NAME HONORS DR. ROOT

Hospital District Board Readying Annual Budget

Board of Directors has voted to keep the long-familiar name Root Memorial Hospital as official name for the local hospital to be operated now under the recently approved Colorado City Hospital District.

Also approved by directors is the retaining of the name Root Valley Fair Lodge for the adjacent convalescent home acquired by the new hospital district along with the hospital.

The continuing of the Root family name was approved, said J. W. Randle, president of the Board of Directors, as a tribute to the memory of the late Dr. C. L. Root, pioneer Colorado City physician and surgeon who established the hospital here Dec. 10, 1927.

Randle further pointed out

that keeping the names, Root Memorial and Root Valley Fair Lodge, "Saves the hospital district a sizeable sum of money due to license procedures under federal, state, welfare department, and social security. We eliminate the expense of new letterheads and a number of other miscellaneous items, too," he added.

Board of Directors, also known under Medicare regulations as Board of Managers, has held three recent meetings since the August 12 election endorsed the new hospital district by a vote of 1129 for, 87 opposed.

After election of board officers, with Randle as chairman, Murrell Blassingame as vice-chairman, and Bob Rely as secretary-treasurer, committees to facilitate

action of the board were appointed by Randle.

Executive committee members are Randle as chairman, Blassingame and Rely as members.

Finance committee is headed by Wayne Shawn as chairman, with Tom C. Moore and Blassingame as members.

Building and maintenance committee head is Rex McKenney with Mrs. Dee Blassingame and Blassingame as members.

Other action of the board in recent days has been the employing of Tom Rees, attorney, as legal counsel for the hospital district, and of Joe Morren, CPA, as auditor.

At their meeting, Friday, board members read and adopted hospital bylaws drawn up in accordance with requirement of Medicare. They also adopted official hospital policies, including Medicare provisions.

Set forth in the hospital policies adopted are patient admission and treatment; appeal mechanism for medical staff appointments.

Board of managers has also completed the task of reading and approving the bylaws and rules and regulations drawn up by the hospital medical staff — again in accordance with Medicare specifications.

Next on the agenda for the elected hospital board is the preparation of the proposed annual budget.

"We are working at the budget," said Rely, secretary-treasurer, and hope to have it ready soon so that a public hearing can be held as quickly as is feasible.

"The public," added Randle, "is fully entitled to study the budget. Then, too, we have to get the budget set up before we can assure the tax rate necessary to maintain the hospital."

Wednesday of this week members of the board spent the day in Lamesa where they visited the hospital, held conferences with its administrator, and studied fully the operation of a publicly-owned hospital with emphasis on financial management.

Two important aspects of assuming responsibility for the Colorado City Hospital District, its operation and properties of public trust, await action. They are official transfer of title and the choice of an administrator.

Expected Monday night, Sept. 11, at the regular monthly meeting of Colorado City's City Council, is final action by the city, actual exchange of title to ownership. The city has been interim owner of hospital and Valley Fair properties and equipment to assure continuation of hospital services.

Purchase by the city followed announcement in December, 1966, by Charles

Root, that keeping the hospital open here as a privately owned institution was no longer financially possible.

Transfer of title and proposed annual budget.

Memberships to Quarterback Club will be on sale during the evening. J. C. Garrett, secretary-treasurer of the club, said Wednesday that membership sales are lagging thus far.

Those holding membership in the club will be eligible for a watch to be given away in the near future, Garrett announced.

Hospital Board Of Directors Confer

Two officers of the Colorado City Hospital District Board of Directors and the chairman of the finance committee in conference are at right, Bob Rely, secretary-treasurer of the board, Wayne Shawn, standing center, chairman of finance committee, and J. W. Randle, chairman of the board. Name of the hospital, bylaws and policies, have been adopted. Coming up next are the budget, the hiring of an administrator, and official transfer of title of properties from the city, interim owner of the hospital.

WIDELY KNOWN FARMER

Dave Womack Rites Set Today

Dave Womack, lifelong citizen of Mitchell County, died at 1:50 a.m. Wednesday in Root Memorial Hospital.

Womack, 72, had been in poor health for several years, following a series of heart attacks. His condition became critical about two weeks ago.

He was long active in the Mitchell County Democratic Party organization, a member of First Methodist Church, a Mason, and a veteran of World War I.

Born in the Cuthbert Community, Mitchell County, Nov. 10, 1894, he was married to the former Miss Wilma Williams at Cuthbert, Dec. 14, 1930. Mr. Womack was a farmer in the Plainview Community.

His wife, of the farm home at Plainview, and one daughter, Mrs. Leron (Betty) Harris of Odessa survive him.

Also surviving are two granddaughters of Odessa; one brother, E. S. (Ed) Womack, 900 East 17th St., Colorado City; two sisters, Mrs. Sherwood Tyler of Littlefield and Mrs. W. O. Welbourne, of Monahans.

Funeral services will be conducted in First Methodist Church at 3 p.m. Thursday (today) by Rev. Billy Wilkinson, pastor, assisted by Rev. M. A. Smith, Jr., pastor of First Baptist Church, and Rev. Caddo Matthews, pastor of Plainview Baptist Church.

Burial will be in Colorado City cemetery under direction of Kiker & Son Funeral Home.

Active pall bearers will be Huron Dorn, Sam Thompson, Earnest Uzzle, Alfred Carey, Claude Hooks, Sam Hale, Dick Thompson, and Arthur Carter.

Kenneth Hoover Fund Total \$250

Kenneth Hoover Fund, started by members of the Buford Baptist Church, is still in progress and donors may contribute to the fund at City National Bank.

Hoover, young Buford man, is still in Scott White Hospital at Temple where he underwent surgery August 10.

Son of Mr. and Mrs. Herman Hoover of Buford Community, he has been plagued by recurrent illness since he was 13 and has spent much of the last six years actively, sometimes critically ill, in hospitals.

His first illness was rheumatic fever when he was just 15. He continued school, half a day at first, after four and a half months in bed.

When he was 19, and starting his second semester at Hardin-Simmons University, he became acutely ill again. After 17 days in Root Memorial hospital here, he was sent by doctors to Parkland at Dallas where he remained eight weeks and had emergency surgery, one night, to stop a hemorrhage.

In Sept. 1961 he felt well enough to take a position with a bank in Odessa where

he met his future bride, Miss Marlene Thomas. Wedding of the couple was postponed when Hoover had to be flown by chartered plane to Scott White, Dec. 24. He was hospitalized there for nine weeks.

Blood transfusions have been frequently and repeatedly necessary to pull the young man, in his mid twenties now, through some new crisis. More transfusions were necessary before the most recent surgery.

Buford Baptist began the fund to help the young patient who was in Wayland College at Plainview studying for the ministry when his latest physical breakdown came.

Because of his medical history, hospital insurance has not been available to him. He is still hospitalized. He may have to be hospitalized for an indefinite period.

All interested citizens of Mitchell County are invited by the church at Buford to have a part in the Kenneth Hoover Fund, said Henry Hoyle and R. Y. Hammond.

Total deposit in the fund, Tuesday, was \$250.

Assault Charges Filed

Charges of aggravated assault were filed in county court here Monday against Lloyd Lunceford.

Lunceford is charged with aggravated assault against an officer, Texas Highway Patrolman Buddy Hertenberger.

Also lodged against Lunceford were DWI charges, second offense. Advised of his rights by Justice of the Peace Leonard Henderson, the defendant waived hearing and entered a plea of not guilty. He was released under bond set at \$400.

Arrested Sunday near Cottonwood Flats, Lunceford and a passenger were first reported to city police at 3:30 p.m. Sunday when the 1960 auto, driven by Lunceford, reportedly left Dairy Frost on Hickory St. at a fast rate of speed.

At 3:33 p.m., another report came from Mrs. Raymond Furr who advised the car "hit her" near the hospital at a speed her report estimated at "about 80 miles an hour."

City officers gave immediate chase after the first report. Hertenberger spotted the car while on his regular Sunday afternoon patrol and made the arrest.

SCS Agricultural Tour Set Wednesday Morning

Farm tour over a wide expanse of Mitchell County agricultural projects is set for Wednesday, September, with Mitchell Soil Conservation District as sponsors, assisted by the "Ag" committee of Colorado City Chamber of Commerce.

Business men, professional men and all citizens interested in agricultural progress for this county are invited to make the tour.

Travel will be by school buses to be boarded at Lone Wolf Electric Cooperative cooperatorium at 8:30 Wednesday morning. Buses will get underway at 9 a.m., promptly, said A. V. Sheppard of the SCS.

Tickets for the lunch hour may be had at several points

in Loraine and in Colorado City. Barbecue lunch will be served at exact cost, \$1.50 per person.

Directors of the tour point out that going on the tour does not require that the tour-goer eat lunch at the Coop, and that business men unable to make the tour can attend the lunch hour after the tour.

Committees request that lunch tickets be obtained by Saturday noon in order to give the caterer notice of how many plates to prepare.

At Loraine, tickets are available at First State Bank, Preston Drygoods, and Loraine Feed & Seed Co. In Colorado City they can be purchased at City National Bank, Fuller Foods, Village Food Market, Chamber of Commerce office, and Colorado Feed & Seed Co.

Dink Rees, general chairman of the fair is in charge. All civic organizations, clubs, classes, are invited to take part.

Jaycees To Operate Rest Stop

Colorado City Jaycees will again man a rest stop during the Labor Day weekend.

The local Jaycees will operate the rest stop at Jeff Taylor's Enco Service Station on West Interstate 20.

Hours for operating the stop will be Friday from 6-9:30 p.m. and Saturday and Monday from 29:30 p.m.

Refreshments of coffee, doughnuts, cookies and soft drinks will be available for holiday drivers and their passengers.

Aubrey Williams is chairman for this year's project. Local Jaycees are joining Jaycees across Texas and the nation in offering this holiday service.

Patrolman George L. Lee, 111

Colorado City's new Texas Department of Public Safety Patrolman is stationed here at Mitchell County Courthouse. He is in charge of the license and weight laws enforcement and questions concerning commercial traffic can be referred to him. Lee's area covers all or parts of five counties. The 25-year-old patrolman was a structural draftsman for Central Iron Works before entering Patrol School. He is married and the father of a daughter, Tracey, aged four.

County Fair plans are underway here in Colorado City with Dink Rees as general chairman.

Dates have been set and committees announced for the '67 version of Mitchell County Fair to be held here, Thursday, Friday, and Saturday, September 21, 22, and 23.

Site of the fair, sponsored each autumn by the Colorado City Chamber of Commerce, will again be the Mitchell County fair grounds and agriculture buildings,

Highway 80, west, business route.

Highlight of plans is a parade with Lacy Boles as marshal.

Agriculture divisions will be superintended by John Russell, A. V. Sheppard, and Bobby Lemons.

Heading the women's division and exhibits will be Mrs. Harry Dockrey and Mrs. Bill Jackson.

Arts and Crafts show will be in charge of Mrs. Tom Neff. Mrs. Chester Hart will be superintendent of the Horticulture division for the

always-popular fall flower show.

In charge of physical arrangements are Tandy Curlee and Wendell Jarnigan.

Miss Janice Miller will direct Youth Division.

Coordinator for the fair planning and showing is Jimmy Harrison.

Special feature for children and the young-in-heart attending the fair will be the midway with rides furnished by Gene Ledel who is among the State Fair of

Texas ride providers.

Concessions — food, soft drinks, toss games, and a wide variety of entertainment — will by tradition be operated by various town and county organizations.

Dink Rees, general chairman of the fair is in charge. All civic organizations, clubs, classes, are invited to take part.

A drawing for operation of favorite concessions will be staged and organizations are requested by Rees to notify him of intention to participate.

Educational displays may also obtain space by calling Rees.

Retail Merchants Committee of the Chamber voted this week to stage an added attraction.

Stores and business houses here will give away tickets, beginning one week before opening day of the Fair. Tickets can be had for the asking with no purchase necessary, starting Thursday, Sept. 14.

Each night of the Fair the merchants committee will

give away \$50 in cash. Drawing for the lucky number will take place at 9 p.m. in front of the exhibit building three nights in a row with \$50 given away every night.

Tickets will be available at Colorado City Record, Corner Drug, Landau's, Colorado Drug, Maniss Office Supply, Sam L. Majors, The Fair Department Store, Sears, Richburg Decorator Center, Anthony's, Ben Franklin store, J. C. Penney's, Mode O' Day, and Thomas Brothers service station.

Mitchell County To Get More Markers

Mitchell County is to receive two new historical markers soon.

Court House square will receive one marker, the largest one given in the state. This marker is to be paid for completely from state funds.

The marker, which is being awarded the county because of the active marking program here, will be inscribed with a brief history of the Mitchell County.

The county was one of 54 counties created from Bexar County in 1876. The area included 922 square miles and was named for the late

Eli and Asa Mitchell of Austin's colony.

By 1881 there was a tent city of two or three hundred inhabitants—and a weekly newspaper. The settlement was named Colorado City for the Colorado River.

Colorado City was chosen county seat in an election in January, 1881.

Working for another marker inscribed with information about Buffalo Trail, has been approved by the local county committee.

This marker will be placed by the buffalo tracks at Colorado City Museum. Mitchell County is rated

15th in Texas by the Texas State Historical Survey Committee for its marking activities.

Wolves Ready For Eldorado

Colorado High Wolves are set for their last scrimmage of the season Friday night. The Wolves and Eldorado will both travel to meet at 8:00 p.m. in Lake View Stadium.

Coach Truman Nix reported that the Wolves have improved their passing game since the scrimmage August 22 with Lake View. He also indicated that the team's pass defense has progressed.

According to Coach Nix, several other factors may be

even more important. "Their physical condition has improved considerably," he said, "and they have a good attitude and a lot of determination."

Most of the team's minor injuries are healing rapidly. Glen Hunter was out for only a short while with a bruised hip bone. John Bisnett suited out Monday night for the first time since he suffered an ankle injury several weeks ago. Although 7 players were out at various times with a virus, they are all back now.

Head coach of Eldorado is Ray Morgan, who resigned as assistant coach here two years ago to take up his present position. Coach Nix expects him to have a speedy backfield. He noted that three Eldorado backs were members of the sprint relay team which placed fourth in the Class A state track meet last spring. According to Nix, the same backfield sports a 215 pound fullback.

The coach expects Eldorado to use the straight T, and possibly to set with a split end. "They'll throw a lot," he said, and indicated that backs will be primary receivers.

For a final note as to what the coaching staff expected, Nix remarked, "Any team that Coach Morgan puts on the field will hit you."

Fisher's Top Steer Bred Here

The steer was judged top calf shown at the 22nd annual Fisher County Live Stock Show and rodeo, Friday.

Colonel Hall Gets Medal

Colonel Hubert E. Hall, USAF, retired, was recently awarded the Joint Service Commendation Medal for meritorious service while assigned to the National Security Agency.

Husband of the former Miss Lila Louise Mannering, he is son-in-law of Mr. and Mrs. Lester Mannering, 929 Locust St., and is a career Air Force man.

According to Robert X. Boucher, information officer "This award is a senior one and is presented only for distinct and substantive achievements. Its presentation is made only after careful review and rigid evaluation of the recommendation. "Colonel Hall distinguished himself by his consistently outstanding display of leadership and management acumen," Boucher stated. "Through his superior man-

agerial and administrative abilities, he was able to resolve many complex personal problems. . . . A most competent officer, he further shared willingness and enthusiasm that motivated his subordinates to accomplish tasks and objectives which at first seemed unattainable."

Colonel Hall and his family are at present living in New Branufels.

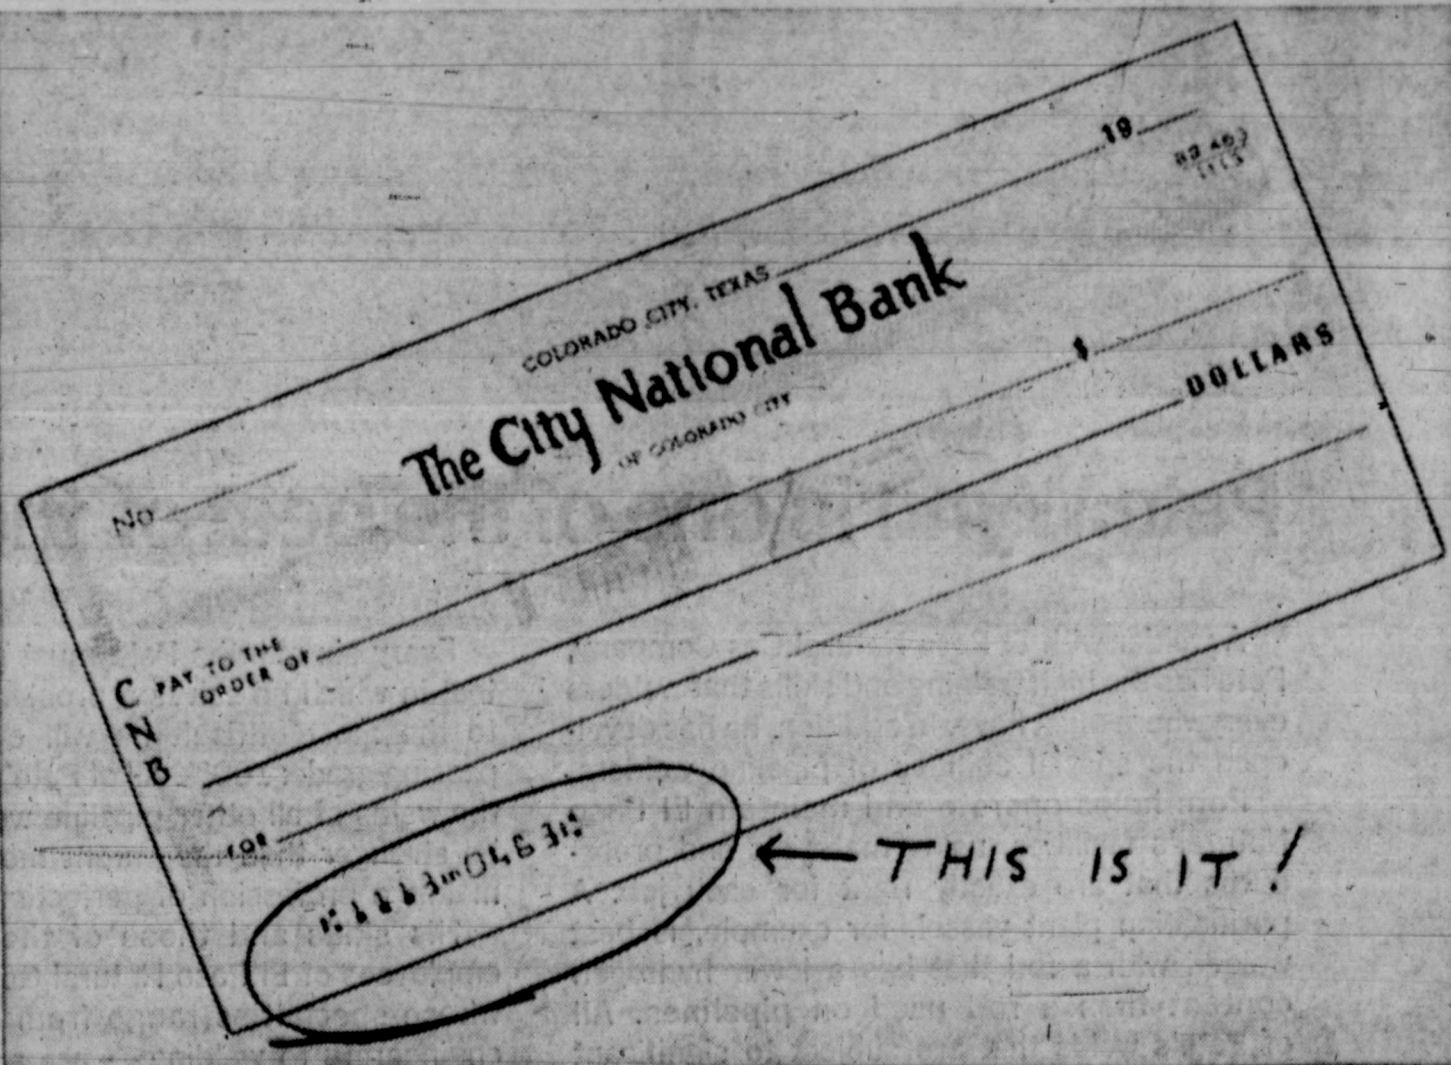

Story Hour Ends As School Begins

Members of 1949 Study Club sponsored the 10 o'clock story time each week beginning early in June.

Story hours will not be held through the fall months club members announced. The club's summer project attracted between 10 and 15 four to six year olds each week.

CONVERSATION CORNER

FOR NO REASON at all except waking up at 5:30 a. m., decided to think up a fancy nom de plume for all the wicked best-seller books to be written . . . if and when the time comes for retiring as a twice-weekly columnist.

"My mind to me a kingdom is" NOT . . . it's more on the order of an anarchy — or maybe a democracy with occasional scattered riots and rebellions.

Early morning insomnia, due no doubt to Daylight Saving Time, is conducive to rebellion.

ANYHOW, the ambitious sinful novels yet to be written by yours sincerely would just have to appear under a pen name, a nom de plume, if you please . . . because no law-abiding little grandmother-type would ever want to be held responsible!

Just think back to what happened to the author of "Peyton Place." That book made its woman writer rich . . . and ruined her image both public and private. Matter of fact she got divorced, ostracized, and then died in her prime.

The rich part is fine. And am saving the spending of all the money until some other morning when awake with the birds.

MEANTIME, the choice of a nom de plume is still not settled. For no reason at all, thought first of writing a wicked book, using the pen name **Tommy Hawk**.

Like that one better than the once favored nom de plume **Ruby Ott**. Best sellers are usually hatchet jobs, anyhow, aren't they? Look at "Valley of the Dolls," and the job the author did on two movie stars.

Considered, too, a pen name like **True R. Knott** . . . and some others equally facetious.

IN THE WARM light of day, however, the whole thing looked very different.

Who wants to write a book bad enough to be banned, then made into a movie starring Sophia Loren or perhaps Patty Duke, one of the three tough-talking non-heroines of "Valley of the Dolls?"

So? So, after the second cup of coffee decided to give up the project. For now, at least.

Decided to go right on being Ruth Coffey . . . watching and pursuing only the good things that nice, good people are doing.

WHEN IT comes right down to it, don't really know anything mean enough about anybody to make a tale exciting enough to bother the publishing and reading world with.

Next time the clock says 5:30 a.m. may just get right up and write another column. Or go back to sleep and dream of Pulitzer Prizes.

Anybody who wants to write sensational stories under the nom de plume **Tommy Hawk** is welcome.

I pass — now that the world is wide awake . . . and sweet to live in . . . every day.

FOR INSTANCE — seen lately included Mrs. Witt Hines happy over a recent visit with son Don Hines and his family in Taft, California.

Had little conversations with Bill and Josie Randle . . . Sefton Pickens . . . Ruby (Mrs. Drue) Cawthron too.

Had a rare coffee break with Annie Dixon (Mrs. Ross) the Record's classified ad gal . . . wonderfully sweet fallowmeated watermelon from the fields of Dewey Turner, shared with Jim, Betsy, and daughter Doris Mann, on the backyard picnic table, late in the evening.

Tall and glamorous Frances Deregibus (Mrs. Frank) was an office visitor. She and her daughter Dana were en route to Abilene to meet the plane boarded by Mrs. Dolores Konwinski, mother of Dana's bridegroom (come Saturday) Michael Konwinski. His mother lives in Warren, Michigan and is here for the wedding.

HEAR TELL that our Hortenbergers, Buddy, Lop, and their children Jerrye Lyn and Russell, are back from Cloudcroft.

They parked the brand new trailer bought by Lou's father in Lincoln Forest Park camp grounds, went to the Red Dog to hear folksingers Dave and John perform and . . . guess what . . . a bear ripped holes in that camper while they were gone.

Read one time, long ago, that insects will finally take over this world. Way it looks this summer in national parks, it may jolly well be the bears, instead!

BRIEF ENCOUNTERS brought small conversations with Lena Strange, wife of Gwan and mama of Clay . . . Peggy Bagwell, wife of Hulen, the fire chief . . . Sandy Chamness, Loraine girl who works in C-City.

Janie Anderson, ex-editor of the Record was in town Monday. He's son of Allie Anderson, 628 East 17th St., and is in PR (public relations) for Texas Coop Power at Austin. County Judge Elmer Martin dropped in with him for a minute.

Virginia Fuller, wife of Raymond, spent Tuesday in Abilene, accompanied by her mother Mrs. Warren Tayman of Stamford.

DRIFTED HOME at noon to feast on peanut butter . . . and found everybody and everything in "As The World Turns" in trouble again — or is it still?

It occurred to me, while munching and watching, that the writer of the TV daily drama is, herself, a spinster. A very clever spinster who gets people married and unmarried, in and out of hot water, day after day on her soap opera.

That writer may not have a husband herself but goodness knows she's got imagination to spare.

OFF THE CUFF — Shared a lunch counter, another day with Kack Price McClelland (Mrs. Fred).

Asked after Johnny Prude, husband of Kack's little sister Frances Elaine, to hear he isn't getting better. The Prudes live in Lubbock and Frances Elaine is secretary to a Texas Tech professor. Johnny has been ill about two years now.

Spied Jackie Hickman . . . Also Pearl Lindsey and her daughter Lena who is Mrs. Melvin Baumann of Loraine, Lena, by the way, is another ex-employee of the Record. She's helping to get this week's issues of the Colorado Record out. Joe and Madge Bell are on a short vacation.

Ruth Latham (Mrs. Louis) is back home from visits with her two sons and daughter and has been entertaining her three sister-in-laws.

Guy and Edson Barson have been spending a few days visiting Guy's father . . . and Ada Womack was a Record office visitor.

That's all for now from this people-watcher who likes best to write in the mood and in the pace of this particular vantage point . . . "Just a little street where old friends meet."

Jas. McMath Reviews Book

James G. McMath, superintendent of Colorado Public Schools, Friday evening reviewed the book, "The Nongraded High School" in Mitchell County Public Library.

The program, sponsored by the Cultural Activities Committee of the local Chamber of Commerce, also featured an informal question and answer period.

"The Nongraded High School," written by a distinguished educator, B. Frank Brown, presents a sophisticated approach to modern education — a high school without traditional grades — based on Dr. Brown's experience as principal of what Fortune Magazine called "perhaps the most stimulating high school in America."

Dr. Brown, principal of the famous nongraded high school in Melbourne, Fla., is a member of many of the top government and professional groups in his field.

Sefton Pickens, executive vice president of the Chamber of Commerce, presided during the evening review.

Mrs. G. D. Foster, chairman of the Chamber's Cultural Activities Committee, introduced McMath.

Approximately 40 persons attended the review.

The Department of Public Safety has issued a grim warning that 45 people will die in state traffic accidents during the Labor Day weekend.

DPS will make an all-out effort to curb wrecks and to stop reckless and illegal driving on the highways, says Col. Homer Garrison Jr., veteran director of the law enforcement agency.

Approximately 150 uniformed officers from other services will supplement the regular highway patrol force for the long holiday period. Friday, September 1 through Monday, September 4.

In addition, a coordinated effort involving several state agencies and private organizations will be directed toward holding down the fatality and injury list.

Texas Safety Association will conduct a public information program stressing the need for courtesy and caution on the road and urging drivers to remain alert. TSA Vice-President W. F. Leonard will coordinate efforts of 12,000 Junior Chamber of Commerce members operating 200 rest stops which will serve free coffee to tired drivers.

DPS plans to carry on its educational program via newspapers, radio and television and will distribute maps showing highway construction sites.

A fleet of 35 to 40 cars to assist stranded motorists over the state will be operated by Texas Council of Safety Supervisors and Texas Motor Transportation Association. Purpose of the "holiday road patrol" is to relieve highway patrolmen for enforcement work.

"There is always the possibility that the estimate of 45 deaths for this period can be proved to be too high, but only if all drivers put forth every effort toward avoiding traffic accidents," Col. Garrison said.

Meanwhile, DPS has announced radar sets will be placed in every patrol district over the state to aid in enforcing highway speed laws. Sets capable of accurate readings on vehicles at distances up to 1,500 feet will be carried in patrol cars.

Speeding figured in 41 per cent of last year's fatal accidents and 29 per cent of non-fatal accidents.

SMITH RUNNING — Lt. Gov. Preston Smith broke open the 1968 political season by telling reporters he will run for governor next year regardless of whether Gov. John Connally plans to try for a fourth term.

"I want to make it clear once and for all that I am running," Smith said. "I have absolutely no idea what Governor Connally will do, and it doesn't make one iota of difference."

However, the Lieutenant Governor insisted that he would not make a formal announcement of his candidacy, complete with definition of issues, until Connally returns around Labor Day from his African Safari.

House Speaker Ben Barnes has indicated he will run for lieutenant governor if Connally seeks a fourth term.

Former Atty. Gen. Waggoner Carr also expressed some interest in the lieutenant governor's race. But he emphasized that he had not made a definite decision.

Another prospective candidate for lieutenant governor is State Sen. Murray Watson of Waco.

APPOINTMENTS — Lieutenant Governor Smith has named these committees:

POVERTY STUDY — Sens. Joe J. Bonilla of San Antonio, chairman; Bruce Reagan of Corpus Christi, co-chairman; James S. Bates of Edinburg; Joe Christie of El Paso; and A. S. Schwartz of Galveston.

OYSTER AND SHELLFISH — Sens. Schwartz and Jack Hightower of Vernon.

LAND USE AND ENVIRONMENTAL CONTROL — Sens. Criss Cole of Houston, Charles Herrington of Austin and George Parkhouse of Dallas (who died shortly after appointment).

WESTMORELAND PORT — Sens. Dorsey Harman of San Angelo and W. Patman of Canado.

House Speaker Barnes named to the Texas Legislative Council Reps. Ralph Payne of Plainview, James

Slider of Naples, Grant Jones of Abilene, Gene Hendryx of Alpine, Menton Murray of Harlingen, George Binson of Minocla, Paul Floyd of Houston, Tommy Shannon of Fort Worth, Dan Cavness of Austin and R. H. Cory of Victoria.

ELECTION LAW — Secretary of State John Hill has provided Texas election officials details of all changes in state election laws enacted by the 60th Legislature.

Major changes include:

- Voters may mark ballots with "x" or check marks rather than scratching names of candidates, they oppose.

- Counties may use electronic voting machines on approval of the secretary of state.

- Those who have not yet met state voting residence requirements may vote for president and vice-president.

- Those who have moved from county to county within six months before an election can vote for state-wide officials.

- Some city election dates will be changed from the first Tuesday in April to the first Saturday in April.

- Election officials will get a pay raise from \$1 to \$1.25 an hour.

- Voters in bond elections will be required to sign affidavits they own property and to identify the property.

- Write-in votes will be outlawed in primaries except for party officers, like county chairman.

- Only opposed candidates will have to file campaign expense statements.

- Voters again must register between October 1 and January 31. All voters must sign up (including citizens over 60 in cities of less than 10,000 population).

COOPER DAM — Texas Water Development Board is moving to end a squabble delaying the \$24,000,000 Cooper Dam development on the Sulphur River near Texarkana.

Argument has been over a federal requirement that 63,000-acre-feet of water annually be discharged from Lake Texarkana below the proposed dam. This to curb pollution in Red River.

TWDB has proposed that Cooper Reservoir provide about half the pollution control water, with reductions permitted if water quality improves.

FREE TUITION — Under a new law in effect this fall free tuition and fees in state junior and senior colleges and universities will be available to 5,000 to 10,000 young Texans from families with incomes of \$4,800 a year or less.

Students must have financial

aid in the upper 25 per cent of their high school classes or score in the top 20 per cent on a standardized admission exam; must be under 25 years of age; and must have lived in the state at least 12 months before registration date. Only freshman students are eligible this year.

ATTORNEY GENERAL — A school district may spend local maintenance tax money to pay lunch room overhead cost, Atty. Gen. Crawford Martin has ruled. He also ruled that:

- A municipal gas corporation created as a non-profit corporation to serve a municipality would not be exempt from city, state, county and school district property taxes under the constitution.

- A new law setting fee schedule for county clerks is constitutional.

SHORT SNORTS — Special elections will be held November 11 to select successors to the late Sen. George Parkhouse of Dallas and the late Rep. Ira Kohler of Houston; also, Rep. Otha Birkner of Bay City who resigned to become a Matagorda County Commissioner; Rep. Maurice Pinkin of Brownsville, now director of the new State Judicial Qualifications Commission and Ron Lee Dugan of Houston, now Judge of Harris County Criminal Court No. 1.

Texas retail sales dropped three per cent in July compared to a nationwide drop of five per cent, according to UT's Bureau of Business Research.

After a hearing before State Education Commissioner J. W. Edgar, Lake Worth school board was directed to reinstate Supt. Grady Vaughn or to pay up some \$28,000 on a two-year contract.

Texas Highway Department has asked contractors to submit bids August 29, 30 on some 42 highway improvement projects estimated to cost \$27,000,000.

According to the State Health Department, Texas leads the nation in diseases preventable by immunizations, such as diphtheria, polio and measles, but only about 5 per cent of the nation's population lives in Texas.

Sen. D. Roy Harris, chairman of the Interim Committee on College Faculty Compensation, was expected to report on September 1.

Donald B. Neumann, Austin teacher, has accepted position with the Governor's Committee on Public School Education.

Governor's Committee for Employment of the Handicapped and National Employ the Handicapped Week in Texas will meet here on September 22.

New Economic Advantage Bill Entices Industry To Rural Towns

By OMAR BURLISON
United States Congressman
17th District

Too often the Congress rushes in with "crash" programs in an attempt to solve problems after they have reached the crisis stage.

America has been undergoing changes more severe than occurred when it entered into the industrial age. The leap forward in scientific development and social evolution since the end of World War II have had staggering effect. With all the factors involved, one result, if not a cause itself, has been the influx of people from rural areas into urban settlement. A brief 25 years ago Texas, for instance, was approximately 75 per cent rural and small towns. Today, the reverse is true. The same is true generally all over the United States. It is pretty obvious this accounts for some of the social, political and economic upheaval which has resulted.

People are not likely to be happy in the big cities standing on one another's shoulders. The problems of crime, traffic, crowded housing, health and education

are not likely to be solved under such conditions. Billions of Federal dollars are being spent on sort of a scotch tape, baling wire and twine string approach, but it is already proved the patch can not stand the strain. Riding along a city street, looking at the teeming thousands living on their front steps, in the alleys and on sidewalks, one wonders why these people would not seek some wide open spaces, but it is what they know and the way they want to live.

There are others, however, who, for economic reasons, are being driven from the farms and rural areas to the larger centers of population, seeking opportunity to make a living.

Probably no incentive would be large enough to bring some of them back to the farms and the country, but there is a need for jobs in many of our small towns and those from farms who need to supplement the family income.

Legislation has been introduced to offer certain incentives for small town industries. The measure provides a tax incentive for plants to locate in rural small towns. It is proposed to increase to 14 percent the normal 7 percent investment credit on machinery, and give a 7 percent investment credit on the cost of construction quarters for housing business. It provides for a stepped up depreciation of two-thirds of the normal life of machinery, equipment and buildings. It proposes to allow 125 percent deduction for wages paid to newly hired low income workers for a period of three years. It also permits what is known as

a carry-back for three years and a carry-over for ten years for all credits and deductions.

To guard against unfair treatment of communities in other parts of the country, the incentives are applied to a new operation so as not to induce a business already in operation to leave one community to go to another. The idea also proposes safeguards against coming into an area in competition with local business, but, rather, to engage in an enterprise not competitive and one which would furnish jobs for people not employed. The proposal also carries a provision for training for new jobs.

These proposals are not viewed as simply benefiting a rural population. Rather, they should be viewed as a major effort to revitalize rural communities, with the residual benefit to our national economy. One of the most beneficial features of such an effort is the fact that only people with roots in a community will have a pride and a dedication toward making that community what it should be. The rural people, in their independence, have been one of the greatest factors in making our Nation great. People's interest in their local institutions — their churches, their schools, their concern for the welfare of their neighbors, restoration and cultural improvement — is the foundation of good government and good living.

There is little encouragement to believe conditions will get better before they get worse. A more solid and long-range approach should hold the greatest prospect for solutions: not now in sight.

and Westside areas of San Antonio recently showed unemployment to be at least 8 per cent with 47.4 per cent — nearly half the population of East and West San Antonio — underemployed. The same sort of "special census" by the Labor Department in ten American cities showed unemployment and underemployment ranging up to 60 per cent in parts of the big Eastern cities.

These are the areas that must be radically changed. The Federal Government and many local organizations are working hard to cleanse the face of areas like some we have in our Texas cities.

It is time that business also took a role. It is in the best interest of private industry, and in the best interest of our nation.

The Texas Employment Commission reported 161,000 Texans registered as unemployed during June. But that doesn't tell the whole story.

For example, San Antonio had a June employment rate of 48 per cent. But a special census of the East

and Westside areas of San Antonio recently showed unemployment to be at least 8 per cent with 47.4 per cent — nearly half the population of East and West San Antonio — underemployed. The same sort of "special census" by the Labor Department in ten American cities showed unemployment and underemployment ranging up to 60 per cent in parts of the big Eastern cities.

Sermon Of The Week

To Be Human Is To Be Responsible

By BILLY WILKINSON
Pastor, First
Methodist Church

The Creation story is the religious account of the beginning of the Human Race. God created male and female and placed them in a garden to attend the garden. They were to take care of it and have dominion over the fowls of the air, the beast of the field and the fish of the sea. A responsible Creator had created them in his own image — to be responsible beings. Now responsible individuals are obedient to the demands made upon him by authority and circumstances.

God said to Adam and Eve, "Take care of what I have given you, but don't eat of a certain tree." But Adam and Eve broke the trust placed in them. They ate of the forbidden tree and were called to account by God.

Their irresponsibility made them cowardly; when God called, they were in hiding. Their irresponsibility made them dishonest — Adam said Eve was responsible — Eve said the serpent was responsible.

Their irresponsibility made them less than what God had created them to be — human beings in his image. God said, "Because of your foolishness, you must get out of the beautiful garden. You have separated yourselves from the best because of your disobedience and irresponsibility."

To be created in God's image is to be created a human being. To be a human being is to be fully responsible in life to God and man in all prevailing circumstances.

How often are we irresponsible? How often do we fail to measure up to full stature? How frequently do we react as cowards? How many times have we "passed the buck?" — been dishonest? In all of these activities we are less than human; less than what God dreamed and expected of us. It is futile and foolish for us to pray: "Thy Kingdom Come, They will be done on earth as it is in heaven" until we are personally willing to live honestly and responsibly before God and our neighbor.

Taxpayers Exam For Income Tax

This column of questions and answers on Federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q — Do you pay interest on refunds that are delayed in getting out?

A — Yes, the government pays interest on refunds that are not issued within 45 days of the due date or the date filed whichever is later. The interest is at a 6 percent annual rate, the same rate taxpayers are charged on unpaid tax balances.

Q — How does the average taxpayer make out when he takes a dispute he has over an audit of his return to a district conference?

A — In about 65 percent of district conferences, the taxpayer is able to settle the dispute satisfactorily.

Q — Where should I send my quarterly estimated tax payment, to the district or service center?

A — Estimated tax payments should be sent to the Southwest Service Center at Austin, Texas. The next payment is due September 15.

Q — Is there any tax advantage in having stock listed in both the husband's and the wife's name?

A — No. There is no tax advantage in having stock

listed in both the husband's and wife's name in Texas. Dividends are considered community property, no matter who owns the stock. Due to the community property law each spouse can exclude up to 100 in dividends from income regardless of whose name is on the stock.

Q — My income is under \$5,000 but my return was audited this year. Why do you bother with such small taxpayers?

A — In the administration of the tax laws, the Revenue Service seeks to assure each taxpayer that he pays neither more nor less than is required of him. Regardless of the amount of income, some returns are selected for audit as a pattern to measure this standard of compliance. The fact that a possible adjustment to a return is small is never a reason in itself for not examining the return. No taxpayer should feel that his return is exempt from examination.

Q — Can I take any deduction for the exhibit I'm putting in for my store at the county fair?

A — Yes, expenses connected with you fair exhibit may be deducted as a business expense.

Q — Are expenses for sending a child to Boy Scout camp deductible?

A — No, these are personal expenses and not deductible.

Draft Questions Answers To SS Inquires

Editor's note: Below are questions now being asked at draft boards. The answers are by Col. Morris C. Schwartz, State Selective Service Director, 702 Colorado St., Austin, Texas 78701. He will welcome your questions.

Q — What must I do to qualify for IIS classification as an undergraduate college student?

A — You must file a written request with your draft board after June 30, 1967. At the end of each school year you must furnish the board with convincing evidence that you are continuing to pursue satisfactorily a full-time course of instruction.

Q — How is the phrase "satisfactorily pursuing a full-time course of instruction" defined?

A — An undergraduate student taking a four-year course must earn 25% of the credits toward his bachelor's degree at the end of his first academic year, 50% at the end of his second, and 75% at the end of his third. If five years of study are prescribed by the school for a bachelor's degree in some field, a student must earn 20% of the total credits to

ward the degree each year.

Q — What is meant by a "student's academic year"?

A — In determining a student's eligibility for classification in Class IIS (college student), his academic year shall include the 12-month period following the beginning of his course of study.
