American Ground Forces to Be Used Against Invaders

U. S. TRANSPORT BURNS ON KOREAN FIELD—A four-engined C-54 U. S. military transport plane burns on a South Korean landing strip after being straffed by fighters from North Korea. This is the first combat photo from Korea to be received in the United States. (AP wirephoto from Army Radiophoto.

WASHINGTON, June 30. (AP)—President Truman today gave a go-ahead for use of American ground troops in Korea. Defense officials said they are already on the way.

Just what forces are to be used is a military secret. Secretary of Defense Louis Johnson, who said they are on the move, explained he could "say nothing that will be of any use to the other side."

On that point, a White House announcement said only that Gen. Douglas MacArthur had been authorized "to use certain supporting ground units."

The President announced he has authorized

1. The United States Air Force to fly specific military missions into Northern Korea wherever necessary.

2. "Naval blockade" of the entire Korean coasts.

3. Gen. Douglas MacArthur "to use certain supporting ground units" in the efforts to turn back the Communist invaders of Southern Korea.

AFTER MEETING

These new moves were announced after a cabinet-congressional conference at the White House.

They followed reports to the Defense Department that a North Korean force spearheaded by 40 to 50 armored vehicles had broken through southern defenses south of Seoul yesterday.

"At a meeting with congressional leaders at the White House this morning, the President, together with the secretary of defense, the secretary of state, and the joint chiefs of staff, reviewed with them the latest developments of the situation in Korea.

"The congressional leaders were given a full review of the intensified military activities.

"In keeping with the United Nations Security Council's request for support to the Republic of Korea in repelling the North Korean invaders and restoring peace in Korea, the President announced that he had authorized the United States Air Force to conduct missions on specific military targets in Northern Korea wherever militarily necessary, and had ordered a naval blockade of the entire Korean coast. Gen. MacArthur has been authorized to use certain supporting ground units."

LITTLE EXPLANATION

There was no immediate elaboration here as to what these "certain supporting ground units" might be.

Dispatches from Korea have made it plain, however, that the South Koreans are particularly in need of artillery and anti-tank weapons.

MacArthur has in his Far East command an Army strength of 123,000 men.

This includes four divisions. They are the First Cavalry Division—an infantry division despite its name; the Seventh Infantry Division, the 24th Infantry Division and the 24th Infantry Division.

Gen. J. Lawton Collins, the Army's chief of staff, said after a recent visit to the area that the Far Eastern troops are in a high state of readiness and training.

WHERE STATIONED

The U. S. ground troops are stationed in Japan, Okinawa and other islands of the Ryukuy chain and the Philippines.

Mr. Truman's decisions presumably were taken on recommendation of Gen. MacArthur. The Defense Department had disclosed that a report had been received from him covering his personal inspection of the Korean situation.

There was immediate and general backing in Congress for Mr. Truman's actions.

Rep. Eaton (R-NJ), one of those called to the White House, told reporters:

"We've got a rattlesnake by the tail and the sooner we pound its damn head in the better."

Eaton is an ordained Baptist minister. He is the ranking Republican on the House Foreign Affairs Committee.

WHERRY COMMENT

Sen. Wherry of Nebraska, the Republican floor leader, said he had "full confidence" in Gen. MacArthur, but thought the President should seek the advice and consent of Congress in the rapid developments.

He added:

"I think Congress should be required to share the responsibility of whatever acts the President takes."

Sen. Wiley (R-Wis) said he supports the move but commented:

"It's a load of dynamite. The question is how big a charge of dynamite it is."

Secretary of Defense Johnson, in response to questions, said as he left the White House, that actions under the new authorization already have been taken.

He would not say what units are moving to Korea.

A reporter asked whether a Chinese offer of 30,000 troops had been accepted.

Johnson was not ready to say about that.

Asked whether MacArthur recommended the move, Johnson said "this action was recommended by the Defense Department."

More Than 200 Americans In Dusty Field Headquarters

(Associated Press Staff)

AMERICAN HEADQUARTERS, SUWON, South Korea, June 29. — (Delayed) — It's a little primitive yet but a field headquarters is being whipped into shape on the edge of dusty, bewilderd Suwon.

When Gen. MacArthur walked into it today he might have been back to some of the temporary headquarters he used in the Phillippines. This one is an abandoned school with dirty windows.

More than 200 Americans of all ranks are here now. Some came from Japan but a majority were assigned to the Korean military advisory group.

The last of the KMAG personnel, about 45 officers and men, got out of Seoul yesterday before it fell. They crossed the Han River in a leaky boat and like most of the 22 miles to Suwon.

MADE IT

"We weren't in shape for that sort of thing but we made it," said Corp. George E. Miller of Bartlesville, Okla.

Brig. Gen. John H. Church, MacArthur's field commander, 13 other officers and two enlisted men are here from Tokyo. They have set up a branch of MacArthur's headquarters.

Working with them are Maj. Gen. Choi Byung Duk, commander of the South Korean army, and other top Korean officers.

The job of the Americans is to co-ordinate operations, advise the South Koreans and, in practice anyway, give them added battle spirit.

KMAG officers are stationed with principal Korean outfits and do their best to maintain liaison with headquarters.

POOR SETUP

Communications are bad, the roads poor and technical equipment almost non-existent. The food at headquarters still consists mainly of rice, gruel and coffee. Accommodations would hardly be called adequate.

Associated Press Correspondents Tom Lambert and O. H. P. King are sleeping out under the trees. They, like many others, ar still wearing civilian sports cloths now so thickly covered with the fine dust of the region they resemble coal miners.

But these things will be straightened out in time. The kind of war MacArthur intends to direct will depend upon airtight co-ordination and modern organization.

This headquarters is connected to Tokyo now by only skimpy communications. But a complete planning board already is functioning in Tokyo to handle a multitude of details ranging from aerial co-orination to supply.

IMPORTANT

The importance of Suwon lies in it nearby airstrip, a concrete runway on the edge of rice paddies. The field has no control tower, no lighst and no buildings.

But it can handle the heavy U. S. planes that are ferrying in badly needed ammunition and other supplies.

The loss of this aerial beachhead would seriously handicap American ability to continue providing badly needed supplies for there are no other fields in this area which can accommodate these big planes.

HEADS PACIFIC AIR FORCE —Lieut. Gen. George E. Stratemeyer, above, is General MacArthur's air commander. He directed American operations from China in the latter stages of World War II. (AP wirephoto).

Many Inquiries, Registrations At Draft Board

Draft-age men who had forgotten to register have been reporting to the office of Forrest W. Beavers, Scurry County registrar, this week.

Beavers said yesterday that seven men had registered this week, and that six of them were late in reporting to the draft office. One man had waited two years to register, he said. There have been 21 registrants this month.

Many requests as to how to notify local draft boards of the registrants' whereabouts have been received, Beavers said. Holders of selective service cards should nitify the draft board whose number appears on the card.

Men who registered in Scurry County should notify the district office in Sweetwater of changes in address. Snyder is a part of a three-county district comprising Scurry, Fisher and Nolan counties.

Snyder Businesses Will Close For July Fourth Observance

Snyder business houses will be closed only one day, Tuesday, in observance of Independence Day, the Scurry County Chamber of Commerce announced yesterday.

The banks also will close only the one day.

Most of the insurance agencies in Snyder have agreed to close Monday and Tuesday for the Fourth of July holiday season, Tom Deffebach, of the Deffebach Agency, said this morning.

The agencies which will be closed are Snyder Insurance Agency, Hugh Boren & Sons Insurance Agency, Holcomb Insurance Agency, Jack Jones Insurance Agency, Wetzel Walters Insurance Agency, and Lewis-Stokes Agency.

Senate Expected To Expedite Cut In Excise Taxes

By EDWIN B. HAAKINSON
(Associated Press Staff)

WASHINGTON, June 30. — Top-speed action was promised today by Senate leaders on a House-passed bill to cut excise taxes by $1,-910,000,000.

The measure whipped through the House yesterday by a whopping 475 to 14 margin. Only the Korea crisis appeared to cloud the bill's prospects in the Senate. Some lawmakers have questioned the advisability of trimming excises in the face of the current war scare.

START MONDAY

Democratic Leader Lucas of Illinois said the tax-writing Senate Finance Committee will go to work on the tax bill behind closed doors Monday.

"Only brief hearings are necessary," he said.

Republican Senate leaders pledged co-operation on speedy action but carefully avoided support for the $433 million boost in corporate taxes, or for other new-revenue provisions voted by the House.

Sen. Taft (R-Ohio), GOP policy chairman and a member of the finance committee, told a reporter he thought "not more than two weeks of committee hearings would be necessary."

PROVISIONS

The bill would wipe out or reduce wartime federal sales taxes on such items as furs, jewelry, watches, luggage, cosmetics, auto tires, movie and sports tickets, night clubs, cameras and film, telephone bills, travel tickets and many others.

House moves to make the tax slash "veto proof" by boosting corporate taxes and plugging a number of loopholes in federal revenue laws raised considerable criticism, especially among Republicans.

Armored Red Column is Near U.S. Headquarters

By RUSSELL BRINES
(Associated Press Staff)

TOKYO, Saturday, July 1. (AP)—An armored column of North Korean Communists was at least 15 miles south of the Han River in South Korea today and was threatening the American headquarters position at Suwon, an authoritative military source reported.

This news came as President Truman authorized use of U. S. ground forces to combat the Communist invaders.

Gen. MacArthur's headquarters officially confirmed the invaders had made a break-through southwest of Seoul (but apparently did not officially disclose the 15-mile penetration).

The confirmation was withheld until receipt of news dispatches from Washington that a Defense Department spokesman said 40 to 50 Red armored vehicles had made the break-through.

CONFLICTING REPORT

Authoritative informants, however, said the Reds were no farther than eight miles from Suwon by 1 a.m. today and probably were closer.

The broad Han River is the principal natural barrier between the Red-captured southern capital of Seoul and the temporary southern capital at Taejon, 90 miles south of Seoul.

An earlier South Korean report said southern troops had re-entered the suburbs of Seoul on the heels of fleeing Communists. It was not clear whether this report still stood, although it did not necessarily conflict with the news of a Red breakthrough southwest of the city.

MacARTHUR ORDER

Gen. MacArthur ordered the raids against Red invasion bases and installations "wherever they are."

His order came after Britain, Holland, Nationalist China, Australia and New Zealand pledged active support in the battle against the invaders. The pledges included air, sea and ground forces, the latter reportedly being considered by Nationalist China.

Clarence Ryee, South Korean information director, announced the execution of air raids on North Korea from the provisional capital at Taejon, 90 miles south of Seoul. He also told of the southerners reentry into their capital, which fell Wednesday to the invaders.

Ryee said "our air force" blasted Pyongyang, the northern capital last night. He did not further identify the air raiders.

TASS REPORT

But Tass News Agency in Moscow said 27 U. S. B-29's dropped 300 bombs on the northern capital causing many casualties.

Maj. Gen. E. M. Almond, MacArthur's chief of staff, said the raids on the North Koreans would include possible invasion bases and facilities, which means American planes would ignore the 38th parallel dividing line between the two sections of Korea and go after the Reds wherever they assembled to strike at the South.

Ten Crews Check Cotton Acreage

Checking cotton acreage got underway in Scurry County this week, with 10 crews from the Production Marketing Association office in the field.

This measurement is being conducted to determine whether farmers are eligible for marketing and price quotas allowed to those who keep their acreage within limits, set according to the amount of cotton planted last year.

A farmer must be present when his land is checked, Flovd Smith, PMA administrative officer, said today. Notifications will be mailed to each farmer as soon as measurements have been completed ni the PMA office, he added. Those with too much cotton will be given 15 days to plow up the excess acreage before they are required to pay a penalty.

Smith said cotton acreage was measured through the use of aerial photographs in the field. Cotton acreage is measured by chains and marked off on the map. Then experienced workers in the office use a planimeter to measure the marked off areas and determine the number of acres they contain.

Heading measuring crews at work this week Buford Newton, Joe Roemisch, Jr., Lindell Lockett, Weldon Ford, William O. Mathis, Doyle Newton, Robert Beaird, Larry Hall, Max von Roeder, and Jeff Brown.

Standard-Fryer No. 1 Garrett Harrell Plugged at 7,460

Standard-Fryer Drilling Co. and Kingwood Oil Co. No. 1 Garrett Harrell, wildcat in Central-Northeast Scurry County, has been plugged and abandoned in the Ellenburger at a total depth of 7,640 feet.

No possibilities of production were logged in any section drilled. The Ellenburger was topped at 7,464 feet on a minus datum of 5,143 feet.

This venture was ten and one-half miles northeast of Snyder and six and one-half miles northwest of the Long Ellenburger producer in the Feldman pool.

Exact location was 660 feet from north and west lines of section 81, block 2, H&TC survey.

SHALLOWER PAY

Sunray Oil Corp. No. 3 Wilson, south outpost to the east Vealmoor Field, which lies on both sides of the Howard-Borden County line, apparently is through the new and shallower pay it had developed in that area.

The No. 3 Wilson was last reported drilling below 7,107 feet in black shale. On a core from 6,972 to 6,992 feet, recovery was 20 feet of lime with slight porosity and oil stains. This new pay opener flowed 15 barrels of oil in one hour on a drillstem test from 6,911-72 feet in an upper Pennsylvanian lime, some 450 feet above the Canyon pay of the three producers already completed in the east Vealmoor pool.

The Permian pay in the field is from about 7,400 to 7,450 feet.

The No. 3 Wilson is on the Howard County side of the pool and 660 feet from east and 1,980 feet from north lines of section 16, block 27, H&TC survey. It is one location south of the discovery well of the field and will continue drilling until it tests the pay between 7,400 and 7,450 feet.

NEAR MIDLAND

Midland County's latest oil discovery, Magnolia Petroleum Co. No. 2 Parks, 11¼ miles southwest of Midland, flowed 86.37 barrels of 54-gravity oil in the first hour of flowing to tanks, on a production test, for completion, and was still flowing at last report.

The production is natural and it is from the top 15 feet of the Ellenburger between 12,995 feet and the total depth at 12,970 feet.

The 5½-inch oil string is cemented at 12,944 feet in the Joins dolomite on top of the soft Ellenburger.

After completing the running of electric log surveys, operator loaded the hole with oil. The well kicked off without swabbing and flowed out the load oil in three hours.

In the next 60 minutes, flowing through a three-quarter inch choke, the discovery produced the 86.37 barrels of new oil.

Gas-oil ratio was 1,022-1. Flowing tubing pressure was 450 pounds. There was a vacuum on the casing. Shakeout was 1.5 per cent drilling fluid. There was no formation water.

Operator will probably flow the well until it is thoroughly cleaned and then take potential test and complete.

This important development is 660 feet from north and 2,180 feet from west lines of section 10, M. Daugherty survey. It is four and one-half miles south and slightly east of the Texas Co. No. 1 Scharbauer, discovery of the Warfield-Ellenburger field, which was completed early in 1949 for a small pumping production from the Ellenburger.

The Magnolia No. 2 Parks flowed oil from the Pennsylvanian lime and also indicated production in the Fusselman section of Silurian.

Top of the Ellenburger in the new producer is at 12,955 feet, which is on a datum of minus 10,-120 feet. That makes it 183 feet higher, structurally, than the Texaco No. 1 Scharbauer.

The Magnolia discovery flowed 123.71 barrels of clean oil during a drillstem test at 12,944-970 feet, before the casing was run. The flow was through a five-eighths inch bottom hole choke and a one inch top opening.

SHARON RIDGE

Warren Oil Corporation has completed its No. 3 J. M. Reynolds on the southwest edge of the Sharon Ridge Canyon pool in Southwest Scurry County.

Official daily potential was 1,-584 barrels of 44.8-gravity oil through a 10-64ths-inch choke. This is an exceedingly large gauge through such a small choke.

Pay was topped at 6,581 feet, and total depth is 6,701 feet. Seven-inch casing is set at 6,658 feet.

Gas-oil ratio was 647-1. Tubing pressure was 795 pounds. The daily capacity was calculated from an actual four-hour flow.

This new producer is 517 feet from east and 581 feet from north lines of section 101, block 25, H&TC survey. This places it 25 miles

(Continued on Page 2)

Tuberculosis Survey Group To Meet Today

The planning committee for the tuberculosis survey scheduled for Aug. 17 and 18 will meet at 3 o'clock this afternoon to discuss plans for the mass X-ray program.

Dr. Fred Dinkler, director of the city-county health unit, will speak to the group on the possibilities of the survey, outlining the problems likely to be confronted in the effort to X-ray all persons over 15, and emphasizing the importance of the examinations.

"Every person 15 years old and over should be X-rayed once a year to determine whether he has contracted tuberculosis," Dr. Dinkler said. "Because a person had no sign of the disease a year ago is no reason to believe he cannot have tuberculosis now, since nearly all persons are constantly exposed to the germs."

Dr. Dinkler said he would explain in his speech the manner in which the X-ray program would be conducted and how it would benefit the community from a standpoint of general health.

Man Admits Setting Ringling Brothers Fire Fatal to 168

COLUMBUS, O., June 30. (AP) — The state today named a 20-year-old Ohioan—driven to apply the torch by visions of a flaming red Indian horseman as the firebug who touched off the Ringling Bros. circus fire that killed 168 persons in Hartford, Conn., six years ago.

Ohio Fire Marshal Harry J. Callan also said Robert Dale Segee of Circleville, Ohio, also confessed four slayings and setting more than a score of major fires in Maine, New Hampshire and Ohio.

Callan said "the record speaks for itself" in deciding whether the husky Ohioan is a pyromaniac, a person who gets a sexual thrill from setting fires.

And, he indicated full belief in a signed statement by Segee, despite the extreme youth of the Ohioan at the time many of the crimes were alleged to have been committed.

Segee's signed statement was withheld from the public, but Prosecutor Guy B. Cline of Pickaway County, Ohio, said it contained a wierd story of the Red Indian, who comes to Segee at night.

The Indian, Cline quoted Segee, orders the youth to set fires. Then, after a spell of mental blankness, Cline said, Segee comes to with fires already blazing.

CAREFULLY CHECKED

Callan said all of Segee's statements have been carefully checked by his investigators since Segee was taken into custody last May 17 on the farm of a relative near East St. Louis, Ill.

A Pickaway County, Ohio, grand jury today indicted Segee on two charges of arson, stemming from fires in Circleville, Ohio.

Callan's prepared statement about the Hartford fire said:

"It has been definitely established that Segee was employed by the Ringling Bros. and Barnum and Bailey Circus from June 30 to July 13, 1944.

JOINS CIRCUS

"He joined the circus on June 30 at Portland, Me., and the day he joined the circus there was a fire on tent ropes that was extinguished without loss.

"The circus moved from Portland, Me., to Providence, R. I., and while there another small fire occurred on the tent flap, which again was extinguished without loss.

"On July 6, 1944, at Hartford, Conn., the major fire occurred, which took the lives of 168 people."

Callan said Segee said his first slaying was a nine-year-old girl, beaten to death with a stone during a fit of anger. He identified the victim as Barbara Driscoll, 9, slain on a river bank at Portsmouth, N. H., Sept. 5, 1938.

OTHER VICTIMS

Other victims, identified by Callan were:

A watchman who caught Segee setting fire in a warehouse at 123 Middle St., Portland, Me., March 16, 1943, a 12-year old boy, strangled to death on the beach at Cape Cottage, Me., in 1943 "to the best of his (Segee's) recollection," and a Japanese boy, killed in Japan in 1945 while Segee was in U. S. army of occupation.

The last three victims listed by Callan were not identified by name, but the state fire marshal said all three were actual slayings as shown by his and Army investigations.

Approval Expected Today on Arms for Non-Communists

By DON WHITEHEAD
(Associated Press Staff)

WASHINGTON, June 30. — The Korean crisis spurred the Senate today toward sweeping approval of President Truman's program to arm free nations threatened by Communist aggression.

A vote was scheduled this afternoon on the $1,222,500,000 foreign arms aid bill which includes $1 billion for Western Europe and $16 million for South Korea and the Philippines.

Senate leaders predicted only scattered opposition to the authorization measure—possibly less than a dozen votes.

Sen. Taft (R-Ohio) and other GOP chiefs who bitterly opposed the arms program last year were reported to be more receptive to the new plan. There were signs that most of them might vote for it in view of the current international tension.

On another front, the Senate Appropriations Committee neared final agreement on the huge Marshall Plan program which carries $100 million in economic aid for South Korea, and many millions more for other friendly nations.

The committee tentatively cut $250 billion out of the European Recovery Program yesterday—reducing the third-year Marshall Plan spending to $2,727,000,000.

No such economy move threatened the arms program.

Gold Will Plead Guilty as Spy

NEW YORK, June 30. (AP)—Harry Gold, 39-year-old Philadelphia chemist indicted on a charge of giving atomic secrets to the Russians, has agreed to plead guilty and his case will be transferred to the U. S. district court in his home city.

U. S. Atty. J. Vincent Keogh's office said Gold signed a written statement giving a "consent of transfer" and stating he wishes to plead guilty. Anoffice spokesman said the transfer to Philadelphia will take place "within a few days."

Watering Shrubs, Plants To Keep Them Alive Permitted

Co-operation of the townspeople and cooler weather the past two days have made possible a temporary relaxation of the ban on watering shrubs and flowers, Mayor Forest Sears said today.

Voluntary water saving measures have been successful, the mayor said, expressing appreciation on behalf of himself and the city council for the way Snyder residents have co-operated during the emergency. Only a few have failed to join in the community-wide voluntary water conservation effort, he said.

The relaxation on restrictions does not give the green light to lavish and wasteful watering, nor to sprinkling of lawns and washing cars, the mayor said. But it is now permissible to water shrubs and flowers sufficiently to keep them alive.

The water supply is better, Sears said, and he believes that further relaxations of the ban will be possible within the next few days if people will bear with restrictions a little longer.

The twenty-first city well is being tied into the water main today, the mayor said, and the water department expects to be using the twenty-second well by next week. It is hoped that by the end of July 25 wells will be in operation.

WEATHER

EAST TEXAS: Considerable cloudiness. Scattered showers in west and central portions this afternoon and tonight. And in north and central portions Saturday. Not much change in temperature.

WEST TEXAS: Considerable cloudiness this afternoon, tonight and Saturday with a few scattered thundershowers. Not much change in temperature.

Taft Proposes G. O. P. Report Administration Policy Errors

By JACK BELL
(Associated Press Staff)

WASHINGTON, June 30. — Sen. Taft of Ohio proposed today that Republicans draw up a formal report criticizing what he called the mistakes of the Truman administration in foreign policy. He said it could be used as a campaign document.

Taft's suggestion was made to a reporter in the face of President Truman's comment yesterday that the Ohio senator had made a political statement that was uncalled for in demanding the resignation of Secretary of State Acheson.

TAFT CRITICISM

In a Senate speech Wednesday, Taft said that Acheson's policies had been reversed by Mr. Truman's order for armed intervention in Korea to back up the United Nations' cease fire order.

The President told his news conference yesterday that there had not been any dispute in his cabinet over the Korean action. There wasn't a word of truth in the report that he had reversed Acheson, the President said. He added in a sentence he authorized reporters to quote directly:

"I think hte political statement of Mr. Taft at this time is entirely uncalled for."

NO PUBLIC REPLY

Taft did not reply publicly saying: "I am not going to engage in any controversy with the President now."

He did tell a reporter he thinks the Republican National Committee should sum up for the party's candidates in the November election the Democratic foreign affairs record from the Yalta conference of Roosevelt, Stalin and Churchill in February, 1945, to date.

"I think we ought to pay critical attention to the mistakes the administration has made in handling the threat of communism in the Pacific, errors that it has had to confess by reversing its policy there," Taft said.

AGREEMENT

Sen. Thye (R-Minn), who often differs with Taft on international affairs, agreed in a separate interview that the Republicans ought to point up the Democratic foreign policy record in such a formal report.

"We should lay down the facts as they are and let them speak for themselves," he said.

On the other hand, Sen. Humphrey (D-Minn) said he thinks it would be a mistake for the Republicans to make a political issue of foreign policy in a time so critical that the President has ordered military action in Korea to stem the tide of communism.

"In this critical hour our policy necessarily must be fluid to meet developments as they arise," Humphrey said. "We ought to have unity behind that policy and not political bickering."

HOLLYWOOD GROUP OFF TO JAIL—Hollywood writers convicted of contempt of Congress walk hand-cuffed from the U. S. Marshall's office in Washington on their way to begin one-year jail sentences. Left to right: Albert Maltz, Ring Lardner, Jr., Lester Cole and Herbert Biberman (extreme right). Hidden are Edward Dmytryk and Alvah Bessil. The convictions grew out of their refusal to answer questions before the House Un-American Activities Committee. (AP wirephoto).

Marksman Demonstrates At Rotary Club Meeting

Capt. Don Lawrence, of Austin, Department of Public Safety fire arms instructor and supply officcr, demonstrated trick pistol shooting for guesst at the Rotary Club luncheon yesterday.

One of the most amazing stunts was done when Lawrence, once the holder of 12 world records in pistol shooting, scored direct bulls eye hits on two separate targets at the same time with only one bullet.

This was achieved by firing at the cutting edge of a hatchet with a .22 caliber target pistol, splitting the bullet which then hit the two targets, placed on either side of the hachet and behind it.

Showing that similar shooting could be done with other types of pistols, Lawrence then used a .38 caliber revolver to shoot several strands of spaghetti and then clipped a small string in two, allowing a weight which had been tied on it to drop into a glass container. With the same gun he also shot the wicks off two burning candles, and sighting through a mirror, scored perfect hits on small black targets.

Lawrence, who still holds five world records in pistol marksmanship, demonstrated further by holding the .22 caliber pistol up-side-down and scoring on a target as he fired it with his little finger. He also used a .45 caliber automatic pistol to hit some small black target objects several feet away.

Assisting him in the demonstration was W. J. Elliott, state chief of the safety department, who spoke on safey in using fire arms, comparing their use with the use of automobiles and stressing points of safety in both.

Other guest officers present were T. T. Brady and Jess Reed, highway patrolmen from Colorado City, Fisher County Sheriff B. Wilkins, and his deputy, J. N. McInnis. Snyder officers attending the luncheon were Lloyd H. Merritt, sheriff, Bill Zimmerman and E. W. Green, highway patrolmen.

Arrested In Alaska For Snyder Theft

DALLAS, June 30. (AP) — Pearlie Naron Maghy, 35, was arrested in Tok, Alaska, by a U. S. marshal on a charge of theft of an automobile from Snyder, Tex.

Federal Asst. Dist. Atty. William Cantrell said here yesterday the automobile was stolen in April from the Keating Drilling Co. in Snyder, which had leased it from an Oklahoma car rental firm.

Snyder police called in the FBI on the case when the company reported the car thief continued to buy gasoline with a courtesy card assigned the drilling firm.

Russians Living In Canada Want To Enlist in Army

OTTAWA, June 30. (AP) — Democracy-minded Russians living in Canada have been trying to enlist in the Canadian army.

An army headquarters official said letters from Russian displaced persons here, some of them written in their native language, have been coming in recently.

The army has to turn down the applicants. To join the Canadian army one must be either a Canadian citizen or a British subject resident here.

Lawsuit Over Water Rights Is Settled

DALLAS, June 30. (AP) — A lawsuit over water rights to 9,000 acres of ranch land near Monahans was settled here yesterday.

The agreement gives L. L. O'Brien and Pat O'Brien, who bought the land from the heirs of George Sealy of Galveston, one-fourth of the royalties from a water contract with the Texas Electric Service Co.

The remaining three-fourths go to the Sealy estate.

The O'Brien Brothers contended they bought the water rights with the land. The contract of sale reserved oil, gas and other mineral rights for the estate.

Standard-Fryer

southwest of Snyder.

TEXAS LEASES

It first appeared that the Texas Co. woulud be totally left out of the Scuurry Couunty oil play, but it is now apparent that this company will be one of the largest operators in that area.

The reason is Texaco has under lease practically all the area between the north portion of the Kelley-Snyder field and the north edge of the Cogdell Canyon pool, a distance of some seven miles, almost all of which already has proven productive.

On its P. L. Fuuller leases in this area, Texaco has staked seven more explorations. The ventures are No.'s 48, 48, 50, 51, 52, 53, 54 Fuller.

Texaco's No. 48 and 49 Fuller will be in section 705, block 97, H&TC survey, approximately 15 miles north of Snyder. No. 48 will be 2,015 feet from north and 3,224 feet from east lines of the section, and the section.

Texaco's No. 50 and 51 will be in section 704, block 97, H&TC surand 3,307 feet from north lines of No. 49 will be 664 feet from west vey. No. 50 will be 686 feet from east and 3,307.97 feet from north lines of the section. No. 51 will be 1,983 feet from north and 2,003 feet from west lines of the section.

Texaco No. 52 Fuller is to be 665 feet from north and 3,338.11 feet from west lines of section 651, block 97, H&TC survey, and 15 miles northeast of Snyder.

Texaco No. 53 Fuller will be 3,335 feet from west and 1,988 feet from north lines of section 652, block 97, H&TC survey.

Texaco No. 54 Fuller will be 735 feet from east and 1,989 feet from north lines of section 614, block 97, H&TC survey, and 15 miles northeast of Snyder.

Operations on all seven ventures are to begin immediately. Slated depth for each is approximately 7,000 feet, calculated to tap the Canyon reef in that area.

Lion Oil Company has scheduled two more explorations on the northwest edge of the Diamond M-Canyon field, 13 miles southwest of Snyder.

Lion No.'s 18 and 19 Strona will be in section 199, block 97, H&TC survey. No. 18 will be 662 feet from south and 1,815 feet from east lines of the section; and No. 19 will be 500 feet from east and 1,980 feet from south lines of section.

Stanolind Oil & Gas Company has staked its No. 10 C. Rosson on the west edge of the Cogdell-Canyon pool. Drillsite will be 467 feet from south and east lines of southwest quarter of section 565, block 97, H &TC survey, and approximately 13 miles north of Snyder.

TERRY WELL FLOWS

Anderson-Prichard Oil Corp. No. 1 H. C. Bevers, Southwest Terry County reef lime discovery, 10 miles southwest of Brownfield and 660 feet from north and east lines of section 39, block DD, John H. Gibson survey, flowed a total of 120.5 barrels of 40.9 gravity oil in four hours, through a five-eighths inch bottom hole choke, and a one inch top opening.

The production came from the section at 9,797-9,761 feet, and was during a five hour and 54 minute drillstem test.

Gas came to the surface in 20 minutes. Mud surfaced in one hour and 50 minutes and the drill pipe started flowing oil in one hour and 54 minutes.

During the first hour the oil flow was 21.7 barrels. In the second hour the flow was 34.8 barrels. In hte third hour the well flowed 30 barrels of oil, and in hte fourth hour it made 34 barrels of oil.

No water was developed. The four hour flow totalled 120.5 barrels. Maximum gas volume before the oil started flowing was at the rate of 35,000 cubic feet per day.

Operator is preparing to drill 50 feet deeper. If more shows of oil are developed in that section of new hole another test will be run.

This new discovery is three miles southeast of Wellman. The reef lime was topped at 9,705 feet, which is a datum of minus 6,428 feet.

Michigan Man Buys Colorado City Paper

The Colorado Record, weekly newspaper operated for 45 years by members of the same family, has been sold to Byron Geller of Ann Arbor, Mich.

Announcement of the sale was made yesterday by Walter W. Whipkey, who had owned the paper since 1922.

Geller plans to start publication twice a week, on Mondays and Thursdays, in the near future. He has arranged for United Press news service and hopes at some future date to make the publication a daily, it was announced.

Next Thursday's issue of the Colorado Record will be the first copy since 1905 which will not bear the Whipkey name as owner and publisher. Name of the paper will also be changed to the Colorado City Record.

John Baze, associated with the Record for 25 years, will be business manager of the new paper. Milton Geller, brother of the new owner, is working on the paper as a staff reporter and another reporter will be hired.

Dallas Lawyer Addresses Bar

Ralph Shank, Dallas lawyer and head of the oil and gas division of the Southwest Legal Foundation, spoke last night to the Scurry County Bar Association at its dinner meeting at the Snyder Country Club.

Shank gave a lecture on the component parts of an oil and gas lease, in which he discussed the legal significance of the clauses contained in such leases.

Ross Hemphill, program chairman, introduced Shank, who is also a member of the Texas Christian University Board of Directors, chief counsel for the Hunt Oil Co. and a graduate of the Columbia University Law School.

In looking over the Scurry County oil field Shank said it seemed to him that if the wells were closer together and mesquite trees were pine trees this field would look not a great deal different from East Texas.

He predicted that Scurry County, instead of having its present loose sand and clay roads, would one day have concrete highways all over the county, as Gregg and other East Texas oil counties have today. He said he believed the great oil reserves held a bright future for this county and section of the state.

Bar Association members attending were Pat Beene, Bob Davie, Gene Dulaney, L. W. Dumas, John Ford, Ross Hemphill, Wayland Holt, Jack Kennedy, George Killam, Keith Merrick, C. E. McGaw, Ray Martin, W. W. Park, Bob Patterson, Renal Rosson, Frank Sentell, John Sentell, Ben Thorpe and Garrett Whitworth.

Russia Will Not Help To Enforce Peace in Korea

MOSCOW, June 30. (AP) — Russia last night turned down a United States request for the Soviet Union's help in getting North Korean forces out of South Korea.

A note addressed by Deputy Foreign Minister Andrei A. Gromyko to U. S. Ambassador Alan G. Kirk said the Soviet government does not approve of the "interference of foreign powers in the internal affairs of Korea."

The U. S. had asked also for assurance that the Soviet government would "not take upon itself the responsibility for this unprovoked and unjustified attack."

BLAME SOUTH

Russia replied that responsibility for the fighting in Korea "lies with the South Korean authorities and with those who stand behind them."

There was no elaboration in the note of the phrase "those who stand behind them".

"The events which are going on in Korea were provoked by the attack of the troops of the South Korean authorities on the frontier areas of northern Korea," the Soviet message added.

(Previously announced United Nations findings showed that North Korea began the hostilities last Sunday by invading the southern area.)

'NON - INTERFERENCE'

The Soviet Government said it had "confirmed its traditional principle of non-interference in the internal affairs of other states" by withdrawing its troops from Korea "earlier than did the U. S. Government."

(The Russians on Dec. 31, 1948, announced they had withdrawn all their occupation troops from North Korea, but a United Nations commission later was refused permission to visit Communist-dominated northern area. The United States last July 1 announced withdrawal of all its troops from South Korea except for about 500 military advisors requested by the South Korean Government.)

Homer Cook Given Sentence in Germany

MUNICH, Germany, June 30. (AP) —A U. S. high commission court today sentenced Homer Cook, 27-year-old Oklahoman escape artist, to four and one half years in prison.

Cook was convicted on 16 charges and pleaded guilty to four others, including jail break, illegal entry into occupied Germany and impersonating a federal agent.

The tall blond former boxer from Muskogee had testified that he stowed away to Germany last March in order to marry his brown-eyed German sweetheart, Anna Sporrer, a waitress.

He had broken out of jail three times since his first arrest in April. He could have been sentenced to 100 years in prison.

Settlement In Smith Will Case

After nearly two full days of trial, the will contest case of Jesse T. Smith et al vs. Graham Smith et al was settled by agreement yesterday afternoon.

The four contestees and five contestors, all children of the late Jake W. Smith, whose will was being contested, embraced each other and shook hands in the courtroom late yesterday when an agreement was reached during a court recess for that purpose.

The contestors, three older half-brothers and two older half-sisters of the contestees, brought the suit because the will of their father, who died last year, allowed the oldest son by the testator's first marriage, Jesse T. Smith, only $25 and left the other eight children more than 1,000 acres of Scurry County land to be shared alike. The land now has four producing oil wells.

In settlement the parties agreed not to probate the will but to declare all the real estate community property, leaving Mrs. Jake W. Smith an undivided half of all the estate and leaving the nine children undivided equal interests in the remaining half.

Attorneys for the contestors were Dell Barber and Perry Barber, of Colorado City. For the contestees, H. J. Brice and G. C. Whitworth, of Snyder, and Eldon Mahon, of Colorado City, were attorneys.

After selection of a jury this morning, hearing of testimony began in the compensation suit of James G. Harlan vs. Texas Indemnity Insurance Co.

The plaintiff is being represented by J. R. Black for the Abilene firm of Scarborough, Yates, Scarborough & Black. Attorneys for the insurance company are John Sentell and Pat Beene of the Snyder firm of Sentell, Beene & Rosser.

School That Ruth Went To Will Close Its Doors Today

BALTIMORE, June 30. (AP) — The house that built Babe Ruth and turned many an orphan and toughie into good, solid Americans passes out of existence today. St. Mary's Industrial School is closing its doors.

For 84 years—since 1866—the Catholic-sponsored school has taken into its grey walls boys who were homeless or tabbed as potential law-breakers.

TWO GAIN FAME

But because the state has made other arrangements for its juvenile problems, financial aid has been withdrawn.

Two of its more noted products blazed their names across the nation and became figures of speech in the sports and entertainment worlds.

George Herman Ruth entered the school when he was seven because his father, a saloonkeeper, thought his environment around his place wasn't too good. Young Ruth was listed as an incorrigible, but in later years you could never get the fathers at the school to agree that he was.

He stayed there until he was 18 and his baseball career was in full blossom.

The school must have made an impression on the Babe. Father Albert, who knew him at the school, said Ruth once told him, when he was at the heights of his glory: "We're all in life to do good. And I hope that when I die I will have lived so I can help the boys of America to live straighter and cleaner lives."

In the Babe's will was a stipulation giving 10 per cent of his estate to a foundation for the "Kids of America."

And there's Al Jolson. He visted the school last September for the first time in about 50 years.

"That's the yard where I used to play," Jolson told his wife then. "When was that? About the time of the Spanish-American war.

"I was a bad boy, then, but not too bad. I had run away from home. I gave my brother's name, because he was supposed to be the black sheep of the family. After a few months, my parents came from Washington and took me home."

HELP DISMISSED

All the hired help has been dismissed, with the exception of old Charlie Carter.

"He has cooked (here) for the last 28 years and is rather affected by the closing," explained Brother Charles.

Brother Charles didn't say much when asked how he felt about the school closing.

His eyes misted, then he said slowly, "All the brothers will miss St. Mary's."

Job Applicants Victims of Ruse

BALTIMORE, June 30. (AP) — A group of construction workers were caught with their—uh—guard down yesterday.

The victims told police they answered an ad for out-of-town jobs at a suite at a downtown hotel. A ruddy-faced "interviewer" accepted all 18 and told them to go into the next room to disrobe for medical inspection.

He would keep their valuables, if they liked. Nine handed over their wallets, with cash amounting to $175.

Stripped to their shorts, the 18 waited. And waited. And waited. But no doctor came in to look at them.

Finally, after about an hour, one of them peeked into the main room. The interviewer was gone. So were the wallets. And the hotel found the room had been cleaned out completely.

Seen a ruddy-faced "interviewer" with a swollen wallet around?

U. S. Treasurer's Check Bounces

OMAHA, June 30. (AP)—An Omaha newspaper woman gleefully reports a check she got from Mrs. Georgia Neese Clark has "bounced."

Mrs. Clark, whose signature as treasurer of the United States appears on every piece of U. S. currency run off these days, was in Omaha last month. She gave Evelyn Simpson, Omaha World-Herald women's news editor, a $4.98 personal check on the Richland, Kan., State Bank to pay for a skirt she asked Mrs. Simpson to buy for her.

Yesterday Miss Simpson reported that the check had been returned by the federal reserve bank in Kansas City.

Mrs. Clark has forgotten to sign it.

Two Arrested On Larceny Charges

Charges of grand larceny were filed this morning against Olen Carrol Dean, 34, and Sammy Knighton, 17, both of 1207 Twenty-sixth Street, accused of stealing oil field drilling equipment and scrap iron valued at $615.

Arrested by Homer Whisnand, deputy sheriff, the men were charged with theft of three mission slips, a fishing tool, and a rat hole digger, all oil field tools, and various forms of scrap iron from H. M. Harris. Whisnand said the arrest was made after the men had sold the equipment and scrap to the Snyder Iron & Metal Works for $25.25.

Preliminary hearing was waived by both men this morning and bond was set at $1,000 for each. The case will be considered by the grand jury at its next meeting.

Couple Held in Rape Of 9-Year-Old Girl

BROWNWOOD, June 30. (AP)—Emory H. Perdue, 26, and his 19-year-old wife, Edith, were charged here yesterday with rape.

The couple was charged after a 9-year-old girl told officers she was taken to a room behind a Brownwood store where a woman held her while a man raped her.

Emory also is charged with molesting two other girls, 8 and 11 years old.

Swimming Aids Beauty, Health

Swimming is a wonderful exercise for health and beauty—one reason why we should turn Swim for Health Week into a swim-for-health routine for all summer. Some girls can even take advantage of swimming all the year round in pools near their homes.

The girl who sits at a desk or stands at a filing cabinet or works in a factory will find that swimming is one sport that will give all her muscles a real workout. It helps utilize muscles which are generally inactive, and which become flabby and weak from lack of exercise. It also helps tone digestive organs thereby correcting causes of some skin blemishes.

In swimming, respiratory muscles are in constant play, tending to increase chest capacity and to help form the habit of deep, regular, healthful breathing. The heart beats faster so that the circulation also is increased so that waste products may be more quick removed.

Many orthopedic specialists include swimming in treatment for infantile paralysis because structural muscle defects, atrophied and weak muscles must be built up. Swimming is not a strenuous sport because it does not require that the weight of the body support weak muscles. The force of gravity is lessened, thereby, and one can exercise without putting strain on weak muscles.

If you've noticed how easily and gracefully lifeguards walk, how effortlessly they hold themselves, you will appreciate how much the general muscular development of the body, due to swimming, creates a good and graceful posture.

Nervous people, in particular, can benefit by swimming. When we swim we must concentrate while we enjoy the physical motion of it, which gives rest and strength to our minds.

It is strange that swimming can add flesh as well as remove it. Plump girls find that swimming reduces excess flesh. Fat is reduced and muscles proportionately developed. Underweight girls find that swimming pads their bodies proportionately. It seems that exercise and deep breathing do the trick.

Pampa Loses 16-12 To Lamesa Lobos

(By The Associated Press)

The Lamesa Lobos slammed West Texas-New Mexico league leading Pampa last night with clusters of runs to take a 16-12 victory.

However, last-place Abilene nipped second-place Lubbock 3-1, and Pampa still holds a one and one-half game command over the Hubbers.

Albuquerque defeated Amarillo 11-7. The Clovis-Borger game was postponed because of wet grounds.

Lamesa produced four runs in the first and fifth innings, three in the second and seventh, and two in the fourth for the win over Pampa.

Abilene bunched three of its five hits to score three times in the fifth to whip Lubbock. Abilene hurler Rudy Lorona gave up only six hits.

TALMADGES HAPPY OVER VOTE RETURNS—A jubilant Governor Herman Talmadge and his wife wave to well wishers in Atlanta hotel campaign headquarters as Talmadge took a substantial lead in county unit votes and popular vote in his race for renomination in the state Democratic primary. (AP wirephoto).

Union Wins Demands, Milk Strike Ends in Pittsburgh

PITTSBURGH, June 30. (AP) — A three-week strike which had choked off all but emergency milk deliveries to 2,300,000 residents of the Pittsburgh area ended last night.

Nearly 3,000 A.F.L. members accepted a new contract by a booming voice vote. There were only a few scattered shouts of no "no."

Regular milk deliveries will begin tomorrow in Pittsburgh and six nearby counties, Beaver, Butler, Fayette, Greene, Lawrence and Washington.

DELIVERIES BEGIN

Ice cream deliveries began today but nearly 24 hours is needed to get milk in from farms and process it for delivery.

The union said it will make one more full-scale emergency delivery in the Pittsburgh area today. Throughout the strike the union — Local 205 A.F.L. Milk and Ice Cream salesmen and Dairy Employees — maintained emergency system to furnish milk to persons certified by physicians and to homes, hospitals and other institutions. The drivers furnished by the union were not paid.

The new contract runs until May 1, 1952. It may be reopened next May 1 for consideration of wage rates only.

The settlement provides a 44-hour week with 48 hours pay until November 1, 1950, and niside workers. Then the workers — about two-third of the union's 3,250 members will go on a 40-hour week with 48 hours pay. The union had asked for an immediate 40-hour work week with no pay cut.

Driver-salesmen are guaranteed $12.50 daily under the new contract. The union had asked $13.50. The guarantee under the old contract was $10.

Employees with 20 years' service got a three-week paid vacation. The union had asked for three weeks after 15 years.

All gains are retroactive to May 1, the contract expiration date.

FIRST AID WAS THE answer. In 1940 mother and daughter who used to faint at the sight of blood, became qualified Red Cross nurses and set up an emergency station. They were credited with saving the life of a boy, got a traffic light erected at the corner, and have seen traffic accidents cut sharply at their corner.

Tractor to Be Prize In Safety Contest

A Ford tractor will be first prize in the farm safety contest being conducted over the American Broadcasting Company's "The American Farmer" program, according to Sid Worrell, manager of the Scurry County Tractor Co.

The contest is open to anyone in the United States who listens to the program, which is broadcast Saturdays at 10:30 a.m. over ABC stations. Contestants submit a letter of 50 words or less which begins, "I believe in knowing and obeying farm safety rules because—"

ABC is conducting the contest in co-operation with the National Safety Council to get as many individual farm residents as possible to think about the importance of farm safety. Farm accidents claim aproximately 18,000 lives every year.

In addition to the Ford tractor, a number of other prizes will be awarded. Each entry must be mailed to Farm Safety Letter Contest, "The American Farmer," care of American Broadcasting Co. Chicago 6, Ill., and must be postmarked not later than midnight Wednesday, July 19. Winners will be announced on "The American Farmer" program of July 29.

Burial Services For Infant Here Today

Funeral services for Thomas Richard Ryan, three-months-old son of Mr. and Mrs. Howard Ryan, will be held at the graveside in Snyder Cemetery instead of in Kentucky, as originally planned.

The parents had planned to have the body returned to their home at Paducah, Ky., but decided to have the funeral here instead.

The services will be conducted at 5 o'clock today by the Rev. Earl Creswell, pastor of the North Side Baptish Church.

The baby died Wednesday in the Snyder Hospital. He was born April 25 in Houston, where his parents lived before coming to Snyder. Survivors, besides the parents, are two sisters, Brenda Ryan and Shirley Ryan.

Shirley, 2, is now ill in Snyder Hospital.

County's School Transport System Gives Annual Report

A report completed in the county superintendent's office shows total earnings of $50,814.45 and total expenditures of $52,315.28 for the Scurry County schools' transportation program in 1949-50. This represents a deficit of $1,500.83.

Earnings include $4,456 for Fluvanna; $11,728.45 for Hermleigh; $7,885 for Ira; and $26,745 for Snyder. Expenditures are $4,975.35 for Fluvanna; $13,993.52 for Hermleigh; $10,128.97 for Ira and $23,44 for Snyder.

Those schools whose earnings are less than their costs make up the difference out of the local maintenance fund, Forrest W. Beavers, county superintendent, said.

During the past year Scurry County schools were paid $45 per capital transportation costs, but the increase in population this year means that payment will be only $31.50 for the next term, Beavers said. Payment is based on county population, with counties of less than 1 person per square mile receiving $63, counties with 1 to 2 per square mile receiving $45 and counties with over 3 per square mile receiving $31.50.

Schools pay for transportation out of their own district funds, Beavers said. Snyder was the only district earning more than its costs this year, and since most of the population increase has been within the Snyder Independent School district, rural districts may have an even greater difference between costs and earnings next year.

Beavers said transportation payments are the same throughout the state, based on county population. Some counties with rather large populations may have thinly populated distriets that require long bus routes and thus must spend more on transportation that the allotments they receive.

Confederate Vet Is On Shivers' Staff

BONHAM, June 30. (AP) — Joseph Haden (Uncle Hade) Whitsett, 103, one of Texas' three surviving Confederate veterans, is now an honorary colonel on the staff of Gov. Allan Shivers.

Gen. Clayton P. Kerr, commanding officer, combat squadron, Texas National Guard, presented the commission yesterday.

Although confined to his bed, blind and almost deaf, Uncle Hade's voice is still clear and strong.

He served 13 months with Shelby's escort, Missouri cavalry, during the closing days of the Civil War.

New Advertising Head

LOS ANGELES, June 30. (AP)The new president of the National Industrial Advertisers Assn. is Bennett S. Chapple, Jr., Pittsburgh, assistant vice-president of U. S. Steel Corp. He was elected yesterday at the closing session of the annual convention. He succeeds Bernard Dolan of New York.

Margaret Truman Loves New York

NEW YORK, June 30. (AP)—Margaret Truman has confessed she is in love—with the city of New York.

Miss Truman has lived here for the past three and a half years. In a talk at a greater New York fund luncheon yesterday she said:

"I have a confession to make if you won't tell anyone in Missouri. I love it (New York)."

Questions and Answers about the Telephone Company's Request for Higher Rates in Snyder

Q. Why is the telephone company asking for higher rates in Snyder?

A. Because they are needed to justify the expenditure of additional large sums of money to provide a dial telephone system for Snyder.

Q. How about telephone costs? Are they up much?

A. Yes. The cost of virtually everything that goes into furnishing telephone service is much higher than before the war.

Q. How much has Snyder's telephone system grown since before the war?

A. Snyder now has nearly 1,850 telephones—more than 4 times as many as in 1940.

Q. What are the proposed new telephone rates for Snyder?

A. The proposed new business rate in Snyder is $8.25 a month, while residence service will cost $4.25 a month for an individual line and $3.50 a month for a two-party line. A new four-party residence service will be offered at $3.00 a month. The new rural business telephone rate will be $5.50, and the rural residence rate $3.25.

Q. What are the telephone company's expansion plans for Snyder?

A. If the new rates are approved promptly, the telephone company plans to start work immediately on a dial telephone system which would be put in service in Snyder within the next 18 months at a cost of nearly $1,250,000. This project will require the construction of a dial central office building, manufacture and installation of a complete new dial switching system, and replacement of telephones now in use with dial instruments.

Also, the company plans the expenditure of an additional $285,000 this year in expanding the telephone system to help meet Snyder's increasing telephone needs until the new dial equipment can be installed.

Four local and four long-distance switchboard positions and 340 subscribers' lines will be added in the Snyder central office. The network of outside lines and cable will be expanded throughout the city, and more long distance circuits will be added to further improve the speed and quality of long distance service.

Q. What are some of the advantages of the proposed dial service?

A. The new dial system will provide uniform, fast and dependable service at any hour of the day or night.

With the dial system, local calls will be completed as rapidly as you dial a number.

The dial system will be ready for a peak load of calls at any hour.

The dial system may be readily expanded to keep pace with the city's future growth and development.

Modern dial service embraces all the refinements and developments of modern telephone research—and is the finest telephone service available anywhere.

SOUTHWESTERN BELL TELEPHONE COMPANY

84 Club Entertained In Fluvanna Home

Mrs. C. F. Landrum, Fluvanna, entertained the "84 Club" with dessert and games in her home Thursday afternoon.

Present were Mrs. Mert Patterson, Mrs. W. F. Mathis, Mrs. Horace Carmichael, Mrs. Lee Lavender, Mrs. W. H. Jones, Mrs. Ed Lemon, Mrs. Walton Wills, Mrs. J. J. Belew and Mrs. R. B. Wills.

Mrs. Landrum served her guests punch, cookies, and small sandwiches. Cut flowers decorated her home.

PERSONALS

The Elaine Lambert School of Dance will present a musical and dancing program in Rotan at 8 o'clock tonight at the Rotan High School. A large number of Snyder dance pupils will perform. Proceeds are to go the high school band there.

Mr. and Mrs. L. R. Parrent of the Cameron Trailer Courts are parents of a baby girl, weighing 7 pounds, 8 ounces, born at Snyder Hospital yesterday afternoon. Her name is Margaret Ann. The Parrents have three other girls. Mr. Parrent is associated with the Wooley Tool and Supply Co. They have lived in Snyder seven months.

Mrs. Blanche Tate is home again at 605 Twenty-eighth Street, after a trip to Stamford with her son, Jay Tate. They visited there with Mrs. Tate's sister, Mrs. Roy Clark.

Mr. and Mrs. J. W. Tatum, 1006 Twenty-third Street, have just returned from a trip to Louisiana, where they visited with Mrs. Tatum's parents, Mr. and Mrs. Ira Wilson, and her brother and family, Mr. and Mrs. Owen Wilson.

S. A. Taylor, Jr., is in Lubbock Memorial Hospital, having undergone surgery for a sinus condition. He is reported doing well, and will return home soon.

Mrs. R. L. Gray, 3300 Avenue U, has had as her guests this week Mrs. Murray Gray and two children from Amarillo. Mrs. Gray is the daughter of Mr. and Mrs. Sterling Taylor, and has also visited with them at their home, 2208 Twenty-seventh Street.

Mrs. Alden Burge of Alexandria, La., was here this week visiting in the home of Mr. and Mrs. N. R. Clements, 3005 Avenue U. With her was also her mother, Mrs. E. M. Deakins, former resident of Snyder.

Mrs. Reba Mitchell has as guests from Kilgore Mrs. Nell Chesney and Mrs. Joe Clark and her two daughters.

Mr. and Mrs. Emmett W. Berry, 1111½ Twenty-nineth Street are the parents of a son, born last night at 11 p.m. in the Big Springs Hospital. Mr. Berry is an owner and chef of the Ranch House. The baby weighed 5 pounds, 10 ounces. The Berry's have another son, Charles Edward, 12 years old. Mr. and Mrs. Berry have lived in Snyder one year.

Gerald M. Heinzelmann, son of Mr. and Mrs. G. M. Heinzelmann, 1108 Twenty-sixth Street is at Fort Hood, where he is attending the Reserve Officers Training Corps summer camp. Mr. Heinzelmann, majoring in geology at the New Mexico Military Institute, Roswell, N. M., will receive six weeks of intensive field training in weapons, marksmanship, tactics and various other military subjects while at camp.

Sales of "farm butter" in the U. S. have dropped to about 41,000,000 pounds a year from 175,000,000 pounds in 1924.

Miss Marcia Ann Brannon Is Bride of U. M. Tadlock

Mrs. U. M. Tadlock was Miss Marcia Ann Brannon before her marriage recently in Denton.

Relatives Attend the Couple in Ceremony Performed in School Chapel

Miss Marcia Ann Brannon, of Dallas and Waco, and U. M. Tadlock, Jr., of Snyder were married recently in the Little Chapel in the Woods at Texas State College for Women, Denton.

The bride is the daughter of Mrs. E. C. Brannon of Waco, and Mr. Tadlock is the son of Mr. and Mrs. U. M. Tadlock, Sr., of Roby, formerly of Snyder.

Attendants at the wedding were Miss Carroll Brannon of Waco, maid of honor, and Miss Jean Riley of San Angelo, bridesmaid. William H. Tadlock of Snyder, the bridegroom's brother, was best man.

The bride was given in marriage by Edward Brannon of Waco, her brother. Ushers were Edwin Tadlock of Roby, brother of the bridegroom, and Jack Chitwood of Dallas.

The Rev. Philip Walker, pastor of the First Methodist Church of Denton, performed the ceremony.

Mrs. Tadlock wore a Chantilly lace wedding dress with an ice blue satin slip, long pointed sleeves, a long bodice, round neckline, and ballerina-length skirt. She carried a white prayer book with an orchid on it, and an attached bouquet of stephanotis. Her veil was shoulder length, and she wore an orange blossom halo.

Miss Brannon, the maid of honor, wore an aqua dress, and Miss Riley chose a yellow dress and wore a corsage of yellow and white daisies.

Mrs. Tadlock attended Texas State College for Women in Denton, and has done secretarial work in Waco and Dallas. Mr. Tadlock graduated from A. & M. last summer, with a degree in architectural engineering. He attended Abilene high school and served three years in the Navy.

Former Fluvanna Man Weds in San Angelo

The marriage in San Angelo June 9 of Miss Lucille Newell of San Angelo and Kenneth Mull of Big Lake, Tex., has been announced. Mr. Mull is a former resident of Fluvanna and graduated in 1941 from the high school there. He is now employed with the C. C. Smith Drilling Co. in Big Lake. Mrs. Mull attended the Lamesa High School.

Sinatras Fail To Agree on Property

HOLLYWOOD, June 30. (AP)—Any hope of a reconciliation between singer Frankie Sinatra and his wife, Nancy, appears to have been dashed by their failure to agree on disposition of their property, attorneys said today.

—And Sinatra is heading for London, where the luscious Ava Gardner is making a movie.

Mrs. Sinatra is going ahead with her separate maintenance suit against the crooner. It is set for July 7.

Sinatra came home from a European junket and a visit with Ava to discuss the property disposition. There was talk of a reconciliation but his attorney, Joseph Ross, says that is out.

Uranium Poisoning Not Cause of Death

—The death May 5 of Mrs. Gladys Thompson was not due to uranium poisoning, as believed at the time, Dr. Emmett Stone, Riverside County health officer, reports.

Dr. Stone said yesterday he has been unable to find any records of Mrs. Thompson being employed at the Oak Ridge, Tenn., plant as a research chemist or having been exposed at any time to atomic elements, as her husband, Jack Thompson, told authorities at the time of her death.

Three Texas Girls Awarded Highest Homemaker Rank

BEAUMONT, Calif., June 30. (AP) Three girls from Wolfe City, Tex., and eight others from over the nation today were awarded the American homemaker degree, highest honor of the Future Homemakers of America, at the national convention here.

The degree was presented to Miss Charlsy Jordan, 16, and by proxy to Betty Doris Green, 17, and Eunice Rouser, also 17, all of Wolfe City.

Behind the triumph of the Wolfe City girls is Mrs. J. C. Jordan, mother of Charlsy, who is the teacher of homemaking in the high school and adviser of the F.H.A. chapter there.

Junior Chamber Hires Builder of Floats For Rodeo Parade

The Scurry County Rodeo Parade Committee announced today that entries are now being taken for the traditional pre-rodeo parade during the rodeo week of July 19 through 22.

The parade, sponsored by the Snyder Junior Chamber of Commerce in conjunction with the rodeo association, will be one of the biggest and most colorful ever held in this area.

A parade will be held each evening preceding the rodeo at an hour to be announced by the committee. Floats depicting western scenes, businesses, and other ideas are wanted for the parade.

The Junior Chamber of Commerce has contacted a professional float-builder, connected with the Prichard Decoration Co. of Abilene to build floats for the rodeo parade.

Myron Fenton, chairman of the Junior Chamber committee in charge of parade arrangements, announced that Prichard would be in Snyder next Monday. Any organization interested in having a float built is asked to contact the Junior Chamber of Commerce at the Chamber of Commerce office, phone 12, by Monday.

Hospital Notes

Admitted to Snyder Hospital Clinic yesterday were:

William Elmer Morrow, 1901 Avenue R.

Johnnie Hurst, Robert E. Lee Hotel.

Andy Cochran, 2409 Avenue R.

Mrs. Lloyd Havens, Route No. 2.

Mrs. James Travis Shirley, general delivery.

Carey Charles Bass, Old Post Highway.

Dorothy Hope Nicholson, 1609 East Fifteenth Street.

Discharged yesterday were:

Johnnie Hrst, Robert E. Lee Hotel.

Don Alvin Durden, 612 Thirtieth Street.

Christan Edward Lindsay, 1002 Twenty-eighth Street.

James E. Johnson, general delivery.

Clam juice comes in hhandy bottled form to be used for a first course for dinner. Mix the clam juice with tomato juice if you like and serve icy cold.

TALK OF THE TOWN

BY FRANCES BIOW

Every florist in town is nursing along their dearest posession these days, a century plant. Whether they, or any rank amateur achieve the coveted bloom while this full moon beams on the Panhandle is the moot question.

The nearest century plant most probably is in the Davis Mountains, camp goers report. Once, the story goes, the highway park at Dermott, favorite watermelon feasting place for the young crowds, boasted a plant, rare and widely admired. But weiner roast enthusiasts must have trampled it long ago.

Mainly, you find this century plant in Mexico, the Carribean area. Most species flower but once, die, while others do go on producing that elusive funnel-shaped blossom each year, if the climate is right. Fiber and soap are actually manufactured from them, so they aren't just luxurious flora.

Perhaps their most lauded product is the potent and well-advertised beverage, Mexican Mescal, which is drawn, in a complicated process, from the juice of the century plant.

According to ROLAND BELL, JR., my source, who, in turn, admittedly consulted his floral encyclopedia first, these plants shoot out blooms, usually on sultry June nights around the witching hour, the dagger-like blossom extending from 20 to 30 feet high. The leaves sometimes attain 10 feet in height. So it's quite a sight.

Mr. Bell will practically give his place of business to any native knowing the whereabouts of a blooming or about-to-bloom century plant in this immediate area.

Twinstick is a new streamlined lipstick holder with two slim lipsticks for any occasion that a girl needs. You may choose your two favorite shades, perhaps let one be a blue red, the other a red with coral cast. Notice how extra nice a pretty dress looks when lipstick is in harmony. A handy purse gimmick, put out by Dorothy Gray. STINSON'S can get them for you. Shades range from Really Pink to rich-deep Nut Brown Red. And all the in-between shades, like Cherry Bounce, Fuchsia Hat, and Ripe Cherries. There are the true red tones of Right Red, South American, and the orangy wonderful-with-suntan shade called Siren. Switch 'em and mix 'em.

* * *

LITTLE JIMMY SULLINGER, son of Mr. and Mrs. Jim Sullinger, 1008 Twenty-eighth Street, is thankful for the arid conditions in our town, which are so disturbing to most of us. His mother, summoned him three times to the evening bath. Finally the call got stern, and he said, "But I don't want a bath. And, besides, they said NOT to use water!"

* * *

Today's chilly snap stumps everyone! Here we've been pushing everything but the sheerest cottons to the back of the closet. Today girls rummaged around, came out in last fall's frock, hurridly pressed for the occasion; some simply threw on a light sweater over their summer cottons; others went so far as to wear suits. But NOBODY complained!

* * *

DICK LINDSEY'S little boy, Clement, who got bashed with a rock while playing this week, felt lonesome. At Snyder Hospital, with Dr. Girod and several nurses trying to make him comfortable, he kept saying, "But I want to go home and have my sister kiss me." The Lindsey's live harmoniously at 1002 Twenty-eighth Street.

* * *

The men were loftily superior about women's vargaries and foolishness back as early as 1882, when a columnist in the town's officia newspaper, Western Light, said, "We want to print something especially for the men. So that the females, always curious, can not read it, we now print it upside-down." Followed a complete reversal of type. Sure enough, I read it!

"If there's anything worries a woman,
It's something she ought not to know.
But you can bet she'll find out anyhow,
If she gets the least kind of a show.
Now we'll wager ten cents to a farthing,
These lines she's already read—
We know she's got at it somehow
If she had to stand on her head!"

Miss Beavers Of Fluvanna Bride Of Jimmy Beck

Announcement has been made of the marriage in Clovis, N. M., June 19 of Mr. and Mrs. Jimmy Beck. Mrs. Beck is the former Miss Betty Ann Beavers from Fluvanna, the daughter of Mr. and Mrs. N. L. Beavers. Mr. Beck is a life-time resident here, having attended Snyder High School.

The Becks will make their home on the Beck ranch east of Snyder. Mr. Beck will continue ranching and cattle raising in this area.

Mrs. Beck is a graduate of Fluvanna High School.

Pascual Fans 15 Odessa Batters In Bronc Debut

By The Associated Press

Third Baseman Potato Pascual took over mound duties for Big Spring in the Longhorn League last night and struckout 15 batters as his mates pounded league leading Odessa for a 13-7 victory.

Vernon edged Midland 6-5 on John King's double in the top of the 13th inning, San Angelo swamped Sweetwater, 13-1, and the Ballinger-Roswell affair was rained out.

Pat Stasey, Big Spring manager, hit four times in four trips to the plate against Odessa to stretch his consecutive hit string to seven in two games. Pete Hernandez homered for Big Spring, and Leo Eastham slapped one for Odessa. The defeat dropped Odessa to six games ahead of idle Roswell.

Big Spring and Vernon are tied for the third spot, eight games off the pace.

John Tayoan homered for San Angelo and his teammate, Don Schneegold, slapped a three-run homer. Bob Crues, Colt outfielder, also collected a round-tripper.

Scurry Represented At Big Spring Meet Of Agriculturists

Representatives of county agricultural groups attended a district meeting on the Agricultural Conservation Program in Big Spring Wednesday.

The group discussed recommendations for changes in the program and elected two delegates to the state meeting at College Station July 12 and 13. They were O. L. Jones, administrative officer of the Mitchell County PMA, and Clarence Webb, Coke County representative.

Attending from Scurry County were Guy Glenn, county committee chairman; I. B. Roberson, committee member; Oscar Fowler, county agricultural agent; Floyd Smith, PMA administrative officer; and Mrs. A. M. Roberts, Jr., chief cherk.

CRRECTION

Rodeo Lingo May Mystify But Events Sure to Thrill

With the Scurry County Rodeo starting in the middle of July, many new people to Snyder who have never seen a rodeo wonder what some of the expressions in rodeo lingo mean. One of these expressions is Dally roping.

Dally roping is to rope something where time is not important, while fast roping requires speed in roping the object.

Ropes used vary in length from 35 to 60 feet, with 40 to 50 feet the popular size. The ropes are from 7-16 to 12-16 of an inch in diameter. Today's ropes are of hemp or hair, but in the early days they were made of braided buffalo hide.

Although it may seem surprising to some people, the lasso did not originate on the western plains. Herodotus, called the father of history, in 500 B.C. wrote that the Saratians used lassoes made of thongs, plaited together and made into a noose to capture men or beasts to make the task of killing them easier.

Will Rogers—no slouch with a rope, himself—said that the first trick and fancy rope man to appear in the United States was a Mexican, Vincent Orespo, with Buffalo Bill's Wild West Show in 1900.

After that time the rope was taken up by almost every cowboy in the West and it is still widely used today.

Four events in the Scurry County Rodeo involve the skill of using the rope. It is interesting to note that although roping and rodeos are almost always associated with Texas, only one Texan has ever won the title of Worlds Champion Cowboy since 1929 and that occurred in 1944 when Louis Brooks of Sweetwater won the award.

The calf roping contest is one of the oldest rodeo contests and has become one of the most popular of all the events. This contest, is one of the big features at the Scurry County Rodeo on July 19-22 at Snyder.

It involves roping the calf without "busting" or dragging the calf. Anyone who does this is penalized 10 seconds and in addition is subject to arrest and fine.

After roping the calf, the contestant must dismount, go down the rope and throw the calf down with his hands. He may receive no assistance while reping or throwing the calf. The contestant then has to cross and tie any three feet. If the calf is thrown by the rope he must be on his feet before he may be taken down and tied. The tie has to hold until the judge passes it and the contestant may not touch the calf after he has indicated that he is through.

There is also a prize for the best two averages on Wild Cow Milking and Calf Roping.

Indiana Names G.O.P. Candidates

INDIANAPOLIS, June 30. (AP) — Indiana Republican state convention delegates, already having heard Democrats tagged as "the war party," select their candidates today for the fall campaign.

Hours before the nominating session started at the Indiana fairgrounds coliseum, party leaders still were working to unsnarl half a dozen contests that might split the convention.

U. S. Sen. Homer E. Capehart, assured of renomination for a second term since he has no opponents, attacked the Democrats last night. He accused them of leading America into "a shooting war for the third time in 33 years." He made the statement at his home district caucus.

"The Democrats," said the senior Indiana senator, "ought to call themselves the war party."

U. S. Sen. William E. Jenner told his Ninth District caucus that "the national administration during the last 18 years has created the crisis we face in Korea today."

Rep. Earl Wilson of Beford, ninth district congressman, termed the Korean situation "another crisis created for election purposes."

Disagreement, however, was voiced by Rep. Charles A. Halleck of Rensselaer, dean of the Indiana GOP house delegation. He told his Second District caucus:

"As far as I know it (the Korean situation) is not a Russian movement."

He added that he thought the war in Korea would not touch off another world war.

Three Softball Games Scheduled For Next Week

Three softball games will be on tap next week before the final week of play in the Scurry County Softball League. The last games will be some of the best of the season and local fans should turn out to support their choice.

Paso-Tex will take on Ira at Ira Monday night at 8:15 and Vincent will tangle with the Office Supply at the V. F. W. Field also on Monday at 8:15.

Friday night Tri-Service will play the V. F. W. at the V. F. W. Field to round out next weeks games.

Maxwell to Face Purdue Net Man in NCAA Quarterfinals

ALBUQUERQUE, N. M., June 30. (AP) — Collegiate golf's classic—the NCAA championships—rolled into quarterfinal rounds of the 53rd annual National Collegiate Athletic Association Tourney. Later in the day, four of them will play semifinal rounds.

The championship will be decided Saturday on the University of New Mexico's course.

Two of today's quarterfinal tussels pit east against west. Another features two eastern players from the same school and the fourth lines up two westerners.

Here is the lineup:

Oregon State's Dick Yost — who yesterday polished off North Carolina's Harvie Ward, Jr., the defending NCAA champion — meets Bob McCall of Colgate; Ray Harris of Wake Forest meets Len Kennett of Southern California; Ben Alyea of UCLA tangles with North Texas' Billy Maxwell and Purdue's Fred Wampler goes up against teammate Gene Coulter.

The field was trimmed from 32 players yesterday in two 18-hole rounds, the second and third of match play.

Yost downed the defending titlist 6 and 5 to claim gallery attention after defeating New Mexico's Paul Halter 5 and 3 in the second round.

Alyea bounced Medalist Arnold Palmer of Wake Forest out of the meet 1 up, then turned around in the third rounds to beat Dave Dennis, Kansas senior, 1 up.

Maxwell, the Gulf Coast Conference titlist, had little trouble getting into the quarter finals. He defeated John Wallace of Stanford 4 and 3 then retraced his steps to take out Francis (Bo) Wininger, highly regarded Oklahoma A&M ace, 5 and 4.

Capitols Sweep Series With Corpus Christi To Widen League Lead

By The Associated Press

The Harlingen Capitols left no doubt as to the commanding team of the Rio Grande Valley League race last night as they thumped second place Corpus Christi 10-9 to sweep a three-game series.

Del Rio, in fourth place, took both ends of a twin bill from Brownsville, 11-3 and 6-3, and Laredo whipped McAllen as they grabbed a 13-10 victory.

The win gave the Capitols a two-game bulge over Corpus Christi. Big Jake McClain pounded out his 30th homer of the season for the Capitols. Lloyd Pearson hit a grand-slam homer for Corpus Christi in the eighth and was followed a bit later by Tony DiPrimio's homer with one on.

Del Rio slapped 13 safe hits in the first game with Brownsville in the second game, Al Esqueda, Brownsville pitcher, and Frank Mormino, Del Rio catcher, had words over a pitch which Mormino claimed came too close to his head. On the next pitch, Mormino again ducked and then threw his bat toward the moundsman. Mormino was thumbed from the contest.

Seven McAllen errors and eight stolen bases aided Laredo in their victory. Mimi Cavazos hit a homer for McAllen.

Corpus Christi	300 000 060—	9 14 1

Fort Worth Host To Texas League All-Star Match

By BILL HITCH
(Associated Press Sports Writer)

The Fort Worth Cats clinched the right to be host team in the Texas League All-Star game July 21 last night — but they dropped a 7-6 decision to the Dallas Eagles in doing it.

Second place Tulsa also took a slice of defeat as the Oklahoma City Indians whipped them 8-4. The loss leaves them seven full games behind the Cats, and it would be mathematically impossible for the Oilers to take over command of the loop by July 4. There are only six games remaining to be played by that time.

According to league rules, the team leading the pack after gamec of July 4 automatically becomes host to the all-star contest.

Last-place Houston blanked Shreveport, 4-0, and Beaumont pummeled San Antonio, 14-1.

The night's activities left San Antonio and Oklahoma City tied for third spot — eleven and one-half games out. Beaumont and Dallas are knotted for the next position, twelve and one-half games away from the Cats.

The Cats scored three runs in the first inning, two in the second and one in the third to take a six-run lead over Dallas. The Eagles produced two runs in the fifth on two hits and then broke loose for five runs in the sixth on five hits and an error. Relief Pitcher Fred Schmidt who took over from Don Watkins in the second, gained the victory.

Oklahoma City combined a four-run rush in the seventh inning with effective relief hurling by Al Aber to trounce Tulsa. The win boosted the Indians' win streak to four straight. Aber tossed shutout ball for two and a third innings to get credit for the victory. Tulsa Manager Al Vincent was thumbed from the contest in the second frame following a dispute with Umpire Milt Steengrafe.

Marty Garlock tossed a three-hitter at the Shreveport Sports for the Houston whitewash job. He allowed one hit in the first and two in the second, then hurled hitless ball the rest of the way. The Buffs bunched four hits for three runs in the fourth and picked up another counter in the fifth on three hits.

Beaumont slammed out a 14-hit, 14-run attack at San Antonio. Keith Thomas led the parade on three San Antonio hurlers with a homer and a triple good for seven runs batted in. Catcher Clint Courtney drove in four more runs with his three hits.

Rocky Ipolito homered for San Antonio.

Fort Worth plays at Tulsa tonight, Beaumont meets San Antonio again, Dalles visits Oklahoma City and Houston remains at Shreveport.

Red Sox Win 22-14 Over A's But Remain In Fourth Spot

By JACK HAND
(Associated Press Sports Writer)

Nobody ever will forget the 1950 Boston Red Sox. That's for sure.

How Ted Williams and Co. ground the record book to bits. How the Sox raced up and down the scale from heroes to bums and back in the glorious month of June. Losing a manager in the process.

How they hit the 20-run mark three times in June and reached the last day of the month struggling in fourth place, seven games off the pace.

O'NEILL DIRECTS

Maybe they have found themselves under Steve O'Neill, successor to Joe McCarthy. Maybe not. But their June records will stand for years to come.

Take yesterday's 22-14 wrestle with the Philadelphia A's. Never before in the American League did two clubs run up 36 runs in a nine-inning game. The old high of 35 also was set by the Red Sox and A's in 1901.

Then there was the 29-4 slaughter of the St. Louis Browns, June 8—highest score by a major league club since 1897. The day before that it was 20-4.

You'd think a club capable of such muscle flexing would be leading the league. But even now, with a seven-game win streak going, the Sox are fourth behind Detroit, New York and Cleveland. In the weird adventure in Shibe Park yesterday, Boston scored six in the first, the A's four. At the end of two innings it was 14-7. And no home runs until the seventh when Williams hit his 24th with a man on. That was the only homer.

Detroit maintained its 4 1-2 game lead over New York as both lost. Young Bob Cain of the Chicago White Sox survived a shaky first inning to trim the Tigers, 7-3. Sid Hudson also weathered a first inning blast to give Washington a 12-7 verdict over the Yanks.

TRIBE STRETCHES

Cliff Mapes' three-run homer was the big blow in the Yanks' first inning attack on Hudson. But Joe Ostrowski couldn't protect a 5-1 lead. The Senators knocked him out in the second and hung the loss on reliefer Tom Ferrick in the fourth.

Steve Gromek set down St. Louis with six hits while Cleveland rapped Juane Pillette for a 4-1 night game victory. It was the Tribes's 13th win in their last 16 starts.

Brooklyn retained its half game lead in the National while losing to New York, 11-5. Vern Bickford helped the Dodgers by pitching Boston to a 3-2 night decision over the Phillies. The Dodgers and Phils open an important series tonight.

The Giants hopped on Ralph Branca, loser Dan Bankhead and Erv Palica for four runs in the eighth inning to ruin Brooklyn, although Jackie Robinson hit two homers for the Dodgers.

Buddy Kerr's two-run single in the eighth settled a night duel between Bickford and Ken Heintzelman at Boston. Not even Dick Sisler's three doubles and a single in four trips could help the Phils.

JETHROE RUNS

Sam Jethroe put on quite a show in the sixth. He reached first on an error, stole second for his 8th theft, then scored from second when Earl Torgeson grounded out, first baseman to the pitcher.

Chicago hung another loss on the St. Louis Cardinals, 6-1, behind Bob Rush's five-hitter. It was the Cards' tenth loss in their last 14 games and Rush's 10th complete game for his ninth win.

Pittsburgh and Cincinnati were not scheduled.

Diapers Big Need Of Korea Evacuees

TOKYO, June 30. (AP)—Diapers were in big demand today among American mothers evacuated from war-torn Korea.

Their hurried departure prevented them from bringing enough with them and the Red Cross does not carry diapers in its usual overseas stocks.

Minister Says Wife's Love For Joe Louis Reason For Divorce

CHICAGO, June 30. (AP) — The minister who said Joe Louis stole his wife's love was granted a divorce from her yesterday.

He is the Rev. Matthew C. Faulkner, 34. Judge Daniel A. Roberts granted him the decree from Carolle, 27, in circuit court after the pastor said his wife, a former model, had "transferred her affections" to the boxer.

The minister's $500,000 alienation of affections suit against the ex-heavyweight champ was dismissed Tuesday in superior court after an out-of-court settlement. The former Atlanta, Ga., Negro Baptist preacher charged his wife deserted him. Custody of two small sons will be divided between Mr. Faulkner and Mrs. Faulkner.

San Antonio Oil Man Killed in Airplane

FORT WORTH, June 30. (AP) — M. L. Massingill, 63, San Antonio oil man and former Fort Worth attorney, was killed yesterday when his plane crashed near a landing strip at Eldorado.

Massingill was en route to Midland, alone. Witnesses said the plane flew across the strip once then crashed. Stormy weather covered the route from Eldorado to Midland.

FARM AND RANCH LOANS—thru the Federal Land Bank of Houston. Let us refinance your old loan, assist you in buying a farm or ranch, build or improve present property. 20 to 34½ year's time, four per cent interest, repayable on or before with out extra charge—Snyder National Farm Loan Association, Hugh Boren, Secretary-Treasurer.

SOUTH KOREAN RESISTANCE STIFFENS—Heartened by U. S. bomber attacks which blasted invaders from Kimpo Airfield (blast symbols), 22 miles west of North Korean-held Seoul, South Korean defense forces stabilized their main battle line (jagged line and arrows) along the Han and Pukhan Rivers from Kapyong (underlined), about 20 miles northeast of Seoul, westward to the sea at Inchon. Defenders have been ordered to hold the line at all costs to protect the main American aerial beachhead at Suwon, 20 miles south of Seoul and advance headquarters for General MacArthur's field officers. (AP wirephoto map).

Walter Morgan, Native Of County, Is In Sheriff Race

One of four seeking sheriff post — Walter W. Morgan.

One of four candidates to file for the office of sheriff is Walter W. Morgan, 43 years old and a native of Scurry County.

Morgan was born on a farm between Snyder and Ira and attended school at Arah and Snyder. For 15 years he has been a mechanic and runs his own shop at Avenue R and Twenty-fourth Street. He lives, with his wife and three children, in the Boothland addition to Snyder.

He has never held public office but has had experience as a law enforcement officer in his 18 months on the Snyder police force. He resigned in February, 1949.

Morgan says he will do the best that he can if elected to the office of sheriff, but emphasizes that one man is helpless in such an office without the support of the public.

"I believe my friends all know that I have served the public to the best of my ability, both as a mechanic and as a member of the Snyder police department," Morgan said.

Others in the sheriff's race are Lloyd Merritt, incumbent, R. L. (Bob) Terry, and Gordon B. Goss.

Military Zone Set Up Around B-36 Base

FORT WORTH, June 30. (AP)—In a special called session the Tarrant County Commissioners Court granted Carswell Air Force Base authorities the power to set up a restricted military zone around the B-36 bomber base.

Brig. Gen. C. S. Irvine, base commander, made the request yesterday. He said the action would permit the base to extend its perimeter of defense "if an emergency does exist."

The average American on vacation this year will travel a greater distance and spend more money for gasoline, oil and food than ever before, according to a magazine survey. Mr. Tourist is expected to spend an average of $279 and travel 1630 miles. That is $66 and 381 miles above the figure for 1949. Since most vacationists travel by automobile, the oil industry will play a big part in meeting record demands of pleasure - bound Americans.

New Rent Control Law Into Effect

WASHINGTON, June 30. (AP)—The new rent control law goes into effect tonight at midnight, and the federal rent chief plans some changes in regulations.

Without giving details, Housing Expediter Tighe Woods

Told landlords he wants to "correct flaws" in the rules designed to assure them a fair net operating income.

Assured tenants that he plans to "tighten compliance activites" to prevent violation of federal curbs.

Under the newly extended controls, major provisions of the existing act are continued until Dec. 31, 1950. Those localities which want to keep controls until June 30, 1951 can do so.

Sun No. 1 R. J. Randals Misses Pay in Canyon

Sun Oil Co. No. 1-B R. J. Randals, one location stepout from proven Canyon lime production on the north side of the Diamond M field in West-Central Scurry County, apparently has failed to find pay in the Canyon reef and is to go on to 8,000 feet to try to develop an oil well from the lower horizons.

This venture is now making hole past 6,982 feet in lime and shale, and it has not logged any possibilities of production.

Location is 467 feet from south and west lines of the northeast quarter of section 244, block 97, H&TC survey, and nine miles west of Snyder.

IN SHALE

Placid Oil Co. No. 1 Hughes, Southwest Dickens County wildcat, three miles southwest of Spur, and 660 feet from south and west lines of section 185, block 1, H&GN survey, was making hole below 7,159 feet in shale and lime.

This venture is reported to have topped a lime in the Pennsylvanian at 6,985 feet, on a datum of minus 4,674 feet.

Apparently that lime was not very thick, as it is now reported to be back in shale and lime. No shows of oil or gas have been reported from any zone penetrated by the development.

SALT WATER

J. H. Snowden and associates No. 1 Williams, Central-East Lynn County wildcat, 15 miles east and slightly north of Tahoka developed some indications of salt water in a core at 8,577-8,600 feet in the Pennsylvanian lime.

Recovery from the core at 8,577-8,600 feet was 23 feet of lime and shale. The first 13 ½ feet was lime with some scattered porosity, some signs of salt water and no shows of oil or gas. The next three feet was black shale.

The remaining six and one half feet of the core was dense lime with slight porosity and with indications of salt water. There were no petroleum indications.

Operators are to drill deeper. Location is 660 feet from east and 1,980 feet from south lines of section 1407, block 1, EL&RR survey.

Top of the Pennsylvanian lime was called at 8,521 feet which is on a datum of minus 5,567 feet. The section from 8,521 feet to 8,577 feet has not developed any shows of production.

GARZA STEPOUT

Rex M. Alworth of Midland is to start operations at once at his No. 1-A J. C. Dorward, as a stepout from production in the Dorward-San Andres field in Southeast Garza County.

Location of the prospector, which is slated to drill to 2,600 feet using combination tools is 330 feet from south and west lines of the southwest quarter of section 115, block 5, H&GN survey.

That makes it five miles southeast of Justiceburg.

PLUG KENT VENTURE

Seaboard Oil Co. of Delaware and Republic Natural Gas Co. No. 1 Bilbey-Wallace South-Central Kent County wildcat, four and one-half miles south of the town of Clairemont, and about four miles south and slightly east of the two-well Clairemont - Pennsylvanian field, has been plugged and abandoned on total depth of 7,274 feet in dry Mississippian lime.

Top of the Mississippian is at 7,230 feet, which is on a datum of minus 5,009 feet.

That zone, and the Pennsylvanian above it failed to show any signs of oil or gas.

Top of the Pennsylvanian lime was at 6,931 feet, which is on a datum of minus 4,710 feet, and 151 feet low structurally, to the discovery well of the Clairemont-Pennsylvanian field.

Location is 660 feet from north and 1,987.2 feet from west lines of section 27, block 98, H&TC survey.

JUNE 30

MacARTHUR GREETED IN KOREA—General Douglas MacArthur, right, is greeted by Brig. Gen. John Church, chief-of the U. S. Military forces in Korea, upon his arrival at a Southern Korean air base to mak a first-hand survey of the Communist invasion of the South Korean republic. (AP wirephoto from Army Radiograph).

Methodist Drive Gains $10,000 In Week's Time

Workers in the finance campaign for the new educational building of the First Methodist Church reported last night they had received $10,000 during the past week, raising the total amount of cash received to $57,000, and the total including pledges to $75,000.

Leaders in the campaign said they felt confident that entire cost of the building would be covered by cash and pledges by the end of the year. The building will cost $90,600 plus the architect's fee and furnishings.

Dr. Ray N. Johnson, pastor of the First Methodist Church of San Angelo, spoke Monday night at the church kick-off supper which marked the beginning of the campaign.

The 3-story building is a little more than half completed now.

Youth Caravan Ends Week Here

A consecration service concluding Youth Caravan Week will be held tonight at the First Methodist Church.

The caravan team arrived in Snyder a week ago today and began Caravan Week, conducting training classes, worship services, and recreational activities.

The team is composed of Miss Betty Sneed, adult counselor from Houston; and four college students, Miss Eileen Bakehouse, Hedrick, Ia.; Lloyd Stephens, Cornerville, Ark.; Juanita Schultz, Hammond, La.; and Margaret Lang, Cuero, Tex.

Presbyterian Speaker

Guest speaker at the First Presbyterian Church Sunday morning will be Ed Jay, layman of the Central Presbyterian Church of Abilene.

Vacation Bible Schools Set In Two Churches

Leslie Kelley, paster of two half-time churches in Scurry County, Fluvanna and Midway, announced early this week that vacation bible schools will be conducted at both churches beginning Sunday afternoon, when registration and a picnic for enrollees will be held at both churches. The schools will close next Friday night, when certificates and other recognitions will be awarded attendants.

Both schools will be under the direction of the Invincibles, young women from Texas Baptist colleges who have been specially trained in vacation bible school work.

The Fluvanna school will be conducted in the morning from 8 until 11, while the Midway school will meet in the afternoon from 3 until 6.

All boys and girls of each community are invited to attend the schools, regardless of church affiliation.

Singers Convention To Meet Tonight At Pledger Baptist

The Four-County Singing Convention will meet tomorrow night at the Pledger Baptish Church, five miles east of Roby, Jack Patrick, convention president, announced today.

Quartets will be present from Hamlin, Roscoe, and several other places, Patrick said, and plenty of new books will be available for use by all attending.

The convention is comprised of singers from Scurry, Mitchell, Nolan, and Fisher Counties. The singing will begin at 8:15 o'clock and the public is invited to attend.

Services of Prayer Scheduled Next Week By Baptist Church

The Rev. E. K. Shepherd, pastor of the First Baptist Church, announced today the calling of special prayer services at 7:30 o'clock each night next week in view of world conditions.

The services will be held in the church auditorium, and the people will be asked to consider evangelical mission problems, the world's non-Christians, the war crisis, and other matters of general world concern, Mr. Shepherd said.

Guest speaker at the church July 9 will be Dr. J. Howard Williams, of Dallas, executive secretary of the General Baptist Convention of Texas. Special services will be held then regarding the building fund drive for the new church auditorium.

When you make codfish cakes, flour your hands before you form the fish and potato moisture into cakes to prevent sticking.

Chinese Nationalists Make Offer to Assist in Korea

By SPENCER MOOSA
(Associated Press Staff)

TAIPEI, June 30, — Nationalist China today informed the United Nations it was taking steps to furnish "such assistance as is within" its power to the Republic of Korea.

An official announcement said the Nationalist Government called the United Nations' attention to the "urgent need for concerted action on the part of all United Nations members in order to maintain international peace, security both in Korea and elsewhere."

The announcement said the execution of China's decision was being discussed with the Korean and American governments, including Gen. MacArthur in Tokyo.

SENT TO LIE

The Nationalist decision was sent to UN Sec.-Gen. Trygve Lie by Foreign Minister George Yeh.

Trustworthy sources said the Chinese contribution would be three divisions and an unspecified number of air units.

Nationalist officials are discussing possible diplomatic action to prevent the Reds from benefitting from Taipei's compliance with Washington's request to halt air and sea attacks against the Red China mainland.

It was believed possible the Nationalists might ask the United States to approach Britain with a view to an embargo on the movement of war material to Communist China through Hong Kong and other British ports.

IDLENESS

The Nationalist air force, which had stepped up its attacks on the Red held Chinese mainland, was idle for the third straight day as was the navy.

Nevertheless, with the presence of the U. S. Seventh Fleet between this island and the Red mainland, there was a greater sense of security in Formosa than existed at any time since the Nationalists collapsed on the continent.

Prompt Action on Dial System Promised if Rates Are Granted

Immediate action on a dial telephone system was promised by officials of the Southwestern Bell Telephone Co. yesterday, if the rate increase proposed by the company is accepted by the city council.

Marshall Kemp, Sweetwater, area manager, said engineering on a $1,250,000 dial telephone system would begin immediately after the authorization of the rate increase.

The rate increases, which the company states are necessary to justify the installation of a dial system, are: private-line business, from $5.50 to $8.25; rural business, $5.50; private-line residence, from $2.75 to $4.25; two-party residence, from $2.25 to $3.50; four-party residence, $3; and rural residence, $3.25.

In the meantime, until the rate increase is approved and the dial system placed in service, the company is going ahead with its program to expand present facilities here at a cost of $285,000, Kemp added.

"Telephone engineers will begin drawing up plans for our new system as soon as the rate increase is authorized," he stated. "In addition to designing a system for Snyder and ordering the equipment, the company will erect a new telephone building to house the intricate dial switches and other equipment.

"Work would get underway in time to have the building ready for the equipment as it is shipped from the factory."

Preliminary plans for the building here in Snyder show a large two-story building, capable of supporting more floors if necessary.

The petition from the telephone company for a rate increase has not yet been presented to the city council for its action, although the matter has been discussed with individual council members.

The last telephone rate increase was granted 13 months ago by the council, when it raised rates in effect here since 1920.

Industrial Revolution Is Transforming Dixieland

ATLANTA — The easy - going south of magnolias, mint juleps and the shuffling gait is just about dead—if it isn't already.

The south today is a bustling land, eager to undertake new things and to tell the world in the words of the Southern Railway, "Look Ahead, Look South."

Just about every chamber of commerce, every Kiwanis, Rotary or Lions club has some pet project to encourage industry to come south.

And if they haven't actually got the project in the fire, they're talking about it.

It is a land where "the war" now means the late global conflict and not the Civil War—and that is change indeed.

Tne New Generation

A new crop of southerners has come into being. Nearly any college professor can tell you that the youngsters of today are not so much interested in where the south has been so much as where it is going.

The end of World War I spurred the south along the road to progress and World War II accelerated the process.

In the short span of one generation—33 years by common reckoning—the south has expanded its manufacturing labor force by 653,684, or from 912,458 workers to 1,566,142.

The worth of southern labor, measured in the statistical term "value added, by manufacture," has multiplied from $1,965,140,000 to $7,687,000,000.

It is a land which has seen its farm income rise in the same generation from $2,109,000,000 to $3,899,000,000.

All these figures, mind, apply only to the "Old South" states of Alabama, Florida, Georgia, Louisiana, Mississippi, South Carolina, North Carolina, Tennessee and Virginia.

Per Capita Income Rises

These same states have seen their per capita income rise over the generation in amazing fashion. Here are the figures:

Alabama, $56 to $891; Florida, $110 to $1,137; Georgia, $75 to $971; Louisiana, $112 to $1,002; Carolina, $84 to $365; Tennessee, $82 to $955, and Virginia, $107, to $1,159.

The south also is a land of changing attitudes. Despite the highly publicized examples of intolerance and race baiting, you need only to live here to realize that more and more southerners are willing to live and let live.

Slowly disappearing, too, is the double standard of justice. Southern juries will convict White men of crimes against negroes. The record is there to prove it.

A good example of this changing attitude is to be found in an editorial which appeared in the Jackson Daily News in Jackson, Miss., at the time the Mississippi legislature was considering the Negro education problem. It read:

"For the first time in a good many years, the Mississippi legislature faces a serious phase of the Negro problem and unless it faces that problem in a fair, impartial and courageous manner, the result is going to be unhappy for the state.

The New Negro

"It is senseless to say 'there is nothing new' about the Negro problem.

"There may be nothing really new concerning the Negro problem per se, but there is a new Negro in our land and the southern law-maker, or citizen, who fails to realize that fact is being stupid at his own cost.

"The New Negro has more education. He has better health. He has better clothes. He reads more newspapers. He is adopting the White man's customs, the White man's speech, the White man's standards and the White man's shibboleths.

"Now it doesn't make sense to assume that this new Negro is going to be content in the cabin of his slave grandfather. And it doesn't make sense to pretend that is where he ought to be. His eyes are on better things, materially considered. He is going to have a car and drive it. He is going to buy a home and live in it. He is going to step into citizenship and exercise its rights and demand its privileges.

"Indeed, our use of the future tense is merely to gentle the recalcitrant of our readers to the fact that the new Negro already is doing these things. The new Negro is not a man of tomorrow. He is the man of today.

The Common Denominator

"The important thing is not that the Negro is new, or that he is a Negro. Those things are important to him, of course; but the chief significance to the White man in determining his own attitude to the new Negro is that the new Negro is a man. There is an adulthood about his status that cannot be ignored.

"The old time Negro was in some ways a child with many endearing ways. Even his faults were mostly childish ones, easy to chuckle over, easy to forgive. The new Negro is growing up. Maybe he is not fully grown, but he has grown amazingly. He is no longer a child.

"That means this, among other things—having become a man, he must put away childish things."

The editorial wound up with the conclusion that it was up to the White lawmakers to revise the ground rules of living together. It is up to the Whites, said the editorial, because this is a democracy and the White man is in the majority.

Until the ground rules are revised, the editorial advised, "both sides will have to be patient."

Boos From Women Fall on Bigamist

CHICAGO, June 30. (AP) — Boos and catcalls from women in the courtroom greeted John A. Juras, 25, yesterday, when he was sentenced to from one to two years in prison for bigamy. Judge George M. Fisher took judicial note of the feminine outbreak as he commented to Juras:

"Possibly I am doing you a favor in sentencing you. You won't be able to get out, but on the other hand, no one will be able to get at you."

The Merion Golf Club, scene of this year's U. S. Open, is 6,694 yards and a 70 par.

Engine Trouble Said Cause Of Two C-119 Crashes

SMYRNA, Tenn., June 30. (AP)—Engine trouble is blamed for the crash of two big C-119 troop-transport planes based at Sewart Air Base here in two days.

One C-119 packet carrying a five-man crew crashed near Decatur, Ala., yesterday injuring two crewmen.

The Sewart information office said the craft's right engine failed causing the plane, loaded with 3,000 gallons of high-octane gasoline to crash. The gas did not ignite.

Yesterday's mishap came just 19 hours after another C-119, successor to the flying boxcar, exploded and burned near Nashville, Tenn., killing all four crewmen.

Twenty - six paratroopers from Fort Campbell, Ky., on a night drop mission, took to their chutes and escaped injury. Failure of the left engine preceded the Nashville crash.

A board of investigators headed by Capt. Vernon J. Bower of Corsicana, Tex., began probing the accidents yesterday.

Injured in the Alabama crash were Sgt. John W. Kestner of Saltville, Va., and Sgt. Williams R. Stewart, 26, Mt. Pleasant, Tenn. Neither was termed seriously injured.

Escaping were Second Lt. James W. Bonner, 23, of Washington, D.C., pilot; Second Lt. Charles S. Aldrich, 24, of Long Beach, Calif., co-pilot; and S-Sgt. H. M. Calcutt, 26, of Florence, N. C., assistant crew chief.

YOU... and Your Home

By JAY TROST

THE BRIDE SAYS: "I DO...

...love the old banjo clock that grandma chose from her heirloom treasures to give us for a wedding gift, but what shall I do with it?"

Use it for a starting point in your decorative scheme. Let it set the mood for your living room. Build a color symphony of ivory, tan and brown picked up from the old clock's mellowed tones, to play up the satiny-smooth finish of your new maple furniture.

In the room sketched above a banjo clock dominates the simple mantle wall which has been painted a rich sandalwood brown to contrast with old ivory on other walls and ceiling. The entire room is enlivened by the full-hanging floral draperies with shades of brown and gold mingling with hyacinth blue on ivory background. Blue sofa (color picked up from drapery print) mixes smoothly with background and is completely at home with friendly maple chairs, tables and chest. End tables have drawers for storing cards, tobacco, games and cigarettes.

Here is a young room where an old clock ties the past to the present, blends with the beauty of the maple furnishings and promises to live happily ever after.

Feel free to stop in any time and discuss your interior decorating problems with us.
