Banks' Total Deposits Decline Since Last Report

Total Hall County bank assets and deposits at the end of the first quarter were off approximately one and a third million dollars from what they were at the end of April last year.

Figures were revealed in reports of condition of the county's three banking institutions published elsewhere in this issue of The Democrat.

The total assets figure of the three banks is $16,155,736.68 as of April 30, 1970. This is $1,340,947.49 off the April 30, 1969 total assets figures which set a new record high at that time.

The same trend is seen in the total deposits figures of the country's banking institutions which totaled $14,567,650.80 as of April 30 of this year. This is a decline of $1,403,776.34, from last year's total deposits figure.

Also showing a slight decline, are the loans figures of the three county banks, as loans figures totaled $9,084,306.87. This is a decline of $169,593.91, from the $9,253,900.78 figure of a year ago.

One of the principal reasons for the decline is the shortness of last year's agriculture crops, primarily cotton. The 1969 cotton crop in Hall County was the shortest in the past decade.

Another reason from the decline in total deposits in Hall County's banks is the unusually high interest offered for savings by other agencies other than banking houses.

County Tennis Teams Are State Champions

Hall County tennis players captured three of the State's four Class B State Titles last weekend in Austin as all three entries successfully defended their state titles.

Turkey's boys doubles team of Rod Setliff and Rod Adamson won in two sets in the finals, although the first set was a close one, 7-5, 6-3, over Jesse Cerda nad Bill Taylor of Rocksprings.

Lakeview's Brenda Durrett had no trouble dispensing with her two opponents at Austin. She defeated Regina Lutz of Old Glory 6-3, 6-1 in the finals to capture the championship.

Lakeview's Terry Wansley battled all the way through two tough matches to defend his state title. The semi-finals match took two and a half hours of gruelling play for Wansley to down Johnny Johnson.

Then, in the finals, Wansley defeated Gerald Anthony of Rocksprings 6-4, 1-6, 6-3, to capture the state crown.

This year, it was reported, the state finals were tougher than Regional finals in the boys divisions.

Wansley's biggest scare came in the semi-finals match, as the final lost the first set, 7-9 to Johnson, and was trailing 5-4 in the second set. Wansley said he could set match point approaching during the next few games but finally pulled ahead and won the second set 8-6.

EDITORIAL

It's Our 80th Anniversary

It is the beginning of the 80th year of the establishment of the Hall County Herald, the older organ of combined publications of this newspaper, as far as newspapers count time.

Newspapers do not observe a calendar year when measuring years of publication. They consider each year as having 52 issues, and last week's issue of The Memphis Democrat was issue Number 52 of the 79th year. This week's issue is No. 1 of the LXXX (80th) year of publication.

In reflecting the history of the two publications, the Hall County Herald, established in Memphis May 3, 1890, by Eugene de Bauerenfiend, and The Memphis Democrat which began publication July 8, 1908, by F. L. Vanderburgh and J. R. Brumley, publishers, it is evident that the publication has reflected the economic strength of the territory it has served.

W. A. Johnson of Denison purchased the Hall County Herald from de Bauerenfiend shortly after the latter's death, by gunshot wound inflicted by Pat Woffarth, Hall County Sheriff, about a year and three months after the publication was begun. Mr. Johnson ran the newspaper until his death in June, 1923. Mrs. Johnson and son, Earl, continued the paper until March, 1928, when it was purchased by The Memphis Democrat.

Although all newspapers keep bound files of their publications, the old Hall County Herald files were not moved to The Memphis Democrat building at the time of purchase. These files, if they are still in existence, would be invaluable to Hall County Heritage Hall or this publication.

B. F. Shepherd became owner and publisher of The Democrat in 1910, followed by Jerry Dalton in 1916, and J. F. Forkner in 1923. J. Claude Wells and Deskins Wells of Wellington purchased the paper in 1925. The Memphis Publishing Company purchased the plant April 1, 1929, retaining Mr. Lyman E. Robbins as president, Mr. Wells as associate editor, and Wm. Russell Clark, secretary. It became a daily in 1934 (May) and continued as such until March, 1936 when Mr. Wells and Herschel Montgomery became owners and publishers.

In 1945, Herschel A. Combs bought into the partnership, and shortly thereafter, purchased the Montgomery interest. Upon the death of Mrs. Wells in 1965, their interest was purchased by Mr. and Mrs. Combs.

Every newspaper lives because the economy supports it. To the extent of the support, newspapers attempt to live up to their responsibilities of informing the readership within their confines, or boundaries.

The Memphis Democrat, since its establishment, has been a weekly, a semi-weekly, and a daily. It has been published in several different sizes. Throughout its history, however, this publication has attempted to bring to the people of Memphis and Hall County news and advertising copy about this area.

This newspaper has had, and will continue to have only one loyalty — to our readers. Our readers are our partners in the effort to publish a good newspaper, one full of local news with good pictures. Our readers contribute daily to this end by submitting information on all activities, events, and news concerning local residents and former local residents of this area.

Due to publication deadlines, the first four pages of this newspapers are published on Tuesday, or early Wednesday, the second run is made late Wednesday or early Thursday, and the final four pages are run at 3 p. m. Thursday afternoon. It is necessary sometimes to leave out late copy due to the publication schedule. It is our aim that news and advertising copy are not left out, and if readers will cooperate by getting the copy to us early, this aim can be realized.

The Democrat may not always be right in the stand it takes; it may not always be wise in standing for what it believes; but, right or wrong, wise or unwise, the Democrat will stand for the things it believes are for the welfare of the community.

What Other Editors Say

Farm Recession, Depression!

It is becoming more apparent every day to everyone in the area of Texas that unless some drastic measures are taken to supply money to the economy and to the flow of the people, that we are not only past a recession but approaching a disastrous depression. This reason can be exemplified as a result of the farm sales in a predominantly agriculture area that have taken place in recent weeks. For example, the past week in the Lubbock Avalanche Journal there were over 28 farm sales in one week. Talking to one county chairman in Castro County who recently sold his farming operation as a result of tight credit and low margins in profits from his operation. I found that there is a sale taking place within 30 miles of his home every single day.

This situation is vastly becoming completely out of reason, so much so, that when a farmer on $450 land can no longer borrow money to operate when he must have credit (somethng to the tune of 95 percent of his operation is on credit as a result of the narrow margins) and he can no longer find a buyer for his equipment that runs into the tens of thousands of dollars. There is no longer anyone interested in buying land because there is no money available for any of those purposes. Then I would have to conclude as anyone would that it is far past a depression that we are being told that we may be approaching that it is already in depression.

I remember in the olden days our fathers talked about the depression days when there was no money. The only thing I can see worse about those days than these is the fact that there is much more indebtedness now than there was then. I cannot understand from the standpoint of economy that must have agriculture as its basis, that it must have a productive level, that it must have credit in a serious critical time, in whch to operate, and yet we cannot for any reason get any ear from Washington, those who sit and look at the indicators without knowing what is going on in the rural areas that they must have to sustain a nation and its economy.

Unless something is done immediately within the next 60 days, we will enter into the deepest depression that the area of the northern part of Texas has ever seen. First of all the beet crop in this particular area failed for the first tme in 28 years. The milo production was somewhat off, but the price level even though it has been raised somewhat by NFO in the area was destroyed to a certain extent by USDA action. At the same time the cotton crop was destroyed by 30 million dollars estimated by the Lubbock Avalanche Journal Newspaper and the bankers in the area and at the same time cattle coming out of giant feeding industry, coming out of the feed yards there are now losing $20 to $40 per head.

All of this coupled with tight money policies is sure to bring disaster. It is becoming so critical that I know of four bankers who have told their buyers do not pay any more bills. When bankers make these statements it is evident that the end is near. I also know for a fact that bankers who have been able to supplement their loan available money for a loan, by having loans from other banks to help them in their supply, now have absolutely no access to any other money. How then can you expect an operation to continue when farmers in any area must have supplementary income or any other industry in order to finance their year's operation? It is an inevitable loss. Unless something is done in 60 days time, it will be all over.

Price and wage freeze?

It is quite obvious that President Nixon's attenmpts to halt inflation have not worked. Dangerous and crippling inflation continues to the detriment of salaried wage earners and all in the middle income group. It has played havoc with the elderly who have retired on a set income, the widows on pensions and young married couples just starting out.

As much as we dislke the thought, it appears the next step must be that of imposing a freeze on wages and prices. Such as restriction is offensive to the average American because he likes his freedom so much and deplores any type of restriction . . . which a price and wage freeze will be.

But with inflation continuing to run rampant and proving detrimental to so many, strong action is going to have to be forthcoming . . . and soon!

We now turn to H. M. Baggarly, astute editor of the Tulia (Texas) Herald to draw on his worthy thoughts on the subject.

He recently wrote in an editorial the following:

"We are convinced of two things. First, the Nixon administration's program to combat inflation can lead only to disaster. Second, the only way to deal with the present economic situation is price and wage freeze.

"Prices can never go down without economic injury to hords of people. Farmers who bought cattle for 32c and had to sell them for 22c know this only too well. Merchants with large inventories know what happens when prices drop.

"The ideal situation is mild inflation, with prices and values rising constantly but at a very slow rate . . . no faster than can be digested by the public.

"Unreasonably high interest is the worst of all ways to combat inflation. It assumes that all borrowing is bad. It fails to take into consideration the fact that credit is a necessary and vital part of our economy. All borrowng cannot be curbed any more than the consumpton of drinking water can be curbed . . . nor should it be."

Frankly, Mr. Baggarly's proposal came as a great surprise. For some reason we never thought he would even hint at a wage and price freeze, much less advocate it. But there it is.

And although we don't always go along with Mr. Baggarly on many of his views, we've never wavered in our respect for his intelligence. He wasn't hidden behind the barn door when the brains were passed out, that's for sure. When he advocates a price and wage freeze to combat inflation, we feel his views should receive serious consideration by the administration.

e American Association of ers of Spanish and Portu- named him Distinguished Teacher of the Year in 1967. Last year he received the $1,000 Faculty Excellence Award at West Texas State.

Harper became chairman of the modern language department at West Texas State in 1946 after one year as director of personnel in the division of libraries and cultural institutes of the State Department in Washington.

In his 24 years as chairman, the department increased from two to seven faculty members and the number of courses offered in Spanish, French and German grew to 41.

"We have been the fastest growing department in recent years," he said. "Our enrollment has increased about 600 per cent over the years."

The department offers majors and a teaching field in French and Spanish and a teaching field in German. However, a foreign language is required only in obtaining a Bachelor of Arts Degree.

"The largest percentage of language teachers in the Panhandle have received part of their training at West Texas State," Harper said. "We cannot supply the demand for teachers."

Harper instituted the use of language laboratories at West Texas State — an electronic method of instruction. Although facilities for only two laboratories are available, he said "several more will be needed in the near future."

He also helped to inaugurate the popular language film series which draws viewers from all across the Panhandle to the campus.

"There is a growing interest in foreign languages in schools around the country," he said. "The need for bilingual teaching is great, especially in those areas of Texas and the Southwest where the population of Mexican-Americans is high."

Born near Claude, he was an elementary school teacher and high school principal in Hall County public schools from 1924-28. He was an elementary school principal in Amarillo for two years and from 1931-40 was in the public schools at Tucson, Ariz.

Harper, whose wife Margaret is active in Canyon civic affairs and in the famed musical drama "Texas," plans to continue teaching at West Texas State.

He is survived by his wife of the home: one son, Winifred of San Fernando; two daughters, Mrs. Effie Lea, San Farnando, and Mrs. Winnie Sterling of Ventura, Calif.; seven grandchildren, 12 great-grandchildren and 2 great-great-grandchildren.

TOPS Gives Receipe For Weight Loss

Memphis TOPS met Monday Morning, May 11, at the American Legion Home for a regular meeting of weight watching.

Roll call was answered with 12 TOPS and 4 gainers. There was a total loss of 20½ pounds and 4 pounds gained for the week.

It isn't as easy as some might think to loose these pounds, however Memphis TOPS has a recipe that does help, the reporter stated. It's called :Will Power Tonic.

I cup of desire
1 quart of determination
1 tbs. of common sense
1 tbs. of sticktoitiveness
1 tbs. of foresight
1 cup energy

Bring the quart of determination to a boil and slowly stir in the other ingredients, starting with the cup of desire. Without this basic ingredient the tonic will be flat and have no effect, but with the desire to accomplish any worthwhile objective, especially the worthwhile goal of health and happiness, you'll have a tonic that is bound to be forever helpful. The last ingredient to go into the tonic is sticktoitiveness. Let all the parts steep for an hour and then bottle.

By BYRON BALDWIN

Mrs. Jackie Ben Boone visited Heritage Hall Wednesday morning with the BB Kindergarten pupils and Mrs. Bob Douthit her helper. There were 8 pupils and their mothers made a total of 10 in this group for looking Heritage Hall over with a lot of questions and answers. Saddles, buggy and animals appealed to this group.

Also visiting Heritage Hall Wednesday morning were Mrs. Jack Chappell and her assistant, Miss Aleman, with class of special education from Travis School. Mrs. Chappell is their teacher and Miss Aleman is a high school girl helping as assistant teacher. There were 6 pupils and the two teachers making a total of 8 in this group. They were interested in the kitchen, school room, animals and games.

Tuesday afternoon had a special meeting for Pack 35, Den No. 5 of Boy Scouts with their Cub Scout Leader Mother, Mrs. Sue Beasley, and Assistant Alice Beasley. They seemed to get a kick out of the animals, games and also the school room where some of them found their parents' pictures. They presented Heritage Hall with a Memphis made brick over 50 years old.

Had a visit with A. G. Callahan last week. A. G. is the son of Mrs. Cora McMickin and whose grandfather, A. G. Powell was one of the early day merchants of Memphis. A. G. graduated here in 1937 class of MHS. He moved to California and has been with the Security Gas & Electric Company for the past 25 years and is living at Selma, Calif. and he is now storekeeper for the company. Some of his classmates he remembers are Dorothy Fultz, Zeb Moore, Hattie Dem Ward and Gill Jo Boren.

Mr. and Mrs. Tom Williams of Lubbock in Heritage Hall Saturday and they liked it very much. Tom is the grandson of Lola Sparks and grand nephew of Dr. Odom. He and his wife have just graduated from Tech, and he has already been employed. They are on their way now to their new home in St. Louis, Mo.

Paul Hancock of Clarendon in visiting Heritage Hall thought it had grown a lot of displays. Paul was a MHS graduate of 1954, and attended school in Dallas and was ordained a minister of religion in 1959 and he is now pastor of the First Christian Church in Clarendon. Paul is the son of the late Mr. and Mrs. Isaac Hancock.

In Heritage Hall past Saturday and here for Mother's Day with Mrs. Arthur Howard was Gloria Virginia Whitehead whom we knew as Gloria Howard. She has three children now, Forrest Howard, age 12; Julia Arlene, age 11 and Phillis Elaine, age 6. Gloria left here and enrolled in Hockaday School in Dallas in 1944 and graduated there in 1948. She was in the class here with Lois Wines and Roy Alvin Massey. Gloria and family are now living in Richardson.

They have just returned from a tour of Asia, Expo '70, Korea, Singapore, Thailand, Hong Kong and other countries. As I understood Gloria, her husband had ben working in the Republic of China the past three months for an American Corp. that has interests there. Pretty small world! I heard Bro. Winfred Moore, pastor of the First Baptist Church in Amarillo, left on Sunday night after his service and preached in Tokeo the next two or three days and was back in his regular place the next Sunday morning. That is pretty long range preaching, but it is closer than most of us think.

Last Friday, we had one of our former MHS football stars in visiting Heritage Hall, Bud McAbee, who was a graduate here in the 1936 class, and he was captain of the football team and assistant coach as shown in the 1936 anual. Some of his school mates he remembered were Jack Norman, Jerry Kinard, Ouida Read, M. E. McNally, and Tommie Frank Jones. Bud's father, L. B. McAbee had contract with the compress hauling cotton back in the wagon days and he thought it was while the Truebloods were operating the compress. Bud was visiting his sister, Mrs. Tommie McAbee Edwards. But left Memphis in 1936, served 3 years in the Navy after the Navy hitch has been working continuously with a chain of family owned super markets. C. H. Harris, originally from Pawhuska, Okla., was along with Bud, as they had attended a Super Market convention in Houston. They also took a little side trip to Churchhill Downs for the races, said it was about 2 thousand miles out of the way, but they enjoyed it.

Mr. Harris did get a kick out of telling what Bud had told him before they arrived in Memphis, that this was one small town where you could not get parking space and always a good crowd in town day and night. Mr. Harris said they made the grand entry Thursday night, drove around the square, and said there was not one car to be seen! Of course that was not the way when Bud lived here, as we did not have any television then. Quote from Mr. Harris, who is from Los Angeles, Calif., and Bud McAbee from Arcadia, Calif., that Heritage Hall was well arranged and a good showing for our size town.

In local cafe here Sunday met two people who were kids in Memphis. They have now retired and placed their church membership here, sounds like they still like Memphis and will call it their "Home Town." They are Mr. and Mrs. Temple Palmer and we would say "Welcome Back to the Klan," Mrs. Palmer was the former Mary Nail whose parents were early day resident's. Mary's father Jim Nail helped the Browders push the first "Browders Best" down hill to quench our thirst, to break the rope and bucket deal.

At another table met Mr. and Mrs. Leck Moreman of Kingsville with Mrs. Moreman's sister, Ora Denny and Ida Mae Long. They were all three Long girls, but none of them very tall, including the other sister, Mrs. Den Jarrell. Leck and Ruby both from old MHS. Mr. and Mrs. Marion Wiley at another table with their son, Leo and his wife, the former Henrietta Hawthorne, and their children.

Then on the way out of cafe, I met Ruby Compton with her daughter, Edith and husband, Wayland Markham of Amarillo. Edith says they have no girls, just boys, but from the looks of these four boys, she has something to look forward to in having four fine daughters-in-law. I wish I could mention all of the out of town people I met over the weekend, but I am afraid the publishers would not want to get out and extra edition. I think Mrs. Gilreath must have had 100 percent attendance here for Mother's Day, looked like about 25 thousand dollars worth of rolling stock for transportation. In talking to Hirk Roberts, one of her (In-laws or Out-laws) I don't know how she classifies him. In going back a few years, Hirk said he first knew me in 1926 when he was working here for Woote Wholesale Co., and his brother-in-law, Bud Gilreath was working for Waples Platter.

For Mother's Day, I started at Hall County Hospital on Saturday and found three brand new mothers just starting on the roll of Motherhood and then we visited the in between age of mothers in the hospital and then on Sunday afternoon I made Cousins Home where several of the mothers of past years are winding up their careers as mothers. They could say with pride, "I have fought a good fight."

The next step on Mother's Day, we all take inventory of what our mothers did for us in molding our lives, and they are still living in us even though they passed away years ago. I made 17 visits in Cousins Home Sunday and they all seemed to be having a good Mother's Day. Cora McMickin was opening up her gifts and looked like she had a modern shower of gifts. I wish I could mention all the names, but will do that another time. Will Davis did tell me the story of traveling from Farmersville to Plot Point in 1914 with his family in a covered wagon with it raining. It took him 4 days to go 80 miles. I heard this story the other day of the woman who had been married to a man 78 years, and she was asked if she ever thought of divorce. She said: "That had never occured to her, but she had thought of murder several times!"

Giles Picnic Set For May 30; Final Plans Being Formulated

By VIRGINIA BROWDER

Plans are shaping up for the food and festivities at the Giles Picnic to be held on the banks of Old Buck Creek, Saturday, May 30. Ace and Gerry Gailey are furnishing the stew meat. Walter Johnson is rounding up the fiddlers and Gladys Johnson is cleaning her big cast iron pot to cook the stew in. Furthermore, Pete Land from Clarendon reported in and says, despite the fact that his 'diggin's' suffered considerably during the recent Clarendon 'big wind', he is thankful to be alive and will surely be among those 'laughin' and scratchin' at the Giles Picnic.

We were really relieved to learn Pete will be on hand as he is official 'Custodian of Outhouses' and should be there to check the cobs and catalogs. That office is for a one year term only. So, there will be an election at the picnic for a new custodian. Anyone wishing to be a bonified candidate for the office, list your intentions with Blackie Johnson, Mayor of Giles.

The picnic steering committee will furnish the stew, bread and pickles but those coming to the picnic are asked to bring sweets or salads. Also, please bring a small cereal bowl for your serving of stew. We will furnish napkins and spoons.

Tell your relatives and friends and y'all come to enjoy a good old time country picnic . . . an all day picnic and singing on the ground by the Hall County Singers.
