SIGHTS, FACES SEEN

W. O. Fortenberry, chairman of the High Plains Water Conservation and User's association, spoke before the Hereford Lions club Wednesday.

The Jayceettes are holding their next regular meeting Friday, Aug. 10 at the home of Mrs. Dick Lucas, 513 Knight.

A swimming party honoring the state Junior Chamber of Commerce president will be held Thursday night at 6:30. A picnic will be held at 7:30 in Jaycee park. All Jaycees and their families are urged to attend.

Ulin Streu was toastmaster Monday night at the regular meeting of the Hereford Toastmasters club at Hotel Jim Hill. Joe Smith was general evaluator and prepared speeches were made by Francis Hardwick and Dr. M. C. Adams. Leo Forrest and David Rogers were welcomed as new members. Jim Kirby, Clint Formby, and Bill Curtis were guests.

All former residents of Lamar county are invited to the Lamar County Picnic Sunday, Aug. 19 in McKenzie park, Lubbock, east of the swimming pool. Bring a picnic lunch.

The Summerfield Homecoming originally scheduled for August 12 has been postponed until September 2 because the farmers of the community are busy with harvest.

The story of Hereford's bone study continues to spread around the state, according to mail received in the Chamber of Commerce office. The Stanton and Waco newspapers carried wire stories of the foundation being set up for local soil and vegetation analyses. A Texas doctor also expressed interest in literature about the area's chemistry.

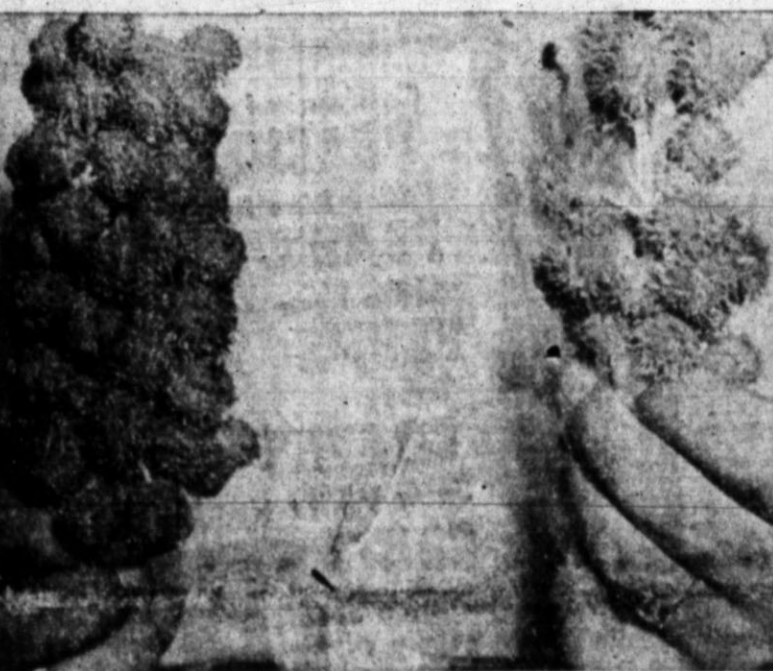

Den 4 Pack 50 will resume their activities with a pow wow and eats at the home of Mrs. Edgar Skypala August 11 at 6 p.m. according to Edna Lee Collier, den mother. Following the pow wow the group will enjoy a skating party.

Mr. and Mrs. Ray McCullough returned Saturday from a 15-day vacation in California and Old Mexico. The McCulloughs were accompanied by Mrs. McCullough's sister and two nieces. Mrs. Otis Burrows and her daughters, who had been visiting with them here. They returned to their home in San Bernardino. While in California, the McCulloughs visited San Bernardino, Los Banos, and Tijuana, Mexico.

Mr. and Mrs. Earnest Ray Hawkins and family of Fort Worth visited the first of the week in the home of Mr. and Mrs. Bill Knox.

TOM MCFARLAND, secretary-manager of the Chamber of Commerce, is shown in a field of castor beans on his farm northwest of Hereford. Castor beans are making a good showing in this, their first year in this area. Local producers were told last week by representatives of the Coker company that they would be able to sell their beans in Hereford rather than ship them to Wellington. Local producers would have to hire a man to handle the shipments, however. This will still be an approximate saving of \$3000 on an estimated million pounds of beans which will be raised here.—Brand Staff Photo.

THE SPIKES of the castor bean plant are shown in this photo. The small spike on the right had a male flower beneath it, so it wasn't as thick as the larger spike on the left, which had no male flower beneath it.—Brand Staff Photo.

New Procedure On Castor Beans

Deaf Smith county farmers will save about \$3000 this year on marketing costs for their 1400-acre castor bean crop as a result of negotiations between the Hereford Chamber of Commerce and the Baker Castor Bean Corporation.

Beans may be marketed locally instead of at Wellington, as prescribed in the original contract between the company and local growers. This local marketing includes sampling and loading here. Local growers must furnish a man to do the sampling and loading, however, but the \$3000 will be the overall savings in marketing expense, according to Tom McFarland, secretary-manager.

Baker representatives here last

week were impressed with the way the crop was coming along in the county. They estimated that there would be a crop of from 700 to 2,000 pounds per acre.

Current market price for castor beans is 11.48c per pound. The government has given local growers a contracted floor price of 10c per pound.

Approximately \$1400 profit was made by the Lions club at their carnival last week, the members were told Wednesday. The club also discussed the matter of installing rest rooms and showers in the Bull Barn before the resumption of wrestling this fall, but the matter was tabled for the present time.

Six Draftees for August Selected

Six men from the Deaf Smith county draft board who are to report for active service with the army on August 16 were named this week by Mrs. A. Peterson, clerk of the board.

The board's September quota—four men to report to Amarillo on September 11—was also announced by the local board.

Those leaving for active duty on August 16 are:

Charles Taylor, Portland, Ore.; Cecil M. Hamm, Hart; Eugene Broyles, Route 1, Muleshoe; John S. Boling, Canyon; Pat Campbell, Amarillo; and Floyd McGee Jr., Hereford.

The Texas draft call for October is 742 men. Brig. Gen. Paul L. Wakefield, state Selective Service director, announced today. This compares with a September quota of 619 and an August call of 772. From March through July, state calls were decreased. But beginning with the August call, quotas have been increased, the state draft director pointed out.

The October quota of 742 is the state's share of a national quota of 41,000, biggest national monthly quota since March. Part of the September and October quota of men will see service with the Marine Corps.

General Wakefield said that local board quotas for October will be assigned and mailed "around August 8 or 9." No local

charges were filed against Edward Truistal of Santa Fe for going through a stop sign Wednesday morning at Third and Sampson. Truistal was driving a 1951 Frazer was going north on Sampson and overran the stop sign. He hit a 1946 Ford driven by Lois Emma Retman who was going east on Third.

"Not Crying 'Wolf' on Water Problem": C of C

"Tell the people we're not crying 'wolf' on the seriousness of the water hearing at Plainview on August 9," were the words of Tom McFarland, Chamber of Commerce secretary-manager, in appealing for local attendance at the vital water hearing.

McFarland and John D. Aiken, president and vice-president respectively of the Deaf Smith County Water User's association, are making a last-minute appeal for at least 300 local farmers and businessmen to attend the hearing, which is being held at Plainview's municipal auditorium by the State Board of Water Engineers.

Purpose of the meeting is to determine whether or not to create a state water district—the first of its kind—for the 13,000,000-acre underground water reservoir in North Texas.

In calling for attendance by local farmers, Aiken said that

"the opposition will be there." Opposition to the proposed privately-regulated High Plains Water Conservation and User's Association, Aiken said, comes from the "winter garden area" and from the advocates of no control whatsoever.

In outlining his argument, Aiken said, "If the people want to save making 12 trips to Austin, or hire 12 lawyers every time they want to drill a well, they should come to the meeting and show themselves in opposition to the proposed state-control plan."

"Everyone who has an irrigation well, everyone who wants one, or anyone who derives his income, directly or indirectly, from irrigation, should be at the Plainview meeting Thursday," McFarland said. "We're looking forward to a stormy session. The opposition will be there in force. This time we're not crying 'wolf,'" he concluded.

In calling for a minimum of 300 local farmers and businessmen to attend the meeting, Aiken said, "Be present to testify if necessary, although probably only a small number will be called upon to do so. But your very presence will put the thing over."

He admitted that Thursday's action by the state board is not final, but it is decisive. If the board Thursday approves the creation of a state water board, the people will still have a chance to vote on the matter.

The board's action, however, is necessary to have an election. Aiken and McFarland said there was considerable opposition to a private control board in Hale county. The majority of the advocates of state control came from the winter garden area, they told The Brand.

Recounting past efforts to get state control over this huge water reservoir, Aiken said there is no alternative now. It boils down to state control or private control.

"Advocates of state control went to Austin four times," Aiken explained, "to try to cram state control down our throats. We wrote the bill (for providing a conservation district) four years ago in a compromise effort to do away with state control."

"There was no trouble last time in the legislature because they knew we were in the process of creating our own conservation district. But if the private control is defeated before the board Thursday or by the public, the proponents of state control of our water can come before the legislature and tell them the people have refused for seven years to do anything about home control of water."

McFarland has sent special Chamber of Commerce bulletins out calling for heavy attendance at Plainview Thursday for the water fight.

"If you can't come until Thursday noon, be there. Or even come in the afternoon. Your presence

will be needed," McFarland urged. Recruiting of local farmers and businessmen to attend the meeting continued Thursday in an effort to detour the proponents of state control.

Loot Recovery Still Going On; Now 15 Thefts

A total of 15 burglaries have been opened up through discovery of more loot, according to Sheriff J. C. Reese, who is still working on the wave of farm break-ins halted last week.

Latest to be recovered was a five-ton hydraulic jack taken from the Lee Benefield place, a .22 calibre rifle from a Castro county farm home, and a .22 calibre rifle taken from George Heard's dairy.

Some of the loot, which had been sent to Dallas for "safekeeping," has not been returned to the sheriff's office yet. Mrs. Fred Martinez, wife of one of the men now being held in connection with the theft ring, left for Dallas to bring back the loot.

One of the four men charged with complicity in the thefts, Arnulfo Limas, is free on \$500 bond. The others are still being held in county jail.

Hereford Averted Labor Black-Listing Monday

Hereford came close to losing her Mexican labor supply through a blacklisting that "was being considered" on Monday, The Brand learned this week.

Three Hereford men—C of C Secretary Tom McFarland, Jaycee President T. J. Clay, and

Commissioner Don Zimmerman—met in Amarillo on Tuesday with Mexican Consul Joel Quinones on any discrimination he may have had complaints about in and around Hereford.

"Senor Quinones was very cooperative and understanding in his discussion with us and in seeking a solution to our problem," McFarland told The Brand Wednesday. "He was extremely sympathetic with Hereford and offered several suggestions for dealing with our mutual problems while still not creating any outward showing of dissatisfaction."

Kuykendall Rites Held August 8 at Avenue Baptist

Funeral services for John Claude Kuykendall were held August 8 at the Avenue Baptist church with Rev. H. V. Fields in charge.

Burial was in West Park cemetery under the direction of Gilliland Funeral home.

Kuykendall was born April 13, 1887 at Groesbeck, Texas and died August 6 at the age of 64 years. He married Ethel Mae McKensie October 10, 1923 at Lubbock. The Kuykendalls moved to Deaf Smith county from Muleshoe in 1944.

Survivors include: his wife, Mrs. J. C. Kuykendall; his mother, Mrs. A. I. Kent; three brothers—O. L. Kuykendall, Ray Kuykendall, and Ernest Kuykendall; and five sisters, Mrs. Vance Robinson, Mrs. W. F. Turner, Mrs. Walton Osborne, Mrs. Annie Harris, and Mrs. Charlie Bell.

Melvin Wheeler Charged With Setting Fire

Melvin O. Wheeler is free on \$500 bond awaiting grand jury action after being charged in examiner's court on August 5 for setting fire to Noel's Repair Shop 1501 Park avenue, early Sunday morning.

Damage to the building, stock, and fixtures from the fire and smoke was estimated at from \$1500 to \$1900 by Noel Worley, owner.

Worley carried a small amount of insurance on the building only, he told The Brand. He plans to begin repairing and cleaning his building for use again in about 10 days.

Worley said the fire evidently was started in the central part of the west wall from the inside. A window near where the blaze was started was broken, he said.

According to information supplied by County Attorney Gib Howard, Wheeler, who was at the scene of the blaze while firemen were fighting it, was reported to have told an officer that he had started the fire, but no credence was given to his admission. Later, however, some youths reported seeing a car parked by the repair shop and later saw it pull away just before the fire. They gave police the license number and officers found it to be Wheeler's car.

Officials picked up Wheeler on Sunday. He waived preliminary hearing in examiner's court before County Judge L. H. Foster.

75 Renditions are Reviewed Monday by School Tax Board

Seventy-five renditions were reviewed by the Deaf Smith Rural High school board of equalization on Monday when they met in the county courthouse.

The final meeting of the board will be held Saturday in the courthouse. Any person interested in property renditions may meet with the board on that date. Members of the board are T. W. Alderson, J. R. Allison, and E. J. Kirksey.

Mrs. Morgan Cole, Sharon and Janet of Colby, Kans., accompanied Ann Smith to Hereford and will spend a few days visiting in the Joe Smith home.

96 Samples Needed for First Bone Study Test

Actual sampling of soil and products from the Hereford irrigation area will begin shortly, possibly this week, according to Tom McFarland, Chamber of Commerce secretary.

The Chamber of Commerce office received a list of 12 different things to be sampled from Dr. L. B. Barnett. The current list will entail taking 96 samples and the approximate cost of the work will be in the neighborhood of \$1000.

Sampling directions, according to information sent by Dr. Barnett are:

1. Take two samples of each of the 12 items from each place.
2. Take samples four directions from Hereford, staying within the irrigation belt, staying within a radius of 5-10 miles of Hereford.
3. Give moisture content of each sample before mailing and

place card in sample showing that reading.

4. Send all samples the same day collected.

With the initial sampling, approximately one-third of the chemistry will be completed. There will be eight samples of each item and the results will be conclusive, never having to be repeated.

The results will also be helpful in starting the clinical phase of the bone research program, Barnett wrote.

Items to be collected and sampled on this initial test include: TOP SOIL—Two samples from each area tested. Dry, eight-ounce containers.

CALICHE—Eight samples; two from each of four areas. Must be fresh caliche.

WATER—Eight samples from same four areas. Top soil and

caliche, sand located around irrigation well.

WATER—One gallon jugs, eight samples to be collected from approximately same areas as soil. Must list depth of water.

MILK—Eight one-quart samples of fresh, raw milk, two from each herd sampled.

GRASS—Native mesquite, two samples from each area, about one quart of unpacked grass in each area.

BONE—(Cattle Bone) Eight samples of bone, each measuring approximately one inch. Bone should be fresh collected from the slaughterer and should all be from the hind leg or from round steak. Cattle must have been grown in the area.

WHEAT—Eight one-quart samples from four directions. Good milling wheat, run moisture content before shipping.

CORN—Eight one-quart samples of shelled corn, same species if possible.

ALFALFA—Eight one-pint samples of dehydrated powder.

POTATOES—Eight two pound sacks, should be washed and waxed.

SQUASH—Eight one-pound samples of yellow squash from four areas.

This is the initial step in the spectrographic analysis of the area and its vegetation for bone research purposes.

A three-man committee comprised of Wayne Edwards, Ray Cowser, and Don Zimmerman is to make a report August 10 to the Chamber of Commerce on their legal findings, relative to establishing a bone-study foundation to handle the results and to seek financing of the analysis work.

HEREFORD, TEXAS and Deaf Smith county is being advertised once again as the film on the area is being sent via air mail to Miami, Fla. Assistant Postmaster Elmer Patterson, who filmed the picture, is shown receiving the container from Burle Ellison, who directed this area's filmization. The film has made a nation-wide tour.

PFC. JAMES O. BOARDMAN, son of L. C. Boardman of Hereford, is home on leave until Saturday before leaving for the South Pacific area. Boardman went to school in Hereford. His grandfather, H. H. Boardman, also lives in Hereford.

The local grain dealers have been kept pretty busy this week buying grain from the farmers. Up to Thursday about eight car loads of wheat have been shipped from Hereford and several car loads have been bought that have not been delivered.

The wheat crop is averaging between 20 and 23 bushels per acre. The highest average is 29 bushels per acre and the lowest average is 16 bushels per acre.

1/2 Million 4-H's Helping Reduce Farm Accidents

A recent survey of 2,000 farm accidents shows that 248 involve machinery. In other types, more farm people are injured by falls—476—than in any other kind of accident.

FARM FOLKS, as a general rule, give little thought to safety until a member of their family or a neighbor is hurt or killed, or fire destroys their home or barn. Then they start doing something about safety.

This year it is particularly important that every farm family should do something about practicing safety, because even though there is a shortage of labor on farms, and new equipment is hard to get, food production must be boosted. That means the present manpower and machinery on farms must be guarded against accidents.

An average of 47 farm people are accidentally killed every day. Helping to reduce rural casualties are a half million boys and girls taking part in the National 4-H Farm and Home Safety Program. More than \$10,000 in awards for the best records of accident prevention and education are being provided by General Motors for the seventh consecutive year.

The program is directed by the Cooperative Extension Service.

Mr. and Mrs. Donald Gaetz of Wichita Falls have been recent visitors in the home of his parents, Mr. and Mrs. John Gaetz. Mr. Gaetz, who had spent a few days in their home, returned to Hereford with them. They also visited in the G. H. Whittaker home.

CONG. ROGERS SAYS

Tidelands Vote in House Shows Solons Unaffected by Pressure

THE ATTITUDE HERE ON THE TIDELANDS QUESTION: The House of Representatives wrote history last Monday when it passed the so-called Tidelands Bill by a vote of 265 to 109. The thumping majority clearly shows the attitude of this Congress as being definitely against a central government that overrides states' rights. It also proves that the members of this Congress are not susceptible to the entreaties of propaganda and high pressure tactics of government officials or private interest lobbies. Many newspapers in this section of the country and columnists waged a continuing fight against this legislation, but the legislation passed anyway. The members of this Congress have shown that they are interested in retaining the American way of life and are not going to be swayed from this course by politics, propaganda or pressure. The debate was heated, but the sound logic on the side of the proponents of the bill could not be answered effectively. We hope that the senate will do as well on this legislation as did the house and that the president will respect the voice of the people and sign this bill into law. It will be one of the greatest strides against socialism that could possibly be made.

BUREAUCRACY: Immediately after the passage of the Tidelands Bill, HR 3298 was taken up for consideration. This is a bill to amend the Federal Food, Drug and Cosmetic Act. It would primarily do three things: 1. Permit prescriptions to be taken by pharmacists over the telephone. 2. Permit refills of certain types of prescriptions without obtaining a new prescription. 3. Authorize the administrator to earmark drugs that could be sold over the counter and those for which prescriptions must be obtained. Although I had very little correspondence on this bill, many of the representatives displayed communications from druggists and the American Medical Association opposing the bill, especially that section granting the earmarking powers to the administrator. The debate became very heated on this matter, and finally resolved itself to an argument of personalities, the argument being that Oscar Ewing, the Federal Security administrator, in whose department we find the Food and Drug Administration, would have powers that should not be entrusted to any individual. Oscar Ewing is a man who has repeatedly advocated so-called socialized medicine, which explains the opposition to granting him any further powers. The proponents of the bill argued that unless the power to earmark these drugs, approximately 30,000, was placed somewhere, the average druggist would have no way of knowing whether he was violating the law or not until he had been arrested, subjected to criminal prosecution and most of his stock confiscated by the government. Actually, the passage of the bill, with or without the powers in the administrator is not going to solve the problem faced by the average corner drug store in the small town. The trouble to be remedied lies much deeper than any of the provisions of this bill go, or any amendments to it, and I so stated to the Congress in this debate.

For your information, the entire bureaucratic control situation can be remedied by one action: That action is to do away with the application of the "substantial evidence rule", as has been done in a number of years to administrative rulings. This rule, in part, says that when an administrator or administra-

tive body makes a finding of fact, any hearing before the courts subsequent to such ruling is confined to the matters presented to the administrative body; that if there is any evidence in the record before the administrative body upon which that body could have based its decision, the courts are bound by the findings of the administrative body and can not overturn it unless they find that the administrative agency acted capriciously or arbitrarily.

Actually, this rule places in administrative agencies powers that are not even placed in federal and state district courts and in effect denies an aggrieved party the right to his day in court. I am now working on legislation to remedy this situation, and if we can procure passage of it, it will pull the stinger of the bureaucratic control of our daily lives and again permit us to go to the courts for a proper and just redress of our wrongs.

SOME FACTS ABOUT WHO IS CONTRIBUTING TO COMMUNISM: Congressman E. E. Cox of Georgia, has just introduced a resolution to investigate educational and philanthropic foundations and other similar organizations. In presenting the resolution, Representative Cox gave a discussion of some of the things he was seeking to dig out. He called attention to a number of situations, too lengthy to include in this letter, but I will give you two of them for example. He refers to a Negro poet as follows: "The Negro poet, Langston Hughes, author of the poem, 'Goodbye Christ,' which urges Jesus to 'beat it on away from here now' and to 'make way for—Marx, Communist—Lenin, Peasant Stalin, Worker—Me,' last heard of as a 'poet in residence' at the Rockefeller-supported University of Chicago, was the recipient of a Guggenheim fellowship in 1935, and of fellowships from the Rosenwald Fund in 1931 and 1941. In 1946 he received a grant from the National Institute of Arts and Letters."

He also refers to Hans Eisler as follows: "When Hans Eisler, brother of the top Soviet agent, Gerhardt Eisler, was about to be expelled from the United States because he was a Communist, Dr. Alvin S. Johnson, then director of the New School for Social Research, intervened and persuaded James L. Houghteling, then Commissioner of the Bureau of Immigration, to let Eisler remain in the United States in order that he might engage him as a teacher in his New School for Social Research. He then secured a grant of \$20,160 from the Rockefeller Foundation to defray the costs of a music study project to be conducted by Eisler at the New School. All of this was done with the full knowledge that Eisler was a Communist and in this country to spread the doctrine of communism."

There is much information available on the subject, and I will try to include more of it in subsequent News Letters. I do want to point out that Communist propaganda can not be spread without funds and these funds are not coming from the poor and middle classes to which you and I belong.

Something different, something
new—a putting tournament—was
held last week-end at the local
links.

As putting consumes approxi-
mately half your strokes, one-
half of the player's handicap was
given. Putting par for 18 holes is
36 strokes.

Pat Corbett led the pack, hav-
ing 35 putts, 13 handicap, with a
net of 22 strokes. He won two
golf balls.

Lloyd Neil grossed a 30-6 for a
net 24 to win one golf ball. Stan
Barrett has low gross of 26 putts
minus a two handicap for a net
24. He won a new golf ball as a
prize.

Other ball winners were Dale
Tinnins, 33-7-26; Bert Shackie-
ford, 34-8-26; Earl Brock, 35-8-27.
Those who played and payed
were J. M. Posey, no score; Urlin
Streu, 29-1-28; Tom Howard, no
score; Wayne Phillips, 31-3-28;
John Renner, 34-6-28; Oscar
Lange, 37-5-32; Preach Edelman,
no score; Joe Kerr, 35-5-30.

A Scotch forsome was also held
Sunday. Ball winners were Rhe-
ba Barrett and Urlin Streu, who
shot a 97 together less 25 handi-
cap for a low net 72.

Other teams entered were: Lu-
cille Posey and Deward Robert-
son, 93-12-81; Irma Terry and
Stan Barrett, 94-19-75; Tina Lee
Roberson and John Channer, 98-
19-79; Irene Conaway and J. M.
Posey, 100-26-74; Paul Conaway
and Lucille Posey, 100-17-83.

Many visitors and tourists have
been playing the Hereford Golf
club. Your guests are always wel-
come. Bring them out for an en-
joyable evening of golf.

Are You In A Rut?

Before you know it, you can
get into a rut, either mentally or
physically—at any age—or both.
If you have an office job, you
probably sit too much. If you
have a job on which you move
around and maybe lift things,
you probably just work the same
old tired muscles.

In either case, you probably
get into more and more of a rut
day by day in your outlook to-
wards the world in general. The
mental rut gets deeper, too.

Have you ever thought of play-
ing golf? People in thousands of
towns over the nation don't play
golf merely because they like to
count swipes at a little white ball.
They play it because it enables
them to get out in good company
and forget completely the cares
of the world, and in the finest
surroundings there are—the great
outdoors. Playing golf will add
years to your life.

That doesn't mean that if you
aren't a golfer, and have no in-
tention of becoming one, you are
automatically in a rut.

There are other ways of beat-
ing the rap, though none more
pleasant.

Golfingly Yours

There's been a lot of discussion
—but no definite action—on an

The big sticker is whether or

not the fans want to see an All-

The Frio Home Makers club held its August meeting at the REA building in Hereford August 1. Mrs. Izora Clark Matthews, a former home demonstration agent for Deaf Smith county, gave a demonstration on freezing vegetables and fruits. She spoke on the problems involved in freezing foods at home and offered some helpful suggestions. She stressed that speed in getting the products into the freezer with a minimum of time in preparation is the most important secret to really good frozen foods. Proper packaging materials for wrapping after a thorough cooling of foods were also among the points she emphasized. The Easter sewing club members were guests of the Frio Home Makers club at the demonstration.

Those present were: Mrs. Green, Mrs. Worthan, Mrs. D. Johnson, Mrs. H. O. Markley, Mrs. Jim Brooks, Mrs. Steve Glenn and Mrs. A. B. Glenn of Easter and Mrs. Gene Noel, Mrs. Frank Robbins, Mrs. C. N. HOUSE JOINT RESOLUTION NO. 2, proposing an amendment to Section 49-b, Article III, Constitution of Texas, so that the total amount of bonds or obligations that may be issued by the Veterans' Land Board is increased to One Hundred Million Dollars (\$100,000,000); providing for the issuance of said bonds and certain conditions relating thereto and the use of the Veterans' Land Fund; providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 49-b, Article III, Constitution of Texas, be amended so that the same will hereafter read as follows: "Section 49-b. There is hereby created a Board to be known as the Veterans' Land Board, which shall be composed of the Governor, the Attorney General, and the Commissioner of the General Land Office. The Veterans' Land Board may issue not to exceed One Hundred Million Dollars (\$100,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund. Such bonds shall be executed by said Board as an obligation of the State of Texas, in such form, denominations, and upon the terms as are now provided by Senate Bill No. 29, Chapter 318 of the Acts of the Fifty-first Legislature (provided, that when the limitation of Twenty-five Million Dollars (\$25,000,000) is used in said Senate Bill No. 29, the same shall hereafter be substituted as One Hundred Million Dollars (\$100,000,000), or as said Act may be hereafter amended, or as the Legislature may hereafter enact; provided, however, that said bonds shall bear a rate of interest not to exceed three per cent (3%) per annum, and that the same shall be sold for not less than par value and accrued interest.

"In the sale of any such bonds, a preferential right of purchase shall be given to the administrators of the various federal retirement funds, the Permanent University Funds, and the Permanent School Funds, such bonds to be issued as noted, in the opinion of the Veterans' Land Board.

"The Veterans' Land Fund shall be used by the Board for the sole purpose of purchasing lands subject to the provisions hereinafter stated, situated in this State, (a) owned by the United States, or (b) owned by the State of Texas, or (c) owned by the Texas Prison System, or any other governmental agency of the State of Texas; or (d) owned by any person, firm, or corporation.

"All lands thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of the Veterans' Land Fund.

"The lands of the Veterans' Land Fund shall be sold by the State to Texas Veterans of the present war or wars, commonly known as World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945, as may be included within this program by legislative act, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now provided by law, or as may hereafter be provided by law.

"All moneys received and which have been received and which have not been used for repurchase of land as provided herein by the Veterans' Land Board from the sale of lands and for interest on bonds hereunder issued, shall be credited to the Veterans' Land Fund for use in purchasing additional lands to be sold to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945, as may be included within this program by legislative act, in like manner as provided for the sale of lands purchased with the proceeds from the sales of the bonds, provided for herein for a period ending December 1, 1955; provided, however, that so much of such moneys as may be necessary during the period ending December 1, 1955, to pay principal of and interest on bonds hereunder issued and on bonds hereunder issued by the Veterans' Land Board shall be set aside for that purpose. After December 1, 1955, all moneys received by the Veterans' Land Board from the sale of the lands and interest on deferred payments, or so much thereof as may be necessary, shall be set aside for the retirement of said bonds and to pay interest thereon, and any of such moneys not so needed shall not later than the maturity date of the last maturing bond or bonds be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All bonds issued hereunder shall, after approval by the Attorney General of Texas, registration by the Controller of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute obligations of the State under the Constitution of Texas. Of the total One Hundred Million Dollars (\$100,000,000) of bonds hereunder authorized, the sum of Twenty-five Million Dollars (\$25,000,000) has heretofore been issued, said bonds are hereby declared to be valid and declared to be obligations of the State of Texas. This amendment shall become effective upon its adoption.

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State of Texas on the second Tuesday in November, 1951, at which election all voters favoring the proposed Amendment shall write or have written on their ballots the following words:

FOR the Amendment to Section 49-b, Constitution of Texas, for increasing Veterans' Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945. "AGAINST the Amendment to Section 49-b, Constitution of Texas, for increasing Veterans' Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945."

If it appears from the returns of said election that a majority of the votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date of the determination of such result and the Governor's proclamation thereof.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this State.

Church Notes

Each Sunday morning at eleven o'clock Christian Science Services are held in the Star Theatre. All who are interested are cordially invited to attend.
Not physical force but spiritual understanding gives man power and strength, points out the Lesson - Sermon titled "Spirit" which will be read in all Christian Science churches on Sunday, August 12. At the outset the Golden Text states, "Not by might, nor by power, but by my spirit, saith the Lord of hosts" (Zechariah 4:6).
Further elucidating the theme is this Bible verse from Psalms: "God hath spoken once; twice have I heard this; that power belongeth unto God." A more detailed explanation is found in this citation to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Moral and spiritual might belong to Spirit, who holds the 'wind in His fists'; and this teaching accords with Science harmony. In Science, you can have no power opposed to God, and the physical senses must give up their false testimony."

date in the league schedule, and this would also slip in under the wire before the three-day post-season playoffs, scheduled to start August 27.

The matter of an all-star game has been talked up among the players and they are eager for the chance to play. Some of the managers have been asked, too, and they expressed interest in the thing.

Briefly, the most practical method advanced so far for dividing the teams is: first place,

third place, and fifth place teams against the second, fourth, and sixth teams.

As for selection, it has been suggested that managers of the first and second teams pick two pitchers and catchers and managers of the other teams pick their best players for the post-season tilt. That way, the managers could pick their better players and all selected would be assured a spot in the game.

At any rate, some sort of player selection could be agreed upon. The players want an all-star game. It's up to the fans now.

"I got the story on
50,000 Miles-No Wear
and changed to New Conoco Super Motor Oil"

says H. Joseph Johnson
Taxi Fleet Owner
Maryville, Missouri

"Our fleet of cars has driven 25,000 to 30,000 miles a month. We find that motors lubricated with Conoco Super outwear the bodies of our cars."

"50,000 Miles-No Wear!" Proved Here:

After a punishing 50,000-mile road test, with proper drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence; in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

NEWSPAPER DELIVERY

"I make daily trips of 250 miles and more, delivering newspapers into Nebraska," reports Paul M. Foss, Cheyenne, Wyo. "After 70,000 miles exclusively on Conoco Super, I don't even have to add oil between 1,000-mile drains."

USED CAR SALESMAN

"A real money-saver—that's Conoco Super," says W. H. Grubbs, Used Car Salesman, Fort Worth, Tex. "I was driving a 1939 car using 2 quarts every 500 miles. I changed to Conoco Super and stopped having to add oil between drains."

Ever buy a car from this angle?

SURE, a trim new Buick makes a mighty pretty picture when you see it in your driveway, or watch it wheel by.

But if you could get a mechanic's-eye view of this big, broad beauty as it sits on a lift, you'd see an impressive picture of rugged brawn that makes good-to-look-at Buicks give such a good account of themselves on the road.

You'd see the full-length torque-tube drive that firms the whole power relay system, and steadies your going like a giant hand beneath you.

You'd see big sturdy wheels with really wide rims that provide surer footing, give better car control, make tires last longer.

You'd see all four wheels cushioned by stout coil springs that are completely service-free, practically breakproof—and a principal reason for the ever-level Buick ride.

But mainly, you'd see the massive foundation that backbones every Buick—the deep, wide, X-member frame that's rugged as a rock, and a brute for strength.

So when you look at the beauty of a Buick—the big mileage power of its valve-in-head Fireball Engine—and the moneysaving ability of its Dynaflo Drive*—don't overlook the tough stamina that goes with it all.

And don't overlook the fact that a new '51 Buick, with all its heft, costs less per pound than any other car of comparable size, structure and weight.

Better come see us first chance you get—and find out what a smart buy this is—from every angle.

NO OTHER CAR PROVIDES ALL THIS:

DYNAFLO DRIVE* • FIREBALL ENGINE
PUSH-BAR FOREFRONT • WHITE-GLOW INSTRUMENTS • 4-WHEEL COIL SPRINGING
TORQUE-TUBE DRIVE • DUAL VENTILATION
DREAMLINE STYLING • BODY BY FISHER

Scene: Kansas City; Subject: Heartbreak

(This is one of a series of human interest stories coming from the Kansas City flood area. These articles were prepared by the National Red Cross to inform people of the need of a special disaster fund to alleviate the critical conditions in the area. Deaf Smith county is being asked for an extra donation for the crisis of \$310. Contributions may be addressed to the Deaf Smith County chapter, American Red Cross, Box 137, Hereford—Ed.)

KANSAS CITY, KANSAS—The scene is Red Cross flood relief headquarters here and the subject is heartbreak.

Steadily for 15 hours a day there have streamed through this huge bustling office the stunned and bewildered victims of one of the nation's greatest natural disasters.

Many have lost everything they own but the clothes they wear. They come here to get help

from the Red Cross, money to buy groceries, to repair damaged homes, and to rebuild those destroyed, to get housed in a shelter, to get clothes.

They come hobbling with age, and with blessed resignation of the aged. Some come with the hope of youth and some with utter despair.

A total of 16,000 people in this city of 130,000 were made homeless by the floods. More than 6,500 families have registered for Red Cross help.

The personal stories of what happened to these people are almost incredible.

A man and his wife who began the flood with three children wound up with eighteen. The extra 15 were neighborhood kids who got separated from their parents when the Armourdale section levee broke and who sought refuge in the second floor of the couple's grocery store.

The Red Cross sent all eighteen to one of its ten shelter houses

here after the mother and about sixteen of her suddenly acquired foster children came to the flood headquarters to ask for food.

A woman comes in leading her blind pregnant daughter-in-law. They have lost everything they have and can't locate the girl's husband. They, too, are taken to a shelter to be clothed and fed who got separated from their

A man in his seventies comes wheeling his crippled wife in a wheel chair, they have lost their home and had to move into a two-room apartment with their son and daughter-in-law and four children. The daughter-in-law is about to have another baby. The old man, proud and independent, hated being an added burden to the young mother and was in tears when he thanked the Red Cross for sending him and his wife to a shelter.

Miss Mary Garvin, one of 40 volunteer workers helping 36 Red Cross staff workers give out aid, tells this meanest-man-in-the-flood story.

"A woman came in today to ask for help—particularly for her husband who came out of the flood with nothing but his undershorts. The man and his wife and three children were running for their lives across a bridge that went out only a few minutes later. The man saw three persons struggling in the water be-

THE HIGHWAY 51 and 60 intersection was the scene of an accident last Thursday when a Hereford Creamery truck driven by James Overton Harris collided with a 1936 Chevrolet driven by George T. Lynch of Hereford. Hereford Chief of Police Floyd Reeves, who investigated the accident, said the creamery truck was coming from the west on Highway 60 and hit the Lynch auto, which was crossing Highway 60 from Highway 51. Charges were filed on Harris for not yielding the right-of-way, Reeves said. The chief made no estimate of the damage. Brand Staff Photo.

Two More Auto Wrecks During Past Week

Two more accidents in the city last week were reported by local police.

One of them occurred about 7:15 p.m. Thursday involving a Pontiac driven by J. Kiser Fore and a 1930 Ford driven by Miss Betty Goodin.

The two autos collided at the intersection of Second and Bennett. The Goodin car was overturned as a result of the accident.

Police Chief Floyd Reeves said Fore was driving north on Bennett and Miss Goodin was driving east on Second at the time of the collision.

There were no injuries reported. No charges were filed.

Reeves gave no estimate of the damage.

The second accident happened Friday on Sampson and Second, where autos driven by Mrs. Lee Lambert of Hereford and E. Ramsey of Hudson, collided.

Ramsey was pulling away from the curb into the traffic lane into the path of the Lambert vehicle, Reeves said. Both autos were heading north on Sampson. Reeves said charges of failure to yield the right-of-way were filed against Ramsey.

low. He stripped off all his clothes but his shoes, dived into the water and managed by a miracle to get all three people out. But while he was doing it, another partially dressed man ran up and stole the clothes the life-saver had shed on the bridge.

Are people going back to live in the flood areas after their homes are rebuilt? Some say "We will never go back there."

Some hope the Red Cross will rehabilitate them in homes on higher ground.

Others, like Francis M. Jones, Sante Fe Railroad switchman, and his family, are going to stick it out. Jones, an ex-GI, and his pretty wife came to ask for Red Cross help in repairing and refurbishing their heavily damaged home at 321 South 40th Terrace.

"I was buying the house and I had a big garden and was raising everything we needed to eat," Jones said. "We even had a milk cow and a beef cow. We picked the spot because that was where we wanted to live and raise our three kids—raise them the way we wanted to."

"We got the milk cow out but everything in the house is gone—wrecked. And there is mud five feet deep on the second floor. The whole house was under water."

Asked what the Red Cross would mean to him, Jones studied thoughtfully for a moment and then replied softly and deliberately, "Everything," he said.
