TEXAS TORNADO FATAL TO NINE

Kidnap Testimony Ends Saturday

**VIOLET SHARPE'S
NAME DEFENDED
BY MRS. MORROW**
Court Recesses for
Week End: Anne
In Court

FLEMINGTON, N. J., Jan. 9. (P).—Testimony ended today in the trial of Bruno Richard Hauptmann for the kidnaping of Charles Augustus Lindbergh Jr.
Mrs. Dwight W. Morrow, grandmother of the Lindbergh baby, was the last witness to be called in the celebrated case. She was called as a rebuttal witness by the state to clear defense insinuations against her former maid, Violet Sharpe.
Mrs. Anne Lindbergh, mother of the slain infant, was in court for the second time since the trial started. She was a witness for the state in her first appearance. She came to the court with her mother today.
Arthur J. Koehler, Federal wood expert, returned to the stand today to say virtually everything said by practical lumbermen testifying for the defense was wrong. He again asserted his belief that "Rail Sixteen," protested portion of the ladder used in the kidnaping, came from the Hauptmann attic.
Ernest Miller and Catherine Minners testified that they were on a party with Violet Sharpe from eight until eleven o'clock the night of the kidnaping.
Mrs. Ottilia Hoerber, of the Bronx, testified for the state that the late Isador Fisch, accused by the defense as the kidnaper, was at her home on the night of April 2, 1932, the night Dr. Condon paid the fifty thousand dollar ransom in a Bronx graveyard.

DISTRESS SIGNALS SENT FROM TAHITI BY "SETH PARKER"

SAN FRANCISCO, Feb. 9. (P).—One of the strangest calls for aid the Pacific has known was sent to an Australian cruiser today to aid Phillips Lord, American entertainer, aboard the four masted schooner Seth Parker in the South seas.
The schooner, with a crew of thirteen, made continual calls throughout the night that she was in "extreme danger." High seas were hurling walls of water over the decks.
No injury to the crew or damage to the ship had been reported, however. The ship advised a naval radio station at 7:10 a. m. that her condition was "about the same."
Lord, who set sail in the schooner last December from Portland, Me., on a voyage around the world, said in his first message every effort was being made to avoid "sending distress calls as yet."
He gave his position as about 300 miles of Tahiti, and said the schooner was being buffeted and tossed by a fierce gale.
The first message from the Seth Parker was sent out at 10 p. m. (EST) Friday. It stated the ship was encountering gales and heavy seas.
"Believe condition dangerous," said the message, "desire all ships within 50 miles contact us immediately, giving their position, weather conditions, course and destination."

Planning Board Formed for 15 Counties; To Meet Here

Advancing the need of a connected highway system in counties of this section of West Texas, to better serve traffic and to relieve unemployment, representatives of eight counties meeting at Midland Friday afternoon took steps toward permanent planning of public works.
A meeting for February 21, at Midland, was called, invitations being sent to the officials of 15 counties of this area. The invitation carried with it the recommendation, worked out here Friday, that a regional planning board be formed, with a member and an alternate elected by the commissioners court of each of the 15 counties.
Telegrams were sent to congressmen, senators and department heads, urging the allocation of PWA funds to construction of main and lateral highways in this section.
A telegram was received Saturday by County Judge E. H. Barron here in which cooperation was pledged.
At the meeting Friday, those present included Judge S. M. Halley and Commissioner J. A. Slaughter of Winkler county; Judge Phillip Yonge, Wm. A. Wilson, chamber of commerce secretary, and Tom Burnside, relief administrator, of Dawson county; Judge W. G. Gibbs and Relief Administrator J. W. Childers of Gaines county; F. M. Gwyn, secretary of the Odessa chamber of commerce; Judge E. D. Smith and Relief Administrator E. E. Turrentine of Crane county; Bonnie Waite, county commissioner, and Henry Wolcott of Martin county; Judge O. W. Crouch of Glasscock county; Dr. W. E. Ryan, Percy J. Mims, Fred T. Hogan, W. B. Elkin, F. F. Elkin, J. Y. Francis, R. T. Bucy, Judge Barron and Commissioner D. L. Hutt, Midland county.
The group voted to include in the regional planning board representatives from Andrews, Borden, Howard, Loving, Ward, Upton and Reagan counties.
Judge Barron, named chairman at the meeting Friday, was authorized to send letters to the county judges and commissioners of the entire group of counties, outlining plans for permanent planning and calling the meeting here February 21, at 2 o'clock p. m., at the court house.
It was believed that this was the first regional planning board to be formed under a plan proposed by the federal and state PWA authorities. Dawson county was believed to be the first county to appoint a member.
Representatives of the county government here Friday mailed to the federal government, state engineer for PWA work, an inventory of federal works project, asking for construction of 66 miles of new highway in Midland county.
Of this, 40 miles would be to connect with a highway from Lamesa to Rankin and 26 miles would be to connect with one to Garden City.

GOV'T GEOLOGIST TO GIVE CARLSBAD SPEECH HERE MON.

Complying with a request of many Basin geologists who were unable to attend his Carlsbad lecture on the geology and stratigraphy of the Guadalupe Peak section, Dr. Phillip B. King, government geologist, will give the same lecture with some additions before a special meeting of the West Texas Geological Society in the Scharbauer Hotel tomorrow night at 8 o'clock.
Dr. King, under the auspices of the United States Geological Society and the Geological Society of America, has spent about eight months in detailed study of the Guadalupe Mountain area, which is the surface expression of subsurface conditions encountered in oil well drilling in the Basin.
The purpose of Dr. King's visit to Midland is to gather information for a proposed National Research Council tectonic map of the United States, and he hopes while here to learn from geologists working in this province of any major features which they consider worthy of representation of the map.

WORK OF FAMOUS ARTISTS IS SHOWN HERE THIS WEEK

J. E. Henson, internationally known collector and dealer in art, arrived in Midland Saturday morning with a collection of about 30 original paintings which he will exhibit in room 240 of the Hotel Scharbauer this week.
This is the second time Henson has brought a display here. He had planned to come here in the fall, he said, but was prevented through illness. He has just closed an exhibition in Houston.
The collection includes both modern and old masters and represents the work of Blacklock, Emis, Herring and other famous artists.
The paintings will be displayed from 9 o'clock in the morning until 5 o'clock in the afternoon and by special appointment in the evenings, Henson said. Short lectures will be given, which all persons interested are invited to attend.

VISITS HERE

Miss Joelle Vannoy, a teacher in the Plainview City Schools, is spending the week-end with Miss Marie Miller. Miss Vannoy's home is at McClean.

HOME FROM TECH

Miss Lela Mae Miles is here from Texas Tech, Lubbock, spending the weekend with her parents, Mr. and Mrs. J. C. Miles.

WOMAN KILLED IN WRECK HERE; TWO MEN ARE INJURED

Mrs. Pearl Wilson, nee Merris, is dead. Ernest Bugg of Big Spring was in a dying condition and Clarence Graves of Midland had only an even chance of life as result of an automobile accident three miles east of the city at approximately 10:30 o'clock last night.
Mrs. Wilson came here from San Angelo last Christmas and had resided since that time at the Mayo Hotel. She is survived by a sister and brother-in-law at San Angelo, Mr. and Mrs. Marcus Furry.
The accident occurred when a Ford car, reported to have been driven by Bugg, crashed into the rear end of a truck driven by Jess Williams of Fort Worth. The impact of the collision threw the car over several times and when it was discovered by passing motorists both Bugg and Mrs. Wilson were lying in the middle of the road and Graves was lying in the ditch at the side.
Two boys, identity unknown, passed the wreck and stopped at the Broadway tourist camp and told Mr. R. Hill of what they had seen and he immediately called the sheriff and an undertaker.
Before the sheriff or undertaker had reached the scene of the wreck, however, a Midland surgeon, returning from a call ten miles east of the city, arrived.
Mrs. Wilson was dead when the doctor arrived and was taken to an undertaking parlor while the two men victims were taken to a hospital.
Bugg was first treated by the doctors, for a fracture of the skull, broken arm and possible internal injuries and after treatment was given no chance of life.
Graves' injuries were diagnosed as mild concussion, several ulcers on the scalp and both arms fractured. He was given an even chance to live after a preliminary examination.
The party, it was reported, had left the Mayo hotel about thirty minutes before and it was the opinion of persons living there that they had driven only a short distance east of Midland when they decided to return.
Williams, driving a truck for the American Manufacturing company of Fort Worth, said he was going west, approaching Midland, when the small car struck his truck at the right rear, turning the truck on its right side in the ditch.
He climbed out, giving aid to motorists, who had stopped by that time, in picking up the injured men and the dead woman.
Williams was en route to Monahans, hauling a new pump jack. He had unloaded the bulk of his load at Big Spring and had the piece of machinery stowed on the truck, so that it was intact when the truck was righted. His machine sustained a broken drive shaft and was generally smashed at the rear. Williams was unhurt except for bruises when the car struck the cab as the truck overturned.

DOZEN COMPLETIONS FOR WEEK ADD 81,861 BARRELS TO WEST TEXAS POTENTIAL; FISHER WELL FEATURE

By PAUL OSBORNE
The week past saw the completion of 12 wells in West Texas, 81,861 barrels being added to the daily potential of the area from 10 producers. New locations of the week numbered twelve, two of them being classed as wildcats.
Highlight of the week was the showing of oil in Merry Brothers and Perrini and Tide Well No. 1 Howard, a wildcat well in north-eastern Fisher county which filled with oil and water on reaching total depth of 3,670 feet. Operators yesterday believed that at least part of the water was coming from the oil pay horizon. The well is in section 180, block 2, H. & T. C. Railway survey.
The largest producer completed was the Marathon Oil Company No. 36-B Yates, a field well in the Yates pool of eastern Pecos county, which showed 3,005 barrels of oil per hour on production gauge. The only other Pecos county completion was Stanolind Oil and Gas Company No. 10-B Tippet, in the Toboggan area north of Yates, which is good for 704 barrels daily on pump from pay topped at 449 feet.
Extending the deep pay of the Big Lake field a half mile to the northeast, Big Lake Oil Company No. 16-C University, was given an initial production rating of 1,015 barrels of oil and 1,800,000 feet of gas from total depth of 8,450 feet. Location is 97 feet from the north line and 509 feet from the west line of section 6, block 9, University land, Reagan county.
In the North Cowden pool, of northern Ector county, Stanolind Oil and Gas Company completed their No. 14 J. M. Cowden, northernmost completion of the southern part of the field. Potential gauge on the well was 857 barrels daily through casing from total depth of (See COMPLETIONS, page 6)

Wayland Student Baptizes Dawson Prisoner in Tub

LAMESA. — The Dawson County jail became a scene of religious activity and a baptism when Jack Camp, 36, was baptized in a bath tub.
Rev. Leroy Smith, student of Wayland College at Plainview, Texas, pastor of the Munger Baptist Church, 10 miles northwest of here, performed the baptismal ceremony in the presence of some 15 people, including the wife of the prisoner.
Mr. Camp professed religion two weeks before in a revival meeting and desired to be baptized before being transported to a state institution from the local jail.

CHURCHES JOIN IN SERVICE FOR THE BOY SCOUTS

Churches of Midland will join in a union service this evening at 7:30 o'clock, at the First Baptist church auditorium, observing the national Boy Scout week.
An orchestra selection will be the prelude, followed by the hymn "America, The Beautiful" in which the community choir and congregation join.
The Rev. W. J. Coleman, Presbyterian pastor, will offer a prayer. The scripture reading will be given by Rev. Kenneth C. Miller, Methodist pastor.
The community choir, with two pianos accompanying, will sing "Brightest and Best."
The Boy Scout court of honor will then be conducted by scout officials.
A male chorus, composed of Jas. P. Harrison, De Lo Douglas, J. R. Clump, W. F. Bailey, P. J. Mims, W. F. Borum, Van Mitchell, D. D. Shifflet, Fritz Estill, J. A. Seymour and W. W. Lackey, will sing "Save Our Country, Me!"
The Rev. J. E. Pickering, pastor of the First Christian church, will preach the sermon, "Education Without Christ, a Curse to the World."
"America" by the choir and congregation, an orchestra postlude and the scout benediction, led by Executive A. C. Williamson, will conclude the special service. The detailed program appears elsewhere in this issue.

GARZA CO. SHERIFF PLEADS NOT GUILTY

DALLAS, Feb. 9. (P).—Sheriff W. F. Cato, Garza County, pleaded not guilty when arraigned here today on a federal murder charge of shooting to death Spencer Stafford, federal narcotic agent, near Post last Thursday.
L. W. Kitchin, veterinarian, and Dr. V. A. Hartman, physician, both of Post, charged with complicity in the shooting also pleaded not guilty.
Hearings for the three men were postponed until Monday.
Stafford was shot and killed by a machine gun in the hands of Cato while he was investigating the amount of narcotics used at Kitchin's place near Post.
MRS. RUSSELL RECOVERING
Mrs. J. W. Russell has been in a San Angelo hospital for the past three weeks recovering from a major operation. Although critically ill for several days, her condition is now reported improving.
Mrs. Russell and son, Johnnie, have been in San Angelo for a month.

NEGROES KILLED AS STORM SWOOPS DOWN

GRAPELAND, Tex., Feb. 9. (P).—Nine negroes were killed and 40 were injured last night when a tornado wrecked a tenant community on the Murray farm fifteen miles west of Grapeland. Thirty-one tenant houses were razed.
At Niven, Leon county, 15 other negro tenants were hurt and a number of houses were wrecked. One ranch was damaged badly and the Storey and Darsey commissary was twisted to face another direction. Twelve Galveston residents were slightly injured when violent winds and heavy rain hit that community. There were reports that several negroes injured at the Murray farm may die.
Widespread damage occurred in the adjoining counties of Leon, Trinity and Houston, extending north to Marshall where two airplanes at the airport were destroyed. In the Reynard community in Houston county, the Beasley cotton gin and the Beasley and Smith store were ruined. The loss was estimated at thousands of dollars. The home of Herman Beasley was twisted to face another direction. Nineteen were taken to hospitals at Palestine.
The storm apparently vented its greatest fury in the Trinity river area of Leon and Houston counties. Scores of houses at Groveton were unroofed and some damage was done at Corrigan.
Telephone and telegraph lines were down in some communities in South Palestine.
Heavy rains drenched the state during the night, Palestine receiving the heaviest rain of the winter.

REPORTS OF FUND DRIVE TO BE MADE BY COMMITTEEMEN

Report of committees seeking funds for the Midland chamber of commerce were asked Saturday to complete their work and report at the directors' meeting of the organization Monday evening at 7:30 o'clock.
Opening Monday morning, the campaign has been under way all this week but many prospective members listed had not been contacted, a checkup Saturday showed. Efforts were being made to have the committees complete the work Monday.
Plans for expansion of the chamber's work during the year are dependent upon the outcome of the drive for additional members and more funds, officials said. Those who can report for their committees during the day Monday were asked to do so in order to expedite the computation of the budget Monday night.

STATE TO ASK FOR DEATH PENALTY IN KENNAMER TRIAL

TULSA, Feb. 9. (P).—Phil Kennamer will go to trial Monday at Pawnee, charged with the Thanksgiving slaying of John Gorrell.
It was indicated by County Attorney Hally Anderson that the state will demand the death penalty.
Anderson said "it has been the custom of this office to qualify the jury for the death penalty in all cases where the crime is punishable by death."
Oklahoma law provides the jury shall assess the penalty in felony convictions.
Pawnee will be "home" for the Kennamer family for the duration of the trial it was learned.
The home of Waite Clark, former Pawnee County attorney, has been borrowed by Federal Judge Franklin L. E. Kennamer father of the 19-year-old defendant.
Clark is a resident of Bartlesville now and his home has stood unoccupied for some time, only half furnished. Additional furnishings were borrowed and the place made habitable.
The household will consist of Judge Kennamer his two daughters, Mrs. Russell Hayes and Mrs. Opal Kennamer of Tulsa, and possibly Mrs. Kennamer and another son, Franklin Jr., an Oklahoma City lawyer. Whether Mrs. Kennamer goes to Pawnee is understood to depend entirely on her health. She has been an invalid for six months. A Flint Moss, defense attorney, said it was unlikely she would be well enough to start the trip or to testify for her son.

ENGINEER HERE

Joe Ward, member of the engineering firm of Montgomery and Ward, Wichita Falls, transacted business here Saturday.

A powerful line may be shocking.

Tulsa Murder Trial Mystery Deepened by Younger Set's Thrill Escapades

Accused of a murder around which a fabric of weird mystery has been woven, Philip Kennamer, 19, left, son of Federal Judge F. E. Kennamer, of Tulsa, Okla., will go on trial contending that he accidentally killed John Gorrell, Jr. Back of the tragedy is a bizarre story of the Tulsa younger set, with too much oil money, striving for new thrills. Vague tales are told of youthful crime

cliques, holdups, kidnap and extortion threats and terror rings, of pampered youths at orgies in shady dives. Scores of the younger wealthy set were questioned after the killing and the mystery then was deepened when Sidney Born, Jr., shown lower right, was found shot to death in his car, apparently a suicide. Born was a close friend of Kennamer.

Gorrell, shown at extreme right, son of a prominent Tulsa man, plotted to extort \$20,000 from H. F. Wilcox, oil magnate, under threat to kidnap his beautiful daughter, Virginia. 19, shown above, Kennamer alleges. Gorrell wrote the extortion note and gave it to Kennamer to mail, according to the prisoner's story. A few nights later, as the pair rode in a fashionable section of Tulsa,

Kennamer says he told Gorrell that he did not mail the letter and was keeping it to foil the plot. He declares that Gorrell then tried to shoot him and, in the struggle for the gun, Gorrell was killed, the body being found in the car the same night, the gun by its side, as shown in the picture above. Kennamer, in jail, scoffed at an insanity defense.

CALL FOR UNITED ACTION

It is to be hoped that President Roosevelt's letter to the 48 state governors urging immediate action to reduce automobile fatalities will be productive of concrete results.

It should not be necessary to say anything further about the extreme urgency of the problem. We are killing people with our autos at the rate of 35,000 a year—a record appalling beyond words.

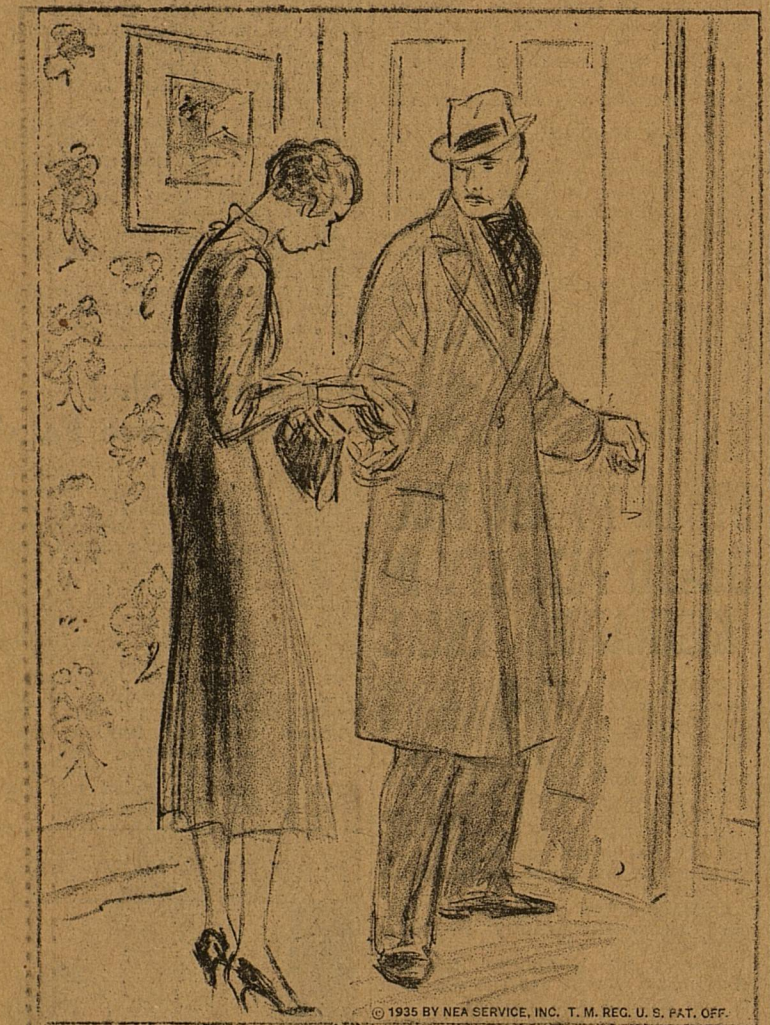

Something drastic needs to be done, and concerted action by the states is about the only possibility.

As the president points out, proposals for uniform state legislation have been worked out by safety experts in co-operation with state officials.

There is pretty general agreement as to advisability of certain measures. The states should act, and act promptly. Here is a reform which needs immediate attention.

The end will come when a congressional committee is appointed to investigate the activities of a congressional committee.

The Town Quack

(Reserves the right to "quack" about anything without taking a stand on anything).

"Yo' ain't in de army ob de Lord; yo's in de navy."

A longly traveler on horseback, riding through a dreary section of the Dakotas during last summer's drouth, eagerly scanned the horizon for some signs of human habitation. At last away in the distance he spied a cabin, put his horse to a trot, only to find the house deserted. Nailed on the front door was a sheet of paper on which he read the following pathetic story:

4 miles from water.
 10 miles from timber.
 20 miles from a neighbor.
 30 miles from a post office.
 75 from a railroad.
GOD BLESS OUR HOME!

A company of tourists were traveling in Switzerland, and they went to buy tickets for the coach ride up the mountain. The American man of course bought a first-class ticket, but he noticed that all the rest got second and third class, and they all got into the coach with him. He said to the driver, "What advantage is there in paying for a first-class ticket when holders of second and third class tickets have precisely the same accommodations?" The driver said, "You just wait while and you will see." So by and by they came to a steep hill and the driver called out, "First class passengers will keep their seats; second class passengers will get out and walk; third class passengers will get out and push."

Mrs. Brown: "She told me that you told her the secret I told you not to tell her."

Mrs. Green: "Why, the mean thing! I told her not to tell you I told her."

Mrs. Brown: "Well, don't tell her that I told you she told me."

Hiram: "Yes, I've seen a few bad crop years in my time, too. One year our eating beans were so poor that the crop didn't even pay for the string."

Slas: "That's nothing, H. In 1914 our corn crop was so bad that my old dad, who had a very poor appetite, ate up fourteen acres of corn at a single meal."

NOTICE TO BIDDERS

The commissioners' court of Midland County, Texas, will, at the regular February term of said Court to be held at the Court House in the town of Midland County, Texas, on the 11th day of February, A. D. 1935, same being the second Monday of said month, at 10:00 o'clock A. M. receive proposals from any banking corporation, association, or any individual banker, in Midland County, Texas, that may desire to be selected as the depository of the funds of said County, and as the depository for trust funds in the possession of the County and District Clerks of Midland County, Texas, for the ensuing two years, as prescribed by law.

Any such bank corporation, association or individual banker, in said County desiring to bid shall observe the following laws, to-wit:

(a) Said bidder, desiring to be selected as the depository of the funds of said County, shall deliver to the County Judge, on or before the first day of the said term of Commissioners' Court, a sealed proposal stating the rate of interest offered on the funds of the County for the term between the date on such bid and the next regular time for the selection of a depository. Said bid shall be accompanied by a certified check for not less than one-half of one per cent of the county revenue of the preceding year as a guarantee of the good faith on the part of the bidder, and that if his bid is accepted, he will enter into the bond hereinafter accepted.

(b) Said bidder, desiring to be selected as the depository of trust funds in hands of the County and District Clerks, shall file a sealed proposal with the County Clerk on or before ten o'clock A. M. on the first day of the said term of Commissioners' Court. The proposals submitted shall state the rate of interest offered on average daily deposits of the said trust funds for the term between the date of the bid and the selection of another depository. Said bid shall be accompanied by a certified check for not less than one-half of one per cent of the balances of the amount of trust funds in the possession of said clerks during the preceding calendar year, which amount shall be determined by the County Clerk on or before ten days before the bids herein provided for are filed. Said certified check shall be a guarantee of the good faith on the part of the bidder, and that if his or its bid is accepted the bond hereinafter provided for will be entered into.

Gelatine Is Hailed As Healthful Help In Meal Planning

By MARY E. DAGUE
 NEA Service Staff Writer

It's no wonder that gelatine desserts have become so popular as pies and as varied as puddings. There's almost nothing gelatine can't do in the way of solving the housewife's dilemma.

One of my good friends, for instance, relies on it to appease her children's sweet tooth. Points out that it provides sweetness in a not too concentrated form and with the healthful accompaniment of fruits.

For myself, in common with millions of women, I think it is a tremendous boon in simplifying the preparation of vexing meals, since it can be gotten out of the way in a hurry if need be.

About the only time it shouldn't be served is when the meal includes fish or veal. Both veal and fish contain gelatinous substances themselves.

The combinations of gelatine flavors and fruits are endless, for not only are the prepared gelatines excellent but you can make your own by adding pure granulated gelatine to fruit juice.

Add Fruit When It Thickens

When fruit is added to a jelly wait until the jelly begins to set. Otherwise the fruit will float to the top.

If you want to line a mold with jelly and fruits in a special arrangement, chill the mold thoroughly and cool the jelly.

While still liquid, put a little in the cold mold and turn until the surface is covered. The mold must be very cold to set the jelly quickly. For a thin film of jelly in a quart mold about one cup of liquid is needed. For a thicker layer, repeat the process after the first layer has set.

To place fruit in the lined mold, dip each piece in jelly. Place it and pour in a few tablespoons of cool jelly to hold it in place. Because the jelly is transparent, it's quite important to arrange the fruit neatly.

Alternate Layers May Be Made

An easier way to make an attractive mold is to alternate layers of fruit and jelly. Pour in a layer of gelatine and place on ice to make it set. Add fruit, and then a layer of cold jelly, letting each layer become firm before adding another.

Here is a recipe for Pineapple Louise—just the thing to serve with a roast pork dinner. The white of the bananas and the red of the cherries gleam through the clear pineapple jelly to delight everyone.

Pineapple Louise

One package pineapple flavor gelatine, 1 cup boiling water, 1 cup cold water, 1-2 cup canned cherries, 1 banana.

Dissolve gelatine in boiling water. Add cold water and chill until it begins to thicken. Then line mold or add fruits and turn into mold and let stand on ice to chill and become firm. Serve with whipped cream or custard sauce.

If you serve this dessert after roast pork, the custard sauce may appeal to you because it is not as rich as the whipped cream.

Custard Sauce

Two cups milk, 3 eggs (yolks), 1-3 cup granulated sugar, few grains salt, 1-2 teaspoon vanilla.

Scald milk in top of double boiler. Beat egg yolks slightly with sugar and salt. Add milk slowly, stirring while adding the hot milk. Be sure the sugar dissolves as the milk is added. Cook over hot water, stirring constantly, until mixture thickens slightly and a coating is formed on the spoon. If not perfectly smooth, strain through a fine wire strainer. Chill and flavor.

If cooked too long the custard will separate. Should this happen, beat hard with a Dover beater. This will make the custard smooth but it will be thinner than if it had not curdled.

Aged Armadillo Is Caught on Caprock

LUBBOCK, (AP).—An armadillo that had wandered from its native heath to the top of the caprock was captured recently in Blanco canyon, south of Crosbyton, by W. B. Bogard, a Lubbock man who was driving in the canyon.

The armored quadruped, a male apparently well along in years, was easily captured although Mr. Bogard said it resisted for a few minutes.

Armadillos are not unknown in this section, Mr. Bogard said. The captive had a tail 15 to 18 inches long and a body probably as long. It weighed 14 or 15 pounds.

FORMER PLATERS AFTER SANTA ANITA'S \$100,000 PURSE

TED CLARK, TOP ROW HAVE CHANCE AT RICH STAKE

By MAX RIDDLE
NEA Service Staff Writer
LOS ANGELES, Feb. 9.—A former plater may win the \$100,000 Santa Anita Handicap on Feb. 23. Top Row is one. The son of Pennant established a new world record of 1:40 for the mile and a sixteenth at Bay Meadows, hard on San Francisco, in December.

Ted Clark is another. The son of Chatterton has been breaking track marks in Texas and California.

Top Row, claimed at Narragansett Park last summer by Albert A. Baroni of Reno for \$3500, has developed into one of the country's leading handicap horses. He is the biggest threat of the two in the richest race to be run since Which One annexed a \$105,000 Belmont Futurity in 1929.

Ted Clark was taken out of a claiming race at the Fair Grounds in New Orleans last fall by Dr. C. C. Mooney, Toronto surgeon, for \$1500.

As the big race approaches, the chances of the two ex-platers appear rosier. Twenty Grand already has succumbed to the rigors of training, and who can guarantee the appearance of either Calvalcade or Equipoise?

Faireno is not in top shape. Mate and Gusto are still below form. Head Play looks done for. Other entries do not appear to be in tiptop condition.

Anything Can Happen
Time supply, and the fast fillies, High Glee and Jabot, undoubtedly are superior to Top Row and Ted Clark, but you can't tell what is going to happen when such a fine field lines up.

Top Row started breaking track records in New England, and has continued his winning ways in the far west.

The handicapper has allotted Ted Clark the featherweight of 100 pounds and even Calvalcade and Equipoise might find it difficult to concede him 29 and 30 pounds respectively, and trip him.

Top Row came from behind to beat Azucar for third place in back of Jabot and Riskulus as the 4-year-old filly set a new mile and one-sixteenth track record at Santa Anita Park in winning the San Carlos Handicap from 13 of America's leading state horses on Feb. 21. Jabot's time was 1:42 4-5. Bobby Robertson rated Jabot carefully right behind Ted Clark as the latter set the pace for six furlongs.

Owner Has Faith
Dr. Mooney, who is here to see Ted Clark run in the \$100,000 Santa Anita, was offered a considerable sum by a motion picture actor who wanted to have an entry in the important number.

"I refused because I believe that Ted will win," asserted Dr. Mooney. "He is in with only 100 pounds. That means that the favorites will be giving him from 20 to 30 pounds. I feel sure he can take them even though he has never gone the mile and a quarter."

Ted Clark was raced at the Fair Grounds in New Orleans by the clever Clyde Van Dusen. The son of Chatterton was entered in claiming races but failed to do anything. One day late in the meet he was claimed by C. A. Marone, who acted for Dr. Mooney. The latter is a novice in the business but he liked the looks of the thoroughbred.

On the last day of the meeting he entered Ted Clark with horses he felt sure the animal could beat.

By post time Dr. Mooney had driven the odds down from 50 to 15 to 1 by laying a sizeable bet on his horse. Ted Clark romped in and Dr. Mooney cleaned up a small fortune.

It was then that Dr. Mooney and Marone decided that Ted Clark was too good to risk in claiming races.

Top Row, after and while establishing a new world record of 1:43 for the mile and a sixteenth at Bay Meadows in December.

Cigarette Sales Set High Record

NEW YORK.—Cigarette consumption in 1934 set a new all-time high, with sales of about 125,000,000,000 cigarettes, according to a survey by Standard Statistics Co. Only slight percentage variations were noted in sales of the three leading popular brands.

Sales of the Liggett & Myers product totaled about 34,500,000,000; Reynolds Tobacco, 33,600,000,000; and American Tobacco, 33,000,000,000.

The trend of cigarette sales as a whole from 1929 is shown in the review as follows (in billions of cigarettes): 1929, 119; 1930, 119.5; 1931, 113.5; 1932, 103.5; 1933, 113.8; and 1934, 125.

Small bottles of perfume, with directions for mixing for various odors, are being sold in Paris.

The outstanding amateur golfer of 1934 was W. Lawson Little, right, who won the British and American amateur tournaments. Little was the first to turn this feat since Bobby Jones recorded the double in 1930. Left, above, is Virginia Van Wie, Chicago golfer, who won the women's national crown for the third time. Below is Olin Dutra, who copped the National Open at Ardmore, Pa. and who climaxed his 1934 performance by winning in the "bomber" division of the Miami-Biltmore.

Watchers of the Legislature Are Ready for Action

AUSTIN, Feb. 6. (P).—Watchers at the legislative show are beginning to wonder when the "honeymoon" period will be over and the fireworks start.

The current regular session, except for the first day when the House was embroiled in the bitter speaker-ship race, has been devoid of anything resembling the spectacular clashes that marked the sessions of the "Fighting 43rd." There have been a few minor personal exchanges but generally proceedings in both houses have been mostly dull and quiet.

There is a feeling that when the storm breaks it will be far reaching and members of the legislature and interested spectators are speculating which of several explosive proposals may lose it.

Will it come over the administration's plan to force through its drastic public utilities regulation bill?

Will it develop when the legislature begins the serious consideration of the bill to repeal pari-mutuel wagering on horse races?

Will the sparks flying from the anticipated controversy over submission of prohibition repeal and control over liquor start it?

All are proposals on which opinion is sharply divided and on which most members have deeply rooted convictions.

It is possible that none of the expected acrimonious discussions will center around any of these propositions. It may be set off by some

seemingly inconsequential bill. Out of the mass of legislation pending on calendars of both houses there promptly is some piece of proposed legislation that will start the ball rolling in a big way.

The immediate outlook is that relations between the House and Senate may be further breached.

For years the House has regarded itself the last bulwark of a harassed Democracy and House members during the heat of debate have said harsh things about their colleagues across the hall. On occasions Senate members have likewise expressed themselves concerning House opinions on certain propositions.

The House opened the way for a major clash with the Senate early in the session by adopting a resolution calling for appointment of a committee to inquire into sources of income and employment of members of the legislature. The resolution contained statements highly objectionable to a group of senators and they demand a showdown on the assertions.

ber 15, 1933, and operated for about a month. It was reopened last June 18 and had been in almost continuous operation since.

Relief Cannery at Amarillo Is Closed

AMARILLO. (P).—After processing nearly 4,000,000 cans of beef, the Amarillo relief cannery has closed.

All of 800 Potter county relief clients who are working out their budgetary allowances in the cannery plant will be given jobs on other relief projects, A. A. Meredith, county relief administrator, said.

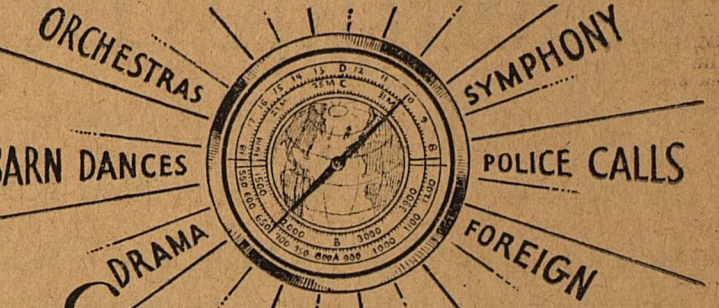

Twenty-five sewing machines will be added to the county sewing room to provide places for women who had been working at the cannery, Meredith said.

The plant was opened Decem-

KID'S PAL IS DEAD
FT. SUMNER, N. M. (P).—Vicente Otero, early day Indian fighter, and an eye-witness to many of the escapades of Billy the Kid, youthful gun fighter of frontier days, died after an illness of many months at a reputed age of 105 years.

His body is a mass of scars from arrow, knife and bullet wounds.

Mr. Otero is reputed to have dug the grave for the body of Billy the Kid after he was killed here by Sheriff Pat Garrett.

Watch the Fords Go By

"Five Thousand More Since Yesterday"

EVERY working day, more than five thousand New Ford V-8's roll off the assembly line and into the service of Ford owners.

It has been a long time since people have taken to a new car the way they have taken to the New Ford V-8.

Ford production in January was upwards of 100,000 units. For February it is set at 130,000. There haven't been figures like that since 1930.

That means jobs and wages for increasing thousands of automobile workers. Ford employment in the United States is more than 114,000—over 74,000 at Dearborn and 40,000 in Ford plants throughout the country.

This activity reaches out to many hundreds of thousands of men in allied industries. They are busy when Ford is busy.

The story of the Ford V-8 is one of progress. Before it came along the V-8 cylinder engine was always associated with high price. It was beyond the reach of the average motorist.

The Ford Motor Company believed this was "the coming car for the majority of drivers." It set to work to build it at low cost. When you give the people something better there's never any question about sales.

It is interesting to note that more than 1,400,000 Ford V-8 cars and trucks have been built in the last three years. Each year has seen a sharp increase—the V-8 production in 1934 being approximately 103% ahead of 1933.

More important than sales, however, is service to owners. What the car does on the road is what counts. Actual use is the true test of an automobile. It has proved that the Ford V-8 engine has distinct advantages in performance and that it is economical too. Fact is, the Ford V-8 costs less per mile than any other Ford ever built. Cost records of owners show that to be so.

Valentine Bridge Luncheon Focus Week's Social Affairs

Mrs. F. F. Winger and Mrs. T. B. Flood
Entertain at Hotel Scharbauer on
Saturday with Gaily-Appointed Party

Valentine affairs for the week were climaxed by a thirteen table bridge luncheon given by Mrs. F. F. Winger and Mrs. T. B. Flood on the mezzanine floor of the Hotel Scharbauer Saturday.

A Valentine menu with heart-shaped cakes and minis was served at luncheon.

For the afternoon games, card tables bore red covers and frilled Valentine tatted with heart-shaped score pads further bore out the chosen decorative theme. Centering each table was a hobnail glass jar filled with candy and wrapped in red cellophane. These jars were table cut prizes.

Mrs. L. G. Lewis won high score and was presented with Madeira pillow cases. Mrs. S. R. Self scored low and was awarded with a Chinese chest containing decks of playing cards.

Valentine Party Honors Lucky Thirteen Club

Among Valentine parties for the week was that given in courtesy to members of the Lucky Thirteen club at the home of Mrs. H. S. Collings, 609 S. Colorado, Friday afternoon.

Club guests were Mmes. Waldo Leggett, Ira C. Pratt, and T. E. Neely.

Valentine tallies and score pads carried out the favored motif as did the red covers on the card tables.

Three tables of progressive 42 furnished entertainment for the afternoon, with Mrs. T. E. Neely holding high score at the end of the games.

Valentine colors were featured in the refreshment plate served at the conclusion of play. Red heart-shaped candies were plate favors.

Club members present were: Mmes. J. C. Hudman, W. N. Cole, Ellis, Conner, G. H. Hallow, W. G. Riddle, B. M. Hays, S. P. Hall, Kirby Sims, Jno. P. Howe, and the hostess.

Only once does the word "girl" appear in the Bible. The one instance occurs in Joel, 3:3.

County Home Demonstration Women Work on Recipe Files, Meet Saturday

A meeting of wardrobe demonstrators in the assembly room of the courthouse and a series of club meetings for both girls and women furnished interest in home demonstration work for the week. Recipe files were worked on as the February project.

WARDROBE DEMONSTRATORS MEET ON SATURDAY

All women's clubs in the county were represented at the meeting of wardrobe demonstrators held in the assembly room Saturday morning.

Demonstrators of class I attending were: Mmes. Henry Locklar, C. C. Brunson, V. H. Heidelberg, A. L. Hallman, W. E. Pigg and Miss Ora Robinson.

Demonstrators of class II were: Mmes. S. D. Wimberly and Floyd Countiss, Jr.

The meeting was occupied with the checking of clothing expenditure, number and cost of garments made, value, and help given others. Individual records were checked by Miss Miller.

BUSY BEE CLUB GIVES SHOWER

Mrs. Leonard Hallman was hostess at a business session of the Busy Bee club Friday.

Miss Myrtle Miller gave a demonstration on recipe files, and a pantry demonstrator for 1935 was enrolled.

A surprise shower was given in honor of Mrs. Donovan Gwyn, a recent bride.

At the close of the afternoon, the hostess assisted by Mrs. V. R. Drake, served Valentine refreshments to Mmes. A. L. Hallman, S. H. Gwyn, Donovan Gwyn, T. H. Gill, P. P. Barber, O. M. Tyner, V. R. Drake, S. D. Wimberly, G. C. Driver, and C. C. Carden.

GOLD STAR CLUB WITH MISSES CAMPBELL

Meeting at the home of Misses Elsie, Clara, and Viola Campbell Thursday afternoon, members of the Gold Star club made recipe files under the instruction of Miss Myrtle Miller. Year books were distributed and filled out.

Nine members, three new members, and one visitor were present.

After the business session, refreshments were served to Mmes. Henry Locklar, W. B. Franklin, Floyd Countiss, Sr., Floyd Countiss, Jr., Bill Countiss, J. E. Brown, G. C. Merritt, J. E. Crowley, L. B. Dainey, Bill Locklar, Miss Miller, and the hostesses.

The next meeting will be held with Mrs. Bill Countiss, Feb. 21.

MRS. HUDSON HOSTESS TO WILLING WORKERS

The willing workers home demonstration club met Tuesday with Mrs. W. F. Hudson.

Miss Myrtle Miller, home demonstration agent, gave a demonstration on recipe files.

Present were: Mmes. J. E. Wallace, S. Lewellen, Maddison, W. S. Hudson, Earl Pain, Miss Miller and the hostess.

The club adjourned to meet again Feb. 19 with Mrs. Lewellen.

COUNCIL MEMBERS MEET SATURDAY

The home demonstration council met in the assembly room of the courthouse Saturday afternoon at 2:30 o'clock.

Mrs. W. E. Pigg resigned as chairman of the council and Miss Viola Campbell, vice chairman, took her place.

Mrs. W. A. Eason was elected vice chairman.

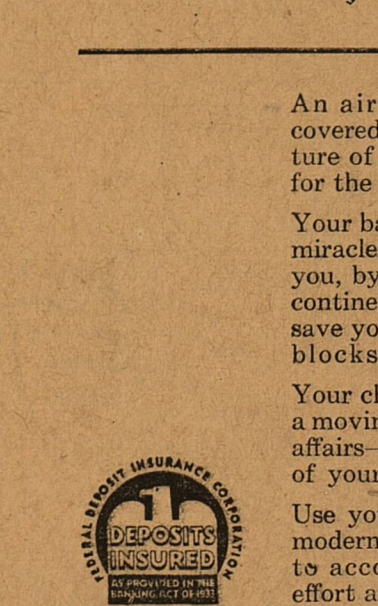

Mrs. Henry Locklar was appointed chairman of the luncheon committee to serve the Rotary lunch on Tuesday.

Instruction on keeping secretary records was given council members.

Hair brushes should be washed in cold water to which a little ammonia has been added.

Your bank also performs its daily miracles. For example, it enables you, by check, to reach across the continent with your pen, or to save yourself the trouble of a few blocks walk in paying bills.

Your checking account gives you a moving picture of your financial affairs—the latest accurate news of your important expenditures.

Use your checking account as a modern convenience to help you to accomplish more with less effort and expense.

Market Active on Cattle at Angelo

SAN ANGELO, (AP)—The cattle market remains the bright spot of the ranching industry with range steers selling readily at 6 cents a pound and two-year-old fed steers on the St. Joseph, Mo. market at \$11 per hundred. These had been on feed six months and brought \$133 per head.

The Bar S ranch of Barnhart sold 700 two-year-olds to northern buyers at six cents, immediate delivery.

Claude Linthicum bought 600 two and three-year-olds in Menard county. Prices for the mixed calves for spring delivery ranged from 5 to 5 1/2 cents, for the steers 5 to 6 cents, most of them to be taken May 1. He will put some on grass in Oklahoma and Kansas and move others to South Texas.

Alvin Neal, ranchman and order buyer, purchased 700 aged steers from Hills Session of Brady and 300 coming three- and four-year-olds from McMillan Brothers of Mason at around 6 cents. They will go to Iowa feeders, half of them moving now and the others in May.

San Marcos Buyers Get Big Seed Order

SAN MARCOS, (AP)—Three San Marcos and Martindale breeders sold one of the largest orders of planting cotton seed ever received from one community here when a committee from Childress ordered 26 carloads of planting seed recently.

ly, valued at about \$37,700. Each ear contains about 1,000 bushels.

W. W. Bagley & Sons, Martindale Clett Cotton breeding farms and Ed. Kasch, San Marcos, made the sale after seed from this section had been tentatively selected at a meeting at Childress when breeders from all over Texas submitted bids.

The Childress delegation was headed by Jerry V. Debenport, manager of the chamber of commerce, E. M. Lyde, W. H. Alexander, W. H. Krigbaum, C. H. Alverson, and Vernon E. Hafner.

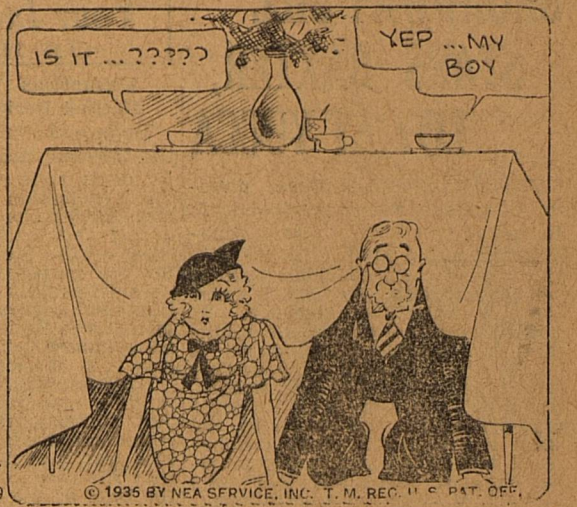

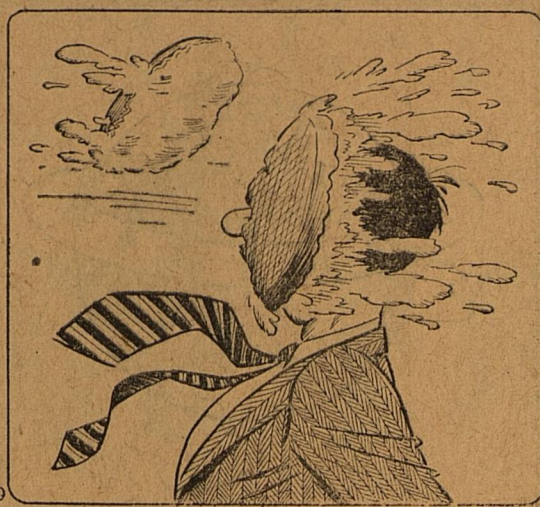

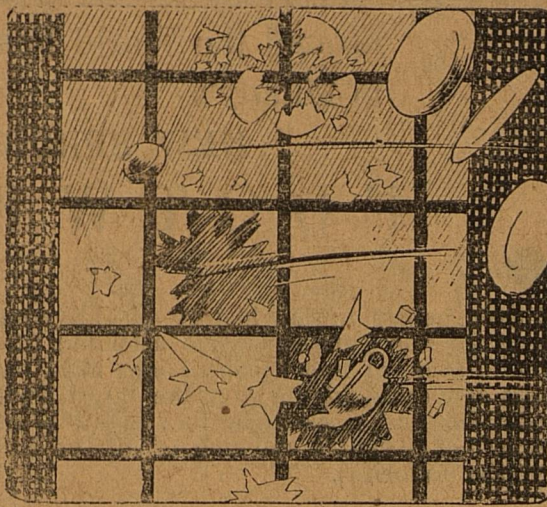

Advertising Made Gains During 1934

NEW YORK.—During 1934, advertising spent about \$490,000,000 for space in American daily newspapers, according to an estimate made from returns from 52 cities, appearing in Editor and Publisher, a newspaper and advertising publication.

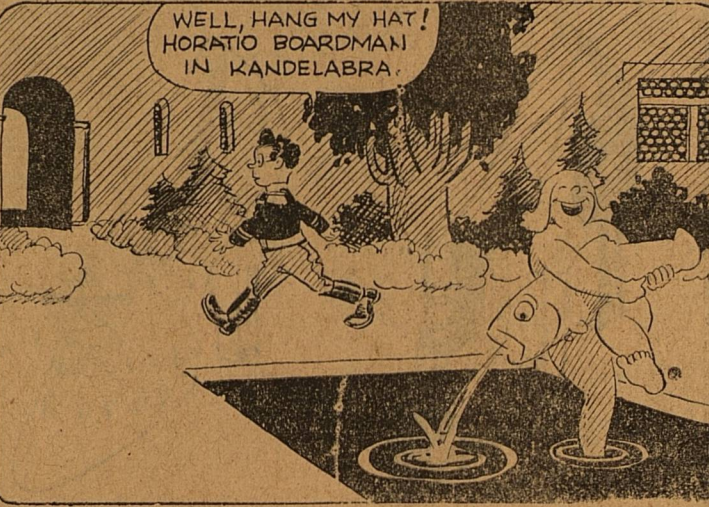

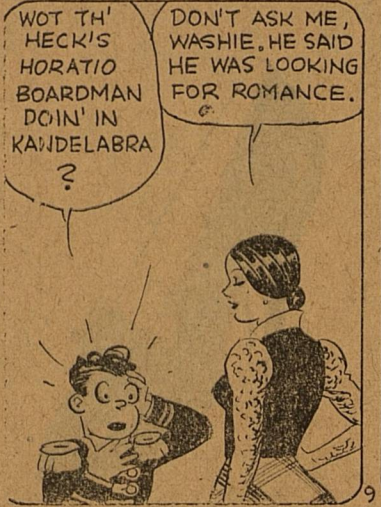

The lineage figure for the year showed a gain of 10.6 percent over 1933, and 1.2 percent over 1932. They were 37.9 percent below 1928, the peak year in newspaper advertising. For the last 15 months, according to the article, each month's lineage has been greater than that for the corresponding month of the previous year.

The Editor and Publisher's lineage index shows that advertising volume mounted steadily for the first 8 months last year. Then it dropped and wavered within a narrow range until October, when it rose from 88.1 to 94.4 in November, and 97.1 in December.

BROADWAY BILL STARS BAXTER, LOY AT YUCCA

The amazing Frank Capra, director of "Lady For a Day" and "It Happened One Night," has undoubtedly surpassed all his former glories in his newest Columbia comedy sensation, "Broadway Bill," now showing at the Yucca Theatre.

With uncanny genius, the inimitable Mr. Capra has produced a beautifully human and appealing screen romance that is sheer delight. Based on a story by Mark Hellinger and written for the screen by the same Robert Riskin who collaborated with Capra on his two previous successes, "Broadway Bill" sets a standard in screen entertainment that will not easily be reached.

No little of the film's superb qualities can be attributed to the splendid performances registered by Warner Baxter and Myrna Loy in the two starring roles. Baxter's "Dan Brooks" is his finest screen characterization since the Cisco Kid in "In Old Arizona." Myrna Loy is a delightful revelation, a new and greater screen personality. Together as a romantic team, both Baxter and Loy are near perfect.

PRESENT JR. PLAY MONDAY EVENING

"Be Yourself," a three-act comedy will be presented by the Junior class at the High School auditorium Monday night at 7:30 o'clock.

Proceeds of the play will be used to finance the annual Junior-Senior banquet.

The entire action of the play, running the gamut of comedy, drama, and love interest, takes place within twenty-four hours in a vacated apartment in a New York City apartment house. The time is the present and characters are modern, even to the Prince and Princess who have come to America.

The cast of characters in order of appearance follows:

Bing Warren, bell-boy and would-be detective—C. A. Smith.

Mrs. Patricia Ballard, eccentric tenant—Mary Howe.

Beulah Ballard, her "baby" daughter—Marceline Wyatt.

Leslie Ferris, interior decorator—Betty Minter.

Beverly Lane, seamstress—Marcelle Scarborough.

Mrs. Hendricks, tenant in same apartment house—Christine Pat.

Anna Karova, wife to Prince Luvorne—Jane Dunagan.

Leslie Prince, newspaper man—Frank Cowden.

Madam Francis, landlady—Jane Marie Johnson.

Arnold Ford, fiance to Leslie—Sam Midkiff.

Prince Luvorne, the new tenant—Robert Prothro.

Because foreign racing cars generally have a lower gasoline consumption than American cars, it is believed that many European drivers will enter the next 500-mile Indianapolis race due to the fact that the gasoline limit has been reduced from 45 gallons to 42½ gallons.

Your Income Tax (CLIP THIS DAILY)

Exemptions Allowed Couples Married During Taxable Year

Taxpayers should note that under the Revenue Act of 1934 the credit for dependents as well as the personal exemption is required to be met where a change of status occurs during the taxable year and that these credits are allowable not only for the purpose of computing the normal tax but also the surtax. A fractional part of a month is to be disregarded unless it amounts to more than a half a month in which case it is considered a month.

For example, a single man and a single woman who were married on July 20, 1934, and were living together on the last day of the taxable year, may file a joint return. If they file their return or returns on the basis of the calendar year, they would be entitled to a personal exemption of \$2,083.34, which is seven-twelfths of \$1,000 for the husband and one-twelfth for the wife. If, however, for the period of their marriage any exemption to which either might be entitled as the head of a family would be merged in the joint personal exemption for that period. The joint personal exemption allowable in the case of a couple who were married and living together during the entire year may not exceed \$2,500.

If a child under 18 years of age and dependent on the parent for support reaches the age of 18 years during the taxable year, the credit of \$400 for a dependent is required to be prorated in the same manner as the personal exemption. For example, should the child's eighteenth birthday fall on June 30, the parent would be entitled to claim \$200 credit for the dependent child—that is, one-half of \$400. The same rule applies to other dependents where a change of status occurs during the taxable year.

Girl Scouts Meet Saturday Afternoon

Two meetings for Girl Scouts were held in the American Legion hall in the Petroleum building under the leadership of Mrs. R. W. Lawrence and Mrs. R. H. Hill, Saturday afternoon.

Younger girls eligible for Girl Scout work held their meeting from 2 o'clock until 3 o'clock, while girls of junior high school and high school age met from 3 o'clock until 4 o'clock.

Actual work in knot tying under the direction of Elizabeth Payne was begun as was the study of tenderfoot requirements.

Completions--

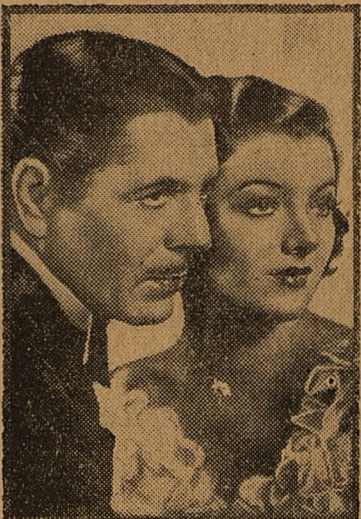

(Continued from page 1)

4,350 feet after a shot of 330 quarts from 4,150-4,333 feet. Location 690 feet from the north and east lines of section 27, block 43, township 1 north, T. & P. Railway survey.

The north offset to the well, No. 15 J. M. Cowden, is drilling below 2,971 feet, and the northeast offset, same company's No. 1 Mrs. T. E. Roberts, is down about 300 feet. Across the three-quarter mile vacant strip northward, Amerada No. 1 Holt is cleaning and swabbing, having made as much as 136 barrels in three hours of swabbing and at the south end of the pool, Atlantic No. 1 Kloh is drilling below 3,975 feet in limestone, indicating a decision on it within a week of two.

Harrison No. 2-A Addis, in the pool just west of Odessa, was accredited a potential of 434 barrels per day after shot, from total depth of 4,038 feet. Location is 641 feet from the north line and 2,029 feet from the west line of section 35, block 43, township 2 south, T. & P.

Together Again

Warner Baxter and Myrna Loy in "Broadway Bill" at the Yucca today.

Railway survey.

International Petroleum Company No. 1 Cowden, first test of a drilling program in the Harper area between Addis and Connell pools, is underreaming 10 inch pipe at 1,140 feet, with total depth at 1,345 feet.

Phillips No. 1 Schabauer, northwest extension of the Connell pool, is drilling below 1,400 feet in salt. One of the dry and abandoned operations of the week was Gulf Production Company No. 1 Wright, wildcat 330 feet from the south and east lines of section 20, block 40, public school land, eastern Winkler county, which drilled to total depth of 2,757 feet, where the formation of anhydrite and red rock showed the well low.

Southern Ward county received a completion in the California Company No. 16 York, 990 feet from the southeast and 2,310 feet from the northeast lines of section 10, block 34, H. & T. C. Railway survey. Total depth was 2,531 feet, and initial production 331 barrels daily.

In Crane county, S. S. Strauss No. 1 Phelps was abandoned as a failure at total depth of 1,983 feet when 1,800 feet of sulphur water rose in the hole. Location of the well was 2,113 feet from the north-east and 713 feet from the north-west lines of section 13, block 31, H. & T. C. Railway survey, a wildcat area in the southeastern corner of the county.

Gulf Production Company completed No. 13 Crier-McElroy for 2,742 barrels daily in western Upton county, location being in the center of the southeast quarter of section 198, block B, and in southern Upton county, 1,650 feet from the north line and 330 feet from the west line of section 32, block 1, M. K. & T. Railway survey, Texas Pacific Coal & Oil Company No. 1-B Lane was completed for 379 barrels daily on pump.

Howard county completions numbered two, Bond Drilling Company No. 5 Denman and Humble No. 9 Settles. The former, in the Denman pool, is 1,650 feet from the north line and 330 feet from the east line of section 13, block 30, township 1 south, T. & P. Railway survey, and has a pump potential of 435 barrels daily. The Humble completion is 1,980 feet from the east line and 1,330 feet from the south line of section 132, block 29, W. & N. W. Railway survey, Howard-Glasscock pool. Initial production was gauged at 794 barrels in 24 hours on pump.

The two wildcat locations of the week will both be of interest. One is Siosi Oil Corporation, an Indiana concern, No. 1 J. C. Levett, 330 feet from the north and east lines of section 36, block 26, public school land, Winkler county. This location is just west of the town of Kermit and about a mile north of Maxwell No. 1 Clapp, wildcat which is showing considerable sulphur water. Drilling objective is sand production comparable to that of the Sayre area to the north or the Halley wells to the south, and possibly like that of the Fox-Butler No. 1 Brown Allman which is about two miles southeast and which was last reported drilling at 2,970 feet in a new hole sidetracking liner and took logs in the original bore after production of unknown amount was encountered at 3,095 feet.

The other wildcat is Mason Oil Company No. 1 Minnie Kyle, 1,990 feet from the south and east lines of section 22, block 55, township 1 south, T. & P. Railway survey, Loving county. Delaware sand production is the objective.

Other announced locations of the week are either in or close by fields, and are:

Ector County, Sinclair Prairie No. 1 University, 330 feet from the north and west lines of the south half of section 3, block 35, university land. This is at the south end of the Connell pool, a southeast offset to the recently completed Shell No. 1 Connell.

Ward County, W. A. Black and sons No. 2 Gordon, 990 feet from the northeast and 330 feet from the northwest lines of section 6, block 34, H. & T. C. Railway survey; and Jerry Sines No. 1 S. M. Brown, 330 feet from the northwest and northeast lines of section 13, block 5, same survey. Both are in the southern Ward pool area.

Upton County, Texas-Pacific Coal and Oil Company No. 6-D Shirk, 330 feet from the east line and 2,310 feet from the south line of section 35, and Theobald Oil Company No. 1 J. P. Lane, 6,800 foot east offset to No. 1 Lane, in section 36, block 1, M. K. & T. Railway survey. Both are in the southern part of the county.

Howard County, Sinclair Prairie No. 2-B Denman, 990 feet from the north and east lines of section 10, block 30, township 1 south, T. & P. Railway survey; and Iron Mountain No. 2 Reed, 990 feet from the east line and 330 feet from the south line of section 46, block 30, township 1 south, T. & P. Railway survey.

Mitchell County, Dodgion et al. No. 1 Foster Fee, 800 feet from the north line and 1,680 feet from the west line of section 45, block 29, township 1 north, T. & P. Railway survey.

At regular intervals insulation should be cleaned of all grease and oil.

Among the new mechanical developments found for the first time in 1935 automobile engines is a new bearing metal made of an alloy of cadmium and pure silver.

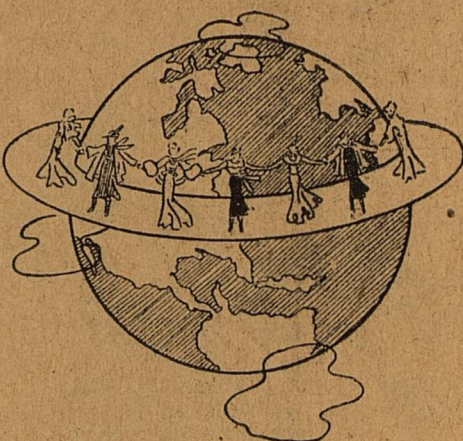

There has been a decided swing in Australia from British to American and Canadian cars during the last year, due principally to the altered exchange situation and to the attractiveness of the new American cars.

NEW SPRING FOOTWEAR

Never before in the history of this concern have we had such a large and comprehensive selection of desirable footwear . . . 3,000 pairs of new Spring Shoes have been put into stock in the last ten days, giving you the latest styles and widest range of patterns and sizes to be had in all West Texas. Lack of space does not permit a showing of all the styles. Here are seventeen of the favorites.

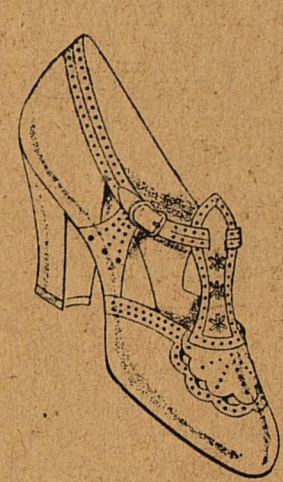

Here is our most daring creation, a soft crushed kid in parchment with brown French calf, perforated for coolness; stacked leather heel, a very clever shoe. All sizes. **\$5.00**

This smart spectators sport tie, featuring the new, full toe, promised to be the season's leading number; done in dark navy blue or white; full kid lined. Sizes 3½ to 8, as narrow as AAA **\$5.00**

A fashionable pump with plain lines, riding high over the instep, with dainty shoe lace leather bow; comes in a soft, dull black **\$5.00**

This charming and unusual shoe in a soft white kid, made decidedly chic and practical by its low Cuban heel and wide T strap; full leather lined; all sizes. **\$5.00**

This lovely pattern in an all-over navy kid makes a most adorable shoe for semi-sport or dress wear. Sizes 4 to 9. AAAA to B. **\$6.00**

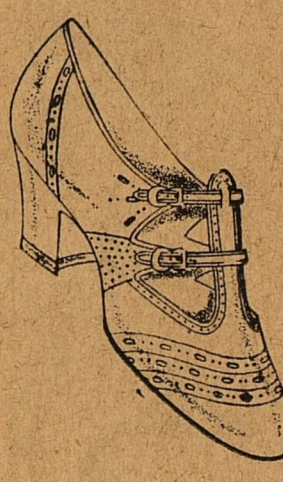

This chic little spectators sport pump comes in soft white kid; punched work on vamp and quarter. Sizes 3½ to 8. AAA to B. **\$3.95**

A smart pump with plain lines, open work on vamp; can be had in either navy blue or white kid. Sizes 3½ to 8½. AAA to B. **\$3.95**

You will be delighted with this interesting version of the combination, a decidedly chic pattern in white kid with navy blue trim **\$3.95**

A smart shoe for the junior miss in white pig grain with double instep strap and low Continental heel. Sizes 3 to 8. AAA to B. **\$3.95**

Imagine this shoe done in a combination of chamouis with kid overlay on toe and heel in the season's most talk of color, canary, and you have one of the new season's most spectacular shoes. Sizes 3½ to 8. AAA to B. **\$6.00**

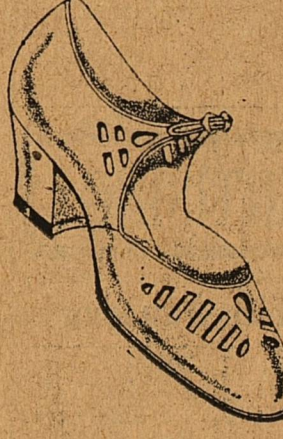

The sport, a genuine white buck oxford with contrasting brown trim, and vamp lacing, stacked leather heel. Sizes AAA to B. **\$5.00**

An interesting version of the brown and white motif, so popular this Spring, stacked leather heel; come in all-over white. Sizes to 9, as narrow as AA, at. **\$2.95**

A smart sport oxford of pig grain leather, large eyelets add to the chic of this clever pattern, 1½" stacked leather heel. **\$3.95**

A clever shoe for the junior miss of hard-to-fit character, isties, patent leather sandal; 12/8 box heel. Sizes 2½ to 8. AAA to B. **\$3.95**

This cunning shoe owes its touch of distinction to the instep strap and plain lines; can be had in either black or white kid; full kid lined. Sizes 3½ to 9. AAAA to B. **\$6.00**

The season's most attractive pump, split center vamp and high riding instep, makes it most flattering to the foot; obtainable in either navy blue or white kid, as narrow as AAAA. **\$6.00**

RURAL SCHOOLS

At a meeting of county League officials Saturday morning, dates were set for Interscholastic League contests. Tennis contests will be played Mar. 15 and track events are scheduled for Mar. 16. Literary events will be held on Saturday, Mar. 23, with debate and public speaking slated for Saturday night, at the courthouse.

Playground ball meet will be held at Valley View and the volley ball contests either at Prairie Lee or Stokes.

An awards committee was appointed composed of Miss Marguerite Carpenter, A. C. Fleming, and Mrs. Ruth Jamison. The question of awards has not been settled.

Three new events directors were appointed including Oswald Raggett, volley ball; M. W. Alcorn, rural pentathlon; and Mrs. Edith Wilson, Three-R contest.

Warfield has selected beautification of the school grounds as a Texas Centennial project. It is planned to set out trees. Work has already been begun on the project.

Plans are now being made to enter declamations, spelling, and picture memory contests in the League meet, Mrs. Ruth Jamison, teacher, reports.

A program of songs and readings will be presented Tuesday morning at the school in observance of Abraham Lincoln's birthday. Pupils are preparing booklets on the life of the Great Emancipator.

A Valentine box will be given Thursday afternoon.

For the past two weeks the entire school has been studying the literature sent out by the state tuberculosis sanatorium.

The literature is in the form of lessons and the children have shown interest in it. Mrs. Jamison permits pupils to take the material home so that it may be used by their families.

Miss Myrtle Miller met with the club girls at the school house Thursday morning.

Miss M. Elizabeth Wilson and Miss Marguerite Hester were visitors at the school Thursday.

Several children were absent from school last week because of illness from colds.

Pupils of Prairie Lee school will present "Hobgoblin House," a three-act mystery farce, at the school auditorium Friday night at 7:30 o'clock.

The cast of characters follows: Darliss Krupp—Raymond Griffith; Miss Priscilla Carter—Lola Livingston.

Marian Carter—Mildred Mills; Jill Carter—Sarah Ann Stewart; Frank Harlow—Raymond Wright; Jack Loring—Archie Bryant; Susan Perkins—Myrtle Franks; Henry Goober—Prin. Oswald Raggett.

Delilah Worts—Mrs. Oswald Raggett; Bluebeard Bronson—Alvey Bryant; Bill Wilkins—Marion Taylor.

Headless Phantom—???

No admission charges will be made and the public is invited to attend.

Visitors to the school included Miss Myrtle Miller on Monday and Misses Elizabeth Wilson and Marguerite Hester on Tuesday.

Prairie Lee boys played the Stokes outsiders team Friday at Prairie Lee, Stokes winning by a score of 20 to nine.

On the same day the Prairie Lee outsiders played the Stokes school

boys, Stokes winning the game.

His school is preparing to enter all the athletic events and most of the literary events in the League contests, Raggett said.

A "model store" is being set up in Mrs. A. C. Fleming's room at Valley View school. The equipment is furnished by Educational Foundations.

Miss Myrtle Miller met with the club girls at the teacherage Tuesday. Work was done on the aprons now being made.

Miss Marguerite Hester and Miss Elizabeth Wilson visited the school Thursday.

Other recent visitors to the school include T. N. Wilson, Mrs. Earl Fain, Mrs. S. Lewellen, Mr. and Mrs. D. A. Ray, Mrs. Red Porter, and Mrs. G. C. Brunson.

Honor roll pupils in the primary grades are: Evelyn Caffey, first grade; Martin Synatschik, high first; Edward Synatschik, second grade; and Bonnell Brunson, third grade.

A new vaulting pole has been purchased for Stokes school from the proceeds of the "sock supper" held recently.

Equipment has also been obtained for the music memory contest.

A sand pit for the high jump has been made.

Asa Collier was a chapel visitor during the week. He has made new standards to hold the pole in the jumping contest.

One new pupil, Ida Mae Reeves from Prairie Lee, has been enrolled. Misses Marguerite Hester and Elizabeth Wilson visited the school Thursday.

The club girls met at the home of Mrs. M. W. Alcorn, with Miss Myrtle Miller attending, and worked on their aprons.

The honor roll for the month of January at McClintic school has been announced as follows: Marjorie Ward and Ross Fischer, first grade; Louise Pearey, eighth grade.

The school will have a Valentine box and a short program Thursday afternoon, Prin. A. B. Steen said.

A machine has been invented to peel willow sticks that are to be used in weaving baskets and making furniture five times as fast as the work can be done by hand.
