Vocalists In Schools Get Top Ratings

Some 60 junior and senior high school vocalists from Snyder Public Schools earned first division ratings in University Interscholastic League solo and ensemble contests in Region I at Sweetwater over the weekend.

First division soloists from Snyder Senior High included Kay Pitner, Beth McCloskey, Carolyn Lane, Garry Sutton and John Rosson. First division ensembles from senior high included a male quartet composed of Robbie Wesson, Ronnie White, John Rosson and Ronnie Baker; a girls trio composed of Susan Sullenger, Brenda Featherston and Vee Ann Johnson; a girls trio composed of Penny Blythe, Fern Buchanan and Sharon Carter; and madrigal singers, including Beth McCloskey, Kay Pitner, Surry Gillum, Garry Sutton and Wayne Anderson.

First division soloists from Travis junior high included Robert White, Alvin Grant, Tommy Cox, Ross Gillum, Jane Merritt, Marilyn Walton, Terrie Cox, Donna Lester, Lou Ella Cox and Janie Proctor. Girls trios from Travis receiving honors were composed of Mina Emerson, Gayle Brown and Becky Austin; Lana McMillan, Jane Merritt and Debbie Stokes; Marilyn Walton, Karen Komma and Terrie Cox. Also rated first division was the Travis male quartet composed of Ross Gillum, Alvin Grant, Tommy Cox and Thomas McDorman.

First division soloists from Lamar Junior High were Anne Alexander, Connie Brown, Jean Craig, Arlie Eicke, Jim Gardner and Nancy Miller. Lamar students rating first division in ensemble competition included Anne Alexander, Ricky Arnold, Alan Babcock, Ellen Carroll, Arlie Eicke, Jim Gardner, Debbie Labenske, Nancy Miller, Jo Ann Smith and Dana Thompson.

'RING' OF FIRE OFF VIET NAM — A "ring" of fire is formed momentarily as the five-inch guns of the 7th Fleet destroyer Samuel J. Moore blast at Viet Cong supply and staging areas in Phuoc Tuy province in South Viet Nam. Air spotters reported excellent target coverage as the destroyer fired 202 rounds of high explosives in two missions in the III Corps area. (U.S. Navy Photo via AP Wirephoto)

Red Plot Foiled By Change In Indonesia

By JOHN CANTWELL

SINGAPORE (AP) — The army takeover in Indonesia reportedly foiled a plot by Foreign Minister Subandrio to attack the U.S. Embassy in Jakarta, sources in Singapore said today.

The sources said Subandrio had urged pro-Communist forces to launch the attack in retaliation for student raids last week on Chinese Communist officies in Jakarta.

The U.S. Embassy burned all its secret documents when it learned of the plans for goons supporting Subandrio to seize documents and burn the embassy, the sources said.

Subandrio, who is also first deputy premier, wanted such an attack to show Peking that he and his followers were still a vital force in Indonesia, the informants added.

Reports reaching Singapore said 20 of Subandrio's intelligence agents exchanged shots last Saturday with paratroopers and military police sent to arrest them. Two agents were shot, the reports said.

The agents were members of an internal spy network Subandrio used to keep watch on Indonesia's military and political organizations, the reports said. Arms and explosives were reportedly found in the office of the spy network.

The three-day-old government of army chief Lt. Gen. Suharto was believed holding Subandrio and President Sukarno under house arrest at Sukarno's Merdeka Palace in Jakarta, two Japanese newsmen in Jakarta reported.

Travelers from Indonesia said in Singapore that 16 Cabinet ministers had been arrested, along with a number of other leading politicians and agents of Subandrio's spy network.

Subandrio, whose removal had been demanded by student demonstrations, may go on trial before a special military tribunal that has been probing the attempted coup last October, the sources said. After the coup was crushed, Suharto led a bloody purge of the Communists, who were accused of masterminding the plot.

The travelers said Suharto seems to be firmly in control. They reported groups were dancing and singing in the streets of Jakarta celebrating the army takeover. Province chiefs and political organizations sent promises of support, they reported.

Suharto was expected to announce a new Cabinet within the next few days, replacing Sukarno's 99-man body which had contained pro-Communist members and officials deemed corrupt.

Gen. Abdul Haris Nasution was considered likely to get a high spot. Sukarno fired him last month as defense minister and armed forces chief in a move that touched off waves of student protests.

Sources in Singapore said there was now "very little doubt" that Sukarno had lost all power. He was expected to remain as a figurehead.

French Move Said Threat To Security

By ARTHUR L. GAVSHON

LONDON (AP)—Foreign Secretary Michael Stewart said today France's military withdrawal from the North Atlantic Alliance strikes at the entire allied defense system and threatens the security of the West.

President Charles de Gaulle plans to remove NATO military headquarters from French soil and withdraw French forces from NATO command.

Addressing a Chamber of Commerce luncheon in Glasgow, Scotland, Stewart was deeply critical of De Gaulle's policy.

"No member of NATO can afford to put national prestige ahead of that collective defense on which depends the safety and freedom of all the members of the alliance," he declared.

Stewart emphasized his belief that NATO will survive and warned that "no potential aggressor should imagine he can play on differences of opinion within NATO."

Smokes To Cost More

NEW YORK (AP)—The American Tobacco Co. announced today it was raising the price on all brands of its cigarettes, except one, effective immediately.

A company spokesman said the increase would amount to a penny a pack for the consumer although officially the price boost is figured in lots of 1,000 cigarettes.

The one exception, the company said, was Pall Mall filter cigarettes on which the price was reduced from $12 to $9.40 a thousand.

The company said it would have no statement on the reasons for the price changes.

Striking Teachers Return To Classes

PLAINVIEW, N.Y. (AP) — Striking teachers returned to their classrooms in the Plainview-Old Bethpage School District today while their union prepared for new talks with the District Board of Education.

Cotton Figures Reach 60,705

Scurry County's 1965 cotton crop finally reached a total of 60,705 bales, the Texas Employement Commission has calculated.

This represents an actual yield of slightly over one bale per acre. The county had a total cotton allotment of 66,000 acres, but only 59,000 actually was planted to cotton, according to Bill Estep of TEC.

The 1965 crop was one of the latest as well as the biggest and the harvest season did not get into full swing until late November and early December. A late first frost delayed the harvest considerably, but at the same time likely increased the yield by giving late bolls more time to mature.

Gins were in operation past March 1, with December, January and February included in the busiest season. Most county gins operated on 24-hour-per-day schedules during most of that three-month period.

Early fall estimates had pegged the county's total crop at around 40,000 bales, but these were pushed upward shortly after the harvest season began and observers had a chance to survey the turnout.

However, the 60,705-bale total reported by TEC exceeds even the most liberal late-season estimates. The TEC keeps records on ginning figures in connection with its farm labor services.

Castro May Snip Red China Ties

HAVANA (AP)—Prime Minister Fidel Castro said today Cuba is prepared for a break in diplomatic relations with Communist China, which he accused of "launching an imperialist-type campaign against Cuba."

He also denied rumors of growing internal opposition to his Communist government.

In an angry 4½-hour speech, Castro said Peking apparently was trying to provoke a bfeak in relations by carrying out a "new campaign of calumny" and continuing its "economic aggressions" against his country.

Castro said he was considering limiting the number of Chinese officials in Cuba as a result of a Chinese request to take out of the country trucks, cars and other large equipment belonging to Peking's representatives in Cuba.

The deterioration in relations between Havana and Peking became known Jan. 2 when Castro accused China of reneging on an agreement to supply Cuba with 250,000 tons of rice this year. Peking said he was lying.

"It is sad and humiliating," Castro said, "that in the midst of the battle that our people are waging against imperialism we have to, at the same time, distract our energies to reply to those whom we considered our sincere allies."

Castro spoke at Havana University ceremonies commemorating a 1957 student attempt to assassinate former President Fulgencio Batista.

Shooting Suspect Freed On Bond

BOGALUSA, La. (AP) — A white man charged in the shooting of a Negro Army captain was free in $10,000 bond today awaiting arraignment.

Police quote Thomas Bennett, 43, a Bogalusa sheet metal workers, as saying he shot Capt. Donald Ray Sims, 29, because Sims talked too long on a public telephone.

Bennett was booked Saturday on charged of attempted murder.

US Planes Hit Hard At Ashua Camp Area

By THOMAS A. REEDY

SAIGON, South Viet Nam (AP) — U.S. Air Force and Marine fighter-bombers roared over the ruins of the Ashau Special Forces camp today in the second day of air strikes against the North Vietnamese regiment that overran the isolated outpost on the Laotian border.

The jets ran into "the heaviest antiaircraft fire" ever experienced in South Viet Nam, but they destroyed one building, knocked out five mortar positions and apparently neutralized the Red air defenses around the camp, a U.S. spokesman said.

The U.S. Command did not report any losses of planes. In the desperate effort to save the camp with air support last week, six American aircraft were lost to the Communist gunners who set up 50-caliber machine guns in the jungled hills around Ashau.

The Viet Cong shot down a single-engine U.S. Army L19 spotter plane on a reconnaissance flight this morning 40 miles northeast of Saigon. The pilot was injured and rescued. His observer was killed.

U.S. pilots flew 42 missions against North Viet Nam Sunday, despite an overcast, the spokesman said. They ranged from the 17th Parallel frontier to Vinh, 150 miles up the coast, and to the area around Dien Bien Phu, in the northwest, striking a familiar list of roads, bridges and other communications targets.

The spokesman also said they destroyed a radar site 31 miles northwest of Cape Ron, midway between Vinh and the southern border.

The ground war continued at relatively low ebb, but the U.S. Command disclosed that the U.S. 173rd Airborne Brigade, the 1st Infantry Division and Australian troops had launched a new sweep, Operation Silver City, in the thick jungle 30 miles northeast of Saigon last Tuesday. It was kept quiet until the first contact with the Reds.

Shortly after noon today American paratroopers came across two Viet Cong bunkers. The Communists opened up with small-arms fire and exploded four shrapnel-scattering mines. The Allies replied with artillery fire which set off seven explosions.

The 1st Infantry found six trucks, a Chinese-made machine gun, 51 tons of rice, and 800 gallons of fuel in Communist base camps and bunkers while sweeping a flank.

Along the central coast, a Vietnamese army company sent scouts ahead to trigger a Viet Cong ambush on a supply convoy en route from Quang Ngai City to the village of Thach Tru, 20 miles south. Once the Reds opened fire, the government troops called in air, artillery and naval barrages on the ambushers, estimated at three companies, a government spokesman said. No report was given of casualties on either side.

WINDSHIELD WIPING IN SPACE — This is an artist's conception of how Maj. David R. Scott will clean the windshields of the Gemini 8 spaceship when he steps out of the craft, 175 miles above the earth. The 33-year-old Air Force major is scheduled to make the space stroll during the 14th orbit of the craft and after wiping the glass he will give the tissue to command pilot Neil Armstrong inside the cabin for safekeeping and return to earth for analysis. (AP Wirephoto)

Matters Of Money To Busy Solons

WASHINGTON (AP) — A $13.1-billion appropriation bill and a $6-billion tax measure may keep Congress busier than usual this week and fan the fires of controversy over foreign policy.

Both are emergency measures and by-products of the Viet Nam war.

The appropriation bill comes before the House Tuesday and is expected to pass by Wednesday. It has not been considered by the Senate.

The bill carries the exact amount of money requested by President Johnson to finance the increasing cost of military and economic programs in Viet Nam and other areas of Southeast Asia. It would raise to about $60 billion total defense appropriations voted for the current fiscal year ending June 30.

The tax bill already has passed both the House and the Senate, but in different forms. A compromise scheduled for passage by both branches Tuesday would raise an estimated $6 billion through fiscal 1967 and add about 300,000 persons 72 years old or older to the Social Security benefits rolls. The pensioners would be paid by funds from the Social Security trust fund until July 1, 1967.

The new revenue would come from restoration of recent cuts in excise taxes on automobiles and telephone calls and a revision of the withholding system designed to keep taxpayers current with their income tax liability and also speed payment of corporate taxes.

The administration requested the tax bill as an anti-inflation weapon.

Two other bils on the House docket this week are expected to stir controversy.

Gemini Flight Is Delayed

By JIM STROTHMAN
AP Aoerospace Writer

CAPE KENNEDY, Fla. (AP) — The rendezvous and space walk flight of the Gemini 8 astronauts was postponed today for 24 hours — until Wednesday —when leaks were discovered in an Atlas rocket and in a spacesuit circuit of the spacecraft.

The National Aeronautics and Space Administration reported the trouble was discovered during checks that were to precede the final countdown.

The astronauts, Neil A. Armstrong and David R. Scott, will use the extra time to further review their flight plan, the space agency reported.

They had been reported confident as the launch date neared for their historic trip.

The Atlas is to launch an Agena satellite into space as a target for the astronauts to chase and hitch on to.

The Atlas leak was discovered when liquid oxygen was found to have leaked into a helium sphere used to pressurize the fuel tanks.

The spacecraft leak was in a space suit circuit which is to separate moisture from recirculated cabin air during the three-day flight.

The space agency said technicians expected to have the problems solved in time for a Wednesday launching.

The launch times for the tricky space doubleheader will remain the same on Wednesday. The Atlas-Agenea is to blast off at 10 a.m. to propel the 26-foot-long Agena into a planned 185-mile-high orbit around the earth.

Farmers Slow In Signing Grain Plan

WASHINGTON (AP) — The Agriculture Department reports that farmers are slower signing up this year for the government's 1966 feed grain program.

During the first 18 days of the signup period this year, 663,291 farmers had agreed to divert feed grain land from productions in return for price supports and payments. In the like period last year 766,423 had signed up.

WEATHER

SNYDER TEMPERATURES: High Saturday, 68 degrees; low, 35 degrees; reading at 7 a.m. Sunday, 37 degrees. High Sunday, 70 degrees; low, 36 degrees; reading at 7 a.m. today, 40 degrees.

North Central Texas: Partly cloudy to cloudy and mild today and Tuesday. Low tonight 44 to 54. High Tuesday 66 to 76.

Northeast Texas: Partly cloudy to cloudy and mild today and Tuesday. Low tonight 50 to 58. High Tuesday 66 to 76.

Northwest Texas: Partly cloudy today and Tuesday. A little warmer tonight. Low tonight 40 to 50. High Tuesday 68 to 78.

Coast: Light and variable mostly northerly winds 5 to 15 knots today becoming east to southeast 8 to 18 knots Tuesday.

South Central Texas: Clear to partly cloudy and mild today, increasing cloudiness tonight and Tuesday. Warmer tonight. Lowest tonight 48 to 60. Highest Tuesday 70 to 82.

Southeast Texas: Partly cloudy today and Tuesday. A little warmer tonight and Tuesday. Lowest tonight 58 to 50. Highest Tuesday 68 to 78.

Southwest Texas: Increasing cloudiness today becoming cloudy to partly cloudy tonight and Tuesday. Chance of a few showers Tuesday. No important temperature changes. Lowest tonight 42 to 54. Highest Tuesday 70 to 80.

Extreme Southwest Texas: Considerable cloudiness today becoming clear to partly cloudy Tuesday. No important temperature changes. Lowest tonight 40 to 52. Highest Tuesday 68 to 82.

New Registration Rules Amplified

The Scurry County tax office on the first floor of the Courthouse will remain open until midnight Thursday so that qualified persons may register under the new voter registration law.

Don Adams, tax assessor-collector, said his office has received a letter from the state attorney general's office concerning the new law. State officials, feeling that the new law might be misunderstood, issued some statements designed to clear up any misunderstanding.

Included among the statements are:

"(1) Persons who were subject to paying the poll tax during the period which ended on Jan. 31, 1966 in order to be qualified to vote in the 1966 elections, but who did not pay the poll tax or obtain a 'poll tax not paid' (for voting in federal elections) should now register.

"(2) Persons holding a paid poll tax receipt, a receipt stamped poll tax not paid (for voting in federal elections) or those who have received an exemption certificate do not need to register and should not be allowed to do so.

"(3) Those persons over 60 years of age who live in cities of 10,000 or more inhabitants who did not get their exemption certificates before the deadline of January 31 should be allowed to register. This is at variance with the instructions previously issued by the Secretary of State after consultation with this office and overrules the said previous instructions. After additional study by this office it is concluded that this new construction of the new law is consistent with the intent of the Legislature which acted in accordance with the Federal Court decree which struck down the poll tax as a prereguisite to voting. These over-age-60 people could have likewise qualified by buying a poll tax and should now have the opportunity to register to the same extent as those persons in (a) above."

PRESIDENT WALKS WITH GOVERNORS — President Johnson walks on the White House grounds with members of the executive committee of the National Governors Conference. From left: former Gov. Farris Bryant of Florida, Gov. John Burns of Hawaii, Gov. John Volpe of Massachusetts, Johnson, Gov. John Reed of Maine, Gov. Paul Johnson of Mississippi and Gov. William Scranton of Pennsylvania. Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: I am the same lady who wrote to you some time back telling you my relationship with my husband was very one-sided. You said we should go see a marriage counselor. Well, I showed your reply to my husband and he said he was not going to any marriage counselor, that if I kept my big mouth shut we would get along just fine. How can a wife keep her mouth shut when her husband comes home from work with lipstick all over his shirt, and the smell of perfume so strong he could knock a person over? He tends bar nights, and I can't see how a bartender can get that close to women if he stays on his side of the bar, can you? I used to go sit at his bar to keep an eye on him, but they don't have television there and I hate to miss Johnny Carson. What else can you suggest besides seeing a marriage counselor?

ROMEO'S WIFE

DEAR WIFE: I think it's more important for you to watch your husband than it is to watch Johnny Carson. (You could tote a portable TV to the bar and do both!)

* * *

DEAR ABBY: This may not sound like a very big problem to you but it is big to me. I am 11 years old and my problem is my last name. The kid s at school are always rhyming it with something very rude and dirty. They think it is funny, but it isn't funny to me. Should I just keep quite, or should I try to think up some smart remarks to say back to them?

HATES MY NAME

DEAR HATES: If you're a girl, in due time some nice young man will come along and change it. So, until then, develop a "deaf" ear. If you're a boy, develop a good left hook.

* * *

DEAR ABBY: In your column I read: "Consider your mother. She is better off in a rest home than living with a daughter who doesn't want her." I would add, "And consider the daughter who knows better than her husband how she and her mother get along."

I am in a similar situation. My mother came to live with me 30 years ago. She is still here, but my husband is gone. After 25 years he had about as much of her as he could take. We are not divorced he still supports me (and my mother), but he won't live here. My mother is nearly 90, and she'll probably outlive me. My husband thought my mother would look after our children, help with the cooking and running the house. Well, she did. She also ran everything else in my house. When a mother lives with you, you can't "send her to bed" when you have company. And if you hint before guests arrive that she shouldn't monopolize the conversation, she puts on her "nobody-loves-me, I might as - well - be dead" face. For obvious reasons, this is—

UNSIGNED

* * *

CONFIDENTIAL TO "WISHING ON A STAR" IN ATLANTA: Don't expect him to call you. A man is not likely to run after a train he has already caught.

* * *

Problems? Write to Abby, Box 69700, Los Angeles, Cal. For a personal reply, inclose a stamped, self-addressed envelope.

* * *

Hate to write letters? Send $1 to Abby, Box 69700, Los Angeles, Cal., for Abby's booklet, "How to Write Letters for All Occasions."

Downturn Seen In Cattle Crop

WASHINGTON (AP) — The Agriculture Department says the nation's livestock industry is now in the midst of another cyclical downturn—the seventh since the 1880s—in the cattle production cycle.

The department said 1965 ended seven consecutive years of cattle buildup. Cattle numbers eased off last year from the record high of 107.6 million head reported at the end of 1964.

Since 1880, the number of cattle on farms has gone through six complete cycles that have varied in length from 10 to 16 years. Changes in the production pattern usually follow price changes.

Pilot's Big Concern To Keep Calm

By STAN ABBOTT
Anchorage Daily News

ANCHORAGE, Alaska (AP)—An Air Force pilot who was lost in the Alaska wilderness for 51 hours says he was confident of rescue while he waged a battle for survival in minus-45-degree weather.

Capt. Roy MacDonald, who bailed out of his F106 fighter-interceptor jet after a collision over central Alaska last Thursday, said his only concern was to keep calm.

"I was concerned about my safety in that weather," MacDonald said. "But I knew if I could last long enough I would be rescued."

The 32-year-old pilot of the 1st Fighter Wing at Selfridge, Mich., Air Force Base, described the hours before rescue by an Air Force helicopter after he arrived at Elmendorf Air Force Base.

"I landed a little off a ridge," he said. "There were trees about 100 yards down and I went into that area to make a camp."

He first spread out his orange and white parachute on the ridge so it could be seen from the air.

"I burrowed a place in the snow — to get out of the wind," he said. "I was comfortable, but cold."

Snow covered the ground and during his waiting period, MacDonald said there were continuous snow flurries. Temperatures dipped to 45 degrees below zero.

"I was very busy keeping warm during those two days," he said. "Time passed very quickly."

"I could hear and see helicopters and other planes many times but they didn't spot me."

MacDonald said he relied on the parachute survival pack for food, bedding, and his hope for rescue. When his radio signaling devices ceased to function a few hours after he was on the ground, he used flares in attempts to attract searching aircraft.

Saturday afternoon, one of MacDonald's flare signals and his parachute were spotted by a crewman aboard a C123.

The aircraft radioed a nearby helicopter, which reached him five minutes later, nine miles from the wreckage of his jet fighter. He was flown to Galena, an Air Force station, where a flight surgeon pronounced him in "beautiful shape."

MacDonald had been the subject of an intensive search over a 4,900-square-mile area by 22 military and civilian aircraft after his plane collided with a T33 jet trainer. The pilot of the trainer Maj. Vincent Hooper of Tyrone, Pa., landed his plane safely at Galena—approximately 100 miles northwest of where MacDonald was picked up.

MacDonald's wife and two children reside at Mt. Clemens, Mich., near Selfridge Air Force Base.

MacDonald is on temporary duty in Alaska.

San Antonio Holds Pair

SAN ANTONIO, Tex. (AP)—Joseph Raymond Green and Harvey Wesley Green of Atlanta, Ga., were held in Bexar County jail under $100,000 bonds today on charges of robbery of an Atalnta bank.

They were taken into custody Sunday 45 miles west of here on a highway leading to Mexico and were given a hearing before a U. S. commissioner.

Texas highway Patrolman Harold E. Becker, stationed at Hondo, caught the men as they drove separate cars. He curbed the first car and stopped the second after a 10-mile chase.

The brothers face charges of robbing the Moreland-Custer branch of the National Bank of Georgia of $15,544. A bank camera filmed the holdup.

Sheriff Charles Hitzfelder of Medina County said a large amount of money was found in the car trunks, along with a revolver and several pistols.

The FBI here said the men waived further hearings and will be returned to Georgia within 10 days.

In one second, the sun radiates more energy than man has used since the beginning of civilization.

Three Hurt In Mishaps

Two persons were injured, one seriously, when three cars were involved in a collision at Avenue C and Thirty-fifth Street about 1:30 p.m. Saturday.

Taken to Cogdell Memorial Hospital were B. B. Harding, Box 53, Fluvanna, and Overt Russell Armstead, 200 Thirty-fifth Street.

Hospital authorities today described Armstead's condition as apparently good. He sustained a laceration on the chin, but was admitted to the hospital for several days for observation.

Harding was treated for factures of both wrists and possible rib injuries. He was transferred to Hendrick Memorial Hospital in Abilene.

Damage to the Harding car, a 1966 Model Rambler, was estimated at $1,000, and damage to the other car, a 1951 Model Oldsmobile, was set at $250.

City Police also investigated a pedestrian-car accident which occurred at 12:14 p.m. Saturday. The pedestrian, a youth, was identified as William Burdick, 2233 Sunset. He was treated for a laceration on the forehead and released. Driver of the vehicle, a 1964 Model Chevrolet, was Billie M. Walker, 2317 Sunset.

Firemen Called Out

City Firemen answered calls to two minor blazes over the weekend.

They extinguished a fire in a Dempster Dumpster at Clark Lumber Co. at 3:40 p.m. Sunday after putting out a grass fire in the 4200 block of Irving at 4:45 p.m. Saturday.

S. Viets Execute War Profiteer

By GEORGE ESPER

SAIGON, South Viet Nam (AP)—South Viet Nam's military government executed a war profiteer today and sentenced a former official to death for embezzling $104,000 in public funds.

Ta Vinh, 34, a wealthy businessman of Chinese descent, was tied at dawn to an execution stake in the Saigon marketplace while a battalion of Vietnamese paratroopers sealed the area to prevent any interference from the city's large Chinese population.

Later in the day, Premier Nguyen Cao Ky's special anti-corruption tribunal pronounced the death sentence on Dang Cao Sach, 52, former treasury service chief in the mountain resort of Dalat, 150 miles northeast of Saigon, for embezzlement going back to 1956 to cover gambling debts and extravagant living. Sach, father of six, pleaded guilty and asked for leniency.

Ky, who attended the opening session of Vinh's trial, has promised to wage an unrelenting war against widespread graft and price manipulation that has contributed to the country's inflation.

Vinh, a father of eight, was convicted of "economic sabotage." The charges against the import-export firm manager included hoarding, speculation, illegal transfer of funds and bribery. The government rejected appeals for clemency.

Airmen Accidentally Electrocuted Sunday

TOPEKA, Kan. (AP)—Two airmen stationed at Forbes Air Force Base were electrocuted accidentally Sunday evening while mounting a television antenna on a pole at a trailer camp near the base.

They were A.2C. Emery R. Yarber, a native of Hillsboro, Tex., and A.3c. Wayne Michael. Yarber, his wife and their daughter lived at the camp and Michael was helping erect the antenna for their mobile home.

The antenna touched a 14,400-volt power line.

WOMEN PAST 21 WITH BLADDER IRRITATION
After 21, common Kidney or Bladder Irritations affect twice as many women as men and may make you tense and nervous from too frequent, burning or itching urination both day and night. Secondarily, you may lose sleep and suffer from Headaches, Backaches and feel old, tired, depressed. In such irritation, CYSTEX usually brings fast, relaxing comfort by curbing irritating germs in strong, acid urine and by analgesic pain relief. Get CYSTEX at druggists. Feel better fast.

Services Are Set Today For Mrs. Pope

Funeral services were to be held this afternoon at Guthrie, Okla., for Mrs. Anna Pope.

Mrs. Pope, mother of Dillard Pope, business manager and advertising director of The Snyder Daily News, died Saturday afternoon at Midway City, Okla. She had suffered a heart attack several days ago.

Funeral arrangements and burial were in charge of Smith Funeral Home in Guthrie.

BIRTHS

Mr. and Mrs. Royce Staton, Fluvanna, are the parents of a 6 lb. 8½ oz. baby boy, born at 10:21 p.m. March 13th.

the price says NOW famous Carrier air conditioning
as little as $568.00 installed*
LOOK WHAT YOU GET!
• A written guarantee of temperature and humidity conditions to be maintained in your home
• A $5,000.00 bond certifying capacity as represented or replacement up to that amount
• A full year's warranty on all parts, backed by the nation's largest parts depot, located in Dallas. Plus four additional years on Carrier's exclusive Micromite Compressor . . . a component with an industry record for trouble-free operation!
• Authorized dealers' labor and material warranty for the full cooling season
*The price quoted as an example is based on a typical 1200 square foot home installation where adequate central heating and electrical facilities exist. While each job differs, this low price is typical of Carrier installations.
Included in the price: Carrier Weathermaker Air Conditioner/ 38GA 002 condensing unit with 28 BA 002 cooling coil and casing/ 25,000 BTU ARI Certified Capacity/ expansion device/ 18' of insulated refrigerant piping combination thermostat
PLUS BONUS GIVE-AWAY ZENITH 12" PERSONAL PORTABLE TV
Model N-1250L
$99.95 Retail Value
To home owners only, with every Carrier residential system purchased before March 31, 1966 from authorized Carrier dealers. Does not apply to commercial buyers or builders.
Before the hot weather rush, we can schedule work at your convenience . . . you avoid possible delay during peak season. To keep our crews busy, we'll figure your job with an extra sharp pencil . . . give you special terms with no money down . . . up to 5 years to pay

Tops Club Plans For Convention

The Snyder Toperettes met at Stanfield cafeteria Tuesday night for their weekly meeting, with leader Ethel York presiding.

The Tops pledge was given by members and minutes were read by the secretary. The treasury report was given by Ruth Hardin followed by a financial report on the travel fund.

A special party was enjoyed by the members and was an enormous success. The funds derived from the party were added to the travel fund to help pay expenses to the Galveston Convention in April.

Patsy Sitton received the gift for the biggest weight loss for the week. Members welcomed Faye Curtis as a new member. Two visitors, Eunice Keller and Ruth Graham, and 30 members were present.

The Tops Club would like to extend an invitation to anyone interested in joining the club to call the leader, Ethel York at HI 3-3225.

CHOCOLATE SYRUP: Combination of chocolate or cocoa flavoring, sugar, water, salt, and sometimes other flavorings such as vanilla.

CHOCOLATE SAUCE: Usually composed of the same ingredients as chocolate syrup, plus milk, cream, and-or butter.

WOMEN'S CALENDAR

MONDAY

Stanfield P-TA meets at 7:30 p.m. Musical program by sixth grade. Panel discussion on "Four phases of Child Growth and Development".

Snyder Palette Club all day instructions by Mrs. E. E. Shaw at Union community center.

West Elementary P-TA meets at 7:30 p.m. Art program by Dr. Lockhart of Lubbock, Sitters for all age children.

Rebekah Lodge meets at IOOF Hall at 7:30 p.m.

Rainbow Girls stated meeting 7:30 p.m. at Masonic hall.

TUESDAY

Beta Sigma Phi, 7:30 p.m., with Ann Yielding hostess.

Art Guild Study Club, Martha Ann Woman's Club with Verba Williamson, hostess.

Twentieth Century Club meets at 3 p.m. with Reva Hicks, 1812 Thirtieth Street.

Snyder School Food Service Association meets at 2:45 p.m. at North Elementary for election of officers.

Snyder Early Tops 9 a.m. at 2403 Twenty - fifth Street.

Toperettes meet at Stanfield cafeteria.

Family night at Country Club. Regular activities at 8 p.m.

THURSDAY

Mesquite District Convention at Martha Ann Woman's Club.

Gamma Upsilon Chapter of ESA, 7:30 p.m. Norma Book hostess.

Scurry County Legal Secretaries meet in district courtroom with Eunice Weathersbee hostess. Mr. George Killam, guest speaker.

AAUW 7 p.m. with Carolyn Reon, Virginia Whitson and Linda Salley, hostesses.

Eastern Stars meet at 7:30 p.m. Hostesses Lorene Crooks, Ruby Boren, Empress Bowers, Frances Suttle Opal Denson and Libby K. Grimmett.

Ira P-TA executive committee meet 2:30 p.m., regular meeting at 3:30 p.m in study hall.

FRIDAY

Friday duplicate bridge at Country Club, 9:30 a.m. Open Masterpoint day.

Texas Composer Program Topic

The Music Coterie met at the Woman's Club Thursday evening in eager anticipation to hear a program based on the musicians of Texas, especially that of the noted Texas composer, arranger, and pianist, Julia Smith. Miss Smith accompanied herself during her tour of concerts in 1964-65, which culminated in a performance at Carnegie Hall.

The background for the Hymn of the Month, "Fairest Lord Jesus," was given by Mrs. John Sentell. Mrs. Ben Brock led the group in the singing of the hymn as Mrs. R. L. Gray accompanied. This was followed by a most educational "History of Music in Texas," which was given by Mrs. Sonne Umberson. Piano duos, "American Dance Suite," by Julia Smith, and "Italian Street Song," by Victor Herbert were enjoyed by the group. At the two pianos were the able pianists, Mrs. Wayne Bethel and Mrs. Helen Rodgers.

Hostess for the March meeting of the Music Coterie were Mrs. Robert Clinton, Mrs. Jim Mathis, and Mrs. Wayne Tyrone.

BITTER CHOCOLATE: Also called "unsweetened," "baking," or "cooking" chocolate. Chocolate liquor, cooled and molded (usually in blocks.) Packaged in half-pounds and marked off into squares.

A Report on 1965—And a Look Ahead:

El Paso Natural Gas Company is on the move–with record sales and earnings in 1965

Profits and revenues of El Paso Natural Gas Company were at all-time highs in 1965. Gas sales reached a record volume of 1.44 trillion cubic feet during the year, and earnings from diversified activities outside the interstate pipeline business showed a marked increase.

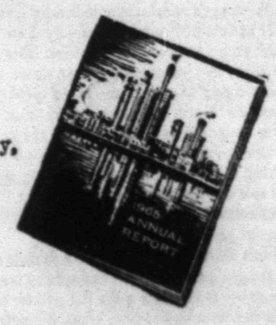

More important: We expect continued improvement in 1966.

Today, El Paso Natural has a proposal before the Federal Power Commission to increase substantially our deliveries to southern California. These additional low-cost supplies will be made available, if the project is approved by the FPC, for smog-control or any other purposes regulatory authorities find to be in the public interest.

Our diversification program is also moving ahead—in fertilizers, synthetic fibres, plastics and other petrochemicals.

El Paso Natural's Annual Report describes the company's accomplishments during 1965 **and some of our plans for the future, including service to markets that are growing 2½** times as fast as the rest of the nation. We'd like to send you a copy.

For a copy of the 1965 Annual Report, write: El Paso Natural Gas Company, El Paso, Texas 79999.

WE MUST BE DOING SOMETHING RIGHT!

Officials Eye New Taxes Should Economy Overheat

By JOSEPH R. COYNE

WASHINGTON (AP) — If the Johnson administration decides additional tax revenue is needed to stem any inflationary trend, it is likely to propose a package of corporate and personal income tax boosts rather than any selective rise.

The administration has made no hard and fast decisions on specific taxes that might be proposed.

But Treasury officials are now looking into possible action which might be taken if — and it's a big if — the administration feels a tax boost might be necessary.

President Johnson has said Congress and the administration should be ready to act quickly if a tax boost is needed to reduce purchasing power and take some steam out of an overheating economy.

Neutrality is the key to Treasury Department thinking on tax policy at this point. This means that if any quick adjustment in taxes is needed, the existing tax structure should remain unchanged. In other words, the tax burden shouldn't be shifted from one group of taxpayers to another.

Any shift in tax burdens, Treasury tax experts feel, is a complex problem with deep-seated feelings usually accompanied by lengthy congressional attention and public debate.

There won't be time for lengthy debate if a tax increase is to be used as an anti-inflationary tool.

A Senate-House economic subcommittee will soon look into possible ways to raise taxes if they have to be boosted to fight inflation. President Johnson and the Treasury welcome the hearing.

In line with the Treasury's neutrality thinking, any tax increase plan probably would be designed to raise the tax burdens of individuals and corporations a proportionately equal amount — depending on how much purchasing power the administration wanted to remove from the economy.

One possibility would be a 1 per cent boost in individual rates — from 14 to 15 per cent in the lowest bracket, for example — and a 2 per cent increase in corporate rates — from 48 to 50 per cent.

This could yield about $4 billion a year.

The Treasury reportedly is leaning against a suspension in the 7 per cent investment credit for business as part of any package but there has been pressure for it, the latest an unsuccessful attempt by Sen. Albert Gore, D-Tenn., to make it a part of the administration tax measure expected to receive final congressional approval this week.

That measure would suspend reductions in car and telephone excise taxes which went into effect Jan. 1 and speed up collections of individual and corporate taxes, oringing in an estimated $6 billion over the next two years. The administration wants to see what effect this has on the economy before taking any further action.

Suspension of the investment credit would hit inflationary pressures where they are strong — in spending for plant and equipment. But it also might weaken the administration's ties with business.

An excess-profits tax—which was used during World War II and the Korean conflict — is not in the Treasury's thinking this time. It is too hard to administer and contains too many exemptions, some tax experts feel. It is also generally considered a wartime measure.

Parents Of Quads Count Blessings

By GODFREY ANDERSON

LIMERICK, Ireland (AP)—"I don't budget at all. I just manage. And things are not too bad at all."

Eileen O'Connell, 38, mother of Ireland's first surviving quads in living memory, was explaining how she kept a household of 13 on roughly 10 pounds—$28—a week.

Mrs. O'Connell lives with her husband, James O'Connell, 40, a laborer, at Marian Terrace, Pallasgreen, 16 miles outside Limerick.

As you enter the door of their single-story house you are confronted by a colored pastel picture of Jesus and the gold-lettered words "God Bless Our Home."

The O'Connells count as blessings a family of 11, including the quads. Elizabeth, 16, helps her mother run the home. Patrick and William, the twins, are 15. Then there are Matthew, 14; Thomas, 10; Pascal, 6; Bridget, 4—and the quads, two boys and two girls who celebrated their first birthday Jan. 23. They are Gerard Michael, Paul John, Catherine May and Margaret Ann.

The quads were born prematurely in the regional maternity hospital at Limerick.

"Nobody took much notice of us," she says. "Except for the local people and they were very good. They had a collection and raised about $420. We've put that aside for the children."

Mrs. O'Connell is helped by Elizabeth and by the district nurse, Anna Ryan, who drops in three times a day. But nurse Ryan stops her visits soon and then Mrs. O'Connell is on her own.

James O'Connell earns $24 a week when he's working.

The twins—William works in the village garage and Patrick at the post office—give Mrs. O'Connell about $3 a week from their earnings. The other children still are at school.

Mrs. O'Connell says she gets $47.60 monthly in state and family allowances.

The County Council-owned house, for which rental is $5.60 a month, was enlarged at council expense to make a home for the quads. Two more rooms and a small second kitchen were added, providing five rooms for the family of 13. At the same time, hot water was provided—a rare luxury in the west of Ireland—and electric radiators, which O'Connell says they can't realy afford to run.

A commercial firm keeps the quads supplied with baby food, but Mrs. O'Connell considers the best present of all was the first she had—another firm's present of a washing machine.

The quads' mother starts her day about 6:30 a.m. First there are the babies. Matthew, Thomas and Pascal must he got off to school by 8:30. Then it's time to get the twins away to their jobs in the village. She's seldom through before 9 p.m.

Mrs. O'Connell doesn't complain and says she manages very well, but Alderman Steve Coughlan of Limerick is seeking special state aid in the Dublin Dail for cases of multiple birth. The government promised to consider the matter. That was nearly a year ago. Nothing has since been heard.

A Junior Editors Quiz About SPEEDOMETER

QUESTION: How can a speedometer tell the exact speed a car is moving?

• • •

ANSWER: A car's speedometer measures both distance and time. It has a dial or face with numbers, usually 1 to 100. These refer to miles. A hand points to one of the numbers. This shows the speed of the car, giving the number of miles the car would travel in one hour, if it kept on moving at exactly the same speed. In our picture, the distance from the black dot outside Surburbia to the one outside Smart City is supposed to be 40 miles. If the car, driving steadily, takes an hour to go this distance, its speed is 40 miles an hour.

By watching his speedometer, a driver can tell if he is exceeding the limit for safe driving, shown by signs along the road. If he does so, he can expect to hear the siren of a police officer, which can mean a ticket, a fine or perhaps a loss of license.

Speedometers work by a core inside a flexible shaft which is connected with the car's transmission and spins a magnet around. This makes a magnetic field which pulls the pointer across the dial, but its pull is resisted by a hair spring. When the pull of the spring balances that of the magnet, the pointer comes to rest and shows the speed. At higher speeds, the magnet pulls more, at lower speeds, less. At each change, the pointer comes to rest at a new dial position.

• • •

FOR YOU TO DO: Later on, you will probably be driving yourself. As you ride with your family now, watch the road signs and note your local speed limits. Most accidents happen because drivers exceed them. 3-14

(Daniel Chunko of Washington, Pa., wins today's combined prize of Compton's Illustrated Science Dictionary plus $10 cash for this question. Mail yours on a postcard to Junior Editors in care of this newspaper.)

Tiger Nine Splits Two At San Angelo

The Snyder Tigers split a twinbill at San Angelo Saturday, winning the opener, 5-4, and then losing the nightcap, 6-1. Both nines now sport 3-3 marks.

Trailing 4-2 going into the 6th, right fielder Dink Foree and first baseman Bob Ray opened with back-to-back singles. Pitcher Roy Hunter loaded the sacks on an infield single after Terry Holt went down swinging. Mack Galyean popped to second for the second out then left fielder Lloyd Potts walked and received credit for an rbi.

Centerfielder David Cadena, up next, smashed a fly to left which the outfielder misjudged, resulting in a 2-run error. Thus the Bengals had their 5-4 victory margin.

San Angelo jumped out to a 3-0 lead in the first on two walks and a double by first baseman Keyes. Snyder cut the margin to 3-2 in its half of the frame as Cadena doubled in Potts and then scampered home himself on a two-baser by Roy Kizer.

The Bobcats collected their 4th run in the third on two singles, a free pass, and an error. Roy Hunter went the route, allowing only six hits. Dyer, who also allowed only six hits, was tagged with the loss.

San Angelo 031 020 x—6

Snyder's only run in the finale came in the 1st as Kizer sacrificed Galyean in from third. The little secondbaseman had walked and moved to third on a single by Cadena. Kizer and Terry and David Holt rapped the only other hits for the Tigers in the second tilt.

San Angelo sacked it up with three runs in the 2nd, one in the 3rd and two more in the 6th. Free passes and extra-base hits by right fielder Cuellar in the 2nd and 3rd innings and by third sacker Bowlin in the 6th accounted for the Bobcat tallies.

King hurled superb ball for the Class AAAA club. McMillan, who was charged with the loss, gave way to Stokes in the 5th.

AFTERNOON HIGH BALL — San Francisco's Erwin Mueller goes way up to catch a rebound and Penn State's Paul Mickey (55) is caught with outstretched hands in first quarter of their National Invitational Tournament basketball game at New York. Afternoon game was won by San Francisco, 89-77. (AP Wirephoto)

Dark Has Bright Hopes For KC 9

By JACK HAND
Associated Press Sports Writer

BRADENTON, Fla. (AP)—If Alvin Dark can get the Kansas City A's out of last place, he will deserve the Manager of the Year award.

Dark is moving into a strange, new world in the American League after spending his entire career, playing, managing and coaching in the National League. He doesn't know the players. They don't know him.

This is a club that finished last on merit in both 1964 and 1965. Dark is the fourth manager in the last three years. Statisticians have lost count of the number of players who have come and gone in the same period.

Dark is walking in with his chin up and his eyes on the stars. With a two-year contract in his pocket he hopes to build for the future.

"I have enjoyed the first few weeks of spring training as much as any in my life," said Dark in his little office at McKechnie Field. "This is a club made up of young men between 20 and 28. They are at a time of their career when they can go one way or another. I am glad to be a part of it. I like to teach and work with young fellows."

Last season Dark coached the Chicago Cubs until Charlie Finley, owner of the A's, unexpectedly hired him as an administrative assistant. He took over as manager in December after Haywood Sullivan left the A's to become personnel director at Boston.

"I don't consider this a challenge," said Dark bravely. "Our big problem is scoring runs, especially scoring a guy from first base. We are going to run a lot. I think we have good pitching depth with four who have proven they can pitch.

"All I am going to do down here is play my shortstop and second-base combination. They have to work together and learn how to make the double play. Bert Campaneris will be the shortstop and Dick Green at second. We'll have Ken Harrelson at first and Jose Tartabull in center field. Outside of that we may platoon."

Eddie Charles, the regular third baseman, has a sore shoulder but expects to be ready by March 20. Dark plans to platoon him with Wayne Causey and probably will keep Ernie Fazio, former $85,000 bonus boy at Houston, as a utility man.

Manny Jimenez, back from Vancouver, and Tom Reynolds will share left and 23-year-old Harry Stone and Larry Stahl, two rookies, will work in right while Mike Hershberger recuperates from an off-season elbow operation.

Bill Bryan and Phil Roof, who split 1965 between California and Cleveland, probably will divide the catching.

"I am going to get Jim Hunter and Fred Talbot ready to open the season," said Dark.

"We want to look at Roland Sheldon and John O'Donoghue but I want to see a lot of four fellows — Lew Krausse, Aurelio Monteagudo, Diego Segui and Paul Lindblad, a young lefty who won 12 for Vancouver. Ron Tompkins, a sidewheeler, is also going to get a good look."

Free, Easy Style Works

MIAMI, Fla. (AP) — Phil Rodgers started playing it loose and easy, and rediscovered the combination to golf's big cash.

"In seven tournaments during the past year I led at some stage in the last round," the pudgy pro from La Jolla, Calif., said today as he moved from the $20,000 first prize in the Doral Open here to a shot at the $100,000 Citrus Open at Orlando.

"I was getting to feel that I was jinxed or something. Then I decided to change my swing. I loosened up on it. I began hitting the ball 15 yards farther. Things started going better."

Rodgers, 27, a wise-cracking Yogi Berra of the fairways, ended a three-year slump Sunday when he beat out a pair of stubborn outsiders, Kermit Zarley of Yakima, Wash., and Jay Dolan of Leicester, Mass., for his first tournament triumph since 1963.

The clinching shot was a 40-foot birdie putt on the 71st hole. Zarley bogeyed the hole from a trap and missed an eight-foot birdie putt on the final hole that would have given him a tie.

Former Grid Great Dies

BALTIMORE (AP) — Funeral services will be held here Tuesday for Keith Molesworth, former National Football League quarterback and major league baseball infielder.

Molesworth died of a heart attack Saturday at the age of 60.

At the time of his death, Molesworth was player personnel director for the Baltimore Colts of the NFL and was credited with spotting much of the yount talent developed by the Colts.

A 12-letter man at Monmouth College of Illinois, he weighed only 156 pounds in 1931 when he reported to Coach George Halas of the Chicago Bears.

Track Team Makes Good Showing

Despite fierce competition, the Snyder High School track team scored six points at the rugged Border Relays in Laredo this past weekend.

M. C. Powell set a new school record and earned a first place trophy with a leap of 23 feet, 3½ inches in the broad jump. The effort was good for five points. Snyder's other point came on a 5th place in the pole vault by Jackie Rice. He placed in the event by soaring over 12 feet.

Other boys who qualified for the finals were Ronnie Hardwicke, Steve McMahan and Curtis Clay. Hardwicke reeled off a 10 flat in the century during the prelims. McMahan qualified for the high jump and high hurdles finals, and Clay drew credentials into the finals of the 220 yeard dash.

This Saturday, the team will be at Levelland for a Meet involving eight Class AAA teams.

Coaches Jim (Dutch) Stehley and V. V. Shearburne accompanied the boys to Laredo.

Junior Net Teams Shine

The Snyder Junior tennis teams won several first places at a tournament in Abilene this weekend.

The 7th grade team in the A division made a clean sweep of it with Max Falls winning 1-6, 9-7 and 6-1 over Mark Stover of San Angelo. The B division crown went to David Hale of Wichita Falls, who won, 6-4 7-5, over Snyder's Bill Branson.

Falls and Branson teamed up to win the doubles over another Snyder team—Gray Gallman and Tommy Faver—that also reached the finals. The score was 6-3 and 6-4.

John Phillips won the singles championship in the 8th grade division with a 6-0 6-1 match over Bill Hayes of Abilene in the first round and a 6-3 6-4 victory over teammate Ronnie Maddox in the finals. Maddox reached the finals with a 7-5 6-1 verdict over Clyde's Craig Pruitt.

Maddox and Phillips teamed up to top Hays and Joe Fenton of Abilene, 6-0 6-2, for the doubles title.

In the 9th grade division, Tony Scott lost 6-0 6-0 to Stanley Allen of Clyde. Jimmy Spence beat Swindell of Lincoln, 6-2 and 6-0, then lost to Randy Huff of Wichita Falls, 6-0 6-1.

Big Spring Trips Girls

Big Spring beat the Snyder High School volleyball team 15-11 and 15-9 in the opening round of the tournament at Howard County Junior College this past weekend.

Susan Ivison was high scorer for Coach Janet Wesson's girls with nine points. Shirley Dickey duplicated the feat in the local girls, 11-15, and 16-18 loss to Pampa in a Consolation battle.

Phillips won the tournament, and Abilene was runnerup.

Snyder's girls will go to Lamesa Tuesday for two tilts, beginning at 6:30 p.m.

Net Team Foes Tough

The Snyder High School tennis team had plenty of competition at Odessa Saturday when it engaged some of the top teams from the West Texas area.

Mickey Almond was outstanding in the Class B division matches. He defeated Robin Donnelly of Midland Lee, 6 - 3 and 6-3. In his second match, he bested Ross Burns of Andrews, 6-1 and 6-1. In the finals, he lost, to Jimmy Cowden of Midland, 6-2 and 6-3.

Jack Spear of Kermit defeated Wayne Anderson 6-1, 6-1.

In the doubles, Sandy Wellborn and Jerry Bell defeated Adams and Dean of Kermit, 6-0 and 6-1 before losing to Ivey and Pankey of Pecos, 6-4 4-6 and 6-3.

Emily Kincaid beat Pat Callison of Abilene, 7-5 and 6-0 before losing, 6-1 and 6-1 to Beryle Andrews of El Paso High. Pam Cumbie dropped a 6-1 6-1 match to Jan Watson of Abilene.

In the A division, Gordon Stokes lost his singles match, 6-0 and 6-1, to Bill Turney of Midland Lee, and Gary Sanders lost, 6-2 and 6-2, to Ronnie Earley of Crane.

Ponies Still In The Swim

AUSTIN, Tex. (AP)—Opponents could see a glimmer of hope today as they reviewed the Southwest Conference swimming meet and found that Southern Methodist might be slipping.

You see, SMU could only roll up 213 points—just 3½ more than last year although there was one more event.

Also, the Mustangs didn't win as many first places as last year.

But maybe SMU was a little overconfident since it was winning its 10th straight championship.

Anyway, the Mustangs won nine of 16 races and sent a record in each, and also took the 3-meter diving. Last year SMU was first in 14 of 15 events.

Texas won six first places and produced five records. Texas Tech won the other swimming event and the 1-meter diving.

The only record left standing was in the 100-yard butterfly. George Spear of Texas set it at 52.5 in 1963.

Tim Birnie of Southern Methodist and Stave Boss of Texas were double winners.

Texas got 134 points, Texas Tech 78, Texas A&M 21, Rice 12 and Texas Christian 6.

Rayon, made chiefly from wood, was first manufactured commercially about 60 years ago.

TWC Eyes NCAA Title

LUBBOCK, Tex. (AP) — Texas Western's embattled Miners, old hands at winning close games, set their sights on the NCAA basketball championship this weekend.

If they should win it, they would become the first Texas team to do so. Actually, Texas Western looks to be in the same position as the only previous Texas team to ever reach the NCAA finals — Baylor.

It was 1948 when Baylor advanced to the finals and lost to Kentucky 58-42.

Now here's Texas Western going to College Park, Md., to meet Utah in the opening round of the national semifinals Friday night.

If the Miners get past Utah they will then meet the winner of the Kentucky-Duke game Saturday night in the final.

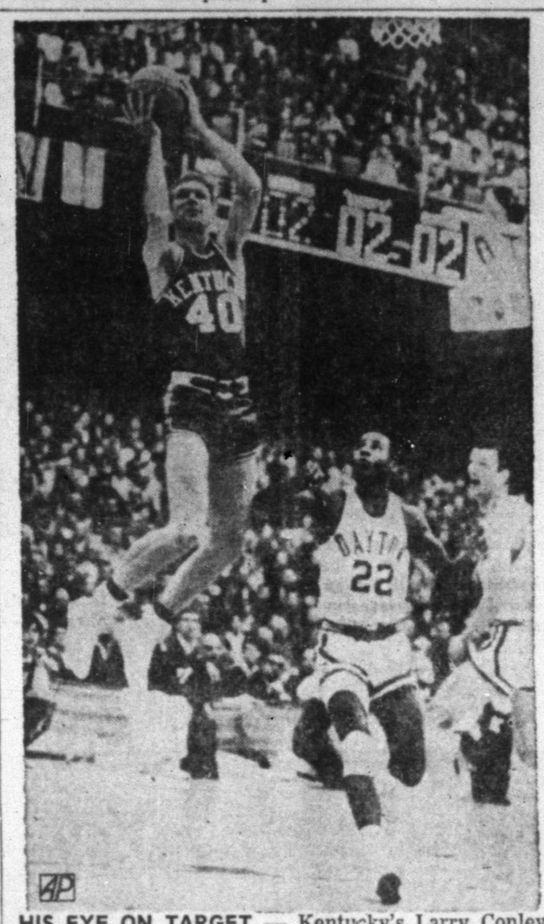

That might mean Texas Western will play Kentucky for the championship — the same thing Baylor did 18 years ago.

Anyway, Texas Western hopes it comes about and it also hopes that if it does, the result will be slightly different.

Texas Western advanced to the national tournament Saturday night when the Miners beat Kansas 81-80 in double overtime. Friday night Texas Western had beaten Cincinnati 78-76 in a single overtime.

Coach Don Haskins of the Miners said he was sick of overtimes, although they have permitted him to compile a great 26-1 record. The Miners have had four overtime games, have won five games by two-point margins and one by a single point.

In the Mid-west regional, where Texas Western qualified for the nationals, Southern Methodist lost in the first round to Kansas 76-70. Then SMU beat Cincinnati 89-84 for third place.

HIS EYE ON TARGET — Kentucky's Larry Conley eyes the basket before shooting over the watchful Rudy Waterman (22) of Dayton in NCAA regional playoff game at Iowa City, Ia. At right is Harry Finkel of Dayton. Kentucky, rated No. 1 team in nation, won, 86 to 79. (AP Wirephoto)

SPORTS

Finals Set In Golden Gloves

FORT WORTH, Tex. (AP)—Fourteen bouts wind up the Texas Golden Gloves tournament tonight with eight champions to be determined.

Only two former titlists are left—Fred Garcia of Plainview, the 1965 flyweight king who's fighting in the bantam class this time, and Jesse Valdez of Houston, two-time welterweight champion.

Garcia, the national flyweight champion from New Mexico in 1964, takes on Raymond Chairez of Fort Worth in the bantam semifinals.

Valdez meets Freddy Caram of Fort Worth for the welter title.

Mark Tessman of Houston, defending champion of the light heavyweight division, was eliminated Saturday night by Daryl Stark of Dallas.

Stark goes against Frank Porter of Wichita Falls in tonight's finals.

Joe Ramey of Tyler became the favorite in the heavyweight division when he won three straight victories by knockouts. He clashes with Dick Wills of Dallas for the title.

Fort Worth leads the team race with 12 points. Dallas is second with 11, Houston third with 9 and Plainview next with 8.

'Wheat' County In High Cotton

AUSTIN, Tex. (AP) — Up in the sparsely populated wheat Country of Hansford County, where only three towns show on the map, two of them could boast today of having state basketball champions.

A week ago, Gruver, population 1,500, came to Austin and won the Class A high school boys title.

In neighboring Spearman, with about 3,000 more residents, the high school girls decided they were as good. They came here last week and won the Class AA championship, beating Little Cypress of Orange 50-46 in the finals.

But for the girls, usually more emotional than boys at tournament time, there was as much heartbreak as joy in their state meet which ended Saturday.

Victoria, with all six of the starters who won the Class AAA title last year gone, lost the crown by a turn of the basketball to Tulia 76-75.

A 50-foot desperation shot in the last second of the championship game rimmed the basket and rolled harmlessly to the floor.

Round Top-Carmine and Jourdanton, both runners-up a year ago, found the year of patient waiting joyfully rewarding.

Undefeated Round Top-Carmine got its 40th victory of the season by beating DePort 57-32 for the Class B title. And Jourdanton, also a runner-up in 1964, finally captured the elusive Class A crown by defeating Springlake of Earth 79-74.

In Spanish, Atascosa, the county where Jourdanton is situated, means boggy. And Jourdanton's drive to the title nearly bogged down late in the game.

Get Your History While It's Hot!

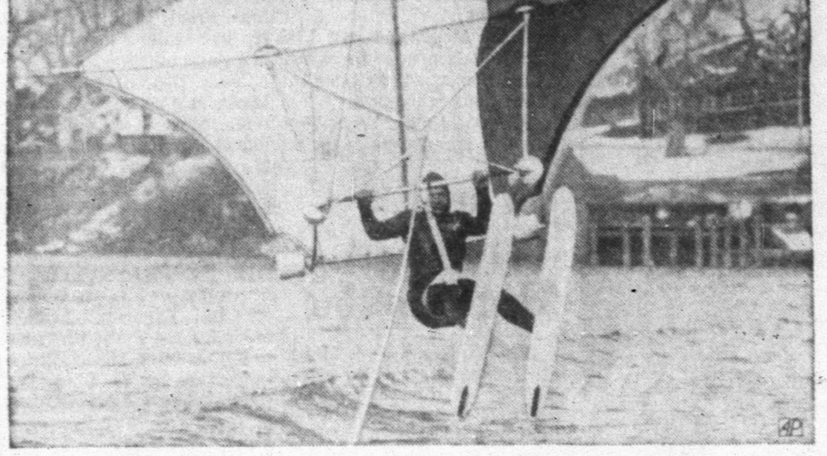

History doesn't have to be dull or ancient. You can prove that for yourself by dipping into THE WORLD IN 1965 — the story, in dramatic news photos and brilliant, in depth articles, of an exciting year. It was prepared for readers of this and other member newspapers by The Associated Press, the world's foremost news service. A big, 288-page, impressive volume that you will want to show your friends, it costs $3 — only a third of the normal value —

Available At: The Snyder Daily News

The Supply Is Limited

ASSOCIATED PRESS NEWS IN PICTURES

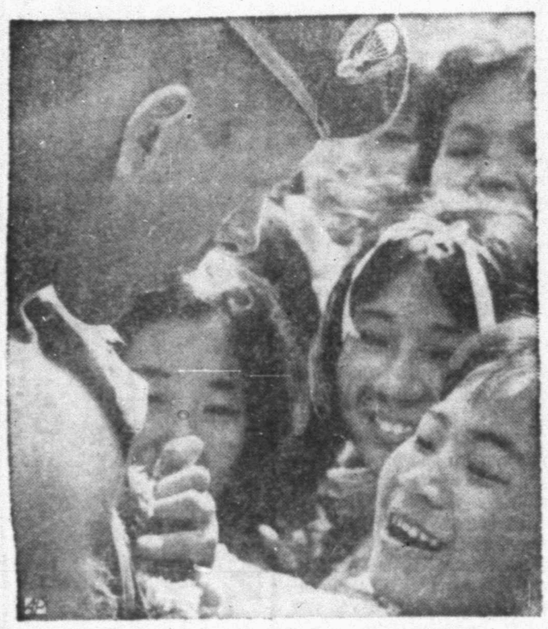

TO FLY A KITE — Andy Wolandi of New York becomes airborne beneath a huge kite while demonstrating water skiing on the Schuylkill River near Strawberry Mansion Bridge in Philadelphia. Event called attention to motorboat show at Convention Hall.

CUB DEBUTS — Mohini, National Zoo's white tiger, shows off latest offspring — still unnamed — in Washington.

MT. SHASTA 'AIRMARK' — This lenticular cloud formation is said to be typical of clouds hovering over Mt. Shasta, California, during the winter. The unusual formations result, they say, from rapid wind reversals above the 14,000-foot summit.

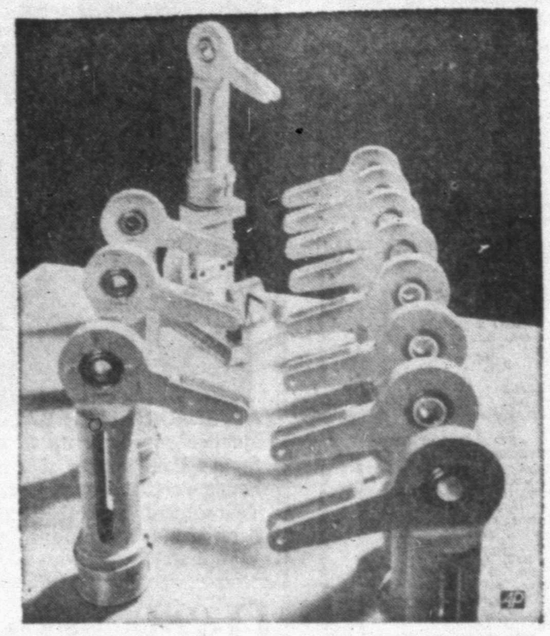

PETE'S ADMIRERS — Schoolgirls admire Capt. Pete Dawkins, former Army football star, after he received award for service as advisor with Vietnamese forces.

WENDY IN WONDERLAND — Wendy Lorraine, 4, of Newton, Mass., studies a "Nana," by Niki de Saint-Phalle, exhibited in Boston's War Memorial Auditorium. The sculpture is interpretation of female figure done in chicken wire, cloth, bamboo and iron.

SPACE WOMAN — Anita Ekberg is dressed for role in film, "Way Way Out," in production in Hollywood, in which she mans moon weather station with co-star Jerry Lewis.

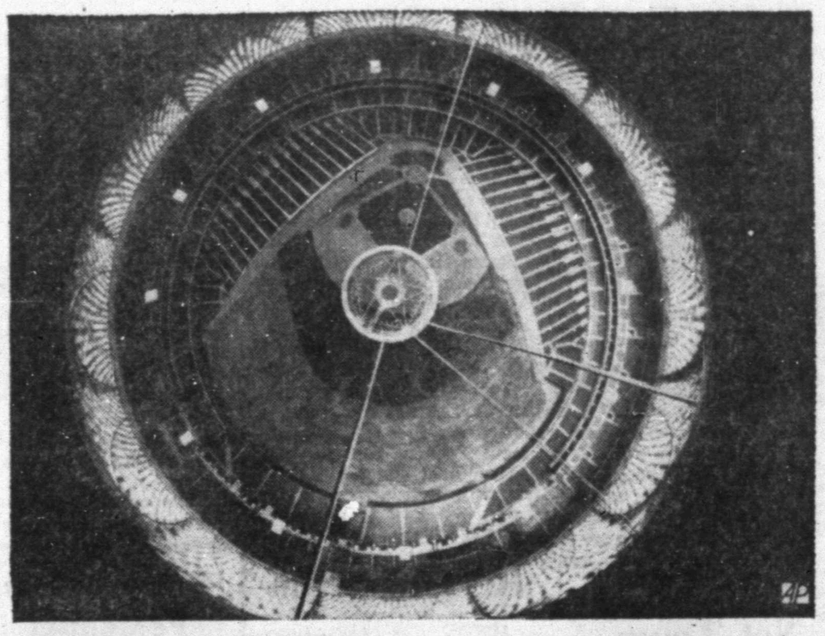

PARTS ON PARADE — Units for flight control systems for aircraft appear to be in formation on a table of Western Hydraulics plant in Van Nuys, Calif.

CHECK CAKE — Men in heat-proof garb check 41-inch telescope mirror blank just out of oven — and still over 2,000 deg. F. — at Owens-Illinois plant in Toledo.

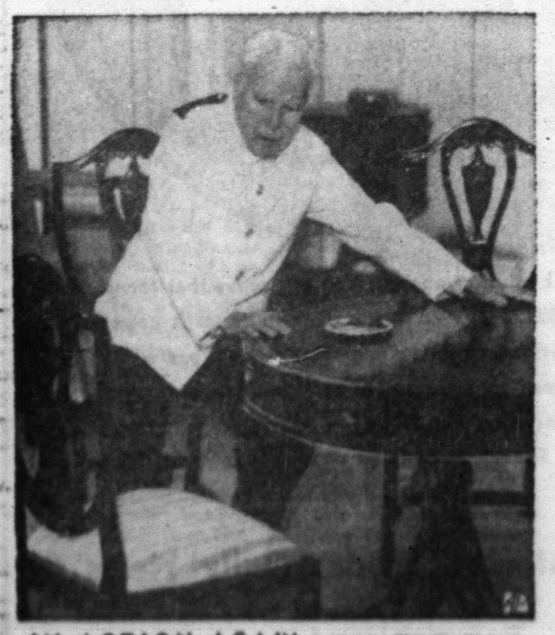

FUN ON SLOPE — Karl Lahtinen, 5, practices a snowplow turn after demonstration by Carl Besse, director of a ski school in Mt. Watatic ski area near Ashby, Mass.

RAFTER VIEW OF SPORTS — The baseball diamond stands out clearly in this "fisheye" view of the Astrodome in Houston. The star-like circle over second base is gondola raised to center of dome for baseball, but lowered for other events.

MITEY GUARD — Alessandro Paternard, 7, in carnival attire as Swiss Guard in Rome, may not realize his life's goal. He's Italian and Vatican guards are Swiss.

IN ACTION AGAIN — Charlie Chaplin, 76, out of films 10 years, plays role of seasick ship's steward in "Countess from Hong Kong" which he also directs.

REPORTING TO THE CHIEF — Vice President Hubert H. Humphrey gestures as he reports to President Lyndon B. Johnson on his trip to Southeast Asia. White House conference covered such subjects as Viet Nam war and talks with Asian leaders.

MOVED BY WAR — A Vietnamese peasant of An Don village, leaving battle area, carries part of his house as he passes a patrol searching for Viet Cong.

Winds Bring Dusty Proof That Part Of State Is Dry

COLLEGE STATION (AP) — March winds pushed dust across East and South Texas during the week, reminding one that parts of the state have poor moisture conditions.

At midweek, John Hutchison, director of the Texas Agricultural Extension Service, said moisture, statewide, is about as it has been since Jan. 1: adequate to surplus in the east and south and short in west and northwest.

Rain in the favored areas, he added, has put farming behind schedule but some real progress was made during the past few days. Some light rains fell last week, but these stopped work only in limited areas, he said. Warmer temperatures improved planting prospects and some progress has been made, he said, but soil temperatures are not warming up as fast as we would like.

Moisture is short in the Panhandle and wheat growth is being limited by drought and cold. Plowing has started; cattle feeding is necessary; and livestock are generally in good condition.

The South Plains (Lubbock) are dry and three days of sandstorms aggravated the situation. Plowing and fertilizing are being pushed. Preplant irrigation will begin soon. Livestock are being fed.

Two days of high winds took their toll of moisture in the Rolling Plains (Vernon), where half of the counties need rain. Grains are making fair to good growth, depending on moisture. Nitrogen top dressing is being applied. Cattle are being removed from the wheat fields. Plowing is active. Livestock are being fed. Goat and sheep shearing has started.

Moisture in all North Central Texas, except Clay County is adequate and farmers are busy top dressing grain. Coastal Bermuda sprigging will become active when fields dry out. Livestock and ranges are in good condition.

Northeast Texas work has been slowed by the weather. Livestock are shrinking but still are in average condition. Cold has damaged grains. Sweet potatoes were being bedded.

Range forage is short and general rains are needed in far West Texas. The growth of irrigated small grain has been slow but is providing some grazing. Livestock are being fed. Ranch labor is short. Goat shearing in the Del Rio section is about complete. Sheep shearing is starting.

A general rain would be welcomed in West Central Texas although southern counties have adequate moisture and good grazing. Drought and cold are holding back grains. Feeding has increased. Losses of sheared goats and lambs from the cold have been light. Old crop lambs are moving to market. The main activities are feeding and plowing.

Grains in Central Texas are improving as the temperatures rise. Some top dressing is underway. Moisture is adequate. Plowing is behind schedule. Corn and grain sorghum planting will begin when fields dry and temperatures become favorable. Goat shearing is in full swing, with kidding starting.

Moisture in East Texas is fully adequate to surplus. Warmer days are helping oats. Some land is ready for corn planting. Livestock were in fair to good condition with the market strong and pastures average to below.

Moisture in Southeast Texas is generally surplus. Some land is being plowed and some planting has started. Livestock are being fed; peaches are blooming in Orange and Waller counties. Livestock are in fair to good shape.

Dry, open weather is needed in South Central Texas for plowing and planting. Livestock are in good condition and the vegetable harvest is active. Hay feeding is still on. Flax is blooming.

South Texas moisture is adequate. Light rains delayed work. Oats are providing good grazing and flax is blooming. About 10 percent of the sorghum acreage in the Valley has been planted. Cotton planting has started. Corn is being planted in the Coastal Bend and Winter Garden and cotton land is being prepared. Spinach, carrots, cabbage, greens, onions and some lettuce are being harvested in the Valley and Winter Garden. Cantaloupes and watermelons are being planted. Ranges are above average with feeding light.

American Diplomat Is Symbol Of Good Will In Africa

By MICHAEL GOLDSMITH

RABAT, Morocco (AP) — A group of school children squealed with delight at the sight of an American diplomat.

"Uncle Awad Uncle Awad," the kids shouted across the street in Moroccan Arabic.

The diplomat smiled and waved.

Such acclaim is familiar to Awad Hanna, press attache at the U.S. Embassy in Rabat.

For two years, Hanna has conducted a weekly children's program on the state-owned Moroccan television network. This unpaid, voluntary work has made him one of the nation's most popular figures and an effective symbol of American good will in Africa and the Arab world.

Hanna has two assets: He has an appealing television personality, and he can speak to Moroccan youngsters in Arabic.

He was born near Jerusalem 43 years ago in a well-to-do Arab family reputedly descended from a medieval crusader. He studied at the American University in Beirut, married New Jersey-born Jasmine Moussa in 1945 and became an American citizen in 1949. He worked for the Voice of America in New York, Washington and Cairo and has been assigned to the Rabat Embassy since 1961.

The Uncle Awad show was Hanna's idea. He started out giving educational talks on Moroccan television, gradually evolved his own personalized approach to his audience.

Although the country has only 35,000 television sets, his success was startling.

An "Uncle Awad's Friends' Club" has nearly 7,000 card-carrying members. Fan mail from children and adults sometimes exceeds 100 letters a day. Thousands of Moroccan children have Uncle Awad's picture pinned over their beds. By public acclaim the show has been expanded from 15 to 30 minutes of prime Saturday evening time.

Hanna starts each show with a story, usually containing a moral. Ferdinand the Bull preaches peace. Cinderella pleads for justice. There is no overt propaganda, no politics, virtually no reference to the United States.

"I encourage patriotism, love of freedom, respect for the dignity of the individual," Hanna says. "It's a message of peace and good will in the very broadest sense."

The show includes contests, quiz sessions, homemade movies, simple scientific experiments, party games. The winning entries in an art competition are honored by being screened. Part of every program is devoted to answering viewers' letters.

In addition to the Uncle Awad show, Hanna gives poetry readings in a late show for adults, using his full name. He reads his Arabic translations of American and British poets and some of his own works.

"It's hard work, but it's immensely stimulating and worth while," he says, "the returns have been tremendous."

Despite the nonpolitical nature of his television work, Hanna has acquired an influence rare among foreign diplomats. Moroccan officials, editors and broadcasters often call him privately to ask for his guidance on a variety of problems ranging from racial integration to the Viet Nam war.

This influence — as much as the programs themselves — infuriates Moroccan leftists.

The Texas Forestry Association urges you to take time to be careful. Help Keep Texas Green by observing Fire Prevention Week every week.

BUSINESS and INDUSTRIAL NEWS

COMPLETE STOCK — Snyder Heating and Air Conditioning Co., 4702 Avenue S, can handle any kind of job from small residential to large commercial. V. O. Rannefeld, the owner, displays a Lennox electric furnace which will heat the whole house. Also shown is an air conditioning coil, which is placed atop a natural gas or LPG (butane) furnace. (Staff Photo).

Heating, Cooling Specialty Of Snyder's Lennox Dealer

Snyder Heating and Air Conditioning Co., 4702 Avenue S, can handle any heating or air conditioning job from small residential to large commerical.

Lennox dealers for the past 16 years, the firm has its own sheet metal shop and does its own duct work and design and engineering. It has a complete service department for maintenance and repairs.

Vernon Rannefeld, the owner, said Snyder Heating and Air Conditioning recently received a carload of Lennox evaporative coolers. He suggested home owners could beat the annual summer rush by placing their orders now.

"Get the evaporative cooler in now and turn it on later," he suggested. A week's delay might be too late for people who have to keep cool during hot summer days.

Of course, the firm also has in stock many Lennox electric furnaces for those who are planning for the future. These furnaces will heat the whole house. Also available are natural gas or LPG (butane) furnances.

Many of the later homes are being equipped with electric heating. Home owners have discovered that electric heating can be as economical as any other type of fuel. Over the years, there has been a steady reduction in heating costs from electricity.

Whatever your need—whether it be air conditioner or heater—the product is worth more to the individual if he can get good service after he has it installed. And that's where Snyder Heating and Air Conditioning Company can be of real use.

"Maintenance and repair is a big part of our business," observed Rannefeld. He said that no repair or maintenance job was too big for their personnel to handle, especially considering the well equipped repair shop.

Financing to suit the family budget can be arranged with up to three years to pay. If you have any air conditioning or heating problem, Rannefeld will be glad to talk it over with you. Maybe you're planning for the future and want to discuss costs.

Free estimates are cheerfully given at Snyder Heating and Air Conditioning Co. There is no obligation to buy anything. Employes of the firm will be glad to discuss any heating or air conditioning problem with anyone.

Meanwhile, if the heat is just too much, dial HI 3-4411 and Snyder Heating and Air Conditioning Co. will be ready to take your order for an evaporative cooler. Or, if you prefer, place your order in person at 4702 Avenue S.

Appreciation Day Set For Permian Basin Petroleum

MIDLAND, Tex. (AP)— Midland observes Permian Basin Petroleum Appreciation Day Tuesday.

The celebration will attract perhaps the largest number of top executives of major oil companies ever assembled at one time in Texas.

The March statewide hearing of the Railroad Commission also will be held here that day, bringing other hundreds of oil men to this headquarters city of the Permian Basin.

The function is sponsored and staged by a Midland Citizens Committee, headed by Tom Sealy, in cooperation with the Midland Chamber of Commerce and the Permian Basin Petroleum Association.

Gov. John Connally heads a list of speakers for the day-long event.

Other speakers include Commissioner Byron Tunnell of the Railroad Commission; Jerry Sadler, Texas land commissioner; Ben Barnes, speaker of the Texas House: Dick West, editorial page editor of The Dallas News; and Lambert Moore, vice president of El Paso Products Co. of nearby Odessa.

The celebration is planned by Midland and area residents to say "thank you" to the petroleum industry for its contributions to the economy and civic and cultural well-being of this city and region, a member of the sponsoring committee said.

Emphasis this year is being placed on the major company segment of the industry.

"We continually seek new industry," the spokesman said, "but we seldom express appreciation to existing industry which has been responsible for the tremendous growth and development of this vast West Texas - Southeast New Mexico region.

"Petroleum Appreciaton Day affords us this opportunity."

Reservaions have been made by more than 150 top executives of major oil companies. Practically all major oil firms maintain offices in Midland.

Appreciation Day provided excellent timing for the Railroad Commission hearing in Midland, since it is traditional that top officials of oil companies annually attend the commission's March meeting to voice their opinions on the oil and gas industry.

The commission's District 8 maintains headquarters here.

A luncheon and banquet will be held on Appreciation Day. Commissioner Byron Tunnell will speak at the luncheon, while Gov. Connally will address the banquet. Because of limited banquet room facilities, admittance to the luncheon and banquet will be by invitation only. Board chairmen and presidents of major oil companies will be honored at the banquet.

Three Hurt In Gunfight

LUBBOCK, Tex. (AP) — A brief, but violent gunfight in a Lubbock area private club Sunday resulted in critical injuries for one Brownfield man and hospitalized two other Brownfield men.

Lalo Jiminez, 40, of Brownfield, was shot three times in the stomach and once in the arm and leg. Jiminez, who was shot by W. W. Baker, a highway patrolmen, was taken to a Lubbock hospital.

Jiminez was shot while attempting to flee the club. Two men, Domingo Perez Sr., manager of the Claret Club, and his son, Domingo Perez Jr., were shot with a small caliber pistol.

GOPs Eye Sites For State Meet

AUSTIN, Tex. (AP) — San Antonio is expected to be picked for the Sept. 20 state Republican convention when the Republican State Executive Committee meets to approve statewide candidates.

There will be an open meeting at which Sen. John Tower, R-Tex., and four candidates for Congress will share time.

A closed-door discussion of party organization, fund-raising and the May 7 primary election is scheduled.

Big Catch In Roundup Of Rattlers

SWEETWATER, Tex. (AP)— Some 270 brave snake hunters captured 2,300 poisonous rattlers during the three-day annual Sweetwater Rattlesnake Roundup which ended Sunday.

The snakes weighed an estimated 2,800 pounds.

The roundup, which is sponsored by the Sweetwater Jaycees, was viewed by an estimated 12,000 spectators, who swarmed over the countryside to watch the hunters probe crevices and rock formations to bring in the snakes from their winter quarters.

Most of the snakes are not killed but are kept for display purposes, sold to reptile zoos or used in medical research. The deadly venom is "milked" for use in research projects.

Champion snake hunter of the 8th annual roundup was Bob O'Donald of Claytonville, Tex., who caught 384 pounds and earned a trophy and $50.

Second place went to Ray Dodgion and C. W. Carlile, both of Roscoe, Tex., who captured 165 pounds. Joe Jackson of Dallas captured the longest snake—68 inches.

Total prize money for the event was $300.

Oilmen Evaluate Industry Capacity

By MAX B. SKELTON
Associated Press Oil Writer

HOUSTON (AP)—What is the maximum amount of crude oil the domestic petroleum industry could produce if a national emergency should dictate a sharp increase?

Current production approximates 8,100,000 barrels a day but the industry probably could boost output above 10 million barrels a day if necessary.

The industry soon may have four reports estimating reserve productive capacity. Two industry groups have been making periodic surveys since the early 1950s. There was indication this week two other sources may develop new studies during 1966.

Interior Secretary Stewart L. Udall has called for a top-level review of the nation's petroleum requirements through 1980. Such a study would involve productive capacity and long-range prospects for adequate supplies.

The executive committee of the 33-state Interstate Oil Compact Commission has submitted productive capacity questionnaires to oil producing states. Several problems could sidetrack the study but a tentative objective calls for a report at the compact's mid-year meeting in June.

The National Petroleum Council has made several such surveys since 1951, and the Independent Petroleum Association of America has made an annual study since 1954.

The latest survey was released by the independents last May. It estimated productive capacity as of Jan. 1, 1965, at 10,534,000 barrels a day but said 2,761,000 barrels—26.2 per cent—were idle.

Government officials, for security reasons, have not indicated what level of reserve capacity would be desirable. However, a 1952 statement by former Interior Secretary Oscar Chapman would indicate a 26.2 per cent reserve would not be sufficient under present conditions.

Chapman gave no figures but told the American Petroleum Institute the reserve capacity of late 1952 was inadequate. The late Frank Porter, then president of the institute, later told newsmen the 1952 reserve capacity approximated 1 million barrels a day — 15 per cent — as compared with a desired figure of about 1,600,000.

The compact's questionnaires were mailed about three weeks ago. The objective is to determine each state's ability to produce over a period of six months.

Officials of the compact acknowledge that several problems could limit response from some producing states. A limited response could upset the hopes for a June report.

One problem involves estimates of potential production from new wells that will be completed in the six-month period involved in the survey. Another problem involves remote wells that are shut-in or producing at low rates because of lack of adequate pipeline or other marketing transportation.

The annual survey by the independents ignores new wells and defines productive capacity as the average rate of production existing wells can maintain from 6 to 12 months.

The petroleum council studies include estimates for all wells, regardless of whether sufficient transportation facilities exist to handle full productive capacity.

The reports by the petroleum council emphasize that the inadequacy of transportation facilities in some fields rules out an assumption all the nation's reserve producing capacity can be made available on short notice.

Kremlin Experts Bet On Shelepin

By HENRY S. BRADSHER

MOSCOW (AP) — A poll of Kremlin-watchers in Moscow today probably would choose Alexander N. Shelepin as the man most likely to be running the Soviet Union in the 1970s. They will be watching carefully this month for clues to support this judgment.

The 23rd Soviet Communist party congress opens March 29, and Shelepin is considered to be the man in charge of organizing this important meeting. The congress will provide an occasion to gauge Shelepin's role.

At the moment Shelepin is a member of the party's powerful secretariat and of the Central Committee's ruling Presidium. At 47 he is still young for the top command.

Shelepin's public image has varied with his official roles. He has pleaded for consideration for Soviet youth at times, and cracked down on youth at other times. He was mild at times when he was running the secret police, and at other times tough and vindictive.

Little things showing through his public utterances have created apprehension about Shelepin among some intellectual and youth groups. One foreign expert on the Soviet leadership calls him more dictatorially inclined than his colleagues. Yet a Soviet colleague who worked closely with him describes Shelepin as shy, even timid, a hard man to know.

Shelepin has seemed to seek anonymity. During infrequent public appearances he stood back and let others of equal or lesser rank win attention.

But recently Shelepin was thrust into the spotlight, on assignments like his January visit to North Viet Nam, which involved competition in Hanoi with Chinese influence as well as policy toward the United States.

The lights glisten on an extended forehead of approaching baldness and catches the shadows of thickening jowls. A small scar runs diagonally across a wide nose. The left eyebrow arches higher than the right, giving distinctive character to what otherwise might be an expressionless face.

Alexander Nikolayevich Shelepin was born Aug. 18, 1918, almost a year after the Bolshevik revolution. His official biography says he was the son of a railwayman in Voronezh, 300 miles southeast of Moscow.

At 18, Shelepin entered the Moscow Institute of History, Philosophy and Literature, a school for young men marked for future leadership. The Stalin purges were on then, and Shelepin stepped into purge-created vacancies in the school's unit of the Communist party Youth League, in the Komsomol.

Three years later, in 1939, Shelepin was sent into the army as a political instructor and squad leader in the war against Finland. He served only briefly.

Some sources say Shelepin was a partisan leader behind Nazi lines in World War II, but the official biography indicates he remained in civilian party work.

He was enrolled as a full party member in 1940, finished at the institute in 1941 and became a Komsomol instructor in Moscow, rising to a secretary's job in the organization by 1943.

Shelepin became first secretary — chief — of the young Communist League in November 1952, at a time when Stalin — believed to be preparing a new purge — wanted reliable men in key spots. If a purge was in the offing, Stalin's death in 1953 interrupted the process.

Search Continues For Brownsville Pair

MEXICO CITY (AP) — The search continued today for a private plane in which a Kansas City couple left Brownsville, Tex., for Acapulco last Wednesday.

The couple was Mr. and Mrs. B. Marcus Heller of Kansas City.
