LITTLE DAMAGE TO CITY OF GALVESTON

President Wilson "Reads Riot Act" at Tacoma

ARMORY, TACOMA, WASH., Sept. 13.—President Wilson today "read the riot act" to anyone who tries to make the League of Nations fight "a party matter."

In a speech here he declared there should be no politics in the debate; that republicans suggested the idea of a league.

He said he was making that kind of a speech to "read the riot act to anyone who seeks to make this a party matter."

Wilson named Taft and Wickersham as republicans who were working for the treaty.

It if fails, he warned, "every woman should weep" for the child at her breast, who when he grows to manhood will have to go forth to the front.

He mentioned the children who came to greet him, waving flags, and said he hoped they never would have to carry flags into battle.

Wilson remarked in the course of an anecdote that he didn't mind being called "Woody" so long as it was a name and not a description. The crowd laughed.

He told a story of an adventure at Billings, Montana, where a little boy, anxious to do something for the president, pursued his automobile, shouting "Here, Woody, here's a dime." There was laughter at this.

Men of the world are in a slough of despondency, he declared, and must be helped out.

Without the League, the peace settlement will collapse like a house of cards, he predicted.

Wilson had the crowd laughing one minute, cheering the next, mingling his serious remarks with humorous stories. As he spoke he stood as if in a spotlight, a sunbeam from the skylight falling upon him.

ARMORY, TACOMA, WASH., Sept. 13.—President Wilson, after speaking to school children of Tacoma in the Stadium this morning, made his plea for ratification of the peace treaty to to a crowd which packed the Armory.

The Stadium is a few blocks from the Armory in an immense horseshoe facing the bay. It holds 30,000 and was nearly filled with children. Wilson's automobile was driven into the enclosure. His appearance was the signal for shrill cheering that continued while his machine progressed slowly around the amphitheater.

Wilson stood while the National anthem was sung by the school children. He then walked to the band stand, and standing, hat in hand, declared he was profoundly touched.

One of the thoughts uppermost in his mind, he said, was that the decision the nation must make now will mean more to the coming generation than to the present generation.

A Polish girl handed the President a memorandum from Poles of Tacoma, thanking him for what he had done for Poland. Wilson left the Stadium to the din of renewed cheers of childish voices.

At the Armory the President found the side door locked and was obliged to stand on the sidewalk several minutes. He joked about it.

The President began with a declaration that the nation was facing one of the most momentous decisions in its history.

He read the concluding passage of his war message to congress, setting forth the objects for which America was to fight, and argued those objects would not be attained until the treaty is ratified.

SEATTLE, WASH., Sept. 13.—Detailing the purposes for which the United States entered the war as they were set forth and accepted by Congress in his war message, President Wilson told the people of Washington today that the issue squarely facing the country in the treaty debate was whether that program should be carried through or abandoned.

In the first day of his stay of more than a week on the Pacific coast, Mr. Wilson spoke during the morning at Tacoma and then came to Seattle in time to review the Pacific fleet in the afternoon and address a mass meeting at the arena in the evening. In both cities he was cheered by crowds that thronged every point of vantage to get a glimpse of him. He will rest tomorrow at a Seattle hotel.

Argument Repeated.

Repeating many of the arguments he has used previously against qualifications or amendments, the President again appealed to republicans of the country to "forget that there is an election in 1920." He asserted his intention to read the "riot act" to anyone who let political conditions dictate his course in relation to the treaty.

Seattle's downtown section was crowded to its capacity when Mr. Wilson's train arrived and along the line of a two mile automobile ride through the city there was a roar of cheering. The police had strung ropes to keep the spectators on the sidewalks but the crowds broke through and shrieking mobs followed the President's car everywhere.

Opinion Uniform.

At a public dinner which he attended before going to the arena, Mr. Wilson said he had been impressed by the uniformity of opinion among the people from ocean ot ocean.

"There is no essential division," he said, "in the thought or purpose of the American people. No amount of debate will set them off their balance."

All the world was looking to the United States to put the world affairs on a settled basis, he said, adding that the world would not be disappointed.

At the arena, which seats 6,300, there were a few empty seats when the President began speaking, but many were standing. When Mr. Wilson entered the crowds rose and cheered for more than a minute and when he was introduced by Mayor Fitzgerald, there was a longer demonstration.

German Position.

The President began by saying he had heard that one of the former advisers of the German government saw in some aspects of the treaty a hope for an outcome that might be pleasing to Germany. All over the country it is becoming more and more evident, he asserted, that the pro-German element was pleased at some of the things that had developed in the treaty discussion.

Asserting he had no doubt that in the end the United States would accept its responsibilities in regard to the peace settlement, he said he was fearful of the effects of some of the things that are being said.

Applause repeatedly interrupted the speech, while outside the hall, a crowd against which the police had closed the doors, kept up such a roaring of cheering that his words sometimes were drowned out. Pounding on walls and doors, the crowd, vainly trying to get in, at last settled down to shouting in unison:

Call for President.

"We want Wilson."

The President digressed to remark:

"That applause is welcome but inopportune."

The President was cheered when he said the idea of a league had come originally from republicans.

"When the republicans take that road I take off my hat and follow," he continued, "and I don't care whether I lead or not."

The President said there was unrest everywhere and he had been concerned by the look of anxiety he saw on the faces of many of those he saw from day to day.

When he cited the bolshevik regime in Russia and said he was going to devote all of his influence and authority to seeing that no minority gained control in the United States, the crowd again stood and cheered.

FIVE ARE DEAD AS RESULT EXPLOSION IN GRAIN ELEVATOR

KANSAS CITY, MO., Sept. 13.—Trapped under the debris of a building partially wrecked by an explosion, the horror increased by a fire which followed the trail of wreckage, the bodies of five men were being sought by rescuers tonight in the ruins of the federal grain company's grain elevator.

One man, J. Mack, Liberty, Mo., is known to be dead, five others are missing and 16 injured, several fatally, as the result of a combustion of grain dust which led to the explosion.

For one hour, three men suffering severely from burns, paced the roof of the building where they were trapped by the fire. Below, with the crowd, the hysterical wife of one of the men watched his attempt to use his only means of escape, while his two companions struggled to restrain him from jumping ten stories to the ground. Finally, after many desperate attempts firemen reached the men and carried them to safety.

Damage to the main buildings and elevators was estimated tonight at half a million dollars.

PAYMASTER OF MINE IS ROBBED OF $4000 BY MEXICAN BANDITS

EAGLE PASS, TEX., Sept. 13.—Mexican bandits today held up the paymaster of the Escondido mine, fifteen miles from here in Mexico, obtained $4,000 and fled in the paymaster's automobile. Carranza soldiers took up the pursuit.

FIRE CONSUMES MANY THOUSAND BARRELS OF OIL

Fifty Tanks Belonging to the Standard Oil Company Wrapped In Flames.

SEVERAL EXPLOSIONS RESULT IN STAMPEDE

More Than Score Are Trampled Under Foot In Rush To Escape Flames.

NEW YORK, Sept. 13.—The Stone and Fleming works of the Standard Oil Company, covering 20 acres in Long Island City, tonight were wrapped in flames, which after causing damage estimated as reaching into the millions, swept on despite the efforts of a dozen fire boats and nearly two score engine companies to check them.

Many thousands of gallons of oil were consumed.

The blaze started shortly after 2:00 p. m., following an explosion in one of the tanks, believed to have been caused by spontaneous combustion.

Frantic efforts to check the flames during the afternoon failed and toward sunset anxiety began to be felt for the Platt works of the Standard Oil Co., on the opposite bank of Newton creek, on which the Stone and Fleming plant is located. Lumber yards in the vicinity and plants in which large quantities of alcohol and naphtha are stored were also threatened.

Although no one was reported killed up to a late hour tonight, more than a score of persons were trampled under foot when a back draught, sweeping the flames hundreds of feet into the air, caused a crowd of many thousands, gathered on the opposite shore of the creek to flee for safety.

Several Explosions.

As the flames spread from tank to tank until at 8:00 o'clock, 50 were ablaze, there were several explosions which caused uneasiness to spread among spectators. Fearing a more serious burst, they would scamper away, only to return again later and watch the flames sweep onward.

Each tank contained many thousand gallons of oil when the fire started, but plant employes immediately put into operation an emergency underground pipe system and began drawing off the oil to other Standard oil plants in the vicinity. Blazing oil overflowed, however, from some tanks and ran along the ground, spreading destruction. Some spread along the surface of the creek, but soon burned itself out.

So intense was the heat that occupants of factories near the works and families in tenement houses a short distance away fled, some carrying with them belongings.

Shortly before 10:00 o'clock the flames spread to the main building of the Columbia Distilling Co.'s plant, on the same side of the creek as the Stone and Fleming works, and the alcohol stored there burned with a roar. Blazing oil also spread across the creek, threatening the Platt works. Three men on one fire boat were reported killed.

SAYS THE JAPANESE HOPE THAT AMERICA WILL RATIFY TREATY

NEW YORK, Sept. 13.—The people of Japan hope America will ratify the peace treaty, including the Shantung clause Baron S. Goto, minister of foreign affairs in the Terachi cabinet, said today. He added that if America does not ratify the treaty, he believes the Japanese public would be opposed to ratification by their own government.

Goto arrived in America today on the liner Aquitania. He had been in Europe studying economic conditions.

REVOKE LICENSE OF TWO TEXAS FIRMS DEALING IN GRAIN

NEW YORK, Sept. 13.—Revocation of the licenses of two Texas grain companies was announced tonight by the United States food administration. The H. N. Watson Company of Longview and the Officer Smith Grain Company of Fort Worth were both found guilty of "unfair and deceptive tactics" as well as other violations of the administration's regulations.

REPORT RESIGNATION OF CHILEAN MINISTRY

SANTIAGO, CHILE, Sept. 13.—The Chilean ministry has resigned.

TO THE TIMES' SUBSCRIBERS

On account of a breakdown in our press room, the Times was not gotten out on time this morning, and had to be printed this afternoon. Only a few copies of the paper were printed before the break. We trust our patrons will bear with us on account of this delay, as it was unforseen, and could not be helped.

While waiting for the repairs to be made on our press we have received the latest news up to 3:00 p. m. in regard to the big Gulf Coast storm, and we are more than glad to give our readers the latest news possible.

We hope, with the above explanation as to the cause of our delay, you will bear with us.

TIMES PUBLISHING COMPANY

PERSHING CELEBRATES BIRTHDAY ON HIS RETURN TO WASHINGTON

WASHINGTON, Sept. 13.—With his headquarters as chief of the American expeditionary forces re-established in Washington, after more than two years in France, General Pershing promptly joined in the Saturday half holiday today and went to a track meet and a baseball game.

Tonight the general completed the celebration of a dual event, his return and his fifty-ninth birthday, at a quiet family dinner at the home of his father-in-law, Senator Warren of Wyoming.

The only official events of General Pershing's first full day back in Washington were his brief conference with Secretary Baker and the inspection of the offices set apart for him where the affairs of the American expeditionary forces are to be wound up. He was eagerly hailed throughout the day, whenever he was recognized on the streets or elsewhere, but he most unusual greeting given him was at the war department, where clerks fairly mobbed him, clinging to his sleeves and thrusting eager hands to greet him.

There was a conspiracy among officials and fellow officers to let the returned soldier off very lightly. Ahead of him looms his most significant parade, the march up Pennsylvania avenue next week at the head of the First Division. Until then his comrades in arms here are determined not to trepass on his time.

STRIKING POLICEMEN ARE BARRED FROM THE FORCE

NEW YORK, Sept. 13.—Samuel Gompers, president of the American Federation of Labor, placed the entire blame for the Boston police strike on Police Commissioner Edwin Curtis in a statement issued here tonight.

BOSTON, Sept. 13.—With the organization of a new police force begun and the striking police barred from returning to the force under any conditions, the last chapter in Boston's police strike was being written today, city authorities believed.

The latest development in a day in which the issue at stake was discussed and disposed of with firmness and speed, came this afternoon when Police Commissioner Curtis declined to meet John F. McInnes, leader of the striking police, and other officials. At the same time Governor Coolidge, replying to a telegram from Samuel Gompers in which the latter requested that the authorities withdraw their rule against police affiliation with the American Federation of Labor and reinstate the police temporarily, sent the following telegram to Gompers:

"Under the law the suggestions contained in your telegram are not under the authority of the governor of Massachussets, but only of the commissioner of police of the city of Boston. With the maintenance of discipiline in his department, I have no authority to interefere. He has decided that the men have abandoned their sworn duty and has accordingly declared their place vacant. I shall support the commissioner in the exercise of the law and the maintenance of order."

AMERICAN MINERS CAPTURED BY BAND OF TEN MEXICANS

CHIHUAHUA, MEX., Sept. 13.—Dr. J. M. Smith and E. Monson, believed to be American mining men, were captured by a band of ten armed mounted Mexicans nine miles from this city early today, according to an authentic report received here tonight. They were taken from a mining company train, which was robbed of the payroll of the Buena Tierra mines.

URGE REPEAL OF CONSCRIPTION LAW

GLASGOW, Sept. 13.—The trades union congress adopted by a large majority today a resolution instructing the parliamentary committee to urge the government to repeal conscription and evacuate the British forces in the Archangel district.

ACCEPT PROPOSAL OF BROTHERHOOD

DETROIT, MICH., Sept. 13.—The Railroad Administration will unreservedly accept the proposal of the United Brotherhood of Maintenance of Way Employes and Railway Shop Laborers for a new working schedule, according to a message read before a closed session of the organization's convention here this morning. This means officials of the brotherhood state, that there will be no strike of the organization members.

CHARGE PACKERS PURSUING A SHORT SIGHTED POLICY

WASHINGTON, Sept. 13.—Packers are pursuing a short sighted policy in opposing enactment of the Kenyon or Kendrick bills, Henry Wallace, editor of Wallace's Farmer, Des Moines, Iowa, told the Senate agriculture committee today.

"They won't hurt an honest man and they will keep a rascal in his place," Wallace said, referring to the bills.

Wallace said violent fluctuations in livestock markets recently were not due to the packers to any extent, and said future fluctuations will not be done away with by the pending legislation, although it would be a step in the right direction."

C. W. Pugsley, editor of the Nebraska Farmer, Lincoln, Nebr., assailed the testimony of witnesses who have been oposing the bills.

"I can not see how a person doing an honest business has anything to fear from these bills," he said.

WOULD TAKE FIELD IN EVENT MEXICO IS INVADED BY U. S.

NOGALES, ARIZ., Sept. 13.—General Alvaro Obregon, former minister of war in the Carranza cabinet, and a candidate for president in 1920, announced today that he would take the field against the United States in the event of armed intervention by the United States.

At the same time General Obregon denied statements he claimed had been made in the United States that he is anti-American, claiming these statements were the work of propagandists.

DECISIVE VICTORY OVER BOLSHEVIKI IS CLAIMED IN REPORT

LONDON, Sept. 13.—The war office announces a decisive victory over the bolshevik forces at Tsaritsyn by General Denikine, in which 9,000 prisoners, 11 guns and 100 machine guns were taken. Three bolshevik regiments surrendered and two others were destroyed.

WASHINGTON, Sept. 14—Danger along the Gulf coast from the tropical hurricane has apparently passed. The storm swept inland from the western gulf about 4 o'clock this morning near Brownsville and passed on into Mexico, where it will be dissipated in Mexican mountains, according to the Weather Bureau officials.

Only slight damage was caused at Galveston, where at 7 o'clock today there was a nine-foot tide, and the wind had reached sixty miles hourly.

Reports from there are reassuring, officials said.

Barometer at Brownsville, where the disturbance passed, was 28.55.

GALVESTON, TEXAS, Sept. 13.—At 3:30 o'clock water was flooding downtown stores and forces of emergency workers were removing merchandise to top flors. A 40-mile wind was blowing from the northeast and the barometer had dropped to 28.58. The tide was 8 feet and still rising.

The last train left at 10:30 p. m., the last interurban left at 10:40. There were no other trains scheduled for the night. The union station was closed. The streets about the station were flooded.

Perishable merchadise has been moving to places of safety on the mainland for two days. It was said there would be little left to damage.

Telephone service at 4 o'clock was still intact. The two electric lighting plants were still in operation.

The streets, which earlier in the night were deserted, held thin lines of refguees and sightseers. The refugees were being housed in the county court house, the public library and in the city schools.

The life saving station at San Luis Pass, at the extreme western end of the island, reported four feet of water under the station and a heavy sea. Two refugees from hunting camps had been taken to the station.

All of the bay front was flooded, six squares south from Galveston Bay and the entire length of the north side of the island.

At 4 o'clock a light rain began to fall. The wind whipped the water at street corners into spray. Rubber booted pedestrians and night workmen carrying shoes in their hands, staggered down the middle of the streets. A few automobiles splashed along less flooded thoroughfares.

The bay front section, on the north side of the island, is 10 feet above low mean tide, the Gulf or south front 21 feet. The water, backed into the bay by the Gulf, came through the three slips at the wharves, which are seven feet above mean low tide.

HOUSTON, TEX., Sept. 14.—The barometer reading here at 1:45 a. m. was 29.68, and drop of five points since 10 p. m. A wind of 22 miles an hour was blowing from the northeast. Two wireless messages were picked up by an amateur station here, one from the Texac Company steamer New York, 225 miles out from Galveston, reporting a northeast wind of from 38 to 40 miles per hour and increasing steadily. The other message was from the government station at Point Isabell, saying the disturbance was apparently central in the Gulf south of Galveston and that the center cannot be located. The message advised enire coast to watch barometers carefully during the night and to take all precautions against rising winds and high tides, especially if barometer begins falling steadily.

NEW ORLEANS, LA., Sept. 13—Although the tropical hurricane, which first made its presence known nearly a week ago in the Bahamas, touched [illegible] of Louisiana today, observers at the New Orleans district weather bureau tonight could only say that the center had not reached the mainland and that the area to feel the effects of the storm might include the entire gulf coast.

Coupled with the admission by bureau experts that the storm was apparently one of the greatest in area in weather bureau history, came an order tonight to extend storm warnings from Velasco to Brownsville, Texas. Probable gales and rising tides were forecast.

Rising Barometers.

Rising barometers at various western gulf coast cities earlier today seemed to indicate the storm would not make its present felt there. But the hurricane, according to the weather bureau experts, apparently was was moving as based on barometric readings as well as ordinary observations. Port Arthur, for instance, it was pointed out, showed a barometer reading early tonight of 29.68 against 29.74 24 hours ago, when it was thought probable the storm might strike in that vicinity.

"The area probable is 500 miles," District Forecaster Cline stated tonight. "The entire gulf coast is in its path."

Communication Cut.

Early reports from Burrwood, near the mouth of the Mississippi, reported the halyards at the weather bureau there demolished by the wind which reached a velocity of 82 miles at 11:00 o'clock this morning. Reports were lacking from Pilot Town, the headquarters of the bar pilots near the passes and it was believed wire communication between that point and Burrwood had been cut.

Realization of the seriousness of the situation came here late today when the Louisville and Nashville railroad cancelled its gulf coast service, passenger and freight. New Orleans citizens, who maintain summer residences along the coast from Lake Shore, Miss. to Pass Christian, today brought their families to the city and reported high water, strong winds and frightened villagers along the entire route.

Trains Rerouted.

New York-New Orleans Limited and the Cincinnati-New Orleans trains, bound for New Orleans, were halted at Bay St. Louis and re-routed by way of Hattiesburg. Two Saturday afternoon trains used largely by commuters were held in New Orleans.

It was said the great fear was that should trains be operated they might be caught between washouts and would be unable to move either way.

At Dunbar the Pearl River, which divides Louisiana and Mississippi, was reported above the danger mark as was the pass at the Rigolets, where the Louisville & Nashville maintains one of the longest bridges along the gulf coast. The two mile trestle over Mississippi Sound and connecting Bay St. Louis and Henderson Point was being watched by a gang of specially appointed employes. There was no traffic between Gulfport and Bay St. Louis.

At Lake Catherine, La., where 11 lives were lost in the storm of September, 1915, the water of Unknown Pass, connecting Lake Catherine and Lake Borgne, was reported over the railroad tracks and fishermen were said to be in great danger.

Fifty Mile Gale.

A fifty mile gale was reported blowing tonight at Rockport, near the central portion of the Louisiana gulf coast.

Gas fields in the vicinity of Houma, Louisiana's natural gas section, were reported under the water, but the extent of the damage was not estimated.

At Morgan City, almost at the geographical center of the southern Louisiana coast, a 25 mile wind was blowing early tonight. Numerous fleets of fishing boats, which had started out early today because of apparent fair weather in prospect, put rapidly into port, and tonight, it was said, there were no boats unaccounted for.

At Burrwood, where a 52 mile wind destroyed a portion of the weather bureau's paraphernalia today, the wind tonight had died down to 42 miles and was coming from the northeast. The barometer rose 12 points to 29.80 and led observers to believe that so far as that particular section was concerned the worst part of the storm had passed. There still were no advices tonight from Pilot Town, near the passes. Steamships, held at Quarantine by weather bureau warnings, were reported safely riding at anchor.

Prepare for Heavy Winds.

New Orleans, despite the fact that the wind at 8:30 o'clock had died down to 21 miles an hour and the barometer had risen to 29.80, was prepared for heavy winds. Plate glass windows in the business section were barricaded and braced. Extra precautions were being taken to protect the waterworks and power plants. The highest wind here since the storm warnings were issued was 32 miles an hour at 2:30 p. m. today. The rainfall between 5 and 7 p. m. was 1.6 inches.

Steam was up in two sea-going tugs owned by W. Lee Jahncke, and the vessels were stocked with emergency stores in the event of a repetition of the 1915 hurricane when thousands were without food and shelter along the coast and on the borders of Lake Pontchartrain.

Many Inquiries.

Hundreds of telegrams and long distance telephone messages were being received at the weather bureau tonight from points in Louisiana and Texas. To them all the bureau officials ad-

(Continued on Page 2, Column 3)

PRESIDENT REVIEWS BIG FLEET ANCHORED ON PACIFIC COAST

SEATTLE, WASH., Sept. 13.—President Wilson today reviewed the great pacific fleet from the decks of the history famed battleship Oregon in Elliott Bay. The review followed the President's arrival from Tacoma and also followed an incident which nearly resulted in serious consequences for the presidential party when the President's launch collided, bow on, with a naval whaleboat.

Arriving at the dock it was found the barge of Admiral Hugh Rodman, which was supposed to be awaiting the President was not on hand. Commander P. W. Foote personal aide to Secretary of the Navy Daniels, promptly took over a naval launch, into this launch went the President and Mrs. Wilson, Secretary and Mrs. Daniels, secret service men, secretaries and newspaper men.

As Commander Foote ordered the launch shoved off, the small craft keeled over the port rail was nearly under water. Starting ahead then the craft ran bow on into another launch giving the presidential party a severe jar. The President however, [illegible] in the aft part of the launch [illegible] smiled.

Two Mexicans Are Mobbed By Citizens of Pueblo, Colo.

WEATHER FORECAST FOR COMING WEEK.

WASHINGTON, Sept. 13.—Weather predictions for the week beginning Monday issued by the weather bureau today are:

West Gulf States: Generally fair; nearly normal temperatures.

PUEBLO, COLO., Sept. 13.—Two Mexicans were taken from the city jail tonight by a mob of armed citizens, driven in an automobile to the Fourth street bridge at the city limits and hanged.

The bodies were found 45 minutes later by the police. The lynching followed the arrest of two Mexicans charged with the murder today of Patrolman Jeff Evans.

The two men, Jose Gonzales and Santos Ortez, section hands, were arrested today. Reports that the men had been transferred to the county jail and that two other Mexicans had been hanged proved erroneous.

"PLUMB PLAN" IS ENDORSED BY MINE WORKERS

Pledge Support of Organization To Secure Its Enactment Into a Law.

CLEVELAND, O., Sept. 15.—The United Mine Workers convention today endorsed the Plumb plan for the nationalization of railroads, pledged the support of the miners organization to secure its enactment, and invited the railroad brotherhoods to join with them in an alliance for joint action, to be later extended in an economic alliance with labor organizations in other basic industries. The convention's action was almost unanimous.

Assurances were given that the railway organizations, which last year showed themselves adverse to the idea of a conference for co-operation with the miners, were now ready to act with them. The resolution of the convention reads:

"Resolved, that this convention instruct the resident officers and the international executive board to endeavor to bring about a conference with the railway workers organizations for the purpose of formulating an alliance whereby the organized workers in these two great basic industries may act jointly on all matters of mutual interest, such as the democratic administration of these industries with the workers having equal representation in the management, under a system of nationalization; and on all other matters where the interest of the workers in these industries may be advanced by joint action; and be it further,

Fight to Continue.

"Resolved, that in the conference above suggested consideration be given to further alliances between organizations of labor in the basic industries with a view to strengthening the economic power of labor in the fight that is now being waged, and which is destined to continue until the working people of America have been granted that measure of industrial democracy to which they are justly entitled."

The preamble recites that the world-wide unrest is not the creation of bolshevists or anarchists but in the main the justifiable revolt of workers against "evil and well nigh intolerable conditions."

It calls attention to the economic power wielded by the British "triple alliance" of railwaymen, transport workers and miners, which it declares, is able to paralyze the industrial life of Great Britain and is using its strength to eradicate evil conditions of employment in the industries which it represents, and argues that any similar effort in the United States must be nation-wide in its scope.

Glenn E. Plumb addressed the convention before the adoption of the resolution, explaining at length the Plumb plan as affecting railroads and the possibility of its application to mining and other basic industries. His speech was ordered printed and distributed direct to all local unions of the United Mine Workers. Radicals in the convention succeeded in securing similar action for the speech of Seymour Steadman in favor of Eugene V. Debs and other "political prisoners" before the convention Thursday.

HOUSE VOTES FOR MORE COMPENSATION

WASHINGTON, Sept. 13.—Increases practically doubling the monthly compensation originally provided by the war risk insurance act to disabled soldiers and sailors and members of their families, were passed unanimously today by the House with other amendments to the act liberalizing its provision and the eliminated red tape in administrating the law.

The National Bank of Commerce keeps pace with the growth of Wichita Falls and makes ready for the city's future. The bank's new home on the corner of Eighth and Indiana streets is worthy of this city's promise.

Ensign Thronburg of the Salvation Army, officiated yesterday at the marriage of Marvin M. Little and Mrs. Estelle Hill. Mr. and Mrs. Hill will reside in Dallas. ... ...

Completely equipped and organized to handle all business pertaining to banking, the National Bank of Commerce offers its service to corporations, firms, and individuals and welcomes small deposits as heartily as large.

RECEPTION TO SEN. JOHNSON ENTHUSIASTIC

Kansas City Welcome Rivals Demonstration Staged at St. Louis.

KANSAS CITY, MO., Sept. 13.—A demonstration which lasted 15 minutes and rivaled his St. Louis reception, greeted Senator Hiram W. Johnson of California, here tonight.

Convention hall, the largest auditorium in the city, was crowded and many were turned away. The crowd stood while it cheered, waved flags and sang patriotic songs. There were shouts of "Johnson is the next president."

The meeting was under the auspices of the local chapter of the League for the Preservation of American Independence.

Senator Johnson in his address vigorously attacked the peace treaty and League of Nations pact. He declared the League covenant the most important question that had confronted American people since the Civil war.

At the Cross Roads.

"We are at the cross roads of our national destiny," said Senator Johnson, dramatically. "One road leads to sinister European and Asiatic complications. The other is the straight and narrow path of patriotic Americanism. We want to take the straight and narrow path. This is the only safe course."

"I dare say that this country has never been isolated, financially, commercially or socially, from the rest of the world," the Senator continued. "Our only isolation has been geographical because of the great oceans on our west and east coasts. God gave us these great oceans and neither the League of Nations nor Woodrow can dry them up."

Inquest Over Hopes.

He described the League of Nations covenant as an "infamous nostrum," which the President promises will cure every ill.

"Presider Wilson went to Paris with certain idealistic principles, but came home without any of them," said the senator. "When the people learned of the President's failure at Paris, America held an inquest over its dead hopes."

While Senator Johnson was speaking, Major General Leonard Wood, commander of the Central department and formerly commander of Camp Funston, Kansas, appeared on the platform and was cheered by the crowd.

"We say to Mr. Wilson," Senator Johnson said, "'Make any secret treaties you desire, but you can't guarantee them with the blood of American boys.'"

INSTRUCT POLICE IN ART OF HANDLING MEN WHO RESIST

A school of instruction in jiu jitsu is being nightly conducted at the police station for members of the force. All active police officers are to be taught the rudiments of the best system for handling men that yet has been devised.

The school of instruction resulted from the efforts of Assistant Police Commissioner Goodfellow, who induced George F. Gee and George H. Morton, both members of the Detroit detective bureau, who are here in connection with oil interests they own, to conduct the school free of cost to the city or the police.

Several members of the force last night received instructions from Mr. Gee, Motorcycle Officer Paro being an especially apt pupil.

In Detroit, as in other large cities, all policemen are required to keep in perfect physical trim and to learn all of the modern methods of handling men and quickly and efficiently quelling disturbers.

Mr. Goodfellow said the school of instruction would be held nightly and that every officer who wishes will be given an opportunity to participate in it.

Both Mr. Morton and Mr. Gee are exceptionally fine specimens of physical manhood and both are thoroughly versed in the famous Japanese art of subduing a man without much physical effort.

Two more Standard Rigs are in course of erection. We own outright and operate all our equipment.

TROPICAL STORM IS MORE SEVERE

Continued from Page One.

information could be given as to when or how hard the gale would strike. The corridor of the federal building was crowded tonight with frightened residents, several of whom brought provision for a 24 hour "camp."

The only visible evidence in the immediate vicinity of New Orleans of a coming storm was the congested condition of the new basin canal where vessels ranging from charcoal chooners to millionaires' yachts were jammed so closely as to almost prevent anchorage.

The greatest fear of the southwest Louisiana and local firms interested in that section was for the 1919 rice crop, estimated to be worth from $50,000,000 to $55,000,000 and of which 14 per cent is in such shape as to be facing destruction.

At the custom houses tonight it was said there were now four vessels in and out of New Orleans unaccounted for. The Northeastern Navigation lines steamship Mexico, bound for New Orleans from Progreso via. Merida, was reported to have put back into port when she encountered strong winds out of Merida. The Mexico was due here Thursday.

Display Storm Warning.

BROWNSVILLE, TEX., Sept. 13.—With a twenty-two point drop in the barometer here since noon today, storm warnings were hoisted tonight on the coast at Point Isabel, all fishing boats called in and coast guards at the Brazos island station took steps to warn all ships bound from Mexico to Texas ports. The barometer at noon was 29.76 inches, and tonight was 29.54.

Expect Gales on Coast.

NEW ORLEANS, Sept 13.—Storm warnings were extended to Brownsville, Texas, early tonight by the weather bureau here. They were ordered hoisted from Velasco to Brownsville. The weather bureau order said there will be "probable gales on the Texas coast Saturday night, rising tides."

Houston Weather Report.

HOUSTON, TEX., Sept. 13.—Winds on the Texas coast: strong northeasterly to westerly on east coast, with moderate to fresh northerly gales on extreme east coast. Moderate westerly on west coast.

Report Vessel Aground.

SAVANNAH, GA., Sept. 13.—Maritime circles today reported the American steamer Lake Winona around off Dry Tortugas, Fla.

Galveston Reading.

GALVESTON, TEX., Sept. 13.—The barometer reading here at 4:30 p. m. was 29.72 inches. The wind was from the northeast at 23 miles an hour. The barometer was 7 points below the 7 o'clock reading this morning.

WELL MILE AND HALF OF HARROLD PUTS OIL OVER TOP OF DERRICK

According to advices from Vernon, the Kemp-Randell-Wilson well, on the Heissett farm, one and a half miles south of Harrold, started a flow Friday that put oil over the derrick. The flow is estimated at 500 barrels. It is further stated that efforts of the drillers to set casing before making a test were vain.

SOUTHERN ELECTRIC CO. ADDS NEW DEPARTMENT KNOWN AS "GIFT SHOP"

The growth and progress of Wichita Falls is evident in all lines of commerce, and the demands of a larger city are being met by her enterprising merchants.

A gift shop—a place where one can find curios and odd pieces in china, brass, wood, leather and other materials, has been added to the other lines of the Southern Electric Co. Mr. Philip Witt, the manager, on a recent trip to the markets, purchased a wonderful variety of unique curios and novelties—handsome vases of Japanese manufacture, graven images, Buddha's, Chinese gods, graceful oriental figures, antiques from every corner of the earth, works of mystic art from India, Egyptian scarabs and other curios, besides a thousand and one items useful and ornamental, including smoking sets, bric-a-brac and odd and striking pieces for the boudoir and library.

The gift shop will occupy one side of the mezzanine floor, while on the other a beautiful line of draperies will be shown—as pretty an assortment as can be seen anywhere in the South. Manager Witt extends a cordial invitation to the people of Wichita Falls to call and look over the very attractive line of curios and draperies

DEFENDS THE CONSTITUTION OF GERMANY

Man Who Drafted Document Objects to Demand for Its Amendment.

ARGUMENT IS MADE FOR GERMAN-AUSTRIAN UNION

Charges Entente Chose Most Sudden and Brusque Manner in Dealings.

BERLIN, Thursday, Sept. 11.—Dr. Hugo Preuss, who drafted the new German constitution recently promulgated at Weimar, in a statement today to the Associated Press severely arraigned the demand made by the Peace Conference that Germany must amend the constitution so as to prevent Austrian representation in German parliamentary affairs.

"If the Entente raised serious objections to harmless paragraph two of article 61, there were plenty of opportunities to reach a quiet understanding with Germany. Instead of that the Entente chose a most sudden and brusque manner toward us and offered terms for which there was no trace of legality.

"Their political purpose, however, has been attained and the whole world has been shown that Germany must submissively comply with the absolutely illegal order of the Entente.

Wants Union With Austria.

"I do not believe in the opinion widely current among Germans; that the statemen of the Entente and America are filled with anger and hate and have allowed themselves to be drawn into a plan less and purposeless policy. This policy, however, can have but one thought and plan, to make it impossible to consolidate a democratic republic in Germany. The forcible prevention of a union of Austria and Germany is the blow in the face for all the solemnly proclaimed principles of the Entente.

"Materially the union of Austria to Germany would mean a severe burden on Germany. It would however, be of great value and would be of wonderful importance to the young German democracy as it would bring about a unity which Bismarck's statecraft and Prussian weapons failed to accomplish.

"The policy of the Entente, therefore, can have no conceivable aim other than forcibly to prevent this moral strengthening of the republic of Germany and to ad to the strength of its opponents.

Claims Action Expected.

"When the peace terms were formulated the German people established their republic. We knew at that time that with this peace instrument in hand the Entente could discredit the German Republic. The German-Austrian question is the first indication of such an intent, but it probably will not be the last.

"In the meantime this policy runs counter to all the solemn declarations of President Wilson and the Entente. Under most tremendous difficulties, Germany has protected the western world, as a dam, against Bolshevism. It was obvious to every statesman that the German Republic cannot be forever misrepresented by a distinguised Kaiserism. So new blows must be delivered.

"Such treatment increased the protagonists of the old systems and adds to the spirit of revenge in the German people. A desired excuse for mishandling Germany may thus be given in future. The goal must be the destruction of German democracy or of Germany herself."

Wichita Falls Woman Gains 9 Pounds on Orgatone

"I feel better than I have in months and have actually gained more than nine pounds since I began taking Orgatone," said Mrs. C. T. McDowell, residing at 211 Travis street, Wichita Falls, Texas, recently.

"All summer long," she continued, "my stomach was in a very bad condition. My appetite left me entirely and the little food I forced myself to eat filled me with gas which effected my heart so I could hardly breathe it pained me so at times I would almost faint. Then, too, for the past few months I have been bothered with liver troubles and indigestion, and my troubles all together just about got the best of me. My back and side hurt me so at times I could hardly help screaming with pain. I have suffered with constitpation and headaches nearly all summer long and I had gotten very nervous. I don't suppose anybody was ever in much worse fix than I was and I spent over $200 without getting more than a little passing relief.

"When I began taking Orgatone, I just simply felt down and out and good for nothing. I had read about Orgatone but paid little attention to it until a friend advised me to try it and the result has been nothing less than wonderful. I am now on my sixth bottle and eat anything I want, fresh meats, vegetables and anything else my appetite desires, something I couldn't do before in months. I have been relieved from headaches and constipation, the pains are almost gone out of my back and side and I sleep all night long like a child. Yes, I have good reasons for praising Orgatone treatment and I expect to keep on telling about it."

Orgatone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form and is sold in Wichita Falls exclusively by the T. F. Young Drug Co., under the personal direction of a special Orgatone representative. (adv.)

CHARGE DEALERS GET ARMY GOODS

WASHINGTON, Sept. 13.—Secretary Baker today ordered immediate investigation of reports that Chicago wholesalers had obtained large quantities of army food intended for private individuals.

PRISONER HOLDS UP DEPUTY SHERIFF AND MAKES GOOD ESCAPE

BEAUMONT, TEX., Sept. 13.—Arrested on a charge of stealing $4,100, the payroll of a sawmill at Bessmay, Carl House held up the deputy sheriff arresting him, took the officers pistol and car, making the officer crank it, and escaped. He was chased through several miles of forest and finally escaped after wrecking the automobile and taking another. Saturday morning, he was arrested at Orange and the money recovered.

Young business and professional men will find the friendly, helpful and progressive service of the National Bank of Commerce of real dollars-and-cents value. The officers of the bank welcome consultations looking to the opening of accounts.

CHICAGO SOCIALIST CANDIDATE ARRESTED

CHICAGO, Sept. 13.—George Kolp, socialist candidate for mayor in 1907, was arrested here today while selling alleged bolsheviki literature. He was charged with disorderly conduct.

PERFECTING PLAN FOR A MUNICIPAL MARKET FOR CITY

MOVEMENT IS HAVING ATTENTION OF LADIES OF THE CIVIC LEAGUE.

HAVE FAITH IN VENTURE

Market Will Be Designed to Benefit All People and Co-Ooperation Is Asked.

With a municipal market, where fresh vegetables and fruits in season, as well as other farm products will be offered to the housewives at the lowest possible prices, as the motive, the Civic League has undertaken the serving of the Wichita and Rotary Club luncheons each week, the money to be devoted to the establishment of this market. The Civic League has studied the high cost of living problem and has arrived at the conclusion that a municipal market will help vitally in the solution, and the members have undertaken the work of serving the men's clubs with the feeling that they are serving a good purpose in meeting the needs of the clubs, since the hotels and restaurants are not in a position to care for them, and at the same time the ultimate end of the work will more than repay the trouble, time and energy.

Confident of Success.

"It is going to be work," says Mrs. T. B. Smock, the president in making this public request for the assistance of the women of Wichita Falls, who are interested in the civic good of the community," but the end will justify the means, we feel, and we are going to expect the wives of the Rotarians and Wichita Club members to help the League. The market will be for the benefit of the families of the town, and it is not a Civic League matter, but it is a matter of vital interest to every housewife in the city, and for that reason we will expect every public spirited woman of the city to assist us.

Benefit to Public.

"The price of food is very high, and promises to continue upward. Green stuff, which is very essential part of the diet is especially high. Those interested in securing this market have studied the operation of municipal markets in other cities and they find that they have been very successful in lowering prices, and in putting fresh fruits and vegetables within the reach of every class.

"We believe that a municipal market can be successfully operated in Wichita Falls and will prove a distinct boom to the housewives. To establish this market will require money. We are going through the winter to secure this money, and we will need the co-operation of all Civic Leaguers, and of others as well.

"Four chairmen, in charge of one week each month, have been appointed to supervise these luncheons. Mrs. J. Cohen is chairman for this week, the other chairman being: Mrs. C. J. Coyne, Mrs. H. L. Baker, and Mrs. M. M. Gaffney."

J. M. FLEMING DIES AT MEMPHIS THURSDAY

J. M. Fleming, aged 48, son of J. T. A. Fleming of this city, died on Thursday at Memphis, Tenn. The body will arrive in Wichita Falls on Monday and arrangements for the funeral services will be made today, on Monday.

Cancer of the stomach was the cause of death, it is stated. Mr. Fleming having recently undergone an operation.

Twenty-five years ago Mr. Fleming lived in Wichita Falls, moving from here to Memphis, where he remained until his death. He was unmarried. His father, J. T. A. Fleming and sister Mrs. A. D. Magner survive.

COMPANY ORGANIZED WITH LARGE CAPITAL TO DEVELOP QUARRY

Application of the Lone Star Stone Company for a charter has been approved and charter granted, according to a telegram received Saturday by G. D. Anderson, the secretary, treasurer and general manager of the new company, from Judge J. T. Montgomery, at Austin. This company, organized and practically entirely finance locally, has a capital stock of $100,000 and has the lease on a large amount of land with rich stone bearing deposits. The quarry is located within two miles of Chico, Texas, and convenient to the Rock Island railway.

Construction has already begun on the crushing plant, Mr. Anderson states, and on a spur from the main branch of the Rock Island to the plant. Facilities for handling thirty cars daily on the railroad are being arranged, and it is planned to have the plant ready for operation by December 1. The first contract to be filled, in all probability, will be for the Wichita county good roads.

Begin Work on Plant.

"Construction has already been begun on the plant," said Mr. Anderson Saturday, "and we will have capacity of 200 tons hourly. We have the report of government geologists who have investigated teh quarry we will operate that th erock is of the finest grade. When the plant is in operation by December 1, if our present plans do not go astray, we will have an adequate and very superior supply of crushed stone for road building and other purposes very accessible."

Mr. Anderson has had this quarry under lease for the past seven years, the date being delayed by various circumstances from beginning operations. A geologist who made the survey years ago had planned to operate the property with Mr. Anderson, but was also prevented, so this company was organized.

J. A. Kemp is president and Mr. Anderson secretary-treasurer and general manager. The directors are: H. E. Huff, A. S. Goetz, R. S. Womack of Sherman and J. W. Barnett of Chico.

SOCIAL BREVITIES.

Mrs. C. M. Bowman and daughters, Louise and Ola Fay, have returned from Long Beach, Calif., where they spent the last three months, visiting friends and relatives.

Mrs. A. Zundelowitz returned Saturday from Boulder, Colo., where she has spent the summer months in a sanitarium.

Dr. and Mrs. Mark Moore are at home, after spending several months in the East, and in California. Dr. Moore is able to be out a part of the time but is still far from strong.

Mr. and Mrs. T. E. Dodson have returned from a three months' stay in San Diego, Calif., for the benefit of Mr. Dodson's health. He returns much improved and with a good gain in weight.

MISS JACKSON TO GIVE RECITAL NEXT FRIDAY

Friends of Miss Berenice Jackson, talented young violinist, daughter of Mr. and Mrs. J. L. Jackson, 810 Denver, will be delighted to learn that on Friday, September 19, Miss Jackson will appear in recital at the First Presbyterian church. Miss Jackson has been here practically throughout the summer, after graduating from the Cincinnati Conservatory of Music this spring, but this is her first appearance in recital locally for some time, and will afford much pleasure to all music lovers. Miss Jackson is leaving for New York City on September 24, to resume her violin studies with her former instructor, Signor Tirindelli, and with Sam Franko, recognized at the head of their art.

Miss Jackson is to be assisted in recital by Miss Vesta Hastings, another young Wichitan, who though but a short time a resident of Wichita Falls, is recognized as a pianiste of exceptional talent and ability. Miss Hastings spent the winter in New York studying with Friedheim and will spend the season in New York again this winter. Mrs. B. M. Bell, sister of Miss Jackson, also an accomplished musician, will be the accompanist.

The public is extended a cordial invitation to attend.

The program is announced as follows:

Concerto, E Minor (First Movement) ..... Mendelssohn..
Miss Jackson
Evening Harmonies..... List
Scherzo, B Flat Minor.....Chopin
Miss Hastings
Romance ..... Nachez
Joy With Sorrow.....Tirendelli
Spanish Dance .....Sarasate
Miss Jackson
Ballade No. 2 .....List
Miss Hastings
Ballade et Polonaise.....Vienftemps
Miss Jackson
Accompanist: Mrs. B. M. Bell.

Y. W. C. A. PARTY HELD FRIDAY EVENING

Friday night a group of young ladies from the Southwestern Telephone Exchange enjoyed an automobile ride over the city and a social half hour at the Y. W. C. A. recreation room, this being the first of a series of entertainments being planned to extend over the fall and winter months. The affair was arranged by Miss Ruth Clark, the recreation secretary, and Lloyd Weaver supplied the automobiles. Refreshments of ice cream and cake were served at the recreation room, and an informal "sing" concluded the evening.

Will receive limited number of pupils in her home. Practical course for thorough musicianship. Highest musical and social references. Opens October 1st. Address: 218 W. 89th St., New York City.

DIZZY—WRECKED HIS AUTOMOBILE.

"Two years ago my stomach trouble got so bad that I was almost constantly filled with gas. This made me very dizzy at times. Last fall I was almost overcome by one of these dizzy spells while driving my car, and ran into a telephone pole, badly wrecking the car. A friend recommended Mayr's Wonderful Remedy for my trouble. Since taking the first dose I have steadily improved, and feel better now than ever in my life." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Mack Taylor and druggists everywhere.

Wipes Out That Pain

Headache, bad cold, cough? Nature's warnings. Something wrong; these are first signs. Heed them. Apply RUB-A-COLD.

Erase such ills from the system. Unheeded they quickly grow into pneumonia or influenza.

Rub-a-Cold, the old reliable family remedy, effective with its penetrating feature, goes in after the trouble.

Ends coughs and colds through the skin—straight to the roots — stirs new blood into play — scatters congestion—downs impurities—aids Nature to heal.

Applied outside, it goes inside, acts at the base of trouble. It's magic salve that hits the spot. For colds, croups, asthma, eczema, burns, sprains—quick relief. Children's everyday ills eliminated. Keep it handy.

PRELIMINARY SURVEYS TO DETERMINE COST OF SUPPRESSING MALARIA

AUSTIN, Sept. 13.—Preliminary surveys to determine the cost of exterminating mosquitoes and suppressing malaria in 12 Texas towns, are to be made, State Health Officer C. W. Goddard announced today. The work will be done by a United States sanitary engineer under a co-operative plan between the State board of health and the international health board and it will be without cost to the towns.

REVIVAL AT FACTORY METHODIST CHURCH IS GROWING IN INTEREST

The revival at the Factory Methodist Church, now being conducted by the Rev. Tremayne Thomas, English evangelist-musician continues to grow in interest, and is attracting large crowds every night.

Mr. Thomas is a noted evangelist of extended travels and long experience in different parts of Europe as well as in America and Canada and is a strong, forceful and convincing preacher. While deeply in earnest his addresses are characterized by graphic protrayal in which he combines wit and humor, while his beautiful solos thrill all lovers of song.

These meetings are interdenominational in character. The chorus choir is under the direction of Mrs. Myers assisted by Mrs. Jones as organist and Miss Ward as soloist.

Sunday night the evangelist will give his popular address on "Paradise, Lost and Regained."

Take the factory car to these meetings every night at 8 p. m. and enjoy these exceptionally inspiring meetings.

PRESBYTERY EXPRESSES APPRECIATION FOR THE HOSPITALITY OF CITY

Upon the adjournment of the Dallas Presbytery, the presbytery adopted the resolutions attached, expressing their appreciation for the entertainment and hospitality extended by Wichita Falls to the delegates who attended.

The presbytery directed that a copy of this resolution be furnished to the press.

Be It Resolved, That the Presbytery of Dallas extend to the pastor and people of the Central Presbyterian church, Wichita Falls, hearty thanks for their unbounded hospitality. We have been graciously received in their homes and royally entertained while in their midst.

That we assure them of our earnest prayers for God's richest blessings upon their labors in this beautiful and rapidly growing city of the west.

That a copy of this be furnished the press, be printed in the minutes and be read in the pulpit at the services next Sunday by the pastor.

G. B. HALL.

CHILDREN SEEK REFUGE UNDER A FREIGHT CAR AND ONE IS KILLED

EAGLE PASS, TEX., Sept. 13.—Four Mexican children sought refuge under a freight car in the Southern Pacific yards here during a rainstorm last yesterday. The wind blew a car down the track into the car shielding the children, and Hermaca Villareal, 8 years old, was killed, Refugio Rosas, 11, and Clemante Amaya, 11 seriously injured, while the fourth child has not been accounted for.

"FAIR PRICES" ALWAYS!

As every newspaper reader knows, the government has appointed "Fair Price Committees" all over the United States, to investigate the costs of goods and the profits made by manufacturers and merchants, in an endeavor to reduce the high cost of living and bring about "Fair Prices" for all the necessaries of life.

This is a good and commendable work. We trust that it will accomplish the results which we all desire. Prices have gone higher and higher, largely because wages for all kinds of workers have been increased and labor forms the largest part of the cost of all commodities.

But we have made a hard fight, every day, for the past several years to KEEP PRICES DOWN, by careful and skillful buying and by taking the smallest profits that we could afford.

WE HAVE ALWAYS MAINTAINED FAIR PRICES

But we shall welcome the fullest investigation and every possible aid that the government can give, to help us make prices lower on every kind of goods where this good result can be accomplished.

Our Fall Offerings give many instances of where PRICES ARE MORE THAN FAIR.

That touch of distinctive difference that makes for individuality in dress is notably apparent in P. B. M.'s ready tailored Suits, Wraps, Coats, Gowns and Hats.

Style and quality stands pre-eminent and at prices most appealing.

Visit us Monday. We want to show you through—even if you are not ready to buy.

We Are Always Glad to Show You

"The Courteous Service Store"

MUST ESTABLISH A STABLE GOVERNMENT OR WILL INTERVENE

SUCH IS OPINION OF MEXICAN SITUATION AS EXPRESSED BY JUDGE SMITH.

SORE TO THE UNITED STATES

Patience of U. S. Government Has Almost Reached Breaking Point, He States.

"Intervention by the United States in Mexico must come before very long unless a stable government is established there," was one of the declarations made by United States District Judge W. R. Smith in an interview with a Times reporter Saturday. Judge Smith is a resident of El Paso. For many years he served as a member in congress from the far southwestern part of the State and his long residence on the border has given him a close insight into Mexican conditions.

"I cannot tell you what will happen, of course," continued Judge Smith, "but the patience of this government almost has reached the breaking point. Depredations and atrocities continue almost unabated along the border, but I do not expect them long to continue.

Unsafe for Outlaws.

"The United States is getting too many soldiers along the border to make it safe for Mexican outlaws and revolutionists to much longer invade this country.

"Mexico is a veritable sore to the United States. The continual disturbances there are proving costly and very obnoxious to this government. Not only are we forced to maintain large forces of troops along the border, at excessive expense to the United States, but Americans have been murdered, robbed and outraged in other ways until some action—drastic and decisive—must be taken soon to quell disorders in that republic."

When the interviewer intimated that President Carranza might be about as bad as Villa or any of the other bandit leaders in Mexico, Judge Smith said Carranza's chief fault apparently was his stubbornness and his determination to run affairs in Mexico to suit himself regardless of the wishes of the United States government.

Make Success of Job.

Judge Smith said he thought that when intervention came, as he believes it must, an army of sufficient size to subdue the brigand element in Mexico would invade that country.

Judge Smith witnessed the battle of a few weeks ago between General Erwin's troops and the Mexicans on the brigdes between El Paso and Juarez and in Juarez. He said the Americans made quick work of defeating the Mexicans and sent them scampering to the hills.

All of the visiting federal court officials have left the city, Judge Smith and Deputy U. S. Marshal Stokes left last evening. Judge Smith went direct to his home in El Paso, it not being necessary for him to hold federal court in Abilene, as stated, for Judge Wilson adjourned court in Fort Worth yesterday and he will preside at Abilene.

Assistant U. S. Attorney Harrell and his assistant, Mr. Ward, departed Friday night for Dallas.

Young business and professional men will find the friendly, helpful and progressive service of the National Bank of Commerce of real dollars-and-cents value. The officers of the bank welcome consultations looking to the opening of accounts. . . .

J. F. Biggs Jr. will leave Monday for the Texas Military Academy at Terrill.

LARGEST EARNINGS FROM WHEAT CROP FOR MANY YEARS

With the largest Wichita county wheat crop in a number of years practically all marketed, the farmers of the county have received the largest earnings from this crop that has come their way for a number of years, according to J. C. Mytinger, manager of the Wichita Mill & Elevator Co. Although the crop this year was somewhat lighter than has been the case in recent years, the quantity of the 1919 crop more than made that good.

The Wichita county crop was in most cases handled directly from the farms to the local elevators, the farmers of this section thereby faring better than was the case at a number of smaller points in this part of the state and the adjacent state of Oklahoma, where a considerable quantity of wheat is being held back on the farms through lack of freight cars to move the crop, and lack of sufficient near elevator capacity to take care of the storage. With the elevators at Galveston choked with wheat, the yards jammed, a railroad embargo on wheat for Calveston, and no immediate prospect of sufficient shipping for moving the grain from Galveston, the elevators in the interior are rapidly filling to capacity, and at many points, among which are Wichita Falls, are receiving more grain than they can store.

KELL TO REPRESENT CHAMBER COMMERCE AT TRADE CONFERENCE

Frank Kell will represent the Wichita Falls Chamber of Commerce at the International Trade Conference to be held under the auspices of the Chamber of Commerce of the United States at Atlantic City, September 30, to October 3, which will be attended by business representatives of England, France, Italy and Belgium, and at which some of the principal problems connected with the industrial rehabilitation of these countries will be worked out, and the manner which the cooperation of the business interests of the United States is to take in large measure determined. Among the foreign delegates will be some of the large business and industrial men of their respective countries.

JUNK DEALER SUES HIS LANDLORD FOR DAMAGES

Damages for $6,200 and $100 a day since September 1, are sought in a suit filed Saturday in the Thirtieth district court by B. W. Davis vs. John L. Williams.

In his petition Davis sets forth that he rented a block of land in Burkburnett from Williams, May 1, upon which he established his business as a junk dealer. September 1, he wished to move his business, but, he alleged, Williams held possession of all of his tools and stock of junk.

He claims he has been damaged in the sum of $6,200 and $100 a day.

Other suits filed Saturday included the following:

T. B. Fairchild vs. O. W. Cox, for debt.

J. T. Burnett vs. H. Essermann et al, for debt and foreclosure.

Vera Parker vs. Ernest Parker, for divorce transferred from the 78th district court.

J. A. Johnson vs. City National bank et al, for debt.

D. A. Davis vs. McTom Oil Company, on contract and for debt.

Miss Florence Sammons will resume her classes in piano, harmony and ear-training on Friday, Sept. 26. Residence studio, 1206 Travis street, phone 401. 107-7tc

SPECIAL GRAND JURY WILL NOT BE CALLED SAYS JUDGE SCURRY

No special grand jury will be empaneled in the 78th district court to act on the many criminal cases, which have filled the county jail to overflowing and caused Sheriff McFall to house prisoners in the juvenile and insanity cells on the third floor of the court house.

Judge Edgar Scurry, of the 78th court, said yesterday that he would not call a grand jury now. That court is devoting much of its attention to civil business, but has a few criminal cases to try this week.

Judge W. N. Bonner, of the Thirtieth district court, said yesterday that he would confer with Judge Scurry and request him to have a grand jury called so that the jail could be emptied of some of its prisoners, but this conference was not held. Judge Scurry reiterated his determination again last night not to summon a grand jury.

It is known that Judge Bonner is seriously contemplating calling a special grand jury in November, if he cannot do so even sooner. The next term of the Thirtieth district court is not scheduled to take place until the third week in December, which is right at Christmas, and, of course, this means a delay of a week or two in getting the court machinery to working.

There are 74 prisoners in the county jail. Virtually all of these are charged with felonies. Monday eight will be transferred to the federal prison at Leavenworth, Kansas, but today five more state prisoners, all charged with felonies, are expected to arrive here under guard, having been arrested in Oklahoma and Texas cities on information furnished by the sheriff's office.

"The trouble seems to be," said a court official yesterday, "that the officers are arresting more persons than the courts can try."

Oil men will find at the National Bank of Commerce banking service, accommodation and co-operation especially adapted to their individual needs. The officers of the bank welcome consultations with those who expect to establish new or additional banking connections.

Miss Florence Jackson, county home demonstrator, is again at her desk, after an operation for removal of her tonsils, which has kept her confined to her room for several days.

Mrs. Grace M. Higgins and Miss Amilia Miller have returned from a month's trip through Colorado, Yellowstone and Glacier Parks.

EIGHT CONVICTED IN FEDERAL COURT GO TO PRISON MONDAY

Eight federal prisoners will entrain here Monday under Deputy U. S. Marshal Goodfellow and several guards en route to Leavenworth, Kansas, where they will serve sentences imposed upon them by Judge Smith during the past week.

The prisoners to leave Monday, together with their sentences, are:

Jack Trout, 3 years; Jack Dawson, 2 years, and Dave McCoury, 1 year, white slavery.

J. Q. Reynolds, 10 years; transporting his 9-year-old daughter here for purposes of immorality.

Dr. W. W. Pugh and C. A. Downs, one year and one day each, violation of the Harrison narcotic law.

E. E. Brambaugh and Coleman Butler, charged with violation of the liquor laws and with the illicit use of internal revenue stamps; three years and two years, respectively.

Brumbaugh and Butler also are charged by the State with burglary, it being alleged that they were the heads of the two burglary rings recently smashed here by Sheriff McFall.

Friday afternoon there was a merry scene in the courtroom after Judge Smith adjourned U. S. court. Trout's wife and Dawson's wife appeared to tell them good bye. The two prisoners, under guard, were led into the courtroom and sat and chatted with their wives for some time.

Apparently Satisfied.

There was no grief. In fact, there was apparent merriment, for the men and their wives were seemingly delighted because the former had gotten off so lightly. They laughed and talked and Mrs. Trout handed her husband $25 "to tide him over," but no sooner had he received the money than Deputy Marshal Goodfellow relieved him of it, for prisoners' valuables are kept for them. The money will be deposited to his credit in the Leavenworth penitentiary.

Nobody laughed or wept over Dave McCoury, the dupe, the "come on" in the slavery case. He took his sentence of a year and a day more to heart than Trout or Dawson took their longer terms in federal prison. He sat apart and it was evident that he felt the shame and humiliation that had befallen him much more than the other two men. He evidently wasn't used to court and trials and prison sentences.

Court Is Adjourned.

Federal court formally was adjourned Saturday. The argument of a motion, which was set for Saturday, did not take place, and there being no other business of moment to occupy the court, Judge Smith announced adjournment.

Persons indicted by the recent federal grand jury but not tried will be given an opportunity to make bail. If they cannot make bond they must remain in jail until the next term of federal court, which is scheduled to take place in November but which may be postponed until December or January because of the abundance of work before Federal Judge Wilson.

These persons, some of whom already have made bond, are:

R. D. Page, charged with stealing railway administration pay checks.

Earl Carmichael and T. I. Farrard, charged with the theft of $6,000 worth of railway administration checks.

J. B. Legois and Mrs. J. B. Legois, charged with violation of the wartime prohibition laws.

R. C. Strothers, charged with violation of the wartime prohibition laws.

B. Brettler, S. Brettler and S. H Schmid, charged with theft from an interstate shipment.

Bob Covington, charged with violation of the Mann white slavery act.

In every case tried at this term of court, Assistant U. S. Attorney Harrell obtained a conviction.

M'FALL BROTHERS REPORT HEAVY SHIPMENTS ENABLE THEM TO SUPPLY ORDERS

McFall Brothers, dealers in Dodge Brothers motor cars, report heavy shipments during the past weeks. More than 12 carloads of Dodge Brothers cars have been received by this firm in the past few weeks and deliveries were made in accordance with orders booked several weeks previous. Owing to the embargo on Wichita Falls many carloads were shipped to Waurika, Okla., and Henrietta, Texas, thereby enabling them to make deliveries more promptly than would otherwise be able to. However, they continue to receive orders as rapidly as deliveries can be made, the result being that they are unable to catch up on the orders.

Owing to the satisfactory results obtained from the enclosed model cars quite a number of professional and other men are placing orders for sedans or coupes for use during the winter months. There is one thing, however, which they are glad to report and that is the ability to make prompt delivery on business cars, both panel and screen bodies, as well as tool pusher jobs, which are much used by the oil men in this vicinity. They are able to do this because of having received several carload shipments of chassis which they are in position to equip with either of the three above mentioned bodies.

NOTICE TO PUBLIC.

I severed my connection with The Whitfield Co., Sept. 4th. My successors of the Whitfield Co. will collect all bills and meet all obligations.

C. R. LAMBERT.

Announcement

Our school opens Monday, September 15, 1919. Enrollment under summer rates close Monday. After that date scholarship cost will increase.

Enroll now. Enrollment books will remain open until Wednesday 10 a. m. when class work will commence. Day and night classes.

If interested sign this card and either mail or bring to office to secure summer rate.

JOHNSON GETS BIG RECEPTION AT SAINT LOUIS

Trip Along Trail of President Takes on More of the Nature of Fight.

CALLS THE COVENANT AN INFAMOUS THING

Supporters of President Assert Republican City Officials Frame Demostrations.

By FRED S. FERGUSON
(United Press Staff Correspondent)

ST. LOUIS, Sept. 13.—Senator Hiram Johnson's trip along the trail of the President is rapidly taking on more the nature of a fight than an argument.

Encouraged by a remarkable crowd of 12,000 men and women which cheered him for fifteen minutes in the big coliseum here last night, the senator's references to the peace treaty and provisions of the league covenant became sharper and more bitter than in his previous speeches. As he left for Kansas City early today the senator was distinctly in his fighting clothes. His voice was slightly husky at times last night, due to constant speaking, but it didn't prevent him from bringing resounding cheers from the crowds as he called the covenant "an infamous thing that is being foisted upon the people" and again termed it a "great war trust presented to the world."

Capacity House.

Johnson had a "capacity house" at the coliseum. Those who attended the recent Wilson meeting declared just as many persons heard the senator as heard the President. Several thousand were turned away when the President was here, but local authorities declared most of them turned out merely to see Wilson.

St. Louis probably will be arguing for days over the long demonstration accorded Johnson. It started the moment the senator appeared at the door of the big hall. The multitude of men and women jumped to their feet, waving flags and cheering. As Johnson mounted the platform they broke into yelling, whistling, stamping and pounding chairs.

Demonstration Renewed.

At the end of 10 minutes Mayor Kiel stepped forward and raised his hand for silence but the noise mounted to new heights, and the mayor stepped back. After fifteen minutes Dr. John H. Simon, former democratic nominee for mayor and chairman of the meeting, tried it again. The demonstration had kept up without the aid of the band but at this juncture the musicians struck up the Star Spangled Banner. The crowd then took up the song and when it was finished quiet was restored.

Democrats and the newspapers supporting Wilson, assert that the republican city administration had cheer leaders scattered throughout the audience and the demonstration was a well managed affair.

Charge is Denied.

Anti-leaguers and republicans deny this and assert the demonstration was entirely spontaneous. Whichever is the case it beat the demonstration given President Wilson by 10 minutes.

Johnson pounded on the question of which was to be considered the stain upon our honor, abandoning American principles and guaranteeing all the secret treaties and "war garbs" of Europe and Asia, or refusing to be a party to such "infamy."

He brought howls of delight from the crowd as he replied to the President's "contemptible quitter," speech, which was delivered in St. Louis by going over the list of principles he said Wilson had abandoned and declaring "somebody else quit."

"The President says we must make the supreme sacrifice and throw our fortunes with the rest of the world. What he means is we must throw our fortunes to the rest of the world," said Johnson at one point. Other fighting phrases of the senator were:

Other Fighting Phrases.

"I never refused to accept a challenge from any man—President or otherwise.

"The issue is whether we shall do our duty as we see fit, or whether we shall do our duty at the order of Great Britain and Japan.

"From the President's own words, it can be seen that the peace treaty is the result of the secret treaties drawn before we entered the war and not as he holds it up, a veritable handiwork of God.

"I admire what Lloyd George got for his government, but I won't guarantee it.

"There was no reason why the treaty and covenant should not have been separate, except it was determined we should be driven into the League whether we wanted to go or not.

"The same European and Asiatic diplomacy that operated in secret in Paris will prevail in secret at Geneva."

Replying to the President's querry of whether we wanted to accept the Shantung settlement or go to war with England, France and Japan, Johnson replied:

"Nonsense! We don't have to become partners with a burglar if we can not prevent a burglary.

"In view of the Shantung settlement, talk of the rights of free people, the right of self-determination and similar principles becomes tommyrot."

MAN O' WAR WINS BIG FUTURITY RACE

NEW YORK, Sept. 13.—The futurity, one of the classics at Belmont Park, was won today by Man O' War, with Loftus up.

John P. Grier was second and Dominique was third. The time was 1:11 3-5.

Man O' War, the winner, was a Glenn Riddle farm entry.

MACON POLICE CHIEF OUSTED FOR AIDING THE UNION STRIKERS

MACON, GA., Sept. 13.—Police Chief Bowden, who has been charged with sympathizing with rioting union strikers in the cotton mill troubles here, was today given three hours in which to resign his office by the civil service commission.

Bowden resigned before the limit was up. One union organizer and two rioters have been put in jail and citizens are guarding them with riot guns against threats of liberation. The mayor has announced that the civil authorities will protect the mill operatives.

Oil men will find at the National Bank of Commerce banking service, accommodation and co-operation especially adapted to their individual needs. The officers of the bank welcome consultations with those who expect to establish new or additional banking connections.

MERCHANTS GATHER AT PHONE OFFICE TO INSIST ON SERVICE

SHAWNEE, OKLA., Sept. 13.—A crowd representing partically every business house in Shawnee gathered at 10:00 this morning at the telephone company office, and demanded immediate resumption of service.

It dispersed when Chairman Connelly of the State board of arbitration announced the strike had been settled and the service would start again at noon.

It is understood the strikers waived recognition of their union and left only wages to be negotiated. The strike had been in progress since Labor Day.

Following the report that the telephone exchange would re-open at noon, large numbers of Rock Island Shopmen's Union began gathering about the exchange building, declaring the service should not be resumed.

Trouble is believed imminent.

SPANISH STEAMER IS REPORTED IN TROUBLE AS RESULT OF STORM

HAVANA, Sept. 13.—Word was received here indirectly today from the Spanish steamer Valbanera, from Spanish ports for Havana and New Orleans, which arrived off Havana Tuesday but was believed to have put to sea to ride out the storm. The agents here announced they had been advised by the Key West wireless station that the Valbanera had been heard trying to communicate with Havana. Her location was unknown.

WEEKLY STATEMENT OF NEW YORK BANKS

NEW YORK, Sept. 13.—The weekly actual bank statement today showed the following changes:

Surplus, increased $13,655,080.

Loans decreased $10,192,000.

Cash in own vaults, members federal banks, decreased $1,226,000.

Reserve in federal reserve banks of member banks, increased $35,700,000.

Reserve in own vaults, state banks and trust companies, increased $306,000.

Reserve on deposit on state banks and trust companies, decreased $234,000.

Net demand deposits increased $169,783,000.

Net time deposits increased, $5,300,000.

Circulation increased, $46,000.

Aggregate reserve, $810,071,000.

Excess reserve, $45,681,260.

AMERICAN CITIZEN CONFESSES TO PART IN MEXICO CRIME

WASHINGTON, Sept. 13.—An American citizen, Samuel Follery, has confessed to participation in the assault on the Atlantic Refining Company's property at Guayabillo on August 14, according to an announcement made today at the Mexican embassy. It was added that Follery also was an accomplice of those who robbed the same company on July 16, of 12,000 pesos.

The embassy also stated that an investigation in the state of Pueblo had proven that Edward L. Du Fourq, another American, who was killed in that state, was not the victim of rebels, but was murdered by another American armed Heisman.

PAL MOORE RETURNS FROM TRIP TO ENGLAND

NEW WYORK, Sept. 13.—Pal Moore, the American bantamweight, whose two bouts with Jimmy Wilde, the English flyweight, aroused international ring interest, arrived here today from England. Moore will remain in this country for about six weeks, during which period he will box several contests. He plans to return to Europe late in the fall for other international bouts.

Completely equipped and organized to handle all business pertaining to banking, the National Bank of Commerce offers its service to corporations, firms, and individuals and welcomes small deposits as heartily as large.

REPUBLICANS ANNOUNCE ORGANIZATION MEETING AT DALLAS OCTOBER 4

Special to The Times.

FORT WORTH, Sept. 13.—The Texas Republic Council will go into permanent organization on October 4 at a meeting to be held at Dallas, according to announcement from republican headquarters today. The necessity for dealing with permanent questions relating to the party's interest is given as the reason for the decision to hasten the date of permanent organization.

Invitations to Elihu Root, Hiram Johnson, Governor Lowden and Will H. Hays have been extended asking them to be present at the Dallas meeting and assist in laying the foundation of the party in Texas preparatory to its entrance into the activities of the 1920 campaign.

REPORT ON CONDITIONS OF RESERVE BANKS

WASHINGTON, Sept. 13.—The statement of the combined resources and liabilities of the 12 federal reserve banks at the close of business September 12, follows:

Resources:

Total gold held by banks, $769,332,000.

Total gold reserves $3,068,867,000.

Total reserves, $3,128,499,000.

Total bills on hand, $2,116,843,000.

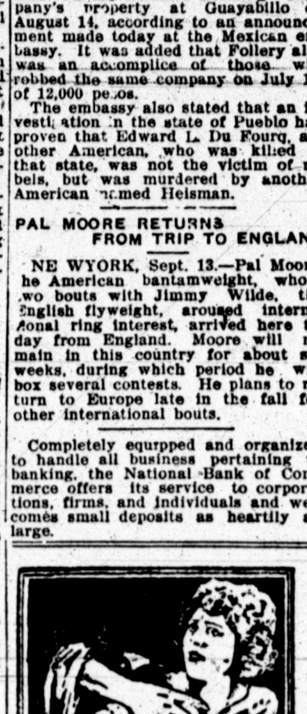

Total earning assets, $2,485,786,000.

Total resources, $5,691,076,000.

Liabilities:

Total gross deposits, $3,649,514,000.

Total liabilities, $5,691,076,000.

The lights went out! The girl suddenly vanished from the room!

The Southwestern Telegraph and Telephone Company's offices are good places for Wichita Falls young women to work, because:

The wages are good.
There is plenty of opportunity for advancement to supervisory and executive positions.
There are various kinds of operating to be done, local, long distance, information, service observing, monitoring, etc.
The female force is directed and is in charge of female executives.
There is protection from favoritism and discrimination.
There is protection of health.
There is protection of morals.
There is development of those personal characteristics which blend girlish charm with strong womanhood.

What Oil Industry Is Doing for Wichita Falls--a Recent View of City's Frequently Changing Sky Line

"By their sky-lines, so shall ye know them," might very aptly be an appropriate index or criterion of modern cities, for as their sky-lines vie for height, so, in many instances, do cities vie for greatness. This is not meant to mean that Waco is Texas' greatest city merely because it has "a toothpick building," as it has been called, of, oh, some odd number of scores of stories high. Not so and never shall it be, for, enter Wichita into the sky-line class!

Just as one building does not make a city, one skyscraper does not make a metropolis. That's one reason why Wichita Falls is building four skyscrapers and planning to build more, even higher, next year.

The panoramic view of a portion of the downtown area of Wichita Falls, which is presented on this page, offers an excellent insight, or gives just an inkling, into the future greatness of the city. The photograph was taken from atop the massive pile which constitutes the county's temple of justice—the courthouse. The picture takes in that area of the city from the Westland hotel, up past the towering skeletons of what soon will be the City National and the National Bank of Commerce buildings, and includes a sweep of the city out as far as a line drawn straight from the courthouse to a point just beyond the big new elevator would reach.

Close scrutiny of the picture will show to you the steel frame-work of the new hotel, the two bank buildings mentioned and the Wood building, all of which are to be completed within the year. A picture of the same area next year will show you the great structures complete and occupied while others will point toward the sky within the same group, for there is the Waggoner building, probably 14 stories high, which is to come, and others which bespeak more eloquently than can the printed word the stability and solidity of Wichita Falls' future and the faith in that future that men who are city builders have.

While the photograph reproduces excellently the gaunt steel skeletons of what is to be in the way of towering monuments to prosperity and constructional endeavor, it does not picture what is planned nor does it give you accurate detail of buildings of less magnitude in height, but of as great importance in the civic welfare and beauty of this new metropolis at the gateway of the plains, which now are under course of erection.

Excavation work is under way for the new Perkins-Timberlake building, for a handsome church edifice, and for other buildings which will go far toward making the city more beautiful and a better place in which to live. Nor can you obtain from the photograph any conception of the home-building era which has reached its apex here.

Wichita Falls is building, and is building well. The foundation of every building but makes the foundation of the city more substantial.

Gaze upon a part of Wichita of today, and then within a year, when the structural promises of the railroads are fulfilled, when the big buildings now nearing completion are occupied, when the ones that are planned are either built or building—look then upon Wichita and you will realize that its city-building program has culminated in success.

MANY WELLS IN WAGGONER POOL WAITING PIPE LINE CONNECTION

An ever increasing number of wells in the Waggoner pool proven area are reported this week at sand depth, and many of them ready for completion as soon as storage is available. From the outside wells, however, there is no new report, the status of all the 30 tests that might prove extensions being practically unchanged for a week's time, some of them even more.

From the river bed drilling operations comes the report that the Burk Bet Oil Co.'s No. 1 is drilling around 1570 feet, near the depth at which the Burk Senator was reported earlier in the week to have struck the oil sand. The setting of casing, and the testing of this Burk Senator well is being awaited with interest.

A partial drilling summary from the Waggoner section follows:

Drilling Report

Liberty Bell Oil Company, No. 1 Taylor, drilling around 800 feet.

Littleton-Weeks Oil Company No. 1 Renner, standardizing.

Lewis et al., No. 1 Taylor, drilling around 790 feet.

Mississippi Burk Oil Company, No. 1 Fowler, drilling around 1540 feet.

Mississippi Burk Oil Company, No. 1 Taylor, casing set.

Mississippi Burk Oil Company, No. 2 Taylor, casing set.

Mississippi Burk Oil Company No. 3, Taylor, drilling around 1279 feet.

Monie Minnis Oil Company, No. 1 Elsea, casing set.

Muckleestone Oil Company No. 1 Elsea, drilling around 1650 feet.

Marigold Oil Company No. 4 Vogel, casing set.

Marigold Oil Company No. 5 Vogel, casing set.

Moody Petroleum Oil Company No. 1 Taylor, casing set.

Moody Petroleum Company No. 2 Taylor, drilling around 770 feet.

Moody Petroleum Company No. 3 Taylor, drilling around 700 feet.

Osage Oil Company, No. 1 Renner, standardizing.

Osage Oil Company, No. 2 Vogel, drilling around 1675 feet.

Osage Oil Company, No. 2 Vogel, drilling around 1450 feet.

Red River Dome Oil Company, No. 1 Taylor, drilling around 1600 feet.

Red River Dome Oil Company, No. 2 Taylor, shut down temporarily, 1620.

Red River Dome Oil Company No. 3 Taylor, drilling around 1420 feet.

Red River Dome Oil Company, No. 6 Taylor, drilling around 1630 feet.

Red River Dome Oil Company No. 7 Taylor, drilling around 1410 feet.

[illegible] Oil Company, No. 1 Elsea, drilling 1110 feet.

[illegible] et al, No. 1 Taylor, drilling around 1300 feet.

Green Eagle Oil Company No. 1 Waggoner, shut down temporarily at 1620 feet.

Parker Oil Company, No. 1 Elsea, standardizing.

Premium Oil Company, No. 1 Renner, drilling in.

G. E. Smith, No. 1 Elsea, drilling around 700 feet.

Sesaums Oil Company, No. 1 Brannon, standardizing.

Red Burk Oil Company No. 1 Taylor, drilling around 700 feet.

Seigel Martin, No. 2 Elsea, casing set.

Seigel Martin, No. 3 Elsea, casing set.

Southwestern Oil Company No. 1 Vogel, drilling around 1750 feet.

Summit Petroleum, No. 3 Renner, standardizing.

Sure Pop Oil Company, No. 2 Vogel, casing set.

Swindlers Oil Company, No. 1 Elsea, drilling in.

H. J. Smith Oil Company No. 6, Elsea, drilling around 1695 feet.

Shelby Pittsburg Oil Company, No. 1 Renner, drilling around 400 feet.

Texas Ranger Oil Company, No. 4 Brannon, casing set.

Texas Ranger Oil Company No. 6 Brannon, casing set.

Texas Ranger Oil Company No. 8 Brannon, casing set.

Texas Ranger Oil Company No. 7 Brannon, drilling below 1000.

Texas Ranger Oil Company No. 10 Brannon, drilling around 1050 feet.

Triangle Oil Company No. 1 Taylor, drilling around 1616 feet.

Triangle Oil Company, No. 2 Taylor, drilling around 1300 feet.

Texas Chief Oil Company No. 4 Taylor, drilling around 1655.

Texas Chief Oil Company No. 5, Taylor, drilling around 1615 feet.

Texas Chief Oil Company, No. 6 Taylor, drilling around 1400 feet.

Texas Chief Oil Company, No. 7 Taylor, drilling around 1350 feet.

Two Way Oil Company, No. 1 Taylor, drilling around 1630 feet.

Texas Blue Bonnet Oil Company, No. 1 Elsea, drilling around 1550 feet.

Texas Queen Oil Company, No. 1 Taylor, drilling around 1,000 feet.

Texas Star Oil Company No. 1 Elsea, drilling around 1658 feet.

Texas Consolidated Oil Company, No. 1 Elsea, standardizing.

Burk Reserve Oil Company, No. 1 Waggoner, drilling around 1640 feet.

Burk Bet Oil Company No. 1 State Lands drilling around 1560 feet.

Willis Ferris Oil Company No. 1 Taylor, swabbing.

Wimple Oil Company, No. 1 Brannon, drilling around 1300 feet.

West Tennessee Oil Company, No. 1 Brannon, drilling around 1300 feet.

Berklin Syndicate, No. 1 Morgan, standardizing.

Gulf Production Company, No. 5 Morgan, casing set.

Golden Eagle Oil Company, No. 1 Waggoner, drilling around 900 feet.

Hardley Able Oil Company, No. 2 Taylor, drilling around 1500 feet.

Gooch and Davis, No. 2 Evans, bailing out.

M. & P. Burk Oil Company No. 4 Evans, drilling around 1470 feet.

Munger Verschoyle, No. 2 Waggoner, drilling around 1505 feet.

Malu Pool Oil Company, No. 2 Morgan, drilling around 1480 feet.

Middle States Oil Company, No. 1 Taylor, casing set.

Ryan Petroleum Company, No. 1 Morgan, casing set.

Ranger Burkburnett Oil Company No. 3 Waggoner, temporarily shut down around 1550 feet.

Ranger Burkburnett Oil Company, No. 4 Waggoner, drilling around 1050 feet.

Texas Wonder Pools No. 1, Taylor, drilling at 1050.

Warrior Oil Co., No. 2 Evans, drilling around 1000 feet.

Warrior Oil Company No. 3 Evans, drilling around 500 feet.

Warrior Oil Company, No. 4 Evans, drilling around 700 feet.

Rex Drilling Company, No. 1 Evans, drilling around 1500 feet.

Sibley Taylor Oil Company, No. 3, No. 2 Michna, drilling around 1500 feet.

Texas Big Four Oil Company, No. 1 Morgan, shut down at 1550 feet.

Texas Reserve Oil Company, No. 1 Welmer, drilling around 900 feet.

Uncle Joe Oil Company, No. 1 Evans, casing set.

Texas Roy Oil Company, No. 1 Roberts, drilling around 1560 feet.

Western Star Oil Company, No. 1 Taylor, temporarily shut down around 1580 feet.

Army Man's Oil Company, No. 1 Taylor, casing set.

Block 88 Oil Company, No. 2 Elsea, standardizing.

Block 88 Oil Company, No. 3 Elsea, drilling around 1100 feet.

Burk Valley Oil Company, No. 1 Elsea, drilling around 1430 feet.

Burk Lucas Oil Company, No. 2 Vogel, drilling around 200 feet.

Burk Crest Oil Company, No. 1 Taylor, fishing around 1650 feet.

Diamond D. Oil Company No. 1 Elsea, drilling around 400 feet.

Diamond C. Oil Company No. 1 Elsea, drilling around 400 feet.

Gray Gander Oil Company No. 2 Elsea, casing set.

Golden Goose Oil Company, No. 1 Elsea, temporarily shut down around 1080 feet.

Gold Bell Oil Company, No. 1 Vogel, drilling around 900 feet.

Iowa Burk Oil Company, No. 2 Renner, drilling in.

King Eight Oil Company No. 2 Waggoner, drilling around 1000 feet.

King Eight Oil Company No. 3 Waggoner, drilling around 1610 feet.

King Eight Oil Company, No. 4 Waggoner, drilling around 1050 feet.

Bacon District

Denison Oil and Gas Company, No. 1 HughReilly, rigging up standard tools.

Black Burnett Petroleum Company, No.1 Donehoo, drilling around 320 feet.

Bay City Production Company, No. 1 Roller, derrick.

Wichita Falls

East Wichita Oil Company, No. 1 Honaker, drilling around 1340 feet.

Grisdale and Ericson No. 1 Fore, drilling around 2170 feet.

The Sun Company, No. 1 Ed Waggoner underreaming 10-inch pipe around 1,000 feet.

GO TO TENNESSEE TO ENTER SCHOOL

Clyde Robinson, son of Mrs. W. W. McClennan left Saturday for Lebanon, Tenn., where he will enter school at Castle Heights. He was accompanied by Gilbert Bourland, of Vernon, who will also be a student in Castle Heights this winter.

WICHITA FALLS MEN INTERESTED IN NEWCASTLE REFINERY

Special to The Times.

NEWCASTLE, TEX., Sept. 13.—The Victor Pipe Line and Production Company has finally closed a deal for 20 acres of land adjoining the townsite on the north, which has been in abeyance since the Arnold well first blew in. The site includes the surface property of Mine Pit No. 3 which was abandoned some time ago. A reservoir which can be restored at little cost is an asset of value and the old mine workings will serve for a drainage outlet from the 2,000 barrel refinery that the company proposes to complete as rapidly as materials and labor can be procured.

The grade of the spur track to the old mine is intact and it is only necessary to lay the track. The property fronts 1,000 feet on the spur to No. 5 mine and there is abundant space for loading track and tankage. It will be necessary to build houses for the mechanics who are to build the refinery and bids will be called for at once for their construction. Ground will be broken Monday for the water supply tank and the officials say that rush is the order. The location is half a mile south of the Texas Co.'s 15 acre tank farm and loading track site at Rattlesnake Hill.

The city council has granted a 25 year natural gas franchise to the company, conditioned upon work being commenced on a pipe line and the service to consumers being begun within one year. Gas has been found in strong supply in all the wells drilled in the Newcastle pool and [illegible] gas wells are now being drilled near the city. Several well known Wichita Falls names appear in the list of directors who are the following:

R. J. Johnson, president First National bank, Newcastle; A. C. Dawes (Buck), Throckmorton; Jesse R. Smith, Breckenridge; J. S. Rice, Oklahoma City; J. T. Rundell, Wichita Falls; Homer Reach, Wichita Falls, James R Robinson Jr., Wichita Falls; G. H. Foster, Wichita Falls.

BURK-DIAMOND CLOSES CONTRACT FOR TWO WELLS

The Burk Diamond Oil Company has closed contract for the drilling of two wells on their lease in block 9 Greenwood subdivision of the Evans tract, according to statement of A. F. Park, vice president, who has been in city several days watching the drilling of several wells near their lease, among the number being the New Pool No. 2 and the Quadruple.

YOUTH IS CHARGED WITH SWINDLING IN CHECK TRANSACTION

HAD SIGNED NAME OF EMPLOYER TO CHECKS TAKEN FROM OFFICE.

OPERATING ON LARGE SCALE

Amount Involved in Checks Prepared for Negotiation Was More Than $2,500.

A 20-year-old boy sat in the office of Assistant Police Commissioner Goodfellow at police headquarters last afternoon and confessed that he had stole.. his employer's check-book and forged his employer's name to 20 checks for sums aggregating more than $2,500.

Three of the checks he tried to have cashed by unsuspecting dupes, one of whom is in jail.

The prisoner is F. A. Swindall. His employer was F. F. Moore, trustee of the Double F Oil Co. The checks ranged in amounts from $126 to $236. Swindall was transferred to the county jail by Deputy Sheriff Allen. He is charged with swindling, but this charge likely will be changed.

Arrested at Store.

He and a boy, were arrested at the Baum & Gardner store yesterday afternon after the boy had entered the store at Swindall's request and endeavored to cash one of the checks. An employe notified I. Shelton, manager of the Fulk National Detective bureau, who notified Policeman Arledge, who made the arrests.

Swindall told the police that he had been an employe at the Double F offices for some time. A few days ago, he said, he had a chance to get the check book and a rubber stamp of the name of F. F. Moore.

With this rubber stamp, he declared, he signed all of the checks, which first he had perforated with a check protector, all 20 checks having the amounts and notation "Not more than $126," "Not more than $236.50."

Companion Involved.

At the place he lodged, the Restwell tent hotel, he borrowed a fountain pen and declared he had induced a companion to fill in the payee's name on the checks and then date them. All checks were drawn against the City National bank.

The boy also was charged with swindling and transferred to the county jail, but it is likely that the charge will be dismissed, for the police do not believe he has been knowingly guilty of any wrong doing.

Swindall's confession implicated an aviator, but his straight-forward talk to the police last night convinced them that he was not connected with the affair.

All of the checks were accounted for last night, efforts to cash any of them having proved futile.

A characteristic feature of the service of the National Bank of Commerce is the fact that its officers, always readily accessible, are glad to give customers the benefit of their experience in financial, business and investment matters.

JIM REEVES STABBED EARLY LAST EVENING; ALEX HOLT ARRESTED

One man was severely, but not seriously stabbed, and another was lodged in jail by Police Officer Lesure following another melee at the Travelers' Home Wagon Yard, 511 Indiana avenue, shortly before 9.00 o'clock last night.

It was necessary for physicians to dress Jim Reeves' wounds. He was stabbed once in the back of the head to the right, and a deep gash was cut into his right thigh.

Andy Holt was lodged in jail and will be transferred to the county authorities today on a charge of aggravated assault. He is a one-armed man and was reported so drunk he could hardly stand up to be booked in the police station last night.

The affray came as a result of Reeves putting Holt out of his place of business, a cold drink stand on Fifth street, earlier in the afternoon. Reeves told Holt, he said to reporters last night, that if he was going to curse and carouse he would have to do it out of his place of business. Holt is alleged to have become angry and threatened Reeves at the time.

Last night he returned to the place and witnesses told the police that he attacked Reeves from behind. The first lunge from the knife passed through Reeves' hat and glanced down the right side of his head. He then caught Holt's arm and the next lunge the man made with the knife caused a gash down Reeves' leg. He grappled with his assailant and succeeded in pommelling him a time or two. The men then were separated and the police telephoned for.

Three or four weeks ago there was a free-for-all battle royal at the same wagon yard in which Holt was alleged to have taken part.

Last night the police authorities were seriously considering stationing an officer regularly at the place to maintain order.

COMPLAINT IS MADE BECAUSE THE POLICE STOP DEMONSTRATION

Oil stock salesmen, deprived of the use of the street, are determined that it shall not be used by any others, say S. A. Weir and C. R. Jones, local representatives of the Brannon Rotary Motor Company, who charge that the complaint on which they were boked at the police station Saturday in connection with a demonstration of their motor in front of the building at 721 Ohio was filed by an oil salesman.

"We were not in any sense violating any city or linance, obstructing the street, making any noise or doing any hawking," said Mr. Weir, complaining of the interruption of the demontsration of his machine. "What we really were doing was giving a demonstration of our machine which was being witnessed and attracting the interest of a number of engineers who were present. The machine was mounted on a Stanley Steamer truck parked in the regulation way, and the demonstration was entirely without noise.

"We are planning the installation of a factory for manufacturing our machine here, and the demonstration was purely for the purpose of showing interested engineers what it would do.

"I do not think that it is the desire of the people of Wichita Falls to have such things interferred with in such summary manner by the police.

"We tried to make a complaint in the matter to the mayor, but were unable to get in touch with him."

YOUNG BROTHERS AND KENNEDY WELL BLOWS ITSELF IN

AJAX OIL COMPANY REPORTS 3,000 BARREL PRODUCER IN BLOCK 86.

GOLCONDA WELLS ON SAND

I. X. L. Company Reports a Sand With a Strong Showing of Gas.

The No. 2 Brannon of Young Brothers and Kennedy in Block 83 is reported to have blown itself in, when not yet ready for completion. No. 3 is on the sand but completion is being held up for storage and pipe line connections. No. 1 has been in for some time, and No. 4 in the same tract, is drilling.

Officers of the Ajax Oil Company report that their No. 1 Waggoner of the company, on Block 86, completed Friday is good for 3,000 barrels. This company is operating in Burkburnett, Ranger and other proven fields. This is their first completion in the local field. R. H. Sowell, vice president of the company is in charge of the local operations.

Golconda Wells.

The Golconda Oil Company No. 2 reports their No. 1 and No. 2 Brannon, Block 83, on the sand, ready to be completed as soon as condition permit. No. 3 is drilling around 1,100 feet, it is reported, and locations are reported for Nos. 4 and 5.

The I. X. L. Oil Company's No. 2 A. A. Morgan is reported to have struck the oil sand on Friday afternoon, with strong showings of oil and gas. Casing was set on Saturday and it is stated that teh sand will be drilled and the well completed as soon as storage is available. Location has been made for No. 3 it is stated, and the derrick is now being erected.

HALF MILLION DOLLAR REFINERY IS PLANNED

The St. Johns Oil and Refinery Company announces that they expect to add 25 of the most prominent business men and bankers of Fort Worth, Texas, as an advisory board. A big meeting is planned for next Tuesday afternoon at their main office at 1413½ Main street, Fort Worth. They have several propositions under way at the present time and the next few weeks will be spent investigating. A big part of these are production and also some refineries.

They also expect to merge the Drillers and Producers Oil Co., with holdings of 75 acres near Burkburnett, also the St. Johns Oil Co. with holdings in Kansas, Oklahoma and Texas.

The directory is made up of thorough business men, men who stand high in their community and who have put up their own money. A list of this directory and advisory board will be made public at a later date.

Their refinery, according to present plans, will be built between Wichita Falls and Iowa Park at a cost of a million and a quarter dollars. Arrangements have already been made with brokers in the East to handle this stock.

NOTHING HEARD OF BARGE WHICH BROKE LOOSE FROM OIL TANKER TUESDAY

TAMPA, FLA., Sept. 13.—Nothing has been heard of the Monongheia, an oil barge, with a crew of 12 men which broke loose from the Ligonier, an oil tanker, which had the barge in tow, September 9.

The Ligonier was 20 miles off the Dry Tortugas and local agents of the Gulf Refining company think the Monongahela may have been blown into the Gulf stream.

Young business and professional men will find the friendly, helpful and progressive service of the National Bank of Commerce of real dollars-and-cents value. The officers of the bank welcome consultations looking to the opening of accounts.

ARREST YOUTH IN DALLAS WANTED ON A FORGERY CHARGE

Announcement was made yesterday by Ira Shelton, manager of the Wichita Falls branch of the Fulk National Detective Bureau, that C. D. McClure, a 20-year-old youth wanted here, had been arrested in Dallas.

The arrest was made on information furnished by Mr. Shelton and the youth will be brought back here for trial, said Shelton.

He is alleged to have forged the name of P. E. McClure, his brother, and M. R. Turner, both of Burkburnett, to two checks, one for $49.50 and one for $51.50, and to have given them to two local jewelry companies in payment for watches. Both watches were recovered when the arrest was made, said Shelton.

JOSEPH BAILEY IS CO-DEFENDANT IN A SUIT FOR OIL LAND

DALLAS, TEX., Sept. 13.—Former United States Senator Joseph W. Bailey, is made a co-defendant with the Veritas Oil Company in three suits aggregating approximately $1,500,000 filed by A. A. Green et al, here this afternoon.

The plaintiffs allege the Veritas company and Bailey took over the American Production Company and secured twenty-seven acres of land in Wichita County, Texas, through misrepresenting the nature of the land. The plaintiffs allege they were led to believe their land of little value when really it was worth millions as oil property.

The National Bank of Commerce keeps pace with the growth of Wichita Falls and makes ready for the city's future. The bank's new home on the corner of Eighth and Indiana streets is worthy of this city's promise.

NEXT SUNDAY TO BE HOME COMING DAY AT M. E. CHURCH

Sunday, September 21, has been designated as Homecoming Sunday at the First M. E. Church, South, and a special program, honoring the men returned from the service in the army or navy of the United States has been arranged. The Wesley Girls of the Sunday school will conduct the special services which will begin at 10:30, after the regular Sunday school class study has been held. A cordial invitation is extended to all members of the church and congregation and the public in general to attend this church on Home Coming Sunday.

OIL WELL COMES IN AND CATCHES ON FIRE SEE BLAZE 30 MILES

FORT WORTH, TEX., Sept. 13.—An oil well that came in unexpectedly this morning at 3 o'clock at Pleasant Grove graveyard in Eastland county is ablaze and the smoke and flames can be seen for thirty miles. The well belongs to the Gulf Production Company. It is estimated it will require forty boilers to smother the fire with steam.

Miss Lynett Miller, who underwent an operation for appendicitis, is recovering and expects to be out in a short time.

You Owe Yourself!

A good business training, and now is the time to pay the debt. When that debt is paid the rest are easily taken care of. You then have the fundamental principles of business that will carry you on to success.

The majority of men that fail in business do so because they do not thoroughly understand the principles of business. Do not fail to put yourself on a sure foundation.

National Business College

BEGIN NOW, DAY OR NIGHT.

Read why the man would have a McDougall Kitchen Cabinet if he were you. He would not spend that extra hour in the kitchen every day!

If the Man Worked in the Kitchen

He would have a McDougall Kitchen Cabinet to save his heels, as he saves them at business with modern aids.
He would have everything compactly grouped in a McDougall, inches near—not yards away on scattered hooks and distant shelves.
For by similar principle he conserves energy at business.

McDougall

The World's Most Modern Kitchen Cabinet

He would have a McDougall because—at no higher price—it offers more than the most thoroughly cleanable, complete and highly efficient arrangement of the latest practical kitchen cabinet features For example:

1. The Patented McDougall Auto-Front—replaces bothersome swinging doors over the table. Drops out of sight—leaves a smooth cupboard shelf; no groove to catch food; no obstructing partitions. (Shown lowered in cut.) Lift!—and it locks! Only found on McDougalls.
2. Sanitary, Snow-White Sliding Top—It Locks! Glides out 27 inches—and locks as rigid as rock. Can't rattle or bob up and down when you work or knead upon it. Only McDougall Tops won't wobble.
3. High leg base that you can sweep beneath—sanitary!
4. Removable, Cleanable Flour Bin, 50 lbs. capacity—sanitary!
5. Cleanable, non-clogging Flour Sifter—sanitary!
6. Cleanable, non-corroding, Crystal Glass Sugar Bin on a swinging arm—sanitary!
7. Durable, heavily white-enameled cupboard shelves and interiors—sanitary!
8. Famous, nationally advertised, Spar-Varnish finish—won't turn white—proof against kitchen steam, heat, boiling-hot or cold water. Only McDougalls have this finish.

You Citizens of Wichita

Are to be congratulated
On holding things down
While I was away
On my vacation!
Immediately upon my return,
Which occurred Thursday,
The market took a remarkable
Trend upward; it, also, came
A big rain, which was needed;
Good reports began to come in
From the field, etc. Not that
I am to get credit for all
Sundry things that happen here,
But it is a fact, nevertheless,
That "Hard Times" are afraid
Of an advertising man.
I shall try and be as modest
In my claim as possible—
But it's the everlasting truth
That business begins to pick up
As soon as Advertising and
A Slump In The Market
Meet for a fight to the finish,
It is needless to ask where
Advertising men go
On their vacations;
Might as well ask
Where the "Swallows" went
When Texas went dry
(Think it over!) or
Where Peace went when
The war ended.
Nevertheless, I am back
At my old sanctum in
The Central Stock Exchange,
To assist you in advertising
Anything that can be "put over!"
The line of papers I represent
Deliver results! They are
Selected from the best
Result getters in America.
Results prove all things
To the advertiser! That is
The reason that advertising
Pays, and pays big for
Every stockholder in the game.
While I cannot guarantee results
I can assure you that every
Dollar placed through my agency
Will hit "Hard Times" and a
Slump in The Market just the
Right punch to put Business
Where it belongs in Wichita.

Sincerely,

Elbert M. Jones

Of the Elbert M. Jones Advertising Agency,
Central Stock Exchange,
714 Ohio Avenue.

SOMETHING TO BE PROUD OF

The Wichita Great Western Underwriters, A Wichita Falls Home Enterprise, Just One Year Old, With Eight Million Dollars of Insurance on Its Books From All Over the Country

AND GROWING DAILY

The Wichita Great Western Underwriters take pleasure in announcing the completion of its first year in the reciprocal insurance field, with an established patronage, national in scope, represented by $8,000,000 now on our books, and WITH A SAVING OF FIFTY-TWO PER CENT FOR OUR POLICY HOLDERS ON THE PREMIUMS DEPOSITED BY THEM. This saving has been refunded to the policy-holders in renewals of their insurance.

Our underwriters in Texas subscribed $600,000.00 of our business for the year, recognizing the merit of the protection offered at a saving only possible under the reciprocal insurance plan. We enter upon our second year with assurance of great expansion of our business, covering the country, yet maintaining the high quality of our risks, keeping our losses at a cost. Results of this plan will be demonstrated by the refunds to policy-holders one year hence, just as the first year's results were demonstrated by the refunds just made to the policy-holders of record on our books at the close of our first twelve months in business.

DO YOU KNOW

That the WICHITA GREAT WESTERN UNDERWRITERS is the largest LEGAL RESERVE reciprocal fire insurance company in the Southwest?

WELL IT IS.

Do you know that the WICHITA GREAT WESTERN UNDERWRITERS wrote EIGHT MILLION dollars of fire insurance during the past twelve months?

WELL IT DID.

Do you know that the WICHITA GREAT WESTERN UNDERWRITERS saved for its policy holders FIFTY-TWO per cent of actual premiums received?

WELL IT DID.

Do you know that the WICHITA GREAT WESTERN UNDERWRITERS has a guarantee fund for SIX HUNDRED THOUSAND dollars?

WELL IT HAS.

Do you know that the best way to fight the "High Cost of Living" is to insure your property with the WICHITA GREAT WESTERN UNDERWRITERS?

PUBLIC INTEREST

"The whole subject is one in which the public has a legitimate interest. It has been well said that high commissions and brokerage—out of all proportion to the services rendered—are a greater evil than usury, because they wrong the whole community while usury is simply a wrong to the individual.

We believe the time has come for legislative action in fire insurance, if we are to accomplish anything in reducing the fire losses, and, consequently, fire rates."

We have no agents, we pay no commissions. Our policy-holders get the service and secure their fire insurance at cost.

Our accounts are audited regularly by Baker, Vawter, Wolf Company, Certified Public Accountants, Chicago, Illinois, New York.

Reciprocal Insurance is the Satisfactory Solution of the Fire Risk Problem for Those Whose Properties Offer the Least Danger of Fire. The Wichita Great Western Underwriters Accept Only Preferred Risks. Therefore, When You Take a Wichita Great Western Underwriters Policy, You Do Not Have to Pay Insurance Based on a Rate That Protects a Fire-Trap of an Unscrupulous Owner—You Pay Only for Insurance at a Low Rate Commensurate With the Non-Hazardous Risk Your Biulding Offers—With a Refund in Prospect at the End of the Year!

We Solicit the Interest and Good Wishes of Wichita Falls, as We Enter Upon Our Second Year of Progress in the Insurance Field

J. O. POWERS, SECRETARY-TREASURER
WICHITA FALLS, TEXAS

TAX VALUATIONS SHOW INCREASE OF 160.75 PER CENT

TOTAL FOR 1919 IN $73,043,810 AS COMPARED WITH $28,218,040 FOR LAST YEAR.

MILLION AND HALF INCOME

John Van Cleave Renders Largest Individual Assessment With J. G. Hardin Next.

Wichita county's assessed valuation has "gone over the top," too $13,043,810 more than the estimate of a month ago.

It was announced at the office of Tax Assessor T. E. Ragsdale yesterday that the county's assessed valuation for 1919 is $73,043,810.

In 1918 the county's assessed valuation was $28,218,040, a little old increase of 160.75 per cent in a year, the largest increase of any county in the State, declared County Auditor Murphy yesterday.

The total amount of State, county and school taxes that will be collected this year is $1,520,960. Last year's total was $440,297, or less than a third of what it will be this year. These amounts do not include city taxes.

Auditor Murphy said the county's finances are in good shape. The general fund is slightly overdrawn and the road and bridge fund (not the $750,000 road bond issue fund) is about exhausted. Other funds are in good shape. Tax collections begin October 1 and continue until January 31, 1920.

John Vancleave is the largest individual tax-payer in Wichita county, his assessment being $365,100.

J. G. Hardin, of Burkburnett, is next, his assessment being $593,950.

The Magnolia Petroleum Co. pays taxes on more property than any other corporation in the county, its assessment being $2,761,570.

The Texas Co. is next among corporations with an assessment of $1,[illegible]40.

W. V. Meadows, deputy assessor, prepared the tax rolls this year. Miss Murphy and Miss Winifred [illegible] assisted.

The commissioners will meet Monday to approve the tax rolls.

WICHITA CLUB PLANS TO RESUME LUNCHEON BEGINNING WEDNESDAY

Meetings of the Wichita club will be resumed with the noon luncheon on the coming Wednesday, it was definitely announced Saturday, at which time it is expected that the work of the club for the coming year will be outlined. The meetings of the club were suspended during the month of August, when many of the members were away for their vacation. The meetings will again be held in the basement of the First Christian church.

LITTLE INTEREST IS SHOWN IN ANOTHER TRAIN FOR DALLAS

Little interest has been displayed here in connection with the proposal for an additional passenger train on the Katy to Dallas, in the interest of which F. M. Kerboe, secretary of the Denton Chamber of Commerce officials. It is felt locally that the efforts of Wichita Falls shippers with the railroads could be bent to more profitable ends than would be the case in the present service. Mr. Kerboes proposal was for a passenger service leaving Wichita Falls early in the morning and passing through Denton about noon.

EXPECT CALL FIELD HOUSES WILL BE AVAILABLE OCT. 1

With the acquisition of the furniture at Call Field, by the purchasers of the field and the definite knowledge that the field will be turned over to its purchasers October 1, it is expected that the houses at the field will be ready for rental to relieve the local housing congestion on or soon after that date, it was announced today.

The furniture in the present buildings at the field was appraised by an appraisal board of three people, one selected by the military authorities, one by the purchasers of the field, and the third by the other two, and the figures decided on by this board accepted both by the purchasers and the military authorities.

While the actual contract for the purchase of the field has not been signed owing to the working out of some minor details, an agreement has been reached by all parties concerned, and it is not expected that there will be any further hitch in the turning over of the field.

ECKMAN & VON ALLMEN NOW SELLING WESTCOTT

The Eckman & Von Allmen Automobile Agency, next door to the post office, have taken the agency for the Westcott car and are now able to make immediate delivery of four, six and eight cylinder cars.

MURINE FOR YOUR EYES Night and Morning. Have Strong, Healthy Eyes. If they Tire, Itch, Smart or Burn, if Sore, Irritated, Inflamed or Granulated, use Murine often. Soothes, Refreshes. Safe for Infant or Adult. At all Druggists. Write for Free Eye Book. Murine Eye Remedy Co. Chicago

J. A. KEMP TO DISCUSS WATER SUPPLY FOR CITY AT MEETING TUESDAY

Plans for the assuring of a water supply for Wichita Falls, sufficient for the needs of the city with a population more than double that at present, will be unfolded by J. A. Kemp at a meeting of the leading citizens which will be held on Thursday night of this week, either in the Chamber of Commerce rooms in the Masonic temple, or in the assembly room of the Elks club.

Mr. Kemps plan, a preliminary outline of which he gave at last weeks meeting of the Rotary club, embraces co-operation with the Big Wichita Irrigation project, by which the city can obtain its water supply, and the farms of Wichita and Archer counties lying within the proposed irrigation district, containing about 150,000 acres, the irrigation of their land, at a cost to each party lower than would otherwise be possible.

A characteristic feature of the service of the National Bank of Commerce is the fact that its officers, always readily accessible, are glad to give customers the benefit of their experience in financial, business and investment matters.

New Spiz Plant

To be in operation by 22nd. The Spiz Mineral Wells drinking water plant will be completed and in operation about Sept. 22. Every effort is being made to thoroughly comply with all board of health requirements and to insure the consumers of this water a constant supply of absolutely safe and healthful drinking water. Spiz Water will be distributed in five gallon glass containers. Each bottle and can will be subjected to a thorough sterilization by steam before filling. "Pure water in clean bottles" is the Spiz motto. The long list of satisfied users of Spiz water is the best testimonial that can be given to its palatability and beneficial mineral content. As the list of customers is increasing rapidly it would be advisable to phone your order early. J. H. Hall, phone 2868. 107-1tp

You Can't Cure Rheumatism With Liniments and Lotions

If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will?

Do not try to rub the pain away, for you never will succeed. Try the sensible plan of finding the cause of the pain. Remove the cause, and there can be no pain.

You will never be rid of Rheumatism until you cleanse your blood of the germs that cause the disease. S. S. S. has no equal as a blood cleanser, scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all trace of the disease from their system.

Get a bottle of S. S. S. at your drug store and get on the right treatment to-day. If you want special medical advice, address Medical Director, 49 Swift Laboratory, Atlanta, Ga.

In the Heart of Texas' Most Productive Oil Field

— JAKEHAMON —

THIS NEW RAILROAD TOWN in the Hog Creek Oil Field WILL BE OPENED

MONDAY, SEPTEMBER 22nd

JAKE L. HAMON,

For whom the town of Jakehamon was named.

Jakehamon is in Comanche County, two miles south of Hog Town. The Hog Creek Oil Field that is producing about 100,000 barrels of crude oil a day lies about it. It is on the line of the railroad now being built by Jake L. Hamon and Frank Kell that traverses the great oil belt of Texas from Wichita Falls south for 110 miles. Jakehamon will be the only railroad point near the Hog Creek Oil Field.

Plats of Jakehamon will be available at the town office on the townsite, on date of sale. These plats will show the price of each lot. This price will not be changed.

NO LOTS RESERVED OR SOLD IN ADVANCE

The entire townsite of JAKEHAMON—2,400 lots—will be open to select from. Positively no lots will be reserved or sold in advance of the sales day—MONDAY, SEPTEMBER 22.

Business lots as well as residence lots will be sold on that day. The opportunity of making a purchase which will daily enhance in value is yours.

Make all your arrangements to be on the ground early. Arrive on the townsite SUNDAY, make your selection, so that on Monday morning, September 22nd, you will be enabled to purchase your choice.

HOW TO REACH JAKEHAMON

Public conveyances and service cars are available at all railroad points adjacent to the Hog Creek Oil Field. JAKEHAMON is right in the center of this field. The following are the railroad points surrounding JAKEHAMON. Get off the train and take a service car from any of these points.

German is 12 miles away; DeLeon is 13 miles distant; it is 20 miles to Dublin; 21 miles to Stephenville; 22 miles to Comanche and 20 miles to Ranger.

WHY JAKEHAMON LOTS ARE VALUABLE

The big financiers of the world are pouring their millions into the Texas Oil Fields. This field that had its beginning with the famed Duke well, which is one mile west of Jakehamon, just a year ago this month, is the favorite of the investor. It is the most sensational because the richest oil field in Texas today. It is in its infancy. It is the scene of the greatest volume of development work to be found in a similar area in Texas.

Thirty thousand dollars a day, or $900,000 a month, is the approximate amount of the pay roll by oil companies and kindred industries in the territory surrounding Jakehamon. This money goes into immediate circulation there. It is the reason why business will be superlatively good and the town prosperous from the outset.

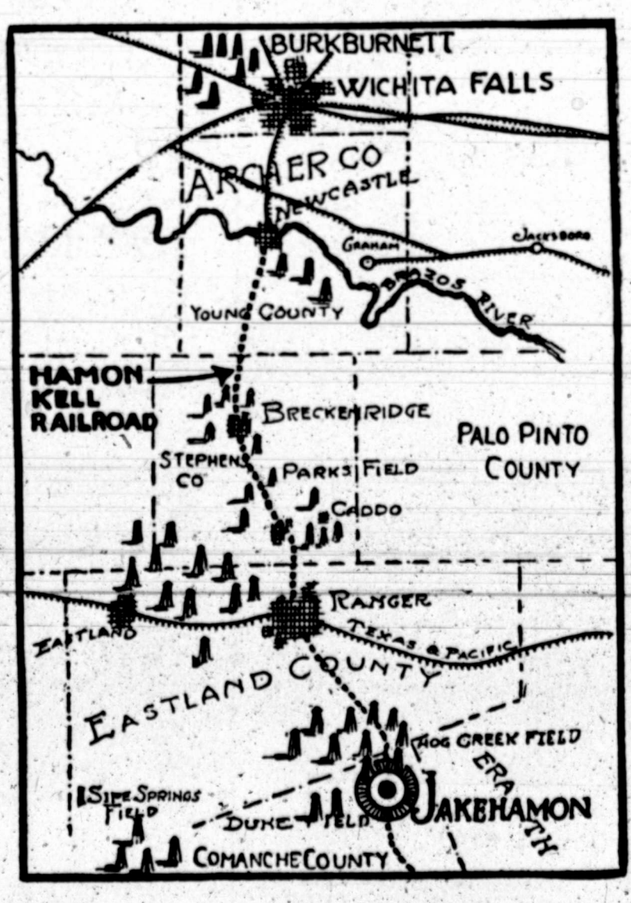

As a center for oil well supplies Jakehamon commands attention. I is the only railroad town in the most active field in Texas and presents facilities that can not be overlooked for distributing supplies to advantage throughout this field. It will be an oil field supply center without superior in the Texas oil fields.

During the brief but busy year that has passed since the Duke well luridly proclaimed to the world in flame and smoke that represented $100,000 worth of petroleum that a new lake of oil had been found, hundreds of millions of dollars have been invested within five miles of Jakehamon and hundreds of millions of wealth is being taken from oil wells within that radius. It is the expenditure here of these immense sums that clamor for the city that Jakehamon is to be.

The world has been going wild over oil, apparently overlooking the fact that real estate is the basis of all value. Fortunes accumulate rapidly in the oil game, but no more so than in real estate. Good town lots well located are the best investment money can buy. Jakehamon presents a combination of the superlative values of real estate coupled with an oil field that has no peer in the greatest oil region of America.

Oil was found in this field just one year ago. Now 1,000 wells are producing or being drilled in proven territory. The field is today producing oil valued at approximately $200,000 each day. Every major oil company in the United States is now interested in this field. It is a favorite and opportune place for the small operator who is realizing returns of a thousandfold.

As Jakehamon is the only railroad point within many miles of this field and there are 10,000 people now in the field who will employ the railroad facilities at Jakehamon, the immediate importance of the new town is assured.

Showing route of Hamon & Kell Railroad, and location of town of Jakehamon.

Jakehamon's invitation to the business man and investor is the beckoning finger of an Opportunity that marks an Epoch in the world's greatest arena of Wealth Getting.

TERMS: Thirty per cent of cash on day of sale and the balance in seven equal monthly installments.

REAL ESTATE AND EDITORIALS
By B. F. Johnson

The peace officer who wanted to arrest a woman for wearing bloomers would have been very busy in Colorado this summer; but we noticed that the Colorado officers merely tipped their caps or hats to the ladies thus attired and thought the state was being honored by their presence. Too bad such dilligence on the part of our local officers couldn't be rewarded with an opportunity to apprehend some of the gunmen and highway-men who are infesting our county.

Listen: We have a genuine bargain in a new 5-room house on Tyler. $4,000 buys it Monday. It is off the market after that day.

The editor of this column has been notified to appear for jury service Monday. Glad it isn't federal court where the white slavers hang out.

We have just discovered that there are about six desirable lots in Highland Heights which have sewer, water and gas already in. $800 and $900 is the price on these and the location would be just right; one-third cash, balance in one and two years.

We will go to Sunday School this morning. Hope to meet a large number of our readers there.

100 feet on Tilden is offered for $3,500. Restricted addition.

For $1,200 we have a beautiful corner lot on Taylor.

For $1,100 each we have two dandy lots on Taylor.!

Don't forget those two 6-room stucco homes for $5,500.

Two-story garage and servant house just off Tenth at the price of the lot, $4,000.

This lot has a beautiful sewer in the alley—the owner says so. On Elizabeth-st. Price $1,850.

100x150 on side track can be sold for $12,500. Ask for Mr. Payne.

$1,000 per room buys a six room house on Elizabeth. Lot is 50x160.

We like for our friends to come and tell us what they want and let us hunt for it. We usually have just what they want; but if it is to be had we can find it.

We admit that we have the most efficient organization in town. Our salesmen are of known honesty and integrity and our listers are courteous gentlemen. Let us handle your business. Our trained office man knows how to handle the details such as deeds, abstracts, etc.

Yours very truly
CURLEE AND JOHNSON

LEGAL NOTICES.

THE STATE OF TEXAS.

To the sheriff or any constable of Wichita county, greeting: You are hereby commanded to summon Lydia H. Drake by making publication of this citation once each week for 4 successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the 30th District court of Wichita county, to be holden at the court house thereof in Wichita Falls, on the 3rd Monday in December A. D 1919, the same being the 15th day of December A. D. 1919, then and there to answer a petition filed in said court on the 6th day of Aug., A. D. 1919 in a suit numbered on the docket of said court No 6881, wherein Ralph B. Drake is plaintiff and Lydia H. Drake is defendant and said petition alleging that on the 30th day of June 1904 plaintiff and defendant were legally married, that they continued to live together until the 28th day of May, 1918, at which time they separated and have not since lived and cohabitated together as man and wife. That plaintiff during the time he lived with defendant as his wife treated her with great kindness and forbearance, that he furnished her with all the comforts and necessities of life. That defendant's conduct was such as to render their living together insupportable and for these reasons all of which were caused without plaintiff's fault. Therefore the premises considered plaintiff prays that defendant be cited to appear and answer herein that upon a final trial of this cause that plaintiff have judgment against defendant dissolving the bonds

HOOVER IS FOR LEAGUE AS IT IS PRESENTED

Issues Statement Saturday on His Return to New York From Abroad.

DISCUSSES SITUATION IN EUROPEAN COUNTRIES

Says Delay in Making Peace Is Having Its Effects on Conditions Overseas.

NEW YORK, Sept. 13.—"I stand for the League of Nations—as it is," Herbert Hoover made this declaration today when he returned to America on the liner Aquitania.

"This treaty is constructed around the theory of the League of Nations and not on a theory of a balance of power."

There are more than thirty references to the League of Nations in the treaty, Hoover declared. The two he added, are interdependent.

"I don't believe the League of Nations will change men's character over night," Hoover said. "Very possibly, nations will attempt to make alliances and effect balances of power though the League of Nations is adopted but I believe such efforts will fail."

"I think the world needs peace above all things," Hoover said. "I assume peace will be ratified by the end of this month. Generally, by and large, I think the treaty is the best we can get."

German Indemnity.

With regard to the German indemnity, Hoover said "no living soul now knows whether Germany can ever pay, but it is certain she cannot unless she can obtain credits with which to purchase raw materials in America and other nations."

The delay in making peace, he said, has had a terrible result in the economic and social life of Europe. The dominant thought among all European peoples, he said, is for peace.

"There is economic friction on every boundary line in Europe. Transportation between nations is only possible through agreements obtained by the American economic commission. Until peace is declared all life in Europe must be based on the hand-to-hand mouth principle because no definite plans of a conservative nature can be made."

Will Be Repaid.

Approximately $90,000,000 of the $100,000,000 appropriated for European relief by Congress will be repaid to this country, Hoover said. That amount was loaned for relief purposes abroad on good security.

Since the declaration of the armistice America has supplied Europe with $2,225,000,000 worth of supplies, Hoover said. During the next year, he added, this country must supply Europe with fifty per cent of its food necessities.

"All of the great countries of Europe and all of the neutrals will need assistance," he said. "Bulgaria, Serbia and Hungary will be practically self-supporting, however."

Social Unrest Subsides.

Social unrest in Europe in subsiding, Hoover said, and the danger of bolshevism passed last February with the definite assurance of food supplies through the Americans. Bolshevism is losing ground in Russia, both as a philosophy and as a fact, he said.

Hoover predicted that the price of food staples in America and throughout the world shortly will begin to fall.

"With new production coming on there should be a very material reduction in prices," he said. "There was a vast, and to a large degree, innocent speculation in food following the signing of the armistice based upon two grounds: the fear that European demand would cause a real shortage in America, and the desire of speculators to take advantage of the expected demand from former belligerent nations. This demand, however, has not materialized because of lack of funds. Nations that have money are buying materials for manufacturing. Most of the great European nations will ration their populations for the next year.

Should Maintain Wheat Price.

Hoover believes the government price of wheat of $2.26 should be maintained for the time being. He pointed out that it is lower than the European price today.

The American sugar supply will be assured until January 1, Hoover said, as the result of the purchase of the Cuban crop. The present price of sugar is five cents lower than it would have been had that purchase not have been made, he added.

Hoover has completed his active work for the food commission, he said, though he expected to audit certain accounts for the government during the next few months. He will leave for his home at Palo Alto, California, Wednesday without going first to Washington. He did not state whether he would meet President Wilson in California. He refused to discuss politics.

APPOINTED LOJISIANA CENSUS SUPERVISOR

WASHINGTON, Sept. 13.—Dudley L. Guilbeau of Opelousas, has been appointed supervisor of census for the seventh district of Louisiana, in place of Joseph A. Hardey, who declined appointment.

The National Bank of Commerce keeps pace with the growth of Wichita Falls and makes ready for the city's future. The bank's new home on the corner of Eighth and Indiana streets is worthy of this city's promise.

Completely equipped and organized to handle all business pertaining to banking, the National Bank of Commerce offers its service to corporations, firms, and individuals and welcomes small deposits as heartily as large.

EXPECT ITALY TO APPROVE TREATY BY MAJORITY OF FIFTY

ROME, Sept. 12.—The Italian Chamber of Deputies, it was believed today, will ratify the peace treaty by a majority of fifty. The treaty is scheduled for debate in the Chamber Monday when Foreign Minister Tittoni is expected to answer interpretations of the deputies.

The report of Deputy Luzzati, chairman of the treaty committee, objects to trying the ex-kaiser on the grounds that every crime committed by members of the Central Power should be specified. It also is pointed out that no provisions have been made for extradition of the former emperor from Holland.

The Message Figaro stated today that after completion of his peace mission, Foreign Minister Tittoni will resign and represent Italy in the League of Nations.

VOLCANO REPORTED TO BE IN ERUPTION

SAN BERNARDINO, CALIF., Sept. 13.—A party of miners arirving in San Berdardino reported the old extinct volcano of Lavic, east of Ludlow, on the Mojave desert, in eruption. The first sign of activity was noticed several days ago, they said, when steam began to rise from the long dormant crater.

ELECTRA TO NUMBER AND DESIGNATE THE STREETS AT ONCE

ELECTRA, TEX., Sept. 13.—Frank White last night contracted with the City Commission of Electra to begin at once designating the city's streets and numbering the houses. He will go to Dallas Sunday to contract for the poles and make arrangements for the signs and numbers. As soon as White finishes this job he will begin collecting data for a city directory.

As soon as the streets are designated and the houses numbered, and the $250,000 street paving and sidewalk extension contract is finished, Postmaster A. B. Corder says it will be no trouble to get free mail delivery in Electra.

On the basis of scholastics and people served at the postoffice the present population of Electra is estimated at 10,000, and the town is growing very fast.

The Chicago-Texas Syndicate has struck a good sand in its well on the Overhall farm one mile west of Sunshine Hill, but is going after deeper stuff, but if not found it will drill another hole on the location and develop the present sand at 3200 feet.

Young business and professional men will find the friendly, helpful and progressive service of the National Bank of Commerce of real dollars-and-cents value. The officers of the bank welcome consultations looking to the opening of accounts.

RAILROADS MAKE A PROFIT FIRST TIME IN SEVERAL MONTHS

WASHINGTON, Sept. 13.—For the first time since 1918, the railways under government control showed a profit instead of a deficit in July, according to the final report for that month, issued today by the Railroad Administration.

The profit which was $2,316,501 was dicated last week in the preliminary eport. The report covers 232,004 iles of road, or 97 per cent of the ileage federally operated.

CRIPPLED STEAMER IS PROCEEDING TO PORT

NEW YORK, Sept. 13.—The steamer Alliance, with 129 passengers, on her way to Colon, broke down yesterday when 185 miles southeast of Cape Henry and is proceeding under her own steam to Old Point Comfort, according to a wireless message received today by the Panama Railway Company, the vessel's owner. The message said there was no danger and the Alliance would reach Old Point Comfort about noon tomorrow.

The National Bank of Commerce keeps pace with the growth of Wichita Falls and makes ready for the city's future. The bank's new home on the corner of Eighth and Indiana streets is worthy of this city's promise.

Ugh! Calomel Sickens; Salivates! Please Try Dodson's Liver Tone

I am sincere! My medicine does not upset liver and bowels so you lose a day's work.

You're bilious! Your liver is sluggish! You feel lazy, dizzy and all knocked out. Your head is dull, your tongue is coated; breath bad; stomach sour and bowels constipated. But don't take salivating calomel. It makes you sick; you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into sour bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping.

If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful harmless Dodson's Liver Tone tonight. Your druggist or dealer sells a bottle of Dodson's Liver Tone a few cents under my personal money-back guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working; you'll be cheerful; full of vigor and ambition.

Dodson's Liver Tone is entirely vegetable, therefore harmless and can not salivate. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here.—Adv.

ON DISPLAY AT 911 LAMAR AVE.

Frederick To Play Leopards Here This Afternoon

Manager "Buddy" Wilkins' Frederick ball club will be here Sunday for a game with the Leopards at Katy park. The game will begin at 4 o'clock.

Frederick has probably one of the strongest semi-professional teams in Oklahoma, having won from every Fort Sill club, from Hollis, Clinton, Devol, and other west Oklahoma clubs. Frederick has won one game from Manager Fulwider's huskies, and has lost one game to the locals.

"Soupy" Faulconer, a speed artist, who yet is in his teens, will pitch for the Oklahomans, probably, while Petty or Moore will be on the mound for Wichita. One of the best games of the season, excepting the 15-inning affair with Childress, of course, is expected this afternoon.

AMERICAN LEAGUE.

NEW YORK YANKEES WIN DOUBLE HEADER

NEW YORK, Sept. 13.—New York defeated St. Louis in a double header here today, the Yankees winning by scores of 4 to 1 and 9 to 6. New York won the first game in the opening inning, scoring three runs on two hit batsmen and three singles. Tobin hit into the right field stands for a home run in each game.

First Game.

Score:	R	H	E
St. Louis 000 001 000	1	5	2
New York 300 001 00x	4	7	0

Sothoron, Liefield and Severeid; Mogridge and Hannah.

Second Game.

Score:	R	H	E
St. Louis 050 010 000	6	8	2
New York 000 022 41x	9	13	2

Gallia, Liefield and Severeid; Thormahlen, Quinn, Shore and Ruel.

WITT MUFFS BALL AND THE ATHLETICS LOSE

PHILADELPHIA, Sept. 13.—Philadelphia was ahead today until Witt muffed Lowdermilk's pop fly in the third, after which Chicago's sluggers opened up an attack that won them an easy 8 to 2 victory.

Score:	R	H	E
Chicago 003 102 200	8	9	1
Philadelphia ... 110 000 000	2	7	5

Lowdermilk and Schalk; Zinn, Naylor, Kinney and Perkins.

WASHINGTON SENATORS WIN FROM DETROIT

WASHINGTON, Sept. 13.—Washington took the second game of the series from Detroit today, 9 to 8. Courtney, a recruit from the New Haven team, pitched his first big league game.

Score:	R	H	E
Detroit 000 001 025	8	12	2
Washington ... 201 100 05x	9	15	2

Leonard, Ayers, Cunningham and Stanage; Courtney, Shaw and Gharrity.

CLEVELAND TAKES THE SECOND FROM BOSTON

BOSTON, Sept. 13.—Cleveland took its second straight game from Boston today, 4 to 3. A pass by Hoyt to Chapman, Speaker's single, Harris' sacrifice fly, Gardner's single, Wambsganss' sacrifice fly; a pass to Smith and O'Neill's single gave the visitors three runs in the eighth.

Score:	R	H	E
Cleveland 000 100 030	4	7	1
Boston 001 020 000	3	9	1

Meyers, Bagby and O'Neill; Hoyt, Russell and Schang.

BILLY SUNDAY BELIEVES WHITE SOX HAVE EDGE OVER CINCINNATI REDS

CHICAGO, Sept. 13.—Billy Sunday believes the White Sox have the edge, as a team, in the coming world series.

"But the Reds have a shade on pitchers," he added.

Sunday said he was en route to "kick the Devil out of Rock Island, Davenport and Moline."

Oil men will find at the National Bank of Commerce banking service, accommodation and co-operation especially adapted to their individual needs. The officers of the bank welcome consultations with those who expect to establish new or additional banking connections

WILL HE BE TRADED?

BENNY KAUFF

There have been murmurings that John McGraw, manager of the Giants, contemplates trading Benny Kauff to the Cardinals for McHenry, the hard hitting outfielder of the St. Louis club, but if such a move is made there are many fans in New York who would be very much disappointed. Benny is disliked in some sections, but he is a game kid and a fine little player, and there is scarcely any chance of his going to St. Louis.

NATIONAL LEAGUE.

CINCINNATI BREAKS EVEN IN A DOUBLE

CINCINNATI, Sept. 13.—The Boston club held the league leaders to an even break in their double header here this afternon. Cincinnati won the first game on three hits. Smith dropped Neale's fly ball with the bases full and two out in fifth inning, and three runs scored. But for this error the Reds would have been shut out by Scott. Score:

First game.

Boston 010 000 100	2	7	4
Cincinnati ... 000 030 00x	3	3	0

Scott and O'Neill; Reuther and Rariden.

Second game:

Boston 010 001 200	4	10	2
Cincinnati ... 002 00' 001	3	6	0

Causey and O'Neill; Ring, Luque and Rariden.

DOUBLE HEADER GOES TO PITTSBURGH TEAM

PITTSBURGH, Sept. 13.—Pittsburgh won both games of a double-header here today from Philadelphia by scores of 4 to 1 and 2 to 0. Smith was hit hard and timely in the first game while Carlson held the visitors to two hits. Scores:

First game:

Philadelphia . .100 000 000	1	2	0
Pittsburgh . ..000 03' 00x	4	8	1

Smith and Clark; Carlson and Schmidt.

Second game:

Philadelphia . 000 000 000	0	3	1
Pittsburgh 010 000 10x	2	6	2

Hogg and Tragesser, J. Adams; C. Adams and Schmidt

NEHF ALLOWS ONLY THREE SCRATCH HITS

ST. LOUIS, Sept. 13.—Nehf allowed only three scratch hits and blanked St. Louis today, New York winning, 2 to 0. Not a local player got beyond first base. Score:

New York . ..000 002 000	2	6	1
St. Louis 000 000 000	0	3	1

Nehf and Gonzales; Jacobs, Sherdel, Tuero and Clemons.

BROOKLYN DODGERS LOSE TO CHICAGO

CHICAGO, Sept. 13.—Chicago defeated Brooklyn, 2 to 1, in the final game of the series here today. Three singles in a row scored Brooklyn's lone run. Score:

Brooklyn 000 010 000	1	5	1
Chicago 011 000 00x	2	8	1

Mamaux and Krueger; Alexander and Killifer.

Judge J. P. Jones will call the criminal docket in the county court Monday and will devote the day to the trial of criminal cases.

CHICAGO WHITE SOX TOP CINCINNATI REDS IN BATTING AVERAGE

REDS HOWEVER HAVE A SHADE THE BEST OF THE CLUB FIELDING.

CHICAGO, Sept. 13.—The Chicago White Sox, leaders of the American league, top the Cincinnati Reds, National league pace makers, in club batting, but the Reds have a shade the best of it in club fielding, according to averages released today and which include games of last Wednesday.

The White Sox, in 124 games have batted for an average of .253 while the Reds, in 127 games have a batting mark of .244. In club fielding, the Reds' mark is .973, while that of the White Sox is .969.

Four members of the White Sox, who have played in 20 or more games are hitting more than .300, and are led by Eddie Murphy, star pinch hitter, who, in 24 games has hung up a mark of .478. Joe Jackson, the slugging outfielder, is hitting .352. Eddie Collins has a mark of .316 and Chick Gandil is batting .305. For the Reds Eddie Roush, is leading his mates with an average of .319. Heinie Groh, is the runner-up to Roush with an average of .311 and "Hod" Eller, a pitcher is batting .301.

Leading batters on the clubs, with the number of games follow:

Cincinnati Reds.

	Games	Pct.
Roush	122	.319

Faber	24	.196
Cicotte	37	.189

DAN KETCHEL PLANS HEAVYWEIGHT FIGHT FOR WICHITA FALLS

Wichita Falls fight fans will at an early date be given the opportunity of watching a heavyweight contest of the first order if the plans of Dan Ketchel, formerly prominent as a light heavyweight fighter, now located here in the oil business, carry through. Ketchel plans to bring together Jack Dillon of Indianapolis and Hughie Walker of Kansas City, both of whom at present claim the light heavyweight championship of the world. These men have fought each other twice, once to a 12-round draw, and once when the popular decision went to Dillon. Of the two men Dillon is possibly the better known, through his meetings with Levinsky, Gunboat Smith and other famous heavyweights.

Falling in landing this match for Wichita Falls, Ketchel plans to bring here Charlie Wight of Chicago and Fighting Charlie Thorpe of Kansas City, both in the front rank of lightweight fighters. Both men at times have fought draws with Benny Leonard, in one of which Thorpe received the newspaper decision after ten rounds.

"The public can rest assured that if I can get either one of these matches here that it will be a first class fight," said Ketchel Saturday, in discussing his plans. "I know all the ins and outs of the ring game myself, having followed it for years, and will see that the public gets its money's worth."

Among Ketchel's achievements while in the ring was the fighting of a 12-round draw with Jack Dempsey at Provo, Utah, in 1912, and later, in 1918, years after he had retired from the ring, for staying the whole route with him at Excelsior Springs, Mo., in an exhibition for the benefit of the Red Cross. "I was the only man that Jack Dempsey ever knocked down in the ring that didn't take the count," said Ketchel in speaking of the latter event.

AUTHORITIES SEARCHING FOR PERSON WHO PLACED BOMB AT LAWTON, OKLA.

LAWTON, OKLA., Sept. 13.—Authorities continued their efforts today to ascertain the identity of the person who placed a nitroglycerin bomb near the rear of the federal building here late yesterday. The bomb had no detonating mechanism attached, although a percussion cap was in place

FOOTBALL TEAM IS TO MEET ON MONDAY TO PLAN FOR SEASON

With prospects even brighter than last year, Wichita Falls' High school football team will meet for the first time this year Monday evening at 7 o'clock on the west side of the Austin school grounds to organize and make plans for the coming season.

About nine letter men of last year's eleven, which was undefeated, are returning to High this year and will be out and in trim early. Besides these, there will be many new candidates for the team and Coach E. F. Mathis predicts an exceptional year.

While Mathis will remain head coach, there will be two assistant coaches here by the time the first game is played. Mathis requested that all of the old players and any new ones who wish to try for this year's eleven be at the meeting Monday evening.

It is expected that Wichita Falls High will enter the contest for the state high school football championship. Last year the team won every game and is confident of the district and possibly the state championship this year.

The nine men of last year's eleven who will be found in high's line-up this year unless some of the candidates oust them from their positions, will be:

McConkey, R. Patton, Weldon, Wilson, Trotter, F. Patton, Downs, Bashara, Gerock and Hughes.

CINCINNATI DECIDES ON ALLOTMENT OF SEATS

CINCINNATI, Sept. 13.—August Herrmann, president of the Cincinnati Nationals, announced today that in the event there are fourth and fifth world series baseball games played in Cincinnati, persons who are awarded reserved seats for the first three games will not be considered in the allotment of seats for the later games.

The plan was decided on by the Cincinnati club directors as the best way of accommodating the greatest number of persons.

The National Bank of Commerce keeps pace with the growth of Wichita Falls and makes ready for the city's future. The bank's new home on the corner of Eighth and Indiana streets is worthy of this city's promise.

SOCIAL NEWS

NO MAN'S LAND.

They say he was a hero and they tell me he died bravely—
I only feel that he is dead—out there in No Man's Land.
I only know he will not come through all the years to follow,
I shall not kiss his lips again, I shall not take his hand.
We might have had a little son with soft hair like his father's.
Sometimes at night a tiny ghost comes knocking at my heart,
Asking me why it can't come in, and why the door is fastened,
Until I cry aloud with pain, until the hot tears start.
Poor little spirit child of his, you never were nor can be.
Don't tap upon my heart all night with that small ghostly hand,
I can not let you in, dear child; my heart is dead and empty
As are the barren, shell-torn wastes out there in No Man's Land.

—Eleanor Hammond.

SOCIETY SECTION TO BE DAILY FEATURE

The Times Society Section is to be resumed this week as a daily feature. now that the vacationists are returning, clubs are planning the resumption of work, and society is beginning to make plans for what promises to be a gay fall and winter. All items for the section should be in as early on the morning of the day of publication as possible, either when telephoned or sent in. The Society Reporter's phone is 1671. Items mailed or brought to the office should be signed.

A special request is made for names of boys and girls going away to school, for parties or individuals returning from their vacation trips, for visitors to the city, in fact for any and all items of interest in the social life of the city. In these days when there are so many changes of residence, among the old residents and the new comers alike there is also much interest in the new addresses. All these items will be appreciated by The Times, and will make valuable additions to the columns of the Society Section.

ROWENA CIRCLE MEETS TUESDAY AFTERNOON

Election of officers featured the regular meeting of the Rowena Circle held Tuesday afternoon, September 9 with Mrs. M. M. Bates, 1106 Indiana. Mrs. M. M. Bates was elected president, Mrs. R. H. Ramsey, vice president, Mrs. Vera Walsh, secretary and Mrs. Ruby Robinson, treasurer. Mrs. W. F. Wallace was elected press reporter. The routine of business was followed, then the hostess served refreshments of ice cream and cake and a pleasant half hour was spent. The members present were: Mesdames McCalister, Taylor, Leggett, Walsh, Richardson, Wallace, Robinson, McFarland, Hutson, Bates and Ramsey. The next meeting will be held with Mrs. W. F. Wallace, 40. Scott, September 22.

MRS. JONES HOSTESS AT COLORADO SPRINGS

To compliment Mrs. H. J. Fenton, Mrs. Walter M. Priddy and Mrs. Ashley Horne, members of the Wichita Falls summer colony at Colorado Springs, Mrs. Roy B. Jones, who has been at the Springs all this summer, and who will remain there some time longer before returning to Wichita Falls, entertained with a dinner at the Antlers Hotel Thursday night. Beautiful and elaborate appointments for which this hostlery is famed, featured the affair, which was one of the many pleasant social events in which Wichitans have participated in the Colorado resort this summer.

WICHITA SHRINE CLUB GIVES FIRST DANCE

The Wichita Falls Shrine Club, the newest factor in the social life of the city, staged it's first social event of the season Thursday evening, a dance at the Lake Wichita pavilion. Sixty couples were in attendance, the floor was splendid and the Katz Orchestra was at it's best. The handsome gold watch, given by Dave Paul, as a prize to the best waltzer on the floor went to Mrs. Fritz. Mrs. Fritz's parner in the prize dance was Mr. Karrenbrock. The news that these dances are to be fortnightly events is heard with much pleasure by the members of the club, their families and friends.

WESLEY GIRLS HOLD THE REGULAR SESSION FRIDAY

Friday afternoon the Wesley Girls were entertained at the home of Mrs. K. E. Bauch, Mrs. Grover Bullington being joint hostess with Mrs. Bauch. Business, as usual, occupied the time of meeting, save for a social half hour, over the refreshment course. The club was invited to meet on next Friday in the parlors of the First M. E. Church South, corner of Tenth and Lamar, with Mrs. Walsh and Mrs. White as hostesses. Those present at Friday's meeting were: Mesdames Jim Hanks, Billingsley, Walsh, White, Campbell, Trawick, McCarty, Crowell, Wallace, Barnes, Howard Bauch and Bullington.

MR. AND MRS. BLAIR ARE AT KEMP KORT

Mr. and Mrs. Merrill W. Blair, who since Mr. Blair's return from France, where he served with the Thirty-sixth Division as major, have been at the Fenton home, 1002 Burnett, moved Saturday to apartments at Kemp Kort.

Cuticura Is What You Need For Your Hair and Scalp

Dandruff kills the hair. Cuticura kills dandruff. Try this treatment. Before retiring rub Cuticura Ointment into partings all over the scalp. Next morning shampoo with Cuticura Soap and hot water. Rinse with tepid water. Dandruff usually disappears, hair stops falling and becomes thick, live and healthy.

Be sure to test the fascinating fragrance of Cuticura Talcum on your skin. Soap, Ointment and Talcum 25c. each everywhere.

WOODMEN'S CIRCLE MEETS ON FRIDAY

Grove 1447, Woodmen's Circle, reports a splendid meeting on Friday, held in their new hall, on Scott avenue with the degree team doing especially good work. Mrs. Ruby Hart is the captain, and the team is now practicing for the rally, which is to be held soon, when the result of the work is expected to make a fine showing. Following the drill the captain led the way to Fell's where refreshments were served.

SHOWER FOR BRIDE-TO-BE GIVEN ON LAST FRIDAY

In compliment to Miss Vera Horry, whose marriage to Delbert McCreary will take place on Tuesday, September 16, a surprise shower was given on Friday night. A number of girl friends, at the stated hour, visited the Horry home, surprising the bride-elect, and bringing a handsome array of gifts. Refreshments of ice cream and cake were served.

M. E. SOUTH CIRCLE NO. 1 TO MEET MONDAY

Circle No. 1 of the M. E. Church South will meet Monday afternoon at the home of Mrs. P. P. Langford, with Mrs. Traweek and Mrs. Kenny as joint hostesses. All members are urged to be present.

SOCIETY DANCED WEDNESDAY TO JAZZ ORCHESTRA TUNES

Wichita Falls young society folk danced as usual last Wednesday night at Lake Wichita, the pavilion proving an attraction for a large number as usual. The Jazz Orchestra furnished the music.

WHITE-MEISSNER WEDDING AT HENRIETTA SATURDAY

On Saturday, September 6, Ben Meissner and Mrs. Willie White, both of Wichita Falls, were married at Henrietta, Rev. S. E. Moore officiating. Mr. and Mrs. Meissner will make their home in Hillsboro, it is announced.

SOCIAL BREVITIES.

Mrs. H. J. Fenton and children, Frances and Joseph, returned Saturday morning from Colorado Springs, where they have been spending the summer.

Miss Bruce Dickson left today for St. Jo, Texas, for a short visit before going to San Saba, where she will be Latin instructor in the high school this year. Miss Dickson will return to Wichita Falls on Tuesday, and will leave for San Saba on Wednesday.

Mrs. W. M. Priddy and children and Mrs. Ashley Horne, mother of Mrs. Priddy, will return today from Colorado Springs.

Mrs. J. L. McMahon and daughters, Miss Margaret and little daughter, Mira Jane have returned from Colorado Springs, where they have spent the summer.

At the Churches Today

First Presbyterian Church.

Miss Veale will sing: "I Do Not Ask Lord," at the morning hour Sunday. The pastor will speak on: "Out of Doors." An opportunity will be given for church membership. At 8:15 we open our evening service. Miss Veale and Mr. Penson will sing a duet. The subject of the pastor's sermon will be: "What Is The Matter with Mexico? Shall We Intervene?" This is a very live subject just now and we need to face it squarely.—N. F. GRAFTON, Pastor.

Floral Heights Baptist Church.

Corner Tenth and Kemp Blvd.

Regular services Sunday. The pastor will be in the pulpit both hours.

Sunday school at 10 a. m. Preaching at 11 a. m. and 8:30 p. m. by the pastor. Ladies meet Monday at 3:30 p. m. Wednesday at 8:30 the mid-week prayer meeting. Teachers will meet Friday at 8:30 p. m. A cordial welcome to all.—R. W. M'CANN, Pastor.

Church of The Good Shepherd. (Episcopal.)

Services for the Thirteenth Sunday after Trinity.

Holy Communion, 8 a. m. Sunday School, 9:45. Morning Prayer 11. The rector's sermon will be: "The Death of Pan."

Miss Simpson will sing for the offertory "Just for Today," by Abbot.

Evening services at 8. The rector will preach on "Great Men and the Christ." This Sunday establishes the regular church services for the year. We want all new comers to the city, belonging to the Church to register this day. We also gladly welcome those who have no regular affiliations. You are welcome to what the Church has to give.—FRED T. DATSON, Rector.

First Methodist Episcopal Church.

Corner Seventh and Lamar.

Epworth League Sunday; 9:45 a. m. Sunday School, 11 a. m. morning worship with sermon. Mr. Ellis will sing, "The Old Fashioned Faith" by Ackley. 6:30 p. m. Epworth League rally program; song followed by prayer, scripture read by a leaguer, song followed by the president's talk. Violin solo, the first and second vice presidents will speak. Soprano solo, Mrs. Shivers. Talks by the third and fourth vice presidents. Solo, Mrs. George Taylor. Sermon by the pastor, "Not Our Bit, But Our Best." This one hour's program will be such you can't afford to miss it and the fellowship. Official board meeting at church 8:30 p. m., September 17.—H. F. DRAPER, Pastor.

First Methodist Church South.

Corner Tenth and Lamar.

The pastor is at home once more and will fill the pulpit both morning and evening at the services Sunday. Sunday School at 9:30 a. m. Morning service at 11 o'clock, Mrs. George Thorburn will sing at the morning hour. Junior League at 4 o'clock with Mrs. Wallace in charge. Miss Bulah Gardner will be the leader. Senior League at 3 p. m. The District Epworth League conference will convene at First Church at 3 p. m. and will continue throughout the evening. Special services and special musical numbers will feature and good round table discussions of the league work will be held. All the places in the district will bring large delegations and we will have a fine league conference. Make it your conference, young people. It is your opportunity. At 7 p. m. the colored jubilee singers will entertain the league and then the regular league program with lots of special numbers and plenty of pep and enthusiasm. At the evening service at 8:30, our pastor will preach to the young people and round out a big day for the Epworth Leaguers of this district. If you want a blessing, get close to the young people and their work and see how they do things. You are cordially invited to attend all the services.—S. A. BARNES, Pastor.

Central Presbyterian Church (Southern)

Eleventh and Bluff streets.

The Sunday School meets at 9:45 a. m. At 11 a. m. the morning worship. At this service there is to be special music by Misses Emma McInnis and Anna Delle Bradshaw. The subject of the morning sermon is "The Leavening Kingdom."

In the afternoon at 7:30 is the meeting of the Christian Endeavor, when the subject is "The Great Companion and the leader is Mr. William Joyner.

At 8:30 p. m. is evening worship when the sermon is on "The Commonwealth Ideal."

This is the pastor's last Sunday in Wichita Falls, and it is earnestly desired to have a good representation of the congregation.—L. J. SHERRILL.

Big Display of Exclusive Garments For Fall

One cannot appreciate the transition that has taken place in the world of fashion in just six short months. One cannot understand the magic, the joy and the color expressions that have "come back to women's clothes" until one visits the big display of Fall Garments at Baum & Gardner's. These garments are incomparable of line and workmanship and will find favor in the eyes of every beholder.

Choice Line of New Fall Coats

A wonderful purchase of new mode Fall and Winter Coats will be offered our patrons this week. These Coats are of Silvertone, Tinseltone, Suedine, trimmed in Raccoon, French Seal, Australian Seal, Opossum and other furs. The majority are full Silk lined. Very few half lined. Not every size and color to be found in every model, but a good assortment to be found in all sizes and all color effects.

Priced $35.00 to $250

An Opportune time to Secure a Smart Wrap

Priced $35.00 to $250

An Opportune time to Secure a Smart Wrap

THE LATEST IN BLOUSES

This week we are featuring some most wonderful Blouses. Smart Overblouses that are satisfied to drape the waist line and give the wearer the appearance of wearing a one-piece frock. The neck line is round and collarless, fashionable self-shade embroideries on the shoulder. Comes in navy, brown, black and bermuda.

Priced at $8.50 to $50.00

NEW SATIN DRESSES

Our showing of New Satin Dresses for this week will be a revelation to Wichita Falls shoppers. There are Satins, Messalines, Satins combined with Wool Tricotines and also some charming Georgettes. Designed with ruffled Skirts, side draperies, pointed tunics, elongated bodices, tight or flare sleeves.

The season's leading shade, navy blue, is prominently featured, also black and dark brown.

Priced at $25.00 to $200

Late Model Suits

We have endeavored to supply the women of Wichita Falls with the most exclusive models and the greatest variety in Fall Suits that could be secured in the Eastern markets. The result you can see here all this week—long Coats, medium Coats and short Coats, semi-fitted models and low-waisted belters, Suits trimmed on collar, sleeves and down the front with attractive Furs. A wonderful showing that will hold your interest.

Priced at $50.00 to $250

FURS, IN COATS, SCARFS AND STOLES

Our big display of fine Furs has been added to by fresh arrivals during the past week. New things in Hudson Seal, Mink, Raccoon and other choice pelts are among the new ones. There are long Coats, short Coats, Capes, Scarfs and Stoles, all beautifully lined and bearing the latest stamp of fashion in every detail.

They are priced at $350 to $900

Baum & Gardner

Saturday: L Ko Komedy and Bison Western feature; also Hearst News.

ACCLAIM BERT LYTELL BRILLIANT SCREEN STAR

Bert Lytell, who will be seen in the gripping Metro drama, "Faith," at the Majestic theater for Monday has, in a short screen career of a little over a year, become one of the most popular and loved stars of the screen.

Before leaving the stage for the picture-drama Mr. Lytell had reached fame, not only through his natural dramatic talent which he inherited from his parents who were both distinguished artists of the stage and also from his grandfather, J. K. Mortimer, for years one of Augustin Daly's most brilliant stars, but he also owes a great deal of his rapid rise to his own hard work and application. For some years Mr. Lytell played leading roles in stock but his splendid work attracted the attention of New York managers and he soon appeared in leading roles on Broadway. His latest stage play was "Mary's Ankle," in this production he was co-starred with Irene Fenwick.

Bert Lytell was born in New York but was educated in Upper Canada College where he excelled in all athletic sports. His screen career has been exclusively with Metro and he has played in such productions as "The Trail to Yesterday," "No Man's Land," "Boston Blackie's Little Pal," "Unexpected Places," "Hitting the High Spots" and "The Spender." The latter play, taken from the story of the same name by Frederick Orin Bartlett which was published in the Saturday Evening Post, was a picture of such unusual charm and value that it caused much admiration and favorable comment from noted critics and editors throughout the country.

WILLIAM DUNCAN
VITAGRAPH

In "Smashing Barriers," beginning at the Gem Theater on next Friday.

"BE A LITTLE SPORT" COMING TO THE PLAZA

A man in this town confesses that he has just met a girl he loved and lost five years ago, and now thanks his lucky stars he didn't marry her.

"She was the best dresser and looker that ever went to a frog leg supper," he said. "It used to make me swell with pride and burn with jealousy to see the admiring glances that followed her in a restaurant. I fondly believed that beautiful girl meant all my earthly happiness.

"I was considered heir to my uncle's million and a half; but when uncle died and left me only a fourth of his estate, that girl married a man with twice my money without even a goodbye to me.

"When I saw her recently all her coldness and her grasping nature had impressed themselves on her face—which had become hard, coarse, cruel. What a wife she would have made me! Like lots of young fellows I was a love sick fool; but fool's luck saved me from a sad fate, just like the hero of 'Be a Little Sport,' the Albert Ray and Elinor Fair comedy playing at the Plaza airdome Friday, in which a poor, oversick boob, in a mad chase after a flashy beauty makes a lot of funny blunders; one of them being to marry a little stenographer by mistake. Then he suddenly realizes that the wrong girl was the right one after all and that fool's luck has plucked him from a terrible fate."

GERALDINE FARRAR WEARS SPOILED TO ORDER GOWN

It is not usual for Geraldine Farrar to appear in rags either in opera or in her series of Goldwyn Pictures. When she found that a few scenes in "Shadows" required her to don old clothes she was at a loss to know where to find them. It is well known that the diva doesn't keep any of her costumes longer than is required by a single production, and as for owning any sort of garment which shows signs of wear—why she could more easily furnish a fur coat which had served its purpose and which she would be willing to have slashed and torn. But it was a simple dress that was needed and it she must have.

In such cases it is customary to draw upon the large wardrobe room of the Goldwyn Studios, but Miss Farrar invariably has all her dresses made to order and she did not care to deviate from her rule in this case. There was but one thing to do—have the thing created for her with all the care and artistry employed on her magnificent new gowns.

Heri Bendel of New York, who is solely responsible for Miss Farrar's sartorial triumphs, was called into consultation and told to make the dress. It must be absolutely plain, yet of god material and must fit Geraldine Farrar perfectly. Accordingly the proper material was selected—a figured crepe—and work begun. The gown was put together in short order by Bendel's skilled workers, laughingly. Of all people they know the usual lavishness of the star's frocks. The greater part of the work, however, was to mutilate it. Carefully, yet with seeming absence of care, the dress was stained, torn then mended and rent some more. In the end it was nothing more than a rag—and a perfect counterfeit of a garment worn a thousand times, yet it had never been used once.

This is the only frock that is not a marvel of gorgeousness that Geraldine Farrar wears in "Shadows" when it comes to the Gem theater Monday.

"THE STUDIO GIRL" AT THE PLAZA MONDAY

"The Studio Girl," starring Constance Talmadge, is an adaptation by Paul West of "La Gamine," by Pierre Veber and Henri de Gorsse, in which she was directed by Charles Giblyn. It will be the feature attraction at the Plaza airdome Monday and Tuesday.

Frazer Ordway (Earle Foxe) comes to Cliff Haven, a tiny New England village to recuperate; in this town lives pretty Celia Laird (Constance Talmadge) with her maiden aunts Harriet and Rachel Farnum (Isabel O'Madigan and Grace Barton). Celia is engaged to Obediah Daw (John Hines), the village lout but a good catch; she cares nothing for him but she is resigned to her fate, although chafing at her empty existence.

On the cliffs Celia comes upon Ordway sketching and they get into an animated conversation; in a week their acquaintance ripens into a warm friendship. Her aunts note this with alarm and hasten the wedding. On the appointed day, the artist leaves for New York and later discovers Celia in the tonneau; she has run away to escape the loveless marriage. He puts her on a train supposedly bound for Cliff Haven, but when he gets to his apartment he finds her curled up asleep in his arm-chair. He turns the apartment over to her and spends the night with his friend Dr. Grierson (Ferd Tidmarsh) to whom he confesses that his feelings toward his fiancee Adriana (Edna Earle) have grown cold, and that he is now in love with Celia.

Dr. Grierson loves Adriana himself and he tells her to telephone Ordway—she does and Celia answers the 'phone. Adriana suspects the worst, naturally, and telegraphs the Cliff Haven authorities of the young girl's whereabouts.

The village constables arrive to arrest the artist for abduction; at the same time Adriana comes to the apartment with the doctor—Frazer solves the double dilemma by marrying Celia. And everyone is happy except poor Obediah; but let the fates worry about him.

NEW DUNCAN SERIAL BOOKED AT THE GEM

To those who like red-blooded tales of the west for their entertainment, Manager Pois of the Gem theater, announces that he has something on tap that will just suit them. It is the coming of William Duncan, the Sandow of the Screen, in a new and high-powered 15 chapter serial, entitled "Smashing Barriers." The first episode, "The Test of Courage," will be shown on Friday.

Motion picture devotees, and especially those keen admirers of Duncan, will remember his recent appearance here in "The Man of Might." The coming serial production is said to be even better than that one and the fans are promised a 15 week trip of adventure and thrills that will make them cry for more.

Besides starring in this production, William Duncan also directed it. A cast of old favorites Edith Johnson, Joe Ryan and others are in support of him. Cyrus Townsend Brady, famous the world over as an author, wrote the scenario for "Smashing Barriers."

Items of Interest to "Movie" Fans

The "Empress of Stormy Emotion," as Madalaine Traverse often is called by lovers of the silent drama, has given to the screen a production which has been classed as the finest effort of her artistic career. This picture, called "The Splendid Sin," will be seen in first-run theaters September 14, and shows Miss Traverse in a sympathetic and self-sacrificing role.

William Farnum, who is creating a sensation in theaters throughout the country with the biggest hit of his career, "Wolves of the Night," is working at present at the studio in a screen adaptation of Justin Huntly McCarty's famous story "If I Were King." Mr. Farnum, of course, has the role of Villon, the poet dreamer.

Details of the settings and properties required for the first of Pearl White's starring vehicles are about complete. According to present schedure, Miss White will start work on this first picture, "Tiger's Cub," in a couple of weeks. Many thrills are promised in the production.

Tom Mix and his entire company are at work in Ponca City, Okla., on the ranch of Colonel Joe Miller, of "101" fame, where the cowboy star, it is declared, is taking the greatest chances of his life in a play. Some stunts which Mix is doing for the camera in this story are described with emphasis as the most death-defying ever dreamed of by picture producers.

Gladys Brockwell's next picture, "Broken Commandments," is scheduled for release on September 14, at which time the producer for his versatile star—who will be seen in a most appealing characterization. In her support is promised a cast of exceptional merit. Miss Brockwell later will be son in a picture called "Chasing Rainbows" which has caused much favorable comment among reviewers.

Albert Ray and Elinor Fair still are in California engaged in making pictures. The latest vehicle in which this pair of players are featured together is "The Lost Princess," a pleasing comedy-drama announced for release on October 5.

Five Fox Sunshine Comedy companies still are busy on the Pacific Coast turning out rollicking humorous two-reel laugh-makers for the season of 1919-20. Hampton Del Ruth, as supervising director of the Sunshine comedies and the famous Beauty Brigade, has some fine new stuff up his sleeve for these pictures which should do much to cheer the tired business man—in fact, the whole family.

The first of William Russell's Victory pictures, a dramatic story called "Sacred Silence," is nearing completion. His second vehicle will be a western melo-drama taken from the popular novel, "Eastward Ho!" by William McLeod Raine.

POPULAR FILM STAR IS "LITTLE SISTER OF NAVY"

LOS ANGELES, CALIF., Sept. 13—Mary Pickford, film star, is now "Little Sister of the Navy."

This title, probably the greatest ever granted an American woman, was conferred recently amid the firing of salutes at an impressive naval ceremony on board the Battleship Texas during the stay of the great Pacific fleet in Los Angeles harbor. Those who participated in the ceremony were Secretary of the Navy Daniels, Admiral Hugh Rodman, commander of the Pacific fleet, Rear Admiral Jayne, in charge of the 12th naval reserve district, Capt. F. I. Schofield, commander of the Texas, and other high navy officers.

The distinction was bestowed upon Miss Pickford in appreciation of her work during the various Liberty Loan drives. In the Victory Liberty Loan campaign, Little Mary acted as sponsor of the Texas with the result that this ship sold more bonds than any other vessel in the navy, thus winning for the little star the privilege of becoming "Little Sister of the Navy."

In his remarks of commendation, Secretary Daniels spoke very highly of the aid rendered the different loans by Miss Pickford. "It is a pleasure," he said, "to have for our mascot, the woman who has shown such great patriotism by investing so heavily in Liberty bonds. I am told Mary Pickford holds more bonds than any other woman in America. May her name always be an inspiration to both the Pacific and Atlantic fleets."

After Miss Pickford was declared "Little Sister of the Navy," the secretary watched her raise the George Washington pennant, awarded the ship as a trophy for winning the "Match the Navy" bond selling contest.

This flag was flown by the transport which took President Wilson to France and Miss Pickford as sponsor of the Texas was entitled to the privilege of raising it.

To show her appreciation of the honors bestowed by the Texas, "The Little Sister of the Navy" presented the ship with a silver loving cup and gave 70,000 cigarettes to the crew.

Lift Off Corns!

Doesn't hurt! Lift touchy corns and calluses right off with fingers

Apply a few drops of "Freezone" upon that old, bothersome corn. Instantly that corn stops hurting. Then shortly you lift it right off, root and all, without pain or soreness.

Hard corns, soft corns, corns between the toes, and the hard skin calluses on bottom of feet lift right off—no humbug!

Tiny bottle of "Freezone" cost but a few cents at drug store

PRINCE OF WALES SKETCHES AT HOME AND ON THE BATTLEFIELD

By United Press.

LONDON, (By Mail)—"It doesn't matter if I am killed. I have plenty of brothers at home."

When the Prince of Wales was in France that was always his reply when remonstrated with for taking undue risks. He went on active service at his own request and any idea that during his periods of service in France, Italy, and in Egypt, he was kept in cotton wool would be an error.

Right up to the signing of the armistice he was never treated as the Prince of Wales, but just as any other officer—any Captain Smith or Brown.

During his retreat from Mons, as he sat at dinner in mess, the telephone rang incessantly, first for this officer and then for that. No orders came for the Prince of Wales. Aching to serve, he seemed to be the only officer the war office didn't want. At last he went to Kitchener and made a personal appeal.

The great field-marshal's reply was characteristically blunt: "It won't matter in the least if you are killed, but it won't do if you are taken prisoner; so you can't go."

Later on, despite this assertion, the Prince got his desire and went to France. Out there he ran exactly the same risks as any other officer and as there are always doubting Thomases who decline to believe that a prince of royal blood is allowed to run any risks whatsoever, it may be definitely stated that a Vermelles, during the battle of Loos, the prince had just got out of his car, when a shell killed his chauffeur and partially wrecked the car. In the autumn of 1917, in the front line trenches, a shell just cleared the prince and took off the leg of a soldier standing behind him. In Italy, while at dinner, bombs fell outside the window of the mess, breaking all the glass. The same thing happened in France when bombs fell immediately outside the hut where the Prince was living as any "Captain Smith" might have done.

One of the prince's experiences shows an amusing variation from routine. It was on the Somme, in July 1916, when the Prince with a senior staff officer, was going along a duckboard. They heard a shell coming and they dived for shelter. The prince landed, via a bush, on top of an extremely surprised gunner, who was executing his morning shave. Happily the man was using a safety razor, and no serious damage was done.

"Our Kid," "Captain Woodbine," and "Captain Pow" (initial letters Prince of Wales) are three of the soubriquets earned by the Prince of Wales in France.

Those who came in contact with the prince "over there" probably found him at his best, for it was then his manhood came to him. When he left English shores for active service he was just a natural, and rather bashful lad. In France things were altogether different for him. He mingled with the fighting men quite informally. He delighted in "popping in" at all sorts of places unexpectedly. These sudden incursions tended to embarass some of the men, who showed signs of self-consciousness. Noticing their restraint, the Prince on one occasion burst forth with: "You can't be scared of me—it's only the name."

His unaffected manner very soon set the men at ease, and knowing themselves to be scared a bit of "The Prince of Wales" they chose their own name for him. Hence among the Canadians he was always known as "Our Kid," or Captain Pow," while the Australians nicknamed him "Captain Woodbine" because of his liking for cigarettes. "Woodbines" being the cigarettes which find most favor with the "Aussies."

The difference between the "boy" who went to France and the "man" who returned is almost astounding. Notwithstanding the prince always gives an impression of extraordinary boyishness, this impression is caused chiefly by his smile, and those who have heard him speak in public during the last few months realize that those years the prince spent in France were the bridge over which he crossed the gulf dividing boyhood from manhood.

From the highest to the humblest of his subjects the Prince is now referred to as a "man," but more often as a "white man."

Modesty and simplicity are strong points in the Prince of Wale's make up.

He has the strongest dislike for flattery and any sort of insincere adulation. There is no more certain way of annoying him than to show any form of toadysm. He is blessed with a strong sense of humor, which has more than once enabled him to see the funny side of such attempts when they have occurred. There is the incident of a well-known society woman, who, to put it kindly, at least has no aversion to seeing her name in the papers. One of her hobbies is to collect signed portraits of people in the limelight and she wrote to the Prince of Wales at the time of his visit to Rome, saying that she thought his Italian journey made him the hero of the hour, and would he, etc. . . .

The letter took some time to reach its destination and happened to reach the Prince during the period of the French counter offensive on the Marne.

He dispatched by return a photograph of Marshal Foch!

As a little boy, the Prince of Wales was always called David in the home circle.

David was a great favorite with his grandfather, King Edward, who often stole into the nursery for a romp. One day a children's outfitter called at York House with some clothes which had been ordered for the little Prince. She was waiting in the corridor when David opened the nursery door and saw her standing there.

"Oh, do come in and sit down," he said, very politely.

"No, I think I'd better wait here," replied the visitor, not liking to enter the nursery without some other authority.

"It's quite all right," said David reassuringly. "There's nobody in here that matters. It's only grandpa!"

When at school the Prince of Wales received no special favors or treatment. He had to run the gauntlet of practical jokes as well as take his turn in "fagging" for one of the seniors.

One day the cadet for whom he was "fag" (an English public school custom whereby a senior boy selects one of the juniors to wait on him) sent him to the shop to buy some jam puffs. The Prince came back with the jam puffs and six cents change.

"You can keep the six cents, old son," said the senior loftily. And the future king of England pocketed the tip with glee, and very proudly related the incident in his letter home to his father and mother.

Queen Mary consistently impressed on the little princes the necessity for taking an interest in their studies, while King George mindful of his own sailor days, was always pleased to see them evince an interest in matters naval.

He was very pleased one day to find the small Prince of Wales diligently drawing pictures of ships. The Prince, looking up, said: "You know, I want to be a sailor."

"Do you?" asked the king. "Why?"

"Well, you see," replied the young hopeful, "I don't like lessons, and it doesn't take so much brains to be a sailor, does it?"

One of the many activities of the Prince of Wales is that of film actor.

A certain British film was in process of production in which the hero was to be presented with a medal by the Prince of Wales. The producer, Martin Thornton, struck the happy idea of asking the real Prince of Wales to come down and perform the ceremony while the operator turned the handle. On hearing the suggestion, one of the court officials said: "I'm sure the Prince of Wales would not do it." Then the prince came up to speak for himself. "Nonsense," he said, "I want to do it, and I'm going to."

Arrangements were completed and it was decided that the prince should converse for a little while with the film hero.

It was carried unanimously that the prince had played his part splendidly—except that he got so interested in the conversation he forgot all about the man who was "turning the handle" and the operator had to stop work until the conversation drew to a close, when he very smappily began just in time to get the final handshake and parting of the prince and film hero.

It is often said by those who knew King Edward that in the Prince of Wales he lives again.

This is perhaps an exaggeration, but the prince certainly has inherited his grandfather's genial facility of self-expression, and has more than once shown himself capable of a witty "bon mot."

In a speech to members of the stock exchange who had invited him to "the House" for lunch, he said:

"I have often heard of the terrible treatment meted out to strangers who ventured within the sacred precincts of the stock exchange. Many of them, I believe, escaped in clothing more scanty than that in which they entered the hall. But it is not as a stranger that I come here, as I have met many of you fellows on the battlefield.

"I am not well up in the technical terms of the stock exchange and the words 'bull' and 'bear' are always somewhat of a mystery to me, but I know that the stock exchange has always been a big 'bull' on patriotism."

PRINCE OF WALES' SHIP DEMOLISHING ICEBERGS

During the trip of the Prince of Wales, every precaution was taken to make his voyage a safe one. H. M. S. Renown is shown in the picture demolishing icebergs in the path with 4-inch shells.

AMERICAN COAL COSTS TOO MUCH FOR GERMANY

BERLIN, Wednesday, Sept. 10.—Importation of American coal in quantities sufficient to relieve Germany's need is regarded by the press as inconceivable, owing to the cost. Although German-American negotiations have resulted in an offer to send American coal to this country, it is said, the price is so high, owing to freight rates and foreign exchange that the importation of coal in large quantities is out of the question.

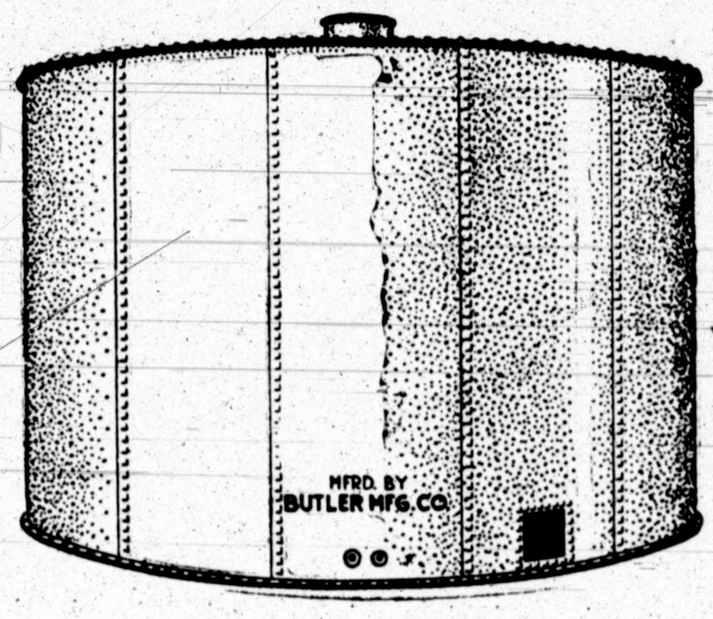

VERNON IS TO HAVE SECOND OIL EXCHANGE

Special to The Times.

VERNON, Sept. 13.—Joe Pearce and M. T. Havis are opening up a second oil exchange in Vernon. The new business will be located on East Pease street and will be known as the Vernon Stock Exchange company. The floor space of the building will be divided in the center, one half to be divided into office booths and on the other side will be installed a modern exchange board, the business will be opened by the 15th of this month.

SUITS and OVERCOATS

Men's Clothing costs more than it did in pre-war times—all the more reason why you should buy the best, for the pleasure you get out of it and the longer service it will give you, make it much cheaper in the end.

The tailor-made man feels a confidence he never would get from a ready-to-wear suit. He makes an appearance to his friends and business associates he could never hope to make in a hand-me-down—then, tailor-made clothes are cheaper in the long run.

We are equipped to turn you out a suit or overcoat on short notice—as good in style, fit and material as you can get in any big city. Hundreds of Wichita Falls' best citizens have had their clothes made by us for years—we will give you the same service. Come in—let us take your measure for a Fall Suit and Overcoat.

OUR EXCLUSIVE CREATIONS IN AUTUMN HATS

This week we will introduce many distinctive creations in large Hats and close-fitting Hats, made of Velvets, Duvetyns, Satins, Panne Velvet, Novelty Feather Hats, Beaver Cloth and Duvetyn and in strikingly effective combinations of these fabrics. Many of these Hats are rather wide as to brim, with soft, collapsible, tam-like crowns. There are Turbans designed for matrons and others for younger women. Some are draped, shirred or plaited and others are plain. Metallic embroidery again is popular and in this showing it shares honors with embroideries of Wool or Floss. Colored facings on a number of models are pleasing features of this showing also. We also have a wonderful showing of Sailors, which are very popular this season. All the new season's shades are represented in our wonderful showing of new fall and winter hats. Priced from $5.00 to $35.00

Georgette and Crepe de Chine Blouses—Special assortment for this week's selling. A wonderful assortment of Crepe de Chine and Georgette in all the new shades and colorings. Hand embroidered and beaded. A wonderful assortment for this week's selling at **$5.00** and **$7.00**.

FALL FOOTWEAR

in a wonderful variety of very charming models.

New Autumn models from Utz & Dunn, Red Cross and other fine American shoe-makers are created by designers in close touch with all the new fashions. Our new Shoes are as admirable in quality and workmanship as they are in design. We hope you will call and inspect them at the earliest opportunity. We are showing this week many new models. Our stocks were bought at a time when shoes were much cheaper than they are today, giving the early buyer the advantage over those who put off buying until later. We have them in field mouse, mahogany, grey and black, also two-tone with black patent vamp with fawn kid top, full Louis heel. Priced from $12.75 to $16.00
We also have a large assortment in materials of kid and calf in all the new shades, military heel, priced from $10.50 to.....$12.50

THE NEWEST IN FROCKS

DRESSES surpass all showings of the past. Never has there been a season that has equaled what the coming Fall and Winter promises in these wearables. Women all over the country have ralized that no wardrobe is complete without at least one Wool Dress for practical use, and manufacturers have met the unusual demand by producing styles far above the ordinary—creations that are most attractive.

Wool Dresses for Street Wear

Most practical Dresses for street wear, in a great variety of styles, made of Wool Tricotine, Jersey, Poiret Twills, French Serge and Wool Paulette, just received. Plain tailored models, Silk and Wool embroidered and stylish beaded creations. Every woman should have one or more of these.

Priced from **$22.50** to **$100**.

Silk Dresses for Street Wear

Fo rstreet wear and afternoon fuctions we are showing Dresses of Tricolette, Satin Charmeuse, Taffetas, Crepe Meteors and the ever popular Georgettes. Beautiful creations in beaded and embroidered models.

Priced from **$22.50** to **$100**.

High Class Dress Novelties In a wonderful collection

The height of elegance are these new Dresses for the reception, theater and the ball room, including among the collections the latest creations and importations in Metal Brocades, Silver Embroidered Georgettes and Taffetas, Beaded and Embroidered Georgettes, as well as many others in Novelty Silks. The very height of exclusiveness and individuality attained in these fair garments for Fall dress occasions.

The prices range from **$35.00** to **$100**.

Spend a few hours in our Garment Section this week making your selection.

THE NEWEST IN LADIES' SUITS

The suits this season are diversified in type more so than for any previous season. The types are not confined to any one particular mode—there is variety for individual taste. Many slim line models, plain tailored, button trimmed, embroidered and braided, also high button effects with collars of rich furs—all Suits that are most beautifully made. Then we have the now very popular Ripple Suits for the little woman and the slender figure—a real innovation. You will also find the usual selection of Suits for the "stylish stout" and the plainer one for conservative dressers. All in all, it's a collection of Tailored Suits placing us in a position to meet the demands of the most discriminating.

Tricotines, Peach Bloom Silvertones, Poiret Twills, Duvetyn, Finest Worsteds, Men's Wear Serge, Chamillian Cloth

And other of the new season's favored materials are employed in the making of the many beautiful Suits we are now showing. We suggest immediate buying.

New Suits at Popular Prices

We feature Tailored Suits of exceptional quality, possessing the highest type of style, made by the best tailors and in popular fabrics, such as Silvertone, Tricotine, Men's Wear Serge, etc., in a great variety of models at prices from $35.00 to.....$75.00

Most Lndividual Suit Types

Many other Suits, individual types, of Duvetyn, Peach Bloom, Tricotine and numerous materials. A host are trimmed in rich Furs and others plain tailored and embroidered. Is is a rare selection that covers every new style created for immediate, early Fall and Winter wear.

The prices on these range from $50 to **$250**

WRAPS AND COATS

There is a comfortable luxury about these Coats, fashioned in Velour, Silvertone, Poiret Twill, Duvetyn and other fine fabrics, also beautiful Furs. Many of these new Coats are Fur trimmed. We have them in any hue and material. Youthful lines, tucked here and there, snug collars, "hold fast" and string feature many of these pretty Garments. Fancy Pussy Willow lining is a proven favorite for the better wraps.

The prices are reasonable, ranging from $15.00 to $350.00
Plush and Velvet Coats from $27.50 to **$150**

Alden, Walker and Wilde and other good lines from $7.50 up to $12.50
We carry all the new lasts, in all widths.

STETSON HATS

"It's a Stetson!" — Ever notice how much keen satisfaction a man puts into that phrase? He feels that the Stetson wearer is recognized as a person of taste and discrimination. That's one of the reasons why we carry Stetson Hats.

Another is to safeguard our customers against doubtful merchandise in these days of uncertain values.

Perhaps you, like many more of our well groomed customers, have found how gratifying it is to wear one of our new Stetson Hats for all occasions. You will find the Stetsan Quality Mark in every Stetson Hat.

We have them from **$7.50** to **$15.00**.

We have also received our new stock of the well known Mallory Hats, in all the new shades and styles. Priced from **$5.00** to **$12.50**.

SCHOOL DAYS ARE HERE

We've Picked Fall '19 to Double Our Boys' Clothing Business

At last a Boy's Suit that puts a stop to uncertain service. You've seen boys' clothes of the old school; now comes the head of the class. A wonderful thing has happened to Boys' Suits. They have undergone a change in make and manner. Better Boys' Clothes had to come. The Suits are here in all the new materials, all the new styles, every new effect. They are beautifully modeled, tediously tailored and temptingly trimmed, this, of course, is necessary to fit the boy of today. Boys' Clothes of today are different to what they were long ago. The materials are different, the styles and models are different. Why shouldn't they be? Boys, in many ways are not just like they used to be, hence we have boys' clothes to fit the boy of today. We have a wonderful showing in ages from 5 to 18 years.

Prices range from $7.50 to $20.00

COMFORTS AND BLANKETS

For this week we are going to offer Special Bargains in Comforts and Blankets. HARMFUL EXAGGERATION.

Not all the publicity that Wichita Falls is receiving in connection with the oil fields has been of a desirable character. Along with stories of the wonderful riches of the oil fields have gone out stories of profiteering, of bad roads, dirty streets and other things, some of which cannot be remedied at once and others which are the result of neglect and indifference.

But it is not of these things we wish to speak. It is the exaggeration in contrasting former conditions with those of today that we wish to discuss. Recently a magazine of national circulation sent one of its staff here to get information concerning the oil field and he wrote two of the most entertaining stories that have yet come out of Wichita Falls. Most of what he wrote was the truth and that truth was more entertaining and romantic than fiction, but his story started with an erroneous statement and ended with a conclusion that is likely to mislead many readers.

In a box in the middle of the page at the top at the beginning of one of the installments of his article, this statement forced itself upon the attention of all who even glanced at the page:

"Wichita Falls, the dream city—the little humdrum Texas town that two years ago was drying up after years of drouth, and that now has water and oil and money," etc.

Contrast is one of the best tricks in the box of these writer folk and one of the best methods of impressing people with the wonderful prosperity in Wichita Falls at this time is to picture the town before the wonderful oil strikes at Burkburnett. Unfortunately a good many writers, and the one whose article has been mentioned among them, have given free reign to their imaginations in picturing Wichita Falls before the oil strike and they have made things appear mighty dull and dreary and destitute here because it has made a stronger contrast and a more impressive picture in the minds of readers of the conditions that exist today.

Too many of those who have come here to "write up" the oil fields have never taken the trouble to learn that long before the discovery of oil at Burkburnett Wichita Falls was a progressive, prosperous and growing city that was considered one of the best and most progressive in the entire Southwest and that there was such a spirit of progress in this place that the drouth, so often mentioned did not even check its growth. The writer folk have not taken time to learn that there was a "housing problem" here months before the great oil strikes and that more dwellings were then being built probably than in any other city in the Southwest.

Those of us who have lived here and many others know too that Wichita Falls was a remarkable town long before Burkburnett grew large on the oil map and that its growth was not entirely dependent upon the oil industry. Indeed there are many here who are not entirely convinced that the overdose of prosperity we have been having is an unmixed blessing and who believe that Wichita Falls would still have been best little city in the world, even if oil hadn't been discovered.

The concluding paragraph of the article to which we have adverted is as follows:

"A passing dream of easy money came true. That is Wichita Falls and the rest of the oil industry as well today. But as the present situation is the reality of a dream, so will it resolve itself sooner or later back into the stuff of fancy. Its permanence will be in memory alongside fond recollections of Nome, Dawson, Goldfield, Bakersfield and other famous fairy stories temporarily come true."

Even the most enthusiastic Wichitan will hardly maintain that the present flush condition will continue forever, but the implication that Wichita Falls and the oil country would go dead and that soon is hardly borne out by the history of other oil developments in this country. Beginning back in Pennsylvania, and continuing down through Ohio, Indiana, Illinois and Oklahoma oil developments have built up a number of the most prosperous communities in the country and the running off the flush production has not left them dead, dull places either. And while the flush production may be run off within a few months, oil production has continued in most fields for many years as can be instanced right here in Wichita county.

Wichita Falls may become a dull, spiritless place after the flush production is gone but if there is anybody here who believes it will ever become a "humdrum" town they are out of harmony with the spirit that has always prevailed here, and which, and not the oil discovery, has made Wichita Falls the splendid little city it is today.

RATIFICATION FAILS.

In his recent speeches the President has made some interesting statements as to what would be the situation if America should fail to ratify the peace treaty. The choice, says President Wilson, is between "peaceful partnership" with the rest of the world if we accept the treaty, and "armed isolation" if we reject it or if we so load down our acceptance with conditions and limitations as to make it unacceptable to the other nations and therefore a nullity.

Obviously rejection of the treaty would mean a return, so far as this country is concerned, to international conditions at least as unsatisfactory and dangerous as those that existed before the war.

While the failure of the United States to join the league of nations would undoubtedly greatly detract from the strength of that organization, it is, as the President says, practically certain that the league organization would be completed notwithstanding this fact. England has already ratified the treaty, France, as a matter of self interest and protection, must soon take the same course; and Japan, partly for selfish reasons, and partly perhaps, because of anti-American feeling engendered by criticism of the Shantung provision of the treaty, is more than likely to be the third of the "five principal allied and associated powers" to ratify the treaty; thus making it effective, and putting the covenant of the league into force regardless of the action of Italy, America or any of the other nations whose representatives signed the peace treaty.

It would then be necessary for the United States to negotiate separate treaties of peace with Germany, Austria, Hungary and the various new nations of Europe. It would also be necessary greatly to increase our army and navy. To accomplish this the President says we would have to adopt Prussian military methods, since if we are to stand alone in the world, it would require the highest possible degree of efficiency to provide even a reasonable degree of safety.

While President Wilson does not definitely point out the fact, it would of course be possible, if we should refuse to become a party to this league with our allies, to undertake to league or ally ourselves with China, Spain, Norway, Sweden, Russia, Mexico, Argentine, Chili, and the many other neutral countries that are not party to the league of nations; or we might, perhaps, associate ourselves, in order to avoid isolation, in an alliance or league with Germany and her allies in the world war. However, all will readily concede that this latter plan is almost unthinkable, while as to the other alternative, it would certainly be impracticable and ineffective.

The choice, then, is clearly just as the President says—between "peaceful partnership and armed isolation", and there can be but little, if any, doubt as to what that choice will be.—Shreveport News-American.

If the question of dividing Texas ever becomes an issue—and we don't for a moment believe any of this generation will ever live to see it—The News will have something to say and some facts to lay on the table to show the utter foolishness of the proposition emanating from jealousy and over-ambition. The various sections of Texas may be unfair to one another, but we doubt if either one is able to cast the first stone at the other. Certain it is that while sections may jibe and growl at each other, that when it comes to the question of separation they are very much like man and wife—fighting in the family is their privilege but no wise man has the temerity to insist on separation. The red blooded men of Texas have decreed that she shall be better governed and she will be better governed as the days go. There are a number of states that pay more taxes than does Texas, but they have made no move to divide yet.—Clarendon News.

MANY OF SCHOOLS HAVE NOT RECEIVED FREE TEXT BOOKS

Two thirds of the rural schools in Wichita county have not received their allotments of free text books. County Superintendent Hall announced Saturday that fully half of the schools in the county could not open for their fall terms Monday because of the lack of school books.

Several of the other schools will begin their terms with old books.

Applications for books and bonds required of all school districts were delayed in some instances, said Mr. Hall, and this delayed receipt of the books, while in a few instances railroad conditions delayed book shipments.

All books are expected within two or three weeks, when all of the county schools are expected to have begun their terms.

The teachers' institute, which has been in progress here since Monday ended Friday. It was a marked success, said Mr. Hall.

BUICK EMPLOYES TO HAVE NEW DORMITORY NEAR DETROIT PLANT

The General Motors Corporation has begun the construction of a seven-story fire proof dormitory building at Flint, Mich., located three squares west of the Buick Motor Company's plant, to cost approximately $2,500,000 and will be in every sense of the word a community building with recreation and entertainment features to accommodate 2,760 persons at one time.

The plans call for a magnificent fire proof building that will be beyond question the largest enterprise of this nature ever undertaken by a private corporation. According to a statement which accompanied the announcement from Walter P. Chrysler, vice president of the General Motors Corporation and president of the Buick Motor Co. of Flint, this great enterprise on the part of the corporation has been decided upon by the directors solely with a view to the welfare of Buick employes and other General Motors interests at Flint, to relieve the congestion and provide highly desirable living quarters for as many employes as possible and at the same time to add to the pleasure and enjoyment of all employes and their families.

The General Motors Co. has been at work for several months carrying out a program of house building for its employes at Flint for which appropriations of over $6,000,0000 already have made. Approximately 3,000 of these houses will be completed during the present year and will be occupied by Buick and other employes.

Some features to be embodied in the dormitory building are as follows:

It will be a seven story fire proof building, 214 feet by 280 feet.

Its cost is estimated to be between $2,300,000 and $2,500,000.

It will provide sleeping accommodations for 1168 men.

It will provide eating accommodations for 1,300 men.

A large gymnasium, 72 by 92 feet fully equipped with all the equipment necessary in an up to date gymnasium and a large auditorium with a seating capacity of 1,300 people, also a large machine shop for the instruction in practical mechanics. Twelve bowling alleys will be established in the basement with a seating capacity for 100 visitors. The large swimming pool is 25 by 75 feet with a spectators gallery above accommodating 200 people. A cafeteria will be located under the main auditorium with a seating capacity of 450 persons. A laundry will be located in the rear of the basement and a nine chair barber shop with a trukish bath in connection.

The following stores will be installed: drug store, tailor shop, shoe shop and men's furnishing shop.

Each bedroom will be provided with a lavatory with hot and cold water. The building will have five high speed elevators with a capacity sufficient to empty the building with the elevators alone in 30 minutes. There will be four fire towers at each end of the building which can be entered only by going out into the open air from each floor and each floor will be provided with four smoke proof sections with self closing doors in each corridor. The building will be equipped with a vacuum cleaner system, cold water drinking fountains, and telephone communication with each room.

JUDGE BONNER REDUCES THE BOND OF MHOON

At a hearing Saturday morning of a habeas corpus proceedings in the case of the State of Texas vs. W. W. Mhoon, charged with pandering and who has been in the county jail for some time, Judge Bonner in the 30th district court reduced the accused's bond from $5,000 to $2,500.

THREAD RUBBER

How We Go At It

First we look into the battery to see if you put water in it.

Then we use the hydrometer which is the one *reliable* way of knowing the condition of its charge.

Then, if no special cause of trouble appears we put it on the line to see if it will take a charge.

But if there is plain indication of serious trouble we open the battery up and find out *exactly what's what.*

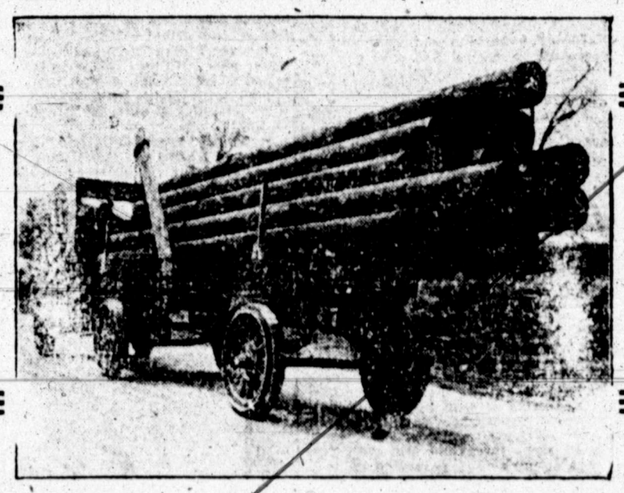

Don't trust your battery to amateurs or artists in guesswork, who claim they can tell inside condition by outside inspection.

Come here where you find adequate machines and apparatus to really inspect, charge and repair any battery.

MAXWELL IS NAMED SIDEWALK INSPECTOR TO ENFORCE THE LAW

Instructions were given Saturday by Mayor Marlow to Assistant Commissioner of Police Goodfellow to enforce the "sidewalk ordinance." Desk Sergeant Maxwell has been appointed sidewalk inspector by Mr. Goodfellow and will enter upon his new duties as soon as a man is employed as desk sergeant on the day police force.

The "sidewalk ordinance" forbids throwing or sweeping trash and refuse onto the sidewalks or into the gutters. It also prohibits expectorating on the sidewalk and the police are to make war upon the spitters.

"It is just as easy to keep the city clean as it is to make it dirty and unsanitary," said Mr. Goodfellow when he announced the mayor's orders. "We expect to see that the city ordinances are enforced and persons violating the 'sidewalk laws' will be haled into police court and fined.

Merchants and business men generally are expected to accept this notice in the press as a warning to them not to sweep trash onto the sidewalks, into the gutters or into the streets. Trash and refuse must be placed in the cans provided for the purpose."

Incidentally, Mr. Goodfellow said there was a marked improvement in the observance of the traffic laws and he wished to thank autoists generally for their co-operation.

COTTON GINNING PRICE FIXED IN OKLAHOMA BY CORPORATION COMMISSION

OKLAHOMA CITY, OKLA., Sept. 13.—Cotton ginning prices on "seed basis" were fixed today by a corporation commission order based on a hearing of farmers and ginners three weeks ago.

Prices are: 40 cents a hundred weight; 50 for "snap cotton;" 50 for bollies, and $2 a bale for bagging and ties.

Prices last year were 35 cents a hundred and $1.75 for bagging and ties.

MERCIER TO ATTEND ANNIVERSARY MASS

NEW YORK, Sept. 13.—Cardinal Mercier of Belgium, will be present at the anniversary mass which will be celebrated next Wednesday morning at St. Patrick's cathedral for the late Cardinal Farley, it was announced in a letter sent today by Archbishop Hayes to priests of the archbishop of New York.

ACQUITTED OF MURDER OF HERBERT G. WOODRUFF

OLATHE, KAN., July 13.—Emmett L. Thomas, Mrs. Blanche Brown and Mrs. Margaret Love, charged with the murder of Herbert G. Woodruff, were acquitted by a jury here at noon today. Six ballots were taken during the five and one half hours deliberation, the first showing 7 to 5 for acquittal, it was said.

Notice of Dissolution.

NTERESTING STORY OF WORK OF WICHITA MOTOR TRUCK IN ITS INVASION OF CENTRAL ASIA

This bit of business, romance of the Far East, is told in the current issue of the Firestone Magazine published by the Firestone Tire & Rubber Co., of Akron Ohio.

Should you ever happen to visit Tiensin, China, look around and you are likely to see the fleet of thirty Wichita motor trucks belonging to the Turkestan Agricultural Colonization Company. Once every month they come rolling into the old city laden with precious cargoes from their mountain terminus 2,000 miles away.

Make inquiry among the Orientals who drive these trucks across the great Gobi desert and through the wild Khingan mountains and they will direct you to T'Sing Mo, who can tell you how he used to cross the Gobi in the years before the Yankees sent over their devil-wagons.

Although he was only a young Mongol from North China, T'Sing had been made headman in the Turkestan Caravan, having charge of its 4,000 camels and 1,000 men—drivers, guards and "boys."

Once every year they made their way over the trackless wastes of the Gobi, traveling at night, guiding themselves by the stars like mariners. Daytimes they rested and fed their animals. Each camel carried a large pack of fodder and food for the men. The actual "pay load" for each camel was only 300 pounds. But to make up this lack of size, the bundles were of more than ordinary value.

In the late fall, after harvest, they left the uplands carrying the precious products in which the company trafficked; bales of wild tussah silk, jars of opium, fragarant dwarf tobacco in close wrapped bundles, peltries of black curl, astrakhan and rare rugs worth their weight in minted gold.

On their return, T'Sing Ho's caravan carried bales of cotton goods and and strange machinery from the lands of the foreign devils across the sea.

Every semi-annual trip across the Gobi partook of the nature of high adventure, for while T'Sing Ho's caravan was too strong and powerful to be molested by the roving bands of Tatar robbers who infested that trackless waste, still they often met up with smaller caravans that had been attacked and despoiled.

For that reason, T'Sing Ho always breathed easier when they reached the end of their eastward journey and could deliver their wares into the safe compound of the Turkestan company's warehouse.

A few months ago when T'Sing Ho arrived in Tientsin, the head clerk of the company explained that in the future camels and caravans might be used by others, but that the Turkestan company had bought devil wagons for their desert freighting.

"There they are," he said, pointing to the row of motor trucks. "They will go across the desert and up into the mountains in fifteen days. In a month they will be back."

T'Sing Ho was filled with wonder, but he hardly doubted the truth of what he heard; those foreign devils made such marvelous contrivances that anything seemed possible to them, no matter how unbelievable.

He approached one of the young Americans from the plant of the Wichita Truck Company who has accomplished this, the first motor train to invade Central Asia. The Yankee good-naturedly explained through an interpreter the workings of the devil-wagon.

"Like to take a ride?" he asked. When his invitation was translated to T'Sing Ho, he readily assented. The Yankee showed him how the controls were handled, working the clutch gear shifts several times. T'Sing Ho took it all in. After a short run he asked leave to try his hand at driving. The American smiled and exchanged places with the Oriental. Before long T'Sing Ho was able to drive the devil wagon alone.

"Better take this fellow on for truck line. He knows the route and he certainly can handle a truck as well as anybody if you give him a few days to get the hang of the thing," the Yankee told the compound clerk. The upshot of the affair was that T'Sing Ho was given a job of truck driving.

Where T'Sing Ho's camels, with their pay load of 300 pounds each, made twenty miles a day, the motor trucks with their trailers carry six tons per unity at close to fifteen miles an hour.

Naturally trucks engaged in such work must have the most dependable tires that can be obtained, which is the reason they are equipped throughout with Firestones. Far away from service stations, over roads that can better be imagined than described, these Firestone demountables are proving their worth.

Ask T'Sing Ho how he likes Firestone tires; his answer will be "Plen tee good T'Sing Ho tik um."

TIRE TALKS

By W. J. DAUGHERTY
Representing Fire Stone Tire & Rubber Company.

When tires are loaded beyond their normal carrying capacity, the fabric is more or less strained. Best "clinging" action is developed and heat is generated at the edges of the tread.

Oversize tires were primarily designed for exceptional and hard service, but have come into more general favor because of extra strength, easy riding, and longer mileage. The flexibility of larger tires reduces the traction slippage on the rear wheels and lessens vibration to the mechanism of the car. When oversize tires are placed on front wheels which were originally equipped with regular size tires, the diameter over-all will be increased about one inch, and the speedometer should be readjusted, otherwise the mileage recorded will be less than that actually covered.

Nor can any harm be derived from the adoption of the proper oversize tires. There is not enough added weight to affect transmission or differential or make any objectionable difference in the power.

The table given below is the result of accurate tests and shows the approximate carrying capacity of the various sizes of tires. These weights influenced, of course, by extra passengers, luggage, power, speed of and construction of the car as mentioned, but they may be taken standard and used safely for reference.

The application, care, and usage of tires are necessary things to consider, but it is essential to the best service that the correct size and type of tire be adapted in the first place.

construction, power, lateral and traction strains upon the tires must be kept in mind when determining the diameter and cross section of the equipment, but the weight of the tire is probably the most important factor. This can be found almost anywhere by running the front half of the car on platform scales, and nothing the weight. The weight carried on each tire will be one-half the total. This operation can be performed in the case of the rear wheels, and the same thing is true. The middle of the wheelbase will be the weight-dividing point between the front and the rear halves of the car. The approach to the scales should be level. If reasonable care is exercised, the total of the two operations, that is, the recorded weight of the front and rear parts of the machine, should be within 30 or 40 pounds of the weight on the car, when all of it is upon the scales.

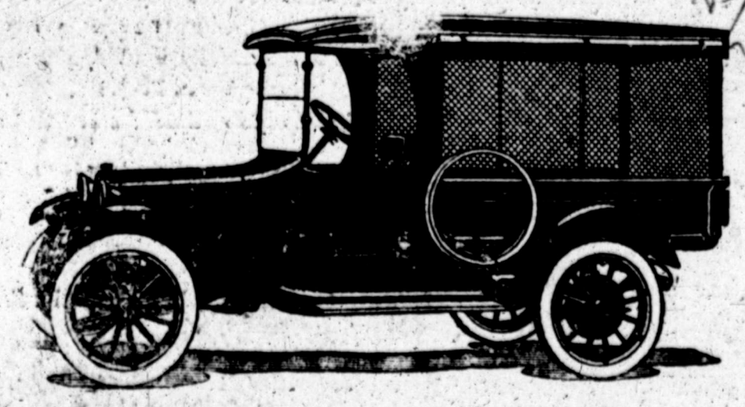

The weight and distribution of the car, power, speed, gear and other points are considered by the car engineers and car makers in determining the tire sizes necessary for equipment. It will be apprehended, however, that the treatment demanded by cars will vary on account of road conditions, drivers, and other reasons. Therefore, it is reasonable to expect some trouble from the tires on a small percentage of cars, though the equipment on the majority will prove satisfactory in every respect.

1920 Series Model "K"-44

Model K-Six-44
Buick Three-Passenger Roadster
THE BUICK Model K-Six-44 possesses marked advantages for the man or woman who wishes a car of limited passenger capacity, with an exceptionally roomy and comfortable driving compartment. This three-passenger model makes the most of these desirable features, without sacrificing one whit of the modish appearance that belongs to the type.
The body is distinctly a Buick creation, broadening out to accommodate a wide, deep seat for three, then curving in at the back to form a trim rear deck with a weatherproof carrying space for luggage.
The dimensions of the driving compartment insure easy entrance or exit from either side, with the control and brake levers well forward but within easy reach. The French pleated upholstery is built for long wear and comfort.
Inclined windshield, handsome improved top of high grade material, side curtains that swing open with the doors.

RETAIL FOOD PRICES SHOW AN INCREASE

Statement Is Made Following Collection of Figures by Departments.

REDUCTION IN PRICE PAID TO THE PRODUCER

Increase Is Especially Noticeable in the Price of Meat and Produce.

By RALPH F. COUCH
(United Press Staff Correspondent.)

WASHINGTON, Sept. 13.—Retail food prices went up during August and are still mounting despite the government campaign to reduce the cost of living, according to price figures collected by two government departments, covering practically every section of the country.

At the same time both wholesale prices and the prices paid to producers have dropped, the government reports indicate. In 15 principal cities, retail prices were boosted from one-fifth to eight cents per sales unit on ham, sirloin steak, butter, eggs, potatoes and pork chops, according to preliminary reports to the statistical bureau of the labor department for August.

Pay Farmer Less.

During the same month the level of prices paid producers and farmers decreased 3.4 per cent, according to an announcement made by the department.

Decreases in wholesale prices for August as compared with July are shown in reports to the bureau of markets, which found that:

Wholesale butter prices went down nearly three per cent in New York and one per cent in Chicago. Potatoes decreased 20 per cent in New York and three per cent on Chicago wholesale markets.

"Good steer loin," dressed cuts, decreased 4½c per pound in Boston, 3c in New York and nearly the same in Philadelphia.

Good steer loin is the trade name for the cut from which sirloin steak comes.

Retail Price Increases.

But the decrease of 3c per pound wholesale was not reflected in retail prices which, according to the labor department reports, showed an increase in the average prices charged by retailers there. The increase averaged slightly less than 1c per pound.

Increases far outnumbered decreases in retail prices for August, as compared with July, according to figures collected by the labor department.

Retail price figures of the department are averages based on prices charged by at least 25 dealers in each city canvassed. An increase of a fraction of a cent per sales unit thus may represent an increase of several cents on the part of many dealers. A comparison of averages computed by the labor department for some principal cities shows these increases for August:

Reports from Cities.

Birmingham—Ham 1-5c per pound; sirloin steak 4-5c; eggs 6 1-10c; potatoes 2-5c per pound.

Boston—Ham 1 1-0c per pound; sirloin steak 7-10c; butter 1 2-5c; eggs 1 1-0c; potatoes 2-5c per pound; pork chops 2c.

Atlanta—Ham 2 1-5c; butter 4-5c; eggs 8 4-5c; potatoes 6-10c per pound; pork chops 5c.

Chicago—Ham 1c; sirloin steak 8-10c; butter 3-10c; eggs 1 7-10c; potatoes 2-10c; pork chops 3c.

Milwaukee—Ham 1-10c; butter 2 4-10c; eggs 2 9-10c; potatoes 1-10c, pork chops 6-10c.

Los Angeles—Ham 4-10c; eggs 1 2-10c; pork chops 4c.

New Orleans—Ham 1 8-10c; butter 9-10c; eggs 4 3-10c; potatoes 5-10c.

New York—Butter 1 7-10c; eggs 2 1-10c.

St. Louis—Butter 1 4-10c; eggs 2 5-10c; potatoes 1-10c.

San Francisco—Eggs 5 8-10c.

Seattle—Ham 1 5-10c; butter 3 3-10c; eggs 5 6-10c; potatoes 2-10c.

GIANT

Today's Gigantic Opportunity
CONSIDER:

1.—Giant is an oil company of small capital and big holdings—a fair, square exploration project.
2.—Giant has 10,000 acres in the heart of the Texas Panhandle.
3.—Giant properties are right on the extended line of the northwest tendency of the Ranger and Burkburnett wonder pools.
4.—Giant is located close to the great Hapgood and Masterson group of gas wells yielding from six to thirty million cubic feet of wet gas daily.
5.—Giant will drill deep.

GAS AND GOLD.

Giant will drill deep for oil. If it gets oil a few shares of this stock will be worth a fortune. But even if it should fail to get oil, it is practically certain to get gas. The Panhandle gas is wet gas—wet with gasoline, so wet that when the gas roars out of the well it fairly drips gasoline and gasoline is liquid gold and there's an unlimited demand for it.

25c A SHARE.

You can buy as little as a dollar's worth and the limit to any one person is a thousand shares. It is a big chance. Single acres have made poor men independently rich. If we get oil, our 10,000 acres are enough to make 10,000 men rich. It is 25c now. Don't delay. Wire your reservation. Send your check or money order today.

TIMES DAILY MARKETS

New York Stocks, Grain and Provisions, Cotton and Livestock.

COTTON MARKET.

New York Cotton

NEW YORK, Sept. 13.—There was considerable Southern selling at the opening of the cotton market today. First prices were three points lower to seven points higher and active months sold 10 to 15 points below last night's closing figures during the first few minutes with December touching 28.67. Except for the Southern selling there was very little pressure, however, and as soon as the early order had been executed prices firmed up on covering for over the week-end. Early advices indicated little change in the storm threat and the census report showing domestic mill consumption of 502,536 bales for August against 534,971 last year was fully up to expectations.

Nervousness over the storm situation was increased by reports that hurricane warnings had been issued for Houston tonight and December contracts sold up to 29.10, or 22 points net higher. Later fluctuations were irregular under realizing with the market closing steady at a net decline of five to 15 points or about 30 points off from the best.

Cotton closed steady.

New Orleans Cotton

NEW ORLEANS, Sept. 13.—With the hurricane still threatening the belt the price of cotton was limited six to 25 points around the first call today but values were not well-sustained. Immediately after the call offerings increased, coming mainly from the short side and at the end of the first half hour of business the more active months were three points under yesterday's close.

Around the middle of the session the report from the local weather bureau that the storm was moving into Louisiana west of the mouth of the Mississippi river put the market to a net advance of 20 to 26 points but realizing sales by longs set in and toward the close there was another sag which carried prices down to a level only five points over yesterday's close.

Cotton closed steady 12 points down to four points up net.

GRAIN AND PRODUCE.

Chicago Grain

CHICAGO, Sep. 1.—Lowest prices yet for the 1919 crop were reached today in the corn market. There was no support in sight except from profit taking shorts. Declines were attributed to readjustment from a war to a peace basis and from an old to a new crop basis. Opening prices, which ranged from 7 cents off to ⅛ cents advance with September $1.28 to $1.41 and December $1.22 to $1.23, were followed by a slight rally but then by a new downturn.

Oats were easier than corn. After opening unchanged to ⅝ cent lower with December 62⅛ to 62¼ cents, the market continued to sag.

Provisions reflected the weakness of grain. Selling however, was not aggressive.

The fact that the market was still far above a pre-war level hindered an important rally. September delivery led the decline, but most of the trade was in December and May, neither of which month dropped more than usual for a single day. Prices closed heavy 2⅝ to 10 cents net lower, with September $1.35@1.35⅛ and December $1.19⅝ to $1.19⅝.

Some reductions took place, but mostly failed to last.

Kansas City Cash Grain

KANSAS CITY, Sept. 13.—Cash wheat; unchanged to five cents higher. No. 1 hard $2.20; No. 2 $2.18@2.25; No. 1 red $2.19; No. 2 $2.16.

Corn 6 to 7 cents lower. No. 2 mixed 1.09@1.41; No. 2 white $1.41@1.42; No. 2 yellow $1.41.

Oats: 2 to 3 cents lower. No. 2 white 67@68; No. 2 mixed 62@63; No. 2 red 62@64.

Chicago Produce

CHICAGO, Sept. 13.—Butter unsettled; creamery 47@55.

Eggs higher; receipts 8,143 cases; firsts 44½@45½; ordinary firsts 39@40½; at mark, cases included, 39@40½; storage packed firsts 40@40½.

Poultry alive lower; springs 25 cents; fowls 34@29.

LIVESTOCK.

Fort Worth Livestock

FORT WORTH, Sept. 13.—Cattle receipts 800; steady; beeves $8@11; steady; stockers $8@10; cows $6.50@9.50; heifers $7@11; bulls $4@8.50; calves $8@12.50.

Hogs, receipts 3,100; market steady. Heavy $17.40@17.50; medium $17.20@17.40; lights $17.30@17.40; mixed $16.50@17.10; common $16.00@16.50; pigs $9.00@16.00.

Sheep, receipts 300; market steady. Lambs $12@13; yearlings $9@10; wethers $8.50@9.50; ewes $8@9; culls $4.50@6.50; goats $4.25@7.25.

Kansas City Livestock

KANSAS CITY, Sept. 13.—Hogs, receipts 500; steady; bulk $16@16.75; heavies $15.50@16.50; mediums $16@16.75; lights $15@16.75; pigs $12.50@16.

Cattle receipts 1,250 for week; mostly lower. Calves higher.

Sheep receipts 6,000; for week; steady to 50 cents higher.

NEW YORK STOCKS.

NEW YORK, Sept. 13.—Stocks recorded highest quotations of the week during today's brief session, the market reflecting the favorable turn in the labor situation. Equipments and oils were most active at advances of 2 to almost 10 points, but steels, motors, shippings and tobaccos were not far behind. Textiles, leathers, coppers and food shares participated more moderately with various miscellaneous issues. Rails were backward at the outset but developed marked strength in the later dealings, especially trans-continental and several minor issues, notably Wheeling and Lake Erie. The closing was strong. Sales approximated 475,000 shares.

Final prices on liberty bonds today were: 3½s 99.98; firs 4s 94.80; second 4s 93.18; first 4¼s 95.00; second 4¼s 93.20; third 4¼s 95.24; fourth 4¼s 93.50; victory 3¾s 99.76; victory 4¾s 99.76.

Market Review

New York Stocks

NEW YORK, Sept. 13.—Increasing uncertainties in the labor situation and the mid-week recess combined to curtail operations in the stock market but price tendencies were firmer and in several noteworthy instances materially higher.

United States Steel was the outstanding exception in the active list, reflecting the tense conditions created by the controversy with the organized steel workrs but affiliated shares displayed a firm to strong tone.

A large proportion of the trading centered in equipments and oils, the former scoring substantial advance on reports indicating the early placing of large contracts for railroad supplies while the latter owed their strength to good earnings and increased use of raw and refined products.

Rails were dull to the point of stagnation.

Foreign exchange assumes a more critical aspect from the further collapse of rates to former enemy countries, especially Germany.

Call loans hardened on the withdrawal of funds by interior institutions but supply of time money increased slightly at six per cent although offerings were limited to the shorter maturities.

Grain and Provisions

CHICAGO, Sept. 13.—Unexpected enlargement of the government estimate of the 1919 domestic yield of corn had an unusually bearish effect on corn this week and so, too, did the steel workers strike ultimatum. Compared with a week ago, corn prices this morning showed a fall of 5¾ cents to 17 cents, oats were down 2¼ cents to 2⅝ cents, and provisions off 15 cents to $4.05.

Both the government crop estimate and the steel workers ultimatum took the corn trade by surprise. Industrial unrest later became the dominating factor, with attention first centered on chances of a nation-wide strike of stockyard and packinghouse employes.

Oats sympathized with the weakness of corn notwithstanding that the government crop report as to oats favored the bulls.

Talk of export business with Germany failed to uphold provisions in the face of downturns in the price of hogs and grain.

Oil men will find at the National Bank of Commerce banking service, accommodation and co-operation especially adapted to their individual needs. The officers of the bank welcome consultations with those who expect to establish new or additional banking connections.

Mr. and Mrs. W. F. Turner and family have returned from Col., where they spent the summer.

CONTINUE THE FIGHT FOR APPOINTMENT OF TERMINAL MANAGER

CHARGE HEADS OF RAILROAD ADMINISTRATION WITH BLOCKING EFFORT

COMMITTEE WAS SUGGESTED

Plan of Further Campaign Has Not Been Decided Upon by Local Interests.

Fight for the appointment of a terminal manager to have authority over all the railroads entering Wichita Falls will not be abandoned, although the heads of the railroad administration, thanks to the early information of the intentions of local shippers, have blocked the effort through the suggestion of the appointment of an "advisory" committee composed of one representative each of the refiners, producers and industrial interests, according to the opinion expressed Saturday by a local shipper who is in close touch with the Wichita Falls traffic situation.

"Instead of showing an appreciation of the courtesy shown by local interests in informing them in advance of the requests they intended making to the higher authorities of the railroad administration, the officials of one road improved the interval between their conference and the time when officials of another road could be seen, by rushing adverse reports and recommendations to the higher officials of the administration before the requests of the local interests could be forwarded, thus putting them in a position to request in the name of the railroad administration that instead of a terminal manager this 'advisory' committee should be appointed," said this individual in connection with this affair.

Just what form the renewed fight would take was not stated, but it is thought that the influence of members of the Texas delegation in congress with the railroad administration will be asked in support of this request.

The value of a committee or individual whose capacity would be only an advisory one, is seriously discounted by the individual above referred to. "Through numerous conferences which have been held by local shippers with officials of the railroads over the freight situation here, it has been seen just how much a case of advising certain things amounts to. What we need is an official whose conclusions of local needs can be backed up by the weight of an ample authority.

"The railroad people have on all occasions declared that they are doing all that they can to help the situation, and it is true that there have been considerable improvements and additions made. This, however, will do little good unless we have some one here to see that the maximum value is derived from these improvements. An instance of what we wish to avoid is the freight for the Wichita Mill and Elevator Co., the Wichita Builders Supply Co. and other concerns whose plants and yards are located in the extreme southern edge of the city on the team tracks across the Wichita River north of town, necessitating several mile haul clear across town, as has frequently been the case in the past. An official with competent authority could prevent instances of this kind.

"No complaint can be made of the way local shippers are taking care of their freight at this point, for an average of 100 cars of stuff per day is being unloaded here, an amount at least equal to what is being brought into this point by the railroad companies."

In the meantime, the chamber of commerce is in receipt of a message from S. A. Covington, acting general superintendent of the Denver and Valley lines, that he will meet with the local committee early in this week.

COLORED JUBILEE SINGERS AT THE WICHITA THEATER

As the big feature in the $2,000 drive now under way for Titus Chapel colored, M. E. Church, a mass meeting will be held at the Wichita Theatre this afternoon at 3 o'clock. The following program will be rendered:

Opening song, America—Congregation.

Invocation—Visiting Minister.

Choral Classic, "O Hail Us Ye Free"—Jubilee Singers.

Remarks by the Campaign Manager.

Plantation Melodies (a) "I Want to Be Ready." (b) "You Better Mind." (c) "Going to Roll the Old Ship Along"—Jubilee Singers.

Remarks by representatives of organizations and fraternities.

Choral Classic, Italia—Jubilee Singers.

Remarks by pastor.

Melodies (a) "Swing Low Sweet Chariot." (b) "Couldn't Hear Nobody Pray." (c) "John Brown's Body."

Address: "The Blind Man at Your Elbow"—Secretary Stout.

Offering: More melodies and benediction.

STATE AGRICULTURAL DEPARTMENT ISSUES A MONTHLY MARKET PAPER

AUSTIN, TEX., Sept. 13.—The first issue of the market journal of the Texas Department of Agriculture is out today. This publication will be devoted to market conditions of the state, and subscription is free. The journal also has a department listing free farm products and livestock for sale or wanted. It is to be issued about the middle of each month.

HULEN IS RECEIVER FOR TRINITY & BRAZOS VALLEY

FORT WORTH, TEX., Sept. 13.—General John A. Hulen of Houston was appointed receiver for the Trinity & Brazos Valley railroad this morning, succeeding L. H. Atwell of Houston, resigned.

PLAN TO ORGANIZE COUNTRY CLUB NEAR LIMITS OF THE CITY

Plans for the organization of a country club with exceptionally fine golf links, tennis courts, a beautiful club house and other features well worth while, culminated yesterday in the announcement that a transaction for the purchase of 190 acres three miles south of the city would be closed immediately.

Architects are at work drawing plans for the club house, which will cost in the neighborhood of $75,000 and which will have, among other features, a 90-foot ball room, showers, dining rooms and reading room.

A company with a capital stock of $200,000 will be organized and a charter applied for from the secretary of state. The men back of the project requested yesterday that their names be withheld until their plans are complete and the land has been purchased.

Plans call for an 18-hole golf course unequalled in the State, it was said. There are many golf enthusiasts in the city and it is expected that the majority of them will be invited to join the club.

One of the leading landscape architects in the State will be brought here to plan and arrange the grounds and the golf course. The property to be purchased is situated on one of the best highways in the county, it was said, and arrangements will be made to care for the parking of automobils at the club grounds.

It is expected that the club will start with a membership of approximately 100 of the leading business and professional men in the city.

Oil men will find at the National Bank of Commerce banking service, accommodation and co-operation especially adapted to their individual needs. The officers of the bank welcome consultations with those who expect to establish new or additional banking connections.

Mrs. Fielding one of the foremost expression teachers of the south is to open a studio here. Every branch of the work taught. Attain the poise and grace of the best society. Only a limited number of pupils. All lessons private. Enroll now for Fall term Phone 362. 101-61

A characteristic feature of the service of the National Bank of Commerce is the fact that its officers, always readily accessible, are glad to give customers the benefit of their experience in financial, business and investment matters.
