Mustangs Meet Mustangs

"I don't believe the kids are scared of Denver City", said Don Beck, Olton High School football coach, speaking of his district 3-AA winning Olton Mustangs which take on another Mustang team when they play at Denver City Friday night.

Time for the bi-district gridiron clash is 7:30.

"And I believe they will play to the best of their ability to win and that is exactly what we intend to do!" exclaimed Beck with a determined glint in his eye.

General admission tickets are on sale at the school business office for $1.50 for adults and 50 cents for students. No seats are to be reserved.

Coach Beck describes the Denver City squad as a tremendous football team with a 9-1 record. "They played a very tough non-conference schedule the first five ball games competing with mainly AAA schools", he said. "Then in their district play they didn't have a real tough schedule." The district is composed of Morton, Frenship, Slaton, Post, Stanton, and Midland Carver.

"Of course, we are not belittling Denver City in any way", Beck added, "because they have beaten these people as much as 90-0. Their only loss came from Seminole, a strong AAA team which beat them 25-6 at Denver City."

According to the Olton coach, Denver City's coaches Don Orr, Knox, and Emler do a tremendous job and have coached together for something like 11 years. They have some fine personnel to work with such as outstanding linemen Dwayne Young, Lloyd Bingham and Allen Arnold, who are somewhere in the neighborhood of 6'1" to 6'3" and weigh from 190 to 215 pounds.

"They are a solid forward wall both offensively and defensively", commented Beck. "Their backs run large but have exceptional speed with at least one boy having run a 10.1 last spring. From what we have seen, we feel like they have two or three more nearly as fast. "Their starting backs average in the neighborhood of about 160 pounds and they have one 180 pound fullback."

In praise of the Denver City football players, Coach Beck declared, "They are the quickest team that we have ever seen. They also run wide real well because of their good speed and throw with great accuracy. Their offense is by far the best we find this year and their defense is really their strong point."

Denver City has scored 391 points through the season and allowed only 47 for the opponent. In district play the Denver City Mustangs have scored 268 points and allowed only eight.

"Bear in mind they played 4 AAA schools," reminded Beck.

Beck explained that Denver City's backfield is composed of kids such as Gary and Biff Hatfield, John Powell, Robert Hernandez, Don Looney, and Kiser. Their leading scorer, according to Coach Beck, is Gary Hatfield, who scored 79 points.

Making a statement about last Friday's game with Abernathy, Beck said, "We were surprised to have scored 56 points against them. If anyone had told me that we would have them 48-8 with one minute left at the third quarter, I would have passed out", grinned Beck.

Olton's starting lineup for the game is the same as last week.

At Cost Of $1800

City Council Approves Purchase Of Street Signs

In regular monthly meeting Tuesday night, Olton City Council voted to spend $1800 on the street improvement fund for traffic signs and street markers and to biu a Motor Minder, Model MM-24, with light and counter, at a cost of $252.

Enough double intersection stop signs, yield signs and street name markers to adequately cover the needs of Olton as recommended by Orian Hackler, water superintendent, will be purchased. Hackler said that the present number of stop and yield signs should be brought up to 104 and that a total of 54 street markers was needed for the town, counting those presently installed.

More stop and yield signs are expected to help prevent traffic accidents, said Olton officials. They also felt that an increase in street name signs would be improvement to the city and of benefit to visitors and newcomers.

The Motor Minder, designed to protect electric motors against single phase and low voltage simultaneously, will be installed at Olton's Water Plant at the motor starters of the one well and three boosters.

The device was demonstrated by Mel Allen, vice-president of Palo Duro Industrial Corporation of Canyon, manufacturers of the Motor Minder. He was to return Thursday of this week to install the Minder which will precent lost production and expensive electric motor re-winds.

An ordinance pertaining to the public health and welfare of Olton was discussed and tabled, for the purpose of further study by councilmen. Claude Burnett, head of Olton's clean-up committee which is sponsoring the KOKE movement, introduced the ordinance.

Bobby Daugherty bringing a report from the ordinance committee recommended that all ordinances be re-indexed, and the council approved the recommendation. Berniece Smith, city secretary, was requested to do the indexing.

Councilmen voted in a new billing system to be adopted using the card and stubb receipt system, when present water cards are exhausted.

Charlie McClain, chairman of the airport committee, reported that the committee has been unable to secure land for a landing strip.

In other action, city councilmen requested that Olton citizens do not dump waste oil in the sewers.

School Board OK's Audit

Members of the Board of Trustees of Olton Independent School District approved the annual audit report when they met in regular session at 7:30 p. m. Monday in the Olton High School Conference room.

The 1966-67 audit was presented by Stanley Schaeffer, CPA of Dimmitt. member of the firm Schaeffer and Harden. He was accompanied by Jim Radcliff, an assistant in the firm.

The board voted to apply for an allocation of $3,419.54 library funds to which Olton Schools are entitled under Title II, Public Law 89-10 of the Elementary and Secondary Education Act.

V. L. Smith was employed by the board as attendance officer for the school, and W. W. Frazier as new custodian.

A motion carried to change the current policy in giving band awards. The new plan accepted by the board was that all senior band students will be awarded jackets or blankets upon the recommendation of the band director, and all other members (freshmen, sophomores, and juniors) shall be permitted to purchase sweaters of school officials choosing. The school will purchase a chenille letter in the form of a lyre for each. At the present, only senior band students are eligible to receive jackets or blankets and no band student is permitted to buy either.

Supt. Ray Schultz reported that 19,855 lunches had been served in the school lunchroom the past month. His attendance report gave a total of 1,171 students September 11; 1,178 October 6, and 1,201, November 13.

Broken down into the different schools, the report shows for the same dates as above, 584, 594 and 610 for the elementary grades; 309, 308, and 314 for junior high; and 279, 276 and 277 for high school.

A study by the Communications Committee for finishing the fall semester before Christmas, beginning in 1968, was presented by Supt. Schultz. He said that a full report from the committee will be ready soon and asked board members to be thinking of the possible change.

The board authorized the purchase of two new school buses, which will be requisitioned in the near future.

Trustees adopted a policy that no fund raising campaigns for charities would be conducted through the school.

Four Gins Report Only 1287 Total Bales Ginned

Expecting a short season, Olton cotton ginners are still anticipating that a cotton harvest that got off to a slow start will pick up a little speed soon.

"But there just is not going to be enough cotton," said Lloyd Graham manager of the Olton Co-Op Gin. "Grades are good and turn-outs are better than usual."

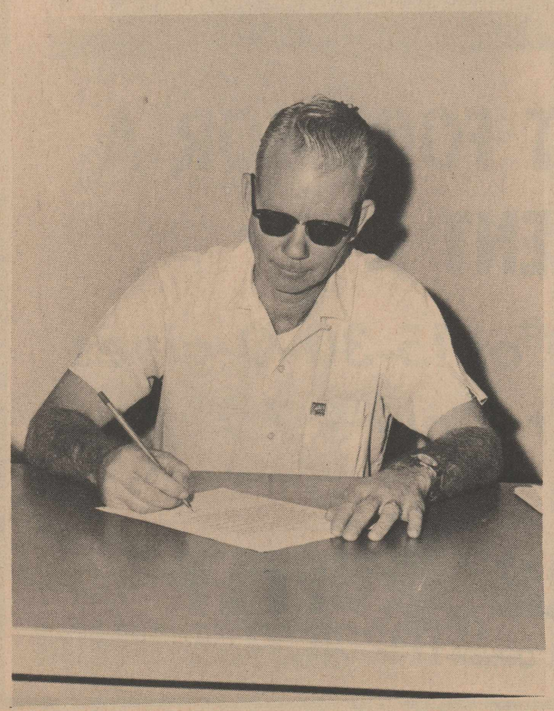

Four local gins report a total of 1287 bales ginned by Wednesday afternoon.

"It is not looking too good," commented Earl Douglas of the Farmers Gin, Inc. "There is not enough cotton and the grades are not what we thought they were going to be."

George Richards of the Circle Gin stated that his company had not yet received the grades on what they had ginned. "A few farmers are beginning to pull here, and will probably get started next week."

What grades the Jack Straw-W. C. Gunter Gin has had come back are good, according to Manager Straw. He said, "The harvest seems slow."

As far as the grain harvest in the Olton area, it is over, according to local grain company managers, but some corn is yet expected.

Sue's Views

Tension And Excitement

BY SUE CANNON

Well, just a few more hours and we will all head for Denver City and the bi-district play-off.

I have been so excited all week that I don't really dare look at this issue of the paper for fear of mistakes, mistakes, mistakes.

The whole town is jumping with excitement over the upcoming battle with Denver City and I am afraid I'm no exception.

When you look through today's issue, I think you can readily see that the Olton Mustangs have the backing of the entire community and this paper is a gesture on the part of my staff and I to show that we are backing the Mustangs all the way -- to State, I hope!

We have one of the finest teams in the country (of course, we all realize that they are great players but I am speaking of their character.

They are all a fine bunch of kids.

This brings to mind what Coach Beck told the Enterprise when he first came to Olton.

He stated that he believed in producing a winning athletic program, but above all he believed in producing fine young men.

I, for one, feel that he is a great influence on our boys. And he has held true to his beliefs, as he has produced a winning team, made up of fine young men.

You know, I believe this whole town intends to go to Denver City! Nearly everyone you talk to is planning on going.

Basil Sherman told me the other day he was leaving at noon, and I told him to put a sign "Press" on one of those seats down there and save it for me. But it seems as though a group of his friends are going and plan to stop along the way to eat a picnic lunch.

I asked him to do me a favor -- eat long enough I could pass him by!

Oh, well, I'd stand up the entire game just to get to go and see those Blue Mustangs eat up those Red Ones!

See you at the game!

What Is A Coach?

There has been quite a number of persons who have asked time and time again, "Why so many coaches?"

We understand this question frequently is asked of the school board and school officials.

First, let us all understand that coaches are not ONLY coaches. They are each qualified teachers, some of history, others of English, math, etc.

Let's examine our seven coaches teaching schedule. Buddy Brock, assistant backfield coach teaches social studies in high school. Curtis Campbell, another assistant backfield coach is a mathematics teacher. Ed Miller, assistant line coach and basketball coach also teaches health and world geography.

Charles Saul, end coach for the Mustangs, also teaches bookkeeping and general science. Don Beck teaches economics and civics. Grady Sharp is physical education teacher in junior high. Ken Splawn teaches social studies in junior high.

These classes are in addition to coaching varsity boys, freshmen boys, junior high teams, basketball which will come later, track teams and all other athletics in which the school participates.

We feel these men are doing a great job, both as teachers and coaches.

As a tribute to our coaches, we would like to print an article which was taken from the "Interscholastic Leaguer".

What Is A Coach?

WHAT is a high school coach? He is many things to many people. First, he is a man who lives in a pressure cooker.

The pressure comes from trying to compete and win. If he doesn't win, the sideline men produce the pressure by making it hot for him. If he does win, the pressure builds as more victories are sought.

He is a man accustomed to late, and sometimes cold, suppers after a late practice.

He is a man who comes trudging home late, in the wee hours, following a long road trip.

Generally a family man, he is a husband and father who sees little of his brood during the season of his sport. They don't like his absence and neither does he. Somehow, though the family becomes resigned to the fact that dad has a job to do; and, because of it, he won't be around much.

At some juncture in his career, however, he suddenly realizes the wife is getting grey and the kids grown up. Where did all those years go to?

As an athletic coach, the man must be rooted deeply in the fundamentals of the sport he is trying to teach. Beyond that, he must be an amateur psychologist, father, confessor, a diplomat, and often a babysitter.

All coaches are human, but on occasion are expected to be superhuman. He must lead an exemplary life off the court or atheltic field and always champion the cause of good sportsmanship.

Some coaches thrive on the pressure. Others become old fast because of it. At the high school level the coach is a teacher first and a coach after hours.

Most schools pay an extra stipend for coaching. But a man is not hired just to coach. He must be a qualified teacher first, instructing in math, chemistry or some other academic subject.

He may be a top-notch teacher with a so-so coaching record, but it is the latter he hears most about because his teams are always on display, good or bad.

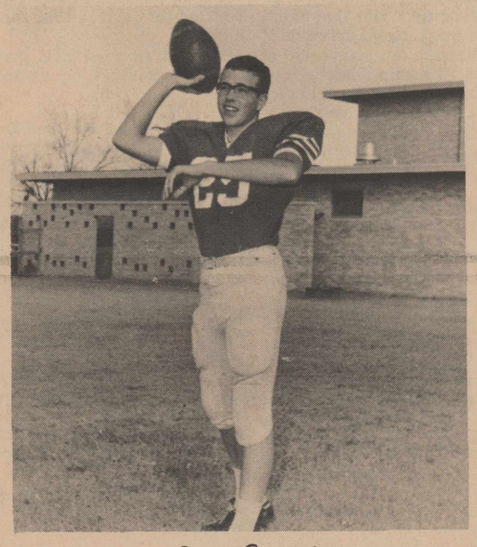

Some fellow faculty members may hold him in contempt, but he soon comes to understand this is the price he pays for occasionally having a team good enough to get the headlines or attract attention to the public.

The coach discovers early that athletic fame is fleeting. Last year's championship doesn't count when a new season rolls around. This, too, must be imparted to his athletes. And how do you go about telling a team that the trophies of yesterday are already tarnished?

A bleak job? To some extent, yes. But there are rewards in coaching. Helping to develop boys and girls is the basic challenge and worthy of the best a man has to offer. While winning the next game is the immediate goal the real satisfaction for a coach doesn't come until later - when the athletes are out on their own. When an ex-athlete remembers something his old high school coach said or did and this helps him along the way, the pressure, long hours, and cold suppers have paid off.

This is a high school coach.

Everything But The Kitchen Sink

BY MOZELLE TROTTER

With the hectic pace we keep nowadays PLUS the prominence of the TV set in our home OR the car to take us places in a hurry, I wonder if the art of story telling is joining the relics of the past. I don't imagine parents have time to tell stories anymore. Today's children may not want them to!

BUT, once upon a time there were two little girls. These two little girls lived on a farm so they didn't have next door neighbors to play with and they didn't have the many things that entertain children today. For this reason - AND because he was a good daddy - their father told them "stories".

Sometimes the stories were pretty imaginative - you might say they bordered on the "tall tale" but many of the stories were about the father's own boyhood.

This father's father had died when he was a very little boy. To remember how his mother managed to raise eight children, when the three youngest were mischievious little boys, is to remember her as a very remarkable woman.

But back to the father in my story. Sometimes he'd tell the little girls how he used to bury his medicine under the house(houses there were built up quite a ways from the ground and there was no danger of mama discovering the little "graves"). The little girls thought this very clever and yet never did try the same accomplishment!

There was the time, too, when he and his brother were playing "down at the creek" and a neighbor's mother duck and baby ducks were looking for food. The little boys devilishly buried the baby ducks in wet mud up to their heads and merrily went home. (That didn't do much to cement good neighbor relations.)

The littlest brother couldn't speak plainly - which made it very convenient when the two older boys explained why he was crying. Many times it was "Oh, he just bumped his head on a tree" and the mother trustingly believed her little imps.

The stories weren't tales like the ones in children's classics but they never grew old. Almost every night at bedtime the little girls would say "Tell us about when you were a little boy, Daddy", and the daddy would oblige. Barely would he finish before they'd pipe up with "Tell it again."

I remember what good stories they were. I remember begging to hear them for perhaps the 999th time. I loved every telling just as though I'd never heard it. MY DADDY was a good entertainer and I'll bet I remember those stories longer than today's child remembers his TV programs.

P. S. Donna didn't come along until Margie and I had outgrown the stories - that's why my story was about two little girls.

A Mighty Fine Town!

There was a town down Texas way,
A mighty fine town my folks all say.
That's where my mother was borned and raised.
And there my Dad met her and was dazed.
I lived there myself until I was three,
And it still has a great attraction for me.
Grandpa, Grandma, Grandmother and Daddy'o,
Three uncles, three aunts, three cousins there grow.
It's not a very big town you see,
Although it's big enough for me.

Written by the eleven year old granddaughter of Mr. and Mrs. Orian Hackler and Mr. and Mrs. R. A. Burgess, Sherry Burgess of Preston, Idaho.

Kunkel Home From Vietnam

Acting as chief computer of a 4.2 inch mortar platoon was the job of Sgt. Martin Kunkel with the 25th Infantry Division, U. S. Army, in Vietnam the past year.

Kunkel, home visiting his parents, Mr. and Mrs. A. W. Kunkel, Route 2, Springlake, since October 1, said that there were four guns in his platoon that could fire up to five and one-half miles away. His platoon usually set up about 1000 or so meters from the fighting area to furnish support for the infantry up front.

The 21-year-old soldier returned to the States with the Army Commendation Medal received upon recommendation of his platoon leader for outstanding service. He also has the South Vietnamese Service and Vietnam Campaign Ribbons.

Quartered at CuChi, Vietnam, 30 miles northwest of Saigon, Kunkel took part in a number of operations including Operation Gadsden and Junction City, where fighting was done in the jungle.

"Much of the area I was in was 'triple canopy'--so thick you could not see the sky", commented Kunkel. Operation Manhatten which lasted 68 straight days, was conducted in the Hobo Woods where part of the army's job consisted in plowing down the woods and destroying it.

The Barking Sands and Alemona operations in which he participated were in rice paddy areas between CuChi and Tay Ninh.

"We were on alert--ready to fire within three minutes after getting a call from the forward observer," said Kunkel.

Although Kunkel went many nights without sleep, fighting in the extreme heat and a great deal of rain, he compained little. His biggest kick during fighting was that the military forces were restricted from firing into certain areas due to orders of higher authority. Although fire was received by them from some villages, the Americans and their allies could not shoot back.

He stated that the GI's in Vietnam were infuriated by news of flag and draft card burnings, picket lines and strikes in the United States, and they had the urge to get back over here and tear into the ones performing such UnAmerican acts.

"Just let them get over in Vietnam and see what it is like and then let them burn their draft cards!" Kunkel exclaimed.

Kunkel believes that reports coming out of Vietnam now are more reliable than they formerly were. He says that U. S. fighting equipment which is sufficient is all right if it is properly maintained.

"At the pace we are going now, it will be a long time before the war is over," he said. "This is a general opinion of all the boys."

Letters and packages reach the boys regularly and speedily but newspapers and magazines are very slow to arrive. All supplies were brought into the battle areas by helicopter--even hot meals were often flown in by the choppers.

"They are masters of the art of camouflage", said Kunkel speaking of the Viet Cong, "but in battle American fire power can overpower them." He stated that the VC in the North have good equipment.

"The South Vietnamese people are appreciating more and more the U. S. being there," said the Olton soldier, "and their economy has been lifted because of the GI's, but inflation has taken over and is hitting them now."

After fighting in Vietnam 11 months, Kunkel was sent to Bangkok, Thailand for rest and recuperation for five days and nights, and enjoyed the city with its floating market on a canal, and the many pagodas and shrines of the Buddhists, including the Golden Buddha, a man's image made of pure gold about 30 feet high. He said it was everybody's aim in life under the Buddhist religion to build or own a pagoda, a tower-like storied structure usually colorful and ornate.

Souveniers which he bought to bring back home for gifts included star sapphires and wood carvings.

With an eye to his future when he expects to be discharged from the Army next March, Kunkel has been farming while home on his 45-day leave. He reports for duty November 19 to Fort Bragg, North Carolina, where he will be in the 82nd Airborne Division. Upon entering the Army in March 1966, he received his basic at Fort Bliss, and Advanced Infantry training at Fort Gordon, Georgia. He took his airborne training at Fort Benning , Georgia, prior to going to Vietnam.

Kunkel was graduated from Olton High School in 1964 and attended National Electronic Institute in Denver, Colorado one year. He was employed by High Plains Research at Halfway before his military service began.

U. S. AIR FORCES, Thailand--Staff Sergeant L. J. Johnson Jr., son of Mrs Muriel A. Johnson of 214 Stace St., San Antonio, is on duty at Korat Royal Thai AFB, Thailand.

Sergeant Johnson, a weapons mechanic, is a member of the Pacific Air Forces. Before his arrival in Thailand, he was assigned to the 561st Tactical Fighter Squadron at Mc Connell AFB, Kan.

The sergeant attended Benjamin (Tex.) High School.

His wife, Rowena, is the daughter of Mr. and Mrs. A. D. Helms of Olton, Tex.

Raymon N. Andrew, S. R., son of Mr. and Mrs. Bud Andrew , arrived home, Nov. 10 from San Diego where he had been at the Naval Training Center since Sept. 25.

At the conclusion of his 14 day leave Andrew expects to be in San Diego at a school of radio for about 26 weeks.

Our Mighty Mustangs did it! . . . 10-0. That's quite a record to be proud of too, since it has not been accomplished too many times by very many teams through out the State! And we're counting on the Blue Mustangs to make it 11-0! Tomorrow night in Denver City!

Outstanding offensive player was Benny Akin, junior, for the fifth time! Charles A. McClain and Sel Sanchez, 16 tackles per game tie for first place in defensive bracket. Stallions were Benny Akin, Johnny Lewis, Charles A. McClain, Bobby Turner, Eddie Hooper, Steve Burleson, Mike Crowder and R. L. Copeland. Head Hunters were : Sel Sanchez, Charles A. McClain, Stacy Pendergrass, Kenneth Johnson and Rickey Smith.

For the Bi-District playoff there will be a student-bus to take students who do not have a ride to D. C. which will leave at 3:30. There will be no fare for the trip.

Everyone is asked to wear something blue to the game and decorate your cars with blue and white streamers.

For all interested persons the O. H. S. Pep Rally will be held at 11:10 a. m. in the new gym Friday morning. We urge every one to come!!

The Blue and White cards that say "Rip the Reds" were made for everyone to place in their cars, especially the cars going to D. C.! Please pick up one at the Dairy Mart, Olton State Bank and Hamill's. Don't be the only one without one!

November 18, 1967. Why is that date so important? Because not only will everyone be recovering from the excitement of the Denver City game, but also because most everyone will have a full schedule ahead of them. There will be Regional Choir Contest and FTA District XIII Convention, both in Lubbock. And if you're not involved in one of these, you'll probably be cramming for six weeks tests or you'll be making plans for the long-wanted Thanksgiving holidays.

Come on, MUSTANGS!! Make it 11-0 !!

Thirteen Student Council members and sponsor, David Howton, attended the South Plains Association of Student Councils at Floydada last Saturday. Among various other functions, discussion groups were held and one, "The Student Council and Interschool Relations," was lead by Olton.

7th Grade Undefeated

Team Wrap Up Season

Olton's seventh grade football team, led by co-captains Keith Workman and Danny Harris, unreeled an undefeated season.

Harris led the scoring for the team with 92 points.

The opening game with Lockney at Lockney brought a 16-0 win for the Olton boys. Playing Muleshoe next in Olton, the local eleven defeated their opponents 14-8. A score of 36-14 was racked up when the third game of the fall was played with Dimmitt here.

In fourth game play with Floydada there, Olton emerged victor by a 22-6 score. Playing Abernathy here in the fifth clash of the season, Olton beat them 32-18. In the final game, Olton won over Littlefield eighth grade B team by 26-0.

Offensive starting team was composed of Darrell Ogletree and Richard Reyes, ends; Dave Allen and Gale Long, tackles; David Bruce and Reyes Rodriquez, guards; Don DeBerry, center; Keith Workman, quarterback; Tim Givens and Danny Harris, halfbacks; Andy Costello, fullback.

Others seeing much action on the defensive team were Ronnie Harwood, middle guard; Joe Herrera, kickoff specialist; Max Moss, and Severo Gonzales, halfbacks; Brian Sullivan, cornerback; Roger Clark and Steve Parkey, line backers.

Ken Splawn, Olton Junior High coach, said that a vast improvement by several team members was noted from the beginning to the end of the year.

"An undefeated team, the boys have a lot of pride in the fact that they have never been beaten," stated Splawn. "The overall team attitude is very good and this group appears to be a class that will stay together and continue to be outstanding."

Olton's eighth grade team had to recover from a severe personnel loss from the seventh grade team of the year before, according to Coach Splawn who commended the boys in saying "they came on pretty strong as the season moved on and looked real good".

Kenny Spain and Marlos May were co-captains of the team which opened fall play at Lockney. Score was Lockney 14, Olton 8. Muleshoe, believed by the Olton players to be the best team they played all year, defeated the locals 20-0 in a game on homefield. In the third game played here, Olton nudged Dimmitt 22-14. Coach Splawn believed the Dimmitt squad equal to his but thought his kids played a fine game.

Floydada trounced the Olton boys in a late-scoring tilt at Floydada, 14-0. When Abernathy eighth graders came here for the fifth game, they were defeated by Olton 12-8. The game ran 12-0 until the last 20 seconds. Playing against a team that had been stomping everybody, Olton lost to Littlefield 6-14 in a battle at Littlefield. Helping Littlefield to crush the Olton boys were a fullback weighing 180 pounds and a left tackle weighing 230 pounds. Littlefield got 14 quick points before Olton scored its 6 and held their opponents the rest of the game.

Offensive starters were Jackie Kemp and Gary Cooper, ends; Gene Light and David Adcock, tackles; Bob Hall and Jay Daughtery, guards; Kurt Gregory, center; Favian Minjarez, Keith Neinast and Marlos May, splitting time as quarterbacks; Rey Luera, right halfback; Pete Revera and Alonzo Springer, left halfbacks; Luis Jimenez, fullback.

Seeing a great deal of action on the defense were Kenny Spain, middle guard; Hector Herrera, left tackle; Alonzo Springer, corner back; Kelby Robertson and Mike Burleson, corner backs; Curildo Berrera, tackle.

"I feel that the boys came a long way and had a lot of team pride", said Coach Splawn "and I feel that another team might have given up but they kept plugging along. I think they will make good freshmen team members next year because of their attitude. They are good kids".

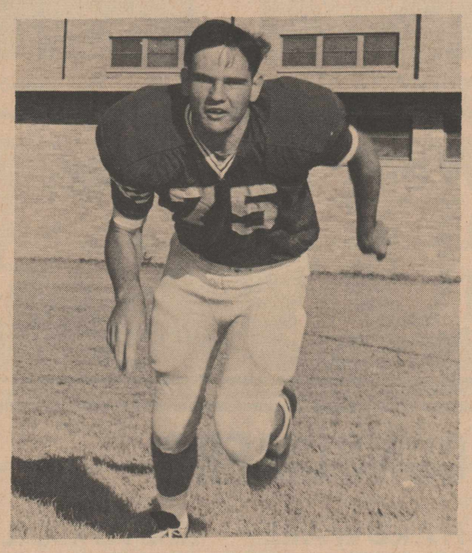

Olton High School B Team won one and lost six of its seven games. The victory was over Springlake during the first game of the season played in Olton.

"We had about half a dozen boys who had never played before and they came out and did a good job and made it possible to complete the schedule", stated Coach Bud Brock.

He said that there were five of them who did a good enough job to be taken with the varsity to Denver City Friday night. "We think they came along far enough this year that they will develop into better athletes later on and help the varsity next year and year after next", declared Brock.

Brock, who worked with the backs, and Coach Eddie Miller who handled the line were co-coaches for the freshmen.

RIP THE REDS!

MRS. MARY WINSLOW

Remember Mary Winslow?

"I kinda believe it's Mary!" exclaimed a former employer grabbing Mary Winslow's hand and patting it. Mary was on a return visit to Corsicana where she had worked nearly ten years in the home of Mrs. Fay Roper.

Mary had run into Mrs. Roper there and asked, "Don't you remember me when I cooked for you and stayed up over your garage?" How could the lady forget after being so pleased with Mary's services that she had written recommendations for her to use in getting jobs in other towns.

That was one of the many jobs Mrs. Winslow, 78, has had during her lifetime up until she retired to the quiet of her home 14 years ago. She cooked, nursed, baby sat, did housework, chopped and picked cotton. The highest amount of cotton she ever picked was 397 pounds.

"I used to work so hard, I don't know my feet were there", commented Mary.

Mrs. Winslow started her "pillar to post" working and looking after herself after her baby brother, her mother, and then her step-father died. Born Mary Otto October 6, 1889 in Crockett, she left there with her folks while she was just a baby to go to Palestine. Her family included three brothers and four sisters. Mary attended a country school in the Providence Community. Later she moved to Tucker, and then back to Palestine. After living at Mt. Albert, Athens, and Corsicana, her son, George Thomas, came and took her to Sunnyside and then to Olton. She was married to Sam Winslow of Olton. He died in 1964.

Before she finally settled here, she spent ten years in Littlefield. "The people in Littlefield kept me busy quilting", said Mary. "I really like to quilt and piece quilts but my hand got so shaky I couldn't do it any more."

Mary's hobby when she was a child was playing baseball with her friends and neighbors. From age nine until the present Mary has "loved everything I done". She lives alone and likes it but enjoys company, and when she gets bored she walks out a little. She admitted that her TV is her life!

A member of the Bonner Chapel Baptist Church, Mary formerly taught little children in Sunday School, until her eyes got so bad she could not see the print. She has been a member of the Eastern Star 26 years and now belongs to the Hale Center Chapter.

Mary has only the one child and five grandchildren and seven great-grandchildren. She has two sisters living and spent the summer with one of them, Mrs. Allie Adair, at Kerens. Mary's favorite treasure is a gold band ring given to her by her nephew, son of Mrs. Adair. A fire that burned her house in the country near Olton several years ago destroyed other keepsakes.

RETURN HOME

Mr. and Mrs. C. H. Meyer returned recently from Denver, Colo. where they visited their daughter and family, Mr. and Mrs. Dean Gordon and children.
