'Up to Egypt,' Begin says of talks' future

By MARCUS ELIASON

JERUSALEM (AP) — Prime Minister Menachem Begin said today it is "up to Egypt" to salvage the stalled Mideast peace talks and said he was sure the United States would never pressure him to bow to Egyptian demands.

Speaking to a group of French Jews, Begin also ridiculed the Egyptian contention that President Anwar Sadat had made a major concession to Israel by recognizing its right to exist.

"We have existed, my dear Egyptian friends, without your recognition for 3,700 years," he said. "Our right to exist was given by the God of Abraham, Isaac and Jacob."

Begin scoffed at the possibility that Egypt could bring U.S. pressure to bear on Israel for concessions. "Pressure? What pressure?" he asked rhetorically. He called it "an inconceivable concept."

Secretary of State Cyrus R. Vance, meanwhile, was trying to get the

Egyptian-Israeli peace negotiations going again. He spoke with Begin by telephone this morning and the two scheduled an evening meeting in the American's hotel suite. Vance plans a trip to Egypt Friday to see Sadat.

Begin told the French group: "We hope the talks will be resumed. It is up to Egypt." He said that despite Sadat's recall of Foreign Minister Mohammed Kamel to Cairo Wednesday, "peace is inevitable" and that "ups and downs and crises" in the negotiations had to be expected.

The Egyptians have said the next move is up to Israel — that Begin must change his position if the negotiations are to resume.

Begin's speech amounted to a defense of his refusal to permit Palestinian statehood or disband Jewish settlements in the Sinai — two key sticking points that led to the rupture in the talks after only two sessions.

"No land was taken from anybody," Begin said of the Sinai. He said Israel had irrigated the barren sands to "turn a desert almost into a garden."

He renewed his attack on the Palestine Liberation Organization, calling it a "Nazi-like organization." He said he once told Sadat that many PLO members were Soviet agents

Missouri judge Carter choice for FBI chief

WASHINGTON (AP) — President Carter plans to nominate William H. Webster, a Missouri Republican and federal appellate judge, to be the next FBI director, administration sources say.

The formal announcement was expected today. Carter and Attorney General Griffin Bell chose Webster to succeed

William H. Webster

Related story Page 11C

Clarence M. Kelley and take charge of the bureau as it makes major changes in its operations.

The sources said Bell favored Webster over the other finalist, U.S. District Judge Frank McGarr of Chicago, and that Carter agreed with Bell's recommendation. But the sources declined to say why Webster was preferred.

A Missouri native, Webster has carved a reputation for legal acumen and personal integrity. His friends and associates say he's even-handed in the courtroom and a genial companion in his private life.

"He's a simple man. He's never gotten any kind of big head," remarked Lon Hocker, a longtime colleague. "He's just one hell of a guy."

Solicitor General Wade McCree, a friend of Webster for 15 years, notes that the judge "gives the outward impression of being very conservative."

"Bill still has a hair style of 10 years ago. But that's his hair style, not his life style," McCree said.

McCree, the government's lawyer in Supreme Court cases, said he and Bell discussed Webster as a potential FBI director a few weeks ago "when it became apparent that Frank Johnson couldn't serve. We both came up with the same name."

Carter's first choice for the job was

Johnson, a U.S. district judge in Montgomery, Ala. The nomination was widely praised by civil rights groups who commended Johnson's pioneering rulings in that field and by conservatives pleased with his record of giving criminals stiff sentences.

But Johnson bowed out in December after concluding that his slow recovery from major surgery prevented him from taking the job.

Webster, 53, dabbled in state Republican politics in the late 1950s and was appointed by then-President Dwight Eisenhower as the U.S. attorney in eastern Missouri in 1960.

That job ended when the administration changed in 1961 and Webster settled down for eight years as a partner in the St. Louis law firm of Armstrong and Teasdale. Former President Richard Nixon appointed him to the Eighth U.S. Circuit Court of Appeals, which handles cases from several midwestern states.

Industries' gas reduced

Pioneer Natural Gas Co. this morning cut back supplies to about 12 Midland industrial users by 50 to 85 percent, according to the company's district manager, Norman Henry.

Henry said an overload throughout the Pioneer system as far north as Amarillo had lowered pressure in the gas lines and forced the cutbacks in service throughout the area.

"We have quite a few of our laundries and industries' service cut back," Henry said. But, he said,

State travel hazardous as cold front moves in

Weather in the Midland area was clear this morning, but travel through the rest of Texas was restricted as flights and bus routes out of Dallas were canceled and hazardous road conditions were reported east and north of Midland.

Reports early today indicated that the region east of Midland extending to Dallas was hit by a cold front moving through Texas, depositing rain and snow.

Some flights from Dallas with Southwest Airlines and Texas International Airlines were canceled this morning, and a spokesman for Southwest said more may be canceled later.

Bus routes from Dallas with Greyhound and Trailways were canceled this morning, also.

The Department of Public Safety reported open roads throughout Texas but hazardous driving con-

ditions east from Abilene and north between Lubbock and Amarillo.

Midland and the area caught only the edge of the front with snow flurries Wednesday night.

The flurries may be a portent. The National Weather Service at Midland Regional Air Terminal forecasts a 20 percent chance of rain mixed with

Torrijos agreeable on amendment

By LEW WHEATON

PANAMA CITY, Panama (AP) — Gen. Omar Torrijos sent seven members of the Senate Foreign Relations Committee home with word that should improve the chances of the new Panama Canal treaties for ratification.

The Panamanian chief of state told Sen. John Sparkman, D-Ala., and six other members of his committee Wednesday he has no objection to amendment of the treaties to include the joint statement he and President Carter signed clarifying the future rights of the U.S. government to

defend the canal in case of emergency. "I don't see any problem with incorporating this amendment because it was presented to the Panamanian people before the treaties," Torrijos told reporters after his meeting with the senators, who returned to Washington after a three-day visit.

The Panamanian people approved the treaties by a vote of 80 to 10 in October. The debate was held shortly after Carter and Torrijos signed a statement of clarification saying after Panama takes over the canal in the year 2000 the United States as well as Panama has the right to act against any threat to the canal. The joint statement also said this gives the United States the right of intervention in internal Panamanian affairs, and that U.S. warships and auxiliaries will be given priority passage through the canal in case of need or emergency.

The statement was in response to criticism in the United States that the language of the treaties was ambiguous and did not protect American interests adequately. A number of senators, including Majority Leader Robert Byrd, D-W. Va., and Minority Leader Howard Baker, R-Tenn., have said they will

work for Senate ratification if the Carter-Torrijos accord is incorporated into the treaties.

One of the visiting senators, Charles H. Percy, R-Ill., said he felt the scales have tipped in favor of ratification. Sen. Jacob K. Javits, R-N.Y., said he felt the treaties have a better-than-even chance of approval. But Sparkman said any comment about the treaties' chances now was

speculation. Sen. Frank Church, D-Idaho, said Torrijos told the committee members: "You can juggle just so many balls in the air at once and then you lose them all."

"I think he meant that he could certainly handle an amendment on the communicate but there is a limit to how many balls he could keep in the air and still keep the game going," Church said.

Basin farmer hardly 'bolloed' over by prices

Whether or not you deem something is "fair" likely depends on your viewpoint.

And from the way cotton farmer Vernon Chandler and his wife, Naomi, look at things, there's not an abundance of fairness in the cotton market.

"It costs a lot of money to raise a crop," noted the farmer's wife.

And Chandler, noting that the going price of raw cotton went down from a year ago, said cotton farming just isn't a paying proposition.

But it should be, he figures. Take a well-made all-cotton shirt, which might cost anywhere, say, from \$15 to \$20 — more or less.

"And there's about 20 cents worth of cotton in that shirt," Chandler figured.

On the high side, Chandler guessed that a farmer's \$200 bale of cotton could be turned into about \$30,000 worth of high-priced shirts at the retailers' outlets.

"To me, that's unfair," said Chandler, who has farmed in the Warfield community west of Midland since the early 1950s.

Chandler looked at the situation as might a professor viewing the old law of supply and demand.

"There's a whole bunch of farmers,

(Continued on Page 2A)

Pecan tree sale begins Saturday

Bargains don't grow on trees, but sometimes trees can be the biggest bargain in town.

That's the case with the pecan tree sale on the employee parking lot of The Reporter-Telegram which begins Saturday and runs through Sunday, Jan. 29. Trees are \$8 each, including sales tax, and come with planting and care instructions.

The sale is a joint venture of the

Visual Improvement Project of the Midland Chamber of Commerce and The Reporter-Telegram.

Purpose of the project is to beautify Midland.

The \$8 price tag is about \$10 per tree under what such trees normally cost, according to Gordon Knox, VIP committee chairman.

"Pecan trees are one of the most beautiful trees. They're disease-resistant and live forever," he said.

The hours of the sale are: Saturday, 9 a.m. to 6 p.m.; Sunday, 11 a.m. to 6 p.m.; Monday through Friday, 4 p.m. to 6 p.m.

The trees, of the Stuart and Wichita varieties, are five to six feet high, and come with roots wrapped in peat moss in a bag.

A presale of the trees before Christmas was a big success, with 2,200 trees sold and delivered, according to Fred Tyler of the Midland Chamber of Commerce. But he was quick to point out that the sale starting Saturday is strictly a cash-and-carry affair.

Pecan trees and live oaks are considered ideal for Midland's climate and soil. The only maintenance required is watering.

Knox said the VIP Committee has other projects planned for 1978, including tree plantings along Scharbauer Draw and along downtown sidewalks.

"We think we can make Scharbauer Draw one of the most attractive drives in the city by planting pecan trees in a staggered fashion," he said.

The VIP program, begun in 1974, has been responsible for planting 155 oak trees on Main Street, 165 trees at Midland Regional Air Terminal and for removing some 900 blighted elm trees.

State of Union address tonight

WASHINGTON (AP) — President Carter, having touched base in advance with major interest groups, will lay down his goals for 1978 in a nationally broadcast State of the Union address to Congress tonight.

Carter, appearing before a joint Senate-House session at 9 p.m. EST, will put economic problems, including action on dollar-draining energy imports, at the top of his agenda.

Aides said the president will emphasize that many difficulties facing the United States defy easy solution and will call for a national effort to deal with them. They said he will argue that the common good transcends sectional or private interests.

In that vein, Carter has held a marathon series of conferences with representatives of varied interest groups since returning from an 18,000-mile world tour less than two weeks

ago. Most left the White House expressing a lack of tentative approval of what he told them about his plans for the new year.

His visitors have included spokesmen for business, labor, blacks and consumers. In addition, scores of congressmen have met with Carter this week to discuss their groups.

The outstanding presidential address to Congress comes just a day in advance of the first anniversary of Carter's inauguration.

Not forgetting the political realities that brought him here from Georgia, Carter devised several hundred supporters from Iowa to a two-hour White House reception at which they will view his speech to Congress on television. It was a victory in Iowa's Democratic caucuses, two years ago that launched Carter on his road to the presidency.

As part of his economic blueprint, Carter will ask Congress to cut individual and corporate income taxes by \$25 billion, and to enact tax revisions described by press secretary Jody Powell as the most comprehensive and perhaps most controversial in many years.

The president will discuss these in his address, then send Congress a detailed tax message Saturday.

Another facet of the Carter economic program will be a new, voluntary effort to combat inflation through wage-price restraints. This presumably will get detailed treatment in a special economic message the president will submit on Friday.

Although the bulk of Thursday's speech will deal with domestic priorities, aides said Carter also would discuss hopes for a new arms curb accord with the Soviet Union.

The record high for Jan. 19 is 77 degrees in 1961. The record low for today is 8 degrees in 1961.

Texas area forecasts:
West Texas: Light snow and rain, possible freezing rain, central and southern portions. Turning much colder Saturday becoming partly cloudy with continued very cold temperatures through Monday. Highs 30s north to 40s south. Lows 10s north to 20s south with readings near zero north to teens and 20s south Sunday and Monday.

North Texas: Chance of rain and warmer Saturday. Chance of snow and much colder Sunday. Fair and cold Monday. Highest temperatures in the 30s falling into the 20s Sunday. Lowest temperatures in the 10s.

New Mexico, Oklahoma

Oklahoma: Occasional light snow central and east with more blizzards and driving rain. Additional snow accumulations up to near 1 inch are before ending this afternoon. Partly cloudy statewide tonight and Friday except scattered snow developing eastern west side Friday. Continued cold. Highs 10 to 20. Lows zero to 10 north to 10 south.

New Mexico: A few light snow showers mainly over the mountains today, increasing west this afternoon. Scattered snow showers tonight and Friday. Continued cold and cooler central and west. Highs upper 20s and 30s mountains and north and the 40s and 50s south. Lows 5 to 20 mountains and northeast and 20 to 30 low elevations south and west.

Extended forecasts

North Texas—Gradual west to east clearing tonight. Increasing cloudiness again across western half of area on Friday. Colder tonight, a little warmer west and central Friday. Highs 20 to 30. Lows 10 to 20. Highs Friday 20 to 30.

South Texas—Decreasing cloudiness this afternoon, becoming fair north and partly cloudy south tonight. Increasing cloudiness Friday. Continued cold. Highs near 40 north to 50 south. Lows near 20 north to mid 30s extreme south. Highs Friday mid 40s to mid 50s. Lows 20 to 30.

Port Arthur to Port O'Connor—Small craft advisory is in effect. North winds 20 to 25 knots tonight and Friday. Seas 10 to 15 feet, decreasing slowly this afternoon. Cloudy with a chance of rain today.

Port O'Connor to Brownsville—Small craft advisory is in effect. North winds 20 to 25 knots tonight and Friday. Seas 10 to 15 knots tonight and Friday. Seas 10 to 15 feet, decreasing slowly this afternoon.

West Texas—Mostly cloudy and cold east of mountains and fair southwest today. Few snow flurries Panhandle today. Partly cloudy and continued cold tonight and Friday with a slight chance of snow north and rain mixed with snow south Friday. Highs near 20 north to low 30s south except the Big Bend valleys. Lows near 8 north to mid 30s southwest. Highs Friday mid 30s north to mid 40s south except Big Bend valleys.

EXAMINING a computer list of University of Texas at Austin students in Midland are Ex-Students Association executive committee members, from left, Becky Baskin, Ross Moore and association president Kenn S. George. The group wants to update the list, and the committee members said persons who did not receive invitations to the summer banquet probably are not on the list. Members now are preparing for a March 2 banquet. Those former students wishing to add their names to the list may telephone 683-2281. (Staff Photo by Brian Hendershot)

Travel in state risky as cold front moves in

(Continued from Page 1A)

freezing snow Friday. The forecast calls for partly cloudy and continued cold through Friday. The low tonight should be in the upper teens and the high Friday should be in the mid-30s. Winds are expected to be easterly at 5 to 10 mph tonight.

According to the weather service, Midland received only a trace of precipitation during the flurries Wednesday, which began about 9 p.m. and continued until about 1 a.m. today. Andrews, Rankin and Lamesa also reported snow flurries Wednesday night. All other area towns reported cold weather, but no moisture.

The snow and ice, which spread over much of Texas Wednesday and today, was caused by cold air from the north joining with moisture from the Gulf Coast. The primary line of precipitation was from Lubbock to Abilene and San Angelo, "just to the east of the Midland area," the weatherman said.

The low Wednesday night was 22 degrees. The high Wednesday was 43 degrees.

Snow, sleet and freezing rain swept across a vast area of Texas during the night, leaving streets and highways slick from the Panhandle and Red River Valley practically to the edge of the Gulf of Mexico in Southeast Texas.

Travelers advisories were issued for the Panhandle, North Texas and portions of South and Southeast Texas.

Ice-loaded tree limbs gave way, dropped on power lines and plunged areas of Angeline and Nacogdoches Counties into darkness during the night.

Schools across a wide area of North Texas were closed today, giving pupils a chance to enjoy the first big winter storm of the year.

About two inches of snow fell in the Dallas-Fort Worth Metroplex, causing hazardous driving conditions. Some industries in North Texas curtailed some shifts because of the driving conditions.

Snow, sleet and freezing rain was reported early today in Houston, Beaumont, Port Arthur and Orange in Southeast Texas. The freezing precipitation was not sticking to the ground, but elevated sections of highways and bridges were iced over, causing hazardous driving conditions.

Snowfall during the night was mostly east of a line from Abilene to San Angelo.

'Up to Egypt,' Begin says

(Continued from Page 1A)

"and the president corrected me, saying, 'All of them'."

"We presented a positive plan, a humane plan, a decent plan," he said of his peace proposals. "And no pressure can be exerted on us to turn fairness into unfairness."

He charged that it was Egypt's general attitude, rather than the progress in the talks themselves, that led to the breakdown.

He said Egypt and Israel had reached agreement on five out of seven general principles for a Mideast settlement. He did not elaborate but the points in dispute were believed to concern the Palestinians and the general issue of Israeli withdrawal from occupied lands.

Radios and newspapers of conservative Arab oil states, including Saudi Arabia, welcomed Sadat's decision to suspend the talks. Newspaper editorials in Saudi Arabia, Kuwait and the United Arab Emirates called for a new Arab summit to reunite the pro-and anti-Sadat Arab nations.

"I've been through a lot of international negotiations. I've seen ups and downs in the past. We all have the same objectives. We all want peace and I think, therefore, the talks will continue in the future," Vance said Wednesday after Sadat recalled Foreign Minister Mohammed Kamel to Cairo and suspended his talks with Foreign Minister Moshe Dayan after only two sessions.

Dayan also took an optimistic public stance, saying that before long "we shall find other ways to reach peace."

Two MC trustees seek re-election to posts

(Continued from Page 1A)

Two members of the Midland College Board of Trustees today announced they will seek re-election to another term in April, while a third trustee said he will not seek re-election.

Jack Huff, Place 7, and Kenneth Peeler, Place 9, said they will seek second terms, and Robert M. Leibrock, Place 8, announced he will not be a candidate for re-election.

Leibrock said, "I have served on the board for Midland College since its inception. After much consideration, I have decided not to run for election." He served as board president from 1975 to 1976. He is a partner in Mallard Exploration Co. of Midland.

Huff, who became a board member in 1970, currently is vice president for the trustees. He is co-owner of Burleson and Huff, independent oil operators.

Huff said, "I have been a part of the Midland College board almost from its inception and have decided to seek election because some of the building programs which have begun are not yet completed."

He said, "I feel that my experience can provide a significant contribution to the continuity of the board's activities. Midland College is still in the growing stage and I would like to continue to serve as it strives to achieve its goal as the finest community college in the state."

In announcing his candidacy, Peeler said, "There are a number of activities, programs and buildings which I would like to see completed, which is the reason I decided to seek election."

He said serving on the board has been a "very rewarding experience" and that he is looking forward to participating in the future growth of the college. Peeler is president of Midland Sixty-Six Oil Co.

The trustees are elected at large by voters within the Midland Junior College District, but they file by place. The election is scheduled for April 1. Filing deadline for all candidates is March 1.

Board members serve staggered, six-year terms, with three of them elected each even-numbered year.

Three homes decertified

(Continued from Page 1A)

AUSTIN, Texas (AP) — The State Health Department said Wednesday it has decertified three nursing homes for further receipt of federal funds, such as Medicaid and Medicare money.

It named Cross Country Care Center of Brownwood, Mansfield Nursing Home of Mansfield, and Four Seasons Nursing Center (St. John's) of Austin.

The department said it also has recommended that federal funds be withheld from four nursing homes until deficiencies noted during inspections have been corrected.

The homes are Bryanwood Care Center, Amarillo; Gaspard's Nursing Care Center, Port Arthur; Hillcrest Nursing Home, Hamilton; and Clarendon Nursing Home in Clarendon.

Federal funds, temporarily withheld, were recommended for release to Mason Nursing Home of Wichita Falls and Big Town Nursing Home of Mesquite.

Gas reduced to industries

"we're not cutting anybody completely off."

Henry said Drileo is the largest of the Midland firms affected. A spokesman said gas in the Midland office had been cut back by 50 percent, but the company anticipates no layoffs.

Another firm affected was Texas Industrial Services, where gas supplying boilers at the uniform cleaning service was cut, according to an employee. Gas there was cut back about 8:40 a.m. today.

Twenty-eight House members, 15 Democrats and 13 Republicans have announced they will not seek re-election. Some are retiring, others are planning to run for the Senate or for governor of their home states.

Two other House Democrats, Edward Koch and Herman Badillo, have resigned to try to run New York City, where Koch was recently sworn in as mayor.

The two House-Senate conference committees working on the energy legislation will be trying anew to break the deadlocks.

DEATHS

Dorothy Moore

Dorothy H. Moore, 72, of 2312 Haynes Drive died Tuesday at her home.

Services were to be at 2 p.m. today in Holy Trinity Episcopal Church with the Rev. Carroll McPherson, interim rector, officiating. Burial was to be in Peach Point Cemetery in Peach Point. Arrangements were handled by Newline W. Ellis Funeral Home here.

Mrs. Moore was born Jan. 27, 1905, in Houston and spent her early life there. She married Arthur A. Moore Jr. of Houston. They lived in San Angelo and Albuquerque, N.M., prior to moving to Midland 25 years ago. Her husband died in 1975.

Survivors include two daughters, Adrienne Boren of Waco and Cathy Beaver of Houston, and three grandchildren.

Mrs. Stevenson

WHITNEY — Carrie Mae Stevenson, 79, formerly of Midland, died Tuesday in Whitney.

Graveside services were to be at 5 p.m. today in Resthaven Memorial Park in Midland directed by Marshall & Marshall Funeral Home. The Rev. Ted Brian was to officiate at the services.

Mrs. Stevenson was born Dec. 24, 1898, in Hope County, Ark., and spent her early life in Arkansas. She moved to Midland in 1947. She was married to Sam Stevenson of Midland, who died in 1958. She moved to Whitney in 1977.

Survivors include a grandson, Melvin G. Maxwell of Whitney, and two great-grandchildren.

Clyde McDonald

SLATON — Services for John Clyde McDonald, 82, brother of Jason McDonald of Midland, were to be at 4 p.m. today in Sanders Funeral Home in Lubbock with burial in Inglewood Cemetery in Slaton.

McDonald died Monday at his home in Slaton after an illness.

He was born March 17, 1895, in Alabama. He lived near Spur and Jayton where he farmed until retiring in 1962. He was a member of the University Church of God.

Other survivors include his wife, a daughter, a stepdaughter, three brothers and three sisters.

Hanna Huling

BIG SPRING — Hanna Huling, 94, died Wednesday morning in a Big Spring hospital after a lengthy illness.

Services will be at 2 p.m. Saturday in St. Mary's Episcopal Church. Burial will be in North Bennington, Vt.

She was born March 7, 1883, in Sweden and came to the U.S. in 1885 with her parents. She was reared in Sioux City, Iowa, and was graduated from National Park Seminary in Washington, D.C. She

studied music in New York City. She married Col. Floyd Huling Aug. 3, 1904, in Sioux City. He died in 1937. Mrs. Huling moved to Stanton in 1955 and to Big Spring in 1957. She was a member of St. Mary's Episcopal Church.

Survivors include a daughter, Helen Dawson Cobean of Big Spring; two sons, Alexander Huling of Louisville, Ky., and Robert Huling of Los Angeles, Calif.; 10 grandchildren and five great-grandchildren.

Annie Wilson

BIG SPRING — Mrs. Frank B. (Annie) Wilson, 82, died Tuesday night in a Big Spring hospital.

Services were to be at 10 a.m. today in Nalley-Pickle Funeral Home with burial in Trinity Memorial Park.

She was born Dec. 1, 1895, in Waco and moved to Big Spring in 1910. She married Frank B. Wilson Jan. 15, 1920, in Colorado City. He died in 1975. She was a charter member of First Methodist Church in Big Spring. She also was a member of the Ladies Society of the Brotherhood of Locomotive Firemen and Engineers, the Planters Garden Club and the Fairview Home Demonstration Club.

Survivors include a daughter, Mamie Steek of Merkel; three sisters, Ola Jacobs and Macie McTier, both of Big Spring, and Alma Wilson of Austin, five grandchildren and four great-grandchildren.

Lee Roy Cordes

ODESSA — Lee Roy B. Cordes, 62, brother of Ed Harvey Cordes and Frank Cordes, both of Big Spring, died Tuesday at his home in Odessa.

Services were to be at 2 p.m. today in Hubbard-Kelly Funeral Home with burial in Sunset Memorial Gardens.

Cordes was born Oct. 20, 1915, in Roznov. He married Gladys G. Hutton Oct. 25, 1939, in Stanton. He moved to Odessa in 1937 from LaGrange. He was a retired butcher. He was a member of Crescent Park Baptist Church. He was a World War II Army veteran.

Other survivors include his wife, a son, and two brothers.

Essie Enloe

BIG SPRING — Essie B. Enloe, 83, died Wednesday morning in a Big Spring hospital.

Services were to be at 2 p.m. today in Nalley-Pickle Funeral Home with burial in Mount Olive Memorial Park.

She was born July 10, 1894, in Saltillo. She married Jess Enloe on Nov. 6, 1911. He died in 1952. The couple moved to Big Spring in 1932, where they owned and operated a cafe.

Survivors include one daughter, Lilly Hill of Big Spring; a son, J. L. Enloe of Waco; four sisters, Irene Smith of Fort Worth, Alzena Edwards of Houston, Ester Young of Wichita Falls and Iva Buck of Lubbock; a brother, Coy Bennett of Saltillo, eight grandchildren, 13 great-grandchildren and one great-great-grandchild.

Court orders return of girl

TUCSON, Ariz. (AP) — Pima County Juvenile Court Judge John P. Collins Wednesday took his first legal steps toward freeing Tucson area teen-agers who have been taken to Bible-oriented homes operated by evangelist Lester Roloff in Texas.

Collins ordered court workers to bring a 13-year-old girl back to court from the Rebekah Home for Girls in Corpus Christi for a review of her situation Jan. 27.

The girl is a ward of the court and was sent by Collins to the home, but later was removed. She then was returned to the home at her own request, but remains under the court's jurisdiction, court officials said.

In addition, a petition was filed in Collins' court Wednesday seeking to make a 16-year-old Tucson girl at the home a ward of the court. She "has been or is being abused ... and therefore is in need of further service and protection from this court," the petition said.

Collins said the girl's mother "has indicated she does not want her back. Therefore, she is a dependent child." That means she is under the court's jurisdiction.

Collins said in reference to the claim of abuse in the petition that she is being abused if she is being kept at the home against her will.

A month ago, Collins raised the question of minors' rights in connection with a number of Tucson area teens known to have been taken by force, but with their parents' permis-

sion, to the homes, which are operated by Roloff.

The Tucson Citizen reported at the time that off-duty Tucson policemen took the youths to Texas and in some cases used handcuffs to restrain them although they were not under court jurisdiction.

The judge said then that the youths had a right not to be sent to the homes if they did not want to be, and those already at the homes have a right to return home if they want.

Their parents have signed parental rights over to Roloff, who has contended that parents have the right to do with their children what they please, especially because government agencies have been unsuccessful in helping the youths.

Roloff, who runs several homes in South Texas, including some to which courts send juveniles and adults, said he uses love, corporal punishment and the Bible to turn youths toward Jesus Christ.

Last week, Arizona Attorney General Bruce Babbitt said he did not think the state could do much in connection with parents sending their children to the Roloff homes because parents have wide discretion over their children.

Collins two weeks ago sent Juvenile Court Director Boyd Dover to Corpus Christi. Dover met with Roloff and some of the youths, although he was denied a chance to interview the teens privately.

Charter for bank clears first hurdle

ODESSA — With the first hurdle successfully behind them, charter applicants for a state bank at the Midland Regional Air Terminal are hopeful that by the end of February their application will be approved.

And after approval, charter ap-

plicant and director Jesse Combs of Odessa said the new bank at the terminal would be opened within six months.

Combs, president of Permian Bank and Trust in Odessa, said that although American Bank in Odessa contested the application in a letter of protest to the State Banking Department, at a hearing Tuesday in Austin, they did not formally present their complaint.

Combs said the letter of complaint was erased from the record as a result of no follow-up presentation.

Combs said there was a tremendous need for the banking facility at the air terminal and, if approved, it would be located on LaForce Avenue near the Permian Basin Regional Planning Commission.

Other directors of the proposed Metro Bank are Ernest W. Crawford, executive director of the PBRPC; B. R. Jones, president of B. R. Jones Dirt and Paving Contractors; Phil Parker, president of Parkem Industrial Services Inc.; Louis Rochester, chairman of the board of Murphy and Rochester Real Estate and Insurance; and Luther May Jr., president of the First National Bank of Olney.

Valuables missing

Electronic equipment and rifles were the targets in a residential burglary Wednesday.

Jamee B. Potter of Route 2, Box 853, told police Wednesday that between 9:45 a.m. and 3 p.m. someone entered his residence through an unlocked garage door.

Taken were a color television, radio and eight-track tape player, clock radio, stereo AM-FM radio, 30-30 rifle and a .22-caliber rifle. Total value of the items is \$1,410, Potter told officers.

Nursing home case brings two sentences

WHARTON, Tex. (AP) — Two California residents have been assessed 10-year probated prison sentences after pleading guilty to one count of false imprisonment.

Lillian Gobert, 42, and Elmer Arnold Thompson, 34, both of Van Nuys, Calif., were accused of holding mentally disabled persons in what authorities called a filthy, roach-infested nursing home near here.

State District Judge Lloyd Rust Jr. also assessed each a \$1,000 fine in a plea bargaining session Wednesday.

Mrs. Gobert and Thompson were indicted last September on 12 counts of false imprisonment and one count of kidnapping after state and county authorities raided the home in the Spanish Camp community, about nine miles north of here, Aug. 18.

Officers freed 11 men and two women. They said the patients were malnourished and in need of medical treatment.

The remaining 11 counts of false imprisonment and the kidnapping charges were dismissed and Mrs. Gobert and Thompson were released from custody.

Lee Etta Bradshaw, 45, of Spanish Camp, also indicted on 12 counts of false imprisonment. She has been free on \$12,000 personal recognizance bond since Aug. 29. Her case is still pending.

Prison inmates given training

BRIDGEWATER, Mass. (AP) — State prison inmates here can learn a white-collar profession while serving time behind bars.

The Southeast Correctional Center is the fourth Boston area state correctional facility to offer computer programming courses taught by Honeywell volunteers. At the request of a single prisoner, the computer company held its first behind bars data processing class 10 years ago at the state's maximum-security prison in Walpole.

During the following decade, 350 inmate-graduates of the intensive computer course have been paroled from prison.

VICTORY TEAM in the Midland County Livestock Show's grass-judging contest is made up of these Stanton FFA youngsters, from left: Danny Ireton, Wayne Atchison, Teressa Hull and Mitch Elmore. The team scored 1,166 out of a possible 1,200 points,

and Elmore earned 399 out of a possible 400 points to become the contest's top individual scorer. Runner-up team was the Snyder Future Farmers of America team. (Staff Photo)

Midland High School students take speech tournament honors

KERMIT — Midland High School speech students took home three first place team trophies and one second place team trophy after competing in the recent Kermit Invitational Speech Tournament.

Speech students won first in sweepstakes or overall, oral interpretation and extemporaneous speaking and won second in cross-examination debate.

The winners, listed according to the event they placed in, were:

— PERSUASIVE SPEAKING: Jane Forsyth, first place.

— INFORMATIVE SPEAKING: Starr Boldrick, first place, and Mark Stanley, second.

— PROSE: Bob Glenn, first place, and Todd Salisbury, third.

— POETRY: Chris Johnston, first place, and Hal Coon, second.

— STANDARD DEBATE: George Harbin and Rayford Groves, fourth place.

— CROSS-EXAMINATION DEBATE: Joni Brown and Therese Folger, second place.

Panel splits over Marston

PHILADELPHIA (AP) — The debate over the political replacement of U.S. Attorney David Marston may have split the ranks of a panel of lawyers named by U.S. Attorney General Griffin Bell to suggest possible successors.

One man on the five-member screening committee already has quit. Two others have told Henry Reath, chairman of a lawyers committee supporting Marston, that they

favor the retention of U.S. attorneys on a merit basis.

Reath said Wednesday night he had met earlier in the day with Jerome Shestack, director of the panel, and David Berger and asked them to contact Bell to ask him "to recognize that the situation had gotten so bad in Philadelphia that he had to take decisive action forthwith to remove the cloud of uncertainty from the head of Mr. Marston."

China reportedly convinced world war inevitable

By ELLEN HUME
The Los Angeles Times

WASHINGTON — Sen. Alan Cranston, D-Calif., said this week after a two-week visit to China that he was discouraged by the Peking government's "acceptance of the absolute inevitability of world war."

The Chinese believe the war — which they said might not include nuclear weapons — would stem from

"inconsistencies" between the Soviet Union and the United States, Cranston said.

Cranston, the Senate Democratic whip, did not say what the Chinese regarded as the chief "inconsistencies" between the two countries. Nor did he elaborate on Peking's belief that another world war was inevitable.

The senator, who strongly favors the current U.S.-USSR Strategic

Arms Limitation Treaty talks, said Chinese officials "are interested in seeing arms control dealt with ultimately," even if they "have no interest in getting involved with it now."

Cranston said he and the nine other congressmen on the official Jan. 3-16 China trip favored normalizing diplomatic relations with China as soon as possible.

He said he would accept the three

key Chinese requirements for establishing full diplomatic relations:

—The United States would sever diplomatic ties with the Nationalist Chinese on Taiwan, but maintain trade and cultural representatives just as Japan does now with the island.

—The United States would end the 1954 Dulles mutual defense treaty with Taiwan, terminating its legal requirement to intervene if China tries

to take over Taiwan.

—The United States would withdraw its remaining troops in Taiwan, which now number 995, according to the Pentagon.

Cranston said he thought it a "virtual certainty" that the Chinese would not use force to reunify Taiwan and the mainland. Vice Premier Teng Hsiao Ping, stressed the "peaceful reunification" of the two Chinas when

meeting with the delegation, Cranston said.

The delegation included Cranston, Sens. James Abourezk, D-S.D. Gary Hart, D-Colo.; Richard Lugar, R-Ind.; Charles McC. Mathias Jr., R-Md.; and Reps. Stephen L. Neal, D-N.C.; Frederick Richmond, D.N.Y.; Stephen J. Solarz, D-N.Y.; James Weaver, D-Ore., and Charles W. Whalen Jr., R-Ohio.

Cambodia receives new support gesture from mainland China

Agence France-Presse
PEKING — China Wednesday made a further gesture of support for Cambodia in its conflict with Vietnam.

Only a few hours after a Vietnamese ultimatum to Cambodia an important delegation led by the late Chinese Premier Chou En-lai's widow Teng Ying-chao, a vice-chairman of the National People's Congress, left Peking Wednesday morning for Phnom Penh.

The New China News Agency reported that Mrs. Teng, also a Communist Party Central Committee member, was paying a friendly visit to Cambodia at the invitation of the

Communist Party, the permanent committee of the People's Congress and the Cambodian government.

Her visit to Cambodia was unexpected and would appear to have been decided by the Chinese government in view of the Cambodian-Vietnamese situation. On Saturday, Mrs. Teng was in fact scheduled to meet French Prime Minister Raymond Barre who arrives in Peking today.

NCNA said Mrs. Teng left by special plane with three high officials: Vice-Foreign Minister Han Nien-lung, Foreign Ministry Asian Affairs Director Shen Ping and Deputy Director of Protocol Fu Shun-ho.

Peking diplomatic circles considered Mrs. Teng's sudden visit, contrasting sharply with China's relative discretion in the Cambodian-Vietnamese conflict, could have a double aim.

First, to reiterate China's support for Cambodia at a time when a powerful Vietnam is using threats to pressure it into negotiations. Cambodian Communist Party Secretary and Prime Minister Pol Pot said Tuesday his government would negotiate when Vietnamese "aggressions and infiltrations" ceased and all Cambodian territory was evacuated. China supports this point of view.

On the other hand the visit, though a warning to Vietnam, could also be intended to soften the intransigent Cambodian position which is prolonging the conflict and delaying peace talks.

Mrs. Teng has inherited some of her late husband's prestige and has become, since the fall of the "Gang of Four," China's roving ambassador to friendly countries.

She paid important official visits last year to Burma, Sri Lanka and Iran.

Two members of her party are diplomatic specialists who would be able to give Cambodia advice on negotiations with Vietnam.

Carter starts again to push his economics

By JOHN CUNIFF

NEW YORK (AP)—Beginning with his State of the Union address tonight and extending through his budget message Monday, President Carter will seek to convince Americans he has a unified economic program.

The effort will include the President's economic message on Friday, and on Sunday his tax proposals, but all will have a related theme: that the economy is directed by men of competence and vision.

From the political left and right and through the degrees in between, doubts have arisen in the past year over the skipping of the \$2 trillion economy, tarnished as it is by inflation and unemployment.

Early promises by the administration, and its insistence that the promises were attainable despite the harsh evidence of contrary statistics, have cast doubt on its economic wisdom.

Some recent reports, however, have served the administration well. The jobs rate fell in December to a three year low of 6.4 percent, thanks to a statistical revision, and consumer attitudes improved.

But it is more the future than the past that now concerns the Carter economic brains. Fears exist that an economic downturn will occur by late this year if a tax cut isn't enacted. It will be proposed.

From proposal to enactment could provide a test of the administration's economic reasoning. It did little recently to reassure people when the president himself briefly questioned the need.

In its favor is that the proposal is designed to aid a range of beneficiaries, including lower income individuals whose ability to buy necessities has been eroded, and corporations, which have been reluctant to spend.

A better business climate might therefore be considered one result of a tax cut, but some analysts claim its main impact simply would be to restore what is taken by higher Social Security taxes and inflation.

As the year begins, the Carter administration is taking credit for the lowest jobs rate in three years, 6.4 percent in December, but that relatively low figure could become a milestone later.

A drop of such magnitude — from 7.6 percent in the 1977 first quarter — suggests that future improvements might be more difficult to obtain. Some business forecasters even foretell a 7 percent level by 1979.

But that is only one aspect of the trilogy of promises made by the president when he assumed office — that in his term he would sharply reduce unemployment and inflation, even while balancing the budget.

The president's continued insistence that this could be done has been undermined by the numbers, not the least of which are continuing federal budget deficits of about \$60 billion.

In order to accomplish its goals, the administration is believed to need a yearly rise in industry's capital expenditures of at least 10 percent. Last year's rate was 8 percent. This year's may be lower.

Some private analysts have even gone on record as saying the goals are mutually exclusive, and that the administration cannot hope to accomplish them all. Realism, they say, dictates a lowering of sights.

The harsh reality, they say, is that economic expansion, as measured by the gross national product, is likely to be down in 1978 to 4.5 percent from 5 in 1977 and 6 percent in 1976.

It is while standing on this base — which we have to be reminded is firmer than that on which some presidents have stood — that Carter's more limited, perhaps more attainable, goals will be enunciated.

THE 1977 RECIPIENTS of \$500 scholarships awarded by the Gas Processors Association's Permian Basin Chapter are, from left front row, Kenneth L. Presley, Odessa, Texas A&M University; David L. Roberts, Odessa, Texas Tech University; Charles Hart, Odessa, UTPB, and

Dyron Powell, Jal, N. M., UTPB. Behind them are, from left, Stewart Young, Odessa, chairman of the Scholarship Committee, and Mike Higgins, Midland, vice chairman of the Permian Basin chapter of GPA.

Three wildcat tests scheduled; Midland field gets new project

Three wildcats, one of them a workover operation, have been announced in Permian Basin counties.

RK Petroleum Corp. No. 1 Wolcott-Adobe is to be drilled as a 12,300-foot explorer nine miles northwest of Tarzan in Martin County.

Location is 1 1/4 miles northwest of the RK (Devonian) field and 1,980 feet from south and 6,310 feet from east lines of league 250, Hartley County School Land survey.

PECOS WILDCAT

C&K Petroleum, Inc., No. 1-44 Hunt-State will be drilled as an 11,000-foot wildcat in Pecos County, 8 1/2 miles southeast of Bakersfield.

There is no nearby production. Drillsite has been set 660 feet from north and 660 feet from west lines of section 44, block C-4, GC&SF survey.

CORONADO TEST

Coronado Minerals Co. of Midland announced plans to re-enter the old Fort Worth Exploration Co. No. 1 Perry, plugged in 1962, and test to 2,950 feet.

The project is No. 1 Frank Perry

Jr., 800 feet from south and 1,720 feet from east lines of section 15, block C-4, GC&SF survey and 21 miles southeast of Bakersfield.

REEVES TEST

Tomlinson Oil Co. of Midland No. 1 Meriwether will re-enter as a 15,000-foot test in the Wortham-Bayer (Devonian) area of Pecos County.

It is one location southwest of production and 660 feet from south and west lines of section 5, block 7, H&GN survey and 11 1/2 miles northwest of Cayanosa.

The project originally was drilled and plugged in June 1977 by John C. Snyder, Inc. and Tucker & Heath at 15,075 feet.

MIDLAND TEST

Mobil Oil Corp. No. 30 Louise Shackelford is a new project in the Azela (Atoka) field of Midland County, 13 miles southeast of Midland.

Sited for an 11,500-foot bottom, it is 1,320 feet from north and 1,320 feet from west lines of section 28, block 37, T-3-S, T&P survey.

There are several nearby wells.

WARD OILER

Clayton W. Williams of Midland No. 9 Avery has been completed in the Rhoda Walker (5900) field of Ward County, seven miles west of Pyote.

Location is 660 feet from northwest and 1,980 feet from southwest lines of section 130, block 34, H&TC survey.

The well finished for a daily flow of 90 barrels of 46.4-gravity oil, through a 20/64-inch choke and perforations from 5,100 to 6,238 feet. Gas-oil ratio was 2,222-1.

Total depth is 6,800 feet and 5 1/2-inch pipe is set on bottom. Plugged back depth is 6,730 feet.

SCHLEICHER WELL

Kitjioniganmarclay, Inc., of Fort Worth No. 2 Edmonson-Kit is a new well in the Henry Speck (Canyon) pool of Schleicher County.

It finished for a calculated, absolute open flow of 2,770,000 cubic feet of gas per day, through perforations from 6,874 to 10,766 feet, natural.

Location is 660 feet from north and 1,980 feet from east lines of section 60, block D, GC&SF survey and 10 miles southwest of Eldorado.

Saudis to reaffirm dollar commitment

By JOE ALEX MORRIS JR.

The Los Angeles Times

DHAHRAN, Saudi Arabia — The Saudi government is expected to reaffirm its commitment to the U.S. dollar as the basis for world oil prices in the next few days.

An official statement to this effect was forecast by both Saudi oil officials and Americans currently touring Saudi Arabia with Energy Secretary James R. Schlesinger.

Schlesinger came to this oil capital of the kingdom following talks in Riyadh with Crown Prince Fahd and Saudi Oil Minister Ahmed Zaki Yamani.

Speculation about a switch, prompted by the weakness of the dollar internationally, was sparked last week when Yamani reportedly told visiting French journalists that Saudi Arabia "may" propose a change in oil pricing to a basket of currencies at the next meeting of the Organization of Petroleum Exporting Countries.

The subject has been on the organization's agendas for several years but has not gotten

anywhere. But the Saudi report was followed by support from Kuwait for a change to a new standard that would protect oil-producing countries from losses of income because of the dollar's steady decline.

The forthcoming announcement is intended to discourage such speculation, sources here said. As the biggest single producer, Saudi Arabia plays a dominant role in the organization's policy issues, and during the past two years has exercised a moderating influence against demands for steep rises in the price of oil.

After his talks in Riyadh, Schlesinger said he was impressed by the Saudis' determination not to increase production to satisfy increasing American demand for imported oil. About 20 percent of American oil imports now come from the kingdom, and it was reported that Schlesinger's primary aim in coming here was to win Saudi agreement to boost production to meet future American demands.

"They are not going to be anyone's oil cornucopia," Schlesinger said. He cited both political and domestic reasons for Saudi Arabia's conservative policy in this respect.

The political reasons include the current Middle East peace negotiations. Domestic reasons include Saudi Arabia's recent efforts to control rampant inflation, which reached 40 percent to 55 percent in 1976 in conjunction with the massive development boom here.

Saudi Arabia has set an 8.5 million barrels per day ceiling on current oil production and Yamani has said it expects to continue this through 1979. The country already has uncomfortably high cash surpluses, and its enthusiasm for investing more in American treasury bonds and short-term paper has waned considerably recently, particularly since the dollar began its decline.

Schlesinger said the Saudis were waiting for signs of a determined and effective U.S. energy policy. He predicted congressional action in March on Carter's sweeping energy proposals, even though, he said, all the special interests opposed it.

"We are going to cease subsidizing the price of oil in the United States," he told a group of Saudi and American businessmen here. But the change would be gradual, he added.

Schlesinger said that he expected industry would adapt to the new situation more rapidly than American consumers.

New wells, projects reported in WT areas

TIPCO No. 12 Edwin Parks has been completed as an Ellenger well in the Dixon multipay field of Mitchell County, five miles north of Silver.

The well, 1/2 mile west of other production, completed for a 24-hour flowing potential of 52 barrels of 52-gravity oil, natural, through a 4/64-inch choke and open hole from 7,212 to 7,222 feet.

Total depth is 7,222 feet and 5 1/2-inch casing is set at 7,212 feet. Wellsite is 467 feet from north and 1,800 feet from east lines of section 1, block 1-A, H&TC survey.

CRANE WELL

Gulf Oil Corp. No. 14-GG Texas, a former Devonian well, has been recompleted as a Pennsylvania well in the University-Waddell multipay field of Crane County.

It finished for a 24-hour pumping potential of 20 barrels of 40.1-gravity oil, through perforations from 7,596 to 7,650 feet. The pay was treated with 3,000 gallons of acid.

Plugged back total depth is 8,216 feet. Location is 11 miles northwest of Crane and 660 feet from south and 1,980 feet from west lines of section 2, block 31, University Lands survey.

It is the fourth Pennsylvania well in the pool.

MARTIN TEST

Rial Oil Co. of Midland No. 1 Hope is a new project in the east side of the Ackerly (Dean) field of Martin County.

The 8,700-foot operation is 2,093 feet from north and 2,108 feet from east

Substantial problems face firms in Mid-East

By ROBERT A. ROSENBLATT
The Los Angeles Times

WASHINGTON — American companies working in the Arab world face substantial problems under a series of tough regulations to be issued today by the Commerce Department to implement the federal anti-boycott law.

The regulations will prohibit several practices commonly used by American companies to obey the Arab nations' economic blacklist of certain firms trading with Israel.

The Arab countries' economic war with Israel extends to companies with factories or plants in Israel and to firms making a major contribution to the Israeli economy. Ford, Xerox and Coca-Cola, for example, are blacklisted by Arab nations.

A blacklist is strictly enforced in Saudi Arabia and Kuwait, countries rich with oil revenues. Egypt, a comparatively poor nation needing foreign capital, boycotts some companies on the blacklist but not others. For example, Egypt will allow Ford to build a truck plant in Alexandria, and Coca-Cola plans to develop citrus groves near the Suez Canal.

American oil companies and construction firms active in the lucrative Saudi Arabian market fear they will lose business if American law makes them break Saudi blacklists.

Thursday's regulations, the Los Angeles Times learned, will provide for strict enforcement of the anti-boycott legislation passed from joining the Arab boycott of Israel, and bars them from following the Arab blacklist of commercial firms involved with Israel.

The regulations will eliminate a common contract provision employed by American companies in the Middle East to avoid dealing with blacklisted firms back in the United States.

A contract with a supplier back in the United States commonly requires the supplier to assume the loss if his goods are confiscated at the border because of local blacklists.

This "risk of loss" provision effectively prevented any company on the Saudi blacklist from bidding on contracts for American work in Saudi Arabia.

Thursday's rules will prohibit "risk of loss" clauses in contracts. The regulations "give us 95 percent of what we wanted," said a congressional staff member involved in the intensive lobbying over the boycott issue. "The regulations were originally proposed with big loopholes; but the final version is tough."

The rule will "go far towards ending American participation in the boycott," said Rep. Benjamin S. Rosenthal D-N.Y., a sponsor of the

anti-boycott legislation.

The Commerce Department rules. The Times learned, provide the following guidelines for U.S. companies in the Arab world:

—A firm can obey local boycotts and blacklists with merchandise ordered for its own use. For example, Mobil Oil could refuse to buy Xerox copying machines for Mobil Oil offices in Saudi Arabia.

—A company cannot obey a blacklist in doing work for others. If an American firm is building a telephone system for Saudi Arabia, it cannot automatically refuse to buy switching equipment from an American company on the Arab blacklist.

—American firms cannot use any "artifice or device" that would discriminate against another U.S. company solely because it appears on an Arab blacklist.

—Firms engaged in construction projects can obey the blacklist on basic building items such as cement, walls and wiring. But American companies can't obey a local blacklist when they buy furniture, supplies or equipment for the building. All companies—including those on blacklists—must be given a chance to bid for the business.

The regulations will pose considerable problems for the big firms operating in Saudi Arabia. These include the Fluor Corp., Irvine, Calif., and Bechtel Co., San Francisco, both involved in major construction projects.

They must steer a careful path between American law, that forbids participation in a boycott and Saudi Arabian law that demands compliance with the anti-Israel boycott and blacklists.

Location announced

Gulf Oil Corp. announced location for an 11,950-foot Morrow project 1/4 mile southeast of the Shugart, N.M. (Morrow) field of Eddy County, N. M.

Drillsite for the test, No. 1-B Keohane-Federal Communitized and others, is 2,230 feet from north and 660 feet from west lines of section 28-18-31e and nine miles southeast of Loco Hills.

DRILLING REPORT

ANDREWS — Blair Exploration, No. 1, 1 1/2 miles, rigging up and preparing to spud new hole.

BORDEN — Crown Central No. 1, 1 1/2 miles, 3 1/2 inch casing, 1,300 feet in hole. Amoco No. 1-A Long, drilling 6,235 feet in hole.

BRADY — Union Texas No. 1, 1 1/2 miles, drilling 1,153 feet in hole and 1,153 feet, set 5-inch casing at 1,153 feet in hole.

CMAYES — Amoco No. 1-ET 4, 1 1/2 miles, drilling 1,300 feet in hole. Amoco No. 1-DQ State, drilling 2,668 feet in hole.

COKE — Amerasia Hess No. 1, 1 1/2 miles, drilling 1,300 feet in hole and 1,300 feet, set 5-inch casing at 1,300 feet in hole.

CRANE — Clear No. 3 DV State University, preparing to run temperature survey.

ROCKEY — Gulf No. 4 Parker Ranch, 1 1/2 miles, plugged back depth 7,400 feet, treated perforations 5,312 to 5,378 feet with 2,000 gallons acid and 30,000 pounds sand, recovering load.

MARTIN — Clear No. 1, 1 1/2 miles, plugged back depth 1,400 feet, perforated 1,354 to 1,370 feet, preparing to acidize.

ROCKEY — Gulf No. 4 Parker Ranch, 1 1/2 miles, plugged back depth 7,400 feet, treated perforations 5,312 to 5,378 feet with 2,000 gallons acid and 30,000 pounds sand, recovering load.

CRANE — Clear No. 3 DV State University, preparing to run temperature survey.

ROCKEY — Gulf No. 4 Parker Ranch, 1 1/2 miles, plugged back depth 7,400 feet, treated perforations 5,312 to 5,378 feet with 2,000 gallons acid and 30,000 pounds sand, recovering load.

CRANE — Clear No. 3 DV State University, preparing to run temperature survey.

ROCKEY — Gulf No. 4 Parker Ranch, 1 1/2 miles, plugged back depth 7,400 feet, treated perforations 5,312 to 5,378 feet with 2,000 gallons acid and 30,000 pounds sand, recovering load.

By ANDY LANG
AP Newsfeatures

Several weeks ago, readers were asked to give their preferences in 10 situations that might present themselves if they were having houses built to order.

The response was far greater than expected, so that the assistance of several other persons was required to open the mail and tally the results. Also, because so many readers included interesting, illuminating comments with their choices, it was decided to break down the selections into three parts. The initial one deals with the first three questions: Do you prefer three bedrooms about the same size or one large bedroom and two small ones? Would you want the laundry room next to the kitchen or in or near the bedroom wing, assuming that the house had no basement? If

most laundry emanates from the bedrooms and not the kitchens and that it makes common sense to have the laundry appliances there. Or, one woman said in response to the questionnaire: "Of course I prefer the bedroom area for the laundry. That's where the dirty clothes are!"

Yet 67 percent of the respondents want the laundry near the kitchen. Why? "Because," said one householder, "most of the time I spend in the kitchen and I can coordinate my cooking and washing activities." Another reason given for the kitchen choice was that a bedroom location "would make it too noisy for night washing, which I do to conserve energy." And still another: "I'm concerned about washer overflow ruining adjacent carpeting. It doesn't happen often, but it would have to happen only once to be too much."

680 feet from west lines of section 30, block 39, T-1-N, R-6-M-B-A survey, 22 miles southeast of Andrews, 4.745.

1. Hall (Missippian) — Moore & Lasiter No. 4 Gertrude Harrison, 350 feet from north and 2,300 feet from west lines of

east lines of section 632, block D, J. H. Gibson survey, abstract 552, six miles southwest of Plains, 5.500.

with the seven others, it was assumed that there would be no appreciable cost difference whatever the choice.

On the first question, 65 percent said they would rather have one large
