OKLAHOMA CITY, Oct. 13 (AP)—In a barred and bullet-proof special prison coach attached to a regular passenger train, George (Machine Gun) Kelly was started for Leavenworth federal penitentiary today to serve a life sentence for kidnaping.

VERDICT AGAINST FORD AWARDED

PHILADELPHIA, Oct. 13 (AP)—Verdict of $100,000 against Henry Ford was awarded today by a jury in the suits involving the Detroit manufacturer and the Sweeten Automobile company of this city.

RAILWAY OFFICIAL IS FOUND DEAD

AMARILLO, Oct. 13 (AP)—William Balfour, 62, general transportation inspector for the Santa Fe railway, was found dead in his apartment here today, a bullet hole through his right temple, his right hand gripping a small pistol. He apparently had been dead since Wednesday night.

Desperado Hunt Narrows To Trio

Best Superstitions Are To Be Defied

CHICAGO, Oct. 13 (AP)—This being Friday the Thirteenth, the Anti-Superstition society of Chicago decided tonight would be a good time to sponsor a production of "Ten Nights in a Barroom."

Thirteen actors will defy all thirteen of the very best superstitions.

There are thirteen members of the organization, formed a year or so ago with the idea of proving that a jinx is not a jinx.

FLOYD, UNDERHILL AND MILLER SOUGHT IN SOUTHWEST AREA

(By The Associated Press)

KANSAS CITY, Oct. 13—Hoodlum hunters went after criminal quarry in the southwest almost light heartedly today.

Harvey Bailey and George (Machine Gun) Kelly were put away—for keeps. That simplified the hunt. A triumvirate remained.

Charles "Pretty Boy" Floyd and Wilbur Underhill, long familiar names south of the Missouri river and the Kaw, were sought along with a blond newcomer from the north, Verne Miller, World war machine gunner and former Huron, S. D., sheriff who "went bad."

Just A "Chicken Thief"

"Floyd is just a cross-roads chicken thief," according to C. A. Burns, chief of the Oklahoma bureau of criminal investigation. But other authorities have rated him as "the most dangerous gunman in the southwest."

Underhill likes to be called the "tri-state terror," an appellation gained from his depredations in the Ozarks area of Missouri, Arkansas and Oklahoma. He and Bailey led the Memorial Day break of eleven convicts from the Kansas state prison. Two murder convictions stand against him. Bank robbery is his forte.

He and Ed Davis, 30-year-old life termer, are the only convicts of the Kansas fugitives unaccounted for. Two men who robbed the Farmers and Merchants bank of Tyron, Okla., Oct. 9 boasted they were Underhill and Brady. Photographs of Underhill were identified as those of a participant in a $2,000 bank holdup the same day at Baxter Springs, Kas.

Wanted In Massacre

Miller, a machine gunner for pay, Underhill and Floyd all are wanted for the slaying of their friend, convict Frank Nash, and four officers at the Kansas City Union station, June 17.

Bailey was wanted in that case too, but his conviction along with Kelly and seven others in the $200,000 Charles F. Urschel kidnaping left disposition of the charges in doubt. Bailey, Kelly and four others were sentenced to life imprisonment.

Bob "Big Boy" Brady, escaped Kansas convict, also indicted for the Kansas City slayings, lies wounded in the New Mexico penitentiary. He was shot Friday in attempting to escape arrest.

NRA MOVES TO MEET TESTS

ROOSEVELT RECOVERY POWERS CHALLENGED; PLAN REJECTED

(By The Associated Press)

WASHINGTON, Oct. 13—NRA officials moved to override challenges of President Roosevelt's recovery powers today, after joining farm administrators in rejecting proposals for minimum price markups in retail stores.

Senator Wagner of New York bluntly forecast "they will be required to appear," as he summoned the national labor board to act on the refusal of western Kentucky coal operators to attend an arbitration hearing yesterday.

Hugh S. Johnson ruled that no employer may voluntarily surrender a blue eagle.

Chairman Wagner determined to submit to the labor board for an immediate decision the Weirton Steel company's (West Virginia) refusal to arbitrate its strike before workers returned to their jobs.

Johnson awaited a formal report before his next step against two New Rochelle, New York, employers who refused to obey his order to surrender their blue eagle insignia.

While these actions crowded one upon another at NRA headquarters and President Roosevelt was notified by steel owners of a conditional recognition of the check-off in captive mines, Johnson met with Secretary Wallace and George N. Peek, farm administrator, on the retail price problem.

They agreed to recommend against administration approval of a minimum retail mark-up of 7 1-2 per cent over delivered cost in grocery stores and of 10 per cent in other retail units.

Instead, the industrial and farm chiefs will recommend lending the government's aid to prevent price cutting by classing the sale of merchandise below invoice costs to the retailer as an unfair trade practice.

THE WEATHER

WEST TEXAS: Partly cloudy tonight and Saturday.

EAST TEXAS: Partly cloudy, showers on west coast and in the southwest portion tonight and Saturday. Light to moderate easterly to southerly winds on the coast.

Impressive Pickup In Trade Reported

NEW YORK, Oct. 13 (AP)—Dun & Bradstreet said today that the "most impressive pickup of the fall season occurred this week in general trade movements."

"The first full week of seasonable weather," stated the agency's review, "brought reports from all parts of the country of sharp increases in retail distribution, particularly pronounced in rural communities, with the strong drive of the 'buy now' campaign proving a powerful stimulus to the spread of the demand for merchandise."

Alleged Nepotism To Be Investigated

AUSTIN, Oct. 13. (AP)—A resolution calling for a legislative committee investigation of alleged violations of the anti-nepotism laws by state departments has been adopted by both branches of the Texas legislature. The investigation was ordered after it had been alleged that the head of one department would employ a relative of the head of another department in return for the other department chief doing a like service for him.

FOUR NATIONS AFFECTED BY TRADE BAN

GOODS FROM GERMANY, ITALY, RUSSIA AND CHINA INVOLVED

(By The Associated Press)

WASHINGTON, Oct. 13.—A boycott was declared by the American Federation of Labor convention today against goods and services supplied by Germany, Italy, Russia, China, or "any other country" which forbids free trade unionization.

The executive council had recommended simply a boycott of German-made goods and service, the boycott to continue until working people were allowed to organize and the "persecution of Jewish people" ceased.

Avoid Accusations

But the resolutions committee's report, adopted by the convention, said that to boycott one nation without mentioning others might bring accusations that the convention was unfriendly to a particular nationality.

The boycott, the convention agreed, "is not intended to be restricted to use against the unfair and cruel practice of the German government only, but also against any other government under similar circumstances."

The report added that the convention should adopt a similar policy "against the government and commercial interests of other countries wherein the workers are being denied the right of free trade union organization, or where any people are being persecuted because of race, religious belief or political affiliations."

AGGIE RODEO IS UNDER WAY TODAY

Bucking broncos, bawling calves, whooping cowboys and cowgirls are at Texas Technological college today, day of a fourth annual Aggie rodeo on the campus.

Preceded by a downtown parade at 1:30 p. m., the afternoon performance was to begin an hour later.

The rodeo will be climaxed with coronation of Miss John Anna Boyd as rodeo queen at the night program.

The steer riding events, open to campus organizations, were expected to draw many teams, it was said.

The afternoon arena program will include steer-riding, bronc-riding, belled-calf roping, bull-riding and other events.

A barbecue will be served at 6:30 o'clock in the pavilion, and the queen will be crowned immediately afterward. A full rodeo program also is scheduled for tonight.

Five Persons Hurt In Auto Collision

STAMFORD, Oct. 13. (AP)—Five persons were in hospitals today, two injured seriously, after a head-on collision last night of two automobiles at a highway intersection near Albany.

Four of the injured, Mrs. Elizabeth Giel, 76, of Pittsburgh, Pa., her two daughters, Mrs. S. P. Dalcerzak and Mrs. Zita Buck and Mrs. Buck's son, John, 10, were brought here to a hospital. Mrs. Giel was most seriously hurt but was expected to recover.

The fifth victim, J. E. Craft of Eastland, was taken to an Eastland hospital and was reported seriously bruised and cut.

Seaman Killed In Ammunition Blast

SAN PEDRO, Calif., Oct. 13 (AP)—One seaman was killed and several others injured in an ammunition explosion aboard the light cruiser Cincinnati at sea off this port, according to advices received here today. The explosion was in the ship's forward 6-inch gun house.

Orvanger G. Allen, seaman, second class, of Irvington, Ky., was killed.

TCU "BARBERS" ARE PLACED ON GOOD BEHAVIOR

FORT WORTH, Oct. 13. (AP)—For clipping the heads of 13 male freshmen, which the university's discipline committee deemed "hazing," 20 students of Texas Christian university were under suspension today, with the penalty suspended during good behavior.

The scholastic fate of the students involved—and incidentally, the university's chance for winning again the Southwest conference football championship—hinged on the committee's decision. A dozen football players were believed to have been involved.

The clipping followed the football game last Saturday between Texas Christian and the University of Arkansas, which T. C. U. lost 13 to 0.

Before a hearing, students said they had agreed that no ringleaders would be named and that all would stand to take the same punishment. Many of the varsity football squad had declared they would strike and Jack Graves, captain, said "if any of us get kicked out on account of this, all of us will go."

TROUBLE SEEN IN FAR EAST

RUSSO-JAP RELATIONS NEAR BREAKING POINT AFTER ARRESTS

(By The Associated Press)

MOSCOW, Oct. 13 — The tightly drawn cord of diplomatic relations between Russia and Japan was stretched a bit nearer the breaking point today.

It was strained farther with reports from Khabarovsk, Siberia, of the arrest of two more Soviet officials of the Chinese Eastern railway in Nippon's puppet state, Manchukuo.

Sensation Created

Only a few days ago, a sensation was created here with the publication of what allegedly were documents describing a Japanese plan to seize the CER.

One by one, it was said, the few remaining Soviets among the road's officials were to be removed, eventually giving Manchukuo complete control.

The two latest arrests reportedly were made as Soviet Consul General Slavutski at Harbin renewed his demands for an answer to his previous reports.

Stand Unchanged

Meanwhile, from Tokyo came a foreign office spokesman's statement which indicated Japan's stand remained unchanged.

"Several days of careful deliberation," he said, "will precede Nippon's next move in the controversy."

PARDON IS ISSUED

AUSTIN, Oct. 13 (AP)—Governor Miriam A. Ferguson issued a pardon today to J. T. Johnson, convicted in Grayson county for violating the liquor law, and sentenced to one year.

SEVEN SOUGHT FOR ATTACK ON OFFICER

THREE WHITES, FOUR NEGROES THROW MAN FROM TRESTLE

(By The Associated Press)

WICHITA FALLS, Oct. 13.—Sheriff Perry Browning remained in a serious condition today while officers sought hoboes who attacked him, knocked him unconscious and tossed him over a railroad trestle across the Wichita river here last night.

The officer suffered three fractured ribs, concussion at the base of the brain, possible internal injuries and many cuts and bruises.

Bloodhounds Sent Out

Wise county officers reported they had sent bloodhounds out for two negroes who fled when they searched a freight train at Bridgeport last night. One fitted the incoherent description Browning gave of one of his attackers.

Sixteen suspects were rounded up in a general cleanup by officers here. None appeared to be connected with the attack.

Browning and Hugh L. White, a deputy sheriff, were working together last night when the sheriff received word that a group of hoboes were along the Denver railroad right-of-way in North Wichita Falls. Browning told White to take the automobile and wait for him at an underpass. Browning then caught a freight in the yards.

Attacked By Negroes

According to fragmentary statements of the officer, he had arrested and was following seven men, three white and four negroes, across the trestle when the negroes attacked him.

He was either knocked down or thrown over the side to the hard sandy river bed 12 feet below. His pistol was found in the sand near the spot where he landed. Browning crawled and stumbled to a filling station and a passing motorist took him to the county jail.

MACON FLIES IN SOUTHERN SKIES

(By The Associated Press)

The navy dirigible Macon is flying through southern skies today en route to her permanent base in California. The huge airship left the naval air station at Lakehurst, N. J., at dusk last night.

Following a southern route, the Macon is scheduled to complete her 3,000-mile flight early Sunday morning at Moffett field, near San Francisco, from where she will operate permanently with the Pacific battle fleet.

The Macon is carrying 14 officers, 55 enlisted men, and three civilians. She had only one of her regular complement of six planes with her, four others already having reached Moffett field and the other scheduled to take off today.

VOLLEY OF BULLETS ENDS GRUESOME CAREER OF THE MODERN "BLUEBEARD"

(By The Associated Press)

SPEZIA, Italy, Oct. 13.—A volley of bullets in the back at dawn today ended 47-year-old Cesare Serviatti's gruesome career as Italy's modern "bluebeard."

Serviatti was tied to a chair and shot in the spine by a squad of carabiniere. A huge crowd witnessed his death.

He was convicted and sentenced in the court of Assizes on eleven counts July 7, all connected with the mysterious disappearance and subsequently confirmed deaths of three young women who had given him their affections and life savings.

Swarthy, heavy and personally lacking all the accepted attributes of a Casanova or Don Juan Tenorio, he made a sickly effort at jauntiness as the white-faced young carabiniere tied him to his chair, blindfolded him and then levelled their muskets at his back.

Testimony revealed that the modern bluebeard's victims were three.

One was Beatrice Margarucci, formerly of 101 Franklin avenue, Long Branch, N. J. He made matrimonial advances to her shortly after she arrived in Italy. After obtaining the savings she had accumulated during many years as a domestic, he murdered her October 30, 1930. Her body was cut in pieces and thrown into the Tiber at Rome.

Burglars Escape With Loot Here

BOLD JOB PULLED DURING NIGHT; APPAREL IS TAKEN FROM WINDOW; LOSS EXCEEDS $500

Apparel having an estimated wholesale value exceeding $500 was stolen late Thursday or early today from two display windows of Grollman's, a women's clothing store at 1015 Broadway.

Police, who began an immediate investigation, spurred by the boldness of the burglary, reported no suspects arrested at noon. George Eubank, assistant chief of police, said fingerprints were found but whether photographs of them would be satisfactory was problematical.

Three women's coats, of cloth with fur collars, three hats, two purses, and three pairs of gloves were taken from a window on the east side of the lobby, C. H. Grollman, the manager, said.

The other window entered, on the west side, contained nearly a hundred pairs of shoes, a departmental head said.

Mr. Grollman estimated wholesale value of the shoes at about $350, and apparel in the other window left bare at about $200.

One of the coats was priced at retail at $79.50 and the other two at $69.50 each.

Grollman's has four display windows, two on each side of a lobby-inset, with two adjoining the store. The two fronting the walk, however, are set apart, and glass-paneled doors in the backs of the cases are exposed.

Locks in those doors were forced with a pinch-bar to give way. Officers expressed an opinion several persons executed the burglary and put the loot in an automobile after carrying it a short distance. Passers-by ordinarily would assume persons in the windows were employes of the store, police said.

Mr. Grollman, coming to the store to open it a few moments before 8 a. m., discovered the loss and informed police.

A night police patrolman covers the beat upon which Grollman's is situated in about an hour, Chief of Police Wiley L. Metcalfe said.

Police expressed an opinion the burglars went to work soon after the patrolman passed.

STRIKES GROW IN THE WEST

HOPE OF PEACE MORE ENCOURAGING TODAY IN PENNSYLVANIA

(By The Associated Press)

Hope of peace in the strike-ridden coal fields of western Pennsylvania was more encouraging today, but in California the strike movement spread.

Bituminous mine operators told President Roosevelt they would give conditional recognition to the check-off, under which union dues are deducted from miners' wages, and some labor leaders believed this would be accepted as recognition of the union.

The number of strikers in California increased to 25,000 when 7,000 garment workers in Los Angeles left their jobs to protest low wages. Strikes among cotton pickers, sardine fishermen, lettuce and tomato pickers, grape harvesters and stevedores continued.

Sullivan, Ind., was under curfew ordered by national guardsmen. Three Sullivan county mine workers locals voted to return to work.

Threat of a strike in the Republic steel plant in Buffalo collapsed when workers' representatives walked out of a "strike" meeting.

The strike of eastern silk workers was augmented by the walkout of 1,000 silk and rayon operatives in Rhode Island.

Steel workers in West Virginia and Ohio and tool makers in Detroit continued on strike.

Escaped Prisoner Named As Slayer

LIMA, O., Oct. 13 (AP)—Harry Pierpont, escaped Michigan City, Ind., convict was identified by police today as the slayer of Sheriff Jess L. Sarber, killed when John L. Dillinger, paroled Indiana convict and suspected bank robber was liberated from the Allen county jail last night. After the identification officers went to Leipsic, near here, and took into custody Fred Pierpont. Pierpont denied knowledge of his brother's whereabouts.

Harry Pierpont, officers said, was one of the 10 convicts who escaped from the Michigan, Ind., state prison September 26.

Jackson Speaks At Meeting Of Legion

Dr. W. A. Jackson, retiring post commander, delivered a farewell address in behalf of retiring officers at a meeting of Allen Brothers post, No. 148, of the American Legion in the Legion home Thursday night.

Ray Hinchey was appointed by Commander Riley F. Hule as chairman of the membership committee for 1933-34. Mr. Hinchey, accepting the appointment, announced plans for a membership campaign would be presented Oct. 26.

BOND AND NRA BILLS STILL NOT PASSED

SPECIAL SESSION OF LEGISLATURE WILL END TONIGHT

(By The Associated Press)

AUSTIN, Oct. 13.—Last minute adjustments in legislation for which it was convened in extraordinary session 30 days ago, faced the legislature today, the last day by constitutional limitation it can remain on the job.

A conference committee, trying to reconcile the house and senate on a bill authorizing the issuance of a bond issue for unemployment relief, had agreed, but whether their compromise proposal would be acceptable to the main bodies was problematical.

Agree On Commission

Conferees would not divulge the nature of the substitute bill before its presentation to the houses, but it was reported an administrative commission of seven members, three each to be appointed by the speaker of the house and the lieutenant governor and the seventh to be named by the bill, had been agreed to.

The house refused to concur in senate amendments to its bill to broaden the anti-trust statutes to insure industries operating under an NRA code from prosecution. A conference committee was asked.

The senate worked all night to clear its calendar of local bills. It was long after sun-up that the upper branch recessed until 11:30 a. m. The senators and employes were a weary lot when they left the chamber. Mrs. Edgar E. Witt, wife of the lieutenant governor, tried to keep the lawmakers' flagging spirits up by dispensing coffee and feeding them crackers and jelly.

May Turn Back Clock

Chances were the clock would be turned back many hours, in prolongation of this last legislative day, while the legislators labored to finish the program laid before them.

PROBE MAY BE CONTINUED

COMMITTEE ASKS THAT JOB SELLING INQUIRY BE EXTENDED

(By The Associated Press)

AUSTIN, Oct. 13.—Continuation of an investigation into alleged activities of certain persons charged with having accepted contributions in exchange for promises they would be given state employment was recommended today by the appropriations committee of the Texas house of representatives.

The committee proposed that the house empower it to continue its inquiry until January 1 next.

Contributions Reported

It had received much testimony from persons who told of making contributions to certain parties who promised that the donors would receive employment.

Dr. E. F. Jarrel of Tyler, member of the Texas live stock sanitary commission, resigned his membership on that commission, after he had testified before the committee with reference to charges he had accepted contributions and made promises to give employment to those who remitted their money.

The report read to the house stated that "we are of the opinion that the testimony strongly implicated Dr. E. F. Jarrel in the sales of such positions, and evidenced a knowledge upon his part, of such sales, as well as a complicity therein; We are convinced that many people throughout the state paid their money under the impression that they were to be given jobs and placed on the state payrolls, but in practically all the instances brought to our attention, no permanent positions were awarded."

Company Formed To Escape Tax, Claim

WASHINGTON, Oct. 13 (AP)—James V. Forrestal, a member of Dillon, Read & Company, told senate investigators today of the formation of a private company for tax purposes.

Smoking a pipe as he testified, Forrestal said he organized in 1928 or 1929 a company owned entirely by his wife and himself with a subsidiary in Canada.

In 1929, after he had transferred some of his stock holdings to the Canadian company, Forrestal said he paid an income tax of $300,000, both state and federal. He testified he did not know how much it would have been if the company had not been organized.

TRIAL DATE SET

MEMPHIS, Tenn., Oct. 13 (AP)—Federal Judge Harry B. Anderson today set October 21 for the trial of Langford Ramsey, former brother-in-law of George (Machine Gun) Kelly, on an indictment charging him with conspiring to violate the Lindbergh law.

SUSPENDED TERM GIVEN RUTHARDT

DALLAS, Oct. 13. (AP)—A district court jury today returned a five-year suspended sentence verdict in the trial of Louis Ruthardt, 24, for the death of Jo Betty Sell, his 17-year-old dancing partner, at a night club near Dallas May 30.

Ruthardt thanked the jurors and left immediately for Oklahoma City with his mother to begin work with an oil concern there. He said he had decided to give up his dancing.

The jury began deliberation at 7 p. m. last night, went out for supper and resumed its consideration an hour later.

Miss Sell died at a Dallas hospital several hours after she had complained of feeling ill as she sat at the night club between Dallas and Fort Worth with Ruthardt and the leader of the orchestra. Ruthardt went to Grand Prairie, nearby, for a physician, then brought her to the hospital where she died 45 minutes later.

Forty-Four To Face Hoarding Charges

WASHINGTON, Oct. 13 (AP)—United States attorneys today were under orders to prosecute the 44 persons known to be holding more than $1,000 in gold illegally.

Attorney General Cummings demanded the immediate action in a letter to prosecuting officials calling attention to the administration order against gold hoarding. More than $500,000,000 in gold coin, certificates and bullion still is in circulation.

SEVERAL INJURED

JERUALSM, Oct. 13 (AP)—A few minor affrays, in which several persons were slightly injured and a few were arrested, accompanied Arab demonstrations planned for today in protest of a recent increase of Jewish immigration.

Benefit Dance Tonight Is Feature Of Week-End

Several Events To Be Large Meetings

Several events that are expected to interest a number of people have been scheduled for this week-end.

Among these will be the benefit dance this evening at the Hilton hotel. Membres of the local chapter of the United Daughters of the Confederacy are to be hostesses. Dancing will begin at 8:30 o'clock in the ball room to music by the Ross Edwards orchestra.

Another of these events is the A. A. U. W. meeting Saturday evening at 7:30 o'clock in the F. R. Friend residence at which Mrs. Anna Witherspoon of Wichita Falls will be the speaker.

Mr. and Mrs. Horace Scott left this morning for Gainesville to attend funeral services of Mrs. Scott's sister-in-law, Mrs. J. E. Cunningham, of Sulphur, Okla.

Puts the Jinx on Body Odor!

Science Says Good-Bye to Medicine-Smelling Soaps!

Science has made a new discovery about body odor. It is caused by stale perspiration curds, and requires deep-pore-cleansing. It cannot be ended by ordinary soaps, because their sluggish lathers cannot reach into the pores and cleanse them. Instead the soap combines with the waste material and forms clogging curds!

Kirk's Coco Castile soap works in an entirely different way. No matter how hard the water, this 100% pure vegetable oil soap breaks instantly into a searching, bubbly lather. This bubbly lather cleans deep into the pores, actually removes the embedded stale perspiration curds — then rinses out completely, and in a flash. Thus it ends body odor at its source!

Delightful to use, Kirk's Coco Castile is entirely free from M. S. (medicine smell). And stimulating to the skin. A big generous cake, half again larger than the average toilet soap, and now at the lowest price in history! At this new reduced price, it is America's outstanding soap bargain. Be sure to ask for Kirk's Castile by name—at your grocer's.

Luxurious But Dignified Is Rule In Evening Clothes For This Year

Luxuriousness marks the evening costumes designed for fall and winter. The Molyneux frock at left has a trailing skirt of shimmering white paysan velvet, and matching gloves. The cape is of white mousseline bordered in white uncurled ostrich. Red velvet makes the evening wrap at right designed by Chanel. The new hemline is a few inches shorter than the frock which is of white moire. The collar and cuffs are of sable.

BY RITA FERRIS
(Associated Press Fashion Editor)

PARIS, (AP)—A "Grande Dame" mode has returned for the evening hours.

Regal fabrics worthy of a queen, flattering feathers, luxurious furs and sparkling jewels are molded into dignified gowns recalling the splendor of pre-war salons.

Although shimmer and sparkle are often seen, simplicity is by no means forgotten. Dignity is the rule, and a plain velvet gown cut on the simplest lines is as chic as gleaming lame.

This winter's frocks give an effect of sinuous length. The smartest are built on long slender lines, designed to enhance the figure's curves, many of them sweeping into trains.

The evening wrap is "as you like it." It may be almost any length from the waist to the floor, loose or fitted, heavily furred or untrimmed.

Capes Are Popular

Capes and cloaks are among the outstanding designs. Richly hued velvet evening frocks are accompanied by little matching elbow-length capes sometimes trimmed with flowers.

Waistlength capes made of a half dozen fox skins are among the most luxurious evening wraps shown.

Marriage Of Pair Is Announced Here

The marriage of Harold C. Hess and Miss Mary Glyn Gary of Fort Worth, which took place in Plainview on September 7 with the Rev. W. G. Bartley, First Methodist minister, officiating, has been announced here. Mr. and Mrs. Hess are residing at 1628 Tenth street.

Mrs. Hess, who has been living with her sister, Mrs. A. H. Cooke, in Fort Worth, was a student in Texas Technological college last year. Mr. Hess, who came here from Dallas, holds a degree from the University of Arkansas. He is with Draughon's Business college here.

1911 Needle Club Is At Party Here

Italian Embroidery Made By Girls

Italian hemstitching, which will compete for national Camp Fire recognition, was done by girls in the Wakishaka Camp Fire group Thursday afternoon under the direction of the new guardian, Mrs. Homer Maxey. The meeting was with Rita Louise Hawkins, 1902 Seventeenth street.

Razelle Cunningham, a new member, attended with Austine McDonald, Margaret Marshall, Grace Johnson, Addie Lee Terrell and Miss Elizabeth Conner, city Camp Fire executive. These girls are to go on the gypsy hike Saturday morning and in the afternoon will be in the parade in observance of fire prevention week.

Mrs. Earl Hunter, Bride, Is Honored

Mesdames J. J. Smelser and Leon Hale entertained Wednesday afternoon in Mrs. Smelser's home, 1630 Fourteenth street, to compliment Mrs. Earl Hunter, a bride.

Before her marriage in Lovington, N. M., on October 4, Mrs. Hunter was Miss Catherine Mills.

A shower of gifts was presented to the honoree following games of bridge. Guests were Misses Grace Persky, Juanita and Beatrice Mills, Marie Hale, Erna Forson, Fran Finberg, Mesdames William Levine, A. H. Roach, Susanne Flanary, J. H. Farmer, T. G. Waldrip, J. O. Easter, Leota Hughes, Hazel McComas, Weldon Scarbrough, Wakefield Price, Mike Barrier and Eppie Sowder.

Baptist Students To Attend Rally

Young people from First, Calvary and College Avenue Baptist churches are to attend a pep rally in the young peoples' auditorium of First Baptist church this evening from 7:30 to 9 o'clock, it has been announced by Miss Mary Alyce Scott, B. S. U. council president. This rally is being held in an endeavor to arouse enthusiasm for the state Baptist student union meeting in Denton the latter part of this month.

Daily Food Needs Of Groups Discussed

Minimum daily food requirements for small children, older children and adults were discussed by Mrs. Joe H. Smith before members of the Sanders Parent-Teacher association Thursday afternoon at the school. There were 19 at a meeting presided over by Mrs. Leonard Cole, a teacher in the schools.

COLORFUL KITCHEN

If you're tired of having your kitchen painted white, gray or tan, try redecorating it in one of the very vivid colors which are so smart this fall. You might paint the upper half of the walls a bright red and the lower half and ceiling silver. Red and white or red and pale silver floor covering would carry out your color scheme.

The world's highest living inhabitant is believed to be the species of spider that is found on Mount Everest, at an altitude of 22,000 feet.

Quilt Is Made By Methodist Group

Since a quilt is to be sent to a Methodist institution by the First Methodist Mary Helm auxiliary, blocks were pieced Thursday afternoon in parlors of the church.

The occasion for the gathering was a tea given by the auxiliary president, Mrs. Pascal Peek; the vice-president, Miss Flora McGee; and the pastor's wife, Mrs. J. O. Haymes.

Quilts Are Displayed

Several quilts that the women have made recently were on display in the parlors. Carrying the theme further, three auxiliary members presented a clever skit on quilts. Those taking part were Mesdames H. R. Tucker, George Lemon and Marcus E. Helber.

The table was laid with a cut-work cloth with centerpiece of red dahlias. Green tapers burned in crystal holders.

Mrs. Paul W. Horn and Mrs. Bradford Knapp poured tea. They were aided in serving by five of the circle chairmen and Mesdames Sidney Oglesbee, Helber and W. K. Johnston. Chairmen were Mesdames W. G. McMillan, Vernon Brown, I. F. Kennedy, A. S. Meinecke and C. G. Stinson.

Sixty women registered.

Asbury Women Are To Serve Lunch

In an attempt to raise funds to apply on the debt on the Asbury Methodist parsonage, women of the congregation are to serve lunch Saturday at 1207 Broadway. They will begin serving at 11 o'clock and plan to sell coffee and pie throughout the afternoon.

Five women are arranging for this benefit. They are Mesdames J. E. Schornick, C. P. Young, Sudie Coleman, Orion W. Carter and F. E. Abney.

Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be measured. The action can be controlled. It forms no habit; you need not take a "double dose" a day or two later. *Nor will a mild liquid laxative irritate the kidneys.*

The right liquid laxative brings a perfect movement, and there is no discomfort at the time, or after.

The wrong cathartic may keep you constipated as long as you keep on using it! And the habitual use of irritating salts, or of powerful drugs in the highly concentrated form of pills and tablets may prove injurious.

A week with a properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin will tell you a lot. A few weeks' time, and your bowels can be "as regular as clockwork." Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given the youngest child. MORE SUPPORT GIVEN MCKEE

REVOLT IN BROOKLYN AND QUEENS HURTS O'BRIEN'S CHANCE

BY FRANCIS A. JAMIESON

NEW YORK, Oct. 13 (AP)—The Democratic revolt in Brooklyn and Queens to Joseph V. McKee almost obliterated party lines today as the city's mayoralty candidates completed framing the campaign issues.

Following in the footsteps of many of John H. McCooey's district leaders, the Women's Democratic Forum of Brooklyn suddenly cancelled plans for a huge rally for Mayor John P. O'Brien, Tammany candidate, Oct. 17.

Will Support McKee

The Forum, McCooey's women's organization, was reported to be awaiting only the action of the Brooklyn Democratic executive committee on Monday—a meeting the veteran leader was forced to call by his workers—before openly declaring for McKee.

Tammany leaders, however, expressed confidence in the ability of McCooey, confined to his bed with a slight cold, to hold his iron-clad grip on the Brooklyn organization and block a switch to McKee. Some of McCooey's leaders have threatened to force him out of the leadership unless he renounced O'Brien.

Meanwhile, Samuel Seabury, arch foe of Tammany and Secretary of State Edward J. Flynn, backing McKee, carried the campaign to elect Fiorello H. La Guardia, fusion nominee, into the Bronx.

Assailing McKee's pledge for a government of economy, Seabury charged the independent candidate as president of the board of aldermen had voted to raise his own salary from $15,000 to $25,000 a year.

Liberals Back La Guardia

Attacking the "twin Tammany candidacies of O'Brien and McKee," a group of 29 liberals, including authors, editors, publishers, socialogists and lawyers, announced their support of La Guardia.

In the group were Professor A. A. Berle, an advisor to President Roosevelt; Oswald G. Villard, Carl Van Doren, Joseph Wood Crutch, Will Irwin, Heywood Broun, Walter Frank, Norman Hapgood, Paul Blanshard, John T. Flynn and Amos Pinchot.

Describing La Guardia as the "candidate to end corruption," Thomas D. Thacher, former solicitor general, also declared for the fusion nominee.

The campaign was under full swing. Each of the major candidates has expounded his campaign doctrine. Briefly, they are:

La Guardia: To convince the electorate that McKee is a tool of Flynn and Postmaster General James A. Farley in seeking to oust Curry as Tammany leader.

McKee: To overthrow Tammany hall—"the invisible government"—and rejject La Guardia, "publicity seeker" who is dominated by Seabury.

O'Brien: To stand, on his record as mayor for a year and to appeal to regular Democrats to back their primary nominee.

Two Negroes Face Charges In Attack

LONGVIEW, Oct. 13 (AP)—Two negroes, Caper Christian and Willie Howard, were charged with assault to murder in connection with an attack last Saturday on C. W. Chapman in the Shiloh community, near Longview.

Chapman was beaten almost to death with a fence post and robbed of his money and shoes. He was brought to a hospital here and several days elapsed before officers had any clue as to what had caused his injuries. He still is in a serious condition.

Officers said the two negroes admitted the attack but denied that they intended to kill Chapman.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at drug stores. © 1931 C. M. Co.

CONDITION OF CROP GOOD

PROSPECTS REPORTED BETTER IN TEXAS THAN LAST MONTH

AUSTIN, Oct. 13. (AP)—The October 1 crop report of the United States department of agriculture, released today, stated conditions for growing and maturing crops in Texas during September were generally favorable. Cotton was reported in better condition than ever before for this time of year.

The report stated prospects on October 1 were "for better yields of cotton, rice, grain sorghums, peanuts, tame hay, sweet potatoes, pears, grapes and pecans than were indicated on September 1."

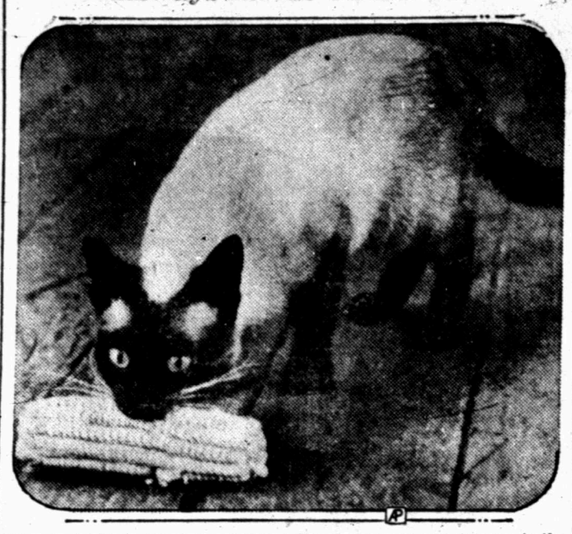

Range Conditions Better

"Corn and broom corn prospects are unchanged from a month ago, while pears declined somewhat," the report stated. "Range conditions improved during the month, and in most areas ranges are in fair shape. However, additional rainfall is needed in some section, especially on the Edwards plateau.

"A cotton crop of 4,190,000 bales (500 pounds gross weight) is forecast for Texas from data furnished by crop correspondents. The condition on October 1, 1933, was reported at seventy per cent of normal, compared with 59 per cent a year ago and 55 per cent of the ten year average (1922-1931). The condition this year is the highest October 1 condition on record and the estimated yield is the highest since 1914 when 183 pounds per acre were produced (the yield this year was estimated at 178 pounds per acre). Apparently higher yields will be realized in practically all sections of the state than were realized last year.

"The condition of the Texas corn crop is reported at 51 per cent of normal on October 1, compared with 75 per cent a year ago, and 67 per cent the 10-year average, (1921-1930). A condition of 51 per cent indicates a yield of 14 bushels per acre and a total production of 74,512,000 bushels. This compared with 102,726,000 bushels produced last year and 78,426,000 the five year (1926-1930) average.

Always Lands On Its Ear

What to feed her Siamese cat when this year's corn crop is gone is the problem Phyllis Bradshaw of Trenton, N. J., faces. Her particular pet demands three ears of corn-on-the-cob every day. The animal cultivated a taste for the vegetable last spring—and there are meows aplenty when anyone offers a substitute.

War Blind At St. Dunstan's Hospital

LONDON, Oct. 13 (AP)—St. Dunstan's, which has charge of all men here who lost their sight as a result of active service during the Great War, is now caring for nearly 2,000 war-blinded, more than ever before.

It is estimated that the peak of St. Dunstan's has not yet been reached. At the end of the war, 30,850 men were discharged from the army with defective viscion and it is from this number that the new cases are coming.

RELICS IN PORTUCAL

LISBON (AP)—Hunting and household relics encased in hardened clay and found in a prehistoric burial ground at Evora by an archeological party are estimated to date back 5,000 years.

BANDITS GIVEN LONG TERMS

PAIR CONVICTED FOR KIDNAPING GET 50 AND 55 YEARS

TAHOKA, Oct. 13.—(Special)—Convicted of robbery and kidnaping, S. D. Dick and S. D. Vowell, young desperadoes, were sentenced to a total of 105 years in the penitentiary in district court here Thursday.

Vowell, who pleaded guilty, drew a 50-year term. Dick pleaded not guilty and conducted his own defense. His sentence was 55 years.

Robbed of $3

The men were charged in connection with the robbery and kidnaping of J. F. Covey, a Santa Fe railway company agent at Wilson last April. Covey was robbed of $3 and blindfolded. Abandoning a stolen car, the bandits took Covey's V-8 Ford sedan. The agent was released near Ackerly.

The car was recovered in Hugo, Okla., when Dick was arrested about May 1. Vowell and Dick, returned here to await a grand jury in the case at Wilson, were among seven men who escaped from the Lynn county jail June 9. Recaptured in East Texas, the pair was brought here again. They were held for several days in Lubbock county jail for safe-keeping.

ARNOLDS ARE TO SHARE IN REWARD

OKLAHOMA CITY, Oct. 13 (AP)—A share of the $15,000 reward for the capture of George and Kathryn Kelly probably will go to 12-year old Geraldine Arnold and Luther Arnold, her father, Charles F. Colcord, Oklahoma City capitalist who underwrote the offer, indicated today.

Asked if Arnold and the little girl, who directed officers to the Kellys' Memphis hiding place after they had used her as a "shield" in their flight, would share in the reward, Colcord replied: "I think so."

The capitalist, who as an early day peace officer, said he intended to confer with federal authorities to determine payment.

Geraldine's father cooperated with federal agents in their search for the Kellys before the fugitives sent the little girl back home from Memphis.

Douglas Fairbanks To Play Don Juan

MADRID, Oct. 13 (AP)—Douglas Fairbanks, sr., will represent Don Juan, aged 45, with his conquests behind him, in his forthcoming picture, "Adios, Don Juan."

He told of his plans when he arrived en route from London and Paris to southern Spain where he will seek locations for the film.

The film title means, "Goodbye, Don Juan."

The actor refused to discuss reports that he and Mary Pickford are to be divorced, but he characterized another report, that he is considering becoming a British citizen, as "nonsense."

PRISON ISLAND IS PLANNED

INACCESSIBLE SPOT IS PICKED FOR FEDERAL PENITENTIARY

WASHINGTON, Oct. 13 (AP)—An inaccessible prison island for dangerous, incorrigible federal convicts is soon to become a reality and the enactment of a law spelling life imprisonment for those who make a business of crime is under consideration by the administration.

Both moves fit vitally into the justice department's war to free citizens from the fear of kidnaping and business men from the threat of racketeers. Harvey Bailey and George Kelly, who received life sentences for the Urschel kidnaping, are expected to be among the island prison's first inmates.

The purpose, as disclosed by Attorney General Cummings, is to put the perpetrators of such crimes behind bars for good and imprison them in a place where they will be unable to influence redeemable prisoners and connive at escape with outside accomplices.

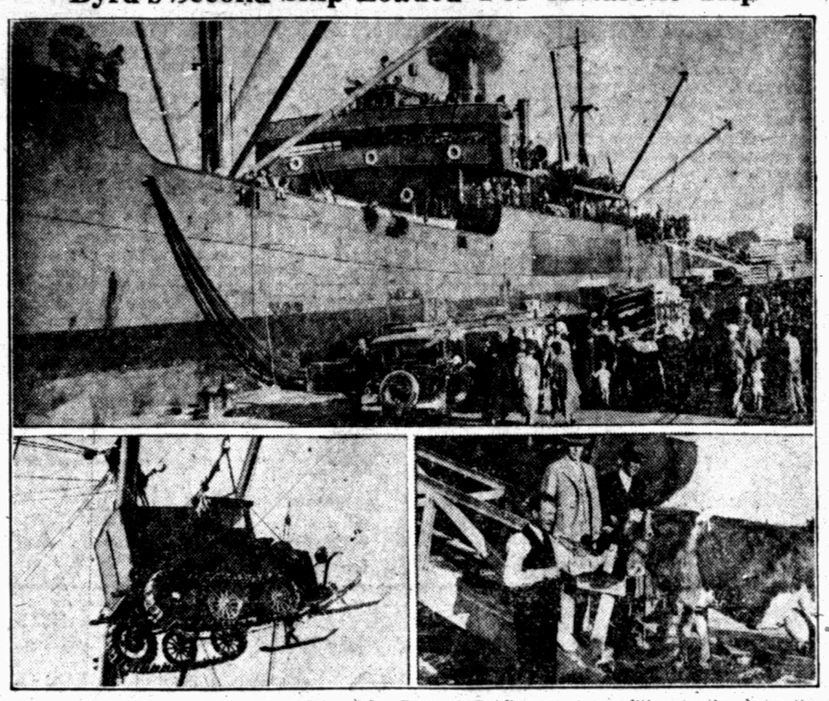

The tiny, crag-shored island of Alcatraz, whose rocky bluffs rise high above San Francisco bay, has been chosen for the prison. It has long been a military prison. Dangerous currents swirl about its cliffs. It is more than a mile from the mainland. Cummings thinks it ideal for his purpose.

C-C LEADERS OPPOSE PLAN

SAN FRANCISCO, Oct. 13 (AP)—Opposition to the proposed establishment of a fedreal penitentiary for the most desperate type of criminals on Alcatraz island in San Francisco bay was expressed here today by chamber of commerce leaders.

J. W. Mailliard, president of the chamber, said he will ask the organization to adopt a resolution of protest against the proposal announced in Washington by Attorney General Cummings.

Byrd's Second Ship Loaded For Antarctic Trip

Of 12,000,000 insured persons in England, 7,000,000 are in continuous employment, 1,000,000 undergo brief periods of unemployment, and 1,000,000 are out of work one month in every four.

OLD MASTER FOUND

FERROL, Spain (AP) — Experts stumbled on what they claim is a genuine painting by Goya, "The Old Magistrate of Ferrol," on the dusty walls of the city hall. The painting, hung with a collection of amateurish daubs, is said to be worth $100,000.

When in flight, the wart hog carries its tail stiffly erect.

MRS. ROOSEVELT FIRST CONSUMER UNDER COAT CODE

NEW YORK, Oct. 13 (AP)—Mrs. Franklin D. Roosevelt became the nation's first "coat consumer" under the blue eagle of National Recovery today.

Slipping a thimble on her finger and threading her needle with housewifely skill, the wife of the president stitched the first NRA label to a coat presented her by representatives of the coat and suit code authority.

A similar coat was presented her daughter, Mrs. Anna Roosevelt Dall. The ceremony was staged in a manufacturers show room in New York's cloak and suit district.

"I hope," said Mrs. Roosevelt, "that women in shopping for clothes will consider before making their purchase whether the garment has been produced under fair labor conditions."

The coat presented Mrs. Roosevelt was black worsted with "a blue eagle" collar of silver fox. The fur was cut to resemble the blue eagle emblem, spreading fanwise in front, after the fashion of the claws and tail, and curved outward at the sides like the spread wings.

Mrs. Dall's coat was the same, save that the silver fox collar was of standard cut.

The presentation was made by George Alger, director of the coat and suit code authority of the NRA. Only a small group of manufacturers' representatives and union officials was able to get into the room, but a crowd gathered outside and cheered the first lady and her daughter when they entered and departed.

TOKYO STOCKS DROP

TOKYO, Oct. 13 (AP)—As a result of rumors that certain army units had been ordered to Manchuria because of Russo-Japanese tension, subsequently denied and apparently unfounded, key stocks on the Tokyo stock exchange dropped seven yen (currently about $3.29) in a late afternoon flurry today.

Good For Biliousness

"I decided to take Thedford's Black-Draught, as I had been having bilious spells," writes Mr. Charles E. Stevens, of Columbus, Ind. "When I get bilious, I feel sleepy and tired and do not feel like doing my work. I get awfully dizzy. After I found how good Black-Draught is, that is what I have used. I guess it rids me of the bile, for I feel better—don't feel like I am dropping off to sleep every time I sit down. That, to me, is a very bad feeling."

Children like the new, pleasant tasting SYRUP of Black-Draught.

Sky High Gasoline Quality

Photograph of one of the Phillips sky-writers 10,000 feet over the Chicago Century of Progress Exposition. "HIGHEST TEST" AND anti-knock at the price of ordinary gasoline

GRAVITY FROM 63.5° TO 69.5°

70 OCTANE

Phillips 66

EVERY speed and stunt plane at the International Air Races . . . every passenger plane in the country . . . fighting planes and private Pullmans of the air . . . all use high test gasoline!

When you wonder how to get airplane-engine efficiency out of the motor in your car, remember that "Highest Test" is the distinguishing characteristic of Phillips 66.

Every time you PHILL-UP with PHILLIPS, you get this higher test, plus higher anti-knock, plus CONTROLLED VOLATILITY. This is an unbeatable trio of premium qualities which cost you not a single penny of premium price.

Just one trial tankful will prove that this greater gasoline is different. And you can see this advertisement is unlike others, because we give you definite figures instead of indefinite claims. The figures at the left tell you accurately how high the test is, give you the exact anti-knock rating.

There is real zip and go in every drop of this quality gasoline, extra pep and knockless power. Longer mileage, too. No injurious chemicals to attack cylinder walls. No surplus gum to stick the valves. No excess carbon to foul the plugs.

Every gallon is scientifically pre-adjusted to match the weather when and where you buy it. That is how CONTROLLED VOLATILITY insures full power and mileage despite any changes in climate.

Because Phillips always gives exceptional value, sales of Phillips 66 products in the last twelve months averaged more than one million four hundred and forty-nine thousand (1,449,000) gallons per day. And these figures are headed steadily upward, as thousands of new customers discover the improvement in performance which proves that *it saves money* to get gas at the Orange and Black 66 shield

DAVIS FREED OF LOTTERY CHARGE

NEW YORK, Oct. 13 (AP)—The long trial through the federal courts is ended for Senator James J. Davis of Pennsylvania.

A jury's verdict cleared him late yesterday of charges that he caused the sending of lottery tickets across state borders in the promotion of a fun-raising enterprise for the Loyal Order of Moose, of which he is director-general.

Theodore G. Miller, head of the lodge's propagation department, also was given his freedom by the verdict.

The two had been on trial for three and a half weeks facing a government contention they were responsible for the "Mooseheart charity balls" in which national cash awards were distributed to holders of lucky tickets. It was the second trial for Davis, the first ending in a mistrial more than a year ago.

After hearing the verdict, which brought an uproarous demonstration from courtroom spectators, Senator Davis announced he would leave during the night for Washington to address the American Federation of Labor today. Then he will go to Pittsburgh to see his father, who is blind.

His Amphibian Sped to World Record

Flying an all-metal Wright-motored monoplane of his own design, Alexander P. De Seversky, a veteran of the Russian Imperial Air Force, set a world's record for amphibian planes when he drove his powerful craft 177.79 miles an hour at the National Air Pageant in New York. De Seversky, who lost a leg in the World War, waves from the cockpit after his record feat.

PHILIPPINES EXPORTS GAIN

MANILA, P. I. (AP)—Export trade of the Philippines showed a gain of $8,262,787 in the first six months of this year. With imports dropping about $6,500,000 the favorable trade balance was $1,628,500. Higher prices for sugar, all shipped to the United States, accounted for the export gain.

ISSUES MEMORIAL COIN

WARSAW (AP)—The Warsaw mint is issuing 10-zloty coins, equivalent to $1.70, bearing King John Sobieski's effigy in commemoration of the 250th anniversary of his victory over the Turks at Vienna.

Put more SUNSHINE days on your calendar

How many days in the month do you feel your best? You can add to these sunshine days by simply obeying nature's laws.

The first of these laws is regular elimination. Avoid common constipation by eating a delicious cereal.

Tests show Kellogg's ALL-BRAN furnishes "bulk" to exercise the intestines, and vitamin B to help aid regularity. ALL-BRAN also contains twice the iron of an equal weight of beef liver.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. How much more pleasant than pills and drugs—so often habit-forming.

Serve as a cereal or use in cooking. Directions on the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.

SHAW'S ADDRESS ENLIVENS PARTY

LONDON, Oct. 13 (AP)—George Bernard Shaw enlivened a literary tea party yesterday with a speech in which he declared:

"Hitler is perfectly right—he is right up to the hilt."

The far ends of the world figured in Shaw's address as he paralleled the types of patriotism in Japan and Germany.

"Japan," he said, "has race which believes it belongs to the family of God for the purpose of governing the rest of the world."

The dramatist asserted:

"Everybody in the east says Japan has nothing to do but stretch out her hand and they say she can take Hongkong, she can take Singapore. She would take the Hawaiian islands from America if America would let her.

"East is east and west is west, is what they say. What we really mean is west is west and the east belongs to it."

Turning to Germany, Shaw said: "The whole secret of Hitler has been that looking back on the Versailles treaty he found other nations had been plundering Germany. Hitler found there was absolute determination (in Germany) to stop this plundering.

"He wants to get rid of drama, literature, art and the Jews. They (the Germans) don't care about that. It's a mere trifle. What they really want is to be on an equal footing with every other nation."

SIXTH VICTIM OF ACCIDENTS DIES

SLATON, Oct. 13.—(Special)—Upon death of the sixth victim of South Plains automobile accidents in 24 days, the body of Janet McDonald, 19, was sent to his home in Van Alstyne last night.

McDonald was injured fatally when an automobile driven by his older brother, James C. McDonald, upset about 9:30 p. m. Wednesday at Southland.

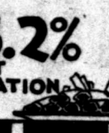

Accidents northwest of Lubbock, near Lamesa, and near Ralls claimed the other lives. Three suffered fatal injuries in a crash northwest of Lubbock Sept. 18; a Slaton woman died Saturday when the car her husband was driving overturned near Lamesa; and an elderly minister was found Monday night beside his demolished car 5 miles west of Ralls. He died in a Lubbock sanitarium.

Foster Funeral home made arrangements to send Janet McDonald's body to Van Alstyne.

DICTATORSHIP NOT AIM OF O'DUFFY, IRISH "BUSINESS-LIKE POLITICIAN"

* * *

BY MICHAEL ROONEY

DUBLIN, Oct. 13 (AP)—"Do I look like a man who wants to be a dictator?" asked General Eoin O'Duffy, smiling as he posed the question across his paper-laden desk in the headquarters of the national guard.

His desk was in disarray. The police had just paid him a visit looking, the warrant said, for seditious documents and arms.

The question needed consideration. Studying him, one sees first a pair of keen, steady eyes. They can be imperious and soft but often are wistful. His auburn hair is thinning on the brows and inclines to grayness. He has a plump face but with a lean jaw; a sturdy body and a flashing smile that shows white, even teeth.

His caller answered: "A successful business man, yes; a dictator, no," and the general laughed heartily.

A 'Business-Like Politician'

"Ireland needs some business men in politics," he said. "If I am to be a politician, and it seems a strange role, I want to be a business-like politician."

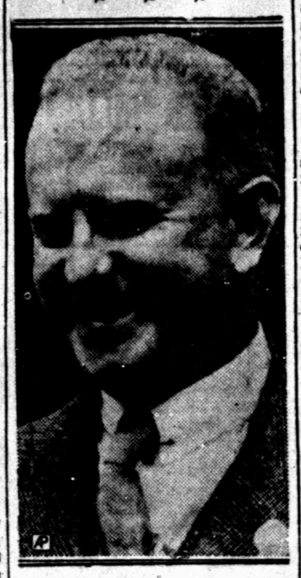

As a student he thought much of Ireland. The wave of nationalism that swept over the country in 1916 caught him in full current. He then was 23. In 1917 he joined the republican movement. When he graduated as an engineer he was already known among the nationalists.

As district surveyor in his native Monaghan he was a useful man in the volunteers. Soon he was an invaluable one. The Anglo-Irish conflict found him in the thick of the struggle. In 1921-22 he was chief of staff of the Irish Republican Army.

A leader on the hills he still was a leader when jail doors closed behind him. He helped to smash the British prison system in Ireland.

Elected a deputy he followed Collins in accepting the treaty establishing the Irish Free State. He saw many of his best friends take the opposite view but his convictions were unshaken. He said he did what he thought was best for Ireland.

The resultant civil war saw him in the south of Ireland as a lieutenant general in the National army. Organizers were needed to lick raw material into shape and he was made inspector-general.

EOIN O'DUFFY

Then he was transferred to take charge of the newly formed civic guards.

At the close of the civil war, despite many difficulties, he had a fine well-disciplined unarmed police force. In this he was in what he considered his real work, the building up of a police force of which the country could be proud.

The greatest wrench in General O'Duffy's life was when President deValera, for reasons which he considered adequate, removed him from his post as commissioner. No charge was made against O'Duffy.

Dismissal Caused Sensation

His dismissal provided a minor political sensation which was still being discussed when news came tha the had been offered an accepted the leadership of the Army Comrades Association. This body, formed primarily to safeguard the interests of former members of the National army, had been given a political complexion as a result of its activities during the general election when it had set itself up as guardian of Cosgrave party meetings.

O'Duffy renamed it "the national guard" and declared it to have no associations of any kind with existing political organizations, hinting at the same time that if circumstances warranted the organization would appeal to the electorate.

He proceeded to organize the members upon a semi-military basis, dressing them in blue-shirts, and ultimately proved so embarrassing to the government that President deValera took the drastic step of banning the entire organization.

LAWS PROTECT ANIMALS

HALLE, Germany (AP)—Cruelty to animals henceforth will be punished with deportation to a concentration camp and corporal punishment, according to an order by the Nazi governor of Brunswick and Anhalt. "In cases of special rudeness, tormentors are to be taken immediately to a concentration camp to receive a treatment that will kill their desire to vent rage on harmless animals."

Roosevelt Choice

Newest member of Washington's official family is attractive Miss Ruth Lockett (above), appointed by President Roosevelt as the new Recorder of the General Land Office.

"King Tut's Curse" Menaces Scientist

PARIS, Oct. 13 (AP)—Friends of J. F. Cellerper, noted French research scientist, are wondering if he is the latest victim of King Tut-ankh-amen's vengeance on the excavators of his tomb.

Cellerier has lost the use of his left eye as a result of ultra-violet ray tests on a small wooden statue from an ancient Egyptian funeral chamber, sent to him by Henri Verne, director of national museums.

In the test, he was astonished to observe "an exceptional luminosity" emanating from the figure. Shortly afterward he felt a pain in his left eye, from which he eventually lost the sight.

He did not dare to blame the strange brilliancy of the statue, said his official report, "although it certainly had been coated with an unknown organic substance." He hopes to regain the use of his eye on a month's leave of absence from the national physical testing laboratory, of which he is director.

INCREASES INCOME

MEXICO, D. F. (AP)—General Eulalio Gutierrez, former president of Mexico, is earning seven times as much as a miner as he did as chief executive. The secretary of national economy reports that the profit from Gutierrez gold and silver mines in San Luis Potosi is 30,000 pesos, or $8,600, monthly, compared to the presidential salary of 50,000 pesos.

RAID NETS RELIC

CAIRO (AP)—A granite statue of a Nubian ruler in the days of Tut-Ankh-Amen was found by Egyptian state police in a house which they raided in a search for narcotics. It was sent to the archeological museum.

ARITHMETIC LESSON

From sources we regard as authoritative, we learn the University of Arizona has a one-touchdown per game better offensive than it had last year. At the same time, the Wildcats defense is supposed to be improved, and since it is homecoming day at Arizona, they will be just a little tougher.

* * *

Now the Matadors of 1933 so far haven't clicked quite as sweetly as the Matadors of 1932. Their offense is, say, three points per game weaker than last year. Their defense is two points weaker. The 26-hour ride on the rails to Tucson, the higher altitude and less humidity combine to decrease Tech's effectiveness by two points.

* * *

Bear in mind, children, that the score of the 1932 Texas Tech-University of Arizona game was 21 to 0, and everything the Matadors got they earned.

* * *

When the Wildcats score a touchdown against the Matadors, they're going to be so happy and excited that their kicker is going to get his feet crossed up when he attempts to convert that extra point, so add that all up and you have:

* * *

Texas Tech 7; University of Arizona 6.

* * *

That game tomorrow night in Tucson is due to be a wow. Reports from the university business office indicate that advance ticket sales are greater than in the history of the institution, and extra seating arrangements have been made to care for a record-breaking attendance. So the fans up that way must expect something for their dough, too. They're out to "get" the Matadors, and it would be only mildly surprising if they did. But they could think of less capable opponents than the Matadors. If Cawthon's boys get that passing attack working, the above score will look, and make us feel, pretty small.

* * *

We have before us a list containing names, numbers, weights, positions and previous experience of the Arizona squad. Boy, they are big. The starting team will average 190 pounds, as compared with Tech's 170, or thereabouts. The Wildcat backfield averages 180 pounds, the line, 196. Twenty-one members of the Cat team are former junior college stars. Seven others have earned two varsity letters, and 19 have played one season.

A PRACTICE GAME

Messrs. Chapman and Huffman, dissatisfied with the showing their Westerners made against the Sweetwater Mustangs last week (we thought it was pretty good), have been making numerous changes in the Lubbock High school lineup these few days. They've made ends out of substitutes, halfbacks out of ends, fullbacks out of quarterbacks, etc., etc., until you wouldn't know them. All this in preparation for a staunch stand against the Eagles of Abilene High school tomorrow afternoon.

* * *

Meanwhile, the Abilene scribe announces that Coach Dewey Mayhew announces that the scrubs will start against Lubbock, "because said reserves need a lot of tuning up before the conference schedule gets under way, even at the cost of a practice game, if necessary," and "the first string isn't feeling too well, anyhow, after the battering at San Angelo last week."

* * *

The which, might we suggest, is a lot of this and that. Even the Abilene scribe should know that Mayhew and Chapman, although the warmest of friends off the gridiron, take great delight in putting one over on the other. Mayhew had just about as soon lose to Lubbock tomorrow as to lose his upper plate, and Chapman had rather beat Mayhew than to cash a last year's salary voucher. You can tip off your pals that the Abilene mentor will have the best team at his command in the game tomorrow afternoon.

* * *

There will be no special train to Abilene Saturday, so if you plan to go on any train, you'll have to grab the 10:20 tonight, and leave Abilene some time after midnight Saturday. Superintendent Duncan wouldn't authorize a special troin, although there have been numberless requests and inquiries, because he does not like to be put on the spot by anxious mothers and dads whose sons and daughters like to ride specials and who think that too many special trains are bad. But Dr. Duncan will let 'er go Thanksgiving when the Westerners go to Amarillo.

SMU MEETS RICE AND BEARS FACE HOGS IN TITLE GAMES

BY BILL PARKER
Associated Press Sports Writer

Four Southwest conference aggregations expect to rise to their full football stature with hostile aerial raids and chalk-line ground assaults in the two championship combats on Saturday's program.

The realization they are in the turmoil of the most spirited campaign in several seasons will send Southern Methodist against Rice, and Baylor against Arkansas, at Houston and Little Rock, in melees which are expected to prove the championship caliber of all four units.

Steers Meet Sooners

There will be other games. The Oklahoma Sooners and Texas Longhorns will engage in a colorful intersectional clash at Dallas. Texas Christian will entertain Simmons at Fort Worth. Friday at San Antonio, Texas A. and M. meets Texas A. and I. But football, good and hard, as will be played by the four conference teams, holds the spotlight of interest.

With superior material on each team serving as a contributing factor of confidence, Texas football fans are in for thrills and chills Saturday when Coach Ray Morrison turns fleet Robert Wilson loose against Rice; when Coach Jack Meagher lets Fay Lagow tear into the Mustangs; when Coach Fred Thomsen fires Ralph Laforge at the Baylor Bears, and when Coach Morley Jennings gives the signal for Kroney and Williams to dig for pay dirt against the Arkansas Razorbacks.

Mustangs Favored

Southern Methodist rules a slight favorite over Rice. Coach Morrison has his daring Mustangs on edge for a terrific battle, air or ground. When his sophomore team smothered Texas Mines last week, 27 to 6, they resembled conference champions. However, their competition at Houston will be bigger, tougher and more experienced.

Coach Jack Meagher's Rice gridsters have perfected what they believe to be an air-tight defense for the Mustangs passing attack. They have Fay-Lagow, one of the hardest charging of all linemen, to aid in halting the Mustangs running.

By virtue of their impressive 13 to 0 victory last week over Texas Christian, the Arkansas Razorbacks are favorites to whip Baylor. Ralph Laforge galloped 90 and 35 yards to score touchdowns against the Christians, who have a powerful line. Joe Biddle has scored three touchdowns in as many games for Arkansas. Only one touchdown has been scored on the Razorbacks.

Hilliard Not To Play

The Oklahoma and Texas game lost some of its wallop last week when Tulsa beat Oklahoma and Nebraska whitewashed the Longhorns. Bohn Hilliard, Texas halfback and leading conference scorer with 33 points, will not play because of an injured ankle. The weak Texas line is not expected to hold the speedy Oklahoma backfield that features Bob Dunlap, a triple threat star.

Texas Christian has an easy mark in Simmons if the Christians play up to standard. The Texas A. and M. Aggies are overwhelming favorites to trounce Texas A. and I.

Southern Methodist planned to leave Friday night for Houston, Arkansas, 33 strong, left Fayetteville Friday morning for Little Rock.

GAMES SET IN STATE LOOPS

SAINTS MEET PIRATES AND DANIEL BAKER PLAYS AUSTIN

(By The Associated Press)

Two games in the Texas conference and a pair of championship affairs in the Lone Star circuit will feature Texas college football Friday night.

In the Texas conference, St. Edwards meets Southwestern at Georgetown, and Daniel Baker plays Austin college at Sherman.

In the Lone Star, Trinity university battles Sam Houston at Huntsville, and the Stephen F. Austin Teachers play the Southwest Teachers at San Marcos.

Saints In Lead

St. Edwards is leading the Texas conference race by virtue of a 13 to 0 victory last week over the Simmons Cowboys.

The East Texas Teachers of Commerce are pacing the Lone Star race, having whipped Stephen F. Austin last week, 12 to 6.

Other college games follow:

(Friday)

At Denton: Abilene Christian vs. North Texas Teachers.

At Canyon: McMurry college vs. West Texas Teachers.

(Saturday).

At El Paso: Howard Payne vs. Texas School of Mines.

All are non-conference games.

COWHANDS WIN OVER SLATON GRIDSTERS

LOCAL TEAM TALLIES WINNING TOUCHDOWN IN LAST 2 MINUTES

Coach Swede McMurry's Lubbock High school Cowhands made their first local appearance in three seasons last night under the arcs at Tech field, and repulsed the charging attack of Slaton High school's Tigers to provide 1,500 customers with exciting football.

Morris White, nimble-footed Cowhand halfback, who would be a regular player on the Westerner team were it not for the one-year transfer residence rule, sprinted around right end to place the ball on the 1-yard line, then plunged over for the third and winning counter with two minutes left to play as the Cowhands won, 19 to 14.

Cowhands Take Lead

White already had accounted for one touchdown, and the Cowhands had taken a lead shortly after the opening kick-off when Venable, an end, took a long pass and went over the pay-off stripe. The second touchdown came a few minutes later in the same quarter.

Slaton came back with a rush in the second period and, on a series of ground plays featuring big, hard-charging Anderson and the slippery Nahle, worked the ball 40 yards down the field to the goal line. A few plays later, Florence, end, caught a pass from Nahle, who threw from the 30-yard line, and raced to Lubbock's 4-yard line, from where Nahle crashed over for the Tigers' second and last touchdown.

Passes Gain Yardage

Receiving Slaton's kickoff, White returned the ball 29 yards. Hill passed to Jones for 25 yards, and then to Venable for 12 yards. Schooler lost 4 yards and Venable caught another toss for 10 yards as the half ended. Score, Slaton 14, Lubbock, 12.

Slaton's big guns again got going in the third chukker but were stopped at mid-field. Todd's kick was short, going out on Lubbock's 40. White, Atchesen, and Upton advanced the ball 20 yards on line-bucks, but Hill's pass was intercepted by Anderson.

Anderson and Nichols carried the ball 20 paces on short crashes and then Todd kicked to the 25. White returned to the 33, but the Cowhands were repulsed here, and Hill kicked to Slaton's 40.

Nahle made five yards, Slaton drew a penalty, and Nahle fumbled the ball. Lubbock recovered, and on a series of plunges, White, Upton, and Atcheson took the mail to Slaton's 35. Here Hill was forced to kick and Anderson returned for 10 yards.

Tigers On March

Anderson and Nichols hitting the center of the line, then made four first downs in machine-like style. But Nahle lost three yards as the last quarter began, and Todd kicked to Lubbock's 25.

White returned for ten yards, and on the next play was thrown for a three yard loss. Hill picked up ten yards, but the Cowhands had to punt. Hill kicked to Slaton's 38 where the Tigers drew a five yard penalty.

Anderson made two small gains, Todd kicked, a Slaton end caught his punt from the air, for which Slaton took a 15 yard penalty. Lubbock then received a five-yard penalty for offside, and by the next play the Slaton forward wall threw Atcheson for a 3-yard loss.

White picked up 17 yards, Atcheson lost two, Schooler and Gear made short gains, White was thrown for a two-yard loss, and then went for nine yards on an end sweep. White took the ball for 11 more yards and was brought down one yard short of pay dirt. Lubbock fumbled but recovered, and White plunged over for the deciding tally.

Nichols, Anderson and Nahle were Slaton's principle ground-gainers, Todd, Thompson and Florence were impressive on the Tiger forward wall.

For Lubbock, Wright, McCraw and Venable were standouts on the line, and in addition to White, Gear, formerly of Slaton, Hill and Upton performed well in the Cowhand secondary.

The starting lineups: Slaton — Todd, l.e.; Perdue, l.t.; Henry, l.g.; Thompson, c.; Waldrop, r.g.; Haliburton, r.t.; Florence, r.e.; Nahle, q.b.; Armes, r.h.; Nichols, l.h.; Simmons, f.b.

Lubbock—Venable, l.e.; Jackson, l.t.; Jones, l.g.; McGraw, c.; Wright, r.g.; Coursey, r.t.; G. Jones, r.e.; Hill, q.b.; Gear, r.h.; White, l.h.; Upton, f.b.

Substitutions: Slaton — Anderson for Henry; Gentry for Florence; Florence for Gentry; Henry for Nahle.

Lubbock — Atcheson for White; Abbott for Coursey; Smith for Jones; Coursey for Jackson; Schooler for Upton; Gear for Atcheson.

Score by periods:

SLATON	0	14	0	0	—14
LUBBOCK	12	0	0	7	—19

The summaries: Slaton kicked off three times for an average of 45 yards; Lubbock five times for 52 yards; Slaton returned four kickoffs for total of 70 yards; Lubbock returned twice for 38. First downs —Slaton 14; Lubbock 16. Yards gained from running plays—Slaton 204; Lubbock 208. Yards lost on running plays—Slaton 13; Lubbock 10. Slaton attempted seven forward passes, completed two for a total of 33 yards; one was intercepted. Lubbock attempted eight pases, completed three for 77 yards; three were intercepted. Slaton punted eight times for average of 29 yards; Lubbock punted five times for average of 27 yards. Slaton returned one punt for 6 yards; Lubbock returned five for 126 yards. Slaton was penalized three times for total of 25 yards; Lubbock four times for 20 yards.

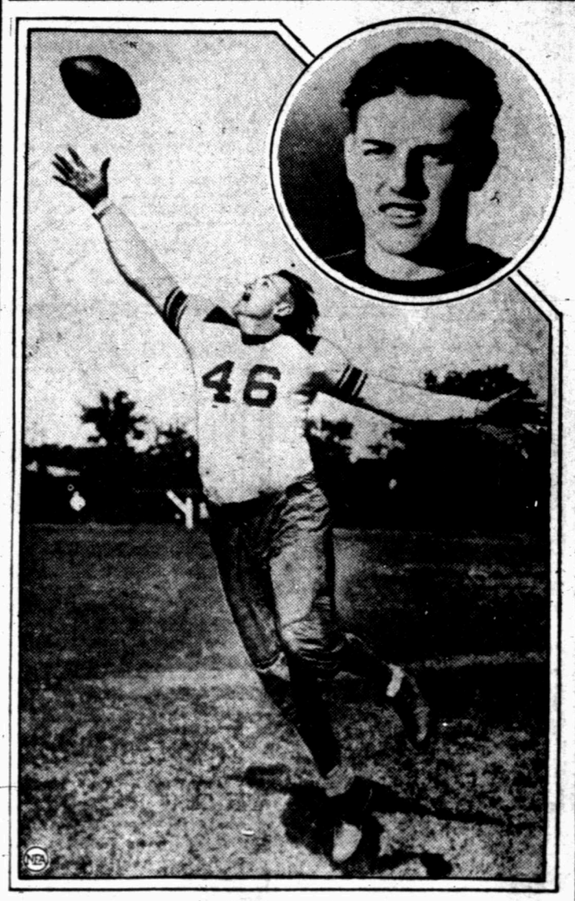

Scoring: Touchdowns — Nichols, Nahle, Venable and White (2); points after—Nahle (2) Schooler.

Officials—Referee, Morgan (Austin college); umpire, Cannon (Sul Ross); head linesman, Jones (Austin college).

SHADES OF "HANK" AND "BILL"

William Shakespeare and Henry Longfellow have taken up football. Shakespeare, upper right, is a sophomore halfback at Notre Dame from Fort Richmond, N. Y., who traces his ancestry back to the Bard of Avon. Longfellow, reaching for a pass, is a Northwestern end from Superior, Wis.

Westerners Off For Eagle Game

FOURTEEN DIE IN FOOTBALL

AUTHORITIES SEEK TO ELIMINATE DEATH FROM GRIDIRON

NEW YORK, Oct. 13 (AP)—Alarmed by the mounting number of deaths from football injuries, mostly in high school ranks authorities of the game redoubled their efforts today to bring about closer supervision better medical attention and a closer study of the rules.

Coincident with an Associated Press survey which revealed 14 deaths attributed directly or indirectly to football already this season as compared with 12 at the same time a year ago, Major John L. Griffiths, athletic commissioner of the Western conference and president of the National Collegiate A. A., and Dan E. McGugin, of Vanderbilt, president of the American Football Coaches' association, indicated these organizations were continuing efforts to solve the problem.

Fixes Responsibilities

Griffiths said an investigation by the N. C. A. A. had shown that lack of supervision, ignorance of the rules and poor medical attention were responsible for a majority of the deaths and that an educational campaign to "eliminate these faults" was being conducted.

McGugin, agreeing with these views, said "nothing should be left undone in studying the cause of injuries and their elimination by coaches, rule makers and others."

Of the 14 deaths so far reported only one occurred in college ranks and only three involved sandlot players. The other ten victims all were high school students, an increase of four over the comparative figures for last year.

Of all the deaths, however, only two occurred in actual competition. Two resulted from blood poisoning.

Geographically the fatalities have been distributed as follows: east six; south, four; far west, three and mid west, one.

ABILENE AND LUBBOCK HIGH SCHOOLS WILL CLASH TOMORROW

The Lubbock Westerners and Coaches Chapman and Huffman left home today at noon by bus for Abilene, where they clash with Dewey Mayhew's Abilene High school Eagles tomorrow afternoon. Twenty-five players made the trip.

Reports from Abilene indicate that a reserve team may go on the field against Lubbock, and a similar uncertainty exists in the Westerner camp as to assignments and personnel of the starting lineup.

Throughout the week Calhoun, hitherto an end, has been running at one of the halfback slots. Not very fast, Calhoun can pivot and shunt himself rather neatly through a broken field. He is also a good punter and interference runner.

Meador May Play

Jeton "Dago" Meador, a mite halfback, has been shifted to an end slot, and may see some service here in the tilt Saturday, taking the place of Starkey Whitehorn, who was impressive in the Sweetwater game, came out with water on the knee.

The tackles will undoubtedly be held down by Doherty and Wimberly, the two "rough boys" of the squad. Wimberly, not by choice an ill-natured lad, nevertheless went berserk, according to reports, in the Sweetwater game and put a couple Mustangs on the hospital roster.

Yesterday's workout at Fair Park included a dummy scrimmage against Abilene's short punt formation and considerable drill on play assignments. Some time was also given to the study of the box formation which Abilene uses when returning kickoffs.

Eagles Improved

The Eagles are a different and rejuvenated team from the one which was varnished so thoroughly by Sweetwater early in the season. Coach Mayhew has moved several of the boys on the reserve up to the first string and now features a light, fast-moving team. Frank Cogdell, stocky speedster, and Gervis Galbraith, rangy half, are the aces of the Eagle secondary.

Coach Chapman announced that the following squadmen would make the trip to Abilene.

Backs: Ryan, Hale, Newton, Bundy, Haley, Alderson, Simmons, Hiatt, and Granbury; ends: Whitehorn, Meador, Griggs, and Eaton; tackles: Wimberley, Doherty, Speer, White, and Prather; guards: Aycock, Phillips, Barnes, Hodges; centers: Young and Jenkins.

MATADORS AND WILDCATS TO DO BATTLE

TECH GRIDSTERS DUE TO REACH TUCSON THIS AFTERNOON

Twenty-seven members of the Texas Tech football team, Coaches Pete Cawthon and Dutchy Smith and Student Manager Cy LaMaster are due to arrive in Tucson, Arizona, about 5:30 o'clock this afternoon. The Matadors tangle with the University of Arizona Wildcats tomorrow night in a Border Athletic conference schedule.

The team is traveling in a private car via Santa Fe railroad. The 26-hour journey got under way yesterday afternoon

Prepared, as much as three days of work and limited knowledge of Arizona's offense has allowed, to battle a team that stands out as one of the very toughest opponents on the 1933 card, the Matadors were in excellent spirits as they hopped aboard the special car. But their coaches, Pete Cawthon and Dutchy Smith, retained their serious attitude, hoping against hope that their boys would make a good showing but almost assured of defeat.

Homecoming Game

Arizona's Wildcats came to Lubbock a year ago and took a 21 to 0 licking, but not before putting up one of the best defensive games seen here during the entire season. A line that the Matadors could not penetrate displayed probably the outstanding forward wall play seen on the local grid during the 1932 season. That line, and most of the backfield, is retained this season, and it's homecoming day at the university.

The game Saturday night is due to start at 7:30 o'clock mountain time.

Although most of the Tech squadsmen have recovered from injuries sustained during the last two weeks, and Coach Cawthon took most of his best, two or three were left behind because of injuries. Ted Wilson, hard-charging fullback, and Woodrow Wilson, alternate tackle, could not have played and were left behind.

TWO INDOOR BALL GAMES SCHEDULED

Four teams are billed to battle in a double-header tonight as the indoor baseball schedule was resumed at the Auditorium. The program gets under way at 7:30 o'clock.

In the first game, Mitchell's Cafe meets the Hule-Ribble team in what is expected to be a tough affair.

J. C. Penney company tangles with the J. & J. Sporting goods company team in the nightcap.

Officers and managers of the Indoor league, meeting last night, decided to adopt a larger ball for future games. Employment of the standard size 16-inch ball is expected to cut down scoring and make for closer, tighter ball games.

Uniforms For Tech Band Will Be Made

Instructions to weave 500 yards of wool and cotton cloth from which uniforms for the Matador band would be made were received by the college textile department Thursday.

The cloth, similar to that of suits presented to President Roosevelt and Vice President John N. Garner, will be dyed black, according to Chick McElya, band president and business manager.

Band masters, meeting yesterday morning, elected McElya president to succeed Henry (Hank) Godeke who resigned because he was playing regularly in an orchestra. President Bradford Knapp of Texas Tech was guest at a weiner roast in the band-house Wednesday night. About 60 members and Director Harry LeMaire attended.

Grid Teams Get Test This Week

TOP-RANKING ELEVENS FACE TOUGH FOES THIS WEEK-END

NEW YORK, Oct. 13 (AP)—Tomorrow will bring decisive tests for a half dozen teams annually conceded a place near the top of the football rankings.

Southern California, Pitt, Michigan, Notre Dame, Tennessee, Purdue and Northwestern are confronted with the kind of opposition that should determine just how far they are going to travel along the road that leads to championships.

Irish After Prestige

Both Notre Dame and Northwestern are asked to rally from opening game disappointments. The Ramblers, outplayed and held to a scoreless tie by Kansas, will seek to regain lost prestige against Indiana's Hoosiers who took advantage of one break to earn a tie with Minnesota's highly regarded Big Ten title contenders.

Northwestern has even more ground to regain for the Wildcats were beaten by Iowa in their opening game two weeks ago. A decisive triumph over the invading forces of Stanford will go far toward wiping out the memory of that unexpected reverse.

Michigan, undisputed champion of the Big Ten a year ago, will rule a favorite over Cornell but will find the Ithacans, ably coached by "Gloomy Gil" Dobie, a handful. Pitt, likewise, will be the public choice over Navy in the east's one big-time struggle of the day.

Trojans Favored

Tennessee, in the advance notices at least, has been regarded as the most formidable power within the Southeastern conference but the Vols will be no heavy favorites over Wallace Wade's Duke outfit. Purdue, on the face of its hard-earned victory over Ohio university, seems to rate no better than an even choice against Minnesota, but Southern California will be expected to continue its winning ways even though the opposition will be furnished by the St. Mary's Gaels, defeated 14-13 by California a week ago.

If football dynamite seems more likely to be concealed in these seven games, there are at least a score more important contests involving sectional or intersectional prestige.

The Research Division of the Aeronautics Branch of the Department of Commerce has developed an improved type of airplane radio direction finder which tests have proved to be very satisfactory.

QUICK TRIALS ARE PLANNED

COLEMAN, CASEY ARE EXPECTED TO FACE CHARGES MONDAY

DALLAS, Oct. 13 (AP)—The government will move swiftly next week to wind up prosecutions resulting from the Charles F. Urschel kidnaping when it will bring Cass Coleman and Will Casey to trial in San Angelo on charges of harboring George (Machine Gun) Kelly and his wife, Kathryn, sentenced Thursday at Oklahoma City for the Urschel kidnaping.

Joe Hardy Jones and Clyde Hood, assistant United States attorneys, will leave here today for San Angelo, where U. S. Attorney Clyde O. Eastus will join them for the term of court which Federal Judge William H. Atwell will open there Monday.

It was on Coleman's farm near the town of Coleman that $73,000 of the Urschel ransom money was dug up in a cotton patch by federal agents.

Jones said Coleman and Casey probably will be brought to trial the first thing Monday.

Coleman is a brother of Mrs. R. G. Shannon, mother of Kathryn Kelly, who, with her husband, R. G. (Boss) Shannon, also was convicted in the Urschel case and recevied a life sentence.

Parking In Center Of Streets Refused

By a 3-2 vote, City commission Thursday afternoon refused to permit temporary parking in the center of Broadway and Avenue Q. The streets will be marked on each side for parking of automobiles at an angle of 45 degrees.

Commissioner Geo. E. Benson offered a motion providing for temporary parking in the center of the streets. Commissioner J. C. Royalty seconded the motion. Commissioners John E. Roach and J. F. Bacon voted "no" and Mayor J. J. Clements broke the tie, voting "no."

Elimination of parking in the center of the streets, which it was said never had been approved by ordinance, was sought for safety purposes, a City official explained.

The commission authorized City Attorney E. L. Klett to attend a meeting of Texas League of Municipalities in San Antonio, Oct. 16-18.

CRIMINAL CASES SENT TO LUBBOCK

Six criminal cases have been filed in the Lubbock division of northern Texas United States district court by Mrs. Olive Fluke, deputy court clerk here, as transfers from the Amarillo division. All the cases are of indictments by the Amarillo division's September term grand jury.

One was a case of money-order blank theft, three of prohibition law violation, and two of non-licensed radio station operation.

The transferred cases were those of C. E. (Edwin) Woody, billed for theft of four blank postoffice money orders from the Girard, Kent county, postoffice while he was assistant postmaster there; Milton C. Van Cleave and G. L. Bennett, indicted separately for possession and manufacture of whisky, and possession of whisky-manufacturing equipment in Lubbock county; Sam Williams, possession and transportation of whisky in Lubbock county; F. H. Meier and E. J. Turner, indicted separately, for operation of an inter-state radio broadcasting station in Hale county, four counts each.

An Orchid For U. S.

It may be quite true that our diplomatic representatives in Cuba have not been very successful lately in estimating the strength of the various revolutionary factions there. But it does seem that our State Department as a unit deserves a few bouquets for the patience with which it has handled a very difficult situation.

We have come to realize that American intervention in Cuba is a thing to be avoided as long as is humanly possible. It is to be avoided, if for no other reason, because it would hamper American interests in Latin America as a whole. And the State Department has done a pretty good job of holding off.

Under all ordinary precedents, we long since had ample excuse for intervention. So far, however, our marines have remained aboard ship and our naval guns have been used for nothing more serious than target practice. The responsible officials in Washington deserve a good deal of praise for their intelligent forbearance.

ONE of the best changes recent years have wrought in West Texas has been the switch from ballyhoo to truth.

Maybe the depression has wised us up that it's no use to kid ourselves, or maybe we've just grown tired of burying our heads in the sand, like Mr. Ripley says an ostrich doesn't do, whenever trouble bobs up.

But at any rate, we're not like we used to be.

We're adapting common sense to conditions.

* * *

Five years ago, an ordinary citizen who publicly admitted that things weren't as good as they might be was put down as a knocker.

And a chamber of commerce secretary would have been lynched on the public square if he acted, even in an unguarded moment, like all was not rosy.

Today we not only look at things as they are, admit the facts and lay our plans to improve them—but we publish the facts together with what we are going to do to make conditions better.

* * *

IN the current issue of West Texas Today, monthly magazine of the West Texas Chamber of Commerce, there appears a printed example of our change. It is in the form of an article by John L. McCarty, editor of the Dalhart Daily Texan, and is a frank admission of the terrible drouth conditions in the North Panhandle.

Says Editor McCarty, truthfully and without a tear:

"The story of devastation, wrought by the slow ravages of two drouth years and a bumper crop in 1931 with the lowest possible commodity prices prevailing, has been written across the pages of Panhandle history. You see it in empty corrals, empty barns, vacant houses, ragged clothes and pinched and careworn faces. You will see it again next year in very small calf crops, in dying horses and cattle and in men and women broken in health and finances. It is not a pretty picture to look upon."

* * *

There is a brief work picture of conditions in the North-Panhandle and most everyone will agree that it is a plain picture, a brave picture—because it takes courage to face the facts and tell the truth to the world.

But, as Mr. McCarty goes on to point out, "We May Be Down—But Not Out!"

After looking conditions squarely in the face and taking the walloping it has taken, the section around Dalhart is ready to get into position so that it may take itz place in the battle on toward normalcy.

That is sensible, brave—and necessary.

There's the New Deal, in West Texas operations, for you!

"USE your influence carefully," says a modern commentator. "The opinions a chief justice heard at the age of 14 may determine whether or not the law is constitutional."

And there is more to that than just a wise crack.

None of us has any idea how much our earlier impressions influence our later years.

In the case of some individuals, it is a lot.

In the case of others, perhaps, it's not so much.

But there are few men and women who can look back over their lives and not find somewhere an experience or an opinion formed from incidents which, at the time they came about, were trivial.

Human nature is 'funny that way.'

AS the Texas Tech Matadors travel toward Tucson and their gridiron clash with University of Arizona, let's take time out to pass a palm to Elva 'Tubba' Baker, hefty tackle and 1933 captain of the team.

When Chief Mentor Peter Willis Cawthon started the season with the boys he was committed to the dubious plan of appointing a different captain for each game. He appointed Baker as captain for the SMU tilt and changed his mind.

Smart, sensible, even-tempered and altogether commendable Baker did a good job of leading the Technicians against the Methodists, which was not unexpected, since he is the kind of a young man who does things well.

As an upshoot, Skipper Peter named the former Abilene High lad as the season's captain which makes it unanimous among those who like to see a high type youngster succeed.

National Attention Is Focusing On Supreme Court As It Is Almost Certain To Make Vital Decisions On New Deal

EDITOR'S NOTE: This column, is being conducted by Willis Thornton during Rodney Dutcher's vacation.

* * *

BY WILLIS THORNTON
The Evening Journal's Washington Correspondent

WASHINGTON, Oct. 13—As the Supreme Court convenes again, to sit until May or June, attention is focusing on the "nine old men" who are almost certain to have to make vital decisions on the New Deal social legislation.

Dean now of the court, the liberal Justice Brandeis is within a month of his 77th birthday on Nov. 13. By the way, Princeton University Press will celebrate the day by publishing a new book which will show how many of Justice Brandeis' dissenting opinions have won acceptance in Congress and in the Supreme Court itself.

Ages of the other justices are: Hughes, 71; Van Devanter, 74; McReynolds, 71; Sutherland, 71; Butler, 67; Stone, 61; Roberts, 58, and Cardozo, 63.

That's a total of 613 years of accumulated wisdom (or prejudice, according to your point of view) and sets definitely the average age of the 'nine old men' at 68.

* * *

Court is Not Almighty

Consideration already is being given here to what would happen if the Supreme Court went the limit and threw out all the New Deal legislation, lock, stock, and barrel, as unconstitutional.

There would be undoubted inconvenience and confusion, but Congress would not be as helpless as many resignedly believe. Faced by such a situation before, the elasticity of our "rigid constitution" met the test.

It was done by Congress changing the number of members of the court. There have been at various times, ten, six, seven and nine members. The last change was made in Grant's administration in 1869, when two members were added, and Grant saw to it that the proper two were added to get the result he wanted.

So don't be too concerned about the possibility of the Supreme Court upsetting the New Deal applecart.

Even venerable Justice Holmes once declared, "I do not think the United States would come to an end if we lost our power to declare an act of Congress void."

The court meets in the Capitol again this year, as the magnificent building which is to house it will not be completed for at least another year.

* * *

Rail Revolution Seen

The heavy construction end of the NRA drive is apt to get aid soon from an unexpected source. The fatal wreck recently down east has led to a cry for abolition of all wooden cars on railroads.

A high railroad official also has stated that if the new streamlined trains being built for western railroads are a success, it will mean virtual rebuilding of the entire railroad plant of the country, trains, roadbeds, stations and all.

* * *

Prestige Loss Faced

"Historic Pennsylvania Avenue," for decades the route of the nation's greatest pageants and parades, may be eclipsed soon by Constitution Avenue, and there is a movement to route future inaugural parades and other spectacles on this thoroughfare. It is being widened and soon may present a more stirring approach to the Capitol than the historic route.

Constitution Avenue runs on a straight line from Union Station Plaza to the ellipse behind the White House eliminating the awkward angle around the Treasury building, which always has marred Pennsylvania Avenue.

* * *

Farley Heavy on Photos

Postmaster General Farley seems to be out for some sort of record for having pictures of President Roosevelt in his office—there are four of them in his outer, five in his inner office. . . Site of the old British embassy, which ruled Washington socially for decades, now is a parking lot . . . Frescoes on the inside of the Capitol are being touched up again . . . Visiting business men, made tired by code exertions, have revived Washington's moribund night life; several new night clubs have opened to minister to the amusement needs of big code and reservation men.

INTERESTING BITS OF NEWS GROUND FROM THE GRIST OF THE DAY'S HAPPENINGS

(By The Associated Press)

Used Wrong Bait

ERIE, Pa.—The fish weren't biting for Earl Demuling, but with a rifle on the end of his line he might have bagged a deer. While angling from a dock along Erie bay, Demuling said a deer leaped over his head and landed in the water right on his line. He failed to hook the animal however.

Costly Shave

NEW YORK—Thomas Colligan went into a barber shop for a shave. When the barber had finished he presented Colligan with a bill for $2.20. Colligan protested that a sign had said shaves cost 20 cents, whereupon the barber explained he had given him a "violet ray treatment and a lemon facial."

Colligan tendered a $1 bill and asked for his change which was not forthcoming. Soon afterward a policeman appeared on the scene, and took the barber, Andree Dellis, away.

What An Appetite

NEW YORK—An operation on a woman patient at the Central Islip State hospital gave evidence she had been going in for a strange diet. Dr. E. R. Hildreth reported he took the following from the woman's stomach: Forty-eight teaspoons, two bolts, a needle, a pencil, a large screw and a sizeable piece of glass.

The teaspoons came from the hospital dining room, while the other articles apparently were picked up around the grounds. The physician said the woman had suffered no ill effects from her strange diet.

The London Midland and Scottish Railway used 2260 special vans to carry 2,000,000 birds during the pigeon-racing season this year.

Moscow Population Reduced By 100,000

MOSCOW, Oct. 13 — The population of Moscow has been reduced more than 100,000 by the passport decree which expelled from the capital to smaller cities and the provinces all those not engaged in "socially useful" work.

On June 1, after distribution of passports was completed here, the population had fallen to 3,546,000 from 3,663,000 as of January 1, 1933.

Only 2,485,184 persons received passports, but children were not required to have them.

Final figures have not been received on the passport system's effect on the ten other cities to which it was applied, but they are expected to reveal approximately the same ratio as Moscow.

With 'Whiz' BARRY Under The Capitol Dome

BY R. W. BARRY
Associated Press Staff Writer

AUSTIN, Oct. 13 (AP)—Many will perhaps remember the fuss about centralizing the Texas penitentiary system a legislature or two ago, when a committee representing both houses took a long, almost nationwide, expensive jaunt to inspect modern prisons with an idea of making recommendations to the Texas legislature.

The legislators were closely divided on centralizing the prison property and disposing of some of its widely scattered farms. Many wanted to industrialize the prison, build a central plant near Austin—probably in the pretty cedar hills northwest of the capitol—and equip it with all kinds of machinery for making commodities.

Moody Favored Plan

The then governor, Dan Moody, made a special speaking tour through the state in the interest of centralization, immediately on eve of the convening of a special session in an effort to have "the people back home" persuade the legislators they should vote for the proposition he advocated.

The legislature was sharply divided over the plan, but the governor and other advocates of the idea never were able to put it over. The main walls of the prison still are in Huntsville and the farms still are scattered over South Texas.

Gets Along Fine

But, under the management of Lee Simmons and the direction of the prison board, that penal institution is getting along splendidly. The board has just announced that it had not used all the money appropriated to it for the biennium ending August 31 last and was able to turn a million or so back to the state treasury.

Simmons and the board have put the prison on an almost self-sustaining basis. The prisoners plant, cultivate and harvest much of the food they require. They make shoes and do other self-supporting things.

LOWER VALLEY GETS RELIEF

RIO GRANDE SECTION LOOKS FORWARD TO FLOOD CONTROL

BROWNSVILLE, Oct. 13. (AP)—Harassed periodically by unruly flood waters, the lower Rio Grande valley looked forward today to improvements the federal government will make to control the turbulent river which forms the international boundary between the United States and Mexico.

Four and one-half million dollars will be spent to strengthen channels and floodways and to construct new overflow media but only the first phase of the project, entailing expenditure of $1,500,000 recently advanced to the state department by the public works administration for emergency work, will be undertaken at once.

Channel Constructed

Eight years ago, the state and border counties began a flood prevention campaign which culminated in construction of a long channel which branches away from the Rio Grande southwest of Mission, Tex., and flows east to Mercedes. There it turns north toward Raymondville, turns east again and empties into the Gulf of Mexico. Much of the overflow water, however, continues east from Mercedes in the arroyo Colorado to the gulf.

The immediate task of the government will involve the clearing and grubbing of main floodways, construction of a control gate across the north floodway at Mercedes and repairing and strengthening all levees. When the Rio Grande rose after the hurricane early in September, weak spots in the levees caused apprehension. The north floodway from Mercedes will be cut off and will be used only in case of extreme high water.

The huge program includes these five points:

1. Construction of a large concrete inlet and control gate at the Anzalo de Agua inlet to the main floodway, southwest of Mission.
2. Construction of a new inlet to the main floodway south of Donna, extending along the line of the Donna main canal.
3. Construction of a control gate across the mouth of the north floodway at the junction near Mercedes. The north floodway, which is not a natural outlet, eventually will be abandoned.
4. Straightening of the arroyo Colorado to increase the speed of the flow and thereby increase the volume of water it will carry.
5. Repair and strengthen levees on the river and in floodways and clearing and grubbing the channels.

To Divide Waters

In this manner, future flood waters will be divided between the Rio Grande proper, leading past Brownsville, and the floodway which protects nearby towns. In the event of a flood of 170,000 second feet, 80,000 would go into the floodway, 40,000 would spill over into Mexico between Hidalgo and Mercedes, 20,000 would go through the rancha Viejo de Tesaca and 30,000 would flow through the main channel.

FLOATS ARRANGED FOR PARADE HERE

Camp Fire Girls and Girl Scouts will have floats accenting easily prevented causes and the toll of fire in a fire prevention week parade here Saturday afternoon.

The Camp Fire Girl float will be arranged like a hospital emergency room with treatment of fire-victims under way. The Girl Scout float will show common fire hazards and carelessness regarding fire.

Boy Scouts who are in uniform will ride on fire department apparatus.

The parade line will form on Texas avenue north of Tenth street, D. T. Jennings, marshal, said.

Jennings Marshal

D. T. Jennings is marshal. The march will begin at 3:30 p. m., going southward on Texas avenue to Main street, west on Main street to Avenue M, south on Avenue M to Broadway, east on Broadway to Avenue G, north on Avenue G to Main street, west on Main street to Texas avenue, and north on Texas avenue to City hall.

As a fire department demonstration Saturday will begin at 8 p. m., instead of 8:30 o'clock as previously announced, Boy Scout troops are asked by Executive Jennings to assemble at City hall at 7:30 p. m., instead of 8. Scouts will police the crowds.

Sally Rand Dresses In Gay Ninety Mode

NEW YORK, Oct. 13 (AP)—Sally Rand, attired somewhat like a bathing beauty of the gay nineties, gave her final Broadway performances last night before moving on to Philadelphia.

She did her much-publicized fan dance before an audience that seemed apathetic to the decorum of the show.

Sally was ordered by License Commissioner Sidney S. Levine to don "opague raiment"—or else. Until the order Miss Rand used only what she termed an "artistic" covering of paint, powder and cream and, of course, the fans.

THREE MENTIONED

GENEVA, Oct. 13 (AP)—The names of three Americans, Alfred E. Smith, Theodore Roosevelt and Nicholas Roosevelt, were mentioned as possibilities today as the League of Nations sent out feelers as to who was best available for undertaking the job as high commissioner in handling the problem of the Jewish refugees from Germany.

DAILY MARKETS

Cotton Market

NEW YORK REPORT

NEW YORK, Oct. 13 (AP)—Cotton opened barely steady, 2 higher to 2 lower with steadier cables offset by southern selling. Oct. 9.30; Dec. 9.40; Jan. 9.48; March 9.65; May 9.79; July 9.93.

Orders were fairly well divided at the start with trade buying about sufficient to absorb southern selling, but hedging increased and prices worked off several points. At the end of the first half hour, December was selling around 9.31 and May 9.70, making net losses of 9 to 10 points on the more active months.

Trading continued quiet and prices sagged slightly under comparatively small offerings. At midday December was selling around 9.31 and May 9.70, or about 9 to 10 points net lower. General business appeared to be awaiting further developments in the spot situation.

NEW ORLEANS REPORT

NEW ORLEANS, Oct. 13. (AP)—Cotton opened steady today with Liverpool about as due. First trades here showed no change to one point decline. Prices rallied slightly right after the start, December to 9.38, or one point above yesterday's close, while March was quoted at 9.62, net unchanged. There was a little price-fixing.

Later the market eased on some hedging, December dropping to 9.34 and March to 9.57, off 4 to 5 points from the initial highs and 3 to 5 points below yesterday's close.

The market appeared to be supported by reports of a strong holding movement in the interior.

The market gradually eased during the morning owing to weakness in stocks and grains and due to lack of buying support. Active months lost 14 to 17 points from the early highs, December dropping to 9.21 and March to 9.48, off 14 to 16 points net.

Near noon the market was barely steady and at the lows.

Grain Market

CHICAGO REPORT

CHICAGO, Oct. 13 (AP)—Wheat tumbled three cents a bushel in Chicago today as soon as trading began. Pronounced weakness of the Liverpool market precipitated selling here. Cables said Liverpool was dominated by pressure to sell near by wheat. Opening 7-8-3 cents down, Chicago wheat afterward held near the initial range. Corn started at 3-8-1 cent decline and subsequently sagged further.

Stock Market

WALL STREET REPORT

NEW YORK, Oct. 13 (AP)—Stocks and staples tapered nervously today under the "sound money" implications of the administration's Liberty loan conversion proposal involving the issuance of new lower-yield long-term bonds totaling some $2,000,000,000.

While there was no great selling rush in those equities and commodities whose substantial spring-summer rise was based partly on the belief there would be a drastic inflation of the currency, prices generally sagged in spiritless trading. Some of the highest grade issues, which might benefit by an anti-inflationary program, showed resistance. Wheat dropped about 3 cents a bushel and other cereals were soft. Cotton was a little heavy. Gilt edge bonds were steady to firm. The dollar soared in foreign exchange dealings.

In shares, fractional advances were recorded by American Telephone, Consolidated Gas, Public service of New Jersey and some other utilities. Losers of 1 to 2 or more included Allied Chemical, Chrysler, Du Pont, New York Central, Baltimore & Ohio, Delaware & Hudson, Liggett & Myers, Union Carbide, U. S. Smelting, American Smelting, Cerro De Pasco, Santa Fe and U. S. Industrial Alcohol.

SPECIAL SESSION

(Continued from Page One)

by Governor Miriam A. Ferguson on September 14.

Whether the chief executive would approve the main legislation enacted was another question. There were reports that the bond relief bill would have to be to her exact liking or she would veto it and reconvene immediately a second special session.

The compromise bill would provide for the issuance of $5,500,000 in relief bonds. The senate proposed originally a $6,000,000 issue and the house $5,000,000. The electorate in a special election last August authorized the issuance up to $20,000,000 in bonds.

Proposals Held Lost

The house refused to take up bills proposing issuance of $5,000,000 in state bonds to lend to unemployed persons who desired to purchase sustenance farms, and to appropriate money for the holding of a Texas centennial in 1936. Those two proposals were virtually given up as lost.

The senate voted 14 to 12, to engross a house bill to extend the mortgage foreclosure moratorium until January 1, 1935. It passed a house bill to appropriate $1,500 for the installation of refrigeration facilities in the governor's mansion.

Other house bills approved by the senate included the following:

To re-enact a law providing for adoption of county home rule charters under the constitutional amendment recently authorized.

To strengthen the cigaret tax law so as to increase the state's revenues.

To increase the salaries of county commissioners in a large number of counties.

Riots Staged At NRA Headquarters

NEW YORK, Oct. 13 (AP)—Mounted police rode their horses through crowds of rioters today at NRA headquarters at the Hotel Pennsylvania in midtown New York. Police said radicals numbering 3500 were responsible for the disorders.

More than fifty arrests were made. Groups of demonstrators, bearing placards and banners, were pushed back to sidewalks and police attempted to chase them out of the neighborhood.

ARLINGTON DOWNS MEET IS PLANNED

FORT WORTH, Oct. 13 (AP)—The Arlington Downs racing plant of W. T. Waggoner and sons was in readiness today for the arrival of Joseph A. Murphy to take charge of the program due to open October 19. Several hundred horses already were here and other arrivals were expected daily, 143 having arrived yesterday on special trains.

Special trains are scheduled to leave Fairmont Park, St. Louis, and Washington Park, Chicago, after the close of racing meets there tomorrow.

No Arrest Made In Auto Accident Here

A Lubbock woman against whom a complaint of driving an automobile while intoxicated was filed, after a milk delivery truck and a large coupe collided Thursday afternoon, was not the driver of the coupe, although she was in it when the crash occurred, the sheriff's department said this morning.

Consequently no arrest had been made. Arrangements to adjust damages of the truck had been made between the persons involved, a deputy sheriff added. The collision occurred at Thirteenth street and College avenue.

At the request of Policemen John Croft and Eugene Smith, Burton S. Burks, assistant district attorney, prepared a complaint, which was filed with Justice of the Peace W. S. Clark. Bedford Carpenter, deputy sheriff, signed the complaint.

Both vehicles were being driven south on College avenue. Woody Strawn, 15, driving a Chevrolet delivery truck, was turning left into Thirteenth street when a Chrysler coupe, collided with the truck. The Chevrolet was badly damaged.

AURELIUS ARENA FOUND

Il Duce Suggested As Arms Mediator

GENEVA, Switzerland, Oct. 13 (AP)—The Italian delegates today unofficially suggested Premier Mussolini as a mediator in the tangled arms problems as Dr. Rudolf Nadolny, the chief German delegate, left for Berlin, apparently resentful of a plan to introduce a formal resolution which effect would bar the reich from any defensive armaments.

Dr. Nadolny will confer in Berlin with his chief, Chancellor Adolf Hitler. The German circles here said they expected President Von Hindenburg, as commander-in-chief of the reichswehr (the German standing army), to share with the chancellor the responsibility of deciding German's arms position.

ESCAPED CONVICT SOUGHT IN TEXAS

PARIS, Tex., Oct. 13 (AP)—Joined by officers from Louisiana and Arkansas, Red River county (Texas) officers today continued search for Charley Frazier, escaped Louisiana convict, and Dallas Hunter, in a timbered tract southeast of Clarksville. They were sought in connection with the robbery of stores at Deport, Tex., and abduction of two persons.

Hunter and a woman companion abandoned an automobile near Clarksville last night and escaped afoot. Officers trailed them until early Thursday and today believed they were hiding in the woods. All roads were being guarded.

The abandoned automobile was found to have been stolen from Crockett, Tex., and the license plates from a Copper, Tex., car. Officers here learned today from Crockett that the owner of the car was robbed of $150 when the machine was taken from him.

tolini, was killed and disposed of in the same way.

The debacle in Serviatti's bloody amorous affairs came when he deviated from the river system of disposal. Italy was aroused last November with the finding in railway stations of suitcases containing portions of a woman's body. Two of the suitcases were found at Naples, one at Rome.

Finally, after long police search, the contents of the suitcases were identified as portions of the remains of Paulina Gorietti. Authorities were told she had had a sweetheart called Serviatti in Spezia.

"Bluebeard" was arrested promptly and confessed.

He said he kicked Paulina to death during a lover's quarrel.

Prosecutors, however, established the pilfering motive of Serviatti's crime, and drew from him full confessions regarding all three.

A. B. FRANK COMPANY, SAN ANTONIO, WELL PLEASED WITH MARKET RESULTS

Avoids Jail

Officials of the A. B. Frank company of San Antonio are believers in the West Texas-New Mexico Wholesale Clothing market. And it took only three days to convince them that the semi-annual events held here are worthy of patronage.

The company exhibited its line of goods here for the first time this week. And in order to get a good line on the market, seven officials of the company came along to be present for the program. Included in the group was Henry Carr, vice president and sales manager. Other officials here were: E. T. Page, credit manager; D. F. Rhodes, wash dress department head; Albert Siegel, furnishing goods; W. G. Lagerquist, staple goods; Tom Daggett, hosiery and Tom Kendall. E. B. Ward of Lubbock, West Texas representative of the company, also was present for the company's showing of goods here.

Good Sales Reported

A successful group of sales were reported by the company, the amount running much larger than officials had anticipated.

And to cap the visit to this section, the company placed an order for 1200 dozen sheets from Postex Cotton mills at Post. This one order alone will keep the mills running full capacity for sixty days.

Officials of the company were not informed of the market soon enough to enter the style show but arrangements were made for a large display at the spring style revue besides an enlarged display of their line of staple goods and other merchandise.

State Control Of Alcohol Is Urged

NEW YORK, Oct. 13 (AP)—The most satisfactory solution to the problem of alcohol, the Rockefeller liquor study said today, requires elimination of the private profit motive in retail sales.

"This cannot conceivably be accomplished under a license system, however rigid and well enforced," the study declared. "If we sincerely wish to meet only an unstimulated demand for alcohol, we can no longer leave to any individual a private stake in its retail sale. There is in the licensing of the private selling of liquor an irreconcilable and permanent conflict with social control."

The private profit motive, the study said, can be eliminated most effectively by state control.

THE *opportunities,* to which we refer, are the daily bargains to be found in every shopping area. Some people find them quite by chance . . . stumble over them blindly . . . and acquire them with astonishment. Others never seem to be in the right store at the right time: If there's a 25% marked-down sale of shoes at Smith's, they are buying at Brown & Co. . . . If a grocer three blocks away is clearing out his canned goods at half-price, they are at the corner store making routine purchases.

WIN—

Charme
Dry Climate Cleansing Cream

DEMAND CHARME CLEANSING CREAM because it is the only Scientifically Emulsified cleanser. It is the only cream which is made exclusively for a dry climate.

Do you know some interesting and unusual facts concerning people or happenings of the South Plains . . . if you do, here's your chance to win Theater tickets to the Lindsey Theater or a Jar of Charme Dry Climate Cleansing Cream.

The five persons submitting the most interesting and unusual facts or "ODDITIES OF THE SOUTH PLAINS" will receive two tickets each to the Lindsey Theater.

The three ladies submitting the most extraordinary "Oddities" will each receive a $2.00 jar of Charme Dry Climate Cleansing Cream.

BE SURE AND SEND IN FACTS THAT WILL BE INTERESTING TO EVERYONE. YOU MUST HAVE POSITIVE PROOF OF THESE FACTS.

THIS CONTEST CLOSES FRIDAY, OCTOBER 13TH, and the names of the eight winners, along with their "Oddities of the South Plains" will be published in Sunday's Avalanche-Journal. MAIL OR BRING YOUR "ODDITY" to the Avalanche-Journal Classified Ad Department, enclosing your name and address.

TICKETS TO THE LINDSEY THEATER

The five persons submitting the most interesting "Oddities of the South Plains" will each receive two guest tickets to the Lindsey Theater, to see Edward G. Robinson and Kay Francis in "I Loved A Woman", at the Lindsey, preview Saturday night, Sunday, Monday and Tuesday.

NOTICE OF FIRST MEETING OF CREDITORS
In the District Court of the United States For the Northern District of Texas in Bankruptcy, Lubbock, Texas. In The Matter of William Lewis Stambaugh, Bankrupt. No. 221 in Bankruptcy.
OFFICE OF REFEREE
Lubbock, Texas, October 11, 1933.
To the Creditors of William Lewis Stambaugh of Abernathy in the county of Hale, and District aforesaid, a bankrupt. Notice is hereby given that on the 10th day of October, A. D., 1933, the said William Lewis Stambaugh was duly adjudged bankrupt, and that the first meeting of his creditors will be held at my office in the City of Lubbock, Lubbock County, Texas, on the 23rd day of October, A. D. 1933, at two o'clock in the afternoon, at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before said meeting.
W. D. GIRAND,
Referee in Bankruptcy.

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912.
Of the Lubbock Evening Journal, published every weekday evening except Saturday, at Lubbock, Texas, for October 1, 1933.
STATE OF TEXAS
COUNTY OF LUBBOCK. (ss)
Before me, a notary public in and for the State and county aforesaid, personally appeared Chas. A. Guy, who, having been duly sworn according to law, deposes and says that he is the publisher of The Lubbock Evening Journal and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, the circulation, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse of this form, to wit:
1. That the names and addresses of the publisher, editor, managing editor, and business managers are:
Publisher, Charles A. Guy, Lubbock, Texas; Editor, Charles A. Guy, Lubbock, Texas; Managing editor, C. W. Ratliff, Lubbock, Texas; General manager, Parker F. Prouty, Lubbock, Texas.
2. That the owner is: The Avalanche-Journal Publishing Co., Inc.
Chas. A. Guy and Parker F. Prouty of Lubbock, Texas; Dorrance Roderick of El Paso, Texas; Gene A. Howe and Wilbur C. Hawk, of Amarillo, Texas.
3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are:
Mergenthaler Linotype Co., of Brooklyn, N. Y.
4. That the two paragraphs next above giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.
5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is 6,002
(SEAL) CHAS. A. GUY, Publisher.
Sworn to and subscribed before me this 11th day of October, 1933.

NEW TEST FOR OIL CONTROL

FEDERAL RULE FACES ATTACK IN AMENDED INJUNCTION PLEA

TYLER, Oct. 13 (AP)—Federal control of the oil industry today faced a new test—an amended injunction petition filed in federal district court here by the McMurrey corporation against Lon A. Smith, chairman of the Texas railroad commission, and others, attacking Secretary Ickes' right to allocate oil production as between states.

The petition also attacked a new Texas law which became effective September 1, making violation of proration rules a felony.

Asks Court Be Empaneled

The plaintiff company asked that a statutory three judge federal court be empaneled to hear the complaint, the defendants be ordered to appear and show cause; that the plaintiffs be granted an interlocutory injunction at the hearing and, upon final hearing, that the injunction be made permanent.

F. W. Fischer, attorney who filed the petition, based the new attack principally on grounds that the last two orders of the Texas railroad commission, cutting the state's allowable 25 and 26 per cent, respectively, gave as their authority the National Recovery act and Secretary Ickes' order reducing the state output in the first to 975,200 and in the last, to 965,000 barrels daily.

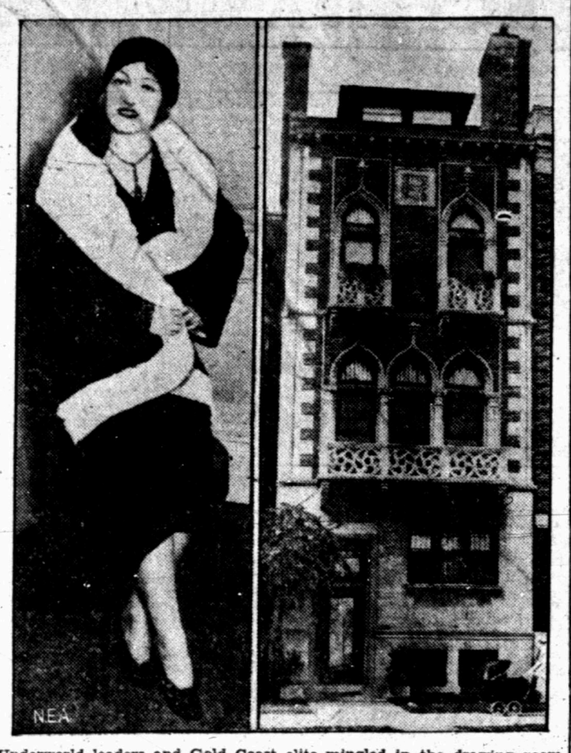

Fischer said he took his cue for this from an observation made by Federal Judge Randolph Bryant during a recent hearing of the suit by the Panama Refining company and others against A. D. Ryan, interior department investigator in East Texas, and others, in which the court agreed with Fischer's argument that the interior department should not concern itself with state-control of the oil industry.

The oil and gas proration act passed by the Texas legislature last May and made effective September 1 was attacked on the ground that it "shows upon its face it was intended to coerce any producers of oil in Texas into obedience to rules and regulations of the railroad commission of Texas, regardless of their validity."

call him the least known man in public life, saying he does not make political capital of his likeable personal qualities. Short in stature and massively built, he has a bulldog chin and fighting spirit.

Mansion 'Clearing House' for Loot

Underworld leaders and Gold Coast elite mingled in the drawing room of Mrs. Luella Lebensberger, left, widow of Edgar Lebensberger, wealthy Chicago night club owner, found dead of a bullet wound in his palatial North Shore home, right. An artist of ability and a hostess famed in select circles of the city, she is said to have entertained polished gang members and the wealthy "clients" with whom police say gangs dealt in stolen securities, taken in some of the biggest robberies in the nation's history. The night club owner just had been indicted when he was found dead.

Sentence Increased Because Of Temper

PAMPA, Oct. 13 (AP)—Clyde Delong, 18, of Pampa, had five years today in which to ruminate on the three years of extra freedom he might have had if he had held his temper yesterday before District Judge W. R. Ewing.

Delong had pleaded guilty to a forgery charge and the court had intimated he probably would be given the minimum sentence, two years. Then Delong suddenly burst forth into abuse of Murray Freundlich, Pampa merchant to whom he allegedly had given a forged check for $23.50 and concluded with the threat, "I'll kill him." Judge Ewing silenced him by assessing the maximum penalty, five years, saying he did so because of the "criminal spirit" Delong had displayed.

Delong pointed at Freundlich as he was taken from the courtroom and muttered, "I'll get you yet!"

EXPLORES FOR OIL

RIO DE JANEIRO (AP)—Exploratory drillings for oil are under way in two widely separated sections of Brazil, Sao Paulo in the south and Alagoas in the northeast. With all its petroleum and gasoline now imported, finding oil has been one of the country's biggest hopes.

Germantown, Pennsylvania, is the site of the first paper mill in the United States; it was built in 1690.

LUBBOCK COUNTY MEAT EXHIBIT IS SOLD AT DALLAS

Asking exclusive sales rights of the products, marketed as South Plains Country Cured Hams and Bacons, Hunt grocery of Dallas bought the entire Lubbock county meat exhibit at the state fair at Dallas, County Agent O. G. Tumlinson reported.

The exhibit, consisting of 40 hams and 40 bacons, was sponsored by Lubbock Chamber of Commerce and prepared by Mr. Tumlinson and his staff at the fair grounds. Its preparation was in line with the program of the annual Quality Meat show here.

The county agent said farmers in the county were preparing to organize an association to market hams and bacons.

The association possibly will not be ready to market the products regularly until January.

JAPANESE ENTER BRAZIL

SAO PAULO, Brazil (AP)—The Japanese immigration society reports that it brought 13,816 settlers to the state of Sao Paulo in the first six months of 1933. The society has a contract with the federal government, which has several years to run.

London policemen are to be trained in the work of firemen so that they may be able to face the risk of rescuing persons from burning buildings; they are already required to have a practical knowledge of first aid, car driving, swimming, and life saving.

O'BRIEN IS TAMMANY SYMBOL RATHER THAN PERSONALITY IN MAYOR'S RACE

(This is the last of a series on the three principal mayoralty candidates in the New York City election campaign).

BY B. L. LIVINGSTONE

NEW YORK, Oct. 13 (AP)—Fighting the good fight for Tammany Hall in New York's mayoralty campaign, a fight he has unswervingly advanced for 32 years of party service, is the role of John P. O'Brien, the mayor of New York.

He has virtually ceased to be a personality in the bitter three-cornered race.

He has become, instead, in some voters' eyes, the symbol of Tammany rule—his record of earlier capable public service forgotten by that section of the electorate which is eager for the blood of the Tammany tiger.

Loyal To Party

He deserted the comparative security of the judicial bench last year, in answer to Tammany's S. O. S., to step into city hall under circumstances which hardly could be called auspicious. His code was, and still remains, one of loyalty to his party.

Broadway, which was still cheering the glittering Jimmy Walker, found him a contrast as mayor. The depression was on. Patronage provided troubles. City finances were bothersome.

When O'Brien became mayor city hall was a timber pile of dangerous issues not the least being the increase in the city's budget from $399,000,000 to $631,000,000, during Walker's regime.

Even his enemies will admit O'Brien walked into a tight spot. He is still in it—his frends acknowledge that.

Energetic and Fearless

In public life, Mayor O'Brien has been energetic and fearless. As corporation counsel of New York City and later, from 1922 to 1932, as surrogate of New York county, his legal abilities gained wide recognition.

He was born in Worcester, Mass., in 1873 of humble parentage. He hung out his shingle in New York City as a lawyer in 1897 and four years later he entered the city's service as an assistant in the legal department.

Personally he is a cordial man and extremely sensitive. His friends
