7 Defendants Ordered Freed

Bail Set By Appeals Court

CHICAGO (AP) — The U.S. Circuit Court of Appeals today ordered the seven riot conspiracy defendants freed on bail pending appeals from convictions on charges of inciting rioting and contempt of court.

An order signed by five judges of the appeals court fixed bonds for five defendants convicted of inciting rioting at $25,000 each. The court fixed bail of $15,000 each for two others sentenced for contempt.

The court directed that two lawyers for the seven defendants who also were sentenced for contempt also be allowed to remain free on $15,000 bonds pending appeals.

All of the defendants are in jail.

Their lawyers, William M. Kunstler and Leonard I. Weinglass, were permitted to remain free on the contmpt charges until May 4 to permit them to carry out appeals from the sentences.

Those ordered freed on $25,000 bond each are David T. Dellinger, Rennard "Rennie" C. Davis, Thomas E. Hayden, Abbott "Abbie" Hoffman and Jerry C. Rubin.

Bonds of $15,000 each were set by the court for Lee Weiner and John R. Froines, sentenced for contempt, and for Kunstler and Weinglass, pending disposition of appeals.

"The government contends that bail should be denied all appellants because the defendants pose a danger to the community and because appeals of the convictions and contempt charges are frivolous," the appeals court judges said in granting bail. "We disagree."

The court said it found that no risk of flight was involved.

Under federal rules the defendants may be freed upon positing in cash 10 per cent of the total bond fixed by the court.

Kunstler Thursday night seized upon a speech by the chief prosecutor in the trial as evidence the five convicted men statement Friday that the speech shows that U.S. Atty. Thomas A. Foran, "owes both the defendants and the law an obligation to ask the U.S. Court of Appeals to reverse their convictions at once and grant them a new trial."

Foran said in a speech Thursday night to a high school parents club that police "got even" with antiwar protesters in a bloody confrontation Aug. 28, 1968, at Balbo Drive and Michigan Avenue.

The SDN Column

Evelyn Schultz has forwarded a copy of an article which appeared in a recent issue of "The Dispatcher," a publication of the Halliburton Co. of Duncan Oklahoma about communist goals.

S. R. Patterson, of Halhburton's Personnel Relations Department, advised that the article apparently had appeared in several publications over the years, but is believed to have first appeared in a Bartlesville, Okla., newspaper in the summer of 1919.

Titled "Think" in The Dispatcher, here it is:

In May, 1919, at Dusseldorf, Germany, the Allied Forces obtained a copy of some of the "Communist Rules for Revolution." Today, more than 50 years later, the Reds are still following the rules. As you read the list, stop after each item and think about the present-day situation where you live—and all around our nation. We quote from the Red Rules:

A. Corrupt the young: get them away from religion. Get them interested in sex. Make them superficial, destroy their ruggedness.

B. Get control of all means of publicity thereby:

1. Get people's minds off their government by focusing their attention on athletics, sexy books and plays and other trivialities.

2. Divide the people into hostile groups by constantly harping on controversial matters of no importance.

3. Destroy the people's faith in their natural leaders by holding the latter up to contempt, ridicule and obloquy.

4. Always preach true democracy, but seize power as fast and as ruthlessly as possible.

5. By encouraging government extravagances, destroy its credit, produce fear of inflation with rising prices and general discontent.

6. Forment unnecessary strikes in vital industries, encourage civil disorders and foster a lenient and soft attitude on the part of the government toward such disorders.

7. By specious argument cause the breakdown of the old moral virtues, honesty, sobriety, continence, faith in the pledged word, ruggedness.

C. Cause registration of the firearms on some pretext with a view of confiscating them and leaving the population helpless.

This was quite a list wasn't it? Now stop and think—how many of these rules are being carried out in this nation today?

★ ★ ★

This item indicates that communist goals and methods for achieving them have not changed in the past half century. Their actual achievements in countries which they control present a different picture, however. A British financial journal, "The Economist," a copy of which was left here by John Harvey after he spoke at the Snyder Chamber of Commerce banquet, details some of the problems Soviet Russia has today.

"Russia's well-educated young workers have plenty of modern machines to work with—but they seem to be getting out of them only about half the production, and thus half of the living standards, that advanced countries in Western Europe do," the British journal reported. The magazine article noted that the Brezhnev regime is in just about the same situation that faced Khrushchev when he was forced out of office because of failure to meet goals. The Soviet sphere has been unable to keep pace, even with its close neighbors in Western Europe. Thus it has nothing to sell in the way of performance.

Barges Are Scooping Up Floating Oil

By F. T. MACFEELY
Associated Press Writer

JACKSONVILLE, Fla. (AP) — Skimming barges scooped up floating oil from the St. Johns River today as federal and state authorities tried to determine responsibility for a midstream collision that dumped 7,000 gallons of oil into the river.

A U.S. marshall Friday boarded the Danish freighter Merc Buccaneer with orders barring it from leaving port unless a bond of $100,000 was posted.

The Florida attorney general's office said the state would seek a federal restraining order barring the freighter and the barge Eastpet No. 1 from leaving Jacksonville until responsibility for their collision Thursday night was fixed.

Across the state 160 miles to the west, a black glob of asphalt petroleum smeared more than three miles of shore along the St. Marks River.

Spokesmen for the State Department of Natural Resources in Tallahassee said the tar-like substance apparently had been dumped by a passing vessel in the nearby Gulf of Mexico.

The asphalt substance was washing ashore in an area maintained as the St. Marks National Wildlife Preserve. Authorities said more than two dozen oil-soaked birds had been found by Friday night.

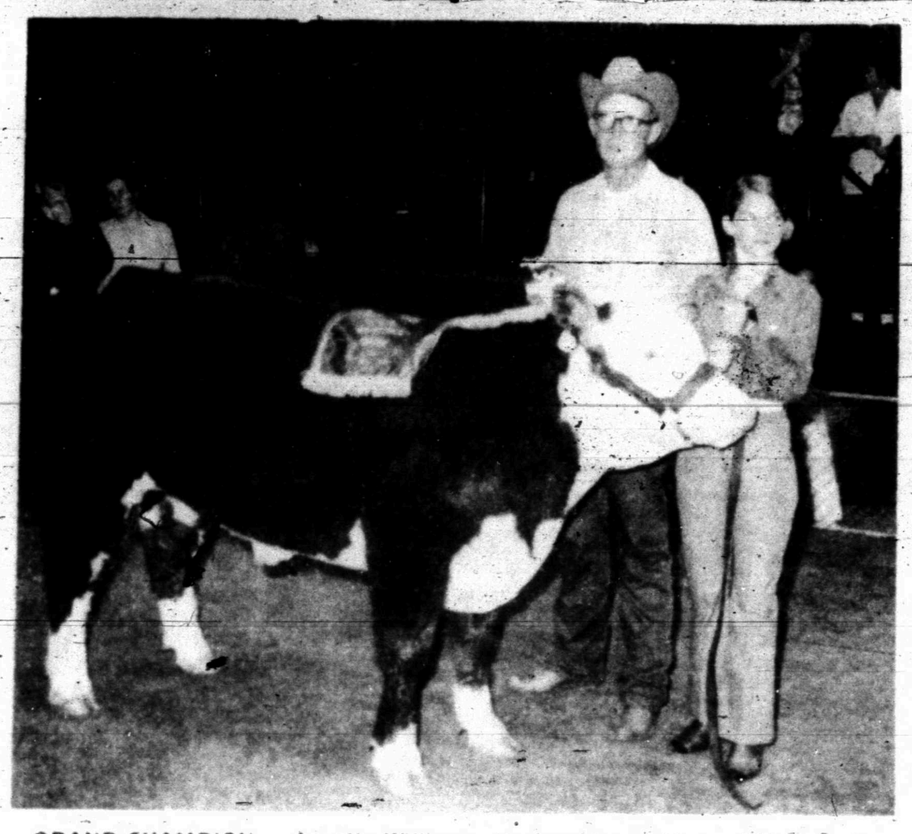
At Jacksonville, commercial shipping interests sought to clean up a three-mile-long oil slick near the port facilities on Blount Island. Under supervision of the Coast Guard, two skimmers were in operation late Friday and three more were to be added today.

There was little if any distress to waterfowl from the spill.

C. H. Weibrecht, 29, of Odense, Denmark, master of the Merc Buccaneer, testified at a Coast Guard inquiry that a river pilot was at the helm of his vessel and gave a horn signal that he was turning right as they converged on the tug Rachel. Wiebrecht said he didn't see the barge being pushed by the tug until it was directly in front of his vessel.

Robert McIntosh, 37, of Jacksonville, captain of the Rachel, said he gave a signal he was turning left.

Each captain testified he didn't hear the other's signal.



GRAND CHAMPION — Annette Williams, 14, daughter of Mr. and Mrs. Carl Williams of Camp Springs won the grand championship of the steer division as judging came to a close Friday night at the Twenty-sixth Annual Scurry County Junior Livestock Show. Here, she displays her 870-pound prize winning Hereford. The breeder is Sonny Harrell, also of Camp Springs, who helps display the December calf.

BEST LAMB—Weldon Beck, 16, son of Mr. and Mrs. Jimmy Beck, who live east of Snyder, won the grand championship in the lamb division with this heavy Crossbred. Weldon is a member of the Hermleigh FFA. Hermleigh youths swept most of the honors in the lamb show.

Williams Sisters Show Top Steers

Annette and Connie Williams, daughters of Mr. and Mrs. Carl Williams of Camp Springs, won top honors in the steer division of the Twenty-sixth Annual Scurry County Junior Livestock Show during the final round of judging Friday night.

Annette, 12, won the grand championship with an 870-pound Hereford that showed in the medium weight class. Connie, 14, took reserve of show honors with her 880-pound Hereford that was No. 2 in the same class with her sister's champion.

Breeder of the grand champion is Sonny Harrell of Snyder. His father, the late Garrett Harrell, also was a breeder of Herrfords. Don Neal of Brady was breeder for the reserve champion. Both girls are members of the County 4-H Club. Connie has been showing pigs and calves for five years. Annette has been showing stock animals for three years.

Hermleigh youth swept most of the honors in the lamb division. These animals went into the arena Friday afternoon and Weldon Beck, 16, son of Mr. and Mrs. Jimmy Beck, who live on the Roby Highway, won the grand championship.

Weldon, a member of the Hermleigh FFA, took the crown with a heavy Crossbred. The No. 2 animal of the same class copped reserve honors. It was shown by Danny Collier, 16, son of Mr. and Mrs. Roy Collier of Hermleigh. Danny is a member of the Hermleigh FFA.

Sheep were judged by Myron Hilman of Amarillo. Lawrence Winkler of Albany judged the steers.

Showmanship awards in the steer division were presented to Mary Ray, daughter of Mr. and Mrs. A. J. Ray of Knapp, and to Phyllis Soloman, daughter of Mr. and Mrs. Linden Solomon of Ira. Mary won the 4-H Showmanship award; Phillis

Marie Dionne Found Dead

MONTREAL (AP) — Marie Houle, one of the four surviving Dionne quintuplets, was found dead at the age of 35 Friday after a brief illness. The cause of death was not known and an autopsy was to be performed today.

Mrs. Houle's brother-in-law, Germain Allard, went to her Montreal apartment and with a policeman and doctor broke down the door when she didn't answer.

"I was checking on her because she had not phoned since last Monday, Allard said. "She usually phoned every day."

At their home in Callander, near the tourist and rail center of North Bay in northern Ontario, the quints' parents, Oliva and Elzire, now in their 60s, were reported to be "very upset."

The first of the famous quintuplets to die was Emilie, who suffocated during an epileptic seizure in 1954.

Today In History

By THE ASSOCIATED PRESS

Today is Sunday, March 1, the 60th day of 1970. There are 305 days left in the year.

Today's highlight in history:

On this date in 1781, the American colonies adopted the Articles of Confederation, paving the way for a federal union.

On this date —

In 1780, the first bank in the United States was chartered in Philadelphia.

In 1803, Ohio was admitted to the Union as the 17th state.

In 1867, Nebraska became the 37th state.

In 1932, the infant son of Col. and Mrs. Charles A. Lindbergh was kidnapped from his bed in the Lindbergh home near Hopewell, N. J.

In 1954, five U. S. congressmen were wounded as three Puerto Rican nationalists fired widly from the galley of the House of Representatives in Washington.

Also in 1954, the United States exploded a hydrogen bomb at Bikini, comp leting the first U. S. H-bomb test in the Pacific.

Ten years ago: The Soviets said the Western allies would have to consult with East Germany and the Soviet Union if they wished to fly above a 10,000-foot ceiling in the air corriders from West Germany to Berlin.

Five years ago: Representatives of the Communist parties in 19 countries met in Moscow. The Chinese and North Vietnamese parties were among those which refused to attend.

One year ago: President Nixon and President Charles de Gaulle of France conferred in Paris.

THE WEATHER

SNYDER TEMPERATURES: High reading Friday, 59 degrees; low reading, 44 degrees, reading at 7 a.m. today, 49 degrees; precipitation, .08.

Northwest Texas: Partly cloudy tonight and Sunday. Warmer Sunday. Low tonight 32 in northwest to 75 in southeast. High Sunday 64 to 78.

North Central Texas: Partly cloudy tonight and Sunday. Warmer Sunday. Low tonight 54 to 61. High Sunday 68 to 78.

Northeast Texas: Mostly cloudy tonight and Sunday. A little warmer Sunday. Low tonight 55 to 60. High Sunday 65 to 75.

Southwest Texas: Partly cloudy through Sunday. Low tonight 40 in northwest to 60 in southeast. High Sunday 68 to 78.

Lubbock Attorney Is School Speaker

George E. Gilkerson, Lubbock attorney, will be the speaker for special programs in junior and senior high schools here Wednesday in connection with observances of Texas Public Schools Week.

The special program is arranged each year by Snyder Masons, who help promote observance of the special week. Public Schools Week observance was initiated 20 years ago by the Grand Lodge of Texas, AF&AM.

Gilkerson, a native Texan, attended Texas A&M and Texas Tech and was awarded his LLB degree in 1951 at the School of Law at the University of Texas, where he was student body president and a member of Phi Alpha Delta Law fraternity.

He was special agent for the Federal Bureau of Investigation from 1951 through 1953, County Attorney of Lubbock County in 1955-56 and District Attorney of Lubbock County in 1957-1961.

Gilkerson was the recipient of the University of Texas Phi Alpha Delta Outstanding Alumni Award in 1965 and has served as vice president and director of both Lubbock Rotary Club and Lubbock Symphony Orchestra. He is a past president of the Lubbock YMCA and the Lubbock County Unit of the American Cancer Society.

He will speak Wednesday from 8:30 to 9 a.m. at Lamar Junior High; from 10:30 to 11 at Snyder High School, and from 1 p.m. to 1:30 p.m. at Travis Junior High School.

Residents are invited to visit public schools Monday through Thursday.

Various schools have arranged special displays in windows of downtown stores for the Public Schools Week observance. These include the Snyder High School, with displays at Williams Jewelry, Gray's, Bruton's Jewelry, Lamar Junior High, Rogers and M&M Electronics; Travis Junior High, Bennett Office Supply and Shoe Mart; Child Development Center, Stinson Drug and C. R. Anthony Store; Humble-Smith School, Fair Store and Glover's; Central Elementary, Dad and Lad and Bud's Office Supply; East Elementary, House of Fabrics and Erwin Jewelry; Northeast Elementary, Dryden's Shoe

N-Viets Halt Offensive To Regroup

VIENTIANE, Laos (AP) — North Vietnamese troops apparently have temporarily halted their offensive in Northeastern Laos to regroup for an advance west of the Plain of Jars, informed sources said today.

There was no ground action reported for the third day in succession.

There still was no indication that an attack on the two vital bases of Long Cheng and Sam Thong was developing, although at least one battalion of North Vietnamese has been reported seen several times near Sam Thong.

Informed sources said the North Vietnamese were bringing up artillery, including 122-mm. field guns that they used to demoralize the defenders of the Plain of Jars.

Gen. Van Pao's Meo guerrillas were reported consolidating a defensive line, nicknamed the "Van Pao Line," on the hilltops in front of Long Cheng and Sam Thong.

Marshak Named College President

NEW YORK (AP) — Dr. Robert E. Marshak, a physics professor known for his advocacy of international scientific cooperation, has been named president of City College of New York.

Marshak, a 53-year-old University of Rochester physicist, said after his appointment Thursday, "An important factor in my decision to accept the post was the university's courageous move toward open admissions."

Hundreds Due For TSTA Convention

The Scurry County Coliseum will be the site Friday for the general session of the annual meeting of District XIV Texas State Teachers Association.

Teachers of 12 county TSTA associations are due here for the event, and attendance could run as high as 3,000.

The general session will begin at 10 a.m. and continue until noon. Sections meetings and luncheons will follow.

Dr. Richard L. Foster, Superintendent of the Berkeley Unified School District, Berkeley, Calif., will be the featured speaker at the general session in the Coliseum.

Virginia Grove of Snyder, president of the District XIV TSTA organization, will preside. Mrs. Jewell Harris, president of the Texas State Teachers Association, also will appear on the general session program.

The district session Friday will be preceded by the annual meeting of District XIV House of Delegates on Thursday evening. This will be a dinner meeting beginning at 6:30 p.m. at the high school cafeteria. Some 200 to 250 official delegates are due here for that session during which business will be transacted.

Dr. Joe Starnes of Abilene is president-elect of the district. June McGlaun of Snyder is secretary, Hallie Gee of Rotan is treasurer. Escoe L. Webb of Abilene is immediate past president, and members of the state executive committee are Homer Taylor of Sweetwater and James Jeter of Abilene, while members of the district executive committee are Jim Wilkerson of Breckenridge and Mrs. John McIntyre of Putnam.

Public school pupils will get a holiday Friday as their teachers and administrators attend the district TSTA convention.

3.2 Million Cars Still Need Inspection

AUSTIN (AP) — Department of Public Safety officials reminded Texans Saturday that approximately 3.2 million vehicles need to be inspected before the April 15 deadline.

Col. Wilson Speir, DPS director, said about 2.4 million vehicles have complied with inspection requirements since the new period began Sept. 1.

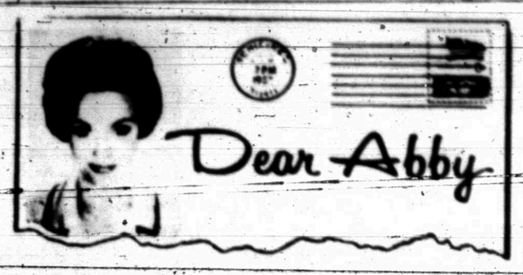
Good Advers. Neutral



Abby learns from reader

By Abigail Van Buren

(c) 1970 by Chicago Tribune-N. Y. News Synd., Inc.

DEAR ABBY: Many times you express great wisdom and great compassion in your answers, but at times, I feel that you are still hung up on some cruel traditions of our culture which are hypocritical and sick. In this instance, I am referring to the example of the young girl who wished to have a complete wedding in spite of the fact that she became a mother at 16 and is raising her own 5-year-old daughter.

I think you were wise to suggest that she not use the daughter in the wedding, but why in the mercy of God, would you suggest this girl brand herself on her wedding day with an off-colored white or pastel wedding gown for a mistake she made five years ago?

If you recommend that we single out the past virtues or mistakes of the bride, then why not also recommend that the groom should wear a white suit if he is pure and a black suit if he is not pure? In all fairness, we should invite the entire congregation, including the minister, to wear proper attire as to whether or not they were virgins when they were married. Then, we would not heap all the humiliation upon the bride on the most important day of her life as she is forced to march down the aisle displaying her "colors."

Isn't it about time that we stop making young brides wear "the scarlet letter" on their wedding day? After all, how many of those innocent looking brides wearing pure white gowns actually have the right to wear such signs of purity?

Fiendishly, we like to brand the ones who got caught, who in most cases, have already suffered enough. When will we ever learn?

Sincerely,
Paul Whipple, Minister
Faith United Methodist Church
Kent, Ohio

DEAR REVEREND WHIPPLE: Some never learn. But I have learned from you. Thank you for your fine, illuminating letter.

DEAR ABBY: You had a letter in your column signed "NAIVE IN NEBRASKA." She said that after her elderly mother's death she went to visit a woman who her mother had described as a "frequent visitor" who had been kind to her during her illness. [She'd come every Sunday, with a piece of cake, and read the Bible to her.] In this woman's home she saw some of her mother's precious "antiques." She was astonished, and wanted to warn others that there were women who made it their business to routinely visit the sick and elderly and "admire" some of their bric-a-brac just enough to get the ailing person to make them a "gift" of a few pieces before dying.

I would like to quote something from our church bulletin for NAIVE IN NEBRASKA to see: "The test of a people is how it behaves toward the old. It is easy to love children. Even tyrants and dictators make a point of being fond of children. But the affection and care of the old, the incurable, the helpless are the true gold mines of a culture."—Abraham J. Heschel.

Her mother parted gladly with the antique bric-a-brac in "payment" for the companionship [whatever the motives] which she so desperately hungered for. Sad to say, only closest relatives seem expected to render services out of love—for nothing, but strangers demand a price. Too bad NAIVE IN NEBRASKA didn't know it. It may have inclined her to take better care of her mother.

LOUISVILLIAN READER

DEAR ABBY: In reply to NAIVE IN NEBRASKA who felt that another had used insincere means to acquire some of her deceased mother's lovely antiques. I hope it taught NAIVE that she should go now to cheer and take care of her remaining elderly relatives while they are still alive. And that goes for the ones she doesn't think have any antiques. [You never know.]

I, a young girl, have many elderly relatives whom I take time to visit. Don't pat me on the back. I get something from them. A bit of folk humor, a smile, or the widsom of someone who has been around many years. That's thanks enough. Abby, any indication that someone cares is worth more to a shut in than a thing that sits mute on a shelf and needs to be dusted.

SIGN ME, "18 GOING ON 80," LOCKPORT, N. Y.

DEAR EIGHTEEN": What a joy you must be to your family. Bless you.

The oldest and most primitive cheeses are the Arabian kishk, made of the dry curd of goat's milk.

STEERS

(Continued from Page 1)

took the FFA Showmanship award.

A special award—the Winston award—was presented to Darden Stokes, the Snyder FFA youth who won first place at the Snyder Show and a blue ribbon with his Chester-White hog. Darden was commended for his courtesy and helpfulness to younger boys.

Weldon Beck and Debbie Vicary won FFA and 4-H Showmanship awards respectively in the sheep division. Connie Williams also won a first place with her light weight steer, and the other blue ribbon went to Johnny Eicke for his heavy steer.

Joe Beck's light Crossbred was first in its class. He is a member of the County 4-H Club. Bill Lockhart of the Snyder FFA took a first place with his lamb in the "Other Breeds" class.

Champion of breed in the fine wool division was won by a light lamb shown by Debbie Vicary. Weldon Beck took reserve honors in fine wool with his heavy animal.

All of the judges praised the quality of the stock and the youth for their diligence and hard work.

The activities were to conclude Saturday afternoon with an auction sale.

STEER DIVISION

Light Steers — 1. Connie Williams, 2. Sahala Eicke, 3. Annette Williams, 4. Johnny Eicke, 5. Danny Helms, 6. Jerry Wempkin, 7. Jimmy Ashley, 8. Jerry Millgohlon.

Medium Steers — 1. Annette Williams (grand champion of show), 2. Connie Williams (reserve champion of show), 3. Sahala Eicke, 4. Connie Williams, 5. David Beaver, 6. Sahala Eicke, 7. Ricky Cox, 8. Jimmy Wempkin, 9. Connie James.

Heavy Steers — 1. Johnnie Eicke, 2. Annette Williams, 3. Peggy Solomon, 4. Mary Ray, 5. Mary Ray, 6. Danny Helms, 7. Jerry Millohollon, 8. Phyllis Solomon, 9. Phyllis Solomon, 10. Connie James.

LAMB DIVISION

Light Crossbreed — 1. Joe Beck, 4-H; 2. Weldon Beck, Hermleigh FFA; 3. Weldon Beck, Hermleigh FFA; 4. Kay Lockhart, Snyder FFA; 5. Joe Beck, 4-H; 6. Kay Lockhart, Snyder FFA; 7. Larry Nachlinger, Hermleigh FFA; 8. Larry Nachlinger, Hermleigh FFA; 9. Danny Collier, Hermleigh FFA; 10. Billy Atkinson, Snyder FFA.

Heavy Crossbred — 1. Weldon Beck, Hermleigh FFA, grand champion of show; 2. Danny Collier, Hermleigh FFA, reserve champion of show; 3. Larry Nachlinger, Hermleigh FFA; 4. Joe Beck, 4-H; 5. Bill Lockhart, Snyder FFA; 6. Dee Roach, 4-H; 7. Debbie Vicary, 4-H; 8. Bill Lockhart, Snyder FFA; 9. George Richardson, Snyder FFA; 10. Randy Gill, Fluvanna FFA.

Light Fine Wool — 1. Debbie Vicary, 4-H, champion of breed; 2. Joe Beck, 4-H; 3. Larry Nachlinger, Hermleigh FFA; 4. Kay Lockhart, 4-H; 5. Weldon Beck, Hermleigh FFA; 6. Jimmy Williams, Snyder FFA; 7. Danny Collier, Hermleigh FFA; 8. Billy Atkinson, Snyder FFA; 9. Jimmy Williams, Snyder FFA; 10. Terry Grant, Snyder FFA.

Heavy Fine Wool — 1. Weldon Beck, Hermleigh FFA, reserve of show; 2. Bill Lockhart, Snyder FFA; 3. Debbie Vicary, 4-H; 4. Larry Nachlinger, Hermleigh FFA; 5. Joe Beck, 4-H; 6. Kay Lockhart, 4-H; 7. George Richardson, Snyder FFA; 8. Hollis Campbell, Snyder FFA; 9. Dee Roach, 4-H; 10. Sawanna Roach, 4-H.

Other breeds — 1. Bill Lockhart, Snyder FFA; 2. Tana Springer, 4-H; 3. Russell Fisk, Snyder FFA; 4. Tana Springer, 4-H; 5. Kay Lockhart, Snyder FFA; 6. Hollis Campbell, Snyder FFA; 7. Steve Beaver, Fluvanna FFA.

RECEIVES RECOGNITION— Beatrice Spears, an employe at C. R. Anthony Company here for the past five years, receives a service emblem from Howard Limmer, manager. The loyal employe also was presented with a corsage.

Big Project Of CRMWD Near End

Directors of the Colorado River Municipal Water District will take a look back over three years of unprecedented construction when they meet March 12 in Big Spring.

They also may be looking ahead to some of the problems of operations and supply for the new enlarged system.

With the exception of one motor at the Lake E. V. Spence intake, all the lines and pumps and other facilities included in the 1966 construction program are now complete and operative. The pumps on the new line west of Big Spring were tested this week. Some water has been put in the Midland terminal storage, but it will not be filled until fenced, or Midland is ready to take water.

Water from Lake Spence is being utilized along with water from Lake J. B. Thomas, the original reservoir of the district.

Leary To Be Sentenced Monday

HOUSTON (AP) — Dr. Timothy Leary, former Harvard instructor, is scheduled to be sentenced Monday in federal court on a marijuana conviction.

Leary, 50, will be brought here by federal officials from Santa Ana, Calif., where he has been held without bond since another marijuana conviction on Feb. 19.

Federal Judge Ben C. Connally will sentence Leary here on his conviction Jan. 20 in Laredo of illegally bringing marijuana into the United States.

It was the second time Leary had been tried on the Dec. 22, 1965 offense. The first conviction was overturned by the U.S. Supreme Court.

Leary has been arrested at least 14 times in the last five years on drug charges but his only convictions came in Laredo and at Santa Ana, Calif. Sentencing in the California case has been set for March 11.

Leary could draw a sentence of up to 20 years in prison and $20,000 in fines at the Houston sentencing.

Elephant Attacks Patrolling Police

SALISBURY, Rhodesia (AP) — Police patrolling near the border with Zambia were attacked by an angry bull elephant. With the elephant in hot pursuit, the police reversed their Land Rover for 300 yards along a narrow track until stopped by a tree, then fled into the bush.

Snyderite's Brother Dies In Arizona

Word has been received here of the death in Phoenix, Ariz., of Mike Rogers.

He was a brother of Mrs. Bill Wood of Snyder. Mr. Rogers died Thursday and funeral service will be held Monday at Phoenix.

Scarborough Died Of Poisoning

ANDERSON, S.C. (AP) — An autopsy has shown that William Douglas Scarborough, 27, a crewman aboard the USS Pueblo when it was captured by North Korea, died of carbon monoxide poisoning in an auto accident.

Anderson County Coroner Wesley Page ruled Friday that the death was accidental. Scarborough's body was found in an automobile Thursday at the service station he operated.

Scarborough and other members of the Pueblo crew spent almost a year in a North Korean prison camp before they were released in December 1968.

Tracking Dogs Must Have Good Noses

PHILADELPHIA (AP) — Tom McGinn, bounty hunter and dog trainer, says a good tracking dog must have the nose for his work.

Good dogs for finding lost people or tracking down criminals, McGinn said, "can come from any breed as long as they have the right membranes in their nose. Some dogs have more sensitive noses than others and make good trailers."

One dog owned by McGinn, a German Shepherd named King, has found some 500 persons in 10 years, he said.

Historical Book Available Again

If you are among those who did not get a copy of the first printing of the booklet, "Historical Markers of Scurry County," you will get another chance beginning Monday morning.

Additional copies of the book, published by the Scurry County Historical Survey Committee, have been printed and they will be available at the county school superintendent's office at the county courthouse, beginning at 8:30 a.m. Monday.

The first printing of the booklet did not last long as area residents picked them up rapidly.

The book, compiled by Mrs. Wayne Boren, chairman of the historical marker subcommittee of the Scurry County Historical Survey Committee, lists all historical markers in the county and details considerable information about each historical site, or personality, involved.

Much of the county's history is included in the booklet. For example, did you know that Scurry County's first courthouse was built in 1886 after the county had been created in 1876 and organized in 1874? Eight men donated lots in the center of town for courthouse property.

Also did you know that Fluvanna was named for a county in Virginia? This Scurry County community was founded in 1907 by a realty firm, and development here was stimulated by construction of the RS&P Railway.

These are typical of the facts about county history that are included in the survey committee's booklet, along with pictures and illustrations. As was the case for the first printing, the booklets will be distributed free of chages as long as they last.

Car Is Lost And Found

SALISBURY, Rhodesia (AP) — With his Alsatian Samantha left on guard, Aderjan van Breda didn't bother to lock his car when he parked it in a city street. An hour later when he returned both the car and Samantha had disappeared.

In drenching rain he walked around the corner to see if he could seey anything suspicious and was approached by a man drenched to the skin. When he found Van Breda was searching for his car, the man apologized profusely and explained he had taken it as a joke on a friend of his. His friend's car was the same make and color, always had in it an Alsatian like Samantha and the keys always were in the glovebox, as Van Breda's were.

He had tried to return the car to its original position, he said, but could not find a parking space. So he spent the next hour looking for the owner.

...Stanfield Elementary, Thompson's Shoes and Texas Electric Service Co. West Elementary, Rachel's and Western Auto.

School visits will be welcomed at any time, except that a schedule has been mapped for lunch room visits at elementary schools. It is urged that parents of children in the first and fourth grades visit lunchrooms on Monday, parents of those in the second and fifth grades on Tuesday and parents of those in the third and sixth grades on Wednesday. Visitors during Public Schools Week will be served meals for 65 cents each.

PLOW IN ONE HAND—GUN IN OTHER

N-Viets Try To Maintain Agricultural Production

EDITOR's NOTE: This dispatch was filed from North Vietnam by Daniel DeLuce, an assistant general manager of the Associated Press, who was granted a visa to Hanoi with his wife. It deals with farm production near the dividing line between North and South Vietnam. The North is an agrarian nation and has received substantial foreign economic aid, as distinct from military, in recent years. Government broadcasts have spoken of agricultural weakness but maintained that food supplies are adequate.

By DANIEL DE LUCE
Associated Press Writer

On The 17th PARALLEL, North Vietnam (AP) — The North Vietnamese people are told that the first requirement for victory is to keep up production.

Ho Chi Minh's instructions on this are blazoned on hundreds of road signs from the 17th parallel north to the capital city of Hanoi.

A slogan used here and adopted elsewhere in North Vietnam declaims: "plow in one hand—gun in other. Cling even to the bomb crater."

Literally, this has been the case of the 17th parallel. Photographs taken before four years of American bombing officially ceased show labor units of the Vinh Linh area—women, girls and boys—shoveling mud back into craters in an effort to refit the land for rice.

An official gave this explanation for trying to maximize agricultural production here: "In areas hardest hit by bombs we must cling hardest to the land. We must show the enemy that our farmers do not tremble under bombs."

Besides continuing a high level of production in a country whose No. 1 product is rice, there are other aims, of course. On a new whitewashed brick signboard along the coastal highway there are the following excerpts from a pledge of the Vietnamese workers Party Central Committee: To hold high forever the banner of national independence, liberating the South, defending the North, and to peacefully unify the fatherland, thus fulfilling His wish."

The pronoun "His" referred to President Ho Chi Minh, a translator explained. He said that whenever the pronouns he, his or him appeared in capitals in statements like the above it was always understood by Vietnamese to refer to the late president.

At the conclusion of a visit of three days and two nights along the 17th parallel, The Associated Press's two visiting Americans were told by Le Thanh Liem, 50, chairman of the Fatherland Front of the Vinh Linh area and chief of the party:

"You saw people this side of the Ben Hai bridge working in fields. If there had been bombing or strafing, people would still work. This is what we mean by reconstruction.

"Our president, Ho Chi Minh, told us that ultimately we would rebuild our country more beautiful than before. And eventually we will succeed. We might even compel the United States imperialists to pay something toward the rebuilding."

Le Thanh Liem, who had spoken in a gentle voice, smiled as the translator concluded, with his reference to possible American reparations.

BISHOP STEPHEN A. LEVEN

Bishop Leven Is Due Here Monday

Most Rev. Stephen A. Leven, Ph. D., Roman Catholic Bishop of the San Angelo Diocese, will be in Snyder on Monday and Tuesday.

Bishop Leven will have an ecumenical service at 7:30 p.m. Monday at Our Lady of Guadalupe Church, with all priests of the Big Spring District scheduled to be here. People of all faiths have been invited to attend. The service will be in English, with some hymns to be sung in Spanish.

On Tuesday, Bishop Leven will address the Scurry County Ministerial Alliance at a noon luncheon at the Steak House. All ministers of Scurry County have been invited to attend the luncheon by the alliance's president, Rev. Jack Riley.

Bishop Leven was well-known at the Vatican II, some of his speeches there having been printed in many languages. Before coming to San Angelo, he was Auxiliary to the Controversial Archbishop Lucey of San Antonio.

Some of Bishop Levens writings are in the Scurry County Library. He speaks fluently in English, French, Spanish, German and Latin.

Traffic Held Up By Showers

LIMA, Peru (AP) — It almost never rains in Lima, and when it does the rainfall is light. Nonetheless, even the slightest downpour almost immediately bottles up automobile traffic.

The reason: thieves steal all windshield wipers found on cars, so owners keep them locked up inside the car, where they do no good in a sudden rain.

I take care of the children. I raise them to be ladies and gentlemen. And I needn't tell you, that there aren't many like me anymore. Well, at least parents today have baby foods and washing machines and nursery schools and stores that really specialize in children's clothing. There's one the lady I work for just raves about. They sell everything a parent really needs. Excepting Nannies, of course.

Students Build Their Own School

CUZCO, Peru (AP)— School children in the mountain village of Chaupisuyo were tired of attending classes in the open. So they went to military authorities at a nearby base and asked for building materials.

With guidance from an elderly man in the village, the students built their own school.

HD Agent Fired By Hutchinson

SAN ANTONIO (AP) — Dr. John Hutchison, director of the Texas Agricultural Extension Service, said Friday it was his decision alone to fire a woman whose husband is running for a powerful Democrat's office.

"No one asked me to make the decision," Hutchison said. "It was my decision all the way. It was made without pressure from any source."

Mrs. Leon Williams of Quanah received her letter of dismissal Friday as Hardeman County demonstration agent. Her husband is a candidate for the Dist. 80 legislative seat held by Rep. W. S. Heatly of Paducah.

Williams and his wife said they would decide on their next move after consulting lawyers Monday.

Heatly, chairman of the House Appropriations Committee, spent more than two hours testifying to a federal grand jury here Thursday.

The jury, investigating allegations of pressure tactics in the race for Heatly's post, previously heard 16 witnesses—including Williams, a Democrat, and Zack Fisher of Memphis, Heatly's Republican opponent.

Heatly, seeking a ninth term, faces his first opposition since 1964 and has a Republican opponent for the first time.

Mrs. Williams said the dismissal notice was signed by her supervisor, Fern Hodge of Vernon. Miss Hodge was unavailable for comment.

In College Station, Hutchison said the decision to fire Mrs. Williams was based on a 1916 policy which states that extension service officers and agents "should strictly avoid entangling alliances with national, state or local politics."

He said there has been "at least one (other) situation quite similar to this."

The policy, he said, is "not a binding sort of thing. It might be interpreted differently in different states, for example. But in my judgment this is a valid interpretation."

Hutchison said the policy is not a federal or state law and it has never been challenged in court, adding that he was told by lawyers that it is a "defendable policy." He was another of the witnesses before the grand jury here.

He said he had understood that Mrs. Williams agreed earlier to resign.

Five Killed In Traffic Accidents

DALLAS (AP) — Five persons died and another was injured gravely in a rash of traffice accidents Friday night on the rain-slick streets of Dallas.

Christopher Foster, 8, was struck by a car and killed in a residental area. His father, Calvin Foster, 49, was also hit by the car, and was listed in critical condition at Parkland Hospital.

John Louis Hubacek, 39, of Irving was killed in an accident on the Stemmons Freeway and Odell Ward died in a one-car accident at Pine and the Central Expressway.

Stock Market Soaring

NEW YORK (AP) — Investors filled with hope for lower interest rates sent the stock market soaring Friday, for the second major advance of the week.

The Dow Jones Industrial Average climbed 13.14 to 777.59 on the day, only slightly below the 13.86 advance on Wednesday.

The latest surge followed a prediction by the president of the world's largest brokerage firm that interest rates will drop within two months.

The statement came after a prominent bank economist said rates would go down within two months and small banks in separate states lowered to 8 per cent from 8½ per cent the interest they charge their best borrowers.

Dogs and reindeer were the first animals domesticated by man, possibly as early as 18,000 B.C.

Wildcat Discoveries Reported

AUSTIN (AP) — Wildcatters reported 15 oil and 12 gas discoveries the past week, the Texas Railroad Commission reported Saturday.

The commission also said 113 oil and 30 gas wells were completed, bringing the year's totals to 894 oil and 294 gas completions. Comparable 1969 figures were 778 oil and 484 gas wells.

Four oil discoveries were in the Corpus Christi District, three in the Houston District, two each in the Kilgore No. 6, San Angelo and Midland Districts and one each in the Abilene and Kilgore No. 5 Districts. The Corpus Christi District had nine gas discoveries, with one each reported in the San Antonio No. 1, Houston and Abilene Districts.

The commission said 141 wells were plugged, including 48 dry holes.

Hermleigh Youth Freshman Favorite

STEPHENVILLE—Steven Hill of Hermleigh has been elected freshman class favorite at Tarleton State College.

Hill is a general agriculture student and the son of Mr. and Mrs. J. D. Hill. He is a 1969 graduate of Colorado City High School.

WHITLING A BAT—Detroit Tigers outfielder Al Kaline (left) looks on as batmaker Bob Pieler turns out a new bat for the Tiger slugger in a mobile unit at spring training base in Lakeland. The lathe follows the pattern of Kaline's original bat laying on top rack. (AP Wirephoto).

Thinlies Shined In Preliminaries

FT. STOCKTON—The Snyder High School Track Team qualified its sprint relay team and individuals for 10 events in the prelims of the annual Comanche Relays here Friday. The Bengals of Coach Bill Hartsfield were set to compete in the finals Saturday afternoon.

The sprint relay team—comprised of Larry Allen, Willis Harrison, Leon McKnight and Steve Pierce—was to compete against Andrews, Del Rio, Mobanans, Kermit, El Paso Jesuit and Levelland. The best time in the prelims was Andrews 44.6. The Tigers bettered that time in a practice meet in Snyder a couple of weeks ago.

Mark Gilstrap, a senior pole vaulter who was vaulting for the first time, tied for the highest height in the prelims by clearing 12-0.

Willis Harrison, senior sprinter, heads the list of individuals. He qualified for both the century and the 220.

Other qualifiers include Gary Patterson (high hurdles), Larry Allen (intermediate hurdles), Craig Allred (mile), Leon McKnight and Johnny Spears (broad jump), Jeff Stewart (high jump) and Herbert Hodges (discus).

Horns Stick Sam Houston

By THE ASSOCIATED PRESS

Defending Southwest Conference baseball champion Texas didn't leave much room for improvement after opening its 1970 campaign with a doubleheader victory over Sam Houston State Friday.

NCAA All-American Burt Hooton took the mound for the first game and pitched a two-hitter in a 12-1 victory, as Longhorn teammates contributed 14 hits.

In the nightcap, sophomore Mike Beard, a lefty, made his first varsity start with a four hitter in a rain-shortened 10-0 Longhorn victory.

The game was called after five innings. Another twinbill was scheduled today, weather permitting.

Three other SWC teams, Texas Tech, Southern Methodist and Rice, opened their seasons with doubleheaders Saturday.

Rice is at St. Mary's in San Antonio, SMU is at UT-Arlington and Tech is at Hardin-Simmons.

Threat Made On Life Of Cub Star Banks

By DICK COUCH
Associated Press Sports Writer

—The increasing possibility of a crippling player strike.

—Fines and friction along the holdout front.

—A death threat against one of the game's most popular stars.

Those were some of the sombre developments in baseball Friday as major league clubs went through their spring training paces against a backdrop of controversy and conflict.

At Miami, player representatives of the 24 teams unanimously turned down a new basic contract proposal submitted by the club owners. The current basic contract, not to be confused with individual players' salary pacts, expires April 5. Season openers in Washington and Cincinnati are scheduled the following day.

At Mesa, Ariz., the Oakland Athletics announced that slugger Reggie Jackson, a holdout, had been fined $200 for playing in a college alumni game last weekend. In Puerto Rico, Orlando Cepeda held firm in his bid for a $90,000 contract and said he has no intention of reporting to the Atlanta Braves until his terms are met.

And, at Scottsdale, Ariz., the life of Ernie Banks, 39-year-old Sunshine Kid of the Chicago Cubs, was threatened in a phone call from Chicago. Pitching Coach Joe Becker took the call and was told: "I've got a gun and I intend to use it on Banks."

Although they suspected the caller was a crank, Cubs officials hustled Banks off the practice field and notified the Federal Bureau of Investigation. "We just can't take any chances," said General Manager John Holland.

Willie Mays and Juan Marichal, supposedly at odds over remarks attributed to Marichal about Willie's attitude and value to the San Francisco Giants, shared one of the day's few laughs after Mays poled a 400-foot batting practice homer off the Dominican pitching ace. players headed into their first weekend of full-scale drills were outfielder Bobby Murcer and second baseman Horace Clarke of the New York Yankees, first baseman Rich Reese and infielder-outfielder Cesar Tovar of Minnesota, second baseman Felix Millan of Atlanta and shortstop Cesar Gutierrez of Detroit.

Lumberjacks Cut It Thin

NACOGDOCHES, Tex. (AP)—Stephen F. Austin, ranked No. 1 among the nation's small college basketball teams, saw its unbeaten string stretched to the limit Friday night but it didn't break.

The Lumberjacks defeated powerful St. Mary's 84-83 in the first game of a playoff for a berth in the National Association of Intercollegiate Athletics tournament next month in Kansas City.

It was S. F. Austin's 30th straight victory, including 28 this season to tie an NAIA record set in 1965 by Central State of Ohio.

They'll play again Monday at San Antonio in the best-of-three series.

Surry Oliver pumped in a basket with 15 seconds left to break an 82-82 deadlock and give the Lumberjacks their winning margin.

The score was tied 12 times and the lead changed hands 16 times in the hotly contested battle for the NAIA Dist. 4 title.

James Silas led SFA with 20 points, but the Rattlers' Doug Williams outscored everyone on the floor with 35.

Aggie Grid Drills Begin April 7

COLLEGE STATION, Tex. (AP) — Athletic director and head football coach Gene Stallings said Saturday spring football training for Texas A&M will begin April 7 and end with the annual Maroon-White game May 9.

The Aggies' annual news media golf tournament will be played May 8 on the eve of the game.

Twenty-nine lettermen return but three will miss spring drills. Safety Dave Elmendorf and quarterback Rocky Self will be playing baseball and fullback Marc Black will be in track. All were starters last fall.

Another quarterback, Jimmy Sheffield, will be tried at split end this spring. That leaves the quarterback battle in the spring to squadmen Joe Mac King and Kyle Gary and sophomores-to-be Lex James and Brad Dusek.

The Aggies had a conference record of 2-5 and a season record of 3-7 last year.

Key losses from last year include 11 starters, five on offense and six on defense. Offensive starters were tight end Ross Brupbacher, split end Barney Harris, center Jack Kovar, wingback Jimmy Adams and tailback Larry Stegent. Defensive starters missing are ends Jim Pieper and the late MikeDeNiro, middle guard Lynn Odom, tackle Billy Bob Barnett and linebackers Buster Adami and Mike Caswell.

Bob Clemente of Pittsburgh led the National League in triples last season with 12.

McGrady Sets New Record

By TOM SALADINO
Associated Press Sports Writer

NEW YORK (AP) — Martin McGrady played race the clock and was happily triumphant. Marty Liquori was a winner too, but he wasn't smiling.

McGrady, the invicible master at 600 yards, established the only world record at Friday's 82nd annual Amateur Athletic Union indoor track and field championships, smashing his own mark with an incredible 1:07.6 clocking and sending his unbeaten string to nine.

Liquori, the undefeated champion at Madison Square Garden, ran his streak to nine in a row over two seasons, capturing the mile run in a bruising 4:00.9. And while McGrady, the soft-spoken Washington, D.C., schoolteacher, who has now taken 27 of 29 indoor races in four years, smiled and said, "I decided to race the clock since this was the last big meet of the year," Liquori was still unsmiling some 40 minutes after his victory.

The Villanova junior, however, had to wait over a half hour before his triumph was made official. The drama started as the gun went off for the final lap of the mile race with Liquori and defending champion Henryk Szordykowski of Poland racing elbow to elbow.

In the next instant, both were tossing elbows at each other and at the tape, with Liquori eight yards to the good. The Wildcat Olympian turned and pointed an accusing finger at the Pole.

"I told him that's the last time. He did the same thing to me at least 'year's championships. It wasn't the first time but it better be the last," Liquori said.

After calming down somewhat, Liquori then said, "There was never any doubt in my mind that he committed a foul. He came into my lane."

Szordykowski, through an interpreter, said he felt Liquori fouled him, and just shrugged off the incident.

Apparently Stan Wright, referee at the meet, felt a disqualification was not in order, and even thouth the red disqualifying flag was thrown during the race, Wright overruled the officials.

The decision, however, took 30 minutes, and only after Wright had watched a rerun of the race three times on video tape. "In my opinion Szordykowski moved in on Liquori and impeded him," Wright said.

McGrady, who only last week tied the 500-meters world record of 1:02.9, had lowered his own 600 time in his two previous races, beating Lee Evans in Los Angeles in 1:08.7 and then running 1:08.5 in Louisville.

"McGrady made it four in a row this year over Evans, the 400-meter Olympic champion.

"I just can't run indoors," said Evans of San Jose, Calif. "I can't wait for the outdoor season."

Chi Cheng, voted the women's track athlete of 1969, showed why, capturing three titles. The Chinese nationalist, who attends California Poly College, took the long jump with a meet record of 21 feet ¾ inches along with the 60-yard dash and hurdles.

Norm Tate, for the second straight year, captured two gold medals, taking the men's triple and long jumps.

The 27-year-old New York schoolteacher won the triple jump with a 53-4½ leap and then won the long jump with a 26-4¾ effort. Bob Beamon, the Olympic champ, was third at 25-8.

Others making it two titles in a row were Lt. Charlie Greene of the U.S. Army, the 60-yard dash; Willie Davenport, the Olympic gold medalist, 60-hurdles; and Dave Romansky, the mile walk in 6:14.0. Romansky's time snapped his own meet mark by 2.9 seconds.

Meet records lowered included the men's 1,000-yard run, Juris Luzins of Williamsburg, Va., 2:06.2, down from 2:08; and Debbie Brill of Canada, with a 5-1 leap in the high jump, bettering the old mark by one-half inch.

Raiders Begin Work March 23

LUBBOCK, Tex. (AP) — Jim Carlen, Texas Tech's new head coach, gets his first on-the-field look at the Raiders March 23 when Tech opens spring training.

Carlen, who came to Tech after leading West Virginia to a 10-1 record last season, said the Raiders would work three days before adjourning for spring vacation, March 25.

Workouts will resume April 1 and conclude with the annual spring game May 2.

Mel Stottlemyre, who has won 41 games for the New York Yankees in the last two years, won 20 games in 1965, his first full year with the American Leaguers.

State Gloves Meet Is This Week

FORT WORTH (AP) — More than 130 young boxers representing 16 cities meet here this week for the 34th Texas State Golden Gloves championships.

The winners go to Los Vegas for the National Golden Gloves Tournament, where Texas teams have won the championship four times.

This year's state tourney field has four returning champions, including two fighters who went on to national crowns in 1969.

Flyweight Tony Moreno of San Antonio and featherweight James Busceme of Beaumont are returning national title holders.

The other defending state titlists are heavyweight Nick Wells and Welterweight Tommy Von Hatten, both of Fort Worth.

Last year the Dallas and Fort Worth teams tied for the state title. Both will be strong contenders again this year.

Other teams representing their regions when the boxing begins Thursday night are Amarillo, Corpus Christi, Tyler, Houston, Odessa, Temple, Abilene, Wichita Falls, Lubbock, El Paso, Austin and Harlingen.

Other fighters who rate as favorites in their weight divisions include lightweight Roy Barrientes of Fort Worth, last year's bantamweight runner-up, and Joe Louis Valdez of Houston, national AAU light welterweight runner-up in 1967.

Dates for the state gloves meet are Thursday, Friday and Saturday this week, with a one-day break before the finals Monday, March 9.

Longhorns Best Baylor, Christians

AUSTIN, Tex. (AP) — The University of Texas team and its new artificial track both performed up to expectations as the Longhorns defeated Abilene Christian and Baylor in a triangular track meet during a misty rain Friday.

Texas won seven first places and collected 86 points, followed by ACC's 68 and Baylor's 19.

The Longhorns were paced by Tommy Colgin and Byrd Baggett, who ran legs on the Longhorns' winning 440 relay team and came back to win individual sprint races.

Bill Tooke and Carl Johnson joined Baggett and Colgin in a 41.4 relay effort. Colgin also won the 100-yard dash in 9.8 and Baggett took the 220 in 21.8.

Other Texas victors included Fred Cooper, 4:05.8 in the mile; Dave Morton, 46.4 in the 440-yard dash; Warren Hart, 57 feet, 3½ inches in the shot put, and Skip Archer, 55.2 in the 440-yard hurdles.

Bruins Bounce Back, Penn Extends String

By TED MEIER
Associated Press Writer

Penn's Quakers won their 17th straight and UCLA's Bruins started a new winning streak, but look at those Richmond Spiders.

The Spiders, a 17-game loser, edged into the college basketball picture Friday night with the nationally-ranked Quakers and Bruins.

Penn whipped Columbia 71-57 to win the Ivy League championship and a spot in the NCAA championship tourney. UCLA rebounded from its upset defeat at the hands of Oregon last week, to rout Stanford 120-90.

And what did the lowly Spiders do? They upset George Washington 77-69 to gain the final of the Southern Conference championship tourney against Davidson tonight. Davidson moved up by routing William and Mary 78-54.

Penn, now 24-1, had to come from behind to beat Columbia in the feature of a tripleheader at the palestra in Philadelphia.

Columbia, led by Jim Mcmillian's great play, came from 16 points back to hold a 31-30 edge at halftime.

Corky Calhoun, held to two points by McMillian in the first half, scored the first five points of the second half and seventh-ranked Penn was ahead to stay.

Calhoun finished with 13 points while McMillian was high for the game with 33. The Columbia star got 21 of the 33 in the opening half.

In the other games of the tripleheader, Temple whacked Rider 107-74 and St. Joseph's, Pa., shaded Lehigh 65-63 in the start of the Middle Atlantic Conference playoffs.

UCLA, toppled out of the No. 1 spot in the Associated Press poll after its loss to Oregon, rolled over Stanford with ease on its home Pauley Pavilion court. The Bruins, now 22-1, were paced by Curtis Rowe's career high of 30 poioen.

Top-seeded Davidson, No. 11 in the AP poll, piled up a big lead in crushing William and Mary in the Southern Conference semifinals at Charlotte.

The Wildcats are heavily favored to beat Richmond for the title and NCAA berth tonight, but the inspired Spiders now have won four in a row and may cause trouble.

Southern California beat California 90-82, Long Beach State defeated San Diego State 74-55, Seattle overcame Denver 79-61, Brown beat Harvard 79-72, Princeton humbled Cornell 65-58, Dartmouth edged Yale 69-66 and Duquesne trounced Steubenville 81-51.

Fry Will Sign Negroes

SAN ANTONIO (AP) — Coach Hayden Fry of Southern Methodist University says he will continue to seek out Negro football players "to offset the dominance of Arkansas and Texas."

Fry, here to lecture at a football clinic, said in an interview Friday that SMU will have nine Negroes "for sure" on the freshman team next year "and we will probably get more."

He continued, "We feel that going after black players is our only way to offset the dominance of Arkansas and Texas in the conference. We know that they are going to get more quality white players than we will, no matter what we do, but we can compete with blacks."

Texas Economy Still Is Threatened By Inflation

AUSTIN (AP) — Texas' economy seems to be going in two directions at the same time, a University of Texas business researcher said Saturday.

"The volume of business is decreasing, but the prices at which business is transacted continue to increase...in other words, the problem of inflation appears to be no nearer a solution than it was in 1969," said Dr. John Stockton, professor of business statistics at the University of Texas at Austin.

Business transacted in Texas declined 7 per cent from December to January, he said, "adding support to the indication of available national data that the economy is slowing down."

"Also Stockton said, real consumer income has decreased; tight credit dropped residential permits in January to their lowest national level in almost three years; auto sales have dropped 10 per cent from last year; and a "cut in military spending by the federal government is another depressing factor for the future of the Texas economy."

However, Stockton said, the public demand for increased federal spending for social security, veterans' benefits, medicare and medicaid; education, health and environment "will be hard to resist, especially in an election year.

"This situation suggests that the threat of further inflation is more serious than the threat of recession," he said. This does not mean that certain individual industries, such as building and automobiles, may not suffer a decline, but that a serious setback for total economic activity does not seem imminent."

The fact that the plans of business to expand plant and equipment at an all-time high "seems to indicate that businessmen are not unduly apprehensive of a recession."

"It may be a little difficult for Texas to maintain throughout the seventies the high rate of growth of the sixties, but the present situation does not seem to indicate any serious slowing down of this growth rate.

Business activity in 20 Texas cities, showing the percentage of change from December to January and from January 1969 to January 1970:

Abilene 2 and —1; Amarillo —2 and + 11; Austin —1 and no measurable change; Beaumont —5 and —11; Corpus Christi 1 and 5; Corsicana —11 and —2; Dallas —11 and —3; El Paso —4 and no measurable change; Fort Worth —3 and 2; Galveston 2 and —3; Houston —4 and —1; Laredo —6 and 4; Lubbock —16 and —8; Port Arthur —1 and 10; San Angelo —4 and 2; San Antonio 2 and 6; Texarkana —14 and —20; Tyler —6 and —3; Waco 3 and 9; and Wichita Falls —9 and—15.

Guardsmen Calm Campus Violence

By THE ASSOCIATED PRESS

Seven persons were injured by rock throwing and 114 arrested Friday night as California National Guardsmen armed with bayoneted rifles brought relative calm to the Santa Barbara collegiate community after four days of violence.

About 150 of 600 guardsmen called to active duty by Gov. Ronald Regan cordoned off the troubled surburb of Isla Vista near the campus of the University of California at Santa Barbara. Only residents were permitted to enter the area, populated mainly by students of the university.

Two demonstrators, four policemen and a motorist suffered minor injuries from sporadic rock throwing, but incidents were few compared with three previous nights of turmoil.

In Buffalo, N.Y., students militants threw a fire bomb into the administration building of the State University of New York early today, touching off a blaze which caused minor damage.

The university obtained a court injuction forbidding continuance of a campus uproar which began Wednesday when students sought to enforce demands for a greater voice in operation of the school.

At Mount Holyoke College in South Hadley, Mass., about 150 black students abandoned late Friday seven campus buildings which they had taken over to protest what a spokesman called "academic terrorism and atrocities."

In the Santa Barbara college suburb, Jeeps and trucks crowded with National Guardsmen cruised in formation through the streets. Guardsmen wearing steelhelmets, protective vests and combat boots stood watch at nearly every corner in the mile-square sealed off zone. Soldiers and demonstrators were both soaked by rains. About 9,000 of the university's 13,700 students live in Isla Vista.

The demonstrators say they are motivated by a general dissatisfaction with campus and community life, the "capitalistic establishment" and the war in Vietnam.

Judges Refuse To Rule On State Obscenity Law

By CLAYTON HICKERSON
Associated Press Writer

DALLAS, Tex. (AP) — Texas' obscenity law received a shaking out Friday at a hearing before a three -judge federal court that refused to rule on its constitutionality before the state supreme court could act on the statute.

Hearing a four-case suit challenging the state obscenity law were U.S. District Judge Hal Woodward of Lubbock, U.S. District Judge Sarah T. Hughes of Dallas and Judge Irving Goldberg of the 5th U.S. Circuit Court of Appeals in New Orleans.

Judge Woodward presided with Judge Hughes on his right and Judge Goldberg, who offices in Dallas, on his left. All three kept up a running line of questions to the opposing attorneys.

After the two-hour hearing in Judge Hughes' courtroom, the panel said that restraining orders would be issued by each of the district courts involved against enforcement of the obscenity law "pending its ultimate disposal."

Representing the defendants —in this case the local courts in which cases from Lubbock, Amarillo, and Dallas had been tried—was Lonnie Zweimer of the Texas Attorney General's staff.

Zweimer's opponent was Mel Friedman of Houston, a defense lawyer who brought the unconstitutionality charge for a variety of clients including movie theaters and bookstores.

Friedman, who has tried obscenity cases in several states and several in Texas, argued that the present law was "over broad" in its definition of distribution that a man could be arrested for giving his wife a naughty book in their bedroom.

Zeimer argued for federal abstention and against an injunction. He said there had been no harassment of the defendants as Friedman said he feared and that the Texas ys. Steye Scott and Cinee Theaters of Wichita Falls would go to the Texas Supreme Court "within 90 days."

State Dist. Judge Temple Driver, who was in the federal courtroom Friday, ruled the law unconstitutional in the Wichita Falls case. The case is now on appeal to the state's high court.

Friedman attacked the law on a broad front mentioning that there was no such thing as obscenity if a move housie house sold only to consenting adults in no way advertised in a lewd manner.

He also said the law "imposed constructive knowledge" upon absolute liability "if the contests of a book or film are of a "suspect nature.

UT Cannon Ceremony Is Moved

AUSTIN (AP) — The traditional March 2 cannon skirmish between a ceremonial artillery piece on the University of Texas South Mall and the Kappa Sigma fraternity is no more.

The university said it was moving the traditional Texas Independence day cannon-firing ceremony to the east mall because of protests from Mexican-Americans.

For years, members of Kappa Sigma, whose house is in the "line of fore," have donned Mexican costumes and fired back from the top of their house.

Jack Maguire, director of the Ex-Students' Association, which sponsors the ceremony, said members of the Mexican-American Student Association, had objected to the fraternity's actions.

REDUCING MACHINE—Howard Smith, Jr. (left) operates the reducing machine he built with the help of Rudy Hernandez (right). Both are students in Clyde Reynolds' occupational training class at the Child Development Center.

Mrs. DuPea Dies At 120

LOS ANGELES (AP) — Her name meant "beautiful star" and Tatzumbie DuPea, a Palute Indian, said she kept beauty at the forefront of her life all 120 years of it.

Mrs. DuPea, who died Thursday, was born on the eastern slope of the Sierra Nevada, crossed Death Valley as a backpack papoose and was a frequent bit player in early cowboy-Indian films. But at her death, she was confined to a wheelchair in a rest home, the victim of a fall that broke her hip.

She was believed by federal authorities in Los Angeles to be the oldest woman receiving Social Security, but she never made this claim personally.

Mrs. DuPea's collection of memorabilia showed, she was born July 26, 1849 in the Alabama Hills near Lone Pine, Calif.

Three years later, when her mother died, the family retreated into Death Valley, with Tatzumbie on her grandmother's back.

She met and married James Mulligan, a cook for the railroad. He taught her to speak and read English.

"We had five wonderful years together until he was killed in a railway accident."

Her second husband was a French-Canadian saloon keeper who died of knife wounds trying to break up a fight in his tavern.

Two of the five children born of that marriage survive. They are Edwin, 67, and Christine Rafferty, 62.

Mrs. DuPea played in approximately 40 motion pictures whose stars included Tom Mix, William S. Hart and Clark Gable.

In one of her last interviews, Mrs. DuPea deaf and blind in one eye, told a newsman: "I have one good eye and I can still see beauty; it's easy, if you look for it."

Boys Build Reducing Machine

A little ingenuity can accomplish wonders.

Take Howard Smith, Jr., 1002 Thirty-third Street, for instance. His uncle — Jack Newsome, 3300 block of Avenue J — weighs about 250 and wants to lose weight. So, he asked Howard to build him a weight-reducing machine.

Howard, a student in Clyde Reynolds' Occupational Training class at the Child Development Center, got Rudy Hernandez, 2712 Avenue E, and another student, to help him build it.

They took an old bicycle and sawed off the front wheel. They slipped the sawed-off portion of the frame over a pipe that was welded to a stationary frame or stand in which the bicycle fit. Then, they attached a couple of rollers to the back of the stand. The back wheel of the bicycle touches the rollers, and it takes pressure on the pedals to make the wheel turn the rollers.

The machine exercises the same muscles that are used in riding a bicycle. It has the advantage of being stationary. You can use it at home and indoors on a cold day.

It only required about 3½ hours for the students to build the machine.

Francois Marie Arouet, or Voltaire, as he is best-known, used at last 137 psuedonyms in the course of his writing career.

Waitress Robbery Victim 22 Times

LOUISVILLE, Ky. (AP) — Mary Morgan, 53, has worked at Little Manor Restaurant for 14 years. During that time, she told police, she has been robbed 22 times.

During the latest robbery a man fired three shots into the restuarant's back wall while taking $15 from Mrs. Morgan and $3 from a customer. During the previous robbery a man held a kitchen knife to her throat as he took $10 from the cash register.

Career Corner

by Joyce Lain

what job would you like to see explored in this column?

Growing sophistication — computers, automatic analyzers, electronic counters, and other new equipment and knowledge — is rewriting the show in medical laboratory science.

At the medical laboratory assistant level, performance is being upgraded through increased educational and skill requirements. Result: two new career titles are emerging from the wings — the medical laboratory technician and the certified laboratory assistant.

In this column we refer only to those technicians and assistants who have trained in an American Medical Association (AMA) approved school, and who have been examined and certified by the Registry of Medical Technologists of the American Society of Clinical Pathologists (ASCP). Medical laboratory technicians thus qualified may place the letters MLT (ASCP) after their names; certified laboratory assistants thus qualified may use CLA (ASCP).

Both careers are suitable for science-minded and manually-dexterous young careers seekers, mature men and women, and many with physical handicaps as well. Here's a synopsis . . .

WORK SCENE: Hospitals, clinics, independent medical and pharmaceutical laboratories, physicians' offices and public health agencies.

ACTION: Accurate and skillful laboratory testing of cells, tissues, fluids and microorganisms of the human body that will help the physician determine the diagnosis of a patient's illness or the effectiveness of treatment.

CAST:

The pathologist, a doctor of medicine who directs the activities of the lab.

The Medical technologist, who is responsible to the pathologist and who has charge of the actual lab operation. Must have four years of college, which includes 12 months of clinical training in a hospital laboratory school accredited by the AMA.

The MLT (ASCP)* is a brand new breed of lab worker who stands between the medical technologist and the CLA (see below) on the professional scale. The chief way to become an MLT (ASCP) is to obtain an associate degree at a junior or community college (two years), majoring in medical laboratory sciences and including supervised clinical experience in a laboratory. Tuition is often free or minimal — inquire at your local two-year college.

The first MLT-ASCP certification exam was given last November; to date there are only 27 MLT (ASCP)'s in the country. Salary information is still sketchy, but one Veteran's Hospital starts technicians at $5,522 without experience, at $6,176 with experience, and advancement may be to $9,934 at current Federal pay rates. No MLT (ASCP) job description has yet been agreed upon; in general, MLT's perform procedures more complex than the technical duties of the CLA's, but without the supervisory and educational responsibilities of the medical technologist.

THE CLA (ASCP) has been in existence since 1963. Currently there are about 6,000 CLA's out of an estimated 50,000 assistants in medical laboratories. Training requirements are less than the MLT's — high school graduation or equivalent, and 12 months of training in an AMA approved hospital school for certified laboratory assistants. Tuition is usually free or minimal at these 183 schools, and some financial aid may be available. CLA's perform a wide variety of routine lab tests. Salaries vary, often average $4,800 to $6,000.

FREE INFORMATION. The Registry of Medical Technologists (ASCP) will send you complimentary career and school material. Single copies only. Ask for "MLT/CLA" on a postcard to me at this newspaper. Allow several weeks for delivery.

*MLT's and C.L.A.'s are not utilized in California.

Tighter Controls On Air Pollution

HOUSTON, Tex. (AP) — Air pollution regulations are going to be twice as tough to meet new federal regulations, the chief of the U.S. clean-air program says.

The Texas Air Control Board has said proposed new regulations for Houston, Dallas-Fort Worth, and San Antonio areas will need only minor tightening to meet federal standards.

The federal government recently set up air quality control areas in the three regions and said state regulations would have to confirm to federal standards or the federal government would take over enforcement.

Dr. John T. Middleton, commission of the National Air Pollution Control Administration, cited federal criteria which indicate such revision will have to be more than minor.

Middleton was in Houston Friday for an engineers meeting and spoke at a news conference.

He said, for example, that the federal government will not accept any state standard that permits more than 80 micrograms of particulates per cubic meter of air.

But the present Texas pollution regulation permits 125 micrograms in residential areas and up to 200 micrograms in open country.

Middleton said his agency will accept no more than .04 parts per million of sulphur dioxide on an annual basis, or .1 parts per million in any 24-hour period.

"And that 24-hour maximum could occur only one per cent of the time, or only three days a year," he said.

The present Texas regulations allows more than twice that, .2 to .3 parts per million, depending on the type of land use, in a 24-hour period. Texas now sets no annual figure on sulphur dioxide emmissions.

Middleton said he also hoped the Houston area would create a regional enforcement agency to give Houston "the aggressive air pollution control effort that it needs."

Harris County (Houston) officials said Friday they were willing to take over all air pollution control effort in the county starting with 1971's budget.

To create a regional approach, Harris County's efforts would also have to be merged with Galveston County, pollution control officials say.

Tower Wa[illegible] On Busing Students

WASHINGTON (AP) — Texas Sen. John Tower did not say Friday whether he would meet with parents from two Texas school districts about using buses in school desegregation.

Tower did say he was in sympathy with the Longview view and Tyler districts and already had worked on their behalf with Health, Education and Welfare officials.

Gov. Preston Smith wrote to Tower and Rep. George Bush, both Republicans, that he would change the government's policy of using buses to shift students for school desegregation plans.

Navy Joins Air Pollution Battle

PEARL HARBOR, Hawaii (AP) — The Navy has joined the battle against air pollution.

"We're not burning secret documents anymore," a spokesman said. "We're treating them with chemicals and shredding them."

IT'S LIKE THIS—Shirley Key (left) and Margaret Drum are planning to tell it like it will be during the Seventies at the Activity Day luncheon to be held at the Martha Ann Woman's Club, Saturday, March 7. They are co-directors of the program—"The Signpost of the Seventies."

WHAT NEXT? — Trends in hair styles, among other things, will come under the purview of those who will present a program about the future here March 7. It is being sponsored by the Martha Ann Woman's Club Board of directors. Providing the double image are, from left to right, Rhylene Stoker, Marilyn Nixon, Marilyn Nixon and Rhylene Stoker. Stranger things than this will be seen at the luncheon program.

What's Ahead In 70's

The Martha Ann Woman's Club Board of Directors is sponsoring an Activity Day at the clubhouse Saturday, March 7. A highlight of the day will be a luncheon at noon.

The theme to be carried out is "The Signpost of the Seventies," a trend show rather than a style show, although there definitely will be models present to get across the new ideas.

Entertainment will be provided by The Popolos, a trio of students at Snyder High School, who play musical instruments and sing. Included in the group are Pam Hartsfield, Gary Terrell and Brad Maule.

Chairman of the activities committee is Mrs. Jimmie Joe Key. Tickets to the luncheon can be purchased at the rate of $2 from any board member or from Mrs. Joe Sentell, chairman of ticket sales. The sale concludes Wednesday, March 4, three days prior to the time when the "trend stylists" do "their things."

THE SNYDER DAILY NEWS

SECTION B SNYDER, TEXAS (79549) SUNDAY, MARCH 1, 1970 PAGE 1

ALWAYS POPULAR— From age 7 to 70, boys will still like girls like Cathy Spivey during the Seventies. Girls will always be in style.

QUICK! HELP!—Carol Patterson puts her best foot forward to open the door to the rehearsal room for "The Signpost of the Seventies." Tickets for the luncheon program can be secured from Woman's Club members for $2 per person.

MRS. BETTY JO LARSON

International Sorority To Charter Chapter Here

Mrs. Betty Jo Larson, Regent for Phi Sigma Alpha, a cultural and intellectual sorority, is now in Snyder interviewing area women who have been proposed for membership in this international organization.

She will select new members, explain the sorority program and initiate the formation of Texas Epsilon Theta Chapter in Snyder.

Mrs. Larson is from Scottsdale, Ariz., International Headquarters for Phi Sigma Alpha. The sorority is non-academic, non-political and has no fund-raising program.

"Membership is open by invitation to women in their thirties and over who are intellectually curious and who like to think about and discuss ideas than personalities," said Mrs. Larson. "We feel that our emotionally mature woman often has a desire to become reacquainted with herself — not as a mother, a wife or a homemaker, but as an individual. Married or single a woman needs mental stiluation to expand her horizons."

Founded in 1960 in Corona, Calif., Phi Sigma Alpha today has over 650 chapters. Membership includes governors, wives, women listed in "Who's Who," retired women, homemakers, business and professional women, plus outstanding and distinguished honorary members.

Membership is transferable to any chapter in the world and Mrs. Larson suggest that Phi Sigma Alpha members who have moved to Snyder contact her at 573-5432. She will be happy to help arrange a transfer to the new chapter here.

A thought-provoking and stimulating program, "Inventory of Personality," designed by Dr. William Parker, Prof. of Psychology at Redlands, Calif., and author of several best-selling books, is the basis of chapter activity the first year. Equally absorbing programs follow, with a new one provided to the chapter as each preceding program is completed.

Members receive the official publication, "The Courier," monthly. It contains chapter news, photographs submitted by members, fashion news and announcements of area meetings and state conventions. Attendance at these functions also is a privilege of members.

While in Snyder, Mrs. Larson is staying at the American Motor Inn and may be reached by calling 573-5432.

Rose Topic At Meeting

"To Prepare For A Rose" was the program theme presented Snyder Garden Club members Thursday morning at Martha Ann Woman's Club. Mrs. Wayne Potts introduced the speakers, Mrs. Richard Brice, who discussed the article "Rose and Banana Peels" from the March, April 1967 Lone Star Gardener. Mrs. H. V. Kleibrink gave practical helps for successful rose planting suggested in the "American Garden Book." Included were directiojs for proper drainage, soil testing, and early soil preparation.

Mrs. J. H. Hamblen, president, presided in the business meeting. Mrs. W. B. McSpadden announced the flower arranging workshop schedule would be the four Monday nights in April.

Mrs. F. G. Sears was hostess for the 19 members present. Mrs. E. W. Schrader and Mrs. Billy Jack Hunter were welcomed as new members.

North P-TA Program Set

The Parent-Teacher Association of North Elementary School will meet Monday at 7:30 p.m. Mrs. E. L. Keller, president of the association, will preside.

Following the business meeting, the group will disperse throughout the building to observe classroom demonstrations. This will be the first day of Texas Public Schools Week and all parents are encouraged to attend so that present-day teaching techniques, methods and materials can be presented, followed by a question and answer session with the teacher.

The public is invited to visit in the school during the week for more observation of the school program. Parents may also eat with their child at school during this week for one dollar. The downtown displays were prepared by Mrs. Odom's class. They can be seen at Dryden's Shoe Store and Mixon Supply on the east side of the square.

Quint Overcomes Brief Difficulty

NEW YORK (AP) — Sarah Kienast, a 4-day-old quintuplet, has apparently overcome a brief respiratory difficulty. Her brothers and sisters are reported in improving health.

"The infant is responsive and crying lustily," a spokesman at Babies Hospital of Columbia Presbyterian Medical Center said Friday of Sarah.

The parents of the three girls and two boys are Mr. and Mrs. William Kienast of Liberty Corner, N.J.

Mrs. Kienast, who gave birth six weeks prematurely, was reported sitting up in bed and reading congratulatory telegrams from throughout the world.

MR. AND MRS. DAVID WILSON
(Craft Photo)

Doublering Rites Unite Miss Schenk, Mr. Wilson

Miss Caron Ann Schenk became the bride of David Wilson in doublering rites at 8 p.m. Feb. 19.

The bride is the daughter of Mr. and Mrs. Lawrence Schenk of San Antonio. Mr. Wilson is the son of Mr. and Mrs. Kenneth Wilson of Snyder.

The Rev. Miller Robinson, pastor of Colonial Hill Baptist Church, officiated at the ceremony in the home of the bridegroom's grandmother, Mrs. Edgar Wilson.

The bride was given in marriage by her father. Miss Cresia Schenk, sister of the bride, of San Antonio, was maid of honor.

Richard Wilson served as best man for his brother.

A reception was held in the home following the ceremony.

The bride is a 1968 graduate of John Marshall High School in San Antonio and attended Southwest Texas State University. She is employed at Les Francis Chevrolet Co. in Snyder.

The bridegroom is a 1968 graduate of Snyder High School and attends Howard County Junior College.

They are at home at 2505 Thirtieth Street.

Crocodile Grabs Tourist's Camera

PORT ELIZABETH, South Africa (AP) — Curator John Weiman heard a piercing shriek from the crocodile pit in the Port Elizabeth snake Park. Thinking someone had fallen prey to the snapping jaws of Bertie, the Giant croc, he rushed to the pit and found the reptile contentedly chewing an expensive camera.

Tea Is Expensive For French Singer

NEW YORK (AP) — French singer Patachou says she is $21,750 poorer after having tea in the Palm Court of the posh Plaza Hotel.

She said she put her handbag on the floor beside her chair Friday.

When she reached for a cigarette, the bag was missing. She said it contained a $12,500 diamond brooch, a $7,000 platinum and diamond bracket, two turquoise and diamond rings worth $1,000 each and $250 platinum cufflinks.

Sign Confusing

CAMPBELLSVILLE, Ky. (AP) — A small brass sign on a door at the end of a corridor at the Taylor County Courthouse apparently has been misunderstood.

That sign reads: "Women's Toilet."

Beneath the brass sign hangs a larger sign painted on cardboard: "Ladies Only."

MRS. EUGENIO DAVILA JR.
(Craft Photo)

Tavarez-Davila Vows Are Exchanged Feb. 14

Miss Sally Tavarez, daughter of Mr. and Mrs. Ramon Tavarez, 2104 Forty-first Street, became the bride of Eugenio Davila Jr., son of Mr. and Mrs. Eugenio Davila Sr., 400 Thirty-fifth Street, in vows pledged on Feb. 14.

J. P. Billingsley officiated at the single ring rites performed in the Billingsley home.

Mr. Tavarez gave his daughter in marriage. She wore a floor-length white dress of lace over taffeta with long sleeves and a chapel train from a bow in the back. She wore a waist-length veil and a crown of leaves and rhinestones.

The bridal bouquet was of white French carnations with English ivy trimmed in yellow satin ribbon.

Mrs. Ruben Gonzales of Snyder was matron of honor. She wore a white gold-trimmed dress and carried French carnations trimmed in yellow.

Sgt. Ruben Gonzales of Snyder was best-man.

A recepetion was held in the community room of Snyder Savings and Loan Building. The table was laid with a white lace cloth. The three-tiered wedding cake was served by Cheryl Evans, Delea Zamoramo and Ramona Pena.

Both the bride and bridegroom attended Snyder High School. They plan to make their home in Snyder.

Scuba stands for self-contained underwater breathing apparatus.

WOMEN's CALENDAR

TUESDAY

Economics Of Family Discussed

"Family Economist" was the title of the program presented at a meeting of the Twentieth Century Club at the Martha Ann Woman's Club.

On the panel were Mrs. Bob Dupree, Mrs. Clyde Collins and Mrs. Frank Wilson.

Mrs. Dupree's topic was "Going Broke in Style," while Mrs. Collins discussed "We, the Consumer," and Mrs. Wilson "Worst Inflation Villain." A group discussion by all members attending followed.

Mrs. Collins was hostess for the meeting.

In the business meeting, Mrs. Collins reported that the club members had been asked to assist with the Cancer campaign. Several members volunteered to help. Mrs. Lorene Crooks, president, presided.

Hobbs of Potosi. The bride is a graduate of Snyder High School and is employed by Abilene National Bank. Mr. Hobbs is a graduate of Wylie High School and is employed by the Taylor County Sheriff's Department. They are at home at 3313 Portland in Abilene.

They Save Coupons To Get A Bus

How many Gold Bond Stamps, gift stars coupons and red scissors gift coupons does it take to secure a bus?

The ambitious ladies of the WMC of the First Assembly of God Church can tell you— down to the last trading stamp.

Through the sponsorship of group project services (a division of Premium Corp. of America, Minneapolis, Minn.) the group will earn the bus by way of points, saving gold bond stamps, gift stars coupons, red scissors coupons, donation certificates and the cigarette coupons.

The points are secured through donations of the trading stamps and product coupons as well as donation certificates secured at Gold Bond gift centers when persons redeem stamps for personal gifts. A person may ask for one with each book redeemed. Many friends, neighbors and outsiders are helping us," said Mrs. Orval Hodge, group project chairman for the WMC. "All contributions are welcome." They may be delivered or mailed to Mrs. Hodge at Route 3, Box 447 (1711 Eighth Street) Snyder. Gold Bond stamps are available at food stores and service stations, and gift stars coupons, red scissors coupons are part of a number of brand name good and tobacco products.

The cigarette coupons that count as gift stars and red scissors coupons and Gold Bond Stamps include a number of popular brands.

Moisture And Warm Days Improving Texas Pastures

COLLEGE STATION, Tex. (AP) — Moisture has spread across the state but amounts were lightest where it was needed most, Director John Hutchison of the Agricultural Extension Service said rainfall increased as the storm moved eastward.

He noted that warmth of the past several days had pushed the growth of grains and range plants especially in areas with adequate moisture. Rain left many fields too wet to graze, he added.

Ranges also improved, he said, with more grazing becoming available. Feeding is still general over the state and in many areas a scarcity of feed, especially hay, was noted.

Farmers pushed land preparation, fertilizer and weed control herbicide distribution over the state, getting ready for spring planting. Some cotton is up in Deep South Texas and considerable grain sorghum in that area has been planted, Hutchison said.

Panhandle rains were small and moisture is still short on dry land fields. Warmer weather has helped wheat. Seedbed preparation, fertilization and irrigating wheat were major activities. Some stocker cattle were moved from dryland wheat pastures. The sugar beet harvest is about complete.

Rain generally was light over the South Plains (Lubbock) and some preplant irrigation has started. Land is being prepared.

Subsoil moisture is generally good. Rain is needed to bring on grazing and grains. Some greenbug damage to wheat reported. Sorghum stubble fields are about grazed out and feeding has increased. Livestock generally are in good shape.

Some Rolling Plains (Vernon) counties got up to an inch of rain but 17 of 22 counties are short on moisture. Grain growth is still slow and grazing is limited. Controls are being applied for greenbugs and grain mites. Grains are being top dressed. Feeding of livestock is necessary. Land preparation is active.

Good rains over North Central Texas kept soil moist at the adequate level slowed all farm work. Grains look good and where field conditions permit are providing some grazing. Ranges are improving, livestock are in fair to good condition and feeding is still general. Land is being prepared for planting and for sprigging to coastal bermuda.

Rains kept moisture at the fully adequate level in Northeast Texas. Pastures were improving in warmer temperatures. Tomatoes are now being put in hotbeds and home gardening increased. Grain growth was good and other cover crops are growing and furnishing some grazing. Livestock shows some improvement but heavy feeding is required.

Snow and rain in Far West Texas will improve forage plants and grains. Weeds are plentiful and providing grazing. Feeding is still general and livestock are in fair to good condition. Good lamb and calf feeds are on the ground.

Rains were general over West Central Texas but more is needed in some counties. Grain growth has improved and some grain grazing is now available. Ranges are still providing ample grazing and the warmth have started weeds and grass growth. Livestock are in good condition and goat shearing is nearing the peak. Plowing is nearly complete.

Rain was general over Central Texas and grains are lush, especially on top dressed fields. Grass and weeds are providing some grazing but most livestock are still being fed. Livestock generally are in good condition and goat shearing and dipping is active.

More rain in East Texas kept moisture at the fully adequate level. Higher temperatures helped oats. Pastures are improving but grazing is still short. Livestock are improving but feeding goes on and hay is short.

In Southeast Texas, moisture is fully adequate in most counties. Grain growth was good and grazing excellent where feld conditions permitted grazing. Clover is beginning to grow along with other cool season plants. Pastures are improving. Livestock were in fair condition with feeding needed. Marketing is normal.

Rainfall in some South Central Texas counties was near or above two inches and kept the moisture level fully adequate. Flax growth is good and grains are providing some grazing when fields permit. Carrots, cabbage and parsley are being harvested. Peaches are blooming. Ranges are average and livestock are in good shape. Labor is needed.

Rain was general over South Texas and slowed outdoor activities. Amounts were heaviest in northern counties. Sorghum planting started in the Lower Valley counties where some cotton has also been planted.

A Junior Editors Quiz About WOLVES

QUESTION: *How are dogs related to wolves?*

ANSWER: About 15 million years ago, wolves and jackals began to develop from the ancient animal called "Tomarcus." Tomarcus looked rather like a wolf with long body and short legs. Wolves resemble dogs closely, and early dogs were probably bred from tame wolves. According to scientists, early man domesticated the dog much earlier than he did the cat or other animals. This was because he lived by hunting. Wolves or dogs would locate an animal by smelling it, and the hunter could come up and kill the game animal. So, man and dog became partners, working together and sharing the reward — a good dinner. It was soon found that dogs could be bred for special purposes, which altered their original appearances. Dogs like the collie and police dog protected men's flocks; blood hounds and beagle hounds made good retrievers of game; Tim's faithful terrier, Spot, is the result of years of special breeding. Today you can get a dog of almost any shape or size.

2-28

(Paul Shillinglaw of Rock Hill, S.C., wins a prize for this question. You can win $10 cash plus AP's handsome World Yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)

Crisis Halts Construction Recruitment

AUSTIN (AP) — A crisis in residential building in Texas threatens to hamper recruitment of new workers for burgeoning industry, the Bureau of Business Research reports.

Fewer residential units were authorized in January than for the same month a decade ago, even though the population is much larger and more affluent, the bureau said.

"To compound the problem, the houses being built are disproportionately inflated in cost, must be financed at extraordinarily high interest rates if financing is available at all, and must be maintained at far higher expense than in the recent past," the University of Texas Agency said.

The average cost of a single-family residence in December 1968 was $11,179. In December 1969, it was $16,722, and the house was either smaller or less solidly built than the 1968 model.

Only 1,883 permits for new one-family homes was issued for the entire state in January, a drop of 36 per cent from January 1969. The yearly total in 1969 was half that of 1968.

"Builders are frank in explaining the situation. It is no longer economically feasible to meet the housing needs of middle-income Texans. Those poor enough to qualify for federal subsidies have a chance of finding new housing, of a sort. At the other end of the scale, a limited number of expensive new houses are being put up for those who can afford them. For the large midsection of the market, the pickings are poor," the bureau said.

Only 136 new houses were authorized in Houston in January, and no duplexes.

"Even apartment authorizations were down sharply from a year earlier," the Bureau said.

Cutbacks were less sharp but still notable in Dallas, San Antonio and Fort Worth.

The shortage of new houses might be expected to encourage renovation of older houses. However, higher interest rates on home improvements have kept this from being true. It costs 82 per cent more to have living and dining rooms repainted than it did a decade ago. Reshingling a roof is 63 per cent higher. Furnace repairs are up 45 per cent in only seven years.

The current housing lag is dangerously out of phase with other economic developments in Texas," the bureau said.

"As the new decade progresses housing shortages in Texas and across the nation will call for serious attention. Nor is there any single remedy likely to ameliorate the situation. Only a combination of fiscal adjustments, increased efficiencies and a reordering of the entire (housing) industry is likely to provide acceptable living quarters to the growing population," the bureau said.

Navy Gets Mixed In With Marines

SAN DIEGO, Calif. (AP) — Ralph Rhea, 19, of Urbancrest, Ohio, a Navy recruit, arrived on a plane that contained a group of Marine recruits.

A Marine bus met them at the airport. "Some guy yelled out, 'All you recruits fall in over here,' and I was a recruit so I lined up with the rest of the men," Rhea said. He said he knew recruits didn't speak unless spoken to, and he wasn't spoken to.

He had gotten a Marine haircut and was standing in line for an issue of Marine clothing when someone spotted "Navy" written on the jacket he was wearing. They asked him why, he told them, and they sent him back to the Navy.

MR. AND MRS. RANDAL DEAN DOLLINS
(Craft Photo)

Langford-Dollins Vows Are Pledged Feb. 20

Miss Belinda Jane Langford, daughter of Mr. and Mrs. Robert Langford, Route 1, Snyder, became the bride of Randal Dean Dollins, son of Mr. and Mrs. Don Dollins, 3802 Galveston, Feb. 20 at the Union Baptist Church.

The Rev. Lee Jones, pastor of the church, officiated at the doublering rites.

The bride, given in marriage by her father, wore a wedding gown of white satin overlaid with lace and a three-layered lace train. Her veil of three layers of white shoulder-length net, featured a white satin bow trimmed with seed pearls.

She carried a bridal bouquet of white carnations trimmed with blue ribbon.

Debbie Roemisch, a student at Howard County Junior College, was maid of honor. Her costume was of blue satin overlaid with dotted swiss, flowers. She carried white and blue carnations with blue ribbons. Randy Kubena of Hermleigh was best man, while Dale Bigham seated guests.

The altar was decorated with white carnations and shasta daisies.

At the reception following the ceremony, Kay Runnels and June Browning served the three-tiered cake from a table set with milk glass and featuring white carnations and shasta daisies.

For the wedding trip the bride selected a three-piece pink suit.

The bride is a 1969 graduate of Snyder High School. Mr. Dollins is a senior student at Snyder High. They are at home at 1905½ Thirty-first Street.

Cancer Unit Session Set

The Scurry County Unit of the American Cancer Society will meet at the American Restaurant at noon Monday for a luncheon and business session.

Jack Gulledge of San Angelo and Abilene, field director for District IV, will be here to assist the local unit in final plans for the crusade to be held in April.

Crusade plans must be as accurate as possible in order to aid volunteer workers to accurately cover the more than 60 geographic areas in the county.

The ASC April Crusade has become not only a fund-raising event, but also an opportunity to alert the majority of the public to the seriousness of the cancer threat. It has been found by recent surveys that more people go to their doctors for physical examinations in May and June following the crusade than at any other time of the year.

WED IN HOUSTON—Miss Brenda Kay Garden and Donald Glenn Palmer were married Feb. 14 at Houston. The bride attended Reagan High School in Houston and is a nurse at Methodist Hospital there. The bridegroom is a 1964 graduate of Snyder High School and attended Lubbock Christian College. He is employed by the Texas Department of Public Safety in Houston. They are at home at 1417½ Heights Blvd., Houston.

Weekday Supper

Tarragon adds different and interesting flavor to kidney stew.

Charlotte's Creamed Kidneys Tarragon
Rice — Peas and Carrots
Salad Bowl — Bread Tray
Fruit Compote — Beverage

CHAROTTE'S CREAMED KIDNEYS TARRAGON

2 tablespoons butter or margarine
1 medium onion, chopped
1 rib celery, diced
1 can (4 ounces) mushrooms, drained with liquid reserved
1¼ pounds beef kidney, cored and cut into small pieces
½ cup dry vermouth
1 bay leaf
2 teaspoons dried tarragon
⅛ teaspoon nutmeg
¼ teaspoon Worcestershire sauce
1 teaspoon flour
½ cup heavy cream

In a 10-inch skillet over low heat melt the butter. Add onion, celery and drained mushrooms. Cook, stirring often, until onion and celery are softened. Add kidney and cook and stir until redness disappears. Add reserved mushroom liquid, vermouth, bay leaf, tarragon, nutmeg and Worrestershire; cover and simmer for about one hour. Gradually stir cream into flour, keeping smooth; add to skillet; stir constantly until thickened. Serve over toast. Makes four healthy servings.

The atmospheric engine, which was the first workable steam engine used to pump water out of mines, was invented by English engineer, Thomas Newcomen, about 1712.

TO OBSERVE 60TH ANNIVERSARY — Mr. and Mrs. Carroll Moore will be honored Sunday, March 8 at a reception in Wesley Hall at First United Methodist Church to celebrate the 60th anniversary of their wedding. Hosting the reception will be nieces, Mrs. Robert Stewart of Bryan and Mrs. Monty Staniforth of Plainview, and a nephew, L. E. (Sonny) Nance of Haslet. Mr. and Mrs. Moore (Bonnie Elkins) were married on March 6, 1910, at the home of her parents, Mr. and Mrs. G. K. Elkins, in Kent County. Friends and relatives are invited to call between the hours of 2 p.m. and 4 p.m. at the reception March 8. (Craft Photo)

Club's Program On Astronauts

A program on the Astronauts, their wives and mothers, was presented by Mrs. M. K. Stevenson Sr. at the Altrurian Club's meeting at Martha Ann Woman's Club.

"What kind of man would pay the price to travel in a space ship to the moon?" Mrs. Stevenson, who did considerable research on the subject asked. "Landing a man on the moon was nothing short of miraculous," Mrs. Stevenson continued. "Irving Stone, author of the book 'Love is Eternal' said if we don't understand the mother, how can we understand the child? There has been little published about these mothers and not a great deal about the wives. It is agreed the hero of the story is man.

"The wives keep the human side prevalent and the mothers live up to the idea that there are few equivalents to a mother's love. The space age proper began in the twenties, but it was not until 1958-59 that the original Mercury team was selected. On Feb. 20, 1962, the first man entered space and he was Lt. Col. John Glenn. Time magazine said he was an appealing man, as normal as blueberry pie. He has an engaging small-town charm and deep faith in a greater power than himself that will see-that he survives.

"He married Annie Castor, daughter of the town dentist and his sweetheart since he could remember.

"When he returned from the first flight into space in a capsule, Annie and his family met him at Cape Canaveral. He greeted Annie with great emotion. Along the 18 mile route to Hangar 5, riding in the back seat of a white convertible, Glenn held Annie tightly with his right arm. Not since Lindbergh had the United States had such a hero.

"Years have passed and many flights and splashdowns have gone into the training of many men. Tragedy has had its place, and successes beyond the wildest dreams have crowned the efforts of the whole scientific team. The space travelers who have cut their ties with the earth and have entered the moon's sphere of influence have thrilled all thinking people of the earth with their appreciation of the infinite power of the Creator.

"Frank Borman has earned the admiration of everyone with his philosophy. And Lovell said this: 'I have trod the high, untrespassed sanctity of space, put out my hand and felt the face of God.'

"So, in 1969, Neil Armstrong, Buzzy Aldrin and Michael Collins manned the Apollo 10. When Neil Armstrong stepped down and made his now famous remark: 'One small step for man, and one great leap for mankind.' It was a new step in the evolution of man.

"For the first time, life left its planetary cradle. It was a step made possible by a decade of effort that cost more than 24 billion dollars, and tested the skill and coverage of the adventurers and their loved ones.

"Armstrong married Jan Stearn in 1956 when they were students at Purdue. They have two sons, Mark and Rickey. Viola Armstrong, Neil's mother, deserves to be chosen a model mother. He was born to her in answer to ardent prayers for a son. She believed he was destined to bea useful man with a thirst for knowledge and the capacity for learning which some day would accomplish noble deeds.

"In his upbringing she never failed to encourage him to meet big problems head on and to hold on to the highest goals.

"Twenty-three American Astronauts have been in space. With their wives and 66 children, they constitute one of the most exclusive societies in the world and one of the most sheltered, and deservedly so."

Mrs. W. P. King was hostess to the Altrurian Club meeting. During the business meeting, Mrs. C. C. Miller announced that a style show and luncheon would be held at the Martha Ann Woman's Club on March 7, under auspices of the board of directors.

Nineteen members and one guest, Mrs. Earl Brown, attended.

Women's Comments

"Girls were not supposed to enter competitive sports; they were told to learn how to be good losers.

As a rule, the children of these mothers were non-physical, overprotected and, often, miserable. You can't say this doesn't have quite a bt to do with some of the youth problems today."—Bonnie Prudden, physical fitness expert, in an interview.

"Everybody is making such a big thing of it. But I don't see what difference sex makes. There have been doctors and lawyers and engineers for years who are women. And a modern aircraft is built so simply that a child could fly it."— Turi Wic eroe, first woman copilot to Scandinavian Airlines System.
