VOLUME XI [(AP) MEANS ASSOCIATED PRESS] MIDLAND, TEXAS, THURSDAY, MAY 25, 1939 NUMBER 66

Salutatorian

Donald G. Griffin, second ranking honor student in the class of 1939, will present the salutatory at the graduating exercises at the high school auditorium tonight at 8 o'clock. He is the son of Mr. and Mrs. Earl Griffin.

Three Plead Guilty, Seven Innocent in Poison Plot Murders

PHILADELPHIA, May 25. (AP). — Three men pleaded guilty and seven men and women pleaded innocent today to charges they murdered five men in a vast plot to collect insurance.

Pleas of guilty were made by Morris Bolber, charged with the death of Roman Mandiuk Baker; Samuel Sortino, charged with drowning a cripple by pushing him from a boat; Rafaele Polseill, charged with the poison slayings of Charles Favato and Giuseppe di Martino.

Those pleading guilty will appear before a court of three judges who will hear evidence and fix punishment.

Says Nazis Furnish Material for Anti-Semitism Campaign

WASHINGTON, May 25 (U.P.) — George Deatherage, talkative commander of the Knights of the White Camellia, informed the Dies committee Wednesday that a world service in Germany supplies mateial to intereted organization here for anti-Jewish and anti-Communist publications.

Untold thousands of pamphlets and leaflets of this type are distributed throughout the country, he said, adding that an official of the German Embassy once told him there was more anti-Jewish feeling in the United States today than there was in Germany before Adolf Hitler came to power.

In addition, Deatherage told of a trip to Newport, in the course of which he dined on the yacht of Howland Spencer, New York real estate dealer, with Frazier Jelke, a New York society figure, and young Astor. He explained his grogram to them, he said, and later Spencer contributed $200 to his movement.

Mild of manner Wednesday in contract with his stormy behavior Tuesday, Deatherage said he was convinced that a left-wing revolution fomented by international Jew bankers is about to engulf the country. He advocates the formation of a nation-wide organization, of which his own would be a part, to undertake military action when the revolution breaks out.

"This country," he said in fervent tones, "right now, underground, is on fire."

There was, he said, no necessity for Fascism or Nazism here, but "we'll have Fascim, call it what you may." He explained he was not advocating this, but thought events weer pointing inevitably toward it.

Prisoners Wreck Jail With Sheriff's Approval

BLAIR, Neb. (U.P.)—Residents of Washington county don't require any more proof that they need a new jail.

A dozen prisoners have escaped in recent years and the jail was described by a district court judge as "deplorable."

Its inefficiency was climaxed when three prisoners demonstrated (with the permission of Sheriff William MacDonald) to a news photographer the three simplest methods of breaking out, all tried successfully.

One prisoner tore away the tin ceiling with his hands, another ripped away the bars, and the third pulled up the floor boards.

"Strip Tease" Plea Wins.

SAN FRANCISCO. (U.P.) — Five strip tease dancers, arrested for performing before a private patriotic organization, told Municipal Judge Kaufman that they were doing nothing more than what is being done every day by the various girl shows at the Golden Gate International Exposition. The judge made a personal tour of the shows at the Fair. "Case dismissed" was his ruling upon his return.

Tax Refund Act Passed By House

Changes Are Made to Allow Return of Half Ad Valorem

AUSTIN, May 25. (AP) — The House amended and passed the senate bill today, 85-53, remitting for five years ad valorem taxes to counties.

The senate favored remission of all such taxes, but the house recommended only half the ad valorem revenue be given back to the counties.

The measure now goes back to the senate for action on the house amendment.

A thus far highly successful filibuster against the "fair trade" act rolled merrily on in the senate while the house again voiced its determination to keep the legislature in session until the old age pension financing problem is solved.

By a vote of 113 to 23, the house killed a senate resolution proposing that the lawmakers go home one week from next Saturday. Representative members said the vote meant the lower branch did not want to set a quitting date until the senate has acted on the omnibus tax bill passed yesterday by the house.

If the legislature remains here beyond today week, which seems almost certain, it will have set a new all-time record for length of a session, today was the 136 day.

The "fair trade" bill, which would allow manufacturers and retailers to fix a minimum retail price on trademarked articles, received attention at both ends of the capitol. After harsh debate the house refused, 97 to 30, to withdraw it from the senate.

Queen Mary Thanks Truck Driver Who Hit Car for Bouquet

LONDON, May 25. (AP) — Queen Mother Mary dispatched a letter of thanks today for flowers brought by Albert Cooper, driver of the truck involved in a collision in which she was injured.

Physicians reported the queen recovering from bruises and minor eye injuries.

Britain Widens War Maneuvers

LONDON (U.P.) — Great Britain's war games will be held from Sept. 15 to 23 on a battle front "somewhere in Yorkshire," 200 miles from the base camp.

"Allied" forces, as well as the "enemy" will be represented, but the activities of these troops will be to some extent controlled.

An entire army corps, brought up to war strength, will make a strategic road-and-rail move from the great south-western military base at Aldershot to the boundaries of Yorkshire, about 180 miles. Special trains and thousands of road vehicles will be used.

Strong air forces will cooperate with the "enemy" particularly with a view to attacking the strategic move north.

The war office states that the reason for the exceptionally long continuous period of the maneuvers is that it will impose a greater strain on the troops.

This, however, will have the advantage of allowing all ranks to become accustomed to their role.

In shorter exercises officers and men, and particularly the staffs, frequently work continuously without rest and thus are able to get a false impression of war conditions.

With an exercise lasting several days they are compelled to organize their work in reliefs.

The strategic move north will be made between Sept. 10 and 15. To supply the troops after arrival, special trains will run, as in wartime, carrying gasoline, ammunition and food.

If "enemy" action, particularly from the air, is adjudged to have interrupted the chain of supply, the ability of the force to maneuver will be handicapped accordingly.

Australia Buys Bombers.

SYDNEY, Australia. (U.P.) — Australia has joined with the other nations in tapping the United States aircraft industry for furthering the national defense program. The first consignment of Lockheed Hudson bombing planes will reach here in June. The program calls for the delivery of 50 of these bombers by the end of the year.

Law To Protect Blind.

CONCORD, N. H. (U.P.) — The legislature has passed a bill to protect the blind. The measure requires motorists in cities or congested districts to come to a full stop when they see a person with a white cane — which indicates blindness.

Addresses Graduates

The Hon. Ollie B. Webb, assistant to the president of the Texas and Pacific Railway Co., New Orleans, will deliver the literary address to the 1939 graduating class of Midland high school this evening. Recognized throughout the country as an inspirational speaker, a lay religious leader and a gifted scholar, Mr. Webb is in great demand for similar appearances. He also will speak at the Rotary club luncheon Thursday noon. He has been heard at Midland as principal speaker of annual banquets of the chamber of commerce, at religious gatherings and at luncheon clubs. He recently spoke at Big Spring at the annual conference of the 127th district of Rotary International.

Rotary Club Hears Address Given by Webb at Luncheon

Members of the Rotary club today heard Hon. Ollie B. Webb, vice-president of the Texas & Pacific railway, here to deliver the commencement sermon to graduates of Midland high school tonight, at the regular weekly luncheon today.

Mr. Webb took as the subject of his talk the railroad industry. In announcing his subject the speaker said he felt thoroughly capable of knowing what he was talking about since he was starting his fifty-third year in the employ of the railroad, having started as a messenger boy in 1886.

The speaker declared the railroads were the "life lines" in any community where they managed to penetrate and said their value to the country was greater now than ever before and that their value would continue to increase.

He admitted the value of other methods of transporting passengers —by truck and boat—but maintained that none could ever replace the railroad as the best mode of transportation.

Forty members and eight guests, including five Odessa Rotarians, attended the luncheon.

Tax Program That Will Benefit All Business Okayed

WASHINGTON, May 25. (AP) — Secretary of Treasury Morgenthau reported today congressional leaders had agreed on a tax program with the president that would "definitely" contribute to business recovery.

Morgenthau said a tax conference held at the White House yesterday cleared final details of the corporation revision program. He said the program was ready to go before congress.

Arrangements for Polo Game Sunday Completed Today

Final arrangement were being completed today for the polo game here Sunday afternoon between Midland, Lubbock and Lamesa teams.

Varying from usual routine when only two teams play, the three teams will each play six chuckers during the game, making a nine-period contest. The team having the largest number of points at the end will be declared the winner. Two teams, as yet undesignated, will start the game and after playing one chucker one will be replaced by the third team. At the end of another chucker the team that has played two periods will be relieved by its first chucker foe. In that way, no team will have to play more than two consecutive chuckers.

Tickets will be sold at the gate at Fair Park. They are priced at 40 cents each, good for either grandstand or parking space closer to the field. The game will start promptly at 3:30.

Midland players will include, Frank Cowden, Jr., one of the best collegiate players of the country last year while at New Mexico Military Institute, Jay Floyd, veteran player of this area who has a three goal handicap, Rip Smith, also a seasoned player, and Elmo Smith of Lamesa. Elmo Smith was loaned to the Midland team by the Lamesa team beacuse of inability to procure another local player.

Nine BC-1's Land At Airport Today

Nine BC-1's, led by Lieut. Pierce, landed at Sloan Field at 11:50 this morning. The ships came from Biggs Field, El Paso, and departed at 12:40 for Kelly Field, San Antonio.

Bill Hudson also departed this morning for an unannounced destination. He was flying a Waco.

King Extols Good Feelings of British and U. S. Toward Each

WINNIPEG, May 25. (AP) — King George VI observed British empire day in this heart of the Canadian prairies Wednesday with a world-wide radio address which extolled "the faith in reason and fair play" which he said was shared by Britain, the United States and his Dominion of Canada.

This joint faith, he said, was 'one of the chief ideals that guides the British empire in all its ways today."

"Canada and the United States have had to dispose of searching differences of aim and interest during the past hundred years; but never has one of these differences been resolved by force or by threat," the king said.

"No man, thank God, will ever again conceive of such arbitrament between the peoples of my empire and the people of the United States."

The king paused in his tour of Canada with Queen Elizabeth to make the address, the longest he ever has broadcast. He gave the 800-wor dspeech in a rich, resonant voice, slowly as always. His words were carried throughout the far-flung empire, across the principal radio networks in the United States and to France and other countries.

The king and queen arrived in this metropolis of Manitoba, at 10:30 a. m. (CST) with the most precious of all gifts to the wheat-producing prairie—rain. And in return they received a warm western welcome on a chilly, sunless day.

American flags waved with British flags on some buildings and in many hands along the streets where it was estimated 50,000 visitors from below the international border braved bad weather to join the 250,000 people of Winnipeg in rousing street cheering for the royal couple.

Rain ran down the queen's neck as she stood under a dripping canopy for presentations. The king's right hand ached from being crushed in a door Tuesday night. But the queen never lost her smile nor the king his poise.

The first stop on Winnipeg's side streets was at the city hall, where civic interest, apart from welcoming the sovereigns, centered on whether laborite Mayor John Queen would wear a new silk top hat which was a gift from Mayor Ralph Day of Toronto.

SEARCH STARTS FOR DEAD SAILORS

Three Killed in Triple Train Wreck

Jumbled pile-up of steel locomotives and splintered box-cars, above, is center of triple train crash on Pennsylvania railroad at Bradford, O., which killed three crewmen, seriously injured four others. One freight, which had stopped to take on coal, was smashed into by another; then fast fruit express plowed into other two. Cars were derailed for half mile along right-of-way.

Convicts Refuse to Tell Officers Name Of Palmer's Slayer

RETRIEVE PRISON FARM, Angleton, May 24 (AP) — From 400 tight mouth prisoners authorities tired to pry the name of the knifeman who killed Richard A. Palmer, 26, a life termer.

Palmer, twice convicted of murder, was stabbed half a dozen times as the men lined up in the barracks to walk to work in the fields yesterday.

So quietly did the killer wield the the knife that prison officials, who were just a few feet away, did not know a murder had been committed until the barracks had been emptied of the 400 convicts who slept there last night.

Then a trusty told Captain H. W. Miller, farm manager, that Palmer had been stabbed. The wounded man staggered unaided to the prison hospital, where he died without saying a word.

The knife used in the butcher-like slaying was gone. There was not a visible clue, Captain Miller said, when guards searched the barracks after the killing.

Palmer was serving 99 years for the murder of Percy Calkins, Houston salesman, who was slain by hitch hikers near Edinburg, Texas, in 1935, and life for participation in the murder of an unidentified Italian ship's officer who disappeared one night on the Houston waterfront and whose body was found later at Liberty, Texas.

In both cases, authorities said, Palmer made statements to police. On prison farm, such as this, men who tell the law anything sometimes are known to other convicts as a "squealer."

Prison Manager O. J. S. Ellingson said Palmer had been troublesome to authorities. Several times, the prison manager said, Palmer was punished for breaking the rules.

Mexican Breaks Earhart Record

NEW YORK, May 25. (AP) — Francisco Sarabia, the "Mexican Lindbergh", broke the Mexico City-to-New York speed record set by the late Amelia Earhart in 1935 when he landed at Floyd Bennet airport late Wednesday.

His flying time for the 2,085 miles was approximately 10 hours 48 minutes, compared with Miss Earhart's 14 hours 19 minutes.

As the yellow 5-year-old low-wing monoplane swept over the field, disappeared to the east momentarily and then put its wheel on the runway—surprisingly enough downwind—several hundred spectators broke into cheers.

Almost his first words were "Well I guess I have about a gallon of gasoline left."

"Hero" of Squalus Disaster Tells How He Saved 5 Mates

PORTSMOUTH, May 25 (AP) — Electrician's mate Lloyd Maness, whose "superhuman" effort in closing a watertight compartment door saved the lives of 32 other men aboard the submarine Squalus, told today how he held the door open long enough to save five men in the next compartment.

"The water was rising rapidly," he said, "I had partially closed the door when several men shouted "keep it open." "Then I let the door slip back to allow, O'Hara, Blanchard, Isaacs, Boulton and Washburn pass through.'

Among those believed lost was Maness' chum, Sherman Shirley, whose best man Maness was to have been at Shirley's wedding next Sunday.

Final Commencement Program Of Schools Scheduled Tonight

Final commencement program for the Midland schools for 1939 will be given tonight when the graduating exercises for the High School are held at the high school auditorium at 8 o'clock with Honorable Ollie B. Webb, vice-president, Texas & Pacific Railway Co., New Orleans, delivering the literary address. Mr. Webb, who arrived this morning, will speak on "What Next."

Donald G. Griffin, salutatorian of the class of '39, will present the salutatory, "Welcome."

Billy Graves Noble, valedictorian, will give "Farewell."

Choral readings and chorus singing by the high school student body will be included on the programs along with special musical numbers.

Following Mr. Webb's address, diplomas will be presented by J. L. Greene, president of the school board, to 75 seniors and certificates to four seniors of the class of 1939.

Medals will be presented for superior records in various lines of school work.

Judge Charles L. Klapproth will give the invocation and Rev. J. E. Pickering the benediction.

Details of the program will be found elsewhere in this issue of The Reporter-Telegram.

Movies of Future Expected to Use Synthetic Music

LONDON (U.P.)—A new type music, which requires neither musicians nor instruments, is being created in a London laboratory by a young sound technician, Roland Kemp.

By drawing wave-forms on paper, resembling the sound track of the talking film, he can manufacture almost any musical note.

Twenty-four notes to the second can be produced wtih perfect clarity, a feat beyond the powers of musicians, and they can be sustained for half an hour without ever going off key.

Synthetic music for film use is sure to come, declares Kemp. At present it is uneconomic as it is cheaper to engage performers.

Birch Shipped For Planes.

SAINT JOHN, N. B. (U.P.)—Hundreds of tons of New Brunswick birch logs are being shipped from Saint John to British ports this season. Exporters say the timber is being utilized in Britain's stepped up airplane production program.

3,000,000 Enter U. S. From Mexico

UVALDE (AP).—Nearly 3,000,000 persons entered the United States from Mexico through the ports of the 23rd (San Antonio) customs district the past nine months, Harry P. Hornby of Uvalde, collector of customs, reports. A near record was set at Laredo when the public health checker counted 16,000 persons entering in one day.

The total number of persons entering by all types of conveyance, from walking to boats, was 2,991,640 in the period, Hornby said.

Almost 50 per cent of the total or 1,428,857 were pedestrians and vehicles of all types brought in 1,281,445 persons. Buses carried 237,502 passengers in 26,013 crossings.

Coming by air were 2,932 persons with 318 airplane entries. A total of 573 passengers trains carrying 13,213 passengers and 8,941 freight trains were recorded as entries in the period. Other vehicles numbering 36,718 accounted for 49,290 passengers. Entering Brownsville and Corpus Christi, the only seaports in the district, were 195 vessels. Ferryboats brought in 10,409 passengers with 3,508 entries of ferries registered.

Del Rio, Eagle Pass, Laredo and Hidalgo are the other ports of entry.

Students Attempt to Solve Frome Mystery

EL PASO. — Students of the College of Mines and Metallurgy, here, a branch of the University of Texas, have turned detectives in an attempt to solve the mystery surrounding the March, 1938, murders of Mrs. Weston G. Frome, and her daughter Nancy.

Mrs. Frome and her daughter were found slain near Van Horn, Texas. Their murderer is still at large.

Sheriff Chris P. Fox of El Paso county, co-ordinator of the Frome clues, has recently made two talks to students in a criminology class at the college explaining the work that has been done in connection with the case. He has given each student a diagram showing the positions of the bodies when they were found and pictures of the women's car.

Each student will present a solution as part of his class work.

26 Bodies Are Believed to Be in "Sub"

Officers Abandon Hope Any Might Still Be Alive

PORTSMOUTH, May 25 (AP) — The grim task of reclaiming the bodies of 26 men from the ill-fated submarine Squalus faced the navy today.

As families of 33 rescued men rejoiced, divers were lowered to search for the dead. Officials abandoned hope any of the 26 missing had escaped death.

A naval spokesman, asked how long salvage operations might take, replied:

"It might take a day or it might take three weeks."

He added, however, that if all went well the submarine should be on the surface by tonight.

Meanwhile, a special naval board deferred an inquiry until the craft is raised .

Drawn and haggard, Lieutenant Oliver Naquin, commander of the Squalus, revealed today mercifully swift death, with their lives sniffed out quickly under tons of water, was the fate of the missing men.

"I was in the control room at the time of the dive," he said. "Accounts are too technical to attempt to discuss before the ship is raised and I do not intend to discuss them."

Praising his crew, Naquin said:

"My officers and men performed 100 per cent."

....PORTSMOUTH, N. H., May 25. (AP). — The United States navy completed early today a major epic of the sea—the perilous rescue of 33 men trapped since Tuesday on the ocean floor aboard the submarine Squalus—and the sunken craft was left peopled only by its 26 dead.

Under the giant searchlights of a fleet of mercy vessels, a rescue chamber bearing the last eight men finally was brought to the surface at 12:30 a.m. (EDT), but only after an escape from a second near-tragedy.

For nearly four hours, the unwieldy, nine-ton diving bell hung suspended 150 feet below the surface when a hoisting cable jammed.

Men who already had been imprisoned for more than 36 hours in the stale, gas-ridden but icy-cold air of the crippled Squalus were jammed like sardines in the cramped rescue chamber. Only the fact that a hose reaching to the surface was attached to the bell, so that fresh air could be pumped down, prevented acute danger to the trapped men. A second also was connected through which stale air could be drawn off.

As the bell finally broke the surface on its last tortuous trip, this message was flashed from the rescue ship Falcon:

"Eight men up on fourth trip. All in good shape and all survivors now out."

Thus was completed the roll of the living.

More than 40 fathoms below rested the dead, two of them civilian observers and one an officer—Ensign Joseph W. Patterson of Oklahoma City.

Even as the final eight were brought out alive, however, the navy's high command gave the word to make the sea give up its dead but immediate diving operations were suspended until daylight because of the accident to the diving bell. Then the bodies of the lost will be sought so that the submarine itself might be blown out and raised.

Lieutenant O. F. Naquin, of Alexandria, La., commander of the Squalus, was the last to leave his ill-fated ship, glued to the bottom 1 miles off Portsmouth since 8:40 a m. Tuesday, when water, pouring through an open air induction valve flooded the after compartment during a practice dive.

Stepping from the rescue chamber with Lt. Naquin in the early morning hours today was his fellow executive officer, Lieutenant William T. Doyle Jr., of Baltimore, second in command of the Squalus. Thus four of the five officers were saved, as Lieutenants John C. Nicholas of Chicago and Robert W. Robertson of Quanah, Texas, were rescued.

Yankee Clipper In Lisbon Today

LISBON, Portugal, May 25. (AP).—The Yankee clipper, homeward bound on her inaugural Trans-Atlantic flight, arrived here today from Marseille. It is due in New York Saturday.

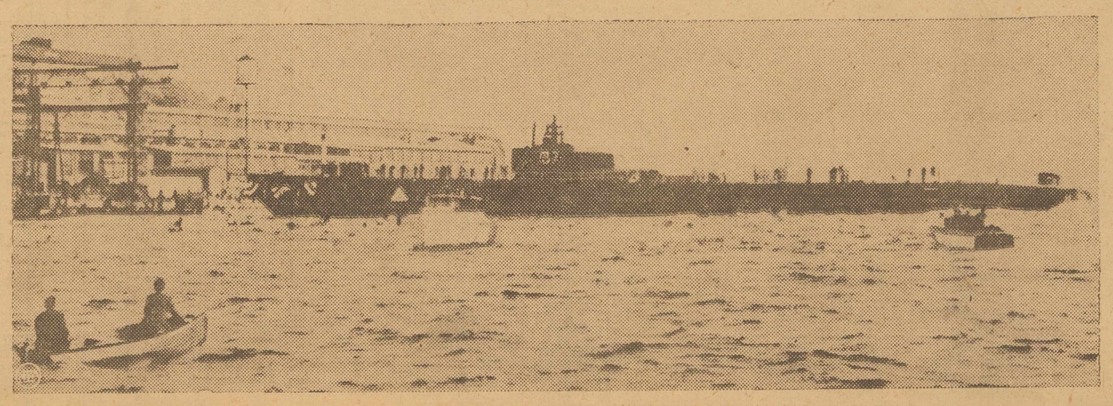

HAS APPENDECTOMY.

Ed Dorsey underwent an appendectomy in a Midland hospital this morning. He was reported doing well early this afternoon.

HAS TONSILLECTOMY.

Mrs. Eddie Blacher is reported doing well today following a tonsillectomy in a Midland hospital Wednesday afternoon.

Sister Ship of Sunken Submarine

The U. S. S. Sargo, above, is sister ship to submarine Squalus, which sank off Portsmouth, N. H., with crew of 60 men and officers.

Father's Hobby Benefits Sons

BELLEVUE, O. (U.P.)—Dr. Charles J. Wehr paid the college tuition of his two sons with butterflies, which he had collected for more than 30 years.

He supplied Findlay College with a collection of the insects for its biology department to pay the tuition of his eldest son.

"That seemed like a good idea," Dr. Wehr said, "so when my next son was ready for college, I sent a similar, but more complete, collection to Adelbert College of Western Reserve University in Cleveland—my alma mater."

Dr. Wehr began his collection of butterflies — which now numbers more than 10,000 — when he was put in charge of a summer camp while still a medical student.

"Among the campers were many high school students who had been instructed by their biology teacher to collect and mount specimens of any insects they could find," Dr. Wehr said. "I became so interested that I decided to start a collection of my own. That was in the summer of 1900—and I'm still at it, and as interested as ever."

Dr. Wehr's collection includes specimens from all over the world.

"A butterfly collector must have friends all over the world if his collection is to be complete," he said. "The Phillippine section of my collection was contributed by my nephews in the Phillippines."

Frederick Springer, an artist friend from Cuba, brought the physician a large Cuban collection when he visited him recently.

"Naturally the most beautiful specimens come from the tropics," Dr. Wehr said. "I went to Florida two years ago and came back with more than 1,000 beautiful moths."

Dr. Wehr considers as the choicest of all, that section of his collection which he received from Dr. Donald Baker, a medical missionary who then was stationed in the Belgian Congo.

The physician developed his own method of mounting insects, which he believes has many advantages.

"Mounting insects on pins seems to be to be gruesome as well as often ruinous to the specimens," he said. "So I worked out what I consider to be a much better way."

Dr. Wehr uses cases which are les than three-quarters of an inch deep, eight inches wide and 12 inches long. He covers them with transparent material much lighter than glass.

Cardboard used for the cases is hard and thick. Cotton backing used for the mounts is covered with white or tinted paper. Specimens can be removed from the cases without damage.

"I've learned a great deal in my 30 years of butterfly-collecting," the doctor said. "I'll be very happy if my sons learn half as much in the college education which the butterflies brought them."

The Town Quack

Jim Kelly over at Stanton every once in a while starts "agitating" for something and his latest idea, although not original, would be all right except for one thing. Jim wants to create a state of West Texas, taking Fort Worth and all points west.

* * *

The only thing we can see wrong with it is that we would have to keep O'Daniel as governor of the new state since Fort Worth is his home.

* * *

If you like sports, you can take your choice Sunday. There will be a tennis tournament going on, a polo game Sunday afternoon, a baseball game Sunday night, the golf course will be open and elsewhere there can be had swimming, bowling, archery, horse shoe pitching, etc.

And Odessa claims the title of sports town king.

* * *

Officials of the baseball club here deserve a bleak for postponing their baseball game scheduled Sunday afternoon until Sunday night in order not to interfere with the polo game crowd. It will now be possible for fans to see both affairs and about a thousand at each really would help them both.

* * *

The following came through the mail today from some unknown person:

Jess Crump is one of the Valley's best architects, her friends say. She designed a house and its furnishings, which is said to be the most "liveable" house in the Valley. All Joe did was to pay for it. They live in this really beautiful house — which is so cool in the summer they have to use cover—but eat a mile away at the Crump farm managed by Bob Blevins, another former Midlander. The Crumps had the Homer Rowes and Paul Vickers for a farm breakfast this week. The Crump house is a genuine architectural triumph for the equable climate of the Valley and Joe's lawn and trees would make Calif. jealous.

Shipments of Stock From State Gaining

AUSTIN. — Shipments of livestock from Texas ranches lunged upward during April, hitting a seasonal peak much higher than that of April last year, University of Texas Bureau of Business Research investigators said today.

A total of 11,842 carloads of livestock was shipped to Fort Worth stockyards and out of state points, 30.6 per cent more than in April last year. Movement of cattle totaled 9,171 carloads, 34.7 per cent above April, 1938. Shipments of calves, 1,057 cars, were up 32.1 per cent. Hog shipments, 864 cars, gained 43.5 per cent.

Sheep shipments alone dropped 12.6 per cent, to 750 cars.

Flint Hills of Kansas and the Osage country of Oklahoma drew the bulk of out of state shipments, and accounted for much of the increase in total movement.

Dairy Production In State Increases

AUSTIN. — The dairy industry in April agitated itself to a production far above that of March, but drouthy conditions and a late season kept activity to a level much below that of April last year, University of Texas business investigators said today.

Warmer weather in recent weeks coupled with relief of rains tends to improve the situation, they added.

Manufacture of ice cream, which reflects urban consumer conditions rather than production conditions which primarily influence butter and cheese output, gained over both March and April, 1938. Production is estimated by the University Bureau of Business Research at 775,000 gallons during April, 21.2 per cent over March and 11.5 per cent above April last year.

Creamery butter production estimated at 2,556,000 pounds, jumped 31.7 per cent above March but dropped 29.3 per cent from April last year. Manufacture of cheese was estimated at 1,463,000 pounds, exactly 50 per cent over March but 37.9 per cent below April last year.

Department Store Sales Remain Even

AUSTIN. — Texas department and specialty stores maintained an even keel in sales during April, University of Texas business statisticians reported today.

Sales for the first four months of 1939 sheered off slightly from the corresponding period last year, it was evident.

Reports of the university bureau of business research from a representative group of stores and shops showed an increase in sales of 1.2 per cent over March but a decline of 0.9 per cent from April, 1938.

Aggregate sales for the first four months were 1.2 per cent below those of the first four months of last year.

Ratio of credit sales to net sales was 1.4 per cent above April last year, while the ratio of collections to outstanding accounts was 1.8 per cent under that of a year ago.

Thanks Delayed 22 Years.

SANTA ROSA, Cal. (U.P.)—About 22 years ago, Mrs. Sarah Dunbar was one of many women who made "comfort bags" and sent them to soldiers at the front in the world war. In one of hers, she enclosed a note asking the recipient to write her. Recently the reply came from Tommy W. Boerman, and English Tommy, who explained that he had mislaid the address and only found it recently.

COMPARE Firestone CHAMPION TIRES FOR Value! Safety! Price!

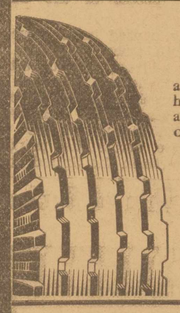

TIRE	SAFETY-LOCK CORD BODY	GUM-DIPPING	2 Extra Layers of Safety-Lock Cords Under the Tread	GEAR-GRIP TREAD	Speedway-Proved for Highway Safety
Firestone CHAMPION	✔	✔	✔	✔	✔
ANY OTHER TIRE					

FLOYD ROBERTS
1938 National Race Champion
More champion race drivers select and buy Firestone Tires for their racing cars than all other makes of tires combined. These men, whose lives depend on tire safety, *know* tire construction and they refuse to risk their lives or chances of victory on any other make.

For Your Decoration Day Trip protect your life and the lives of your family by equipping your car with a set of new Firestone Champion Tires. Compare this amazing tire with any other tire on the market in safety, in value, in price! Then you'll know why car owners everywhere acclaim it the sensation of 1939. And you'll realize why motor car manufacturers enthusiastically adopted it for their 1939 models. Only in the new Firestone Champion Tire do you get these patented and exclusive construction features:

- **Safety-Lock Cord Body** is made by more tightly twisting together the fibers in each cord providing far greater strength—and greater strength means greater safety. **Another exclusive Firestone safety feature.**
- **Gum-Dipping,** a new and advanced Firestone process, safety-locks the fibers, cords and plies together, counteracts internal friction and heat and gives greater protection against blowouts. **Another exclusive Firestone safety feature.**
- **Two Extra Layers of Safety-Lock Cords Under the Tread** provide greater protection against punctures and more securely lock the Gear-Grip tread to the Safety-Lock cord body. **Another exclusive Firestone safety feature.**
- **Gear-Grip Tread** has more than 3,000 sharp-edged angles which grip the road with a sure-footed hold to prevent skidding. It is so deep, so tough, so long-wearing that it is setting sensational new non-skid mileage records. **Another exclusive Firestone safety feature.**
- **Safety-Proved on the Speedway for Your Protection on the Highway**—Firestone Gum-Dipped Tires hold all the outstanding records for safety, speed, mileage and endurance. In fact, for 19 consecutive years, Firestone Tires have been on all the winning cars in the annual 500-mile Indianapolis Race. **Another exclusive Firestone safety feature.**
- **Price**—All of these extra advantages are yours at a price no more than you would pay for an ordinary tire and Firestone Champion Tires are backed by the Firestone Lifetime Guarantee—no time or mileage limit. **Another exclusive Firestone economy feature.**

Firestone CONVOY
High Quality—Low Cost
Here's extra quality, extra safety and long mileage at an unusually low price. Firestone Convoy Tires have the Firestone patented construction features and carry the Firestone Lifetime Guarantee, no time or mileage limit.

Miss Leta Legg, Bride-Elect of Lubbock Man, Honored at Shower

Honoring Miss Leta Legg, Midland teacher who is to become the bride Felton Davidson of Lubbock on Sunday, Mrs. Alma Thomas, Mrs. . L. Crothers, and Miss Geraldine Dabney were hostesses for a miscel-neous shower at the home of Mrs. Crothers, 708 W. Indiana, Wednes-y evening at 7:30 o'clock. Roses, larkspurs, and pinks decorated the ouse.

The "treasure hunt" theme was rried out in presentation of gifts Miss Legg, who was given a card ntaining an apppropriate verse. the card was attached a cord hich led her to the packages in other room.

After gifts had been opened and spected, punch was served from table centered with a crystal wl of larkspurs and pinks, and hted by blue tapers in candela-a. Mrs. Thomas and Miss Dabney esided.

The invitation list included: The noree, Misses Annie Frank Stout, ith Anderson, Ruth Robinson, odine Hagler, Tommie French, ary Wilson, Catherine O'Dell, ances Gillett, Georgia Goss, Jean rnham, Frances Farnham, Ruth rden, Ella Lunday, Dawn White, uise Rippey, Jesse Scott Price, rs. Georgia Moreland, Supt. W. Lackey, Mrs. Bill Conner.

ine Arts Club loses Year With rogram Wednesday

Meeting at the Circle Cross ranch me of Mrs. Roy Parks, Fine Arts b closed its year's work with a dy program and business session ednesday afternoon.

During the business session, the b voted to give $200 to the fund the proposed day nursery and ls' recreational center here.

t was also voted to contribute e dollars toward a silver service be given the permanent head-arters at Austin by district eight bs. The gift will be in honor Mrs. H. W. Morelock, district ht president.

Concluding the course of inter-ional studies which occupied the up for the year was the program the United States presented yes-day.

Four papers were read.

Mrs. O. J. Hubbard read a paper "Taxation."

Mrs. Harvey Conger discussed vestments."

Mrs. L. G. Byerley's topic was nemployment."

Mrs. J. Howard Hodge read Mrs. rvey Sloan's paper on "Juvenile Delinquency.

Following the program and busi-ness, Mrs. Parks conducted the group through her luxurious home, after which punch was served.

Present were: Mmes. Elliott H. Barron, Byerley, Conger, Alden Donnelly, E. H. Ellison, Fred Fuhr-man, W. H. Gilmore, Geo. Kidd Jr., Lem Peters, R. C. Tucker, J. M. White, Fred H. Wilcox, L. A. Absh-er, Curtis Gilmore, Hubbard, Tom Sloan, Miss Lydie G. Watson, and the hostess, all members, and one associate member, Mrs. E. Hazen Woods.

Movies Sign Damrosch To Play Damrosch Role

NEW YORK. (U.P.)—The progress music has made in the movies is incredible, said Dr. Walter Dam-rosch, composer and conductor, be-fore he left for Hollywood where he will make his debut on the screen.

Dr. Damrosch said he would have no excuse if he failed as an actor, because he has been hired to play himself in a new Bing Crosby Paramount feature, "The Star Maker."

The maestro, who has swung his baton over several generations of musicians, likes to recall one time in the silent days of movies when he and his family were watching Hollywood burglars tip toe across the screen. As they reached the safe, reports Dr. Damrosch, the weary theater pianist commenced thwacking her instrument thun-derously. One of the maestro's children nudged him. The burglars were being accompanied by one of Damrosch's own compositions.

Canadian Firms Build War Plane Assembly Unit

MONTREAL, (U.P.). — Work on the Canadian Associated Aircrafts Limited's assembly plant at St. Hubert Airport, where the bombers to be built by Canadian firms for the British government will be as-sembled, is expected to begin in June.

The site for the plant, consisting of about 17 acres adjoining the airport, has been acquired after long negotiations.

The company will build a simi-lar assembly plant near the Mal-ton airport at Toronto.

The Canadian Associated Air-crafts, Limited, was formed by a number of Canadian firms to han-dle warplane orders to be placed in Canada by the British government in the next few years.

Memorial to Bernhardt Attorney's Own Idea

PRATTSBURG, N. Y. (U.P.) — On a seldom used highway in this ob-scure little Steuben county village, stands the only monument ever erected in the United States to the memory of Sarah Bernhardt, the famous French tragedian.

It was erected by Charles D. Bean, a Geneva attorney, before his death "to the greatest actress in the world, whose lyric fire and divine voice gave more intense and supreme like to the poets."

Bean was an enthusiastic patron of the drama and a devoted ad-mirer of the great Bernhardt.

The monument stands about 15 feet from the highway and consists of nearly 150 gray paneled con-crete blocks with a large tablet on front.

Soul Mate Idea In Love Scored

PITTSBURGH (U.P.) — Girls who wait for their Prince Charming to appear are likely to be disappoint-ed, according to Dr. Paul Popenoe, director of the Los Angeles In-stitute of Family Relations.

The dream that somewhere there is a "special soulmate" waiting for everyone is just so much "childish bunk," Dr. Po-penoe declared here.

"There are nearly 30,000,000 marriages in the United States and each year a million more are added to that number," he said. "Unfortunately, nearly 200,000 of the million married couples in the present year may end in divorce court, and others, though not breaking up the marriage, will be miserable in it."

Couples Told of Errors

Dr. Popenoe said the reason for the high divorce rate is that the couples "don't try."

"They intend to get, not to give," he said. "It's up to the other fellow to do all the work.

"Before marriage, they made some effort to please each other. Now they are married, they think it is time to 'settle down.' If you want to 'settle down' after marriage, don't trouble to rent a home; just move into the graveyard."

Husband "Star Boarder"

"Too often," the marriage rela-tions expert continued, "the hus-band begins to consider himself a star boarder rather than a lover, and the wife gets careless about her appearance and disposition."

The trouble is, he said, that the home, the church and the school in the past have paid little atten-tion to education for marriage. It's an encouraging fact, he said, that schools are adding courses concerning family relations as fast as teachers can be trained to give such courses.

HELP 15 MILES OF KIDNEY TUBES

To Flush out Acids and Other Poisonous Waste

Doctors say your kidneys contain 15 Miles of tiny tubes or filters which help to purify the blood and keep you healthy. Most people pass about 3 pints a day or about 3 pounds of waste.

Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the beginning of nagging backache, rheu-matic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 Miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Bottle in Ocean Floats 3,900 Miles Since 1936

BOSTON (U.P.) — A bottle which Capt. R. A. Clarke of the Canadian National liner S. S. Lady Drake tossed overboard Oct. 8, 1936, ap-proximately 260 miles south of Bermuda, has been found on the west coast of France, according to word received at the U. S. hydro-graphic office here.

The bottle had drifted about 3,900 miles in the 31 months afloat. The report was useful in the office's study of Atlantic ocean currents.

BAKE SALE SATURDAY.

Laura Haygood circle of the Methodist missionary society will sponsor a bake sale at Piggly-Wig-gly's Saturday morning from nine o'clock until noon.

Nine o'Clock Breakfast and Shower Pre-nuptial Courtesy for Miss Sparks

Miss Mary Maude Sparks, whose engagement and approaching mar-riage to Ralph Hickman was an-nounced at a tea last Saturday, was complimented with a 9 o'clock breakfast and shower at the home of Miss Georgia Goss, 404 N San Angelo, Wednesday morning. A trio of sisters, Miss Goss, Mrs. W. A. Yeager, and Mrs. Don Thomp-son of Odessa, served as hostesses for the party given in rooms dec-orated with larkspur and roses.

Flowers centered the four small tables at which a two-course break-fast was served.

Presentation of the miscellaneous shower gifts was high point of the morning.

The invitation list included: The honoree, Mmes. I. E. Daniels, Chas. West, W. M. Blevins, Frank Miller, Louis Thomas, W. M. Holmes, Ralph Geisler, Alf Reese, Ben Black, Hugh West, Tom Sealy, Miss Luicle Thom-as, Miss Ellen Pearson, Mmes. John M. Speed Jr. Kathleen Speed, Nancy Maloney, H. L. Straughan Jr.

PERSONALS

Rev. and Mrs. W. C. Hinds left today for Fort Worth where he will attend the annual meeting of the board of trustees of Texas Wesleyan college, of which he is a member. The meeting will be held Friday morning at 10 o'clock. The couple will return here Saturday, and Mr. Hinds will hold services as usual Sunday at the First Methodist church.

Mrs. Gertrude Cantelou will leave tonight for Hillsboro where she will be with her mother, Mrs. L. A. Rid-ley, on the latter's ninety-fifth birthday, May 27, and make an ex-tended visit with relatives. Mrs. Rid-ley, a native Texan, lived 58 years in Liberty county and is one of the oldest citizens in Hillsboro.

Mr. and Mrs. J. B. Livingston and children are leaving today for a vacation trip to San Antonio and Corpus Christi, where they will visits relatives.

Mr. and Mrs. Byron Gist of Am-arillo, and Mr. and Mrs. Marcus Gist and children of Carlsband, N. M., have been visiting their parents, Mr. and Mrs. John M. Gist here.

Girls Forfeit Suffrage In Boystown's Regime

CLEVELAND, O. (U.P.) — A girl's place is in the home, members of Boystown here have decided after a brief experiment in "woman" suffrage.

Three hundred girls who won admittance to Boystown after a vigorous campaign, again were ex-cluded by the members of the min-iature metropolis because they "have not shown promise of be-coming conscientious citizens."

"They weren't interested in any-thing but dancing," said one of the citizens of the town, which was es-tablished in an abandoned police station as a deterrent to juvenile crime, "and didn't improve Boys-town at all."

Bull Elk Too Ornery, Forfeits State Protection

DURANGO, Colo. (U.P.) — A 27-year-old bull elk which apparently concluded it was too old to forage for itself brought on its own death near here through sheer meanness.

The huge old animal, believed one of a consignment of 23 calves brought here from the Jackson Hole country in Wyoming in 1912, took possession of a rancher's feed lot and allowed no other livestock or even the rancher to penetrate his well-provisioned domain.

Game officials, called to settle the dispute, observed the bull's stiffness, quarrelsomeness, and other indications of infirmity, and sent a bullet into its brain.

The United States consumes 20 per cent of the manganese, 45 per cent of the tin and 50 per cent of the nickel produced in the world annually.

Members of Seventh Grade Receive Diplomas at High School Today

Members of the seventh grade, John M. Cowden Junior High school, received their diplomas as grammar school graduates at the high school auditorium this morning at 10:30 o'clock, before an audience that filled the house.

Prin. A. L. Gilbreth made a brief talk after which he called the names of the graduates, who received their diplomas from J. L. Greene, president of the school board, and were congratulated by Supt. W. W. Lackey.

LIGHT UP YOUR YARD—
for easier entertaining, relaxation, work!

● Now you can have plenty of light in your yard at very small cost. Just look over the new types of outdoor lights shown below and select the kind which will best fit your needs. You'll find these lamps at electric shops and other places where appliances are sold.

Mazda Outdoor Floodlight and Holder

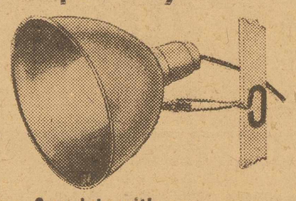

This adjustable one-piece globe and reflector is a handy outdoor light that can be attached easily to the house or garage. The price is low, but it provides a large volume of useful light.

Complete with lamp bulb $3.45

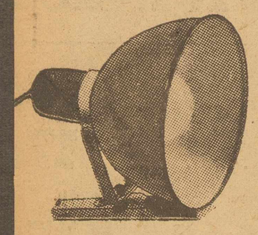

This Lamp Clamps Anywhere

At the right is the "catchon" light, which "catches on" to a tree limb, post or other support. The spring clamp in the handle holds like a clothes-pin and is easy to put up anywhere.

Complete with lamp bulb $2.95

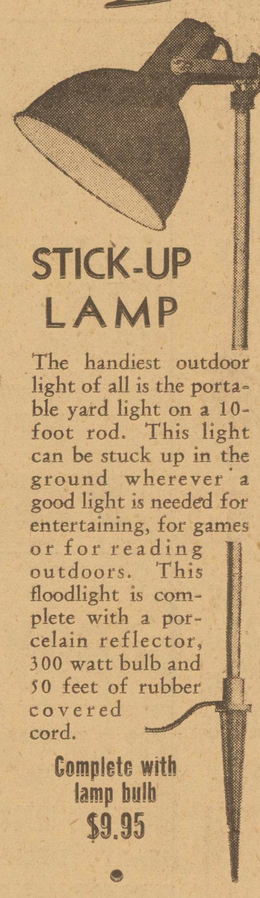

Porcelain Fixtures for Permanent Lights

For an inexpensive permanent outdoor flood light to be installed on the house or garage, select one of these porcelain reflector units, suitable for bulbs of 200 to 500 watts.

COMPLETE WITH
200 watt bulb . . . $4.15
500 watt bulb . . . $6.95

STICK-UP LAMP

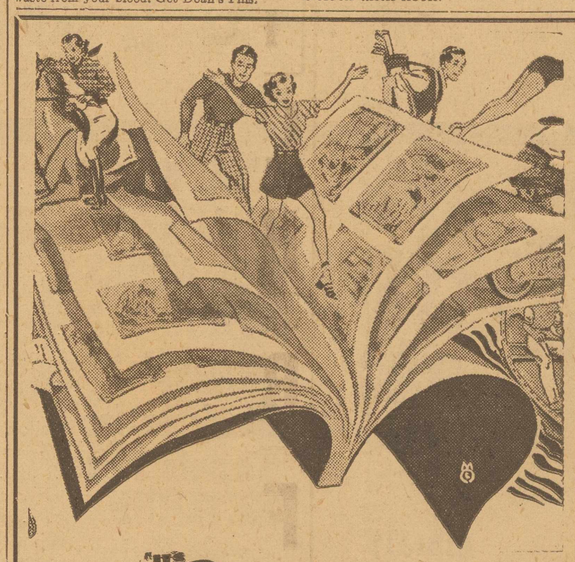

The handiest outdoor light of all is the portable yard light on a 10-foot rod. This light can be stuck up in the ground wherever a good light is needed for entertaining, for games or for reading outdoors. This floodlight is complete with a porcelain reflector, 300 watt bulb and 50 feet of rubber covered cord.

Complete with lamp bulb $9.95

Judge's Black Cap of Doom May Be Discarded in Britain

LONDON (U.P.)—Sir Samuel Hoare, ome Secretary, is to discuss with ritish judges the abolition of the ack cap, used when judges pass ntence of death and when the rd Mayor of London pays a cere- onal visit to the Law Courts.

The whole question of the sim- ification of the death sentence so is to be revived.

That was the assumption drawn om a statement made by Sir muel to the committee consider- g the criminal justice bill.

R. H. Turton, Conservative, had ggested that there might be two fferent convictions for murder. ne, in the first degree, would rry conviction of death. The her, in the second degree, would punishable with life imprison- ent.

"I do believe," Turton said, "that e time has come when the sen- nce should be simplified and that e judge's black cap should be olished."

"I will take an early opportunity discussing simplification, with e judges of whatever might be e appropriate form of discus- n," Sir Samuel Hoare promised.

A clause moved by G. Benson, bor, that the death penalty ould be suspended for five years s defeated, 16 to 7.

"The death penalty is far more ely to undermine the inherent spect for human life that pre- nts the normal man murdering an it is likely to foritfy the rces of law and order merely by tting the fear of God into the arts of the few who are likely to mmit murder," Benson said. "I convinced that if the death penalty went for five years it would never be re-introduced."

A new cause ot abolish flogging in the navy and to apply the clause abolishing penal servitude, hard labor, and prison divisions to army, navy and air force courts-martial was agreed to by the committee.

The origin of the black cap is obscure. Today it is regarded as part of the judge's state dress and is not—as is commonly supposed—a symbol of mourning for the convicted murderer.

It is believed that the inclusion of the black cap as part of a judge's dress originated in the 13th century when many were also ecclesiastics.

As churchmen they were forbidden to inflict the death sentence, and it is thought that the black cap was donned by them to cover the clerical tonsure so that it might be plain that they were acting in an exclusively civil capacity.

Class President Twice, Girl Never Elected

KENT, O. (U.P.) — Jeanne Hart, a sophomore at Kent State University, has the unusual record of being twice the president of her class yet never elected to the office.

Miss Hart was elected vice-president of her class this year and assumed the presidency when the incumbent was declared ineligible. Last year she was elected secretary and became president through a series of ineligibilities.

The Catskills represent the subtraction type of mountain. Thev are a remnant of a table land of level layers of red sandstone.

Softball League Leaders to Meet In Crucial Game

Championship of the first half of the Softball League will probably be settled tomorrow afternoon when the Shell and Independents teams meet.

The two teams, tied for the league leadership, will meet on the South Main street diamond at 5:30.

Each club has won six games with being seriously pressed by opposing teams. Scheduled to meet earlier in the season, the two teams were rained out and this will be their first time to tangle.

All softball fans of the city are urged to be on hand for the battle.

Easier'n Shooting Them in Bathtub

BRADY, Tex. (AP).—A fish story originating near Menard takes high place among the imponderables.

During a recent hailstorm heavy rains washed the stones into the San Saba river where fish swallowed them until chilled into numbness. In that condition their bodies floated at the surface making them easy prey for waiting fishermen. Three catfish, reported to weigh more than 40 pounds each, were taken unresistingly from the stream.

Half of University Grads Given Jobs

AUSTIN. — Employment at graduation is about a fifty-fifty proposition this year with the 200 graduates of the University of Texas College of Engineering, Dean W. R. Woolrich announced here today.

Those who have already pledged their sheepskins for a place on a pay roll this summer constitute these departmental percentages:

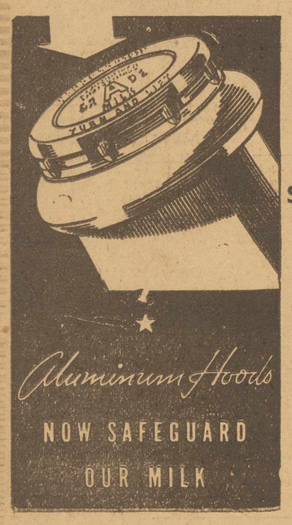

Architecture, 95-100; civil, 100; mechanical, 66; electrical, 45 with chemical and petroleum seniors finding a hard row in job finding.

Dean Woolrich explained that the graduates in chemistry and petroleum were absorbed primarily by the Texas oil corporations. The state of flux the petroleum industry is now in, he said, has made the demand uncertain, however.

He further pointed out that many of the graduates had not applied for jobs, that they will remain here for their master's degrees. Several have received graduate scholarships from other schools.

To Make a Long Tale Short

man comes into this world with nothing on him, but he can't live very long in this man's town before everyone has SOMETHING ON HIM. He grows up, marries one of his schoolday sweethearts, and before long he is tossing on sleepless beds at night wondering where the next alimony installment is coming from. Instead of tossing on sleepless beds, he should be taking a moonlight spin in one of our good used cars.

THESE WILL "SPIN" RIGHT ALONG:

1936 Chevrolet DeLuxe Sport Sedan; clean throughout, low mileage, one owner. Body finish, motor and tires excellent. This popular four-door sedan, with trunk, ideal for family car.

Down payment $135

1936 Ford 2-door, with trunk. Motor completely overhauled. Body attractive, see this one immediately.

Down payment $100

1936 Dodge Pick-up ½ ton. Motor reconditioned. Ideal for light haul or for farm use.

Down payment $100

1938 Chevrolet DeLuxe Town Sedan. A clean late model used car. Finish in genuine Duco, color gray. Knee action, hydraulic brakes, solid steel turret top, two-door type with trunk.

Down payment $185

Cowboys Rained Out In Game With Barons; Teams Play Tonight

Rained out in their scheduled game with the Big Spring Barons last night, the Midland Cowboys tonight will again journey to the Howard county capital to wind up a three-game series.

The two teams will meet here Friday, Saturday and Sunday nights and then the local club will take to the road again.

The game tonight will be the first under the management of Joe Piet, named temporary pilot to replace Jim Kerr. His choice of pitcher for tonight's game will probably be Bill "Windmill" Brown, who pitched a good game against Lubbock last week before he finally had to be taken from the game in the ninth inning when he devolped a blister on one of his fingers.

Meanwhile, there is nothing to report on the quest of the club for another manager. Officials admit they are attempting to land a catcher-manager but refuse to say just who they are attempting to land.

Ohio Tourneys Offer Golfers $8,500 Purses

CLEVELAND, O. (U.P.) — Ohio's top - ranking professional golfers will be shooting for the biggest pot of gold in the state's golfing history this summer.

Capt. Charles Clarke, secretary-treasurer of the state P. G. A., has announced that prixes totaling $8,500 will be the lure in the chief pro meets.

The $5,000 Inverness Open, one of the richest tournaments in the United States, is expected to be the greatest attraction. It will hold forth June 15 to 18 at Toledo Inverness.

The State Open tourney has had the purse boosted from $500 to $2,500 through the efforts of Dayton civic interests. The meet will be held at the Miami Valley Club, July 31, and Aug. 1, 2 and 3.

The tourney has been lengthened by one day. The program calls for pro-amateur matches the first day, 18 holes of medal play the next two days and 36 holes of medal play the final day.

The Poland, O., Open, carded for July 23, 24 and 25 offers $1,000 in prize money, doubling last year's stake. The Poland course is near Youngstown.

Allowances Urged For All Children

COLLEGE STATION.—When a child first asks about money, he should be given an allowance even though it may be only a few cents a week.

The child, when less than six years of age, can learn to spend wisely, to save, and to share. Dosca Hale, specialist in parent education and child development with the Texas A&M College Extension Service, says. Boxes or envelopes marked for these three purposes are useful. Allowances for small children should be given in pennies.

"Children should learn to save for a purpose, but if the parents always decided the purpose, it doesn't help the child much," Miss Hale commented. The same is true in regard to the things the child buys.

As the child grows older, the allowance may be increased, but as the child reaches school age, school items may be added, and by the time he is 16 he should select and pay for most of his clothes from allowance.

A child six years old may begin earning a little money, but Miss Hael points out that he should not be paid for every little thing he does any more than his mother is paid for cooking dinner or his father for mowing the lawn. Children may be paid for doing only those things for which someone else would otherwise be hired. Some feel that what the child earns should go into the common "pot" and that as he earns more his allowance should be increased.

"Some children who had no allowance when they were small do not care about taking over this responsibility later," the specialist said in discussing the values and standards of money as applied to children. "It is important that they learn gradually and by experience."

Italian Shoes of Fish-Skin

ANCONA, Italy (U.P.) — Patriotic Italian women soon will be wearing shoes made of fish-skin to save leather and help the campaign for national self-sufficiency. A range of these shoes, made from the skin of a certain large kind of fish, were a feature of the Fishery Fair held here.

Tennis Precaution Shattered.

LINDSAY, Cal. (U.P.) — High school authorities constructed a fine, new tennis court for the school. For weeks, the students, under pain of severe penalty were forbidden to set foot on it until the final surface had been applied. Then, just as this was all but completed, a cow wandered onto the court and left it looking like a case of smallpox.

Water is the chief constituent of all living things.

PAINT NOW! PAY LATER!

You don't need ready cash to repaint or repaper your home.
