WELLINGTON, COLLINGSWORTH COUNTY, TEXAS 79095 THURSDAY, APRIL 8, 1982

Volume LXXI Number 38

WATER SYSTEM — PAID OFF

Former Mayor John Coleman, second from right, hands a check for $47, 138 to Billy Moseley, president of Wellington State Bank, to make the final payment of City of Wellington water bonds. The $350,000 issue was sold just 10 years ago to finance purchase of the present water farm, drilling wells and installing the pipe line into Wellington, plus additional work on water line within the city. Wellington State Bank served as the paying agent and the city paid interest of 4½% from 1973 through 1976, and 4¾% from 1977 through 1982. Coleman was mayor when the bonds were issued; former Mayor Billy Hatch, left, headed the city government during the years most of the bonds were paid off, while present Mayor Ralph Owens completed the payment.

Landscaping Clinic Set For Thursday Afternoon

"Landscaping for energy conservation" will be discussed in depth when Collingsworth area homeowners meet with one of the country's top landscape horticulturalists in a clinic Thursday, April 8, in Bura Handley Community Center. Starting time is 2 p.m.

The speaker will be Everett E. Janne, landscape horticulturalist for the Extension Service, Texas A&M University. An effort has been under way for four years to secure him as a speaker in Collingsworth County.

The clinic is sponsored by the Extension Service with the Wellington Garden Club as co-sponsor.

It is open to anyone interested in home landscaping, either for energy conservation or for beautification, according to Don Reeves, extension agent. Basically, the program will cover home landscaping.

Dr. Janne covers the entire state and he is highly respected nationwide as a horticulturalist," Reeves said.

In his meeting here, Dr. Janne is expected to cover such landscaping problems as using correct species of trees or shrubs, different size shrubs and trees and where they fit into the landscape, properly designing landscapes, the use of evergreens, and as well as the care of trees and shrubs.

"He will cover the entire scope of landscaping and how it can help with energy conservation," said Reeves.

Those attending will learn how close to plant shrubs or trees to the home so that 25 years down the way, the homeowner won't have to dispose of some of these.

Shrubs and trees that are adapted to this area will be discussed.

"It will be an outstanding program and we urge all homeowners, people in the landscape business, people with new homes who are putting in landscapes and also people with homes they want to do some landscaping with," said Reeves.

This is Janne's first time in Collingsworth County.

He has a B.S. degree in landscape design from Kansas State University, M.S. in ornamental horticulture from Ohio State University, and graduate studies at Ohio State and Texas A&M University.

He was horticulturalist for 11½ years with Consolidated Nurseries, Inc., Tyler, one of the nation's largest wholesale roses nurseries, before coming to Texas A&M

Janne is a native of Kansas and grew up on a wheat-livestock farm in that state.

Tornado Spotters School Set

A one-night severe weather symposium for training tornado spotters will be held Friday, April 16, at the National Guard Armory, starting at 7 p.m.

Don Goforth, director of disaster emergency services for Potter-Randall County will conduct the school.

Slides, films and discussion will make up the hour to hour and a half session, said County Judge Bob Watson, who is in charge.

The session will show spotters where to look in a cloud arrangement, to spot a tornado and the kind of clouds that produce tornadoes.

The school is primarily for members of the Collingsworth County Sheriff's Department, reserve deputies, Volunteer Fire Department and Volunteer Ambulance personnel, as well as spotters from outlying parts of the county.

Watson emphasizes, however, that it is also for anyone who wants to serve as a spotter this season, or who simply wants to know more about what to look for in storm clouds.

Responsibility for weather observation during a period of stormy weather lies with Sheriff Kenneth Maxwell.

Collingsworth County has already had a tornado alert this year, and this should serve as a reminder that the county is now in the middle of what may be considered its tornado season, said the judge.

Plans for the symposium were begun after Watson attended a similar meeting of the Disaster Emergency Services of the Potter-Randall County and the Weather Bureau.

Among things to be covered in the April 16 symposium are:

-How to watch clouds.

-Where to look in the clouds.

-How to spot a potential tornado-producing cloud.

-What parts of the cloud one doesn't have to watch. This is usually the leading edge. This is the roll cloud or shelf cloud that comes in first, Watson said.

Major tornadoes usually form at the rear of the cloud, Watson pointed out.

Also due to be discussed are where to go and what to

Three Councilmen Returned, Mowing Ordinance Planned

Three incumbent city councilmen were re-elected without opposition in the Saturday, April 3 election.

Gary Brewer received 233 votes; Lyndon Crelia 221 and Willie Gragson, 220. This includes both the votes cast at the polling place and absentee votes cast before the election.

The election was canvassed and the three elected official members were sworn in for new terms when the council met in its regular session Monday, April 5.

Holdover officials are Ralph Owens, mayor; John Rainey and Sam McGill, councilmen.

Also Monday night, the council gave voice approval to a mowing ordinance, by which the responsibility for keeping vacant lots mowed and in clean condition was placed on the property owner.

This is possible since a series of tax sales have cleared the title to many lots over town on which delinquent taxes were due and whose owners could not be located. Most are now back on the tax roll with new owners whose responsibility it will be to keep the lots clean and mowed.

The council discussed a procedure by which owners of unmowed lots will be notified to mow them. If the lots remain unmowed, the city will cut the weeds and charge it to the owner. It was pointed out that it may even be possible to set this up as a lien against the property.

Because there are a number of empty lots with non-resident, owners who pay the taxes on those lots regularly, the council is considering a service in which individuals with mowing equipment will provide this service. All contact for such a service would be through the city, which will also monitor the work to determine if it is being done satisfactorily, at a fair charge.

City Manager Glen Taylor and Mayor Owens asked those with proper equipment, who would be interested in providing this kind of service to contact the city office.

"We believe that the responsibility for cleaning the lots is with the owner, not the city. Besides, city equipment and employees are tied up through the summer months and we do not have the time to stop and mow lots," Taylor said.

The city has had a problem in the past with rats, skunks and insects thriving in unmowed lots.

The ordinance will be drawn up and formal action taken at the next council meeting.

Action on the Firemen's Retirement Fund was defer-

Samnorwood Lions Club will sponsor an Easter Egg Hunt for the children Sunday, April 11 at 3:00 p.m. immediately East of the Samnorwood School in Marvin Knoll's wheat field.

New officers were elected for the coming year. They were president, Doug Coleman, Jr.; vice president, Doug Darrow; secretary treasurer, Jimmy Breeding; recording secretary, Marvin Knoll; tail twister, Max Paschall and lion tamer, Ralph Decker. Souder, Spillman Nunnelley Elected to School Board

Incumbent Carroll Nunnelley and Reed Souder and Bill Spillman were elected to the three open seats on Wellington school board in Saturday's election.

Souder received 366 votes, Nunnelley 337, Spillman 320 and Fred Maxwell, the only other candidate, received 277.

Write-in votes included one each for Robert Owens, John Nash, Wayne Cudd, Bill Hall, Zenith Warrick and two for Troy Thomason.

At regular school board meeting Monday, the board canvassed the election and swore in the three newly-elected members.

Kirby Campbell was re-elected president of the board, Harold Wayne Moore was elected vice-president, and Carroll Nunnelley was re-elected secretary.

The board accepted the resignation of assistant coach Curtis Smith effective at the end of the school year. Smith will be head basketball coach at Allison next year.

The board also accepted the resignation of high school secretary Pat Odle effective at the end of the school year.

Board members present were retiring members Jim Ingram and Benson Long and Campbell, Nunnelley, Moore, Spillman and Souder. Willie O'Rear and John Barton were absent.

Dodson Reunion Sat.

Plans are complete for the annual Dodson Ex-Student's Banquet to be held Saturday night, April 10, according to Mary Ellis Hightower, president.

Reunion visitors will begin gathering early in the evening, and the banquet will be served in Nellie's Cafe. Afterward, the group will go to the American Legion Hall for visiting.

There will not be a program this year, Mrs. Hightower said. However, there will be several impromptu talks, and each ex-student will introduce himself or herself and tell the year of graduation.

Officers for the 1983 reunion will be elected.

Most of the time, however, will be taken up by visiting.

The class of 1942 will hold its 40th anniversary reunion in the American Legion building before the general reunion.

Bernie Anna Hammon Warren of Amarillo is working on this, and any class member who had not yet contacted her may write her at:

Mrs. Elbert Warren
100 Geronimo Road
Amarillo, TX 79108

Only a small number of the class of 1942 remain in the Dodson - Wellington area.

Officers, in addition to Mrs. Hightower are Jeanette Swift Moore, vice-president and Jo McKinney Hunt, secretary.

Quail Exes Gather Sat.

Quail Ex-Students will hold their 1982 reunion and banquet Saturday, April 10 in the Quail Booster Club building on the old school campus, Earl Lynn Feemster, president, has announced.

The building, one of the school buildings which now serves the community as a center, will be open at 6 p.m. and the banquet will be served at 7.

This will be a barbecue supper, with both beef brisket and sausage served with all the traditional trimmings.

The meal will be catered by Country Cuisine, a new catering service owned by Lennie Morgan, who formerly lived at Quail, Gwen Emmert, and Juliana Baumgardner. Country Cuisine specializes in banquets, and features unusual foods prepared to the southwestern taste.

Tickets will be $6 each.

Emphasis will be on visiting this year rather than a formal program, Feemster said. The only entertainment number planned is the reading of the 1942 class prophecy.

During the business session, the person traveling the greatest distance will be recognized.

New officers will be

Blood Service Agreement Due

Represenatives of Red River Regional Blood Services, Wichita Falls, and Coffey Memorial Blood Bank, Amarillo, met recently in the latter city, to work toward an agreement covering blood replacement by donors of blood used by Collingsworth County patients in Amarillo Hospitals.

Announcement was made by Mrs. Lynn Wright, president of the Collingsworth General Hospital Auxiliary.

A statement from the Wichita Falls Blood Center to Mrs. Wright read:

"Area residents need to continue contacting the local blood service committee if they use blood in Amarillo. The previous policy of donors going to Amarillo to replace blood is being revised.

"Information concerning this policy will be available locally in the near future. Until that time, direct all inquires to Charles Wilcox, Administrator, Red River Regional Blood Services, Wichita Falls, Texas, by calling 817-322-8686."

Locally they may call Mrs. Gorman (Billye) Owens 447-2294, or see her at her home, 1305 El Paso Street.

The final announcement concerning an announcement between the Red River Regional Blood Service and Coffey Memorial Blood Bank is expected before the next visit of the Red Cross Bloodmobile to Wellington on Thursday, May 27, according to Mrs. Wright.

The hospital Auxiliary will be in charge of the bloodmobile visit.

Loyce Wallace, representative of the Red River Regional Blood Center was in Wellington March 31 to meet with Mrs. Wright, and the three women who have served as co-chairmen of the bloodmobile visit for several years, Mrs. Owens, Mrs. Dollie Mae Wilson and Mrs. Ernestine Cummings.

These three have also worked to secure an agreement between the Red River Blood Service Center and the Coffey Blood Bank.

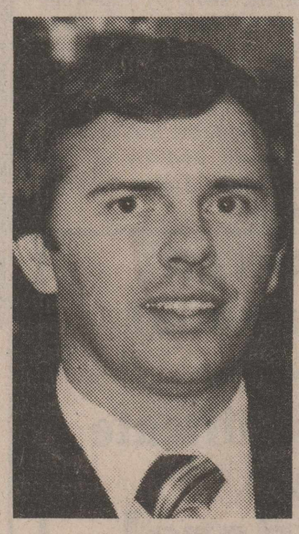

Britten New Postmaster

Charles E. Britten has been appointed Wellington Postmaster and began his duties here April 3. He comes to Wellington from Amarillo, where he had been with the U.S. Postal Service since 1974.

In the Amarillo office, he was supervisor of Mails (MPLSM). He succeeds Mrs. Mary Harlan, who came here in January to serve until a permanent postmaster was named. She is the White Deer postmaster and is returning to her work there.

Britten received the Excellent Rating in Merit Status and awards within the suggestion program of the Postal Service.

Britten, 35, was born at Groom, the son of Mrs. W.M. Britten, now of Stratford, and the late Mr. Britten. He graduated from Stratford High School and received his degree in accounting from West Texas State University in 1976. He served in the U.S. Army Security Agency from March 1968 until December 1971 and was stationed in Okinawa three years.

CHARLES BRITTEN

Organizations of which he is a member include the American Business Club, Softball Umpires Association, Football Officials Association and the Amarillo Women's Program.

Britten was married to Janetta Willey of Stratford in 1966. They have two daughters, Belinda, 11, a fifth grader, and Paula, 7, who is in the first grade. The family belongs to First Christian Church.

Mrs. Britten, a graduate of Stratford High School, serves as a home room mother and Camp Fire Girls leader.

Dodson Names Council, Forms Fire Department

Three candidates were elected to the Dodson City Council in a write-in election held Saturday, April 3.

These are Julian Castillo, 30 votes; Olan Farris 31 and Rayburn Hightower 35.

These three were installed at the regular meeting of the Dodson Council Tuesday, April 6, Mayor John Green said.

Holdover officials are Green, and two councilmen, Tommy Hightower and Thurman Crownover.

Also in the Tuesday night meeting, the council called a meeting for Tuesday night, April 13, to organize the Dodson Volunteer Fire Department.

The council has appointed Rayburn Hightower fire chief, and other officials will be named at the Tuesday night meeting, Green said.

''We need members--all we can get,'' he urged.

The Dodson city council has bought a 1950 Chevrolet Fire Truck from the community of Kelton in Wheeler County. Green says it is in good condition and the council believes it will be just right for Dodson's needs.

''We believe we can contain even a large fire until help can get here,'' he added.

Feemster urges Quail and Wellington area ex-students to attend.

DOROTHY JOHNSON MEMORIAL

A plaque in the continuing education conference facility on the second floor of the new Northwest Texas Hospital honors the late Dorothy Johnson, to whom the new hospital was "a dream come true."

Conference Room Honors Johnson

When the new Northwest Texas Hospital opened for service last month, one of the new rooms put into use was a training and educaton center dedicated to the late Dorothy Johnson.

Mrs. Johnson was the wife of Walter Johnson, who grew up in Wellington, and the daughter-in-law of Dr. J. Frank Johnson of Wellington.

''Mrs. Johnson was a beloved individual and valued administrator. Mrs. Johnson's dedication was well understood, her skill widely recognized and her high regard for patient service unquestioned,'' Dr. Lloyd L. Cannedy, hospital executive director, said at the time the memorial was established.

''Consistent with Mrs. Johnson's intense concern for maternal and child care, we are dedicating the educational conference facility on the second floor of the new Northwest Texas Hospital in her memory,'' Dr. Cannedy said.

Mrs. Johnson graduated from Winters, Texas High School in 1951 and from Methodist Hospital School of Nursing in Lubbock in 1954. In 1974 she earned a BS in nursing at West Texas State University and an MS in nursing at the University of Texas at Austin in 1976.

She began work for Northwest Texas as head nurse in labor delivery in 1959, and at the time of her death she was administrator for special patient services at the hospital.

She is survived by her husband, Walter, of Amarillo and her son Drew, a senior at Texas Tech University.

Mobile Homes Not Motor Vehicles

AUSTIN--State Comptroller Bob Bullock has good news for mobile home dwellers--their homes are no longer considered motor vehicles under Texas tax law.

''Mobile homes have been considered motor vehicles and subject to registration and the 4 percent motor vehicle sales tax since 1941,'' Bullock said. ''The last legislature changed that law and beginning March 1, we will no longer collect motor vehicle taxes on these homes.''

Bullock said people who buy a mobile home will obtain a ''document of title'' from the Texas Department of Labor and Standards instead of registering it as a motor vehicle and obtaining a ''certificate of title'' from the Department of Highways and Public Transportation.

The new law basically defines a mobile home as a structure providing at least 320 square feet of living area.

Area Litter Pickup Costly

AUSTIN--A total of $13 million, almost a dollar per Texan - man, woman and child - was spent just to pick up trash along the State's highways during the fiscal year that ended August 31, 1981.

The figures, released by the State Department of Highways and Public Transportation, show an increase of 26 percent over the 1980 litter pickup price tag of $10.3 million which was an all-time high.

In an area-by-area breakdown, it was learned that in Childress County and surrounding counties, the cost of litter pickup for the last fiscal year was $20,000.

Appraisal District Contracts with County

Collingsworth Central Appraisal District has contracted with Collingsworth County to provide appraisal services for all the taxing entities in the county.

The appraisal job will be handled by tax assessor Ann Wauer's office, but the two present personnel of the district, Verne Barton and Phyllis Killian, will remain as employees of the district and will assist Mrs. Wauer.

The appraisal district office is currently located on the second floor of the county courthouse, but after elevator installation is completed later this spring, the office will be moved to the tax assessor's office on the first floor of the courthouse, Mrs. Wauer said.

Appraisal district business such as filing for homestead and ag use exemptions will be conducted at the second floor office until the move is made.

In addition to appraisal services, the county tax assessor's office will collect taxes for four taxing entities this year: Taxpayers will pay at the assessor's office for the county and the hospital district (which the office has done in the past) and Samnorwood ISD and the Collingsworth County portion of Hedley ISD.

At regular appraisal board meeting Tuesday, April 6, the board contracted with Western Data Processing in Amarillo for computer services from May, '82 to June, '83.

The board also voted to raise Verne Barton's annual salary to $9,600/year and Phyllis Killian's annual salary to $9,000/year, and the board voted to pay for expenses for any board member and the chief appraiser to attend a Texas Association of Appraisal Districts conference in Dallas April 23-24.

The board also accepted the resignation of board member Cary Don Neeley, effective April 1, 1982.

Present were board members Bill Lindsey, Joe Frank Knoll, Monty McCloy and Nita Brantley.

Bingo Carries 429-248

Collingsworth County voters approved legalizing bingo games by approved organizations, for charitable or similar purposes by a vote of 429 to 248.

The measure carried in all boxes except Dodson, where there was a 26-26 tie. There was a one vote margin at Lutie, where bingo was approved 13-12.

The vote by boxes was:

Box	For	Ag.
1. Wellington	117	81
2 Dodson	26	26
3 Ct. House	46	19
4 Lutie	13	12
5-6 Norwood	49	19
7 Comm. Bldg	59	37
8 Quail	17	14
9 Elem Sch.	71	34
Absentee	31	6
Total	429	248

Next step in legalizing recreational bingo in Collingsworth County will come Monday, April 12, during the regular meeting of the Commissioners Court. When the election is canvassed. Also at that meeting, the commissioners will decide if a gross receipts tax is to be imposed.

This tax is not expected to affect County groups sponsoring bingo games, as the first $2,500 of gross receipts from the conduct of bingo within each reporting period (monthly) are exempted from the tax, Judge Bob Watson explained.

He outlined other provision of the Bingo Enabling Act.

To conduct bingo, an applicant for a license must file with the comptroller of public accounts a written application in a form prescribed by the comptroller, and an investigation of the application will be made by a representative of the comptroller's office.

The license will cost $50.

There is a considerable amount of information which must be included in the application for license, and Judge Watson has copies of this. He said he will be glad to furnish this information to anyone considering applying a license to hold bingo games.

There is also a list of restrictions on bingo games and Watson urges every person representing an organization which plans to sponsor recreational bingo to become familiar with these restrictions.

Two points were brought out that for the first time:

Under Sec. 17 (a) and (b), a person under the age of 18 may not play bingo games unless accompanied by parents or guardian and those under 18 may not help with bingo games.

Under Sec. 18, the enabling act states that a game of bingo may not be conducted under any license issued more often than three days per calendar week, not to exceed four hours per 24-hour period.

Rubber was unimportant until the 19th century, when a brilliant 19-year-old British medial student, John Syme, discovered a way to render cloth waterproof.

Hospital Auxiliary Slates Silver Tea, Fund-Raiser

A silver tea which will serve as a fund-raising drive, will be combined with a membership drive by Collingsworth General Hospital Auxiliary as it stages one of its major events on Tuesday, April 20 in the hospital patio.

But this isn't all, assures Loretta Wright, auxiliary president. Half a beef will be given away at some point during the fund-raiser.

A new organization, Collingsworth General Hospital Auxiliary will use the money raised during the fund and membership drive in carrying out projects.

The fund raising committee chairmen are Mrs. Wayne Cudd and Mrs. Richard Nall.

People responsible for the membership drive are Mrs. Buster Hughs, chairman, assisted by Mrs. Earl Bowen, Mrs. Dick Sweat, and by all members of the Auxiliary board.

One of the major purposes of the Auxiliary is to assist the hospital in major projects that require financing.

From the beginning, more members have been sought, Mrs. Wright explained. Dues are $5 per year, and all those paying dues before May 1 will be classified as charter members.

Interest in the half beef to be given away is already high, says Wright, especially since the winner will be determined at the silver tea. Those wanting additional information may call Mrs. Cudd or Mrs. Nall at 447-2595 during the day or at their homes at night, Mrs. Nall, 447-2066 and Mrs. Cudd 447-2290.

The Silver tea and membership drive will take the place of the auxiliary's regular April meeting.

Mrs. Wright explained that the purpose of the hospital auxiliary is to assist the hospital in the development of better patient care by providing volunteer services, promoting better understanding between the hospital and the community, and assisting in financing.

"The auxiliary volunteer augments the work of the trained personnel so that the employee may have more time for the more technical job for which he is trained, thus increasing the services to the hospital and broadening the services to the patient. The auxiliary volunteer does not replace any paid employee," said Mrs. Wright.

Excelsior Hears Program on Paintings of Kenneth Wyatt

The life and career of a contemporary artist who is a frequent Wellington visitor was presented for Excelsior Club members Wednesday, March 17.

The artist is Kenneth Wyatt of Tulia, who is likewise an author and clergyman. The program speaker and club hostess was his sister-in-law, Mrs. Melvin Kiker.

"Kenneth Wyatt was born in Wichita Falls and grew up in Stephenville, where he graduated from high school and from John Tarleton, then a two-year college. He attended Baylor University and graduated from McMurry College, Abilene. Later he was graduated from Iliff School of Theology in Denver," said the speaker.

Wyatt received Doctor of Divinity Degree from McMurry College in 1980.

An ordained clergyman of the United Methodist Church, Wyatt was pastor of his first church at age 14. Pastorates of other Panhandle churches followed, some while he was pursuing his studies.

His last pastorate was at Tulia, the family's present home.

Wyatt was married to Vida Mae Kiker of Wellington in 1954, and they have two children, Mark and Jill.

His first portraits were of Mrs. Kiker's husband, Melvin and their daughters, Kathy and Paula.

Mrs. Kiker described his entry into the art world.

"He had several advantages going into his early years as an artist. First, his preaching years in the southeast Panhandle gave him a wide audience of people who admired his wit and sagacisty, especially for his chalk talks. This led to an expanded schedule as a Knife and Fork (club) presentations across the southwest, while he was working at home more and more on paintings at the kitchen table.

"Then along came a man named John McCarty, art promoter, writer and people enthusiast. He immediately saw something in Kenneth Wyatt that Kenneth hadn't seen in himself---a real future in the fine art world," said Mrs. Kiker.

She recounted Wyatt's own description of his first meeting with the late Mr. McCarty.

"He had been to many art galleries trying to get up the courage to ask the owners to show his work. Then he showed two of his paintings to McCarty, who asked to borrow them awhile to study.

"A little later, John asked if I would paint a horse. I never had, but I thought I could. John said he was going to have a auction and I did three horse paintings and brought them to John, still wet," the artist told his sister-in-law.

"When the bidding got to $80, I was so nervous I had to leave. When he called back, John told me the paintings had sold, the largest amount for one was $230. John said he could sell that many at once, he had something going for him."

Wyatt, who paints 14 hours a day, met Ken Curtis, Festus of the TV serial, Gunsmoke, when the latter was appearing at the Tri-State Fair in Amarillo in 1969. Curtis bought Wyatt paintings and has continued to buy.

He was one of 10 artists who organized the Texas Cowboy Artists Association, and was its first president.

Writing is another facet of the Wyatt career. His first book was "XIT," and several books later, he and Dr. Charles Allen colaborated on a book of paintings and inspirational writings, a limited edition available only through the United Methodist Women of the Northwest Texas Methodist Conference.

Last year Wyatt presented a bronze sculpture to the McMurry Alumni's Student Scholarship program.

His paintings hang in the Western White House and in the Buckingham Palace, as well as in almost every state.

Present for the Excelsior Club, where a dessert plate was served, were Mrs. L.W. Wells, Mrs. E.F. Bartlett, Mrs. Russell Yates, Miss Hattie D. Wells, Miss Bonnie Willis, Miss Rose Shadid, Mrs. Robert Barjenbruch and the speaker-hostess, Mrs. Kiker.

The Happy Cooker

CAPIROTADA, is a traditional bread pudding that makes for a tasty spring treat, notes the Texas Department of Agriculture's home economist. The recipe, combining the tast of raisins and other fruit with bread slices, has many variations.

CAPIROTADA
(Mexican Bread Pudding)

1½ qt. water
1 C. raisins
1½ tsp. cinnamon
1 T. finely chopped onion
1½ C. brown sugar
16 slices bread
1 large sliced apple
⅓ C. pecans
1½ C. shredded cheddar cheese

In a saucepan, combine water, raisins, cinnamon, onion and brown sugar. Bring mixture to a boil and simmer until the raisins are plump and flavors are combined; then remove raisins and set aside. Meanwhile, place four slices of bread in baking pan approximately 9x9 inches. Divide raisins, apple slices, pecans and cheese into fourths to be layered with the remaining bread slices. Sprinkle one-fourth of the fruit mixture on first layer of bread and cover with another layer of bread. Repeat this alternation ending with fruit mixture on top. Pour liquid from saucepan over bread into baking pan to moisten ingredients. Bake at 350 degrees for 45 minutes or until bread is puffed and slightly firm.

Our Lord has a garden in Heaven
He tends it with loving care
And the flowers bloom in profusion
Because He is always there.

The Angels wander among the paths
And sing as they move along
Of God is His Marvelous Glory;
They sing a Heavenly song!

The Angels came to earth today
And touched Dear Jess's hand
And now he sings in a mighty voice
Along with the Angel's Band.

He's gone to be in God's Garden
And miss him you always will
Remember him with love and devotion
For his place no one else can ever fill.

Someday when God needs more blooms
to plant in His Garden so Rare,
Be ready; and He'll call you
And plant you beside Jess up there.

There you can bloom forever
Giving Glory to God as you do
Never more to be parted;
How lovely, don't you think so too?

Written in loving memory of my friend, Jess Wilson, March 29, 1982.

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN — State Treasurer Warren G. Harding may be describing the recent indictment returned against him for official misconduct as "ridiculous" and "unwarranted," but his challengers in the treasurer's race can be expected to play the matter for all it's worth.

In fact, the Travis County grand jury had hardly handed down the charges when at least one candidate was calling for Harding to drop his re-election bid.

Democratic challenger John Cutright of Austin said that, "in view of the indictment," Harding has become "an unsuitable candidate for public office."

Former Travis County Commissioner Ann Richards said she was "stunned and shocked" at the seriousness of the charges levelled against Harding, and former Waco Rep. Lane Denton, Harding's third Democratic opponent, said the incumbent now probably can do no better than third in the race.

The grand jury has alleged that, on two occasions, Harding had his secretaries performing work for his re-election campaign on state time.

Harding has described the entire investigation of his office as a "witch hunt" and contends that Richards' friends at the Travis County Courthouse set up the whole thing to open the way for her treasurer's campaign.

Richards said that accusation is "just ridiculous."

Redistricting Appeal

It seems that the court battles over the state's redistricting plan may never come to an end.

Texas Republicans who challenged the Senate redistricting plan have taken their case to the U.S. Supreme Court.

The GOP leaders have taken issue with lines drawn for Dallas congressional districts by a three-judge federal court panel. That panel wiped out a black majority district Gov. Bill Clements had fought for.

The Supreme Court has agreed to expedite the matter because the state's May 1 primary elections are less than six weeks away.

A decision in the case could come down within two weeks.

Bid Rigging Case

Five highway contractors charged with rigging bids on state highway construction contracts have agreed to pay the state $960,000 in civil damages.

Attorney General Mark White announced that he has now negotiated settlements with those firms in civil lawsuits brought in connection with the criminal investigation being conducted by federal prosecutors.

The contracting firms are among nearly 20 companies and about a dozen individuals that have been charged with conspiracy to restrain trade and mail fraud for allegedly submitting collusive, noncompetitive and rigged bids on highway contracts since 1976.

White has additional civil suits pending against a San Antonio firm and several Lubbock area contractors.

"Where evidence warrants, we have not been hesitant to file suit not only against corporations but also against individuals we believe are responsible for depriving the state of funds it should have received through the highway department," White said.

He contends that the alleged bid riggers have damaged the state to the extent of several million dollars.

Guilty Pleas

Meanwhile, several of the firms charged in the bid rigging case have pleaded guilty in federal district court, including some of those that already have agreed to pay civil damages.

C. H. Allison Paving Co. of San Antonio, Brannan Contractors of Victoria, Jagoe Public of Denton and Jagoe's president Gerald G. Ricks are among those who have pleaded guilty to conspiracy to restrain trade in exchange for agreements from U.S. attorneys to drop further prosecution.

The defendants still are awaiting sentencing on the charges. The companies face maximum fines of $1 million each, while Ricks could be sentenced to up to three years in prison and fined up to $100,000 on the felony charges.

Fire Ants

House Speaker Bill Clayton, who has been keeping a low profile since dropping out of the land commissioner's race, has called on Gov. Clements to provide $2 million in emergency funding to combat imported fire ants.

Clayton announced his plans to seek the funds from Clements at a joint press conference with Rockdale Rep. Dan Kubiak, who he has endorsed for the Democratic nomination for land commissioner.

Clayton, who said the fire ant problem has reached epidemic proportions, also said he will ask the Legislative Budget Board to include additional funds for fire ant research in the 1983 state budget.

Meanwhile, a San Antonio physician told participants at a Texas Department of Agriculture conference on fire ants that at least two Texans have died from the insects' stings during the past five years.

Some 50 deaths nationwide were attributed to the ants in 1981, Dr. Frank James said.

Benavidez Joins Strake

Congressional Medal of Honor winner Roy Benavidez of El Campo has been named Hispanic Coordinator of George Strake's campaign for lieutenant governor.

Hispanic voters, an increasing part of the total Texas vote, will be an important target of the Strake campaign.

AUSTIN — Once again it appears that the primary elections in at least some congressional races may have to be delayed because the U.S. Supreme Court has rejected a redistricting plan for Dallas approved by federal judges in Austin.

With only a month remaining before Texas' May 1 Democratic and Republican primaries, the high court sent the state's congressional redistricting plan back to a three-judge federal court panel to reconsider the lines it drew for four districts in Dallas County.

The panel handed down changes to the reapportionment plan after the U.S. Department of Justice took issue with lines drawn for two South Texas districts.

The Supreme Court ruled that the lower court panel should not have altered the Dallas County districts without some showing that that portion of the plan was improperly drawn.

As things now stand, the three-judge panel — composed of 5th Circuit Court of Appeals Judge Sam Johnson and U.S. District Judges William Wayne Justice of Tyler and Robert M. Parker of Beaumont—now has to decide whether to restore the Dallas lines to their previous position and whether the primary elections for the districts involved should be set back to allow potential candidates to get into the races.

Restoration of the old lines would once again create the black majority district Republican Gov. Bill Clements fought for and, in all probability, would cost Democrats one seat in Congress.

Texas GOP Chairman Chet Upham, one of the plaintiffs in the suit against the plan, approved by the Austin court, called the high court decision a "tremendous victory."

Upham said the decision "will provide an opportunity for fair representation of all Dallas County citizens."

Prison Monitors

After two weeks of court hearings on alleged misconduct by federal prison monitors, Texas officials have decided to drop their attempts to have those monitors fired.

State officials had contended that the monitors, who are overseeing court-ordered reforms in the Texas prison system, should be fired for "outrageous" and "disruptive" conduct.

The state had charged that the monitors were spreading rumors of unrest among prisoners, and the monitors had contended that prison officials had failed to discontinue a system of inmate supervisors.

The state dropped its request to have the monitors fired after Rick Gray, executive assistant to Attorney General Mark White said the matter had been "resolved internally."

Gray said the parties in the case "are now in a position to sit down and discuss" the matter.

Governor's Mansion

Gov. Clements and his wife Rita have formally reopened the Governor's Mansion for public tours after some two and one-half years and more than $4 million worth of renovation.

The Clementses escorted a group of newspaper, television and radio reporters through the refurbished mansion as their first guests at the official residence since completion of the project.

The governor and his wife moved out of the house in July 1979 after the Legislature appropriated $1 million for structural repairs. The couple moved back into the mansion only about a month ago.

In addition to the money appropriated by the Legislature, a group known as the Friends of the Governor's Mansion raised more than $3 million in donations and furnishings to help fill the mansion with early 19th century antiques. The house was built in the 1850s.

The private contributions included an historic painting depicting the fall of the Alamo. That painting is valued at $450,000.

Clements called the refurbished mansion a true "public treasure."

Public tours of the home will begin April 14.

Liability Insurance

Drivers who still don't have documents in their cars to demonstrate proof of insurance better be prepared to pay fines if stopped by highway patrol troopers from now on.

Department of Public Safety officials gave drivers a grace period for the first 90 days that the state's new mandatory liability insurance law was in effect, but on April 1 that grace period ran out.

Troopers now will be ticketing any driver without proof of insurance. Fines range from $75 to $200 for the first offense and from $200 to $1,000 for subsequent violations.

Drivers also can have their driver's licenses and motor vehicle registration suspended unless they establish and maintain proof of financial responsibility for five years from the date of conviction.

DPS Director Col. Jim Adams says 81 percent of those drivers involved in reportable accidents in January and February had the required insurance. That figure compares with 73 percent in 1981.

Car Loans

General Motors Corp. will be offering new car loans at 12.8 percent for the next two months, but Texans won't be able to take advantage of the drop from present rates of 17 and 18 percent.

General Motors has announced that the low interest rates will not be offered in Texas because of the state's recent lawsuit against the company's rebate program and because the interest program requires dealer participation.

The Texas Motor Vehicle Commission has prohibited financial incentive programs in which dealers are required to pick up some of the cost.

THOMAS' ROLL CALL REPORT

Your Congressman's Votes Reported Each Week

WASHINGTON -- Here's how area members of Congress were recorded on major roll call votes March 25-31.

HOUSE

COMMITTEE SPENING By a vote of 148 for and 270 against, the House refused to cut the 1982 budgets of its committees. The vote left intact a measure that authorizes $39.6 million for one of two categories of committee operations -- about the same amount authorized last year. The $39.6 million covers salaries of about one-third of the 1,800 committee staffers as well as "investigations and studies" by the committees. Overall, House committee spending this year is projected at $73.5 million. The measure (H Res 378) was approved following failure of this attempt to inflict unspecified cuts in the $39.6 million.

Members voting "nay" favored a $39.6 million committee outlay rather than a lower figure.

Reps. Samuel Hall, D-1, James Collins, R-3, Ralph Hall, D-4, Phil Gramm, D-6, Bill Archer, R-7, Jack Fields, R-8, Jack Hightower, D-13, Charles Stenholm, D-17, Tom Loeffler, R-21, Ron Paul, R-22, and Abraham Kazen, D-23, voted "yea."

Reps. Charles Wilson, D-2, Jack Brooks, D-9, Jake Pickle, D-10, J. Marvin Leath, D-11, James Wright, D-13, William Patman, D-14, Kika de la Garza, D-15, Richard White, D-16, Mickey Leland, D-18, Kent Hance, D-19, Henry Gonzalez, D-20, and Martin Frost, D-24, voted "nay."

Rep. Jim Mattox, D-5, did not vote.

SENATE

TAXING CONGRESSMEN The Senate refused, 20 for and 77 against, to kill an amendment restoring the $3,000 limit on tax deductions congressmen can claim for Washington living expenses. However, the Senate later used parliamentary tactics to kill the amendment (see the following vote). The upshot is continued life for the 1981 law enabling congressmen to deduct up to $75 daily, without documentation, for housing, entertainment and other Washington expenses. For most lawmakers, the new tax law means a raise of several thousand dollars annually, retroactive to 1981. The votes came during debate on an appropriations bill (HJ Res 409) later passed and sent to the White House.

Senators voting "nay" wanted to restore the $3,000 limit.

Sen. John Tower, R. voted "yea."

Sen. Lloyd Bentsen, D, voted "nay."

POINT OF ORDER By a vote of 51 for and 48 against, the Senate prevented a return to the $3,000 limit by sustaining a parliamentary ruling that the amendment (see preceding vote) was not germane to the pending appropriations bill.

Senators voting "yea" either favored the new tax law for congressmen or did not want the issue to delay enactment of the appropriations bill, which was needed by April 1 to keep several departments from closing down.

Bentsen and Tower voted "yea."

TAX DISCLOSURE The Senate adopted, 55 for and 43 against, a less-than serious amendment requiring congressment to publish their income tax returns in the Congressional Record. The measure, later nullified as non-germane was part of an attempt by opponents of the $3,000 limit to defeat that amendment (first vote, above) by cluttering it with unacceptable provisions. There was no debate, but Sen. Robert Dole, R-Kan., quipped that "if ever a case is made for no television in the Senate, we have done it today."

A few of the 55 senators voting "yea" favored public disclosure of tax returns.

Bentsen and Tower voted "nay."

The coach was invented by the Egyptians, who also pioneered seats made of woven rope and woven reeds much like the wicker still done today.

Senator Bill Sarpalius Reports

MAKE PRISONERS EARN THEIR WAY

AUSTIN -- There are two things that are on everyone's minds right now -- money and crime. It would be wonderful if we could reduce crime and save tax money in the process.

That's what two sheriffs from our Senatorial district are doing. Sheriff T.L. Baker of Potter County and Sheriff Travis McPherson of Deaf Smith County have devised a program for many of their jail prisoners that not only saves tax dollars, but it reduces the crime rate and has the added bonus of reducing overcrowding in jails.

These two progressive sheriffs have decided there is no reason that a non-violent offender shouldn't earn his keep -- for the jail and for the offender's family. They have set up a program that requires these offenders to work on a regular job during the day, and stay in jail at night.

The sheriffs pick offenders who are not likely to cause trouble and find jobs for them in the community. Then the lawmen charge rent for the jail stay. The rest of the criminal's paycheck goes to the inmate's family, or to a savings fund.

Any inmate who enters this program swears off drugs and alcohol for the duration of his sentence. Both sheriffs say escape attempts are absolutely no problem.

The program cuts down on jail overcrowding because the inmates need not be kept in a maximum security confinement. If they wanted to escape, they simply walk off the job. So far, inmates have known a good deal when they saw it, and reported to jail promply every night. Once they got out of jail for good, they rarely get into trouble again.

We think it's wonderful that these sheriffs are saving their counties money by charging room and board for the jail. Why should a criminal get a free ride at taxpayers' expense?

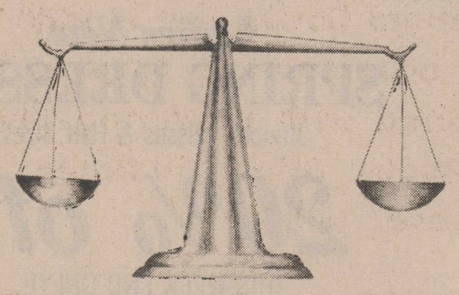

The true savings in this program are harder to measure, but are real. They include the money the community saves by having a member of that community become productive, often for the first time. They also include the money the community saves by having a jail inmate support his family, a family which otherwise might be on welfare.

At General Telephone... We're Not Simply Talking About Service Improvements We're Making Them In Wellington

At General Telephone, better service isn't just a goal, it's a solid commitment. General Telephone spent over 354 million dollars in 1981 on capital expenditure projects (i.e. new electronic switches, expanded cable projects, modernization), and GTE will spend over 410 million dollars in 1982 to provide you the best telecommunications available.

For Wellington this investment in service improvement is working as shown below. General Telephone is working hard to continually provide you with the best of service.

For out-of-town business, picking up a phone can cost less than dropping a line.

The stamp on a letter is only a small part of the cost of doing business by mail. You have to include the cost of secretarial time, materials, mail handling and overhead. That adds up to something like $6.63.* You can do a lot of business with long distance for that amount, take care of orders faster, and save time and energy as well.

Plus you never have to lick stamps.

Easter Pageant Planned At Abundant Life Church

"Jesus--The Last Sacrifice" will be given by the young people and the adults at the Abundant Life Fellowship Church Friday evening, March 9 at 7 p.m. The play centers around the last week in the life of Jesus, from the time he rides into town in triumph on Palm Sunday until the following Sunday when he rises from the dead.

The theme of the "blood sacrifice" is carried out throughout the pageant. The pageant begins with Moses, who represents the law, coming to the front of the congregation and telling the people how that under the old covenant, everything was cleansed by sprinkling it with blood. Clinton Norman will take the role of Moses.

Ushering in the new covenant was John the Baptist with his message. "Prepare ye the way of the Lord." Raymond Neeley will be seen portraying the life and ministry of John the Baptist, and the short sermon he preaches will be followed by a special song, "Behold the Lamb" by Donna Campbell.

The narrators who give the background for the drama as it unfolds are Rev. Jerry Rylee and his wife, Betty Anne. As they tell of the triumphal entry of Jesus on Palm Sunday, the children break into praise, and they come onto the stage waving palm branches and singing "Hosanna to the King of Kings."

As Jesus comes into the city, it isn't long before the opposition mounts. As the plot against Him begins to form, we are allowed to look in on a typical Hebrew home of that time. Louisa Granados plays the part of the mother in this scene, and her children are Amber Rylee and Jamie Morgan. This is the family that lives near the place where the crosses are being made ready for the crucifixion.

The next scene shows Procula, the wife of Pilate, as she talks with her maid about the trial that is going on inside the Judgment Hall. At this point, Procula sends a message to her husband, Pilate, warning him to have nothing to do with this "just man." Venita Morgan is Procula, and her husband, Jim Morgan is Pilate. Rhonda Garcia is the maid, and Mike Neeley is the servant to Pilate. Twenty teenagers compose the jeering, angry crowd that forms outside Pilate's Judgment Hall.

Martin Granados and Javier Arreola are the priests who bring Jesus to the Judgment Hall to be tried. During this time, the pianist plays the song, "What Will You Do With Jesus?" The pianist is Helen Reyes, who also sings this song between two of the scenes.

After the narrator reads about Jesus being taken to Golgotha to be crucified, a solo, "Were You There," by Ruby Patterson will reflect the way a person feels as he recalls the events that took place that day. Later, as the Jewish family has to carry on their activities by candle light, even though it is still day, another soloist, Mary Roberts, will sing "It Is Finished."

In the next scene, Cynthia Rowe sings, "Ivory Palaces." On the first day of the week, the women bring spices to anoint the body of Jesus. In these roles are Mary Granados, Norma Garcia, and Rose Arreola. When they go to the tomb, they find the big stone has been rolled away. An angel greets them and tells them the Lord has risen. John Terry will assume the role of the angel.

An adult choir will furnish other musical selections to highlight the activities seen on the stage.

Immediately following the play, Rev. Joe Cantu of Hollis, Oklahoma will preach. Rev. Cantu is well known in this area, and has been invited to speak and sing at the Abundant Life Church several times within the last two months.

The play is under the direction of Mrs. Clinton Norman. "We extend a cordial invitation to everyone to attend the play and also to hear Rev. Cantu preach," Mrs. Norman said.

Dr. J.M. Orr To Re-Open Dental Office

Dr. J.M. Orr announced this week that he will re-open his dental practice in May, but that he will limit his practice to dentures (prosthodontia).

Orr practiced general dentistry in Wellington from 1945 to 1975, except for 1953-55 when he served as a dental surgeon with rank of major in the U.S. Air Force at Brize-Norton Air Force Base in England.

He holds a BS degree from Texas Tech University and a DDS degree from the University of Texas School of Dentistry in Houston. He taught at the UT dental school before opening his practice in Wellington.

He is a charter member of the Southwest Dental Prosthetics Society and is a member of the Panhandle District Dental Society, the Texas Dental Association, the American Dental Association, and belongs to Omicron Kappa Upsilon and Pierre Fouchard Academy, professional honoraries.

Orr and his wife, Betty, have three daughters, Lynda Davis of Amarillo, Mrs. Lynn (Ann) McLain of DeSoto, and Mrs. Glenn (Jane) Thomas of Wellington, and four grandchildren.

APPRECIATION

State Senator Bill Sarpalius presented a certificate of appreciation to Mrs. Ernest Harwell for her volunteer work with retarded citizens from 1966 to 1981, during a ceremony Monday, April 5.

Kindergarten to Enroll April 14-15

Pre-enrollment will be held Wednesday and Thursday, April 14 and 15, for all children who will enter the kindergarten next year, Melvin Cardwell, principal, announced.

This will be held in the kindergarten room of elementary from 2:30 to 3:30

Parents or those who may be enrolling the child need to bring the shot record and birth certificate at this time, Cardwell said, and he requested that they do not make a request for morning or afternoon kindergarten.

This will be decided later.

Rockets Run at Angelo, Third at Shamrock Meet

Competing in windy 40-degree weather, Wellington Skyrocket trackmen made 18 points at the Angelo Relays in San Angelo Friday and Saturday, March 26 and 27. Thirty teams, with some of the top trackmen in Texas, competed.

Wellington was 3rd in the 400 meter relay, with a time of 44.3. Members were Kenneth Warren, Calvin Culpepper, Willie Pennon and Dewayne Culpepper.

Calvin Culpepper was 3rd in the 300 intermediate hurdles with time of 39.15.

Wellington jumped the gun in the mile relay and was disqualified.

"Everyone's time was a lot better but we had so much competition we didn't qualify very many for the finals," said Coach Curtis Smith.

With only 13 runners--four of them freshmen--the Skyrockets placed 3rd in the Shamrock track meet totaling 96 points. Clarendon was 1st with 109 points and Wheeler was 2nd with 99.

Wellington was 1st in the 400 relay with time of 43.84, which set a record for the Shamrock track. Members were Warren, C. Culpepper, Pennon and D. Culpepper. "This is one of the fastest times in the Panhandle," declared Coach Smith.

Warren went on to place 2nd in the 100 meter dash in 11.04; C. Culpepper 1st in the 300 intermediate hurdles, 40.7; Pennon was 1st in the 200 meter dash in 22.8, considered an excellent time and second in the high jump, 6' even.

D. Culpepper was 3rd in the 200 meters with time of 22.8; Pennon 2nd in the 100 hurdles with 15.79; and 3rd in 300 intermediate hurdles in 43.05.

Another 1st place came in when the 1600 meter relay team turned in a 3:32.6.

"We don't have very much depth, and that hurt. Ours were all first, second or third prizes. You need the fourth, fifth and sixth places to fill in order to win a first place in these track meets," Smith said.

Varsity Girls 3rd in Track

Wellington varsity track girls placed third with 78 points in district UIL competition Tuesday.

Clarendon scored 227 points, Canadian 108, Wheeler 66, Shamrock 33 and Memphis 6.

Wellington team members and the events they placed in are:

Long jump: Cynthia Shrubs, 4th.

High jump: DeeAnn Williams, 6th.

400 m. relay: Vernita Shrubs, Cynthia Shrubs, Jean Outley and Jackie Lewis, 2nd with 52.3.

100 m. low hurdles: DeeAnn Williams, 5th with 17.57.

100 m. dash: Cynthia Shrubs, 3rd with 12.75; Vernita Shrubs, 4th with 13.05.

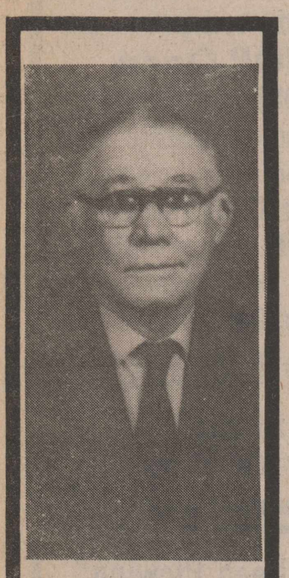

800 m. relay: Vernita Shrubs, Cynthia Shrubs, Ann Outley and Jackie Lewis, 2nd with 1:51.83.

200 m. dash: Jackie Lewis, 2nd with 26.68; Jean Outley, 3rd with 28.53.

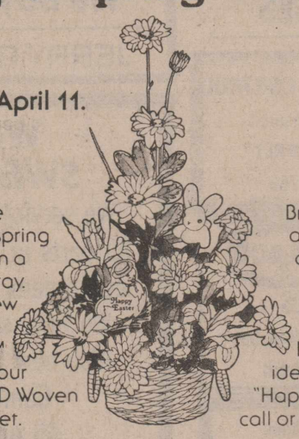

1600 m. relay: Ann Outley, Jean Outley, Debbie Bergvall and Valerie Van Pelt, 3rd with 4:45.83.

In the United States each day, approximately 5,000 people turn 65.
