Showdown Is Near On U. N. Agreement

By WILLIAM N. OATIS

UNITED NATIONS, N.Y. (AP)—Negotiators for Soviet-American agreement on an interim secretary-general for the United Nations appeared at the critical success-or-failure stage today.

The outcome depended on whether the Soviet Union would aggrove still secret plans of U Thant of Burma, the big powers' choice for the post, for the number of principal advisers he would name and the geographic areas from which he would choose them.

After weeks of Soviet-American [illegible] U. S. Ambassador Adlai E. Stevenson and British Minister of State Joseph B. Godber said Wednesday they would let U Thant decide the matter for himself.

Soviet Deputy Foreign Minister Valerian A. Zorin after a conference with U Thant told newsmen, "We are near to agreement."

If the Soviets agree, the Security Council might meet Friday morning to recommend the Burmese diplomat's appointment and the General Assembly could elect him in the afternoon to serve until April 1963, filling out the unexpired term of the late Dag Hammarskjold. However, some diplomats thought the council-assembly action would not take place until early next week.

The Soviet position has been that there should be seven principal advisers—American, Soviet, Latin American, African, West European, Eastern European and Asian.

The United States and its West European allies argued for only five—all those but the East European and Asian.

In the General Assembly's political committee, U. S. Delegate Arthur H. Dean said the United States would reject any U.N. call for a new voluntary moratorium on nuclear weapon tests.

Dean said that the voluntary, unpoliced moratorium proposed by India and five other nonaligned nations is doomed to be ineffective since without control machinery there will be no way to guard against violations.

"We believe the contemptuous actions of the Soviet Union clearly demonstrated that tests cannot be stopped by an uncontrolled, uninspected moratorium," the U. S. delegate declared.

A Soviet-bloc delegate, Milko Tarabanov of Bulgaria, opposed the moratorium on different grounds. He said nuclear tests could be banned only under an agreement on general and complete disarmament.

Such neutrons, various experts have suggested, could penetrate steel and several feet of concrete. Similar speculation has come from Soviet scientists.

Sen. Thomas J. Dodd, D-Conn., who is one of the Congress members urging resumption of U. S. testing in the atmosphere, said Wednesday the United States must press "every possible effort to convert the neutron bomb from a theoretical concept to a practical reality."

Dodd said work on the project had gone as far as it could go without testing when the moratorium on tests began in late 1958.

He added in a statement: "The neutron bomb would not only be a far more effective battlefield weapon than any now available to us, it would provide us with the most effective anti-missile warhead nuclear technology is today capable of producing."

Sen. Clinton P. Anderson, D-N.M., chairman of the Senate-House Atomic Energy Committee, who also has called for resumption of atmospheric tests, was quoted by the American Broadcasting Co. Wednesday night as saying the United States does not have a neutron bomb.

"If we resumed atomic testing tomorrow," he was quoted, "there are six or seven weapons we have to test, and the neutron bomb is not one of them."

The first thing to be done in any development of an N-bomb would be to find out the actual intensity of neutron radiation, its duration and other characteristics. For such preliminary research, atmospherical testing presumably would not be necessary. But the carefully controlled, closely contained conditions of an underground test could yield a vast supply of basic data.

These conditions, of course, would not be a full step toward "weapon effects" testing. That would follow in an air burst—well away from inhabited areas—under conditions approximating its use against troops, tanks and fortifications.

MISHAP SCENE—W. J. Ely suffered severe injuries when his car crashed into a bridge railing a mile west of Union this morning. (Staff Photo by Dick Roberts)

Over 100 Dead In Hurricane; Toll Expected To Rise

By MORRIS W. ROSENBERG

BELIZE, British Honduras (AP)—Rescue workers counted more than 100 dead and thousands homeless today in shattered Central American coastal towns ravaged by Hurricane Hattie. The death toll was expected to rise higher.

Harassed officials so far were unable to estimate the number injured by the hurricane which roared across this British colonial capital early Tuesday with tidal waves and winds up to 200 miles an hour.

Hattie destroyed or damaged an estimated 75 per cent of the buildings in Belize, a sea-level port of 31,000 which had little or no seawall protection.

The death list included 40 at Belize; 25 at Stancreek, the British colony's second biggest town; 20 on Turneffe Cay, and 14 on Caulker Cay, islands off the British Honduras Coast.

The Guatemalan government reported five killed in the jungle province of Peten which borders British Honduras. Another death was reported on Honduras' northern coast.

The hurricane broke apart against the mountains of British Honduras and water began to recede from Belize Tuesday afternoon. With the recession came the first flurries of relief supplies and first accounts of the violent storm which finally slammed ashore after following a meandering course across the Caribbean.

Gov. Sir Colin Thornley declared a state of emergency and placed the colony under martial law.

Police broke up mobs looting stores and arrested 20 persons. In the vanguard of the looters were some of the 200 prisoners released from the city jail as the hurricane approached.

Mountainous seas that broke over the city destroyed the prison.

Twenty-foot waves rolled into the ground floor of Government House, the governor's residence and official headquarters, and washed away all records.

"The extent of the disaster overwhelmed our estimates but there would have been a vastly greater number of casualties if advance arrangements had not been made," Thornley said.

"The British Honduras broadcasting system began relaying the Miami Weather Bureau hurricane reports from the moment the storm was in the area."

Food kitchens were set up and the distribution of medical supplies began. A tank truck toured Belize, distributing chlorinated water, the only safe supply in the city.

Thornley said it was impossible so far to determine the extent of the hurricane's physical damage.

"Right now we are busy doing all we can for the people," he explained.

Martin Rites Here Today

Funeral services were to be conducted at 4 p.m. this afternoon for Max Leon Martin, 26, who was killed in a one-car accident Sunday at Ft. Polk, La.

Mr. Martin, a reservist, had reported to his company in the 49th Division the day before.

Services were to be held at the East Side Church of Christ with Durwood Boggs officiating, assisted by Ray Bailey.

Mr. Martin is survived by his wife, Patricia Ann, his parents, Mr. and Mrs. John L. Martin of Snyder, and his grandfather, J. L. Martin, also of Snyder.

Pallbearers were to be Nordie Bayouth, Arnold Wallace, Corkey Houston, Tommy Graves, Buddy Drum and Bruce Max Evans. Honorary pallbearers were to be employes of Midwest Electric, employes of the Borden Co. and employes of Rainbo Bread Co.

The body was officially escorted from Ft. Polk by PFC Rook.

New Leads Sought In Slaying Case

HONDO, Tex. (AP) — New leads were being sought today in the slaying of a girl. Officers released an oilfield worker, 21, who had been quizzed.

The skeleton of Carolyn Covey, 14, was found on a ranch 8 miles south of here Monday. The eighth-grade teen-ager disappeared Feb. 14 while walking the six blocks from downtown Hondo to her home.

Caverns May Be Test Site

By ELTON C. FAY

WASHINGTON (AP)—The underground test caverns in Nevada may be the site for the first tentative experiments on the theory of a neutron bomb—sometimes referred to as a "death ray" bomb—which would kill without leaving wide destruction.

When preliminary field research might start or whether it had begun was a tightly held government secret.

But the theory of an "N-bomb" seemed to suggest that the first step would be to find out whether the nuclear reaction would behave in a test as has been worked out by slide rule, computers and projection of nuclear physics facts.

The theory is that a harnessed nuclear detonation can be made to produce a burst of intense radiation by high-speed deep-penetration, lethal neutrons—without creating the tremendous shock, intense heat and radioactive contaminations of present nuclear bombs.

W. J. Ely Is Injured In Road Mishap

W. J. Ely, 74, of 3109 Avenue U was injured this morning in a one-car accident about one mile west of Union on U.S. 180. He was alone in the car and traveling west when his car hit a bridge railing shortly before 10 a.m.

He was taken from the scene of the accident to Cogdell Hospital by Bell Ambulance Service. His condition was described by hospital officials as "critical." He is said to be suffering from possible fractures of the right leg and elbow, and undetermined internal injuries.

Ely was appointed by the Snyder City Council as one of the original board of directors of the Colorado River Municipal Water District. He served in that capacity for several years.

For many years he was a cotton gin operator in Snyder, starting in the ginning business about 45 years ago. He is a former president of the Texas Cotton Ginners' Association and for five years served as a director of the National Cotton Council.

Ely also has served on the tax equalization board for the City of Snyder.

Boy Dies While Climbing Tree

PHILADELPHIA (AP)—Christopher Murray, 10, told two friends Wednesday night he could climb higher than they could. Then he climbed a 35-foot pine tree but never came down.

Utility linemen removed his body from the tree. He apparently was electrocuted by a 2,400-volt wire within the reach of the tree.

1962 Loop Grid Slate Is Adopted

Snyder High School's Tigers will have two conference games at home and three on the road next fall, according to schedules approved here this morning at a District 3-AAA Interscholastic League meeting.

All district members will have one additional conference game since Brownfield has been added to the district.

Snyder will play new member Brownfield, along with Sweetwater, in Tiger stadium, while the locals must travel to the home fields of the other three members of the district.

The district schedule, which will be in force for two years, with the sites of games switched for the 1963 season, was determined by drawing.

Snyder's 1962 district schedule follows:

Oct. 26. At Lamesa.
Nov. 2. Brownfield at Snyder.
Nov. 9. Sweetwater at Snyder.
Nov. 16. At Colorado City.
Nov. 23. At Lake View.

Vincent Child's Service Pending

Funeral services are pending at Bell Funeral Home for Lavada Jean Vincent, daughter of Mr. and Mrs. Joe Vincent of 3211 Avenue A.

The child died at 8:35 this morning at Cogdell Hospital where she had recently undergone surgery.

Front Triggers Heavy Rains Here

Heavy autumn rains swept through the Snyder area last night as a timid cold front finally moved southward to clear the path for a stronger one moving down from the Rocky Mountains.

Rainfall, ranging from showers to heavy downpours, was reported all the way from the Panhandle into Central Texas.

Snyder had an official 2.04 inches to record one of the heavier falls over the state.

Rains of an inch or better were reported on to the southeast while Big Spring to the southwest had over two inches.

The Weather Bureau said a mild cool front which stalled in the state began pushing through during the night, triggering heavy rains at some points and bringing general moisture to the Panhandle Central, North Central and East Texas.

At the same time a new cold wave was bearing down on the state from the Rockies. It is expected to bring freezing rain or snow to the Panhandle by Friday and then move over much of West Texas during the day.

Scattered showers or thundershowers were expected over most sections of the state through Friday.

Temperatures dropped to 34 degrees at Dalhart in the upper Panhandle. Behind the cool front, temperatures generally were in the 30s to 50s, while ahead of it readings reached the 70s.

Other rainfall for the 24 hours preceding 6 a.m. Thursday included Amarillo and Lubbock .54 inch, Marfa 1.12, Alpine .78, Presidio .36, Abilene 1.06, Brownwood .95, Wichita Falls 1.24, and lesser showers at Austin, Corpus Christi, Victoria and Texarkana.

Also Del Rio .31, Junction .82, Mineral Wells .89, College Station .11, Burleson .55, Crandall .48, Ferris 1.20, Maypearl 1.32, Newport 1.15, Haskell 2.10, Rotan 1.90.

Central Texas Town Is Hit By Twister

By The Associated Press

A small tornado unroofed a barn Thursday at the Central Texas town of Rice as a new cold wave bore down on the Texas Panhandle.

Freezing rain or snow was forecast for the upper Panhandle by night with temperatures tumbling to 28 degrees.

C. F. Newman, a store worker at Rice, said the tornado dipped to ground at 6:30 a. m., unroofed a barn and carried the roof 150 yards, leaving it in the northbound lane of busy Interstate 45. A fence also was levelled. No one was hurt.

Newman said that three minutes later he watched a much larger funnel cloud ascend and descend for some time, but it never touched ground. Rice is 45 miles south of Dallas.

2 Americans Are Named For Nobel Prizes In Sciences

By CARL O. BOLANG

STOCKHOLM, Sweden (AP)—The Nobel Prize for physics was awarded jointly today to two atomic scientists, one an American the other a West German. The prize for chemistry went to an American for his research in photosynthetic, a basic life process. All three men are working in California.

Sharing the physics prize are Dr. Robert Hofstadter, 46, of Stanford University and Dr. Rudolf Moessbauer, 32, of Munich University, now at the California Institute of Technology. The chemistry prize went to Dr. Melvin Calvin, 50, of the University of California.

The prizes are worth 250,000 Swedish crowns — $48,300. The atomic scientists will split that amount. The awards complete the list of prizes for 1961.

Hofstadter was cited for his research into methods of controlling nuclear reaction to make it work for peaceful purposes. Moessbauer shared the physics prize for his work with gamma rays, one of the space hazards for man. His research may contribute to the safety of future manned flights into space.

Calvin's prize is for research allied to that of Dr. Willard Frank Libby, who won the prize in chemistry last year, the awarding body noted. Libby used carbon as a method of measuring the age of rocks and ancient plant material. His process is known as the eternal clock of the universe.

Broadly speaking, Calvin has tried to set the time when the clock was first wound up by his research into the assimilation of carbon dioxide in plants through the process of photosynthesis.

In his citation, the 140-member Swedish Royal Academy of Science said Hofstadter was honored for "his pioneering studies of electron scattering in atomic nuclei and for his thereby achieved discoveries concerning the structure of the nucleons."

This constituted one of the greatest steps toward harnessing the effect of a nuclear reaction and making peaceful use of atomic power possible.

Moessbauer was cited "for his research concerning the resonance absorption of gamma radiation and his discovery in this connection of the effect which bears his name."

The German scientist's work is of fundamental importance in all atomic research and is a factor in reckoning the chances for future space flights between planets when radiation of other kinds have to be overcome.

Your Postmaster says: Be sure your Christmas cards and packages arrive on time; please shop and mail early.

Test Moratorium Rejected By Reds

UNITED NATIONS, N.Y. (AP)—The Soviet Union today rejected any new U.N. moratorium on nuclear bomb testing as unfeasible in practice and fundamentally incorrect as an approach to ending such tests.

In a slashing speech before the General Assembly's main political committee, Soviet Delegate Semyon K. Tsarapkin charged time after time that the United States and the other Western powers were trying to drag the world into a devastating nuclear war.

"The threat of war can't be exorcised by resolutions," he declared. "It can only be removed by deeds—by one deed—general and complete disarmament."

The United States already had rejected the proposed moratorium, sponsored by India and five other countries, but on wholly different grounds. U.S. Delegate Arthur Dean said the United States could not accept an uncontrolled moratorium because there was no assurance that it would not be violated just as the Soviet Union resumed testing in violation of the 1958 moratorium.

Tsarapkin referred to the Western powers in such terms as "warlike maniacs." He charged that, in urging a test ban treaty, Western propagandists were "doing their dirty work to block the Soviet Union from completing its defenses" while the West prepares for war.

He said he believed the nonaligned countries were less concerned over the Soviet test bomb explosions than over "the terrible danger of the rocket and nuclear war which looms over us in all its terror."

Red Rebels Beaten Back

SAIGON, South Viet Nam (AP)—Communist rebels using "human sea" tactics were beaten back with heavy losses by South Viet Nam paratroops in a bloody battle in Phuoc Thanh Province, about 25 miles north of Saigon, a military spokesman said today.

More than 100 Viet Cong guerrillas were killed and a large number of lounded carried off by Communist forces retreating into the jungle after the Wednesday fighting, the spokesman said.

He said losses to the paratroopers were about one-third those of the rebels.

Three rebel battalions — about 1,000 men—took part in the ambush attack on the smaller paratroop unit, the military spokesman said.

The Viet Cong tried to overwhelm the paratroops with three mass assaults "like the 'human sea' tactics used by the Chinese Communists in the Korean War," he said.

Van Fleet Apologizes To Adlai; Says Data In Error

FT. MONROE, Va. (AP)—Gen. James A. Van Fleet has apologized to Adlai E. Stevenson for statements concerning the United Nations ambassador.

The general, who had been quoted as saying he would have fired Stevenson for his role in the ill-fated U.S.-supported Cuban invasion, said Wednesday night in a telegram to Stevenson: "My information from several sources regarding Cuba was evidently erroneous."

Van Fleet had been reported as saying Monday night in Lakeland, Fla., that U.S. air cover of the Cuban invasion was called off at Stevenson's insistence. Stevenson telegraphed Van Fleet on Tuesday, asking him to correct what he called a "totally false" statement.

"In view of your telegram, which I am glad to have," Van Fleet replied, "I stand corrected and am sorry for press statements, which were, in fact, not accurate and completely out of context."

The Tampa (Fla.) Tribune had reported Van Fleet also said Berlin and Laos were lost to communism, there was a 50-50 chance South Viet Nam would be lost and neither West Germany nor France will fight for West Berlin and the United States shouldn't fight for them.

In his telegram to Stevenson, Van Fleet said he had received Stevenson's wire from his Auburndale, Fla., office and that office was forwarding accounts of the meeting from both the Tribune and the Lakeland Ledger.

"I want you to know that the meeting was a small group in closed session and remarks were made in answer to questions submitted by personal friends after my main address covering water resources in Florida, and I was assured there would be no press coverage," Van Fleet said.

The Tribune, which declined comment on Van Fleet's telegram, disputed the contention Van Fleet spoke out during a question-and-answer period. The Lakeland Ledger had a representative at the meeting but did not publish anything on his remarks, saying Van Fleet's secretary had said it was a closed session.

Van Fleet's speech to the Natural Resources and Waterways Committee in Lakeland occurred the day he was brought out of retirement to become a part-time consultant to the secretary of the Army on Reserve combat readiness and antiguerrilla training.

WEATHER

SNYDER TEMPERATURES: High Wednesday, 75 degrees; low, 49 degrees; reading at 7 a. m. today, 49 degrees; precipitation, 2.04.

North Central Texas: Mostly cloudy with scattered showers and thunderstorms today and tonight, ending Friday. Turning colder in west and north tonight and in southeast Friday. Low tonight 39 in northwest to 59 in southeast. High Friday 64 in northwest to 80 in southeast.

Northeast Texas: Mostly cloudy with scattered showers and thunderstorms today and tonight, ending Friday. Turning colder Friday and in extreme northwest late tonight. Low tonight 50 in extreme northwest to 66 in southeast. High Friday 55 in northwest to 75 in southeast.

Northwest Texas: Turning colder in Panhandle tonight. Scattered showers and thunderstorms today and in south tonight. Occasional rain in Panhandle late today and occasional freezing rain or sleet in upper Panhandle tonight, ending Friday. Friday mostly cloudy and colder. Low tonight 28 to northwest to 52 in southeast. High Friday 40 in northwest to 55 in southeast.

Coast: Small craft warnings are displayed Southerly winds 20-25 knots today and tonight, shifting to northerly Friday.

South Central Texas: Cloudy today and tonight with scattered thundershowers in east and most coast, turning colder in interior of north section tonight. Friday cloudy and colder with thundershowers, ending by noon. Low tonight 50-63 in interior to 66 to 74 along coast. High Friday in 60s to 70s.

Southeast Texas: Mostly cloudy with scattered thundershowers today and tonight turning colder in northwest Friday, clearing and colder with thundershowers ending by noon. Low tonight in 50s in interior to 70s along coast. High Friday in 70s near coast and 60s elsewhere.

Southwest Texas: Cloudy to partly cloudy today, clearing and turning colder tonight. Friday fair and colder. Low tonight, 35-38 in north and 50-65 in south. High Friday 65-80, except in 70s in extreme southeast.

Drive Is Launched To Broaden Trade

By EDMOND LEBRETON

WASHINGTON (AP)—A drive for re-enactment and broadening of the reciprocal trade program—one of the toughest tasks facing President Kennedy's legislative lieutenants—has been launched with the help of officials from three administrations.

Recommendations for "a giant step" away from remaining restrictions on international trade and a trade partnership with the Common Market, the potent new economic entity in Europe, came from Christian A. Herter, a secretary of state in the Eisenhower administration, and from William L. Clayton, undersecretary of state for economic affairs in the Truman administration.

And the Kennedy administration spoke in more the same terms through George W. Ball, undersecretary of state for economic affairs.

Ball, in a speech Wednesday night for a trade convention in New York, called for "open competitive trading" and assailed what he termed the defeatism of those who unduly feared competition with the Common Market.

The Reciprocal Trade Act comes up for renewal next year with sentiment for protecting U.S. industries against foreign competition apparently stronger than at most times during the past several decades.

Ball, whose speech was understood to have been approved by President Kennedy, also said the President should have authority to make "much broader and more ambitious bargains on behalf of United States industry" and that there must be a basis for an open trading world extending beyond the Common Market.

He also said the federal government should be empowered to help industries which cannot stand up to foreign competition. They should have special assistance in transferring both labor and capital into other fields, he said.

Among the broadening changes recommended by Herter and Clayton was specific authority for the President "to negotiate tariff reduction across the board in place of his present authority to negotiate item by item."

They called also for a trade partnership with the Common Market and leadership by the United tates in creating a free worldwide economic community.

The Herter-Clayton report was submitted by invitation of a Senate-House Economic Subcommittee.

Rep. Hale Boggs, D-La., chairman of the subcommittee, welcomed the pronouncements.

"There's going to be a battle next year on continuing the reciprocal trade program no matter what," Boggs said. "We may just as well press ahead for improvements. It will be just as easy to get a program that makes sense as one that wouldn't do anything."

Boggs applauded Ball's suggestion for special assistance to industries which cannot stand up t. foreign competition. Boggs said some members of the House Ways and Means Committee, of which he is a member, are thinking along those lines.

Doubts expressed by Sen. Roman L. Hruska, R-Neb., foreshadowed some of the arguments supporters of the program will have to face to keep it alive beyond next June 30 to say nothing of broadening it.

"The theory is fine," Hruska said in an interview, "but as it has worked it seems as though we do the tariff cutting and other countries then take refuge in import quotas and restrictions. We can't get into Germany with any agricultural products whatever—and that's one of the things we need most to move. The textile industry is in trouble from foreign competition, and there are many others."

In Japan, Secretary of Agriculture Orville L. Freeman said, "The welfare of the American farmer is in a liberal trade policy."

Freeman, joining other members of U.S.-Japan cabinet level conference, acknowledged there is strong protectionist sentiment in the U. S. textile industry, but said he felt it would be overcome.

Cox Urged To Make Race For Governor

AUSTIN (AP) — Jack Cox of Breckenridge was asked Wednesday by a group of Texas conservatives to run for governor next year. Cox is a probable candidate for the Republican nomination.

The informal "conference of conservatives" met at the request of former Gov. Coke Stevenson and Mrs. Dan Moody, wife of another former governor.

The group's statement to the press made no mention of Cox's party affiliation. He recently announced his "resignation" from the Democratic party and his intention to work in the Republican party. Cox ran unsuccessfully against Gov. Price Daniel last year for the Democrats' gubernatorial nomination.

Mrs. Moody said the Kennedy administration's "new frontier" is "nothing more than a prison camp whose inmates are being duped into surrendering their personal rights and liberties."

Those who signed the resolution included:

Abilene: Price Campbell, Dick Elam, George Hall, John A. Mathews, Hal Sayles, Cryteher Scott, Don Wooten.

Alpide: Gene Hendryx and Hugh White.

Amarillo: John G. O'Brian.

Big Spring: John Curry and Al Milch.

Borger: G. N. McDaniel.

Breckenridge: Lester Clark, Earl V. Green, Bill Pitzer, J. D. Sandefer Jr.

Brownsville: Sen. Hubert Hudson, James Stillman, Fausto Yturria Jr.

Graham: Bruce Street.

Harlingen: Frank Boggus, Clyde Fincher, Frank Flynn.

Kilgore: Jack McCubbin.

Lamesa: G. K. McDonald.

McAllen: P. D. Terrell.

Midland: Mr. and Mrs. George T. Abell and Mr. and Mrs. Tom Lineberry.

Palestine: James R. Paxton.

San Angelo: Frank Gartley and Ed Mayer Jr.

Sherman: Harry M. Shytles Jr.

Sweetwater: Moe Reich.

Vernon: R. H. Coffee.

Waco: Jarrell McCracken.

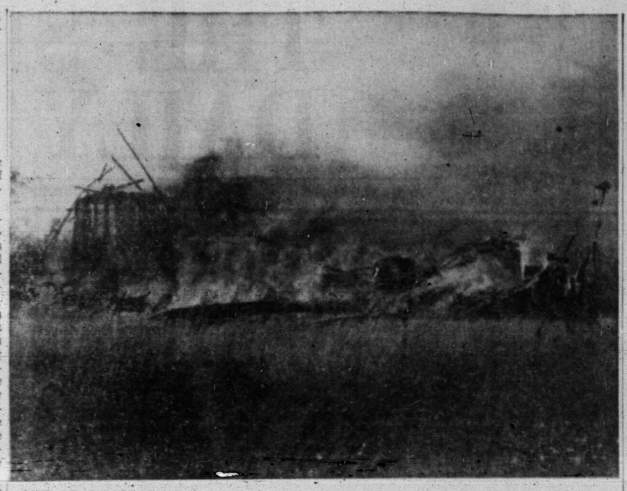

Wichita Falls: N. Ay Steed.

Cup Of Hot Water Is 'Elixir Of Life'

LOUISVILLE, Ky. (AP)—For "Aunt Ginny" Rankin, the elixir of life is a cup of hot water every morning before breakfast.

"The best thing in the world for you," says "Aunt Ginny," Miss Virginia Rankin.

She will be 103 years old Monday.

OUT OF CONTROL—City firemen were unable to do more than stand by and prevent flames from spreading at this blaze Wednesday, which destroyed an unoccupied house in the 2200 block of Eleventh Street. Firemen were called to the scene during the noon hour. (Photo by Jackson)

Icy Winds Lash Colorado Areas

DENVER (AP) — Icy winds lashed Colorado today as a Canadian cold wave moved southward through the Rocky Mountains.

Winds as high as 60 miles per hour in gusts whipped snow into ground blizzards, closing schools at 12 northeast Colorado towns. Buses were stranded because of poor visibility.

Temperatures dropped sharply during the night and continued their downward plunge today.

TODAY'S MARKETS

FORT WORTH (AP) — Cattle 1,800; calves 200; bulk for auction steady; good and choice steer and heifer yearlings 22.00-24.00; standard and good heifers 20.00-22.00; cows 14.00-16.50; standard and good calves 20.00-23.50; medium and good stock steer calves 22.00-23.50.

Sheep 400; steady; good and choice lambs 16.00, utility and good 12.00-14.00; ewes 5.75-6.00.

Hogs 50; steady; top 16.00-16.50.

CHICAGO (AP) — Butter unchanged. Eggs unchanged to 1 higher; A whites 36-37; mixed 36½; mediums 36; standards 35.

NEW YORK (AP)— Cotton was unchanged to 40 cents a bale lower at noon today. December 34.49, March 35.34, May 35.64.

Relatives Attend Mrs. Davis Rites

Mr. and Mrs. Frank D. Stephenson returned last night from Dimmitt where they attended the funeral of Mr. Stephenson's aunt, Mrs. Mary J. Davis, 82.

Mrs. Davis was the twin sister of Mrs. J. L. Stephenson of Snyder. She was born in Virginia in 1878 and moved to Texas as a small child. She was married in Snyder in 1905 to John S. Davis. They moved to Dimmitt in 1925. Mr. Davis died in 1950.

In addition to her sister Mrs. Davis is survived by three children, four grandchildren and three great-grandchildren.

Vehicles Damaged In Mishap Here

The Snyder Police Department reported an accident last night at 6:44 at Thirty - seventh and Noble Drive. Involved was a 1955 Mercury driven by Barbara D. Hudgins and a 1962 Comet driven by J. R. Luttrell.

The Hudgins car received an estimated $150 damage and the Luttrell car, $200. No injuries were reported.

The police department also reported a rash of bicycle "findings and losings." Five bicycles were reported lost yesterday, and four found. None, however, of the found bikes were those which had been lost.

LBJ To Campaign For Sen. Gonzalez

SAN ANTONIO (AP) — Vice President Lyndon Johnson will come to San Antonio tonight to campaign for Democratic congressional hopeful Henry Gonzalez, Gonzalez headquarters said today.

County Commissioner Albert Pena Jr. said Johnson will address a rally at Democratic headquarters and will remain in San Antonio overnight.

The vice president plans to stop briefly at his ranch near Johnson City, north of here, before flying to Lubbock for a speech at Texas Tech Friday night, Pena said.

Voters will name a successor Saturday to Rep. Paul Kilday, a Democrat, who resigned to become a federal judge.

BRIDE HONORED—Mrs. Gene Kea, the former Dorothy June Payne was honored with a gift tea recently in the home of Mrs. Jimmie Cornett, 2208 Forty-first Street. Pictured above from left are: Mrs. A. D. Browning, aunt of the bride, Mrs. Gene Kea, and Mrs. T. W. Kea, mother of the groom.

Coat-Dress Back In Fashion News

By JEAN SPRAIN WILSON
AP Fashion Writer

NEW YORK (AP)—When spring comes, remember not to ask a lady to take off her coat. For, if it bears a Monte-Sano label, she may not have a dress under it.

And, if designer Monte-Sano's line becomes the vogue by then, her neckline will never have been so low.

And it will be the fashion. Editors who witnessed a preview of his coat and suit collection today can vouch for that. The so-called fashion intellectuals applauded the line as the biggest news thus far in the spring fashion market.

While necklines on evening gowns, day costumes, and coats plunge to new depths, waistlines reach new heights. And very often they meet in a surprisingly lady-like way.

The couturier claims he was under the spell of Japanese plum blossoms, silk trees and flying cranes when he created what he calls the Obi silhouette.

Suede, kidskin of fabric belts nearly a foot wide span the back and curve upward under the bosom where they knot, belt, or tie. Also a part of the Obi idea are sleeves dropped to the elbow, and skirt panels. Front fitted jackets and coats are gathered on back yokes giving them kimono widths.

Occidentally on purpose the oriental influence stops there and begins to look like Paris. To add to this international complication, suits and coats are made of cobwebby wools from France, airy crocheted weaves from Italy and England and lacy textured woolens from Scotland.

Some of mohair coats are shaggier than Rip Van Winkle. Others are hundreds of white puffs, like marshmallows, strung together.

These are called coat-dresses, indicating you can use them either way. Lapels are wide on necklines that scoop down in back and really take a dive in front. But they are belted so close to the body that you wouldn't dare wear anything underneath more bulky than a petticoat.

Monte-Sano's models walk like question marks. That is, their shoulders are rounded like the subservient ladies of the Orient, a posture which adds emphasis to the scooped low necks. They thrust their stomachs forward in a maternal way, the better to show off their high waistlines.

Swinging from these rounded shoulders are jackets with cape-like backs. Other jackets wrap around to the front at the hipline.

Unruffled by the current rage for them, the young designer has but a single ruffle in his collection. The frivolity of that one is diminished by the fact that it decorates black silk crepe.

As a matter of fact, most of Monte-Sano's little evening dresses are long, sober drinks of black coffee. Obi sashed at the high middle, minus sleeves, and with a neckline that doesn't know where to stop.

To give vanilla pudding a luscious topping, sift light brown sugar over it before serving. Broil, watching carefully and turning, just until the sugar caramelizes. Tap the crisp crust with a spoon for easy serving.

Jellied Maindish Salad Ideal Luncheon Fare

With the increasing tempo of holiday entertaining starting with Thanksgiving, extra calories soon begin showing on a lot of gals.

If you want to win the undying gratitude of your bridge or luncheon guests during the season, you'll offer them a simple, pretty salad as a maindish occasionally.

A new salad that has a holiday appearance yet is surprisingly modest in calories is this jellied turkey cranberry mold. Skim milk is the ingredient that helps cut down on calories.

Skim milk is a handy ingredient to use in recipes when you want to keep the calories low and flavor and nutrition high. Only the butterfat has been removed from skim milk; all of the essential vitamins and minerals and proteins remain.

Turkey Cranberry Salad
(Nine servings)

2 tablespoons plain gelatin
1¾ cups skim milk
1 teaspoon salt
½ cup cooked salad dressing
2 cups cubed, cooked turkey
1 cup chopped celery
¾ cup cold water
¾ cup lemon juice
1 (1 pound) can whole cranberry sauce

Soften 1 tablespoon gelatin in ¼ cup skim milk for 5 minutes; dissolve over boiling water. Add remaining milk and salt. Chill until thickened. Beat until frothy. Fold in dressing, turkey and celery. Spoon in 8-inch square pan. Chill until partically set. Soften 1 tablespoon gelatin in water. Dissolve over boiling water. Add lemon juice and cranberry sauce. Spoon over first layer. Chill until firm.

WOMEN'S CALENDAR

THURSDAY

Family night at Snyder Country Club.

Snyder Garden Club fall flower show from 3 to 6 p.m. Mrs. Frank Miller, chairman. Show will be held in the homes of Mrs. J. R. Huckabee, 2809 Thirty - fifth and Mrs. J. T. Hughes 2908 Thirty-fifth Street.

First aid course at 7:30 p.m. at Martha Ann Woman's Club.

Gamma Upsilon chapter of ESA meets at 7:30 p.m. for pledge ceremony with Charlice Roberson at 2107 Fortieth Street.

FRIDAY

Altrurian Club meets at Martha Ann Clubhouse with Mrs. C. T. McLaughlin, hostess.

El Feliz Club will meet at 2:30 p.m. at Mary Lynn's Tea Room with Mrs. Walt Scott, hostess.

SATURDAY

Delta Kappa Gamma regional meeting at Sweetwater.

SUNDAY

Sunday luncheon at Martha Ann Woman's Club for members and their guests. Reservations by 5 p. m. Saturday.

Here's a delicious dip for holiday entertaining. Blend 2 tablespoons prepared horse-radish into 1 cup creamed cottage cheese. Spread on slices of smoked salmon and rollup. Cut into inch widths and seal with picks.

• • •

To make creamed potatoes with a tang, cut leftover cooked potatoes into thin slices and stir in about as much thin cream as potatoes. Heat through over low heat and fold in a few tablespoons of dairy sour cream; salt and pepper to taste.

Adult Girl Scout Leaders Attending Meet In Dallas

Nearly a thousand adult Girl Scout leaders from Texas, Oklahoma and New Mexico are taking a new look at themselves and the world they live in at the Girl Scout Region IX Conference in Dallas this week.

Dr. John Furbay, director of the Global Education Program of Trans - World Airlines, keynoted the three - day meeting Wednesday by outlining four human dreams for which the systems of the Free and Communist worlds are competing. Thursday, the adults, conference participants, including nearly 100 selected Senior Girl Scouts, discussed the way Scouting looks to them, how it looks to others in the communities which they serve, and then ways of painting a clearer portrait.

The four human dreams which Dr. Furbay separated out of the world's unrest were world peace, a decent standard of living, self-government and that of human dignity. In all cases, Dr. Furbay said, the Communists are trying to sell the uncommitted nations a bill of goods in claiming that they have the answer to these age - old demands, and that the capitalist system has brough the world nothing but war.

The free world's answer to this, he said, is an unsurpassed technology of food production, a United Nations devoted to international law and order which can provide a climate in which new and old nations alike can work out their differences, and recognition of the world - wide problem of second - class citizenship.

There have been twenty - six new countries formed since the war, Dr. Furbay said, and "all of them are proud of their independence, and they are determined to keep it. Now, this being the case, we are going to have to stick with them. It's kind of tough on the 'old people' to watch these adolescents grow up, because they make a lot of mistakes which we wish we could help them avoid, but they have to go through them."

The Girl Scout regional conference is held every three years and is devoted to program topics of immediate concern to adult Scout leadership. A highlight of the conference program will be the latest information on the forthcoming major program revision.

In addition to three national staff members attending, special guests include Miss Louise Wood, new National Executive Director; Mrs. Frank Weil of New York City, and Mrs. Herbert Schukle of Baltimore, Maryland, members of the National Board of Directors. Mrs. Clayton Malone of Weslaco, Texas is Regional chairman.

Special events such as ceremonies by Girl Scouts and reunion luncheons have been included in the program, and the closing talk will be given by Mrs. Schuckle, Friday afternoon.

Mrs. Hooker Hostess To Ira H-D

The Ira Home Demonstration Club met Oct. 27 in the community center with Mrs. J. D. Hooker, hostess.

The thought for the day was The best place to find a helping hand is at the end of your arm".

The program was presented by Mrs. Floyd House on emergency meals in case of a flood, storm or disaster. She gave a guide sheet to serve 100, and discussed what type menu to serve with what food you have on hand or could get quickly.

The group voted to have a joint meeting with County Line Club on Nov. 10, with the program on "Services of Your Bank".

Cookies and lemonade were served to Mrs. Billy Calley, Mrs. Floyd House and Mrs. Welden Wiggins by Mrs. Hooker.

KNAPP NEWS

By MRS. BEN WEATHERS

Mr. and Mrs. Ben Spradling and three children were weekend visitors of home folk at Girard.

Mrs. Melton Davis entertained her Sunday school class with a party Saturday night in her home at Lake J. B. Thomas.

Mrs. Bill Dunlap and Nova James were in Lubbock Monday.

Mrs. John L. Whitmire of Luther visited a short while in the Doyle Lovell home Monday. The two ladies later shopped in Snyder.

Melton Davis, Vernon Todd, Halley Brown, Fred Mitchell, D. L. Bowles, Albert Taylor, Doyle Lovell, Wayne Crow, Ben Weathers, Nova James, Jackie James, Dunlap, and Spradling families and others attended the Halloween carnival at Gail Tuesday night.

Ben Weathers and wife visited Wednesday in the Cora Weathers home at Snyder.

Homemade applesauce, flavored with lemon or orange rind, is utterly delicious served with vanilla ice cream.

4-H Girls Named In Food Show

The Scurry County 4-H Clubs held their first Favorite Food Show in the Barn in Towle Park Saturday.

Entries brought a card table, and set one place setting to serve the food they had chosen as their favorite food. They also displayed a serving of the food which they had prepared, the menu they selected to serve it with, and a suitable centerpiece.

Girls entering the fruit and vegetable section were Brenda Murphy, Darlene Tate, and Martha Stephens of Union 4-H Club, and Linda Wiggins of Ira Jr. 4-H Club. All received blue ribbons.

Gayle Thornburg, Plainview 4-H Club was a blue ribbon winner in the meat division.

Lou Alice Mathis won a blue ribbon in the cereal division.

Judges were Mrs. Bryce Fuqua and Mrs. Tommie Preston for the exhibits, Mrs. Vernon Browning, Mrs. Guy Stoker, Mrs. Jack Hudgins, and Mrs. Buford Light for record books.

Cowboys In Banner Year

DALLAS, Tex. (AP)—The Dallas Cowboys have exceeded their coach's schedule and there are some faint hopes that they might figure in the National Football League championship in their second season.

Coach Tom Landry said "I never dreamed we would have four victories this early."

The Cowboys meet the St. Louis Cardinals here Sunday just two games out of first place in the Eastern Conference of the NFL. The Cardinals are a notch below Dallas.

Philadelphia, leading the East with a 6-1 record, hosts the Chicago Bears while Washington will be at New York and Pittsburgh at Cleveland. Green Bay, topping the West with a similar record, clashes with Baltimore at Baltimore while Detroit will be at San Francisco and Minnesota at Los Angeles.

"We were very fortunate in getting boys like Amos Marsh, Don Perkins and J. W. Lockett," said Landry. "We also were fortunate in being able to play a team that was in our position the first year —the Minnesota Vikings. We beat them both times. They were new and had to have that first year of adjustments like we did last season."

Dallas didn't win a game in 1960, as it made its first appearance in the tough pro league. But before this season started Landry declared that he felt he would be able to take the field on an even basis with virtually every club in the league.

It has worked out that way and the Cowboys have won four while losing three, their biggest conquest coming last Sunday when they went to New York and edged the Giants 17-16. Two weeks before New York whipped Dallas 31-10 at Dallas.

Landry has said a team has a better chance of winning the second time around.

Important Battles On Tap This Week

By HAROLD V. RATLIFF
Associated Press Sports Writer

The first big crucial week of the Texas schoolboy football campaign will determine at least a fourth of the 96 district championships and sorely press a half-dozen of the 31 remaining undefeated, untied teams.

The upper divisions—Classes AAAA and AAA—will decide few titles but will prepare for the showdowns. The big game is that which matches defending champion Brownwood of Class AAA with Breckenridge.

Breckenridge, once a power but in a slump last year, is making a strong bid to return to the sun. Victory over Brownwood could put Breckenridge in the driver's seat in District 4 although Mineral Wells also is tied with the two for the lead.

In Class AAAA two of the three teams tied for the District 5 lead clash when Fort Worth Paschal meets Fort Worth Carter-Riverside. The third is Fort Worth Arlington Heights, which plays an interconference game with Class AAA Sweetwater.

Spring Branch and Houston Jones battle for the top rung in District 10.

Class AAA may decide one championship. Should Lakeview beat Lamesa it will become the playoff representative of District 3.

One title already has been determined and 11 more go on the line this week in Class AA. Hamilton is the team that has clinched its district championship.

Class A has two champions certified—Rotan and Crowell—and will name possibly 10 more this week.

Twenty-eight of the undefeated, untied teams have games.

In Class AAAA there are only five—Ysleta, Ysleta Bel Air, Wichita Falls, Fort Worth Paschal and Houton Milby. Only Paschal appears in grave danger. The Panthers might run into trouble with Carter-Riveraide.

Class AAA has three unbeaten, untied teams—Belton, Silsbee and San Benito. Belton might get its come uppance. It plays Cleburne in a fight for the undisputed leadership of District 9.

Class AA's list 11 unbeaten, untied teams are all in action except Sonora. Defending champion Albany meets Brownwood Early, able to sew up the district title with the victory that is expected.

Class A's 11 unbeaten, untied teams are all in action except Sonora. Defending champion Albany meets Brownwood Early, able to sew up the district title with the victory that is expected.

Tripleheader Pits Lamar, Lamesa Here

All three Lamar Junior High Texan outfits will parade their wares before the home folks here tonight on the junior high gridiron when Lamesa's Whirlwinds will furnish the fodder.

All three games will be "first timers" for the six teams concerned, as none have met previously during the current campaign.

The featured tilt will see the Texan 9th taking the field at 8 p.m. to do battle with the Lamesans. Lamar's senior gridders will carry a 5-2 record into the fray, with their only losses being dealt them by Sweetwater and Big Spring Runnels. In their most recent outing, the Lamar lads played their finest game of the year in toppling San Angelo Lee, 20-12.

The Texan 8th graders will hold the spotlight beginning at 6:30 p.m., when they will be trying to add the Lamesans to their already admirable string of defeated foes. The Texan eleven is 5-1 for the season, their sole loss being at the hands of Runnels. The Snyder club is at present riding the crest of a four-game winning streak, also, their tough defenses having given up only three touchdowns over that four-game span.

Lamar's first-year men are to initiate home action of the evening when they tackle Lamesa 7th at 5 o'clock. Lamar is all even for the year, having won two, dropped two, and tied one.

Rounding out the full slate of activity for the night will be the Travis Junior High Blue Devils, who take to the road for a trio of contests.

The Blue Devil 8th and 9th are both in Big Spring for the purpose of engaging Runnels at 5 and 6:30 p.m., respectively. Both Travis teams are once-beaten, with the eighth graders standing 5-1 and the ninth grade eleven 6-1.

The only remaining unbeaten and untied team within the city—Travis 7th—will be in Colorado City seeking the team's sixth victory running. All the Blue Devil wins have been by top-heavy scores, with no opponent to date having been able to come any closer than 22 points of them. Game time in that one is 5:30 p.m.

Ted Kluszewski of the Los Angeles Angels likes Baltimore pitching. Five of his first seven home runs this spring were hit off Oriole pitchers.

Johnny Green, 6-foot-5 cornerman, will be back with the New York Knickerbockers for his third season next fall.

BOB PENA

Between You And Me

BY JERRY JACKSON

Sweetwater coach Murry Holditch, who is finding the 3-AAA sledding a little tough in his freshman fling, summed it up very well after taking a 28-8 licking from Snyder by telling his Quarterback Club members that, "They were high and we were down."

A little further along in his comments, he absolved his team members with the statement that, "I take full blame for the loss," then went on to say that he considered Snyder to have a better team than Lamesa. The Lamesans edged out his Mustangs in the district opener, 7-6. That defeat—coupled with Snyder's resounding walloping—has dropped Sweetwater out of the running for the district flag.

The Tiger coaching staff and all the team members are to be commended for their Friday showing, and a large following of local fans should be making plans to take the hop to Colorado City this coming Friday for the Tiger-Wolf clash.

If past performances hold true, Snyder will have its hands full to overflowing when it takes on the Wolves, who make it a point to be ready for the Tigers on nothing more than general principles. Victory is essential to both clubs, who are once-beaten, in order to keep possible title hopes alive.

It's an unusual kettle of fish, to say the least, to see perennial powerhouse Sweetwater fallen by the 3-AAA wayside after playing its first two district games. That 7-6 edging as handed the Mustangs by Lamesa put them off on the wrong foot, then the battering as dealt them the week following in Snyder served as the clincher.

The district—since the most recent re-shuffling going into the 1956 season put it in its present recognizable form—has been dominated by Snyder and Sweetwater from the outset. That first year — 1956—saw the Tigers romping through an undefeated and untied season in waltzing to the district throne room.

The following two seasons the Mustangs nailed down the title outright. Which leaves only 1959 and 1960, when both Snyder and Sweetwater emerged with a one-third share of the crown along with Lamesa and Colorado City, respectively.

Here on the eve of the C-City contest, Snyder fans may be encouraged to know that the locals are as sound physically as they have been at practically any phase of the season. Coach Horrace Bostick mentioned here Wednesday that fullback Bob Pena has still not returned to workouts dut to a knee injury Thus, only he and tackle Jackie Stewart—who was earlier sidelined for the year when he received a broken leg—are expected to be unavailable for duty when the Tigers take the field Friday.

In the meantime, it might be well to cast a whammy the way of Lake View, which is in the admirable position of being able to sew up a title tie should it whip the Tornadoes in Lamesa tomorrow night. Also, a win over the Tors would assure the Chiefs a playoff berth, in that they would have beaten all three of the other possibles in the forms of Lamesa, Snyder, and Colorado City.

Now, assuming that Lake-View should lose to both Lamesa AND Sweetwater, and Snyder should beath both Colorado City AND Lamesa, Then...

But, I can't go on!

Pena Veteran Backfield Ace For Tigers

Bob Pena, only a junior, but still in his third year as a Tiger varsity performer, is not expected to see any action tommorrow night in Colorado City due to a knee injury as suffered three weeks ago in a game against Levelland.

The letterman fullback, who is 17 years old and weighs 165, has already contributed immensely to the Tiger effort earlier in the season, however, and could conceivably be ready for duty next week when Lamesa comes to town for the final regular season contest of the year for the Snyder club. He is firmly entrenched as third leading rusher on the team in spite of missing the last two contests and most of another game due to injury.

Tabulations show him to have gained a total of 226 yards on 61 carries for an average of 3.6 yards per attempt.

Born in Karnes City, he is the son of Mr. and Mrs. Martin Pena of Route 2. His father is a farmer.

He acquired the first two years of his elementary schooling in Ira prior to enrolling at East Elementary in the third grade. He has attended school in the Snyder system since that time.

His college preference is Texas Tech.

Rules, Code Of Conduct In Offing

NEW YORK (AP)—Three new rules and a code of conduct for coaches will be in effect when the college basketball seasons opens next month.

The changes were recommended by the National Association of Basketball Coaches and adopted by the National Basketball Commitee of the U.S. and Canada last March.

They will:

1. Eliminate free throws when a foul is called against a player on offense and in control of the ball. The fouled team will be given possession of the ball out of bounds as is now done in the professional leagues.

2. Stop the clock after every violation in order to give coaches greater opportunity to make substitutions.

3. Create a neutral and buffer zone along the free throw lane to separate the first and second players by a foot when they line up for free throws. The rule makers felt this would tend to lessen shoving.

Under the new conduct act, officials are instructed to penalize coaches or players on the bench who persist in stomping, throwing towels or committing other acts considered unsportsmanlike.

The 1962 Big Ten indoor track championships will be held at Michigan State in East Lansing next March 2-3.

Michigan, 1962 Big Ten baseball champion with a 10-2 record, was second in team batting with a .262

Brown Fighter Of The Month

NEW YORK (AP) — World lightweight champion Joe Brown was named "Fighter of the Month" by Ring magazine, which announced its monthly ratings today.

Brown successfully defended his title with a unanimous decision over Bert Somodio, junior welterweight champion of the Orient, last week. It was his fifth championship defense, a division record.

Among those who moved up in the ratings was Sugar Ray Robinson, who defeated Wilfie Greaves and Danny Moyer in his comeback drive for a shot at the middleweight crown. The former 160-pound king advanced a notch from fifth to fourth, exchanging places with Florentino Fernandez of Cuba.

In the heavyweight class, George Chuvala of Canada, who lost on a foul to Joe Erskine of Wales, fell from eighth to 10th. Cleveland Williams of Texas moved up to eighth and Tom McNeeley of Arlington, Mass., who is scheduled to fight champion Floyd Patterson for the title Dec. 4 advanced to ninth.

Sonny Liston remained the No. 1 challenger for Patterson's heavyweight crown, followed by Eddie Machen and Henry Cooper. Former champion Ingemar Johansson was listed fifth.

Stars 'Spread Out'

DALLAS (AP)—Southwest Conference highs for the season show no team or player dominating but some excellent marks are being made.

Texas Tech's Coolidge Hunt appears twice, with the most rush plays, 26, against Texas Christian and 26 against Southern Methodist. Hunt also holds the single game record in most yards gained rushing, with 117 in the SMU game.

Baylors' Bobby Fly leads in most yards gained passing with 163 made in the Texas Tech game. He also leads in most yards total offense with 175 (12 rushing, 163 passing) made also in the Tech game.

James Saxton of Texas has made the longest run—a 62-yarder vs. Tech. Teammate Ray Poage made a 56-yard dash against California to place second.

Doug Cannon of Tech has the most passes attempted—24—and the most completed—13. This record was attained against Texas. A 62-yard pass from Sonny Gibbs of TCU to Pete Hill was the longest, with a 58-yarder from Duke Calisle to Bobby Nunis of Texas, second.

Bob Witucki of Tech has caught the most passes in a single game—six in the Texas tilt.

TCU's Dale Glasscock made the most yardage on passes in a single game with four for 101 yards against A&M.

A&M's Ronnie Brice made the longest interception run—62 yards—against Trinity.

Lance Alworth of Arkansas made the longest punt—72 yards—in the Mississippi game.

Jerry Spearman of TCU and Mike Clark of A&M are tied for the longest field goal—36 yards.

SMU's Tom Sherwin made the longest punt return, 55 yards, and Billy Gannon, the longest kickoff return 39 yards. The most touchdowns in a game—3—were made by A&M's Travis Reagan in the Trinity game.

In single game team records, Texas placed first in four categories. The Longhorns lead in rush plays, 75; most yards gained rushing, 391, against Tech; most yards gained passing, 175, in the Washington State Game; and most yards total offense, 548, vs. Tech.

A&M made the most first downs in a single game—27, against Trinity. A&M also has the most pass interceptions — 4 — against Trinity in the game in which A&M scored 55 points, earning it the most points scored, too.

Tech has the most passes attempted—29—and the most completed—15—both in the Texas game.

Rice made the most punts—11—in its game with Louisiana State, but A&M holds the best punting record, with 43.7 yards average against Tech.

Deer Hunting Info Offered

Planning to head for the South Texas hill country on a deer hunting escapade?

If such be the case then it could prove to be profitable to check by the Snyder Chamber of Commerce office, which recently received listings on deer leases in the Mason - Alpine area.

A wealth of pertinent information is available to those hunters desiring it, reports manager Woody Forrester.

Bluebonnet Scouts To Be Busy Boys

HOUSTON (AP) — Six scouts representing the Bluebonnet Bowl will attend the Mississippi-Louisiana State game in Baton Rouge Saturday looking for prospective teams for this year's Bluebonnet Bowl.

"We'll step up our visits with prospective teams from now on," said Bob Abercrombie, president of the bowl. "We want to visit with the leading teams each week."

Indoor Meet Slated

HOUSTON (AP) — Houston will host its first indoor track and field meet Jan. 21 at the Sam Houston Coliseum.

Area AAU officials said Wednesday nine universities are entered. They are Rice, Houston, Baylor, Texas, Texas A&M, Southern Methodist, Texas Tech, North Texas State and Texas Christian.

Coach Cap Shelton of Howard Payne has been named referee for the meet.

Area Slate Crammed With Friday Games

A number of games of importance grace the Friday firing schedule within the Snyder area, including one homecoming contest.

The Gail Coyotes, undefeated in district play and winners of seven of eight games during the current campaign, will be entertaining Pettit at 7:30 tomorrow night in the featured homecoming clash, an eight-man district duel.

The Hermleigh Cardinals hit the road for Roby and a conference joust with the Lions of that community Friday night, where a loss by either club will spell virtual elimination from the Class 6-8 race. The Cards, defending regional champs, may boast of two wins and a tie in district play, while their season record stands at four victories, three losses, and a tie.

Two six-man frays will round out the area's round of Friday play, both District 5 encounters. Ira's Bulldogs (6-2) are to play host to the Divide Trojans, while the Hobbs Panthers (0-7) are to travel to Highland.

Junior fullback Ron Hatcher was voted the outstanding performer of spring football practice at Michigan State.

The Los Angeles Angels averaged 10,413 fans for their first 13 home dates.

The Los Angeles Angels have Brooklyn natives on their roster. They are Jerry Casale, Ken Aspromonte and Eddie Yost.

Even Best Shelter Will Be Hard On Claustrophobiacs

BY INEZ ROBB

BOISE, Idaho.—While officialdom keeps whooping it up for backyard shelters, the Federal government and the Office of Civil Defense have, nonetheless, pooned up $122,000 to build, in this small city, the nation's first large community fallout shelter.

The government was willing to put up the money because the shelter is a prototype—is the explanation of everyone connected with the Highlands Community Shelter, Inc.

Built into the foothills in the back yard of the Highlands residential area, the "prototype" shelter will offer minimum protection from blast and maximum from fallout to 1,000 men, women and children in case of nuclear war. But it offers shelter only to those Highlands families that have paid a $100 membership fee. In fairness, it must be pointed out that this fee has gone to help pay for the shelter whose total cost, without furnishings, is $142,000.

But if this Highlands Community Shelter is to serve as a prototype for other communities, let's take a look at the inside. Access is through heavy steel doors, painted a pretty, pale yellow, and set into the heavy concrete wall across the face of the hill.

The first floor consists of a big, bare room (the shelter is not yet furnished or provisioned) that measures 60 by 80 feet. On one side of this room is a large, efficient kitchen in stainless steel, with electric stoves, dishwashers and steam tables. There are ample cupboards of pale blue for dishes, glasses, and some food storage.

There are generators to take over the burden of producing power, if Boise's electrical system should be knocked out in an atomic war. The shelter has its own artesian wells, and a generator to produce additional water, if needed.

Thus the shelter has "proper" plumbing rather than chemical toilets, as well as shower baths. The latest in airfiltration systems has been installed. A gas furnace will keep the shelter cozy, unless gas mains are destroyed. Then, authorities believe, the body heat of 1,000 persons will be sufficient to keep it cozy, anyway.

The loudspeaker system, complete with record-playing equipment, operates from the first floor, too.

On the second or bottom level, 25 feet below the shelter roof line, is a second large room, measuring 40 by 60 feet. It, too, will be used for sleeping and living purposes, as the large room above. Off the big room on the lower level opens a series of smaller rooms that can be transformed into a hospital, including an operating room and a pharmacy.

The communications room, now equipped with two telephones, storage rooms for food and clothing, showers, more toilets and a laundry are on the lower level. The laundry room, I fear, will appall young women who have never seen a washboard in their lives. The shelter supplies six tubs and water, but the women will have to supply the elbow grease.

In the interest of efficiency and economy, food will be bought and stored in bulk. Officers of the community shelter are now trying to plan a simple menu for the two-week period of forced hibernation, in case of nuclear war, and to buy accordingly. Adults will have to take their turn as kitchen police.

As for the actual construction of the shelter: It required 90 tons of steel. An eight-inch shell of concrete, topped by three feet of earth, arches above the roof. Concrete walls are 10 inches thick at the first level, 12 on the second.

Despite the use of light and airy colors throughout, close association in the shelter with a thousand other souls for a fortnight is going to be hard on claustrophobiacs and misogynists.

Jackie Recommends Foreign Languages

NORTHAMPTON, Mass. (AP)—Foreign language study "is the key to many doors of happiness," Mrs. John F. Kennedy says in a message to the Smith College alumnae quarterly.

Mrs. Kennedy spent her junior year as a Vassar student studying in Paris under the Smith College junior year abroad program.

This was "one of the most rewarding experiences of my life," the First Lady said.

Her message added that foreign languages lead to "an appreciation of art and culture, and understanding of the dynamics of history, but above all, the ability to meet, know and live in peace with the peoples of other lands."

The Mt. Washington Carriage Road, 100 years old this year, is the oldest toll road in the United States still in operation.

'Fresh Eyes' Confused In Tokyo

By CONRAD FINK

TOKYO (AP)—Long-time American residents in Tokyo lump their newly arrived countrymen in one category—"the Fresh Eyes."

The assumption is that a newcomer from the United States, where much of the plumbing works most of the time, views things differently than Americans who've been here a while.

New arrivals are admonished: "You have fresh eyes. After you've been here longer you won't notice the difference."

The admonition could follow, for example, Fresh Eyes' amazement at being almost smothered in politeness by a shopkeeper and then narrowly missing being run down by a devil-may-care taxi driver the moment he steps out the door.

It's the contrasts—contrasts that seem to place this largest city in the world on the brink of schizophrenia—that startle Fresh Eyes.

There is the contrast of Eastern vs. Western cultures in Tokyo.

In this city, women delicately clad in beautiful kimonos jostle on the sidewalks with gum-chomping bobby soxers; the graceful geisha competes in the entertainment world with the hip-swaying crooner belting out a hit tune from America; blazing neon lights atop ultramodern buildings cast an unearthly glow over the rickshaw man scurrying through the entertainment district to pick up a passenger.

Tokyo gives the impression of desperately trying to select the best from both East and West and coming up with a mixture that can grate on the nerves of both Easterner and Westerner.

On a personal, man-to-man basis, the Tokyoite showers Fresh Eyes with courtesies, bowing often and elaborately, sparing no effort to make him feel at home.

A foreigner fumbling with a Japanese-English dictionary and searching for a word draws not a condescending smile but a crowd—all pitching in with a word or two of English, trying to help.

But put a Tokyoite into an impersonal situation—behind a taxi's steering wheel in heavy traffic, or a furled, steel-tipped umbrella in a crowded subway—and watch out. It's the nimble and quick who survive.

However, it's the contrast between Tokyo and Fresh Eyes' old world—New York or Chicago, for instance—that is most startling.

Ever have a hotel bellhop run out into the rain to pick up your bags? bow, smile, murmur "Good evening" and then refuse a tip? It happens in Tokyo all the time.

Trying to rent a house is a problem in most large cities of the world but in Tokyo the pitfalls in those delightful little Japanese homes are hidden. The problem of water pressure, for instance.

Armed with lots of advice, Fresh Eyes carefully tests the pressure in the bathroom and kitchen before closing the deal with Mama-San, the landlady. Plenty of water.

The next morning he climbs into the shower, soaps up—and no water. At least half the almost 10 million persons in Tokyo's metropolitan area suddenly have taken a drink of water and when that happens faucets emit vague rumblings but little water.

As one long-time resident put it, Tokyo is frustrating—but fascinating.

Augsburg, 2,000-year-old Roman city in the Bavarian Alps, encompasses the Fuggerei, said to be the oldest communal settlement in the world.

Junior Editors Quiz on TIME

QUESTION: Who set the present standard for the hours of the day?

• • •

ANSWER: The ancients thought they stood on a flat earth. They saw the sun rise (A in our picture) climb to directly overhead, sink down and disappear. Sunrise, noon and sunset were their first standards of time. We know now that it is the earth which revolves, not the sun; yet we also take our main time measurement, that of the day, from the apparent revolution of the sun. Who first divided the day into 24 hours is difficult to say; certain Babylonian and Greek astronomers may have done so, and the Jews when captives of Babylonia are said to have divided the day into 12 hours by the changing of those who guarded them. Late in the Fourth Century the division of day into 24 hours was established. As the railroads in America developed there was confusion because the time in one place would be carried over into another. In 1883, William A. Allen suggested that the country be divided into time zones, an hour's difference being made for each 15 degrees of longitude. So we have four zones: Eastern, Central, Mountain and Pacific. If it is 3 p.m. in the Eastern zone, it is 2 p.m. Central Time, 1 p.m. Mountain time and noon in Pacific Time.

• • •

FOR YOU TO DO: In our picture, (B) shows that the ancients measured a month by the time lapse between each crescent moon. (C) shows how the ancients studied length of shadows to find the time of day. Set a stick up and study the length of it's shadow. With a bit of practice you can tell time this way without a watch.

• • •

Democrats Split In New York City

NEW YORK (AP) — New York state's Democratic chairman has endorsed an opponent of Mayor Robert F. Wagner in his fight for reelection. But the party's national chairman is standing back of Wagner whose battle cry is "the bosses must go."

The longstanding split in party ranks broke wide open on the eve of President Kennedy's visit here today in support of Wagner.

State Chairman Michael H. Prendergast Wednesday night endorsed City Comptroller Lawrence E. Gerosa, an anti-Wagner Democrat and an independent candidate for mayor.

Prendergast said Wagner has sold his "political soul" to an "unholy alliance" of the Democratic reform movement and the Liberal party. He said the real purpose of the alliance is to wreck the Democratic party.

Democratic National Chairman John M. Bailey, who is close to the Kennedy administration, made this brief comment on Prendergast's statement: "Bob Wagner is the Democratic candidate. He has a good record. I am for him."

The bitter campaign for next Tuesday's election has produced the worst break in party ranks in many years in the normally Democratic city.

Prendergast, one of the party leaders marked for the ax by Wagner, has been reported in White House disfavor since the 1960 election. The President is said to have resented some of the state chairman's actions in the campaign last fall.

Top leaders of the Democratic reform movement assailed by Prendergast are Herbert H. Lehman, former U.S. senator and governor, and Mrs. Franklin D. Roosevelt. The Liberal party, which exists only in New York state, is supporting Wagner. Sometimes it has proved the balance of power in a close contest between Democrats and Republicans.

Wagner greeted Prendergast's statement with a declaration that "the gang-up against me is now out in the open."

He said a vote for Gerosa is a vote to help State Atty. Gen. Louis J. Lefkowitz, Republican candidate for mayor for whom Gov. Nelson A. Rockefeller has been campaigning. Former President Eisenhower has made two appearances here in behalf of Lefkowitz.

Gerosa, a wealthy business man, welcomed Prendergast's support and said: "As I have said throughout the campaign, I am the only real Democrat running for mayor."

Daniel Fills Vacancies On Water Board

AUSTIN (AP)— Joe Carter of Sherman and H. A. Beckwith of Eagle Pass have been named by Gov. Price Daniel to fill two vacancies on the State Board of Water Engineers.

Carter, 39, becomes chairman, succeeding Durwood Manford who was named to the State Board of Insurance.

Carter was named to a new term ending August, 1967 as a replacement for R. M. Dixon of Dallas.

Beckwith received the technical appointment of the rest of Manford's term which lasts until August, 1963. Manford was appointed in 1957 to succeed Beckwith, who previously had 10 years on the water board.

Since 1958, Beckwith has been chief topographic engineer for the water board, heading the topographic mapping program.

Carter had terms in the Texas House and Senate. He was examiner of the water board for 4½ years and legal consultant for the Texas Water Resources Committee. In 1957, he was a special assistant to Daniel. Since Jan. 1, 1958, he has been executive secretary of the Texas Water Development Board.

Manford moves to the insurance board to fill the unexpired term of Dr. Robert Strain, who resigned. He is a former insurance agent, lawyer and businessman.

Manford was speaker of the Texas House in 1949-50 and later was chairman of the State Board for Hospitals and Special Schools. He was also a member of the Industrial Accident Board.

Strain resigned to become executive secretary of the National Association of Insurance Agents Aug. 19.

Czech Relatives Claim Inheritance

AKRON, Ohio (AP) — Probate Court Judge Vincent Zurz has a rule against sending money willed to residents who live in countries behind the iron curtain. They have to come and get it.

Two such persons did just that Tuesday and wound up with checks of $6,000 each. They are Jan Vicen, 66, and his sister, Maria Vicenova, 56, both of the small Czechoslovakian village of Studienka.

They were the heirs of an uncle, Steve Vicen, who died in 1958 at the age of 77 and left an estate of $25,000. Some of the money went to relatives in this country.

Disappearance Of Gold Investigated

LONDON (AP) — British and Swiss police are investigating the disappearance of more than $20,000 worth of gold from a Swiss airliner last Friday.

Police said gold worth nearly $700,000 was loaded aboard the plane at London Airport. The aircraft landed first at Basle, and when it arrived at Zurich, one of the crates was missing.

Vegetables Abundant In Markets

By The Associated Press

An abundance of fresh fall fruits and vegetables provide thrifty shoppers with plenty of bargain targets this weekend.

In many cases, these will be tied in with sales of beef and pork in a variety of cuts. In beef, for example, round, chuck and rib roast are favored in the Northeast; steaks, ground beef and liver in the Southeast; and pot roasts and steaks in the Midwest. In the Far West, loin of beef is reported 1 to 2 cents a pound lower.

Bacon is featured in the Southeast, Midwest and Far West, with some California markets trimming bacon 2 to 6 cents a pound. These bargains reflect a four-week decline in the price of bellies (from which bacon is cut) at the wholesale level, but bellies turned higher at wholesale this week.

Other favored pork cuts include loin roast, chops, smoked hams and picnics and sausages. Southeast markets pay special attention to spare ribs and to veal steaks and cutlets.

Ample supplies of turkeys and broiling or frying chickens in most areas also have resulted in special sales on these items, too.

Eggs are marked down as much as 4 cents a dozen in the Portland, Ore., area, and Eastern prices remain 12 to 14 cents a dozen below year-ago levels even though prices held steady this week.

Apples, oranges, grapefruit, grapes and lemons head the list of fruit buys in most areas. Pears and melons are attractively priced in some sections, while coconuts, bananas and avocados are featured elsewhere. Raspberries and rhubarb are still good buys in the southwest, along with Texas grapefruit and oranges.

A big orange crop is expected from Florida, which supplies about 75 per cent of the nation's demand. Growers soon will start picking what looks like a record crop of 99 million boxes.

Trumans Are Treated In Rare Event

By FRANCES LEWINE

WASHINGTON (AP) — President and Mrs. Kennedy treated Harry S. Truman of Independence, Mo., to a very nostalgic evening at the White House.

And the 77-year-old former president had such a good time he even sat down at the piano himself and entertained some 40 dinner guests Wednesday night with a rendition of Paderewski's Minuet in G.

The visiting Trumans — Bess, Harry and Daughter Margaret — got an unusual treat for an ex-presidential family: a night at their old home, the White House.

And the dinner party the Kennedys staged in their honor brought together many old friends and former officials of the Truman administration and stirred many memories.

Among the guests was former Secretary of State Dean Acheson and Harry Vaughan, who was Truman's military aide.

The Trumans broke the usual rigidity of the receiving line in the blue room by kissing and hugging old friends.

When Truman and his wife drove up in late afternoon to begin their visit they were met by the Kennedys and applauded by some 50 employes who had worked under Truman and still hold White House administrative posts.

Truman seemed so much at home that he took Kennedy's arm and guided him inside.

In the warm atmosphere, nobody seemed to notice that the Trumans were 15 minutes late.

Afterward, as the Kennedys and the Trumans walked to the Blue Room to greet the dinner guests, the U.S. Marine Band played Hail to the Chief for Kennedy and the Missouri Waltz for Truman.

In the exchange of toasts, Kennedy noted that many of his appointees began their careers in the Truman administration. Truman warmly promised his cooperation to the Kennedy administration.

The Kennedys had gone to some special effort to make the visit historic and nostalgic for the Trumans. They assigned the famous Lincoln room to Truman and gave Mrs. Truman the Rose room, now called the Queen's room because several visiting queens have slept there.

Truman's black piano was moved from the ground floor library back to the east ballroom for the night and one of his favorite pianists, Eugene List, who had played for the Big Three meeting at Potsdam, gave an after-dinner recital featuring selections from Chopin.

When List was done, Kennedy suggested Truman might like to try the keyboard. As List escorted the former president to the piano, a feminine voice called out: "Oh, no dad, you're not a member of Equity," the theatrical union. It was Truman's daughter, Margaret, a veteran of show business.

As usual on his frequent visits to Washington, Truman did a lot of reminiscing. This time, he even got onto the subject of the assassination attempt made on his life 11 years ago.

Truman called it a "damn fool" attempt, but said at a news conference Wednesday he drew from it an object lesson on how to face present and future dangers. Stay calm.

Suicide Blamed On Soviet Tests

HIROSHIMA, Japan (AP)—Police said today that a man who survived the atomic bombing of Hiroshima in World War II committed suicide because he was depressed by the current Soviet nuclear tests.

The man, Morimune Ichikawa, 84, hanged himself in a warehouse two days ago. Police said that since the start of the Soviet tests Sept. 1 he had expressed protest by staging one-man sit down strikes.

Research Institute On Communism Set

LOS ANGELES (AP)—An industrialist and his wife have donated $325,000 to establish a research institute on communism at the University of Southern California.

The gift is from Mr. and Mrs. Henry Salvatori of Los Angeles. He is founder and chairman of the board of Western Geophysical Co., a subsidiary of Litton Industries Inc. He also is a USC trustee.

Rev. Lynch Speaks At Kiwanis Session

Rev. Alan Lynch, pastor of the First Christian Church of Snyder, spoke to fellow members of the Kiwanis Club Wednesday on the theme "Religion in American Life."

The program was introduced by the chairman for the day, Jim Mathis. Vice president Gerald Sheid presided in the absence of president Frank Stephenson.

Driver Escapes

POTTSTOWN, Pa. (AP) — An auto was demolished Wednesday by a Pennsylvania Railroad train which dragged the car 330 feet. Sandra Petrick, 20, of Pottstown, driver of the car, suffered only a cut on the left arm.

STALIN'S NAME REMOVED—Only the name Lenin appears on the tomb he shared with Stalin in Moscow's Kremlin for eight years. Stalin's body, on orders of the Communist Congress, has been moved to a grave near the Kremlin wall. Lenin's body alone lies in state in the vault. A temporary rush job has left the name Lenin painted in red over a black plastic which covers the slab that carried the two names. (AP Wirephoto via radio from London)

Presidents Old Medicine To Blackfoot

SPOKANE, Wash. (AP)—Presidents are old medicine to Last Guns.

The 103-year-old Blackfoot Indian has lived under 17 of them, has met 3 — Woodrow Wilson, Franklin D. Roosevelt and Harry S. Truman—and is tired of giving them his favorite head dresses.

But Last Guns — James White Calf—is on his way to Seattle from his Browning, Mont., home to unload another eagle feather war bonnet.

It will be presented to President Kennedy when he visits Seattle Nov. 16.

Last Guns, brother of the Indian whose profile is on the Indian head nickel, agreed to the trip reluctantly.

Through his interpereter and son, James White Calf Jr., 46, Last Guns says, "This one I'm giving to Kennedy is my favorite headdress. It was a Christmas present last year from an old friend. I'm not eager to part with it."

Prominent Oilman Dies While Dining

HOUSTON (AP) — Walter W. Fondren Jr., 58, a prominent Houston oilman, died suddenly Wednesday night after choking while dining at a hotel.

Fondren's personal physician said he choked to death on some food that lodged in his throat while he was eating at the swank Shamrock Hilton.

A hotel employe summoned an ambulance but Fondren was dead on arrival at Hermann Hospital. At the hospital, attendants cleared the food from his throat and applied artificial respiration and cardiac massage without success.

Fondren's father, who died in 1939 was a founder of Humble Oil & Refining Co. His mother, as administrator of her late husband's estate, is well known in Texas for her philanthropies. She has contributed large sums to Southern Methodist University at Dallas, the Methodist Hospital in Houston, Methodist Children's Home in Waco, and Rice University in Houston.

Fondren was born in Houston and after graduating from the University of Oklahma, worked for Humble before becoming an independent oil operator. He was president of the Fondren Oil Co. at the time of his death.

Besides his mother and his widow, he is survived by a son, Walter W. Fondren III, a former University of Texas football star; three daughters, Mrs. Edwin Allday, Miss Ellanor Ann Fondren, and Mrs. James M. T. Springer; and two sisters, Mrs. W. B. Trammell and Mrs. Milton R. Underwood, all of Houston.

Funeral arrangements are pending.

Cuban Refugees Set Walk To Washington

MIAMI, Fla. (AP)—A group of Cuban refugees plans to start walking to Washington Sunday to ask President Kennedy to act against Fidel Castro's government.

Santiago Perez, a former captain in Castro's air force, said 100 refugees will leave Miami and expect to reach Washington by journey on foot.

Appropriate Name

JACKSONVILLE, Fla. (AP)—A list of associations in Florida, issued by the State Chamber of Commerce, notes that the president of the Florida Cemetery Association is Clifford Coffin of Daytona Beach.

From me to you
A DAILY VIEW
by Rev. R. Charles Spivey

"He heals the broken hearted, and binds up their wounds."
Psalm 147:2

The Lord always takes loving care of His children. He gives strength to the burdened; comfort to the sorrowing; healing for the bruised and broken.

Just think for a minute. Suppose that God were to say to you, "I'm sorry but I'm to busy with a multitude of things to even think about you, so for the next month you won't "breathe," or "I'm too busy to order the sun shine today." My, what a pickle we would be in. Of course, that's the way we treat God; but that's a mare of a different hue.

The point is, God never forgets about you.

First Presbyterian Church

Able Talents Flounder In British Play

By WILLIAM GLOVER
Associated Press Drama Critic

NEW YORK (AP)—An amusing idea and some able talents unite less than perfectly in "The Complaisant Lover," Broadway's new excursion into amorous dalliance.

The play, which premiered Wednesday night at the Barrymore Theater, is by Graham Greene, a best-selling author known for novels of religious sobriety and of suspense. This is his first joust with stage humor.

Performing at key points in his triangle are three prominent Britons—Michael Redgrave, Googie Withers and Richard Johnson. The cast of nine is directed with eloquent nicety by Glen Byam Shaw.

But the defect in this display of skill is a pompous heaviness from time to time in both script and pacing.

The story concerns the efforts of a sleek matron, enacted by Miss Withers, to have a romantic fling with a middle-aged (Johnson) and also stay home with her dentist mate of 16 years (Redgrave). Since both gentlemen display stuffy qualities and the lady is dull, the onlooker is hardly enthralled by their dilemma.

The ultimate solution is continuation of the liaison in a state of reluctant acquiesence.

One scene of hilarity is achieved when the participants collide early in proceedings in an Amsterdam hotel bedroom.

The two settings by Motley—the other is a London residence—are respectively tawdry and attractive.

In London "The Complaisant Lover" was a long-run triumph. The climate here may not be equally salubrious.

Car Fairly Stripped

SAVANNAH, Ga. (AP)—John Williams went to the fair, parked his car and spent two hours on the midway. When he returned to his car he discovered fast-working thieves had removed two wheels and tires, the carburetor, battery, generator, radiator, manifold and transmission.

Georgia Man Loses Drinking Partner

By REMER TYSON
Valdosta Times Reporter
Written for The Associated Press

VALDOSTA, Ga. (AP)—Brownie, the beer-drinking horse, is dead. He may have died of the "staggers."

But in this instance, staggers has nothing to do with the 28-year-old Brownie's drinking habits. It's a disease horses sometimes get.

After Sam M. Wildon, a produce farmer, bought Brownie 18 years ago, man and beast became drinking buddies.

"He loves it better'n I do," Weldon, 68, commented.

Brownie has been known to get a few drinks too many under his collar and to act up as if he had lost his horse sense. But Weldon said his plowhorse pet had not had a snort for several weeks prior to his illness.

Two weeks ago Brownie became unsure of foot. Weldon called in two veterinarians but they couldn't help. Brownie died recently at an age equivalent to 164 in humans.

"It hurt me near about as much as if it had been one of my own people," said Weldon.

One of the vets said Brownie's death may have been caused by the "Staggers" or by sclerosis of the liver.

"Staggers" stems either from eating moldy, poisonous food or a virus carried by mosquitoes and the illness affects a horse's brain resulting in loss of coordination, explained the vet.

Now that Brownie isn't around anymore, Weldon figures he will have to be more watchful when he goes to town for a few drinks.

When the horse accompanied him, Weldon didn't worry about getting a little woozy—Brownie would pull him back in the wagon observing traffic lights without any guidance on the reins.

Once in his lifetime Weldon was nabbed for drunken driving. That was the time he left Brownie at home and drove a truck to town.

The deglaciation of North America involved the melting of 5,700,000 square miles of ice, two miles thick in the center.

The Big Difference may not show when you sign up for car or home insurance

But you'll see it plain when you have a loss

A local independent insurance agent who can prove how much this can mean to you.

CHEVROLET

THE NEW CHEVY II
GOING GREAT GUNS!

Chevy II Nova 400 Sport Coupe—and there are 8 more models, just as nifty, where this one came from

This one was on the road to success right from the start. You get a new kind of solid simplicity blended with the economy and dependability you know you can count on from all the Chevrolet family. Beneath the hood . . . a frugal 4- or satiny 6-cylinder engine (there's a choice in most models) that's downright miserly on gas. You can choose from nine new-sized different models . . . sedans, wagons, hardtop and the soon to be available convertible. Like to see and try one? It's easy . . . just follow the crowds.

If you're looking for *sensibility* at its Sunday best—drop in at your Chevrolet dealer's and join the celebration. It's Chevrolet's golden anniversary year, and this new Chevy II is making it a year to remember. A full line of nifty new models built especially to save you *money* on service and maintenance. You'll also get Body by Fisher comfort that makes many a full-size car wonder how it's done—*room* for *six* solid citizens, bag and baggage, in all sedans and two-seat wagons. And, thanks to new *Mono-Plate rear springs*, you get a remarkably smooth ride that rivals much higher priced cars.

THANK YOU AMERICA 1911 50 YEARS OF CONFIDENCE

JOIN IN CHEVROLET'S 50th ANNIVERSARY CELEBRATION AT YOUR DEALER'S NOW—By picking up a special order form from your dealer, you can order a "Golden Anniversary Album" LP recording of favorite American songs from Chevrolet for just $1. (For your convenience, many dealers will have the album for sale in their showrooms.)
