Post Notes

by Wes Burnett

Former Congressman Kent Hance was hosted by a group of supporters in Garza County last Sunday afternoon and what he said made a lot of sense to me. Hance, who is on the Republican ballot in the May primary for governor, suggested an improvement to the prison system in Texas would be to return to a "working prisoner" program.

"When a man picks cotton all day, he's a whole lot less likely to get into trouble and cause problems," Hance emphasized.

He told supporters at the home of Bob and Debbie Macy that the Texas prison system is in trouble, needs more space and that Gov. Mark White's early release program is turning too many criminals back to society too quickly.

To overcome the crowding problem, Hance suggests a prison building expansion program using prisoners for a large part of the construction labor.

"That would save the state money and provide training for those prisoners who might find work in the private sector later," he said.

On HB72, the so-called education reform measure, Hance says that it has caused a serious morale problem for teachers and administrators.

He emphasized that the number one factor in student performance starts with the home environment and called for a return to (Continued on Page 2)

Dick Tanner Dies from Heart Attack Tuesday

Garza County Democratic Party chairman and long time civic leader Dick Tanner suffered a massive heart attack early Tuesday morning and died a few hours later at Lubbock's Methodist Hospital.

Post EMTs were called

to the home at 4:25 a.m., and after being examined at Garza Memorial Hospital a few minutes later, Tanner was rushed by ambulance to Lubbock.

After arriving at Methodist, immediate CPR and other life-saving efforts

attempts were initiated.

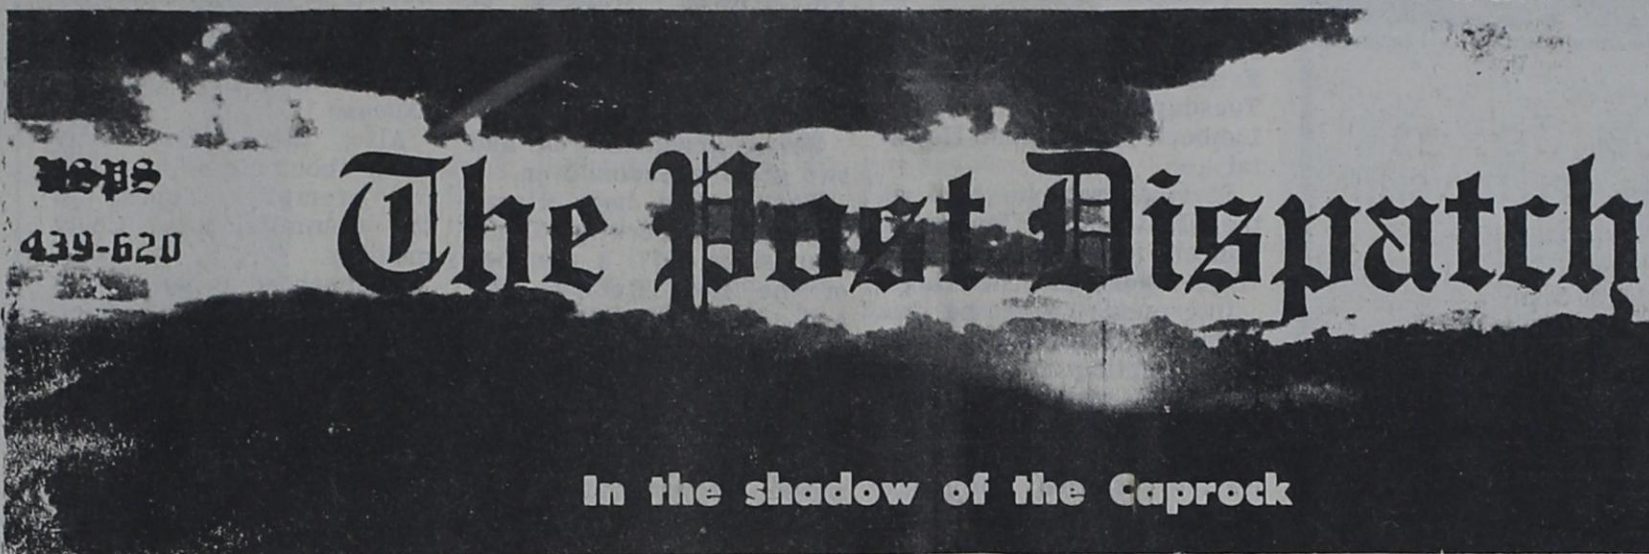

He died at approximately 7 a.m.

Tanner had been superintendent at Burlington Industries' Postex Plant greige mills and was retired.

He was active in com-

munity affairs, serving as a member of the board of directors of the Post Chamber of Commerce and a long-time member of the Post Rotary Club.

He was a member of the Masonic Lodge and had been Democratic Party chairman since 1977.

Council Pushes for Planning Grant

The second public hearing on an application to the Texas Department of Community Development was held Monday afternoon by the Post City Council.

Post Chamber of Commerce manager and volunteer application preparer, outlined the requirements of the grant application, which if approved, will provide Post with a \$25,000 planning grant.

"Our application focusses primarily on our inadequate housing situation," Earl commented.

Specifically he pointed to the critical shortage of rental housing and "we don't know exactly why, but there are a lot of people who want to move to Post and are having a difficult time finding housing," Earl added.

The council also approved the library advisory board's recommendation of Jeanette Bell as librarian (see related story).

Dennis Yardley presented a proposal to the council on behalf of NTS long distance telephone service, showing the council a 20 to 25 percent savings on long distance costs.

Yardley explained that there would be no sign up fee and no minimum use-ages fees.

The council nodded approval at the idea, and ask city manager Bill Pool to place the item on the agenda for the March 3 meeting.

Earl pointed out that the TEXCEL committees listed five main obstacles to growth in Post:

1. Need for adequate water supply distributed to areas of projected industrial, commercial and residential growth without penalizing existing water users.

2. Need for additional owner occupied and rental housing and the determina-

tion of existing sites and city lots suitable for residential locations.

3. Need for improving physical appearance of the community and demolition of unsafe and unsanitary structures and renovation of other commercial and residential buildings.

4. Need for identification and procurement of economically sized tracts of land for industrial, commercial and housing development.

5. Need to protect investments in residential or commercial through zoning and providing equity by annexation to the city.

In addition to the five major needs listed above about half of the city streets are unpaved and become mud holes in wet weather.

About 15 residences in the eastern part of the city experiences some flooding every year because of improper street drainage.

Although Post has received three community development grants for street, curb and gutter work in the area east of U.S. Highway 84, considerable more work remains to be done.

The recent curb and gutter work follows a storm drainage study made in 1977 which is partly out of date.

The correction of the drainage problem will require some engineering studies of the farm land above the city and the construction of some drainage ditches and terraces that will divert waterflow from entering the city streets.

The 1977 study did not make provisions for diverting this water flow from the city.

The Burlington Mill operated the waste water treatment plant for the City and the mill.

In 1984 Burlington don-

ated the waste water treatment ponds and facilities to the City of Post.

This waste treatment facility needs an inspection by professional engineers to determine safety and maintenance requirements since it has been in operation for some fifty years.

Although all the identified needs are important toward acquiring new industry and

jobs, the need for housing is most critical.

The 1980 census shows more than 73 percent of the existing housing was built before 1960.

There is no real housing construction industry in the county.

Mobile homes and trailers have become the common answer to housing needs.

Commissioners Order Belt Tightening, Audit

The Garza County Commissioners' Court approved Friday the ordering of an audit of the clerk's accounts upon the retirement of Carl Cedarholm.

The audit is a normal procedure and will begin March 3, with commissioners naming County Treasurer Voda Gradine to be responsible for signing checks until a new clerk is appointed to fill the vacated position.

The commissioners decided to wait until after the May 3 Democratic primary on naming a clerk.

The court also passed a resolution urging the Texas Education Association to maintain state-wide vocational agricultural programs and to provide funding for vocational ag supervisors and programs at local school districts.

The TEA has been cutting funds for the vocational ag programs and eliminated area supervisors.

The court approved participation in the July 4th Airshow, with a \$400 commitment to assist with insurance coverage for the day.

The county share represents one third, with the remainder to be provided by the Post Chamber of Commerce.

Judge Giles Dalby reported to the commissioners that a recent report he

requested from Capitol Appraisal Group Inc. shows a potential of 44 percent less revenue from oil in the next year.

"It is possible that oil could drop to as low as \$8 a barrel by this time next year," the Judge quoted the appraiser.

The appraisal study outlined revenue from oil based on per barrel prices of \$21.5, \$20, \$17.50 and \$15.

The \$15 price would reduce oil revenue in Garza County by 44 percent.

"Obviously, the declining revenue from oil revenue will be a serious problem we are going to have to be concerned with," the Judge emphasized.

He then announced that the commissioners court is beginning a thorough study of all expenses with an eye to cutting in all areas where expenses are not considered absolutely necessary.

One item specifically targeted is the long distance telephone charges.

"We are now conducting a complete audit of all long distance charges for the past three months," the Judge added, "and we will be asking for explanations for any calls we feel are not for official reasons."

Attending the meeting were Judge Dalby, Treasurer Gradine, and commissioners Ted Aten, Herb Walls, Tommy Young and T.D. Craft.

In observance of Texas Independence Day, several clubs, organizations, the City of Post and Garza County are inviting the public to attend a Tree Planting Ceremony on Monday, March 3rd at 4 p.m. at the City-County Park on Highway 84.

The Park Board, Mr

Shiver, Mr Davis and Mr Rankin are also special guests.

Among the clubs and organizations participating in this Arbor Day Ceremony are the Green Thumb Garden Club, the Priscilla Club, Post Art Guild, Rotary Club, Amity Club and Lions Club.

He also warned that the worst part of HB72 has yet to hit taxpayers, as most of the reforms will end up costing local taxpayers as much as two times current tax levels.

Hance says he favors some form of no-pass, no-play, "we've always had this in some form," but believes the six week rule takes away valuable incentives for youth at a critical time in their lives.

"I believe extra curricular activities are important to the growth of our children and students who participate in extra curriculars are usually our best students," he added.

Letter to the Editor

Appearing in last weeks paper, there was another blown up story about the Commissioners quizzing me about some fuel.

Some of it was true and some of it was false.

Whoever had it put in the paper, and I don't think it was any of the Commissioners, forgot to mention the fact that we had a patrol car wrecked and I had to let the deputies have my car to drive until we got another one.

Now it has always been agreed and understood that when this happens, the County is to furnish fuel for my pickup, and that is why I filled it up a couple of times at the County's expense.

Also, there was something about me being made to "promptly" appear in the Commissioners' Court meeting.

I appeared when I got through with something else I was doing.

Now the job is getting to where it is not worth the hassle or blown up stories that appear in the paper about me.

So, for that reason, I have decided to resign my

Commission sometime between now and the 15th of June and retire to a less hazardous and private life.

Sincerely,
Jim Pippin

JUDGES, WINDSOR SUPERIOR COURT

THE STATE OF TEXAS
To: LAWRENCE GILMORE BILBERRY, owning an interest in the hereinafter described land, the place of whose residence is unknown,

Defendant, Greeting:
You are hereby commanded to appear by filing a written answer to the Plaintiff's Petition at or before ten o'clock a.m. of the first Monday after the expiration of forty-two days from the date of the issuance of this citation, same being Monday the 31st day of March 1986, at or before ten o'clock a.m. before the Honorable George H. Hansard, District Court of Garza County, Texas, at the Court House of said County in Post, Texas.

Said Plaintiff's Petition was filed in said court, on the 11th day of February A.D. 1986, in this cause, numbered 4079 on the docket of said court, and styled Theda Jo Welsh, et al (Plaintiffs), vs Lawrence Gilmore Bilberry (Defendant).

The names of the parties to the cause are as follows: Theda Jo Welsh and Louella Bilberry are Plaintiffs and Lawrence Gilmore Bilberry are Defendants.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved. The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Post, Texas, this the 11th day of February A.D. 1986.
