Local Plans for Bicentennial Celebration Moving Ahead

Formal application for designation of Rockport as a Bicentennial city has been submitted to Washington headquarters through the Texas State Bicentennial Commission, along with supporting data and letters of approval from Rockport and Aransas County officials, it was reported by Dr. Jerry Shaw, chairman of the local Bicentennial Commission, at a meeting last Thursday night at Live Oak State Bank.

As soon as the application is approved by the state commission it will be forwarded to Washington, he added. If approved, as appears likely, an official Bicentennial flag will be sent to Rockport which probably will be flown at City Hall through 1976, the Bicentennial year.

Bill Christian, chairman of the planning committee for Rockport SeaFair community festival scheduled for October 11 and 12, appeared at the meeting Thursday to describe plans for the event which is expected to become an annual affair. It will be designated as a Bicentennial event with special emphasis on the patriotic theme, he said. Christian distributed SeaFair bumper stickers and urged that as many as possible be used to advertise the celebration.

He reported plans are progressing satisfactorily. Main attraction of the SeaFair will be a group of booths in the Navigation District area adjacent to the Ski Basin. Emphasis will be on various kinds of seafood which will be offered for sale by local organizations. Also there will be an art exhibit and displays of various kinds of handicraft. Included in plans for the event are a street parade, sailing regatta, skiing contests and a street dance.

Christian explained the SeaFair project will fit well into plans for a community-wide celebration of the Bicentennial, and he expressed the hope that every organization and every individual in the Aransas County area will participate in some way. He stressed that SeaFair was not planned as a money-making venture, but that local organizations will have an opportunity to make some money to support their own activities.

At the Thursday night Bicentennial meeting representatives of a number of local organizations described their plans to participate in the year-long celebration. A Copano Bay-Lamar women's group is enthusiastic about developing an area map for visitors which would designate spots and structures of historical interest. It was proposed that this take the form of a booklet with photographs and descriptions of old buildings and sites, with a center spread devoted to a map of the area which would be keyed to the photographs.

Among the Bicentennial proposals included with the formal application for designation of Rockport as an official Bicentennial city was purchase and restoration of historic Fulton Mansion. It is hoped that this historic building can be incorporated in the Texas state parks system. A letter from the local Bicentennial Commission to present owners of the building urging them to cooperate in this project was read at the meeting Thursday night.

Other proposed projects listed in the formal application for Bicentennial recognition was permanent signs marking other old buildings, including the Gladys Gibson home and the site of Rockport's first tannery which existed in 1865. Also a display of artifacts and other material related to Rockport's early days is planned for the Aransas County Library, as well as a special shelf for books about his area, the state and the United States.

The Bicentennial Commission's application for recognition also pointed out that the Rockport Art Festival scheduled for the July 4th weekend this year and next would be designated a Bicentennial event, as would be the Rockport Home and Garden Club's annual show. The club also will stress planting of red, white and blue flowers in local parks.

Aransas County Ministerial Association plans to display posters illustrating America's freedom of worship. Bicentennial scholarships will be awarded the valedictorian and salutatorian of Rockport-Fulton High School during the Bicentennial year.

Members of local service clubs are being urged to make $5 birthday contributions to the library for purchase of books appropriate to the Bicentennial. The Rockport American G.I. Forum is planning a Latin heritage street dance. Also, a 1776 theme costume ball is planned for the Paws and Taws building. The local LULAC chapter will conduct a Festival U.S.A. parade and LULAC Mexican Independence Fiesta Sept. 16.

There will be a USA sailing festival sponsored by the local sailing club with emphasis on youth this week as well as a two-day class boat regatta in conjunction with Rockport SeaFair October 11 and 12.

It also is planned to improve facilities at local city parks in memory of veterans of all past wars. Included in the proposals are a third baseball field, bicycle path and lights for tennis courts.

Additional Bicentennial projects include presentation of flags to local public schools by Young Homemakers of Texas, as well as an essay contest on "What America and Its Freedom Means to Me" with a savings bond to be awarded the winner. The flags already have been ordered and will be presented in September.

Aransas County Riding Association has pledged its participation in parades and other special events. Representatives of Veterans of Foreign Wars offered cooperation and participation in the Bicentennial especially with reference to decorations. Also, Aransas County Art Association is working on a plan to provide an art school scholarship in recognition of the Bicentennial year.

Rockport Business and Professional Women's club will stage a Bicentennial style show next spring and will present a scholarship to the outstanding senior girl at Rockport-Fulton High School. In addition, the club plans first, second and third place recognition to students in grades one through eight in the following categories: art, drama, biographies, essays, television scripts of some historical event, and pageants of the past, present or future.

In addition to plans for specific events sponsored by local organizations, a number of individuals have submitted suggestions for various projects related to the Bicentennial theme, according to Dr. Shaw who urged that other individuals and organizations contribute their thoughts on how to make the Rockport Bicentennial year outstanding in the history of the community.

One of the first Bicentennial projects completed was painting of the Chamber of Commerce building red, white and blue. A similar treatment is planned for the band shell in Navigation Park, with donated materials and volunteer labor, Dr. Shaw said.

ART '75 IN ROCKPORT — Ski Basin park will be the scene for the 1975 Rockport Art Festival. The annual event attracts some 8,000 art buffs and over 130 artists and craftsmen, complete with sun, fun and swimming. Sponsored by the Rockport Art Association, the exhibits may be seen Saturday and Sunday, July 5 and 6.

Man Dies of Gunshot Wound

Earl Strickland, 43, died Sunday in a Corpus Christi hospital from a gunshot wound suffered March 31 in Rockport.

Vernon Moore of the Nueces County medical examiner's office said Strickland died of a gunshot wound in the throat.

At the time of the shooting, Rockport police said Strickland was shot following an argument with another man at Strickland's home in Rockport.

According to police, Clarence Marks, 54, of Rockport, was arrested as a suspect in the shooting and was placed in Aransas County jail under $25,000 bond, charged with criminal attempt to commit murder. Marks later posted bond and was released.

On Monday, June 30, Chief of Police James Craigmile said local authorities were waiting for a copy of the Nueces County medical examiner's finding in Strickland's death, at which time the local authorities will reassess the case and presumably prepare a new charge against Marks.

Brush Fire Extinguished

Quick and efficient action on the part of members of the Rockport Volunteer Fire Department and the Fulton Volunteer Fire Department prevented what could have become a damaging brush fire in West Terrace Subdivision on Monday.

Using four pieces of fire fighting equipment and battling the flames for almost two hours, the volunteer firemen were able to bring the blaze under control and prevent damage to any of the homes, although in several cases the flames had come close to a number of houses.

It was another example of the fine work performed by volunteer firemen in this area every time they are called on to fight fire.

WOMAN SENTENCED

Tana Renee Murillo was found guilty in 36th District Court here last week after a plea of guilty to charges of aggravated assault and attempt to murder her mother and father. She was found guilty by the court.

She was sentenced by Judge John Miller to 10 years. However, upon the recommendation of Sheriff Bob Hewes, Texas Ranger Jim Peters, District Attorney John Flinn and Adult Probation Officer Don Cureton, the sentence was probated with the provision that she consent to continued drug treatment until discharged by the Houston Center to which she will be returned.

She voluntarily committed herself to treatment to the Houston Center, a United Fund Agency, on April 22 where she remained until her trial was called.

The trial of William A. Hayes who is charged with the murder of Lee Golibart, was passed for later setting.

Judge Miller said the medical records of Golibart who was in a hospital for many days before he died of a beating were not available for the trial.

ALPHA-OMEGA PLAYERS are shown in a scene from Mark Twain's "The Dairy of Adam and Eve" which will be presented Friday night in Rockport-Fulton High School auditorium.

Play Offered Friday Night

"Today I named the flyers, crawlers, swimmers, growlers, and hoppers. Further note: I, Adam, am the sole and single man."

But then there was Eve, and that's when the trouble started.

Mark Twain's special talent was his humor, a humor that came from his penetrating insights into the foibles and follies of human nature. He turns on this unique talent full force in "The Diary of Adam and Eve," as he examines man's first encounter with woman.

Rockport residents will have an opportunity of watching the nation's most active repertory theater in performance when the Alpha-Omega Players present "The Diary of Adam and Eve" this Friday night at 8:00 p.m. in the high school auditorium. The show is a musical comedy version of Mark Twain's short story, with songs by the composers of "Fiddler on the Roof."

The role of Adam will be played by Allyn Winslow, of Bedford, Massachusetts. Allyn is a graduate of Austin College, in Sherman, Texas. He has appeared in numerous productions, ranging from Shakespeare to musical comedy.

Eve will be portrayed by his wife, Alex Bond Winslow, of Louisville, Kentucky. She attended Vassar College, and graduated from Jordan College of Music. In addition to her stage work, Alex worked in radio and advertising. She and Allyn were married last year, while on tour with Alpha-Omega.

Kerry Phillips, of Port Neches, Texas, will play the fast-talking Snake. Kerry is a graduate of Lamar University, where he received two Best Actor awards during his college career. Like the Winslows, Kerry is a veteran of several hundred performances for Alpha-Omega Players.

Musical accompaniment will be provided by Elaine Gerdine, of Rockport.

Tickets are on sale from now through Friday at the Chamber of Commerce and the Alpha-Omega office, on Austin Street. For ticket information, call 729-6274.

to lend a patriotic atmosphere to the court area.

Dewey pointed out that a feature of the tournament, as has been true in the two previous tournaments, will be awarding of the Fred Whittle Memorial trophy to winners in Division A. The trophy, suitably engraved, will be held by the winners for one year until the next tournament is played.

The trophy honors the memory of Col. Fred Whittle, retired Air Force officer who devoted the last years of his life to promoting tennis in the Rockport area, especially among younger players, many of whom he coached and encouraged.

Last year's winners of the Whittle trophy were Willie Rinche and Janet Langham. In 1973 winners were Kathy Langham and Gary Kleypas.

First round doubles partners will be picked by lot at random without reference to relative skills. Also, after each match partners will be switched so no player has the same partner in more than one match, and every player will have an opportunity to play in at least three matches even though he loses in all of them.

Winners in the first round of play will be retained in Division A for the next match. Losers will be dropped to Division B. Those who lose in this division will move into Division C.

The entry fee will be $5 per person. The club will supply all balls for the tournament, as well as hors d'oeuvres for the tournament draw party at the Rockport Racquet and Yacht Club restaurant Friday, July 18, at 7 p.m. Cocktails and dinner will be available at that time. In addition, free beer and tamales will be provided courtside Saturday evening while tournament play continues under the lights. Because more courts are available at the Racquet Club, including two lighted courts, it will be possible to play all tournament matches at the Racquet Club this year.

Trophies will be awarded Sunday afternoon at courtside. The tournament will be limited to 64 players -- 32 women and 32 men, so early entries are urged by Dewey. Entries will be made with John Gutzke, Racquet Club teaching professional, in person or by phoning him at 729-0880. Deadline for entries is July 17.

Participants in the tournament are limited to property owners or residents of Aransas county and/or members of Rockport Racquet Club or Key Allegro Tennis Club.

Social Security Cost-of-Living Raise Will Be in Checks Delivered in July

A cost-of-living increase in monthly social security benefits will be included in checks delivered in July, according to social security officials here.

The increase will amount to 8 percent for most people getting social security payments. It is the first benefit raise under a cost-of-living provision added to the social security law in 1972.

"People getting social security checks don't have to do anything to get the higher payments," a spokesman said. "The increase will be added automatically."

The increase is based on the rise in prices from the April-May-June quarter of 1974 to the January-February-March quarter of 1975.

With the cost-of-living increase, average social security retirement payments to retired workers will go from $184 to $200 a month. Average social security disability payments to disabled workers will go from $207 to $224 a month. Average social security survivors payments to widowed mothers with two children in their care will go from $439 to $474 a month.

Social security pays monthly benefits to almost 31 million people. The payments are funded by social security contributions from employees, employers, and self-employed people.

Employees and employers contribute 5.85 percent each of the first $14,100 of yearly earnings from jobs covered by social security. Self-employed people contribute 7.9 percent. "Those figures remain unchanged," the spokesman said.

Under the law, future automatic cost-of-living increases in social security benefits will be based on consumer prices in January-February-March of one year compared to the same period in the next year.

The Social Security Administration is an agency of the U. S. Department of Health, Education, and Welfare.

SOCIAL SECURITY SERVICE AT BANK

Satisfaction over response of local Social Security check recipients to First National Bank's recent invitation for them to take advantage of a direct deposit program was expressed this week by officials of the local bank.

"A surprising number of those who receive these checks have come in and made arrangements for direct deposits to checking or savings account, thus avoiding the trouble of bringing in their checks each month," Pat Blackwell, assistant cashier who handles the program, reported.

She explained that all that is necessary is for the check recipient to sign a form at the bank authorizing the bank to deposit his check automatically after it is received from the government. Of course, the recipient also must request the federal government to mail his check to the bank instead of his residence each month, she added.

Advantages of this program include elimination of the necessity for a trip to the bank and greater safety because the possibility of loss, theft or forgery of the check is eliminated. It is especially desirable for those who may be traveling or otherwise spending time away from home.

Also, if the deposit is made to a savings account the money starts earning interest at once. A receipt for the deposit is mailed to the recipient immediately, providing a permanent record of each deposit.

Mrs. Blackwell pointed out that similar direct deposit arrangements can be made for any number of different kinds of payments made by mail on a more or less regular basis. This includes such items as active and retired military pay, dividends on securities of various kinds, pensions from former employers, teacher salaries and pay checks from various governmental agencies, including federal, state, county and municipal.

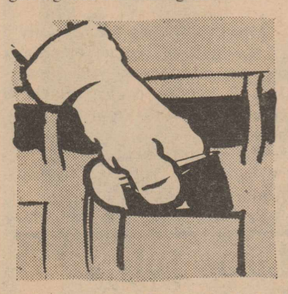

Later this year the federal government plans a campaign to inform Social Security recipients of the advantages of direct deposits. However, it was stressed that the program is entirely voluntary, and must be individually authorized by check recipients to put it into operation.

THE FAMILY LAWYER

Mittens for Pickpocket

Not long ago a man found guilty of picking pockets was granted probation on the condition that he wear mittens whenever he went out in public during the following five years.

This order suggests the wide range of possibilities that may occur to a sentencing judge when he allows a convicted person to go free on probation. The idea, of course, is to keep the culprit from getting into trouble again.

As a matter of law, the judge has considerable leeway in setting conditions. Besides the usual requirements, such as avoiding association with criminals and keeping in touch with a probation officer, special limitations have also been held lawful.

Examples:

1) that a bookie should not have a telephone in his home;
2) that an assaulter should not go near a certain woman; and
3) that a labor "goon" should not be eligible for union office.

On the other hand, the law is leery of conditions that are too freakish (because they are hard to enforce) or too severe (because they are hard to live up to).

Also, there are constitutional limits that must not be transgressed.

In one case, a court granted a man probation on condition that he donate blood to the Red Cross. But this condition was thrown out on appeal because it called for "invading the physical person in an unwarranted manner."

Equally invalid was a condition in another case that the felon, who was a promising athlete, not play any college or professional basketball. The appellate court said that such a restriction, rather than keep him out of trouble, was more likely to get him back in.

Jolly Green Thumb
BY MARY FUREY CRIMES

Quiz time, kids.

What is it that makes shellac, extends a pound of hamburger to feed six, and is the basis for many plastics you use around the house, as well as edible food? Oh you guessed, huh?

Sure, it's the soybean.

Interest in these little wonders has become so widespread in recent years that many suppliers now offer them for home gardens. Needless to say, these would be the edible varieties. (Those that are turned into shellac, glue and plastics are commercially grown beans.) You buy yours from seed stores and out of catalogs. They're called "Kanrich," "Green Wonder" and "Giant Green" and are bush beans a lot like limas.

One reason for the popularity of soybeans is their high nutrition content. The health food crowd is big on soy flour, soy milk and other by products of the beans. They blend into an amazing variety of dishes and are good cooked like shell beans, with a bit of meat for seasoning. You'll find the bean pods tough to handle, but not if you steam them for a few minutes. When beans pop out, they can also be canned or frozen for later use.

If you're of a mind, you could even make your own soy sauce. Oriental cookbooks have recipes, but this is more do-it-yourselfing than most people are into. The same book would have ways to make tofu, a delicious-tasting curd of multiple uses. This could be a great way to introduce versatile soy to your family.

Soybeans like warm soil and sun. Plant with eyes modestly downward, then thin and space plants two feet apart. When blossoms appear, get a good hormone spray to hold them. It takes a little over one hundred days from planting to harvest, but the wait is worthwhile. They're a delicacy for which we can bow to the inscrutable — but good crop producing — East.

Guerrero And Saucedo Unite

Miss Rachel Marie Saucedo of 922 Heron and Ruben T. Guerrero of Fuqua and 2nd Street, received the Holy Sacrament of matrimony on Saturday, the 21st of June at 2 p.m. Father Harold Palmer performed the double ring ceremony at the Sacred Heart Catholic Church.

Their parents are Mr. and Mrs. Juan Saucedo and Mr. and Mrs. Timoteo Guerrero of Rockport.

Given in marriage by her father, the bride wore a princess style silk organza gown with Italian lace featuring a high neckline and collar edged with cluny lace and puffed sleeves enhanced with pearls. Lace edged the A-line dress and pearls and lace trimmed her bodice. Her A-line dress ended with a cathedral length train of re-embroidered French lace and pearl-seeded tips and sequins. Her camelot cap with seeded pearls and crystals held her illusion veil and her long alencon lace-edged mantilla. She carried a bouquet of crystal flowers and seeded tear-drop pearls and greenery with a venise edged lace background, with a cluster of hanging white satin streamers.

The groom wore a white tuxedo with black pants. He wore a white carnation with a white rose in the center.

The mother of the bride wore a beige floor-length dress with a v-cut neckline and gathered at the empire waist with two gold buttons. At church she wore a beige matching cape with white matching accessories. She wore a white orchid with pink trimmings. The father of the bride wore a beige jacket with black pants and a white carnation boutonniere.

The mother of the groom wore a baby blue floor-length dress with white lace with white beaded pearls. She wore white matching accessories. She wore a white orchid with blue and white ribbons. The groom's father wore a baby blue tuxedo with a white carnation.

Maid of honor was Miss Anna Saucedo, sister of the bride. She wore an empire gown of white organza dotted swiss with a knee-high ruffle and puff see-through short sleeves. She wore a shoulder length white veil which was held by a crystal headpiece. She carried a bouquet of carnations surrounding a cluster of white roses with blue and white trimming. Bernita Kinsey nc

The Kinsey Report

Many persons who have retired and moved to the Rockport area during the past few years are men and women who have had distinguished careers in such fields as medicine, science and business.

One such man is Rene Berglund, who with his attractive wife, purchased a home at 4 Aloha Lane in Key Allegro six months ago.

Berglund retired two years ago following a brilliant, 26-year scientific career with the NASA Manned Spacecraft Center at Houston.

An indication of his achievements can be gained from the following quote from a scientific publication:

"He managed the Advanced Projects Office where, in addition to heading up the Space Station team, he was responsible for directing the Center's activities in studies and analyses of potential or candidate advanced programs.

"For his dedication, ingenuity and hard work in these areas, Berglund received the coveted NASA Incentive Award for Space Station Design Concept.

"He also was awarded a U.S. patent on a Space Station Design. In addition, he received the Outstanding Performance Award in 1966 and 1969."

Berglund has written numerous technical articles. Upon his retirement he was awarded the Silver Snoopy Award, the highest award given by astronauts.

The scientist and his wife had come to the Rockport area the past five years for vacations, and when he decided to take early retirement, they decided to make this their permanent home. They fish, play tennis and enjoy the good life this area offers.

Thinking Slim

BY JEAN NIDETCH

Have you ever heard a woman say she has been so happy since she got married that she has gained 20 pounds?

Is marriage fattening?

What about the grandmother who says she enjoys her grandchildren so much that she eats right along with them and gains weight?

Are grandchildren fattening?

Is Thanksgiving fattening? Is Christmas time fattening? Are birthdays fattening?

Only, in all the cases mentioned above, if we want them to be.

Since an early age we have been accustomed to having a birthday cake. If eating that cake provides us with guilt and excess weight, then the fact that it is our birthday is not a sufficient excuse.

There is no need for vacations to be fattening if we don't want them to be. I just spent a wonderful week vacationing in Hawaii, and I didn't gain weight.

Dining out is not an excuse to gain weight.

Sometimes a friend says to me, "Oh, I can't eat in an Italian restaurant. I'm on a diet."

Well, that friend forgets there are things other than pasta on Italian menus. They are masters at cooking veal. Chinese restaurants serve marvelous boiled shrimp. French restaurants serve marvelous chicken and beef. All that is necessary is to specify that you don't want sauces or butter.

Restaurants are very cooperative these days when so many of us are weight conscious.

Watch what a thin person eats in a restaurant and how often the fork goes to his mouth. He might order a rich dessert, but he holds his fork as if it were hot. He puts it down and listens to the music or has a conversation.

The compulsive eater holds the fork like it's a weapon and shovels the food in. He gets so angry when he sees a thin person order a parfait, he never bothers to notice that the thin person barely touches it.

Do you realize that all overweight people have a very dangerous weapon attached to their arm? The hand that guides the food to the mouth in a never ending stream.

What is springtime?

To the fat person it is the end of winter and the dreaded thought of "How do I get through the next few months without the protection of a coat?"

To the thin person, springtime is the beginning of summer.

Camera Makes Photo History

College Station -- A few snaps of the family camera and an accurate photographic history of the home is available, Denise Beigbeder, housing and home furnishings specialist, said this week.

"A series of exterior photographs can help record improvements--painting, landscaping, remodeling--since the house was purchased," this specialist with the Texas Agricultural Extension Service, The Texas A & M University System, said.

Photos can also be a guide for future maintenance if the record includes shots of critical construction points--plumbing and wiring, for example. Problem areas can be pinpointed without tearing down the whole wall, she said.

If it's time to sell the house, seasonal photographs can often help prospective buyers visualize the property as it looks throughout the year.

"A simple camera is sufficient--wide angle lens is better. Shoot from several angles, front and back, and be sure to include the background and parts of adjacent properties as well. Get some close-ups of especially attractive areas and fine details."

LET FREEDOM RING!

Bearing the inscription, "Proclaim Liberty throughout the land unto all the inhabitants thereof!", the Liberty Bell summoned the people of Philadelphia to the first public reading of the Declaration of Independence. Although it has not been rung since it was cracked in 1835, the ringing tone of Liberty's first call to Freedom still echoes from our highest mountain tops, across our plains and rolling hills to the shores of the oceans; and is heard by every nation on Earth. May we continue to stand as a strong and united democracy, proclaiming Freedom and Liberty to the World. Long may the bell of Freedom ring!

AARP Meets

The regular A.A.R.P. meeting was June 25 at the Recreational Building at the Airport. Hiram Willets gave the invocation followed by the Pledge of Allegiance to the flag.

Zollie Glass, president, brought the meeting to order. He announced the Lifetime Learning literature had arrived which the speaker from last time had told about and it was urged that members take copies and study them to find out if and what they would like to see studied by the Club.

Mrs. Ruby Rasco is chairman of this committee and she said she was going to put up a box and wants members to write out what they would like and put it in the box.

Glass announced that there will be an insurance representative from A.A.R.P. Dallas office at the next meeting on July 9 so make notes to ask him questions about insurance. At the 13 of August meeting the program will be on physical fitness and there will be someone on hand to take blood pressure.

The program chairman, Mrs. Dorothy Kaptor, introduced Mrs. Esther Decker, Red Cross representative for this county, and she presented Teresa Rivera who told what could happen here in case of a hurricane and how shelters and help comes from the Red Cross.

Then Vicky Frederick gave a talk on nursing and health care and the need for volunteer nurses and how they want to get the names lined up in case of need. Esther Decker has quite a list already. In case of disaster these nurses work in 8 hour shifts, with three nurses to a shelter which is open 24 hours a day. All kinds of help will be needed. Material on hurricane disaster, etc., was passed out.

Then it was time for the covered dish luncheon which everyone enjoyed. There were 61 members present and 7 guests. After the luncheon Mr. Roth showed an ambulance and told about the new ambulance service he has set up here. He said he has oxygen and everything needed for an emergency on hand in it and competent people to run it.

Fix-It Tip

When an automatic washer vibrates too much it causes excess wear to the parts. It also throws the load of clothes off balance causing the off-balance switch to turn off the washer.

First, determine that an off-balance load isn't actually at fault. Next, check the washer level. Place a carpenter's level diagonally across the top of the washer.

The washer has threaded feet that can be adjusted up or down until it is level. Once level, be certain to tighten the lock nuts on the feet to keep them in adjustment.

And don't forget the obvious when the washer doesn't run. Is it plugged in?

OUTDOORS 'n things

by L. D. NUCKLES

When anything is said about boating safety most people think of the Texas Water Safety laws that specify what equipment must be carried aboard the boat. Of course, all these things are necessary for safe boating and to satisfy the law, but these laws stop far short of the equipment you should carry.

Let's take a look at some of the equipment the law doesn't mention. Nothing, for instance, is said about rope. There are so many uses for rope that there is no use in trying to list them, but I like to have plenty of spare aboard. I try to carry two or three coils with a total length of 150 to 200 feet. There are many kinds of rope but I find that half-inch nylon will meet most requirements. The rope must be compactly coiled and stored out of the way or it can become a real safety hazard. Try stumbling around with 200 feet of bunched up rope underfoot.

The law doesn't mention a paddle, and on a 20-foot or longer boat one might not do much good. On a smaller boat, however, a paddle can be a lifesaver. You've heard of being "up the creek without a paddle."

I can speak from personal experience, and some degree of chagrin, about taking along some basic tools. Not long ago I fouled the spark plugs on my outboard about 15 miles out in the Gulf. It was then that I remembered that a friend of mine had dropped my spark plug wrench overboard.

After drifting four hours, being anchored two hours, and being towed in by the Coast Guard, you can bet that I won't be caught in that situation again.

After towing me in, the very helpful crew of the Coast Guard boat performed a safety inspection of my boat. It passed with flying colors -- met every requirement of the Coast Guard, but it still had to be towed in because I didn't have a 59-cent spark plug wrench aboard.

The law doesn't mention an anchor, but I was really glad I had one that day in the Gulf. I drifted from about 15 fathoms (90 feet) to where the water was less than 30 feet deep. Had I not had an anchor, and a good one, with plenty of anchor line I probably would have drifted into the surf where I would really have been in trouble.

In addition to these things carry a first aid kit, spare oil for a four-cycle engine, plenty of fuel, and anything else you can think of that you might need in an emergency. Carry it -- and hope you never need it.

Library News

"Follow the Colored Brick Road," theme of the Summer Reading Program, has 107 students enrolled to date. You may still register for the program.

The Wizard of Oz characters and the "Emerald City" on display at the library were made by Mrs. H.A. Naquin and Mrs. A.C. Hamon, librarian. The library thanks Mrs. Naquin and Mrs. Larkin Miller, who made all the advertising posters for the reading program.

Mrs. Roger Bennett presented "Story Hour" June 17 to 17 children and parents. The children enjoyed reading along with Mrs. Bennett as she read "Grin." Other stories read were "The Fat Cat" and "Where the Wild Things Are." "Story Hour" is scheduled for July 11, 10:30-11:00. The library thanks Mrs. Bennett for this service to the community.

The library gratefully acknowledges donations of books and memorials from the following: Mrs. Charles Thornton, Mrs. Phillip Baldwin, Mrs. Paul Morris, Nancy Goodin, Elizabeth Schindler, Mr. and Mrs. Walter Hatley, Mrs. Clyne, J.C. Bibb, Jr., Maggie Reyes, Mrs. El Roy Parr, Lori Morgan, Mrs. Wm. Blanton, Mr. and Mrs. Walter D. Heldenfels, Mr. and Mrs. W. Dailey Heldenfels, Mr. and Mrs. Malcolm Bocquet and Bracht Lumber Co.

A window-wisher is a fellow who longs for everything in every store front he passes.

DOG AND CAT FOOD — Shan, the springer spaniel owned by a family in Peninsula Oaks Subdivision, seems to be saying to Goldie the cat: "Aren't you ever going to get through eating? Usually you're so finicky about eating anything the folks put out here that I'm able to finish it off in a hurry. But here you are actually eating some of my dog food topped with some fried egg. Come on, hurry up."

New Features Added to Goliad Races

Three exciting series of Feature races have been added to the Goliad Summer Race Meet July 12 thru July 27. The South Texas Sprint Series at 250, 300, and 330 yards is for three year olds and up with a speed rating an average of 79 or less based on the last five out as of June 23, 1975. These races will run on July 12th, 19th, and 26th respectively.

The Mission City Distance Series will be at 440, 550, and 660 yards. The races are open to three year olds and up and will be run July 13th, 20th, and 27th respectively. This Series will offer the 550 and 660 races around the curve. These distance races are very popular with the crowd.

The third Series is the Championship Series at 350 and 400 yards. This Series is open to three year olds and up and should draw the top horses on the grounds. The 400 yard race will count toward the Racing Board of Texas Maturity Championship. Deadline without penalty for all these Series is June 10.

Nominations Secretary, Kathy Franke, reports a record number of entries in the Summer Futurities and Derby. The three races have already drawn over 135 entries which should push the total gross purses to over $65,000.00. Last year the Texas Bred Futurity had a record purse of $30,225.00 and was won by Pass Em By Baby, owned by Frederick and Laurie Dean of Pasadena. The 1974 Hidalgo Futurity had a purse of $22,100.00 and was won by Linda's Chick, owned by Mr. J.B. Ferguson of Wharton. The Six Flag Derby was the third record purse in 1974 with $11,400.00 and was won by Little Miss Oak, owned by Mrs. C.L. Loreant of Franklin. All races will be run during daylight hours in 1975. Late nominations are still being taken with payment of the regular fees plus a small penalty.

Fans this year can enjoy a full day of horse races on July 12 followed by a band concert and the fifth annual Miss La Bahia Downs World Beauty Pageant. Barbeque dinners will be served throughout the entire program. Fans will once more be able to enjoy both the horse races and the pageant for one single admission price. The July 12 program has been named Navy Day and special guests and displays from NAS Chase Field, Beeville, will be at La Bahia Downs for the various activities.

ROBERT L. CONNER DIES

Robert L. Conner, 72, died June 26 at his home here after a long illness.

A resident of Rockport for the past 30 years, he was a retired painter.

Survivors include his wife, Hazel.

Marshall Funeral Home was in charge of funeral arrangements.

The leading coal-producing nations of the world are the United States, Soviet Union, Germany, the United Kingdom, Poland and China, according to the Encyclopedia Britannica.

Consumer Food News

Produce counter variety and increasing supplies are seeing more activity in that section of supermarkets this week.

Cantaloupe and corn supplies are up, so prices are down, Mrs. Gwendolyne Clyatt, consumer marketing information specialist, noted.

"Also, honeydews, watermelons and cherries are on most markets now--with prices moderate to relatively high," the Texas Agricultural Extension Service, The Texas A&M University System specialist added.

The same holds true for apricots, peaches, nectarines and strawberries.

Mrs. Clyatt reported moderate prices on okra, cucumbers, blackeye and purple hull peas--along with summer squash, radishes and green onions.

"Prices remain relatively high on dry onions and potatoes."

At meat counters, she termed fryer chickens, turkeys and eggs "good protein food choices, pricewise."

Look for best beef values on chuck roasts and steaks, round steaks, ground beef and liver.

Consumer Watchwords: To save money on bread, try chain-store brands and other less-advertised brands.

Also, compare prices of equal weights--rather than "large" versus "small" loaves. Day-old bread offers another chance for great savings.

Fashion

Some of the swimsuits are most attractive this season --especially those of materials that mold the figure into shape and use splashy colors on dark backgrounds.

Bikinis are still popular but the ones which have wider bottoms are preferred by many.

Take care of the eyes this summer with proper sun glasses. These glasses not only protect one from the glare but from dust and wind.

Some of the summer dresses for evening have flimy scarf-like sleeves or scarfs floating from the shoulders.

Cottons take on more importance these hot summer months. Terry cloth is, not only being used for beach-towels and robes, but is seen in pants, bikinis and jump suits. Stripes are popular.

B.J. Crowley's HOROSCOPE

Week of July 6, 1975

CANCER--Emotional, sensitive, changeable describe those born under this sign. Best colors are green and gold. Lucky number is 8. Lucky day is Monday.

CANCER--June 21 to July 22--Follow your intuition during this period. Be confident. You must try to lead, not follow. Your independent attitude will pay off.

LEO--July 23 to Aug. 22 -- Improve your appearance by buying new clothes. You are in the spotlight too often not to be well-groomed at all times.

VIRGO--Aug. 23 to Sept. 22--A welcome message arrives relieving you of a heavy burden. You now find yourself in a position to lead your own life.

LIBRA--Sept. 23 to Oct. 22--Any dishonest endeavor will backfire. You must stick to projects which are strictly honest and above board. The consequences just aren't worth the risk.

SCORPIO--Oct. 23 to Nov. 22 -- Stop worrying about other people's money. Start taking care of your own. Plan a wise spending program. Save a precentage of all the money you get.

SAGGITARIUS--Nov. 23 to Dec. 21--Don't be concerned with how other people spend their money. Be concerned only about your own. Improve your appearance by buying some new clothes.

CAPRICORN--Dec. 22 to Jan. 19--Stand up for your rights. Expect your family to emerge by insisting that they carry their share of the responsibility, especially where chores are involved.

AQUARIUS -- Jan. 20 to Feb. 18--A problem which has bothered you for a long time is finally totally solved. You feel free for the first time in a long time.

PISCES--Feb. 19 to March 20--Pay and collect debts. You should then find yourself in a comfortable financial position. The business project you are involved with will grow.

ARIES--March 21 to April 20--You are riding on a winning streak. Enjoy good fortune which comes your way, but don't strive for self-glorification. Develop a sincere interest in others.

TAURUS--April 21 to May 20--Someone whom you feel has snubbed you, didn't mean it that way. You must stop being super-sensitive. There are times when you move too fast. Slow down.

GEMINI--May 21 to June 20--You must be practical. Concentrate on basic security. There could be some added family responsibility soon. Be honest.

Bank Displays New Paintings

A group of paintings in acrylic by Bob Gray, local artist, is on display in the lobby of First National Bank to remain during July.

The display is the latest in a series arranged for by the bank's standing committee on art of which Gladys Gibson is chairman.

Gray, who has made a serious hobby of painting for the last 10 years and is a retired businessman from Houston, had his first lessons from Simon Michael. He also studied with Kit Dinger.

His only previous experience in a related field was with drafting and mechanical drawing in college.

Mr. and Mrs. Gray first came to Rockport in 1965. Later they moved to Corpus Christi and for a time to North Carolina, returning to Rockport in 1971 when they had a home built in Harbor Oaks in which a studio was incorporated.

Gray's pictures are largely landscapes and seascapes. They have been sold in many areas of the country and exhibited in a number of galleries, including several in Rockport.

PUBLIC NOTICES
"BECAUSE THE PEOPLE MUST KNOW"

(Editor's Note: Public Notice advertising plays a unique role both in American history and in the process by which this country's democracy is preserved. Its one premise is that people must be informed if they are to govern themselves competently. Public Notice advertising first came into being with the Congress of 1792. That body, recognizing its responsibility to the people, required the Postmaster General to advertise for bids for the construction of new post offices. From that inauspicious beginning to the complex publication requirements in federal, state and local laws today, government officials have come more and more to understand their obligations to inform the public through Public Notice advertising. Newspapers over the years have been the vehicle by which these obligations have been fulfilled. They will continue to be as long as the public demands that it be informed frequently, and by the best means possible.)

THE STATE OF TEXAS

To: WILLIE J. BUTLER defendant, Greeting:

You are hereby commanded to appear before the Honorable 156th District Court of Aransas County at the Court House thereof, in Rockport, Texas, at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 11th day of August A.D. 1975, then and there to answer Plaintiff's Petition filed in said Court, on the 9th day of May A.D. 1975, in this cause, numbered 5273 on the docket of said court and styled LOVIE JOYCE BUTLER Plaintiff, vs. WILLIE J. BUTLER Defendant.

A brief statement of the nature of this suit is as follows, to wit:

NO. 5273

IN THE MATTER OF THE MARRIAGE OF LOVIE JOYCE BUTLER AND WILLIE J. BUTLER AND IN THE INTEREST OF ROBERT EARL BUTLER, JOYCE DENISE BUTLER AND RAYNARD KEITH BUTLER, MINORS

IN THE DISTRICT COURT OF ARANSAS COUNTY, TEXAS 156th JUDICIAL DISTRICT.

FIRST AMENDED ORIGINAL PETITION

This suit is brought by Petitioner, Lovie Joyce Butler, age 38, who resides at 643 North McCampbell Street, Aransas Pass, Aransas County, Texas. Respondent is Willie J. Butler, age 42 who formerly resided at 643 North McCampbell Street, Aransas Pass, Aransas County, Texas but who since May 6, 1975 has not resided in Aransas County, Texas and whose residence is unknown to Petitioner.

I.

Petitioner has been a domiciliary of Texas for the preceding 6 months and a resident of this County for the preceding 90 days.

II.

Respondent may be served by Citation by Publication because Petitioner is unable to determine Respondents whereabouts as shown by Affidavit on file herein.

III.

The parties were married on or about December 15, 1961. On or about May 6, 1975 they separated and ceased to live together as husband and wife.

The marriage has become insupportable because of discord or conflict of personalities between Petitioner and Respondent that destroys the legitimate ends of the marriage relationship and prevents any reasonable expectation of reconciliation.

IV.

The following children, now under the age of eighteen (18) were born or adopted by the parties to the marriage: Robert Earl Butler, a male, born on December 21, 1962 in San Patricio County, Texas; Joyce Denise Butler, a female, born on May 24, 1964 in Corpus Christi, Nueces County, Texas; and Raynard Keith Butler, a male, born on April 29, 1969 in San Patricio County, Texas.

There are no court-ordered conservatorships, guardianships, or other court-ordered relationships affecting the children in this suit.

No property is owned or possessed by the children.

No other Court has continuing, exclusive jurisdiction of a suit affecting the parent-child relationship with respect to the children.

V.

The children now reside with Petitioner. Petitioner should be appointed Managing Conservator of these children, and Respondent should be ordered to contribute to their support until the youngest child reaches the age of eighteen (18), or in an amount to be set by the Court.

It is in the best interests of the children that Petitioner be appointed Temporary Managing Conservator. Respondent should be ordered to contribute to the temporary support of the children during the pendency of the suit.

Petitioner has insufficient income for support, while respondent is able to and should be ordered to support Petitioner. A hearing should be had forthwith to the end that Respondent may be ordered to furnish necessary support to Petitioner during the pendency of this suit.

VI.

During the marriage certain community property has been accumulated by the parties and Petitioner requests the Court to divide the property in an equitable manner as follows:

That Petitioner be awarded the real estate accumulated by Petitioner and Respondent, to-wit:

1. Lots 25 through 32 inclusive, Block 477 in the City of Aransas Pass in Aransas County, Texas, according to the map or plat of said City made by P.L. Telford, Surveyor and Civil Engineer, recorded in Vol. 2, Page 105, Map and Plat Records of Aransas County, Texas.

2. Lots 5, 6 and 7, Block 454 in the town of Aransas Pass, Aransas County, Texas, according to the map of said City made by C.L. McClung, of record in Book of Maps No. 1, Page 1, Clerk's Office, Aransas County, Texas;

3. Lots 5 and 6, Block 450 of the City of Aransas Pass according to the map or plat of the City made by P.L. Telford, Surveyor, recorded in Vol. 2, Page 105, Map Records, Aransas County, Texas, to which map reference is made for further description of said property;

4. Lots 9, 10, 11 and 12, Block 541 in the City of Aransas Pass according to the maps or plats of said City made by P.L. Telford, Surveyor, recorded in Vol. 2, Pages 10-11 and Vol. 3, Page 41, Map Records, San Patricio County, Texas and in Vol. 2, Page 105, Plat Records, Aransas County, Texas, to which map and the reference thereof references are here made for further description of said property.

Petitioner would further show that she should have all of the personal and household goods in order to support the family of Petitioner and Respondent and the business known as the Y Fish Market along with all personal property now in her possession including any automobiles and trucks and vehicles.

Petitioner would show that it would be fair for Respondent to be awarded the personal property in his possession at this time along with any automobiles or vehicles that he may have possession of.

Petitioner prays that the Court grant Petitioner a divorce from Respondent and enter its other orders in accordance with this Petition; and for general relief and costs of Court.

BOWLING LEAGUE OFFICERS JAMBOREE

Sunday afternoon the Coastal Bend Bowling Lanes was host to league officers and Men and Women's Association officers.

Tony Denham opened the meeting by stating that he had taken over as the new manager at the bowling lanes and introduced his staff. He discussed the "Bowl Your Way to Europe" program and urged that each league turn in their high games by the 10th of the month.

A new feature was introduced by Denham for the fall leagues -- "Bowler of the Week." The man and woman bowling high game for the week will receive an award and will be eligible for the "Bowler of the Week Tournament" to be held at the end of the season. These awards will be given by Brunswick.

The Brunswick Awards Program was discussed. The secretary of each league is obligated to turn in high games in order for bowlers to receive patches and awards. August 1 through January 31 (1976) a 5% discount will be given on all trophies.

Betty Latham, secretary for Women's Bowling Association, stated that league secretaries will have a meeting at a future date to discuss their problems in order to make their jobs a little easier.

Jack Millen, president of the Men's Bowling Association, said that the junior bowlers will have a Certified Coach Instructors meeting July 26 (Saturday) from 9 a.m. to 4 p.m. at the Buccaneer Bowl in Corpus Christi.

After the meeting refreshments were served and everyone bowled in the 3-game tournament sponsored by the Bowling Lanes. A trophy was awarded to W.J. Sullinger for a 199 high game (scratch) for men, Helen Hopper received a trophy for high game 189 (scratch) for women and also high series 591 (handicap). Earl Hopper received a trophy for high series for men 615 (handicap).

Consumer Food News

College Station -- Meat takes a back seat to fruit and vegetables on the economy scene at supermarkets this week, one observer says.

"Corn is plentiful and prices just a bit lower, while tomatoes are coming from several growing areas, with quality varying from fair to excellent," Mrs. Gwendolyne Clyatt reported.

"Beets, snap beans, cucumbers, okra, radishes and green onions are also worthy of consideration, pricewise," the consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System, added.

Cantaloupe, oranges, bananas, pineapples and Texas-grown honeydew melons are moderately priced, while peaches, nectarines, cherries, apricots and blueberries are on the high side, Mrs. Clyatt said.

She cautioned consumers to make head lettuce selections carefully, because "there is a wide variance in quality, size and weight due to an unfavorable growing season."

Mrs. Clyatt termed egg prices low, with grade A, large-size the best buy.

At dairy counters, there are some "attractive values" on low-fat milk, cottage cheese and a variety of cheddar cheeses--for June, which is Dairy Month, the specialist noted.

At meat counters, best beef values generally include arm and blade pot roasts and steaks, ground beef, round steaks and roasts.

Consumer Watchwords: In buying cut-up fryers, or parts, expect to pay six to ten cents more per pound--unless a special features these at a lower price than whole fryers.

But if a family will eat only certain parts of a chicken, then fryer parts easily might be the economical alternative.

CARD OF THANKS

I would like to thank our friends and neighbors for the cards, food and flowers sent to us at the passing of my daddy, J.M. McNabb. Such thoughtfulness can never be forgotten.

Shrimp Landings in April Were Poorest Since 1962

Shrimp landings at Texas ports in April 1975, were the poorest April volumes since 1962. Poor catches on all grounds and vessels tied-in for economic reasons accounted for the current drop. The following table represents landings of headless shrimp for specified areas and periods:

Aransas Pass-Fulton Area: April 1975 - 297,700; January-April 1974 - 1,974,900; January-April 1975 - 1,483,900.

Total for all areas: April 1975 - 995,400; January-April 1974 - 7,935,200; January-April 1975 - 6,224,900.

Trawlers working brown and white shrimp in adjacent waters made poor catches throughout April. Weather conditions were rough and with the current operational costs many vessels did not leave port during the entire month.

Blue crab landings amounted to 331,000 pounds. This was 25 percent below landings in April 1974. The current drop resulted from rough weather and poor catches in most major systems.

The 1975 spring oyster season closed in April with about 200,000 pounds of shucked meats being harvested. The 1974-75 season was the poorest in recent years.

Fuel supplies were adequate at 29-33 cents per gallon in most ports.

Sport fishing activity was slow with rough, muddy water throughout the month.

Lexington Green

The men had been waiting for over an hour - collected on the Lexington Green in small groups after Paul Revere rode by with his alarm around 11 p.m. None of them were really sure what they were supposed to do. Is this just a show of force? Should they try to stop the British forces from crossing the field on their way to Concord?

Some of the men shuffled around, sat in groups of four or five, waiting, waiting. Thaddeus Bowman, the second Paul Revere, galloped out of the night — "They're coming. They're almost on top of us!" Drums rolling, muskets clanking, everybody shouting, running around, trying to collect themselves.

Capt. John Parker musters the men and leads them onto the open field just as the first of the redcoats come into view. For eleven years the Americans had been thinking and muttering about their principles. This night in April, 1775, the Americans left eight dead and ten wounded as testimony to those principles. Lexington was less a battle and more a breaking point between word and deed, peace and war.
