

Loraine Will Not Have A Fair

There will be no community fair in Loraine this fall. This decision was reached at a meeting of the business men Tuesday of this week. The decision was made because of the fact that the cotton crop is so late this year and everyone is so busy that the proper interest in a fair is lacking.

Merchants are of the opinion that the farmers are too busy to prepare exhibits and none of the merchants are willing to take the time from their business to prepare a place for them.

SWEETWATER DISTRICT YOUNG PEOPLE MEET

A number of young people from here attended a district meeting of young people of the Sweetwater District at the First Methodist Church, Sweetwater, last Saturday evening and Sunday. Those who attended were: Vernon Baird, Leonard Davis, Winniedell Rowland, Bessie Nell Johnson, Pauline Harrell, Ruby Martin, Opal Martin, Ollie Mae Martin, Opal Armstrong, Josephine Palmer and Mrs. J. E. Harrell.

An enjoyable and helpful meeting was reported by those present. The next district meeting will be held in First Methodist Church, Big Spring, some time in January.

ARKANSAS TO HOLD ITS 100TH BIRTHDAY IN 1936

Whether Texas will commemorate its 100th anniversary will depend upon the expression of the voters November 6th. The State constitution does not now provide for State celebrations and must be amended by Texas voters if this State is to hold an official creditable State celebration in which it can invite the other States and nations of the world to take part. Should the Texas Amendment be defeated, Texans can at least go to the Arkansas party.

FALL IS TIME TO CHECK OVER CAR, SAYS TIRE DEALER

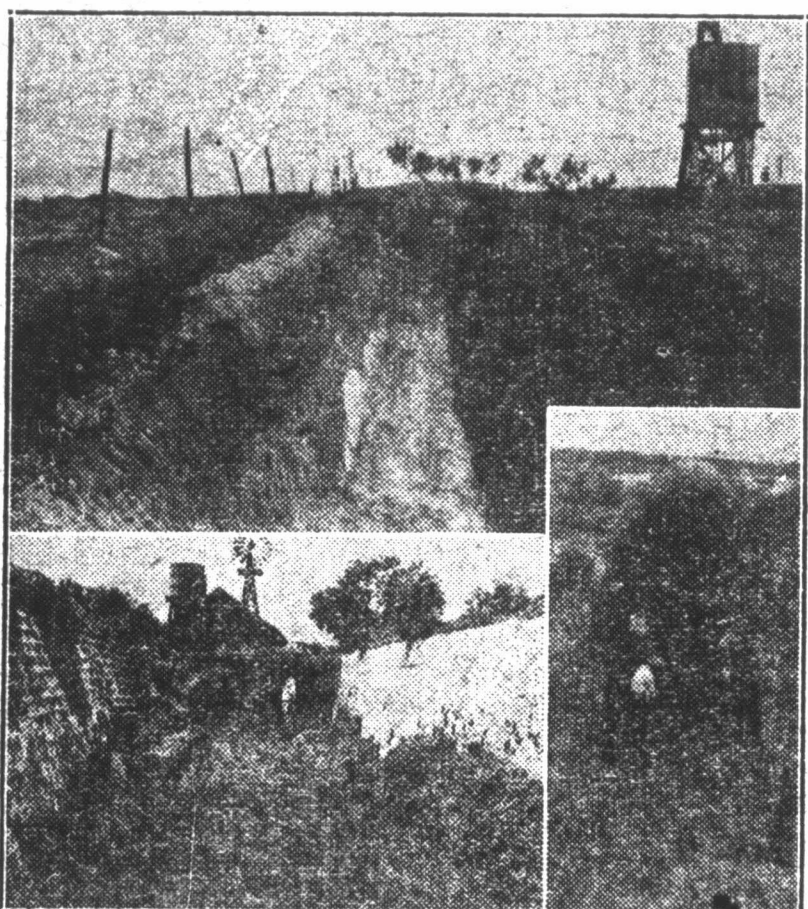

"The wise motorist will see that he is not caught unprepared by a sudden cold snap," said Waldo Smith of the Magnolia Stationette. "Fall weather is so changeable that even though you leave on a trip in fair weather, you may come back through sleet or snow; and then is when you need Non-Skid on your tires."

Tires are so low in price now that it is impractical to risk life and property trying to run out the last mile. Based on the present selling price, the last thousand miles in a 4.75-19 tire is worth only 43 cents. When you drive with smooth tires you are gambling 43 cents against your life and your family's. You may only need safe tires for one second of your life, but if that second comes while you are traveling 60 miles an hour—88 feet per second—safe tires mean life itself. The extra traction and safety of Firestone tires was recently demonstrated on the salt beds near Salt Lake City, when Ab Jenkins drove a Firestone equipped Pierce Arrow car 2,710 miles in 24 hours over a circular 10-mile course—an average speed of 112.91 miles per hour—breaking all existing records.

Fall should be the time for a general check-up of the car," continued Mr. Smith. "The battery soon will be called upon to turn over a motor stiff from cold, and lights will be burning for longer hours. The generator charging rate should be advanced and the battery inspected to make sure there are no weak cells that might fail when you need them most. Spark plugs also need adjusting for hard winter starting, and radiator hose connections should be inspected so that you will not waste anti-freeze solution or alcohol."

If the motorist checks his tires, battery, brakes, spark plugs, and radiator hose, he can rest assured that he will have safe trouble free winter driving."

Trench Silos for Big West Texas Feed Crop

JUST WHAT ITS NAME IMPLIES, a trench silo is simply a trench dug into the ground into which chopped feed crops may be stored for feeding as succulent ensilage to dairy cows, beef cattle and work stock during periods of dry pastures or bad weather. Cheap, easily dug, easily filled, ensilage easily removed, the big disadvantage of a trench silo is excessive spoilage which may be avoided by proper filling, and by providing drainage. More than 200 were dug in Texas in 1931 and county agent reports indicate a big increase for 1932, especially in West Texas.

Fruit Shipments Light Last Month

Austin, Texas, October 15.—The movement of Texas fruits and vegetables during September was unusually light—even smaller than the meagre loadings of 56 cars in September, 1930, according to the University of Texas Bureau of Business Research. Only 54 cars of Texas fruits and vegetables were loaded during last month, according to the Bureau's report.

"September is, of course, an 'in-between' month as far as loadings of fruits and vegetables in Texas are concerned," the Bureau's report said. "It is too early for the crops that move in the fall and the loading of melons has just about been completed."

"Eighteen carloads of grapefruit, the first for the 1932-1933 season, were shipped, just as many as in September last year; and only one car of onions was loaded as compared with 13 in the corresponding month a year ago. Cantaloupes accounted for only 21 cars during September as compared with 31 in September last year, and 6 carloads of sweet potatoes were shipped against 15 during the corresponding month in 1931. Eighteen cars of honey dew melons and 19 cars of mixed melons were shipped in September last year; only 2 cars of mixed melons were shipped last month."

MISS BROWN FETES PASTIME BRIDE CLUB

Yellow candles in green holders centered the tables while purple bags of mints marked the places for twelve guests of the Pastime Bridge Club feted by Miss Irene Brown on Wednesday afternoon.

After a salad plate bearing a small bouquet of violets tied with miniature bows of maline was served, guests enjoyed games of bridge with high score going to Miss Kate Spurger.

Those present were Mrs. Hall Hooker, Misses Kate Spurger and Inez Mayes, guests; Mesdames Bennett, Derryberry, Walker, Williams, Misses Lola and Mildred Coffee, Ruth Coon, Viola Brown and Estha Edwards.

Mrs. J. D. Norman and little daughter of Abernathy are visiting the former's mother, Mrs. W. A. Jarratt.

Mrs. S. J. Norman is visiting in Dallas this week.

Mrs. R. B. Ferguson and son spent last week with relatives in Abilene.

Rumors Fly In State Capitol

Austin.—A heavy-set man unidentified by newspaper men was in conference with Ranger Capt. Frank Hamer, State Auditor Lynn, and members of the state senate investigating committee while reports flew about the capitol that a plot to rob the treasury had been nipped in the bud.

SPROUT-DAMAGED MILO MAY BE FED ON FARM

College Station Milo maize heads that have sprouted on the stalk in the field due to rain followed by warm weather will do to feed to livestock, says John H. Jones, agent in animal husbandry at Texas A. and M. College. Many inquiries are being received by him from West Texas as to the feeding value of this field damaged grain. "Such milo is damaged as a feed, how much we do not know," he says, "but it is safe to say that with the exception of poultry, such heads and the threshed grain therefrom may be freely used on the farm. It will not be so palatable as bright feed and when thoroughly dried and ground will make a dusty feed. If fed to beef cattle it would be well to use with it a relatively large amount of cottonseed meal (about one-eighth of the entire grain and hay ration) to make it more palatable."

GIN REPORT

The five gins in Loraine reported Wednesday at noon a total of 2,263 bales ginned for the season thus far.

42 CLUB

Dr. and Mrs. W. L. Hester will entertain the 42 club Thursday evening, October 20, the regular meeting date for this pastime club. The members are anticipating a pleasant evening as the Hester's hospitality is always most gracious.

Mr. and Mrs. Homer Derryberry entertained the club at their last regular meeting date. The spacious rooms were perfumed with the fragrance of lovely roses from the hostess' garden. Six tables were laid for refreshments of hot chocolate and devil's food cake. After the serving couples began the ever popular game of 42. The tallies were charmingly quaint colonial Misses.

A most pleasant evening was spent in the Derryberry home.

Postmaster Alonzo Phillips is on the sick list this week.

Two Die, Five Hurt In Auto Accidents

Two persons dead and five injured was Sunday's toll of accidents in Colorado and area.

Mrs. John Miller, wife of a mechanic at the Coltex refinery, and her seven-year-old son, John Miller, Jr., an only child, received fatal injuries when their automobile was struck by a west-bound Texas and Pacific passenger train at 6:30 Sunday morning. Miller received severe injuries, but will recover, doctors think.

The accident occurred at Elm street grade crossing in Colorado, one block east of the railway station. Mr. and Mrs. Miller and the boy were on their way to the refinery. Miller to report for work. The car, tossed 55 yards after the locomotive struck it, was demolished.

The victims were taken to the Root hospital. Mrs. Miller with a broken pelvis, broken arm and lacerated head; the boy with a fractured skull; and Mr. Miller with a broken hip. Mrs. Miller died at 11 a. m., her son at 1 p. m.

Sunday afternoon Mrs. A. V. Gary and nine-year-old son, Morris, were injured when their car was struck by another as they turned off Highway 1 to the Colorado municipal airport, where Reg Robbins, well-known aerial barnstormer, was giving exhibition flights. Another son, Clarence, 14, escaped injury. At about the same time E. Corilla received a broken left leg, and a companion was hurt, when their car collided with a truck a few miles west of town.

CHILD-YOUTH WEEK PROGRAM

Child-Youth Week program will be observed at the Methodist church Sunday morning, Oct. 23, 10:45 to 11:15. Preaching service will follow the program. Instrumental music, "Holy, Holy, Holy, Lord God Almighty" Scripture Reading, Mrs. Roy Edwards.

Prayer, Mr. Palmer. Special music. Leader, Mr. Palmer. 1st Speaker, Mrs. Dickenson. Leader. 2nd Speaker, Mrs. Richard McClennay. 3rd Speaker, Mrs. Jim Johnson. 4th Speaker, Mrs. Homer Richards. Hymn. Closing Prayer—Bro. Harrell.

LONE STAR TWINKLINGS

Everyone is busy picking cotton. Most every farmer has picked a few bales. They are all taking advantage of the pretty weather and in a few days there will be many bales picked.

Rev. Marvin Leech conducted services Sunday morning at 11 a'clock. A large crowd was in attendance.

Mr. and Mrs. J. M. Compton spent Saturday night visiting her sister, Mr. and Mrs. B. Wilkerson. They attended the Primitive Baptist church at Colorado Sunday.

Mr. and Mrs. O. P. Blair spent Sunday with their daughter, Miss Juanita Blair, at Carlsbad Sanatorium. Etta Lee Martin returned home Sunday afternoon after a week's visit with her aunt and uncle Mr. and Mrs. C. B. Martin of near Snyder.

Several young people of the community attended the entertainment given by Mr. and Mrs. J. W. Burrier of the North Champion community Saturday night.

Mrs. H. M. Zellner spent Sunday afternoon with Mrs. Claude Martin. Don't forget to come to singing Sunday afternoon at 2:30.

Mr. and Mrs. Nick Farrar of Colorado, and T. W. Tartt and family of Abilene visited relatives here Sunday.

S. O. Givens and W. O. Kinnison were in Lamesa Sunday on business.

Franklin D. Roosevelt, Democratic Nominee for President.

John Nance Garner, of Uvalde, the Democratic Party's choice for Vice President.

METHODIST CHURCH NOTES

Sunday morning Rev. Harrell preached on "Robbing God", using as a text Malachi 3:8. Sunday night he preached on "The Dry Brooks of Life," using the text 1st Kings, 17:7. Good crowds were in attendance at both services. Seven members were reported for church membership either by letter or promise of letter. We had fine services Sunday. You are missing something when you miss these services. May we look for you Sunday? If you are not there nobody can take your place. Come to church next Sunday. Visitors are always welcome.

BRUCE BIBLE CLASS

Attendance at our class was good Sunday. We were indeed glad to see such a large number out for we are always glad to have a large number with us. However some of our members are not attending. Let's do better than we have been for the past few Sundays. We can all find time to go other places so why can't we find time to attend Sunday School. We stay only an hour and we can all afford to spend that much time studying God's word. We will look for you next Sunday. Get up a little earlier on Sunday morning and be on time.

We had one visitor Sunday, and were indeed glad to have him. Visitors are always welcome to meet with us, so if you are visiting in our community be sure and visit our class. We will do our best to help you and your presence will be a help to us.

Sunday being time for the election of officers, the following were elected for the coming year: Roy Edwards, teacher; Arthur Callahan, president; W. E. Honea secretary.

The subject of the lesson was "The Home and the Coming Generation." Most of the time was spent in selecting officers, however Mr. Bruce brought out some interesting points pertaining to the lesson. The subject for next Sunday is "Problems of the Modern Home." This is a lesson each of us need to study far more than one reason. Everybody prepare his lesson for we will have a new teacher, so let's help him out by knowing our lesson and we all need to study God's word.

Reporter.

Born to Mr. and Mrs. Jack Tillison on October 13, a son.

Man Makes Bond In Drowning Case

Sweetwater, Oct. 16.—L. M. Parks presented himself before Sheriff Jess Lambert here Saturday afternoon and was released on \$15,000 bond after the grand jury had returned an indictment charging him with murder in connection with the drowning of his wife several weeks ago.

Mrs. Parks was drowned at Lake Trammell, the city's water supply, when she and her husband and two small daughters had gone fishing.

Parks had been at liberty under \$10,000 bond, secured in habeas corpus proceedings at Abilene after bail was denied in an examining trial here. He maintained the drowning was accidental.

COTTON COLLATERAL FOR CROP LOANS AUTHORIZED

Under a recent ruling of the Secretary of Agriculture cotton will be accepted as collateral on the 1932 Crop Production Loans. The basis for this will be 9 cents a 7-8 inch middling cotton with premiums and discounts according to grade and staple.

This does not mean that the government is buying the cotton. It is being accepted as collateral as a relief measure and the loan is not paid until it has been paid in cash derived from the sale of the cotton or otherwise. When this cotton is sold if it does not bring enough to pay the loan the obligation is still that of the borrower, and must be paid.

Other crops are not released when cotton is put up as collateral until the cotton has been properly classified and all necessary papers turned in to the Crop Production Loan Office at Dallas, Texas.

Where a borrower desires to place cotton up as collateral for his loan instead of selling it and paying the loan in cash he must deliver the cotton to either the Cotton Cooperative Ass'n or to a Federal Bonded warehouse and must be graded by a federal licensed classifier. Warehouse receipts must show on their face that the cotton represented by the receipt is insured.

Cotton sufficient to give about 20% margin should be deposited together with storage charges and insurance for a six month period and the picking allowance of 4-5 of one cent per pound lint, where this advance is made.

When the cotton is turned over to either of the above agencies the borrower must sign an agreement giving the Secretary of Agriculture authority to sell the cotton any time after March 1, 1933. At any time prior to this the borrower may order the sale of his cotton. After that date it passes out of his hands in so far as the sale of the cotton is concerned.

The government assumes no responsibility as to the price received when the sale of the cotton is made. If the cotton does not pay the loan the obligation must be met by the borrower, and it must be clearly understood that the government is not buying the cotton.

Where loans were made in 1931 and are fully collateralized and the borrower has signed a renewal mortgage no further demands will be made for the payment of the 1931 loan out of the 1932 crop. Where the 1931 loan was not paid and not fully collateralized sufficient cotton will be required to completely collateralize the loan.

Current Comment
From Washington

Judging by the interest that was absorbed by the World's Series, at a time when there was so much else to claim attention, no presidential aspirant can be sure of winning unless he intimates that Babe Ruth has a chance of an abinet position.

The premier of a country which owes money to the United States says that his cabinet is the organization that does the footing when there are bills to be paid. According to the dictionary, one meaning of the phrase "to foot" is to kick.

Partisans, Democratic or Republican, who are irked by personal abuse piled on the respective candidates, may have the satisfaction of knowing that persons who are called bad names have at least that ticket of entrance to a very respectable company. A political speaker who has had opportunity to look the matter up, says that President Wilson was denounced as an impractical idealist, President Theodore Roosevelt as a wild man, Jefferson as a radical, Jackson as a demagogue, and Lincoln as a cracked-pot idealist. It is questionable whether designating presidential candidates by hot and snappy names ever won votes enough to turn the majority in a single township.

Before his term of office ends, the candidate who is successful in November will have occasion to recall a question which a stoker in the fire-hole of a Great Lakes freighter was heard to ask a fellow-worker: "Hank, what in hell do they want to be President for anyhow? It's nothing but grief, from shovel to funnel."

Employment Increase Is
Shown By U. Of T. Bureau

Austin, Texas, Oct. 15. The 930 establishments reporting to the University of Texas Bureau of Business Research and the United States Bureau of Labor Statistics had 66,172 workers on their payrolls on September 15 as compared with 63,089 on the corresponding date a month earlier.

"This increase of 4.9 per cent in the number of employees stands out as an unusually good showing in comparison with changes between August and September in previous years," the University Bureau's report said. "Last year, for example, there was a drop of 0.5 per cent; in 1930, there was a drop of 4.5 per cent. It is necessary to go back to 1929 to find another gain—and that was for only 1.31 per cent."

"Purely seasonal influences brought about substantial increases in the number of workers at bakeries, confectioneries, cotton oil mills, cotton compresses, men's and women's clothing manufacturers, but a large number of other classifications also showed gains, notable among which were lumber and saw mills, cement mills, and retail and wholesale stores."

Miss Pauline Harrell, who is attending school at Abilene spent the week end with her parents Rev. and Mrs. J. E. Harrell.

We'll Prove It

Si Chestnut says: "When I read a patent medicine Ad that doesn't make me have all the symptoms it describes, that Ad is a failure."

There is a good deal of truth in that. When you read a Bank Ad that doesn't make you feel that you should do business with that Bank, then it's a failure, too. We try to make our talks interesting, but above all we strive to show that our Bank is the BEST Bank for you. And we stand ready to PROVE it. Just give us the opportunity.

THE FIRST STATE BANK

WILL AWARD PERFECT ATTENDANCE CERTIFICATES

Superintendent Clyde Bennett announced last week that the boy or girl who has a perfect attendance record at the end of the school year would receive a beautiful attendance certificate. These certificates, he said, are beautiful and will be well worth striving for.

In order to get one a student must neither be tardy nor absent during the entire school year.

Those who have a perfect attendance record for the first six weeks of school are:

First Grade
Rex Beights, James Coffee, Hugh Elliott, Jimmie Ferguson, Forest Faulkenberry, June Graham, Bryan Mahon, Lamar Peterson, Mason Richburg, Doris Butler, Patricia Hooker, Elizabeth Jarratt, Gloria Martin, Gypsie Ted McCollum.

Second Grade
Mary Frances Cope, Jaunice Faulkenberry, J. C. Gross, Sayse Hardin, Leon Duke, Louise Spikes, Aileen Hallmark, Wanda May Smith, Mary Love Walker, Billie Fred Glass.

Third Grade
John D. Bennett, Melvin King, Homer Richards, Elizabeth Hock,

Sidney Meek, Royal James, Gene Baird, Louise Hallmark, Louise McClenney, Wanda Fay Richey, Royce Mahon, La Nada Piguet, Harold Britton, Raymond Foy, Harold Simmons.

Fourth Grade
Wilene Brown, Lona Beth Hardin, Maxine Hooker, Doris Mahoney, Dalma Piguet, Frances Riden.

Fifth Grade
James Manly, J. W. King, Sam Faulkenberry, Guindola Mearse, Alena Stepp, Mary Lyons.

Sixth Grade
Nina Pearl Brown, Willard Cranfill, Iris Duke, Dell Johsson, Willie Fae Roberts, Roy Baird, Jr.

Seventh Grade
W. F. James, Donald Saunders, Charles Glass, Byron Bennett, Iris Riden, Opal Martin, Ruth Anne Hall.

Eighth Grade
Orman Duke, Edwin Hallmark, Eldon Mahon, Katha Lee Harrell, Evelyn Land, Lula Mae Roberts.

Ninth Grade
Lloyd Beatty, Noel Jackson, Ray Preston, Douglas Taylor, Lloyce Beatty, Helen Bennett, Margaret Ruth Edwards, Pauline Faulkenberry, Wyona Hardin, Walene Stevenson, Estella Walker, Emma Louise Zellner, Bertha

PRESS AGAIN PLEDGES CENTENNIAL SUPPORT

The Texas Press Association, at the most largely attended meeting of its history on the opening day of Texas State Fair, unanimously renewed its previous pledges to support wholeheartedly the adoption of Texas Centennial Amendment as one of its five major constructive undertakings for the good of all Texas, and urged Texas people to assist in the patriotic movement to "authorize a State Centennial commemorating the heroic period of early Texas history and celebrating a century of our independence and progress, at such times places and in such manner as may be designated by the Legislature."

MAY GET SEED TESTING FREE

All Texas farmers are especially urged by Commissioner of Agriculture J. E. McDonald to take advantage this season of the free service of the State Department of Agriculture in the testing of planting seed. Unfavorable climatic conditions during the growing and harvesting seasons have caused low germina-

tion in seed this year, he pointed out.

"Because of rather unusual weather existing in Texas this year, there being a drouthy condition during the crop growing season and excessive moisture during the harvesting season, it behooves farmers planting various kinds of seed to have their planting seed analyzed and tested in the laboratory of the State Department of Agriculture to determine the germination percentage," he said. "If a farmer knows the germination percentage of the seed he is planting, then he can regulate the amount of seed to be planted per acre so as to insure the stand."

"Numerous conditions would permit poor germination. Grain seed, such as wheat, oats, rye and barley, may have been harvested a little too green; excessive rains while the grain was standing in shocks might have made possible heating; the grain may have been threshed before there had been sufficient shock drying; or it may have been placed in bins with excessive moisture, which would cause heating."

"The fact that many cotton fields suffered from drouthy conditions being followed by excessive rainfall during the harvesting season, coupled with the fact that because of an abundance of labor cotton was picked as soon as it opened, or a little too green, which permitted that heating, makes it possible that there is more than usual amount of planting seed of low vitality or inability to germinate properly. It is urged that the citizens

of Texas send representative samples of their seed which is for planting purposes to the State Department of Agriculture for testing. This service is maintained for their benefit and is absolutely free. Just send by parcel post one pound of cotton seed, one pound of large grain, such as oats, wheat and barley, five ounces of alfalfa, rye and similar seed, or two ounces of small seeded grasses, and the department will analyze and return a complete statement of the test to the farmer or seedsman without cost to him."

MORE COTTON IS BEING USED NOW

Washington.— Department of Commerce bureau of the census reported Friday that 491,655 running bales of cotton were consumed in the United States during September.

Cotton on hand September 30 in consuming establishments was placed at 1,087,286 bales and in public storage 7,969,280 bales.

The cotton consumption in September showed an increase of 27,320 bales over consumption in September last year.

PATRONIZE YOUR HOME MAN

Why should people in Mitchell county buy Mutual Insurance from outside companies? The Colorado Mutual Aid Association has had only four (4) deaths this year. Think about our home company when buying insurance this fall.

We are Local Mutual Aid Association operating under the supervision of the Insurance Department of Texas. Let's trade at home. Dale Warren, Secretary Treasurer.

Best grade light globes at new prices at Hutchins and Hall Druggists.

SPECIAL OCTOBER CLEARANCE TRADE-IN SALE on Firestone Non-Skid TIRES

FISCAL year closes October 31, and we are offering unusual bargains during the month of October.

October and November are the dangerous months of the year for driving. Trade in your thin, worn tires for Firestone non-skid tires, used by race drivers because they are the safest tires in the world.

Glen Schultz recently set a new world's record for the Pikes Peak climb, where hairpin turns were made at high speeds and where a skid or tire failure meant death.

All world's records on road and track, for safety, speed, mileage and endurance are held by Firestone Gum-Dipped Non-Skid tires.

Come in today and exchange your smooth, thin, worn tires for the safest and best tires you can buy.

They cost you no more — besides, in this October Clearance Sale we will give you a liberal allowance on your old tires in exchange for these safe non-skid Firestone tires.

The Firestone tread is designed with angles and projections to give the maximum traction and non-skid. The brakes can stop the wheels, but the tires must stop the car.
