Two Trains Bring Opera Stars

RECORD BREAKING CROWDS ARE EXPECTED TO HEAR 'AIDA' AND 'RESURRECTION' BY CHICAGOANS

Two special trains carrying the gigantic cast of stars and choruses of the Chicago Civic Opera company, which will inaugurate the first grand opera season in Wichita Falls Wednesday evening, arrived here over the Fort Worth and Denver railroad early Wednesday afternoon.

Several car loads of equipment had already arrived in the city and much additional stage scenery and costume equipment came on the special trains, consisting of 27 baggage and passenger cars.

The curtain will rise on "Aida" at 8 o'clock sharp Wednesday evening and theater patrons have been warned by grand opera headquarters here that anyone arriving after that time will not be allowed to enter the auditorium until the curtain is rung down on the first act.

A special train over the Wichita Falls and Southern brought music lovers from Dublin, Breckenridge, Graham, Archer City, Olney and other points along the line, while people from hundreds of miles in all directions poured into the city Wednesday for the grand opera season.

Large delegations from Dallas and Fort Worth, which have no grand opera this year, arrived here Wednesday to attend both operas.

Roy E. Carter, fire and police commissioner, has issued the fol-

HOME TOWN TALK

By B. D. D.

It is to be regretted that we could not be given an opportunity to vote on the city manager amendments without any other amendments to distract attention or to cause confusion in the main issue. The city manager proponents have a harder job ahead of them than if the city manager amendments had been submitted without any other amendments having been presented to the voters. But while the task is a harder one it can be done with the proper sort of a campaign to educate the voters.

And nobody ought to think that the city manager plan will carry without an active and intensive campaign in its behalf, especially since other amendments, some of them increasing taxes, will be submitted at the same election. Tax increase proposals haven't much chance in the present state of mind. And when Texas voters vote "No" with emphasis upon some unpopular proposal they just seem to get the "noes" and vote against everything in sight. This is something the city manager proponents will have to combat. The thing to do is to organize early and fight early, hard and late.

Of course the city manager proponents are not responsible for the submission of the other amendments; they opposed their submission and most of them will vote against the tax increase amendments along with the majority of other voters.

HOUSE PLACES OKEH ON ALIEN RETURN BILL

WASHINGTON, Feb. 29. (AP)—Final action by congress on the alien property bill was taken today when the house approved the report of senate and house conferees on the measure, which provides for settlement of American claims and return of German seized property. The senate approved the report yesterday.

STATE ASKS JURY TO ASSESS DEATH FOR TEXAS WOMAN

FORT WORTH, Feb. 29. (AP)—The case of Lula Wyatt, 50, charged with murder in connection with the slaying of her husband, Ed Wyatt, last November, is expected to go to the jury in criminal court here today shortly after noon.

The state is asking the death penalty and the defense is seeking a suspended sentence.

Jim Langston, who was in the Wyatt home immediately preceding the slaying of Wyatt, was the star witness for the state late yesterday. He said that he, Wyatt and the defendant had been drinking whiskey on the day of the killing, but declared that he tried to persuade Mrs. Wyatt not to kill her one-legged husband. He said that when he returned to the house after going out into the yard Mrs. Wyatt was bending over the mortally wounded man, and that she asked him to get her some coal oil. She warned him to "stand pat," he asserted.

The 10-year-old son of Langston testified earlier in the day that he peeped through a window and saw Mrs. Wyatt plunge a butcher knife into her husband while the stricken man pleaded with her not to kill him.

Mrs. Wyatt, who was called to the witness stand, maintained that "she could not remember." This was her answer to virtually all questions asked her.

YOUNG ATTORNEY BEGINS DEFENSE IN MURDER CASE

HOUSTON, Feb. 29. (AP)—Thomas F. Whiteside, young Houston lawyer, Wednesday began his defense in his trial here on the charge of murder in connection with the death of his young wife, Rosa.

She was found with a broken back under the window of her second story apartment here June 16 and died two months later.

Jealousy coupled with hysteria, attorneys for the defense said caused her to leap from the apartment. The state contends that she was fleeing from Whiteside in fear of her life.

Tuesday former neighbors of the Whitesides testified that Whiteside mistreated his wife for 10 days prior to June 16 and that he ran from the apartment after she had fallen to the pavement below and choked her.

Witnesses also had told of a drinking party on the afternoon of June 16 with the Whitesides and another couple as members.

DIRIGIBLE LOS ANGELES FLIES TO TENDER PATOKA

WASHINGTON, Feb. 29. (AP)—The dirigible Los Angeles completed her trip from France field, Panama, to Guacanayabo bay at 1:05 o'clock, eastern standard time, when she moored on the naval aircraft tender Patoka, a radio dispatch to the navy department said.

Thieves Steal 15 Dozen Eggs At Local Cafe

Fifteen dozen eggs were stolen from an automobile parked in an alley at the rear of the Senate cafe, 710 Ohio avenue, early Wednesday morning, according to a report made at police headquarters.

The eggs were in several milk cans which were also stolen. The thieves, who were evidently after anything they might find, also took several yards of silk dress goods which were in the car.

SOUTH TEXAS PROTESTS BOX QUOTA PLANS

BAN ON MEXICAN LABOR SEEN AS HARDSHIP TO FARMERS

SOUTH TEXAS C-C TO STUDY COURSE FRIDAY

Meanwhile Texas Congressman Defends His Bill Before Hearing in House.

CORPUS CHRISTI, Texas, Feb. 29. (AP)—The Box immigration bill, and other matters relative to proposed limitation of Mexican immigration will be discussed at a meeting of the executive committee of the South Texas Chamber of Commerce at San Antonio Friday, it was announced today.

Officials of the South Texas Chamber of Commerce believing that if Mexican immigration were placed on a quota basis a shortage of labor in cotton fields of South Texas would result will continue their active opposition to the Box bill, Ray Leeman, manager of the South Texas Chamber of Commerce, said.

FEDERATED FARM ORDER OPPOSES BOX PROPOSAL

CORPUS CHRISTI, Texas, Feb. 29. (AP)—Impartial investigation by congress of the "enormous" annual increase in our alien population climaxed by Box bill proponents is asked in a resolution adopted by the Texas Federated Agricultural association, of which Richard M. Kleberg of Kingsville is president. The resolution opposes restriction of immigration, which the bill would impose.

KIN OF M'DONALD WIN RETRIAL SUIT TO BREAK BEQUEST

AUSTIN, Feb. 29. (AP)—Refusal of the trial court to give a charge requested by the contestants resulted Wednesday in reversal by the supreme court of lower court judgments, awarding Texas university about $1,300,000 of the estate of the late W. J. McDonald of Paris, Texas.

Mrs. Florence Rodgers, one of the heirs, and others claimed the will invalid on the ground that Mr. McDonald, at the time the document was written and also at his death, was of unsound mind and without testamentary capacity. She is styled as plaintiff against Morris Fleming, executor.

The purported university donation was for the erection of an astronomical observatory.

In trial of the case, those seeking to prove the testament invalid asked the court to charge the jury, in effect: if on May 5 (date the will was written) Mr. McDonald was under delusions, you (the jury) must find he did not have testamentary capacity. This charge was refused and the court of civil appeals upheld the action.

The supreme court decided it should have been allowed, despite the state's contention that contestants offered no pleading to justify it.

The case now must go back for another trial with the university at present holding the loser's place in the litigation.

SEARCH FOR BODY OF FORD FLIER CONTINUES

MELBOURNE, Fla., Feb. 29. (AP)—Undismayed by their long unsuccessful questing, searchers along the coast today hoped that the waves would cast ashore the body of Harry Brooks, chief test pilot of the Ford Motor company, who plunged, with his small monoplane, into the ocean last Saturday.

MEETING DEMOCRATS DEFEATS "DRY" MOVE BOLTERS ARE BARRED

AUSTIN, Feb. 29. (AP)—Efforts to advise precinct conventions about instructing delegates and to announce a stand for "dry" presidential candidates failed in the state Democratic executive committee meeting here Tuesday, but the committee initiated action designed to prevent "bolting" from the party by the voters dissatisfied with the nominees.

An attempt to endorse Gov. Dan Moody's administration was sidetracked after speakers, declaring themselves his friends, recalled the 1926 row over endorsement of the Ferguson administration and expressed belief that Governor Moody would not want a vote taken on him. One speaker was Steve Pinckney of Houston, the other Chairman D. W. Wilcox, Georgetown.

A resolution by George Puri of Dallas to put the committee on record for "dry" presidential candidates and support of the 18th amendment was defeated, 28 to 2, in a vote sustaining the chair's refusal to consider the document in order.

Under a resolution by Steve Pinckney of Houston, precinct conventions must bar anyone failing to subscribe to a resolution embodying the party pledge that "I am a Democrat and agree to support the nominees of the party." Adoption of such a resolution in precinct meetings was made a necessary preliminary to election of county delegates and county conventions were called upon to adopt similar resolutions. A further provision that county delegations without proof of adoption of such resolutions be denied seats at the state convention was abandoned after a warm fight was made on it.

Gov. Dan Moody's intention to run for reelection was made clear in a letter to Committeeman Tom Faulk of Austin, asking the latter to abandon his plan to seek endorsement of the governor for president. The governor said he was not a candidate for national office and did not believe the committee should take stands on national candidacies.

Resolutions by Puri and former State Senator J. M. Henderson of Daingerfield, embodying advice to precinct conventions to make some expression of their wishes and instruct delegates, were voted down.

Charles I. Francis of Wichita Falls, leader of the Texas "uninstructed delegation" movement popularly supposed to be in the interests of Governor Al Smith's presidential candidacy, was elected vice chairman of the committee by a large majority.

KANSAS BANK BANDITS MAKE $2500 PROFIT

COFFEYVILLE, Kan., Feb. 29. (AP)—Two men held up and robbed the Niotaze State bank at Niotaze, Kan., 30 miles west of here, shortly after 9 o'clock this morning and escaped in a motor car with $2,500.

FREIGHTER AFIRE OFF BRAZIL COAST REPORT BY RADIO

RIO JANEIRO, Brazil, Feb. 29. (AP)—The Brazilian National Telegraph today announced the receipt of reports that the freighter Atalaia was afire off the coast of Brazil and that two other freighters were hurrying to her relief.

The Atalaia, which is operated by the Lloyd Brasileiro line, left New York, February 18 for Santos, Brazil.

The fire started when the ship was in sight of Maceio which is about 150 miles south of Pernambuco.

NAVY SENDS FLIERS OUT TO FIND TRACE MISSING AVIATORS

BIGGEST AERIAL HUNT OF NAVY HISTORY ALONG ATLANTIC COAST

FLIERS WHO WERE LOST MAY NEVER BE FOUND

Three Navy Aviators Disappear While En Route For Annapolis Base.

NORFOLK, Va., Feb. 29. (AP)—An airplane with a missing engine, flying at a very low altitude was heard over Horn harbor in Chesapeake bay about 2:30 a. m., Monday morning, navy officials searching for Commander Ellyson were informed today by Irvine Hudgins, a fisherman.

WASHINGTON, Feb. 29. (AP)—What was described by navy officials as the greatest aerial search ever made for missing men was rushed with renewed vigor today as 41 aircraft scoured the Chesapeake bay district for Commander T. G. Ellyson and his two companions.

Virtually no clew as to what happened to them has been uncovered and although the search was being pursued relentlessly, the navy department was slowly giving up hope that they would ever be found.

All regions of the Chesapeake were being subjected to the close scrutiny of naval, marine and army aviators. The non-rigid naval dirigible, the J-3 from Lakehurst, N. J., accompanied by one airplane, began the search of the northern waters of the bay and its tributaries north of Annapolis early today.

Eighteen airplanes from the airplane carrier Lexington and the scouting fleet anchored off Hampton Roads, resumed their search of the coast and waters of Virginia, North Carolina and lower regions of the bay along with nine airplanes from the naval air station at Hampton Roads.

Eight naval planes from the Anacostia station swept low over the eastern side of the bay, and five army planes inspected the western shore.

Five marine planes from Quantico, Va., were searching the lower western bank.

Two army blimps from Langley field, Virginia, cruised over the territory in the vicinity of old Point Comfort.

Ellyson, along with Lieut. Com. Hugo Schmidt and Lieut. Roger S. Ranschousen, has been missing since early Monday when he left Hampton Roads for Annapolis to visit his daughter who is ill.

FOUR MARINES KILLED BY NICARAGUA REBELS UNDER GEN. SANDINO

MANAGUA, Nicaragua, Feb. 29. (AP)—Four American marines were killed and nine wounded in an encounter today between American forces and a band of followers of the rebel leader, Augustino Sandino.

The names of the Americans killed and wounded had not been received in Managua at noon today and the casualties among the Sandino forces were not known.

The fight took place near Daratli, between the towns of Tali and Condega, which is in northern Nicaragua near the American headquarters at Ocotal.

The American forces in the fight were in command of Lieut. Edward F. O'Day, of New Hampshire.

The encounter took place late Monday when a pack train of 36 marines and 80 animals was returning from Yali with supplies.

From the meager information received here it appears that the Sandino forces, armed with rifles and at least one machine gun, surprised the pack train, firing from the dense jungle on either side of the trail.

A marine doctor at Estill attended the wounded who will be brought to Managua as soon as possible by plane.

Of the nine wounded one was in

ALL VOTERS TO GET COPIES 12 AMENDMENTS

PROPOSED CHANGES TO BE SENT VOTERS OF CITY THIS WEEK

TWO BALLOTS TO BE USED AT ELECTION ON APRIL 3

Explanation of Measures Is Made By Officials to Inform Public.

Copies of 12 proposed amendments to the Wichita Falls city charter, to be voted on Tuesday, April 3, will be mailed by Friday to all voters in the city in accordance with provisions of the city charter, City Clerk W. E. McBroom said Wednesday.

The 12 amendments are the ones on which the council called an election Monday night following a public hearing. The amendments were prepared and submitted to the council by two committees, one appointed at a mass meeting held several weeks ago in the Memorial auditorium and the other by the council.

The voters will be given two ballots at the city election this year. One will be the names of the candidates and the other will be for the proposed charter amendments. A mayor and two aldermen will be elected this spring.

Following is a brief summary of the 12 proposed amendments arranged in the same order in which they will appear on the ballot:

Amendment No. 1—Reduces salaries of aldermen from $100 per month to a maximum of $10 per month and of mayor from $300 per month to a maximum of $100 per month.

Amendment No. 2—Changes the optional feature in the charter relative to the employing of a city manager by the board of aldermen and will change the word "may"

OKLAHOMA FEDERAL JUDGE FACES BILL BEFORE U. S. HOUSE

WASHINGTON, Feb. 29. (AP)—Charges against Judge Franklin E. Kennamer, of the northern federal district of Oklahoma, alleging conspiracy to defraud the government, attacks on the liberty of the press, intimidation of jurors and denial of rights of defendants were filed with the speaker of the house today, accompanied by an affidavit signed by Henry H. Stoud of Tulsa, Okla.

The petition which was referred by Mr. Longworth to the house judiciary committee, for consideration, also alleged that Judge Kennamer was guilty of favoritism and bargaining with agents of law violators; imprisonment of a citizen without jurisdiction, contributing to violations of the liquor laws, and converting to his own personal use intoxicating liquors confiscated by federal officers. The brief set forth 26 charges against the judge and Stroud in his affidavit declared that he had inspected them and that he believed them to be true. He added that they could be sustained by ample and proper proof.

TULSA, Okla., Feb. 29. (AP)—Henry H. Stroud was for a number of years a department of justice agent and was assigned to the northern district of Oklahoma soon after the creation of that federal judicial district.

Will Rogers News Digest

CAMDEN, Ark., Feb. 29.—If I was a coal mine owner and couldn't understand my help any better than they do I would resign and announce to the world that as an industrial leader I was a "bust" and devote my life to seeing that the world burned cow chips. Say, do you know this little city has a $6,000,000 plant where they make wrapping paper out of Post Oak and Black Jack trees. Arkansas has made wonderful improvements in lots of lines, but I doubt if I could get a better wife out of the state today than I did 20 years ago.

HELD CONSTITUTIONAL CASE IN COURT CRIMINAL APPEALS $750 LIBEL FINE IS AFFIRMED

AUSTIN, Feb. 29. (AP)—The Texas judiciary fee system in effect was upheld as constitutional Wednesday by the court of criminal appeals, which affirmed a $750 libel fine imposed on C. F. Richardson by the Harris county court at law.

Richardson claimed the judge had pecuniary interest in the case and consequently was disqualified.

Discussing the United States supreme court's holding that an Ohio fee system in the judiciary was invalid, Judge A. B. Martin declared the statute involved was not the same as this state's law. In that instance, he pointed out, the mayor was not only the judge, but "no provision was made for jury trial," and the mayor had command over "secret service men" and other policemen.

If there be any remaining part of the Texas law repugnant to the 14th amendment to the constitution it would be that rule which does not allow a judge a fee if he grants a motion to quash a complaint, but which entitled him to one in the event he overrules the motion and tries the case.

This would occur so rarely, Judge Martin said he believes, that it would be "trivial" and a reflection on the minor judiciary to assume it would be influenced in such cases.

He declared that to hold the system unconstitutional would be to "strike down a part of organic law" which has existed for "more than 50 years," and affirmed the sentence disallowing Richardson's contention.

The appellant, presumably connected with the Informer in Houston, was claimed by the state to have called W. L. Davis, school official, unpleasant names.

SHERIFF DROPS PROBE OF CASE RED WILKERSON

NACOGDOCHES, Texas, Feb. 29. (AP)—Sheriff Tom Lambert said today that he had dropped his investigation into a reported attack by three men on O. J. (Red) Wilkerson, freshman student at Stephen F. Austin college, who was found bound and blindfolded early Tuesday.

The investigation was dropped, Sheriff Lambert said, when he was convinced that Wilkerson could have freed his hands and when he found no signs of a scuffle.

Wilkerson had fully recovered today, Lambert said.

Sheriff Lambert said he had secured no statement from Wilkerson.

Found Nearly Frozen

HOUSTON, Feb. 29. (AP)—A special day said that Oscar "Red" Wilkerson, 20, of Dayton, Texas, freshman member of the Stephen F. Austin State Teachers' college football team, was found unconscious and nearly frozen at a spot near the college in Nacogdoches early Tuesday.

S. D. Dorsey, a passing farmer, found him bound hand and foot and brought him to a Nacogdoches hospital where he is expected to recover.

Wilkerson declared, according to the telegram, that three youths seized him on the street Monday night, thrust him into an automobile, blindfolded him, bound and gagged him and after beating him with what he said appeared to be broomsticks, thrust him from the car.

Wilkerson advanced no probable reason for the assault. Sheriff Tom Lambert is investigating.

WAMPAS STAR TO SUE HUSBAND FOR DIVORCE

CHICAGO, Feb. 29. (AP)—The Herald and Examiner today said it had learned from Los Angeles that Sue Carol, movie actress and one of this year's Wampas stars, is to sue her husband, Allan H. Keefer of Chicago, for divorce.

Miss Carol's real name is Evelyn Lederer Keefer. She is the daughter of the late Samuel Lederer who left his widow and daughter an estate valued at $500,000 when he died a little more than a year ago.

SENATE FLOOD CONTROL MOVE WINS SUPPORT

SENATE COMMITTEE PUTS OKEH ON $325,000,000 FEDERAL AID FUND

COMMISSION TO STUDY FUTURE CONTROL COST

Similar Bill Up in House After Action by Its Flood Committee.

WASHINGTON, Feb. 28. (AP)—A Mississippi flood control bill carrying a total of $325,000,000 all to be paid out of federal funds, was approved today by the senate commerce committee.

The bill is expected to be introduced today and calls for a commission to investigate the matter of state contribution to the cost of flood control in the Mississippi valley, as suggested by President Coolidge.

This commission would be composed of the army chief of engineers, the president of the Mississippi river commission and a civil engineer to be appointed by the president.

The committee hopes the president will approve a plan suggested by Secretary Davis calling for an advance to the states of the valley by the federal government until the findings of the proposed commission is announced.

The bill is not expected to delay any necessary work for prevention of a repetition of the 1927 disaster.

Another flood control bill, placing the burden on the federal government, has been introduced by the house flood control committee.

MISS JANE MOORE OF WICHITA FALLS HURT IN NASHVILLE CRASH

Miss Jane Moore, daughter of Mrs. Charles J. Tucker, 900 Burnett street, was seriously injured in an automobile accident at Nashville, Tenn., Wednesday morning, according to word received here by her mother.

Mr. and Mrs. Tucker left in an automobile for Fort Worth immediately after receiving the message. Mrs. Tucker will go by train to Nashville from Fort Worth.

Miss Moore is a student in Ward-Belmont college at Nashville. Her sister, Miss Ruth Moore, is in New York City. Mr. Tucker is a member of the firm of Tucker and Langford, oil operators.

No details of the accident were given in the message received here.

SENATORS APPROVE UNCLE SAM'S PACT WITH FRENCH FOLK

WASHINGTON, Feb. 29. (AP)—The new French arbitration treaty was approved today by the senate foreign relations committee.

The committee acted after hearing Secretary Kellogg for three-quarters of an hour. Members said the secretary of state had declared that this treaty did not affect the Bryan arbitration treaty and that the American and French governments would exchange notes making that clear.

It is also distinct from the pact referred to by Secretary Kellogg in his note to France, published today, proposing a renunciation of war.

Man Who Fled Under Life Sentence For Crime He Did Not Commit Can Return Home But Doesn't Know It

ROCKFORD, Ill., Feb. 29. (AP)—Henry Olson, wherever you are, read this:

Convicted of slaying Floyd Stotler, oil station attendant, and sentenced to life imprisonment, you jumped your appeal bond last Thursday, didn't you? With your young wife you drove away, and your $10,000 bond on which Judge Fisher had allowed you your freedom pending arguments for a new trial, was declared forfeited.

But you may come back now, Henry Olson! That life sentence, though it still stands over you, is not likely to be enforced.

Do you know George Bliss and Morris Mahan? They are only 17 years old—nine years younger than you. They are under arrest, Henry Olson, and the police say they have confessed they were the ones who held up the filling station last September and shot down Stotler when he resisted.

Mahan told police, they said, that Bliss fired the fatal shot. Bliss followed Mahan's confession with one of his own, and the police found the boys' stories were substantiated by much of the evidence used at your two trials; the first trial when the jury could not agree that you were guilty, and the second, at which you were convicted.

You should come home, Henry Olson, and give personal thanks to

VOTE $200,000 TO PUSH FIGHT ON BOLL WORK

WASHINGTON, Feb. 29. (AP)—An appropriaiton of $200,000 for immediate use in combating the pink boll worm in Texas and other southwestern states, was recommended in a measure passed today by the house and sent to the senate.

Chairman Madden of the house appropriations committee explained that funds for this purpose were needed at once. He said that $568,000 for combating the boll weevil was carried in the annual agricultural department supply bill reported to the house today but that a part of this money was needed now. He added that later he would propose an amendment to reduce the $568,000 by $200,000 when the bill is called up later this week.

This, he said, would provide funds for immediate use and at the same time not increase the original appropriation proposed for this work.

DISCUSS MEASURES FOR COMBATTING BOLL WORM

MIDLAND, Texas, Feb. 29. (AP)—Influence of the state pink boll worm commission is to be used to secure an increase in the number of designated oil mills receiving sterilized cottonseed following a conference here yesterday.

Today the commission is in Marfa for the third of a series of four meetings to discuss means of combatting new infestation of the pink boll worm in West Texas. During the remainder of the week, the commission will study conditions in the Pecos valley and Big Bend sections, where strict regulations have been enforced for years on infested districts.

The last meeting is to be held at Lamesa, Dawson county, on March 16, for the purpose of considering non-cotton zone or zones or regulation in the newly infected territory. Agreement to request designation of additional mills to handle sterilized cottonseed was made at the Midland meeting after sworn testimony had been taken by the commission for the first time during these hearings. Discrimination against sterilized cottonseed was charged by some of those who testified.

HURRICANE GETS BLAME TEXAS PINK BOLL WORM

WASHINGTON, Feb. 29. (AP)—A hurricane which brought the pink boll worm into the United States and the Mississippi flood of last year have greatly added to the task of the department of agriculture in combatting cotton pests.

Experts of the department in testifying before a house appropriations subcommittee, the hearings revealed today, attributed in a large measure the presence of the boll worm in the United States to a hurricane which scattered several bales of Mexican cotton over Texas cotton fields.

The flood of the Mississippi interfered with the work of the Tallulah, La., experiment station last year, requiring the removal of equipment and hindering the investigational work.

"There was opportunity, however," F. C. Bishopp of the bureau of entomology said, "for considerable experimental work after the floods subsided, working with the late planted cotton and also in certain areas where the work had been started outside the overflowed district."

Fort Worth Plant Burns

FORT WORTH, Feb. 29. (AP)—Believed to have started when a paraffin kettle boiled over, fire yesterday afternoon destroyed the Dunn-Locke Manufacturing company here entailing a loss of approximately $40,000.

Whether the vinegar plant will be rebuilt will not be decided until after the meeting of the board of directors, it was said.

FORMER STUDENT GETS SENTENCE FOR THEFT

DALLAS, Feb. 29. (AP)—Reginald Sharp, 20, former student in Forest high school here, today was sentenced to serve two years in the penitentiary for the theft of $50 from the safe of that school.

Sharp admitted the theft from the witness stand.

"I'll serve my two years and come back to Dallas and be a man," he said after he had been sentenced.

SUPREME COURT W[illegible] REVIEW LIBEL AWARD

AUSTIN, Feb. 29. (AP)—Granting a writ of error, the supreme court decided Wednesday to review the civil appellate judgment favoring C. Bruce Ferguson, Harris county tax collector, in his suit against the Houston Press for alleged defamation by printing news stories about the operation of his office.

The use of mistletoe at Christmastide is traced to the Druids, who used it as a symbol of welcome for their gods.

DEATHS

Double Funeral Rite.

VERNON, Feb. 29.—A double funeral service was held at 1 o'clock Tuesday for Clarence Tolan, 36, and his nephew, the ten months' old son of Mr. and Mrs. E. C. Whitten of Archer City, at the Tolan home five miles east of Vernon. Dr. E. F. Lyon conducted the services. Interment was in East View cemetery.

Mr. Tolan died in Vernon, where he had been taken for medical treatment at 10 o'clock Monday night. The baby was taken suddenly ill of acute indigestion the same evening, and died about 2 o'clock Tuesday morning.

Mrs. Whitten is a sister of Mr. Tolan and the family was called here on account of Mr. Tolan's illness. Mr. Tolan is survived by his widow and five children.

D. Armstrong.

VERNON, Feb. 29.—D. Armstrong, 66, proprietor of a rooming house at the corner of Texas and Main streets, died at his apartments at 4:30 o'clock Monday afternoon. Mr. Armstrong had been ill since Thursday. Funeral services were conducted at 3 o'clock Tuesday afternoon from the Church of Christ, of which the deceased was a member. Elder T. M. Carney, pastor of the church, had charge.

Mr. Armstrong is survived by six children, D. A. and O. W. Armstrong of Oklahoma; Mrs. Nora Clements, Kirkland; Virgil Armstrong, Burkburnett and Mansel and Roswell Armstrong of Vernon.

Willie Brockreide

ELECTRA, Feb. 28.—Funeral services for Willie Brockreide, 13-year-old son of Mr. and Mrs. A. W. Brockreide of the Sunshine Hill community, will be held at 10 o'clock Wednesday morning from the family home. Interment will be in the Clara cemtery. Funeral services will be conducted by the Rev. Carl A. Stadler of Enterprise and the Rev. Paul Kaiser of Clara.

Pallbearers will be as follows: Willie Lalk, Willie Miller, Herbert Kiesling, Arnold Miller, Herman Ingleman, Clarence Schroeder.

Young Brockreidge is survived by his parents and one brother, Albert, aged 11. H. Brockreide of Ringling, Okla., uncle of Willie, has arrived for the funeral and other relatives from Missouri are expected to arrive.

The Brockreide family has lived near Electra for about 40 years and are well known throughout the country.

THREE SUSPECTS JAILED FOR PRIEST'S STABBING

ROME, Feb. 29. (AP)—Three arrests of the "suspects" class have been made in the attempt to solve the mysterious attack upon Father Tacchi-Venturi, but the identity of the man who stabbed the noted Jesuit with a paper cutter has not been established. The wounded ecclesiastic failed to recognize any of the trio as his assailant.

BOMB BLAST WRECKS PITTSBURGH BUILDINGS

PITTSBURGH, Feb. 29. (AP)—A bomb explosion, believed by authorities to have been set off in an effort to frighten negro non-union miners of the Pittsburgh Coal company, spread destruction through a section of Elizabeth early today. The fronts of a dozen buildings were wrecked, causing damage estimated at from $50,000 to $75,000. One man was injured.

your attorney, H. B. North, whose certainty of your innocence led to the uncovering of evidence which resulted in the Mahan and Bliss arrests yesterday. North heard rumors of a woman who had dropped remarks indicating that you were innocent. The woman was questioned. She told police that Mahan had told her he took part in the holdup.

You recall that your attorney spent nearly two days during the last trial questioning Orville Stotler, aged father of the slain man, who witnessed the tragedy at the filling station. Orville Stotler identified you as one of the holdup men, but North, through his long questioning, uncovered points which convinced him that a mistake was being made.

They are searching for you today, Henry Olson, and your attorney is even more interested in finding you than the police.

You think it is too good to be true? You think such things happen only in novels? You are wrong. It is true. Come home, Henry Olson, and see.

to "shall" employ a manager. This would make it mandatory to have a city manager here.

Amendment No. 3.—Provides for qualifications of the city manager, how he may be removed and provides for the appointment of some qualified person to act as city manager in event of the manager's absence or disability.

Other Amendments

Amendment No. 4.—Provides for the appointment of a city clerk and city attorney by the board of aldermen and allows the city manager to appoint all other employes and heads of departments solely on a basis of training and experience.

Amendment No. 5.—Gives the city manager power to appoint a director of finance, instead of the board of aldermen as now provided in the charter.

Amendment No. 6. — Provides that the city manager may prepare the annual budget instead of the mayor as at present.

Amendment No. 7. — Provides that the tax rate may be established five months after passage of the appropriation ordinance instead of one week.

Amendment No. 8.—Amends section 74 of the charter which provides for the tax levies and transfers 20 cents from the interest and sinking fund on bonds levy to the operation levies and abolishes the sewer rental.

Amendment No. 9.—Adds to the purpose for which bonds may be issued, adding to the present purposes those of improvements to public parks, play grounds and cemeteries and for the construction of sewage disposal plants and incinerators.

Amendment No. 10.—Provides for the appointment of a park board of five members to serve for a period of five years each without compensation and defines the powers and duties of the board.

Amendment No. 11.—Adopts the powers and provisions of the act passed by the 40th state legislature relative to the paving of alleys and streets in cities.

Amendment No. 12.—Provides for the repeal of all parts and sections of the city charter in conflict with the provisions of the proposed amendments and designates polling places and election officials.

The amendments have been so arranged on the ballot that the first six have to do with the city manager plan while the other six are upon the other proposed matters.

Following is the form in which the amendments will appear upon the ballot:

lowing instructions regarding parking at the auditorium: "Park automobiles at the curb at an angle of 45 degrees in all streets about the auditorium. On Seventh street, in front of the auditorium, three rows of automobiles will be parked according to present plans. The first to park on this street will take the curb on each side of the road, parking at an angle of 45 degrees. After all roadside space has been utilized, cars will be parked down the center of the street parallel to the curb, leaving about 10 feet open for traffic on each side."

An adequate number of police officers will be used to assist in handling traffic at the auditorium, and Mr. Carter will be present to supervise the work.

Ticket Sales Brisk

Guarantors of the grand opera season here were scheduled to meet in the directors' room at the chamber of commerce at 4 o'clock Wednesday afternoon to discuss the progress of ticket sales and make any final plans that might be found necessary.

Ticket sales were progressing rapidly Wednesday and clerks at grand opera headquarters experienced difficulty in waiting on the long line of last minute customers.

Two floors of the Kemp hotel were reserved for the principal members of the casts of both operas, "Aida" and "Resurrection."

Lighting and other equipment at the auditorium was subjected to a final preparatory test early Wednesday afternoon. Officials reported everything in good order and ready for the performances.

A room with a trained nurse in attendance has been equipped as a baby room at the auditorium and patrons of the operas are urged to leave their small children at this baby station.

Rosa Raisa is the star of "Aida," with Giorgia Polacco as director. The cast of characters for this opera follows:

Cast of "Aida"

The king of Egypt, Chase Baromeo; Amneris, his daughter, Cyrena Van Gordon; Radames, captain of the guard, Charles Marshal; Aida, an Ethiopian slave, Rosa Raisa; Remfis, high priest, Virgilio Lazzari; Amonasro, king of Ethiopia, Riacomo Rimini; priestess, Elinor Mario.

A messenger, Lodovico Oliverio.

SOUTH TEXAS NOT FOR BOX MEASURE

(Continued from Page One)

their living conditions are good was challenged by Representative Box, Democrat, Texas, before the house immigration committee today when hearings were resumed on his bill to restrict western hemisphere immigration.

Box has introduced his bill because he believes Mexican and other western hemisphere laborers work cheaply in this country, thus tending to reduce wages of Americans. Box asserted he has been told that living conditions are such that "no self-respecting American could endure them."

In the senate, where hearings on the Box bill also were in progress before the immigration committee, opposition to the measure was voiced by Alfred P. Thom, general counsel for the Association of Railway Executives, who declared that railroads of the southwest depend largely on Mexicans for labor.

He filed with the committee from southwestern carriers showing that from 55 to 80 per cent of common railroad labor is done by the Mexicans and stated that it would place a burden on the railroads if they were forced by legislation to replace this labor.

E. E. McInnis, general solicitor of the Atchison, Topeka & Santa Fe system, said that to produce the 500,000 car loads of freight handled annually by southwestern carriers, agriculturists and stockmen in that section must depend on the seasonal Mexican laborer.

"No lexislation should be adopted," he said, "until a definite answer is made to the question that if the labor supply is cut off, how are we going to meet the demand?"

White men cannot do the work and negroes will not, he declared. Therefore, if the proposed quota law passes, the greater part of the burden will fall on the shoulders of the farmers of the southwest, because the railroads will be forced to get crews from among laborers on the farms.

The house committee also heard O. F. Heckman, of Denver, labor superintendent of the American Beet Sugar company, who said his company employed much of its labor through a labor agency at San Antonio, adding that no Mexican was carried northward who was known to have entered the country illegally.

"We secure as much labor as possible in the cities in our territory and go to Texas to procure Mexicans to fill the remainder of our needs," he added.

Box inquired of the witness if he did not know that the Industrial Workers of the World was organizing the Mexican laborers. Heckman replied that he had seen newspaper reports to that effect, but that he had no other information on the subject.

C. H. Brown, of Masou, Ariz., a farmer, declared that his section was getting ready for a restriction of Mexican labor, but that the immediate shutting off of the supply would greatly harm them.

"The West will adjust itself to this situation, but there is a great economic problem to be worked out," he said.

Howard Ottershirt, of Shasta, Minn., contended that without the sugar beets produced by Mexican labor, the sugar factories would close, throwing American workmen out of work.

DALHART VOTES THIRD ISSUE PAVING BONDS

DALHART, Texas, Feb. 29.—Dalhart voted its third issue of paving bonds here Tuesday by a majority of 139 to 105. A bond refunding issue carried by majority of 182 to 58. A total of 244 votes was cast. The voting of this additional bond issue will enable Dalhart to have at least 15 more blocks of paving, giving the city, when the program has been finished, a total of more than 60 blocks of street paving.

a serious condition and the others had comparatively slight injuries.

When Sandino's men were driven out of Quilali early in January six marines were killed and 28 were wounded.

Prior to that in the seven and one-half months of fighting in Nicaragua the United States marines participated in more than a dozen engagements with guerillas. In these eight marines were killed and six were reported wounded. At the same time the casualties of the rebels were estimated at 600.

Of late there has been little fighting going on between the joint United States marine and national guard contingents and Sandino's men. Large reinforcements have been sent to Nicaragua for the purpose of reinforcing the garrisons, which have been established there under the American command. Brigadier General Logan Feland has control of the marines and pack trains have been sent to the northern disaffected territory with supplies.

Airplanes are daily scouting over the country and recent reports have failed to disclose the whereabouts of General Sandino or the followers he is said to have, except for small bands.

"Cheap" paint costs less per gallon, yes . . . *but a whole lot more on the wall.* First, it takes nearly twice as much "cheap" paint to cover the surface as it does fine old SWP.

Then a very brief period sees the finish of "cheap" paint. It's faded, peeled, chipped. SWP House Paint, made of the finest materials, with sunfast and weather-proof colors, averages five years. And *it's rich looking to the very end.* "Cheap" paint actually costs two and a half times as much for repainting—often more.

MINE FIELD STRIFE TAKES FOUR LIVES AS GUNMEN FIGHT

TWO UNION LEADERS SHOT TO DEATH BY RIVALS IN COAL FEUD

SLAYINGS AT PITTSTON BELIEVED FOR REVENGE

Unidentified Killers Flee From Scene of Murder Before Police Cars Arrive.

PITTSTON, Pa., Feb. 29. (AP)—Pittston's mine union feud has claimed four lives in the last two months.

Alex Campbell, check weighman and union leader at No. 6 colliery of the Pennsylvania Coal company, and Peter Reilly, treasurer of local 1703, United Mine Workers of America, were riddled with bullets fired by unidentified assailants late yesterday as they approached Campbell's home in an automobile. Both were dead when police reached the scene a few minutes later. Their assailants, who apparently had trailed them in another motor car, had disappeared.

Slayers' Car Found

Later an automobile, believed to have been used by the slayers, was found abandoned near a railroad crossing in Moosic, several miles from Pittston. Inside the car were found two pump guns, a .38 calibre pistol with six empty shells, and three dozen loaded pump gun shells. Several persons told the authorities they had seen three young men abandon the car and leap on a passing freight train bound for Scranton. Fairly accurate descriptions of the fugitives were given the police.

Campbell, formerly a member of the international board of the United Mine Workers, and Reilly were leaders of a faction of the union local which has been vigorously opposing the contract mining system in vogue in the Pittston district.

Slaying for Revenge

Their slaying is believed by the authorities to have been in retaliation for the killing of Frank Agata, a district organizer, who was shot to death 10 days ago in the district sub-headquarters in Wilkes-Barre.

Campbell and Reilly, whose faction in the union has undertaken to raise funds for the defense of Samuel Bonita, Steve Mendola and Adam Moleski, charged with the murder of Agata, were on their way from a conference with the prisoners in the Leuzerne county jail when slain.

Agata was the personal bodyguard of Rinaldo Cappellini, president of district No. 1. Agata's slaying was regarded by the police as a reprisal for the shooting to death of Thomas Lillis, a supporter of the Campbell policies, six weeks ago. Imported gunmen were alleged to have been employed in the Lillis shooting and it was said they had killed the wrong man.

Fifth Man Escapes

A fifth intended victim of the feud was Samuel Crecio, a member of the grievance committee of No. 6 colliery, who was shot and seriously wounded on February 18. The attempt to kill him was also laid to revenge for the slaying of Agata.

Mayor Gillespie recently addressed an open letter to the officials of the coal company and mine workers beseeching them to try to settle the questions which are regarded as underlying the deadly strife.

Dispatches from the border said the hunters were given official courtesies on the understanding that the governor would be among them.

MANY VISITORS ATTRACTED TO MUNICIPAL ZOO LOCATED AT CALL FIELD IN HANGAR NO. 6

By FRANK O. HALL

The city of Wichita Falls does have a real zoo. If this statement is not convincing enough all a person needs to fully realize the truth is to visit hangar No. 6 at Call field, where the animals are being temporarily housed.

From a nucleus of one coyote, presented to the city by the Lions club several months ago, the Wichita Falls Municipal zoo has grown rapidly until now something like 40 animals and birds are included.

From the two black bruins who stroll about their pen in that lazy manner characteristic of their kind at this time of year to the beautiful pheasants and ever-chattering monkeys, a trip through the zoo is just one long journey of delight.

Already several thousand persons have realized just how much can be derived from a visit to the local zoo. Last Sunday it was estimated that about 2500 persons viewed the animals.

Jojo, the coyote, sits in his cage and looks with unconcern at the visitors as if to say, "Why all the fuss about this thing anyway? I am responsible for the zoo for did I not start the thing off when Mayor Shepherd accepted me from the Lions club, in spite of the fact that he didn't know what to do with me after he got me?"

Jojo, according to C. C. Bunnenberg, superintendent of the Wichita Falls park department, who is supervising the management of the zoo, was named after two Wichitans whose first names are Joe.

Kinkajous Popular

Probably the most popular animals in the zoo are the two kinkajous, or honey bears, donated by D. H. Allday. These little animals have beautiful fur, enjoy being petted and attract the immediate and favorable attention of every visitor.

Down at one end of the hangar is the home of the silver grey fox. He was given to the zoo by Dr. W. T. Wells.

Everyone has heard of the phrase "playing 'possum" and a visit to the zoo will permit one to see a real opossum play the game. The four opossums were donated to the zoo by Mrs. D. E. Solesbee.

No zoo would be complete without the wise old owl who sits on his perch and blinks in a lazy sort of "don't care" way at the visitors. There are six of these wise owls in the local zoo. Five of them are monkey-faced owls and the other one is a great horned owl. They were given by Mrs. Charles Sloan.

"Pete" has proven to be a very popular member of the zoo and never fails to receive his share of attention in spite of the fact that he has a rather stupid expression on his face. "Pete" is a coatimundi, commonly called an ant eater, donated by Dr. Graham.

Two monkeys pride themselves on being citizens of Wichita Falls even though they are forced to live behind the cage wire. One of these was donated by E. W. Graham and the other by the B. G. Ripley Music company.

Two pheasants, who boast of plumage that is hard to equal anywhere in the bird kingdom, have been given by Dr. Graham.

Bears Like Climate

There are three rabbits, Belgian hares, that occupy a space in the hangar. Two of these—one of them is the baby—were given to the park department by Mrs. C. D. Whitley, now deceased, before the idea of the municipal zoo was full grown. These never fail to attract the attention of the children.

Two proud zoo members who never let the visitors interfere with their everyday life any more than they wish them to, are the two black bears given by the Panhandle Refining company. The bears were brought here recently from the St. Louis zoo and appear to be liking the Texas climate.

Dr. Graham again added his bit toward increasing the population of the zoo when he gave five squirrels.

One animal which probably arouses a great deal of alarm but which is entirely "harmless" is the civet cat given by Mrs. D. E. Solesbee. She has also donated five prairie dogs.

The gila monster, which always sends a shudder through the spinal column, was given by Dr. Graham. It is necessary to keep a light burning near him during the winter in order to make the temperature warm enough to suit his needs. The gila monster eats only eggs.

BOY INHERITS MILLIONS BUT KEEPS ON WORKING

NEW YORK, Feb. 29. (AP)—William Woods Plankinton, 21, Milwaukee's richest young man, would rather work in New York for $20 a week than live off the $4,000,000 he recently inherited from his father. He is employed on the new Grand Central building being erected by his grandfather, J. C. Stewart, learning to be a construction engineer.

Psychic Seers Test Boy After Spirits Sport

LONDON, Feb. 29. (AP)—Eight-year-old Douglas Drew, who in physic circles bears the reputation of being possessed of a poltergeist or unruly spirit, must have felt like a gold fish in a glass bowl today.

For the purposes of observation Douglas began sittings at the National Laboratory of Physical Research in a great glass enclosure with Director Harry Price and others peering at him from all sides for an hour.

His relatives and friends of the family claim that in a room when this fair-haired, blue-eyed boy is around chairs frequently slide about the floor, teapots flit from one side of the room to the other and equally inexplicable things occur.

Sir Oliver Lodge is among those who are taking a keen interest in the tests which will continue for one week.

REED CONTINUES QUIET ON CALIFORNIA PLANS

MINE OPERATORS REPLY TO CHARGES BY UNION CHIEFS

PITTSBURGH, Pa., Feb. 29. (AP)—Continuing its advertisements in the newspapers, directed to the public, the Pittsburgh Coal company today said the concern, now operating non-union, has 8578 miners at work in 19 mines while other companies have 11,479 non-union men working in 67 mines. These non-union mines, the company claimed, produced 1,600,000 tons of coal in January.

The company launched its advertisements yesterday, saying that "as the actions and pronouncements of the visiting senate committee seem to stamp it as a prejudiced body, we are taking this means of telling the essential facts because neither the committee nor the newspapers seem willing to present both sides of the question."

Under the heading: "Are these men poorly paid?" the company said that the non-union "cutters are the skilled labor of the mining industry—during 1927 cutters in our mines, working steadily averaged approximately $2943 or about $250 a month. Even the unskilled class of miners — the loaders — averaged close to $1700 a year or about $130 a month. This is only the average—many loaders made over $2000 and some steady working skilled cutters made from $4000 to $5000 during 1927."

The company charged that "paid union officials are keeping this controversy alive because of the money in it for them."

Other claims made by the company in the advertisement were:

Approximately $1,000,000 has been spent during the past two years to improve living conditions in mining villages.

Charges that the company encouraged bootlegging in mining towns "are deliberate and intentional falsehoods."

After paying all their bills, the miners still have 69 per cent of their wages left.

Miners are not obligated to purchase goods in company-owned stores.

The company stores handle the best of goods at prices lower than independent stores.

The company has spent thousands of dollars to build garages for automobiles owned by their employes.

During 1927 the employes spent more than $100,000 for gasoline and automobile accessories.

OKLAHOMA YOUTH GETS FOUR-YEAR SENTENCE ON EXTORTION CHARGE

MIAMI, Okla., Feb. 29. (AP)—Pleading guilty to two charges of attempted extortion Russell K. Bobbitt, 20, was sentenced today to four years in the state penitentiary. He confessed yesterday to sending threatening letters to George L. Coleman and Mrs. Sarah Corbett of Miami.

Bobbitt was apprehended by postal inspectors when he appeared at a place he had instructed one of his intended victims to put a package of money.

ARGENTINE HORSEMAN RESUMES HIS JOURNEY

SAN ANTONIO, Texas, Feb. 29. (AP)—Aimee Felix Tschiffely, Argentine horseman on a trip from the Argentine to New York, resumed his journey here today after a week of rest at local army camps.

Tschiffely headed for Austin, which he hopes to make by the end of the week. From there he will go to Dallas and on north through eastern Oklahoma. He plans to travel steadily for a time as his horses are in good condition after their rest here.

Among the many messages which he carried was an invitation from Mayor C. M. Chambers of San Antonio to 800,000 members of the American legion to attend the national convention here next October. The message will be delivered to National Commander Edward E. Spafford in Indianapolis.

THREE LIQUOR CASES FROM ARCHER AFFIRMED

AUSTIN, Texas, Feb. 29. — The cases of Eugene Eppie, Hayden Wilborn, and William Darnaby, convicted in Archer county of possessing equipment to manufacture liquor and each sentenced to one year in the penitentiary, were affirmed Wednesday by the court of criminal appeals. The higher court found no reversible error.

Wichita Ex-Gobs Will Organize at Meeting March 6

There's going to be a hot time for the veterans of the U. S. navy who live in Wichita Falls before very long.

Whether it will be a dinner, a dance, a smoker or a combination of the three is something yet to be decided. All that is known is that it will be a gab-fest, where those who remembered the Maine and possibly some who sailed with Farragut will match their yarns with later veterans.

The decision is to be made on the evening of March 6, when ex-gobs of Wichita county will meet in the court room of O. L. Gibbs, justice of the peace, in the basement of the court house, to perfect an organization. It is to be a non-fee proposition, designed to bring together those who once served in the navy.

The meeting of March 6 results from a session in Judge Gibbs' court rc...t Tuesday night which was attended by 43 ex-sailors who were enthusiastically in favor of organizing. The meeting was sponsored and called to order by A. F. Clayton, chief machinists' mate, in charge of the local naval recruiting station.

The veteran of those at the meeting was George Bodkin, 1306 Kemp boulevard, whose six years of service began in 1902. Elms Holley, 1002 Burnett street, was the last to qualify for membership. He was discharged from the navy last January 4.

Among those present, however, were men who said they knew of veterans of the Spanish-American and civil wars residing here, and special invitations are to be extended to those to attend the next meeting, according to Clayton.

CLEARINGS FIRST TWO MONTHS 1928 TOTAL $23,634,698

Clearings in the four Wichita Falls banks totaled $11,044,685.62 during the month of February, according to the monthly report Wednesday of H. L. Hunter, manager of the Wichita Falls Clearing House association.

This figure represents a decrease of $1,545,326.78 from the total for January, when the clearings aggregated $12,590,012.40. The clearings for the first two months of 1928 total $23,634,698.02.

Junior Artists Give Program at Lions Luncheon

A program by junior Wichita Falls musical and expression artists, arranged by Mrs. J. S. Pittman, was presented at the regular weekly meeting of the Lions club at noon Wednesday.

William Luther Donnell, son of Mr. and Mrs. B. D. Donnell, gave a violin solo, with Mrs. J. V. C. T. Christensen at the piano.

Jimmy Guest, son of Dr. and Mrs. J. C. A. Guest, gave a piano solo.

Jack Krauss, son of Mr. and Mrs. W. C. Krauss, gave two readings.

Henry Helgerson, son of Mr. and Mrs. H. G. Helgerson, delivered a short address on "What Lionism Has Meant to Me." Henry accompanied the local Lions club to McAllen last year when the Lions Cub band was taken to the state convention.

P. E. Curd gave a report on the trip to Grandfield, Okla., last Thursday night when a charter was formally presented to the new Lions club of that city.

Guy Curtis, educational director of the First Christian church, who has been elected general chairman for the older boys' conference to be held here, announced that 700 boys between the ages of 15 and 18 years are expected to attend the meeting here.

Guy H. Hulse of St. Louis, secretary and educational director of the National Retail Merchants' association, who was scheduled to address the meeting, failed to arrive in Wichita Falls. Members of the local Retail Credit Men's association were guests at the luncheon.

Around Town

K. Howard Friedly has returned to Wichita Falls from Los Angeles, Calif., where he was associated with the railway time service there, and will be associated with his father, T. H. Friedly, in the same business here. Howard Friedly is a Wichita Falls boy and a graduate of the local high school.

A. B. Maples has gone to Temple, Texas, where he was called by the serious illness of his father, Egbert Maples, who is a patient at Kings Daughters sanitarium.

The latest addition ao the population of the Wichita Falls Municipal zoo is a pair of badgers donated by John Tevis, it was announced Wednesday.

Dr. S. A. Barnes, pastor of the Floral Heights Methodist church, is confined to his home, 2210 Tenth street, with an attack of la grippe.

Miss Maurine Stewart of 1632 Eleventh street, who was operated on at the clinic hospital Wednesday morning, is improving rapidly.

COURT GIVES OWNER VERDICT IN OIL LEASE

AUSTIN, Feb. 29. (AP)—Though a land owner having leased his property for mineral production accepts "rentals" in lieu of drilling operations promised he is not precluded from damages in the event adjacent wells "drain" his unprospected land, the supreme court held Wednesday.

The opinion affirmed lower courts orders granting unspecified damages to Mrs. L. A. Ramsower, apparently of Eastland county against the Texas company, presumably for such an occurrence.

MOTORISTS MUST HAVE ALL LIGHTS GOOD ORDER HERE

A warning to Wichita Falls motorists that all automobiles operating at night must have both head lights and the rear light in good working order was issued Wednesday by Chief of Police Frank Burns.

"We have received several complaints lately about cars that had only one head light, no head light or no tail light," Chief Burns said. "It is very dangerous for cars to operate at night without lights. We are going to begin arresting every motorist who is found delinquent in this matter."

Opera's Coming Advertises City As Nothing Else

Citizens asking themselves the question, "How can I help advertise Wichita Falls?" are answered by a gentleman from California, visiting in the city. He said: "In my judgment, Wichita Falls has never done anything that so definitely advertised the city throughout the United States as bringing grand opera to this territory.

"People throughout the country from the Atlantic to the Pacific now know that Wichita Falls is the smallest city in the United States that ever attempted grand opera. That your citizens have courage, faith and vision is stamped on the minds of the world. Citizens can further help advertise their town, do a good turn and feel the reflected glow, by seeing that grand opera is a success here.

"How? By not only buying tickets for themselves, but by buying for friends who are unable to purchase and give them this opportunity to see and hear this wonderful aggregation of world renowned artists.

"To me the citizens do not seem to realize what a big thing this is for Wichita Falls; nor how much they owe the men who are giving it to them. The highest priced talent is cheap for what it brings."

Their Letters

BY RUTH DEWEY GROVES

Marye, dearest; Well, of course you know what I think about a woman smoking, but maybe it's just that I can't get used to it. I don't know, but it always gives me an uneasy feeling to see any woman with a cigaret in her mouth. I can't help suspecting that she's a little fast. I think that's how men who don't like it feel too. And you can't blame a man for objecting to seeing nice girls do something he associates with the other kind. I suppose there are men who object to it because they say it's a man's privilege.

Now that would have annoyed a young woman even in my day, Marye dear, because women never did like men to assume exclusive privileges. Only they didn't come out in the open and fight about it as you girls do today. But be sure you know why men don't like it before you jump on them. And remember, too, if you strike at a man's belief that he is lord of all creation you are trying to take away a prop he has leaned on for ages.

For my part I think it would be a pitiful sight to see a man pulled down like that. It seems to me that women want to climb right up over men, climb a pedestal and do the crowing for a while. That may be fair but you're in such a hurry about it you won't give the poor things a chance to get out of the way. So when you get to the top you will have to look down at a world of men who have lost their self-confidence.

It took a long time for the relations between men and women to reach the present state, and now women want to change it all overnight. We had plenty of time to get used to a man's world but the modern woman wants to make it a woman's world all in a day.

Please be careful how you handle Alan, Marye my girl, because for all our wanting to stand on our own feet—and don't think that's an original idea with women—some of us who are older and wiser realize that we can't change so much in one generation. Some people say we really are drifting toward a woman's world. Well, I hope we won't reach it before we're ready for it. And there's still one woman who blesses our Lord she has a staunch-hearted husband to lean on in times of trouble. With all my love.—MOM.

One Boy and One Girl Born Here On February 29

Two babies, a boy and a girl, were born in Wichita Falls Wednesday and will celebrate their birthdays only once every four years.

The leap year babies were reported to be apparently satisfied with their fate, according to hospital authorities, and were raising no strenuous objections to being born on February 29.

Dr. and Mrs. William Rosenblatt, 705 Wofford street, announced the birth of a daughter weighing one ounce under 10 pounds at the Wichita General hospital at 8:45 o'clock Wednesday morning. Dr. J. W. Powers was the attending physician.

The first baby born here on Wednesday was Jack Ronald Martin, who arrived at 12.01 o'clock Wednesday morning at the Hargrave-Walker hospital. He weighed nine pounds and is the son of Mr. and Mrs. J. P. Martin, 1210 Fillmore street. Dr. C. W. Stevenson was the attending physician.

CAMP FIRE GIRL HAS TOTEM POLE

Miss Edith Crump, stenographer for C. C. Bunnenberg, superintendent of the city park department, is believed to be the first Camp Fire Girl in Wichita Falls to have the honor of making a totem pole. Miss Crump has designed the pole to tell the story of an old Indian legend which has its setting in the Wichita mountains in Southwestern Oklahoma.

Miss Crump expects to leave in the next few days for Monroe, La., where she will be executive for the Camp Fire Girls.

TRAM PASSENGERS HERE DURING YEAR ABOVE 3,000,000

Approximately 3,000,000 fare paying passengers rode buses and street cars of the Wichita Falls Traction company during 1927, according to the annual report of that company filed Wednesday with Miss Elizabeth Hall, county clerk.

The passengers paid a total of $236,162.18 in fares, the amount representing the entire income of the traction company during the year. The fares were in sums of three, six and 10 cents for students, street cars and buses respectively.

The report shows that the deficit under which the company operated during 1927 was approximately $10,802 less than during 1926. During 1926, however, the company spent approximately $25,000 more for extensions and new equipment than in 1927. The traction company, it was explained, has consistently provided its service at a loss, a condition said to be true of practically every city in the country approximating the size of Wichita Falls.

The total operating cost for 1927 is shown by the report to have been $361,957.11 as compared with $286,563 in 1926. The income for 1926 was $252,066.31. The bonded indebtedness remained unchanged at $400,000.

The report shows that the traction company contributed nearly $79,000 to the Wichita Falls payroll record during the year. Of that sum, $13,600 was for salaries and $65,304.14 for "labor." The investment for fuel during the year was $24,735.

Iowa Park News

IOWA PARK, Feb. 29.—Mr. and Mrs. W. R. Bradford and little daughter, Bobbie Jo, spent the weekend here with relatives. Mr. Bradford was superintendent of the Iowa Park schools for eight years, resigning last year to accept the superintendency of the Panhandle schools.

Frank Emanuel, former resident of Iowa Park, was here this week to attend the funeral of Mrs. G. W. Powell. He now lives at Wellington.

Miss Irene Redin visited friends in Electra Wednesday.

R. L. Bradford is reported able to be up again after a five weeks' illness.

Mr. and Mrs. Carroll Hester were in Fort Worth Saturday and Sunday.

T. L. Burnett went to Mineral Wells Saturday where he intends to remain for three weeks for his health.

Miss Thelma Trussel of Wichita Falls, formerly instructor of home economics in the Iowa Park high school, spent the weekend here visiting friends.

Miss Gertrude Brooks, teacher in the Panhandle schools, was in Iowa Park Friday evening en route to Randlett, Oklahoma, to spend the weekend with friends and relatives.

Walter Denny of Panhandle was here Saturday and Sunday visiting his wife and children. Mrs. Denny is here with her mother who has been ill.

Mr. and Mrs. W. E. Wilson and children of Wichita Falls were in Iowa Park Sunday visiting in the J. N. George home.

Mr. and Mrs. Merle Waggoner and Mr. and Mrs. Leon Deaton of Wichita Falls attended services at the Methodist church here Sunday evening.

Mrs. Francis Baker, who was taken to a Wichita Falls hospital Sunday for treatment, is reported to be improving.

Alvin Bradford, who is employed at Wichita Falls, visited friends in Iowa Park Sunday. He is the son of a former Methodist pastor here.

BAINBRIDGE COLBY SUIT FOR DIVORCE IS DENIED

VERSAILLES, France, Feb. 29. Bainbridge Colby, former American secretary of state, has been refused a divorce from the former Natalie Sedgwick by the Versailles tribunal.

The court refused to grant the decree on the grounds that the residence of Mr. Colby in France had not been sufficiently established in accordance with French law.

Wife of Rural School Head Is Slightly Burned

The fact that a Red Cross representative chanced to be delivering a lecture in the Rocky Point school at the instant that Mrs. G P. Hardgrove, wife of the principal, received painful burns Tuesday was credited with having lessened her suffering.

Mrs. Hardgrove was injured when the oven flame of a gas stove suddenly blazed into her face.

At the instant, Miss Gerda Olson, nutritionist, was paying a visit to the nearby school as result of a service recently arranged for rural school students by the Red Cross. The purpose of her visits to the various schools is to weigh and measure children and to advise a proper diet for students who are under weight. Miss Olson interrupted her talk to give Mrs. Hardgrove emergency treatment.

The nutritionist also visited the Deep Creek school Tuesday. Burl Bryant, county superintendent of schools, accompanied her.

Newest Faucet Popular Idea For Bathroom

CORSICANA, Texas, Feb. 29. (AP) A combination faucet in a bath tub through which either hot water or liquor could be drawn was discovered here when city and county officers raided a Corsicana residence. G. R. Benfield was arrested and a complaint charging violation of the prohibition laws was filed. He was released on $1000 bond.

A 5½-gallon container was built into the wall of the bath room above the faucet, officers said, and a hidden spring under the window released a board where the cutoff admitted either liquor or hot water as the operator desired, was located.

NIGHT CLUB GETS FURNISHINGS BACK AFTER PROHI RAID

NEW YORK, Feb. 29. (AP)—The elaborate furnishings of the Chez Helen Morgan, New York night club, seized by federal prohibition agents under an old section of the internal revenue laws, have been ordered restored following withdrawal of the charges.

The raid was made under a section of the revised statutes which the agents contended empowers the government to seize property on the premises of one believed to be defrauding the government of money due on taxable goods—in this case alleged intoxicating liquors.

United States Attorney Charles H. Tuttle said new informations charging violation of the prohibition law would be filed against the defendants with the exception of Helen Morgan, the actress and hostess at the club, and Arthur Gordoni, an entertainer.

The order of Federal Judge Julian W. Mack directing restoration of the property, however, does not apply to barroom fixtures seized from an adjoining building.

The raid by agents under Administrator Maurice Campbell the night of December 30 was one of the most spectacular ever made in the theatrical district. Patrons in dinner jackets and evening gowns looked on while the agents arrested Miss Morgan, Gordoni and seven others, and dismantled the place, carting the furnishings to a warehouse. Mr. Tuttle explained that a quantity of liquors bearing no tax stamps was found in the barroom.

Miss Morgan, a musical comedy actress, was held in jail for several hours until bail was accepted.

Lois Garver of Alvord Wins First Prize "Your Day to Gain" Contest Dean Harrison of Wichita Second

A large number of answers were sent to the "Your-Day-to-Gain Editor." There were many ideas expressed, and the editor makes this observation—that the spirit of good will and expressions favoring devoting the day to the help of others was the theme of most of the suggestions, all of which manifest a fine spirit among all men and that even in our desire for gain and material things, we think first of our fellows. Many times it is charged that the human family is turning from altruistic thoughts to sordid and commercial actions, but the suggestions and essays submitted in the Your-Day-to-Gain contest proved quite the contrary. Some very fine essays had to be rejected on account of their length. One of the tests for a writer is brevity and the ability to express his thought in a few words. We are giving honorable mention to one of the contestants although the essay numbered over 300 words. We cannot pass it without mention. The following were the winners:

$10 prize—Lois Garver, Alvord, Texas.

$5 prize—Dean Harrison, 1409 Eleventh street, Wichita Falls, Texas.

Honorable mention:

Arthur Greer, Bellevue, Texas.

Mrs. John M. Fox, 1605 Thirteenth street, Wichita Falls, Texas.

The essay winning first prize follows:

Your Day of Gain

(By Lois Garver, Alvord, Texas.)

When the shepherds heard angelic hosts say "peace on earth and good will toward men," they doubtless anticipated universal peace and good will immediately; but since that memorable night, "man's inhumanity to man has made countless thousands mourn." Through out the years man has been looking forward to peace. Now we have a day set aside to observe present world peace among nations, but never have we had a day set aside to promote good will among individuals. Therefore, I suggest that we observe February 29 as general good will day—a day wherein business and professional people and everyone exert themselves to manifest in some material way their good will toward each other. Why shouldn't people take their heads out of their work once every four years and put their hearts there instead?

I suggest as a climax to this day that there be a prize offered for the best paper submitted on "Ways to Promote Good Will Among People." This will not only create a spirit of good will, but it will tend to promote interest in some of our national problems.

Thus, "time, once every four years, would turn back in its flight and give us good will for just one night."

The second prize winning essay follows:

February 29th.

(By Dean Harrison, 1409 Eleventh street, city.)

This year, as every year in four, we find an extra day, the twenty-ninth of February, allotted us to be squandered or utilized.

It is impossible to outline a general program for all mankind for this particular day's work to precisely fit in with the set plans and schedules which duty and necessity have already provided. However, a portion of it can be, and should be, dedicated to the fulfillment of that service which we are inclined to neglect—our duty to our fellowman. If only an hour or two can be spared to make brief visits, bestow words of encouragement and cheer, and otherwise indicate an interest in him and his welfare, it will produce and stimulate enthusiasm and good will; and "Be like bread cast upon the waters." In further proof of its worth, we quote the words of Samuel Johnson, "The greatest benefit which one friend can confer upon another is to guard, excite and elevate his virtues."

It is recognized that it is our duty to do something for somebody every day, but if this additional day is especially dedicated and employed in the fulfillment of this duty, we can retire with the consciousness of a day well spent and a work well done.

Essays winning honorable mention follow:

Your Day to Gain

(By Arthur Greer, Bellevue, Texas.)

When February 29 passes away will it be "Just another day wasted away" or will you make it count for the good of some one? That one has no special gift of expression, in speech, in writing, in drawing, or in music, should not discourage him from trying to increase his power to gain something or cause him to undervalue the importance of this day as a means to success and happiness in life. This opportunity comes only once every four years. Why not make it "your day to gain?"

Whether as a member of boards of directors or trustees, or as a citizen who is drafted for public service of some sort or other, or as a leader in large enterprises, he who works for the good of his neighbor, friend, relative or whoever he may be—it will be, "your day to gain." As a man becomes known in his neighborhood for substantial qualities of character he finds increasing demands for his services. What do we live for? To be of service to our fellow men; so do something February 28, that will be for the good of some one or for the good of all and it will be "your day to gain."

Have a backbone not a wishbone and put your shoulders to the calendar and push the twenty-ninth of February over for the good of humanity at large, and we will all gain in return. Be wide awake the twenty-ninth for a success is not made by lying awake at night but by keeping awake in the daytime, this is your opportunity that comes only once in four years.

"You are the architect of your own destiny." We stand around and grumble about our "luck." Don't you realize that man makes his own "luck"? Good luck is nothing, but having enough brains to take the opportunity when it comes your way. Now February 29 is the "rabbit foot day" on our calendar this year and we get to use this rabbit foot only once every four years: let's be "one for all and all for one" and make it "Your Day to Gain."

Your Day to Gain.

(By Mrs. John M. Fox, 1605 Thirteenth street, Wichita Falls, Texas.)

Did you ever find a dollar in your pocket that you didn't know was there? It gave you quite a "thrill"—almost like a gift, wasn't it?

Well, here's the month of February "kicking in" with the gift of a golden day—an extra day—an important day because it only comes once in four years. It is Wednesday, the twenty-ninth. We ought to celebrate this day in Wichita Falls, somehow, so it will know it is welcome.

Let's give it the "Key" to the city.

Let's call it "Know Your Newspaper" day. Here's an institution that serves and keeps faith with you three hundred and sixty-five days in the year. Let's dedicate the tribute of the three hundred and sixty-sixth day to the undying Spirit of the Press—the pulse that beats faithfully to register the trend of the times.

Let's really read our newspapers. Let's know what our merchants are offering. Let's read the latest Grand Opera, sport, society and market news—plans for the new city charter. Let's gain in the knowledge of what a live newspaper can mean to progress on "Your Day to Gain," Wednesday, February, twenty-ninth.

The difference between graham flour and whole-wheat flour is that graham flour is made from the entire wheat kernel; whole-wheat flour from the kernel with the outer layer of bran removed.

ANNUAL CENSUS OF SCHOOL DISTRICT STARTS THURSDAY

The annual census of the Wichita Falls Independent School district will begin Thursday, March 1, according to W. W. Brown, secretary of the board of education.

Those who will assist Mr. Brown are as follows: H. A. Glass, W. A. Franklin, J. E. Park, R. A. Jarrott, W. Edward Walker, S. L. Butler and J. T. Rundell. E. O. Holland will take the census in the negro district.

A house to house canvass will be made and when no response is received, the census taker will return until he does get the information necessary.

All children who will be over seven and under 18 years of age on September 1, 1928, and who are residents of the district on April 1, are included in the census, and those under 18 who are married are to be counted also.

Mr. Brown suggests that if the parents would make out a list of their children's names and ages, giving month, day of month, and year in which the children were born, it would save the time of the person taking the census.

Each child recorded means $15 to the local school fund out of the taxes.

TEMPORARY OFFICES OPENED FOR VERNON CARNEGIE LIBRARY

VERNON, Feb. 29.—A temporary home for the Carnegie free library has been opened in the Cy Long building, corner of Pease and Mesquite streets, following the destruction of the library building Monday morning by fire which did an estimated damage of $25,000 to the building and books.

All salvaged books will soon be in shelves at the new location and ready for circulation, Miss Lillian Newton, librarian, announces. As this location has been rented for county offices during the construction of the new court house, it will be used but a short time by the library.

Offices of the chamber of commerce, formerly located in the library building, have been opened at 1607 Cumberland street.

CLINIC FOR CRIPPLE CHILDREN IS HELD AT KIOWA INDIAN HOSPITAL

LAWTON, Feb. 29.—A clinic for crippled children was held Tuesday at the Kiowa Indian hospital north of this city, under direction of the Crippled Children's society of the state of Oklahoma.

Dr. Earl McBride, noted surgeon of Oklahoma City, assisted by local physicians, is conducting the clinic. Lew Wentz, philanthropist of Ponca City, is also in attendance. Other guests include Dr. Chas. R. Hume, Anadarko; Dr. Walter S. Stevens of the Indian Service, Shawnee; J. A. Buntin, Indian agent, Anadarko.

Lew Wentz addressed the Rotary club at luncheon Tuesday.

LOCAL COMMANDERY TO HAVE STATED CONCLAVE ON THURSDAY EVENING

The Wichita Falls commandery No. 59, Knights Templar, will have a stated conclave Thursday evening when the Order of the Temple will be conferred upon Knights of Malta C. C. Chapman, M. C. Sherman and A. L. Stubblefield, according to an announcement Wednesday by J. D. Avis, commander. The work will start promptly at 6 o'clock.

STATE INTO DISTRICTS FOR GAME LAW POLICE

AUSTIN, Feb. 29.—The state of Texas has been divided into four districts in an effort to make more efficient the Fish, Game and Oyster commission's combatting of stream and water pollution, it was announced today.

A district supervisor has been named for each of the four districts, they being: W. D. Thompson, Waco, northeastern. Fred Madely, Austin, south and west; Green Morgan, Houston, southeast; Sam Thrasher, Cisco, northwestern.

ELEVEN ARRESTED AROUND LAWTON BY FEDERAL RAIDERS

LAWTON, Feb. 29.—Population of the Comanche county jail was increased from 32 to 43 at 2 o'clock this afternoon by the arrival of 11 men and women in the custody of federal enforcement officers.

Three women and eight men caught in raids made under the personal supervision of Frank V. Wright, deputy administrator, of Oklahoma City. The statewide drive which is being made struck this county without warning.

Two stills were taken in Pumpkin Hollow, near the forest reserve, where four arrests were made. Officers also confiscated a fresh deer hide and feathers of wild turkeys. Thirty gallons of whiskey was found on the premises.

Another still was taken five miles northwest of Cache. Twenty gallons of whiskey were confiscated at this place.

Little, if any, smoke is expected to rise above the jack pines while the raiding squad is in the county, for word of the raids spread like wildfire.

DISTRIBUTORS GENERAL ELECTRIC REFRIGERATORS MOVE TO 807 BROOK AVE.

PORTUGUESE AUTHORITIES ARREST RAIL AGITATORS

LISBON, Portugal, Feb. 29. (AP)—The Portuguese police have found more bombs and have made additional arrests in a drive against radical agitators which has now been in progress more than a week.

Thirteen railwaymen agitators and others charged with complicity in a recent plot were arrested at Barreiro, opposite Lisbon.

HOSPITAL SETS RECORD FOR LEAP YEAR BABIES

LONDON, Feb. 29. (AP)—The stork broke all records at Queen Charlotte's, London's largest maternity hospital, delivering 10 leap year babies before noon today. As a rule the half day average is only three.

Other maternity homes reported arrivals about the same as on other days.

Texas Mother's Idea Is Proved Right

"A few years ago, my little daughter, Lois, nearly worried me grey," says Mrs. J. L. Carpenter, 104 Buckingham avenue, San Antonio. "She was very puny and underweight, she had no appetite, her breath was bad, her tongue was coated, she always seemed tired and sleepy and never wanted to romp or play like other children.

"She was badly constipated, and I had the idea that her stomach and bowels were weak. We decided to give her some California Fig Syrup, and we couldn't have thought of anything better. The first few doses brightened her up amazingly. We kept giving it to her for about a week, and at the end of that time she was feeling like a new girl. She began to pick up weight and she hasn't had a bit of her old trouble since. Now she's a strong, healthy girl, making wonderful grades in junior high school, doing splendidly with her music, and is as much help as a grown person in the home. We have used California Fig Syrup with her for bad colds, little feverish spells, etc., ever since our first experience with it. It's marvelous for children."

California Fig Syrup is purely vegetable and works with nature to tone and strengthen the stomach and bowels, so they act normally, of their own accord. Children like its rich, fruity taste, and it acts quick to clean the souring waste out of their system, without griping or making them sick.

All drug stores have it, but to be sure of getting the genuine, endorsed by physicians for over 50 years, ask for it by the full name, "California Fig Syrup."

Build Insurance Into Your Home with Fire-Resistive FACE BRICK

Insurance is good business. Every reasoning man insures his home. It is a big investment—he cannot afford to take the loss if it should burn.

But insurance costs money. How much—depends on the fire-resistive qualities of the material used in the building.

One of the strongest arguments in favor of building with Face Brick is that it takes the *lowest fire insurance rate possible to obtain on a building.* That is ample and scientific proof of the fire-resistive qualities of Face Brick.

But building with Face Brick gives you another kind of insurance—a kind which no insurance man can write for you. It gives you *depreciation* insurance. Everyone knows that depreciation consistently tends to rob a building of its value.

The Face Brick home depreciates least of all. Whereas time and the weather deal harshly with other types—the Face Brick home only mellows and matures under their ceaseless efforts at destruction.

These facts should interest you. May we not tell you more?

Parent-Teacher Associations Have Called Meeting Wednesday

Parent-Teacher association officers and members in the proposed new 13th district, of which Wichita Falls will be the center, to be organized during the month of April, met at the Memorial auditorium Wednesday morning, and heard Mrs. Ira L. Cain, state chairman of P.-T. A. juvenile protection, discuss plans for organization of the new district.

Mrs. Cain has recently returned from a state board meeting of P.-T. A. and Congress of Mothers held at Austin, and brought valuable information for local organizations home with her from the state president, Mrs. Noyes Darling Smith.

Plans for financing the district P.-T. A. convention, to be held in the early spring, were also discussed, and a telegram was read from Mrs. Smith in which she stated that an exception was going to be made in forming the new 13th district because of the fact that this section is now a part of the first and eighth districts.

Mrs. Charles H. Woodson, state director of department of organization, will be extended an invitation to organize the 13th district, and presidents of the first and eighth districts will be asked to attend, it was announced.

Mrs. Cain gave her message from the state board in an interesting and comprehensive talk, and also said that state board members are each taking a correspondence course in P.-T. A. work which she recommended to local and community P.-T. A. workers. The summer round-up or pre-school clinics for children, was briefly discussed, and Mrs. T. H. Lawson read a letter from Mrs. M. H. Glover asking the women to cooperate with the Wichita County Tuberculosis association in the work it is doing.

Out of town delegates from Vernon and Petrolia were introduced. Those present were: Mesdames John Nabers, Anderson Smith, J. J. Cockerell, Edwin Matthewson, E. C. Christian, H. L. St. John, G. O. Wilson from Vernon, C. C. Bock, F. T. Webb, F. D. Posey, J. H. Tinsley and E. T. Wolfe from Petrolia and A. D. Foster, Paul Teague, J. T. Osteen, E. P. Lundy, A. F. Leach, Roy R. Fultz, Ben Crowell, John A. Hays, C. E. Russell, H. C. Pinkston, T. H. Lawson, S. A. Covington, O. H. Karr, W. F. Kolter, W. A. McGee, Harry ten Brink, John M. Fox, R. A. Lincoln, R. P. Willis, C. B. Woods, Frank Creighton, B. L. Pain, J. B. Scarbrough, L. E. McConnell, A. D. Pattillo, E. R. King, E. L. Raney, Harry J. Strief, J. C. Vermillion and Miss Ida Moore.

MRS. CRUMP HOSTESS TO SAN SOUCI CLUB

Mrs. C. G. Crump was hostess to members of the San Souci Bridge club at her home Tuesday afternoon. In the games, Mrs. A. P. Terry won the high score favor, and Mrs. Joe Morring, second high.

Refreshments were served to Mesdames Terry, J. L. Webb, Charles Milliron, E. H. Minter, C. L. Bradford, Rufus Burton, C. E. Flowers, M. H. Seal and Charles Aubrey.

LARGE NUMBER ATTEND REAGAN P.-T. A. MEETING

Two hundred and fifty members of the Reagan Junior High P.-T. A. were present at the meeting held at the school Tuesday afternoon which was declared to have been the most enthusiastic and largest attended session ever held by the organization. A five-dollar cash prize offered the room for the largest attendance of mothers, was won by Miss Paden's room, with Miss Collier's room offering a close race. Eighteen new members paid dues.

During the business session, a nominating committee was appointed to select officers for the next year's work of the P.-T. A., and a mother and father party and dinner was planned to take place in the cafeteria of the school at 7 o'clock March 16. A rummage sale was also planned to be held Saturday.

An entertaining program was opened with selections sung by Miss Baker's glee club, and devotionals were given by Mrs. Alvin F. White. Mrs. Fred Barron led a singsong closing with the Mother's Congress song, and readings were given by Joe Guy, Laura Lynn Patillo and Marian Riesby.

Pupils of the school attended the meeting, and refreshments were served at the close.

BUSINESS WOMEN PLAN BENEFIT DANCE

Members of the Business and Professional Women's club met at the Y. W. C. A. Tuesday evening and during the business session completed plans for a benefit dance the club will give at the Weeks park clubhouse Wednesday evening, March 7. New members enrolled were Misses Fae Gillespie and Ruby Brown.

The program for the evening was furnished by Mrs. Lloyd Taylor. Miss Virginia Hampson and Chan Ricker, and included solo dances by Miss Hampson, and music by Mrs. Taylor and Mr. Ricker.

Dinner was served to the following: Mesdames Bulah Ransom, Louis Bunnenberg, Mary F. Lyons, Hermione S. Vaughn, W. E. Millican, Bennie Bell Gilchrist, Joella Terrill Butler, Hester Meade and W. O. DIVISION SIX HAS MEETING TUESDAY

Mesdames Will Stone and C. G. Tevis entertained members of division six of the First Christian Woman's council at the home of Mrs. Tevis on Burnett street Tuesday afternoon. The theme for the program was "Our Father Bringing in the Sheaves," and the devotional on "Plain Teaching," was given by Mrs. T. T. T. Reese. Mrs. W. F. Killingsworth talked on "Negro Disciples and Their Contributions" and Mrs. Ola Hamlin talked on "What the Bible Tells Me About Race Relations." "America's Tenth Man" was the subject of a talk by Mrs. Guy Wilson. A poem by Paul Lawrence Dunbar was read by Mrs. T. M. McDaniel, and the session was closed with prayer.

Refreshments were served to Mesdames J. V. C. T. Christensen, G. S. Bass, Mattie Bain, O. T. Bacon, Rebecca Carrington, Ola Hamlin, W. F. Killingsworth, C. W. McComas, T. M. DeDaniel, T. T. T. Reese, M. L. Reid, W. E. Rutledge, Martha Weber, J. G. Steele, Mark Walker, Guy Wilson and G. E. High.

Division Eleven

Members of division 11 of the First Christian Woman's Council met in the basement of the church Tuesday evening for dinner. Mrs. Pearl Maupin gave the devotional, and interesting papers were read by Mrs. H. H. Davis and Misses Chella Hendrick and Eula Logan. Miss Juanita Kinsey gave a reading, and Miss Harriet Bradley sang a solo, accompanied at the piano by her mother, Mrs. J. W. Bradley. Covers were laid for Mesdames R. E. E. Strange, J. R. Kinsey, Fred Reaser, B. Eichelberger, Bertha Mae Hill, Dick Wheeler, Joe Tyson, C. L. Garrett, Voyle N. Armstrong, J. Lem Keevil, Pearl Maupin, Amos Morris, J. H. Davis, Emmett Potter, John W. Bradley, and Misses Harriet Bradley, Ethel Lawson, Nettie Savage, Juanita Kinsey, Lela Tomlinson, Maude L. Lindsey, Chella Hendrick, Lillian Jones, Lollah Norman, Madge Davis and Eula Logan.

My Kingdom For—

LOS ANGELES.—A vase! A vase! My kingdom (meaning $5) for a vase! At least that might have been the cry of attorney Milton Cohen when Judge Bogue agreed to dismiss a $40 lawsuit if defendant's attorney could produce a duplicate of the one broken by his client. Cohen protested the amount involved in the case by asserting the vase could be replaced for $5.

ORIGINAL POEM READ AT TREE PLANTING

(Editor's note: The following poem was read at the tree planting ceremony and program sponsored by the City P.-T. A. council on the junior college campus Wednesday afternoon, by Miss Juanita Kinsey, public teacher at the college.)

The Message of the Tree
By Mrs. John M. Fox

Oh, young oak tree in your youth and prime!
We're planting you in faith today,
For you stand as a living symbol
Of the work of our P.-T. A.
May your roots drink deep of the substance
That flows from the bosom of earth
As our P.-T. A. council is strengthened
By the Congress which gave it birth.

May your trunk grow larger and stronger
With burdens that you bear to live;
May we from the tree take a lesson;
Enriched by the service we give;
May your branches be sturdy and graceful,
Each twig a delight to the eye;
May our branches be just as far-reaching
As the months and the years go by.

May each tiny leaf have a message;
Each doing its part on the tree,
May each one of us have the vision
That high as the stars we may see;
We pray that this tree grows and prospers
In weather both stormy and mild;
May our cause and work live forever—
The love and the care of the child.

MRS. COOLIDGE TO VISIT MOTHER IN HOSPITAL

WASHINGTON, Feb. 29. (AP)—Mrs. Coolidge will leave Washington tonight for Northampton, Mass. to visit her mother, Mrs. Lemira Goodhue, who has been ill with influenza.

There were indications at the White House that Mrs. Goodhue has suffered a slight relapse.

ZOE BECKLEY'S CORNER

Tisn't Enough.

"Dear Zoe: A boy 21 whom I've gone with a while asks me to marry him. He is good to everybody, his family and mine, and for me he would do anything in the world. He says if I marry him it will never be a mistake. I often think of others—but they don't ask me. Sometimes I think I'd like this man; sometimes not. What to do?—RING."

Just a plain case of not being in love with a man, that's all. And so the answer is "Don't take the engagement ring."

ZOE BECKLEY

The only excuse for marriage is love. It's hard enough to be sure you love a man even when you think you do. But when you know you don't and he's only 21 and you are only 19 or so, you'd be a foolish youngster to tie yourself up for life when what you need is to be free to see more of life and men, and learn about them, and about yourself.

Perhaps after you have played around with a few others, you will come rushing back posthaste to this good chap who is kind to his people, kind to yours, loves you and is waiting with the ring.

Meantime, wait. . . .

Organizer Wanted.

"Dear Zoe: We are two seniors in high school and want to form a crowd of 6 to 8 to chum around with together and have good times. How can we form such a crowd? Would it be O. K. to ask fellows to join in, making couples? How could such a crowd spend Sunday afternoons and an evening or two a week?—BABBEY TWINS.

Pick out the girls and boys you want, invite them to your house or your chum's house or somebody's house some Sunday afternoon, pick a trick name such as "Eight High," "The Ate Club," "Lincoln Eight" (for whatever the name of your high school is) and announce that you are about to organize a social bunch and won't they join?

Explain that the qualifications for membership are that they don't dance and don't play cards. Be facetious and say that these two failings put you into the dumbell class and therefore you have to organize or be snubbed!

As a matter of fact there are plenty of things you can do to amuse yourself besides dance and play cards. Private theatricals, for instance. Every try those? Charades are fun in the mild sort of way. So are the new parlor games based on question-asking, palm-reading, etc.

Write to any large book store (if there isn't one in your town) for an inexpensive book on indoor games. There are simply dozens. Then you could all trail to the movies or on hikes, picnics, etc. for a change.

But why don't you dance?

Just Pep, That's All

"Dear Zoe: The only man I ever cared for returns my love and I am thoroughly happy when with him. But when I'm not I have a craving to go around with others, to flirt a little. I'm not bad, only crazy. My sweetheart wouldn't want me to go with others and I don't deceive him. But what is the matter with me? Scold me.—PEP."

No, we won't scold you. Looks to us no worse than a girl's normal desire to adventure a little in life before she settles to one man, one companionship, and the responsibilities of marriage.

The main trouble when girls marry too young is that they haven't seen enough of life beforehand. Then they wake up suddenly, appalled at their sense of imprisonment, and feeling baffled and cheated.

Far better reverse matters, have your fling before you marry and come to marriage as a ship that has been a-sailing comes to a peaceful port.

We think you may be wrong that your sweetheart wouldn't like you to go about with others. If you told him just what you have told the Corner and made him believe, as you have us, that you love him truly, he'd be the first to say, "Why, sure, dear old thing. Skip about a bit, I trust you. But come back to me."

And you would.

Try This Simple Method For Blackheads

If you are troubled with these unsightly blemishes, get two ounces of Calonite powder from any drug store. Sprinkle a little on a hot wet cloth and rub over the blackheads. In a few minutes every blackhead, big or little, will be dissolved away entirely.—Adv.

Dora can't come!

Today, and every day, a lot of women count their time to suffer. As regularly as the months come 'round, comes pain that is borne in silence. "It's Nature," women say. But it isn't!

Women who have always had the hardest time, have no pain at all from the day they discover Midol. Midol is the special preparation of specialists, and is not a narcotic. It does nothing to the menstrual process. It does stop the pain—in five to seven minues! So it is only common sense to use it. And it costs just 50 cents, at any drug store in tiny carrying case of aluminum.—Adv.

Rough, red hands! So unnecessary!

Dishes have to be washed, of course. But dish-water that is hard is cruel to hands. The hardness mixes with the soap, and forms a ring of grease and dirt. Then the grease and dirt go on your hands. Rough, red hands! So unnecessary!

Soft water won't treat your hands that way. You can soften water by adding Melo. Scum goes. The suds come. How clean they make the dishes! How kind the soft water is to your hands! Get a can of Melo today at your grocer's.

Featherweight
White CAKE

½ cup Crisco	3 egg whites
1 cup sugar	½ cup milk
2 cups flour	1 teaspoon vanilla
2 teaspoons baking powder	½ teaspoon salt

Cream Crisco with sugar. Stir in alternately milk and sifted dry ingredients. Fold in thoroughly stiffly beaten egg whites. Add vanilla and turn batter into two greased layer pans. Bake in a moderate oven (350 degrees F.) about 20 minutes.

Ice with cocoanut or maple icing, or Crisco white icing.

Crisco White Icing

2 cups confectioners' sugar	¼ teaspoon salt
2 tablespoons Crisco	1 teaspoon almond or lemon extract
3 tablespoons milk	
1 teaspoon vanilla	

Cream Crisco with part of the sugar and salt. Add milk and rest of sugar and flavoring. Mix well.

Do you know of a more severe test for a shortening than in cake-making? Eggs, sugar, milk—each has its own natural flavor which join to make a delectable, full flavored cake. Unless your shortening is delicate, how can you expect the cake to be delicately flavored?

Crisco makes a perfectly flavored cake with an even texture—and whiter than you've ever thought possible. Taste Crisco—its sweet flavor will delight you.

You taste your milk— You test your eggs—

NOW— taste your shortening!

Crisco's sweet flavor will delight you!

Crisco is the registered trade-mark of a shortening manufactured by The Procter & Gamble Company.

VENEZUELA POLICE ARREST STUDENTS IN POLITICAL ROW

WILLEMSTAD, Curacao, Feb. 29. (AP)—Tourists arriving here from Venezuela say that about 400 students have been arrested at Caracas, the capital, as an outgrowth of a student manifestation against President Gomez.

Some of the students were imprisoned in Caracas and the others were sent to Puerto Cabello. The dock laborers at La Guaira, Venezuela, were said to have held manifestations in favor of the students.

Reports of disturbances in Caracas were received at San Juan, Porto Rico, yesterday on the arrival of the steamship Megantic, tourists stating that they were advised at La Guaira that it was inadvisable to attempt to reach Caracas.

Washington dispatches also told of news of friction in Venezuela between the government and university students, the latest private reports being that the government had the situation in hand.

President Gomez, who has been chief executive in Venezuela since 1908, was reelected for a term of seven years in 1922.

CAR STOLEN HERE IS RECOVERED AT AMARILLO

A Buick coupe stolen from James E. Parker, 1706 Elizabeth street, January 25, was recovered by Amarillo officers Tuesday night, according to a telephone message received from the Amarillo chief of police by local police headquarters at 3 o'clock Wednesday morning.

Three men were arrested by Amarillo officers with the car. The automobile and prisoners will probably be brought to Wichita Falls Thursday.

Negro Accused of Taking Dead Man's Overcoat Is Jailed

A negro woman of the "mammy" type gained audience with Wayne Somerville, county attorney.

"I wants to have my son-in-law put in jail for stealing my dead son's overcoat," was her complaint.

She explained that the overcoat, cherished because it had belonged to her son, disappeared about the time the son-in-law left town recently. She later located the garment in a second-hand shop, where the proprietor said it had been pawned by the son-in-law. The coat would not be returned, he added, unless the alleged thief was jailed.

The complaint got results Tuesday when authorities in Terrell, Texas, advised Sheriff W. G. Bralley here that the suspect had been arrested as requested. Mr. Bralley said he probably would send a deputy sheriff Wednesday to take the suspect into custody for return here.

PERMIT IS ISSUED FOR R. O. KENLEY BUILDING

CORSICANA, Texas, Feb. 29. (AP) Although 147 children at the state orphans home here were reported on the sick list today, and one of the large dormitories had been pressed into service as a hospital ward to combat an epidemic of influenza, no deaths had been reported and the disease was said to be in a mild form.

Two patients are being kept in each of the 50 beds in the hospital, while 47 are in the temporary ward.

CANADA TO ENLARGE MILITIA DEFENSE UNITS

OTTAWA, Feb. 29. (AP)—National defenses estimated for the coming year provide pre-war strength for the Canadian militia, Major General H. C. Thacker, chief of the general staff, made known in an address here last night.

The estimates, now before the house of commons, call for training of 23,000 men, instead of 25,000 provided last year, he said.

MERGER OF TWO BANKS FOLLOWS KANSAS FAILURE

BELOIT, Kan., Feb. 29. (AP)—The Mitchell County Farmers Union bank was merged today with the Guaranty State bank of Beloit. The merger follows the failure Monday of the Farmers Union State bank in Kansas City, depository for the local Farmers Union bank.

Deposits of the Union bank were transferred last night to the Guaranty State, and its business was conducted there today.

BRITISH FAVOR BAN ON USE OF SUBMARINES

LONDON, Feb. 29. (AP)—W. C. Bridgeman, first lord of the admiralty, when asked in the house of commons today if he had considered the desirability of abolishing the submarine, if all other countries agreed to do the same, replied that the attitude of the British government remained the same as enunciated by Lord Lee of Fareham at the Washington conference in 1921. At that conference Lord Lee urged abolition of submarines.

STIMSON TAKES OVER FILIPINO RULE AT MANILA TODAY

MANILA, Feb. 29. (AP)—Manila was alive with expectancy today—the eve of the arrival of Henry M. Stimson, governor general of the Philippines.

The new executive's inaugural address, which will be delivered shortly after he steps ashore from the liner which brought him here from the United States, is being awaited with interest, as he is expected to outline the policies which he will follow.

The inaugural ceremonies will take place at Luneta, an eminence on the bay overlooking the city.

On his arrival, the governor general will be taken by boat to Malacanan palace, his official residence on the banks of the Pasig river. From there he will be escorted to Luneta by 100 troopers of the twenty-sixth cavalry, which is composed of Filipinos.

THREE PLANES TO TOUR STATE IN INTEREST OF AVIATION ORGANIZATION

DALLAS, Feb. 29. (AP)—Three airplanes were to leave here today for a tour of Texas and Mexico in the interests of the aviation cadets of America, seeking establishment of chapters of the organization it was announced by Captain W. H. Scott, national secretary of the cadets.

Colonel W. B. Easterwood of Dallas, national commander of the aviation cadets, was to head the party. The three planes are to be under the command of Captain W. F. Long, formerly of San Antonio, Texas, governor of the National Aeronautic association.

The planes will visit Austin, San Antonio, Brownwood, Houston and Laredo in Texas and Tampico and Mexico City in Mexico. In the latter city they will confer with the postmaster general of Mexico with reference to establishment of the first chapter of the organization in territory outside the United States.

In order to attract American tourists, the following countries have abolished all fees for visas of American passports: Albania, Belgium, Denmark, Estonia, Finland, Germany, Holland, Sweden and Switzerland.

ELECTRIC COMPANY ENGINEERING CREWS HOLD SAFETY MEET

Approximately 75 members of the engineering department of the Texas Electric Service company attended the safety meeting of the department Tuesday evening when talks on various safety methods were made.

C. J. Rutland, Dallas, safety engineer for the Texas Electric Service company and the Texas Power & Light company, and R. M. Moore, assistant safety engineer for both companies, addressed the meeting.

Other speakers were J. L. James, Dallas safety engineer of the engineering division of the companies and Russell Jones, resident engineer, in charge of all engineering and construction crews in this district.

In addition to the safety talks three reels of motion pictures picturing safety methods were shown. One reel from the National Tuberculosis association, to be used in the "Early Diagnosis" campaign here in March, was also shown.

Among the engineering crews attending the meeting were those stationed in Mineral Wells, Holliday, Graham and Breckenridge. All department heads of the local office of the electric company were presented.

The meeting was held in the electric company's new warehouse, located at the corner of Austin and Chester streets.

P. S. King of the local engineering crew presided as toastmaster.

GRAND JURY INVESTIGATES DEATH OF TWO DEPUTIES

LAFAYETTE, Ind., Feb. 29. (AP)—Court officials today denied that grand jury indictments had been returned yesterday charging Samuel Baxter and John Burns with first degree murder in connection with the deaths of Deputy Sheriffs John P. Grove and Wallace McClure. The grand jury is still investigating the deaths of the deputies whose bodies were found near Foster, Ind., nine days after they had started to take Baxter and Burns to the state reformatory to serve sentences for robbery. Baxter and Burns have never been located.

Texas-Exes Will Hold Banquet on San Jacinto Day

The annual March 2 celebration of Texas-exes in this district has been postponed until April 21, San Jacinto day, because of the grand opera season, it was announced Wednesday by officials of the local organization.

The celebration on April 21 will be in the form of a picnic to be staged at Weeks park. All Texas-exes in the district are invited to attend and President W. M. W. Splawn of the University of Texas will be asked to make the principal address.

Officials of the local Texas-exes club said that the grand opera season, which closes the day before the usual date of the annual banquet, might prevent a full attendance at the affair and for that reason it was decided to postpone the celebration.

A THOUGHT FOR TODAY

NOT NEARLY ENOUGH MILK

The milk products company which opened its plant at Sherman this week is equipped to handle the milk from 50,000 cows, but for the present it is receiving the milk of less than 10,000 cows.

The cheese factory here can use about three times as much milk as it has received on its biggest day so far.

It will take a year or two, at the very least, for the cow population of North and Northwest Texas to grow to a point where the milk production is sufficient for these two industries. The man who acquires dairy cows, either by purchase or by building up the herd he has, is thus assured of a safe and steady market for what they produce, with no danger of overproduction. We don't know of anything else he could undertake to produce, with the same assurance. The milk crop is one crop that seems to have the gamble taken out it, in this section.

BETTER COUNTRY WEEKLIES

A writer in the Saturday Evening Post, who had once worked for a country weekly, but who had been out of touch with rural journalism for many years, tells in a recent issue of some of the changes that he found had been wrought in the past few decades. He found that the small-town weekly of today is no more like that of 20 years ago than a garage is like a blacksmith shop. Up-to-date machinery and up-to-date business methods are the rule, and not the exception, he found, in the weekly newspaper offices of today.

A casual student might have supposed that the development of the daily newspaper, its improved means of collection of news and of distribution of the finished product, would work to the detriment of the weekly. So far from that, this development has served to emphasize the strength of the weekly paper, which is that it can get close to the lives of its readers, where the daily from the nearby large city cannot hope to do so. And so the country weekly, capitalizing this advantage, has grown impressively.

Not long ago when The Times was patting itself on the head for having adopted a new style of "body-type," the Baylor County Banner, published at Seymour, reminded its own readers that The Times was merely doing what the Banner had done some time before. The Banner is typical of a score or more of Northwest Texas weeklies that keep their mechanical equipment right up to the minute and that have business offices and editorial departments no less efficient than their composing rooms. The editors of these papers, we have noticed, ride in pretty good cars, have comfortable homes, and play golf with bankers without any embarrassment unless it is on the part of the banker, which isn't likely.

VOTE AGAINST NO. 8 AND NO. 9

By either accident or design, the charter amendment question has become complicated, so that the voter who favors the city manager plan must exercise some discrimination, on April 3, in order to vote his sentiment. There are six charter amendments which have to do with the city-manager plan. The voter should support all or reject all, according as he is for or against the city manager proposal. There are six other amendments, two of which are dangerous and three of which are harmless but unnecessary.

The Times' advice to friends of the city manager plan may be summed up in a line—vote against No. 8 and No. 9.

The first six proposed amendments, as stated, involve the city manager plan.

No. 7 allows a longer period of time to elapse between the filing of the budget and the fixing of the rate. That is one of the harmless but unnecessary amendments. The courts have held that the existing provision is directory and not mandatory, so that no necessity for a change exists, but it would work no harm.

No. 8 provides for changes in the distribution of the tax rate and for increases in several special tax rates. If these changes could have been submitted separately, there are some of them that we would gladly recommend to the voters. In the form in which they will be submitted, the voter is obliged to favor all or oppose all. He may not pick and choose. He can either authorize the council to add 20 cents to his taxes, or he can deny that authority. The Times believes this amendment should be defeated.

No 9 appears harmless enough at a casual reading, but a study of its provisions reveals that its harmlessness is more apparent than existent. On the face of it, the amendment seems to decrease the number of purposes for which bonds may be voted, which might be a worthy move. But if you will read carefully, you will discover that it confers authority to do just what the present city council has been balked in doing—issue bonds without a vote of the people. It should be soundly defeated. We will have more to say about No. 9 later on.

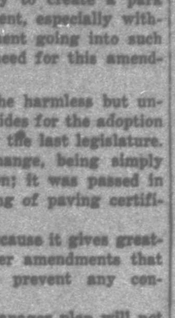

No. 10 provides for the establishment of a park board, to serve without pay. It is difficult to see why this amendment is offered, when the council already has abundant authority to create a park board without charter amendment, especially without such a voluminous amendment going into such intricate detail. There is no need for this amendment, but it is harmless.

No. 11 is still another of the harmless but unnecessary amendments. It provides for the adoption of a new paving law passed by the last legislature. This new law makes little change, being simply cumulative of former legislation; it was passed in order to facilitate the marketing of paving certificates.

No. 12 should be adopted, because it gives greater force and effect to the other amendments that are adopted, and operates to prevent any conflicts.

The supporter of the city manager plan will not have done his full duty when he has voted for the six amendments incidental to that plan. He should, on the same day and at the same polling place, vote for candidates who are known to favor the city manager plan. He should see to it that the city managership mandate is placed in the hands of its friends, for carrying on.

JUST FOLKS

WHO RUNS FOR GLORY

Who runs for glory passes by
A thousand lovely things.
The roses seldom catch his eye,
In vain the song bird sings.

The fairest tree God ever made
He will not pause to see,
Or rest beneath its pleasant shade,
So pressed a man is he.

So brief is life, so swift the pace
That he who would be great,
Must hasten on and turn his face
From many a friendly gate.

He must not fare the little lanes
Where kindly people stray,
Nor quit achievement's irksome pain
With merry folk to play.

And when at last fame writes him down
Upon her little list,
I wonder if he finds renown
Worth all the joys he's missed.

Wealth and Welfare

By GLENN FRANK
President of University of Wisconsin and Former Editor of the Century Magazine

Today I continue painting a picture of the ideal citizen, as I see him, by discussing the second of eleven attitudes I think he maintains—a democratic attitude toward wealth.

Since mankind began to break away from a rigid stratification of society into over-lords and underlings and to head toward the varied forms of democratic self-government, the problem of wealth has been a central problem.

Stripping the problem of wealth to its bare bones, it presents three issues, viz:

The problems of producing wealth.
The problem of distributing wealth.
The problem of consuming wealth.

Citizens of democratic nations have, by and large, spent most of their thought on the problem of distributing wealth.

The ideal citizen knows that the problem of wealth cannot be dealt with fruitfully unless all three of its aspects are dealt with.

Two years or more ago I said in one of these essays that democracy calls for the efficient production, the just distribution, and the wise consumption of wealth.

A nation may grow a body of great business men who are concerned with the efficient production of wealth, but who do not bring their genius to bear with equal concern upon the equally important issues of the just distribution and the wise consumption of wealth.

A nation may grow of a body of insurgent radicals who are concerned with the just distribution of wealth, but who do not face with equal fervor the equally important issues of the efficient production and the wise consumption of wealth; they may propose schemes of distribution that, while seemingly just in the abstract, would hamstring the efficient production of wealth; and they may fail to throw their influence back of a program of education, formal and informal, that would make for wiser and wiser consumption of wealth.

A nation might grow and a body of citizens determined to discipline their spending and consuming habits in the interest of a growing wisdom, but their virtues might have but a barren wilderness in which to operate if wealth were not produced efficiently and distributed justly.

Here are three problems, and yet they are not three problems, but one problem, and the ideal citizen will not be seduced into an exclusive membership in either of the three groups I have just described:

The poon produces wealth, but he is a slave.

The plutocrat distributes wealth, but he does it selfishly.

The parasite consumes wealth, but he does it unwisely.

The ideal citizen strikes for the triple goal of pillars of democratic independence.

efficiency, justice, and wisdom, which are the three

Safety From Accidents

A child on the street cannot be led by a leash. Dogs can be taught to walk by the side of the owner. While perfectly trained ones will not spring aside for a cat or another dog, the temptation is too great for the average dog. A child playing ball on the street has intentions which are good enough but let the ball roll across the street and its mind will be on a ball and not on approaching automobiles.

Then the dangers in the home—handling matches carelessly, putting hot ashes into a wooden pail, starting fire with kerosene, hunting for a gas leak in the cellar with a match, "didn't know it was loaded," tasting unknown medicines. These are dangers against which the child can be safeguarded only by training and eternal vigilance.

Jack gave Jill a little pill
He found upon the floor,
Poor little Jill became quite ill,
And now she is no more.

Then there are street dangers—jay-walking, crossing in the middle of the block, forgetting to look before crossing the street, hopping trucks and street cars, running in front of moving vehicles, playing on car tracks, careless riding on coasters and bicycles, holding an umbrella over face when crossing the street, touching fallen wires and pirouetting on banana peelings.

Then fire hazards. A little girl writes: "If there was a fire in our house at night I would wrap up in a blanket and go to my bedroom door. If the door was on fire I would look for a rope. If I couldn't find any I would take a blanket and tie it to my bed and go down through the window and then I would call the fire department and they would put water on it and put it out."

But she left out some ideas: Just how should one call the fire department by telephone? How does a fire alarm box work? If the room is full of smoke what is the advantage of crawling on hands and knees around the wall to the door? What's the point of holding a wet sponge or towel over one's mouth? If staying in a strange hotel at night or the house of a friend why is it advisable to know the quickest way of getting out? What should she do if fire started in a theater, or if some one yelled: "Fire"? What is the best way of putting out a gasoline fire? If an oil stove catches fire what should she do?

And here are dont's for her mother: Don't use a rocking chair for a step ladder. Don't put matches where small children can reach them. Don't put bottles of medicine where children can reach them. Don't leave scissors and other pointed tools around. Don't light matches in the closet. Don't leave oil cans near the fire. Don't fill your attic with rubbish. Don't bring gasoline into the house. Don't set heavy things on the window sills where they may fall down. Don't leave loaded (or even unloaded) firearms around.

Public schools are giving instruction in safety through having "Safety first" center around reading, writing, spelling, language and drawing; by pageants and exhibitions. But mother and father must do their share. For example: Do not have nails or tacks sticking up on the stairs. Do not have clothes dry over a hot stove. Do not fail to tell your child what "exit" means in a public hall. Avoid Christmas tree candles. Teach children to open an umbrella properly and how to get on and off a street car and the dangers to eyes of the pop pea-shooter. By all means have my "Home Medicine Chest" available. Do not forget to instruct your children to look first to the left on crossing a street and then to the right just before they get half way across.

Colonel "Sure Pop," who has charge of the Safety Scouts says, "You have no right to take a chance; someone else may have to take the consequences." More of this in a helplet, "Safety First"—ask for it. Also my "Home Medicine Chest" sent when S. A. S. E. is enclosed with request.

OUR CONVERSATION CORNER
Courious Psychology

A girl friend is making most terrible accusations against me. Why should she do such a perfectly horrid thing? I am as clean as fresh snow—Discouraged.

Answer—A strange psychological trick may be at work in that your friend may be projecting her own guilt into your life.

I Am So Shy

When I come into a room I know that everybody looks at me and makes side remarks about me. What can I do to stop them?—Embarrassed.

Answer—Stop yourself, my dear, by becoming convinced that nothing of the sort takes place. You are the victim of your own projective imagination.

VOICE OF THE PEOPLE

WHILE WE FIGHT "DEMON RUM" GRAFT CONTINES ON

Editor The Times: I presume we are all interested in the political situation. No doubt this will be an interesting year in both state and nation. I sincerely believe a majority of the people are opposed to the open saloon. We can all point out cases where homes have been made happier since the Volstead law became effective. However, we know many men who have never experienced any great inconvenience in replenishing their stock of wet goods from time to time. All it takes is money. I believe this situation will continue, and it matters not whether Jim Reed, Al Smith, Senator Glass or even Hiram Evans receives the Democratic nomination.

I do not hesitate to offer the suggestion that the Democrats have never had a better chance to come back than that presented this year. Undoubtedly the people of this nation revolt against the record of graft which marks the road since Mr. Harding suceeded Mr. Wilson—unprecedented in the history of any country. Millions have been filched and the guiding heads responsible for these crimes rest on soft pillows every night, too powerful to be placed in jail with other criminals. Juries have been shadowed by an army of sleuths, justice has been assaulted, and the end is not yet. With all this, we find the Democratic party less able to cope with the situation than ever before—the booze question has ripped the old mule from ears to tip of the tail and about all she has left is the hee-haw.

Let us hope that those gentlemen who have been a little inconvenienced around Washington while the senate committee has been passing away a little time, will be generous in their contributions this year in order that we may fight the "demon rum." Surely those fellows ought to aid in so worthy a cause.

"And lo, we bring into bondage our sons and our daughters to be servants, and some of our daughters are brought into bondage already. Neither is it in our power to redeem them; for other men have our lands and vineyards."

ROBT. McKINLEY,

By the Way in Washington

By RODNEY DUTCHER,
NEA Service Writer.

WASHINGTON, Feb. 24. (AP)—About every tenth intelligent person in this great gossip mart with whom your correspondent exchanges gossip on dull afternoons expresses the emphatic opinion that President Coolidge will be renominated by the Republicans at Kansas City.

Another tenth believes that "some dark horse" will get it, and the rest are divided between Hoover and Dawes, with Hoover in something of a majority. These divisions are not representative of personal desires and have no particular importance, although your correspondent undertakes to gossip with such persons as are most likely to know what's going on.

There has been a mild revival recently of the "draft Coolidge" talk, and that may well be a significant item in the current fanning.

Mr. Coolidge, of course, is not a candidate. Neither is Vice President Dawes, but if Hoover fails to win a majority of delegates the choice is likely to lie between them. In case of a deadlock, Dawes has been considered the most logical compromise, but if the forthcoming struggle becomes bitter enough, the Hoover crowd, already considering the vice president the one big threat in Hoover's path, may turn to Coolidge if only to keep the nomination from Dawes.

It is to be remembered, of course, that politicians will turn about face just as often and as quickly as they think they stand to get something out of it, but that fact might cut either way, as between Dawes and Coolidge.

The point just now is, however, disregarding Hoover's apparently excellent chances of victory, that Coolidge hasn't promised to refuse the nomination any more than has Dawes. Both of them are non-running candidates until one or both make it clear that they would not take the job if offered.

That the "Coolidge threat" is considered very real by some politicians was adequately proved by Senator La Follette's insistence on the passage of his anti-third term resolution—and by the vigorous opposition of such of Cal's pals as Senators Bingham and Fess. Such gents as these, and Waterman of Colorado, another friend, have tried to make it clear all along that the president hadn't said he wouldn't take it if it were handed to him on a platter.

This is the sort of a situation, furthermore, wherein the presidential silence on the point tends strongly to indicate that he would be willing to run again if the honor were forced upon him. No one can deny that the president came clean when he had the chance to effect his own renomination and all kinds of chances to block Hoover's nomination.

There is no indication, whatever, that he hasn't kept his hands off, honestly and sincerely. But it is quite understandable that a man who could have served a full eight years if he had been elected in the ordinary manner might feel that he was being cheated of a couple of years when only permitted to serve five years and a half. With circumstances thus militating against him, it appears as if Coolidge agreed with his close friends that another election wouldn't really violate the third term tradition.

Your correspondent has had occasion to point this out ever since the "do not choose" announcement and it still holds good. Everything that Coolidge has said on the subject indicates confirmation in one way or another. His remark to Fess: "It won't work out that way; I won't be nominated," and the recent revelation that he didn't bawl Fess out for ballyhooing his cause later on—he merely said "the difficulty is, people will likely think you are talking with my approval"—seem to shed a certain dim but interesting light on the workings of the presidential mind.

Fess, you will recall, admitted to the senate that he had lied to newspapermen when he told them the president was "greatly displeased." This writer ventured to express certain polite doubts about the Fess story at the time. It didn't ring true.

The foundation of this new little "Coolidge boom" rests on such few close personal friends as Mr. Coolidge has and, much more importantly, on those factions and interests which either believe they can obtain more benefits from Coolidge than from Hoover or who fear that Hoover will abandon the safe and sane Coolidge policy of never doing anything without being pushed into it.

There was a small kid that was left alone a little while to take care of the baby. She got along pretty good for the first hour, but after while the neighbors heard the kid bawling, and the baby bawling, and then the kid ran down the street to a stationery store.

"Gimme some blotting paper!" she says.

"How much?"

"Oh, a lot, quick! Enough to soak up a bottle of ink!"

"All right, here it is. Spilled ink on the floor?"

"No, but the baby drank a bottle, and I'm going to make him eat this and save his life!"

DAILY HEALTH TALK

By DR. MORRIS FISHBEIN

Most mothers are convinced that their children are unusual in precocity as well as in physical development, but few actually know just what status a child should have attained at any given period in its growth.

The state of Pennsylvania publishes a baby book which is contributed to mothers in that state without charge in order to keep them informed relative to simple facts about childbirth and baby care. In this booklet the facts are related in a simple, straightforward manner that anyone can understand.

In one brief table the bulletin provides a statement as to the normal development of the child which is especially helpful.

A normal baby will show the following characteristics as it grows:

1.—A steady gain in weight.
2.—A good appetite, no vomiting or "spitting up."
3.—A clear, soft, pink skin.
4.—Bright eyes, with a contented expression.
5.—Peaceful sleep, with mouth and eyes tightly closed.
6.—Constant growth in stature and intelligence.
7.—Alert little muscles that make the body sprinev and active.
8.—Regular bowel movements of normal color, number and consistency.
9.—From third to fourth month, coos.
10.—From third to fifth month, laughs aloud.
11.—From the fourth month, holds his head up unsupported.
12.—From the fifth to seventh month, reaches for toys and holds them, begins to be sociable and will try to talk; likes attention; begins to cut his teeth.
13.—From the seventh to eighth month is usually able to sit erect, hold the spine erect and will try to creep.
14.—From the ninth to tenth month will try to bear his weight on his feet.
15.—From the eleventh to twelfth month can pull himself up and stand with help.
16.—At one year can usually speak a few single words and at the end of the second year can make short sentences.
17.—At the fourteenth month the fontanelle begins to close. Is fully closed from the eighteenth month to two years.

The only words not clearly understandable in this list appear in the last statement. The fontanelle is the soft spot on the top of the baby's head.

Probably more mothers worry about the failure of this spot to close early in the baby's life than about any other condition.

Better "Movies"

Bearing in mind the fact that but little more than twenty years ago the average motion picture was the most tawdry sort of clap-trap, one can see that the industry has made some progress. It has educated its public a little and has in turn been educated a little by its public. Employment of really good actors from the spoken drama was experimental at first. It is no experiment now. It has become a necessity. The future of the business will be in proportion to the improvement in the public taste. The producers can, by putting out better dramas, create a demand for them. The "movie" goers can, by staying away from poor films, make imperative the production of better ones. On the whole, neither producer nor patron has reason for despair. Slowly but steadily the screen is outgrowing the follies of its youth. —New York Herald Tribune.

The Klan Unmasks

Hereafter, says the imperial wizard, klansmen are forbidden to fraternize with, "or remain in klannish fidelity to," any one who wears a mask. Let the imperial wizard enforce this mandate if he can. Let him try to police the mobs that work by night in the hills of Tennessee and Alabama. If he succeeds he will bury the remains of his once thriving order. For the klan was built on secrecy and fed on secrecy, and it cannot live if it fails to satisfy the coward's joy in being brave behind a mask.

We doubt the ability of the imperial wizard to make good on his promise to bring the klan into the open, but we do not doubt that he has good reason to decide that the time has come to try. Legislation outlawing the mask hangs over the head of the klan in Alabama, Georgia, Indiana and Pennsylvania, states where it has been strongest in the past. This legislation is plain evidence of an increasing impatience with klan rule in the most klan-ridden states. New York has never known the klan at its best and worst. In New York it has been opera bouffe. But Alabama has known the klan and Indiana has known the klan, and its passage through these states has left a trail of political corruption, fear and the smug tyranny of intolerant men who take it upon themselves to administer the law with horsewhips.

The rise of public sentiment against the klan, where the klan still has a foothold, is a sign of returning sanity. Legislation may be useful. But legislation is only the surface indication of a change in the spirit of the times. Most of this country has outgrown the hysteria that enabled the klan to prosper.—New York World.

Girth Control

The problem interesting more people than any other in this country today is girth control. There is no topic of conversation more general and more personally important to multitudes of people than how to keep from getting too fat.

This is a strange phenomenon in a world that, from the dawn of history, has been hard put to it to get enough to eat. It is probable that there never has been a time when more than half of the world's population was not more or less continuously hungry, but in the United States food is so abundant that everybody must be warned not to eat too much, and there is a protest against reclaiming land lest its cultivation should increase an already embarrassing surplus of foodstuffs.—Detroit News.

The Constant Flame

CHAPTER 42

Later on Emily knew that no warning she might have given Kent would have made any difference.

He had no illusions about Morrow and his crowd. Indeed it was quite evident he accepted their antagonism and liked it for he seemed determined to wage his warfare in the open.

And warfare it was as the months went by, reflected and exaggerated as in convex mirrors by the Star and Item.

The first shouting taunts at "Gal" Rossiter, Amateur Reformer," and the last printing triumphant editorials and commendatory letters from the public.

For the public was with him, on the whole. It wasn't a mere matter of putting out of business a few notorious resorts; it was the prospect of getting from under a boss-driven condition for which there seemed no help.

Those who had been hopeless and passibe under Morrow's powerful organization came to life in a slow, startled manner and stood solidly behind Kent; they still were doubtful but eager to help.

Mysterious messages, all of them sincere enough but usually offering bits of quite valueless information, always were coming to him; many solid citizens went out of their way to shake his hand and give him a word of encouragement.

Emily took to watching Morrow's windows from behind the curtains of the shop. A constant stream of those she now designated as "henchmen" came and went; they gathered about the judge's desk and talked, through shut teeth with pushing, forcible gestures.

Marty always was there, scowling ferociously; she fancied him a sort of super-henchman holding himself in readiness to jump at the judge's bidding.

The Star blared forth the charge that "Gal" was converting the office of prosecutor into that of persecutor. And hinted that high-handefs never long remained in public office.

And the Item, in block-faced type, mockingly invited its competitor to prefer charges before the governor.

There were weeks when both papers went into extra editions and sent newsboys crying through the streets, a thing never before heard of in Lyall.

Some who gave a grudging admiration to Morrow declared he had written his own "finis" by an error of judgment. It got around that on two occasions, once in shocked surprise and the second time in a towering anger, he had sent for Rossiter. And that the young official had returned his business address on a slip of paper.

Once Emily saw old Tim Nolan climb the stairs across the street and stand before the littered desk a meek enough looking little man with his bared, white head and shapeless hat twisting in his hands. She wondered mightily what words were passing.

Still she wouldn't have understood had she heard:

"What's on your mind, Tim?"

"Well then, Mr. Morrow, your honor, sor, they be closin' me out. Me neat little joint forninst the r-river wear'rs a padlock the day. I'm tellin' one 'twill be a sorry job when himself hears of it."

"Hard luck, Tim."

"It is that."

"But you'll have to let it ride for a while. We'll get around to them presently."

The old lake-blue eyes took in the Boss; ran over the big, vexed figure in a sort of slow appraisal.

"Ye'll not be givin' the office till lay of, then?"

"Not right now, Tim. There's others kicking besides yourself."

Enraged by the speculation in the little man's stare he flung out, "Hell I'm doing all I can, ain't I? what you fellows want for a few lousy dollars? You'll be taken care of I tell you."

Tim left without a word but his very restraint was a question. The Judge roared for Marty.

"What did you get?"

"What would I get? You know that no one's getting anything on Rossiter. They weren't kidding when they called him Galahad."

"Sure about that, are you? Nothing you overlooked?"

Marty's eyes gleamed with comprehension but he shook his head "Better not, Judge."

"Everybody's got a weak spot. How about that dizzy sister of his? Husband's skipped out I hear."

The Nolan retired behind his scowl. When he emerged it was to say in a business-like way, "I'll look up the sister."

The warfare continued. It was made the subject of sermons in the churches; congregations approved the district attorney by rising votes. The town grew actively partisan; street fights were a frequent occurrence.

And Emily watched from behind the shop curtains, feeling sometimes a twinge of anxiety, sometimes a glow of pride in Kent.

Spring came gently and while hostilities still went on both sides were quieter. Kent pursued a watchful policy and Morrow's crowd settled down to make the best of a bad situation. Marty had looked up the sister but had found only gossip, nothing that could be used to tear down her brother's career.

There were those who said the Boss was losing his grip; certainly he was not so roughshod as he had been. He seemed to have aged a great deal; there were new lines in his face and his hair had turned almost white.

Small, pinkish leaves were unfolding over the grape trellis. Kitten brushed them as she swung clear of the kitchen roof and dropped lightly to the ground.

Nearly a year now since she first had climbed out of the window this way; she was growing rather irked by it.

Of course there was allure in the adventure; stealing through the dark, the rapturous kiss of the man who awaited her.

Still it was beginning to be an old story, sometimes she fancied Nicky felt so too. He didn't seem to mind any more when she disappointed him.

There was nothing missing in his greeting tonight however; he gathered her in his arms, pressing his lips to the burnished curls.

"Such a long time! Weeks and weeks. Why wouldn't you come, Kitten-child?"

"Wasn't looking for trouble. You missed me, Nicky? Really?"

"Of course I did. There'll be no trouble."

But Kitten had no faith in that. Blanca Wickert had been quiet for a long time but it mean nothing. The girl was haunted by the memory of gleaming dark eyes and savage little teeth catching a red lip. She shivered.

"Cold? Get something to warm you in a minute. Drive over to Deep Valley; there's a place for a night like this."

"You think it safe? Well—"

He laughed and kissed her again.

PIMPLES KEEP YOU FROM LOOKING YOUR BEST!

If you have a clear, smooth skin, free of unsightly blemishes, you need never fear the impression you will make on people you meet. But a pimply face keeps you from looking your best and repels rather than attracts people.

Pimples and other skin infections quickly yield to Black and White Ointment, used according to directions. It is pleasant to use, highly beneficial and scientifically safe.

For best results use Black and White Skin Soap with Black and White Ointment. All dealers sell them at small cost.

When Food Sours

Sweeten the stomach—instantly

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient and harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drug store.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.—Adv.

From the Files of THE WICHITA DAILY TIMES

February 29, 1908

August Bevering of Charlie was here today on business.

Mr. and Mrs. Roy Holloway of Petrolia are in the city, the guests of Mr. and Mrs. C. W. Rountree.

J. A. Kemp made a business trip to Olney yesterday.

Mr. R. H. Joyce left this afternoon for his ranch near Lakeview, Texas, where he will remain for the next month looking after business affairs.

"SOBERING UP" STATION ON CALIFORNIA BORDER

SAN DIEGO, Calif., Feb. 29. (AP)—The state of California today took over control of the "sobering up" station at the international border between San Diego and Tijuana.

The "sobering up" station is a retreat where American visitors returning from the Mexican resort may be "interned" for a few hours so they will be in condition to drive their automobiles.

HEIR TO IRON CHANCELLOR TO WED SWEDISH MAID

BERLIN, Feb. 29. (AP)—Vossische Zeitung says that Prince Otto Von Bismarck, 30-year-old grandson of the Iron Chancellor, is engaged to Miss Tengbom, daughter of Professor Tengbom, Swedish architect. The prince is secretary of the German legation at Stockholm.

GREENWOOD SHOWS FIRST DIRECTORY TO REALTY BOARD

Nine of the 54 business firms listed in Wichita Falls' first city director, published in 1907, are still in existence today, T. B. Greenwood, local attorney, declared Tuesday noon when he addressed members of the local real estate board.

The population of the city at the time the directory was published was 5,055, by "actual count." The publishers of the directory predicted that by the time the next federal census was taken that the city's population would be at least 10,000 persons.

The directory was used by Mr. Greenwood to point out the advancement of the city in general and of the real estate business in particular. A. L. Huey was the only member of the local present at Monday's meeting whose name appeared in the first city directory.

Mr. Greenwood stressed the importance of attending the operas, "Aida" and "Resurrection" to be presented at the Memorial auditorium on Wednesday and Thursday.

Mora C. Clark, who owns a 400-acre pecan orchard near this city, suggested to the realtors the organization of a syndicate for the development of several thousand acres of Wichita valley lands as pecan orchards.

Mr. Clark said that on a 400-acre basis it cost $78.50 per year for the first two years and from $12.50 to $14 per annum thereafter to develop a pecan orchard, which in from three to four years would sell for about $1000 per acre.

GIRLS WILL CUT IN AT THIS LEAP YEAR DANCE

NEW YORK, Feb. 29. (AP)—The customary conditions of young men and women will be reversed tonight when society holds a leap year assembly at the Ritz-Carlton hotel. The reception committee will be composed of men, while young women will be privileged to cut in on the dances.

It'll Cost More To Marry Often In Wise China

PEKING, Feb. 29. (AP)—A graduated tax based on the number of times the person to be taxed has been married, has been instituted by Governor Yen Hsi-Shan of the Shansi province. The proceeds will be used toward defraying the expenses of Shansi's war against Marshal Chang Tso-Lin and his Peking government.

Both the bride and bridegroom must buy a license which costs the Chinese equivalent of $1 for a first marriage, $2 for a second and so on up the scale. Men are expected to bear most of the burden of the new tax, since Chinese women seldom marry more than once.

HAWAIIAN SLAYER DIES IN MARILLO HOSPITAL SUICIDE

AMARILLO, Feb. 29. (AP)—A little more than two weeks after he had slain his wife, shot Miss Vesta Jorgenson of Salt Lake City, Utah, through the ear and fired a bullet into his own head, James J. Kekahalos, native Hawaiian musician, died at a hospital here last night.

His daughter, age 14 months, and the body of his wife, formerly Lillian Clayton of Salt Lake City, were taken to the Utah city last week by Miss Jorgenson, where Mrs. Lillian Liddell, mother of the slain woman, resides.

Bad Cold Left Her During Sermon!

Pape's COLD COMPOUND to STOP a Cold

To awake with a cold and be rid of it by noon—would you like to know how to do it? You don't have to dose yourself with strong drugs. Just take a plain white, pleasant-tasting tablet.

Pape's Cold Compound is such a simple thing to use, it doesn't seem possible that it can knock a cold out completely in a few hours. But it does! And there isn't a single after-effect on heart, head or stomach. It is sold by every druggist for only 35c.

How Many Will You *Save* And Turn Into Profits?

COUNTING your chickens BEFORE they're hatched would be about as reliable as a weather prediction here in the Southwest! But can you count your chickens AFTER they're hatched—or after they are bought from the chick hatchery? How many will you save—that's the big question in chick raising!

Can You Count Your Chickens AFTER They're Hatched?

Many thousands of poultry raisers have found that they CAN make a pretty close "count"—in advance—of the chicks they will save and turn into profits when they feed *Superior Orange Vitamine Chick Starter*. Many report losses as low as 3 to 5 per cent—some report NO losses—except from hawks, snakes, etc. Feeding this perfectly balanced chick feed, which supplies necessary vitamines in the form of dehydrated orange peel and pulp, is the surest way to start little chicks to robust health.

Health-Giving Vitamines in Dehydrated Orange Peel and Pulp Save Little Chicks

Physicians recommend oranges to both growns-ups and children who are just recovering from a serious illness; and to keep them well. Orange vitamines are just as valuable for little chicks. Our experiments on about 10,000 little chicks have proven that dehydrated, finely ground orange peel and pulp will revolutionize chick feeding. Oranges are rich in vitamines; they hang in the sunshine for many months; during this time they gather the life-giving, health-promoting energy from the sunshine.

Finely ground dehydrated orange peel and pulp, as found only in *Superior Poultry Feeds* in the Red Chain Bags, contains these orange vitamines in the most highly concentrated form and is also rich in digestible minerals, acids and other valuable food elements.

Dehydration (which merely removes the water) does not injure the orange vitamines or destroy any of the elements or ingredients. Therefore dehydrated orange peel and pulp is the greatest green food substitute yet discovered. In the digestive system, it comes back to its original juiciness much quicker than any other green food substitute. Just a few minutes' soaking in warm water brings it back to tenderness, juiciness and freshness, proving easy assimilation. In order that you may make this freshening test yourself we will send you free a tube of dehydrated orange peel and pulp, just as it comes to our mills from the California orange growers' exchange. The coupon below will bring you this tube.

Superior Orange Vitamine Chick Starter Will Reduce *Your* Chick Mortality

Superior Orange Vitamine Chick Starter, with dehydrated, finely ground orange peel and pulp and dried buttermilk, together with all other essential ingredients for chick health and growth, is the greatest preventive of Coccidiosis.

Reduce your chick losses this season—turn all of those little chicks into sure profits. Start them on *Superior Orange Vitamine Chick Starter* and follow through with *Superior Orange Vitamine Growing Mash*. Both have this essential vitamine ingredient in just the right proportion for their particular purposes.

Ask your dealer now for *Superior Orange Vitamine Poultry Feeds*—in the Red Chain Bags. If he cannot supply you, write us and we'll arrange to do so. Mail the coupon now for *Superior Poultry Book*—Spring 1928 Edition—and free tube of *Dehydrated Orange Peel and Pulp* in order that you may make the interesting test we have suggested.

The Congressman's Son

The beautiful combination radio and gum machine—a gift of Frisby to his child sweetheart, which he afterwards repudiated.

CHAPTER V

BLACKMAIL, of course, never entered my mother's mind.

She had been brought up in the old-fashioned way, and I doubt whether she even knew that it was wrong to tease for money.

The fact that she often found postage stamps tucked into her high buttoned shoe was a constant source of puzzlement to her. She never dreamed that Congressman Frisby was thus contributing to her happiness.

Later Congressman Frisby denied that he had anything to do with this phase of the case, although he did admit warning my mother to stop loitering on his front porch. He said it made Mrs. Frisby nervous.

My mother tells an entirely different version.

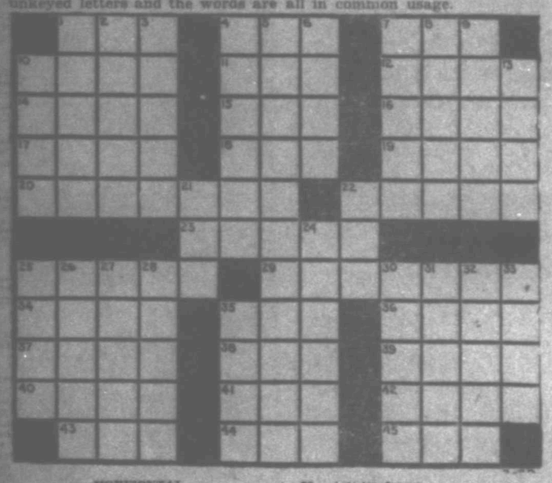

She says that it was Mrs. Frisby who told her to get off the front porch. In fact, it was Mrs. Frisby who turned the garden hose on my mother, giving her the severe drenching which probably brought on the head cold mentioned in Chapter Two.

My mother was put to considerable expense for cough drops, chest flannels and such, and it was perhaps this, as much as anything else, that forced her to appeal to Frisby for money, or take a bawling out at the Sunday school picnic. However—

SIX SPUDDERS ON HAND TO OPEN UP TRAINING CAMPAIGN

OTHERS EN ROUTE AND DUE TO ARRIVE BY THURSDAY; LITTLE ACTION PROMISED FIRST DAYS

With the vanguard of the athletes already on the scene of action, official training in the Spudder camp is scheduled to start Thursday at Athletic park—the first day of a grind of approximately six weeks. Pitchers and catchers are scheduled to arrive Thursday, with remaining members of the squad showing up by March 10.

The Spudder roster contains probably more names than it has in the history of the club, dating back to the 1920 season, when the old Waco franchise was brought to Wichita Falls. At last accounts there were more than 40 players under contract. Many of that number are raw youngsters from the amateur and semi-pro ranks who are given little chance to make the club.

Plans Uncertain

The Spudder training program will remain uncertain until Manager Carl Williams arrives on the scene. He was expected some time Wednesday, though headquarters had received no word from the skipper the last few days. Williams last season showed a preference for the "two a day" training system, especially during the early stages, and it may be expected that the same policies will prevail this spring. The morning workouts usually start about 9:30 o'clock and those in the afternoon about 2.

There is promised little action for the fans during the first few days of training. The athletes take it by easy stages and nothing more exciting than a bit of ball tossing, running and "pepper games" is likely to transpire before next week.

Williams' training methods have been conservative in the past and his plan has been to dish out the work by slow degrees, especially with the pitchers. Not a single sore arm developed in the Spudder team from opening day to the finish last year, so there is little likelihood of any radical changes this spring.

Six Here Now

Six players made up the training squad Wednesday morning, including Tom Jenkins and Pete Turseon, who have remained here during the winter. Joe Cobb motored in Wednesday morning ahead of schedule, with his wife, and was ready to take up the job of catching Spudder pitchers where he left off in the Dixie series last fall. Cobb wintered in El Paso. Ike Danning, the catcher obtained from Pittsburgh, was another late arrival, joining Tom Estell, the Central Texas pride, and Johnny Buvid, product of the marine corps.

Danning came from his home in far away Los Angeles, with Mrs. Danning, and put in his first hours in Wichita Falls seeking an apartment. He is the youngster who is counted on to give Pete Lapan and Joe Cobb serious competition for catching jobs when the scrap for positions begins.

This Spudder has been playing winter baseball since the close of last season and will start out with quite an advantage over most of the players.

The other two batterymen, Lapan and Milt Steengrafe, are believed to be en route from the coast, though nothing definite has been heard from either.

Others on Way

A number of others of the more than 20 due to be on the job Thursday are on the way from various parts of the country. Joe Kiefer, the rapid-fire moundster who pitched more complete games in 1927 than any other Spudder, was expected Wednesday, since his baggage already is here. From that same part of the world, the New England states, one Jimmy McCarthy is en route. McCarthy is a sandlotter signed last summer by Prexy Gardner on a trip to Eastern league territory. He is a second sacker.

George Payne is driving through from Indiana and he has with him two youngsters whom he has recommended. They are a catcher and first baseman. "Ol' Rubber Arm" should be here for opening day's festivities, unless his chariot experiences difficulties somewhere along the road.

Signs of colder weather Wednesday morning were not encouraging, but if the "norther" is to come at all, there could be no better time for it. It is hardly likely that the squad will begin work Thursday unless weather conditions are good, for a lapse after a day or two of work would be more harmful than a few days' postponement of the start.

DECATUR CAGERS WIN EIGHT STRAIGHT GAMES

DECATUR, Texas, Feb. 29.—The Decatur Baptist college Indians ran their string of consecutive wins to eight here Tuesday night by defeating Thorp Springs Christian college, 32 to 18. Workman, substitute Indian forward, was high point man with 23 points, followed by his teammate, Barksdale, with 13. Brooks led the visitors with 12. The Indians who are leading the Texas Junior College conference have scored 142 points in their last two games. The same teams will meet here Wednesday and Thursday in the closing games of the season.

FRANK TROEH WINNER OF ARIZONA TOURNEY

PHOENIX, Ariz., Feb. 29. (AP)—Frank M. Troeh, veteran Portland, Ore., gunner, took high honors in the 36th annual Arizona Trapshooting association tournament here Tuesday. Troeh scored 779 out of 800 shots in the various tourney and championship events as well as practice cards. Troeh also was high man for the official 600 targets of the four day meet, scoring 588. High professional was W. F. Sobb, El Paso, with 550.

WAGGONER HORSES TO RUN ON MEXICAN TRACK

FORT WORTH, Texas, Feb. 29. (AP)—Entered in the $110,000 Coffroth handicap on March 18 at Tia Juana, Handy Mandy and Port Hole, two of the best in the Three D racing stable, were being shipped Wednesday to the Mexican race track.

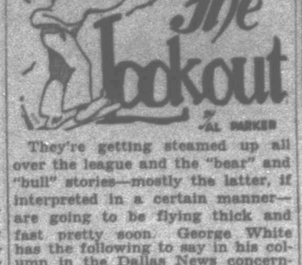

The two horses are in good condition, according to C. E. Durnell, veteran trainer for W. T. Waggoner. The horses were given a work out Tuesday on the Waggoner track near Arlington.

BREWERS READY TO SET SAIL FOR HOT SPRINGS

MILWAUKEE, Feb. 29. (AP)—The first contingent of the Milwaukee association baseball club had tickets Wednesday for Hot Springs, Ark., where they will start spring training. Manager Jack Lellvelt already is at the camp.

Eddie Pick and Bunny Brief are two important players as yet unsigned, but they are expected to report within a few days.

Holdouts of Big League Clubs Slowly Falling in Line

They're getting steamed up all over the league and the "bear" and "bull" stories—mostly the latter, if interpreted in a certain manner—are going to be flying thick and fast pretty soon. George White has the following to say in his column in the Dallas News concerning the views of several magnates:

"President Alvin Gardner of the Spudders insists his nine is stronger than last year and that it will lead the parade home. Any club that is an improvement over the 1927 Gushers has no business in Class A baseball.

"The local moguls have made no outright predictions except that they have a chance and they'll be up there. Jake Atz has let it be known that he has been awfully lonesome the last two years playing the part of spectator at the Dixie series. Art Phelan at Shreveport is saying little and planning aplenty. He figures it's high time for the Texas league pennant to go to Louisiana."

And over at Fort Worth Jake Atz blows into town and is thusly quoted in the Fort Worth Star-Telegram:

"Wichita Falls ought to run a good race again this year. Houston seems to be getting together a snappy ball club that may upset the dope that says South Texas clubs aren't allowed to win pennants.

"Dallas, Shreveport—well, everybody is building up and I look for a good race.

"Who's gonna win? Why ask me that? You know the answer—the 1928 champs of the Texas league will be the Fort Worth Cats!"

Dallas is getting the jump in the matter of conditioning. Two days ago the Steers had 25 men in camp at Mineral Wells. But if you ask us about it, every club in the league could lose the first 10 days of their training and not suffer a nickel's worth, provided they have good weather for the last 30 days. Both major and minor leagues are getting earlier and earlier with their training. It wouldn't be surprising if ten years from now the clubs would start training for the following year just as soon as one race was over.

Spudder players are rolling in with their families and finding it extremely difficult to find suitable furnished apartments. Joe Cobb and Ike Danning both were home hunting Wednesday morning and others were due in later in the day and Thursday, and, in fact, every other day for the next two weeks. Those having furnished apartments for rent will be conferring a favor on the players and the club by leaving their names at the baseball office.

Ike Danning blows into camp well tanned by a California sun and the maximum of winter baseball games played under the beams of old Sol. This young man will have quite an advantage over his chief rivals for jobs, Pete Lapan and Joe Cobb, as he will start out in much better condition. Lapan for years has played winter ball in California, but the past winter he has stayed away from the diamond. And who knows but that he'll profit thereby? During the last two years he has slumped in the latter stages of the races and it is possible that the year-round work has been the big reason.

Danning faces a mean job in working against two veterans of the Cobb and Lapan order. Both are wallopers and real catchers. But the factor of youth, in one respect, is much in his favor. Catchers are the scarcest of baseball articles. The club that owns a young catcher may well cherish him, for if he shows any extraordinary

JAPAN TO CONTINUE OCEAN FLIGHT PLANS

TOKYO, Feb. 29. (AP) — Despite yesterday's crash in which Yukichi Goto, a leading Japanese pilot, was killed, Japan is going ahead with plans for a proposed trans-Pacific flight.

Lieutenant General Yamada, chairman of the flight committee, today stated that the crash which took place during a test flight, had not affected the determination of the committee to go ahead with its project.

OUT OF KEELER'S GOLF BAG

JOHN LOW

By O. B. KEELER
(Written exclusively for the Associated Press.)

John Low is a highly distinguished sportsman and golfer and a prominent member of the Royal and Ancient Golf club of St. Andrew's, and it was within those extremely sacred precincts that I swiped a couple of rare old putters from his locker, on the memorable occasion of the dinner to the American and British Walker cup teams, the evening and most of the night of June 3, 1926. Well, I wouldn't say swiped, precisely. It was this way:

A formal dinner at the Royal and Ancient is a ceremonial, no less. It is inevitably stag. So far as I know, no woman ever has entered the portals of the Royal and Ancient. It also is full dress. The officers of the club wear the most stunning full dress you ever saw—scarlet coats and waistcoats, with gold buttons.

On Walker cup occasions, no matter which side wins—to date it always has been our side—the gigantic cup is filled with champagne and the dinner-party sets industriously to work to empty it. Also ceremoniously. There is a due and ancient form about it. Three men are always on their feet at a time; the man who has just drunk and has passed the cup along; the man who is drinking; and the man on the other side, who rises and stands, so the man drinking may be "guarded" at either hand. Fine idea, and pretty to watch.

Well, we didn't get it quite empty, in the dining room—the cup holds a matter of six gallons, I should say—so it was carried down in the lounge and the attack was renewed.

Mr. Low and I were among the attacking party and became quite chummy. He lent me another handkerchief when some wag tilted the cup suddenly and flooded me with champagne outside.

As he prepared to depart, I heard him say to an attendant:

"Clear out my locker tomorrow. There's a litter of old clubs in there. Get them all out—give them away; do what you please with them."

When Mr. Low was gone I got to thinking about the old clubs. Mr. Low was a veteran. He was an author of note. And one of the old clubs might constitute a neat souvenir of Mr. Low and of St. Andrews, and the Royal and Ancient.

I found the attendant and recalled Mr. Low's instructions.

"Might I look over the old clubs?" I asked.

He said certainly, and conducted me to the locker.

Sure enough, there were a score or more of dusty old clubs, most of them hopelessly warped and out of repair. And there were two realy "old" clubs; two of those curious, long-headed, wooden putters with thin faces and horn soles and a lot of lead in the back; the heads nearly six inches long, where our little modern putters are around three and a half. And one of them bore the names: "T. Morris" and "J. Low."

Gosh—a club by Old Tom Morris! Well, Mr. Low had said to get rid of all the clubs, and I asked the attendant if I might have these. He said certainly, sir. I said thank you, and gave him a crown. He said I understood I was not paying him for the clubs. I said of course—just his advice in their selection.

They fitted into my trunk snugly. Only a putter would have gone in.

Godfrey Looms As Menace for Heavyweights

Mammoth Negro Scrapper is Given Decision Over Uzcudun in Ten Round Match.

LOS ANGELES, Feb. 29. (AP)—George Godfrey Wednesday was established more firmly in the status that long has been claimed for him by his backers and admirers—a leading menace of the heavyweight division.

The giant negro Tuesday night clubbed and mauled his way to a referee's decision over Paolino Uzcudun, the wood choping Basque, here. But it was only after the squatty Spaniard, fighting for a shot at Gene Tunney's crown, had forced the big negro into giving his best to win.

It was a one-sided affair insofar as physical measurements were concerned. Godfrey, at 236½ pounds, outweighed his stocky adversary by 44 pounds, towered over him by several inches, and outreached him by several more.

There were no knockdowns and at no time did either of the battlers appear in danger of a knockout.

The attendance at the fight set new marks in western boxing history. Official figures showed that 36,605 persons paid $125,191 to see the fight. However, officials revealed that the unofficial attendance was closer to 40,000, if those who used passes and the "help" were included.

Paolino will receive $40,544.81 as his share of the gate, while $21,623.71 will go to Godfrey.

STRANGLER LEWIS MEETS MALCEWICZ WEDNESDAY

KANSAS CITY, Feb. 29. (AP)—Ed (Strangler) Lewis will carry his world's heavyweight wrestling crown into a finish match here Wednesday night with Joe Malcewicz of Utica, N. Y.

In their last meeting at Tulsa, Okla., two years ago, the Utica panther lost to Lewis on a foul when he threw the Strangler out of the ring.

Wednesday night's match was arranged in conformity to a promise by the managers of Joe Stecher and Lewis that the winner of the recent St. Louis match would meet Malcewicz here. Immediately after defeating Stecher, Lewis went into training at his home here and will enter the ring weighing about 226 pounds, approximately 30 more than Malcewicz. Two falls out of three will decide the match.

JOE JUDGE ONLY SENATOR NOT IN FOLD; ROBINS EXPECT TO USE HERMAN AS FLY CHASER

WASHINGTON, Feb. 29. (AP)—The annual last minute contracts are trickling in to Clark Griffith at the Washington Senators' training quarters at Tampa, Fla., as the rookies go through limbering up exercises waiting for the ball field to be made ready.

"Sad Sam" Jones, veteran pitcher, has finally sent word that he is on the way to camp after having refused, it is said, a $10,000 offer and received in return a contract calling for less money. "Goose" Goslin, veteran left fielder, is said to have signed a one-year contract representing a raise of $1000 over his present salary, said to be $14,000.

This leaves only Joe Judge, first baseman, and Tommy Taylor, rookie outfielder, out of the fold. All regulars are due in Tampa Friday.

To Convert Herman

NEW YORK, Feb. 29. (AP)—Babe Herman, who played first base for Wilbert Robinson last season, has a new ambition. He wants to become an outfielder.

As a first baseman, Herman left something to be desired, but he was tolerated because of the potency of his bat. Del Bissonette, International league slugger, is slated to hold down the first sack. And the scheme now is to convert Herman into a fly-chaser so that the batting ability of both can be used daily. The Robins are at Clearwater, Fla.

Just as John McGraw was shifting his Giants from Hot Springs to Augusta, Ga., Zach Taylor, regular catcher last season, got a surprise in the shape of a transfer via the waiver route, to the Boston Braves. Taylor came to the Giants from the Braves last summer.

At St. Petersburg, Fla., the Yankees put in what might by a stretch of the imagination be called work. Miller Huggins lined up an infield consisting of Gehrig, Chapman, Durocher and Robeson. Durocher especially delighted the manager as he dug up hot grounders with nonchalent ease.

One Pirate Absent

PITTSBURGH, Pa., Feb. 29. (AP)—With only one player missing, the Pittsburgh Pirates settled down to work Wednesday at Paso Robles, Calif. Johnny Gooch, catcher, failed to join the second squad, which arrived at the training camp Tuesday. He is expected to report before Sunday.

Injuries have taken a toll of two players, both rookies. Ervin Brame, pitcher, is suffering from a slightly dislocated shoulder muscle, while Fred Fussell, southpaw hurler, has an injured knee.

Moriarty Ambitious

DETROIT, Feb. 29. (AP)—Manager George Moriarty of the Detroit Tigers has set for himself the task of attempting to make Harry Rice the greatest base runner in the American league.

Moriarty's hopes were confided to scribes at the Tiger training camp in San Antonio with the added information that Rice is proving an apt pupil.

Rice, who with Elam Vangilder, was obtained from the St. Louis Browns for Lou Blue and Heinie Manush, was on the field Tuesday long after the finish of regular practice, drilling in starts and slides while Moriarty coached.

To Try Fencing

CLEVELAND, Feb. 29. (AP)—Fencing has been added to the baseball training sessions of Jimmy Vorhoff, recruit second baseman of the Cleveland Indians, who has arrived at the Tribe's spring headquarters at New Orleans.

Vorhoff, in a previous tryout, resembled a Nap Lajoie in the field, but couldn't hit. He has been made the subject of an experiment by Keith Kahn, New Orleans fencer, who believes that effective batting is a matter of the coordination of the eye, mind and muscle, and that fencing is the best sport to develop this.

Taylor to Braves.

BOSTON, Feb. 29. (AP)—Zack Taylor is on his way back to his old job as first string catcher of the Braves. That news cheered the spring training camp at St. Petersburg, Fla., for Zack, although not the best catcher in the league, is a good steady player and a valuable man to handle young pitchers.

At Bradenton, Fla., Pitchers Jack Russell, Bill Bradley and Danny MacFayden cut loose Tuesday during the Red Sox drill and the form they flashed tickled Manager Bill Carrigan.

Bill put on his old catcher's mitt and took everything they could offer, which was plenty.

Phillies Arriving.

PHILADELPHIA, Feb. 29. (AP)—Manager Burt Shotton of the Phillies expects to have sufficient playing talent on hand by Thursday for more advanced practice at Winter Haven, Fla.

Jimmy Ring, former pitching ace of the Phillies, and Bill Deitrick, young shortstop candidate, are the newest arrivals in camp. Deitrick is to get his second major league trial. He was up with the Boston Red Sox once but was sent to the minors for seasoning.

With a posse of infielders and outfielders on the way to Fort Myers, Fla., Manager Connie Mack of the Athletics expects to have a regular workout stowed away by nightfall. Sixteen pitchers are in camp.

Rookie Shines.

ST. LOUIS, Feb. 29. (AP)—A young red headed third baseman, Oliver Sax, has attracted attention at the St. Louis Browns camp at West Palm Beach, Fla., with his gingery footwork. He stole 61 bases for Scranton last year in the New York-Pennsylvania league and is

COYOTES AND ESTELLINE ALL SET FOR BY-DISTRICT WAR

FIRST OF THREE-GAME SERIES SLATED WEDNESDAY NIGHT AT COLLEGE; TWO AT ESTELLINE

Estelline High school's basket ball team, foes of Wichita Falls high in bi-district competition, arrived in Wichita Falls Wednesday morning under the wing of Coach A. O. Harrison, confident of taking the Coyotes to a trimming in atonement for a Wichita Falls victory in 1924, the only time these teams have ever met.

The first of the bi-district championship games in the interscholastic league elimination plan, is scheduled for 7:30 o'clock Wednesday evening at Wichita Falls Junior college. The series is to be the best two out of three, with the second game at Estelline Friday afternoon and the third, if necessary, Saturday afternoon. The winner emerges the champion of two districts and representative of Northwest Texas in the state tournament the following week at Austin. Fourteen teams will compete in the titular tournament.

(Continued from Page 12)

ability at all he is worth much cash "and other valuable consideration" in the baseball market. With all things equal, Danning has a mighty good chance to make the Spudder club.

The catching youngster has been in baseball only a few years, but he has always managed to hit .300. Last year he rolled up a .309 average in the Eastern league, just one point less than Cobb hit for the Spudders and several over Lapan's mark. The year before, in the Utah-Idaho league, of lower classification, he had a much heftier swat mark. One big difference is that Danning is not much of a slugger, while both Cobb and Lapan are distance hitters.

In the Eastern league Danning had an opportunity to see Sam Jones, the Spudders' promising young outfielder, in quite a few games. It will be remembered that Samuel was with Pittsfield on option. Danning declares that Jones showed him a lot of classy outfielding in an outfield that boasted two other demon fly chasers. Though he says he doesn't know a thing about the other Spudder outfielders, he is willing to venture an opinion that Jones will outfield anybody in the Spudder camp.

Danning is the fourth catcher Wichita Falls clubs have obtained from Pittsburgh. The first was Bubber Jonnard, who ranks with the best the club has ever had and who this year toils for the Houston Buffs. Then came Clyde Mattox, who retired from the game and strange to say, has remained retired. Cliff Knox was the third, having been brought on in 1926. He was not retained, but he has served only class A clubs since he left here. Danning will have to show something to keep up the Pittsburgh reputation.

Two former Spudder pitchers are mentioned in dispatches from major league training camps. Fred Fussell has turned up with an injured knee in the Pittsburgh training camp at Paso Robles, Calif. Guy Bush in the Cubs' camp spent a day hunting mountain goats, or some kind of goats, in the Catalina hills, while his teammates were in

Estelline Fairly Hefty

The Estelline team is fairly hefty, and will hold an advantage in size and weight over the comparatively diminutive Coyotes. Clarence Marcum, center and captain of the visiting team, is considerably taller than any of the Coyotes' prospective centers and the Pack will be at a disadvantage at the tip-off. Marcum also is one of the scoring aces of the Estelline club.

Coach Bud McCallum gave his men their last workout Tuesday afternoon, following the pattern of the preceding day with a long drill in the goal shooting and little else. The only doubtful position in the Coyote starting lineup is at center, where either Turner or Dickey may start. There also is a possibility of the coach switching to a new plan that calls for "Parson" Allred in the jumping post, dropping back to his usual guard position after the jump.

Jerry Curtis and Babe Anderson earned regular forward jobs by their good play in the district turnament and are certain starters at forward. Both are excellent passers and speedy floor workers, and either is capable of heavy scoring. Captain Mills, pivot man of the attack, will handle his usual guard position. Griffin is a forward who may see service and Bain is a possible reserve at forward or center. Hodgkiss and Barton are available for guard duty, but are hardly likely to get into the game unless there is a forced removal of Mills or Allred.

The identity of the referee for Wednesday night was in doubt Wednesday morning. The teams had agreed on Jim St. Clair, Southern Methodist university basket ball coach, but the Mustang mentor could not be obtained.

WALT JOHNSON NOT TO START FOR A FEW DAYS

NEWARK, N. J., Feb. 29. (AP)—Advices have been received here that Walter Johnson, manager of the Newark International league team, will not be able to attend spring practice of the team at St. Augustine, Fla., for several days. Ill with influenza, he suffered a relapse two days ago and his physician had ordered him to stay away from the training grounds.

Los Angeles to attend the Uzcudun-Godfrey bout.

Conocos Bump Guards Out of Basket Chase

Landon-Hill - Electrics and Hub Clothiers Remain in Race for Second Half Crown.

When the Continental Oil company cagers defeated National guard in Tuesday night's Commercial league basket ball clash at junior college in an overtime period, the latter team was eliminated from the race. Only two teams are now in the scramble, Landon-Hill Electrics leading with four straight victories and Hub Clothiers trailing with three wins and a loss.

The Conoco-Guards game ended in a count of 30 to 20, the former team hanging up 10 points in the extra five minutes of play, while the enemy was unable to register. Jud Waller, elongated center, was the hero of the evening. With less than a minute of play remaining and the Guards leading by a margin of two points, Waller was fouled under the basket. He dropped in both free tosses to tie the score and the whistle blew as the ball went back to center. Incidentally, this foul was the only one called in the entire game.

In the extra period, Dickey broke loose with two goals, one from past the center of the court, and Waller followed with two and Ray one for the decisive margin. Sehon's play featured the game of the Guards.

Landon-Hill Electrics kept their second half record unblemished by defeating junior college, 28 to 13 in the second game. Gantner accounted for half the L-H-E scoring, with seven field goals.

Hub Clothiers remained in the race by scoring a 16-to-11 triumph over Draughon Business college. The Clothiers still have a chance for a tie in the second half, if Landon-Hill Electrics are beaten next week. McLarry was high scorer against Draughon, with six points.

CARD LEADER EXPECTS GIANTS TO BE TOUGH

ST. LOUIS, Feb. 29. (AP)—Bill McKechnie who piloted one world's championship club at Pittsburgh in 1925, and hopes to lead another in St. Louis this season, is not among those who count the Giants out of the National league race because of the departure of Rogers Hornsby and his big bat.

Bill expects the Pirates to furnish the chief opposition for the Cardinals, but as the Globe Democrat quotes him:

"The Cubs and the Giants also will be up in the race. There are many inclined to count the Giants out of it after they traded Hornsby to the Braves. I believe they are making a great mistake. The Giants, with McGraw at the helm are always dangerous.

"The punch supplied by Hornsby's bat will be missed, undoubtedly, but Cohen is said to be a rising star. And remember, if Cohen fails to fill the bill, McGraw will go out and nab someone who can. McGraw is one you can't keep down."

AL ESPINOSA WINNER OF FLORIDA TOURNEY

BELLEAIR, Fla., Feb. 29. (AP)—Principal money in the west coast open golf championship is now the property of Al Espinosa, Chicago, who finished ahead of a fast field in that event with 282 for the 72-hole distance.

MacDonald Smith, the Long Island pro, ran next to Espinosa in the affair which finished Tuesday, with 285, while Bobby Cruickshank, New York, came third with 287. Fourth and fifth places, respectively, went to William Burke and Gene Sarazen of the metropolitan area about New York, with 288 and 290.

Tommy Armour, national open champ, finished 11 strokes behind the winner.

Espinosa's triumph began with a 65, five below par, for his first 18 holes. He followed the same day with a 75 to equalize matters with regulation figures for the day and Tuesday carded 70-72 to finish two

Delaney Favored to Defeat Tom Heeney

Former Light Heavyweight Champion Expected to Overcome Weight Handicap of Approximately 20 Pounds

NEW YORK, Feb. 29. (AP) — A chunky, bulgy thewed prize fighter who never expected to amount to much in the "racket" loafed about a furnished room Wednesday and waited for the gong that will send him into action before a $200,000 gate with the chance of a match with the heavyweight champion depending on the outcome of the battle.

He was Tom Heeney, late of New Zealand and still later London, an out-and-out "lymie" in his own classification but the best of the heavyweight contenders in the eyes of Campion Gene Tunney. Unaided by Tex Rickard's ballyhoo, Heeney has plodded through a host of rival contenders, never spectacular and oft-times downright disappointing from a box office stand point, but always chugging his short burly arms into the bodies of opponents with sufficient vehemence to bring him either victory or a draw.

The American campaign of the British subject first in recent history to stand the acid test of Yankee punching and still remain erect will carry him Thursday night into a 15-round battle with Jack Delaney, statuesque French Canadian warrior of Bridgeport, before a Madison Square throng. A knockout victory for either forecasts a June tilt with Tunney for the championship with the winner of the Jack Sharkey-Johnny Risko bout on March 12 held in reserve for a September title match.

The odds were 7 to 5 Wednesday that the crackling right hand punch of Delaney would bowl the New Zealander over despite a weight handicap of approximately 20 pounds in the invader's favor.

HAHN, PELTZER AND CONGER MEET IN MILE

NEW YORK, Feb. 29. (AP)—Lloyd Hahn, Ray Conger and Dr. Otto Peltzer, toe the mark in Madison Square garden Wednesday night for the "mile of the century."

Hahn, best of the current American milers must be at top form to beat not only the German ace but Conger as well. The Illinois A. C. flash, in fact, may prove to be the man that both Peltzer and Hahn must beat. At the shorter distances, 1000 yards and 1000 meters, Conger holds victories over both his rivals.

Regardless of the outcome one fact seems definitely established—that the indoor record for the mile of four minutes, 12 seconds will be seriously threatened. Hahn's whole campaign this year has been designed to peak him for an attempt tonight to shatter the record held jointly by Joie Ray and Paavo Nurmi.

Ken Penner and Frank Barnes Go Back to Houston

Buffs Give Herman Bell in Exchange; New Men Both Have Been Winners in Texas.

HOUSTON, Texas, Feb. 29. (AP)—The outright release to the Houston Buffaloes of two pitchers, Kenneth Penner, right hander who last year led the Texas league with Houston, and Frank Barnes, southpaw with the Houston club two years ago, was announced Wednesday by President Fred Ankenman of the Buffs. Penner and Barnes, both familiar to Houston fans, are procured from the Rochester International league club in a deal that takes Pitcher Herman Bell and an unannounced sum to Rochester this spring.

Kern Tips, sports editor, discussing the deal in the Houston Chronicle Wednesday said:

"Ankenman's shrewd bid of jockeying in completing this deal which is probably the most important announced this year, deserves elaboration. The Buff boss has literally killed three birds with one stone.

Penner Ranks High

"In obtaining the services of Penner and Barnes he is bringing two men to the Buffs who are of known ability in Texas league circles Penner, long the ace of Houston right handers, and with Freddy Frankhouse the most consistent Buff winner last year, will prove a mighty asset to the Bisons.

"And Barnes who was the second best left hander in the Texas league in 1926, his most recent season with the Houston club and who had an earned run average of 2.88 per game will fill the gap left by the departure of Frankhouse. Barnes gives Houston that extra ounce of pitching strength with his able left wing. He had a great season with Syracuse last year.

Bell Obstinate

"Likewise in disposing of Herman Bell who was bought by the Buffaloes in the same deal that brings Johnny Mokan and Bubber Jonnard to Houston, Ankenman is removing a source of possible trouble, for Bell had shown no particular inclination to come to terms with the Buffs.

"This deal lends material brightness to the prospects for a championship team here this season. Houston fans will welcome the news of Ankenman's success in getting back Penner. Ken has worlds of friends in Houston and the craft of his easy pitching has made him a terror to Texas league batsmen."

FIGHTS LAST NIGHT

(By The Associated Press)

LOS ANGELES.—George Godfrey, Pennsylvania, defeated Paolino Uzcudun, Spain, 10. Andy Gill, Los Angeles, technically knocked out Dominic Angelo, Philadelphia, 3.

SEATTLE, Wash.—Roy Williams, Chicago, won from Norman Williams, Moosejaw, Sask., 6.

WILMINGTON, Del.—Tommy Dundee, Camden, Del., defeated Al Martin, Baltimore, 8.

BISMARCK, N. D.—Billy Petrolle, Fargo, knocked out Rusty Jones, Kansas City, 4.

ST. LOUIS.—Chuck Wiggins, Indianapolis, defeated Yale Okun, New York, 10.

LOUISVILLE. — Jimmy Byrne, Louisville knocked out Rocco Stragmalta, Italy, 2. Young Firpo, Louisville, knocked out Jack Inskeep, Cincinnati, 3. Kirk Patrick, Louisville, scored a technical knockout over Young Cox, Cincinnati, 6.

VERNON FOOTBALL MEN IN INTRA-SQUAD GAME

VERNON, Texas, Feb. 29.—Divided into "Army" and "Navy" factions, the winter football candidates of Vernon high school are working out daily under the direction of Assistant Coach Marshall May for the clash here March 7. Moleskins were donned by the candidates at the first of the week, and scrimmage is the order of the day until the game.

About 15 of the candidates reporting for scrimmage work are junior high school students who will be in the high school class for the first time next fall.

COYOTE AND LION TRACK MEET SLATED MARCH 10

VERNON, Texas, Feb. 29. (AP)—Announcement has been made here of the postponement of the Lion-Coyote track meet in Wichita Falls from March 3 to 10. Lack of training among members of the basket ball team who are to be used on the Coyote cinder path organization was given as the reason for the delay. The Coyote cagers represent some of Wichita Falls' best track stars, and as the team has been concerned with the district basket ball tournament there has been no time for track practice, it was explained.

Coach Bagwell's track candidates are in excellent shape, following several weeks of practice, it is announced.

said to be going good enough to warrant a season's job with Coach Dan Howley's revamped Browns.

While the arrival of Rabbit Maranville and John Pepper Martin at the Cardinal Avon Park, Fla., camp was no big news, yet the hustle and enthusiasm they put into their first workout caused them to draw the attention of everyone. Martin, an outfielder up with the Cardinals for the third time, is trying to prove that he deserves a major league berth.

White Sox on Hand

CHICAGO, Feb. 29. (AP)—Both major league entries of Chicago were in the training clime Wednesday, the Sox scheduled to begin their spring toil a few hours after arrival in Shreveport. All but six of the roster of 42 were to be gathered in Shreveport before nightfall, and these six will join the squad next week.

The Cubs cut practice short both Tuesday and Wednesday as Owner Wrigley was host at the Uzcudun-Godfrey boxing match at Los Angeles. All but one of the Cub squad accepted the invitation. Guy Bush said he would rather bag a few Catalina island mountain goats.

Two teams of the Cubs went through a full batting practice before some June pitching yesterday, and "Kiki" Cuyler showed the greatest yardage of any of the sluggers.

Hargrave Reappointed.

CINCINNATI, Feb. 29. (AP)—As a reward for his good work as field leader of the Cincinnati Reds last year, Catcher Bubbles Hargrave has been reappointed captain of the team.

Manager Jack Hendricks announced Hargrave's appointment at the Reds' spring training grounds at Orlando, Fla.

HUDKINS MANAGES BOXER ON PACIFIC COAST TOUR

BOSTON, Feb. 29. (AP)—Ace Hudkins, welterweight "wildcat" of Nebraska, turned manager pro tem Wednesday when he left for California with Tony Mandell of Worcester, New England, bantamweight champion. Under Hudkins' guidance Mandell will engage in 10 bouts on the Pacific coast.

302. LEGAL NOTICES

NOTICE TO CONTRACTORS—The county auditor of Wichita county, Texas, will receive bids until 9 o'clock a. m., March 19, 1928, for the construction of a reinforced concrete bridge over Pond creek, on the Indian Heights Valley road, two miles west of Wichita Falls, Texas. Description of the work to be done: Construction of a triple 10x12-20 reinforced concrete bridge with concrete bridge rail. Detailed plans and specifications of the work may be seen for examination and information may be obtained at the office of J. M. Isbell, county highway engineer, Wichita Falls, Texas. Bids must be made on proposal forms furnished by Wichita county, Texas. A certified check on a national or state bank of Texas, for five (5) per cent of the total amount of the bid, made payable without recourse to the order of E. P. Walsh, county auditor, must accompany each proposal as a guarantee that the bidder, if successful, will enter into contract and make bond in accordance with the requirements of the specifications. The contract shall be let to the lowest and best responsible bidder. The successful bidder shall be required to enter into contract and to make bond in the full amount of the contract price executed by some surety company authorized to do business in the state of Texas. Proposals shall be submitted in sealed envelopes and marked "Bids for Construction of Pond Creek Bridge." The right is reserved by Wichita county to reject any and all bids and to waive all technicalities. All bids will be retained by the county and will not be returned to the bidders.—E. P. Walsh, county auditor, Wichita Falls, Texas.

STATE BOYS' WORK SECRETARY ASKS AID OF OPTIMISTS

"If those fellows who talk about the younger generation going to the devil would take their feet off their roll-top desks and give the young people a constructive program—if they would encourage them instead of being a negative force, we would have the finest group of young people yet," said Grover C. Good, state secretary of boys' work, at the Optimist club meeting Wednesday. Mr. Good spoke in behalf of the Older Boys' conference, which is to be held here March 9, 10 and 11, and urged the cooperation of the Optimists in securing homes, entertaining delegates and assisting in the programs. Homes for 50 boys were pledged at the meeting, and Claude Miller and Marvin Smith were appointed to get 50 more if possible.

Optimists were urged to drop in on the sessions of the conference by J. Dell Bright, chairman of the boys' work committee of the club. Henry Helgerson, member of the local Hi-Y club, made an appeal for cars to take the delegates on a sight-seeing tour of the city, and 25 cars were pledged.

It was announced that a program given entirely by boys would be given at the next meeting, and that Bob Ford would be program chairman for the remainder of March.

The program opened with a singsong, led by Joel MacGregor, a special feature of which was the rendition of "My Wild Irish Rose" by the "baldheaded quartet," composed of Marvin Smith, Tom Glass, "Army" Armstrong and Morrie Wolff.

FUNERAL SERVICES FOR BURK PIONEER HELD WEDNESDAY

BURKBURNETT, Feb. 29.—Funeral services for Mrs. Sallie B. Myers, 65, pioneer resident of Burkburnett, were held at the First Tuesday, were held at the First Baptist church Wednesday afternoon at 3 o'clock. The services were conducted by the Rev. M. B. Hayes, pastor of the church. Burial was in the Burkburnett cemetery.

The Myers family moved to Burkburnett 15 years ago and have large farm holdings in this section.

Mrs. Myers is survived by her husband, T. M. Myers, and two daughters, Mrs. R. E. Carnes and Mrs. Anna Sides, all of Burkburnett.

Pallbearers were O. L. Clarke, Roy Burkhead, Ray Burkhead, Tom Burkhead and Carl Ray.

Texas Company Wildcat Hits Rich Sand at 2355 Feet and Promises Great Extension of Proven Area

Drilling 16 feet into a rich sand topped at 2355 feet, the Texas company's No. D-1 W. T. Waggoner, located in the north half of section 13, block 4, M. E. P. R. R. survey, abstract 491, is standing with 500 feet of oil in the hole.

The well, which is an absolute wildcat, being about three miles southeast of the Texas company production in section 17 and two miles southwest of the Staley-Wynne No. 1 Waggoner in section 9, will be the factor in opening up a big scope of new territory in this part of the county. The well, which is also showing some water, was placed on the swab and made 100 barrels of oil in the first 12 hours. At present no estimate can be made until the hole is cleaned out. It has plenty of mud in the bottom.

Opening of New Field 26 Miles West Of San Angelo Indicated by Showing Harlem Horney Well; Oil 35 Gravity

NEW JOHNSON WELL SWABS AT RATE 500 DAILY

The new Johnson extension to the Gohlke pool in Archer county brought in its premier producer late Tuesday when the No. B-1 well of D. O. Johnson, located in the southeast corner of block 19, Geraldine townsite, L. F. Wilson land, was placed on the swab and in the first 20 hours produced 420 barrels. The new well is an offset to the north of Johnson No. 1 which came in making 100 barrels, and at the same time was the means of extending the new Gohlke area to the northwest. The sand was topped at 1535 and drilled 12 feet.

SAN ANGELO, Texas, Feb. 29. (AP)—Possibility of opening a new oil field 26 miles west of San Angelo was being considered here today following the report that the Harlan Horney well in Irion county was standing 600 feet in oil of about 35 gravity at 1270 feet, with the pay barely topped. A rush of oil men to the scene resulted.

The well was shut down awaiting arrival of owners, and 136 feet of the open hole was caving somewhat, 5½ inch casing being landed at 1134 feet. The well is 150 feet from the north line and 450 feet from the east line of section 2, block 3, H. & T. C. Ry. Co. survey, two miles east of Mertzon, across Spring creek.

The land on which the well is located is owned by Dr. Harlan Horney, San Angelo physician.

BUILDING PERMITS TOTALING $151,637 ISSUED IN FEBRUARY

Building permits issued by City Clerk W. E. McBroom during the month of February totaled $151,637, bringing the year's total to $375,763, the monthly report prepared Wednesday showed.

The total for February of 1928 is a decrease of $649,918 from the total for February last year when they aggregated $811,555. The permit for the Memorial auditorium, totaling $500,000, was issued in February 1, 1927.

Permits issued during January and February of last year totaled $1,023,067.

WICHITA FALLS PLANE CARRIES CLAYTON MAN TO DENTON TUESDAY

A citizen of Clayton, N. M., en route to Denton, Texas, to visit a sick relative, missed train connections in Wichita Falls Tuesday and was taken to Denton in a plane of the Wichita Falls Air Transport company.

After spending an hour in Denton, the traveler was returned here in time to catch the first train back to Clayton, according to Fulcher Armstrong, president of the company.

MILK RECEIPTS PASS 20,000 LB. MARK AT KRAFT

Milk receipts at the Kraft cheese plant Wednesday were 20,600 pounds, establishing a new high record for the factory.

Fifteen days ago the plant opened and the first day's receipts were only 5400 pounds of milk.

"An increase of 15,000 pounds of milk in two weeks is highly pleasing," C. L. Teissler, manager, said Wednesday. "We will start using three vats Thursday as each vat has a capacity of only 10,000 pounds."

NEW WELL NEAR SALINA, KANSAS EXTENDS FIELD THREE QUARTERS OF MILE

SALINA, Kan., Feb. 29. (AP)—The McPherson County Oil and Development company's C. O. Anderson No. 1 gasser in section 31-18-2w, McPherson county, was shut in last night and is making 18,000,000 feet of gas, according to the final test. The new well extends the McPherson field three-quarters of a mile, giving indications of a wide dome.

NUMBER ACRES UNDER DITCH IS NEARLY 30,000

Total assets of the Wichita County Water Improvement districts Nos. 1 and 2 were $6,756,112 at the close of the fiscal and calendar year of 1927, according to the annual report of G. A. Remington, general manager of both districts.

Each member of the boards of directors of the districts has been furnished with a copy of Mr. Remington's annual report, and it will be submitted to the two bodies for their approval at the next meetings.

Mr. Remington's report shows that at the close of 1926 the assets of both districts totaled $6,752,902, and that at the close of 1925 they were $6,571,260.

The annual report prepared by Mr. Remington is very complete and includes exhibits which show the collections and disbursements by funds for the year, tax collections by years in both districts and the bonded indebtedness of both districts.

Maintenance and operation costs of the districts were less in 1927 than in 1926. In 1927 the total was $76,779.86, while during 1926 the total was $82,361.93. This exhibit reveals an unusual decrease in ditch cleaning and an unusual increase in the equipment and tools account. Mr. Remington explains this by pointing out that the districts purchased several teams during 1927 and machinery necessary to remove grass and other obnoxious weeds from the canal banks with mowers, instead of carrying on the work by hand labor.

One exhibit in Mr. Remington's report shows the itemized disbursements from January 1, 1927, to December 1, 1927.

A total of 28,995.62 acres were placed under irrigation during the year of 1927 in both water districts, the report shows. This total compares with 26,697 in 1926 and 19,875 acres in 1925.

Another exhibit allows a comparison between the elevation of the storage water in Lake Kemp and the rainfall record there compared with the rainfall record here.

In concluding his report Mr. Remington states: "Regarding the matter of seepage and the necessity for drainage, I wish to say that drainage will probably be necessary on our irrigation project in order to meet the raising ground water conditions, and I am glad to know there is a disposition among our landowners to meet this condition as it arises and prior to the time the land may be absolutely unfit for crops from this cause. Seepage and the necessity for drainage is a condition that has always followed irrigation everywhere."

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and helps the inflamed membrances and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and cold and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membrances and stop the irritation and inflammation, while the creosote goes to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist.—Adv.

Horned Frog Here Emerges From Tin Can Under Ground

By ELEANOR FLEMING

Eastland hasn't a thing on Wichita Falls.

Eastland's chief asset, according to newspaper stories lately, consists of one partly emaciated, half-dead horned frog whose sole claim to notriety is based on his long stay in the cornerstone of the courthouse at Eastland.

Wichita Falls, although not quite so excited over it as Eastland, has a horned frog, too, that has had an experience similar to that of the famous reptilian, Rip Van Winkle.

W. H. Farmer, 2702 Holliday, was digging in his garden Tuesday, the first time that that particular part of his garden had been dug in at least two years. His spade struck something hard, and he pulled an old rusted tin can out of the ground. The open end was mashed together, as if it had been run over by a wagon wheel. Mr. Farmer started to throw the can away, when he felt something inside. He pried open the end and out fell a horned frog —one foot partly eaten away, eyes and mouth sealed, stomach very concave, but otherwise a pretty fair average specimen of a Texas horned frog. The can was found about one foot underground.

Mr. Farmer brought the frog down to the Times office where it is now on display. Since his coming into the public light, the frog has opened his eyes, but his mouth is still sealed. Both of his horns are in perfect condition. The can in which he was found is also on exhibition.

FUNERAL SERVICES FOR MRS. M. J. TUCKER HELD TUESDAY AFTERNOON

AT THE THEATERS

Screen Favorites Feature Program At the Majestic

El Brendel and Flo Bert, musical comedy stars and screen favorites, are featured on the vaudeville bill at the Majestic Thursday and Friday of this week.

Mr. Brendel quit vaudeville and went west to cast his lot with the movies and for over a year has been playing the comedy part with Mabel Normand, Jack Holt and the super features of "Wings." The fact that he and Miss Bert are again a vaudeville combination adds materially to vaudeville's stock of fun, song and dance. They will of course be seen in a new vehicle. This carrier which is called "The Poor Swede," has been packed with the care of expert stevedores, with innumerable laughs, songs and variety of steps.

Carrie and Eddy

"The Petite Revue" is lavishly staged and perfectly presented. The feature players are the well known team of Carrie and Eddy. Among their assistants are Webster Taylor, Harriet Cole and Gloria Lee. The Petite Revue reflects the highest credit upon all concerned. A revue petite is little in length only. It is big as far as its entertainment qualities are concerned.

Johnny Hyman

Johnny Hyman is a comedian and an author. He has written over 60 vaudeville sketches and skits, but several of them have been for his own use. Mr. Hyman is at his best when he does a single, which he is doing now, a monologue of his own writing and in which he makes the English language the butt of a lot of fun.

Ray and Harrison

Naomi Ray and Eddie Harrison are presenting a vaudeville skit called "Spring is Here." Miss Ray is a particularly attractive and unusually clever comedienne. Mr. Harrison may not be so attractive, although he has oodles of personality, but when it comes to fun he has as much as any funster. Together they make "Spring is Here" produce an enormous crop of laughter and lyric numbers.

Carlton Emmy

Carlton Emmy and His Mad Wags present a most artistic comedy offering. Mr. Emmy is a developer of a different type of Thespian. His players are artists in their line. In fact, there are no better actors of their kind. Emmy's Mad Wags are merry wags. The word "wags," it will be found, has been used with great wisdom to describe these players.

On the screen, "The Lovelorn," with an all-star cast; comedy and Paramount news.

An old English couple dwell undisturbed in a completely furnished rent-free house which, 20 years ago, the owner vacated because of the appearance of a ghost.

DALLAS HIKES GASOLINE PRICE TO NEW FIGURE

FORT WORTH, Feb. 29.(AP)—Despite a four-cent increase in the price of gasoline announced last night by the Texas company, Magnolia Petroleum company and Oriental Oil company in Dallas, no raise had been made at filling stations here today.

Advance in the price of gasoline in Dallas brings the retail figure to 19 cents per gallon, three cents higher that the price here.

EARTHQUAKE GIVES FOLKS SCARE IN CALIFORNIA

BAKERSFIELD, Calif., Feb. 29. (AP)—The oil field area of Kern county today was recovering from an earthquake scare caused by a series of temblors last night.

The quakes were felt on the outskirts of Bakersfield at 7 o'clock last night. Although no damage was reported, the shocks caused considerable excitement.

DOUBLE WEDDING OF FOUR YEARS AGO HAS FIRST ANNIVERSARY

In addition to the 29 readers of the Wichita Daily Times who wrote in in response to a request for names of those who were born or married on February 29, a number wrote in too late to be included in the Tuesday list.

One letter is from four people—four who were married February 29, 1924, in a double wedding, and are celebrating their first wedding anniversary Wednesday. The four are Mr. and Mrs. Estle Moore and Mr. and Mrs. Quince Hall of Goree. Mrs. Moore was Miss Merle Chamberlain, and Mrs. Hall was Miss Lorene Newsom before their marriage. No one will go broke buying their anniversary presents!

Those who sent in the dates of their births are as follows: Mrs. Jack Broodo, 1406 Giddings street, 1892; Mrs. S. A. Stowe, Olney, 1876; Mrs. L. B. Hardeman, 3415 Grant street, 1908; Mrs. Roy Spradling, 1406 Austin street, 1884; Orval M. Cox, Seymour, 1896; Miss Edith Bushwar, Graham, Texas, 1920; D. H. Thomas, 1311 Bluff, 1880; J. W. Tarpley, Shannon, Texas, 1908; J. L. Shaver, Henrietta, 1876; I. W. Austin, Iowa Park, 1888; Guy Edward Hilliard, Odell, Texas, 1904; Mrs. Ebbie Davis, Nocona, Texas.

FROM the time chicks step out of their shells, they look to you for protection and care to live and thrive. Poultry yard facts show that more than 90% of the chicks fed Purina Startena and Purina Baby Chick Chow live and grow rapidly into plump broilers and early laying pullets. Isn't it sound business economy to feed Purina, which saves 9 out of 10, instead of average mixtures on which 5 out of 10 chicks die? Come in and let us show you how to save chicks and get them to early maturity.

ALL SET! READY TO GO!

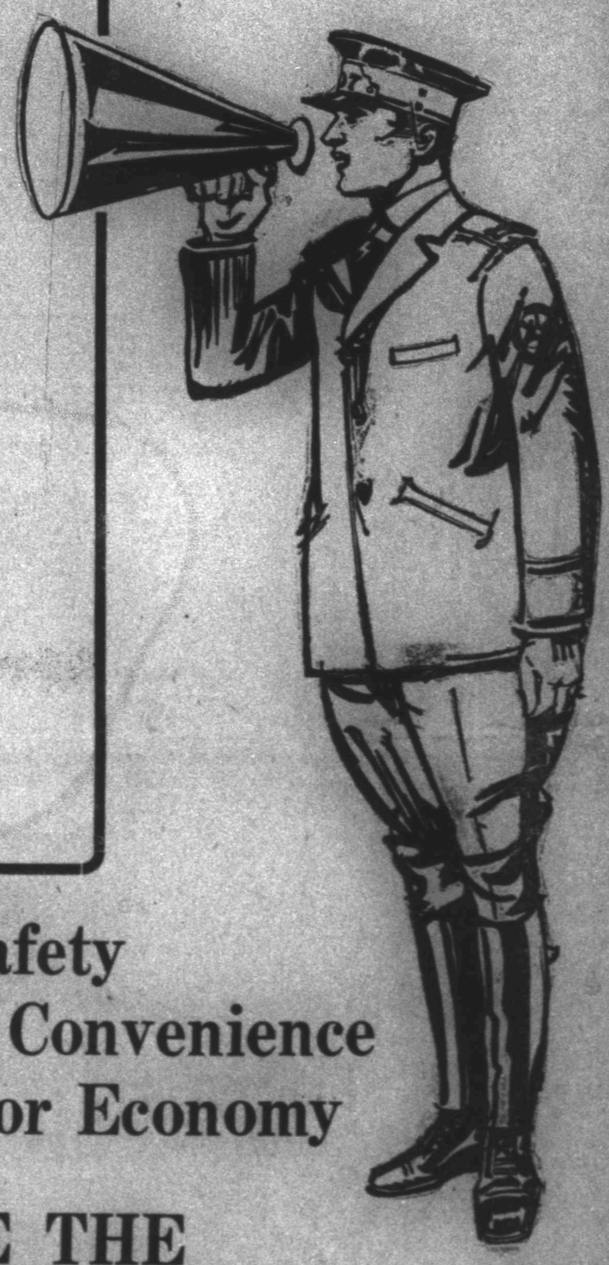

Climb Aboard the Big Times' Bus, See Wichita Falls Without Ever Leaving Your Home!

Here we are folks, ready to start on a tour of Wichita Falls. The bus is packed with more than 120,000 men, women and children, representing the great family of Daily Times readers. (Figures based on estimates of five readers for every paper.) During the tour we will visit many of the principal points of interest . . . the downtown business houses, Wichita Falls' most prominent manufacturing industries, the public utilities, and many other places. The ride is free. All you need do is to follow directions and tour the city with this happy throng. Grand Opera is here tonight and many guest are in the city from near-by towns; they too are cordially invited.

One of the big new MACK buses of the WICHITA FALLS TRACTION COMPANY will take us on this mythical tour, assuring you, as they do in real life, of a safe, comfortable tour, and back to your home on scheduled time. Every passenger is thoroughly protected against accident by the Robbins company, one of Wichita Falls foremost insurance firms. The tires are Goodyears from Segall Tire Company, sure enough insurance against blow-outs. And the motor will have plenty of pep and ginger because it is powered with Orient gasoline. All ready—no delaying—let's see Wichita Falls.

ATTEND GRAND OPERA

February 29-March 1

Wichita Falls is to be congratulated on having citizens whose efforts have proven so successful as to bring within its gates the Chicago Civic Opera. This is an occasion that merits the pride of each citizen of Wichita Falls and should be loyally supported. Those who were influential in bringing this opera to Wichita Falls had faith in their fellow citizens and were confident of a support that would "put it over." Movements of this kind tend to keep the city abreast with the times. Let our combined efforts make grand opera in Wichita Falls a success.

The Segall Tire Company is one of the city's oldest tire businesses, Gene Segall, the owner, opening the firm here in 1918. Goodyear Tires are handled exclusively by the firm, which is ranked among the biggest Goodyear dealers in Texas. In addition to the tire department, a large section of the store is given over to the vulcanizing department. Here the latest type electrical equipment has been installed for the vulcanizing and repairing of tires.

Contracts have already been let for a new building to be erected for the Segall Tire Company at Eighth and Travis. When completed it will be one of the most attractive and complete service stations in the state.

Here folks, is the Ray Sheet Metal Works, one of Wichita Falls' most important industries. An organization that has kept pace with the growth of Wichita Falls. Among the many products manufactured in the plant pictured above are underground gasoline tanks, truck tanks, overhead steel gasoline and oil tanks, tanks for Bennett lubricating equipment, corrugated water tanks, culverts and sheet metal products. The latest addition to the company's lines is the Ray Compartment Lubricating Cabinet. About May 1 the Ray Company will also manufacture the Ray Air Compressor.

An Important Wichita Falls Industry

In the year 1912, F. A. Ray began business in a small way at 615 Ohio avenue, Wichita Falls, making corrugated water tanks and sheet metal products. This business grew so rapidly that larger quarters became necessary and the firm moved to the corner of Niagara and Oak streets. In 1925 Mr. Ray purchased 16 acres of land between the M. K. & T. and the Fort Worth & Denver R. R. tracks on the Henrietta road, about two miles south of town. On this site his present modern factory stands, fully equipped with the latest machinery.

During the past year steady employment has been given to from 25 to 40 men and present indications point favorably for a continuation of the splendid progress we are now enjoying.

CAPACITY: 25 underground tanks per day, 50 lubricating tanks and pumps.

Service to Established Industries While Seeking New Ones

Ladies and Gentlemen: Increasing the business of established concerns through service is the chief industrial activity of the Chamber of Commerce. While we are alert and eager to secure new concerns we believe our greatest field of usefulness is helping those already here to greater prosperity.

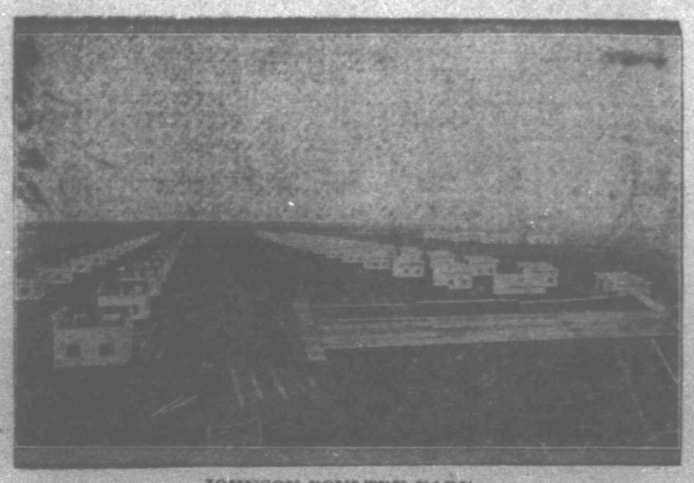

Among the new concerns that will have a community wide influence are the Kraft Cheese Factory and the Johnson Poultry Farm.

Other important projects for 1927 were:

The Completion of the Upham Gas Line Bringing Cheap Gas for Industries
The Interstate Free Bridge Over Red River.
The State Fish Hatchery at Diversion Lake.
Completion of the Sale of Stock for Modern Airport.
Completion of Municipal Auditorium.

There are over 11,000 telephones in Wichita Falls. Every one of them center up in this pulsing heart, radiating messages all over the earth. The telephone system in Wichita Falls is automatic, one of the first installed in Texas, and one of the most complete.

"More than 200 persons are employed in the institution. The new addition was recently added, greatly increasing its capacity. These employees are ready to serve you and to handle your messages regardless of weather or other adverse conditions. The telephone is a convenience, a time-saver, a money-saver, and essential in the handling of our business today."
