County Gins 12,916 Bales With Gathering Well Advanced in Area

Collingsworth County has ginned 12,916 bales of cotton so far this season, and present indications are that the 15,000 bale mark predicted early in the season will be reached.

While the grade and staple of the cotton is lowered somewhat since the first freeze, many of the gin managers report they have never seen the last part of a crop harvested with such good grade

and staple as this year.

Much of the cotton is still strict middling light spot seven-eighths or middling light spot. Some tinged cotton is coming in, however, caused by immature bolls opened by the freeze.

Cotton in Collingsworth County Tuesday was bringing from 40 to 42 cents, depending on the staple and grade, and cottonseed was selling for \$110 a ton.

The crop in the Dodgeon area was estimated variously by ginners and growers as from 70 per cent out to "about all gone." Fred Boyd of the Davis Gin and Ed Crowder, manager of the Farmers Co-op, reported a surplus of pullers in that area.

Around Fresno, Durant McInnis estimated the crop was about 90 per cent out, and that if weather continued good, it might all be in

by Christmas.

At Rolla, the cotton is estimated at about 95 per cent out, and here too, the fields will be cleaned by Christmas.

Approximately three-fourths of the crop is harvested around Quail, the gin there reported.

Cotton around Dozier is estimated from three-fourths to two-thirds out. W. E. Marchant, manager of the planters gin, said that ginning was slow this week, but the cotton was beginning to open fast, and it looks as if next week will be a big week for the two gins there. He said most of the cotton is grading strict middling light spot and strict low middling with seven-eighths inch staple.

The crop is nearly all gathered in the Lutie area, Pete Melton reports. However, there are a few scattered fields of late cotton that haven't had a sack in them yet, he added. Mr. Melton said the Lutie gin will still be running after Christmas, although it is expected that during December, the cotton will just dribble in.

Wellington ginners on the whole reported shorter staple cotton, and estimates as to what part of the crop is out varied from three-fourths up to 90 per cent.

Nearly all the cotton that is going to open at all is cracking now, Curtis Savage of the Farmers Co-op Gin reported. Some of the growers with late cotton are disappointed to find that some of these bolls don't have anything in them.

Ten Skyrockets Play Final Game Friday

Ten Rockets took off their football uniforms for the last time Friday night, November 17, after their 26 to 7 win over the Hollis Tigers.

Coach Maxey McKnight, as a final salute to these seniors, sent all ten into the starting lineup. Eleventh man was junior Tommy Wood.

Six of the ten have started in most of the games this year. The others have seen considerable playing. Starters who graduate this year are Jimmie Brock and Beryl Cooper, guards; Lonnie Fuson, end; Jimmie Graves, tackle; and backfields Orville Copeand

and Doyle Ingram. Reserves are Billy Lacy and Joe Raburn, guards; Jimmie Agee, end; and Fred Saied, back.

With the closing of the season, Coach Maxey McKnight repeated the idea on which he and his assistant, Bobby Williams, have worked all year:

"We haven't been interested in pushing any one man, or just two or three stars. We are interested in pushing the boys as a team."

"We believe we are the most improved team in the conference, and we also believe that at the end of the season, we're the best team in the conference!"

Firemen Will Help You Burn Your Lawn

Grass Fires Menace Pastures and Houses

Wellington firemen are being called on to answer more grass fire alarms than at any time in recent years, with some of the calls coming two and three at a time, City Manager Bura Handley reported.

Mr. Handley said that any person wishing to burn off his yard or vacant lot, and who feels that the fire might get out of hand, can call the City Hall, Phone No. 145, and the fire department will send out a piece of equipment and firemen to watch the fire.

The city also is having the fire department burn off the grass on all vacant lots in an effort to

keep down a fire that may be disastrous.

Grass fires during recent days have been in most instances kept away from buildings and fences.

In addition to town calls, the department was called to Dodson Sunday night to help fight a fire that got out of hand in the bur pile at the Farmers Co-op Gin. Other calls included one to put out seven fires started in the grass at the side of the pavement between Wellington and Quail; and a call Sunday afternoon to put out several fires which had been started in the grass on highway 52 east of Wellington.

First Game at Samnorwood

Rockets Open Basket Ball Training Monday

Wellington athletes turned their attention from footballs and gridirons to basketballs and courts this week, as the Skyrockets had their first basketball workout Monday, November 20, under the direction of Coach Maxey McKnight.

The first game is due to be played Tuesday night, November 28, against the Samnorwood Eagles at Samnorwood.

Four lettermen are back on the 1951 Rocket roster: Tommy Wood, Seldon Wood, Irby Stout and Joe McCutchen, McKnight said.

Altogether, there will be some 18 or 20 boys out for basketball this year, but Coach McKnight said he doesn't expect to know the number nor who the boys will be until the early part of next week.

"We're going to push basketball more than we have in the past," the coach declared. "We'll try to have a better team, and we think that will get more people out to watch the games."

All schools in district 3-A have signed up for interscholastic league basketball this year, and will have both boys and girls teams. The Wellington Rockettes have been working out for several weeks under the direction of Miss Norma Aiken, having worked basketball in a physical education class. Schools taking part will be the same as for football: Wellington, Shamrock, Memphis, Clarendon and Lefors.

The local teams have already entered three tournaments. Both boys and girls will play in the McLean and Memphis tournaments, the boys will enter the Childress basketball tournament and the girls will go to the Hedley tournament, Coach McKnight said.

Clark Chevrolet Burglarized Friday

Burglars entered the Clark Chevrolet Friday night, November 17, tore the drawer out of the cash drawer, and took between \$15 and \$25, Sheriff Claude McKinney reported.

So far as could be determined, nothing else was taken from the motor company building, the sheriff said. No arrests have been made in connection with the burglary.

Entry was gained by knocking the hasp off the east door of the building.

For Power with Economy...it's High Compression!

FOR HIGH COMPRESSION... IT'S THE "ROCKET"!

Ever since Oldsmobile introduced the "Rocket" Engine two years ago, seems like everybody claims "high-compression"—but nobody explains it. The phrase simply means squeezing the gasoline into a smaller space before exploding it. This gets more power out of the same amount of fuel. But the engine must be designed for high-compression all the way through to assure smooth, quiet, gas-saving performance. The "Rocket" is 100% high-compression—from the crankshaft out. And the lowest-priced "Rocket" Engine car is Oldsmobile's "88." Makes good sense to try it soon—doesn't it?

Ford passenger cars for 1951 offer refinements in appearance as well as in mechanical operation, featured by Fordomatic Drive automatic transmission. Above is pictured the 1951 Ford Custom Tudor Sedan.

New Features Introduced

FORDS FOR 1951 GO ON DISPLAY IN DEALERS SHOW ROOMS FRI.

The 1951 Fords, featuring Fordomatic Drive, the new automatic transmission, will be introduced in Ford dealerships throughout the nation Friday, November 24.

"Ford cars for 1951 accomplish notable refinements in styling, beauty, engineering, riding qualities, economy, safety and ease of handling," L. D. Cruse, vice-president and general manager of Ford Division, announced.

Addition of the new automatic device will make available to Ford buyers a choice of three transmissions and two engines — six different power combinations in all.

Both the conventional three-speed transmission and the Ford overdrive will continue to be available. These, with the new Fordomatic Drive, will be offered with either the 100-horsepower V8 or the improved 95-horsepower six engines.

Introduction of Fordomatic climaxes several years of intensive

engineering research by the company to develop a fully automatic transmission that is simple to operate, economical, long wearing and easy to service. The device, which will be optional at extra cost, combines the advantages of a hydraulic torque converter and a planetary gear train to provide maximum performance and a smooth and economical flow of power.

The distinctive styling of the 1949 and 1950 models has been retained, but with refinements and improvements both in interiors and exteriors.

A lowered hood, a new dual-spinner grille and a wider, longer wrap-around bumper give a more massive appearance to the front end. Parking lights are restyled and larger chrome headlamp rims extend beyond the lenses. Added chrome and new, larger tail lamps add to the appearance of the rear end.

Rear deck lids on the new Fords

have been counter-balanced and are opened by a new key release lock. Springs then assist in raising the lid and hold it in the open position.

The new models have a wide range of color combinations, and a choice of upholstery, headlinings and other interior trim to harmonize with body colors. This wide choice is a Ford exclusive in the low-price field.

The '51 "Safety Glow" instrument panel is completely new. A "Chanalited" instrument cluster adds safety and convenience, and the speedometer pointer has a glowing ring which encircles and illuminates the figure showing the speed. The instrument control knobs are mounted in depressed cups, each individually lighted.

Key starting is provided by the new ignition switch which incorporates the starter control. The steering wheel also is re-designed, with a full-circle horn ring on custom models. A posture control front seat is mounted on curved tracks, and when it is moved forward or backward, the entire seat assembly tips to the correct position for tall or short drivers. An assist spring moves the seat forward automatically.

An outstanding feature of the new cars is a new "softer" ride which is made possible by suspension improvements and automatic ride controls. A new control valve was developed in the hydraulic shock absorbers, which adjusts the cushioning effect. The combination of new tension-type rear spring suspension and softer front spring rate maintains a proper balance between the front and rear for a level ride on all roads. Rubber engine mounts also have been redesigned.

The Ford deluxe line includes the business coupe, tudor and fordor models. In the custom line are the club coupe, tudor, fordor and convertible. The Country Squire station wagon and the Crestliner complete the passenger car line. The V8 engine or the Six are optional on all models except the convertible and the Crestliner.

There will be a choice of 10 basic colors in all models except the convertible which will have 12 and the Crestliner which will have four two-tone color combinations.

New colors are Coral Flame red, Alpine blue, Culver blue, Sea Island green, Greenbrier metallic and Mexacalli maroon. Other colors are Sheridan blue, Silvertone gray, Hawaiian bronze, Hawthorne green and Raven black.

Sportsman's green is reserved for the convertible and Crestliner. Coral Flame red is reserved for the convertible.

The '51 models have a winged hood ornament, and "Deluxe" and "Custom" nameplates are on the sides of front fenders. Chromed V8 insignia on the fender identify eight-cylinder models.

The chassis frame has been strengthened by extending heavy box section side rails almost to the rear end. Brake drums and backing plates also were redesigned.

Several important engine changes have been made. Valve rotators have been incorporated and the top compression ring on each piston in V8 and Six engines now is chrome flashed. A weather-proof ignition system also is a feature.

The new fuel pump is designed to assure reliability under all kinds of operating conditions. A larger windshield wiper motor improves wiper operation.

FORD for '51

Distinctive new styling of both front and rear of the new 1951 Fords is shown in this photo of the Convertible and the Custom Club Coupe. The dual-spinner grill and longer, wrap-around bumpers give the front end a wider, more massive appearance and additional chrome and wider tail lights add to the real end appearance. The 1951 models feature Fordomatic Drive, the new automatic transmission, as optional equipment.

On Display In Our Showroom Friday Nov. 24

We Invite You To Come To See Us

The Fords for 1951 Feature:

Other New Features:

An outstanding feature of the new cars is a new "softer" ride made possible by suspension improvements and automatic ride controls. A new control valve was developed in the hydraulic shock absorbers. Deck's DIDACTICS

—By Daskins Wells

My son Henry thinks that Tom Kane is the finest man in the town. He is the only man that Henry refers to as Mister. It seems that old Tom took Henry for his first airplane ride. Well, his admiration does not exceed my own; but mine has to do with the great service that Tom Kane rendered the people of this community last summer. Every effort should be made to keep him here because of his usefulness to the community.

Kind words are appreciated. Ralph Hall stopped me on the street to make some generous remarks about this column. Better late than never. Ralph has had twenty-five years in which to say the same thing. I guess he figured it was wasted space up until now.

Is this so? According to "The Land" you can make maple syrup out of corn cobs. Boil the corn cobs, strain off the liquid, add sugar and boil until it has the right density. It tastes like maple syrup, they say.

This is such a beautiful day (Tuesday, that is) that I am not doing a very good job of getting mad at anybody or anything. Perhaps most of the Russians are good people and we might see them in a different light if they didn't have such stinking leaders.

Leon Coleman shot the first deer in Collingsworth County in 1950. The name of the lady who killed the first quail in this area will remain anonymous. She is tall and stately and has dark brown eyes.

That lovely soul and observing mind known here as Katherine Boverie has returned from Europe. The story will be found in another part of the paper. But there were two or three observations she made that either disturbed me deeply or intrigued me greatly. I do not intend to comment on her remarks until I can have time to check on what she said without being in a group.

Here is part of a letter: Don't you believe in pensions for the old people? If you do, why do you talk about President Truman like you do.

Certainly, I believe in pensions for old people. I am opposed to the current trend which promises them \$30 or \$40 a month and then when they get it will buy them about \$15 or \$20 worth of meat, bread and potatoes. I am talking about inflation. The present trend could be continued in wages, prices, pensions and bureaucracy and old folks might find themselves getting a pension of \$60 a month which would actually buy only \$10 worth of meat, bread and potatoes. Our home is a balanced budget. And the folks who have insurance and government bonds and money in the bank are threatened by the same thing that endangers the future of the old. None of us can ever hope for security with the Administrations continuing deficit spending.

Sunday turned out to be the hottest November 19 since the weather has been recorded in the Panhandle. Sunday night brought freezing weather, but by Tuesday women were walking around in light dresses and men in their shirt sleeves. Of course the latter had on pants and shoes too.

J. A. Leach has a twenty year old cow that recently gave birth to her twentieth calf.

Time goes by fast. There are only twenty-six shopping days between now and Christmas.

But what I can't realize is that there are only four more issues of this paper before Christmas. Advertisers should take note.

Children are beginning to send in their letters to Santa Claus; and parents should take warning. We would like to get these early this year.

Hearty congratulations to Rufus Johnson. It seems to me that he has done wonders with our Wellington band. Such a band is a distinct asset not only to the school but to the town as well. It is good training for the children and good advertising for our town. And besides Henry and I think that those majorettes or twirlers or whatever you call them are simply out of this world.

We need a young man to work full time at the office and learn the printing trade. We prefer someone who has completed high school. We have a young man who works after school and on

Dr. Watkins Stresses Need

WELLINGTON CENTER OF WIDE AREA WITHOUT BLOOD BANK

In an interview with Dr. Dale Watkins, a member of the staff of the Jones-Watkins Clinic, he told of the pressing need of a blood bank in Wellington.

The nearest blood bank to Wellington is located at Elk City, Oklahoma, with one at Pampa to the north; Amarillo and Lubbock to the West and Southwest; Abilene and Wichita Falls to the South and East. Wellington is in the center of this circle. At each of these towns, there is either a blood bank in the hospitals there, or there is a Red Cross center where whole blood is available.

The Hospital Auxiliary has started a drive to purchase a storage refrigerator for whole blood. This is actually the only piece of equipment that is needed to begin the bank's operation, since the Dominican Sisters of St. Joseph hospital have the other necessary things, such as microscopes, and other laboratory equipment that will be needed.

The system for obtaining blood that will be used will be an entirely voluntary one. Anyone using blood from the bank will be asked to secure one or more donors for the bank. It is not necessary to replace the same type blood that was used, as the need for another type is just as great. Blood from the bank may be used as long as 14 to 17 days after the donor has given it. After that time, it is made into plasma, which will keep indefinitely.

Della Mae Coffee Weds Jack Estes

Miss Della Mae Coffee of Dallas, daughter of Mrs. Vera Coffee of Wellington, became the bride of Jack D. Estes, son of Mr. and Mrs. Joseph A. Estes of Dallas, in a quiet ceremony read in the Sears and Summit Church of Christ in Dallas, Saturday evening, November 11, at 7:00 p.m.

The bride was lovely in a suit of royal blue wool. With it, she wore pink and black velvet accessories. Her shoulder corsage was an orchid.

Mr. and Mrs. Paul E. Howard of Dallas were attendants to the couple.

Mrs. Estes is a graduate of Quail High School, and is employed at the Dreyfuss and Son Department Store in Dallas.

Mr. Estes is a graduate of the Dallas schools, and is now employed at Oak Farms.

The couple will be at home at 4322 Junius St. in Dallas.

Saturday and we intend to keep him; but we need another to work full time. Contact J. K. Porter or the writer.

Newsprint is getting short for some weekly papers already, the salesmen tell me. But it is not for the Wellington Leader at present. Our companies have been delivering on schedule. Therefore we welcome new subscriptions. It makes a mighty nice Christmas present — one that will remind them of you 52 times a year.

Campfire Girls Hold Ceremony

By CAROLYN COUCH
Wellington's Girl Scout Troop held its membership ceremonial Sunday afternoon at 5:30 p.m., in the yard at the home of their guardian, Mrs. Clyde Drake.

The program opened with a prayer by Mrs. A. V. Cooke, followed by a cornet solo, "Indian Love Call" by James Frederick LeDerer, accompanied by Phil Handley.

The Campfire girls entered singing their Watchword Song, "Wo-He-Lo" and clasped hands as they circled the campfire for the last time.

The girls threw crystals in the fire to give colored flames.

The talk on the meaning of Campfire was given by Mrs. Darwin Nix. Pens were awarded the girls and each mother pinned this girl scout emblem on her daughter, who then gave the Campfire Girl sign of thanks. Receiving them were Vada Bell, Carolyn Couch, Frances Drake, Madelyn Eikenburg, Janet Jones, Mary Parsons, Faye Pope, and Carolyn Joyce Wright. Beads were awarded by Mrs. Drake, and the group then filed away, singing "Wo-He-Lo."

Guests were then served cookies, made by the girls, and spiced tea.

Decorations were in the Campfire colors used for honor beads: brown for outdoor crafts; flame, homecrafts; yellow, business crafts; red, sports/crafts; blue, horizon; green, nature crafts; and red, white and blue, citizenship crafts.

Officers are Janet Jones, president; Faye Pope, secretary; Vada Bell, treasurer; and Carolyn Couch, reporter. The girls meet each Saturday afternoon from

Funeral at Quail For Kindrick Baby

Funeral services for Charles Ray Kindrick, infant son of Mr. and Mrs. C. R. Kindrick of Quail were held at the Quail Baptist Church Monday, Nov. 20, with Elmer L. Stonecipher officiating. Burial was in the Quail cemetery under the direction of the Kelso Funeral Home.

The child was born in St. Joseph's Hospital Saturday.

Surviving are the parents; five sisters and three brothers, Ruth, Loreta, Nadine, Annetta, Lydia, David, Frank and Larry of Quail; and the grandmothers, Mrs. Rosa Kindrick and Mrs. Fannie Crawley of Ada, Oklahoma.

Concert Number At Clarendon

The Clarendon Concert Association will present Hal and Ruby Holbrook Tuesday night, November 28, at 8:00 p.m., in the Clarendon Junior College Auditorium.

This couple will feature short dramatic sketches, from Shakespeare to comedy.

Members of the Wellington Concert Association may attend on their local tickets.

Coleman Kills First Deer

Deer hunting in Collingsworth became a reality Thursday, November 16, with the first open season the county has had, and Leon Coleman, Wellington oil dealer, became the first hunter to bring home his trophy.

Mr. Coleman was hunting with Lewis Green and Min. Paul Lusby on the Green farm 8 miles northeast of Wellington.

The five-point deer was killed from a distance of about 300 yards.

Bill McCarver, Claude Cason and Raymond Horton formed another party of early-morning hunters. They brought home one deer — all three of them. McCarver reported that they came upon a herd of deer and two fired, picking the same deer. When they examined their kill, they found three bullet marks.

They divided their deer in thirds.

Mr. and Mrs. E. O. Johnson and sons, Melvin and Winifred, of Dallas, and J. B. Hollman of Taylor spent the week end in the home of Mr. and Mrs. Maurice Smith.

Personal

Mrs. Reece Norman recently accompanied her parents, Mr. and Mrs. Earl Rinehart, of Grandfield, Okla., to Fayetteville, Ark., to attend the Homecoming celebration of the University of Arkansas. Her brother, Jim Rinehart, who played with the Dukes of Wellington baseball team this summer, is quarterback on the Arkansas Razorback team. The Homecoming game was lost to Rice Institute. In the Arkansas-SMU game Saturday, was Rinehart who threw the touchdown pass from the 44 yard line in the closing minutes which, had it not been called back, would have tied up the game. Cindy and Jimmy Norman remained with their grandmother, Mrs. Zeigler, at Frederick, Okla.

Visiting Mrs. S. B. Jackson over the week end were her children and grandchildren, Lt. and Mrs. Jay B. Clothier and children of San Diego, California and Mrs. J. A. Donley and children of Dallas. Another daughter, Mrs. Travis Readmore of Gage, Oklahoma, couldn't be present as their small daughter, Linda was stricken with appendicitis late Saturday night, however she is doing nicely.

Mr. and Mrs. A. L. Nowlin were in Amarillo Sunday to attend a recital at the Amarillo Conservatory of Music in which five-year-old Martha Ann Hopson took part. She is the daughter of Mr. and Mrs. Maurice Hopson. Mr. Hopson formerly lived here and is the brother of Russell Hopson.

Mr. and Mrs. Frank Camp, June and La Verne were in Bethany, Oklahoma, Sunday to visit Mr. and Mrs. Ben Camp.

John McGill underwent surgery in St. Joseph Hospital this week.

Mrs. Stanley Whitson and daughter of Aberdeen returned recently from Vale, Oregon, where they visited Mrs. Whitson's father and sister and other relatives. They accompanied her brother and sister-in-law, Mr. and Mrs. Earl Williams of Mobetie.

4:00 o 6:00 p.m.
Approximately 150 friends of the girls attended.

ROCKETS CLOSE SEASON WITH 26-7 VICTORY OVER HOLLIS TIGERS

Wellington Reserves Do Their Part

The plucky Hollis, Oklahoma, Tigers who couldn't overcome the effect of broken bones to five players, bowed to the Wellington Sky-rockets 26 to 7, in another chilling game Friday night, as both teams closed out their 1950 seasons.

The Tigers, who had upset the Mangum, Oklahoma, Tigers the week before, made their lone score as the fourth quarter opened. The Rockets scored once in the second, once in the third, and twice in the fourth.

The latter part of this game saw some excellent playing by the younger and less experienced Rockets — the boys who had to sit on the bench when the going was rough and every ounce of skill counted. These youngsters, who included such boys as Tommie Beam, Billy Lacy, Jimmie Agee, Harold Moore, Kenneth Covey, Fred Saied, Don Shoff and Clyde Ingram, showed themselves well capable of stepping into the shoes of those Rockets who leave the team by graduation this year.

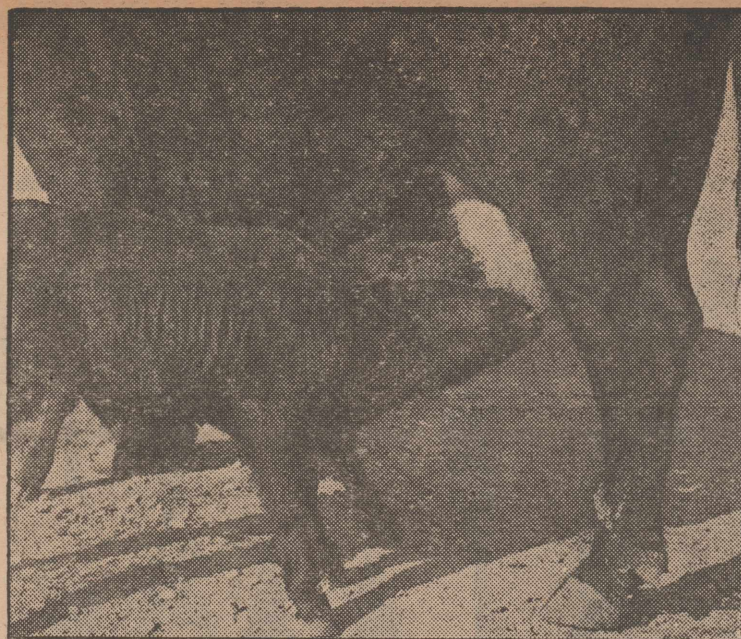

Farrell Kent, who has done out-

standing work as left tackle, was out of the game with an injured leg.

On the side-lines likewise were five of the Tigers, out with broken bones, either arm or leg. But such plucky Tigers as Dickie Cummins, Danny Joe Gist, Truman Smith, and Max Claiborne stiffened their resistance enough to hold the Rockets on several occasions, while Billy Don Williams, fullback, plunged doggedly into the Rocket line time and again for Tiger gains, aided by Freddy Fox, right half, and Ladd Morris, left half.

The Tigers received the kickoff made two quick first downs, then were forced to punt, with Tommy Wood returning the ball from goal area to the Rocket 7. Unable to gain yardage for a first down, Wellington punted, but a Tiger penalty gave them a first down and left the ball in Rocket possession.

Doyle Ingram, Rocket right half, gained the yardage for a first down, and Orville Copeland up yardage for a first down as two tries picked up 15 yards the quarter ended.

TEAT FOR TWO—Twins are nothing new to Lady, an Angus cow with big ideas about building up a herd. She has calved twins for nine out of the past 10 years. Here the latest (numbers 18 and 19), twin bull calves owned by Sam Carlson of Rock Island, Ill., line up for lunch.

and another first. The Rocket advance was stopped in the middle of the field and the Tigers had picked first down, and Orville Copeland up yardage for a first down as two tries picked up 15 yards the quarter ended.

The Tigers picked up another first down as the second period opened, but a Rocket defense held the Tigers on the ground and likewise interfered with two attempted passes, and took the ball on downs.

Copeland got a long run downfield, then a Wood-Wood pass netted six yards, putting the ball in deep Tigerland. Tommie Wood then sent a 15-yard pass into the waiting arms of Doyle Ingram for the Rockets first score. Jimmy Brock kicked the extra point.

Neither team was able to make much headway during the remainder of the first half, and the ball rested in the middle of the field when the whistle blew.

Copeland opened the third quarter with a 60 yard punt return down to the Tiger 28. The Rockets picked up two first downs, along with a 15 yard penalty, then for a Wellington fumble on the Tiger 10 gave that team the ball for a brief period, during which time they picked up some yardage, then heaved a long pass which went straight to Rocket Orville Copeland on the Tiger 38.

On the next play, Copeland took the ball and with close co-operation from the line, he took the ball over for the Rocket's second score. Brock again kicked the extra point.

The Tigers got possession of the ball in the closing minutes of the third quarter, on their own 28 yard line, Williams picked up nearly 30 yards, and then a Wellington penalty set the ball down

on the Rocket 27 yard line. The Hollis boys picked up a first down on a short run and a pass; Williams went from the 14 for about 7 yards, then on the next try went the remaining 7 yards for the Tigers only score. Truman Smith, co-captain of the Tigers, tried his first conversion kick of the season and made it.

The punt following the touch-down went over the goal line, and the ball was put into play on the Rocket 20.

Gibson took the ball on the next play, shook loose interfering Tigers, and with the excellent blocking of his teammates, went 71 yards before he was finally downed on about the 9 yard line. A three yard gain followed; then Gibson took the ball again and went over from the six yard line. Try for the extra point failed.

A few minutes later, Orr intercepted a pass on the 15 yard line, but two plays later, a penalty set the ball 5 yards farther back. Five yards was picked up, and Gibson added 10. Then Tommy Wood went over on a quarterback sneak from the five yard line. Try for the extra point failed.

During this latter period of the game, Coaches Maxey McKnight and Bobby Williams were seeing to it that all their Rockets had a chance at some action against the Tigers. The game ended with Wood intercepting a pass on the Hollis 40 and returning it 8 yards to the 32.

Starting lineup for Wellington included the ten men who will graduate from the team this year: Jimmy Brock, Beryl Cooper, Joe Raburn, Billy Lacy, Jimmy Agee, Lonnie Fuson, Orville Copeland, Doyle Ingram and Fred Saied. Eleventh man was Tommy Wood, quarterback.

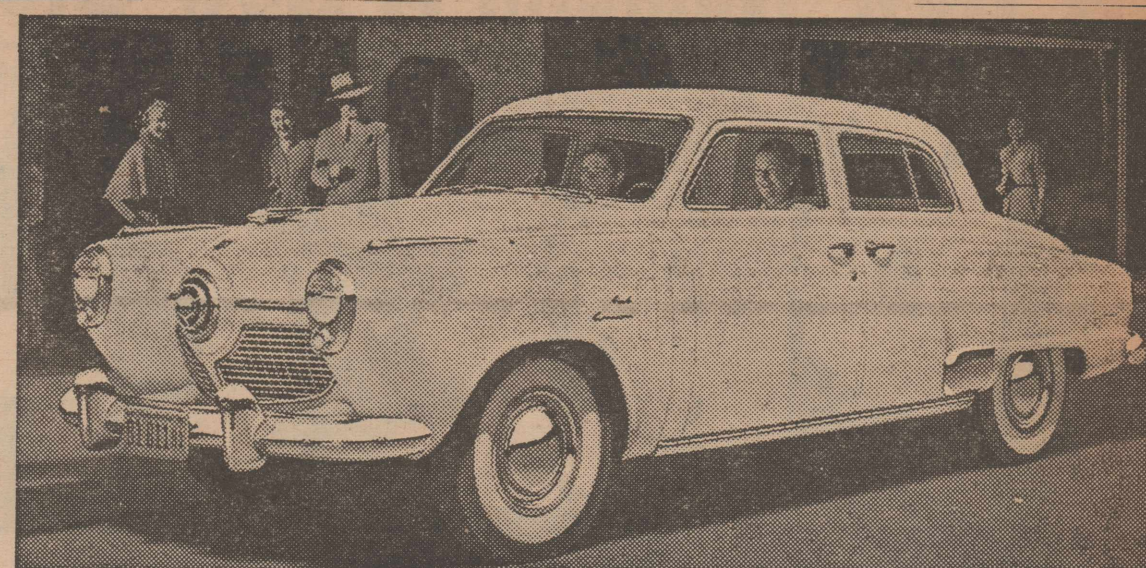

Hollis starters were Gist and J. M. Coley, ends; T. Smith and Mitchell, tackles; Moore and Cummings, guards; Thomas, center; White, quarterback; Fox and Morris, halfbacks; and Williams, fullback.

Judy Smith was a tonsillectomy patient in St. Joseph Hospital last week.

Mr. and Mrs. Sandy Parsons, Jr., Mr. and Mrs. Dudley McMillin, Mr. and Mrs. Tom Campbell, and Fred Saied were in Lubbock rec-

ently to see the Lubbock-Tulsa game. Mr. and Mrs. Lester Smith, Mrs.

Sam Gholson, and Donald Curry were in Dallas recently for the Southern Methodist — A&M football game.

REMEMBER WHEN

...this was your "central" heating plant

Too much heat in one room—not enough in another. That was the accepted standard of heating when you used a temperamental old stove in the parlor. The coming of natural gas brought wonderful new comfort into your home... automatic gas heating equipment now raises that standard even higher. Gas heating equipment will serve you best if it's adequate, vented, automatic. Investigate the improved models now being installed in most all modern homes. Investigate the new automatic circulating gas heating systems. See what they will do for you.

The scores of companies which comprise the natural gas industry in the Gulf South are serving you in many ways besides delivering gas to your home or factory. Their royalty payments, payrolls and local purchases help make business better for everybody. Their tax payments help to provide essential governmental services. Their industrial development activities help to bring more jobs and payrolls into the area, thus creating more prosperity for you and your family.

Thanks!

For Your Splendid Patronage Through The Years

We want to stop at this Thanksgiving season and say "thanks" to our many fine customers. Your patronage through the years is sincerely appreciated.

We feel a gin should help its customers get the most out of their cotton crop, especially a crop that has been as hard to raise as this one has. That is why we take time to gin your cotton slowly enough so you will get the best sample possible. It pays in the long run—both

you and us.

We believe the best way we can express our appreciation to our customers is to do the type of ginning that means more money to you. Give us a trial and you will know why so many farmers are finding it a satisfactory place to bring their cotton, year after year.

Again, thanks for your part in helping us build our reputation for fine ginning.

ONLY BUICK HAS Dynaflo— AND WITH IT GOES:

HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.) • NEW-PATTERN STYLING, with MULTI-GUARD forefront, taper-through fenders, "double bubble" tail-lights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

It would be easy to let the breath-taking power, the luxurious ride and the gleaming good looks of a Buick sweep you off your feet.

And once you've sampled the sweet response of Dynaflo Drive*—you feel a big lack in anything else.

But let's be practical about all this.

What does it cost to buy—and to own—this star performer?

The first answer is a look at delivered prices—and most people still are surprised to find that a car which offers so much actually costs so little.

*Standard on Roadmaster, optional as extra cost on Super and Special models.

That's true, whether you put the SPECIAL, the SUPER or the superb ROADMASTER against other cars of comparable dimensions. They certainly shine on a first-cost basis.

But this is only half the story, as you'll soon find out on any used-car lot.

Year in, year out, the resale prices of Buicks stay much closer to first cost than the prices of cars with lesser merit.

And among recent models, Buicks with

Dynaflo Drive command such a premium that you can almost figure you get this dream drive for free.

So why not let yourself go? Why not walk right into your Buick dealer's now and say, put me down for one of those!

There's no time like the present for showing your good judgment.

Many other friends and neighbors also called.

Funeral services were conducted from the Loco Church of Christ with Minister Claude Walkup in charge, November 20. Burial was in the family plot in the Arlie cemetery.

E. S. Copeland was painfully injured Sunday afternoon, when he fell from the top of his windmill. Mr. and Mrs. Copeland were visiting friends when the high wind from the north struck. He had left the windmill on, and decided that he had better return home and shut it off. The tie-off rope broke, and he climbed to the top of the mill to shut it off, and the mill shifted, knocking him from the tower. Five ribs, his left wrist, and possibly his back was broken in the fall.

Mr. and Mrs. Sam Crow, the Copeland's daughter and son-in-law from Hollis, Oklahoma, came about the time the accident occurred, and heard Mr. Copeland's cries for help. They rushed him to St. Joseph Hospital where he was given emergency treatment and X-rayed. He was moved to the Veterans hospital in Amarillo Monday.

Mrs. Copeland, Mr. and Mrs. Crow, Mr. and Mrs. C. B. Carter of Hollis, and Bob Copeland of Canyon are at his bedside.

Norwood School Opens Dec. 4

The Samnorwood school opening has been set for Monday, December 4, Supt. Orville Cunningham, has announced.

"Most of the cotton in this area that is going to open will be ready to gather in the next 10 days, and we believe it is better to postpone school a week rather than to take up on the date originally set, November 27," Mr. Cunningham said.

Both the Gilmer-Aikin school law and the Child Labor Law affected the decision of the Samnorwood board to delay opening. The number of absentees they knew would result could so affect the school that it would lose one or more teachers, and in addition, numbers of transient families, not wanting to start their children in school here, were preparing to leave as soon as school opened, Mr. Cunningham explained.

"When school opens December 4, we hope that everybody will be well enough up with their crops so that all children can come to school and come every day," he stated.

During the cotton picking vacation, the homemaking room, school lounge, and a number of classrooms have been redecorated.

Mr. Cunningham also said that the new date of school opening will in no way affect basketball games to be played during the coming week, one of which is scheduled at Carey, and the other between the Wellington Skyrockets and Samnorwood Eagles will be played as planned at Samnorwood.

Mr. and Mrs. Paul Guthrie and Mr. and Mrs. Sammy Lee Hunter and Patty of Childress spent Sunday afternoon in the home of Mr. and Mrs. Jake Lawrence.

Mr. and Mrs. J. C. Davenport and Mr. and Mrs. W. R. Crawley were in Silverton Saturday to visit Mr. and Mrs. Will Newman. Mr. Newman is in serious condition suffering from cancer. Mrs. Newman is a sister of Mr. Davenport.

Mr. and Mrs. Roland Mayhugh and daughters visited Mr. and Mrs. J. T. Clement, Don and Beaton, in Childress Sunday afternoon.

Randolph Hunt of Wellington landed his plane on a wheat field near the T. A. Hamilton farm Monday. He had come after Alfred and Alvis Hamilton to make a business trip to Spearman with him.

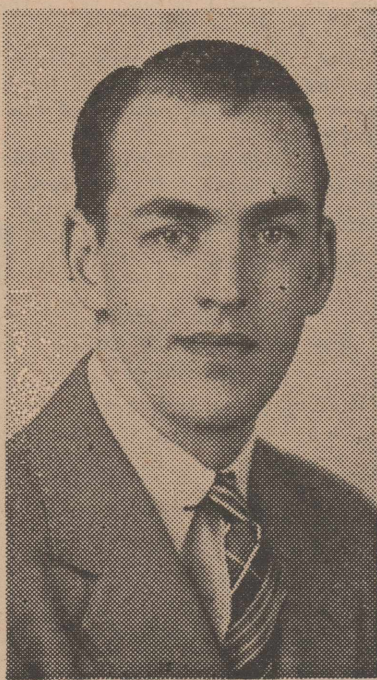

Mr. and Mrs. M. L. Adkins and family spent the week end with her sister, Mr. and Mrs. Tom Scroggins at Lakeview. They were guests at a musical given by Mrs. Scroggins Saturday night. They attended church at the Leslie Baptist church Sunday, where Mr. and Mrs. Adkins were married 26 years ago.

Mrs. Jess White and daughter, Doris, spent the week end in Oklahoma City, Oklahoma, where they visited relatives.

Misses Katie and Estelle Adkins were in Dodson shopping Monday, and visiting Mr. and Mrs. Eddie Boggs.

Buck Sandifer made a business trip to Sulphur Springs over the week end.

Visiting in the M. L. Adkins home Sunday night were Mr. and Mrs. Otha Talley, Barton and Alleta, of Dodson.

EVANGELIST

The Rev. Thomas A. Gray of the First Christian Church at Canadian, will be the evangelist at a revival which opens at the First Christian Church here Monday, November 27, and continues through Sunday, December 10. Rev. Gray is a brother of the Rev. Archie Gray, pastor of the Wellington church.

Pope Pius appeared and gave his benediction.

Miss Boverie is firm in stating that no one, including Congressmen, can go to Europe, stay a few weeks and come home knowing be so much wheat there. The fields are small, but there are so many of them. All these farms are perfectly kept, with fine livestock—Holstein-Friesian cattle and big draft horses. I liked the looks of the people, too. Maybe I'm prejudiced, but I thought the people of rural France were the most sturdy and reliant appearing of any I saw," Miss Boverie said.

Paris was what she thought it would be, too, and as may be expected of a librarian, she found the book stalls along the Seine River especially interesting.

"The city has an old look," she said. "I recall, for instance, once our party was looking at Notre

Dame when someone in our party remarked on how old it looked. 'Yes,' another member replied. 'If we had it in the United States we'd scrub it up and wash some of the antiquity off.'"

"I think the poorest people we saw were in Portugal. Old people and children, you could hardly get out without their begging from you. October 13 is the anniversary of Fatima, and they were all along the road, walking out to the shrine. Lisbon, though, was the most modern city we were in, I believe.

"I was completely unprepared for the magnificence of the royal palace at Madrid, Spain. I had heard about the beauty of Versailles, but the Royal Palace of Spain is far more beautiful," Miss Boverie said. Franco does not live in it although he does come there to hold court, she explained. People in rural Spain seemed extremely poor.

The drive along the French Riviera she especially enjoyed, as they went toward Italy.

"Venice is an interesting city. There are simply no streets, only canals, with the water washing right up to the buildings, some of them three and four stories tall. And in front of many doors, there is a gondola parked. We were out one afternoon and met a funeral, the casket in a much decorated gondola, piled with flowers."

"I'd like to go back to England," Miss Boverie continued, but she added that the stringent rationing is apparent, and everywhere on the continent that they met Englishmen, this was spoken of.

"The American tourist gets only the finest of foods, and plenty of it, but not the people who live there," she said. In England the party visited the new House of Commons, which replaces the one destroyed by bombs during the war, and used for the first time only a few days before the New Mexico party arrived.

"Everywhere we went, we saw the pride these people have in their countries, and everywhere they were so helpful and friendly to us. Not once did we find any sign of unfriendliness toward us or toward Americans in general."

Other relatives visiting Mrs. Jackson were her sister, Mrs. A. L. Jackson and daughters, Paula and Barbara and her nephew, Mr. and Mrs. Bill Jackson and daughters all of Spearman.

E. S. Copeland Hurt in Fall

E. S. Copeland, long-time farmer in the Loco community, was seriously injured in a fall from the top of his windmill Sunday afternoon, November 19.

The windmill turned on when the high north wind struck, and Mr. Copeland thought it best that the mill be shut off. In attempting to do this, the tie-off rope broke. He climbed to the top of the tower, and the mill shifted, knocking him from the tower.

In the fall, he received five broken ribs, a broken wrist, and a possible broken back.

Mr. and Mrs. Sam Crow, a daughter of Mr. and Mrs. Copeland, arrived about the time the accident occurred, and heard Mr. Copeland's cries for help. They rushed him to St. Joseph's Hospital in Wellington, where he was given emergency treatment and was X-rayed.

He was moved to the Veterans hospital Monday afternoon in a Kelso ambulance.

Mrs. Copeland, Mr. and Mrs. Crow, Mr. and Mrs. C. B. Carter of Hollis, another daughter of the Copeland's, and Bob Copeland of Canyon, their son, is at his bedside.

Don't Let It Down — Give Your Farmall The Best in '51

—Your tractor is your work-horse. It is the basic machine you use in your business. Give it all the breaks you can; keep it healthy and happy and it will do its part toward making your farming operations profitable. Don't try to cheat it with inferior parts and don't let incompetent mechanics tinker with it.

—Of course, the moral is to bring your Farmall to us, where it will get the best care.

—I always hesitate to use the word "scarcity" in an advertisement, or in talking to people, because so many folks have the idea that we dealers are just trying to scare them loose from a dollar when we talk about the possibility of scarcities. But I think this is a good time to analyze the situation, and act accordingly.

—For instance, we may feel that there won't be any scarcity of farm machinery in this territory because of our short crop, even though everybody knows that less will be produced in the next few months. The actual facts here are that there seems to be plenty of market for all the machinery we will get in other parts of the country, and this demand will reflect

itself right back on us. Many dealers, without definite orders from their home customers, and figuring on short demand here, will probably yield to outside pressure. The only way you can be certain of getting new tractors or machinery this next year is to place definite orders now.

—The rearmament program is going to take plenty of steel and, especially, other metals such as copper. This will limit the production of farm machinery as well as other things.

—It may be more important to us in this immediate territory to realize that these same conditions will create shortages of many repair parts. Right now, these are fairly plentiful. If experience is any teacher, we know that this can and probably will, change overnight. There is also the possibility of further price increases.

—You have everything to gain and nothing to lose by having your machinery re-conditioned and tuned up right now. Bring your Farmall in, or call us to come after it, and give it a thorough check-up. I'll bet later on you will be mighty glad you did.

The Rev. Howard Jones, pastor of the church, read the single ring ceremony before an altar banked with baskets of white mums and greenery. Tall candelabra held white tapers, which were lighted by Henry Sullivan and John Holton.

Are We Inviting Munich in Korea?

Munich in the last decade has come to stand, not for a city, but for a way of action, a word of opprobrium. And yet, the suggestion is being made by certain thinking men that a second time it may apply to our actions on an international plane.

A buffer strip on the Manchurian-Korean border will probably be suggested to the Chinese communist delegation en route to the United Nations, and future action of the U. N. with the attendant problems, will depend on the delegation's reply.

The Dallas Morning News in its lead editorial Friday, asks: "Acheson Inviting Another Munich?" The editorial continues.

Secretary of State Acheson's conciliatory statement meant for the ears of the Red Chinese Government, raises a grave new issue for us. He is on firm ground in his assurances that the United Nations (United States) forces will not cross into Manchuria, also in guaranteeing Chinese interests in the Yalu River power development. But the suggestion of a buffer state between Korea and Manchuria is something else. There may be substance in that such action would "only move the situation that existed along the thirty-eighth parallel a little farther north." He thinks this would invite the disaster of "another Munich."

But the real issue now raised goes deeper than that, and the cause of it is not found in Korea or China or Russia. It is the issue of whether it is going to be the United Nations or the United States that will fight the battle for democracy if a World War III breaks upon us. That is the real reason that Acheson has become desperately desirous of winding up the affair in Korea which now threatens to drag through the winter.

The immediate danger is that Acheson is opening the way for general negotiations between the United States and China, in which event China will again put in its bid for a place on the Security Council. If this is granted, the camel's head will be in the tent in a big way. We will have no guarantee that China will not renew its aggression in Korea. And Acheson is not now even asking that Red aggression in Indo-China and Tibet be stopped.

The potential "Munich" in the present situation may be the possibility of failure of our allies to act in good faith, rather than the failure of our enemies to do so. Because of this possibility Acheson suffers from frustration, though he feels that he can not afford to say so openly at the present juncture. Yet it may be time for President Truman to demand a putting of the cards on the table, along with his

tentative offer of a stupendous new Marshall Plan contribution to the Allied pile of chips. We can not afford to play the rules by which we are playing.

Geese Going South

The honking of wild geese flying south, the chill mornings and the calendar all indicate strangely that fall is upon us. Speaking migratory birds, the season opens November 3, and W. E. Landrum said several farmers have spoken encouragingly about duck hunters on local ponds.

WAR IS HELL FOR PIGS TOO—The porker at right thoroughly agrees with Sherman's famous statement regarding the horrors of combat. Domestics May Soon Come Under Social Security

Do you employ a domestic worker in your home, such as a maid, butler, cook, gardener, or chauffeur? If so, you may soon be an employer under social security. The amended Social Security Act brings regularly employed domestic workers under this insurance system effective January 1, 1951. A domestic worker is considered to be regularly employed if he works for one person on 24 separate days in a calendar quarter and earns at least \$50 in cash wages during the quarter. Generally speaking, this would mean that the domestic who works for one person on the average of two days per week would be covered under the amended law. Further, it means that you will not be concerned with this new provision if you have a person who works for you only one day a week, or less than 24 days per calendar quarter.

Does all this sound complicated, Well, it really isn't. The Treasury Department and the Social Security Administration, working jointly, have just issued a booklet telling the few simple steps for you and your household worker to take. It includes a postal card for getting instructions about the easy-to-fill-out report form. The title of his booklet is "Do You Have a Maid?" Copies of this booklet have been mailed to your local postmaster. If he has not received his supply, you can obtain a copy by writing the social security office, Amarillo, and asking for the booklet, "Do You Have a Maid?"

A representative from this office will be in Wellington at the County Court House, Wednesday, November 29, at 9:00 a.m.

Fire Department Busy As Dry Weather Continues

The City Fire Department is doing double duty here this week. They received two calls at the same time Friday morning, one to a house fire at 802 Dahlhart, and the other a grass fire on North Amarillo.

The apartment house belonging to Mrs. John W. Rogers was the structure that was damaged. The back apartment, which was occupied by Mrs. Bill Lee, was completely destroyed. Mrs. Lee lost all of her possessions. She was in the back yard hanging out some wet clothes when she discovered the blaze.

The front apartment, which is occupied by Mr. and Mrs. Pip Holiman was not damaged.

The fire department has also made calls to North El Paso, 601 Haskell, 1200 Bowie, 405 Bowie, and 801 Bowie.

They put out a fence fire which caught from some burning grass at the rear of 1702 East Avenue.

Another caution was issued by the department to the residents of Wellington. If there is grass near your home, don't burn any trash near it, because a damaging fire may result. Be especially careful of fire when the wind is high.

Guests of Mr. and Mrs. A. Y. Bell recently were her sister, Mrs. Nettie Megert of Hereford, and their granddaughter, Dorothy Jane Crain of Canyon.

He showed the increase in cotton production on sandy-land following alfalfa, as well as slides on blue panic grass production for seed. Slides on pruning and treating fruit trees for bores showed how this can produce fruit of better quality.

Three new members were enrolled: Ray Wauer, Cecil Welch and Bill Warrick.

"The Furies" Presents Thrill Packed Drama

Presenting one of the most impressive casts ever assembled for a motion picture, the action-packed outdoor epic, "The Furies," opens Wednesday, Thursday and Friday, November 29 and 30, and December 1. Barbara Stanwyck, Wendell Corey and Walter Huston, in his last screen appearance, are starred, while the supporting players include Judith Anderson, Gilbert Roland, Thomas Gomez, Beulah Bondi, Blanche Yurka and Albert Dekker.

Produced by Hal Wallis, "The Furies" is a blazing story of the great Southwest when men were building empires, with guns as their only tools. Violence and treachery meant more than law and order, and a bullet spoke the only language everyone understood.

Playing the last role of his career, Walter Huston gives a performance that outranks his Academy Award winning portrayal in "Treasure of Sierra Madre," according to preview reports. As the rugged cattle baron who rules his domain with an iron hand, he is said to be superb.

Barbara Stanwyck, the star who never gives a bad performance, plays Huston's fiery-tempered daughter whose beauty masks her consuming passion for power. Wendell Corey, who co-starred with Miss Stanwyck in "Thelma Jordan," teams with her again as the role of a two-fisted owner of a gambling house and dance hall.

In order to get authentic backgrounds for the picture, much of "The Furies" was filmed on location in Tucson, Arizona. And since all of the players were expert horsemen, director Anthony Mann was saved the trouble of hiring riding "doubles."

Eleven Drivers Receive Tickets

Eleven Wellington residents received tickets Friday for failure to have their drivers license in their possession at the time of the block check here, Highway Patrolmen Noel Calloway and Herman Moore told Justice of the Peace W. G. Hite.

The patrolmen checking at various points over the city, stopped all drivers and asked for their licenses.

They also returned Saturday and Sunday night, and additional tickets were given for failure to have licenses, Judge Hite said.

Vote on Peanut Quotas Dec. 14

County peanut growers will vote on marketing quotas Thursday, December 14, Millard Brown, secretary of the PMA, has announced.

Peanut quotas are voted on for a period of three years, and the December election will determine whether quotas will be in effect for 1951, 1952 and 1953.

No further information on the peanut quotas has been received, Mr. Brown said. It is likely that growers will vote at two points, Quail and Wellington.

Mr. and Mrs. Claude Dodgin of Denver, Colorado, spent the week end with Mr. and Mrs. Dorsie Pollock and Mrs. Bertha Williams. Mr. Dodgin is a brother of Mrs. Pollock and Mrs. Williams.

Lord Jim Says--

By Bill Hughes

"Bill, it seems to me that the more I hear talk of peace, the grimmer becomes the realities of armed conflict. Who is fooling who?"

Lord Jim, too often you ask me unanswerable questions. All that I can do and all that any man or woman or group of people can do is advance a point of view that is actually just one among many.

But to me it appears that peace is a condition quite like happiness, a condition that comes as a result of combining, at the same moment, achievements of morality, of spiritual development and of material success sufficient to comply with basic needs. Peace does not seem to me to be a thing that can be gained directly as an end in itself nor can it be achieved by a mere state of no armed conflict.

So far as the world is concerned today, until the nations and the peoples of the world can establish a common moral code, a spiritual unity, and a common universal code of justice, I do not see how we can expect to eliminate armed force as an instrument for settling disputes. I do not think we have arrived at that happy moment in history.

It is not the U. N., nor the Marshall Plan, nor our appeasement of Communist China, nor our diddling rearmament program that is holding the Russian juggernaut of Communist imperialism in leash. Instead it is Russia's own strategy and timetable that is ever re-evaluating the United States' diminishing lead in Atomic superiority.

When that day comes, that atomically we hold no advantage over Russia do you think Russia will be more willing to settle the differences between Christianity and Communism, between freedom and slavery that Russia has been since 1917? Do you remember Munich and Chamberlain? He wore a noble moustache and was born several centuries too soon, also.

"Peace on earth, good will to men" has forever been a goal of mankind and I frankly think that we are very dangerously deceiving ourselves if we think mankind has made sufficient progress to be ready or able to establish world peace. One must be master of the parts before he can build the whole; and certainly we are far from a common moral code, spiritual unity and a universal code of justice — all of which are fundamentally necessary to outlawing war and achieve world peace.

Still the only common denominator understood universally is economic power and armed might. Our noble effort of attempting to set an example by fantastically rapid demobilization after World War II was answered in Asia by exactly the opposite until today Russia's might is second to none in all but one important weapon. Now in that one she gains. Why did she arm? What has been her moral code, her concept of spiritual unity and universal justice as practiced on her own people, on her neighbors and among the family of nations at the U. N.?

Take the great spiritual concept of India bequeathed by Gandhi and carried on by Nehru against use of force. Yet, Nehru's moral code and concept of justice permits him to take sides with these people with the most vast armies on earth, armies employed in Imperialistic aggressive warfare.

Wake up, America! Wake up Americans! If you think and feel that Communism is right and Christianity wrong, if you want

and prefer enforced slavery to freedom then let us not sacrifice our lives and labor but join Russia. On the other hand if you still believe that freedom, justice, the dignity of man, God and freedom of worship will provide the only tolerable basis for one world and eventual peace let us prepare to make no less a sacrifice, no less an effort our forefathers. Half measures are dead ducks and so are we, if we don't get going.

Holt on College Basketball Team

WEATHERFORD — Forty candidates are out for the Southwestern State College basketball team as coach Rankin Williams is drilling the large squad for the season's opener against Phillips 66 at Frederick Tuesday night, November 28.

The Bulldogs will meet Bob Kurland and company to dedicate the new Frederick high school gymnasium, which has a seating capacity of 2700. Early sales indicate a full house, according to Prather Brown, Frederick high school principal.

Among the squad going is Charles Holt of Samnorwood.

Mr. Dan Goldsmith, 3024 Curron Road, Louisville, Ky., owner of Coogla Cut Rate Store at 935 West Broadway, says there just aren't enough words in the English language to praise HADACOL correctly. He says he knows most folks don't realize what a change HADACOL can make in their life if their systems are deficient in Vitamins B₁, B₂, Iron and Niacin.

Here is Mr. Goldsmith's statement:

"Before I started taking HADACOL I was run down and nervous — and had a hard time sleeping nights. With my work in the store I have to spend sometimes 14 hours a day on my feet. Since I am in the retail business I saw how many folks were asking for HADACOL so I decided to try it myself. After the first couple of bottles I could tell a definite improvement. Now I have all the pep and energy in the world, my nerves are steady as ever and I really do get a good night's rest. HADACOL is wonderful — I not only take it, but recommend it to all my customers. I praise the day Senator Dudley J. LeBlanc put HADACOL on the market."

HADACOL is so different. Thousands are benefiting from HADACOL... whose systems lack Vitamins B₁, B₂, Iron and Niacin. HADACOL is so wonderful because HADACOL helps build up the hemoglobin content of your blood (when Iron is needed) to carry these great Vitamins and Minerals to every body organ — to every part of the body.

Give remarkable HADACOL a chance and if you don't feel better with the first few bottles you take — you get your money back. Only \$1.25 for Trial Size; Large Family or Hospital Size, \$3.50. If your druggist does not have HADACOL, order it direct from The LeBlanc Corporation, Lafayette, Louisiana. © 1949, The LeBlanc Corporation.

Coleman, Black Farm Speakers

A demonstration on deep plowing was held five miles north of Community Center, located in the southwest part of Childress County, Friday, November 17, at 2:00 p.m.

Osa Black and Alex Coleman of Wellington were guest speakers for the afternoon. Both are pioneers in the field of deep plowing, since both have practiced this policy with amazing results.

County Agent V. E. Hefner of Childress, Area Supervisor George Taylor of Matador, and Chairman Doyle Thomas of the P. M. A. office were also present, each making a few statements on deep plowing or other means of soil conservation.

An International TD 24 catapillar tractor was used to pull the five, 44 inch disc plow. About an acre of ground was plowed, showing the farmers how the sub-soil would roll to the top, replacing worn-out soil with new ground.

Both Mr. Coleman and Mr. Black answered questions asked

by the farmers following the demonstration.

Two hundred farmers from Wheeler, Collingsworth, Childress, Hall, and Donley Counties were present.

Attending from Collingsworth county were Mr. Black, Mr. Coleman, H. P. Scott, Joe Wilson, and Perry Mack Scott. Attending from Loco were J. A. Scott and Raymond T. Scott.

Dr. and Mrs. C. M. Terry of Jefferson were here Friday night to visit her parents, Mr. and Mrs. A. V. Cooke, and her sister, and family, Mr. and Mrs. Clyde Drake and children.

We Have A Lot To Be Thankful For

Once again we face Thanksgiving Day with gratitude for His favor in bestowing on us the blessings of democracy and all the fruits of his fertile fields. But now as our forefathers three hundred years ago, we are aware of the need for protect-

ing His gift against forces of evil that threaten to drag these works down into the lowest depths of tyranny. Again we are faced with the stern reality that "vigilance is the price of liberty."
