

On The BEAM

J. W. KING, SR.

We should not let the interest in the Loraine Improvement Program wane even a little bit although just about everyone is very busy right at this time. We can't afford to let up. A little has been done and other things are about ready to be started.

If you have not yet joined the organization to improve Loraine, do so now. There ought to be four or five hundred people in the Loraine territory who are interested in the improvement of their home town enough to invest \$5 in it.

People can also show their interest in their home town by spending every penny possible at home. Yes, of course, your money is yours and you can spend it where "you jolly well please," if you want to lost your school and every other institution that helps to keep the community together and the price of your property up.

Some cotton and feed is up and growing in the area but the majority of the crops are just now being planted. The ground has been too wet in many places for planting, but most of it has dried out enough now to permit putting the seed in the ground.

Kenneth Ray Johnson Returns Home After 10 Months in Vietnam

Kenneth Ray (Sonny) Johnson arrived at McCord AFB, Washington, at 8:30 a. m. last Thursday, where after hours of processing, he received his discharge from the Army and left Seattle for home about 8:30 a. m. Friday, twenty-four hours after his arrival there. On arriving in Dallas, he called his parents, Dr. and Mrs. B. H. Johnson and they met him in Abilene for a reunion after his 10 months in Vietnam.

Later they left Dak To and went back to Plei Ku. There he assisted a dentist when they carried an air mobile clinic to Ban Me Thout. He was there until the last of March before returning to their base camp, he he was given a 7-day R&R leave to Sidney, Australia. On returning, he received his orders for the return home.

AUSTIN — Filibusters began to slow the tide of legislation passed by the Senate as the June 2 adjournment deadline closed in. However, bills continued to roll through both houses in staggering volume on the local and uncontested bills calendars.

A minimum-wage proposal landed in conference committee. Budget conferees brought out a one-year appropriations bill without knowing whether Gov. Preston Smith will veto it.

While bills to create a University of Texas at San Antonio, a UT of Permian Basin in the Midland-Odessa area and a University of South Texas at Corpus Christi ran into senate filibusters, other new school measures went to the governor. Among them were UT at Dallas, medical schools at Houston and Lubbock, and a future site left to UT regents, a UT dental branch (probably in San Antonio) and nursing schools at San Antonio and El Paso.

An amended version of the implied consent bill to require breath tests of suspected drunk drivers found its way to the governor's desk. UT regents were given authority to curtail enrollments. A proposed new constitutional amendment (SJR 15) would allow the legislature to establish a uniform method of assessment of ranch, farm and forest lands.

CLUB RULES FIRMED — Liquor Control Board announced its final version of new rules to clamp down on private bottle clubs, effective September 1.

Club "guests" cannot pay cash or share in club services unless in the company of a member or present on his personal invitation. Clubs also would have to maintain written records showing when members were admitted or removed, have a membership committee or governing board to pass on memberships and operate with at least 25 members.

Mrs. Irene McKinley and Letha Nell Roberts of Big Spring visited Mr. and Mrs. Joe Bennett and other relatives Monday.

Guests of Rev. and Mrs. Copeland Monday were Mrs. O. D. McDonald and Mrs. Birdie Vermillion of Colorado City.

Other new rules include keeping permanent records of all transactions involving the pool system or maintaining separate storage lockers for each member if operating under the locker system, filing quarterly reports to Texas LCB on pool transactions and requirement that regular food service be provided.

THE EYES HAVE IT — A battle that has raged for almost 20 years between the chain store and independent optometrists has been tentatively resolved by the final passage of a "compromise" bill worked out by Sens. Jack Strong and Tom Creighton. Bill sent to the governor spells out a stiff code of ethics and advertising for the industry -- something the non-advertising operators have wanted for years.

Big feature provides that there will be no more "one price" ads.

In the future, ads will have to carry the lowest and highest prices of lenses in stock.

On another health front, the legislature has sent to the governor a bill to license and regulate the hearing aid industry. It was passed with the full approval of the industry which worked closely with the lawmakers on perfecting the bill.

AG OPINIONS — Texans not registered as voters cannot serve as school district trustees, Atty. Gen. Crawford Martin ruled in a new opinion requested for Honey Grove (Fannin County) schools.

In other recent opinions, Martin concluded that:

A legislator can run for office where pay was increased by legislative session when he was a lawmaker if the term doesn't overlap.

Employment of adult probation officers is not subject to county commissioners' court approval.

A school board of trustees does not have the authority to suspend a student for any act, such as possession or use of dangerous drugs, unless the board has adopted a rule, regulation or general policy covering such conduct or unless the act violated state statutes covering "incorrigible conduct."

National Guard Armory Board may act independent of the State Building Commission on development of armory construction and related projects and awarding of bids.

A state department head may decide whether to allow payroll deductions of state employees' contributions for group insurance premiums.

Industrial Accident Board cannot award an attorney a fee for fatal injury cases but can allow reasonable expenses for preparing and presentation of claim.

VOCATIONAL EDUCATION — State Advisory Council for Vocational Education has unveiled its new master plan for new directions in educating students for industry. The three-part program calls for spending the state's \$16 million federal allocation for vocational education. A formal public hearing on the plan will be held June 7 at the regular meeting of the State Board of Education.

What will the new plan do for the students? John Guemple, assistant commissioner for vocational and adult education, explained it this way:

"The state plan puts new strength in the standards of the vocational and adult programs, sets up special advanced courses for highly skilled craftsmen in junior colleges and James Connally Technical Institute in Waco, and even affects the preparation of teachers themselves."

Texas operated more than 8,300 programs in vocational education during the 1968-69 school year. This will increase to 8,700 programs in September of this year.

APPOINTMENTS — Governor Smith has named three former

governors as co-chairmen of a committee to lead the campaign for the \$3.5 billion Texas water bond constitutional amendment. Ex-Govs. John Connally, Price Daniel and Allan Shivers will head drive.

Smith appointed former Sen. Wardlow W. Lane of Center Judge of the 123rd district to fill an unexpired term.

Retired Supreme Court Judge Meade Griffin was sworn in as special judge of Court of Criminal Appeals. He will sit in for Judge Leon Douglas on cases where Douglas disqualifies himself.

David W. McElwraith of Combes is executive director of Agricultural Stabilization and Conservation Service in Texas.

A. F. (Tony) Rodriguez of San Antonio has been nominated as commissioner-director of the U. S. Section of U. S.-Mexico Commission of Border Development and Friendship.

Sen. O. H. (Ike) Harris of Dallas now is a member of Urban Affairs Study Committee of Southern Conference of Council of State Governments.

Jose Vela of Waco and Fernin Islas of San Marcos now are members of the staff of the Texas Office of Economic Opportunity, selected by Governor Smith.

S. R. Greenwood, a Temple banker, has been named by Governor Smith to be chairman of the Governor's Committee on Aging.

Charles H. Martin, superintendent of the Richmond State School, has been named deputy commissioner for retardation of the Texas Department of Mental Health and Mental Retardation.

SHORT SNORTS

State Supreme Court invalidated a \$557,198 contract for improvement of the San Antonio water system because a member of the city electrical examining and supervising board was president of the company which entered the successful bid.

House Speaker Gus Mutscher erased any doubt as to his immediate political plans by announcing for re-election as speaker in 1971, and hinting he

Think. Of the future, of yourself, of U.S. Savings Bonds.

They can make quite a team.

And you're the captain. You call the shots: a new house, that dream vacation, your son's schooling, or just a sweeter retirement.

Bonds will work for you, too. Work hard.

The current interest rate on Bonds is 4 1/4%. They mature in just seven years. And a Bond bought today will automatically continue to earn interest for ten years

after maturity. Think how you could use that money in

seventeen years.

It's easy to put together your own Bond team. Sign up for the Payroll Savings Plan where you work. Or Bond-A-Month Plan where you bank.

With team work like that, you've got to be the winner. And your country is the winner, too.

That's something else to think about.
