J. Kendrick, Mesdames Lillian Slay, W. L. Palmer, John Fry, Messrs. J. E. Maisen and Z. A. Kimbro.

Mary Martha Class Meets For Party

Mesdames W. B. Chiles, I. W. Hicks, S. R. McKinnon and H. G. Brock were hostesses with a Christmas party Thursday afternoon in the home of Mrs. Chiles, 2347 Nineteenth with members and guests of the First Baptist Mary Martha class attending.

There was a gift exchange.

Members present were Mesdames W. W. Nichols, T. L. Landis, W. M. Alexander, George Moore, C. A. Lawrence, J. L. Watson, J. W. Dennison, Carl Owens, G. P. Howell, R. V. Sandlin, Frank Moss, Robert Miller, W. C. Fry, E. F. Hunsaker, W. H. Floyd, Alfred Beazey, Walter Herrin, Lillian Slay.

Guests were Mesdames W. H. Trice, J. A. Barton, Lloyd R. McCormick, C. E. Hereford, W. C. Russell and the class mother, Mrs. J. H. McLeod.

Joan McIlhaney played Christmas selections on the violin as one feature of entertainment and carols were sung by the group.

Sherrods, Banks Hosts At Supper

In the home of Mr. and Mrs. B. Sherrod, 2201 Sixteenth, Thursday night, the Sherrods and Mr. and Mrs. E. L. Banks entertained with a buffet supper.

Christmas decorations were used.

Guests were Messrs. and Mesdames Homer Cain, J. C. Rigney, A. L. Scoggin, Paul Newman, Lawrence Green, J. C. Davis, Claude Tatum and J. C. Sanders.

Concannon-Hogan Vows Are Read

The marriage of Miss Marian Patrick Hagan, daughter of Warner Bourke Hagan of San Angelo, and Ensign James Noel Concannon of Kalamazoo, Mich., which took place Saturday morning, Dec. 1, in the St. Augustine's Catholic church of the bridegroom's home city, is being announced here.

After a trip to Chicago, the couple will be at home temporarily at Grosse Isle, Mich., where the bridegroom, who has been in the Navy for three years, is stationed.

Mrs. Concannon is a former student at Texas Technological college and is a graduate of Texas Christian university. She formerly was employed by the American Red Cross in Fort Worth.

Mrs. I. C. Tucker Is Club Hostess

A Christmas program was given and Christmas songs were sung by Slaton Home Demonstration club members in the home of Mrs. I. C. Tucker Wednesday. Mrs. W. H. Long led group recreation.

Mrs. James Haliburton sang, "White Christmas." Mrs. Carter Shaw spoke on "Crowded Out" and Mrs. Douglas Wilson spoke on "Christmas Facts and Fiction."

Others present were Mesdames H. H. Booker, E. E. Wilson, Lucille McEver, Charlie Logan, W. D. Pierce, R. C. Hall, Cleta Young and J. F. Henry.

Arnett-Benson Club Has Party, Program

Mrs. Burl Walker was hostess to Arnett-Benson Home Demonstration club Thursday afternoon for a Christmas party.

A story, "Hail Christmas," was told by Mrs. Henry Johnson, Mrs. Ruby Bolin read a scripture from Luke 2 and poems, "Christmas" and "Beautiful Gift," were read by Mesdames T. A. Nall and Walker respectively.

Fruit cake and punch were served to the 13 members attending.

Parent-Teacher Units Attend Programs Given By Pupils And Members Thursday

Pupils of George R. Bean and K. Carter schools presented Christmas numbers for their Parent-Teacher associations Thursday afternoon in addition to regularly scheduled programs.

Mrs. C. A. Gentry's fifth grade of George R. Bean gave the story of "The Christ Child" and sang carols.

In his lecture on "Spiritual Education," M. Norvel Young, pastor of the Broadway Church of Christ, said, "The home must assume the responsibility to teaching today's children the word of God." He added, "The solution of today's problems lie in Christian education."

Mrs. J. G. Terry, president, presided at a skit on the recent State Parent-Teacher convention held in San Antonio. She was assisted by Mesdames Charles C. Files, C. Alvin White, Watson Wilson, Russell Hardin, Harry Arnold and Acle Cope.

During a business session, the P.-T. A. voted to buy equipment to furnish the kitchen at the school.

Mrs. J. R. Bridges' room had the largest number of parents attending.

• • •

Choral club of K. Carter school, directed by Miss Imogene Webster, sang Christmas songs preceding a skit, "The Return Trip from San Antonio to Lubbock," pertaining to the state convention.

Taking parts on the skit were Mesdames Roy Hall, Charles C. Files, Harry Arnold, C. Alvin White, Russell Hardin and Watson Wilson.

The by-laws of the P. T. A. were read during a business session.

A.C.E. Attends Annual Party

Lubbock branch of Association of Childhood Education held its annual Christmas party in Hotel Lubbock Tuesday night with the Junior High Mixed chorus singing Christmas carols. Mrs. Elois Elliott directed the chorus which was accompanied by Miss Nell Verna LeMond.

Mrs. Jane McDonald of the Tech speech department read Henry Van Dyke's "The Other Wise Man."

Following an exchange of gifts, refreshments were served to 50 guests by faculty members of K. Carter and McWhorter schools.

Lubbock Men Speak At Wichita Session

WICHITA FALLS, Dec. 6. (AP) —Grain sorghum, "the country cousin of corn," will play a prominent part in the state's farm future, R. E. Karper of Lubbock told the Regional Chemurgic clinic here today.

Karper, of the State Agricultural experiment station, said that chemurgic uses of grain sorghum rival those of corn.

He said grain sorghum production exceeded the Texas corn crop and doubled the wheat crop of 1945, with an even greater margin the year before.

Speakers for the concluding afternoon session were Dean R. C. Goodwin, Texas Technological college, Lubbock; E. D. Marshall, forest laboratories, Lufkin; and Dr. Harold Jesky, Southern Methodist university, Dallas.

Today's Events...

First Baptist WMS, 2:30 p. m., church, program.

South Plains Hardin-Simmons Alumni and Ex-Student's association, 7:30 p. m., First Baptist church annex.

Today's Religious Emphasis Week program, 7 a. m., Annex G, Tech home economics building, morning watch; 7 p. m., First Christian church, vesper service.

Opti-Mrs. club, 3:30 p. m., Tech Social center, tea.

Hub Hobby and Cline clubs, 7:30 p. m., Mr. and Mrs. E. M. Copp, 1608 Twenty-third.

Tech Junior council, 6:30 p. m., Tech Social center, dinner.

Shangri-La Santha, 8 p. m., K-P hall.

Loyalty club, all-day, Mrs. Ed Greer, 1914 Ave. M, covered dish luncheon and quilting.

Twenty-four Forty-two club, 3 p. m., Mrs. L. S. Mast, 1620 Ave. Q.

Christmas Tea Is For Garden Club

The home of Mrs. Doyle Jordon, 1915 Twenty-third, was decorated with holly and candles for the Christmas tea given by Lubbock Junior Garden club Thursday afternoon. The mantel was lined with filled Christmas stockings. On the tea table was a tall white taper circled with holly. The scene was reflected in a mirror at the end of the table.

Mrs. Aubrey Woodfin was co-hostess and Mrs. J. D. Jenkins was program chairman. Under the direction of Mrs. Elois Elliott and accompanied by Miss Nell Verna LeMond, the Junior High Girls Glee club sang Christmas carols. Gifts were exchanged.

Twenty-two attended.

Lipsticks On Nickels Runs Fare Box Crazy

TULSA, Dec. 6. (AP) — Bus drivers today urged feminine passengers to keep nickels away from their lips and to cap lipsticks carried with change in their purses. The drivers complained that when nickels smeared with lipstick are dropped into fare boxes, the "susceptible" gong mechanism "goes crazy" and keeps ringing up rides.

UNO SITE UNDECIDED

LONDON, Dec. 6. (AP) — Delegates to the United Nations preparatory commission were split tonight over a Canadian proposal to vote for an exact site for the world capital, rather than proceed to vote on the recommendation that it be set up in the United States.

The age of the average prewar passenger car was 5.8 years.

HAPPY CHOICE—Comely Libby Walker appropriately hugs footballs and oranges to signify that she has been chosen Miami Orange Bowl queen.

INDONESIANS BOMBED

BATAVIA, Java, Dec. 6 (AP) — Four British bombers today smashed two houses in Bandoeng serving as headquarters for Indonesian resistance forces, and an official British statement said 38 Indonesians were killed in skirmishes in the Soerabaja sector.

News Briefs

Ted Harvey, 38, indicted by a 99th district court grand jury Nov. 20 on a charge of child desertion, was in county jail last night following his arrest by county officers at Amarillo and returned here by Deputy Tom Cannon. Esidro Castillo, arrested here by members of the Sheriff's department, was released to the sheriff at Plainview, who held a felony warrant.

The police department reported that a car owned by Wylie J Dykes, jr., 706 Ave. K, reported stolen here Nov. 26, has been recovered by the sheriff's office at Kingman, Ariz., and one person apprehended. A car stolen at Seminole Sept. 20 from Hershell Casey has been reported abandoned at Chickasha, Okla.

Get Better Cough Syrup By Mixing It at Home

Quick Relief. Big Saving. So Easy! No Cooking.

To get quick relief from coughs due to colds, you should make sure by mixing your own cough syrup at home. It's no trouble at all, and you know it's pure and good. It needs no cooking, and it's so easy to make that a child could do it.

From your druggist, get 2½ ounces of Pinex. Pour this into a pint bottle, and add enough plain syrup to fill up the pint. To make syrup, stir two cups of granulated sugar and one cup of water a few moments, until dissolved. Or you can use corn syrup or liquid honey, if desired. The full pint thus made should last a family a long time, and gives you about four times as much cough medicine for your money. It never spoils, and children love its pleasant taste.

And for quick results, you've never seen its superior. It seems to take hold instantly, loosening the phlegm, soothing the irritated membranes, and helping to clear the air passages.

Pinex is a special compound of proven ingredients, in concentrated form, well known for quick action on throat and bronchial irritations. Just try it, and if not pleased, your money will be refunded. 4dv

Sanders School Is Hard Hit By Flu; More Than 150 Pupils Out With Sickness In Past Week

By C. W. RATLIFF
Avalanche Staff Writer

ONE OF Lubbock's most rapidly-expanding elementary schools is Sanders school, situated in the 600-block on North Second street.

Constructed in 1925 and opened in the fall of 1926, the school has been expanded twice and now has an enrollment of 568 students. Four rooms were added to the original building in 1941-42 and last year four more rooms were built on the second floor. Recently the block east of the school was purchased for expansion of playground facilities.

But the past week the school didn't need but about two-thirds of its space, for influenza played havoc with attendance figures and an average of 150 pupils were absent during the week, absences running as high as 177 on one day due to illness.

The school was named in honor of **Liff Sanders,** pioneer Church of Christ minister, as a tribute to his early-day religious work in Lubbock. It is located in the Sanders addition on property formerly owned by Sanders.

MRS. SPECK

Mrs. E. B. Speck is the oldest member of the Sanders faculty from the standpoint of service. She has been teaching since 1928. Mrs. Speck holds an A. B. degree from Mary Hardin-Baylor college and a master's degree from Texas Technological college. She is president of the Association of Childhood Education.

Cecil E. Buck is principal of the school, having replaced **Mrs. J. T. Trigg,** who had been Sanders principal since establishment of the school. Mrs. Trigg retired from teaching last year. Other members of the faculty are: **Miss Ruby Lee Waller, Miss Beulah Starnes, Mrs. Grace Smith,** and **Miss Winnie Hendrix,** first grade; **Mrs. R. C. Hitt, Mrs. D. M. Hopper** and **Mrs. Mildred Taylor,** second; **Miss Lela Puryear** and **Mrs. Mellie Cox,** third; **Mrs. Martha Hart, Mrs. Winnie Flynt,** fourth; **Mrs. Alma Rea** and **Miss Annie Loree Smith,** fifth; **Miss Alleyne Quicksall** and **Mrs. Speck,** sixth; and **Mrs. Faye Mann,** Spanish.

PRICE

William Price, 14, son of **Mr.** and **Mrs. R. B. Price,** Idalou highway, is one of Sanders' leading students. Besides being captain of the school's safety patrol, he is also captain of the fire patrol and captain of the Sanders Bulldoggers, the school's touch football team.

Cecil Gilbert, 12 son of **Mr.** and **Mrs. M. L. Gilbert,** 411 Third, is adept in art and his fire prevention poster took second prize in the poster contest for Lubbock grade schools. He is also a member of the school safety patrol group. Other members of the patrol are: **Bobby Joe Simmons, Mardis Graves, Anson Goolsby, Richard Hill, Billy McElhaney** and **Bobby Elliott.**

GILBERT

Citizenship clubs form an important phase of the pupil's extra-curricular activities at the school and through this medium, the youngsters learn their first experience in leadership and organization work. **Sybil Lemon,** 11, daughter of **Mr.** and **Mrs. Vernon Lemon,** Route 1, and **Troy Thames,** 12, son of **Mr.** and **Mrs. S. D. Thames,** 1110 Monroe, are chairmen of the sixth grade clubs with **Joe Olin Grizzle,** 13, son of **Mr.** and **Mrs. C. G. Grizzle,** route 2, vice president. **Jerry Clark,** 12, son of **Mr.** and **Mrs. W. J. Clark,** Hub Homes, and **Jerry Gailey,** 10, son of **Mr.** and **Mrs. Jack Gailey,** route 3, are chairmen of fifth grade clubs with **David Sarten,** 13, son of **Mr.** and **Mrs. H. S. Sarten,** 708 Third, vice president. **Roscoe Fowler,** 11, son of **Mr.** and **Mrs. R. B. Fowler,** 510 Ave. C and **Dennis Duncan,** 13, son of **Mr.** and **Mrs. W. A. Duncan,** 601 Hub Homes, are chairmen of fourth year clubs.

Sanders school has served as a sort of community center for the northeast section of Lubbock and one of the most dominant influences in the area has been the Sanders Sunday school, non-denominational, which is now in its 16th year. It was organized by **J. T. Trigg** and **Geo. W. Dupree.**

The Sanders Parent-Teacher association is one of Lubbock's most active P.-T. A. groups and is now

LEMON GRIZZLE

in its 20th year. This year the chapter has 50 members, double that of any previous years except last year. The association has 15 subscriptions to the state magazine and five to the national and last year received the national magazine's blue certificate award with a grade of A. The association has sold approximately $3,000

DUNCAN FOWLER

worth of war bonds and stamps during the war and aided in all of the scrap and salvage drives.

Two Texas life memberships are numbered among its projects and the group helped pay for two national life memberships.

The association sponsors the Youth Center at Sixth and Ave. B and aided in bringing special

GAILEY SARTEN

events of the city recreation department such as the city-wide Easter egg hunt and opening day events each year in the parks. Other activities of the group include keeping the cookie jar filled two weeks at the USO from Oct. 15 to Oct. 27; awarding $2 each month to the room having the most parents present; and furnishing room mothers with the teachers and students throughout the year.

Mrs. Cecil Gilbert is president; **Mrs. W. L. McDaniel,** vice president; **Mrs. A. L. Halford,** secretary and **Mrs. J. C. Roberson,** treasurer. **Mrs. George Lemon** is a district vice president and **Mrs. Hubert Spence** is chairman of the city hospitality committee. The group also has a member of the budget and finance committee of the city council.

(Next week, your reporter will take you to Roscoe Wilson school in southwest Lubbock for a report on the activities of the teachers and pupils there.)

Duke University has conducted experiments to render blood of animals suitable for human transfusions.

Tirades Of Pair In Texas Recall Clyde Barrow Depredations

AUSTIN, Dec. 6. (U.P.)—A man and woman, both armed with pistols, last night held up and robbed a liquor store operator of $400 and two guns at Jarrell, Williamson county, and were flushed while trying to hijack another store, State Ranger Captain Fred Olson said today.

Rangers, highway patrolmen and local officers were searching the vicinity for the couple, whose tactics were reminiscent of the renowned Clyde Barrow and Bonnie Parker.

A car, believed used by the unknown couple, was found abandoned on a side road two miles northeast of Jarrell. It was being checked for identification, and contained three bullet holes, which Olson said had been made from shots inside.

After taking the $400, a .22 caliber rifle and a 12-gauge pump shotgun from the Goodwin Liquor store, the couple drove toward Belton. They were in the process of hijacking "Cowboy" Anderson's liquor store on the outskirts of Jarrell when a truck drove up and frightened them away.

Olson said the woman held a .45 caliber automatic pistol, while the man, who did the talking, had a smaller caliber pistol, possibly a .38 or .32. Olson said the woman's clothes were blood-stained and that she had a cut on her forehead.

An automobile was stolen in Georgetown last night, but Olson did not speculate whether the armed couple made off with it after abandoniinig a 1941 model Oldsmobile. It bore an Oklahoma license, which had been stolen, Olson said.

Texas Masonic Grand Lodge Ends Session

WACO, Dec. 6 (AP)—The 110th annual meeting of the Masonic Grand Lodge of Texas closed today with the installation of Pat M. Neff, president of Baylor university, as grand master to succeed Bascom Giles of Austin.

Other elective grand officers installed include: R. Bruce Brannon, Hillsboro, deputy grand master. T. Horace Jackson, Gatesville, frand senior warden. Hugh M. Craig, Fort Worth, grand junior warden. Appointive officers installed included: A. M. Foster, Three Rivers, grand chaplain; Albert Delange, Houston, grand orator; Gabe Allen, Dallas, marshal; Joe W. Steed, Mt. Pleasant, senior deacon; Luther Kendall, Gladewater, junior deacon; Johnnie Bean, Fabens, senior steward; E. A. Polzin, McAllen, junior steward; Rudolph Mellard, Marfa, grand pursuivant and Fritz Werner, Laredo, tiler.

Paul Turney of Sonora was elected to the committee on work to succeed Robert H. Brooks of San Angelo.

Flu Cases Feared On Increase In Texas

AUSTIN, Dec. 6. (AP) — State Health Officer Dr. Geo. W. Cox, said today the number of influenza cases appears to be increasing with the advance of the fall season.

While most cases are mild and lend themselves to treatment readily, said Dr. Cox, it is essential to realize that influenza no matter how mild the attack, calls for a period of convalescence.

If this factor is ignored, serious complications may occur.

The best known bulwark against all respiratory diseases, said Dr. Cox, is securing of plenty of sleep, daily exercise in the open, nourishing foods and good personal hygiene.

Government Opposes Sale Of Pullman Co.

PHILADELPHIA, Dec. 6 (AP)—The Department of Justice in a federal court today opposed sale of the sleeping car service now operated by the Pullman company to 43 railroads for $75,000,000.

In a 27-page brief, the government said the railroads could not comply fully with the court's decree for a complete separation of the servicing business from the manufacturing end because of the railroad's affiliations with banks, insurance companies and Pullman, Inc.

The brief says that if the railroads acquire the property their representatives would have to sit on the board of directors of the sleeping car company and, in doing so, would not be complying with the court order there be no relationship between manufacturing and servicing.

Mexico Stepping Up Big Building Program

MEXICO CITY, Dec. 6 (AP)—Public projects constructed at a total cost of more than $2,000,000 were inaugurated by President Manuel Avila Camacho today.

Among them were six schools with total capacity for 6,800 students; seven market places, costing $370,000; two police stations; waterworks costing nearly a million dollars, sanitation projects, and others.

The president and Javier Rojo Gomez, federal district governor, covered 125 miles in Mexico City and environs visiting the projects.

University Receives Surplus Army Goods

AUSTIN, Dec. 6 (AP)—The University of Texas has received approximately $85,000 worth of surplus equipment from the Army without cost, except the expense of packaging and freighting, J. Neils Thompson, coordinator of surplus property acquisition for the university said today.

The equipment, donated by the Army under the provisions of War department procurement regulation No. 7, ranges from turret lathes air compressors and punch presses valued in the thousands of dollars to such minor items as carpenters hammers, welding goggles and 44 gallons of red paint.

GOP's Program Accorded Mixed Reaction On Eve Of Meeting

CHICAGO, Dec. 6 (AP) — The supplemental Republican platform for 1946 was accorded a mixed reaction today as members gathered for the special GOP National committee here tomorrow.

The two-day meeting will consider the platform approved in Washington yesterday by Congressional Republicans calling for strengthening of the processes of collective bargaining and protection of small nations.

Brownell Praises Program

The platform was praised openly by Chairman Herbert Brownell, Jr., of the National committee and others. But one westerner privately called it "weasel-worded" and asked for more specific delineation between Democratic and Republican aims.

Meanwhile, the great west and southwest spoke up for greater voice in party affairs, both as to personnel and participation in formulation of party programs.

Kelland Has Proposal

Clarence Budington Kelland, Arizona committeeman, told reporters he would offer his "Arizona declaration" as a supplement to the Congress-framed statement of aims and purposes when it is brought up in the National committee tomorrow by Rep. Martin of Massachusetts, House minority leader.

The Kelland plan, approved by the Arizona State Central Republican committee last Nov. 7, declares the major issue today to be between "extreme radicalism and prudent conservatism."

The second of the "great issues" before the country, it says, is this: "Shall organized labor rule the United States or shall the United States govern organized labor?"

DE GAULLE RIVAL—Maurice Thorez, above, French Communist leader, is considered the foremost rival of Gen. Charles De Gaulle for political mastery of France. Long in exile, Thorez returned to France following V-E Day.

Ship Channels To Be Cleaned In Gulf Area

WASHINGTON, Dec. 6. (AP)—Dredges are being sent to clean silt from the Brownsville and Port Isabel ship channels and restore them to their authorized depth of 32 feet, Army engineers have informed Rep. West (D-Tex).

Three or four dredges should reach the lower Rio Grande valley area within a few days. Four new hopper dredges have been ordered by the Army engineers for maintenance work, Roy Miller, Corpus Christi, president of the Louisiana-Texas Intercoastal canal association, said today.

Maintenance work had been reduced during the war, and silt has accumulated in some sections of the channels, preventing the loading of oil tankers to more than half their capacity, West said.

Miller said that work has started or would begin shortly on an extension of the intercoastal canal from Corpus Christi to Port Isabel.

The engineers now have available $1,600,000 for carrying on the work between now and next June 30, he said, and one dredge has been assigned to dig a channel southward 14 miles from Corpus Christi, and another 15 miles northward from Port Isabel. Congress will be asked to appropriate $2,000,000 to continue the work throughout the fiscal year beginning July 1, 1946, and the remaining $2,000,000 for completion of the extension project in the subsequent 12-month period.

The wood of the poplar tree has been used widely for the manufacture of berry baskets and crates because it is soft, tough, clear, light in weight and color, and tasteless and odorless.

How To Hold
FALSE TEETH
More Firmly In Place

Do your false teeth annoy and embarrass by slipping, dropping or wabbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Four Texas Cities To Observe Anniversary

(By The Associated Press)

Denton, Galveston, Corpus Christi and Houston will observe Pearl Harbor Day today (Friday) but most other Texas cities plan no unusual ceremonies for the first peaceful Dec. 7 since 1941.

Denton's observance will be linked with a celebration planned for far exceeding its victory loan quota. Lucky bond holders will win prizes that were unpurchaseable during the war—a new car, a new electric sweeper, an electric washing machine and a radio.

At Corpus Christi, 125 barrage rockets will be fired from jeeps and combat vehicles by a Navy unit at the bay front. Later there will be a band concert, drills and speeches. This also is jointly sponsored by the War Bond committee.

Galveston will hold a victory jubilee celebration as part of the Victory Loan drive. It will include entertainment and a ball.

Memorial services by various churches will be held in Houston.

No other Texas cities announced plans for Pearl Harbor Day observances.

Japs Failed To Use 'Offensive' Seapower

PEARL HARBOR, Dec. 6. (AP)—The Japanese failed to wipe out the United States first line of defense in the Pacific in their attack on Pearl Harbor because they did not "fully appreciate" seapower as an offensive weapon, Adm. Raymond A. Spruance said today.

The fighting admiral, now Commander in Chief of the Pacific fleet, made this observation in a pre-anniversary statement on the sneak attack, which fell four years ago tomorrow.

"Fortunately," said Spruance, "while the enemy knew the importance of seapower and while he understood that he must first eliminate our seapower, he did not fully appreciate its use as an offensive weapon.

"Instead of following up his initial successes, the enemy diverted his Navy, which then far outclassed ours, to support of troop movements in the Southwest Pacific."

Since seapower as America's first line of defense, the Japanese might have won a quick and decisive victory had that line been smashed, the admiral said.

Ward Reenlists For Three Years In Army

BASE M, San Fernando, La Union Luzon, P. I.—Cpl. Thomas N. Ward, husband of Mrs. Helen F. Ward, Lubbock, recently enlisted for three years in the regular Army. He has been authorized a 90-day furlough in the United States before returning to the Asiatic-Pacific Theater for duty with the Transportation corps.

Ward, who is now stationed at Headquarters, Base M, in northern Luzon, has been in the Army since August 1943, and has been overseas since April 1944. He wears the Asiatic-Pacific Theater ribbon with battle stars for the New Guinea and Luzon campaigns.

Atom Worker Gives Othman Tizzies By His Dire Forecasts

By FREDERICK C. OTHMAN
United Press Staff Writer

WASHINGTON, Dec. 6.—I hate to scare you nice people, but this fellow, Oppenheimer, gave me the tizzies. If I can't sleep tonight for worrying about us, I want company.

Oppenheimer, Dr. J. Robert, is a nervous young fellow with a crew haircut; tall, slim, and homely in a pleasant kind of way. He smokes cigarettes while his pipe cools off. His is a soft, well-modulated voice of doom. He talks to senators like they are sophomores, delivering to them his required course on the end of civilization.

Could Be Only Vapor

Unless we're careful we won't be here at all some morning. We'll be whiffs of radioactive vapor, greenish in color, and poisonous to all living things, if there are any living things, which is doubtful. It took me a while to get it through my skull the Doc was not spoofing. Nobody knows better than he what happens when you scratch an atom's back the wrong way.

He was head man at the atom factory in Los Alamos, N. M. Now he's here admitting to the lawmakers that the scientists turned up a wild cat. They're passing the buck, he said. They figured out how to wreck the world, but they never got around to learning how to wreck their wrecking machine.

Politicians Only Hope

The politicians are civilization's only hope, he said, looking a few of 'em steadily in the eye. They've got to build some kind of padlock for the atom bomb and yet allow atomic power for heating places like Chicago.

Sen. Millard E. Tydings of Md., a member of the atom control committee, said there wasn't much difference between building an atomic furnace and a small bomb that would turn the capital into a golf links without the grass. Dr. Oppenheimer said, no there wasn't. That was the trouble.

"In all history," he said, "no other group of men have had placed before them such a difficult problem."

Repeat For Scoffers

The committeemen looked glum. Dr. Oppenheimer said one thing they might do is repeat the New Mexican atomic explosion occasionally for the benefit of scoffers.

"It is," he said, "a fairly spectacular thing."

Sen. Brien McMahon of Conn., the chairman, let out the only chuckle of the day. That, he said, was a masterpiece of understatement.

Sen. Eugene D. Millikin of Colo., wondered whether there was any apparatus whereby an atomic bomb hidden in a Washington cellar could be detected. Dr. Oppenheimer said, yes, there was: A screw driver. He said he'd use it to open all the crates in all the cellars until he found the one with the bomb.

The trouble, he said, is that it does not tick. Neither does it send out rays, because it's like a small diamond buried in a big wad of cotton.

Delivery Service

He got to talking then about delivering atomic weapons. He said it was 10 to 100 times cheaper to deliver them than TNT. It finally dawned on me that when he said, deliver, he meant delivery with a great, big bang. Furthermore, he said, the government should encourage atomic development for peace-time use, once it has discovered how to keep the peace. As he put it:

"It is very difficult for a man to make his life's work the manufacture of atom bombs when, (A), he thinks they'll never be used and, (B), that they should never be used."

He said there were some subjects that keep him awake at night. Me, too. It looks like a sleepless world; if those international politicos can't tame this particular tiger, there won't be any world. Dr. Oppenheimer swears it.

The radar industry already is six times as big as the radio industry was before the war.

Ira Schantz Given Promotion On Leyte

LEYTE, P. I.—Ira J. Schantz, son of Mr. and Mrs. Gus Schantz of 2117 Seventeenth Street, Lubbock, has recently been promoted to Technician Fifth Grade and is serving as a clerk-typist with the 58th Replacement Battalion Headquarters of the 28th Replacement depot (disposition center), APO 318 on the Island of Leyte in the Philippines.

Overseas since June of this year, T-5 Schantz is entitled to wear the Asiatic-Pacific Theater Ribbon with one campaign star, the American Theater Ribbon, The Philippine Liberation Ribbon, and the Good Conduct Medal.

A 1940 graduate of Lubbock High school, T-5 Schantz was attending Texas Technological College in Lubbock prior to his induction into the Army in October, 1942.

Woman Holds Limb To Prevent Drowning

HOUSTON, Dec. 6 (U.P.)—Nila Edge, 30, saved herself from drowning in the cold waters of Buffalo bayou today by clinging for thirty minutes to an overhanging tree limb after she either fell or jumped from a bridge.

She was rescued when a policeman tossed her a rope and was taken immediately to a hospital suffering from shock.

Witnesses said her body plunged into the water at 9:30 a. m., went under, and then came to the surface. She grasped the limb and held on for more than half an hour.

Christmas suggestion

FOR HUSBAND, FATHER, SON, BROTHER OR YOURSELF

- THE PERFECT SIZE for durability and dependability as well as instant readability.
- 17 JEWELS are contained in the accurate A. Schild movement. A. Schild is one of the most popular Swiss movements. It's use in many brands of watches assures repair parts.
- DUST PROOF and MOISTURE PROOF, qualities so necessary on the farm and ranch, are made possible by the use of precision made stainless steel cases. A stainless steel case is the most durable watch case made. Stainless steel does not tarnish or corrode and is difficult to scratch.
- SHOCK PROOF and JAR PROOF are additional qualities which insure accurate performance on the farm and ranch. This patent process which effects balance wheels and jewels makes this watch adaptable to any amount of rough treatment.
- GLOWING RADIUM DIAL set on velvet black face affords masculine attractiveness as well as perfect readability at night.
- A SWEEP SECOND HAND points to a rose gold dial on the outer edge which is calibrated for one-fifth of a second.
- THE NON-MAGNETIC quality insures this watch against stoppages and inaccuracies which are caused by electric motors, magnets, etc.
- UNBREAKABLE CRYSTAL.

Pauley Urges Japan Be Stripped Of Most War Making Industry

TOKYO, Friday, Dec. 7 (AP) — Edwin W. Pauley, U. S. reprarations commissioner, recommended today that Japan be stripped of all assets abroad, virtually all chemical, steel and ship-building capacity and half her electric power and machine tool industries.

Pauley said in a formal statement that he was recommending this coure to President Truman to destroy any possibility of Japan ever waging war again and to reimburse the countries she victimized.

Must Destroy Surplus

"Equipment built up in Japan during the past generation consisted of plants for the purpose of waging wars of aggression," Pauley said, and "despite all wartime destruction," there still is more than twice as much in usable condition as when Japan started her aggressive course in Manchuria 14 years ago.

"That surplus must be taken out," he declared.

These industrial facilities would be shipped to other countries, along with all Japanese capacity for producing many specified light metals, while all the nation's gold and precious metals would be sent to the San Francisco mint to be held pending decision on its disposal.

Equipment used solely for making arms and ammunition "will be destroyed," Pauley stated flatly.

Previously Pauley had indicated that while Japan's industrial equipment would not be desirable in the United States it would be welcome in China and the Philippines.

Hargrove Has Idea For Former Colonels

NEW YORK, Dec. 6. (AP)—What does the boss to about the former office boy who returns from the wars a full-fledged colonel?

It's very simple, said Marion Hargrove, author of the GI best seller—"See Here, Private Hargrove!"

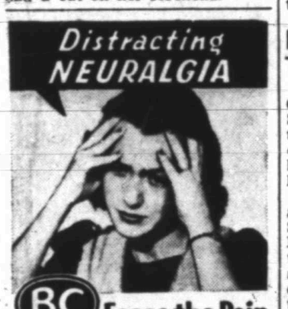

He told the 5,000 industrialists at the National Association of Manufacturers convention today: Just put the colonels back to work as office boys.

Loud applause followed Hargrove's explanation that " a lot of unmitigated jerks were holding major's rank while their work was being done by a private first class."

Man, Woman Sought In Robbery Case

AUSTIN, Dec. 6 (AP) — State Ranger Capt. Fred Olson said today Rangers, highway patrolmen and local officers continued the search for a man and woman who robbed the Goodwin liquor store at Jarrell, Williamson county, Wednesday night.

The operator of the store said the woman carried a .45 calibre automatic pistol, while the man, who did the talking, had a smaller caliber pistol. The woman's clothes were blood-stained and she had a cut on her forehead.

Death Sentence Given Negro In Rape Case

LAUREL, Miss., Dec. 6. (AP)—A jury in Jones county circuit court, after deliberating two and one half minutes, returned a verdict tonight convicting Willie McGee, negro, 30, of raping a Laurel white woman last Nov. 2 in her home.

Judge F. Burkitt Collins, presiding, immediately sentenced the defendant to die in the electric chair on Jan. 7, 1946.

There was no disturbance during the one day trial. After its conclusion McGee was taken to the Hinds county jail at Jackson, where he has been confined since his arrest for safekeeping.

The negro was started back to Jackson at 6:25 p. m. in custody of National Guardsmen armed with rifles, machine guns and tear gas, and traveling in guard trucks. There was no demonstration by the citizens.

Rosenbloom Denies He Took Wife's Money

LOS ANGELES, Dec. 6 (AP) — Contesting his wife's divorce suit, Slapsy Maxie Rosenbloom, one-time light heavyweight champion, denied in court today that she had to dig up $1,000 every time he strayed from the home fires.

It is true, the clowning Maxie admitted to Superior Judge Ruben S. Schmidt, that he and Mrs. Muriel Fader Rosenbloom, school teacher and child psychologist, separated five times. But Maxie didn't have to be bribed, he said, to return home. He admitted borrowing $4,500 from his mother-in-law to pay income taxes.

"But I paid that back 10 or 12 times," he added.

"Where did you get the money?" asked her lawyer.

"I stole it," Maxie shot back sarcastically.

Judge Schmidt admonished the former fighter that while he might be a comedian in the ring and in night clubs the courtroom was no place for those talents.

SPRAYING CITY — An RAF Dakota bomber flies along the Singapore waterfront spraying DDT in the fight against the mosquito and malaria. This is part of a general cleanup of the city by the British after years of Jap occupation.

Wider Uses For Planes Forecast

Flying by West Texas businessmen will become a part of daily business routine in the future—not as a day's-end-sport.

He will fly something light enough not to cost much—yet something powered enough to cruise more than 100 miles an hour, while "cutting across" section lines.

In other words, he will use an airplane like he today uses his automobile, for utility.

So believe M. F. Dagley and Emmett Morris, who doing distribution business on Municipal airport (now South Plains Army Air field) as Dagley & Morris, have booked more than $200,000 in orders for Piper Cub aircraft against the time when the Piper Cub company commences mass production Jan. 1.

Hosts To Dealers

Dagley and Morris were hosts Wednesday night at an open house and dinner in the North ballroom of Lubbock hotel to dealers of their 65-county West Texas district, and some from Oklahoma and New Mexico.

Thirty-six person attended. Daidy Clairborne and Clyde Green, a vocal-piano team, entertained. William Winter, staff member of Eastern Air Trails, of New York City, spoke.

Others in attendance were the following from Lubbock: Virgil Musick, Mr. and Mrs. Robert Bean, Jerry Fulton, Mrs. Dagley and Mrs. Morris, Miss Betty Brown, Clyde Green, Mr. and Mrs. Bob Mitchell, Mr. and Mrs. C. C. Perkins, M. I. Hall, L. W. Sailsbury, C. C. Caldwell and Mr. and Mrs. C. C. Perkins; and Cecil M. Hunter of Amarillo, F. D. Mason, jr., of Texhoma, Okla.; W. E. Madden of Odessa, Buck Sims of Pampa, W. M. McDonald of Fort Worth, W. M. McDonald of Fort Worth and Mrs. McDonald, G. O. Pauler of Crosbyton, Ralph Brown of Plainview, Claude Hutcherson of Plainview, Bill McNeely of Tahoka, Lee Williams of San Angelo, all dealers; and Woodson Wadley of Kerrick, Mr. and Mrs. Frank Hinds of Hobbs, N. M., B. T. Smith of Tahoka, Buck Taylor of Lockhaven, Pa., of the Piper Cub company, J. Boyd of Santa Fe, N. M., and Sarah Sheppard of San Angelo.

Man Charged With Hit And Run Death Waives Extradition

DE QUEEN, Ark., Dec. 6 (U.P.)—Luther W. Ragan, 35, former resident of Horatio, Ark., waived extradition today and was returned to Houston by special investigators after signing a statement regarding a hit-run accident in Houston last week.

The pedestrian, John Raymond Cekanek, was fatally injured.

Ragan said he failed to see Cekanek in the street when he struck him. He drove to the next block and then returned to the unconscious form. He said he realized the seriousness of the accident.

Then he returned to the car, picked up his wife and four children and drove to Nacogdoches. He left the car parked in the street and caught a train for Horatio. He had been planning to move the family back to Horatio on account of the housing shortage in Houston.

He said he and his wife discussed his position and planned to return to Houston and give himself up. However, he took his family to the home of his sister where he was arrested by the Arkansas state police yesterday.

Ragan said he wanted to return to Houston and clear up the accident.

German Scientists Gave Up On A-Bomb

WASHINGTON, Dec. 6. (AP)—A leading Army investigator said today German scientists despaired of developing the atomic bomb in a century and had shelved the idea of using it in the recent war.

Yet the Nazis arrogantly assumed their nuclear research to be far ahead of the Allies, declared S. A. Goudsmit, head of the Military Intelligence mission sent to Germany to learn the enemy's work on atomic energy.

The University of Michigan physics professor also disclosed to the Senate atomic committee that we knew as little of Germany's progress as they about ours until it was definitely determined a year ago that the German atom project had accomplished nothing

Charter Claimed Not Outdated By A-Bomb

SAN FRANCISCO, Dec. 6. (AP)—Herbert V. Evatt, Australia's Minister of External affairs, told a commercial club luncheon audience today he disagreed sharply with those who contend the atomic bomb has made the United Nations Charter out of date.

The charter covered all armaments, past, present and future, he declared, and contemplated that new and terrible weapons might be developed. The atomic bomb is but one of them.

The speaker strongly advocated choice of San Francisco as the United Nations capital.

"Buy A Victory Bond TODAY."

In 1918, the military forces of the Allies consumed about 39,000 barrels of gasoline a day. In World War II, the total was 800,000 a day.

Defendant Says She Would Give Own Life To Bring Back Victim

SAN FRANCISCO, Dec. 6 (AP)—The murder trial of Annie Irene Mansfeldt plunged into the mazes of psychiatry today, after reaching an emotional peak as the weeping defendant bowed her head almost to her knees and said she would willingly give her own life to restore that of her victim, Mrs. Vada Martin.

Limp and pale, Mrs. Mansfeldt left the witness stand after a four-day ordeal in which she had repeatedly insisted she did not remember shooting the comely nurse she accused of stealing her physician husband's affections. The shooting occurred Oct. 4, and Dr. John H. Mansfeldt committed suicide a few hours after he learned of it.

Didn't Know Own Crime

Next major defense witness was Dr. Joseph Catton, an alienist, who was soon lecturing the jury about "psychological blackouts" and expounding his psychiatric conclusion that Mrs. Mansfeldt was really two persons, Annie and Irene, on the day of the tragedy.

"Annie was the killer or subconscious mind," he said. "Irene was the total one, but Annie, before she died, was able to tell of the primary personality of Irene. Usually the primary person remembers nothing."

Jurors' faces remained for the most part impassive as the alienist proceeded, though a few brows puckered and one woman juror stifled a yawn.

Hallinan is seeking to prove that his client shot her supposed rival in a state of "somnolentia," induced by drugs administered by Mansfeldt the night before.

Young Demos Meet

(Continued From Page One)

"Until he becomes the nominee of the party."

"Those who have said there is an effort to place the Young Democrat Clubs of Texas behind any candidate told a lie. There is no truth in it," he declared.

Can Keep Voters Informed

"We can educate and inform the people on our party principles and program. If the people are properly informed then we will not be worried with any Pappy O'Daniels (Sen. W. Lee O'Daniel), and Texas Regulars and Republicans will not be named to important policy making positions in our government.

"The Young Democrats of Texas can bring together the liberal thinkers of their communities and they can teach political techniques—how to run precinct convention and how to knock on doors."

Scores Lt. Gov. Smith

Outlining the objectives of the Young Democrat Clubs, he emphasized the importance of stimulating interest.

"Because of a lack of interest the people of the South got their Bilbos and O'Daniels and the people of Texas got their John Lee Smiths," he said. It was the first reference to Smith, who had been snubbed by the convention's program committee but who had been invited to speak tonight by Harris.

The lieutenant governor notified Harris that he can not be here. Likewise Gov. Coke Stevenson told convention officials a prior engagement would preclude his attendance.

Urge Registration Law

Carter in his keynote speech said that "the poll tax is being continued in Texas because the vested interests are afraid of the universal franchise."

Repeal of the poll tax law, lowering of the voting age to 18, and a "sensible registration law" were listed as objectives of the state-wide organization.

The registration law is needed, said Carter, to clarify definitely who are Republicans and who are Democrats.

"Far too often the Republicans in Texas elect a man who calls himself a Democrat but who believes in the Republican doctrine," he said.

No Candidates On Program

Not a potential candidate for state office nor a single state official showed up in person for the scheduled "Hour of Democracy" at the night session.

Instead, many of them, including Lieut. Gov. Smith, sent letters or telegrams. The Hour of Democracy was boiled down to about 30 minutes, most of it devoted to reading those communications including Smith's in full.

Others Send Telegrams

Others who sent telegrams included Railroad Commissioner Beauford H. Jester, Attorney General Grover Sellers, Jerry Sadler, Robert Calvert, Land Commissioner Bascom Giles, and Col. H. Miller Ainsworth. Most of these have been mentioned as potential candidates for governor.

Harry Seay, chairman of the State Democratic Executive committee, told the Young Democrats that their help is needed "in the struggle for the rights of man against the demands of property."

State Issues Cited

"Do not devote all of your time to national issues, but keep a watchful eye on men and affairs in your state," he said. "Our electorial votes came close to being diverted to the Republican party in 1944 by renegade Democrats. Let's be careful that we do not follow in 1946 and 1948 the leadership of those who betrayed us in 1944."

Smith's telegram took full cognizance of the storm kicked up by the action of the convention's program committee in failing to invite him.

Smith Makes Charge

"The rancor displayed by certain pinkish and partisan elements of your group who opposed the invitation to me to address your convention presents a sorry contrast to the magnificient example of a great Democrat of other days, William Jennings Bryan, who said: 'Democrats can afford to differ with each other and even quarrel with each other, but Democrats can never afford to deny to each other the right to free speech. When they do so they cease to become Democrats.'"

Smith's telegram was read by Harris. Parts of it were greeted with silence, parts with laughter. There was no booing.

Cruiser Chief Is Defended

WASHINGTON, Dec. 6 (AP)—A survivor of the ill-fated cruiser Indianapolis today expressed a firm belief that "no one could know the ship was going to sink until she took her last list and started to roll over."

Chief Gunner Cecil Harrison, of Long Beach, Calif., was a witness before the Navy general court martial trying the ship's commanding officer, Capt. Charles B. McVay, 3rd, on charges of negligence and inefficiency in the loss of the ship.

Claims Orders Given

Specifications supporting the charge of inefficiency against Capt. McCay accused him of failing to issue "timely" orders to abandon ship, resulting in the loss of many lives.

One of the twelve survivors of the ship who testified today said he heard Capt. McVay shout orders from the bridge to abandon ship about 10 minutes after the explosion.

Coxswain Edward H. Keyes, Antigo, was on duty on the captain's bridge as boatswain's mate of the watch, testified his first act after the explosion was to check the ship's loudspeaker system. He found it out of order, which he reported to the officer of the deck.

Action Is Outlined

He was then ordered below to pass word to all hands to go topside. He said he carried out that order in the aft section of the ship, but was unable to get forward. Few men were remaining below, he said.

He reported back to the bridge in about five minutes, he said, and five minutes after he returned, Capt. McVay shouted orders to men lined up on deck to abandon ship.

Marshall Testimony

(Continued From Page One)

ly changed situation as to the defensibility."

That document, its source unshown, was marked as having been filed May 3, 1941.

Aerial Defenses Mapped

It detailed a program for bringing any enemy under attack from four-engine bombers 750 miles away, with the full fury of air defense to be applied when an attack got within 200 miles.

That apparently was the sort of defense envisioned by Marshall in today's testimony in which he said the Pearl Harbor force was not strong enough actually to have stopped the Japanese completely but could have broken up his onslaught. It could have shaken him up, Marshall said, and diverted him from targets, thus "greatly lessening" the damage.

Would Have Upset Japs

If that had happened, the general testified, the Japanese would have been forced to abandon their drive into Malaysia, they would not have broken the Burma road, and their whole campaign of conquest would have been thrown out of gear.

Marshall said he had no recollection of a message from Lt. Gen. Walter C. Short, Hawaiian army commander, notifying the War department only that Hawaii had been put on a sabotage alert. He added that he assumed he must have seen it. Short replied to a message sent Pacific commanders Nov. 27, 1941, warning that "hostile action" was possible.

The former chief of staff said he "had no intimation" that Hawaii had not been doing long distance air reconnaissance.

Pearl Harbor--Nation

(Continued From Page One)

bor, the public remembrances of Pearl Harbor consisted chiefly of an acidulous and protracted Congressional investigation into the original debacle and a statement by the present commander of the fleet on how much worse things might have been.

Gamble Said Terrible

General Marshall told the investigators only yesterday that forces at Pearl Harbor were sufficient to have disrupted the onslaught and thus to have ruined the whole Japanese campaign of aggression, but acknowledged that he himself had not actually visualized the possibility of the attack because its risks were so great for the enemy.

Adm. R. A. Spruance, new commander of the Pacific fleet, pointed out in a statement at Pearl Harbor that the dockyards, shops and other facilities were scarcely damaged at all by the sneak attack, so that "the Japs had lost forever the opportunity to score a knockout blow."

Spotlight On Peace

Aside from these postmortem items, this was a day of preoccupations with the changeovers from war to peace, much as that first Pearl Harbor day was one of preoccupations with conversion from peace to war.

Nor was there evidence that the Japanese remembered Pearl Harbor, though its results lay all around them in ashes.

Their conquests are vanished, their Navy destroyed, their armies dissolved, their chief plotters either dead, languishing in prison or awaiting the knock of the arresting officer, come to charge them with the crime of aggressive war.

The Americans they roused to anger four years ago today now rule the shrunken land of Japan.

TIRE BANS LIGHTER

MEICO CITY, Dec. 6. (AP)—You can buy a tire in Mexico now without turning in your old one. A governmental decree today abrogates a wartime regulation requiring the exchange.

Earlyne Reid Named Top Beauty At Tech

Earlyne Reid og Coahoma, Texas Tech junior arts and sciences student who had been voted most beautiful girl on the campus by students and a judging committee, Monday was named No. 1 Tech beauty in final judgement by Mino Martini, leading tenor of the Metropolitan Opera association, who presented a concert here this week.

When judged with a group of seven other beauty contestants, Miss Reid maintained her No. 1 position. Her picture will be featured, along side other top beauties of colleges in the Border conference, in the December issue of El Burro, magazine of the College of Mines, El Paso.

It had been decided by staff members of La Ventana, Tech yearbook, that winners would not be announced until the yearbook is issued in the spring. Due to the El Burro's request for Tech's No. 1 beauty, Miss Reid's victory was announced, according to Miss Merrilyn Snider, LaVentana editor.

Other winners will be announced in the spring, as was planned. Miss Reid and three runners-up will have full-page pictures in La Ventana. The remaining four girls will have half-page pictures in the yearbook.

Negro Reads Bible As He Awaits Execution

BATON ROUGE, Dec. 6. (AP)—Henry Riley, 17, negro scheduled to die Friday afternoon for a slaying from which he gained 82 cents slowly but calmly read from a Bible tonight, after a last supper of fried chicken and ice cream.

Riley was convicted in district court here for the slaying of elderly Mrs. Tal Cheatham Stanley, about 70, prominent local clubwoman, whose slashed, shot and burned body was found last Aug 26 near her old home here.

In a confession introduced at the trial, Riley told how he had approached the house barefooted, shot the small woman when she refused to let him in, slashed her throat, robbed her and attempted to burn "Cordelia Oaks," the Stanley antebellum home.

British Loan Scored

(Continued From Page One)

peace. The British will repay neither principal nor interest for five years. In 1951 they would begin repayments at two per cent interest over a 50-year period.

On the same terms they would have about $650,000,000 with which to pay the U. S. for goods they received under lend-lease before and after V-J Day which have not already been wiped off the books. The United States furnished Britain approximately $29,000,000,000 of lend-lease, most of which has been written off, and received from the British $4,000,000,000 by reverse lend-lease.

The principal and interest payments on the $650,000,000 are to be on the same terms as on the $3,750,000,000 so that in effect the British are obtaining a credit of $4,400,000,000. The money actually remains in the United States for them to draw upon as they want it. The terms mean that they must repay it by the year 2001, returning to the United States in cash approximately $7,000,000,000.

ATTLEE SET OUT BRITISH PROVISIONS ON TRADE PLAN

LONDON, Dec. 6 (AP)—Prime Minister Attlee told Commons tonight that the British government was willing to reduce or eliminate Empire preferences provided there was "adequate compensation" in the form of reduced tariffs and general improvement of world trading conditions.

Addressing the House on the terms of the $4,400,000,000 loan to Britain by the United States, the prime minister emphasized "points to be noted," including the "question of tariff preference." This, he said, "is of especial interest and importance to the British commonwealth and empire."

"The American document," Attlee said, "sets forth the procedure to be followed by common consent in consideraing in context a general lowering of tariffs and other trade barriers, what contributions can be made from our side by way of reduction or elimination of preferences.

"We for our part are ready to agree that the existing system of preferences within the British commonwealth and empire will be contracted, provided there is adequate compensation in the form of improvement in trading conditions between the commonwealth and empire countries and the rest of the world."

Two Of Seven Lost Planes Still Sought

PORTLAND, Ore., Dec. 6 (AP)—The storm-pounded Pacific Northwest was being searched today for only three of the seven planes which have crashed or disappeared within five weeks with a total of 53 men.

Two planes have been found with occupants dead. The other two searches were given up as futile.

Four fliers found dead in the wreckage of a B-24 in western Washington were taken to McChord field, Tacoma, and identified as: 2d Lt. John A. Norris, Knoxville, Tenn., Flight Officer Robert C. McClane, Harlingen, Tex.; Sgt. John J. Sullivan, Dubuque, Iowa; Staff Sgt. Lowell Sauer, Bremerton, Wash.

A total of seven men have been found dead and ten rescued in the seven mishaps. Thirty six are still missing.

Dutra Continues To Lead Brazil Ballot

RIO DE JANEIRO, Dec. 6. (AP)—Army Gen. Eurico Caspar Dutra continued to expand his lead in the Brazilian presidential elections tonight with the latest unofficial tabulation giving him 767,227 votes.

The midnight vote counting gave Dutra's closest contestant, Air Gen. Eduardo Gomes, 433,399. Communist candidate Yeddo Fiuza received 147,736 votes and Rollim Telles, Agarian party candidate, 1,627

FLEET AT SHANGHAI — A U. S. sailor stands guard for the U. S. Seventh Fleet in the Whangpoo River off Shanghai. Skyline might easily be mistaken for an American city.

Your Chance To Help The Goodfellows!

If you know of ANY child not over 14 years of age residing within the Lubbock city limits who may be forgotten by Santa Claus on Christmas Day unless on the Goodfellows' list, fill out this coupon (use PRINT, please) and mail AT ONCE to the CHIEF GOODFELLOW, P. O. Box 561, City.

Scheduled Arrivals Of Overseas Troops

At Newport News on the Joseph Gale due Dec. 4 was Pvt. Isaac M. Kinney, Lubbock.

At New York on the Texarkana Victory due Dec. 5 were S/Sgt. Ora A. Bartlett, Lubbock; and Sgt. J. C. Anderson, Snyder.

At New York on the Mexico Victory due Dec. 5 was Cpl. Clarence D. Gilbreath, O'Donnell.

At New York on the William Few due Dec. 5 was Pfc. Julian K. Lawson, Lubbock.

At San Francisco on the Flanagan due Dec. 7 was Sgt. Joseph E. Perkins, Lubbock.

At Boston on the Cranston Victory due Dec. 6 was S/Sgt. William D. Pittman of Lubbock.

Congratulations To:

Mr. and Mrs. Sloan Fortenberry of 2020 Broadway on the birth of a daughter weighing 7 pounds ½ ounce at 7 p. m. Thursday in West Texas hospital. The father is assistant manager of Plains funeral home.

Mr. and Mrs. J. D. Talley, route 1, Slaton, on the birth of a son, weighing 8 pounds 3 1/4 ounces, at 2:30 a. m. Thursday in West Texas hospital. The father is a truck driver.

Mr. and Mrs. E. A. Summers, 1514 Ave. D, on the birth of a daughter, weighing 3 pounds 9 1/4 ounces at 1:45 a. m. Thursday in West Texas hospital. The father works for a roofing company.

Mr. and Mrs. C. G. Grizzle, route 2, Lubbock, on the birth of a son, weighing 6 pounds 10 ounces, at 3 p. m. Wednesday in Porter-Sistrand clinic. The father is a cafe operator.

Mr and Mrs. J. J. McCullough, route 2, Lubbock, on the birth of a daughter, weighing 6 pounds 2 ounces, at 5:35 p. m. Wednesday in the residence, Porter-Sistrand clinic reported. The father is a civilian employe of Lubbock Army Air field.

Mr. and Mrs. L. E. Whitehead, route 3, Lubbock, on the birth of a son, weighing 9 pounds 3 ounces, at 6:10 a. m. Thursday in the residence, Porter-Sistrand clinic reported. The father is a farmer.

Sgt. and Mrs. Edward M. Gifford, route 1, Lubbock, on the birth of a daughter, weighing 8 pounds 10 ounces at 9:47 a. m. Thursday in West Texas hospital.

Anti-Malaria Vaccine Discovered At Dachau

DACHAU, Germany, Dec. 6. (AP)—Dr. Klaus Karl Schilling testified today at the Bachau atrocity trial that he had discovered a vaccine against malaria through experiments with humans at Dachau.

But under cross-examination, Schilling, 74, told the court that out of 1,000 prisoners injected by various means with malaria only nine had shown immunity, and that even the nine would have to be tested again before certainty could be established.

The goateed, bespectacled defendant said he was ordered by Heinrich Himmler to conduct mararial experiments at the camp and that he first used prisoners as guinea piggs in February, 1942. He denied knowledge that some prisoners had died from treatment by him with pyramidon.

TO DESTROY DEFENSES

BERLIN, Dec. 6. (AP)—A quadripartite coordinating committee, acting on behalf of the Allied Control commission, said today the Siegfried line and all other military installations, above and underground, will be destroyed to strip Germany of land defenses.

30 Reported Dead In New Iran Outbreaks

TEHRAN, Dec. 6. (AP)—Rebels have killed 30 persons in new attacks in Azerbaijan province, official reports from Tabriz announced tonight, and Premier Ibrajim Hakimi demanded freedom of movement into the Soviet-occupied area for the Iranian government to "redress the grievances of the people."

Insurrectionist Democrat party members attacked troop billets at Sarab, killing 21 gendarmes and two officers, the reports relayed by the Tabriz radio said.

Six other persons were reported killed near Marand, between Tabriz and the Russian frontier, and the police chief at Tabriz was killed in another clash, the radio said.

A foreign ministry spokesman said there was an "urgent need" for the Iranian government to ask the United Nations assembly in January to send a Russian-British-American commission to Iran to investigate conditions.

Elections were completed at Tabriz today for national assembly posts, and a Democrat party announcement said 700 Democrats were elected.

LAAF Land Sought

(Continued From Page One)

change, would be detrimental to residential property nearby.

Smith Expresses Appreciation

City Manager Marlin R. Smith, jr., whose resignation is effective Jan. 1, expressed appreciation for the splendid cooperation of members of the planning commission with him in his work as city manager.

Chairman K. N. Clapp, presided at the meeting. Other members present were W. L. Bradshaw, Homer D. Grant, J. D. Hassell, jr., Dr. J. T. Krueger, J. H. Murdough and Arch L. King, secretary.

Sugar Ration To Be Held At Five Pounds

WASHINGTON, Dec. 6 (AP)—Individual sugar rations will continue to be five pounds in four months from January through April but housewives may find it harder to get sugar in January and February, OPA announced today.

With validation of a new sugar stamp, number 39, on January 1, OPA expects a shortage which will be most noticeable on the east coast.

Sugar allotments to industrial users generally will be at the same levels for the first quarter of 1946 as at present, the OPA statement said.

Shipments of new crops of Carribbean sugar are not expected in substantial volume until March 1, according to the Agriculture department. OPA said that this meant that only about one-half of the allotments made for the first quarter would be available during January or February.

Disabled Troopships Heading For Bermuda

NEW YORK, Dec. 6. (AP) — The troopships Henry Beecher and George W. McCrary headed back for Bermuda tonight after floundering in the storm-whipped Atlantic for two days because of mechanical trouble.

The Beecher, which lost its propellor about 510 miles off the British island, was being towed by a Navy rescue tug.

Despite boiler trouble, which developed about 900 miles off Bermuda, the McCrary was proceeding under its own power.

The Navy said the Army transport Saturnia would sail from here late today for Bermuda to pick up the troops aboard the two ships, so they could be home by Christmas. The Beecher has 541 soldiers aboard and the McCrary 586.

Additional Sports

(Continued From Sports Page)

Four Games Launch Roosevelt Tourney

Girls teams from Robertson, Roosevelt and Idalou advanced by the first round, along with boys teams from Idalou and Roosevelt, in the Roosevelt invitation basketball tournament Thursday night at Roosevelt.

In the girls division, Robertson rolled to a 51 to 42 victory over Wilson, Roosevelt beat Slaton, 36 to 12, and the Idalou B team advanced on a forfeit from Southland.

In the boys play, Idalou edged out Slaton, 33 to 28, and Roosevelt romped to a 41 to 25 win over Wilson.

The Robertson and Wilson girls game was an offensive duel between Baker of Wilson and W. Woodard of Robertson, the former flipping in 25 points for the losers, and the latter getting 21 points for the winners.

McCallister paced the Roosevelt girls with 16 points.

High point performers for the boys games were Becknell of Idalou, with 16 points, and Speer of Roosevelt, with 14 points.

Play will be resumed this afternoon at 1 o'clock, with Robertson boys playing New Home, Cooper girls playing Frenship, Shallowater boys playing Southland, and the Idalou girls topping off the afternoon session with a family feud between the A and B teams.

Red Raiders To Play Cowboys In February

ABILENE, Dec. 6—Hardin-Simmons University's basketball team is scheduled to play Texas Tech in Lubbock, Feb. 11-12 and in Abilene, Feb. 22-23.

This announcement was made by Coach Warren Woodson following the Border Conference meeting at El Paso at which the Abilene school's schedule for conference participation in both basketball and football was arranged.

Woodson, head coach at H-SU just recently returned from three year's service in the Navy's physical training program for air cadets, and has started workouts with the cage candidates. He finds a shortage of a team which will make a creditable showing.

Hardin-Simmons was placed in the east division of the Border Conference and her other games include Texas Mines in El Paso, Jan. 17; New Mexico Aggies in Las Cruces, Jan. 18; Ft. Bliss in El Paso, Jan. 19; West Texas State in Canyon, Feb. 8-9; West Texas State in Abilene, Feb. 15-16.

Other non-conference games are to be added in the near future to complete the Cowboy's schedule.

SEARS TO COAST

COLUMBUS, O., Dec. 6. (AP)—The Pacific Coast League today signed as an Umpire John (Ziggy) Sears, veteran of 12 years as a National League umpire. Sears completed his National League umpiring this year. He lives in Fort Worth, Texas.

Chinese Troops Ready To Move Into Mukden

CHUNGKING, Dec. 6 (AP)—Chinese Nationalist columns were idling 25 miles from Mukden today awaiting Russian permission to enter that greatest city in all Manchuria, a field dispatch reported.

The Russians were in Mukden while Nationalist negotiators were arranging for the entry of their troops in conversations with Soviet Marshal Rodion Malinovsky at Changchun, the capital to the north.

Chinese Communists in their headquarters at Yenan were quoted by Associated Press correspondent John Roderick as saying the question of peace or war hung on Generalissimo Chiang Kai-Shek's acceptance of a plan for a democratic coalition government.

They asserted that any idea that Chiang was ready to give in on that issue or had even offered to take Communists into the government at once was false.

Mrs. W. C. Simpson Is Claimed By Death

Mrs. Wilma Cox Simpson, 35, daughter of Mr. and Mrs. W. A. Cox of 2110 Third, died at Albuquerque, N. M., about 11 a. m. Wednesday. She had been in ill health for some time.

Survivors include two daughters, Minnie Belle and Virginia of Albuquerque, two brothers, A. J. Cox of Albuquerque, and Fred Cox Lubbock; three sisters, Mrs. O. D. Lindsey, Mrs. Hazel Griffin and Mrs. Bobby Moore, all of Lubbock; and the parents.

The body is at Sanders funeral home. Arrangements for funeral services had not been completed last night.

$1,000 Ransom Asked For Kidnapped Baby

CHELSEA, Mass., Dec. 6. (AP) — An unidentified woman tonight demanded "more than $1,000" ransom for the six months old kidnaped son of a Navy man, who has never seen the child.

Police said that Mrs. James J. Carlan, mother of the child taken from his carriage a week ago Wednesday, received the call late this afternoon.

Subsequent investigation led police to a Boston restaurant, where a woman employe told them that she had overheard a man and woman talking "about the Carlan case and that the woman had then gone into a phone booth."

Dutch Claim Nation Can Produce A-Bomb

NEW YORK, Dec. 6. (AP) — An Aneta dispatch from Eindhoven, Holland, tonight quoted Dr. F. A. Heyn, Dutch scientist as asserting that Holland could produce an atom bomb within a year, if necessary.

The Netherlands News agency said Dutch scientists had been working secretly on a 250-ton cyclotron and that the atom-smasher would be completed shortly.

Big Cities Also Slow On Bonds

By WILLIAM C. BARNARD
Associated Press Staff Writer

Texas big city counties are having a tough time selling bonds in the Victory Loan drive, one reason why Texas is 48th among states in E-bond sale percentages.

Populous Harris county has the biggest quota, $10,200,000 but the folks down Houston way are nowhere near meeting it. Sales total $4,339,448. The percentage, 42.5 per cent is even below the state percentage of 48.6. The national figure is more than 58 per cent.

San Antonio Also Lags

Dallas county, quota $8,500,000, has bought $4,059,873 worth of bonds. Percentage 47.8. Bexar county, which includes San Antonio, has the highest big-county percentage—53.2 per cent. The quota there is $5,250,000 and sales to date have amounted to $2,790,748.

Tarrant county, which boasts the city of Fort Worth, has a quota of $4,500,000, sales of $2,369,574 and a percentage of 52.7 per cent.

Smaller Counties Hit top

But over the state, a few smaller counties are showing the way. Now over the top are Wilson, Navarro, Shackleford, Denton, Hamilton, Brooks, Sutton, Irion, Sterling and Menard.

From Washington, War Finance Director Ted R. Gamble said Texas had sold only 77 pr cent of what it was expected to have sold by the end of the fifth week.

Twenty of the states are lagging in this drive—the drive in which citizens have been asked to buy bonds to show appreciation for the fighting done by the nation's soldiers, sailors and Marines.

And Texas, in 48th position, is the worst laggard of all.

Atomic Energy

(Continued From Page One)

ed at the big Hanford plant in Washington State.

One of the major difficulties will be to protect the users of atomic power from radio-active harm.

The protective devices must be so heavy that an atomic 100- kilowatt hour power plant would weigh 50 tons, thereby ruling out use in automobiles and present airplanes.

Might Use On Ships

Some believe atomic power could be used to run railroad locomotives, others feel ocean-going steamships would be the smallest vehicles in which such use would be feasible.

Atomic by-products already have been developed that may result in revolutionary advances in the medical and chemical fields, possibly throwing light on the origin of life itself.

The symposium panel, in addition to Groves, Conant, Wheeler and Thomas, was made up of Dr. George T. Felbeck, vice president of the Carbide and Carbon Chemicals corp; Dr. Crawford H. Greenewalt of the Du Pont company, P. G. Keith, president of Hydrocarbon Research Inc., William L. Laurence, science writer for the New York Times, and James C. White, president of the Tennessee Eastman Corp.

Wheeler said there appeared to be no possible solution to the necessity of surrounding atomic power plants with thick barriers of iron or some other heavy substance, thereby automatically ruling out light-weight atomic engines.

Chinese Charges

(Continued From Page One)

than 200 soldiers of the Communist Eighth Route Army used for bayonet practice. In the ensuing month, 60 soldiers were taken out each 10 days, stripped, tied to stakes and bayoneted to death in Taiyuan, capital of Shansi province, then Okamura's headquarters.

Proof of His Order

The commission said it didn't know whether Tada himself took part in atrocities at Panchiayu, but that it had ample proof that he ordered the massacre. It charged that:

On Jan. 1, 1941, 1,372 men, women and children of the village were driven to the outskirts. Brush and timber were piled in the courtyard of the town's richest man. Then the horde was whipped and beaten into a flaming enclosure while soldiers mounted on the walls poured rifle and machine gun fire into the screaming, weeping mass. Children who tried to escape were picked up and hurled into the inferno.

Wu said that 1,035 were killed and 84 wounded.

In still another case involving direct orders of Okamura, a Major Kade employed 600 war dogs to devour 50 prisoners of war south of Peiping in July 1941, Wu charged.

He asserted it was difficult to find any innocent officer above the rank of colonel in Japanese armies.

More UNRRA Funds Approved By House

WASHINGTON, Dec. 6. (AP) — The House today approved another $1,350,000,000 for UNRRA with a provision that President Truman try to get American newsmen admitted freely to countries receiving aid.

The vote was 327 to 39.

Rep. Herter (R-Mass.) said he sponsored the amendment because White Russia and the Ukraine soon would be receiving aid from UNRRA and whether American reporters will be permitted there presents a "serious problem."

THIEVES GROW BOLDER

The first transoceanic shipment of oil was one of five barrels from Philadelphia to London in 1861.

Plane Said Down, All Occupants Dead

BUENOS AIRES, Dec. 6. (AP)—A farmer from the interior of the Argentine province of Corrients reported tonight that an American C-47 transport plane believed to be one missing since Monday had crashed 20 miles south of Colonia Pellegrini and that all 14 occupants were dead.

The farmer said the plane came down on the edge of a small lake and burned.

The transport was carrying members of a U. S. Army geographic mission from Asuncion, Paraguay, to Montevideo, Uruguay. When last reported it was flying in a southeasterly direction through a heavy wind and rain storm.

The mission had been in Paraguay since last July.

Pearl Harbor--City

(Continued From Page One)

Crises Nearing Climax."

"You can be an aviation cadet" was racing through the minds of younger men. Those interested in joining the Army Air Forces were to be interviewed Dec. 8 at Tech by an itinerant aviation cadet examining board from Goodfellow field.

Mechanics for Navy service were being sought and the Lubbock substation was expected to furnish at least five of the 100 men, quota for the Dallas district. Selective service officials were considering plans to reclassify draft registrants deferred for reasons of occupation.

Sports Also In Spotlight

Sports fans were speculating as to whether Texas Tech would be invited to play in the Sun Bowl. Question was "Would Arizona university receive the majority vote in the Border conference?" If they did and declined the offer, "Texas Tech is a cinch."

Four nights a week were being spent at Lubbock Senior High school by ten men taking a refresher course in preparation for enlistment in the U. S. Army as aviation cadets. One hundred and twenty selective servicemen "who are to be called for active service within the next 30 days" were to report to the Lubbock district Army recruiting station for a physical checkup.

Transients In City Doubled

From Nov. 1 to Dec. 6, the number of transients doubled on the South Plains and in Lubbock. The Salvation Army received an unprecedented call for food, clothing and shelter—and "bore the brunt of the transient influx." During that month 256 persons appealed to the Salvation Army for help, 315 nights' lodging and 652 meals were part of this organization's contribution to the transients.

On the Tech campus students were discussing the election of Bing Bingham, football player of Spur, as No. 1 beauty in a demonstration of the Hare method of elections in a government class. Herman Mendell, senior engineering student, was making plans for a job in South America. Mary Ann Stephenson's presentation as honorary cadet colonel at the sixth annual ROTC Military ball.

At Lamesa, Dec. 6 marked a great climacteric in community development with the ceremonial laying of the cornerstone of the new $70,000 First Baptist church. South Plains farmers were expecting to get only 71 pounds of good seed out of a hundred, whereas during 1940 he got 98 pounds. It was a bad year for the vitality of seeds (plant growth)!

Prices received by Texas farmers in mid-November averaged lower than a month before for all classes of farm products, except dairy and poultry groups, but the general level of prices and most individual items were sharply higher than a year before.

Labor Trouble Then Too

Labor troubles were present—in 1941. A nationwide walkout of welders was to be called Dec. 9, 1941, unless there was government intervention. The union was at odds with A. F. of L. The threat of a nationwide railroad strike, scheduled Dec. 8, was dissolved Dec. 5 through mediation of Pres. Roosevelt's fact-finding commission and union representatives.

A production cut in manufacture of automobiles, household appliances and the thousand-and-one durable goods that made the American standard of living the world's highest, was being planned in a "victory blueprint" to subordinate civilian needs to the defense program.

Knox Praises Navy

Secretary Knox told President Roosevelt on Dec. 6, that "the American Navy is the finest in the world but must be increased rapidly to match for any combination of powers."

All of this was news that Lubbockites were casually discussing—until they heard "Japan Declares War on U. S. After Dive Bombers Attack American Bases in Hawaii." People gathered in small and usually silent groups to listen to their radios, buy newspaper extras, and cuss the Japs.

On the whole the reaction to the grim fact of war in the Pacific was one of flaming anger and a solemn resolve to help get the job done in a war which was to touch vitally the lives of every individual in the nation—some of them forever.

News Briefs

About five bales of unginned cotton were destroyed by fire in the cotton house at Knudson gin, Idalou, about 6:45 p. m. Thursday. Members of the Lubbock fire department answered a call from Idalou, but said the Idalou fire department had the fire about out when they arrived. The cotton house, a sheet iron covered structure, was damaged extensively. Firemen also answered a call to the Hilton hotel at 4:15 p. m. where grease on a stove was on fire.

His black 1941 Ford sedan reported by W. A. Stephens, 1307 Twenty-third, as stolen about 6:30 p. m. Thursday, was later recovered by Stephens in 1100-block Ave. G, about three blocks from the original parking place in 1100-block Fourteenth, police said. License plate, ED 7379, was missing when the car was found.

Marine Presence In China More Controversial; Feeling Mounts

By JAMES D. WHITE
Associated Press Staff Writer

SAN FRANCISCO, Dec. 6. — The presence of American Marines in China is becoming more controversial.

Today these developments were reported:

1. Two Marines hunting rabbits northeast of Tientsin were fired upon by a Chinese civilian armed with a pistol. One was killed, the other wounded.

WHITE

2. Marines in Tienstin today figured they would be there some time. They understood they have 30 days ration on hand and 120 more on the way.

Blood Purge Threatened

3. Twelve hundred miles away, American officers at Canton who operate a Chinese airport received an anonymous letter threatening an "American blood purge." No reason was reported, but the dispatch mentioned the well-known fact that even that far south there is a concentration of Chinese Communists. Chinese Communists want American troops to leave China, because, they say, their presence there helps the Chiang Kai-Shek government in Chungking.

4. In Kunming, a good thousand miles away from the nearest American Leatherneck, 5,000 students are on strike after issuing an open letter to President Truman and American students. A report from Shanghai quotes this letter as saying:

Unreasonable Policy

"While we appreciate your help in defeating Papanese fascism, we hope you will reconsider your unreasonable policy and cease to help those who are responsible for civil war."

The dynamite in this statement lies in whom the students seem to think is responsible for civil war. Since no one has accused Americans of helping the Communists, it can only be assumed that the students are thinking of Chiang Kai-Shek's government.

The students are striking, it's reported, in protest against the continued presence of American troops in China and against the official government ban which has been clamped down on student meetings.

The official Chilean monetary unit is the gold peso.

U. S. Cuts Production Of A-Bomb Materials

WASHINGTON, Dec. 6 (AP)—The United States is cutting production of atomic bomb materials in at least one of the key plants where the revolutionary weapon was developed.

This was disclosed in a routine official report on job conditions made public today by the U. S. Employment Service.

The report said:

"Declining volume in the production of atomic bomb materials at Oak Ridge, Tenn., caused a drop in employment (during November) in the Knoxville area."

The report said a "reduction in force at the atomic bomb project near Knoxville" accounted for the principal increase in unemployment in the area.

Rites Held At Ralls For C. L. Graham

RALLS, Dec. 6. (Special) — Funerals services for C. L. Graham, 71, who died Tuesday night while visiting his daughter, Mrs. Clora Fritcher of Gunter, were conducted at the Ralls Baptist church this afternoon at 2 oclock.

Graham moved to the South Plains in 1923 and for a number of years operated a grocery store at Cap Rock. He had lived in Lubbock, Levelland and Tornillo, Denton county, since 1943.

Survivors include two sons, Duncan of Tornillo and Charles of Billings, Mont.; three daughters, Mrs. Fritcher, Mrs. W. M. Stinnett of Brownfield and Mrs. Jewell Hawkins of Graham; 16 grand children and 7 great-grandchildren; and one brother, Tom Graham of Tornillo.

Burial was in the Emma Cemetery here. Marr Funeral home of Ralls moved the body overland from Gunter and was in charge of local arrangements.

Pallbearers were Haskel Stephens, Homer Teston, R. H. Wilson, Ross Winn, E. O. Ramsey and Leland Cadell.

"Buy A Victory Bond TODAY."

Many Texas Firms Share In 'E' Awards

NEW ORLEANS, Dec. 6. (AP)—War workers in 56 plants in Texas contributed to the winning of the Army-Navy "E" award in the nation's war production battle against Axis powers, it was announced today with the termination of "E" awards.

Only 5 per cent of the estimated war plants in the nation received the coveted award, granted to facilitaties with outstanding records for quantity and quality production for the War and Navy department.

One or more "E" awards were made to the following in Texas: Beaumont Iron Works Co., Beaumont; Booth Sheet Metal Works, Brownsville Ship Building Corp., Brownsville; Certain-Teed Products Corp., Pantex Ordnance Plant, Amarillo; Corsicana Cotton Mills, Corsicana; Crawford-Austin Manufacturing Co., Inc., Waco; Denison Cotton Mill Co., Denison; Dow Magnesium Corp., Velasco unit, Velasco; Faran Manufacturing Co., Gulf Port Boiler & Welding Works, Inc., shipbuilding division, Port Arthur; Hardwicke-Etter Co., Sherman; International Minerals & Chemical Corp., Magnesium Division, Austin.

Monsanto Chemical Co., Longhorn Ordnance Works, Marshall; Norman Ford & Co., Tyler.

Ohmstede Machine Works, Beaumont; Southern Alkali Corp., Corpus Christi; Taylor Bedding Manufacturing Co., Taylor; Texas Gulf Sulphur Co., Inc., Galveston Loading Plant, Galveston.

U. S. Department of the Interior, Bureau of Mines, Amarillo; Helium plant, Amarillo; Wichita Engineering Co., Wichita Falls; Austin Road Co., Galveston; Army Air field construction project, Galveston; Brown and Root, W. S. Bellows, Columbia Construction Co., U. S. Naval Air station, Corpus Christi.

Rate of blinking of the eye varies greatly from person to person. Some people blink their eyes only a couple of times a minute; others as much as 30 times.

School Orchestra To Give Concert Tonight

Lubbock High school orchestra will present its first concert of the season tonight at 7:30 o'clock in the high school auditorium, Miss Beverly Vaughan, director has announced.

Lou Ann Hardy, violinist, will play two solos, Tango in D (Alenis) and Russian Sailor's Dream (Gliene.)

During intermission the string choir will present Minuetto (Balzoni.)

Selections to be played by the 27-piece orchestra are Turkish March (Beethoven), March Havgroise from Damnation of Faust (Berlioz), Prelude - L'Arlesinne Suite No. 1 (Bizert), Prayer and Dream Pantomime from Hansel and Gretel (Humperdinck), Arkansas Traveler (Guion), New Moon (Romberg), Liedesfreud (Kreisler), Minuet from E Flat Sympathy (Mozart).

Members of the orchestra are Ann Adams, Flake Barber, Bobby Berger, Roland Bennett, Loudonna Berry, Burton Burks, Lowell Cadell, Rosemary Dawkins, Billy Eppes, Ella Fay Groves, Nelda Key, Sidney Kligman, Robert Manderson, Bayless Martin, Jane McCoy, Jo Ann McIlhaney, Rayburn Metcalf, Jimmy Murry, Jimmy Patterson, Mary Frances Payne, Bob Rogers, Harvey Roth, Bob Scoggin, J. A. White, and Billie Ruth Yant. The public is invited.

Red Raiders Show Top Form To Stop New Mexico Cagers

Coach Polk Robison's Texas Tech Red Raiders blasted the lid off the basketball season last night at the Tech gym with an impressive showing of potent cage power as the Raiders rolled to a 75 to 32 victory over the Eastern New Mexico State five.

It was the first game of the series, and the same two teams will conclude the series tonight at Tech gym. The tipoff will be at 7:30 o'clock.

Coach Polk Robison used three complete teams in the first half, and found the first two looking impressive against the New Mexico five. The third string didn't play long.

Jackson Sets Pace

The scoring by the first team was pretty well divided, with Jiggs Jackson, a New Mexico native causing his fellow statesmen the most woe for the night, looping it. 15 points.

Ardis Barton, with ten points, and Don Dollar, with eight, set the pace for the second stringers, but didn't match the work of the first team. Gene Hardey and Tilly Sneed each accounted for nine points, and Jay Kerr racked up eight.

The scoring started slowly, but Jiggs Jackson dropped in a free toss for the first counter. Zimmerman, lanky center for New Mexico, looped in a two pointer, and New Mexico State enjoyed its only lead, briefly at 2-1. Jackson tipped in another two pointer to give Tech a lead that was never headed off.

Tech then got hot. Kerr looped a couple, Kelley a field goal and a free pitch, Jackson another and Sneed one to run the score to 14-2 before Pompeo scored again for New Mexico.

About midway in the half, with Tech leading 25-6, Robison pulled the first team. The second team promptly ran the score up to 38 to 11, then turned it over to the third string, and the half ended 40-16.

The regulars returned for the second half. New Mexico pulled up a little early in the second half, and cut the Tech lead to 41-20, then the Red Raider regulars hit another scoring spree, hitting the basket from near and far, and pulled out 63-20, and the second stringers again rushed on the floor, and held the comfortable lead the rest of the way, and held their own for the final fourth of the game.

Minor Leagues Defy Chandler

COLUMBUS, O., Dec. 6 (AP) — Baseball's minor leagues, which up to now have stayed out of Commissioner A. B. (Happy) Chandler's fight with some of the major leaguers, rolled up their sleeves at their convention today and jumped into it with fists swinging.

Chandler appeared before the minor leaguers at their convention first thing this morning and pleaded against proposed legislation "offensive and obnoxious to me personally." His words had hardly ten minutes to cool off before the moguls voted legislation sharply curbing his powers over minor league ball, and from there they went on to an additional rebuff by refusing to amend their player bonus laws which Chandler has ruled "unfair and illegal."

Was Second Rebuff

By all odds, the minors' actions, coming on to top of Chandler's speech and the rebuff he received yesterday when the post-war promotion program was taken away from direction by any office now in baseball, provided the explosives for a diamond day which also saw the Chicago White Sox sell fast-ball right-handed Johnny Humphries to the Philadelphia Phillies in the first major league player deal of the week, and the approval of the International League, American Association and Pacific Coast League to climb from Double-A to the new Triple-A classification. The coast circuit's bid to jump all the way to major league status was tabled until tomorrow.

Along with these developments was the revival of a rumor that the Cleveland Indians may be sold, with Bing Crosby crooning his way in as owner. It was reported Bing, long seeking a big league club, is interested primarily in an American League outfit. Developments on this angle may be heard at the joint major league meetings in Chicago next week.

Chandler To Stick

In his speech Chandler pointed out that he has a seven-year contract as commissioner "and for seven years I intend to make decisions in baseball which you are not able to make yourselves."

He stepped out and the minor leaguers went to work. One of the first things they did was to approve amendments to both the major-minor league agreement and the minor league law that no legislation or rule in either baseball category can be construed as "detrimental to baseball."

It was this clause in the law of baseball that enabled the late Commissioner K. M. Landis to wield the big stick of authority over the entire game.

The approval was by a 21-to-3 vote, with only the Texas League, Southern Association and South Atlantic (Sally) League voting against it. The Texas and Sally, incidentally, were advanced from A-1 and "B" to Double-A and A status, respectively, during the session.

Garden Slugfest on KFYO Tonight

In the feature contest at Madison Square Garden tonight, which will be aired coast to coast, Artie Levine, Brooklyn middleweight, (above) meets George "Sonny" Horne, formerly of Niles, Ohio, in a return match that promises to give the fans plenty of what they like about boxing.

Horne entered the Garden ring against Levine last August an 8 to 5 favorite. For five rounds they slugged it out on even terms. In the fifth, however, Horne was cut over an eye and the contest stopped.

Levine is an ex-Marine, Horne an ex-sailor. Both are classy boxers with plenty of punch-power and an eye on Tony Zale's middleweight title.

Enjoy the excitement, blow by blow, on Gillette's Cavalcade of Sports over American Broadcasting Co. and KFYO (1340 on your Dial) at 9 p. m.

And remember, men . . . LOOK sharp! FEEL sharp! BE sharp! Use Gillette Blue Blades with the sharpest edges ever honed!

SEEK SECOND TRIP TO FINALS—The Littlefield Wildcats take the field this afternoon at 2 o'clock to battle the Denver City Mustangs in the bi-district, Class A classic of West Texas, seeking their second straight trip to the Region Two finals. Littlefield boasts the greatest offensive punch of the South Plains, and today face the greatest defensive club of the same area. Seated in the front row left to right are Bud Short, Billy Gray, Bill Cox, Johnny Srygley, Donald Timian, Lilburn Bales, H. L. Ferguson, Warren Rutledge and Kenneth Pharris. Kneeling in the second row, left to right, are Johnny Adkins, Billy Sisson, Eugene McCanlies, London Grissom, Billy Lyman, Walter Sewell, Jackie Shelby, Vernon Wright and Bobby Coen. Standing in the back row, left to right, are Coach J. S. Fikes, Travis Price, Sugene Carter, Jack Davis, Foy Bell, Sabin Hendrickson, Sidney Buell, Charles Pharris, Buster Owens, Dal Brandon, Bobby Ramsey, Malcolm Stokes (manager), and Assistant Coach Leo Duffy.

* * *

Region Two Battles Scheduled For Today

The Region Two schoolboy grid picture will be narrowed down to two finalists with games this afternoon at Littlefield and tonight at Sweetwater.

The Littlefield Wildcats, highest scoring grid machine on the South Plains, will run into the Denver City Mustangs, the greatest defensive team, and not a mean shakes at scoring points, in the afternoon game at Littlefield.

Maloney Top Star

Wild Walter Maloney will lead his Roscoe Plowboys against the Monahans Loboes tonight at Sweetwater in the other bi-district game. The two winners will play for the regional championship, with a new champion assured the region, since Merkel was eliminated by Roscoe in district play, 14-12.

Littlefield is trying to follow the same trail as last year, and Denver City will be seeking revenge for last year's 39-20 loss to the Wildcats. Littlefield was in turn beaten 24-14 by Merkel in the finals.

Records Of Teams

Roscoe will field the only team with a perfect record, undefeated and untied in ten games. They have scored 330 points to 31 for their opponents, with Maloney scoring 187 of these points.

Monahans has been beaten by McCamey, 7-6, and tied Pecos, 14-14.

Denver City has scored 219 points to only 12 for the opponents, winning nine games, and being held to a 6-6 tie by Levelland. Littlefield has rolled up 428 points this year, while allowing 57. The Wildcats were beaten by the powerful Ballinger Bearcats, and tied in the conference by the Sudan Hornets, while winning eight games.

Bechtol Named Upon Collier All-America

NEW YORK, Dec. 6 (AP)—The 1945 All-America football team selected by Collier's magazine includes four players from the all-victorious Army squad and two from Alabama's Rose Bowl eleven, it was announced today.

It is the 55th annual compilation of a mythical eleven by the magazine which printed Walter Camp's selections from 1889 until his death in 1925. Grnatland Rice has made Collier's selections since then, aided in recent years by an advisory board of football writers.

John Green Army guard, is the only member of Collier's 1944 team to repeat this year.

The team:

Vaughn Mancha, Alabama, center.

Warren Amling, Ohio State, guard.

John Green, Army, guard.

George Savitsky, Pennsylvania, tackle.

Dewitt Coulter, Army, tackle.

Richard Duden, Navy, end.

Hubert Bechtol, Texas, end.

Herman Wedemeyer, St. Mary's, quarterback.

Glenn Davis, Army, halfback.

Harry Gilmer, Alabama, halfback.

Felix Blanchard, Army, fullback.

"Buy A Victory Bond TODAY."

Schoolboy Play To Start Today

(By The Associated Press)

Highland Park's Scotties, long favored to win the Texas schoolboy football championship, face a tough foe in the opening round of state play Friday when they tackle the Paris Wildcats in the week's feature battle.

It is the only game of eight matching unbeaten elevens. Paris is undefeated and untied, Highland Park has only a tie to mar its record but that was with powerful Wichita Falls, a team favored to go to the semi-finals.

Paris, despite its sunsullied record, has not been as impressive as the Scotties and the Dallas team will be picked on all sides to win although not with ease.

Five of the other games send undefeated, untied teams against elevens that have failed to go through the district campaign without taking at least one beating.

Undefeated but once tied Wichita Falls meets an Amarillo team that lost to Odessa. The latter, one of five unbeaten, untied teams, tackles two-times-loser El Paso High. Lufkin, boasting a prefect record and the state's scoring mark—381 points in 10 games—engages a Marshall team that lost only to Highland Park. Milby (Houston), which managed to squeak through without dropping a tilt, tangles with resurging Goose Creek. Brownsville, which didn't come close to losing a game, takes on Thomas Jefferson of San Antonio, an outfit that lost three contests.

In the other two games—Crozier Tech (Dallas) vs. North Side (Fort Worth) and Waco vs. Breckenridge—all have taken lickings.

One hundred and twelve thousand fans—the largest turnout in history for the first round of the state play-off—are due to watch the eight games with the biggest crowd at Souston where Milby battles Goose Creek. Twenty-thousand are forecast.

The bi-district round and anticipated crowds:

Friday—Highland Park at Paris, 7,500; Crozier Tech at North Side (night), 18,000; Marshall at Lufkin, 7,000; Brownsville at Thomas Jefferson (night), 20,000.

Saturday—Amarillo at Wichita Falls, 12,000; Odessa at El Paso, 14,000; Breckenridge at Waco, 12,000; Goose Creek at Milby, 22,000.

ANOTHER BOWL GAME

MEMPHIS, Tenn., Dec. 6. (AP)—George Bigbee, sports editor of the Press-Scimitar, reported today efforts were being made to arrange for a New Year's day football game here in what would be called the Dixie Bowl.

TO MANAGE CATS

COLUMBUS, O., Dec. 6. (AP)—The Brooklyn Dodgers today signed veteran catcher Ray Hayworth to manage their Fort Worth farm in the Texas League.

Newlywed Leads In Miami Open

MIAMI, Fla., Dec. 6 (AP)—Stocky Chick Rutan of Grosse Point Woods, Mich., came to Miami on a honeymoon, but tonight led the field of the $10,000 Miami Open golf tournament with a two-under par 68.

The 34-year-old Rutan, who has never won a major tournament, paced the field of 220 golfers, largest number ever to participate in the event with his sub-par opening round.

Using his putter "as never before" and watched by his red-haired bride of six weeks, Rutan sank four birdies during the round which included eight one-putt greens. He went out in 34 and came back in the same number of strokes.

Eight were bunched at 69. Back another stroke at 70 was little Ben Hogan of Hershey, Pa., the pre-tournament favorite.

Harold "Jug" McSpaden, of Sanford, Me., who hasn't won an open since the Salt Lake City event in 1944, blasted his ball into the wooden bleachers back of the 18th green to take a five on the hole. A par four would have given him a 68 to tie Rutan.

Abilene To Get Aid From Brooklyn Club

ABILENE, Dec. 6 (AP)—The Abilene club of the West Texas-New Mexico League arranged a working agreement today with the Brooklyn Dodgers, Dr. Jimmy P. Brilges, club president, announced.

The agreement was reached today at Columbus, O., at the annual meeting of the minor leagues and was signed with John L. Reeves, president of the Fort Worth club of the Texas League, owned by Brooklyn.

Dr. Bridges said Wid C. Matthews of Sattiesburg, Miss., Dodger scout, would be the supervisor.

Boys Club Fighters Square Off Tonight

A volunteer from the Community Center boxing team, Buddy Edge, has stepped forward with a challenge for the Boys club ace, Norman "Kayo" Lindsey, and the fight between this pair of 130 pounders will feature the twelve bout card scheduled for tonight at the club.

This card will be the semi-final for the season, with the finals scheduled for Dec. 14.

The bouts tonight will pair Don Stuart and Wesley Curry in the opener. Other bouts will be between Bobby Brown and Willie Gleaton, Blair Hankins and Bobby Davis, Pat Warren and Bobby Houston, Ernest Carter and Dalton Kimmons, Claud Wier and Jimmy Godfrey, Benny Short and Bobby Westbrooks, Godfrey Brooks and Kemper McGowan, Johnny Nelson and Jimmy Kalona, Gerald Lóyd and Webby Smith, and Kenneth Rutherford and Johnny Carpenter.

The first American locomotive actually to be operated on a common - carrier railroad in the United States was the "Tom Thumb," an experimental engine build in 1829 by Peter Cooper.

Big telephone construction program is under way

Telephone service for those waiting is first goal of $53,000,000 project for Texas

The postwar telephone construction and improvement program already has started. It is a $140,000,000 program—of which $53,000,000 will be for Texas—designed, *first*, to catch up with the demand for service, and *second*, to provide telephone users with the most adequate and modern service possible in the years ahead.

Service for waiting applicants

We are making thousands of new telephones, hundreds of miles of cable and wire, and equipment to expand scores of central offices. As facilities become available, we are putting in telephones in proper turn for those waiting.

New telephone instruments are being installed as rapidly as they are delivered, and by the first of the year—or shortly thereafter—we shall be able to furnish service for those waiting in neighborhoods where there already is enough central office equipment and cable to connect their telephones.

The slower, more complicated job of building and installing central office equipment, in the many towns where it is needed, is being pushed. A lot of progress will be made by the middle of 1946, and most of this job should be completed by the end of the year.

When waiting customers have been served, the job of expanding the telephone system to provide the kind and amount of service people want will get into full swing. These include individual lines and residence extensions. More equipment and the most modern devices also will be added.

Hundreds of miles of long distance lines will be placed in underground cable, and steps will be taken to introduce in some places a system by which operators can dial telephones in distant cities.

In the next five years, we plan to install 165,000 new rural telephones, more than doubling the number of farm telephones in this territory.

The conversion of telephone exchanges from manual to dial telephones will be resumed.

Mobile radiotelephoning — whereby drivers of busses, trucks, and automobiles can talk through the central telephone system—will be developed.

How much? How long?

Besides the $140,000,000 for special construction and improvement, another $100,000,000 will be spent for the normal growth of the business. Several years will be required to complete the entire program.

Wooster Victory—111th Engineering Combat Battalion; 143 Inf. Reg., Co. K; no date.

WOULD HAVE STAYED—Patrick J. Hurley, recently resigned Ambassador to China, shields his eyes from the glare of photographers' flashes as he told the Senate Foreign Relations committee that he would have remained as Ambassador to China had Secretary of State Byrnes publicly clarified American foreign policy as he did this week in a letter to Rep. Jack Z. Anderson. (NEA Telephoto)

Adventists To Hold Two-Day Meet Here

Seven-day Adventists of the Lubbock district will gather in Lubbock today and Saturday at the local Adventist church, at Twentieth and Ave. K, according to Douglas C. Marcus, local pastor.

J. C. Christenson of Clovis, home missionary and Sabbath school secretary for the Texico conference, will be the speaker at the opening meeting tonight, commencing at 7:30 o'clock.

Saturday morning, Sabbath school will be at 9:45 o'clock and W. H. Shephard, president of Southwestern Junior college at Keene, Tex., will speak at 11 o'clock. There will be two meetings Saturday afternoon, with R. R. Bietz, president of the Texico conference, speaking at 2 o'clock and W. E. Priebe, evangelist, talking at 4 o'clock. The gathering will be concluded Saturday night when Fordyce W. Detamore, evangelist, world traveler and lecturer, will talk on the subject, "Russia in Bible Prophecy." The final session will begin at 7:30 o'clock.

Churches comprising the Lubbock district are those in Lubbock, Plainview, Littlefield, Brownfield and Cone.

Lubbock County Man Reenlists In Army

MANILA — Pfc. Ernest Thornton, has reenlisted in the regular Army for one year and is at the 5th Replacement depot near Manila, awaiting transportation for a stateside furlough.

Pfc. Thornton's mother is Mrs. Senia Thornton of Route 1, Lubbock. His brother, Sgt. Tom Thornton, is stationed at the Lubbock Army Air base.

Overseas since April of this year, Pfc. Thornton served with the 553rd Quartermaster detachment in Manila. He is entitled to wear the Asiatic-Pacific ribbon with the Luzon campaign star, the Philippine Liberation ribbon, the American Theater ribbon, the Good Conduct Medal, and the Victory ribbon.

McAllen Hunter Gets Limit On One Shot

McALLEN, Dec. 6 (AP)—Ben H. King, McAllen oil man, did all of his hunting for 1945 with a single shot.

King, hunting with J. G. Roberts of McAllen on the Guerra ranch north of Edinburg, fired one shot and got two gobblers, the legal limit, with it. Each was a 15-pound bird with a nine-inch beard. Roberts didn't get a shot at the flock.

Stevenson Expected To Seek Third Term

AUSTIN, Dec. 6 (AP)—The political weathervane was pointed sharply today toward the probability of Gov. Coke R. Stevenson trying for a third term.

During press conference Stevenson was asked whether or not he would make new appointments on the board of education for the three members whose terms expire Dec. 31, 1946, inasmuch as he "would not be governor beyond Jan. 21, 1947."

"How do you know I won't be governor," promptly retorted Stevenson.

It is an unwritten courtesy for an outgoing governor to not make appointments during the last days of his administration. Gov. Jim Ferguson, however, historically broke this precendent by sending to the Senate appointments for confirmation just a few days before he left office.

The three board of education members whose terms expire on the heels of Stevenson's administration are: Maco Stewart of Galveston, Phil M. Stevenson of Houston, and Dr. Austin M. Long of Valley Mills.

Vets And Families Are Assured Housing

STATE COLLEGE, N. M., Dec. 6 (U.P.)—Married veterans and their families were assured today of a place to live when they enroll Jan. 7 for the second semester at New Mexico A & M college.

Housing units from the Alamogordo Army Air base will be moved to the campus within the next week, according to Dean J. W. Branson, acting college president.

Leased by A & M through the Federal Public Housing authority, the units will be rented on a non-profit basis to veterans enrolled at the school.

The housing units are to be located near other campus buildings, Dean Branson said, adding that they will be connected with A & M gas, electricity, water and sewage systems. The college will also provide community laundries and baths, the dean said.

PENNEY'S for Your Christmas Thoughts!

Give an Educational Toy!
WOODETTE CIRCUS
1.98
Dextrous little hands can paint and assemble the wooden parts into 4 imaginative animals and a jolly clown!

For Miniature Homes!
DOLL FURNITURE
98c
For a young homeowner! Adorable little miniatures of a grownup living room, dining room, kitchen and bath.

For the play-shift!
STATION WAGON
$1.79
Just the thing to give him for Christmas! A sturdy little red wagon for backyard commuting! Size, 12"x9½"x4"!

For Diminutive Cooks!
Glass Baking Set
98c
This is just what she wants for Christmas! An oven-glass baking set like mother's with 4 custard cups, a cereal bowl and a covered casserole.

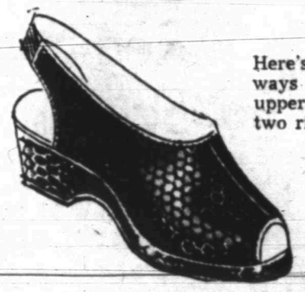

Slippers—THE GIFT THAT'S
BEAUTIFUL
PRACTICAL
INEXPENSIVE

$2.89
She'll be feminine to the tips of her toes when you give her these pretty slippers!

$2.29
Here's a gift that is always welcome! Rayon uppers in a choice of two rich colors.

$1.98
Smooth rayon bengaline cross strap slippers to bring her Christmass cheer!

1.98
She'll be at home, and very much at ease, in this slipper of polka rayon.

Romantic Faust Slipper for Child
Red and blue bengaline with flexible leather sole. 6-12-3.
$1.98

Ankle-High Warmth!
MEN'S SLIPPERS
3.48
The only trouble with these wool flannel bootee-type slippers is—once dad gets to wearing them, he'll never part with them.

ZALE'S Sells More DIAMONDS
Than Any Other Jeweler
in the Southwest

1. $175
Breath-taking center diamond enhanced by two side diamonds in gorgeous setting. $175.00
Use Your Credit

2. $195
Precious rose gold Avalon watch sparkling with diamonds and rubies. 17-jewel movement. $195.00
Pay Weekly

3. $29.75
This charming golden mounting is centered with radiant diamond. A real Zale value. $29.75
Pay $1.25 Weekly

4. $85.00
Lovely bridal duet fashioned with diamond solitaire, $45.00. Three-diamond wedding ring, $40.00. $85.00
Pay $1.50 Weekly

5. $37.50
Have her diamond reset for Christmas in this beautiful 14K gold 4-diamond mounting. $37.50
Pay $1.25 Weekly

6. $42.50
Adorable gold-filled Bulova watch for her, accurate 17-jewel movement. $42.50
Pay $1.25 Weekly

7. $79.50
She'll thrill to this smart 3-piece sweetheart set, consisting of three gorgeous diamonds in heart designed solitaire, $32.50; three diamond wedding ring, $24.75; lovely Banner watch, jeweled movement. $79.50
All Prices Include Federal Tax

8. $85.00
Brilliant diamond set in gleaming black onyx on solid gold ring for him. $85.00
Pay $1.25 Weekly

9. $39.75
Avalon 17-jewel waterproof watch, stainless steel case, all important service features. $39.75
Easy Credit Terms

10. $65.00
For that look of distinction, give this handsome man's ring set with large diamond. $65.00
Use Your Credit

11. $39.75
A good-looking man's watch, famous 17-jewel Bulova movement. $39.75
Pay $1.50 Weekly

12. $9.95
Man's wedding ring, solid yellow gold engraved motif. $9.95
Pay Weekly

13. $3.95
Choice of yellow gold-filled locket and cross on tiny link chain. Designed by Baylor. $2.95
Open An Account at Zale's

14. $15.75
Lovely Lucite dresser set in soft pastel colors, attractively gift boxed. $22.50
Pay $1.25 Weekly

15. $5.50
Ronson Lighters. Let his gift come from Zale's this year. $5.50

Precious Holiday Gifts

There's nothing like the excitement, the flattery, of receiving a wonderful gift from Zale's. We've a magnificent collection of the finest quality merchandise at the lowest prices.

Lubbock Of The Future

A Sailor Writes An Editorial

EVERY citizen of Lubbock must realize that our city faces the opportunity of a generation through the proposed $5,894,000 bond issue which is up for voters' opproval next Tuesday.

The five-year program of improvements is designed to make amends for our municipal negligence during the past 10 to 20 years, as well as provide for our city's future requirements.

It is an all-encompassing and complete program. Take for example the water supply improvements program. Lubbock needs it now and needs it badly. The same thought went into inclusion of all other things which make up the five-year expansion program—airport improvement, auditorium-coliseum, street lights, street improvements, traffic lights, better parks, storm and sanitary sewers, more and better fire stations and equipment, addition to the City hall, the water softening plant—these are things which we need and must have if Lubbock is to keep pace with this rapidly-expanding empire of which it is the hub.

And then there's the returning service men, who went forth to fight on the faraway places of the earth. Shouldn't we try to make Lubbock a better place for them to return to?

* * *

On this matter, Seaman Robert E. Giles, son of Mr. and Mrs. J. A. Giles, 2107 Fourteenth, recently wrote a letter, little thinking that it would ever appear in print. His sentiments are typical, we believe, of a lot of the boys just back from the war and a lot more less fortunate who haven't returned yet.

Here's Seaman Giles' letter:

"Mr. C. W. Ratliff
"c/o Avalanche-Journal Publications
"Lubbock, Texas

"Dear Sir:

"Yesterday I received my copy of The Avalanche-Journal of Sunday, 21 October. Of all the articles in the paper, and I read all of them, the one concerning the proposed Municipal Auditorium-Coliseum written by you interested me most.

"I have always been proud of my home town, and if the people of Lubbock vote favorably for this bond issue, I think I'll have reason to be even prouder.

"Being a very sports-minded person, I can see unlimited possibilities in the coliseum. I've seen the Municipal auditorium at Oklahoma City, and I've seen what their all-college invitational basketball tournament has done for that city. With this coliseum, Lubbock could have one of its own. And the proposed structure is oetter, in my opinion, than the one in Oklahoma City. Providence, R. I., also has a spacious auditorium, in which I've seen hockey games, basketball games, and boxing matches.

"I have always believed that Lubbock was destined to become one of the great cities of Texas and of the nation. There are two main reasons (of course there are more) that will help to make this possible. First, the growth of Texas Tech will draw more people to Lubbock. As the college grows, it will have better athletic teams, and as it has better teams, the college and the city will become better known through the publicity these top-flight teams draw. The second reason is the civic pride that is a trait of a great majority of the citizens. They are always thinking of ways and means of making Lubbock a better place in which to live.

"Although I thought it was the best when I came into the Navy, I think now that my home town is going to be a better place in which to live when I get back.

"Speaking of getting back, I hope to be out in time to enroll for the fall semester to major in journalism and to play right half on the football team. By the way, you might call my dad, J. A. Giles, and tell him I said he should vote for the issue. Naturally, I'll tell him, but if both of us tell him, he won't have the nerve to refuse.

"Time is running short, so I shall remain yours for a better and more beautiful city of Lubbock.

"Very sincerely,
"Robert E. Giles S1/c
"A&R Shop 182 NAS

"Navy No. 14 c/o F.P.O.
"San Francisco, Calif."

* * *

SEAHAN GILES' unsolicited letter speaks for itself. It is a better editorial, we think, than any which could be written on this subject in The Avalanche-Journal office.

Young Mr. Giles, we believe, speaks not only for himself but for thousands of other forward-looking young men just back from the armed services, or soon to return, and upon whose talents and efforts the future of Lubbock largely depends.

We commend his ideas to all eligible voters and especially to those who have the best interests of Lubbock at heart.

Where's The Peace?

WHERE is the peace for which the peoples of the earth strove so hard? The peace that was expected with victory? While victory is here, there is nothing remotely resembling universal peace. Instead we have hatred, suspicion and turmoil—some of it fomented by a few of our own lawmakers.

When will the citizens demand and elect men whom the lust for office will not render incapable of service? Men who have opinions and judgement of their own, and the will power to back them.

There is nothing more despicable than a legislator who is swayed by pressure groups, blocs or lobbyists into voting for or against enactment of laws or statutes which he knows deep in his heart are inimical to the welfare of the average citizen.

"Girls of today aren't as charming as were girls of 20 years ago," asserts a columnist who is 20 years older than he was 20 years ago.

Believe It Or Not --- By Robert Ripley

Marshall's Report On The War

By Gen. George C. Marshall
Wartime Chief Of Staff

(This is the 19th of 42 installments of material selected from General Marshall's report on the winning of World War II).

THE SIEGFRIED OFFENSIVE

DURING the third week in September the Combined Chiefs of Staff were again in conference at Quebec with President Roosevelt and Prime Minister Churhill.

MARSHALL

The whole of Northern France and substantial parts of Belgium and Luxembourg were in Allied hands. But General Eisenhower reported that enemy resistance was stiffening as he approached the German frontier. He reported that it was his intention to prepare with all speed to destroy the German armies in the west and occupy the German homeland. He considered that his best opportunity to defeat thedefenders in the west was to strike at the Ruhr and Saar, confident the enemy would be compelled to concentrate most of his available resources in defense of these essential areas. He preferred the northern approach into Garamny through the Cologne plain for reasons which the map makes obvious.

Early in October I made a hurried 9-day inspection trip to the Western Front, visiting American corps and divisions from the Vosges Mountains north to Holland. After many computations and exchanges of radio messages with the War Department to determine the effect on our hard-pressed and delicately balanced shipping situation, it was decided to rush the movement from United States of the infantry regiments of 9 of the 11 remaining divisions ahead of the scheduled departures of the entire divisions. This was for the purpose of relieving those regiments which had been in combat for an excessively long period and to give immediate increased strength and striking power to our armies facing a most difficult winter campaign.

With the promise of a large increase of supplies through the port of Antwerp in late November, and with more than 3,000,000 troops on the Continent, General Eisenhower in mid-November launched a charging offensive to penetrate the Siegfield Line and place himself in position to cross the Rhine.

Enemy Fights Stubbornly

Not in years had European weather been so unfavorable for grand-scale military operations. Resistance was bitter. The Siegfriend defenses were formidable as anticipated, and our divisions paid heavily for each inch of ground they tore from the fanatical Nazi defenders. Nevertheless, by 4 December the Second British Army had cleared the west bank of the Meuse and the Ninth Army had reached the Roer. East of Aachen troops of the First Army fought splendidly through bloody Hurtgen Forest, taking heavy casualties and inflicting heavy losses on the stubborn enemy. The dams of the Roer were seriously inhibiting General Eisenhowe's progress. He wrote:

"He (the enemy) is assisted in that area, however, by the flooded condition of the Roer River and the capability he has of producing a sudden rush of water by blowing the dams near Schmidt. Bradley has about come to the conclusion that must take that area by a very difficult attack from the west and southwest.

"There can be no question of the value of our present operations. The German is throwing into the line some divisions with only six weeks training a fact that contributes materially to his high casualty rate. As explained in my most recent appreciation to the Combined Chiefs of Staff, our problem is to continue our attacks as long as the results achieved are so much in our favor, while at the same time preparing for a full-out heavy offensive when the weather conditions become favorable, assuming the enemy holds out. Unless some trouble develops from within Germany, a possibility of which there is now no real evidence, he should be able to maintain a strong defensive front for some time, assisted by weather, floods, and muddy ground."

General Eisenhower was determined to give Germany no chance to recoup from the blows already delievered. Despite shortages in troops and supplies, his attitude was offensive, and, consequently, he was compiedde to hold some sectors of the front with comparativel weak forces in order to gather strength at his points to attack. To the 75 miles between Monschau and Trier he cold assign only four divisions of the First Army, or sacrifice his effort to bring about a decision elsewhere. It was here that the German armies of the west, commanded by Field Marshal von Ruustedt and acting on the direct orders of Hitler, made their last desperate effort to stave off the disaster.

The Wehrmacht's Last Blow

On 16 December von Rundstedt attacked with a force of 24 divisions. He had been able, because of heavy fog which continued for days, to assemble his forces in secrecy in the heavily forested foreground. When the blow came, eight panzer divisions broke through our VIII Corps line on a 40-mile front. Diversionary attacks in other sectors and considerable air and artillery support assisted the main offensive in Luxembourg.

General Eisenhower reacted promptly and decisively and subsequent results have proved the eminent soundness of his plan. All available reserves in the Central Army Group were used to strengthen the northern and southern flanks of the penetration and the XXX British Corps of the Northern Army Group was deployed to hold the line of the Meuse and the vital Liege area. With communications seriously disrupted, Field Marshal Mountgomery was charged with the operation of forces north of the penetration, involving temporary operational control over most of the U. S. First and Ninth Armies while General Bradley coordinated the effort from the south. The 82d and 101st Airbrone Divisions were brought up from theater reserve to retard the momentum of the enemy thrust, with the 101st, reinforced by armor and artillery, holding the important road center at Bastogne. The shoulders of the penetration at Monschau and Ecoternach were stubbornly held by infantry divisions moved in from the north and from the south, outstanding among which were the 1st, 2d, 4th, and 99the Divisions.

The Ardennes battle deserves a prominent place in the history of the U. S. Army. The splendid stand of the 7th Armored Division at St. Vith, the tenacity of the 101st Airborne Division at Bastogne, and the numerous examples of superb fighting qualities shown by the troops of otehr units were in th efinest American tradition.

E. Stanley Jones Says Jap Envoys Tried To Halt War

NEW YORK, Dec. 6 (AP)—Dr. E. Stanley Jones, Methodist missionary who described himself as a go-between for Japanese envoys and the United States government in the dark days before Pearl Harbor, said today the envoys made "desperate attempts" to avert war.

The missionary, who has spent many years in the Orient, said it was at the suggestion of the Japanese representatives that the late President Roosevelt sent a last-minute personal message to Emperor Hirohito.

(A. Stanley Jones has been mentioned in testimony before the Senate committee investigating Pearl Harbor).

In an article entitled "And Adventure in Failure — Behind the Scenes Before Pearl Harbor," and written for the December issue of the magazine, "Asia and the Americas," Dr. Jones said the envoys asked him "to urge the President to send a cable to the emperor as a final attempt to preserve peace."

Dr. Jones said he delivered the request in a personal interview with Mr. Roosevelt Dec. 3, 1941.

Looking At Life ------ By Erich Brandeis

OUT in Kansas City a good-looking young fellow walked up to a night club performer after she had finished her song and said: "Do you remember me?"

She looked at him approvingly but admitted "No, I'm afraid I don't remember you."

BRANDEIS

"A fine thing," he sniffed. "I carried you in the mud from your stage to a jeep when you were entertaining for the soldiers in Italy near Naples. It was a pretty long haul and you told me to be sure to look you up if I ever ran into you in the States."

It's a sad little tale, but there is nothing unusual about it.

The same thing happened to me a few years ago. I was in a hospital for an operation and had a wonderful nurse. She looked after me as if I were a baby. For almost three weeks she was with me every day and all day long. She fed me and took my temperature and held my hand.

When I left the hospital she made me promise to keep in touch with her and let her know how I was getting along.

I didn't, and a couple of years went by. Then I met her in the street one day.

"Hello," I said.

"Don't you hello me or I'll call a cop," she replied and walked on.

I could have explained the situation to her, of course, but I didn't. Maybe it was better for her ego to let her think that I was just a flirt attracted by her beauty, which she did not possess.

What doctor hasn't had a patient promise him undying gratitude when he was at death's door—only to be quickly forgotten when the bill arrived after the patient got well?

Who hasn't made new friends in a summer resort, and when the vacation was over there were assurances of everlasting friendship?

"Now be sure to look us up as soon as you get back to town," was the parting exhortation.

Nothing ever came of it, of course, and when they saw each other a year or so later, there was just a faint sort of recognition and a dubious: "Where did I see that woman before?"

* * *

PEOPLE are very much like ships that pass in the night or like a couple of sailors stranded on an island. Dependence brings them together, self-sufficiency draws them apart.

Maybe that is one of the reasons there is such terrible lonesomeness in a city like New York, and so much friendship in a little place like Brookfield or any other village, where people depend on each other ju. as I depended on my nurse when I was sick.

Lewis Triumphs Again

Mine Boss Dominates Conflab

WASHINGTON
By Ray Tucker

JOHN L. LEWIS—hate him or not—walked out of the closing sessions of President Truman's Labor-Management conference completely victorious over his foes in the administration, the Hillman-Murray and industrial groups. He forced them to accept his demands, and the way they bowed before him was almost comical.

When Philip Murray, the CIO antagonist of the United Mine Workers' chieftain, arose to support him, Eric A. Johnston, president of the U. S. Chamber of Commerce, sprang to his feet and said:

"I have just seen the lion and the lamb lie down together. I don't know which is the lion or the lamb. But when the lion and lamb of labor lie down together, management will lie down, too. We will accept Mr. Lewis's proposal."

TUCKER

Lewis will undoubtedly cite that "lion and lamb" allegory, with its suggestion that labor can wield its strength only of unified, when he bargains with William Green and his aides for re-entry of UMW into the American Federation of Labor.

The significance of the Iowa-born Welshman's triumph lies in that the politico?labor leftists in the administration had joined with the Hillman-Murray faction to gang up on him. Originally they did not select him as a representative of the workingman, but finally they did not dare leave him out. Once he got inside the conference hall, he dominated the scene.

He was barred from membership on the original eight-man executive committee, and so were the Railway Brotherhoods. Under the initial setup the AFL and CIO, together with management sympathizers, if any, could have imposed their decisions on the minority of miners and railroaders. But Lewis gained participation in this unit for himself and for a representative of the Brotherhoods.

* * *

VETO: The showdown came, however, when the Rules committee brought in a resolution providing that all proposals would be held binding on the conference if they received 15 of the 18 votes on the 18-man executive committee. As the UMW and Brothers had only two votes in the 18, this would have left them helpless in the making of final decisions.

For reasons to be explained subsequently, the AFL had now aligned itself with Lewis against the administration and the CIO group. So, George L. Meany, secretary-treasurer of the AFL, proposed an amendment.

He demanded that the decision of the 15-man majority should not be effective unless the miners or the railroad men were represented in that majority. In short, he insisted that the two unions should enjoy the right of veto.

* * *

UNANIMOUS: Lewis climbed to his feet at this dramatic moment. He spoke firmly and deliberately, but without any touch of the theatrics he can turn on when he chooses. Fearing that he would threaten to walk out and boycott the conference, management, government and CIO listeners leaned forward in their chairs and cupped their ears.

"I know that my remarks will not change a vote," he said. I know that the lines have been drawn. But I want to make a statement for the record. I do not intend that the United Mine Workers shall be relegated to a Class B membership in this organization.

"I want you to know that, in adopting this rule, you are doing a deep injustice to two great groups of labor — the miners and the railroad men. Furthermore, unless our decisions are unanimous, you cannot expect them to be carried out faithfully or intelligently."

* * *

SUPPORT: When Phil Murray rose from his seat alongside Sidney Hillman, everyone expected him to roar defiance at his erstwhile crony but present enemy. They recognized that the Meany-Lewis amendment foiled the CIO's plans for control. But Phil flopped.

"I have not consulted the CIO delegates on this question," he said. "But I have always stood for unanimous approval, although we were outvoted in the executive committee on our demand for acceptance of the Truman formula that wages should be increased without increasing prices. So, I agree with Lewis and support him wholeheartedly."

Bill Green endorsed the proposed change, and Johnston followed with his "lion and lamb" wind-up.

* * *

BARE: The president of the chamber may have been influenced by his suspicion that John L. would have abandoned the deliberations with a ringing defiance, if he were defeated on his proposition. For the UMW leader, by winning over the AFL and the Brotherhoods to his viewpoint, demonstrated that any violent and open break would have been disastrous. By agreeing with him, the management conferees saved "face," although the powwow was virtually bare of any permanent results.

* * *

CORNER: John L.'s basic strategy throughout the the proceedings was aimed at smashing the Wallace-Taylor-Hillman-Murray scheme to link the question of wages with prices and profits under government supervision. They Secretary of Commerce and Dr. George W. Taylor, now chairman of the War Labor board, had hoped to set up another WPB to handle this problem.

The UMW boss believes that he can get more money for his men through direct bargaining with the employers. He says that he was "burned" once when he palsy-walsied with the administration. He has finally sold that idea to the AFL-ers, and appears to have maneuvered the CIO into a corner—with the willing aid of management.

* * *

TEXAS
By Gordon Shearer

AUSTIN.—Beyond orders for streamlined equipment and roadbed improvement it is still pretty uncertain what Texas railroads are going to do to hold a profitable part of the passenger travel with which they have been swamped during wartime.

Charles Petit, former secretary of the Texas Railroad commission, and its chief inspector, believes one of the best ways to keep railway passengers satisfied is to feed them well.

Petit looks into the crystal ball and sees neat little cart trays being wheeled through the aisles and the travelers selecting tastly food and cold or hot drinks.

One eastern line already is advertising a reserved seat service in chair cars, so the prospective travelers will know in advance that he is going to have a place to sit in the day coach.

* * *

SPEED: Faster trains also seem to be in sight as soon as the crowding of the rails by war trains is over and more streamlined equipment is in use.

Frequent service to offset the bus schedules also is advocated by some of those studying ways to keep passengers on trains. This would mean smaller trains and is dependent upon more motive power being made available. It might also require considerable sidetrack building.

Other travel comforts that can be counted upon to return when the strain of taking soldiers home is over include parking out of Pullmans to be picked up as the trains come through.

* * *

Before the war the business man finishing a day's affairs with state departments in Austin, could go to bed in a Pullman berth by 9 p. m. and be picked up for his trip to Houston, Dallas or Fort Worth during the night. He thus would arrive home for breakfast and business the next morning with a good night's rest.

"The hole in the Milky Way that I discovered some years ago is becoming larger," declares an astronomer. Perhaps it is through this hole that parking space has been leaking.

History shuold teach all peoples that the worst way for a country to go to the dogs is for it to go to the war dogs.

Side Glances --- By Galbraith

"Welcome, Mrs. Jones! Of all the people who swore they'd never set foot in my shop after the war, you're the last one back!"

Leaders Fail To Accept Responsibilities

Labor, Industry Said "On Spot"

By THOMAS L. STOKES
Special Correspondent

WASHINGTON—It was truly a serious reflection on industrial and labor leaders when President Truman had to confess for them publicly that they could not sit down together and agree on machinery to cope with strikes and that he had to take over himself on behalf of the people.

STOKES

The so-called labor-management conference here was a challenge to those leaders, and they flunked it miserably, so far as the primary objective was concerned, as the President advised the country in his message to Congress turning the job over to that body.

It raises some doubt to what extent the top leadership of both industry and labor represent the best interests of those for whom they profess to speak. It also raises the question whether the top, big-time industrial and labor leaders have gotten too far away from the rank-and-file citizen as stockholder, consumer and worker in a sort of closed corporation of each group that is aloof, selfish and immersed in it sown power.

* * *

Given Free Reign

Certainy it was not a nice picture that the President drew in his message to Congress. He recalled the circumstances of the labor-management conference. He told how he wanted to do away with war-time controls as soon as possible and how the conference was arranged so that management and labor could take back their part of the job having to do with wages and labor agreements and industrial relations.

It was their conference, he reminded them again as he had in his address to the conference. They were on their own. The government remained aloof and continued to remain aloof despite efforts to induce Mr. Truman to try to rescue the contending parties.

And they failed.

* * *

THE President's timely intercession should have a salutary effect. Perhaps, by fixing the blame so that the public knows, he may awaken both industrial and labor leaders at the top levels to their responsibility.

Despite their failure, the President still counsels a course of moderation that will permit industry and labor to try again through machinery set up by Congress. He was calm and factual. He fixed the blame without rancor, and without exploding, as the late President Roosevelt once did, with "a plague on both your houses." But he made himself clear.

* * *

Would Remove Controls

He sticks to his original intention for the government to withdraw from its necessary war-time managerial role. Some, he said, would have the government continue "telling our citizens what to do" in the reconversion period.

"That however is not the policy of the government," he emphasized. "The policy is to remove wartime controls as rapidly as possible, and to return the free management of business to those concerned with it."

Congress now faces the challenge, not only to legislate wisely, but to legislate quickly so that reconversion shall not be stalled. There is already wide support in Congress for the President's proposal for fact-finding boards to deal with disputes in basic industries and public services, which open the way for the public to know the issues and exert pressure for settlements. Such procedure has proved successful with the railroads for some years.

* * *

PRESIDENT TRUMAN is thoroughly aware that some in Congress have been itching to exploit the current strike situation. Typical are proposals in a House Military Affairs committee measure, now pending in the House, for heavy penalties against unions for striking in violation of "no-strike" contracts and virtually to outlaw political activity by labor unions. On the other hand, there are some zealous laborites who would stave off any corrective legislation whatever.

The President warned against "repressive or coercive measures against either side," and urged "calm and careful consideration" to legislation.

Judgments Rendered In Federal Cases

Judgments were rendered in four civil cases Thursday in U. S. district court, Lubbock division, with Judge T. Whitfield Davidson presiding.

The United States was awarded $2,206 in suit against J. Forrest Armstrong and Lucille Armstrong, his wife for collection of a loan under the Farm Security administration.

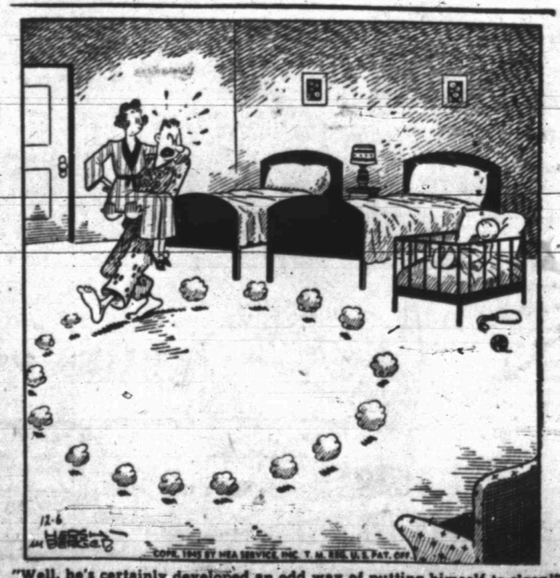

A suit filed by the U. S. under the War Food administration to revoke occupation of certain lands in Dawson county and collection of rents from Curtis W. Hankins was settled with the verdict favoring the plaintiff. Lands and premises and $30 rent will be recovered by the U. S. according to the court ruling.

J. F. Stroud was awarded $750 in his suit against Carl Ratliff for injuries allegedly sustained in an automobile accident.

Walter Lee Crider in suit against the Hartford Accident and Indemnity company was awarded $2,500 for workmen's compensation.

Wax emulsions from petroleum are important in the treatment of textiles, paper, and for coating exteriors of buildings to make them water repellant.

Funny Business

"Well, he's certainly developed an odd way of putting himself to sleep!"

Fashions Of Future Are Previewed For Big Business Men

NEW YORK, Dec. 6 (AP)—America's big business men had ringside seats today at the world premiere of fashions of the future—test-tube styles straight from the laboratories of industry.

A fashion show as a departure for the Congress of American Industry, in session here this week, but the assembled tycoons applauded lustily as beautiful models drifted by, attired in glamorous costumes made of everything from coal to sea brine.

There was a sheer and lovely hostess gown made of fortisan, a fabric developed during the war for use in flare parachutes, barrage balloon cloth and such. Said to be one of the strongest fabrics ever made, it appeared in a garment that seemed as fragile as cobwebs.

Koroseal, used during the war for wire and cable insulation, sleeping bags and tents, made its civilian bow in mother-daughter raincoats and a rain suit, all streamlined in style, functional in design.

Another outfit shown in the parade of man-made fabrics was a suit of teca and mohair, a material developed during the war, which looks like wool, is resistant to mildew and shrinkages and does not wrinkle.

Wake Survivors Have Trouble Recognizing Former Prison Mates

BOISE, Idaho, Dec. 6. (AP)—Men of Wake island now have a hard time recognizing one another, even companions of months of concentration camp existence.

Good food and new clothing tell why.

When the Workers of Wake gathered today for their first annual convention, they found most of them had put on 40 or 50 more pounds since they first returned to the United States. They'd also cast off the ragged or makeshift clothing which had been theirs for so long.

Membership is limited to civilians captured at Wake by the Japanese and sent to prisoner-of-war camps. They are planning ways of obtaining back pay for 1942 and 1943. A Congressional appropriation probably will be sought.

PROFITS CUT GAINS

NEW YORK, Dec. 6 (AP) — Demand for steels, motors, aviations, amusement and specialties today helped lift the stock market to a 15-year average peak although considerable profit cashing accompanied the drive and extreme gains of 2 or more points were reduced in most cases at the close.

Buying inspiration was based partly on revived hopes of strike settlements as General Motors and automotive union officials resumed negotiations. Inflation psychology also was stressed as a trend prop in the wake of the government's living cost figures and indications wage-price policies would be permitted to expand proportionately.

Transfers totaled 2,290,000 shares compared with 1,860,000 Wednesday.

The Associated Press 60-stock composite was up .2 of a point at 76.4, a high since April 14, 1931. The industrial average made a top since March 3, 1937.

Eastern Air Lines jumped 3¼, Union Pacific 2⅝ and Paramount Pictures 2⅛. Ahead fraction to better than a point were U. S. Steel, Bethlehem, Republic Steel, Youngstown Sheet, General Motors, Chrysler, Boeing, Grumman, U. S. Rubber, Montgomery Ward, Du Pont, J. C. Penney, Socony, Warner Bros. and J. I. Case.

An exception was Great Western Sugar which dropped 3¾ points on a cut dividend. Lower were Santa Fe, Great Northern, Northern Pacific, Douglas Aircraft and Western Union "A".

Bonds turned irregularly downward.

The curb boiled in the first quarter hour with the ticker falling seven minutes behind floor trades. It soon slowed. Gainers were Aireon, Brown-Forman Distillers, Colonial Airlines, E. W. Bliss and Bellanca Aircraft. Turnover here was 1,190,000 shares versus 1,100,000 yesterday.

Cotton

NEW ORLEANS REPORT

NEW ORLEANS, Dec. 6 (AP)—Cotton futures were quiet and irregular today. Closing prices were steady, 15 cents a bale lower to 10 cents higher.

Oct.	23.40	23.42	23.30	23.32

B—Bid.

NEW YORK REPORT

NEW YORK, Dec. 6 (AP)—Cotton futures rallied as much as 50 cents a bale early today on mill and commission house buying but subsequently developed a heavy tone on persistent hedge selling. Offerings were absorbed on the scale down through mill covering against textile orders. Traders were awaiting further developments on the crop and the export situation.

Futures closed 10 cents a bale higher to 15 cents lower.

	Open	High	Low	Last

AVERAGE PRICE

NEW ORLEANS, Dec. 6 (AP)—The average price of middling 15-16ths-inch cotton at ten southern spot markets today was five cents a bale higher at 24.39 cents a pound; average for the past 30 market days was 23.95. Middling ⅞ths-inch average was 22.81.

More TB Facilities Said Needed In State

AUSTIN, Dec. 6 (AP)—The Texas Tuberculosis association, conferring with the State Board of Control today, said about 10,000 more beds are required to care for tuberculosis patients in the state.

Bed capacity is now 4,000 which obliges the state to enforce rules that work a hardship on patients, said spokesmen for the association.

Recommendations for the liberalizing of admission rules included:

1—Abolition of time limit on stay in institution (at present this is 9 months).

2—Abolition of age limit (now 6-60 years).

3—Lessening of discrimination against Latin-Americans.

4—Performance of chest surgery in the state hospitals.

5—Easing the ban on re-admission when patient voluntarily leaves.

Those present included: Judge Bryce Ferguson of Pharr, Dr. J. B. McKnight, superintendent of the TB sanitarium near San Angelo, Dr. Henry Schwartz and Dr. Castner with the board of control.

Weaver Baker, board chairman outlined the need for a hospital in South Texas and presented the relative merits of Ford Ringgold at Rio Grande City and Fort McIntosh at Laredo, now under consideration by the board, depending on receptivity of the locale to such an institution.

At A Glance

NEW YORK, Dec. 6. (AP)—
STOCKS—Higher; steels, motors lead advance.
BONDS — Steady; selected rails improve.
COTTON — Irregular; commission house buying and mill covering.

CHICAGO:
WHEAT — Unchanged to ⅜ off; affected by rye slump.
CORN—Unchanged at ceilings.
RYE—4 cents off to 1 cent up; support missing after early upturn.
HOGS — Moderately active, steady to 25 cents lower. Top $14.85, ceiling.
CATTLE — Steady to strong. Top $18, ceiling.

Livestock

Physicist Who Saw A-Bomb Damage Warns On Nuclear Energy Control

By CHARLES B. DEGGES
United Press Staff Writer

WASHINGTON, Dec. 6.—A man who saw the atom Bomb's work in Hiroshima and Nagasaki warned today that the world faces nightmarish destruction under death-dealing rays unless it finds immediate ways to control atomic energy.

Phillip Morrison, a nuclear physicist who served on an inspection mission to the atomized Japanese cities, said the atomic bomb was a "revolution in war" which made it imperative to prevent another armed conflict.

Can Destroy Nations

"War can now destroy not cites, but nations," he told the Senate's special committee on atomic energy." We have a chance to build a working peace on the novelty and the terror of the atomic bomb."

To that end Morrison advocated a "working and realistic" policy of immediate atomic energy control based on "functioning, material agreements among the great and smaller powers."

Died From Radiation

Morrison, who worked at the Los Alamos bomb plant and helped assemble the final weapons in the Marianas, described for the committee the devastation he saw in Hiroshima and Nagasaki. He gave a stark account of how human beings died under lethal "radium-like rays."

He said only about five or 10 per cent of the people within 1,000 yards of the explosion escaped death from blast or burn.

Many people, he said, managed to crawl uninjured from the rubble of their demolished homes, but later they died anyway from the deadly radiation.

Affects Blood Tissues

"This radiation," he explained, "affects the blood-forming tissues in the bone marrow, and the whole function of the blood is impaired.

"The blood does not coagulate, but oozes in many spots through the unbroken skin, and internally seeps into the cavities of the body.

Exams Set Saturday In Science Search

Two Lubbock High school students plan to take preliminary examinations in connection with the fifth annual Science Talent search, to be held Saturday at Senior High here. The tests, to be held in room 308, will be under supervision of Miss Neville Wrenn.

Students taking the test here will be Floyd Rector and Richard Kelisky.

The Science Talent search is conducted annually by Science Clubs of America, administered by Science Service. Purpose is to discover and help develop scientific talent that will be of value to the nation in war and peace.

Forty boys and girls from over the nation, who lead in preliminary examinations are to be given all-expense trips to Washington to attend the Science Talent institute for five days and take final examinations for the Westinghouse science scholarships. Two contestants, one boy and one girl, will be selected by a board of judges to receive the Westinghouse grand science scholarships of $2,400 each ($600 per year for four years.) Eight others will receive Westinghouse scholarships for $400 ($100 a year for four years), and $3,000 additional in scholarships will be awarded.

As part of the preliminary examinations, each contestant must submit an essay of about 1,000 words on the subject "My Scientific Project."

New Process Killing Off Coyotes In Texas

FORT WORTH, Dec. 6 (U.P.) — Little Red Riding Hood would be safe today in northern Tarrant county.

Joe B. Lindsey, district agent of the U. S. Department of the Interior, reported that a government trapper, R. L. Buster, has killed 21 wolves in the northern part of Tarrant county in the last two months.

Buster's wolf-trapping success —one animal every three days— was due to use of a new device, the coyote getter.

Lindsey explained how the coyote getter works:

"It's a small cyanide gun, staked into the ground. Scent bait and fur is placed on the end sticking up out of the ground. When the wolf or coyote closes his jaws over the bait, a small shell explodes sending the cyanide into the animal's throat. Goodbye, Mr. Wolf."

Lindsey said that during the last fiscal year 19,220 bobcats, coyotes, wolves and one mountain lion were trapped and killed in Texas. Of that total, 1,960 were killed by use of the coyote getter.

Watch Out for the Bronchial After-Effects of a Cold

Too Important To Neglect

When nothing seems to do that irritating bothersome cough any good just go to any good drug store and get a bottle of good old Bron-chu-line Emulsion.

Take it as directed and notice how easily it takes hold—gives you relief and helps you get a good night's rest.

Often one-half bottle is enough and you re better before you know it. The very first dose takes right hold, loosening phlegm, soothing and quieting irritation. So get a bottle of Bron-chu-line Emulsion today and get relief as quick as you can. Money back if dissatisfied.

Lubbock Student At Texas Given Office

AUSTIN, Dec. 6. (AP)—Eighteen new officers were elected to the students assembly of the University of Texas here yesterday, and four new members were elected to the student court.

Thos elected to the assembly were: Claudia Blucher of Austin, Nancy Johns of Shreveport, La., Enid Robinson of Houston, H. P. Mathis of Eagle Pass, Joan Connolly of Galveston and Fred Lewis of Houston, from the College of Arts and Sciences, Jeanne Ewing of La Porte, college of education; Ann Elkins of Houston and Mary Frances Johnson of Temple, college of fine arts; Elton Solts of Dallas and Joe Malik of Palacedo, graduate school; Don Way of Houston, college of pharmacy.

Millard Hipple of Austin, Peggy Phillips of Dallas and Clinton B. Cooke of Moneta, Cal., were elected from the college of engineering; Charles Hvass, jr., of Lubbock was elected from the law school; Jackie Lissauer of Dallas and Aubrey Wayne Price of Eden were elected from the college of business administration.

New associate justices for the student court are Don W. Morgan of Paris, Jack Ritchie of Dallas, Ruth Rydell of Dallas, and Betty L. Courtney of Austin.

Ralls Man Promoted Aboard USS Sumter

ABOARD THE USS SUMTER (Delayed) — MELVIN LEE BURKS, son of Mr. and Mrs. T. J. Burks of Ralls, was recently promoted to Lieutenant, senior grade, aboard the USS Sumter. Lt. Burkes is eligible for discharge under the Navy point system.

During the 22 months he spent in the Pacific he saw action at the Marshalls Islands, Saipan, Palau, Leyte, Luzon and Okinawa.

Lt. Burks is married to Mrs. Thalia Joiner Burks, formerly of Lubbock.

45th Division To Be Deactivated Today

BROWNWOOD, Dec. 6 (U.P.)—The colorful 45th (Thunderbolt) Infantry division, which suffered 21,899 casualties in 500 days of combat from Salerno to Nuernburg and Munich, will be inactivated at midnight tomorrow.

Most of the men who came mostly from Oklahoma, Colorado, Arizona and New Mexico in 1940, already have been discharged under the point system and the few remaining at Camp Bowie will be absorbed into other units, Brig. Gen. H. J. D. Meyer, division commander, said today.

Soviets Protest Britain's Plan Of Keeping Germans Mobilized

BERLIN, Dec. 6. (AP)—Half a million Germans have been kept mobilized in the British occupation zone of Germany "either for employment on work or essential importance or for eventual transfer to the Russian or French zones," an official British statement said tonight.

The statement was issued after the Russians had charged the British with violating four-power agreements by their use of German military personnel. The charges are being studied by a coordinating committee which will attempt to draft rules to apply in all occupation zones.

German Officers Used

Earlier, Field Marshal Sir Bernard L. Montgomery had said German naval units were being used for minesweeping, and that German officers still wearing uniforms were doing administratice statistical work which the British could not perform because of a personnel shortage.

The Russians complained in a meeting of the Allied control council two weeks ago that the use of German troops in the British zone was a violation of the terms of the German surrender and the Potsdam agreement, which provided that "all German units shall be completely and finally abolished."

The Russians demanded an explanation.

House Puts Nickel Back Into Nickel

WASHINGTON, Dec. 6. (AP) — The House has voted to put the nickel back into the five-cent piece.

Because the metal has been diverted to war purposes, Congress authorized the use of copper and silver in mining the coin. In amending the second warpowers act the bill now goes to the Senate.

Mexico City-St. Louis Service Is Outlined

MEXICO CITY, Dec. 6. (AP)—The Missouri Pacific railroad and the National Railways of Mexico have reached an agreement establishing streamline train service between St. Louis, Mo., and Mexico City.

The agreement on new service was reached in a conference between P. F. Neff, president of the Missouri Pacific and Pablo Hernandez, general manager of the National Railways.

Railroad officials said it probably would be the middle of next year before the new service was put into effect inasmuch as heavier rails will have to be installed on some sections of the road in order to handle the high speed trains.

Jap Says Midway Was War's Turning Point

TOKYO, Dec. 6. (AP)—American pilots who turned back the powerful Japanese fleet in the "David and Goliath" victory at Midway in June, 1942, wrecked Tokyo's plans to win a compromise peace by holding the Pacific in a stranglehold of outlying bases.

That was disclosed today by Capt. Toshikazu Chmae, former chief of the naval operations section of the navy ministry, in revealing details of what Japan considers one of the two decisive naval battles of the war.

Prepayment Plan Is Approved By AMA

CHICAGO, Dec. 6. (AP) — The American Medical association gave the green light today to a program designed to establish a nationwide network of "voluntary" prepayment medical plans to be sponsored by medical societies.

The association, through its house of delegates, took action after branding as "socialized medicine" a proposal by President Truman for a federal system of sickness insurance.

The association's board of trustees and its council on medical service and public relations were instructed "to proceed as promptly as possible with the development of a specific national health program, with emphasis upon the nationwide organization of lacally administered prepayment medical plans sponsored by the medical societies."

The sun loses 4,000,000 tons of mass per second, a speck of dust in relation ot its total mass of two billion billion billion tons.

Relief At Last For Your Cough

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

Plum pudding ice cream . . . tasty surprise for Christmas

English Plum Pudding Remains Favorite Of Holiday Recipes

By GAYNOR MADDOX
NEA Staff Writer

HERE'S an old recipe for English plum pudding brought up to date, plus two recipes for sauces to go with it.

Old English Plum Pudding

One-half pound seeded raisins, ¼ pound dried currants, ¼ pound figs, 2 ounces finely chopped citron, ⅓ cup blanched, sliced almonds, grated rind of 1 orange, orange juice plus water to make 1 cup, ½ cup cider, grape juice or wine, ½ teaspoon grated nutmeg, ¼ teaspoon ground mace, ⅛ teaspoon ground cloves, ¼ teaspoon ground allspice, 1½ teaspoons salt, ¾ cup flour, ½ cup fine bread crumbs, ¼ cup honey or old-fashioned molasses, 4 eggs separated, ½ pound fresh ground beef suet.

Slice raisins, currants and figs rather thin, using a pair of scissors. Add citron, sliced almonds and grated orange rind. Measure orange juice and add water sufficient to make 1 cup; add to fruit. Add cider, grape juice or wine. Set aside while flour, spices and salft are sifted together; add crumbs. Separate eggs; beat yolks until thick and lemon - colored, then gradually add honey. Add ground suet; add prepared fruit. Mix well. Add sifted dry ingredients and mix well. Fold in the egg whites, stiffly beaten. Grease well a 1½ to 2-quart mold (a mixing bowl is very satisfactory). Arrange on bottom a decorative design of almond halves. Then carefully pour in the batter, taking care not to disarrange decoration. over with heavy wrapping paper, well - greased and tightly cover. Steam 3½ hours. Serve hot with hard sauce or crystal sauce.

Sugar-Saving Hard Sauce

Fou rtablespoons butter or fortified margarine, ½ cup confectioners' sugar, ¼ cup tart jelly or 2 tablespoons brandy.

Cream butter or margarine, add sugar gradually, beating well. Add jelly or brandy and beat until fluffy. Chill before serving.

Crystal Lemon Sauce

Two tablespoons cornstarch, ¾ cup boiling water, 1 cup light corn syrup, 2 tablespoons sugar, grated rind and juice of 2 lemons, 2 tablespoons butter.

Mix cornstarch with sugar; stir in boiling water, then add the corn syrup. Stir over low heat until sauce becomes creamy and clear. Add remaining ingredients; heheat. Serve hot.

Combine Pudding And Ice Cream For Treat

Combine tradition with popularity and serve "plum pudding" ice cream as the grand finale to Christmas dinner. Its festive look belies the fact that it's simple to make—use vanilla ice cream from the corner store, slices of fruit cake to give it the "plum pudding" flavor, and top it off with a luscious holiday sauce.

Plum Pudding Ice Cream (Serves 6)

One quart vanilla ice cream (bulk), 6-7 slices dark fruit cake, blanched almonds, citron, 4-5 maraschino cherries, drained and chilled.

Vary Sunday Dinner With Veal Birds

Looking for a main dish for Sunday? Try this one, using either veal or beef.

Two pounds veal steak or beef round steak, ½ cup seedless raisins, 2 cups fine dry bread crumbs 2 tablespoons chopped onion, ⅛ teaspoon sage, 1 cup meat broth or water, 2 tablespoons fat.

Have veal or beef cut about ½ inch thick and then into pieces about 4 inches square. Combine raisins, bread crumbs, onion and sage. Moisten with some of the meat broth or water. Spread a spoonful of dressing on each piece of veal or beef, roll and fasten into shape with toothpicks. Sprinkle with salt and pepper and brown in fat. Add remaining broth or water, cover and cook slowly on top of stove for about 45 minutes.

Keep ice cream frozen firm until last minute (if dry ice is not used, remove ice cream from container and spread in freezing tray of refrigerator; turn control to freezing). Arrange slices of fruit cake in wide circle on large glass serving platter. Decorate each slice with an almond and slices of citron, cut into small wedges. Just before serving, pack a round quart-size bowl with the well-frozen ice cream, and unmold immediately into center of fruit cake ring. (If preferred, ice cream may be spooned directly onto platter, building it up high to imitate a plum pudding shape.) Decorate top of ice cream "pudding" with citron slices and cherries. Serve, slicing wedge - shaped portions with a cake knife.

"Buy A Victory Bond TODAY."

Quick Crunchy Coffee Cake

1-½ cups sifted flour
½ cup sugar
3 teaspoons baking powder
½ teaspoon salt
½ cup butter.
1-3 cup evaporated milk
1-3 cup water
1 egg

Sift dry ingredients together. Cut butter into dry ingredients to make a fine crumbly mixture. Mix milk and water and add with the egg. Beat until well blended. Pour into a well greased square baking ban. Sprinkle with Crumble Topping. Bake in a hot oven (400° F.) for 30 minutes. Yield: 1 8-inch square.

Crumble Topping

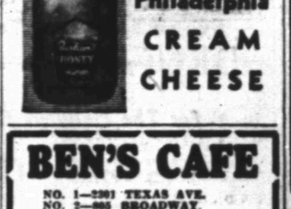

¼ cup flour
1-3 cup sugar
½ teaspoon cinnamon
3 tablespoons butter

Cut butter into dry ingredients to make a fine crumble mixture. Sprinkle on top of coffee cake before baking.

NOTHING BUT THE FINEST—Blended with Skill, Honesty and Experience

THIS BLEND of Coffee Makes Every Meal a Celebration

A RICH ROBUST MAGNIFICENT AROMA

The test of a coffee's freshness can be made in that first whiff of aroma you get on opening the package. If it's room-filling in its fragrance, as it is with every pound of Admiration, it's really fresh. That's why we emphasize aroma in our blend. We put the distinctive aroma into Admiration first through scientific selection of coffees for blending and secondly through special roasting. Once there it's there to stay until released into your cup. Small wonder then that a freshly brewed cup of better-tasting Admiration puts you in a celebrating mood. It's the coffee thrill of thousands.

Churchill Claims Labor Setup Killing Confidence In Britain

LONDON, Dec. 6. (AP)—Winston Churchill charged the Laborite government with "confidence-killing" policies today in debate with Clement R. Attlee, his successor as prime minister, on the Conservative party's move to censure the new regime.

Accusing the Laborites of bungling revival of industry, housing and demobilization with Socialist projects, Churchill declared for the first time that he would have sought to form a new coalition government for postwar unity if he had been re-elected prime minister.

Attlee, confident that his strong labor majority in Commons would smother the Conservative censure motion, denied Churchill's charge that reconversion was proceeding at a sluggish rate.

Churchill's complaint against Socialist policies, Attlee added, sounded as if he meant: "Why, when you were elected to carry out a Socialist program, did you not carry out a Conservative program?"

Charge Demobilization Slow

The Conservative leader charged that the Laborites were keeping thousands in the Army and Navy "doing nothing." Attlee said he was following the demobilization program previously advocated by Churchill.

Opening his attack, Churchill declared he was remaining in politics because "I think it my duty to prevent the great position which we won in the war from being cast away by folly."

"There has never been a government which set out to revive our prosperity on such a confidence - killing, impulse - sapping theory as this," Churchill said.

Ripping into Laborite opponents with his old vigor, the Conservative party leader castigated Attlee's demobilization, housing and export policies. For the first time, Churchill asserted that he would have sought to form another coalition government if he had been re-elected prime minister.

Churchill declared that the government was keeping large numbers of men and women in the armed forces "doing nothing or toiling at artificially - invented work."

VACATIONS ORDERED

MEXICO CITY, Dec. 6. (AP)—Annual vacations for service men were ordered today by President Avila Camacho. Officers get two weeks, others ten days.

Crop pests and plant diseases in the United States cause losses estimated to total more than $3,000,000 a year.

Survivor Of Death March, Escapee Of Corregidor Marry

DALLAS, Dec. 6. (AP) — A survivor of the Death March of Bataan and an Army nurse who escaped on the last submarine to leave Corregidor were honeymooning in Dallas tonight.

When Capt. Danny Jopking of Las Vegas, N. M., and ex-Captain Lucy R. Wilson of the Nurses' corps, exchanged "I do's" at the home of her parents, Mr. and Mrs. A. B. Wilson at Big Sandy, Tex., yesterday, they climaxed a romance that began at Fort Bliss, Tex., and was resumed in the Philippines.

Capt. Jopking of the 200th Coast Artillery and Miss Wilson met while he was a patient at William Beaumont General hospital, El Paso, in 1941. He was ordered to Fort Stotensberg, near Clark Field, Manila, in August of 1941. She arrived at Fort McKinley, near Manila, three months later. They saw each other twice before war broke out.

In May, a few hours before Corregidor fell, Miss Wilson and twelve other nurses were placed abroad a submarine and taken to Australia.

Capt. Jopking weathered the Death March and Japanese confinement and even an American bombing of a Jap prison ship. On that occasion he swam a mile and a half to shore. Last Sept. 7, he was liberated from a prison camp in Korea.

From Manila, Capt. Jopking cabled his fiancee. He was brought to the states by transport —"the slowest ship that ever floated." He was sent to a hospital at Santa Fe, N. M., to recuperate.

The other day he obtained a leave. Se sped to Big Sandy for that long-delayed wedding.

Travis Group Scores State Textbook Case

AUSTIN, Dec. 6 (AP)—A delegation from the Travis County League of Active Democrats, headed by Mody Boatright will appear before the board of education meeting here Monday to contend that L. V. Ulrey of Galveston is not suited to pass on the merit of state textbooks.

Ulrey, secretary and advisor to Maco Stewart of Galveston, member of the board of education, recently indicated to a textbook publisher that a proposed book "Our Good Neighbor in Soviet Russia," would not meet with the board's approval.

The publisher withdrew the book from consideration.

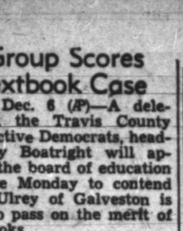

Stewart said he had not read the book himself since he did not have the time, but relied upon Ulrey's judgment.

BLUES WHILE WASHING!

Make washwater sky-blue with Rain Drops and dash of soap... wash white clothes as usual, but do not blue. For Rain Drops blues while washing!... dissolves grease and hidden dirt, softens water, too ...no grey soap curd left to dull and darken snowy sparkle!... Clothes dry whiter, softer!

Plum pudding ice cream . . . tasty surprise for Christmas

English Plum Pudding Remains Favorite Of Holiday Recipes

By GAYNOR MADDOX
NEA Staff Writer

HERE'S an old recipe for English plum pudding brought up to date, plus two recipes for sauces to go with it.

Old English Plum Pudding

One-half pound seeded raisins, ¼ pound dried currants, ¼ pound figs, 2 ounces finely chopped citron, ½ cup blanched, sliced almonds, grated rind of 1 orange, orange juice plus water to make 1 cup, ½ cup cider, grape juice or wine, ½ teaspoon grated nutmeg, ¼ teaspoon ground mace, ¼ teaspoon ground cloves, ¼ teaspoon ground allspice, 1½ teaspoons salt, ¾ cup flour, ½ cup fine bread crumbs, ¼ cup honey or old-fashioned molasses, 4 eggs separated, ½ pound fresh ground beef suet.

Slice raisins, currants and figs rather thin, using a pair of scissors. Add citron, sliced almonds and grated orange rind. Measure orange juice and add water sufficient to make 1 cup; add to fruit. Add cider, grape juice or wine. Set aside while flour, spices and salft are sifted together; add crumbs. Separate eggs; beat yolks until thick and lemon - colored, then gradually add honey. Add ground suet; add prepared fruit. Mix well. Add sifted dry ingredients and mix well. Fold in the egg whites, stiffly beaten. Grease well a 1½ to 2-quart mold (a mixing bowl is very satisfactory). Arrange on bottom a decorative design of almond halves. Then carefully pour in the batter, taking care not to disarrange decoration. over with heavy wrapping paper, well - greased and tightly cover. Steam 3½ hours. Serve hot with hard sauce or crystal sauce.

Sugar-Saving Hard Sauce

Fou rtablespoons butter or fortified margarine, ½ cup confectioners' sugar, ¼ cup tart jelly or 2 tablespoons brandy.

Cream butter or margarine, add sugar gradually, beating well. Add jelly or brandy and beat until fluffy. Chill before serving.

Crystal Lemon Sauce

Two tablespoons cornstarch, ¾ cup boiling water, 1 cup light corn syrup, 2 tablespoons sugar, grated rind and juice of 2 lemons, 2 tablespoons butter.

Mix cornstarch with sugar; stir in boiling water, then add the corn syrup. Stir over low heat until sauce becomes creamy and clear. Add remaining ingredients; heheat. Serve hot.

Combine Pudding And Ice Cream For Treat

Combine tradition with popularity and serve "plum pudding" ice cream as the grand finale to Christmas dinner. Its festive look belies the fact that it's simple to make—use vanilla ice cream from the corner store, slices of fruit cake to give it the "plum pudding" flavor, and top it off with a luscious holiday sauce.

Plum Pudding Ice Cream
(Serves 6)

One quart vanilla ice cream (bulk), 6-7 slices dark fruit cake, blanched almonds, citron, 4-5 maraschino cherries, drained and chilled.

Keep ice cream frozen firm until last minute (if dry ice is not used, remove ice cream from container and spread in freezing tray of refrigerator; turn control to freezing). Arrange slices of fruit cake in wide circle on large glass serving platter. Decorate each slice with an almond and slices of citron, cut into small wedges. Just before serving, pack a round quart-size bowl with the well-frozen ice cream, and unmold immediately into center of fruit cake ring. (If preferred, ice cream may be spooned directly onto platter, building it up high to imitate a plum pudding shape.) Decorate top of ice cream "pudding" with citron slices and cherries. Serve, slicing wedge - shaped portions with a cake knife.

"Buy A Victory Bond TODAY."

Vary Sunday Dinner With Veal Birds

Looking for a main dish for Sunday? Try this one, using either yeal or beef.

Two pounds veal steak or beef round steak, ½ cup seedless raisins, 2 cups fine dry bread crumbs 2 tablespoons chopped onion, ¼ teaspoon sage, 1 cup meat broth or water, 2 tablespoons fat.

Have veal or beef cut about ½ inch thick and then into pieces about 4 inches square. Combine raisins, bread crumbs, onion and sage. Moisten with some of the meat broth or water. Spread a spoonful of dressing on each piece of veal or beef, roll and fasten into shape with toothpicks. Sprinkle with salt and pepper and brown in fat. Add remaining broth or water, cover and cook slowly on top of stove for about 45 minutes.

Quick Crunchy Coffee Cake

1-½ cups sifted flour
½ cup sugar
3 teaspoons baking powder
½ teaspoon salt
½ cup butter
1-3 cup evaporated milk
1-3 cup water
1 egg

Sift dry ingredients together. Cut butter into dry ingredients to make a fine crumbly mixture. Mix milk and water and add with the egg. Beat until well blended. Pour into a well greased square baking ban. Sprinkle with Crumble Topping. Bake in a hot oven (400° F.) for 30 minutes. Yield: 1 8-inch square.

Crumble Topping

¼ cup flour
1-3 cup sugar
½ teaspoon cinnamon
3 tablespoons butter

Cut butter into dry ingredients to make a fine crumble mixture. Sprinkle on top of coffee cake before baking.

THIS BLEND of Coffee Makes Every Meal a Celebration

A RICH ROBUST MAGNIFICENT AROMA

The test of a coffee's freshness can be made in that first whiff of aroma you get on opening the package. If it's room-filling in its fragrance, as it is with every pound of Admiration, it's really fresh. That's why we emphasize aroma in our blend. We put the distinctive aroma into Admiration first through scientific selection of coffees for blending and secondly through special roasting. Once there it's there to stay until released into your cup. Small wonder then that a freshly brewed cup of better-tasting Admiration puts you in a celebrating mood. It's the coffee thrill of thousands.

Future Of Germany's Industry Poses Big Problem For Allies

By LOUIS F. KEEMLE
United Press Staff Writer

Germany remains, even in defeat, a keystone in the problem of reconstructing Europe.

That is why the big three — Britain, the United States and Russia—have been in such a row with France over permitting the Germans to resume some kind of central government of their own. The dispute now seems to be in the process of being laid aside by compromise.

Face Bitter Winter

Europe, including Germany, has entered into a winter which promises starvation and untold hardship. The social consequences may set back political and economic recovery on the continent by years if production is not resumed in Germany and neighboring states. Allied economists have recognized that it must be resumed in Germany, since the leading industrial state cannot be removed from the heart of the continent without disastrous consequences, both immediate and long-range.

The French have been accused by official Allied sources, notably American, of blocking progress by their stubborn refusal to consent to a centralized German government without what amounts to dismemberment of western Germany.

Industrial Areas Hit

The French, however, have stood by what is to them an unanswerable argument against creating a new German government which will again control the great industrial areas on either side of the Rhine, with their warmaking potentialities.

The regions concerned are the Ruhr, the Rhineland and the Saar. The French have maintained, and still maintain in the face of strong pressure from the Big Three, that these areas should be divorced permanently from the Reich and placed under international control.

French Fear Germans

Otherwise, in the French view, Germany could again become the strongest industrial nation in Europe within a few decades, and could once more attack France under a war-minded government.

The French people cannot forget the three German invasions of their soil by Germany within 70 years, and they are not likely to let any French government forget it, whether headed by President Charles de Gaulle or someone less nationalistically-minded.

An authoritative French spokesman, unnamed but presumably representing the official viewpoint, was quoted in a United Press dispatch from Paris yesterday as saying:

Matter Of Life And Death

"This is a matter of life and death to us. We cannot afford to risk another German invasion. It is something on which we cannot and dare not compromise."

Nevertheless, the latest word from Paris is that the French are willing to "compromise" on agreeing to a central German government, provided that the Rhineland regions shall not be under its jurisdiction.

If such an understanding is reached, the French will have won out in a test case of the unanimity rule under which the four occupying powers operate in any major decision affecting Germany. They will have exercised the power of veto.

The result may be important in future discussion of the unanimity rule as it applies to the Security council of the United Nations organization. The rule obviously can be a two-edged sword—it can safeguard what one nation considers its unalterable rights, or it can permit one nation to override what the majority considers best for the common interest.

Wife Owes Much To This Officer For Finding Her Hubby

BY HAL BOYLE
Associated Press Staff Writer

SHANGHAI, Dec. 6. — Somewhere in America there is a wife who never will know how much she owes to her husband's commanding officer.

This is a true story, so for anonymity let us say that her husband was a sergeant — which he was not.

The story goes back almost to the beginning of the late war. He had been married only a short time, and was a sad and sorry guy when his ship steamed out of the Golden Gate more than three years ago.

There followed three years of change and chance.

Showed No Jubilation

At last the sergeant was elgible for discharge on points, but he showed no jubilation.

"I guess I've got putty in my head instead of brains," he told a tent-mate, "but I don't know where I want to go."

The friend pointed to the picture of a beautiful dark-haired girl on a packing case beside the sergeant's cot and replied, "you must have putty in your head if you don't want to go home to a wife like that."

"That's the trouble," said the sergeant. "She's not my wife."

Met In Australia

He explained:

"I met her in Australia. It didn't happen all at once. She introduced me to her parents. I was pretty lonesome, and I guess they were too, for they had a boy in the Middle East. They took me into the family, and before I knew it, the girl and I were liking each other better than we had a right to do.

"I don't know just how it happened. I used to tell them all about my wife in the States and I never thought anybody could take her place, but I guess I was in Australia too long.

"Now I'm in a fix. I never wrote my wife about the other girl. So I can't tell her now, and I don't know whether to go home or go to Australia and try to arrange a divorce from there. It's running me nuts."

Somehow the word of his predicament got around, and one day the sergeant was called before his commanding officer.

"Sergeant," he said, without preliminaries of any sort, "I have a little job for you. We have some classified material we are sending back to the States. I want you to take it back. It will be your last Army assignment. The plane leaves tomorrow and you will be discharged soon after you arrive."

The sergeant looked bewildered, but managed to reply, "yes, sir."

At the tent flap he paused, turned slowly and added, "Thank you, sir."

When the sergeant caught the plane for home next day, there was a happy grin on his face.

On the packing crate beside his empty cot his friends found the picture of the beautiful Australian.

OFF TO ISLAND—Jap women march to ship that will take them and their menfolks to an island, 30 miles from Singapore, to live in isolation from one to two years.

Old Age Assistance Rolls Show Boost

AUSTIN, Dec. 6. (AP)—The State department of public welfare reported today a net increase of 1,008 on the old age assistance rolls for November, bringing the total to 174,449 persons receiving $61,852 in an average grant of $24.24.

The aid to dependent children rolls showed a decerase of 490 families, with a net decrease in money of $5,451 for an average grant of $21.27. There were 10,587 families in November receiving aid to dependent children.

The aid to blind rolls increased 222 cases, with a monetary increase of $8,357 and an average grant of $25.14.

Men Missing On Navy Plane Are Identified

WASHINGTON, Dec. 6 (AP)—The Navy today identified six officers and 19 enlisted men reported missing on the flight of a PB4Y-2 (Privateer) from Kodiak, Alaska, to Seattle Nov. 30.

The plane, a part of patrol bomber squadron, was last reported over Sitka, Alaska. Next of kin have been notified.

On the list of passengers was Lt. William Faubel Harper, 25, son of Lida Ruth Harper, 322 Huntington, Arcadia, Calif., wife, Mrs. Daisy Ruth Harper, 502 Atlantic, Corpus Christi, Texas.

WHITHARRAL PLAY TONIGHT

WHITHARRAL, Dec. 6. (Special) — The Junior class of Whitharral High school will present "The Red-headed Stepchild," a three-act comedy by Charles George, Friday night at 7:30 o'clock in the high school auditorium.

A large crowd is expected for the production.

Shooting Explanation Said Too Realistic

SAN ANTONIO, Dec. 6 (AP)—Night Watchman Stephen Kee's explanation of a flesh wound in his right arm probably was a bit more realistic than Policemen Guy J. Legon and A. Bookout care for.

Demonstrating how his automatic pistol was discharged as he swung it from his right to left shoulder, it went off again and the bullet clipped the heels of Bookout's boots.

The lens of the eye of a fish is round like a marble, and not flexible, as in human eyes. The fish's eye focusses by movement of the lens forward and backward.

Lubbock County's Labor-Saving Devices Bring Many Inquiries

Recognition that was on a state and national scale has become international for the labor-saving device show held in Lubbock last March by the Farm Labor committee of the county.

Gulam Husseim M. Bhin — whose address reads Imalakaseko, Nguru; Station Igalulu; Tanganyika, B. E. Africa—has requested drawings, pictures or descriptions of an egg candler and a homemade incubator for infants exhibited at that show.

The request was received by Jason O. Gordon, Lubbock county agent, and will be answered immediately. Gordon said the Extensioner, magazine of the extension service, had a world-wide circulation and carried complete coverage of the show at the time it was held. He credited the magazine as the probable source of Bhin's request.

Was Shown In City

The incubator was exhibited here and was credited with saving the lives of two babies born near Lubbock. It was constructed by A. C. Jungman of Pep after premature birth of a four-pound baby to his son. The baby was placed in the incubator for about six weeks and survived.

A second baby born some months later in the same community and weighing but three and a half pounds was placed in the home-made incubator and after two months was taken out, weighing seven pounds.

Construction was from an apple box, the bottom and top removed and a pane of glass, a cord and light socket and a brooder thermometer added. An opening eight and one half inches wide and four and one half inches deep was cut in one end and the socket attached to the other. As the temperature rose or fell the size of the light bulbs in the socket were changed to regulate the heat.

Gordon said several letters had been received from all sections of the country requesting information about many of the 92 articles which were exhibited at the March show. A tractor posthole digger, developed by Jack Woodson, foreman of the Circle Bar ranch of Lubbock county, was one of the most popular machines displayed.

The show was the first of its kind ever held here, Gordon said and the crowds attending were large. Four shows of this type are being planned for the county in 1946 by the farm committee. Community shows will be held and then a county show, according to plans now being formulated.

The committee, composed of two persons from each of the commissioner precincts in the county, is headed by W. O. Reiger, chairman. Other members are Mrs. Leo Davis, Cacy Day, Mrs. O. R. Patterson, F. H. Cannon, Mrs. E. W. Smith, E. R. Evans and Mrs. W. C. Baughn.

Mrs. Patterson was chairman of this year's show assisted by Reiger, E. K. Hufstedler, jr., Walter Switzer, Gordon and Dean Emeritus A. H. Leidigh of Texas Tech. The exhibits committee was headed by G. O. Taylor who was assisted by other persons representing various farm groups of all types.

Machine To Help In Fight On Diseases

BERKELEY, Calif., Dec. 6. (AP)—One of the nation's great scientific machines, the University of California cyclotron, will be diverted from helping develop America's military might to a peacetime war against cancer and other malignant diseases.

Prof. Ernest O. Lawrence famous nuclear scientist, yesterday announced a new program of research centered around the recently-rebuilt and more powerful atom smasher, which produced the first plutonium for atomic bomb development.

"We are about to point the way toward the cure of certain kinds of cancer. That does not mean we will be able to cure all kinds of malignancy, but we hope that in a few years we can show significant percentages of success in the treatment of some varieties," Lawrence revealed to newsmen viewing the cyclotron for the first time since 1941.

New Parity Formula For Farmers Asked

WASHINGTON, Dec. 6. (AP)—Secretary of Agriculture Anderson called tonight for an "up-to-date" government parity formula for determining fairness of prices farmers receive.

He said the present formula, which is based upon farm legislation enacted in the early days of the Roosevelt administration, provides too high a price yardstick for some commodities and too low for others.

As a consequence, he said, it stands in the way of sound agricultural-planning.

Anderson's plea for new farm price legislation was made in a speech prepared for a dinner attended by state and national agricultural officials meeting here on 1946 farm production plans.

The secretary also asked for a "national program to stabilize the consumption of farm products" at a high level. He did not give details.

ACUTE GAS PAINS ? STOMACH DISTRESS ?

Try Hot Water To Which A Little Neutracid Has Been Added

At the first sign of distress smart men and women now know just what to do. They put a teaspoonful of Neutracid in half a glass of real hot water and drink it after meals, that's all. Neutracid is new — it's made especially for the symptomatic relief of gastric hyperacidity. Nothing quite like Neutracid to bring fast, quick relief to the sufferer of stomach distress, acid indigestion, gas pains, heartburn, burning sensation, and other conditions when caused by excessive stomach acidity.

Ask for Neutracid at Mark Haisey Drug Co.; O'Donnell Acts.; Corner Drug Store. And all Druggists. Adv.

Attlee In New Plea For World Friendship

LONDON, Dec. 6. (AP) — Prime Minister Attlee expressed hope tonight that the "blackout curtains" of prejudice and suspicion between nations would be lifted soon.

He called for friendship — but no "executive friendship"— between the United States and Britain at a dinner of the Pilgrims, an Anglo-American friendship society composed of English and Americans here.

Wells Sketches AAA Background Emphasizes Saturday's Election

Walter Y. Wells, administrative officer of the Agriculture Adjustment agency in Lubbock county, sketched the background of evolution of his agency at Thursday's luncheon of the Kiwanis club in the Lubbock hotel, emphasizing importance of Saturday's county-wide election of community committeemen for the local program's 12 physical divisions.

Wells said the 1946 program, like those of war years, had departed from the "plow-under" aims; rather, that it would impose no acreage allotments or marketing quotas. He said the government, through the Triple A, would guarantee 90 per cent of parity, 92½ per cent for cotton—which means that "price of products will be supported at least two years more."

The AAA program will underwrite soil conservation practices by offering $214,120 to Lubbock farmers in 1946 to reward compliance with suggestions for terracing, contouring, improvement of irrigation projects and raising of legumes or "cover" crops "to keep our soil young and fertile," he said. Each farmer who hopes to qualify for such subsidy must obtain approval first, from the community committeemen he will name at Saturday's election. First come will be first served in the benefits, in substance.

Chas. Whitacre reminded the club that Lubbock county stands far down, 176 among Texas' 251 counties, in subscription of E bonds in the Victory Bond drive—having pledged only 29 per cent of its quota. He asked that "something be done at once."

Appeals For Gifts

Parker F. Pronty appealed for heavy contributions of toys and other gifts from Kiwanians, who were asked to bring offerings to next week's luncheon, for the Goodfellows' stockpile of Yuletide cheer for those who otherwise will be deprived. It was announced that an annual Fathers and Daughters program would be given next Thursday by the club. One hundred 12 extra guests will attend, it was indicated.

Rev. Alsie H. Carleton, pastor of St. John's Methodist church, offered an invocation. George Wilson was introduced as a new member. Guests included Garnett O Reeves and B. M. Howard, both of Amarillo; Henry C. Elder of Corsicana and formerly of Lubbock, and Gordon Parkhill, Lubbock engineer recently retired from service in the U. S. Army.

Gen. Stevens Given Medal For Services

SAN ANTONIO, Dec. 6. (AP)—Brig. Gen. Luther R. Stevens, commander of the 91st Division of the Philippine army on Bataan, who has been a patient at Brooke General hospital since his return to America, has been awarded the Distinguished Service Medal.

The presentation was made by Brig. Gen. George C. Beach, commanding general of Brooke Hospital center, Fort Sam Houston, yesterday.

Gen. Stevens, a native of Wesson, Miss., received the medal in recognition of "exceptionally meritorious service in a position of great responsibility from November, 1941, to August, 1945."

STATE HAS $70,922,446

AUSTIN, Dec. 6. (AP)—The state treasurer reported today a total net balance in 117 state funds of $70,922,446, including $13,382,129 in the general revenue fund.

Auto Deaths Jump For New Mexico In '45

SANTA FE, N. M. Dec. 6. (U.P.)—New Mexico auto fatalities showed a 30 per cent increase during the first eight months of 1945 as compared with the same period last year, according to a report by the drivers' licence division of the state revenue bureau.

Director J. B. Mitchell announced that 107 persons died and 520 were injured in 1,080 accidents through August, 1945, as compared with 82 dead and 494 injured in 1,120 accidents during 1944.

First A-Bomb Used Very Little Uranium

LOS ANGELES, Dec. 6. (AP)—Only one-tenth ounce of uranium was employed to generate the first explosion of the atomic bomb, a California Institute of Technology physicist said today.

Conway W. Snyder, who worked nine months at the Los Alamos, N. M., laboratory, told a group of lawyers that while the initial bombs carried between six and seven pounds of uranium, only a tenth of an ounce was detonated.

Brooks Field To Get Units Of 19th TAC

SAN ANTONIO, Dec. 6. (AP)—The 19th Tactical Air Command public relations office announced today three units of the command will be transferred to Brooks field here within the next few weeks.

The units are the 69th Reconnaissance group and 933rd Signal battalion, now stationed at Stuttgart, Ark., and the 162nd Liaison squadron, now at Alexandria, La.

The 19th TAC headquarters and remaining subordinate units consisting at present of 656 officers and 2,407 enlisted men will be transferred to Biggs field, El Paso. This group includes Headquarters and Headquarters squadron, the 434th Signal battalion and the 3rd Tactical control group now stationed at Barksdale field, La.; the 362nd Fighter group and the 471st Air Service group from Goldsboro, N. C.; the 47th Medium bombardment group and the 544th Service group from Lake Charles Army Air field, La.; the 161st Liaison squadron from Alexandria Army Air field; and the First Tactical Air Division headquarters and the Second Tactical Air Division headquarters from Stuttgart Army Air field.

Brig. Gen. James McCauley heads the 19th TAC.

PIMPLES Disappeared Overnight

Blackheads, Too, Went Fast

"Yes, it is true,—there is a safe, harmless, medicated liquid called KLEENEX that dries up pimples overnight as it acts to loosen and remove ugly blackheads. Those who followed simple directions and applied Kleenex upon retiring were amazingly surprised when they found their pimples and blackheads had disappeared. Those users enthusiastically praise Kleenex and claim they are no longer embarrassed and are now happy with their clear complexions. Use Kleenex. If one application does not satisfy, you get double your money back. Ask for Kleenex today, sure

Britain Passing Through Major Economic And Social Changes

By DEWITT MACKENZIE
Associated Press World Traveler

LONDON, Dec. 6.—The great political, social economic changes through which this heart of the British empire is passing are a source of constant wonder to the visitor who is returning after a considerable absence.

Indeed, the average Englishman himself has small realization of the real significance of this metamorphosis. He is too close to it.

Old Traditions Blasted

Old traditions are being shattered like glass balls in a shooting gallery. Class distinctions are drawing closer together, and the old school tie has lost much of its magic. The landed gentry is fast disappearing, and there has been such a leveling off of incomes that the time is past when great fortunes can be accumulated.

We got a vivid flash of all this in the fierce clash at arms which began yesterday in the House of Commons and is continuing today—a battle royal between the new Labor government and its Conservative opponents led by Churchill, son of a long line of nobility representing the bluest blood in England.

Attack Opens Quietly

Yesterday's debate began quietly enough as Oliver Lyttelton, minister of production in the late Conservative cabinet, made a motion of censure against the government.

Lyttelton attacked vigorously. He charged that the government's program meant regimentation of the individual if the Socialist schemes were to succeed. He accused the party in power of creating inflation.

The laborites met this first attack with easy self-assurance in their big majority of about 200 Lyttleton's bitterest shots were met with deep belly laughs as the members leaned back against the red morocco benches.

Lack Of Fight On Crop Pests Scored

DALLAS, Dec. 6. (AP) — Crop losses due to insects are "many times our annual fire losses," but no fighting force comparable to our fire departments is maintained to fight them, Alston Clapp of Houston said today.

Clapp, connected with a large Houston cotton firm, addressed the American Association of Economic Entomologists in session here.

Congress appropriated $2,000,000 to stamp out the grasshopper menace in the cotton belt, Clapp said, but the amounts to control other pests such as the boll weavil, common bollworm, leafworm and fleahopper is much smaller.

This morning the cotton states branch of the society elected R. C. Gaines of Tolulu, Ala., chairman; J. A. Berly of Clemson college, Clemson, S. C., vice chairman, and J. T. Creighton of Florida, secretary-treasurer.

Alfonso Delago De Garay, member of the Mexican department of agriculture, reviewed a cooperative program between his country and the United States in controlling spread of bollworm.

Army Increases Space For Returning Troops

SAN FRANCISCO, Dec. 6. (AP) — The Army today announced plans to add 83,000 spaces in ships returning service men from the Pacific in January.

Meanwhile Army and Navy officials continued to worry about getting the men out of west coast ports once they get them in.

San Francisco port of embarkation officials said the transfer of 32 troop transports from the Atlantic to the Pacific this month would furnish the additional spaces for returning Pacific veterans. The transports include the West Point, formerly the America, largest U. S.-built passenger liner.

8,500 Surplus Jeeps Available To Vets

WASHINGTON, Dec. 6. (AP) — Veterans will be able to buy 8,500 surplus jeeps, Rep. Case (R-SD) said today.

Case said he was told by the Reconstruction Finance corporation that the jeeps would be allocated to the regional RFC offices in the various states on the basis of population and need.

UNUSUAL GREETING—Phyllis Creore, actress from Rochester, N. Y., displays her unique holiday greetings painted on tile which can be used as a coaster.

Decrease Planned In Farm Support Price

WASHINGTON, Dec. 6. (AP) — The government in 1946 will reduce virtually all farm price guarantees to the lowest level allowed by law, it was disclosed today.

This policy of lowered farm support prices in the first postwar farming year was stated by H. B. Boyd, the Agriculture department's director of prices, at a 1946 farm outlook conference.

The government underwrote prices of more than two-third of all farm products at 90 per cent of parity as a wartime measure to encourage high production. The promise holds good for two years after the end of the war.

However, on commodities most needed in the war effort, support levels were pegged somewhat higher than at minimum levels. This was true of the oil crops, potatoes, milk, sugar, hogs, and others.

"In 1946," Boyd said, "we anticipate there will be few cases where it will be necessary to keep these supports above the minimums." As exceptions, he named sugar beets, sugar cane and flaxseed.

Man Hurt When Buck Deer Invades Corral

GUNNISON, Colo., Dec. 6. (AP)—Carl Asper of Gold Basin Gulch came to town today to have his wounds dressed after a struggle with a 200-pound buck deer.

The buck wandered inside his corral, Asper said, and cut himself badly lunged against the barbed wire fence. Maddened by pain, the buck attacked when Asper entered the enclosure.

Asper said he grabbed the buck by an antler and one leg and threw him, then escaped over the fence, but not before the deer had gashed his left leg.

Remove Stains, Add New Sparkle to DENTAL PLATES
NO BRUSHING
Kleenite ends messy, harmful brushing. Just put your plate or bridge in a glass of water, add a little Kleenite. Presto! Stains, discolorations and denture odors disappear. Your teeth sparkle like new. Ask your druggist today for Kleenite.

MANY NEVER SUSPECT CAUSE OF BACKACHES
This Old Treatment Often Brings Happy Relief
Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.
The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.
When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.
Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills. adv
