Court Asks Speed In Trial Of Hill

EASTLAND, Mar. 22 (AP)—The court urged speed today by the state in the trial of Robert Hill, confessed bank bandit on trial here for robbery by firearms in connection with the robbery of the First National bank of Cisco.

The state put on Pete Thorn, a sheriff of Stephens county, his morning. He identified three pistols taken from defendant when he was captured in Graham in January.

Hill is scheduled to testify in his own behalf today after which he case probably will go to the jury with a plea for mercy. The defense is asking that Hill's life be spared.

MAN HELD FOR GIRL'S MURDER AT JACKSBORO

JACKSBORO, Tex., Mar. 22.—Robert E. Crow, Jr., 27, barber at Ferrin, was in Jack county jail here charged with the murder of Miss Laura Mae Strickel, 17, whose body was found near a school house at Ferrin at midnight Wednesday.

Crow, who it is said, had been the girl's sweetheart, summoned Dr. J. E. Woods of Ferrin to the school house late Wednesday night, telling the physician that the girl was ill, and when they reached here, the physician told authorities, she was dead. Dr. Woods and Dr. C. B. McClure of Jacksboro performed an autopsy on the body Thursday and the viscera had been sent to Fort Worth for a complete examination to determine the cause of the death.

Arrested After Charge

Crow was taken into custody after formal charge of murder had been sworn against him here.

The girl was the daughter of Mr. and Mrs. Tom Strickel. Her mother lives in Ferrin, but her father is said to have resided in White Deer, Texas, for nearly a year.

GANGLAND'S COMBINATION OF GUNS, GUNMEN AND MOTORCARS ENDS LIFE OF CHICAGO WARD POLITICAL BOSS

(By Associated Press) CHICAGO, Mar. 22.—Gangland's three-way combination of death-guns, gunmen and a motor car—have ended the crowded life of Diamond Joe Esposito, 55, whose meteoric career began as a day laborer in Brooklyn and ended as a Chicago political boss.

Fifty shotgun slugs were fired into Diamond Joe's body last night as he was returned from a meeting of the political group with which he was affiliated—the United States Senator Deneen, or anti-Thompson faction.

Three men shot him from behind. As he lay dying one pumped an extra charge from a double-barreled gun into his back. Then they fled in an automobile.

Police believe warfare over liquor privileges was the cause of his slaying.

HOUSTON WINS CONVENTION IN CLOSING MEET

OFFICERS RE-ELECTED WITH PROSPECTS OF FUTURE BRIGHT

(By Associated Press) AMARILLO, Mar. 22.—The cattle business in Texas has set an object lesson for all other industries in cooperative and intelligent effort to improve its conditions. Governor Dan Moody said today in addressing the closing session of the Texas-Southwestern Cattle Raisers association.

Avoiding politics, the governor said he had come here to pay his respects to the sturdy men who set the pace in Texas development, and who are setting the pace for other industries in solving their own problems.

Intelligent Study

"By unity of effort and intelligent study of conditions, you cattlemen are making your business pay," the governor said. "You are organized and you give your time and effort to your business—that is one of the reasons the cattle industry is on a solid financial footing. You don't expect legislative aid, but you do expect an even break with other industries."

Houston was chosen as the 1929 convention city without opposition and all officers were re-elected at the closing session.

Officers chosen were: R. M. Kleberg, Corpus Christi, president; T. D. Hobart, Pampa, first vice president; C. C. Slaughter, Dallas, second vice president; W. E. Connel, Fort Worth, treasurer; E. B. Spiller, Fort Worth, secretary-manager.

Two Want 1929 Session

Dallas and Fort Worth filed their bids for the 1929 convention.

Another address on today's program was "Finishing Texas cattle on Texas soil," by M. W. Holland, field editor, Farm and Ranch magazine.

Resolutions committee was in executive session all day yesterday, and is expected to have a complete report ready for presentation today.

Today's sessions followed a discussion on co-operative marketing as applied to the cattle industry yesterday. Last night, varied entertainment features were given with.

Closing Date For Show Entries Fixed

All entries in the first show of the Panhandle-Plains Dairy association must be in by March 31. D. F. Eaton, president, said today. A number of entries have already been turned in. Mr. Eaton reports and numbers more are expected during the next few days.

One of the requirements for entrance into the show is that all animals entered must be inspected by a veterinarian approved by the livestock sanitary commission of Texas.

MARSH CHARGE CHALLENGED IN COTTON PROBE

CROSS EXAMINATION IS OPENED BY COUNSEL FOR HOUSTON CO.

(By Associated Press) WASHINGTON, Mar. 22.—Cross examination of Arthur R. Marsh, New York cotton broker, by counsel for William H. Clayton, head of the Houston, Texas, cotton trading firm of Anderson Clayton and company, finally got under way today before the senate subcommittee investigating the 1927 slump in cotton prices which Marsh has charged grew out of the tremendous cornering operations by the Houston firm.

David H. Miller, Clayton's lawyer, started by bringing out that Marsh had been a "floor broker" on the New York Exchange for 24 years and in that time had not dealt in merchandising of cotton on his own account.

Assertion Attacked

Miller jumped at once to Marsh's assertion that the Clayton company had borrowed up to \$70,000,000 from the federal war finance corporation up to 1922. He asked what authority Marsh had for his assertion. The New Yorker said it was "generally" known in the trade and when pressed by Miller, finally named two or three New York exchange colleagues.

"You made no effort to investigate the facts yourself before making that statement?" Miller demanded.

"No," Marsh said.

Finance Report Read

Reading from the third annual report of the war finance corporation, covering the year up to November 30, 1920, Miller said it showed that about \$8,000,000 had been advanced by it to finance cotton sales abroad that year. Anderson Clayton and another cotton firm being equally interested.

"That shows that the total loaned to Anderson Clayton in that year was a trifle under \$4,000,000, does it not?" Miller asked.

"Upon your assumption, yes; but I do not accept your assumption," Marsh said.

NEW SOLUTION IS OFFERED IN FARM PROBLEM

RAISE COTTON UNDER REGIONAL STANDARD MILLER URGES

(By Associated Press) ATLANTA, Ga., Mar. 22.—Cooperative efforts by cotton growers and manufacturers to produce regionally the kind of cotton demanded by nearby mills would be a helpful factor in the cotton situation, in the opinion of George S. Harris, president of the American Cotton Manufacturers' association.

This is being encouraged by the association and to some extent has been put into practice. Mr. Harris said, proving mutually beneficial to producer and manufacturer. The long freight hauls are saved and the manufacturers have a ready supply of raw material. The farmer receives a premium for his crop.

One County Cited

"Reports from mill operators in one county—Carroll, Georgia—have shown that farmers there, under a plan fostered by the mill owners of that county, have saved \$330,000 in one year by raising standard fiber cotton and obtaining the premium for it.

"Apply such an item of saving to the 160 counties in Georgia and to other cotton producing states. The result will be striking."

Many North Carolina sections have put the plan into practice, said Mr. Harris, but its success in any section depends largely on complete co-operation of the farmers and willingness of mill owners to turn their attention to it.

Statement Explained

To illustrate what was meant by co-operation to raise required grades of cotton for regional use, Mr. Harris pointed to figures compiled by the United States department of agriculture which showed that 52.77 per cent of the cotton consumed in Georgia mills last year was of the 15-16 of an inch staple. The same report showed that only 16.29 per cent of the total cotton produced in Georgia was of that staple.

This made it necessary for Georgia mills to bring into the state from other sections 421,599 bales of 15-16 of an inch staple," declared Mr. Harris.

On the other hand, it was shown by the report that 78.83 per cent of the cotton produced in the state last year was 7-8 of an inch staple, while the mills in the state had only 24.81 per cent of their production in that length fiber.

Surplus Hauled Away

"This meant that the surplus 7-8 inch staple had to be hauled away from the state to outside mills, bringing on freight costs and other considerations."

Asserting that haphazard methods of cotton production meant that the farmers, with several varieties of staple for sale, were compelled to sell on the low side of the market, Mr. Harris said that no matter where the section was located, great benefits would be derived from community and county co-operation to standardize in planting the cotton for which the nearest market and most ready use could be found.

Trustee Election For Schools Near

With the date for the election of trustees for the Lubbock independent school district nearing, no names have yet been listed on the candidate list. A. C. Jackson, school tax collector and secretary of the board said today. Four trustees are to be elected on that date.

Although not announced, it is understood that the out-going members, Dr. J. T. Hutchinson, president, W. E. Atkins, G. E. Madsen and Neil Wright have agreed to consider re-election. These men have served on the board for the past several years. Dr. Hutchinson being president of the group for more than 15 years while Madsen and Atkins have served several years.

Hold-overs on the board are: S. C. Wilson, E. L. Robertson and R. F. Bayless.

Pound Of Metal Is Taken In Operation

GALVESTON, Mar. 22 (AP)—A middle-aged woman is at a hospital here, expected to recover following an operation performed yesterday when 116 pieces of metal, weighing nearly one pound, were removed from her stomach. It became known today.

Coins, bits of knives, hinges, broken pin springs, wire nails, and other articles were in the collection.

The woman is said to have used a mania for swallowing metal for years.

The metal will be catalogued and presented to the museum of the state medical college here.

SENATE DROPS PLAN TO QUIZ FALL IN PROBE

ANSWER DISPOSES OF MATTER FOR PRESENT WALSH ASSERTS

(By The Associated Press) WASHINGTON, Mar. 22.—There is to be no effort at this time by the Senate Teapot Dome committee to obtain the testimony of Albert B. Fall, who has stated that he is ready to answer all questions that may be put to him in connection with the matters involved in the Fall-Sinclair oil conspiracy case.

Both Chairman Nye and Senator Walsh of Montana, who have been directing the affairs of the committee, thought the former interior secretary's reply to the request of the committee as to his readiness to testify closed the matter for the time being at least.

Disposes of Matter

"I think this disposes of the matter we had in hand," said Senator Walsh. A similar view was expressed by Chairman Nye, but it may be that the question will be taken up at any executive meeting of the entire committee later.

Reports from government physicians who examined Mr. Fall agree with reports made by his personal physician that the former secretary is unable to come to Washington for his trial on April 7.

The report of two physicians who made the examination at the request of Owen J. Roberts and Alton C. Bross, special government prosecutors, said that Fall was in an extremely feeble condition.

To Present Affidavits

The government prosecutors indicated that the affidavits, which will be presented in support of Fall's motion to continue his trial to a later date, was to the effect that the former secretary's heart and lungs are in very weakened condition and say that neither his physical nor mental condition would permit of his being placed on trial at this time.

The prosecutors accepted the report of their medical representatives as indicating that the court would grant continuance of the case insofar as it affected the

COUZENS URGES SENATE ADOPTION OF RESOLUTION FOR RESIGNATION OF MELLON FROM CABINET POSITION

(By Associated Press) WASHINGTON, Mar. 22.—Urging adoption of his resolution declaring the senate in favor of the resignation of Secretary Mellon, Senator Couzens, Republican, Michigan, today declared in the senate that the treasury head had proved himself "totally unfit" to hold office.

Taking the floor soon after indications had come from the treasury that Mr. Mellon would not resign, regardless of the outcome of the senate vote, unless requested to do so by the president, the Michigan senator said Mellon had been appointed by Will H. Hays, former chairman of the republican national committee, to help "conceal" part of Harry F. Sinclair's \$160,000 contribution to the republican 1929 campaign deficit.

He recalled that Mellon had declined to accept the \$50,000 Sinclair bonds brought to him by Hays to be exchanged for a campaign contribution but that the secretary had refused to tell of the incident.

"scaly" death penalty forced him to talk," Couzens said. "A note on a paper of a dead man, Mr. Pratt, saying 'Andy,' brought out the story finally of how Mr. Mellon had been tendered these bonds."

The Michigan senator who has quarreled with the treasury for years on tax matters, then went into a detailed discussion of Mr. Mellon's testimony recently before the senate oil committee.

POLICE CHIEF MAY DIE FROM STAB IN NECK AFTER GUNSHOT FROM GIRL'S KIN GOES WILD

(By The Associated Press) COLUMBIANA, Ala., Mar. 22.—H. F. Blake, Calera chief of police was fired at and then stabbed by two women in circuit court here today just after he had been acquitted of the murder of their relative, Miss Louise Montebardo.

Mrs. Mabel Montebardo, mother of the girl, fired a pistol from a distance of about five feet as Blake was being congratulated by his friends. The shot went wild. Miss Cecil Tubbs, an aunt of the girl, leaped at the police chief, drawing a knife as she flung herself toward him and stabbed him in the neck. Blake fell, the blood streaming from the wound.

The court room was in a turmoil in a moment and Charlie C. McCall, state attorney general, who had personally prosecuted Blake, faintered from the excitement. Physicians at the hospital, after an examination of Blake's wounds, said they are serious, and may prove fatal. He had toppled into the jury box from which the men who freed him were slowly filling out. They assisted in taking him to a hospital.

Mr. McCall quickly recovered himself and ordered the two women taken into custody. Both were frantic from the strain of the trial and their deed, and Mrs. Montebardo fought hysterically with court officers before she was subdued. She still tried to get to Blake as the balliffs pinioned her.

Weapons Part of Evidence

Officers said the woman had obtained the weapons from the box in which Montebardo's clothing was kept during the trial. The pistol used in today's shooting was one of those used by the state in expert testimony regarding the manner of the girl's death.

About 30 persons were in the court room at the time. All rushed into the open.

Louise Montebardo, a sewing machine sales woman, was shot to death on the night of last November 14 shortly after Blake and W. D. Farmer, another Calera policeman, had arrested her on the Montgomery highway. They swore she killed herself after her arrest for speeding, and while they had momentarily left the car to examine a bottle which they said she had flung from the machine when they halted her.

Two Weeks of Trial

Blake's trial had lasted a little over two weeks. The jury had gone to the jury last night. The verdict was returned shortly after court was convened today. Farmer was indicted with Blake and his trial is pending.

Blake was taken to a hospital, where physicians said his wound was serious. The knife wound was about two inches long and two inches deep. After a preliminary examination an ambulance was called and he was started for a hospital in Birmingham.

Trading Halted

NEW YORK—The violent upward movement of stock prices, which has been under way almost uninteruptedly for two weeks, came to a sudden halt in the middle of today's stock market, when a general selling movement swept through the list. Early gains of \$1 to \$10 a share were substantially reduced or wiped out, and in many instances converted into losses, of which ranged from 5 to 12 points.

San Quentin prison authorities were informed by the supreme court today that hearing his appeal could not be reached by that time.

WICHITA FALLS, Mar. 22 (AP)—Loss estimated at \$12,500 was caused by fire which wrecked the Hub clothing store here Thursday.

Condemned Negro Granted Reprieve

AUSTIN, Mar. 22 (AP)—While Fisher, scheduled to die in the electric chair early Friday for the killing of his wife, Rosa Fisher, in Harris county, was given a reprieve until April 12 Thursday by authority of Governor Moody.

The governor will use the additional time in going over the pardon board's unrevealed recommendation in connection with Fisher's application for commutation.

Fisher, it was brought out at his trial became aperted because his wife had left him. It was shown that he entered her home on the night of the killing. He announced his intention to kill her, drew a knife, cut the woman's throat and otherwise mutilated her body. He pleaded insanity.

Permits Continue To Climb Upward

Building permits for the city continued their climb upward today and new total \$437,010, a \$5,000 per cent being issued today. The total for March is \$1,328,545.

MARYE and "MOM" Their Letters

BY RUTH DEWEY GROVES

Marye Dear:

What a life parents would lead if they had to sit up for the present boys and girls! A parent you might have imagination enough to guess, is generally in need of sleep long before the shows and parties are over.

If you will think back to the time when you had your first beau you will remember that I asked you to promise me to come straight home from the movies or wherever you spent the evening. Your promise was enough, Marye, because I trusted you. Do you think I could have had so little faith in the way I brought you up as to believe I had to prove to myself that you would not lie to me?

No, I can't say what or who is to blame for the conduct of the younger generation but a boy or girl who has had good home training shouldn't need a policeman as a constant companion.

Mabel Clary left home because her mother tried to chaperon her. You may see her in the city but I don't think I'd be too chummy with her, Marye. People say she's going to pose in a studio in "the nude." I don't see how any girl can do such a thing.

It's a good thing for Florence that she's gone. She was putting ideas into your sister-in-law's head about going to the city. It would break Mrs. Meredith's heart if Florence left. She's getting kind of childish, I'm afraid. I don't believe Florence would leave her because, in spite of her wickedness, she is very fond of her mother. If it weren't for Kenneth always being after her to go some place she'd do more around the house.

I don't know if I should say anything more about your coming out this summer, if it's going to cause a quarrel between you and Alan over who's to have the car (Frank still has the license). But I do wish someone could get Florence to listen to reason about Kenneth Oates. He won't work and he doesn't want Florence to work, either. She might pay some attention to you, Marye.

Says the rest of us here have "hayseed" ideas. Well, I hope the city hasn't changed you much but she thinks it has, I guess.

Kenneth's father paid old man Phillips twenty dollars—ten for Ken and ten for Florence—for burning the barn. Poor Mr. Oates. If ever a man did his best for a son, he did. I really am surprised, Marye, that you can blame such parents as his and Mrs. Meredith for children like Kenneth and Florence.

With great love

Three Parties Are Delightful Affairs

With two parties yesterday and one this afternoon, Mrs. Jo Dick Slaughter and Mrs. Houston Spikes are entertaining a number of friends this week at the Slaughter home near the Country club. Bridge is being played at three affairs.

Luncheon was served yesterday noon after games had progressed through the morning and a salad course was offered in the afternoon. Mrs. Sam Killen of Dalhart, Mrs. Slaughter's mother, who is visiting here was presented with favors at both of yesterday's parties as honor guest of the occasions.

High score trophy in the morning went to Mrs. Marion J. Smith and to Mrs. Charles Read in the afternoon. Low scores were made by Mrs. J. S. Johnson and Mrs. Herbert Lowery.

The personnel of the morning party was as follows: Mesdames W. E. Schenck, James Bryor of Amarillo, John Dalrymple, W. O. Stevens, J. S. Johnson, Sam Killen, L. E. Miller, C. G. Lindsey, Richard White, J. O. Smith, Temple H. Hill, W. H. Bledsoe, Marton J. Smith, Clerk Smith, W. H. Meador, Fred Spikes, Frank Winn, Clark Mullican.

Five Sunday School Classes Picnic

Five classes of the First Methodist Sunday school are to attend a picnic tomorrow afternoon, leaving the church at 4 o'clock to go to the canyon near Lubbock. Teachers of the five classes are Gus L. Park and Mesdames William Dandis, J. J. Smelser, E. W. Camp and L. T. Green.

EDUCATION MAIN KIWANIS THEME IN WEEKLY MEET

Members of the Kiwanis club heard the educational committee of the club in their regular weekly luncheon program at the Lubbock hotel today.

M. H. Duncan, superintendent of the city schools, was chairman of the day and offered an instructive program to the club. Rev. D. B. Cook spoke for several minutes of the education while Dr. Fred W. Standefer talked on Kiwanis education. They were followed by W. T. "Tanier" Strange, who started in his usual line of chatter but settled down to one of the best addresses heard by the club in some time.

The club voted to hold their program of April 12 at the Acuff community. This will be the second of a series of visits to the rural communities of the county.

TIGERS TO DEPEND ON OLD GUARD PLAYERS IN PENNANT RACE TEXAS SLUGGERS CAST OFF JINX IN HARD HITTING SPREE

SAME PITCHING STAFF AS LAST YEAR OFFERED

INFIELD COMBINATION SAME PERSONNEL IN RECAST FORM

By BRIAN BELL

(Associated Press Sports Writer) SAN ANTONIO, Mar. 22.—Detroit will depend on the old guard in the approaching pennant race.

The Tigers will make places for some players whose services were gained in trades during the winter, but none is young as baseball players go.

Same Pitching Staff Hope of the club for better position at the close than the fourth place occupied last year lies in the pitching staff.

Whitehall, a left hander with a marvelous curve ball, and Sam Gibson, a big right hander with a world of stuff, were in and out in the last campaign.

In the spring tuning up they seem to have definitely returned. Addition of Eiam Van Gilder, formerly of the Browns, for relief duty will release Lil Stoner for starting duty.

George Smith and Haskell Billings, the collegian who is up and coming, Owen Carroll, another collegiate contribution, may team up with Van Gilder in the reserves.

This array of pitching talent leaves little room for additions from the 1928 crop. Vic Sorrel comes from Toronto with a good chance to stay and Carl Hubbell, a left hander from Oklahoma, may crowd in.

The infield will be made up of the same men who played in 1927 but they will be recast. Johnny Neun will play first base on a whole time instead of a part time basis.

Charley Gehring will take care of second base. Jackie Taylor, completely recovered from his injuries, will play short and show how hard a little fellow can hit.

Infield Reserve Problem The infield reserve question presents a problem. Manager Moriarty has not yet solved it.

Harry Rice, who came from the Browns, will play center field and show a fast pair of heels on the bases.

Wingo is Outfield Utility Red Wingo will have the outfield utility role and he may be joined on the bench by Paul Easterling, recruit from Bloomington in the Three Eye league.

Larry Woodall and Merwyn Shea of last year's catching staff are set but are being crowded for first consideration by two new catchers, Phillips and Hargrave from Toronto.

DETROIT RUNNER TAKES LEAD IN MARATHON RACE

(By Associated Press) SAVAJO, Ariz., Mar. 22 (AP)—Arne Suominen of Detroit led in clipped time today as the runners in the Los Angeles to New York marathon lined up for a 33 mile jaunt to Lupton, Ariz.

Suominen covered the 41.8 miles from Holbrook to Navajo yesterday in 6 hours, 49 minutes and 56 seconds, to trail Ed Gardner, Seattle negro, by more than eight minutes.

Andrew Payne of Clarendon, Okla., who relinquished the lead to Suominen Tuesday when he suffered an attack of tonsillitis, managed to retain second place at the end of the 55.1 mile route but he required nearly eight hours for the trip from Holbrook.

Withdrawal Tuesday of Herbert Tiedoke, Hollywood, Calif., Harry Cheetham, Los Angeles, and Giacomo Charizzo, Chicago, reduced the field to 96.

Wrestlers Battle To Draw In Match LOS ANGELES, Mar. 22 (AP)—Jim Browning, Wichita, Kans., wrestler and Nick Lutze, Chicago, went two hours to a draw here last night.

Each took one fall. Browning using a flying headlock and Lutze a jack-knife arm scissors.

AND IT WON'T BE LONG NOW!

YANKEES BREAK JINX WITH RETURN OF WAITE HOYT TO MOUND DUTY IN WIN FROM BRAVES IN FLORIDA CAMP

(By The Associated Press) ST. PETERSBURG, Fla., Mar. 22.—Whether it was due to Waite Hoyt, who made his first mound start of the year, or other causes, the New York Yankees have won a ball game, at last.

Beaten in their first four games, three times by Boston's Peaky Braves, the world's champions rose in their wrath yesterday and gave the Braves a good beating.

Hoyt pitched the first four innings and allowed only two hits. In the absence of any hitting at all by Babe Ruth and Buster Gehrig, "Jumping Joe" Dugan hit a home run, a double and a single in three official trips to the platter.

The homer was the first credited to any yankee this season. A utility man, but Andy who has been playing third base with the Boston Braves says he will put a hard fight to "play regular" and is going out after a regular berth.

Hendricks Nursing Badly Bruised Nose ORLANDO, Fla., Mar. 22 (AP)—Manager Jack Hendricks of the Cincinnati Reds was nursing an inflamed nose today, the result of being accidentally hit by a practice ball.

Outfielder Ethan Allen, whose shoulder was injured Monday, was again in shape today.

Indians Pleased At Wednesday Victory CLEVELAND, Mar. 22 (AP)—The Cleveland Indians were back at their New Orleans camp today enthusing over the brand of pitching displayed in defeating another Ohio team, the Columbus American Association club.

Buckeye, Underhill and Brown worked for the Tribe at Gulfport, Miss., yesterday and gave the Senators only six hits in a 7 to 5 victory.

Kremer May Start In Today's Contest SAN FRANCISCO, Mar. 22 (AP)—Manager Donie Bush of the Pittsburgh Pirates announced that whether he started Ray Kremer, Pirate pitching ace, in today's exhibition game would depend upon the weather.

If the cool spell continues, Bush said he would keep Kremer on the bench since the hurler has just recovered from a severe cold.

Rex Sox Youngsters To Train At Home BRADENTON, Fla., Mar. 22 (AP)—Seven Red Sox youngsters will start north Friday under direction of Johnny Collins to work out on the home grounds instead of accompanying the squad on its upward swing.

They probably will hand with the Philadelphia team at the start of the minor league season.

Moriarty Retains But Three Rookies SAN ANTONIO, Tex., Mar. 22 (AP)—As the period approaches when the weeding out process is to begin, Manager Moriarty is reported to have decided definitely on retention of only three of the army of Tiger recruits who reported at the opening of the training season.

They are Paul Easterling, outfielder and Frank Emmer and Bill Sweeney, infielders.

Utility Outfielders Of Senators Named TAMPA, Fla., Mar. 22 (AP)—With two of his doubtful positions filled, West, tentatively at least, in centerfield, and Gills in short, Manager Harris of the Washington Senators now has decided on Foster Ganzel and Emil Barnes as his utility outfielders for the coming season.

Bell Does His Bit In Game With Yanks ST. PETERSBURG, Fla., Mar. 22 (AP)—Lester Bell, Cardinal third baseman, obtained by the Boston Braves for Andy High and an unannounced sum of money, may not have been the star of yesterday's Yank-Braves game, in which he wore a Boston uniform for the first time, but he did his bit. He had only one chance in the field and that he handled perfectly. His hitting was confined to a long double

PITCHERS HAVE HECTIC DAY IN HEAVY ATTACK

BALL DRIVEN TO ALL CORNERS OF LOTS IN EXHIBITION GAMES

(By The Associated Press)

In the heat of exhibition battles and routine practice games, Texas League players in training are developing batting eyes that for a while have seemed dimmed. Casting aside the jinx which the toasters apparently held over them, the hitters of several clubs yesterday clobbered bats to all corners of several lots and gave the pitchers a hectic day.

Buff's Wallop Aggies Manager Snyder's Houston Buffs acquired 15 safe blows in a contest with the Texas Aggies at College Station and tucked away a 12 to 1 victory.

At Wichita Falls, the Spudders hammered the offerings of three Chicago White Sox hurlers for 11 hits, but were outslugged by the American Leaguers and beaten 11 to 2.

At Lake Charles, the Beaumont Exporters chalked up eight husky safe swats in a game with the Kansas City Blues, but likewise were outhit and lost by a 13 to 6 score.

In a squad game at Dallas, the Steer regulars clouted two veteran pitchers, Schuman and McColl, for 13 safeties and a 6 to 3 win, while the Yannighs registered eight hits.

San Antonio batsmen did not fare so well in a tilt with the Detroit Tigers at Fredericksburg that for seven innings was a pitchers' battle. They could get but six hits, while the Tigers broke loose in the eighth, drove out several home runs and more safeties of a less damaging type, and capped the contest, 10 to 1.

At Shreveport, the Sports got away to a six run lead in the first frame of a game with the House of David nine, and held it despite a game comeback of the visitors to win, 8 to 2.

Routine practice occupied the other league clubs.

ENGLISH TO BE BURIED FRIDAY AT CROSBYTON

Funeral services for E. English, 62-year-old pioneer citizen and cattlemen of the South Plains who died yesterday at the home of a son, Dr. R. D. English, of Snyder, will be held at Crosbyton tomorrow afternoon at 2:30 with Rev. E. E. White, pastor of the First Methodist church of this city and Rev. R. F. Dunn, of Lubbock, in charge. Interment will follow in the Crosbyton cemetery.

The body will arrive in Lubbock this afternoon at 4:40 and lie in state at the home of Mrs. Pink L. Parrish, a daughter, until tomorrow when it will be carried by a six ambulance to Crosbyton.

Surviving Mr. English are five sons and four daughters, are Dr. R. D. English, Snyder; J. C. English, Crosby county; R. C. English, Amarillo; Anee M. and Luther English, Lubbock; and Mrs. S. H. Batta, Fort Worth; Mrs. J. C. Orr, and Mrs. Parrish, Lubbock.

YOUR CHANCES are better of getting good results if you run your Ad from three to six times. It costs little more.

In the ninth, Roger Hornsby of the Braves, other Ex-St. Louis star, drove in a tying run in the sixth that failed, however, to keep the Yankees from romping away with the game 8-2.

Boley Secure But Hassler After Him PORT MYERS, Fla., Mar. 22 (AP)—Joe Hassler, rookie shortstop, will not beat out Jack Boley, the Philadelphia Athletics' regular short field, guardian, says Manager Connie Mack, but he is a highly acceptable understudy.

Mack said today that Hassler was showing great promise and predicted that he would be "quite a ball player before very long."

"Hitless Wonders" Of Phils Working WINTER HAVEN, Fla., Mar. 22 (AP)—It won't be long now, in the opinion of sport scribes assigned to the spring baseball camps, until the Phillies become almost as famous as "hitless wonders" as was a White Sox team years ago. Even Manager Shotton, who came to the Phils in the role of a few and somewhat optimistic manager, is beginning to wonder when his hitters will begin to hit.

SINCLAIR'S BAN IN MARYLAND IS NOW IN POLITICS

(By Associated Press)

BALTIMORE, Mar. 22.—Department of Harry F. Sinclair's horses from Maryland race tracks because of the oil magnate's connection with Teapot Dome, assumed political significance today with state party leaders supporting and condemning, in turn, the action of the racing commission.

Clayton L. Tait, collector of internal revenue, and recognized Republican leader in Maryland, in a letter to Governor Ritchie, Democrat, took issue with the state administrator's action in refusing to permit entries from Sinclair's stable, owned by Sinclair, to start in Maryland turf classics, Mr. Tait claimed that the Democrats were attempting to overshadow recent state scandals which disclosed a \$40,000

shortage in state roads funds.

Governor Upholds Board In reply, Governor Ritchie came to the support of the racing commission's indefinite suspension of the Sinclair stables, with the assertion that he believed it was the commissioner's duty to "keep racing on a clean and high plane."

Commenting on the \$40,000 shortage in state road funds, Governor Ritchie stated that "for the moment, it is in the hands of the state's attorney, where it belongs, and whatever action may be necessary for me to take will be taken as soon as the proper time has come for it."

St. Mary's Wins In Catholic Tourney

CHICAGO, Mar. 22 (AP)—St. Mary's high school five of Clarkburg, W. Va., triumphed over St. Peter's high of Anacostia, Mont., 16 to 7 in today's opening game of the national Catholic high school basketball tournament at Loyola University.

St. Mary's high of Lansing eliminated the strong Holy Rosary five of Syracuse, N. Y., 20 to 15.

TENNIS PLAYER VERY VERSATILE IN MODERN GARB

(By Associated Press)

AUGUSTA, Ga., Mar. 22.—Johnny Hennessey, youthful Indianapolis tennis star who beat Bill Tilden yesterday, "pulled a fast one" when he came prancing to the side lines to start his match wearing a heavy tan coat, well buttoned.

Diffing this, he stood revealed in a "baby blue" slipper over Cup candidates had displayed. After playing the first game he started removing this and a moment later stood revealed in a dazzling gold-embroidered jersey.

Tilden joined the roar of laughter from the galleries, but Hennessey, not nettled in the least, came back with a grin.

"Bill, this won't take your mind off the ball, will it?" As the match ended, Johnny was playing in a sport blouse.

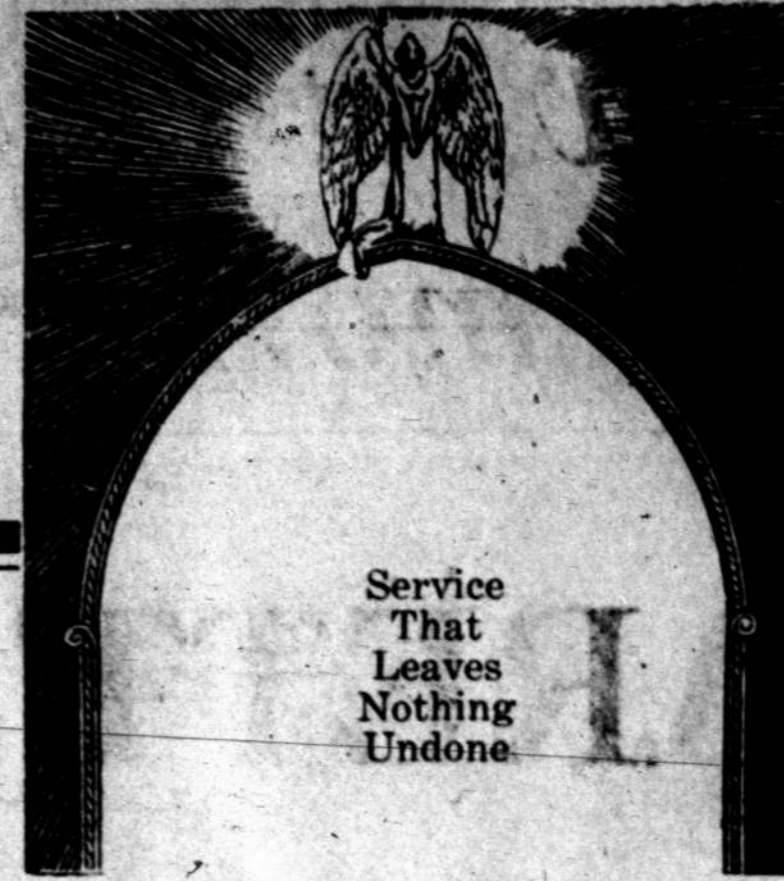

Tornado Coach And Lamesa Girl Marry

LAMESA, Mar. 22.—Cupid has found his way into Lamesa's public schools and has shot his arrow straight into the heart of Bill Stephens, high school athletic coach and history teacher. Recently Mr. Stephens and Miss Pearl Casper slipped away to Lubbock and were united in marriage. Mr. Stephens is a graduate of A. C. C. and has for the past two years been athletic coach in Lamesa high school. Mrs. Stephens is daughter of Mr. and Mrs. J. R. Carver of this city. She was formerly a business college teacher in Snyder.

BYNUM BROTHERS FUNERAL HOME

1306 Ave H

At no other time perhaps is skilled service so important as when sorrow strikes a family. And at this time the services of those who are thoroughly skilled in this manner of service, assume the burden of detail.

It is such a service that this modern funeral home is prepared to render. In the manner of equipage—in conducting of duties, a service is obtained that leaves nothing undone. Those details, small in themselves, but of vital importance, are assumed unobtrusively, and throughout there is an atmosphere of thoughtfulness for family and friends, wholly desirable.

It will be our policy to render an honest service of full value, regardless of how expensive or how modest the total outlay may be—serving all classes with that degree of satisfaction which alone is deserving of renewed patronage.

Those rendering the service are fully qualified and competent through study and experience to care for with satisfaction and confidence any case that comes to our attention. Licensed embalmers and a registered nurse are connected with this organization and in constant attendance, and the latter attendant will in all cases, personally supervise the details in connection with women and children.

Our Packard and Lincoln ambulances insure comfort and satisfaction, and are ever ready to perform their function in saving life and alleviating the suffering of those in pain, ill or in weakened condition, and to convey patients to and from hospitals or trains.

Our every aim to serve the public fully and completely, without embarrassment to you or friends, and in every way as far as humanly possible, use the Golden Rule in all of our dealings with Mankind.

If this is the kind of service and treatment you desire, we stand ready to answer your call any hour of the day or night.

Sincerely,

BYNUM BROS.

JARETT'S FASHION SHOP

1105 Broadway

The Easter Mode

The most interesting time of all the fashion's season is just before Easter. The urgency of having everything ready is the very zest of shopping. The ultra-fashionable modes which compose our costume assemblages were chosen with an appreciation that Easter is Fashion's own day. Coats, Ensembles, Frocks, Suits, Footwear and those trifling though telling accessories inspired by the world's noted fashion dictators, have been exquisitely interpreted to meet Easter needs and whims of fashion-knowing women.

With this announcement, Lubbock's and the South Plains smartest apparel shop, offers to women, unusual advantages in shopping.

She may come here and select an entire assemblage of costume, footwear in the most approved mode—hosiery in sheer fine quality to match or harmonize with the costume—dainty undies—a smart frock or ensemble or perhaps a tailored suit—a coat that is unusual in its beauty and then select a becoming hat with which to finish the costume ensemble.

She may make her selections secure in the knowledge that every portion of her costume is in keeping with the correctness and charm of the prevailing mode—that the displays present every new development of style shown in the smart fashion centers first—and that for the quality and character of the apparel and accessories she is offered in this shop, values will always be better.

And now, just a few short days before Easter, these new things are shown in glorious profusion and no better time could be selected than now to acquaint oneself with these new things and the thorough service this shop now offers in its new location.

The Millinery

Charming in fabric and in color—utterly and gracefully becoming—one perfect creation after another—each a Paris inspiration in line and color.

Models for madame and mademoiselle—some matronly and medium of head size—others demurely and alluringly small. Could we say more, other than to invite you to see this assemblage of truly chic millinery?

Announcing the Opening of the CINDERELLA SLIPPER SHOP featuring Shoes at \$6

Believing that many women prefer to select footwear in a store that caters exclusively to women, we present the newest feature of this shop's service to women who are always fashion-right. Wonderfully smart footwear that brings to those women who are essentially correct in every costume detail, a footwear mode that is wholly enchanting and one in keeping with the other smart things this shop features. It is brought to her at a price that is as pleasing as the footwear is attractive—a price that is most ordinary for footwear that is so extraordinary in its character.

REBELS IN TWO STATES GREAT MEXICO WORRY

TWO TRAINS WRECKED AND ONE MAN DIES, PAPER ASSERTS

By The Associated Press
MEXICO CITY, Mar. 21.—Disorders in the state of Jalisco, center of insurgent activities, today continued to plague the Mexican government.

The Universal Grafico, a newspaper, said two trains were derailed and attacked in that district. A Mexican second class passenger was reported to have been killed but guards on the trains saved most

of the passengers from harm.

Bombs Wreck Tracks
The paper said that Eduardo Gomez was understood to have been killed in an attack on a train between Tonilita and Villagas. Dynamite bombs, placed between the rails, exploded and tore up the right of way. Some coaches were derailed and others damaged. The attacking party then fired upon the train. Soldiers gave battle and apparently routed them.

Another raid of similar nature occurred on the border of the states of Michoacan and Jalisco between Montecit and Palti, more than 100 miles northeast of the Tonilita. Only a few persons were believed to have been injured.

Adult Train Wreck
Headquarters of the Mexican national railroads admitted that a train had been attacked near Tonilita, but said only one person had been injured and no one killed. The other train was delayed by a freight wreck, the railroad said.

Advices from Guadalajara said that in a seven-hour battle near Atonilco, 35 of a band of 200 in-

ACCUSED YOUTH PAYS CALL AFTER UNIQUE SENTENCE

(By the Associated Press)
MUSKOGEE, Mich., Mar. 22.—John Yokubones, 16, has discharged his first obligation under a sentence given him a few days ago by Judge Rugh Thompson to serve as a "big brother" to two small boys he made fatherless two weeks ago when his car struck and killed Floyd Torrey.

The youth, who works at a bench in a shop here, took several bundles, including toys, to the boys' parents were slain.

Dispatches to El Universal and other papers, said Carlos Yoffra, German citizen, had been rescued from an insurgent group in a clash near Erguesilla. Andres Ortiz, chief of the band, was killed.

Wolffarth Scouts Plan Special Meet

Troop number 41 of the South Plains Boy Scout council at Wolffarth will hold a special meeting and tenderfoot investiture service at the Wolffarth Community club tonight. It was learned today at scoutmaster and the troop committee consists of W. A. Fincher, J. G. executive, Rev. L. G. H. Williams, commissioner, and a number of other local scout officials are to be present.

The Wolffarth troop is sponsored by the Wolffarth Community club and has fifteen boys. Claude Meade, who recently was awarded a national training certificate, is scoutmaster and the troop committee consists of W. A. Fincher, J. G. executive, Rev. L. G. H. Williams, commissioner, and a number of other local scout officials are to be present.

High School Play Is To Be Repeated

Due to the popularity of the first production, a second production of "Mary Made Some Marmalade" will be presented tonight at the high school building by the members of the senior class. The play is under the direction of Mrs. W. P. Clement and was presented last Friday night. Benefits derived from the ticket sales will go into the class fund which will go toward paying the class' graduation expenses.

Minstrel Show To Lack Nothing, Committee Says

The American Legion Minstrel Show, looking in nothing if not the plans of the general committee, selected members of the committee said today after a series of conferences this week in which preparations for the show were started. Efforts will be made to present the best and most unique home-talent show that the city has ever seen.

The general committee consists of W. P. Knox chairman, F. D. Rupp, John T. Fisher, Harry Meyers, and R. L. McKnight officials for the show as appointed in a meeting yesterday are: Harry Meyers, stage manager, M. B. Hilburn, tickets, placards and programs; Bob Stevenson, piano and organ; and A. C. Jackson, building officer.

The present plans for the show call for two presentations, the second show to follow the night after the first one. Three different directors are to prepare the cast, which is to consist of many of the well-known citizens of the city. Dates for the show are to be announced shortly.

Erskine Offers Lecture Here in Artists Course

John Erskine, the man who recently jumped into the literary limelight with his "The Private Life of Helen of Troy" and "The Private Life of Galahad", will lecture at the Tech gymnasium Friday night in his first appearance in this section of the Southwest. He comes to Lubbock under the sponsorship of the Tech artists course.

Being one of the most sought after speakers in America today, Erskine's visit to this section is of paramount importance to literary circles as well as the public at large. His lecture will be "Helen of Troy and Some Others."

Dr. Erskine chose educational work rather than literary work as a career and has made a big success in his chosen avocation. Despite the fact that he has been teaching since 1903, his list of books, poetry, criticism and editing is surprisingly large. He holds three degrees from Columbia University and is now a professor in the department of English there.

Dean of Character Actors in U. S. Dies

NEW YORK, Mar. 22 (AP)—Broadway today mourned Thomas A. Wise, shepherd of the Lambs Club, and one of the great character actors of the American stage.

Wise died in a hotel next door to the club of which he was a member. He died from the effects of a bronchial and heart attack suffered Tuesday.

SAN ANTONIO, Mar. 22 (AP)—Making its first double delivery the mercy plane maintained by the San Antonio Drug company to deliver medicines over South Texas emergencies, left here this morning for Big Foot and Cuero. Cuero reported a child bitten by a dog and requested serum for rabies while another child at Big Foot was bitten by a rattler. The calls were within five minutes of each other.

DAILY MARKETS

Cotton Markets

NEW YORK, Mar. 22 (AP)—The cotton market opened steady at a decline of 1 to 3 points in response to rather indifferent Liverpool cables and a favorable view of the weather map. Offerings were comparatively light. There seemed to be some trade buying and the market soon stepped up on a moderately active demand from commission houses and recent sellers. May advanced to 19.45, while October sold up to 18.90 or about 6 to 8 points above yesterday's closing quotations. The market was steady within a point or two of these figures at the end of the first hour.

Stocks And Money

WALL STREET TRADING
NEW YORK, Mar. 22 (AP)—The stock market continued its march to higher ground at the opening of today's session with buying again in large volume. Initial gains of a point or more were recorded by American Lined, Osmund and Arizona, General Asphalt and Postum. U. S. Steel common opened a point higher at 151. Radio opened unchanged at 155 but quickly moved up a point from that level. General Motors opened with a block of 5,000 shares at 179, up 11-4, and a new high record. Early trading was in enormous volume, with blocks of 5,000 to 15,000 shares quite common in the speculative favorites. U. S. Steel again moved forward with General Motors with some of the buying presumably influenced by the more cheerful tenor of the weekly trade reviews. Steel quickly climbed 13-4 points to 151 3-4, or 1 point below the year's high, and General Motors plodded forward to establish another new peak at 181 1-2, up 1-4 from General Motors. National Bolls Moss and Oil also moved into new ground, the last named opening with a block of 15,000 shares. U. S. CITY'S CRY FOR WATER BLAMED IN DAM BREAK

EXPERTS TELL STORY OF DISASTER CAUSE DURING INQUEST

(By Associated Press)
 LOS ANGELES, Mar. 22.—The city of Los Angeles and how it finally was forced to reach some 250 miles of desert to quench the thirst of its 1,000,000 residents was set forth today in the story of the St. Francis dam disaster as a civic impulse which indirectly caused the loss of more than 400 lives.

The story which began at Los Angeles county coroner's inquest yesterday into the deaths of 40 victims of the dam break. A parade of expert witnesses—engineers, survivors of the deluge and other observers, was begun with the testimony of William Mulholland, chief engineer of the Los Angeles water system, who built the ill-starred structure.

Weeps During Testimony
 Weeping as he told of his fifty years of work in building the aqueduct system, the engineer testified that he had done his best to construct a technically perfect dam across San Francisco canyon but eventually learned that his creation had certain defects. The site, he said, was a "hoodoo"—something that engineers could not explain.

Declaring the only ones he envied were those who died as the dam collapsed and sent a lake of water down on the sleeping Santa Clara river valley, Mulholland sorrowfully told the coroner's jury that he could not tell them why the structure broke.

Mulholland, builder of all 19 dams in the city's water system, and Stanley Dunham and James Phillips, two of his assistants, all testified that there was not the slightest indication of a break preceding the disaster.

Dynamic Affidavit
 Meanwhile water bureau officials disclosed that an affidavit had been made by a man who said he had overheard a conversation regarding a dynamite plot which might have been made against the dam. The

conversation overheard took place in Bishop, largest town of Owens valley, whose residents have been accused of numerous seditious dynamite plots during their long battle with the city over water rights. The date was March 4, about a week before the dam broke.

The cause of the inquest today was ordered by Coroner Frank transferred to the actual site of the disaster. The coroner's jury consisted of five engineers, two contractors, one appraiser and one insurance man have joined in questioning the witnesses appearing before them.

Five Persons Hurt In Mexico's Quake

MEXICO CITY, Mar. 22 (AP)—A checkup made by police today showed that five persons were injured by stones falling from houses rocked by an earthquake last night. Newspapers today described the shocks as the strongest in seven years. An official record of the tremors was not obtained since the station at Tacubaya were thrown out of order by the intensity. The movement lasted slightly beyond two minutes.

Audiences in the theaters were panic stricken and performers and spectators rushed to the street. Many women fainted.

GETTING UP NIGHTS

For Bladder Toler, Is Nature's Danger Signal. Columbus Minister's Wife Relates Experience.

Rev. W. H. Mitchell, 821 No. Park St., Columbus, Ohio, says in his own home paper, the Columbus Dispatch: "My wife was troubled seriously with bladder irritation until we used Lithiated Buchu (Keller Formula). She had to get up 6 to 8 times each night. Will gladly answer any letter."

Lithiated Buchu acts on the bladder as salts do on the bowels. Drive out foreign matter and decrease excessive acidity, thereby relieving irritation. The tablets cost 2c each at all drug stores. Keller Laboratory, Mechanicsburg, O. Locally at Bowen's Drug Store.—Adv.

THE PLAINSMAN
 Says:

That Girl on Broadway says will make wider men.

Ride up and down the streets of Lubbock almost any afternoon now and you'll see housewives, and oftentimes their wives, busily engaged in cleaning up their premises. Front yards and back yards alike are being subjected to the gentle massages of the rake and the hoe as spring sets in. The work of today will mean a prettier Lubbock tomorrow.

The Plainsman believes that Lubbock could adopt Plainville's plan of staging a "beautiful homes" contest every year. Our neighboring city to the north certainly shows the results of these annual friendly contests and presents the year around a most orderly and attractive appearance.

Sketch Crosvon and James are among the other South Plains municipalities which have adopted the "beautiful homes" plan, or something similar this year and The Plainsman will be badly fooled if the results of the maiden effort do not cause the citizens of these places to continue their efforts through the coming seasons.

A "beautiful homes" contest in Lubbock would be a fine thing for some men or women's club to sponsor if the Board of City Development is too busy with other and weightier matters. It is the opinion of this columnist that such a contest would add to the interest which is being taken in both men's and women's civic and study clubs here and at the same time be of more direct benefit than the personal or social connections in Lubbock or the plans of the League of Nations for world peace.

That Man on Avenue Q says more than 37 million packs of cards were sold in the United States last year but that fact comes as no surprise to the husbands of the nation.

The Morning Avalanche of a recent date announced blantly on its editorial page that "Prohibition is not an issue." It is statements such as that which keep and will continue to keep the nation in a turmoil.

Whether you are a dry or a dived-in-the-spool sort, in favor of some modification of the present laws regarding the sale of intoxicants you'll admit, if you are honest, that prohibition is an issue both in present politics and private life. One of the reasons the nation as a whole has never been able to "get together" on the prohibition question is because there is always some hard-headed person who persists in saying that it is not an issue.

Present conditions, as The Plainsman sees them, demand honesty from both the dry and wet camps if the prevailing chaos is to give way to orderly thought. Statements such as "Prohibition is not an issue" will never open the way to improving a situation such we face today in our courts and in our public and private life. Prohibition is an issue and when the two principal political parties gather in their conventions you and I will see that it is an issue—regardless of opinions to the contrary, whether they come from dry or wet partisans.

As stated in an earlier paragraph in this column spring is upon us and Lubbock people are busily preparing their lawns and yards for the coming summer months. Efforts are being made to make Lubbock a more attractive city—which gives rise to the question "What are we going to do about the unsightly parkways on Broadway, Texas Avenue and Avenue Q?"

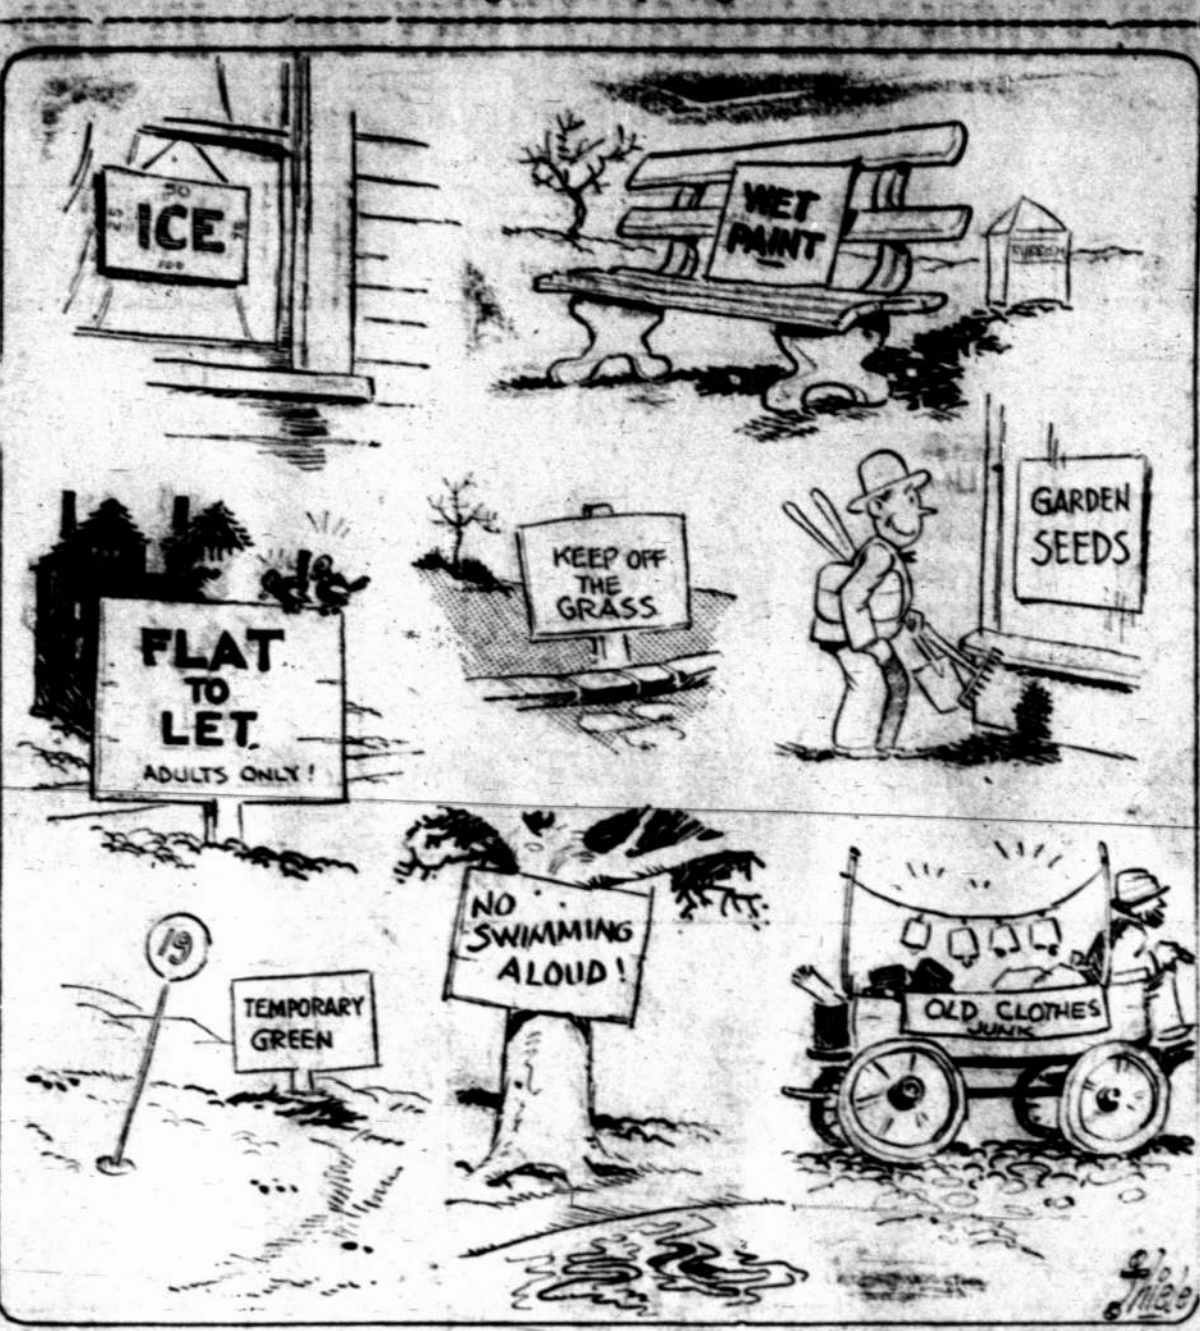

When the thoroughfares were paved, and the parkway spaces left between the right and left hand paving it was the plan to plant grass and shrubs and thus improve, materially, the appearance of some of Lubbock's principal streets. The plan was and is a good one, but the Plainsman first saw it and still sees it as an impractical one. Until Lubbock reaches the stage where it can support a park department grass and shrubs, even if they are planted, will never be kept up to such an extent that the plan can be carried to final completion.

For that reason The Plainsman favors the paving of the parkways on Broadway Avenue Q and Texas Avenue at the earliest possible moment. Paving certainly would be an improvement, both in looks and practical use, over the present situation.

The package came C. O. D. Ca father that was bad. It didn't take him long to find that they meant "Call on Dad."

Former Mayor Hyland of New York coined the word "graftocrat" in recent testimony during a transit investigation. Just to give everybody an even break, he should have made it "regraftocrat."

IN NEW YORK
SEE-SAWING
AND
BROADWAY

NEW YORK, March 23—There goes Kate.

My friend pointed her out to me at Broadway and Forty-second street.

"Kate who?"

But that's all there is; just Kate. During the years she has chattered along Broadway, always before her has been the vision of stardom. Always in her mind the big electric signs blazed with "Kate-in."

Thirty years ago she came here from a small town in central Illinois. She could sing well, could speak lines, could dance. She stormed the street. But there were so many others who could do these things just a little better.

She has appeared in perhaps a dozen shows in all these years—always a minor part. She had to take the minor parts to start with, and never could get beyond them. Perhaps you have seen Kate with a feather duster when the curtain rises on Act I. Perhaps you have seen her as somebody's aunt who walked on and off the stage twice.

Poor Kate—with 30 years of dreams, and still plugging along the old street.

But maybe Kate is infinitely happier now, she doesn't have to stand on her feet all day in Boyd's millinery back home. She isn't some farmer's wife out milking the cows every morning while a lazy husband snores. She isn't a scantily dressed girl, she is KATE!

Kate is one of the "bit" people—not that she has found the fangs of time and evil circumstances in her flash—one of those who act in this show and that, always in small parts or "bits." They are a strange clan among the strapping clans of Broadway.

A two or three-line speaking part they are elated. It doesn't look like much, but it is a big chance.

There are many whose ambitions go no farther than "bits." They have jumped just enough in amateur theatricals to equip them for the job, and they go serenely on about their trade. They are actors in the city, they are of the theater, and there are scores among them who would not trade with the stars.

GILBERT SWAN, Inc.

The original manuscript of "All in Wonderland" is to be auctioned off April 3. Who'll buy it we can't guess, but suggest it as good reading to the man who "told the Senate committee he saw nothing the matter with soliciting gifts from Harry Sinclair.

Jim Patten of Chicago testified he was a "dummy" contributor to the G. O. P. campaign fund, buying \$25,000 worth of Sinclair's bonds. Lots of others were dumb the same way.

Foreigner Is Game But Gunplay Costs

DALLAS, Mar. 22 (AP)—A young Czech-Slovakian who had read in novels about six-gun-toting in Texas found out in county court here yesterday that Texas has more than a "dummy" campaign fund, buying \$25,000 worth of Sinclair's bonds. Lots of others were dumb the same way.

Perjury Acquitted

It is customary to blame the failure of our courts to punish criminals efficiently on legal red tape and unscrupulous lawyers. But once in a while it appears that public indifference is at least partly responsible.

The other day a middle westerner was indicted for perjury. He had been a witness for the plaintiff in a personal injury suit. The authorities, determined to root out perjury, prosecuted him with fervor. He admitted he had lied, and offered only the extremely lame excuse that he "didn't know" it was against the law.

Yet the jury acquitted him!

Perjury is an evil that strikes at the very foundation of justice. It deserves swift, severe punishment. Yet here was a jury that seemed to feel that it need not be punished, that it was too unimportant to require a jail term for the offender.

The members of that jury can, if they wish, take credit for helping to undermine the integrity of the courts of their city.

COW AND DIVERSIFICATION

A study of the development of the dairy industry of Wisconsin shows what the dairy cow can do in stabilizing and developing a diversified agriculture. No animal of the farm blends so admirably into the cycle of diversification and provides a constant income as the dairy cow. She furnishes a market for crops that would have little or no value without her. In sections where alfalfa is raised, but no dairy cows kept to eat it, it sells for five to eight dollars a ton, while in sections where dairying is developed alfalfa hay is worth from twenty to twenty-five dollars a ton.

The price of the by-products of our mills has materially increased because the dairy cow uses this feed in the manufacture of milk. At one time bran was used as fuel in the mills of the northwest but now it sells from twenty-five to forty dollars a ton. It is plain that the dairy cow makes possible diversification and that is essential for a great agriculture. Agriculture has been experiencing a severe depression and discontent is found everywhere among farmers and especially those devoted to the single crop system. In 1921 Babson, the great statistician, was asked by merchants and manufacturers where to go with their goods. He answered them by saying they should go to dairy sections.

In 1870 Wisconsin farmers found themselves in hard straits, the wheat crop was no longer successful, their yields were about a bushel per acre and that is not unusual. Land was selling from twelve to fifteen dollars per acre; it was heavily mortgaged, buildings poor, and the income of the farm was very unsatisfactory. Many farmers left for Minnesota and Dakota to continue their wheat growing. The men did not like livestock and did not like to work more than four or five months in the year. Those that remained in Wisconsin turned their attention to dairy farming, making the cow their chief source of income. In round numbers the income from dairy products from Wisconsin constitutes over 51 per cent of the total returns of the farmer. Wisconsin has now well developed farms with good buildings, good schools, good roads. Land in dairy sections has advanced from twelve to fifteen dollars an acre to \$125 to \$300, depending upon the quality of the land, its location, and its buildings. The average yield of corn in the southern part of Wisconsin is about 40 bushels per acre which is greater than the average yield of corn in the state of Illinois.

The dairy cow not only enriches in building a rich soil, makes it easy to follow diversification, and provides a market for feeds which would be wasted without her, but she produces one of the best foods known to man.

—From the Hoard's Dairyman.

The dairy industry has hardly started in this section of the country, still we can note a wonderful difference in the condition of the country in a financial way. The dairy cow is doing her part to put over the diversification program, and when it is fully under way it will mean a greater and richer South Plains and we hope for the day when there will not be so much cotton, and the farmers' children will have an opportunity to attend school without having to lose so much of their time working in the cotton field.

An Ohio man is waiting for the right kind of atmosphere conditions to fly to Venus in a specially built rocket. Maybe he's doing it just for a little atmosphere. He has taken up slang. He hasn't announced any companions for the flight. It seems a shame he doesn't take Levine or Herlin or some lady who has had her appendix and tonsils removed. Oh, well it seems to us just a kind of a balmy voyage, anyway.

Well, now that the campaigns are under way, isn't it remarkable how many candidates are agreed that the laws should be enforced while they are on the books?

NEW BUSINESS ADDED HERE IN FUNERAL HOME

BYNUM BROTHERS OPEN MODERN UP-TO-DATE ESTABLISHMENT

Adding another substantial business to the city and offering one of the most complete funeral homes in this section, the Bynum Brothers Funeral Home will be formally opened to the public Friday and Saturday at 1304-06 Avenue H by L. H. and C. L. Bynum.

The home embodies all that can be desired in giving funeral comfort and service. Two reception rooms, conveniently furnished and draped a spacious funeral chapel, two private slumber rooms a large display room and modern-equipped operating room give the home adequate departments. Complete ambulance and funeral services are provided in the private office of the home.

The arrangements of Mr. and Mrs. L. H. Bynum and C. L. Bynum are directly above the home, being situated so that immediate attention can be given all cases at any hour of the day or night. The brothers are licensed embalmers of several years' experience and Mrs. Bynum cares for all women and children cases.

Modern equipment of the home consists of a Packard and Lincoln ambulance and a stock car sedan for funeral and coach service. The Lincoln machine will arrive here in a few days and will be fully equipped to handle all emergency cases. Its equipment consists of a first-aid emergency cabinet, a motor, hot and cold water, electric heater and electric fans. Both machines will be parked in front of the home at all hours.

The boys are the sons of Mr. and Mrs. S. K. Bynum, 1522 73rd street, and have lived in this section all of their lives. They came to Lubbock from Berger where a similar home has been operated.

TEXAN INVENTS PLANE HAVING NO TAIL SPIN

SAFETY IS CLAIMED AS MAIN FEATURE OF NEW MACHINE

(By The Associated Press)
SAN ANTONIO, Mar. 22.—A. L. Hackenberger, designer and inventor of this city, has perfected plans for an airplane, which he says will not tail spin or nose dive and which he believes will be four times as efficient as present machines.

Shape Is Changed
The machine is to have a single heart-shaped plane 18 feet from tip to tip. The plane narrows behind the cockpit and then spreads again at the rear into a flexible tail which will not only guide the ship backward and forward and up and down, but will also bank it from side to side. Two small motors are used. These are hung under each side of the plane well back and in such a manner that should they catch fire the flames will not touch any part of the plane.

By hanging the motors in this position Hackenberger hopes to eliminate all of the resistance caused by the flow of wind from the propeller against the body of the ship. The single wing will be rather thin and will not have the deep chamber necessary in a narrow wing which supports a great deal of weight for its size. This construction, Hackenberger says, will so lighten the plane and reduce resistance that he will be able to obtain as much efficiency from two 50 horsepower motors as he would from a 450 horsepower motor mounted in the old way where the propeller blast blows against the plane.

Because his weight is well back of the landing wheels he does not believe that there is any danger of a nose dive.

Fuselage Resistance
The fuselage is carefully streamlined to avoid resistance and is designed to serve as a hull in case the ship wants to land on water.

Another feature of the plane is a two control system which enables the pilot to drive with his feet or his hands.

Two fins behind each motor are operated by the hands. These are designed to give vertical and horizontal changes in direction. In landing these controls, as well as the tail which is operated by an ordinary stick can be used to check the motion of the ship.

Hackenberger has received many offers to develop his plans, but to date has not made any agreement for the actual production of a test plane. Army flyers who have examined the plans have approved portions of them.

ITALIAN MASON LEADER, EXILED ESCAPES ISLAND

(By The Associated Press)
MENEON, France, Mar. 22.—Information from Italy says that Domenico Torrigiani, head of Italian Free-Masonry, has accomplished the difficult feat of escaping from the Lipari Islands.

Torigiani, who was condemned to five years confinement on the islands last April as an enemy to the Mussolini administration, is believed to be in Corsica.

All ships except police vessels are barred to the islands and it took four months for Torrigiani to effect his escape. Loyal Masons are understood to have aided him in getting away.

The police vessels call at the islands once a week with food and drink for the prisoners who exist in medieval conditions. Many of the cells are under water at high tide and the prisoners are obliged to bail water out of them for three hours through an upper window to keep themselves from drowning.

Ex-Pennsylvania Governor Is Dead

CHESTER, Mar. 22 (AP).—William C. Sproul, 57, former governor of Pennsylvania, is dead at his home near here.

The end came last night after an illness of more than a year from a complication of diseases.

The apex of his political career came in 1920 when his name was placed before the republican national convention in Chicago for the nomination to the presidency. After receiving 86 votes through seven ballots he withdrew to permit the nomination of Warren G. Harding and refused to consider the proffer of any other office.

FALL DISPUTES BOARD'S RIGHT TO QUERY HIM

DEPOSITION IN TRIAL OFFERED BUT NOT IN SENATE QUIZ

(By The Associated Press) EL PASO, Mar. 22.—Albert B. Fall, former secretary of the interior, is willing to testify by deposition in regard to Teapot Dome trial scheduled to open in Washington next month, but he does not believe it fair either to him or to Harry Sinclair, his co-defendant, that he should be asked to testify before a sub-committee, a plan advanced by the senate Teapot Dome investigating committee.

As to the suggestion of Senator Gerald L. Nye, chairman of the Teapot Dome investigating committee, Mr. Fall is not to be heard in his testimony, Mr. Fall said in a statement last night characterized such a procedure as improper and unfair.

"There probably would be legal ability enough among the committee," Mr. Fall said, "but it would be improper and unfair for me to give testimony before that committee asking questions of every sort, accompanied by newspapermen ready to spread it to the world while I am one of the principals in a case which is pending."

Mr. Fall contended that such testimony would be unfair to his co-defendant, Harry Sinclair, or himself and in any event it would be "irregular."

"The honorable senators can travel over the country if they wish, but getting me to testify before matters connected with the trial are settled is something different," he asserted. Mr. Fall also contended that testimony before a committee would show lack of respect to the court in which the case is scheduled to come up.

Physicians attending Mr. Fall declare he is too ill to appear for his trial with Harry Sinclair in Washington on April 2.

Sinclair Counsel Raps Fall's Plan

WASHINGTON, Mar. 22.—The offer by Albert B. Fall to make a deposition and allow the trial of Harry F. Sinclair to get under way April 2 will be opposed by George P. Hoover, counsel for Sinclair. "It would be difficult to examine Fall in advance of the trial," said Hoover, "and we will oppose such procedure. Besides not being practicable to examine Mr. Fall in advance of the government's presentation of its case, it would be impossible for us to do it now before April 2, the day set for the trial." "If the court should sever the cases of Fall and Sinclair and then grant a continuance to Sinclair or continue the case against both of

COOLIDGE AGAIN DENIES PLEA IN "DRAFTING" PLAN

(By Associated Press) WASHINGTON, Mar. 22.—President Coolidge was on record today with a declination of the first formal request that he disregard his personal desire to retire and stand for reelection for a second elective term.

Whether this will put a stop to persistent talk in some Republican circles of "drafting" Mr. Coolidge as the nominee at Kansas City in June remains to be seen.

The president made known his position yesterday in a letter from his secretary, Everett Sanders, to L. C. Hinkle, chairman of the Wyoming Republican state central committee, which had adopted a resolution requesting the executive to "waive his personal preference and consent to continue for an additional four years that leadership which has brought honor and prosperity to this country."

"The president has received your letter of the 17th enclosing a copy of the resolution adopted by the Republican state committee of Wyoming on March 10," the letter read. "While he, of course, very greatly appreciates and thanks you for the expression of confidence, the president directs me to say that he must decline to grant the request of the committee."

Insurgent Leaders Slain In Vera Cruz

MEXICO CITY, Mar. 22.—Dispatches from Vera Cruz today said two prominent insurgent chieftains who have been operating in the state for years were shot and killed by a federal patrol in the streets of Orizaba. The men, Alejandro Kursain and Atlano Besiche, were slain when they did not heed orders to halt.

Spain Returns To League Of Nations

GENEVA, Mar. 22.—Official return of Spain to the League of Nations was announced today by Don Pedro Sangro, Spanish representative.

The announcement was made at a session of the league committee on child welfare. Don Pedro said that the decision to return was reached at a cabinet meeting in Madrid today.

Arguments on Fall's motion to continue his trial because of ill health were called for before Justice Jennings Bailey in the District of Columbia supreme court this afternoon. If the motion is granted the government will ask that Sinclair be placed on trial alone April 2.

Five Debaters For St. Edwards Named

AUSTIN, Mar. 22.—Five debaters have been chosen to represent St. Edwards university, Austin, during the present season. Prof. A. J. Bletter has announced.

They are: Elmore Borchers, Laredo; James McCloskey, San Antonio; Joseph Keogier, Waterloo, Ia.; John Eagan, Chicago; John Sulak, La Grange.

Institutions to be met include Baylor university, Arkansas college, Abilene Christian college, Colorado college, McMurry college, Howard Payne college and Simmons university.

Two questions will furnish the contentions. One is "Resolved that Congress should enact legislation embodying the principles of the McNary-Haugen bill," the other, "Resolved that the United States should cease to protect by armed forces capital invested in foreign countries, except after a formal declaration of war."

Many Applications For C. M. T. C. Made

SAN ANTONIO, Mar. 22.—Applications for assignments to citizens' military camps for 1928 have been made by persons wishing to go to Fort Sill, Okla. Fort Sam Houston has received 300 applications. Each camp will train 1,000 men under present plans. Smaller numbers of applications have been received for Fort Bliss, Camp Stephen D. Little and Camp Logan.

Aged Widow Weds Butler Secretly

NEW YORK, Mar. 22.—Mrs. J. Pierpont Edwards, wealthy 73-year-old widow, was married here two weeks ago to John Burden, 43, who had been her butler, but the news did not become public until today.

Mrs. Edwards was the widow of a former United States consul general to Great Britain and is socially prominent. Burden served in the black watch of the British army during the world war.

Mrs. Edwards is an aunt of Larry and Monte Waterbury, leading polo players.

Fits Into Case

NEW YORK—A curious person noted that Charles M. Schwab was the only man wearing button shoes when the Aquitania arrived from abroad. "Well, I'll tell you," explained Mr. Schwab. "I wear them because I don't have to button them myself. I get someone else to do it for me. Good reason, eh?" Also Mr. Schwab never goes to a tailor. He's found one just his size and telephones him when he wishes a new suit.

Winner Of Medal

NEW YORK—The winner of the President Calvin Coolidge horticultural medal at the international flower show is a bronze rose. It has a golden-yellow center shaded to a rich scarlet at the edges and is veined delicately with magenta.

Still Going Good

NEW YORK—Having crossed the Atlantic 112 times, Dr. Philip G. Peabody of Boston, 71, intends to add still more to the 300,000 miles of ocean voyaging he has done in the last 36 years. In the last year he has made three round trips to Europe.

Old Glory Waving

OTTAWA—The United States flag has been flying over a wood preserve on the Moisie river, Quebec, owned by S. Adam of Boston. In answer to a protest Dr. F. W. Gilday of Montreal has been informed by the under secretary of state that there is no law prohibiting it.

Sensible, Anyway

WASHINGTON—For president, some one who'll run on the sole platform that he will repeal a committee of the laws of the United States. Such is the choice of Senator Tydings of Maryland.

CHINESE MURDER HELD POLITICAL REPRISAL MOVE

(By Associated Press) TIENTEIN, China, Mar. 22.—Diplomatic circles here today viewed the murder of General Chang Shao-Tsung, former premier and an outstanding military leader, as a political assassination.

General Chang was shot by three unidentified Chinese last night in a Chinese restaurant on Chinese territory while he was attending a dinner and a "sing-song" girl entertainment. The men escaped after the shooting. One suspect was arrested later.

Since fleeing from Peking with former President Li Yuan-Hung in 1923, General Chang had been living in retirement in the British

concession here. He was known to have connected with General Peng Yu-Hsiang, commander of the national peasants army, and the Koumintang. From this it was deduced in diplomatic circles that he was the victim of a political assassination owing to alleged recent anti-Mukden activities.

Birthday Cakes Are Grollman's Feature

Birthday cakes, white icing and embossed with the traditional pink of anniversary occasions, were distributed to women who called today at the opening of Grollman's initial birthday sale. Gracing the front counter of the store is a grand three tiered birthday cake on the top of which burns a single candle, the cake being some four feet in height.

This sale marks the first anniversary of the formal opening of Grollman's store in Lubbock.
