

OCHILTREE COUNTY HERALD

Official Paper Of City Of Perryton, Texas

Official County Paper Of Ochiltree County

PERRYTON, OCHILTREE COUNTY, TEXAS, THURSDAY JULY 29, 1926

NUMBER 26

TALLEY, SHANKS, WRIGHT AND GRIGSBY ARE WINNERS GOVERNMENT IS MAKING SURVEY OF COMBINES IN OCHILTREE COUNTY

GOVERNMENT COVERS FIVE STATES IN BIG HARD WHEAT STRIP

OCHILTREE COUNTY IS CHOSEN AS BEST FIELD IN TEXAS FOR STUDY; SITUATION HERE IS IDEAL

Bureau of Agriculture Economics and the Division of Agricultural Engineering, both located at Washington and the Texas State Experiment Stations are co-operating in carrying on a survey of combining as a method of harvesting as compared with other methods, and have chosen Ochiltree county as the ground for their

the enormous sale of combines in Perryton this spring, which was the sale at any one point in the States or Canada, and due to favorable conditions existing here as the exceptionally level land, the high wheat yield, the farm acreage, and the like, it was chosen from among counties in Texas as a testing

work is being carried on in Texas, Oklahoma, Kansas, and Montana. When it is published in bulletin by the Department of Agriculture, Washington, D. C., but a part of the findings in Ochiltree will probably be made public at the time by the Texas State Experiment Stations which are helping the work here, and will be in the Herald.

R. P. Smith, associate professor of agricultural engineering, Texas Experiment Station, head of the Texas Experiment Station, both of Station, Texas, and R. F. Spill of the Bureau of Agricultural Engineering, Washington, D. C. are working on the work.

ing to Professor Gabbard, and to interview eighty or a hundred farmers in this locality, studying different kinds of machines, and learn their weak and strong points, how well they are adapted to the conditions here and the like. They already found seven different kinds of combines, the Holt, International, Gleaner, Massey-Harris, and the like.

their purpose to recommend the machine in preference to the others to show any partiality. They are interested chiefly in the size of the machine, the cost, the labor, the repairs, time lost, economy, and the like.

the use of this new farm machine is going to make a big difference in the size of the farm unit. The family can operate. Where comparatively few acres could be operated with the use of the horse, many hundred acres can be operated with tractor power. Just what size this new machine is a matter of much interest.

comparison between the combine and the old type binder and the like will no doubt make an interesting study and will be published in the Herald as soon as data can be assembled.

the League of the Senior Citizens of the Methodist Church will meet at the B. B. Kenton home, Friday evening, July 30, at 8 o'clock and from there will be taken to the picnic ground, which the entertainment committee has chosen. All are requested to be present and to bring if possible.

STRICKLER AND BOREN DRILLING

BOTH WELLS THAT WERE SHUT DOWN FOR LACK OF FUEL ARE DRILLING AGAIN

Burton-Strickler No. 1 Sec. 578, and Boren No. 1, Sec. 923, both shut down last week for lack of fuel oil, are drilling again. The Strickler test is down to 600 feet and is drilling through red bed. At present they are running the ten inch casing in order to shut out the quicksand.

The Boren well, drilling at 400 feet, was delayed Tuesday when they broke a crown block, but the new piece was rushed in and drilling was resumed Wednesday.

The two wells in the Range neighborhood, the one on Sec. 5, Township 1, the other in Sec. 23, Township 2, being drilled by H. M. Connelly, will start operations at once. It is reported that drilling in these two wells were held up by a civil suit brought by an Amarillo party who claimed an interest in the property, but the difficulty has been cleared up outside of court and work is to be resumed.

Material is being hauled to Wamble No. 1 location on Sec. 144, and drilling will start within a short time.

AN OPEN CHALLENGE TO WHEAT RAISERS

The following communication, which is self-explanatory, is given our readers. It came in this morning. The wheat kings, queens, deuces, etc., will please take notice and govern themselves accordingly:

Fifty farmers and business men of Curry County, New Mexico, hereby issue a friendly challenge to all the counties in the States of Kansas, Oklahoma, Texas and New Mexico for the purpose of showing the Banner Wheat County for the four States, for this 1926 crop.

On the basis of the greatest number of bushels and highest test, produced on the best one hundred thousand acres, non-irrigated, non-fertilized land in any one county.

Any one wishing to accept this challenge, through its agent or representative, will please write E. W. Reagan, Clovis, New Mexico.—Liberal News.

Mrs. H. Mallett is here from Waukegan, Oklahoma, visiting in the country home of her son, S. S. Mallett, and in the home of Mr. and Mrs. R. L. Keith of this city. Mrs. Mallett lived at old Ochiltree a number of years past.

Miss Betty Nelson of Goodwell, Oklahoma was the guest of Mrs. Leitha Bartley, last Friday.

Brings You Cheer and Courage
DR. FRANK CRANE

"The man with a million friends" joins the staff of this newspaper, starting with this issue. This is another effort on our part to supply readers with the best features obtainable. No one has ever had so huge and diverse an audience as Dr. Crane—the banker—the scrub woman—rich—poor—young and old—all find cheer and courage in Dr. Crane's talks. Read Dr. Crane this week—every week in this newspaper.

PERRYTON MAY BE CHOSEN AS WHOLESALE HOUSE SITE

Managers and officials of the Grant-Billings Produce Company were in Perryton yesterday looking over the city as a prospect for a branch wholesale produce house.

According to Frank Jamison, salesman for this territory, a site is to be selected that will allow the main house to get in closer touch with the oil field and Perryton has been selected as a possibility for such a location.

At present the closest branch house is at Woodward, Oklahoma, which is too far removed to be able able to get in touch with then new field. A branch house here would mean the erection of a modern cold storage plant.

With a number of truck lines operating out of Perryton to various points, to Signal Hill, Amarillo, Borger, and several other oil field points,

with low rents, cheap city property for building, low taxation, good railway service, reasonable building costs, with strong possibilities of an oil development in this very section, Perryton should make an ideal location for a branch wholesale house.

Without doubt the officials of this large produce concern have looked into these various points in choosing Perryton as a possible location. Far-sighted management that will take a concern into a new field in advance of others, enable it to get a strong standing in the territory, will undoubtedly prove very valuable to the firm, and bring a handsome financial return.

The Grant-Billings Produce Company is welcomed to Perryton. We hope they will find a location here and join in Perryton's prosperity.

.69 INCH RAIN FALLS SATURDAY

ALTHOUGH RAIN WAS NOT GENERAL, IT WAS GREAT HELP TO ROW CROPS

A gentle rain was received Saturday evening and night that measured .69 inches in the government gauge kept by Jack Allen. Although the rain was confined to a very small area, yet it was of much benefit to the row crops and softened the fields making plowing much easier.

The rain seemed to come from the southwest and rolled off to the northeast, the rain being confined to the narrow strip that it covered. No rain was received a few miles north of Perryton and very little south of town.

The row crops are looking very good. There is a small acreage of cotton in this section and it is in very good shape and growing fast. With good rain and growing fast. With good rain and growing fast. With good rain and growing fast.

SURPRISE PARTY

Mr. and Mrs. P. A. Gidley were most pleasantly surprised Sunday afternoon by the arrival of a bunch of Oklahoma boosters consisting of Dwight Allen and sister, Miss Esther, and Miss Urmal Reese of Gate, Oklahoma; Misses Agnes, Opal and Alice Lawson and Messrs. Howard Cassidy, Raymond Allman and Clifford Smith of Beaver City. A most delicious luncheon was served to the boosters and the following guests: Mr. and Mrs. E. M. Allen of this city; Mrs. H. J. Wilson and two sons, Sheldon of Kansas City, and William of Perryton.

—One who was there.

DAN MOODY CARRIES STATE IN GUBERNATORIAL RACE

"MA" FERGUSON KEEPS PROMISE AND WITH-DRAWS. RESIGNATION WILL TAKE EFFECT NOVEMBER FIRST

The Democratic primary of last Saturday resulted in the nomination of practically every old officer that was seeking the office again. In the Sheriff's race, Talley won over Wooten by a count of 554 to 206. Dave Shanks for County and District Clerk received 484 votes while his opponent, Mrs. Thornton was rolling up a total of 274. The Tax Assessor's race ended with J. W. Wright, the

PERRYTON C. OF C. ENTERTAINS O. C.

COPY OF HERALD GIVEN TO EACH MEMBER OF PARTY FROM OKLAHOMA CITY

Twenty-five cars loaded with Oklahoma City Chamber of Commerce visitors, containing some eighty members, arrived in Perryton last Thursday on schedule time, driving in at 11:45 o'clock.

The Oklahoma City boosters were met at the Oklahoma-Texas state line by two cars of Perryton men, composed of Mayor F. P. Rogers, B. B. Kent, Jack Allen, R. T. Correll, Judge Geo. M. Perry, M. R. Coffee and C. W. Callaway.

They were led to the edge of Perryton where they arranged in parade with two motorcycle police at the head, followed by the fifteen piece band and the cars of boosters. The band took up its position in the band stand arranged in front of the First National Bank and played several numbers while the Oklahoma City men mixed among the Perryton crowd.

After the short concert they were conducted to the Forbes Garage where each member of the party was presented with a copy of the special edition of the Ochiltree County Herald. Lunch was served under the direction of "Baldy" Davidson, by the Home Ec girls of the local high school.

A short address of welcome was given by R. T. Correll, and response was made by Ed Overholser, president-manager of the Oklahoma City of Commerce, and E. E. Burbee, director of the Oklahoma City branch of Bradstreet's agency.

After lunch a short time was spent by the visitors in looking around over Perryton. They were much impressed by the amount of business being done in Perryton by the great amount of wheat piled on the ground within the city limits, and by the general conditions of things. They were especially impressed by the way they were received, with the lunch that was given them, and with Perryton itself.

Those making the trip and the organizations represented were as follows:

Oklahoma State Fair, Glen McKennie; Security National Bank, Chas. Gunter; Sigmon Furniture Co., J. N. Schwoerke; Hughes Bozart Anderson, R. L. Bozarth; Rock Island Implement Co., one representative; Oklahoma Publishing Co., McHenry Tichenor; American National Co., W. B. Weaver; Texas Cement and Plaster Co., L. E. Downs; Bureau of Engraving, W. E. Marsh; Oklahoma Hardware Co., E. J. Aufrecht; Huck-ins Hotel, O. M. Harrison; Kingkade Hotel, A. Martin Kingkade; Board of Agriculture, B. D. Farris; B. M. & E. R. R.R., C. J. Turpin; O. K. Auction Co., J. P. Montgomery, J. H. Sparks; Midcontinent Life, R.

present incumbent, receiving 470 votes to his opponent, R. L. Keith's count of 299. The race for County Judge developed into the only real contest of the primary. The final vote was 298 votes for Grigsby; 274 for Correll and Bull a close third with 206 votes, Judge Grigsby being nominated by a margin of 24 votes. The only contest in the Commissioners' race was in Precinct 3 between R. A. Fuller and J. V. Stump, the former going in by a vote of 76 to 24.

Dan Moody swept the state in his race for Governor against "Ma" and "Jim" and Lynne Davidson. Ochiltree County gave Moody a vote of better than two to one over all other candidates for this office. At last reports Moody only lacked 760 votes of obtaining a majority. He was leading with 383,520 votes to 263,637 for Ferguson and 115,165 for Davidson. "Ma" Ferguson has announced her withdrawal from the primary and also that she will resign as soon as possible and that she hopes to be able to quit by November 1st. She has issued a call for a special session of the State Legislature to convene in Austin of September 13th for the purpose of passing legislation to validate the road bonds and to make any investigations or to consider any other subject or matter which may be submitted.

In the race for District Attorney between J. W. Payne of Perryton and J. A. Holmes of Miami, the latter is evidently nominated by a good margin although we have been unable to obtain the complete returns.

Collier Mallett and family of Brawley, California, are visiting in the country home of S. S. Mallett. E. Leonard; Southwestern Bell Telephone Co., L. J. Bullis; Miller, Thomas & Miley, R. J. Hudson; Campbell Russell; M. K. & T. Railroad, A. S. Johnson; Bradstreet's, E. E. Burbee; Goodrich Tire Co., J. J. Russell; Liberty National Bank, O. B. Tedrick; City Motor Cyclemen, Reese Gillion; Frank Cline; Fidelity National Bank, C. M. Bosworth; Morris & Co., J. H. Barrett; Chamber of Commerce, Ed Overholser, J. M. Clark, Norman Russell and fifteen members of band; Fidelity Scientific Laboratories, Dr. C. L. Nelson; Fox-Villet Drug Co., J. V. Adams; Oklahoma Tent and Awning Co., C. A. Hamlin; George E. Lance; Fisk Tire Co., J. E. Wilson; Oklahoma Gas and Electric Co., Geo. A. Davis, H. C. Parker; Walter McCracken; Webster Furniture Co., S. W. Webster; Henry E. Bragg Leather Co., E. J. Elliot; Magnolia Petroleum Co., Chas. Arnold, general supervisor, J. A. Newby, chief mechanic; Oklahoma Highway Commission, E. G. Guthrey, M. S. Blassingame; Shelbourne Motor Co., A. E. Kull; American National Bank, R. D. Wilbur; M. R. Coste; Klien Foundry, L. D. Crandall; H. N. Knight Supply Co., Pete Knight; Security Petroleum Co., E. F. Ross; F. Staas; McClelland Gentry Motor Co., M. H. Randall; R. A. Hadley.

VOTE FOR

**MRS. HARRIET PERRY
THORNTON**

**—————Candidate For—————
County and District Clerk**

MRS. Thornton needs no introduction to the voters of the county. She is a sister of Judge Geo. M. Perry, who is one of the pioneer citizens and organizers of Ochiltree County.

In soliciting your vote and support for Mrs. Thornton we feel that some of her qualifications for filling this important office should be set forth.

She is a graduate of the Grinnell College at Grinnell, Iowa and also has a business college education. Her long experience as stenographer in public work, abstracting, law and business makes her exceptionally well qualified for the office of County and District Clerk of Ochiltree County.

**A VOTE FOR MRS. THORNTON MEANS A VOTE FOR AN
EFFICIENT OFFICER**

FORMER COUNTY ATTORNEY DIES IN OKLAHOMA

W. F. Shipp, for many years located at Ochiltree as a practicing attorney and at one time County Attorney of Ochiltree County died last Friday at Waurika, Oklahoma. He was buried at Mineola, Texas.

At the time of death, Mr. Shipp was County Attorney of Jefferson County, Oklahoma. He entered the race for District Attorney for his district, but even though he had an excellent prospect to win, was compelled to withdraw on account of illness.

Mr. Shipp was one of the leading jurists of his part of the state. He was an honest, upright and courageous man and his place will be hard to fill. He had friends by the score in this county. His widow and children that are left behind have the heartfelt sympathy of this entire community.

KEPT MARRIAGE A SECRET FOR TWO WEEKS

Mr. and Mrs. Jack Jines succeeded in keeping the news of their marriage a secret for two entire weeks but it is now out and they are busy receiving the congratulations of their many friends in this city. Mrs. Jines is the charming daughter of Mr. and Mrs. E. H. Dodd, who moved to this city from Enid about three years ago to take over the management and operation of the Champlin Oil Corporation.

Mr. Jines is a home boy in every

New York City

Mr. R. P. Hurn,
Perryton, Texas

Dear Brother:

We have just arrived here and are about to get accustomed to the general outlay. The New York wholesale district is so large that it is going to take us a week longer to get through buying than we had thought, so we will be delayed a week in coming home.

I find that QUALITY MERCHANDISE can be bought here a lot cheaper than in the local markets and my wife says she is highly elated with the larger lines to select from. We are going back to St. Louis next week to buy our staples and shoes, so we will expect to meet you there next week.

The weather surely is hot up here, but we are enjoying ourselves as everything is so different.

Meet us in St. Louis, at the Jefferson Hotel, August 3.

Your brother,
B. C. HURN.

CHEVROLET WINS IN LIGHT CAR CLASS

With a gasoline average of 25.71 miles per gallon, L. H. Lawrence, of Monterey Park, Los Angeles, driving his own Chevrolet coach, was an

easy winner in the light car class at the first annual Lake Arrowhead Conservation contest held recently in California.

Entries were restricted to amateur drivers and privately-owned cars. Lawrence's gasoline average was the best turned in by any of the 13 drivers, participating in the contest which promises to become one of the classics of the western motor car world.

Starting from the Automobile Club headquarters in Los Angeles, the run ended 90 miles away at Lake Arrowhead, a mile above sea-level, in the San Bernardino mountains.

Lawrence's Chevrolet covered the distance on exactly 3.5 gallons of gasoline. No less remarkable was the car's demonstration of cooling ability. The day was the hottest of the present season and the climb over the steep Waterman Canyon switchbacks was made under a noon sun. Despite these facts, inspection at the finish revealed that the radiator had used only four pints of water, a record unsurpassed by any other water-cooled car in the run.

Lawrence bought his Chevrolet last January. In preparation for the conservation contest he had the valves ground and, after thoroughly lubricating the car, he made a few mileage tests in the course of his daily driving.

The fact that the run was non-professional in character, and was driven in just the fashion that the average owner would use on a mountain trip, made its result especially interesting. The Lake Arrowhead trip is one of the most popular Southern California mountain drives, and next year's contest promises to draw a very much larger entry list. A huge crowd witnessed the finish of the run, and the awarding of the cups to the prize winners.

Mrs. A. F. Stark has purchased a place in the southwest part of the county.

5,500 MILES IN LESS THAN THREE WEEKS

From July 5 to July 24, Robert Moore and Jim Youngblood, two young men from Los Angeles, now employed at the Johnson Motor Company, have covered 5,500 miles in a Ford touring car.

Leaving Los Angeles Monday morning at 10 o'clock, July 5, they drove to El Paso, Texas, arriving there at 4 o'clock the morning of July 7. They left El Paso at 10:00 o'clock the morning of July 8 and arrived in Perryton the next morning at 11 o'clock.

On Monday evening at 6 o'clock they left, drove to Mineola, Kansas, where they spent the night. Tuesday drove all day and night, and Wednesday night found them in

Green Castle, Indiana. They drove again all night Thursday and Friday evening they arrived in Pittsfield, Mass. They went on to Boston the next morning, and then drove on up into Maine, and covered all of the New England states.

On the return trip they left Boston at Tuesday noon and arrived in Perryton Sunday evening, going down the east coast as far as Washington, D. C., and then west on the Lincoln highway, stopping very night on the return trip, and making the round trip to Boston in thirteen days.

They report that there is a paved highway all the way from Topeka, Kansas to the eastern coast.

E. S. Trollinger purchased the Milt Todd place in Perryton this week.

WHAT IS HAPPENING IN THE PANHANDLE

Fire Sweeps Channing
The old Mercantile Building, Payne's stone building, and the stone building occupied by the Collins Realty Company, Channing, were destroyed by fire early Thursday morning.

A dance was held in the rear of the Mercantile building the night before and it is thought that the fire started from a cigarette, which probably smoldered in the rubbish until about 5 a. m., when the blaze was discovered.—Dalhart Texan.

Build Exhibit Hall
Plans have been made and material purchased for the erection of an exhibit hall by the Ellis County Fair Association on the Fair Grounds at Arnett. The building is a double T shape, 80x80x20 feet, with four entrances and a 20 square foot exhibit space in the center of the building. Work will start on the building just as soon as workmen can be procured.—Ellis County News.

Gas for Wheeler
We are informed by H. M. Wiley that a contract was executed in Amarillo last Saturday, whereby the Midwest Exploration Company, the company which purchased the J. O. Whittington holdings southwest of Wheeler, has agreed to furnish gas to the town of Wheeler.—Wheeler News Review.

Highway Designated
Commissioner W. C. Womble informs us that at last they have gotten a state highway designated through the north river oil field, although the exact route has not been selected.

Big Fire at Forgan
A fire of unknown origin started in the Harlow and Parks Garage at Forgan about 4 o'clock Tuesday morning, destroyed the building and contents within a few minutes. So rapidly did the fire advance there was nothing saved except the cash register. There were 12 or 13 tourists cars stored for the night which were a loss to their owners besides the new Ford cars in the sales room and other cars in storage. The building and accessories carried a small amount of insurance.—Laverne Leader Tribune.

Burns In Stubble Fire
Mrs. J. Seitz is dead, and her husband seriously burned, perhaps fatally, and six others received minor burns as the result of a stubble fire, six miles north of Pampa, Tuesday afternoon about three o'clock. The three children, ages 7, 9, and 15 years, Miss Gladys Daly, Andrews Evans and Ernest Midkies are the six who received minor burns. The parties had driven into the wheat field to burn the heavy stubble after cutting the grain. A whipping changing wind drove the flames toward them, and in attempting to get the car, which had stalled, out of the field, the flames caught them.—Miami Chief.

Court House Question Again
That extra 4-mill levy for the completion of the court house at Guyton is coming up again at the primary on August the 3rd.—Hooker Advance.

Trades Festival A Success
The long looked for event of the Southwest—The American Legion's First Annual Trades Festival—opened the doors of its tent to the public at 7:30 Wednesday evening at Hooker.—Hooker Advance.

EYESIGHT SPECIALIST
Established in Liberal, 17 years. Old and reliable—latest up-to-date methods and equipment. All work guaranteed—prices reasonable. Dr. Pellette, Liberal Kansas 22-tfc

The Herald \$1.50 a year in advance.

Manwarren & Cumbie, Proprietors

J. A. Jones and family came in last Thursday from Farmington, New Mexico, where they have been living for the past few years. They expect to make their future home here. Mr. Jones will no doubt go into business. He owns considerable property here in Perryton. The Herald is mighty glad to have the opportunity to welcome this fine family back into our midst.

J. H. Campbell, Enid, Oklahoma, is here looking after his wheat. He recently purchased one of the Joe Wiley farms.

W. L. Pope, Apperson, Oklahoma, bought a section and a half of land in the southwest part of the county this week.

Mrs. O. W. Heidrich of east of town was shopping here last Saturday.

WHY WEAR A HAT?

The anti-hat movement is gaining recruits. Begun by college youth, it is appealing to middle age. The other day, two baldheaded barcheaded men were observed sauntering up Fulton street. Their well-bronzed domes proved them to belong to the habitually hatless.

Certainly it is more sensible to leave a straw hat at home than to carry it around by the hand as most of New York's male population do now. A straw hat is about the last thing the average male city dweller needs. He is walking through canoned streets when he isn't riding in the subway. In neither place does he need a hat to protect him from the sun, the heat or the cold. In both places the wind currents are strong enough to make a straw hat a nuisance. They have to be tied on, sold no or held off. They refuse to stay put.

Then, there is the checking nuisance. You stand in line to put your hat in and you stand in line to get your hat out. And you pay a silver dime for the privilege of carrying it to the place where you check it and back to the place where you hang it. A straw hat costs its purchase price every two weeks for checking privileges.

It is a well known fact that the civilized man is bald because he wears hats. Hair grows where the wind blows. Go hatless for a summer and your hair will sprout more luxuriantly. Bob haired women revel in bareheaded luxury. Bob haired men are foolish if they don't do likewise. Golfers all go bareheaded now except in the hottest sun. Why shouldn't city workers get skull top contact with the out of doors? Why wear hats?—Brooklyn Eagle.

Mr. and Mrs. T. P. McLain and family visited friends at Garden City, Kansas, last week end.

D. W. Dunnahoo of the Wawaka community was trading here last Saturday.

H. R. Russell was among the many trading in Perryton last Saturday.

Sheldon Wilson, who has been employed by the American Express Co. of Kansas City, for the past three years, arrived home last week to spend several months visiting in the country home of his parents, Mr. and Mrs. H. J. Wilson, who live east of town. Sheldon will put out a wheat crop for himself while here.

Mr. and Mrs. F. M. Roach of Colorado Springs, were guests of Mr. and Mrs. H. J. Wilson, last Thursday.

RED TOP COLUMBIAN GRAIN BIN

An automatic machine takes flat steel sheets in at one end and turns them out at the other, accurately punched, flanged, corrugated and formed—ready to be belted together into sturdy Red Top Bins. It forms a 24 gauge, triple joint corrugated bin wall of the same construction as famous Columbian Style "A" 24-gauge Bin, of which more than 50,000 have been sold. Galvanized steel throughout. Galvanized roof has heavy coat of red metal preservative paint sprayed on. Fully equipped—everything furnished except platform and chain. Through right into the Red Top Bin. Ventilating system, corn grain. Columbian Steel Tank Co. 1401-1403 W. 12th St., Kansas City, Mo.

The Phenominal Growth of the Banks of Texas

should be a source of pride and interest to every citizen of the state.

Texas is growing in wealth and population and the rapid growth of the many banking institutions is evidence of this growth, and the demand of a prosperous, thriving state for more and better banking facilities.

Every depositor should be proud of the growth of his bank, and the service and co-operation that is offered through his banking connection. This institution invites the full confidence and co-operation of its depositors.

Perryton National Bank

Read our message in this week's

Farm and Ranch

ALFALFA ITEMS

A welcome rain fell Saturday which will be of great benefit to the grass and row crops and by no means, the least important, the watermelon crop.

Mr. and Mrs. T. L. Winfrey of May, Oklahoma, father and mother of Mrs. Mattie Branham; Mrs. Ida Kelley, Mrs. Branham's sister, and her two sons from Kansas City, Missouri and Joe Fanning of Los Angeles, California, a nephew, spent the week end in the Branham home.

Lowell Rose spent Saturday night with R. H. Moore, Jr.

J. H. Callihan has returned from Carson County where he looked after the harvesting of a big wheat crop on his land.

B. L. Drake and daughter, Mrs. Frank Cox and little Annabelle Cox, left Monday via the gasoline trail for a visit in Arkansas.

Mr. and Mrs. Norris Merydith and son, Billie; Mr. and Mrs. Otis Kizlar and Coy Merydith visited at the Moore home last Sunday afternoon.

Mr. and Mrs. Harry King and son, Jack visited in the home of Mr. and Mrs. Dave Wright last Sunday.

Tom Branham has returned home after several weeks work in the wheat harvest on the plains.

Mr. and Mrs. Dave Wright visited in the Moore home Sunday evening.

A. J. Kelley, owner of our telephone system, was in the community last Saturday.

Dave Shanks, our genial County Clerk, was in the community last Friday on business connected with

his campaign for re-election.

Several from this neighborhood attended the sale of W. H. Brown near Notla last Thursday.

Mr. and Mrs. Ed Whippo visited in the home of Mrs. B. J. Jackson last Monday night and Tuesday.

Joe Wopensky has returned to Mrs. B. J. Jackson's after spending several weeks on the plains helping in the wheat harvest.

W. E. Merydith and son, Coy; Dave Wright, R. H. Moore, Carl Freeman, J. H. Callihan, George Dutcher and Charlie Jackson went to Canadian Monday on business connected with the oil leases.

O. E. Brock is working on the J. A. Russell place near Ochiltree preparing ground for wheat sowing. Drilling in the oil test well, Moore No. 1, has ceased temporarily because of trouble with the water supply.

Mr. and Mrs. R. H. Moore and son, R. H., Jr., left Tuesday morning for the mountains of Colorado to spend the remainder of the summer months for the benefit of Mrs. Moore health. They went in their car and expect to camp. (The Herald editor extends best wishes to Mrs. Moore and sincerely hopes that this trip to the cooling, pine-clad slopes of the Rockies will be very beneficial to her health.)

LONE TREE BREEZES

Byron Fletcher, who was badly injured while helping combine on the Holdeman farm, is reported to be almost well again.

Whether you are calling your next door neighbor, or some friend or relative by long distance, they are as near as your Telephone.

Have us install a telephone for you today. You need a phone in your home. It is not only a convenience for you but for your friends who already have telephones.

FULTON ITEMS

F. J. Koch and children, Ticie, Anna and Mrs. R. S. Robinson, attended a sale near Notla, last Tuesday, at the home of Mr. Koch's sister, Mrs. W. H. Brwon.

Mr. and Mrs. T. B. Oliver and family have moved to the Apple farm on the D—C—D near Wolf Creek.

We are very thankful for the fine rain that fell last Saturday night. About two inches was reported in the Lone Tree community.

The Wagner family left last Wednesday evening for Tulsa, Oklahoma, upon receiving word that Mrs. Wagner's brother-in-law was badly injured. The injuries proved fatal. They remained for the funeral and returned home last Saturday night.

Mrs. Dave Steiner and children and Mrs. Lea Zook and children have been visiting in the home of their aunt, Mrs. T. S. Fletcher.

Miss Clara Wimber visited in the Sweigart home last Friday.

Mr. and Mrs. W. H. Brown, John and Minnie Brown; Frank, Goebie and Birt Oliver; Emery Koch, Lillian Cade; Mr. and Mrs. Walter Tate and Mrs. T. A. Seay and children visited in the F. J. Koch home Sunday.

Mr. and Mrs. Earl Johnson and son, who have been living on the Meade farm have moved to a place near Spearman.

Mrs. Sweigart and daughter, Alice, returned home Friday from Shattuck, where Alice had her tonsils removed by Dr. Newman. She is getting along nicely.

Mrs. Harve Holdeman is rapidly recovering from a severely burned left arm.

Mr. and Mrs. Walt Mason of Goltzy, Oklahoma, are visiting in the home of Mrs. Mason's parents, Mr. and Mrs. Mounts.

Mr. and Mrs. Irwin Seaton have moved from the R. Benscoter farm to a place near Tyrone.

Irvin Berkstresser and family entertained his sister and family from Oklahoma City last week.

Frank Brooks and Evelyn Seaton, daughter of Mr. and Mrs. L. H. Seaton, were married at Liberal, July 21. They are living on the R. Benscoter farm.

Mr. and Mrs. J. G. Barker and Mrs. Barker's mother and sister, were calling on friends here Tuesday.

HIGH GRADE WORK

When you prepare in this school so that a telegram like this one to Riker and Dodson at San Angelo, Texas, can be written for you there is no chance for you to fail to get a position:

Riker and Dodson, San Angelo, Texas, January 2, 1926. Agnes Daniels is a good stenographer, bright, honest, good character. You can trust her, signed L. E. Jarrell.

Miss Daniels gets \$150 per month and on Thursday of this week another telegram was sent to the National Bank of Commerce at Amarillo, Texas, for Miss Cova Balch. She got the place at once by wire and leaves at once to take the place at \$100.00 per month.

Why call Shawnee for business help from so far. There is a good reason for this and we will be glad for the public to investigate our school.

Shawnee Commercial College,
203 E. Main,
Shawnee, Oklahoma.

Woodward Commercial College

Markers of Respect

As our thoughts turn with love and reverence to those who are no longer with us, we wonder, have we done our part? Before another day is passed, come in and select the stone or monument to mark the grave. It is the last tribute that we can offer to a loving friend or relative.

Dr. Frank Crane Says--

Our Friends Are Part Of Us.

I confess to being strongly affected by this liquor that runs from heart to heart through the spirit veins that web the fabrics of all souls. When I meet one who does not like me it gives me a kind of depression. I am sick at my stomach a bit, I want to run.

Some people enjoy enemies. They enjoy the spiritual attack. Dislike rather tones them up.

But there are those, including me, who have such weak heads the least intoxicating draught of sympathy or antipathy sets them humming.

This class includes also dogs. I have been over to see a lady who has a dog she calls Ford. Her husband is in the automobile business. I will not offend by saying what Ford looks like. There is a point of ugliness especially in dogs, when passed before the realm of beauty. He is a sort of glorified microbe. But his main trait is affection.

Ford is a veritable sensitive plant. When his mistress speaks crossly to him he shrinks like a withered leaf. His light of life has gone out. He is killed. He is the picture of utter, abject misery.

And when she speaks kindly he ties himself into bow-knots, leaps, runs barks, laughs and turns somersaults.

So when I say I am human as a dog, I feel to be boasting.

Sympathy, ethyologically, means "suffering with," and we usually use the term for the communion of griefs only. That is good of course. It helps a lot for any one to feel sorry because your have bumped your nose. Still, it is a deal easier to share grief than joy. People who understand our moods of happiness are rarer than they that comprehend our woe. If you would be my real and longed-for friend, I pray you cultivate a capacity for sharing my lighter moments. Then I know that you are genuinely sympathetic, that between us run the cords of a unity of heart and soul that mean something.

You can't escape. Sometimes you think, when you have been particularly oppressed by the woes of others, that you would be happier if you could crawl into your shell, shut out the rest of humanity and get along with your own personal joys and glooms.

But it will not work. To retreat from your kind is as if the land ran away from the rain or the flowers hid from the sunshine. It means dryness, hardness and death.

There are certain goods you get from life as you go along. For instance, there is food and drink for your belly and clothes for your back, shelter for your head and money for your pocket; there is the impact of familiar things at home, the cat and the dog and the old blue china tea set; there is a cigar for a man and a new dress for a woman; there is a deal of enjoyment one way and another, but not the least considerable of all satisfactions in this vale of tears is that warmth which comes to the cockles of your heart when you meet the man who takes to you and believes in you and the woman who understands and likes you.

This world would be a poor slave-pen if all appreciation were banished and there were no more greetings of friendship and fat hours of fellowship. For good or ill my friends are a part of me, and so are my enemies.

*** WHAT OTHER EDITORS SAY ***
The Panhandle Herald has discovered that you can tell a bungalow from a garage by remembering that the garage has the biggest doors.

Next to making mistakes, says the Iola (Kansas) Register, the easiest thing in the world is to criticize the mistakes of others.

A press report the other day from New York gave mention to a former President "Thomas Buchanan," which reminded the Kansas City Star that he was the immediate predecessor of President Roscoe Lincoln.

Professor Marconi thinks the planet Mars has been trying to talk to us for thousands of years. They must have the same telephone service we have in this country, muses an exchange.

Americans called taxation without representation tyranny 150 years ago. Today they call taxation with representation worse names than that, sighs the Panhandle Herald.

The Des Moines Capital says that Government reports show that the American people spent forty-seven million dollars for chewing gum last year. Hereafter the United States will be known as the wide open faces.

We never knew just how much a young man should be making in order to be referred to by the society editor as holding an important executive position with the company, but the Ohio State Journal says it's

"Strive for the higher things," was the advice of a lecturer before an audience of women who had already shortened their skirts, built up their heels, raised their voices and heightened their complexions, states an exchange.

An exchange reports that the following letter was received by a local business firm:

Please send me one of your razors at 50 cents, for which I enclose post office money order.

P. S.—Have forgotten to enclose 50 cents, but no doubt a firm of your standing will send me one.

The business sent back this reply:

We beg to acknowledge your esteemed order and have pleasure in sending the razor which we trust you will like.

P. S.—Have forgotten to enclose the razor, but no doubt a fellow with your cheek don't need one.

My grandpa notes the world worn cogs

And says we're going to the dogs; His grandpa in his house of logs Said things were going to the dogs.

His grandpa in the Flemish bogs Said things were going to the dogs. His grandpa in his hairy togs Said things were going to the dogs.

But this is what I wish to state: The dogs have had an awful wait! —Pennsylvania School Journal

Laugh and the boss laughs with you Grouch and you lose your job; For many a sale has been clinched with a smile, But gosh darn few with a sob. —Broadway Ballade

By
ARTHUR BRISBANE

SAN FRANCISCO'S PLAN HOW MANY CHILDREN A ROCKEFELLER RULE 5 BILLION ELECTRIC HOURS

Dr. Abbott, of the Smithsonian Institution, in 30 years' study, discovers that the heat given off by the sun varies greatly from day to day and year to year. The remarkable thing is that, sending its rays through more than 90,000,000 miles of ether at absolute zero, the sun has kept us warm enough to live for at least 500,000 years. One cosmic freeze would wipe us out.

There is no big and no little in science. Dr. Abbott spent 30 years studying the sun, which is a million times as big as our earth. Darwin spent thirty years studying the earth worm, half the size of your little finger, but longer, getting information as to the creation of our fertile soil.

San Francisco citizens develop scientific philanthropy. A meeting called by Messrs. Merrell, Fleischacker, Shoup, Crocker and Miller discussed plans for making money useful to the community. These men are included in a group of fourteen worth more than \$100,000,000, and determined to use their money wisely for public purposes, charity, science and education. They are studying the Rockefeller and other foundations, each will give what he can to a central fund and they intend that the money be used efficiently.

That is an improvement on the ancient method, when each of the fourteen would have led a selfish, self-indulgent life, and then, separately at the last minute, would have given money as a bribe to Providence in the hope of escaping hell and gaining paradise. The best way to achieve that result is to give to other men.

The Lord does not need money.

John J. Hanlon, of Chicago, tells the national Government he intends to get married and wants "any literature on the Government's ideals about marriage, particularly the size of the family the Government wants one to have."

The ideal family is as many children as the MOTHER wants, and can take care of, and every mother should be allowed to decide for herself how many.

Some small families have done wonders. Alexander, the Great, had no brother or sister. Caruso, on the other hand, was the nineteenth child; Napoleon was one of many.

The size of the family is the mother's business, not the Government's business.

John D. Rockefeller, Jr., wise man, will not allow his children to have their pictures in newspapers. He doesn't want them to "feel important before they have done anything worth while." He doesn't even want his children to know that they are very rich—which also is very wise.

One of Mr. Rockefeller's children, asked to contribute \$50 to some worthy purpose, said quite sincerely: "They must think we are Vanderbilts."

That innocent child doesn't know that her father and grand father could buy the whole Vanderbilt family every little while, and not know the difference.

Sometimes Uncle Sam make money. The big sugar men of the United States formed a "sugar equalization board to control prices in the war. The Government put in \$5,000,000, and yesterday received from that board, which ceases to exist a check for \$11,000,000, making a total of \$41,000,000 profit for the Government on its investment of \$5,000,000.

Let there be light and power, is the motto of New York City. That one American community uses five billion kilowatt hours of electricity every year, more than the total amount developed by all the generating plants in Greece, Denmark, Latvia, Yugoslavia, Poland, Hungary, Norway, Rumania, Turkey, Switzerland, Sweden and The Netherlands. Those twelve countries have 109,000,000 population, nearly twenty times the population of New York City—almost the population of the

United States.

The people's use of electric power and telephone is the measure of its prosperity and enterprise, if not actually a measure of civilization.

VALUABLE SHADE TREE FOR TEXAS BECOMING AVAILABLE

By A. D. Jackson, editor of Texas Agricultural Experiment Station.

The Chinese Elm at present gives promise of being one of the best trees for shade and windbreak planting in west Texas according to R. E. Karper, Assistant Director of the Texas Agricultural Experiment Station. This is a new tree first introduced a few years ago from China by the office of Seed and Plant Introduction and which has been tested out for the past seven years by the Experiment Station at Lubbock. Recognizing the merits of this tree and as adaptability to the western part of the state, the Station has during the past five years, propagated and distributed some ten thousand trees of this variety in widely scattered areas. Only favorable reports have been made on the performance of this Elm from the various places it has been tried throughout the state.

The people are fast becoming informed as to the desirability of this Elm and there is a big demand for it. The supply within the State up to this time has largely been propagated by the Experiment Station for trial and distribution. The Chinese Elm is propagated readily from fresh seed and in the absence of a supply of seed fair success has occasionally been secured from root and hardwood cuttings. Many nurserymen in the state are becoming interested in the possibilities and in the sale of this tree for planting in Texas. A few of the nurserymen now have a limited supply of trees of this variety available and many others are also now planning to propagate it in considerable numbers.

A recent letter to the Experiment Station from the University of Nanking, indicates that large shipments of seed of the Chinese Elm will soon be received in the United States. The letter states:

"We have orders for about 300 pounds of Chinese Elm seed for this spring's delivery and are now collecting the seed at three different places. At least we hope that conditions are sufficiently peaceful where we sent the men so that there will be no difficulty in making the collection and that we will be able to forward the seed to our various people in the U. S. A."

"From what you say I imagine there will be considerable demand for this for sometime to come and if it continues to do as well as it has done will undoubtedly result in large plantings throughout the semi-arid west."

Many of these seed will be planted in the State and it is hoped that an adequate supply of this tree will soon be available. From experience with some four or five importations of seed direct from the University of Nanking, Nanking, China, in the past few years according to Mr. Karper, it has been found that difficulty is occasionally encountered in getting good germination. This seems to be mainly due to the fact that the seed ripen in China in May and by the time they reach this country the best time to plant is past and the hot, dry months are not so favorable for planting tree seeds. In spite of this fact, however, the station has had better success in planting the seed with proper care immediately upon arrival than when the seed were held over for planting until the following spring. These Elm seed do not retain their viability well and when held over until the following May or April, which is the best time for planting most seeds of this kind, the germination is usually very low. The shipments of this seed will arrive from China in June or early July and the best success may be expected by planting immediately upon arrival and giving the seedbed from one half to full shade during germination and the young seedling stage.

Fresh seed give a high germination and produce seedlings in abundance so that once a dependable supply of seed is developed from trees in this country it will be easily propagated. Trees on the Lubbock Station have borne a heavy crop of seeds the past two years, but they have mostly been destroyed by late frosts before completely matured. Enough good seed were saved this year to furnish several thousand plants. A more dependable source of seed will likely be further north in the Plains area where the trees are held back from putting on a seed crop in the spring so as to escape the later frosts.

The Chinese Elm is a drought resistant tree having an extensive surface root system. It has numerous small leaves, makes a dense shade and is remarkably fast growing and easily transplanted. It is apparently especially valuable for the western part of the state where there are practically no suitable shade trees native and where a dependable tree of these habits is so badly needed for

both city and farm planting. Its growth there up to this time indicates that the Chinese Elm is a distinct and valuable addition to the meagre list of trees thriving in this region and from trial plantings in other sections it also promises to be of considerable importance as a desirable shade tree in other parts of Texas.

Mrs. P. H. Sebastian, who lived in the Blue Mound neighborhood for the past several years, recently moved to Perryton, and will make her home with her daughter, Mrs. C. R. Nelson, for the present. Blue Mound's loss is Perryton's gain in having Mrs. Sebastian as a resident.

Attorney A. S. Dickson of Oklahoma City was a business visitor in this city on Thursday of last week.

EPWORTH LEAGUE SPECIALTY

The Epworth League has an unusual attraction for Sunday evening, August 1st. Miss Gladys Glasgow has consented to favor us with a vocal solo for the first time this summer. Miss Glasgow attended college at Canyon last year, where she took voice under experienced teachers. Incidentally Miss Glasgow was on the honor roll every term. The solo will be the outstanding feature of the evening but there will be a good supporting program.

Remember, every Sunday evening at 7:30. Strangers are welcome. Come!

—Publicity Agent

JAIL WEDDING

"Sundown Slim" widely known criminal was married in the Amarillo jail, last week, to a pretty brunette widow, named Lucile Toliver. She secured the license at Panhandle and hurried to Amarillo and demanded to be allowed to marry Slim, the officers did not object and it seems Slim was caught in a conjugal mood and was willing to be a participant in the ceremony. Just why she wanted to marry a criminal, when there was plenty of better looking, free men at large was not stated. There is said to be three things the Almighty does not know. The result of a jury, how an election will go and who a woman will marry.—Hutchinson County News

W. M. U.

The ladies of the W. M. U. met on Thursday, July 22nd, with Mrs. E. G. Pennington at the pastor's home where a very interesting program was given on "Nigeria," after which a social hour was enjoyed by all.

The next meeting will be at the church on Thursday, July 29th at 2:00 o'clock p. m. The time will be spent in tacking comforts. There are many ladies who should attend these meetings and we invite and urge you to come.

—Reporter

Mrs. Tom Carver of Canadian has been visiting in the home of her parents, Judge and Mrs. J. M. Grigsby.

Paul Ballew, salesman for Thomas & Askins, the local dealers for the Dodge Brothers cars delivered two cars the latter part of last week. A. J. Trollinger got a special coupe.

ROCK ISLAND BREAKS DIRT ON NEW LINE

First dirt has been broken on the new railroad from Liberal to Amarillo, the construction gangs getting down to active work in Amarillo Monday. The plans of the roads are to have the grade built and fifteen miles of track laid by August 1; twenty-five miles by October 1 and the remainder of the forty-two miles to the river completed by November 1.

The Rock Island expects to have a big lot of construction camps scattered from Amarillo to the river in order to handle the grade work which has to be completed rapidly if the schedule is maintained.

The new line is costing in the neighborhood of \$8,000,000 and it is estimated that of this amount one million will be spent on the bridge which is to cross the Canadian. It is also estimated that the new railroad will open for development approximately 3,000,000 acres of land which is now almost wholly ranching propositions, or farmed in a very small way.

That actual work has commenced on the line, even though it is on the other end of the road, is gratifying news to everyone who has been looking forward to the actual commencement of the task with considerable interest and hope. The matter dragged along for months until many despaired of the line being built, but now that the initial steps have been made this should give the weak-hearted renewed courage. It is now up to everyone to see that the Rock Island is safely brought across the country from the river into Liberal. When that is done a most wonderful stretch of country will be open for development and thousands of new homes will be provided along this route.—Liberal News

ROCK ISLAND GAINS SANCTION FROM TEXAS

An amendment to the charter of the Chicago, Rock Island & Pacific Railway Company for the construction of a branch line from Amarillo to the Oklahoma state line through Potter, Carson, Hutchinson and Hansford counties, was granted Friday by the secretary of state, Emma Grigsby Mesharg.

The line will traverse the Panhandle oil fields and wheat belt and cattle raising section. From Texas it will cross the Oklahoma Panhandle to connect with the Rock Island line entering Liberal, Kansas. The Texas part of the line will be 104 miles long. The amendment was approved and authorized by the attorney general's office.—Liberal News

About Your Health

Things You Should Know

by John Joseph Gaines, M. D.

SUDDEN IN ACTION

Richard Roe was found dead in bed this morning. He appeared in the best of health yesterday, and partook of a heavy dinner at 6:30 last evening, as has been his custom for fifteen years. Deceased was 55 years of age, and is supposed to have had heart disease.

So much for the news item. The facts are that Mr. Roe had been indulging in gastronomic debauches known as six o'clock dinners, until his blood-pressure, responding to protein intoxication, had arisen to unknown heights; his arteries had taken on the consistence of old "inner tubes", hence the "blowout" was inevitable. The blood-vessels were not old in years but they were decrepit from abuse.

Too many men are dying at the ages of fifty to sixty years. And, since ignorance of the law does not condone the offense, they are to blame for themselves inviting the catastrophe. More men are dying of six o'clock dinners in America today than from cancer!

The writer has consulted many ruralists whose ages ranged from seventy to ninety years. These men do not die of high blood-pressure, nor do they indulge in the six o'clock debauch. The "light supper" has been the unwritten law of rural communities for many years. It remains for the city resident to introduce and practice so-called up to date methods of living, and he is paying the penalty for his disregard of the laws of right living, in length of days.

Whenever a man dies in the prime of life, not the result of accident, or of epidemic disease, we should inquire into his manner of eating. Very few people die of business pressure; they die because they ignore the law of self-denial and glut themselves with highly-seasoned foods at improper hours. The penalty is certain.

ABSORPTION & DIGESTION

The human body is nourished by the two processes, digestion and absorption; in the former, the food is saturated with digestive fluids in the stomach, and its particles macerated and rendered fit for use in the tissues that require nourishment. The digestive process completed, the substances are passed on into the intestine, where absorption deposits them in the blood-vessels through suitable channels; absorption is automatic and indiscriminate; if poisons reach the absorbents, they are taken up with quite as much avidity as if they were harmless, and here is where mischief starts.

Most all of the fluid portion of food is absorbed, whether it has been digested or not. If not properly prepared in the stomach, it is unloaded into the circulation in a form that cannot be taken up by tissues requiring nutrition, and the patient fails to understand how he eats so much, yet feels bad all the time and loses weight. The problem is with the digestive process which goes, or should go on in the stomach.

When the body tired at the end of the day, the digestive processes are slowed down as well. A heavy meal is thrown into the stomach, at an hour when its efficiency is lowest. Only a fraction of the meal is digested—yet it is all absorbed! Is it any wonder that the patient awakens with "that tired feeling" and experiences loss of vitality with no desire for breakfast, and with an un-fitness that is no less than a warning of danger. Breakfast should be a good, substantial meal; noon-dinner the same; and at evening, take the minimum requirement. This is the plan of the oldest and most vigorous people with whom I have come in contact.

Mr. and Mrs. Chas. E. Orr and son, Joe, are here from Amarillo this week. Mr. Orr is District Manager for the Massachusetts Protective Association, which writes a health and accident policy that is non-cancellable for members of the Masonic fraternity only. This company has a number of policy holders in this vicinity who are well pleased with their contracts and Mr. Orr is writing up many more on this trip.
