Full Integration Ordered at U of T

Calls Fan Report of Invasion

MIAMI (UPI) — An American mystery man broadcast a series of Spanish code ciphers on a powerful short wave station beamed at Cuba Saturday, fanning unconfirmed reports of impending new exile attacks against the island.

Havana Radio made no comment on a Washington newspaper (Star) story Friday that two exile groups staged landings in Cuba Friday.

But radio monitors here noted an apparent attempt by Havana to interfere with the mystery code broadcast.

The American, who has been heard many times before, reads a series of four-digit numerals in Spanish. His 30-minute transmission Saturday drew attention because it was preceded for the first time by the playing of the popular Cuban song, "Siboney," and also by the fact that the broadcast was on a new short wave frequency.

There has been no clue to the American's identity, the place his broadcasts originate or the reason they are made. But Cuban monitors judge that "his Spanish indicates he lived in Cuba."

Regardless, he speaks Spanish with a decided American accent, and possibly was one of the many Americans who lived in Cuba before Premier Fidel Castro came to power.

Reports that seemed to originate in New York swept in to Miami that Eloy Gutierrez Menoyo, one time Castro ally against Batista, has landed in Cuba to spearhead landings by four more refugee groups.

Menoyo is leader of the Second Escambray Front Organization, which in turn is affiliated with Alpha 66, the People's Revolutionary Movement (MRP) and the Exile Students' Federation.

Negro Student 'Happy, Surprised' At UofT Decision

AUSTIN (UPI) — One of the three Negro students who three years ago filed suit to integrate university housing said Saturday she was "glad and surprised" over the board of regents ruling barring segregation in school facilities.

"I'm very glad and very surprised," said Sherryl Onzell Griffin, a senior English major from Houston. She is the only one of the three Negroes who filed the suit still attending the University.

Action of Regents Effective at Once

AUSTIN (UPI) — The University of Texas Board of Regents Saturday ordered complete integration of the entire university system, effective immediately.

The regents struck from the university regulations two sections which prohibited integration of housing and dining halls. All other areas of university life had been desegregated previously.

A new section was added to the rules which states that "neither the University of Texas nor any of its component institutions shall discriminate either in favor of or against any person on account of his or her race, creed or color."

Enrollment About 30,000

The total enrollment of the entire university system is about 30,000. No records are kept to indicate how many of these are Negroes, but it is estimated that there are about 150 Negroes among the 22,000 students at the Main University and Negroes have attended all other university divisions.

Saturday's action makes Texas the first university in the state to integrate all its facilities and activities.

Student anti-segregation demonstrations had been threatened May 30 when President Johnson visits the campus to receive an honorary degree and deliver the commencement address, but Regents Chairman W. W. Heath of Austin said Johnson's visit had nothing to do with the board's action.

For several years, students have frequently and vigorously protested the segregation of dormitories. Last December, before Lynda Bird Johnson transferred away from the university, about 30 white and Negro students picketed her dormitory protesting its segregation.

Few Immediate Changes

Although the rules changes take effect immediately, they will result in few changes until next fall, because the regents had previously ordered integration of most summer school facilities.

Regent Walter P. Brenan of San Antonio voted against the new integration policy. Regents A. G. McNeese Jr. of Houston

(See INTEGRATION, Page 3)

Strategy Meet Set On Rights Measure

WASHINGTON (UPI) — The Senate plodded peevishly through the 57th day of debate on the House-passed civil rights bill Saturday as key leaders arranged three major strategy meetings next week.

Senate Majority Leader Mike Mansfield, Mont., called a Democratic conference for Tuesday and GOP Leader Everett M. Dirksen, Ill., scheduled a Republican session on the same day to discuss a compromise package of amendments worked out by both parties this week.

Sen. Richard B. Russell, D-Ga., leader of the Southern bloc, indicated that he and his lieutenants would skip the Democratic meeting and instead hold one of their own either Monday or Tuesday.

Discuss Compromise Package

The party sessions were arranged to permit discussion of the compromise package and also to test sentiment on the issue of imposing cloture — the gag rule—to halt the lengthy talkathon and force voting on the measure.

There were more signs of illtemper. A major blowup occurred Thursday when Mansfield and Sen. Clifford Case, R-N.J., waged a shouting match over the latter's move to direct the rules committee to expand its investigation of the Bobby Baker case.

A resolution by Case was voted down but both he and Sen. Hugh Scott, R-Pa., warned that the parliamentary setto might cost votes on the civil rights cloture showdown. Both Case and Scott said, however, that they still favored the civil rights bill and were inclined to vote for cutting off debate.

Denounces Reports

Saturday Russell angrily took the floor to denounce what he said were unfair newspaper reports that he had gone back on

TOP BAND AWARD WINNER — Miss Lamoyne Clark, Pampa High school senior and member of the Harvester Band, is shown as she smiled acceptance of the John Phillip Sousa Award at Friday night's annual band award banquet in Coronado Inn. Presenting the award to Miss Clark is Fred Stockdale, director of the prize-winning band.

PHS Clarinetist Wins Phillip Sousa Award

Lamoyne Clark, clarinetist with the Pampa High School band, was presented with the John Phillip Sousa Award, top honor at the Harvester Band Annual Awards Banquet Friday night in the Starlight Room of Coronado Inn.

Miss Clark, a graduating senior, is the daughter of Mr. and Mrs. Arthur Clark, 1121 Neel Rd.

Approximately 300 persons, including band members, parents and guests, attended the banquet at which the 104 band members were introduced individually by Fred Stockdale, director.

Stockdale presented awards to various solo and ensemble winners at band contests held this year at West Texas State in Canyon and the Tri - State Music Festival in Enid, Okla., where the Pampa band carried off top honors in several divisions.

Stockdale announced that the Harvester Band has been chosen outstanding Division One Band in Region 6 and as a result will again compete in the Tri-State Festival at Enid next year.

Announcement also was made that Doug Skagg had been selected as drum major for the 1964-65 school year.

A special award was presented to M. K. Brown, Pampa philanthropist and pioneer. Mr. Brown was made an honorary drum major when he was given a regulation shako headdress.

Other special awards then were presented to Gary Laramore, drum major; Band Director Stockdale, E. L. Henderson, president of the Band Boosters Club and Warren Hasse, emcee for the Harvester Stage Band.

A special award was given to Stockdale from members of the band. It was presented by Janna Conner.

Recognition gifts also went to three other band directors, Joe DiCosimo, Robert E. Lee Junior High; Homer Krueger, Pampa Junior High, and Charles Meech, elementary schools.

School administrators, members of the school board, foreign exchange students and other special guests including Arnold K. Brown of London, England, a nephew of M. K. Brown, were introduced.

Four of the 10 M. K. Brown Scholarships were awarded to band members. They were Lamoyne Clark, Helen Moffitt, David White and Janna Conner.

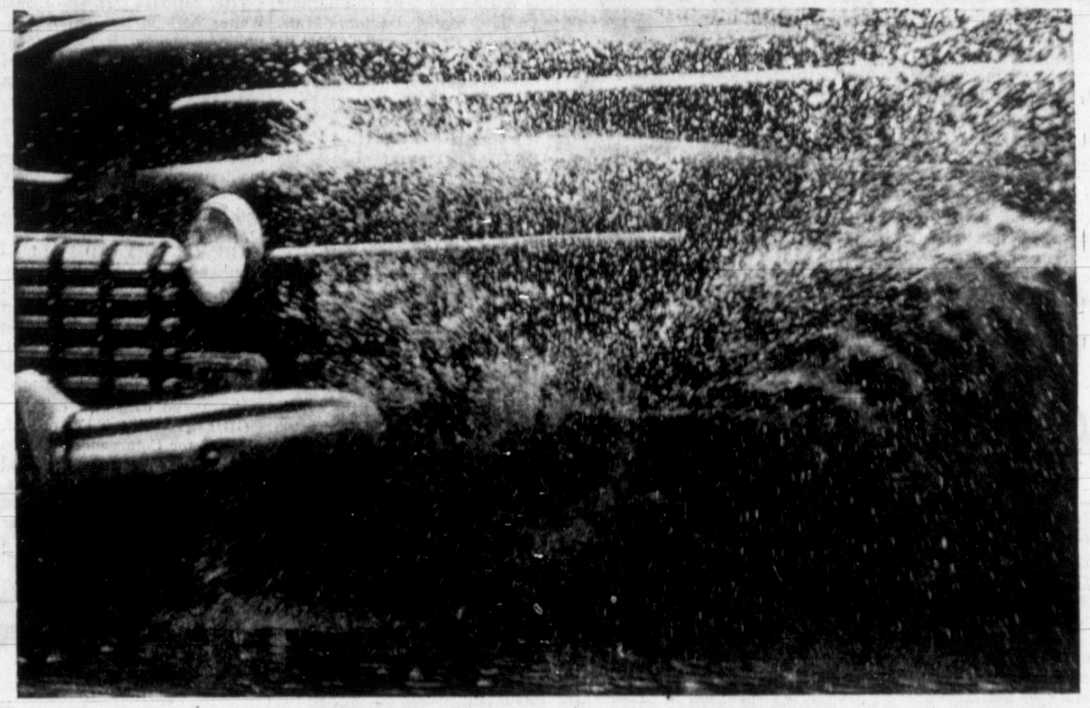

Martha Petillo, valedictorian of the 1964 graduating class, also is a member of the band.

Band Club President Henderson presided at the awards banquet.

Dinner music was played by Jo Claire Wilkerson at the organ and entertainment was furnished by a mixed octet from Robert E. Lee school under the direction of Mrs. C. L. Cross. Octet members were Charles Brauchle, David Harris, Terry Trice, Fred Barber, Vickie Autry, Marilyn Milliron, Jeanne Sheppard and Shirley Barter.

The invocation was given by the Rev. Donald Hauck, pastor of First Presbyterian Church.

Following the banquet band members danced to music of the Coronados.

—Daily News Staff Photo

RARE SIGHT — This unsual rain picture was prompted when the clouds burst loose over Pampa Friday afternoon and washed dust off the city's cars and srteets. The thunderstorm, expected for two days, brought nearly an inch of rain to Pampa.

And the Rain Came

Downpour Brings Brief Respite

Pampans got wet Friday, but not a grumbling voice was heard.

The city enjoyed the largest rainfall in the area since early April, when a thunderstorm dumped .78 of an inch of moisture on downtown Pampa.

The heaviest rain, accompanied by pea-size hail, fell between 6 and 6:45 p.m. then slacked off to a steady drizzle until about 7:15 p.m.

The same thunderstorm that brightened Pampa's spirit caused an estimated $10,000 in Borger. The Holt Food Store had a 15 by 30-foot hole knocked in the roof when high winds knocked over a sign. Twenty-five customers in the store all escaped injury.

Pampa authorities said they received no reports of any wind or hail damage.

This was the first recordable moisture within the city since April 5 when rain and hail dumped .42 of an inch.

County agricultural agent Foster Whaley said "as far as the wheat is concerned the rain was too little and too late, however it will be of some value to help the wheat fill and of tremendous value to the grasslands."

Light showers fell over most of the Panhandle area Friday night including .03 at Amarillo to .25 at Panhandle.

Borger recorded only .20 of an inch from the same thunderstorm while Perryton caught only .02.

In most of the northern part of the Panhandle the rain was accompanied by winds gusting up to 50-60 mph. Other than that in Borger, no damage was reported.

The forecast for Pampa and vicinity calls for scattered showers to begin early this morning and continue through the day with winds averaging 10 mph gusting to 30-40 by late afternoon.

Showdown Looms on US Viet Nam Policy

WASHINGTON (UPI)—A major political showdown over U.S. policy in South Viet Nam loomed Saturday as President Johnson met again with his top aides to map a bold new effort to win the anti-Communist war.

For the third time in three days, the President called Defense Secretary Robert S. McNamara and Secretary of State Dean Rusk to the White House to discuss expanded economic and military assistance for the embattled Saigon regime. Gen. Maxwell D. Taylor, chairman of the Joint Chiefs of Staff, also took part.

The White House said no final figure was decided for the money request that Johnson will send to Congress next Wednesday. The United States already has committed 16,000 fighting men and $550 million a year in aid to help Viet Nam prevent a Communist takeover.

Johnson also faced a critical test of his Viet Nam policy next week in two scheduled House hearings. With foreign policy—and Viet Nam in particular—emerging as a prime GOP election - year target, McNamara prepared to testify about a U.S. backed guerrilla war that is plainly worse than it was a year ago.

Behind Closed Doors

The defense secretary will appear Wednesday before a closed-door session of the House Armed Services Committee to answer charges that faulty planes and equipment have caused the needless death of Americans in Viet Nam. But the hearings may well turn into a full-scale review of the war, about which McNamara himself has expressed little optimism.

On Tuesday, the House Foreign Affairs Committee resumes hearings on Johnson's $3.4 billion foreign aid budget request which includes $1 billion for direct military arms aid to Viet Nam and other world trouble spots.

Rep. William S. Broomfield, Mich., a GOP foreign policy spokesman and member of the committee, told United Press International that Johnson's forthcoming plan for Viet Nam will be "a real test whether the administration wants a bipartisan foreign policy."

Faith Lost In Free Men, Says Ryker

The nation is heading into socialism because the average American has lost faith in the capacity of free men and believes only that government can do the job, Capt. Kenneth Ryker, executive director of the Fort Worth Freedom Center, told a luncheon audience in Coronado Inn Saturday.

"But I believe when the people learn through direct experience what is happening to them," Ryker said, "they have the intelligence to do something about it."

Ryker, whose appearance here was sponsored by Pampa Freedom Fighters, stated that education is the only answer if America is to avoid complete socialism and communism.

To that end, he said, a conference of Freedom leaders is to be held in Fort Worth during the week end of June 5-6

(See RYKER, Page 3)

Rocky's Oregon Win Shakes GOP Ranks

PORTLAND, Ore. (UPI) — Gov. Nelson A. Rockefeller shook up the Republican party Saturday by his victory in Oregon and left the GOP wondering how the June 2 primary in California would affect its search for a 1964 presidential nominee.

By winning Friday's Republican presidential primary in Oregon, the New Yorker shortened the odds against him in California where he is matched in a two-man race with Sen. Barry Goldwater of Arizona. He also checked and perhaps reversed the drive to nominate Ambassador Henry Cabot Lodge for the presidency.

If Rockefeller can come from behind in California as he did in Oregon, he may throw the Republican National Convention into a wide open affair so that a compromise candidate may be chosen in a smoke filled room.

Goldwater, who already has about 300 of the 655 national convention delegates needed to win the nomination, could come close to wrapping it up by winning California's 86 votes.

Deadlock Possible

Rockefeller could not sew up the nomination by winning in California but he could wreck the Goldwater campaign and increase the likelihood of a convention deadlock and of the search for a compromise candidate.

His Oregon victory was in part a payoff for his intensive campaigning up to the eve of the primary. Goldwater wrote off the state and stayed out of it during the last five weeks of the campaign. The four other candidates were represented by stand-ins or by no organization at all.

At a New York news conference Saturday, Rockefeller called his victory a triumph for "forward looking, responsible Republicanism." He said the meaning of the Oregon primary "can't be missed" in California and that he doubted that Goldwater was encouraged.

Nixon Fourth

The order of finish was Rockefeller, Lodge, Goldwater, former Vice President Richard M. Nixon, Sen. Margaret Chase Smith and Gov. William W. Scranton. Only Rockefeller, Goldwater and Mrs. Smith are declared candidates.

Results from 2,893 of the state's 3,251 precincts gave: Rockefeller 79,505, Lodge 65,654, Goldwater 43,037, Nixon 40,469, Mrs. Smith 7,035 and Scranton 4,522.

President Johnson, the only name on the ballot in the Democratic presidential primary, received 201,355 votes. Gov. C. Wallace, segregationist foe of the Johnson administration, polled 926 write-in votes.

In percentages, the Republican presidential vote gave Rockefeller 33.2 per cent, Lodge 27.3, Goldwater 17.9, Nixon 16.8, Mrs. Smith 2.9 and Scranton 1.9.

George Bush Due At Breakfast Talk

George Bush, GOP candidate for U. S. senator from Texas, will be in Pampa for an informal breakfast tomorrow at Coronado Inn.

The come-and-go buffet style breakfast will be open to the public from 8 a.m. to 9:30 a.m., according to Warren Fatheree, regional campaign manager for Bush.

The candidate, who will be in a runoff election June 6 with Jack Cox to determine which one will oppose Sen. Ralph Yarborough, Democrat, at the November general election, will arrive in Pampa tonight.

He is making a seven - city swing of the Panhandle Monday and Tuesday with Pampa as his first stop. He also will visit Amarillo, Borger, Spearman, Gruver, Perryton and Miami.

Pampa Student Due Degree at Texas Christian

MISS MARY STURGEON
. . . due TCU degree

Miss Mary Sturgeon, daughter of Mr. and Mrs. A. A. Sturgeon of 1331 N. Russell, is a candidate for her bachelor of arts degree in both English and history, with a teaching certificate in both fields, at Texas Christian University.

TCU graduation ceremonies will be held in Fort Worth Wednesday.

Miss Sturgeon was born and reared in Pampa and was graduated from Pampa High School in 1960. While attending Pampa schools she received many honors in the fields of education and music.

Way Sought to Halt Oddballs' Shootings

By ROBERT J. SERLING
UPI Aviation Editor

WASHINGTON (UPI) — If there is any foolproof way to prevent a crazed gunman from shooting up an airplane, the government and the airlines would like to know about it.

That is the hard fact of life, despite demands that somebody do something about the possibility of aerial murder — such as apparently occurred aboard a Pacific Airlines plane over California May 7.

The evidence—in the form of an empty, recently-fired gun found in the wreckage and a still - undeciphered tape recording — points to both pilots being shot by one of the passengers, with life insurance the supposed motive. The obvious question: Is there any way to prevent such incredible murders?

In 1961, after a wave of "skyjackings," the Federal Aviation Agency (FAA), Congress and the airlines themselves took a series of actions aimed at deterring crimes aboard aircraft. They included:

—The death penalty for aircraft piracy under certain circumstances, plus severe penalties for various types of felonies committed on airliners.

Stop Interference

—A special federal regulation prohibiting interference with flight crew members or carrying either concealed or unconcealed weapons aboard planes.

—Training special FAA "sky marshals" stationed at key points who ride flights carrying suspicious persons.

The FAA a year earlier had put into effect stiffer rules concerning drinking on passenger aircraft. And the very day of last week's Pacific tragedy, the agency adopted a rule—effective Aug. 6—requiring that the cockpit door be locked in flight.

The latter appears to be the only practical defense against a deranged passenger or criminal. But it also is admittedly an inadequate one. Significantly, the airlines and pilots themselves generally opposed the idea when the FAA first proposed it. Their arguments:

—A locked cockpit door is potentially dangerous in event the crew has to evacuate a plane in a hurry. A few seconds delay could mean the difference between life and death for a pilot.

Doors Are Thin

—Cockpit doors by necessity are thin to save weight. They are about as capable of stopping a bullet as a piece of tissue paper. Presumably, they could keep a deranged person out of the cockpit but what is to prevent such a man from threatening a stewardess until she or the pilots are forced to open the door? Plus the possibility that an armed crackpot or criminal could shoot off the lock?

There is one further argument against locked doors which may seem far-fetched, but conceivably could have applied in the apparent Pacific shooting. There were 40 passengers aboard and they may have included someone with the ability to fly a plane. No one will ever know if the cockpit door was locked, preventing anyone from entering the flight deck and pulling the plane out of its fatal dive after the gunman emptied his pistol into the helpless crew.

Competing With LBJ In South No Picnic

By Nicholas C. Chriss

ATLANTA (UPI)—It's no fun to compete with the President of these United States, particularly in a state that has never voted anything but Democratic and the President is Lyndon Baines Johnson.

But the visits to Georgia of Johnson and Sen. Barry Goldwater, only five days apart, does present a picture of comparison that puts the Arizona conservative on the shadowy side.

And it could have been so much better because Goldwater is really a convivial fellow, say some of his supporters and some newsmen who have talked to him.

Goldwater came to Georgia (Columbus, then Atlanta) on May 1st, stayed overnight in Atlanta and also departed the next afternoon.

Hurtled Into State

Johnson hurtled into the state on the tailend of an exhausting six - state tour of depressed areas.

Goldwater, on a grinding campaign schedule, leaped into the state for a brief stay en route to the California primary battleground.

While everything was peaches and cream for Johnson, not the same could be said for Goldwater. Winding up a long day in Columbus, the GOP candidate flew into Atlanta and one of his first remarks were directed at a winsome female campaigner.

"I don't wear those things," he said when she tried to place a 10-gallon "Go Goldwater" hat on his head.

Tired and snappish, Goldwater then shunted aside a newsman.

Said Goldwater to the persistent newsman: "Put that damn thing down," thereby winning the renewed admiration of many of his supporters who feel newsmen have no business poking microphones or scratch pads before their candidate's face.

When Goldwater keynoted the state GOP convention only the several hundred delegates were there; the galleries were almost barren.

New Books on Shelves At Public Library

New books on the shelves of Lovett Memorial Library this week are:

NONFICTION

PARIS IN THE TERROR — Stanley Loomis; describes Paris during the time of Charlotte Corday, Marat, Danton, Mme. Roland, Robespierre, Camille Desmoulins, Fouche, and many others from June 1793 to July 1794.

FICTION

A SAVAGE PLACE — Frank G. Slaughter; a novel in which the high cause of modern medicine becomes dramatically entangled with bitter social and personal conflicts.

FLORENTINE FINISH—Cornelius Hirschberg; a marvelously fresh, authentic voice in the detective field — and the background of the retail jewelry business of New York is a fascinating one.

ROGUE'S HARBOR — Inglis Fletcher; based upon the events and political thoughts of the group of men who were the beginning of Carolina and upon the women who brought the grace of English living and tradition to this raw new world.

THE WAPSHOT SCANDAL — John Cheever; fans of the Wapshot family will be pleased with this new book of their adventures. The author begins in St. Botolph's on Christmas Eve where there is a general disregard for ground rules which leads to scandal.

MYSTERIES

WHO STEALS MY NAME — Clay Richards; Inspector Kirby is assigned to follow the elusive Richard Emery, an expert forger who makes a career of endorsing stolen checks. It takes considerable detective work before Kirby gets a description of the man and is able to catch him.

THE HOSPTALITY OF THE HOUSE — Doris Miles Disney; Mandy was a house guest of the Averys, but she couldn't shake her dislike of her hosts — and her premonition that she was surrounded by an atmosphere of evil.

THE MONEY TRAP—Lionel White; here in the author's inimitable manner is the suspenseful tale of how the lure of money became the trap for an honorable man.

FLOWERS BY REQUEST — Leonard Holton; the Father Bredder stories are notable for their suspense of plot, their warmth of characterization, and the wit and wisdom which grace their pages.

THE GRAVEYARD ROLLS—Maurice Procter; when a sage-green Rolls - Royce is abandoned near the cemetery gates, and the body of its owner dumped on the other side of the wall. Chief Inspector Martineau of the Granchester CID finds himself with an explosive case.

GIDEON'S VOTE — J. J. Marric; for Commander Gideon of Scotland Yard, a general election poses special hazards, chief among them the fanatical activities of an anti - nuclear group, and the followers of a spellbinding neo - Fascist named Quatrain.

SNUFF SALES UP

NEW YORK (UPI) — Snuff dipping is definitely on the increase in the United States, according to the United States Tobacco Co.

Vice President Thomas W. Holley said Thursday sales of his company's Copenhagen moist snuff rose by 1.42 million units in the first quarter of 1964. He attributed much of the growth in large degree to switching to snuff dipping by cigarette smokers. However, sales have been rising since mid-1962.

Center Wrap-Up

George Smith, Director
Pampa Youth and Community Center

After all this year's Red Cross swim courses are finished in July, the Center will offer one big class for all persons desiring Junior or Senior Life Saving from August 3-14. You do not have to be a member of the Center to take any of these above lessons. Adult swim lessons will be at night and will require being a Center member. Time and dates will be announced very soon for Adults.

Activities that young people may look forward to this summer are the twirling lessons, trampolining lessons, precision swimming, swim lessons, and various tournaments. We are trying to arrange for tennis lessons and a baseball clinic for boys who are below little league playing age. If you have suggestions on other activities you would like to see at the Center please contact us.

Synchronized swimming will be offered the first three weeks in June in the deep end of the pool from 11-12 a.m. Persons desiring to take this course should contact the Center before May 27. Persons who are not Center members will pay $6 which will give them a half-year membership and a Center member will pay $1. Miss Janice Fauske of Texas Tech will conduct the classes and culminate the lessons with a water show.

The volleyball results this week in women's division found Hi-Land Drive In 8 - 0 over Surplus City 15-4 and 15-2 thus almost clinching first place for them. Also Eloise took the Jaycee Ettes 15-6, 5-15 and 15-9 while Ogden and Son won over Dairy Queen 15-9, 8-15 and 15-3.

In men's division the HiLand Drive In and White Deer Jaycees kept pace at 6-1 to tie for first place. The White Deer Jaycees took Fina Pink airs 14-16, 15-6 and 15-10. Skelly took Southwell 15-0 and 15-0 and Western Auto won over Cabot 16-14 and 15-7. Last Thursday's results were Celanese upsetting Fina 0-15, 15-5 and 15-8 then Hi-Land defeating Marine Tipsters 15-4 and 1510.

Federal Bank About to Run Out of Change

DALLAS (UPI)—The Dallas Federal Reserve Bank said this week it is running out of change.

Philip E. Coldwell, vice president of the bank, said local federal reserve stocks of silver dollars have been depleted and stocks of dimes, quarters and half dollars are one-tenth what they should be.

He said nickels, especially, are at a premium.

Coldwell said there was a suspicion that speculators were melting nickels for sale on the silver market, but could not verify the rumor. Nickels minted during the war years (1942-45) contain more silver than more recently minted nickels.

Melting down U.S. coins for sale on the open market is legal.

CHOSE WRITING

FORT COLLINS, Colo. (UPI) —A dozen over - exuberant students from Colorado State University are writing essays worth a nickel a word to them.

The 12 were picked up drinking beer on downtown streets during the annual celebration of College Days. Acting Municipal Court Judge John E. Kochenburger gave them a choice of a $25 fine or a 500-word essay on "The Responsibilities of Young Adults."

They chose to write.

Pampa High School To Graduate 256

A total of 256 Pampa High School seniors will bring to an end 12 years of school May 25 at 8 p.m. when commencement exercises will be held at Harvester Field House.

The traditional "Pomp and Circumstance" will be played by the Harvester Band to begin the long-awaited ceremonies.

The valedictorian, Martha Pattillo; salutatorian, Ann Christie, and senior class president Larry Gregory each will make a short speech to the graduates.

Diplomas and honors will be given by Superintendent of Schools L. J. Edmondson.

Commencement exercises will conclude with the singing of the school song "Dear Old Pampa High School" and then the recessional "Tannehauser March," played by the band.

This will climax a host of week - long activities honoring the graduating seniors.

Vesper Services will be conducted May 24 at 5 p.m. in the field house.

Rev. Donald S. Hauck, pastor of First Presbyterian Church, will deliver the vesper sermon. Rev. J. S. McMullen, pastor of First Assembly of God, will give the invocation. Scriptures will be read by Guy Caskey, minister of Mary Ellen and Harvester Church of Christ.

The A Capella choir and the band will join together for "Battle Hymn of the Republic."

Rev. Edward J. Cashman, C. M., will give the benediction.

Election to Highlight Vet Meet in City

Election of officers and final business sessions will highlight today's activities of the District 9 VFW convention being held here this weekend.

Billy Dorris, adjutant general from the state headquarters in Austin, will deliver the principal speech at a 1 p.m. banquet.

The election of officers for the coming year for both the post and auxiliary will take place during business sessions beginning at 10 a.m.

An estimated 250 veterans from over the district are expected to register by 10 a.m.

District 9 of the VFW encompasses the northern part of the Texas Panhandle.

Perryton Woman OK After Wreck

A Perryton woman was released Saturday morning from Highland General Hospital after being involved in a one - car turn-over Friday night 28 miles north of Pampa.

Mrs. Kenneth Lollar of 21 S. 5th in Perryton received facial cuts and lacerations when the car in which she was a passenger flipped over at the intersection of State Highway 70 and Farm Road 283.

The car, driven by her husband, was nearly totally demolished, according to highway patrolmen. He escaped with only minor facial lacerations.

Highway patrolmen said Lollar apparently lost control of the auto as he approached the intersection.

Reading Due on Paving Ordinance

First reading of an ordinance to levy assessments for paving N. Hobart St. from 21st. Ave. to 23rd Ave. is scheduled at Tuesday's meeting of the city commission.

Other business on the agenda will include acceptance and authorizing payment of $17,294 to the contractor for the paving of W. Decatur and N. Sumner Sts.

The commission also will consider whether to advertise for bids for the sale of city property at Ward and N. Hobart Sts.

Loss of Rabbit Saddens Girl

Eight-year-old Karen Sue Brantley, 1700 Coffee, is sad.

The white rabbit she received as an Easter gift has been missing since last Wednesday.

Karen Sue's mother, Mrs. R. L. Brantley, thought maybe if someone who found the rabbit knew where it belonged it would be returned. The Brantley phone number is MO 4-2448.

● Ryker

(Continued From Page 1)

at which leading freedom educators will speak and explain ways and means of bringing the program of freedom education to the local level all over the Southwest.

The conference will outline how to alert Americans to the promotion of our American heritage, he said.

Following the luncheon, Captain Ryker addressed another group at the Coronado on the subject, "The Jigsaw Puzzle of Surrender."

● Integration

(Continued From Page 1)

and John Redditt of Lufkin were absent and did not participate in the decision.

The gradual process of desegregating the university began in 1950 when the U. S. Supreme Court ordered the admission of Herman Marion Sweatt to the university's law school. Last Monday the university announced the hiring of its first Negro faculty member, Ervin S. Perry, who next fall will become an assistant professor of civil engineering.

The university voluntarily admitted Negroes to all divisions in 1956, and last November ordered desegregation of athletics and all other university activities.

Federal Suit Filed

At that time, however, the regents refused to integrate dining and housing facilities because of a pending federal court suit to force integration of these facilities.

Friday the three Negro students who filed that suit dismissed it because they will all be out of college by June.

The university divisions affected by Saturday's action include:

The central administration, main university at Austin, the medical branch at Galveston, Southwestern Medical School in Dallas, South Texas Medical School in San Antonio, Texas Western College at El Paso, the dental branch at Houston, M.D. Anderson Hospital and Tumor Institute at Houston, Graduate school of biomedical sciences at Houston, McDonald Observatory at Fort Davis and the institute of marine science at Port Aransas.

Obituaries

Mrs. Carrie Francis

Graveside funeral services for Mrs. Carrie Francis, 82, will be conducted in Fairview Cemetery Monday at 2 p.m. Mrs. Francis died yesterday in Wichita Falls where she moved three years ago. She had been a resident of Pampa for many years.

Survivors include one daughter, Mrs. A. B. Posey, Wichita Falls; three sons, Connie Francis, Omaha, Neb.; J. C. Francis, Okmulgee, Okla.; and Earnest Francis, Hot Springs, Ark.

Her husband, E. B. Francis and a son, Elmer Francis, preceded her in death.

Clark Murray

Funeral services for Clark Murray, brother-in - law of Mrs. Irvin Patterson, 329 N. Dwight, were conducted yesterday in Stephenville. His wife, Dora, survives.

● Measure

(Continued From Page 1)

an agreement to allow voting on some amendments last week. He declared the published accounts were "wholly without warrant or justification."

Mansfield quickly assured Russell that he was a "man of honor" whose "word is as solid as gold."

The Democratic leader also told newsmen before the session that he knew of no senators who were defecting from the pro-cloture ranks because of the wrangle with Case.

Russell said he also knew of no changes on the cloture question although he said of the reports by Case and Scott: "I hope it is so."

Wreck Victim in Good Condition

The victim of a pickup-oil truck wreck near White Deer Friday was listed in good condition Saturday afternoon at St. Anthony Hospital in Amarillo with a broken leg and minor cuts and bruises.

The accident occurred about 1:20 p.m. one-half mile west of White Deer on U.S. Highway 60.

According to investigating highway patrolmen, an oil truck driven by Richard Ball, 44-year old Amarillo resident, rammed into the rear of a pickup driven by Lida Martin of White Deer.

The oil truck overturned, spilling approximately 5,000 gallons of crude oil over the highway.

Ball was rushed by ambulance to the Amarillo hospital where he is listed in good condition.

Officers remained at the wreck scene for several hours Friday afternoon, until fear of a fire had subsided.

Mrs. Martin escaped injury and damage to her vehicle was slight.

SHE'S ALL WRAPPED UP—Despite the growing westernization of India, Indian women have clung to the sari, the flowing garment which has been part of tradition for hundreds of years. Saris are standard in size and design—six yards in length, 45 inches in width—so changing fashions are reflected in accessories and the arrangement of the saris. In left photo, Mrs. Manju Ray of Calcutta begins to put on a sari over a foundation garment. It winds about the wearer's body several times with the waist tucked in. At right, Mrs. Ray models the graceful garment, showing how the end piece, called the "pallav," is thrown over the shoulder.

Cancer Authority To Speak in Pampa

Cancer authority Dr. Robert Jones of the Southwestern Medical School at Dallas will speak before the annual meeting of the Gray County Cancer Society Wednesday at 7:30 p.m. in Lovett Memorial Library.

Dr. Jones will speak on "The Facts of Cancer."

The public is invited to attend the meeting.

WHAT IS THE COLOR OF YOUR LUNGS?

It may surprise you to learn that a child has pink lungs an adult gray or black lungs and the city dweller exposed to industrial smoke or fog has darker lungs than those who live in the country. The average person breathes about 18 times a minute, which totals about 25,000 times each day.

Therefore, it is most important to take good care of your lungs. Have you had your physician check your lungs lately? It is a wise precaution to avoid future trouble.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shoping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

WALTER W. ADAMS
. . . valedictorian

EDDIE SNYDER
. . . salutatorian

Commencement Date Listed in Canadian

Commencement dates for the Canadian schools were announced today by Woodie E. Beene, school superintendent.

Baccalaureate services will be held May 24 at 8 p.m. with Rev. David P. McPhail, pastor of First Presbyterian Church, as the speaker.

Grade school graduation will be held at 8 p.m. Monday and high school exercises will be held Tuesday at 8 p.m.

Dr. James P. Cornutt, president of West Texas University in Canyon, will be the principal speaker at the high school commencement.

Valedictorian for the Canadian High School is Walter W. Adams, 18-year old son of Walter Adams. Young Adams had a 96.30 grade average for his four years in high school.

Salutatorian is Edward Henry Snyder, 18-year old son of Dr. and Mrs. Rush Snyder. Young Snyder had a 95.98 grade average for his four high school years.

Washington Window

By LYLE C. WILSON
United Press International

The working stiff and his family may be tapped before this session of Congress lets out for some more money to make some more votes for the politicians.

An alternative would be to tap the Treasury which could borrow the money. The votes could be won by raising Social Security cash payments to the old folks — about 18 million of them. About 75 per cent or 11.5 million of these oldsters vote. United Press International reported last month that:

"President Johnson, spurred by political as well as humanitarian considerations, was pressing hard for legislation intended to lighten some of the financial burdens of the aged."

It seemed possible then, as now, that Congress might respond in an election year by raising Social Security cash payments or by improving health insurance programs for the aged — or possibly by a combination of both. Congress could do all of that with or without increasing the Social Security tax now levied on the working stiff and his family. Ordinary fiscal prudence — a scarce commodity in politics — would require that taxes be raised to pay increased benefits.

The old folks couldn't care less about that. They do not pay the taxes. The taxes are paid by the current crop of workers in the hope — there is no guarantee — that they also will draw sugar from the U. S. Treasury when their time comes.

The estimated 11.5 million Social Security votes represent a great political prize. So what if the working stiff's money is used to buy some of those votes for the Republican party or the Democratic party? So, nothing! There will not be a single yelp of protest, not even if the voters are yanked by the ears.

The voters are accustomed to mistreatment. Former U. S. Chamber of Commerce President Edwin P. Neilan denounced as outrageous some time ago the system whereby politicians buy or cajole the voters with Treasury funds, thereby obtaining the re-election of the politicians. The politicians of both parties pretended to be shocked by Neilan's bold challenge. But that could not have been for real. Who knows better than the politicians themselves how much and how often they have bought votes with tax money? They all do it. As the late Harry L. Hopkins, the famous social worker, once expressed it.

"Tax and tax, spend and spend, elect and elect!"

COED DIES IN FALL

ITHACA, N.Y. (UPI) — Katherine E. Loritsch, 18, a student at Butler University, Indianapolis, Ind., was killed early Saturday when she tumbled 98 feet into Cascadilla Gorge just below the Cornell University campus.

Police said Miss Loritsch, of Wheaton, Ill., and her date for Cornell University Weekend, identified as Timothy Janiatis of Schenectady, N.Y., were sitting under a tree near the gorge when Miss Loritsch complained of being cold. Janiatis said she arose and walked in the direction of the gorge and disappeared.

CROWDS VISIT SHRINE

FATIMA, Portugal (UPI) — More than half a million pilgrims visited the Catholic shrine of the Miracle of Fatima during the 47th anniversary celebration Wednesday.

Bar Members to Begin Voting

AUSTIN (Spl) — Members of the State Bar of Texas began voting Saturday for a president-elect, a vice president and congressional district nominees for eight places on the board.

Ballots were mailed from bar headquarters to more than 15,000 lawyers, with instructions to mark and return the ballots postmarked by May 30.

Nominees for president - elect are: George W. (Bill) Parker Jr. of Fort Worth and Clint C. Small Jr. of Austin. Vice presidential nominees are: Morris W. Hassell of Rusk and W. O. Shafer of Odessa.

President-elect Joyce Cox of Houston will succeed Buster Cole of Bonham following the bar's July convention at Houston.

About 4,000 lawyers, less than 36 years of age, also will vote on 1964-65 officers of the State Junior Bar. Nominees are: Jim McKeithan of Mission and Jack Rattikin Jr. of Fort Worth for president-elect; Billy J. Moore, of Ennis and Ted M. Kerr of Midland for vice president and Louis G. Neumann of Beaumont and James D. Johnson of San Angelo for secretary-treasurer.

Current executives of the young lawyers' organization include: Henry E. Kerry of Fort Worth, president, and William W. Gibson Jr. of Amarillo president-elect. Gibson also will assume office in July.

URGE BILL'S PASSAGE

HONOLULU (UPI) — Members of Hawaii's Civil Rights Conference celebrate Civil Rights Sunday by launching a campaign to mail 100,000 postcards to mainland voters urging Senate approval of the civil rights bill.

The postcards, distributed free through churches, newspapers and other groups, have a printed message on the address side asking the recipient to write his senator to vote for the bill.

NAMES INSTITUTE HEAD

NEW YORK (UPI) — President Grayson Kirk of Columbia University announced Saturday the appointment of John Badeau U.S. ambassador to the United Arab Republic, as director of the university's Near and Middle East Institute.

The announcement said Badeau would assume his new duties July 1.

Legionnaires at San Angelo Meet

SAN ANGELO (Spl) — Legionnaires and Auxiliary members from the 16th, 17th, 18th, 19th, and 21st Congressional District, comprising the Fourth Division of The American Legion, assembled here yesterday and today for their annual spring convention, A. W. (Al) Gee, division commander, has announced.

Registration was conducted yesterday, followed by a rehabilitation conference. Arthur Sitas, general chairman was assisted by Department Service Officer Fred Brookman of Lubbock.

Registration was resumed today and a dutch breakfast was served.

The joint session of The American Legion and Auxiliary convened this morning with B. F. Kirk, Commander of Post No. 32, presiding.

Principal speaker for the joint session was the Hon. Waggoner Carr, attorney general of Texas, who was introduced by Senator Dorsey B. Hardeman of San Angelo.

The Legion and Auxiliary planned their separate business sessions with commander Gee presiding over the Legion meeting.

PLANS U.S. VISIT

CANBERRA, Australia (UPI) —Prime Minister Sir Robert Menzies announced Wednesday he will confer with President Johnson in Washington June 24 during his 10-day visit to the United States.

Menzies also will visit Britain and Israel on the two-month trip. He will spend two days in Washington in talks with U.S. officials.

STILL IN DANGER

VIENNA (UPI) — Algerian President Ahmed Ben Bella said in Czechoslovakia Wednesday his country is "on the path to socialism" but is still endangered by capitalism, Radio Prague reported.

"As long as capitalism has a single stronghold in Africa our freedom and independence will be endangered," he was quoted as telling workers at a plant in Prague.

PRESENTS SHIP'S BELL

MOSCOW (UPI) — U.S. Ambassador Foy D. Kohler presented the Soviet Union Saturday with a bell taken from a World War II Liberty ship and said it was "a reminder of mutual understanding and cooperation" between the two countries.

The shiny, two-foot bell was part of the equipment of the S.S. Townsend Harris, one of the fleet of American Liberty ships which delivered U.S. lend-lease military aid to the Soviets at the port of Murmansk during the war.

SCOUT LEADER DIES

CLEVELAND, Ohio (UPI)—Ellsworth H. Augustus, 66, president of the National Council of the Boy Scouts of America, died Saturday at the Cleveland Clinic.

Augustus, who had been national president for five years, planned to retire from his post at the annual Boy Scout Council meeting next week.

Pampa Seaman On Fuel Ship

Tommy W. Woodruff, seaman, USN, son of Mr. and Mrs. T. M. Woodruff of 412 Naida, is serving aboard the fleet oil USS Kennebec which recently left San Francisco, Calif., for operations with the 7th Fleet in the Western Pacific.

Kennebec helps to keep the fleet mobile by supplying ships and aircraft with fuel oil and aviation gasoline. This is accomplished by under way replenishments during which Kennebec pumps her vital cargo to the ships steaming alongside her.

Kennebec's operations will take her to ports in the Philippines, Japan, China, Korea and Hawaii.

Only object in the White House today that belonged to President Thomas Jefferson is a bronze inkstand.

Pampa Airman Technical Grad

GREENVILLE, Miss. (Spl)—Airman 3—C Brian A. Prigmore, son of Mr. and Mrs. O. M. Prigmore of 1308 Charles, has graduated from the technical training course for new members of the Air Force Medical Service at Greenville AFB, Miss.

Airman Priimore, who studied basic hospital procedures and emergency medical treatment, was selected for further training in the medical service field at Gunter AFB in Alabama.

Prigmore attended Pampa High School.

Plants Vs. Animals

A major distinction between plants and animals is that plants manufacture their own food. This process is directly associated with the presence in the plant cells of chlorophyll, a vital green pigment.

Indian Art Subject For Historical Unit

"The Ancient Indian Art of Sandpainting" will be the program topic for the May meeting of the Pampa Genealogical and Historical Society at 8 p.m. Monday in the auditorium of Lovett Memorial Library.

Featured will be a movie on the subject filmed in the Southwest by the Santa Fe Railway Co.

Progress reports will be presented by the following committee chairmen: Compilation of Gray County Cemetery Records, Mrs. Clayton Persons; Landscaping the Pioneer Cottage project, Miss Lou Ella Patterson; Interior and Exterior Restoration of the Pioneer Cottage Museum, Tracy D. Cary, general chairman.

Following the program, members and guests will have opportunity to compile their own family history records from the following newly purchased rare genealogical and historical volumes:

1) Goodspeed's 1886 History of Tennessee (16 rolls of microfilm with individual historys of each of 96 Tennessee Counties and sketches of their pioneer families.

2) Earliest Settlers of Georgia and the Cherokees (Gilmer) 1770 - 1823.

3) Historical Southern Families (Boddie) 7 vols. containing histories of hundreds of southern families of European, northern and southern lines.

4) The First Censuses (1790) for Kentucky, Maryland, Virginia, North Carolina, South Carolina.

5) Histories of Albemarle Co. Va. (Woods) and History of Caroline Co. Va.

6) Earliest Wills of Williamsburg, Va. 1600-1700.

7) History of Rhea Co. Tenn., and History of Humphreys Co. Tenn.

8) The Tartans, Clans and Septs of Scotland.

9) Our Quaker Friends of Ye Olden Time (Bell) (New England Migrations to Middle Colonies)

10) Revolutionary Soldiers of Kentucky and Early Kentucky Wills.

11) All available back copies of "The Genealogical Helper," foremost international magazine of family history.

Blank research forms and charts will be available for purchase at the meeting which is open to the public.

'Mississippi Project' Newest Rights Wrinkle

EDITOR'S NOTE: What is the "Mississippi Project" all about? The following dispatch examines in detail the newest wrinkle in the civil rights campaign.

By AL KUETTNER

ATLANTA (UPI) — One day early this summer three young people from Minnesota plan to arrive at a place not on the map called Mt. Beulah, Miss.

Others, numbering in the hundreds, expect to report to locations — large and small, city and rural—all over Mississippi.

Most of them will be college students, and they will provide the manpower for a new civil rights creation bearing the name "Mississippi Project."

Recruiters, bidding for attention from students along with employment counselors, have been roaming college campuses for weeks. Sponsors of the project say they hope to recruit 2,000 students but acknowledge they have attracted only about 600 applications to date.

A survey of major college campuses by United Press International indicated that about 270 applicants have been "approved" so far.

Product Of Council

The "Mississippi Project" is a production of the Council of Federated Organizations, a Jackson-based amalgamation of the principal racial groups at work in the state.

Project goals include Negro voter registration, operation of "freedom schools" and a mock election campaign for naming "delegates" to the Democratic National Convention.

The proposed college civil rights task force has public officials concerned and on guard. The Commission on Religion and Race of the National Council of Churches (NCC) cautioned that "nothing could be more harmful" than unscreened and unsupervised pilgrimages to Mississippi.

Sponsors of the project do not minimize the problem. They tell applicants to bring $150 for living expenses and to be able to raise up to $400 for bonds if they are arrested.

Live With Negroes

Many of the white students plan to live with Negro families in Mississippi, an accomdation that is not against the law there but which tends to increase tensions.

Some of the students will report first to a "staging area" being established at Berea College in Kentucky. Others will go direct to Mt. Beulah, the site of a now defunct Negro school near Edwards, Miss., not far west of the capital city of Jackson.

Project workers will receive orientation, training in response to opposition from local people and pep talks on the goals of militant civil rights groups in Mississippi.

The NCC Commission on Religion and Race has urged colleges, universities and seminaries to advise those who work with students to "do all we can to help insure that the volunteers are adequately screened and trained."

The commission said it had agreed to undertake the orientation and training program "because the church has an obligation to avert violence."

Adopt New Laws

Soon after the Mississippi project was announced earlier this year, the Mississippi Legislature adopted several new laws that can be used to deal with demonstrations.

It is now the law that:

—Police, at their discretion, can prohibit the movement of any citizen in time of emergency (curfew).

—Police, at the discretion of local officials, can prohibit picketing by one or more persons which might interfere with the free entry into a public building.

—No material can be published or distributed that urges boycotts.

—Local communities, at their expense, can send prisoners who cannot be jailed locally to the state penitentiary at Parchman, Miss.

—Local communities may call on each other for police and firemen to deal with "emergencies."

Penalties for most of the violations would be $500 fine and six months in jail.

Yankees Power Past Athletics

★ ★ ★ ★ ★ ★

Maris, Mantle, Pepitone Homer

NEW YORK (UPI) — Roger Maris slammed two home runs and Mickey Mantle and Joe Pepitone one each Saturday to lead the New York Yankees to a 10-6 victory over the Kansas City A's.

The Yankees, gaining revenge for an 11-0 shutout by the A's Friday night, rapped four pitchers for 11 hits, good for a total of 27 bases. In addition to the homers, the big blows included triples by Hector Lopez and Clete Boyer.

Steve Hamilton, second of three Yankee pitchers, gained credit for the victory although he yielded a three-run homer to Manny Jiminez in the fifth inning, the first earned runs he had allowed in 11 innings of relief.

Hal Reniff relieved Hamilton in the eighth with two men on and none out and retired the side on three fly balls to preserve the victory.

Boyer Bombards Braves, 6-5

ST. LOUIS (UPI) — Third baseman Ken Boyer hit four for four and took part in four scoring rallies Saturday to lead the St. Louis Cardinals to a 6-5 victory over the Milwaukee Braves.

Boyer walked in the first inning, and his single in the third scored Doug Clemens with the tying run after Milwauke opened the scoring on pitcher Bob Sadowski's infield grounder.

Boyer opened a three-run fifth inning with a single, scoring one of the runs on Tim McCarver's fielder's choice.

Boyer singled in the seventh and after Jeoff Long doubled him to third, he scored on Denny Lemaster's wild pitch.

In the eighth, after Carl Warwick tripled, Boyer singled him home.

Boston Rallies In Extra Innings

BOSTON (UPI)—The Boston Red Sox out-homered the Minnesota Twins and rallied for runs in the ninth and 10th innings for a 6-5 victory Saturday.

Red Sox relief ace Dick Radatz singled in his own winning run with two outs and the bases loaded in the 10th inning to settle what had been a home run duel until Boston put together three singles for the tieing run in the ninth.

Radatz blooped his game-winning hit into short right field off Minnesota reliefer Jim Perry, the fifth Twin pitcher in the game. The hit scored Lou Clinton from third after two walks, a fielders choice and Clinton's double set the stage.

Senators' Daniel Wins Own Game

WASHINGTON (UPI)—Right-hander Bennie Daniels of the Washington Senators won his own game with a two-run homer Saturday as he and reliever Ron Kline combined to stop the Chicago White Sox with only four hits, 3-1.

Don Lock homered for the Senators' first run in the fourth inning and Daniels connected in the sixth to make it 3-0. The White Sox picked up an unearned run in the eighth with the help of two errors but Kline came in and pitched hitless relief ball.

Ray Herbert, who gave up both Senators' homers was the loser.

Lock's homer was his fourth of the season. Then, in the sixth inning, John Kennedy singled off Herbert. Daniels attempted to bunt on the first pitch, but fouled it off. He hit the second pitch over the right field fence for the game-winning runs.

Stargell's Bat Batters Bums

LOS ANGELES (UPI)—Outfielder Willie Stargell wielded the hot bat for Pittsburgh Sunday, driving in four runs on a pair of singles in the late innings when the Pirates came from behind to overtake the Los Angeles Dodgers for a 7-4 victory.

In the sixth inning the Pirates sent 10 men to the plate and scored four runs off Dodger starter Nick Willhite before Bob Miller came in to choke off the rally with the bases loaded.

Roberto Clemente's double after Dick Schofield and Mannie Mota singled scored the first run off Dodger pitching in 30 innings. Stargell then singled home two runs and scored on Bill Mazeroski's double.

In the seventh, after Mota walked Clemente again doubled and Stargell scored both with his second single.

Pirate pitcher Bob Veale's wildness was responsible for Dodger runs in the first and fourth innings. Maury Wills led off with a walk in the first and advanced from second on a wild pitch, scoring on a groundout. In the fourth, Frank Howard walked and Doug Camilli singled for the first hit off Veale. Howard scored on a double play.

Cleveland Moves Into First Place

DETROIT (UPI)—The Cleveland Indians Saturday took over sole possession of first place in the American League by combining the home - run hitting of Max Alvis and Woody Held with the six-hit pitching of southpaw Jack Kralick to nip the Detroit Tigers, 2-1.

Alvis hit his third homer of the season in the sixth and Held clubbed his eighth round-tripper in the seventh off Detroit's Ed Rakow. The Tribe collected nine hits off Rakow, who suffered his second defeat against no wins, and reliefer Dick Egan, but the home runs were the only extra blows.

The win enabled Cleveland to take over the league lead from the Chicago White Sox who were beaten by Washington 3-1.

Kralick struck out 5 and walked none in upping his season record to 3-0. It was his second complete game of the season. Detroit's lone run came in the seventh on a triple by George Thomas and Dick McAuliffe's single.

Nuxhall Hurls Reds To Victory

CHICAGO (UPI) — Joe Nuxhall, backed up by 12 hits including three home runs, pitched the Cincinnati Reds to a 5-2 victory over the Chicago Cubs Saturday.

It was the third victory against two losses for the 35-year-old southpaw, who has beaten the Cubs 16 times since he broke into the major leagues in 1945.

The loss was the fourth in a row for the Cubs, who were guilty of inept base running. Nuxhall picked off Billy Williams after he doubled to lead off the sixth with his team trailing 2-1.

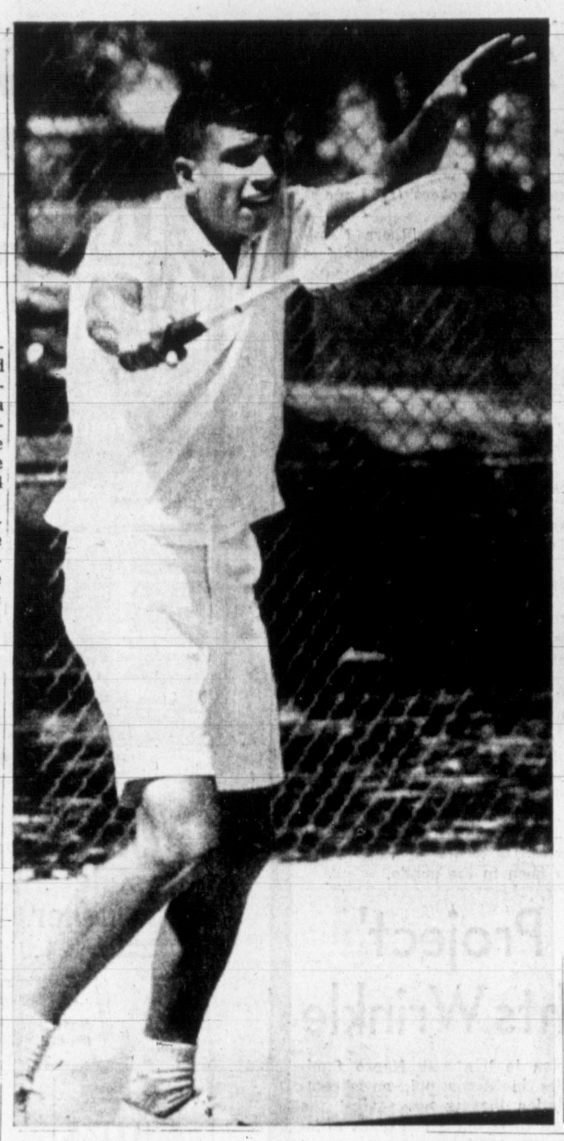

In the seventh with the score tied 2-2 Billy Cowan led off with a double, but he was out stealing when he missed a sign from the dugout.

Angels Sign Cotton Nash For Baseball

LOS ANGELES (UPI)—The Los Angeles Angels announced Saturday the signing of the University of Kentucky's basketball star Cotton Nash to a baseball contract.

Nash, the second draft choice of the Los Angeles Laker professional basketball team, also sparkled as a baseball outfielder. The 6-foot-6, 218-pound Nash batted .335 and clubbed six homers for his college squad this season.

Nash, 21, of Leominster, Mass., was signed for the American League club's Hawaii farm team. He will join the Pacific Coast League team during its current stand at Oklahoma City.

Dancer Does It Again, Hill Rise Finishes Third

BALTIMORE, Md. (UPI) — Northern Dancer, the Kentucky Derby winner, swept to the front on the turn into the home stretch at Pimlico Saturday and blazed to a two and one - quarter length victory in the 88th running of the $176,700 Preakness Stakes, the second jewel of turf's Triple Crown.

The Canadian - bred colt, with Bill Hartack in the saddle, thus moved another notch closer to becoming the first Triple Crown champion in 16 years—since Citation in 1948.

He streaked across the finish line easily the best as Rex C. Ellsworth's The Scoundrel took second place.

El Peco Ranch's Hill Rise, beaten by a neck by Northern Dancer two weeks ago in the Kentucky Derby, again was made the favorite but faltered in his bid to run with Northern Dancer and finished third, a head behind The Scoundrel.

Quadrangle was fourth, with Roman Brother fifth and Big Pete sixth and last in the mile and three - sixteenth race.

The crowd of 35,975 refused to believe the Kentucky Derby finish and made the odds on Hill Rise 4-5. They let Northern Dancer, a little muscular colt bred in Canada, get off at a little better than 2-1.

Canada's first Preakness champion paid $6.20, $3.60, $2.20 across the board while hauling down a winner's purse of $124,200.

The Scoundrel, who had been third in the Kentucky Derby, paid $6.20 and $2.20 while Hill Rise returned $2.20.

It was another brilliant riding exhibition by Hartack who beat Willie Shoemaker, aboard Hill Rise, to the first turn, moved with Shoemaker leaving the backstretch to keep his rival behind him, and then gunned Northern Dancer through the stretch for a convincing victory and it stamped Northern Dancer the best 3 - year - old in the country and a strong candidate to become the ninth Triple Crown winner.

Northern Dancer probably will try for a sweep of the golden diadem in the Belmont Stakes at Aqueduct on June 6. After Saturday's brilliant performance he will be a strong favorite in the mile and one-half Belmont Stakes.

It was at the three-eighths pole, with three furlongs to go, that Northern Dancer swept to the front, taking the lead from Quadrangle, owned by the Rokeby Stables.

And from there on, Northern Dancer, the pride of Edward P. Taylor of Toronto, who owns and bred the colt, took complete charge of the race.

For an eighth of a mile it looked as though a great stretch battle was shaping up. But when Northern Dancer reached the head of the stretch none of his rivals was able to menace him.

"Hill Rise moved up good on the outside but he just couldn't handle that other horse," Shoemaker admitted.

"When I saw Hill Rise moving to us I let my horse go," said Hartack who had failed to complete the Kentucky Derby-Preakness double with his three other Kentucky Derby winners. He did win the Preakness once before, with Fabius, not a Derby winner.

"I stayed a neck in front of Hill Rise. It was from the middle of the turn till just before we straightened out that Hill Rise sarted moving on us.

"I went to work with Northern Dancer and passing the quarter pole we started to draw clear. That run with Hill Rise around the turn took it out of Hill Rise and I guess it took a little out of my horse, too, because he was tiring under me and I had to really ride him on out," Hartack added.

Davenport's HR Wins for Frisco

SAN FRANCISCO (UPI) — Jim Davenport smashed a home run with Tom Haller on base in the 15th inning Saturday to give the San Francisco Giants a 6-4 victory over the New York Mets and end a three game losing streak.

It was the first home run of the season for Davenport and came at the expense of Galen Cisco who had taken over in the 14th inning.

The Mets had gone ahead 4-3 in the ninth when Ron Hunt brought in Roy McMillan with a pinch double. But Willie Mays came up with two out in the ninth and sent the game into extra innings by powering his 14th homer over the right field fence.

Cisco retired the first two batters to face him in the 15th but then Tom Haller singled past the mount for his first hit of the day in six trips. Davenport followed by crashing a drive over the left centerfield barrier.

Six Golfers Sharing Okie City Open Lead

OKLAHOMA CITY (UPI) — Six golfers, mixing youth and experience, grabbed a share of the first - round lead in the twice - postponed $40,000 Oklahoma City Open Saturday with four - under - par 68's.

Leading the bunched, par-busting field, were veterans Jay Hebert of Lafayette, La., Mike Souchak of Grossinger, N.Y., and Pete Fleming of Hot Springs, Ark.; host - pro Ernie Vossler, young Terry Dill of Muleshoe, Tex., and tour freshman Bill (Cotton) Dunn of Duncan, Okla.

One - stroke back at 9 were rookie Roy Pace of Longview, Tex., South African Bob Verwey, Johnny Pott of Gulf Hills, Miss., and Jack McGowan of Largo, Fla., who set a tournament record by shooting a five - under - par 31 on the front nine.

Palmer Pars Out

Tied at 70 were 15 golfers, with 11 others including defending champion Don Fairfield at 71. Eleven players, including favorite Arnold Palmer, toured Quail Creek course in even par 72.

The tournament got under way in brilliant sunshine after action the first two days was washed out because of rain and lightning.

Palmer, with his usual huge gallery, went one - over - par 37 on the front nine after coming close to a birdie putt on the ninth hole. He trimmed the extra stroke off on the back nine to shoot par.

Dunn, who joined the pro tour in January, got his share of the lead with an erratic round of eight birdies and four bogeys, including a 40 - foot bogey putt.

Hebert and Vossler barely missed pulling out of the six-way tie on the final hole. Hebert chipped 18 feet to the high side of the lip of the cup, but the ball hung there. He tapped it in for par. Hebert said after five birdies, "The course played pretty easy."

Misses Taking Lead

Vossler just missed taking the undisputed lead with a 67, when he failed to make a three-foot putt on the last hole and settled for a bogey. Vossler had four birdies. He dropped an eagle two on the 6th hole with a chip-in from 70 feet out wit a sand wedge.

Souchak, who won the Houston Classic last month, part-time touring pro Fleming and Dill, who tied for fourth here a year ago, all puf together rounds of five birdies and one bogey. Souchak and Dill said they felt they were playing well.

Relievers Pitch Birds to Win

BALTIMORE, Md. (UPI) — Relief pitchers Dick Hall and Stu Miller blanked Los Angeles on two hits for the last four innings Saturday night to give Baltimore a 5-1 victory over the Angels.

Hall got credit for the win, his second in two decisions. He went two innings, while Miller finished up the last two.

The Orioles scored their runs in the fifth, sixth and eighth innings. In the fifth, Willie Kirkland singled and a ground out, and Joe Gaines' pinch-single accounted for one tally.

Then, in the sixth, the Orioles knocked out Angeles starter Fred Newman with a two run rally. Norm Siebern doubled to deep center, Brooks Robinson singled him in, and after Robinson went to second on the throw - in, Boog Powell singled him home.

In the eighth, Brooks Robinson and Boog Powell hit back-to-back home runs off Angel reliever Barry Latman. Robinson's blast was his third of the year, while Powell's was his fifth.

CLASSIFIED ADS GET RESULTS

Sam Baugh Joins Oilers Coach Staff

HOUSTON (UPI) — Sammy Baugh, whose name is synonymous with "great passing," will coach the offensive backfield of the Houston Oilers of the American Football League starting this year, the Oilers announced Saturday.

Baugh, who was on the coaching staff with Tulsa University last season, will work with Oiler veteran quarterbacks George Blanda and Jacky Lee and will help shape premier college passer Don Trull of Baylor into professional material for the Oilers. Trull signed with Houston last year.

Baugh will join the Oilers July 1 as offensive backfield coach, filling a vacancy created by the recent resignation of of Walt Schlinkman.

He will have a six-month contract arrangement that ends Dec. 31, but will be available for some off-season talent scout work, Oilers' President K. S. (Bud) Adams said.

Oiler Coach Frank (Pop) Ivy said Baugh "will add greatly to our coaching staff, not only because of his stature as a former professional player and for his coaching ability, but also because he is an extremely high-type individual."

Baugh rewrote the record books in some passing divisions during his days in professional football. He had highs for career completions at 1,709, career completion percentage at 56.7, career yardage at 22,086, single-season completions at 210, yardage at 2,928, and percentage at 70.3.

Sporting Sidelines

by JEFF COHANE

TOM GLOVER, skipper of the Pampa Colts, is wasting no time this year assembling the best crew he can find for Tri-State League action. Tom's biggest acquisition is the return of Mike Clark to the baseball wars. Pampa High's all-district hurler sat out last year, but has planned to be back this season. Paired with Jerry Glover, who has set the Western Junior College Conference afire with his 9-1 season record to date, the duo will make a strong bid to carry the Colts past last year's second-place finish in the league. The moundsmen will be backed by returning hurlers Royce Harnsburger and Ned Patterson. Blazin' Bobby Price, the Pampa Rebels' ace relief hurler of last year, is also expected out by Glover.

Some of last year's infield and outfield are question marks due to work, etc., but Glover has already assembled the nucleus of a pretty good crew. Although failing to get Carl Schreiber and Tommy Lindsey of OU, both of whom are going to make a strong bid for the pros this summer, Keith Gregory and Mike Stewart, third baseman and catcher respectively of TCU, will return. Gary Hill will be back in the outfield, and Roy Don Stephens, the little speed demon, is also expected back.

Taking over at shortstop for Bobby Nutt, now in the U.S. Army, is Wallace Mathew. Merle Terrell, well - known to baseball fans, will handle second base for the Colts.

Glover will also have the services of Kenny Hebert, all-district high schooler and all-regional Legionnaire, for the opening games of the season, although the U of Houston-bound Flying Frenchman expects to play semipro ball in the big city for most of the summer, possibly returning to the Colts after the Texas - Pennsylvania football game.

Tom is hopeful that some of the other Pampa Rebels, especially catcher Shotgun Gregory and infielder Rick Stewart, will move up to the semipros this year, but will have to wait until school is out to find out. In any case, Glover and company are loaded for bear and Amarillo this summer.

★ ★ ★

A LETTER in the mailbag, which has been rather empty these days:

Dear Jeff:

Thank you for the pleasure we had reading your column and finding reports of little ole Class B Groom . . . don't lose your refreshing manner of reporting!

It may not fit into your column, but I believe you'd be interested in knowing that your "Drivin' Dan" Craig is valedictorian of his graduating class with a 96 average. He plans to go to Tech this summer and then on to become a doctor, probably.

Good wishes to you
E. S. Craig

Editor's note: Thank you very much for the kind words, Mr. Craig. Yes, it is a pleasure to me to report that my favorite athletes have what it takes scholastically as well. I have always been 100 percent for "a sound mind in a healthy body" and Dan is a perfect example. It was a pleasure to watch him as an athlete and I am sure he will be just as perfect as a physician.

IT LOOKS as if the old Lefors dynasty is breaking up in a hurry. Terry Bromlow reported recently that his family was moving and he would probably go to Perryton. Phil Woodring was in with a belated graduation invitation and the Hendricks clan will be moving to Fort Stockton. The McCools are also leaving immediately school is out, with Squash probably joining Phil in working in Spearman this summer. Woodring's stepbrother, a freshman, looked as if he was going to be as big and as good athetically as Phil. Nita McCool promised to carry on Punkin and Squash's traditions on the distaff side, being a fine basketball player and a promising runner for the Pampa Track Club. Both Dunny Goode's and Peewee Prescott's replacements will find it rough going without those families around.

Garrison Goes Route

Harvesters Nip Dogs in 8, 4-2

By JEFF COHANE
Pampa News Sports Editor

PLAINVIEW — Two Pampa runs poured across the plate on a wild pitch in the eighth inning to give the Pampa Harvesters a 4-2 thriller over the Plainview Bulldogs yesterday as little Jerry Garrison spun a seven-hitter in a route-going performance.

Garrison struck out nine and walked only one as he led the Harvesters to an identical record with last year's, finishing the district with eight wins and six losses, and a probable third-place tie awaiting the outcome of the final game of play for other loop teams Tuesday.

Runs were hard to come by in the tight - pitched ball game, with Garrison allowing only four hits through the first six innings and Plainview pitcher Phil Stephenson allowing only five through the first seven frames. Heart of the Pampa team was catcher Shotgun Gregory, who batted in the first run, personally scored the second and stopped a Plainview run from scoring in a crucial play at the plate. Steve Molberg joined him with two hits and Ricky Goodwin did the same.

In the Plainview second, a walk, single by Eddie Piercy and hit batter loaded the bags, with Ronnie Peret sending home a run with a sacrifice fly to deep centerfield.

Pampa came back to tie in the third as Rick Stewart opened with a walk, stole second and continued to third on Piercy's wild throw, scoring as The Shotgun fired to right field.

The Harvesters got the go-ahead run in the fifth as Gregory tripled to right center, and came flying home on a short wild pitch, diving under the tag.

With one out in the bottom of the seventh, an error opened the floodgates for the tying run. Peret was safe on the miscue, moved to third on pinch-hitter Rich Clark's single and scored on Stephenson's sacrifice fly to right.

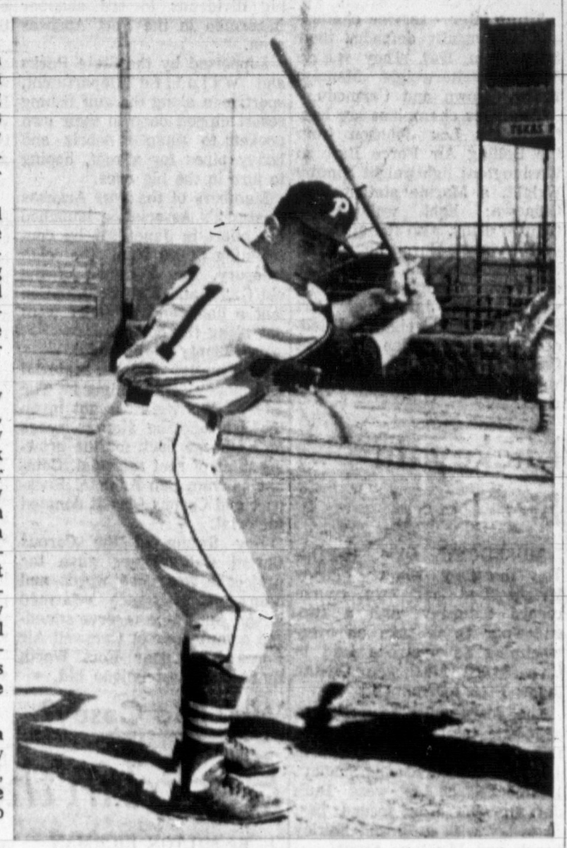

Molberg was safe on an error with one out in the eighth and Ricky Maynard poked a single up the middle. Garrison followed with a short single to load the bases and Randy Lynch took over the pitching chores. Lynch's second pitch was inside and wild and Molberg came home to score the go - ahead run, with Maynard following as Piercy dug the ball out but made a bad throw. Garrison was out trying to score on Jim Arthur's short hopper, and Goodwin singled, only to be thrown out as he went for two bags.

The Bulldogs put on a final one-out rally when Mannie Nagar singled and Lonnie Whitfield doubled, but Garrison got Piercy on a grounder. Peret lifted a high fly between Stewart and Goodwin. The two Ricks collided on the dead run, but Stewart held onto the ball for the final putout of the season as the burly tackle bowled him over.

		R	H	E

Scotsman Grabs 500 Pole Post

INDIANAPOLIS, Ind. (UPI)— World Grand Prix champion Jimmy Clark of Scotland, runnerup in last year's race, Saturday became the first foreigner in 45 years to grab the pole position for the Memorial Day 500 auto race in record shattering speed.

With an estimated 225,000 fans roaring approval, the Scot blazed around the speedway at an average clip of 158.828 miles per hour in his green colored, rear engine Lotus-Ford and he had a top lap of 159.377 m.p.h. to smash Parnelli Jones' 1963 mark by wide margins.

Clark was the fourth qualifier on a slightly overcast day with temperatures in the 70s and nobody could catch him—not even hotshot Bobby Marshman, of Pottstown, Pa., the first driver to hit 160 m.p.h. in practice, and Jones, who surrendered the pole he won two years running.

He thus became the first foreigner to win the lead position since Frenchman Rene Thomas turned the trick in 1919.

New Stadium Seeks Major League Ball

By HAL WOOD

OAKLAND, Calif. (UPI) — They broke the ground for the $25 million stadium complex here Friday— and before the first space full of earth was turned, Robert T. Nahas, coliseum board president, reported:

—"We are working with the American Baseball League to get a team moved here."

—"We have an offer from a radio network that would reach 8,000,000 people, telling us they will pay a major league baseball team $500,000 a year for the broadcasting contract."

—"We already have a fine (American League) professional football team ready to move in. But we also will negotiate to get professional hockey and other professional sports in our complex."

Ready In 1966

The stadium won't be ready for occupancy until August of 1966, but in the meantime, Nahas and the stadium are riding in the driver's seat when it comes to making a choice on which professional teams will move in here.

"It's a great feeling to get moving on actual construction after more than three years of planning," says Nahas.

When the complex is completed it will seat 48,000, with banana - shaped sections that may be moved around to accommodate baseball and football crowds to the best advantage.

The arena will handle 13,000 for hockey and basketball, and 16,000 for fights.

"We want it understood, however," says Nahas, "that this isn't just for sports. We will seek all types of conventions, displays, etc."

Oakland is 10 miles across the bay from San Francisco. It's on the "state-side" of the bay. While San Francisco is surrounded on three sides by water, the east bay has unlimited room for growth.

Expect Population Explosion

The current population is 2.2

(See STADIUM, Page 10)

SWC Rules Strict, Hard And Tricky

DALLAS (UPI)— Suppose a Southwest Conference college football fan knows a top high school prospect, and would like to take him to see a game at the college and meet the team.

This particular fan lives in the Rio Grande Valley and the school he follows is Southern Methodist or Texas Christian University. The schedule calls for his favorite team to play Rice in Houston.

He can't make the trip.

A visit to an away-from-home is illegal under Southwest Conference recruiting rules, although a trip to the campus is all right, providing other requirements are met.

Lengthy Rules

This is one example of the 95 pages of rules that govern the wooing of prospective athletes by the eight schools in the SCW. One week ago four of the schools were found guilty of various violations.

Hardest hit was SMU, which was put on a two-year probation with a penalty of not being able to play in post-season football bowl games. Specifically, among other things, SMU was convicted of permitting an expense-free airplane ride by an SMU football player to go home to see his sick mother.

Schools are limited to pro-

(See SWC, Page 10)

20-Game Slate Set For Colts

BORGER (Spl) — Leo Dromgoole, official statistician of the Tri-State Baseball League, last night released the league schedule for 1964.

The schedule calls for a quadruple round-robin for the six teams in the loop, although Dromgoole warned that the coaches may change the sites of the home-and-home games at their discretion. The Pampa Colts opened the league season at Borger June 3, then play at Umbarger and host Graham Plow of Amarillo that weekend.

Colts manager Tom Glover said that two non-league games had been scheduled this month, Pampa playing at Stinnett next Sunday and Stinnett returning the visit the following Wednesday night. Glover added that the team will work out at PHS tomorrow at 5:30 p.m.

Colts schedule:

June 3—Pampa at Borger
June 6—Pampa at Umbarger
June 7—Amarillo at Pampa
June 10—Pampa at Guymon
June 13—Stinnett at Pampa
June 14—Umbarger at Pampa
June 17—Pampa at Amarillo
June 20—Pampa at Guymon
June 21—Pampa at Stinnett
June 24—Borger at Pampa
June 27—Amarillo at Pampa
June 28—Guymon at Pampa
July 1—Pampa at Stinnett
July 8—Pampa at Borger
July 11—Pampa at Umbarger
July 12—Guymon at Pampa

FIELD COMPLETED

MILWAUKEE (UPI) — The Milwaukee Classic basketball tournament already has completed its field, with national champion UCLA scheduled to meet Marquette and Wisconsin matched against Boston College Dec. 18.

July 15—Stinnett at Pampa
July 18—Borger at Pampa
July 19—Umbarger at Pampa
July 22—Pampa at Amarillo
July 23—makeup

Night games start at 8:15 p.m.; Sunday games start at 2 p.m. unless otherwise agreed upon.

RANDY TOPS O'BRIEN

LOS ANGELES — Although world record - holder Dallas Long won the Coliseum Relays shot put Friday night, Pampa's Randy Matson established himself as a top Olympic contender when he finished second, beating multi-Olympic champion Parry O'Brien for the first time.

Long, who has a world record of 66'7" pending, put the shot 65'5". Matson was second with 63'6", his fourth best career mark, beating O'Brien by three inches.

WANTED
MEN—WOMEN

from ages 18 to 52. Prepare now for U.S. Civil Service job openings in this area during the next 12 months.

Government positions pay as high as $446.00 a month to start. They provide much greater security than private employment and excellent opportunity for advancement. Many positions require little or no specialized educational or experience.

But to get one of these jobs, you must pass a test. The competition is keen and in some cases only one out of five pass.

Lincoln Service helps thousands prepare for these tests every year. It is one of the largest and oldest privately owned schools of its kind and is not connected with the Government.

For FREE information on Government jobs, including list of positions and salaries, fill out coupon and mail at once —TODAY. You will get full details on how you can prepare yourself for these tests.

Don't Delay — ACT NOW!

LINCOLN SERVICE, Dept. 301
Pekin, Illinois

I am very much interested. Please send me absolutely FREE (1) A list of U.S. Government positions and salaries; (2) Information on how to qualify for a U.S. Government Job.

What the FULL-POWERED Friedrich room air conditioner means to YOU!

You're COOLER!
— you get full-powered cooling capacity, so that your home is completely cooled.

You're MORE COMFORTABLE!
— Your Friedrich squeezes the excess moisture from humid air (up to 75 quarts a day).

You're FRESHER!
— Friedrich's heavy-duty filter eliminates most of the dust, pollen and other air-borne impurities.

You're UNDISTURBED!
— Friedrich cools, dries, freshens . . . but quietly. You'll hardly notice its gentle hum.

AND YOU'RE SAVING MONEY!
— With Friedrich you're getting the highest quality, but you're paying less in electric bills to operate it!

• Bowling •

By JIM ADKINS

Yes, the big question now is what to write about. Leagues are all but over, and I wish I could say Summer is here, but I should say "and the rains came." The 1964 Bowling banquets are things of the past. The Bowler of the Year — The Champion of Champions — The City association winners, and all the league winners are bursting at the seams, and willing to display their trophies at the drop of a hat.

★ ★ ★

Summer leagues are starting, and more champions will be crowned. It has been an eventful year, and although no new records were set, many good games and series were rolled by both men and women.

★ ★ ★

The men's and women's association have had a number of changes, and of course we can't help but feel that all the new officers and directors will work harder than ever to fill the big boots of their predecessors. We all look forward to bigger and better things next year.

I believe the whole bowling world of Pampa, and even many non - bowlers wish to thank the Pampa News for their splendid cooperation and coverage this past year. Many thanks to Maxine Hawkins and Jimmy Adkins for writing such entertaining columns.

The mens "year book" will soon be available and by the way — Mr. A. L. MacDonald, the A.J.B.C. field representative, attended a meeting of the Executive Board here at Pampa. He was very enthusiastic in his praise of Pampa's Year Book — staging that he had heard many favorable comments over his territory.

★ ★ ★

Look for greater things in the Junior circles also this year. This Saturday four youngsters are representing Pampa at Amarillo, in a roll-off to determine the District Champions. Carol Belmont and Don Rader are the Senior winners from here. Janet Morgan and Buddy Newton represent the Juniors.

★ ★ ★

For a good suggestion to all of you who missed the fun of bowling this year, — mostly because you thought you weren't good enough — now is the time to get started and be all set to join in all the fun next fall.

Let's see lots of you at the lanes —

Timmy Adsit Wins Jaycee Tennis Meet

Tim Adsit outlasted 10 other contenders, most of them his Pampa High teammates, to win the Pampa Jaycee Junior Champ Tennis Tournament at the PHS courts yesterday.

Adsit defeated long - time doubles partner Gene Eads in the finals of the boys round, 6-4, 6-2. The pair will go to Abilene to represent Pampa in the state Jaycee meet in July. Marilyn Milliron won the girls title unopposed as she was the only entrant in that division.

Adsit defeated Vic Keyes in the semi-final round, 6-1, 6-1, while Eads outlasted Roy Milliron, 6-1, 3-6, 6-4.

In the opening round of action, Rick Maxey defeated Dan Hood, 8-0; Velton Cummings defeated Steve Spidell, 8-4; while the others drew byes. In the second round, Adsit defeated Maxey, 8-0; Keyes defeated Jerry Palmer, 8-3; Milliron defeated Cummings, 8-3; and Eads defeated Freddy Guidry, 8-5.

• Stadium

(Continued From Page 9)

million, with an explosion to around 4 million expected within 20 years. In the whole bay area, including San Francisco, home of the baseball Giants and football Forty Niners and basketball Warriors, the population is near the 4 million mark right now.

There have been strong rumors in recent years that Kansas City will move a franchise here; that Cleveland, unless the attendance picks up, will come West; that several other clubs are anxious for the money that can be manufactured here.

But the American League, which needs another franchise in the West to balance with the Los Angeles Angels, is holding off until there is a decent place in which to play.

"We are very interested in the professional sports," says Nahas. "That's what we must have. But we also hope to handle college sports, such as football and basketball."

RAINOUTS RESCHEDULED

NEW YORK (UPI) — Two postponed games with the Chicago White Sox have been rescheduled by the New York Yankees. The first postponed game was set for June 12 as part of a twilight-night doubleheader and the second rained out contest will be made up Aug. 11 and set up a day-night twin bill.

10 Tickets to Tokyo Await Olympic Trials

NEW YORK (UPI) —A group of 80 amateur fighters, including two members of the 1960 Olympic team, will compete for 10 tickets to Tokyo when the final Olympic boxing trials get underway Monday.

Boxing is the first of five Olympic trials to be held on the site of the New York World's Fair. There will be 20 bouts Monday afternoon and night at the Singer Bowl and 20 semi - final matches Tuesday night. The 10 final fights will be staged Wednesday night.

There were eight qualifying tests for the Olympic trials. These included the national Amateur Athletic Union and national Golden Gloves tournaments, the championships of the four armed forces and eastern and western regional tournaments in Washington and Oakland, Calif.

Perhaps the most outstanding qualifier from the AAU tourney was heavyweight champion Buster Mathis of Grand Rapids, Mich. Mathis, 19, is six foot, three inches and weighs 293 pounds. He has won 16 of 19 fights in his three - year amateur career.

Seek Repeat Trips

The two former Olympians seeking repeat trips are welterweight Quincy Daniels of the U. S. Air Force and Nick Spanakos, a 25 - year - old bantamweight from Brooklyn, N. Y. Daniels won a bronze medal as a feather - weight, has won 115 fights and drawn eight in 145 amateur bouts.

In addition to Daniels and Spanakos, there are nine other competitors who took part in the 1960 trials but failed to gain the Olympics. These include flyweight Bob Carmody of the Army, Charles Brown, the current inter - service 125 - pound champion; Tony Gibson of Spokane, Wash., present AAU light middleweight champion; lightweights Herman Braxton of the Air Force and Henry Aaron, the Army champion; light middleweight Roosevelt Sanders of the Marines; light heavyweight Jim Rosette of the Navy and heavyweights Wyce Westbrook of Cincinnati and Pick Pettigrew, the all - Navy champion.

Two-Day Tournament

The armed forces has contributed 43 men among the 80 qualifiers, including the champions from all four branches. The 10 inter - service champions were decided in a two-day tournament held at Camp LeJeune, N.C., last week.

Three inter - service champions successfully defended their titles from 1963. They were Marine welterweight Maurice Frilot, Brown and Carmody.

The other champions are bantamweight Lou Johnson from the Bolling Air Force Base in Washington; lightweight Himmy Wright, a Marine stationed on Okinawa; light welterweight Charley Ellis, also the all-Army and Army European ruler; light middleweight Ray Owens of Fort Campbell; middleweight John James of Fort Sill; light heavyweight Art Redden of the Marine base at Camp LeJeune; and heavyweight Al Wilson of the Marines.

Mickey In Big Lead

MUSKOGEE, Okla. (UPI)— Top money winner Mickey Wright tied her own course record Saturday with a two-under-par 68 to take an overwhelming seven-stroke lead in the $9,000 Muskogee Civitan ladies PGA tournament.

The score gave Miss Wright a 36-hole total of 142 ahead of three golfers tied for second in the tourney which ends Sunday. Deadlocked at 149 were Ruth Jessen, who was second best Saturday with a 73 and Shirley Spork and Marilynn Smith.

Miss Wright missed a two foot putt on the 18th green which would have broken the woman's record she set last year over the rolling 6,410 yard Muskogee Country Club course. She won by eight strokes thanks to the final round 68 last year.

The 13th presented problems for Miss Wright as she three putted the par four hole for a double bogey. The long driving Miss Wright jumped to the front with birdies on three of the first five holes on the way to her 33-35 adding a birdie on the 14th.

She won a record 13 tourneys and $34,000 and this year has won three of five tourneys.

BAUTA LEFT BEHIND

NEW YORK (UPI) — Relief pitcher Ed Bauta will be left behind when the New York Mets begin a western trip tonight in San Francisco. Bauta, who had an 0-2 record this season, will probably be placed on waivers by the Mets.

TEXAS OUTDOORS

By WILLIAM HAMILTON
UPI Outdoors Writer

A community investment in fishing reef materials is paying big dividends to red snapper fishermen in the Port Aransas area.

Supported by the State Parks and Wildlife Department, sportsmen along the gulf fishing resort dipped deep in their own pockets to finance debris and heavy pipes for a reef, hoping to lure in the big ones.

Members of the Port Aransas Boatmen's Association launched the effort in June 1963 by contributing $1,000 from the club treasury. Ben Vaughan of the old Game and Fish Commission lent a hand and publicity went out along the coast.

Plenty of Material

In a matter of days, material and money came rolling in. The city of Aransas Pass got in on the act, offering storage space on its barge dock for the growing piles of reef material. Companies from San Antonio, Rockport and Corpus Christi donated material.

Roy Swann of the Corpus Christi Caller-Times gave the project a few good words and offers of assistance swarmed in. An Air Force reserve squadron commander at Carswell Air Force base near Fort Worth made the most unique bid.

The commander agreed to furnish nine planes to haul the heavy concrete material and dump it in place. He said the airlift would give his men practice in dropping supplies.

A lighted buoy marked the spot and the first bargeload went out in early fall of 1963. In november the Parks and Wildlife Department plunked two bargeloads of concrete pipe and tile at the site.

Still Incomplete

The project is still incomplete, Swann said, but the Aransas Pass-Port Aransas Chamber of Commerce has joined in hoping to build a total of five small reefs in surfy areas around St. Josephs and Padre Islands.

Aransas Pass shrimpers objected to the extra reefs, and the project has stalled. But the initial reef is a sure winner.

Swann tells of an effort by workmen dumping a loaf of pipe at the marker, which is situated in 60 feet of water about one and one-fourth miles southwest of the sea buoy.

"They decided to try their luck," reported Swann. "A piece of weiner from a lunch pail caught a sand trout which was used for cut bait."

From then on, they caught snapper.

Why Boo Casey?

Heard in the Dugouts:

By MILTON RICHMAN
UPI Sports Writer

NEW YORK (UPI) — Heard in the dugouts:

This week's prize for consummate idiocy goes to those fans who apparently get their kicks by booing a guy like Casey Stengel for no good reason.

Sure, everyone has a right to boo — if that's how he enjoys himself. But why a man like Stengel?

Curious as to the motive behind such boos, we went around asking some of those who showered catcalls on the 73-year-old manager of the Mets and here are a few of the answers:

"If it wasn't for him, the team would be winning."

"He's too old to manage. Why doesn't he give a younger fellow a chance?"

"Stengel keeps shifting his players around too much. He ought to stick with the same man at each position."

And so on.

Virtually all the replies bordered on the asinine.

Outthinks Most

To begin with, even John McGraw couldn't do any better with the Mets and there are few, if any, other managers around who outthink Stengel. That's right, even at his age.

Secondly, the Mets' management wants Casey more than he wants them. Remember, they came to him in the first place. And who do you think draws all those crowds — Joe Christopher?

Finally, Stengel spends more hours at his job than any other man in baseball today. Many fans leave after six or seven innings. He hangs in there until the final out — and long afterward, too.

No one is indispensable, in war, in an office or in baseball, but the game will lose something the day Casey quits. He's doing the best he can and then some. Those critics ought to get off his back even if they don't choose to get on his bandwagon ...

Rookie Tony Oliva of the Twins may be burning up the American League right now but the pitchers claim the toughest batter to get out, especially with men on, is Cleveland's Leon Wagner ...

Don't be surprised if the Angeles peddle Dean Chance before the trading deadline. He and General Manager Fred Haney don't see eye-to-eye...

Cold Shower

Some ball players go to extremes trying to break a Reds recently stepped right unslump. Chico Cardenas of the der a needle cold shower. What's so odd about that? He still had his uniform on ...

The Cardinals have retired Stan Musial's No. 6 uniform, yet always take it along on road trips just in case the man decides to suit up and give the youngsters some batting tips...

Gil Hodges claims managing is at least 25 times harder than playing. As a player, the Washington skipper says he generally felt a defeat only for himself. But as a manager "you feel a defeat for all 25 men on your club." ...

Believe it or not, Clete Boyer has been fighting ground balls since the season began. The Yankee third baseman, considered one of the finest "gloves" in the game, admits he was nervous about fielding grounders for the past few weeks but is finally overcoming his anxiety ...

RETURN CONTRACTS

NEW YORK (UPI) — A pair of 240-pound sophomores, Jerry Hillebrand and Bob Taylor of the New York football Giants, returned their signed contracts for the 1964 season yesterday.

Hillebrand, who played left corner linebacker last season, is expected to replace Sam Huff at middle linebacker while Taylor is counted upon to take over Andy Robustelli's defensive right end post.

TTC Girls Need Sport Sugar Dad

DALLAS (UPI) — Mrs. Margaret Ellison, coach of a shapely track team that specializes in way-out hair-dos, thinks her bouffant belles can win some Olympic medals for the United States, but she's desperately in need of a sports - minded "sugar daddy."

The 46-year-old Mrs. Ellison, a secretary in what has become her "spare time," is in her fourth season as chief ramrod of the Texas Track Club, composed of her daughter and a half dozen or more other athletics - minded lassies.

Seven or eight girls (only one of them is married; form the nucleus from which the slightly-built, strawberry blonde coach feels she can develop at least three and maybe more U.S. Olympic team members. She also has a local feeder club of a dozen or so younger girls as well as some other girl's track clubs in the state, to draw on.

"But, we need a sponsor desperately," Mrs. Ellison pleadingly emphasizes in talking about the club's future and that of the U.S. track program generally.

"It takes money to finance their trips and I just can't afford it on my own — and neither can the girls," she said.

She said she had dug into her own pocketbook for about $3,000 last year alone on the club.

"Right now, my primary concern is finding someone, preferably an organization or firm, to pick up the tab for the $1,400 needed to fly myself and the six top performers to Hanford, Calif., for the July 10-11 Women's National AAU track and field championships," she said.

The girls, their heaped - up hair - dos bouncing instead of blowing in the wind, have competed in nearly a dozen meets this season, starting with winter indoor meets stretching from Texas to Los Angeles.

SYNTHETIC RACING STRIP

GOSHEN, N.Y. (UPI) — The Hall of Fame of the Trotter has been presented with a miniature model of harness racing's first synthetic racing strip —the tartan track from the Meadows in Washington, Pa.

• SWC

(Continued From Page 9)

viding board, room, tuition, stated institutional fees and $10 per month for "laundry and incidental expense," nothing else.

A footnote in the rule book explains there may be no promises of any aid or jobs to any other persons, such as aid for a friend or relative.

Rules Sub-divided

Transportation to the campus to look over the school, an obvious necessity to make a wise choice, comes under several sections of the rules.

There may be any number of such visits of two days or less, but only one official visit can be paid for by the school. The other trips to the campus can be paid for by friends or alumni providing they come along.

Parents or friends also may be brought by the alumni, in a car or a plane, but there may be no side trips to another city. Once at the campus the parents can eat three meals at the friend's expense but he can pay no other expenses, such as hotel bills.

Anything else comes under the heading of lavish entertainment, which of course cannot be heaped on the prospect either.

Pricklypear Control

Tom Rogers, who farms just east of Pampa, called about methods of controlling pricklypear. There is an old established method of taking a space or other device and grubbing them from the ground. A much newer and less back breaking method of taking a spade or Four pounds of 2,4,5-T herbicidal spray mixed in 50 gallons of diesel sprayed to the point of slight run off will kill these pests. We mailed Tom a copy of Leaflet 414 entitled "Brush Control with 2,4,5-T."

Pre-Emergent Sprays

Irvin Cole plans to use one of the new pre-emergent sprays on his cotton this year. These sprays can save up to $12 to $15 per acre in hand hoe bills. It requires some additional rigging if applied at the time of planting. We are attempting to get some assistance from Dr. Allen Wiese, agronomist, Bushland Experiment Station.

Cattle Oilers

Glen McConnell of Pampa was by our office last week talking cattle oilers. At his request, we wrote to Dr. R. E. Patterson, Texas Agricultural Experiment Station Headquarters, to see if they would be interested in testing the type cattle oiler which McConnell has been selling in this area.

Beef Cattle Imports

I was visiting with a good friend recently that I enjoy arguing with a great deal. He took issue with my letter concerning the beef import situation whereby I quoted figures showing that we sold Australia $1 million dollars more goods than they sold to us in 1962. He had some good points. First was the fact that we export very little meat. That the beef cattleman was getting the short end of the deal. This is very true. However, there would never be any kind of world trade if all we did was trade like products for like products. For instance, what is the point in the U.S. shipping two ship loads of wheat to West Germany if we are to receive two ship loads of wheat of like quality in return. The only way a beef cattleman can console himself on this issue is the fact that a great many beef cattlemen are also wheat farmers. One-half of this beef cattlemen's wheat was exported to foreign countries in 1963. Chances are three out of every four bushels of a High Plains wheat farmer's production went into export because of its high quality for milling.

Large quantities of our milo production in the High Plains are being shipped all over the world. Japan is one of the larger importers. In return manufacturers in the U.S. of transistor radios, etc. have had some severe economic adjustments to make. Many of them have put factories in Japan and other foreign nations.

Increased world trading by the U.S. has drawn Bi-Partisan support for a number of years.

The second thing my friend mentioned was the fact that beef imports were hurting beef cattle prices in the United States.

No one will deny this. The USDA, in its November 1963 issue of "Livestock & Meat Situation Report" stated that a 20 per cent increase in meat imports over the 1962 level would probably result in a drop of 80 to 90 cents per 100 lbs. on cows in this country.

Many beef cattlemen producers believe prices have been depressed for more than the USDA estimate. However, there is some indication the USDA figures might be over estimating the drop in prices as a result of a given volumn of imports. For instance choice steers averaged $26.08 per CWT in Chicago during January and February of 1963. Prices of choice steers in January-February 1964 had dropped to an average of $21.92.

Beef imports were 11 per cent less in January - February 1964 than in January-February 1963.

Thus, while beef imports averaged 11 per cent less in January-February 1964 as compared to the same period in 1963, a drop in cattle prices of over $4.00 per CWT occurred.

Too many feedlots, too many cattle in the United States (106 million, as of Jan. 1, 1964) too many fat cattle in the United States make the meat import situation look like a snorter dwarf.

Weather Slices Wheat on Plains

AUSTIN (UPI)—Dry weather in the Texas Plains, where two-thirds of the state's wheat is grown, has sliced 11 million bushels from the 1964 winter wheat crop, the U.S. Department of Agriculture reports.

The difference, which came between the April 1 and May 1 estimates, was due to deteriorating conditions on the High Plains. It would ultimately mean a loss of some $22 million to Texas wheat growers at the current government price support of $2 a bushel.

Conditions began to get bad in March. Before that, moisture from large winter snows had sustained the crops. About one-third of the area is irrigated, but the other two-thirds depend wholly on the elements.

Wheat acreage in the state is up nearly half a million acres over last year with an estimated 2,808,000 acres planted right now. Production is estimated at 18 bushels per acre, compared with 17.5 per acre last year.

Wheat in the irrigated sections of the Plains, although suffering some recent wind damage, is generally in good shape. So is wheat in North Texas from the Cross Timbers eastward.

These areas have received beneficial rains in recent weeks.

Murphy to Talk At Waco Parley

Undersecretary of Agriculture Charles S. Murphy will be the principal speaker June 5 at the 25th annual meeting of the American Cotton Congress in Waco.

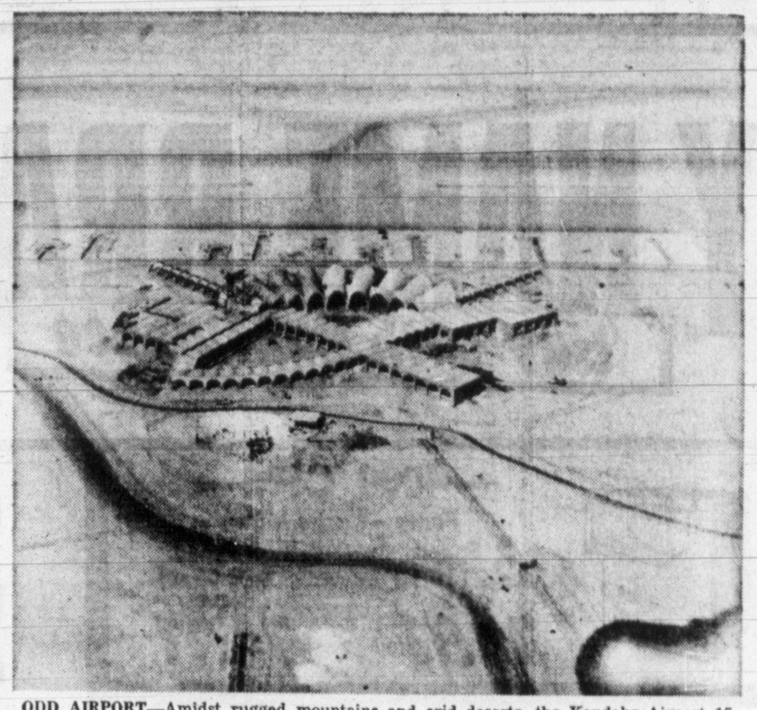

Murphy is expected to discuss the recently enacted cotton program and the outlook for legislation when the present law expires in 1965.

The Cotton Congress will include a special session on markets, production and research over a two-day period, June 5-6, in the Raleigh Hotel.

The Cotton Congress is a forum for all cotton industry interests and is held once a year for the exchange of new ideas and discussion of problems.

The theme for the silver anniversary meeting will be "Cotton's Past, Present and Future." All meetings are open to the general public without charge.

Joining Murphy for special Addresses before the group will be Dr. M. K. Horne, National Cotton Council economist and F. Marion Rhodes, president of the New York Cotton Exchange.

ODD AIRPORT—Amidst rugged mountains and arid deserts, the Kandahr Airport 15 miles south of Kabul, Afghanistan, looks like an oasis in the desert. General design is far from that of airport buildings in the United States because it must serve a different purpose. It provides shelter from the blazing desert sun and the sometimes vicious elements.

Watch Should Be Continued

Stockmen Warned on Screwworm

COLLEGE STATION (Spl) — The Titanic was unsinkable, but it sank. Livestock producers must continue to keep a watch for possible screwworm cases or the entire screwworm eradication program may go the way of the Titanic, warns Weldon H. Newton, assistant entomologist for the Texas Agricultural Extension Service.

As many cattlemen will testify, the screwworm eradication program is proving to be one of the most worthwhile efforts ever put forth by the livestock industry, but critical days do lie ahead.

Reports being received from across the state show that too many producers may be relaxing their vigilance. Because of the tremendous success of the program, cattlemen are letting many wounds and cuts go untreated. Many producers seem to feel the screwworm is a thing of the past, Newton says, but this is not so. There is still much work to be done. One undetected or untreated case in an area can result in a population explosion of the pest which could get out of hand and reinfest large areas of the state, causing a tremendous setback to the program.

Another fallacy which a few producers believe is that they can accurately distinguish between blowfly maggots and screwworms, and do not bother to collect and submit larvae to screwworm officials. One point to consider: even trained technicians rely on the microscope for positive identification of the maggots.

Every livestock producer should do his utmost in helping protect the investment in the screwworm eradication program, says Newton. He recommends that all wounds be protected until they heal by using a preventive smear such as EQ 335 or Smear 62 or preventive sprays of 0.25 per cent Co-Ral or 0.5 per cent Korlan following any working of the livestock from which open wounds result.

Herbicides Can Be Useful as Tools

Herbicides can be useful tools for controlling weeds if they are properly applied. But Gray County Agent Foster Whaley warns that improper application can cause crop damage and lawsuits from neighbors.

To get satisfactory results from herbicides, Whaley says to follow the directions on the label as approved by the U.S. Department of Agriculture.

To avoid chemical drift onto susceptible broadleaf plants, Whaley says to make application only when wind velocity is below 10 m.p.h. He urges all herbicide users to have some type of wind gauge in the field so they can know when conditions become dangerous.

Low volatile or amine salt formulations are safest, Whaley said. They do not vaporize and drift as much as the high volatile formulations.

The county agent gave these three rules for applying herbicides:

1. Use chemicals only on crops for which they are recommended.
2. Use only the quantity called for on the label.
3. Apply the chemicals only at time recommended on the label.

Texas A&M University specialists report that the greatest problems with herbicides are occurring where inexperienced operators are making application. They suggest that even on extremely small plots, great care be taken when applying chemicals.

All interested persons are advised by Whaley to utilize information on herbicides available at the county Extension office.

Record Calf Crop Shown at Prison

HUNTSVILLE (Spl) — The Texas Department of Corrections spring cattle roundup disclosed a record average calf crop of 88.5 per cent, it was reported by Dr. George J. Beto, director of the state's penal system.

The average calf crop last year was 75.7 per cent, and in 1961 the average was 61.5 per cent, Dr. Beto added.

Among the nine farm units the Clemens Unit in Brazoria County reported an average of 94.9 per cent, according to L. G. Bounds, unit warden.

The Derrington Unit of Brazoria County, R. M. Cousins, warden, came through with a 94.9 per cent average, followed by the Retrive unit, also in Brazoria County, with a high of 92.9 per cent.

Z. A. Harrelson is warden at the Retrive Unit.

Dr. Beto gave four major reasons for the high calf crop this spring, as follows:

Pregnancy testing, intelligent culling, adequate pastures, and an improved winter feeding program.

B. W. Frierson, assistant prison director for agriculture, expressed his appreciation to the farm wardens and their staffs for what he termed "a job well done."

Frierson also pointed out that the prison's beef program makes the per capita cost of feeding inmates the lowest in the nation.

Save kitchen mileage by planning meal preparation carefully and by using a tray cart in setting the table, for example. And save your back by using wheels, such as a laundry cart to carry heavy washloads, say Extension home management specialists.

Texas Wheat Crop Estimated at Low

AMARILLO (Spl) — Texas wheat production prospects based on May 1 conditions is estimated at 50,544,000 bushels according to the Texas Crop and Livestock Reporting Service. This is down 10,641,000 from the 61,185,000 bushels estimated last month but 24 per cent above last year's short crop of 40,618,000 bushels. Acres remaining to be harvested for grain are set at 2,808,000 acres.

Few effective rains have fallen in the Texas Panhandle and South Plains resulting in further deterioration of dry - land acreage. Irrigated acreage is considered normal for this time of year.

The following reflects the latest reports on area conditions received by this office:

AMARILLO, VEGA, CANYON, PANHANDLE and CLAUDE: Dry-land acreage has deteriorated considerably during the last two weeks and is considered poor at this time. Irrigated wheat remains in good condition. Some reports of insects but damage is considered to be light. Harvest should get underway about June 15.

PAMPA: Dry-land acreage from average to poor condition due to spotty rains in parts of the country. Average to above average yields expected from irrigated acreage.

MIAMI and CANADIAN: Dry-land acreage expected to yield average to above average production. Irrigated acreage in good condition.

LIPSCOMB: Dry-land acreage reported above average. Irrigated acreage in good condition.

SHAMROCK: Reports indicate an average production from dry - land acreage. Irrigated wheat in good condition.

Texas A&M University will be host for the third annual Human Nutrition Workshop for home demonstration agents of the state, May 5-8. Authorities from the fields of research, nutrition, health, biochemistry, medicine and dental science will be featured. "Nutrition Over the Life Span" will be the theme.

A recent study called "Food Preferences of Men in the U. S. Armed Forces" has pointed up some interesting food facts: First on the list is fresh milk, then hot rolls, hot biscuits, strawberry shortcake, grilled steak, ice cream sundae, fried chicken, French fried potatoes and roast turkey.

7:00—Calico Capers Square Dancers

SUNDAY
2:00—Open; All Ages Swim; Gym Open Activity
5:00—Close

A man of 60 has spent more than 3 years of his life eating, according to novelist Arnold Bennett. This provides food for thought. How many days has his wife spent cooking for him? With all of today's conveniences — both mechanical and edible —the homemaker is probably less kitchen - bound today than at any time since man discovered fire to make food more palatable.

SCS News

By VAN MILLS

D. W. Swain has completed 37 acres of graded borders on his farm south of Kingsmill. These borders are level from side to side and have a grade in the direction the water flows. These borders will allow for a uniform distribution of water. Swain will plant this 37 acres in Midland Bermudagrass. Border irrigation is best suited for watering crops such as Alfalfa, wheat and other grasses.

A pit type pond was completed on the Jack Bailey farm N.W. of McLean.

C. M. Herrington is constructing diversion and standard terraces on his farm west of McLean. Herrington is carrying out a complete conservation program. A diversion terrace was completed for Bob Massey on his stockfarm west of McLean. An irrigation ditch was staked for Irvin Cole on his farm south of Pampa. Irvin recently completed a new irrigation well on this farm.

Ercy Cubine seeded an old cultivated field on his stock farm west of McLean to Sideoats Grama, Indiangrass and Mixed Bluestems. These are native grasses. This old field had not produced any grazing. It had grown up in junk grasses such as Silver Bluestem, Needle and Sand Dropseed. Ercy ran wide sweeps under the junk grass and then drilled the native grass mixture into existing cover.

Powdered grapefruit juice, which dissolves easily in water and has a good fresh flavor, is about to be market tested although it is still in the experimental stages. Developed at Winter Haven, Florida, by scientists of the U. S. Department of Agriculture's Agricultural Research Service and the Florida Citrus Commission, the scientists used the foam - mat drying process developed at USDA's Western Utilization Research Laboratory. Already on the market is a dried grapefruit juice powder made by a vacuum drying process, also developed by USDA scientists.

Early Wheat Has Advantage

WASHINGTON (UPI)— Rep. Bob Dole, R- Kan., said today that farmers who harvest wheat early, like those in Texas, will get 50 cents to $1 more for their crop than farmers farther north who harvest later.

This may mean a big push and White House pressure to enact the wheat-cotton bill," Dole said Wednesday in a statement.

"Under present law the price support level will not change until July 1 and is presently $1.82 per bushel. On July, 1, under the newly enacted program, the support price will drop to $1.30 per bushel and the market will no doubt drop a like amount.

"This in effect means that Texas wheat producers harvesting now or who will be in the near future will gain a tremendous advantage."

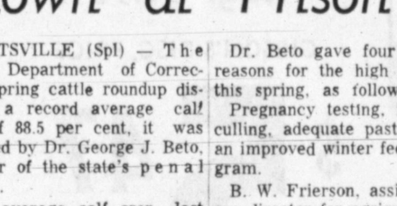

Dole represents the largest wheat growing district in the nation. The harvest in his district comes mostly after the new farm bill goes into effect July 1.

Dole said farmers in Kansas and other late harvesting areas "are being discriminated against under present regulations governing administration of the new wheat-cotton law."

John Box, agronomist for the Service, advises cotton producers to shoot for a cotton crop in 150 days. He says a bale per acre can be produced and harvested in 5 months if the crop is kept on its normal growth schedule. Good management, he concludes, is the key to profitable cotton production. Be prepared to do the right thing at the right time and in the right way.

SPRAY away weeds

If weeds are getting the "upper hand" around your place, we can help you. Our complete line of quality weed killers includes:
Amoco 2,4-D Weed Killers—for broad-leaved weeds in corn, small grains, pastures and other areas.
Amoco 2,4,5-T Amine or LV Ester—to control hard-to-kill broad-leaved weeds in certain crops, and brush and trees on other land.
Alanap—for pre-emergence weed control in soybeans, peanuts and other crops.
Dowpon—to control seedling and established grasses in many crops and on non-cropped land.
Let's talk over your weed problems . . . now!

Beta Sigma Phi Awards Mrs. D. V. Burton Woman of the Year Honors at Tea Today

Yellow Rose Tea To Be In First Baptist Church

Beta Sigma Phi will present the Woman of the Year, 1964, Mrs. D. V. (Lottie) Burton, active member of the First Christian Church, homemaker, study club member and PEO participant today at 2 p.m. in the First Baptist Church Annex.

• • •

REARED IN KANSAS, Mrs. Burton took great pride in the teaching field. A Christian love and understanding displayed in the classroom still abides in her home. Married 52 years, she is the mother of three children, Mrs. Doc Day, Atlanta, Ga., wife of the vice president of Colonial Pipe Line, and active member of the Christian Church. Mrs. Day presents book reviews to social and educational clubs as a hobby. J. C. Burton, a son, is a major in the United States Air Force and resides in Edgewood Arsenal, Md., with his wife and daughter. Bill Burton is in the construction business in Bonita, Calif., is married and the father of three children. Mrs. Burton is also the proud grandmother of one great - grandchild.

• • •

A COMPETENT BUSINESS WOMAN, Mrs. Burton was bookkeeper for the Burton business before her husband's retirement and served as business manager for the company.

• • •

SUPPORT OF CHURCH WOMEN is given by Lottie. She served as president in 1944 and program chairman in 1945. She has a vital interest in the local colored nursery and maintains an interest in the Exceptional Children whose Bible class is conducted on Saturdays at the First Christian Church. She is presently serving as a representative on the Board of Managers of the Church.

• • •

STUDY CLUB ACTIVITY is of importance to Mrs. Burton who is a member of the oldest Federated Club in Pampa, El Progresso. She has served as president and her efforts in behalf of the organization during World War II include Red Cross donations, clothing collections for United National Clothing Drives; leading the club in completing a landscaping project at McClosky Military Hospital in Waco and programs in the old Pampa Air Base Hospital. During her term contributions were made by El Progresso to the Penny Art Musical Fund.

She is also a patroness member of the Treble Clef Club and takes a vital interest in promoting a higher education for youth, which entails her energies as a member of PEO. She is past president of this organization which will for the first time this year give a scholarship to a Pampa girl.

• • •

LOVE OF CHURCH perhaps is the most important part of her happy life. She was teacher for the Fellowship Class for Business Women for over eight years and presently acts as a substitute teacher. She attends and helps serve the Sunday School teachers breakfast conducted on Saturday mornings. She has served on the membership committee of Christian Women's Fellowship and is president of Christian Women's Fellowship for the second year. In this capacity, Mrs. Burton has ben credited with success and completion of many projects including almast double attendance, aid to the year book committee and creation of interest in projects by all members of the group. She visits each of the eight missionary groups at least once during the year and participates in Woman's Day Programs for the church. She has donated food for Vacation Bible School and was hostess in 1963 for the Vacation Church School Open House. Each month she acts as hostess for the executive board of Christian Women's Fellowship. She visits shut-ins and writes stimulating notes of encouragement to young people who participate in various programs in the church. She attended the annual Business and Professional Women's Retreat for Christian Churches in Brownwood in 1962 as a member of the program and was delegate to the 1963 Retreat at Ceta Glenn.

KNOWN to her many friends as an excellent cook and gracious hostess, her family too holds her in high esteem. Her husband presents her with a Valentine each year to remind her that she is still special, and young at heart. With a personality that radiates with Christian love, she presents a challenge to all who know her.

• • •

REV. RICHARD E. CREWS, former pastor of the First Christian Church, expresses the feeling of Mrs. Burton's friends in describing her from the Book of Proverbs: "She opens her mouth with wisdom and the teaching of kindness is on her tongue. She looks well to the ways of her household and does not eat the bread of idleness. Her children rise up and call her blessed; her husband also."

Mrs. D. V. Burton
First Lady of Pampa 1964

CITIZEN — Lower left, Mrs. D. V. Burton is active in civic, church and educational work, devoting a large part of her time and energy to the welfare of others.

CORRESPONDENT — Second from left, Many times young people have opened a note of encouragement from Mrs. Burton whose hobby is keeping current information on young people of the community who have launched a special project or achieved an honor through study and hard work.

FAMILY LOVE — Lower right, Mrs. Doc (Dorene) Day, left and D. V. Burton, right, toast Mrs. Burton on her new position as Woman of the Year.

Hand-wiping and clean - up for sportsmen, gardeners and the like become easy with an "outdoor" towel, which can be attached to a belt via a nylon snap strap. It is made of cotton terry and is machine-washable. (Morgan - Jones, Inc., 404 Fifth Ave., New York, N.Y.).

MUSICAL TEA—Mrs. W. D. Waters will present students in recital during a Musical Tea set for May 22 at 8 p.m. in her studio, 1224 Christine. Students who will perform are, seated left to right, Mary Ruth Pruitt, Jane Howard, San Williams, Jim Fatheree. Standing, left to right, are Susan Fatheree, David Pruitt and Mimi Miller.

Kerley-Crossman Plans Projects

Plans for the Poppy Day sale, May 23, were completed by the Kerley - Crossman Unit of the American Legion Auxiliary in a meeting conducted in the home of Mrs. J. Ray Martin recently.

The club announced plans to entertain Senior Citizens on May 28 and to present tray favors to Worley Hospital on Memorial Day.

Mrs. Clay Coston announced that Pat Ludeman had been selected to attend Girls State with Paula Sealey named as alternate.

The Auxiliary voted to purchase a clergy chair for the chapel at the Veterans Hospital in Amarillo and endorsed Mrs. Jack Flynt as Department President.

A display of Poppy Posters was exhibited and two selections to the Department Convention were made. Posters were made in an art class instructed by Mrs. Roy Riley.

Mrs. Martin, assisted by Mrs. Coston, served refreshments following the business meeting.

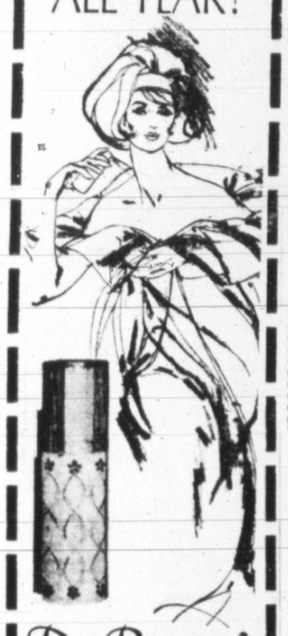

Mrs. F. W. Shotwell will host the group June 4 at 7:30 a.m.

Scouting Scoops

By LINDA MOORE
Senior Troop 5

Well, by now I guess Troop 2 is widely known. On April 25 the girls went to Canyon by bus, but before leaving, they used white shoe polish and wrote their troop number on the side.

The troop went to the Canyon Museum where they studied Indian Folk Lore to complete their badge. The girls were helped by Senior Scouts from Canyon, who were acting as guides to earn their Museum Aide bar.

Afterward the girls went to the Palo Duro Canyons where they had lunch and hiked. The troop topped their trip by riding the sight - seeing train and the skyride. The girls met other troops from Canyon and Liberal.

On Monday, Troop 2 visited Twilight Acres. The girls made favors for the folks and had a planned program of songs. Cookies were served to everyone. Leaders of the troop are Mrs. Mamie Maguire and Mrs. James Brumley.

Brownies of Troop 10-C attended the Tasting Tea of Twentieth Century Allegro at St. Vincent de Paul Cafeteria on April 28. This was the conclusion of their study of Social Graces. Brownies attending were: Carol Ann Davis, Sheree Files, Debra Erwin, Elizabeth Houchin, Susan Kear, Cassandra Mangold, Sherry Mills, Sabrina Miner, Beverly Minyard, Joyce Minyard, Martha Plunk, Daila Tomlin, Margaret Wilks, and their leaders, Mrs. Pete Erwin, Mrs. J. A. Plunk and Mrs. H. N. Wilks.

Junior Troop 214 enjoyed another outing and cook - out Saturday to complete the Backyard Fun badge.

Everyone enjoyed building the fire, roasting weiners, and toasting a biscuit - twist, called a "Doughboy", around a stick. When the "Doughboys" were done everyone filled them with butter and jelly.

The girls played games from England, Japan and Sweden, to help two of the girls complete the Worldwide Games badge. Girls earning the World Song and World Neighbor badges were also helped. Thus the girls performed a good deed along with having a lot of fun in the troop's favorite spot (the out-of-doors). The troop's leader is Mrs. O. C. Cox.

Remember Scouts do a good turn daily, it won't hurt you in the least, even if its just a smile or a friendly "hello", or a helping hand. People will notice your deed and know that you are a Scout.

Federation Report, Installation Highlight Varietas Club Meeting

A report of Federation activities and installation of officers highlighted the Varietas Study Club meet conducted in the home of Mrs. Lee Harrah recently.

Mrs. R. W. Lane, delegate to the Fourth Annual Convention of the Top of Texas District in Borger, reported the participation of Pampa members.

She commended the leadership of Mrs. E. H. Morris, district president for the past two years and predicted a successful tenure for Mrs. Robert T. Lindsay, Canyon, incoming president.

A highlight of the convention, according to Mrs. Lane, was the banquet speaker, Louise Bushnell, New York. She offered a call to club-women to participate in good government. The fine arts program presented during the convention highlighted activities and was directed by Mrs. Dolly Lynch.

In evaluating the work done by district club women, Mrs. Lane pointed out club projects which included libraries, playgrounds and equipment, parks, college loan funds and scholarships, sponsorship of arts and crafts show, hours donated to shut-ins, and to national fund drives. All such activites reflected the convention theme — "Knowledge Brings Responsibilities. She concluded that clubwomen are examples of the thoughts expressed in the club collect by Mary Stewart.

Mrs. Luther Pierson used the color motif in installing officers for 1964-1965. In presenting a red ribbon to Mrs. R. W. Lane, president, she said that red has the highest vibration of colors and can be seen from the greatest distance. It commands respect and is worn by nobility. This sets the president apart as the leader and respected officer.

A blue ribbon was presented to Mrs. J. E. Kirchman, vice president. Blue was chosen by the early English Knights of the Garter who were selected to support the king in his reign. Likewise, the vice president is to be close to the president and share the responsibility when called upon.

To Mrs. J. R. Spearman, secretary, she presented a white ribbon representing a sheet of paper on which record notes and minutes of meeting are kept.

Mrs. S. C. Evans received a gold ribbon signifying the keeping of the monies and records of expenditures.

A green ribbon for Mrs. C. L. McKinney, parliamentarian represented the color of God's grass roots which are our basic rules of order.

To Mrs. Joe Z. Weaver, reporter, she gave a black ribbon representing the ink used to report the meetings, the study and activities of the club.

Individually no ribbon is strong but in braiding, they become a strong cord. So they, the officers, in working together, bind the club together.

Mrs. Sherman White was presented with a gift from the club in appreciation for her efforts and she returned her gratitude for club cooperation.

Mrs. J. B. Denson was welcomed as a guest.

Members attending the meeting were Mmes. Tilden Armstrong, H. H. Butler, Cecil Dalton and H. Price Dosier, the officers and installing officer.

Canadian Honors Woman of the Year

CANADIAN (Spl) — The Canadian chapter of the Rebekah Lodge held a reception recently at the WCTU building in honor of a member, Mrs. F. D. (Mabel) Teas, who was voted Canadian's Woman of the Year for 1963.

Mrs. Teas, a resident of Canadian since 1896, is still, at the age of 83, one of the most active members of the First Methodist church, the WSCS, the Pioneer club the WCTU, the Arts and Crafts Club, the Past Noble Grand Club, the As-You-Like-It club as well as the Rebakah Lodge. She has always worked for all worthwhile causes and projects for the betterment of Canadian.

In the receiving line with Mrs. Teas were her grandsons' wives, Mrs. Jim Waterfield and Mrs. Dick Waterfield.

Mrs. F. A. Blue registered the guests.

The serving table was draped with a pink cloth, covered with pink net. A cake in the

(See CANADIAN, Page 16)

Association Officers Installed at Meeting

The Pampa Music Teachers Association met for installation ceremonies and a luncheon recently in the home of Mrs. Lois Fagan.

Miss Ardath Johnson of the Musical Arts Conservatory in Amarillo was in charge of the installation ceremony, patterning her remarks after the musical form of the Sonata, giving suitable musical admonitions to each incoming officer. New officers include, Mrs. W. H. Fuller, president; Mrs. Calvin Whatley, vice president; Mrs. Fidela Yoder, secretary and Mrs. Charles Parr, treasurer.

Following the installation, a program of piano numbers was presented by two Amarillo guests, Mrs. Inez Jaquot and Mrs. Elizabeth Read. They played several two-piano selections including Blythe Bells, a composition which used several well-known themes from Bach chorales and arranged by Percy Grainger and "Spoon River" also a Grainger arrangement. Mrs. Jaquot also played a solo, "Soiree de Vienna" by Alfred Grunfeld. In appreciation of her work during the past year, a gift certificate was presented to Mrs. Fidelia Yoder.

Carrying out a musical motif, the serving table was beautifully decorated with an arrangement using notes and staff with flowers and candles. Styrofoam notes and other musical symbols were also used in the enclosed patio where guests and members ate from card tables appointed with note shaped place cards.

Other guests were Mrs. Grace Purviance and Mrs.

Alpha Iota Conclave, Kappa Kappa Iota, Conducts Luau at Final Meeting

Guests were seated on the floor around a simulated flower-banked pool for a Hawaiian luau held by Alpha Iota Conclave of Kappa Kappa Iota recently in the home of Miss Shelia Chisholm.

Members were dressed in Hawaiian costume. Candles, straw mats and leaves added to the atmosphere and Beaux Arts Studio representatives, Patty Lowrance and Carla Hollis performed a hula dance. Judy Neslage and Shelia Chisolm played piano duets.

The door prize, a Hawaiian Cookbook, was won by Miss Neslage.

Others attending were Mmes. John Best, Joe DiCosimo, Henry Gruben, James L. Jackson, Paul Keim, Don Meyers, Jack Parker, Jerry Peurifoy, Brownell Smith, Paul Tucker, W. L. Veale, Jack Williams and Misses Betty Boswell, Sue Durham, Stella Kiser, Geraldine Rampy and Peggy Turner.

● Canadian

(Continued From Page 15)

form of an open book centered the table. On its pages were inscribed the words, "Woman of the Year, Canadian, Texas, 1963." The cake was iced in white and the lettering and decorations of roses were in pink. A lady doll and an arrangement of pink roses completed the table decorations. Assisting with the serving were Mrs. Horace Rivers, Mrs. Jim Hoover, Mrs. Aubra Bentley, Mrs. Troy Moon and Mrs. Kenneth Mee. Refreshments of individual white cake decorated in pink, pink Hawaiian punch, nuts and mints were served from crystal service.

An enjoyable program was presented. Mrs. Erbin Crowell sang two solos. Mrs. George Earl Tubb played the accompaniment for one selection and Mrs. Danny Urschel for the other. Mrs. Urschel provided background music throughout the afternoon. The Christ Teens, Mary Thomas, Ethel Miller, Karen Norris, Dora Mae Hext, and Carolyn Harrington, sang two lovely numbers. Mrs. Bud Hoobler gave two readings. James Jackson sang a song accompanied by Mary Rutledge.

● Music Teachers

Honeycutt - Cross Vows Read In Bible Baptist Church

Bonnie Gail Honeycutt became the bride of Maurice W. Cross in a double ring ceremony read by Rev. Wayland Murray April 24 in the Bible Baptist Church.

Parents of the couple are Mr. and Mrs. Glenn Honeycutt, 210 E. Tuke, and Mrs. Charlene Cross, 624 N. Roberta and J. R. Cross, Aspermont.

BRIDE

Given in marriage by her father, the bride wore a white ensemble of lace, chiffon and taffeta. The low neckline followed a "V" line in the back. Fitted lace sleeves ended in petal points at the wrists.

She wore a strand of pearls, gift of the bridegroom, and a six pence in her shoe and carried a bouquet of white carnations on a Bible. Her veil fell shoulder-length from a crown taped with seed pearls.

ATTENDANTS

Arvella Powell attended the bride. She was attired in a pink brocade taffeta ensemble with pink organdy overlay and carried a long-stemmed pink carnation.

Don Bain was best man and Jimmy Free and Danny Honeycutt were ushers.

Cathy Chandler and Cheryle Barrett were candlelighters.

Baskets of white gladioli decorated the wedding scene and Mrs. Gleda Dickerson accompanied the vocalist, Bena Loveless.

Mrs. Honeycutt wore a dress of beige linen with white accessories complemented with a white carnation corsage for her daughter's wedding.

Mrs. Cross chose a light blue costume with white accessories and wore a white carnation corsage.

RECEPTION

Mrs. Mary Denham registered guests attending the reception following the ceremony.

Mrs. L. A. Meathenia served cake and Stella Newman, cousin of the bride, presided at the punch service.

The bride's table was covered in white lace over pink taffeta and centered with pink roses.

For a wedding trip to Carlsbad, the bride wore a white brocade taffeta sheath with pink accessories and a pink carnation corsage.

The couple will reside at Whiting Field in Milton, Fla. where the bridegroom is a Navy Airman Apprentice.

The bride was a student at Pampa High School. Mr. Cross was employed for three years with Ideal Food Stores before entering the Navy.

Rebekahs Honor Outstanding Officer

CANADIAN (Spl) — Members of the Rebekah Lodge honored Mrs. Ben (Mamie) Jordan at a salad supper recently. Mrs. Jordan was recently named the Outstanding District Deputy President for the State of Texas.

Mrs. Paul Bryant paid a tribute to Mrs. Jordan, Mrs. Erbin Crowell and daughter Marsha sang "How Great Thou Art," with Mary Crowell as accompanist. Mrs. F. A. Blue read an original poem which she wrote for the occasion. She also presented Mrs. Jordan the centerpiece of roses.

After the delicious salad supper the evening was spent playing 42 and visiting.

Those present besides Mr. and Mrs. Jordan were Mr. and Mrs. Horace Rivers, Mr. and Mrs. Russelle Shaw, Mr. and Mrs. Drew Cantwell, Mr. and Mrs. J. W. Sutton, Mr. and Mrs. Charles Alford, Mr. and Mrs. Walter Adams, Mr. and Mrs. Bob Moreland, Mr. and Mrs. Kenneth Mee, Mrs. F. D. Teas, Mrs. Paul Bryant, Mrs. Earl Johnson, Mrs. F. A. Blue, Mrs. Erbin Crowell and Mary and Marsha, Mrs. Walter Owens, Mrs. A. A. Morgan, Mrs. Troy Moon, Mrs. Rachel Kelley, Mrs. Marie Smith, Mrs. Belle Hughes, Mrs. Martha Newton, Mrs. Wilson, Mrs. June Wilson, Mrs. Clark Reagan, Mrs. J. J. Caudle, and Mrs. D. P. Hoover.

Garden Club Installs Officers

Mr. and Mrs. Garden Club officers were installed during a recent meeting at Lewis' Buffeteria.

Mrs. Robert Coley is president; Mrs. Ira Carlton, vice president, Mrs. Dick Higginbotham, secretary; Mrs. A. J. Mitchell, treasurer. Mrs. Thelma Bray, installing officer, used a tree with its trunk, branches and leaves as symbols representing each official duty and member of the club.

Senior Class Honored By Church Group

CANADIAN (Spl) — Members of the senior class were entertained Friday morning at breakfast by WSG of the First Methodist church.

Table decorations included a wise old owl and an arrangement of spring flowers.

A delicious breakfast of fruit cocktail, scrambled eggs, ham, biscuits, jelly, doughnuts, coffee and milk were enjoyed.

In addition to members of the senior class guests were Superintendent and Mrs. Woodie Beene, Principal and Mrs. Joe Cullender, Mrs. William Karr and Charles Kessie.

Royal Service Observed by Hobart Baptist

Royal Service was conducted at the Hobart Baptist Church recently with Mrs. Tommy Richardson opening the meeting with the watchword. Mrs. Bill Simpson led in the opening prayer.

Mrs. Paul Crossman was elected to the nominating committee as chairman with Mrs. W. R. Brown, Mrs. Jack Gist, Mrs. Bill Simpson, and Mrs. G. R. Brown as committee members.

The community missions project for May will be to visit Twighlight Acres No. 2 to distribute church literature.

The Betty Tennyson Circle presented a program on South American Missions and Mrs. Crossman dismissed with prayer.

CLASSIFIED ADS GET RESULTS

TWENTIETH CENTURY CULTURE OFFICERS — New officers of Twentieth Century Culture Club were installed Tuesday during a luncheon held at Coronado Inn. Seated are Mrs. Rufe Jordan, parliamentarian; Mrs. N. D. Steele, president; and standing, Mrs. D. F. DeWeese, reporter; Mrs Warren Hasse, treasurer; Mrs. D. W. Bond, secretary and Mrs. J. R. Donaldson, vice president.

Juniors, Seniors Feted in Canadian

CANADIAN (Spl) — "Moonlight and Roses" was the theme of the Junior - Senior banquet which was held Friday night at the school lunchroom.

The invocation was given by James Jackson. Janis Wilson, Mary Rutledge and Dora Mae Hext sang "Moonlight and Roses" and "Full Moon." They were accompanied by Mary Crowell. The welcome, "Remembrance in Roses" was given by Mary Rutledge. Eddie Snyder gave the response. "Orchids to Juniors." Supt. Woodie E. Beene was the speaker of the evening.

Following the banquet the floor was cleared for the prom which was attended by the juniors, seniors and their dates.

MIGHTY MENACE

Water is one of the most destructive forces. If you doubt this consider the Grand Canyon, where the wearing away of water created a chasm thousands of feet deep. On a much smaller scale, the same principle applies to the walls and floors of your bathroom where only quality materials like ceramic tile can protect you from constant repairs and replacements.

Reception Will Mark Birthday

H. C. Wilkie will be honored on his 90th birthday today with an open house reception at his home, 1328½ W. Wilks, from 2 - 5 p.m.

(Photo by Smith)
H. V. Wilkie

Hostess for the occasion will be his wife.

Mr. and Mrs. Glenn Wilkie will be in the receiving line with Mr. and Mrs. Wilkie. A granddaughter, Cathy Wilkie will register guests, assisted by Eddie Wilkie, grandson.

Friends are invited to attend.

Mr. Wilkie moved to Pampa in 1929.

Outgoing President Installs Rho Eta Chapter Officers

Mrs. Cletus Mitchell, outgoing president of Rho Eta Chapter of Beta Sigma Phi, installed new officers in a meeting held in the Hospitality Room of Citizens Bank recently.

The ceremony was conducted before a table covered with the Ritual Cloth centered with an arrangement of yellow roses flanked by white candles.

New officers include, Mrs. Bob Bruner, president; Mrs. John Langford, vice president; Mrs. T. L. Garner, recording secretary; Mrs. Richie Gardner, treasurer; Mrs. Doyle Beckham, corresponding secretary; Mrs. Bobby Turnbo, extension officer and Mrs. Julian Key, director. Each outgoing officer was presented with a gift from the chapter and Mrs. Ray Greer was welcomed as a transfer member.

Mrs. Jerry Davis won the door prize.

A salad supper was served before the installation ceremony from a table decorated with an arrangement of yellow roses. Mrs. Julian Key, Mrs. LeRoy England, Mrs. Joe Pafford and Mrs. Cletus Mitchell were hostesses.

Those attending the meeting included Mmes. Garner, Ken Peeples, Gardner, Allan Self, Carol Stidham, Mitchell, Doyle Beckham, Dick Smith, Turnbo, Jack Chisum, Eddie

PLANNED COMFORT IS CHEAPER

Retaining an architect or designer is the most effective, and probably the most economical, way to plan your home for maximum summertime coolness. Trying to rearrange things later on will take time and money and probably will result in a less satisfactory arrangement. Doing a major job without professional advice is something like substituting temporary materials for real ceramic tile. The initial saving is questionable and the actual costs add up year after year.

Dear Abby....

Retired Men Get Still Another Bit of Advice

By ABIGAIL VAN BUREN

DEAR ABBY: You burn me up! Why do you always take the man's side when wives complain that their retired husbands won't leave them alone? You are greatly in the dark about the habits of retired husbands and how exasperating they can be. Why do you always go to bat for the man? I hope your husband retires and objects to your pecking away at the typewriter; that you never have a minute you can call your own, and that he will be underfoot every step you take. The retired husband who does absolutely nothing can drive his wife crazy. That is my problem. My husband won't let me out of his sight. If I am gone for twenty minutes, he comes looking for me. I am a wreck from my husband's retirement. Men who retire should not bury themselves alive and expect their wives to inhabit the grave with them. Every woman needs a little aloneness. Why not give these lounge monarchs a little advice, too?

RETIRED MAN'S WIFE

DEAR WIFE: So frequently have I advised retired men to volunteer their services to a worthwhile charity, to interest themselves in church work, civic affairs, politics, gardening, sports, and to make a few friends of their own so they won't be under their wives' feet from sunup 'til sundown, that I fear I have begun to sound like a broken record.

DEAR ABBY: I have always regretted not getting a college diploma. I started in the university, but I quit in my freshman year. I am now 33 years old, and I figured out that if I take courses three evenings a week it will take me eight years to get my diploma. And in eight years I will be 41 years old. Should I?

WANTS A DIPLOMA

DEAR WANTS: And how old will you be in eight years if you DON'T take the courses?

DEAR ABBY: Last week someone poisoned our dog, and if a member of our family had died I don't think I could have felt worse. Our poor dog suffered for days, and we spent a lot of money on vets and buying him pills, only to lose him in the end. I held that sick dog in my arms when he died, and it about tore my heart out to see the pain and agony in his eyes. Why, oh, why do people poison pets, Abby? I think pet prilsoners should be tried for murder.

A DAILY READER

DEAR READER: Poinsoning a pet, anybody's pet, for whatever reason, is inhumane and inexcusable. But dog owners contribute to the innocent delinquency of their pets when they let them make nuisances of themselves — and prey to the poisoner.

DEAR ABBY: I go with a widow. She is past 60 and so am I. I enjoy her company, but she has a terrible habit. When I take her out to dinner, she opens up her handbag and dumps in all the bread, rolls, crackers and biscuits on the table. She says she will enjoy them for breakfast, and since I am paying for the food served to us, she is entitled to them. I get very much annoyed, and have been tempted to walk out and leave her sitting there. Please print this and tell her that nice people don't do things like that in nice restaurants. Thanks.

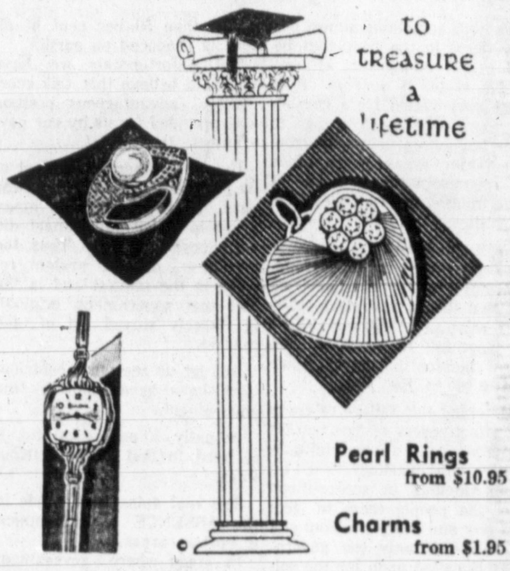

B.K.

DEAR B. K.: Warn her once more, and if she doesn't quit, look for someone who is betterbred.

The Chinese emperor S'eun Ho is said to have invented playing cards in the 11th century for the entertainment of his many wives.

a never before look...

in lip make-up

GLISSANDO by Du Barry

In one lipstick...a mix of separate colors do what no colors ever did before!

Two colors in the stick...merge, converge, blend *on your lips!* Dazzling overtones interplay with bewitching undertones...and a never-before depth of color is born. No one lipstick could ever give you such depth of color. No *two* lipsticks could blend so harmoniously. (Glissando colors melt in a delicious blend that goes on the same every time). Nine never-before color combinations to choose from.

Lipstick 2.50; refills 1.75 plus tax.

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself, no more, no less. It is thus consistent with the Human relations Commandments, the Golden Rule and the Declaration of Independence.

Two Areas of Ignorance

There is something almost preternatural in the persistent belief in the all-knowing efficacy of the state. It appears from close observation for a number of years that most of us in America suffer primarily from two major areas of ignorance or misinformation. One of these relates to economics; one to politics.

Lack of knowledge concerning economics is widespread. There is virtually a studied belief that the market place CANNOT solve problems and that for anything to be done, we must abandon the market place and turn to the state.

Matching this failure to grasp the effectiveness of free market activities runs a blind faith in political methodology. With what amounts to superstitious awe, the people seem to feel that any and every problem can be solved if only the government is called upon for the solution.

Men invariably act on the basis of their deepest convictions. Whether their convictions are realistic or false does not matter. They will still act in accord with that which they BELIEVE to be true.

If you believe in the patent medicine pitch of the old medicine wagon salesman, you will act accordingly. That is, you will buy his snake-oil remedy and use it, convinced for the moment that you are doing the right thing. If you fail to obtain the results sought, but if your faith is unwavering, you will try the snake-oil again and again. In fact, you will continue buying snake-oil, believing that some other factors are preventing the results you hoped to obtain rather than a lack of efficacy in the snake-oil. Only when you have lost faith in the snake-oil will you bandon it and seek a better remedy.

Now, the facts of history, the reason of logic, the evidence of personal observation all add up to tell us two major stories. One of these is the enormous effectiveness of the free market. In America we have enjoyed the freest and largest unimpaired market over the longest period of time ever vouchsafed to any people.

At the moment, the market is sadly impaired. But it continues to function, primarily on the momentum gained in earlier years when we were almost entirely a free people.

Any comparison you wish to use will reveal that here in the United States, we have the highest standard of living by far of any people in history. We have more of the good things of life. A relatively few people (about 7 per cent of the earth's population) produce and use better than 50 per cent of all that is produced on earth.

But, unfortunately, we have begun to believe that this enormously advantageous position was provided for us by our government. It was not.

Our government was great at its inception, not because it was ours, but because of the many areas in which government did not choose to operate. Thus, the greatness of our system resides in the market and in the fact that government, originally, largely stayed out of the market.

But let us see what contributions have been made by the government.

Actually, if one is careful, it is hard to find such contributions.

The real gains were made in the ABSENCE of government in certain areas.

In areas where government functioned, it has taken us to war eight times since 1812. We cannot count the Revolutionary War, which preceded the formation of our government. Each of these wars killed the cream of our young men by the thousands.

Our government has created a burden of debt unmatched by any other government the world over. It has imposed a burden of regulation and control upon the economy which is confusing, conflicting, contradictory and confiscatory.

The tax structure imposed by our government is monstrous. The various forms of "assistance" proffered by it have the distinction of turning honest men into mendicants, independent people into dependents and family parasites.

In short, in those areas where the market place has functioned freely, the result has been satisfactory, indeed, exemplary.

In those areas where government has functioned it has been militant, overbearing, improvident and costly.

Yet we continue to lean on the government to solve our problems and we continue to avoid the market for solutions to problems.

Indeed, we do worse than this. Customarily, we turn to the government and ask it to punish those in the market place whenever it appears that some particular part of the market is outstandingly successful.

If this nation is finally destroyed, it will be, as Lincoln foresaw, from within. And the distruction will come upon us because of our ignorance in correctly weighing the relative merits of the market place on the one hand, and the relative lack of merits on the part of the government, on the other.

Inertia

The problem is to overcome inertia. Once you are in motion and production a constant, the very momentum gained will help to overcome threats and problems.

Good Will and $$$

A recent survey indicates that 5 per cent of all business letters are written to correct errors and omissions in previous correspondence.

As serious as this may be, there is at least the consolation that the errors have been caught and corrected.

Of even greater concern is the fact that far too many business letters are cold, impersonal, ambiguous and distressingly lacking in anything likely to bring about a warm and friendly relationship between writer and recipient.

Some people have the gift of writing better letters than others. But it would seem that almost any businessman of good will could and would write a sincere, friendly, informative letter that would convey his message clearly and pleasantly.

It's an inexpensive way to win business instead of lose it. It's worth a little extra effort.

Freedom Versus Government

The Southern States Industrial Council of Nashville, Tennessee, established thirty years ago, and made up of members from 16 southern states and elsewhere throughout the nation, has prepared a twenty - four point "Program" designed to make America stronger at home and abroad and a potent force in curbing communist encroachment. In a preface to the program, H. Hansell Hillyer, Council president, says, "The great—the overriding — issue of our time is that of individual freedom versus government regulation and control." He points out that by a ". . . . .curious twist of semantics, those who favor freedom have come to be known as conservatives, while those who believe in maximum government intervention and control call themselves liberals. Upon the outcome of the struggle between these two points of view ride the hopes of free men everywhere — now and for the indefinite future."

WASHINGTON:

Foreign Aid Changes Are Proposed

By RAY CROMLEY

WASHINGTON (NEA) — Recent investigations conducted by officials in the U.S. foreign aid program and by individuals working closely with that program suggest that major changes in U.S. overseas aid are needed.

The studies indicate that in too many instances U.S. aid has increased social tensions and social instability in underdeveloped foreign countries.

In some cases, the aid seemed to be a factor in increased unemployment.

Social instability resulted from aid programs which forced too-rapid social changes, uprooted and divided families and broke down old moralities and traditions. These programs attempted to insert modern industry suddenly into ancient agricultural and tribal lands.

The United States occasionally has ballyhooed so lavishly what our aid would accomplish, and results of that specific aid were so slow in coming, that some people in underdeveloped lands have reacted and swung toward leftist credos.

In some instances, a centralized government's control over its people, their thoughts and beliefs, was increased as a result of U.S. aid projects which helped to strengthen the government's management of industry and commerce.

These findings are the more striking because the men making the studies are friends, not enemies, of U.S. foreign aid.

The studies indicate that if the aim of U.S. aid is the development of free democratic governments, then less economic aid should be funneled into government projects and more into developing local private competitive enterprise.

It was suggested that this encouragement of non - governmental, decentralized initiative and responsibility should apply to agricultural and community development projects as well as to industry.

Some of the men making the investigations suggested that U.S. aid training programs should lay more stress on improving understanding of the nature of private enterprise.

They recommended that in some places U.S. aid should aim at inducing national governments to divest themselves of some of their economic holdings.

These investigators found that where aid had developed local private competitive enterprise, it had tended to encourage a free press and personal freedom.

The studies indicated that less aid should go into sophisticated economic, technical and industrial projects for which the more underdeveloped countries are not prepared. They also indicated that more aid should go into simple tools, equipment and projects not far advanced over what the countries are now used to. Such a policy, the investigators believe, would result in quicker and more widespread utilization and a minimum breakdown in family and community life.

The Almanac

By United Press International

Today is Sunday, May 17, the 138th day of 1964 with 228 to follow.

The moon is approaching its first quarter.

The morning star is Saturn.

The evening star is Venus.

On this day in history:

In 1875, the first Kentucky Derby horse race was held at Churchill Downs in Louisville, Ky.

In 1877, former President U.S. Grant sailed from Philadelphia for a world tour.

In 1554, in a unanimous decision, the Supreme Court ruled that racial segregation in the nation's public schools was unconstitutional.

In 1960, summit talks collapsed as Nikita Khrushchev demanded an apology from President Eisenhower for the U2 spy plane flights over Russia.

A thought for the day—German philosopher Hegel said: "No man is a hero to his valet is a well-known proverb; I have added 'but not because the latter is a valet.'"

"They Went That-a-Way!"

Allen-Scott Report

Are 'Give-Away' Grain Sales Costing U.S. Millions In Transportation Charges? — Probers Want to Know

ROBERT ALLEN

PAUL SCOTT

WASHINGTON — Congressional investigators are taking a close hard look at the sale of surplus farm commodities to Iron Curtain and other countries.

There is increasing suspicion that in addition to selling large quantities of grain and other commodities on what amounts to a give-away basis, the U.S. also is being stuck for unwarranted transportation charges.

Reason for this growing backstage belief is a report by Comptroller General Joseph Campbell disclosing that the Commodity Credit Corporation paid "excessive ocean transportation costs" on agricultural sales to Communist Yugoslavia and "neutralist" United Arab Republic.

In both instances, the wheat and other foodstuffs were, in effect, given away.

These so-called sales were made under Title I of Public Law 480. Under this statute, payment was in Yugoslav and U.A.R. currency. Further, this local money remained in the two countries, some of it to be used for construction and other projects. The remainder was earmarked to the credit of the U.S. in the form of "counterpart funds."

The U.S. has more than $105 million in such "counterpart funds" in Yugoslavia, and upwards of $100 million in the U.A.R.

In the specific cases cited by the Comptroller General, the Commodity Credit Corporation footed $146,000 in improper transportation costs on give-away sales to Egypt and $132,000 to Yugoslavia — for an overall total of $278,000.

While these amounts are relatively small, the congressional investigators strongly suspect they are indicative of a widespread practice of bureaucratic bumbling or possibly worse that may run into millions, as Title I, P.L. 480 sales run into the hundreds of millions.

That's why the probers want to know a lot more about "excessive ocean transportation costs" and what's being done about them — if anything.

MAKE 'EM PAY IT BACK—Comptroller General Campbell is very explicit about what should be done.

Bluntly, he asserts these improper charges should be recovered — by direct crackdown, if necessary. Following is Campbell's stern finding:

"We are recommending that the Secretary of Agriculture take appropriate action to effect the recovery from the United Arab Republic and Yugoslavia of dollars to which the United States government is entitled because of excessive transportation costs financed by the Commodity Credit Corporation.

"To the extent required to liquidate the claims against these countries, consideration should be given to withholding amounts due the United States government from dollars otherwise due these countries. Appropriate implementation of this recommendation takes on added significance in view of the current international balance - of-payments deficit of the United States."

That puts it squarely up to the Agriculture Department and the State Department. What they will do remains to be seen. The odds are against the State Department's doing much.

It's not given to either speed or forecefulness in such matters.

A SECRET SERVICE SECRET — James Rowley, highly regarded veteran head of the Secret Service, at a private meeting of the House Appropriations Committee, made one observation about guarding a President that was extremely revealing.

The comment, spontaneous and from Rowley's heart, told a great deal about the problems faced by the Secret Service — and also about the late President Kennedy.

The committee was considering the Secret Service budget, and Rowley was closely questioned on a wide range of matters. Representative Silvio Conte, R-Mass., was particularly searching. Patiently and thoughtfully, Rowley answered all questions until one committeeman bluntly asked:

"Isn't it true that the late President traveled around Washington at night sometimes without a Secret Service guard?"

"Yes," replied Rowley. "But how in hell could you protect a President who didn't want to be protected? There were a number of times when he slipped away from us at night. He didn't want us, and there wasn't a thing in the world we could do about it."

The committee, in voting a $150 million budget for the FBI and expanding its authority to include "protection of the person of the President of the U.S.", also empowered it to buy "one armored vehicle."

There was no explanation for this mysterious provision. It is not known whether the armored vehicle is to be used in protecting the President or visiting VIPs.

FBI Director J. Edgar Hoover told the Appropriations Committee that his agency has made more than "250 investigative reports containing more than 10,800 pages . . . to the Commission on President Kennedy's assassination."

Also that more than 790 "items of physical evidence were received in the FBI laboratory for technical examination, and our exhibit experts have constructed and delivered to the Commission a detailed scale model of the assassination area including appropriate buildings, landmarks, and the like, with accompanying volume of visual aids to assist the Commission in handling its responsibilities."

In response to questions, Hoover estimated Russia is spending $1.5 billion annually on "intelligence operations."

"The Soviet bloc espionage drive against this nation is backed by a virtual army of intelligence personnel and unlimited operational funds," warned the widely acclaimed FBI chief. "A former officer of the KGB (Soviet Committee of State Security) estimated that the foreign intelligence director of the KGB had several thousand employes, including legal and illegal agents and trainees. He said that the head of the foreign intelligence directorate had indicated that 'Soviet intelligence' spent about $1.5 billion a year.

"The FBI is utilizing every resource at its command to to meet the threat posed by this army of spies. Because of our aggressive investigative activity, the Soviet intelligence services consider the U.S. as the most difficult country in which to carry on clandestine espionage operations."

Pull Up A Chair

By Frank J. Markey

The sentries that keep perpetual vigil at the Tomb of the Unknown Soldiers in Arlington National Cemetery are members of an elite unit, consisting of an officer and 17 enlisted men. The tour of duty lasts nine months and assignment to the Tomb Guard is a much sought after honor. Those qualifying must be at least 5' 10" tall, and no taller than 6'2". They must possess outstanding "soldierly appearance," and an unblemished record in and out of the Army. A three - month training course fits them for the rigorous duties they must perform.

Today's smile: An office worker just back from his first fishing trip was relating his experiences. One of his colleagues asked: "Did you fish with flies?" "Fish with them," he exclaimed, "we lived with them, ate with them, and slept with them."

We hear much today about the high cost of financing a medical education, but it costs the medical schools a pretty penny to operate, too. Last year expenditures of the nation's medical schools amounted to $515 million, which went for salaries, equipment and maintenance. . . .The Treasury Seal, imprinted upon the face of currency and official Treasury documents, is older than the U. S. Constitution, having first been proposed in 1778. The date of its adoption is not known. The design includes a shield on which appears the scales of justice, a key, emblematic of official authority, and 13 stars for the original states, plus a Latin legend.

Thoughts while shaving: Almost everyone dreams every night after falling asleep, according to psychiatric researchers. They estimate that out of eight hours sleep the average person spends two hours dreaming. Most of us don't remember our dreams, however, when we awaken. . . .The Surgeon General's report on smoking will cause a tremendous drop in this year's tax collections. Revenue from tobacco taxes last year amounted to more than $2 billion for the Federal Government and another $1 billion for the 47 States imposing tobacco taxes. Scattered reports already indicate a lot of people have either cut down or quit using the weed. With costs of government, State and Federal, constantly rising, the politicians will have to find another source to tap. . . .Joe DiMaggio, while playing for the New York Yankees, established one of the most amazing records in baseball by hitting in 56 consecutive games. He went to bat 223 times, made a total of 91 hits, and came home in each of the 56 games. . . .The phrase "pay the piper" to indicate future remorse is based on the idea that dancing may be fun, but the piper must be paid for providing the music. The moral is pointed out in the story of the Pied Piper of Hamlin, who was not paid for ridding the town of rats and so led the town children away. . . .The Decatur-DeKalb (Georgia) NEWS reported: "The property will be sold free and clear of all linens." Wonder if that would make any difference in the price?

Country Editor speaking: "Girls will be girls, and so will a lot of middle-aged women with a little encouragement."

The American Way

MISSISSIPPI APPROVES LIBERTY AMENDMENT

By Willis E. Stone
Chairman, Liberty Amendment Committee of the USA

On April 30, 1964, the Legislature of the Sovereign State of Mississippi formally adopted the LIBERTY AMENDMENT Resolution petitioning the Congress of the United States to submit this basic question of public policy to the American people for decision.

Mississippi is the seventh State to adopt an identical Resolution, joining Wyoming, Texas, Nevada, Louisiana, Georgia and South Carolina in the parade of States seeking a restoration of State sovereignty and individual economic freedom as the Constitution intended.

Full Text

The language of the LIBERTY AMENDMENT is simple, direct and effective. It asserts that:

"Section 1. The government of the United States shall not engage in any business, professional, commercial, financial or industrial enterprise except as specified in the Constitution.

"Section 2. The Constitution of the laws of any State, or the laws of the United States shall not be subject to the terms of any foreign or domestic agreement which would abrogate this amendment.

"Section 3. The activities of the United States Government which violate the intent and purposes of this Amendment shall, within a period of three years from the date of ratification of this amendment, be liquidated and the properties and facilities affected shall be sold.

"Section 4. Three years after the ratification of this amendment, the Sixteenth Amendment to the Constitution of the United States shall stand repealed, and thereafter Congress shall not levy taxes on personal incomes, estates and — or gifts."

The Federal bureaucracy uses more than half the federal revenue every year to finance their political empires, although they have no constitutional authority for doing so.

Naturally they oppose the LIBERTY AMENDMENT. Force, coercion, intimidation and every possible point of pressure has been brought to bear in many States, to prevent action on the LIBERTY AMENDMENT by the members of the State legislature. The favorable action taken by the State of Mississippi, in the face of such ruthless opposition, has in effect broken the back of the federal bureaucracy and proved beyond doubt that the American people can regain their economic freedom.

Swiftly growing public opinion and support is proving the power of the people to recapture control of their own government and the overthrow of bureaucratic domination. Mississippi brings new hope to every American.

In 1962 the LIBERTY AMENDMENT was introduced in the Mississippi Legislature where it was approved by the Senate but defeated in the House. Then came the 1963 State election, when the voters changed the character and attitudes of members of the House.

In 1964, against tremendous pressures by bureaucracy, the Mississippi House approved the proposal by a vote of 64 to 44. The Senate approved it 26 to 21. The final action took place on April 30. At the time, the LIBERTY AMENDMENT COMMITTEE OF U.S.A. was in session at its National Conference in St. Louis. Approval by Mississippi inspired new drives for economic freedom throughout the nation.

It brought a great nationwide surge of hope to all Americans. Our traditional constitutional freedoms can be preserved. We all should participate.

Question Box

(We invite questions on economics and the proper functions of government which will not injure anyone)

QUESTION: "Why are cooperatives, where the government gives them no tax advantage, short lived?"

ANSWER: They are short lived because it is a form of socialism. The man who puts in $100 has as much to say in his vote as the man who puts in $1000. And they invariably vote to benefit those who only put in $100 or rather than vote to respect the rights of those who sacrificed and put in $1000.

The same thing seems to be the case in government where each individual has the same vote. The inprovident invariably outvote the provident and they vote to take away from the provident and thus retard the accumulation of tools. They even hurt the improvident because they have to work with less or poorer tools and thus they produce less and earn less and less.

It might be argued that the Associated Press is a co-operative. They are not a pure co-operative, however, because bonds are issued and they are usually held by the larger newspapers and they control the officers and thus they do not permit the majority of small newspapers to vote to give them services at less than cost. Giving those people who produce little the same vote as those who produce more, invariably leads pure democracies to be short lived, and as Madison said, "violent in their death."

We are going through that very rapidly. The government is growing rapidly and taking from the man with initiative and ability his right to be useful to himself and to his fellow man.

Beating of Judge Remains Mystery

CLOVIS, N.M. (UPI)—Twelve weeks ago today, a justice of the peace from Clovis, N.M., was beaten senseless in one of the most brutal attacks Curry County Sheriff Nelson Worley can recall in 14 years of law enforcement.

Justice M. P. Morgan, 37, remains hospitalized, still unable to talk coherently.

"He recognizes people," says Worley, "and his wife is getting so she understands signs he makes. But I don't think he'll ever be able to tell us what took place."

Enough pieces can be put together to tell a good part of the story, however.

Friday night, Feb. 21, Morgan and his wife and two other couples drove to a small Clovis lounge to dine and dance. Eight or 10 other couples were there. Morgan got up to go to a rest room.

Found Badly Beaten

When he failed to return, his wife asked one of the men to look for him. Morgan was found on the rest room floor in a pool of blood, his face battered to a pulp.

The World War II Purple Heart holder was given emergency treatment at Clovis Memorial Hospital, then rushed to a Lubbock hospital 90 miles away for intensive care.

"A Clovis doctor said he didn't think he would live to get to Lubbock," said Worley.

But after several days on the critical list, Morgan improved and Worley was allowed to visit him.

Besides a broken nose and cheek bone, doctors found Morgan's brain had been bruised by the beating he received. He just barely recognized Worley when the sheriff went to talk to him.

Unable to Talk

"He tried to talk," said Worley. "But it was just like a three year old talking for the first time."

Finally, the financial strain forced Morgan's wife to transfer him to the Veterans Hospital in Albuquerque where he is now.

"He's receiving speech and brain therapy," says Worley. "We hope his words will get more distinguishable. But the condition may be permanent."

Worley has no intention of closing the case.

"Whoever it was probably was trying to kill him," Worley said.

"Because he was a judge, a lot of people could have had complaints against him. We feel it was one of those."

"We have a suspect," he said. "The case will stay open until we can clear it up. I think one of these days Morgan may be able to identify the man who did it."

M. K. Brown Scholarships Announced at High School

Winners of the M. K. Brown scholarships were announced at Pampa High School Friday night.

The scholarships are for $500 each and were awarded to 10 high school students this year to help further their education.

Winners were:

Shirley Davis, daughter of Mr. and Mrs. Walter Davis of 416 N. Nelson, Helen Hampton, daughter of Mr. and Mrs. J. H. Hampton of 1016 E. Scott, Dianne Hepler, daughter of Mr. and Mrs. Wayne L. Hepler of 2115 N. Banks, Mary Martin, daughter of Mr. and Mrs. R. C. Martin of 1230 Christine, Jim Thompson, son of Mr. and Mrs. Fred Thompson of 1115 Christine.

Gary Thurman, son of Mr. and Mrs. Delbert Thurman of 1112 Sandlewood, Lamoyne Clark, daughter of Mr. and Mrs. Authur Clark of 1121 Neel Rd., Helen Moffit, daughter of Mr. and Mrs. W. S. Moffit of 815 N. West, David White, son of Mr. and Mrs. Leonard White of 912 Terry Road, and Jana Conner, daughter of Mr. and Mrs. Jim Conner of 1165 Neel Rd.

McLean Lists Honor Students

MCLEAN (Spl — Valedictorian of the 1964 McLean High School graduating class is Joyce Beasley, daughter of Mr. and Mrs. Guy Beasley. Salutatorian is Jim McCarty, son of Mr. and Mrs. Hershel McCarty. Joyce had a scholastic average of 95.-33, and Jim's average was 94.-076.

Judy Kingston, daughter of Mrs. Bill Kingston, is valedictorian of the 8th grade graduating class. Donna Glass, daughter of Mr. and Mrs. Leonard Glass is salutatorian. She maintained a grade average of 95.-44, while Donna has an average of 94.43.

Senior commencement exercises will be Friday.

Grandview Barbecue Set for Thursday

The annual Grandview barbecue will be staged at noon Thursday at the Grandview School, 20 miles south of Pampa.

John Baggerman, longtime resident of the community, will furnish the beef for the affair, according to Mrs. Raymond B. Maddox, secretary of the school P-TA.

RARE GIFT

HOLLWYOOD (UPI) — Actor Harry Guardino has presented a rare white baby rhinoceros to San Francisco's Fleischaker Park. Guardino starred in "Rhino" on location in Africa.

LION'S CAMPAIGN — Shown are two members of the Evening Lions Club—Gene Lewis, right, and Bill Steger, "in action." Members of the club are painting old trash barrels and selling new ones to city residents. Funds from the project will go to the Lions Crippled Children's Home in Kerrville. The Lions' campaign is being conducted in connection with Pampa's clean up-fix up-paint up drive.

Foreign Commentary

By PHIL NEWSOM
UPI Foreign News Analyst

"Racialism," said British Colonial Secretary Duncan Sandys, "is the curse of British Guiana today.

"The whole life of the country is poisoned and weakened by mutual suspicion and fear between the two predominant racial groups, the Indians and the Africans..."

British Guiana is an enclave of some 83,000 square miles jutting into South America's northeast coast with boundaries on both Brazil and Venezuela.

Its prime minister is a Marxist admirer of Cuba's Fidel Castro named Cheddi Jagan, an East Indian by descent and an American-trained dentist by profession who draws his political strength from the 305,000 East Indians making up more than half the colony's population.

Duncan Sandys voiced his indictment of racialism in British Guiana last October at the close of a constitutional conference intended by the British to clip Jagan's communistic wings.

Imposes System

Upon Jagan and British Guiana the colonial minister imposed a proportional representation system of voting designed to make it impossible for Jagan's Peoples Progressive party to obtain a steamroller majority in parliament at the expense of the country's 205,000 Negroes and the 120,000 others composing the minority groups.

The enraged Jagan cried foul and accused Britain of bowing to United States pressures seeking to prevent British Guiana from becoming the first Communist state on the South American continent.

Since last November, Jagan has been fighting back.

For more than three months the country has been in the midst of a violent strike of sugar workers, most of whom are East Indians.

Jagan has condemned the violence, destruction of cane and sabotage of sugar factories.

His opponents, however, accuse him of actually supporting a campaign of terror as a weapon to force Britain to drop her proportional representation plan.

In the course of the violence, 19 persons have been killed and more than 400 injured.

Jagan's ultimate objective, say his opponents, is to ruin the British-owned sugar industry, thus adding to the difficulties of any government that should succeed him.

Strikers Lose Wages

So far, the strikers have lost around $6 million in wages and the economy in some areas has fallen 75 or more per cent.

The strike was called by the agricultural workers union in a campaign for recognition by the $98 million sugar industry. It is opposed by the Manpower Citizens Association, which is recognized as bargaining agent for all sugar workers, and by the Trade Unions Council, both of which are anti-government.

British Guiana elections are expected in the early fall, with a new constitutional conference establishing terms of Guiana independence to follow.

Jagan's chief opponent is Forbes Burnham of the Negro Peoples' National Congress, allied with Peter d'Aguilar of the United Force representing others among the minorities.

These have appealed to Britain to put off independence until a way has been found to stop Jagan and his obvious intent to lead British Guiana into the Communist camp.

U.S. Actresses Get Film Awards

CANNES, France (UPI) — American actresses Anne Bancroft and Barbara Barrie shared the best actress award of the 1964 Cannes International film festival this week.

A French movie, "The Umbrellas of Cherbourg," won the Golden Palm as the festival's best film.

Miss Bancroft was cited for her role in the British - made "The Pumpkin Eater" as a woman with eight children who has been married three times.

Miss Barrie, a virtually unknown actress, appeared in "One Potato, Two Potato," an unofficial U.S. entry shot on a low budget. She played a white woman who faces racial prejudice in the Midwest after marrying a Negro.

AX-OGENERIAN — Most 87-year-old women are content with crocheting or reading, but Mrs. Leona Lykins of Nashville, Mich., enters wood chopping contests. The winner of this contest held during a spring festival in Vermontville, Mich., cut through a six-inch log in 34 seconds. Mrs. Lykins took considerably more time, but the crowd gave her the biggest hand.

REUNION

HOLLYWOOD (UPI) — The stars of the Italian boxoffice hit "Yesterday, Today and Tomorrow" will be reunited with director Vittorio De Sica in "Marriage — Italian Style" with Sophia Loren and Marcello Mastroianni playing the married couple.

Oil Import Rollback Urged By Speaker

AMARILLO (Spl) — A rollback in oil imports and changes in U.S. military oil purchasing practices were advocated today to hike domestic crude oil production 500,000 barrels daily and "bring meaningful relief from the current economic strife in the oil producing industry."

L. Dan Jones, Washington, D.C., general counsel of the Independent Petroleum Association of America, said in spite of a booming U.S. economy the domestic oil industry "is in its eighth year of declining prices, declining revenues, declining employment, and declining efforts to find new oil supplies."

Speaking at the annual meeting of Panhandle Producers & Royalty Owners Association, Jones said unhealthy industry conditions must be corrected "if the nation's thousands of independent oil producers are to survive and our security as to energy supplies is to be maintained."

A cutback of 250,000 to 300,000 barrels daily in oil imports will be recommended in a May 25 "producers's conference" with Interior Secretary Stewart Udall as the "first step in a broad program to restore stability to the domestic oil producing industry," Jones said.

In addition, he said, IPAA will urge Secretary Udall to treat foreign military purchases of jet fuel and aviation gasoline, now totalling more than 200,000 barrels daily, as imports. Though these products are in excess supply in the U.S., Jones said the Defense Department has "increased foreign purchases substantially in recent years."

"There is no justification for this policy," he said. "A substantial volume of these purchases should be diverted to domestic sources and the balance treated as imports and deducted off the top of total import allocations."

Jones said experience under the present import program demonstrates the need to improve the program, and predicted that "significant reductions in imports will be forthcoming if independents present their case with unity."

He said independent oil producers have "a persuasive case" in support of the IPAA recommendations to cut imports "significantly" in the next import allocation period beginning July 1.

"The import program has been tested for five years," he said. "In three of these five years we have used more oil than we have found in this country. Obviously, the program is not accomplishing the security objective for which it was designed."

He said the government and the large companies in the oil industry should want the thousands of small oil producers "to survive and to succeed." "If we are to maintain adequate oil supplies and avoid government control of our industry," he said, "then the independent must survive."

Noting that exploration for new petroleum supplies has dropped 34 per cent since 1957, and employment in the oil and gas producing industry has declined 40,000, Jones said "I know those responsible for government petroleum policy realize that we can't permit piece-meal dismantling of the domestic oil industry and maintain an adequate defense energy base."

"As a practical matter, I don't believe the government wants to see a continuation of present trends which are leading us to a 'have-not' position as to oil," Jones said, "and from a

Gas Shortage Seen if Winter Proves Severe

AUSTIN (Spl) — "There will be a critical shortage of natural gas for Texas homes and businesses if the coming winter is a severe one," predicted a leader in the state's oil industry today. As many as 200 communities may be affected, he said.

E. Bruce Street of Graham, president of the Texas Independent Producers & Royalty Owners Association, based his forecast on a six-months engineering study of Texas production records which the association has just completed.

He said any impending shortage should be blamed on failure of natural gas pipelines to modernize their systems and connect additional new shut-in gas wells. "Only this can prevent a burner-top shortage amid plentiful wellhead gas supplies," he declared.

"For several years the trend for certain pipeline companies, in particular those which supply intrastate needs, has been to favor selected wells, often where producers are forced to accept below - standard prices. These wells could be, and have been, produced at highly excessive rates in peak periods, even though they were draining gas from other wells in the same fields. This practice did violent damage to our Texas conservation principles.

"In the last session of the Texas Legislature, a law was passed to authorize the Railroad Commission to shut in those wells which had been allowed to produce above legal conservation limits and drain their neighbors. The law provided simple, if belated, justice.

"We recognized that if this new law were equitably enforced by the Railroad Commission, the pipelines would be unable to get all their peak needs from a few favored wells and fields during the heavy heating season, and assumed that the pipelines would take steps to connect deserving new wells and new fields in order to provide sufficient supply for their customers.

"Because we can find no evidence that the companies are doing this to any significant extent, we must conclude those companies are not taking proper steps to service their customers in the coming peak winter season — when the Legislature will again be in session. Then if they can blame either the new law — or the Railroad Commission for enforcing the new law—the Legislature might be subjected to unfair pressure to repeal the law."

APRIL 1964

IPAA PRICE INDEX

CRUDE PETROLEUM		REFINED PRODUCTS
$2.98	Apr. 1964	$3.61
2.98	Mar. 1964	3.68
2.98	Year 1963	3.79

Crude petroleum is weighted average well price for 8 principal areas and closely approximates the average price of all crude in the U. S.

Refined products is weighted average refinery price of gasoline, kerosene, light and heavy fuel oils for 9 principal areas calculated from low quotations as reported weekly by the National Petroleum News.

Note: This information reflects the trend in oil prices but not the actual sales realization for producers or refiners.

ASME to Hear Patent Manager

Elton H. Brown Jr., patent manager for J. H. Huber Corporation, will speak on patent law at the May 18th meeting of American Society of Mechanical Engineers.

Brown has had extensive experience in patent examining work having served as Patent Examiner in the U. S. Patent Office.

Meeting place is Sutphen's Pit Bar-B-Q, Borger, at 6:30 p.m. Members and their guests should call one of the following for reservations: J. H. McMenamin, DI 9-1581, Amarillo; J. C. Birtell, BR 3-2831, Ext. 84251, Borger; Jack White, MO 4-4681, Pampa.

Publisher Lists Promotions for Dallas Company

The Petroleum Engineer Publishing Company, Dallas, has announced several staff promotions coincident with the firm's immediate plans for expansion of international publishing services for the oil and gas industry.

According to Abbott Sparks, president and publisher, J. E. Kastrop has been appointed publication manager of Petroleum Engineer, in addition to his present position as editor. The new title of publication manager encompasses all operating aspects, as well as editorial responsibility. Kastrop, a petroleum engineer graduate of the University of Texas, came to PEPCO in 1955, following 10 years of editorship with the Gulf Publishing Company, Houston.

Previously, he was engaged in drilling engineering duties with Humble Oil and Refining Co. He is president of the Dallas Petroleum Engineers Club, past president of the Association of Petroleum Writers, and a member of API and Society of Petroleum Engineers.

Ed Sealey, former mid-continent district manager since 1957, has been promoted to publication manager of Pipeline Engineer and American Gas Journal. Sealey joined the company in 1952 as circulation manager, and served consecutively as advertising service manager and promotion. Previously, he was with Merla Tool Co., and is a journalism graduate of SMU.

Jess Adkins has been promoted to manager of advertising sales for Petroleum Engineer and Petroleum Industry Four, the firm's total advertising coverage combination. Adkins joined PEPCO in 1954 and has served as Gulf Coast manager since 1957. He will move to Dallas from Houston. Prior to his association with PEPCO, Adkins was with the Dallas Times Herald. He served as editor of the Journal of Petroleum Technology from 1950 to 1953.

Roland Carpenter has been advanced to business manager, and will be in charge of fiscal and circulation activities. He was with the Oil and Gas Journal in Tulsa before joining the Dallas firm in 1959.

AMENDMENT NO 2

To Rules of the Panhandle Ground Water Conservation District No. 3, South of the Canadian River, in Texas.

In accordance with Section 59 of Article 16 of the Texas Constitution with Article 7880-3c as amended and with Acts of the 53rd Legislature (1953) page 17, chapter 10, HB No. 56, the following amendment is hereby adopted to the Rules of the District by its Board.

All rules or parts of rules in conflict with its amendment are hereby repealed.

An Amendment to the Rules of the Pahandle Group Water Conservation District No. 3, South of the Canadian River, with District office located in White Deer, Texas, is hereby amended to read as follows:

AMENDMENT

Rule 20

"Where any hole is hereafter drilled for exploratory purpose, the Board shall require the driller of said exploratory hole to register at the District office located in White Deer, Texas, prior to the initiation of said drilling and to give to the district manager the name of the company by whom said driller is employed, the location of said exploratory hole, the purpose for said hole and any other reasonable and necessary information required by said District to enable said District to exercise the powers and functions of the State of Texas.

"Complete records shall be kept and reports thereof made to the District concerning the drilling and completion of all exploratory holes drilled. Such records shall include an accurate driller's log and such additional data concerning the description of said exploratory holes as many be required by the Board. Such reports shall be filed with the District Board at its office in White Deer, Texas, within thirty (30) days after completion of the well.

"An 'exploratory hole' as herein defined, is any hole drilled to a depth greater than the top of any stratum containing underground water, as 'underground water' is defined in Article 7880-3C, Revised Civil Statutes of the State of Texas, for the purpose of securing geological or other information which may be obtained by penetrating the earth with a drill bit, and includes what is commonly referred to in the industry as 'slim holes teste,' 'core hole teats' or seismograph graph tests holes' and the like, including water well test holes."

Rule 21

"Any hole hereinafter drilled for exploratory purpose shall be governed by the provisions of Article 7880-3C which are applicable and pertain to the conserving, preserving, protecting and recharging of the underground water reservoir, to the prevention of waste of the underground water, which incudes the pollution of harmful alteration of the character of the underground reservoir within the underground reservoir by means of salt water or other deleterious matter admitted from some other stratum or strata or from the surface of the ground. All operations, including the abandonment and plugging of said holes, shall be carried out such that no pollution of the underground reservoir will occur as a result of the drilling, abandonment, or plugging.

"An 'exploratory hole' as herein defined is any hole drilled to a depth greater than the top of any stratum containing underground water, as 'underground water' is defined in Aticle 7880-3C, Revised Civil Statutes of the State of Texas, for the purpose of securing geological or other information which may be obtained by penetrating the earth with a drill bit, and includes what is commonly referred to in the industry as water test holes, 'slim hole tests, "core hold tests' or 'seismograph graph test holes' and the like."

Rule 22

"There shall not be set off, detonated, or discharged any explosive within the bounds of this District at any point or place between the red beds, which form the base of the Ogallala underground water reservoir and the top of any stratum containing underground water, as 'underground water' is defined in Article 7880-3C, Revised Civil Statutes of the State of Texas."

Panhandle Ground Water Conservation District No. 3 South of the Canadian River, in Texas.

"I am the resurrection and the life He that believeth in Me, although he be dead, shall live; and everyone that liveth and believeth in Me shall not die forever" . . . . Words of Jesus

We do not lose
The Ones we love,
They only go before.
Where there is everlasting life,
Where Sorrow is no more . . .
And there the Soul
Will always live,
And Peace is everywhere.
We do not lose the ones we love,
God takes them in His care.

We wish to extend our sincere appreciation to those who ministered to us during the illness and death of our loved one. To Dr. Montgomery and the Doctors and nurses at Worley Hospital for their kindness and service. To Rev. Hudson and Rev. Boswell for the words of comfort and the beautiful service. To our friends and neighbors for the food served, the floral offerings, cards and prayers. To Duenkel-Carmichael and to the pall-bearers for their kind service. May God bless you all.

PAT BREWER

He would not want the ones he loves
To Grieve for him today.
We must not say that he is dead,
For he is just away.
Away upon a journey
To a land that's bright and fair,
And though we all will miss him here
We know he's happy there.
And memorials of him will bring
New comfort every day.
As we recall, he is not dead.
For he is just away!

We wish to express our sincere appreciation and deep gratitude to our many Pampa friends especially the Rev. Hawn and membership of the Calvary Baptist Church for their words of comfort and deeds of kindness at the loss of our Daddy. A special thanks to Duenkel-Carmichael and the many friends and neighbors for their kindness. May God's richest blessing rest upon each of you.

The Pat Brewer Family

Baptist Editor Blasts Fellow Church Members

United Press International

By ROBERT M. ANDREWS

A Southern Baptist editor took to task this week some of his fellow church members who have been critical of President Johnson's appeal for their support of the civil rights bill.

"A president has the moral right to ask aid from any American citizen for what he believes to be right, and he owes no apology to anyone for doing so," said editor E. S. James of the Baptist Standard. James told his readers in an editorial that Baptists have a right to express displeasure with the President's appeal, "but being Baptists does not give them the right to level the charge of politics' at either the President or his Baptist guests."

Johnson made his plea last March 25 in the White House rose garden before 150 Baptist leaders, urging them to help pass the civil rights bill and to "build a house of freedom where all men can dwell."

The President noted that Southern Baptists are part of the power structure of many communities. "No group of Christians has a greater responsibility in civil rights than Southern Baptists," he said.

Editor James, viewing the reaction to Johnson's remarks wrote:

"Some of the brethren who have been so exercised over this meeting would do well to stop and thank God that Baptists have an entry to presidents. If we want them to respect us and hear us in the expression of our convictions, we had better decide to respect them and be an attentive audience when they speak to us."

Sunday is Pentecost Sunday, the 1,934th birthday of the Christian Church. It celebrates that day in Jerusalem in the spring of the year A.D. 30 when the risen Christ's disciples were visted by the Holy Spirit.

The Book of Acts says they were "empowered" in heart and mind by the Holy Spirit to heal the sick, speak in foreign languages and to perform other miraculous works.

They went out and began to proclaim the Gospel of Christ with such fervor that the infant church won 3,000 converts by nightfall.

The American Bible Society, for the first time this year, is sponsoring a nationwide reading of the second chapter of acts at noon Sunday, the chapter that describes the first pentecost.

A record total of 34,403,825 copies of the scriptures was distributed throughout the world in 1963, the American Bible Society reports. This was an increase of nearly 3 million over the previous year.

Slightly more than half the total was distributed in the United States, the society's annual report said. Most of the increase was seen in the western United States and in the Pacific.

The school prayer controversy will be on the agenda when an estimated 2,000 laymen and clergy gather in Oklahoma City, Okla., next Thursday for the general assembly of the United Presbyterian Church in the U.S.A.

Delegates to the highest governing body of the 3.2 million member denomination will be asked to reconsider the assembly's stand last year criticizing religious exercises in public schools. It terms such devotionals as "indoctrination and meaningless ritual."

A House committee is now conducting hearings on proposed amendments to the Constitution seeking to override Supreme Court rulings outlawing school prayers and devotional Bible reading.

EAGLE ON LOOSE

LINGFIELD, England (UPI) —A golden eagle with a 7-foot wing span is making "kills" in the Lingfield area and already has frightened off a flock of magpies.

"It's very unusual to find an eagle in these parts," said local ornithologist John Rose. "They are mostly confined to Scotland. I can only think it has escaped from a zoo."
