CRAB CATCH LOOMS OKAY FOR COAST

Catching those delicious crabs this summer should not be too difficult for fishermen with the essential know how.

Marine biologists of the Texas Parks and Wildlife Department reported an abundance of this gourmet seafood item in most areas of the middle and upper coast.

The supply includes both adults ready for the pot this year and juveniles that will be large enough for taking next spring.

Freshening of the bay waters by recent rains will not adversely affect the blue crab populations, for crabs can thrive in water of drinking quality. In the very fresh waters, however, crabs may be somewhat more difficult to take on baited lines.

The Department reminds that it is now unlawful to take egg-bearing female crabs. These protected brood types may easily be identified by the large sponge-like egg mass attached to their undersides.

A new law, passed by the Legislature and in effect since last September was intended to increase the size of the crab spawn.

This protection has not yet had time to bear fruit, however. The crabs now so numerous are a year and a half old and are from earlier spawns prior to the effective date of the protective legislation.

Formal Opening Of Robbie's Enco Set for Saturday

Robbie's Enco Station will have its formal opening Saturdaay, Aug. 20.

Located on Highway 35 North, across from the Masonic Lodge, Robbie's is Rockport's newest service station. Robbie Robinson is manager and his assistants are Mike Kelsay and Silverio Diaz, Jr.

A full service station, Robbie's is open every day in the week from 6 a.m. to 10 p.m. and is prepared to handle engine tuneups, answer road service calls, provide towing, car washes, lubrication jobs, oil changes and tire service.

In connection with tire service, the station has the latest type of air-operated tire mounters which greatly decrease tire service time.

On the formal opening day, souvenirs will be offered including potted ivy plants, key rings and popcorn for the children.

Hospital Being Planned For Rockport Area

A hospital is being planned to serve this community which presently has no such facility, G. M. Pattillo, M.D , announced today.

He said Mrs. E. W. Means, Carl C. Krueger, Jr., and himself have formed a corporation known as the Rockport General Hospital Corporation and have received a state charter.

"We will sell stock and raise funds for this community-owned hospital," Dr. Pattillo explained. A total of 20,000 shares of stock will be offered at $250 per share.

An option has been obtained on a tract of land, and the incorporators have discussed various types of construction with architects and hospital consultants.

"Also, we have done most of the legal work required in a project of this type," Dr. Pattillo said, adding:

We are pleased that quite a few local citizens have been interested and have expressed a desire to participate in the program." He said the drive to sell stock and bonds has not started but will come in the near future.

Present plans call for construction of a 34-bed hospital which will include two operating rooms and cost between $500,000 and $600,000. The design and construction would be such that the hospital later could be expanded to a 75-bed capacity. It will be a one-story structure that can be expanded upward or outward.

New High School Students Register August 23-26

All new students who are planning on attending Aransas County High School, grades nine, ten, 11 and 12, should register in the principals or counselor's office of the high school August 23, 24 or the 26th.; The office will be open from 8 a.m. to 12 and from 1 p.m. to 4 p.m. on these days.

New students are those students who did not attend any of the Aransas county public schools, such as Aransas County Junior High or Aransas High School, during the last school year.

Those students who satisfied requirements for promotion or who have received credit by completing work in summer school should register at the time specified for new students if the principal's office has not been notified in writing of the credits earned.

Students who attended Aransas County High School last year and did not receive their report cards because of non-payment of fees or fines should pay these fees or fines on the dates listed above in order to be properly registered and to be able to attend their full schedule of classes on the first day.

New students should bring their report card, book card, health record showing proof of having immunization for smallpox, whooping cough, and diphtheria.

All new pupils should be enrolled before Sept. 6, as school will begin on this date at 8:15 a.m. and pupils should be prepared to attend all their classes the first day of school.

ATTEND CHEER LEADER SCHOOL

During the week of Aug. 7 to Aug. 12 the ACHS cheer leaders attended cheer leader camp at SMU in Dallas.

Cheer leaders attending were Doralyn Wright, head cheer leader; Denise Picton, assistant cheer leader, Darlene Rouquette, Anne Smith and Sue Clark.

During competition the cheer leaders received a second and third place ribbon. They also learned Pom-pom routines and how to use tumbling with their yells. On the way home their sponsor, Helen Shultz, and the girls stopped off at Six Flags for a very enjoyable afternoon.

SHRIMP ERA OPENED AUG. 15

Taking of shrimp for individual use in the major Texas bay runs from Aug. 15 through Dec. 15, according to the Texas Parks and Wildlife Department.

The law limits persons to 100 pounds of whole shrimp—that is with heads attached —per day.

A $2.15 sports fishing license and a $3.00 "Individual Bait — Shrimp-Trawl license" are required.

Shrimp taken in this manner may not be sold or handled in any way for profit, according to the Department.

Major coastal bays as defined by law are Sabine Lake, Trinity, Galveston, East Galveston, West Galveston, Matagorda, Keller, East Matagorda, Tres Palacios, Espiritu Santo, Lavaca from the causeway seaward, San Antonio, Ayers, Aransas, Mesquite, and Corpus Christi.

Tributary bays, inlets, and passes are excluded, and shrimping is not permitted in the bays at night.

Shrimp must meet a minimum average size of at least 39 to the pound except in Sabine Lake where any size shrimp may be taken.

The sportsman's trawl may not exceed 20 feet in width or have mesh sizes smaller than 5 stretched meshes in 8¾ inches. Trawl boards up to 15 by 30 inches of 450 square inches are permitted.

Sports fishermen may trawl for bait in minor bays not listed above; however, they are limited to two quarts per person or four quarts per boat.

Digests of shrimping regulations are available from the Texas Parks and Wildlife Department, John H. Reagan Building, Austin, Texas 78701.

Far North Bares '66 Crane Gain

Austin. — Another possible productive Whooping Crane nesting season was scouted in a far north informational excursion by the Texas Parks and Wildlife Department.

By telephone to Edminton, Alberta, it was learned from the Canadian Wildlife Service that four of the six whooper pairs reconnoitered in the Wood Buffalo National Park area have at least one young each.

W. E. Stevens, regional superintendent for the Canadian service, said in the same breeding area last year, with a similar number of adults present, only three young were observed.

Total young migrating last fall to the wintering grounds in the Texas gulf coast was eight, raising the flock to 44, the largest count in modern times.

Stevens explained that a vast area north of Wood Buffalo in Northwest Territory has been unexplored, whooperwise, and that many of the huge birds are known to summer there.

The Canadian official said nesting conditions generally this year have been better than in 1965 and that the Whoopers occupying the remote region might include at least another six or eight breeding pair. Occasionally, the giant cranes bring twins southward to the Aransas National Wild Refuge.

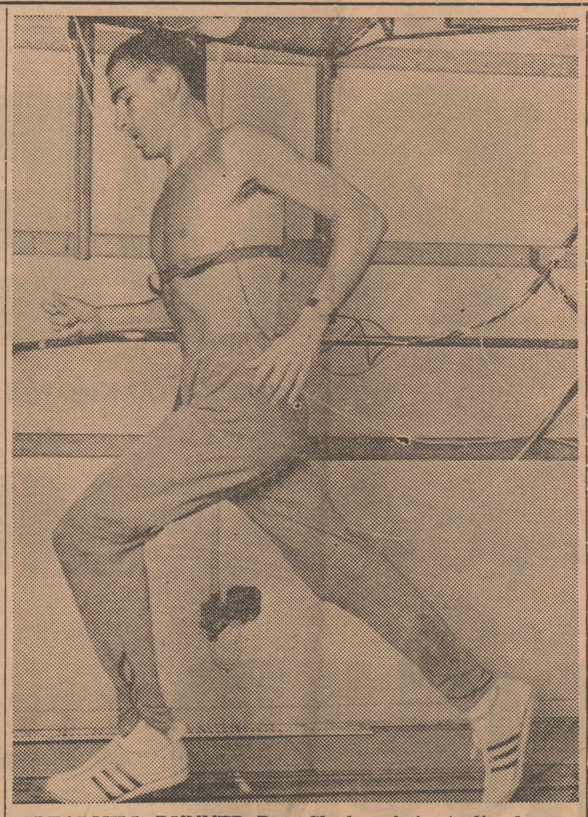

Stevens said a definite beak count on the entire flock will not be known until September when the migrating Whoopers begin returning to the Wood Buffalo National Park that is within range of surveillance facilities based at Fort Smith in Northwest Territory.

Correction In Fall Bay Shrimping Rules

The Texas Parks and Wildlife Department points out that there was one error in the information about the fall bay shrimping season which was given to the Pilot for publication last week.

The statement which read "Five stretched mesh of the 65' trawl must measure no more than 8¾ inches," should read:

"No less than 8¾ inches."

TREADMILL RUNNER Ron Clarke of Australia, long-distance record holder, refuses to rest on his laurels. Using a special rig, complete with harness and measuring instruments, Clarke practices vigorously at the Stockholm, Sweden, Central Gym Institute.

Council Grants Two Special Zoning Requests, Denies One

The City Council this week approved two applications for special permits and turned down one requesting the right to locate mobile homes on sites designated by the new zoning ordinance as residential areas.

Acting in each case on the recommendation of the Planning and Zoning Commission, the Council:

1) Approved the application of Mrs. Ruth Gwynn for a special permit to locate a mobile home on lot 9, block 208, Smith and Wood Addition. The request was approved on condition that the permit be valid only as long as Mrs. Gwynn owns the mobile home and desires to live in it.

2) Approved the application of Mrs. Mary Etta Thompson for a special permit to locate a mobile home on a portion of lot 11, block 251, Smith and Wood Addition.

A neighbor, J. J. Miller, at first objected to location of the mobile home there but later agreed if Mrs. Thompson located the mobile home at least 50 feet from his house. Mrs. Thompson agreed.

3) Voted not to approve the application of Lucille Young Demory for a special permit to locate a mobile home on lots 4 and 5, block 127, Manning Addition.

Aldermen N. F. Jackson and N. C. Vandagriff voted to deney the application, and Alderman Charlie Garrett voted to approve it.

These actions were taken at a public hearing in the city hall attended by the City Council and the Planning and Zoning Commission, with Mayor Delmar R. Hiller presiding.

Members of the Commission are Tom Rogers, Seth Steele, Fred Bracht, Jr., and Earle Harle.

Youths Caught Trying To Hang Dummy From Water Tower

Fourteen teen-age boys and girls furtively made their way to the city water tower near the high school a few nights ago in two cars.

An extra "passenger" in one of the cars was a homemade dummy.

Chief of Police Bob Hewes spotted the youths heading north and decided to investigate. When they passed the north city limits he sent a radio message to alert Sheriff Joe Earl Hunt.

Eventually the gang wound up at the water tower—and so did Hunt and Hewes.

One of the 14 youths climbed over the fence surrounding the tower and climbed about half way up the tower carrying the dummy, when the law stepped in.

No charges were placed against them, but they did get a good lecture from Hunt.

As the group dispersed, the officers heard one boy say:

"I guess 13 lookouts weren't enough."

One Injured In Car Crash

Lupe Cordova, 26, Kemah, sustained a cut on his head when the car in which he was riding rolled over near the vegetable stand at the south edge of Rockport. The driver, Jimmy Gonzales, 29, escaped uninjured.

An expected 1,800 boys and girls will report for classes in Aransas county schools which open Tuesday, Sept. 6 The enrollment will be about 230 higher than during the school year of 1965-66.

He said the opening day will be a full day of school, with buses operating and cafeterias open.

A total of 87 faculty members will have the responsibility of instructing the 1,800 students, 17 being either new teachers or replacements.

Elsewhere in this issue of the Pilot are published 1) the list of new teachers, 2) the School Calendar for the school year, and 3) the Pre-School Workshop schedule.

New Students At Junior High To Register Aug. 23-26

All new students who are planning to attend Aransas County Junior High School, grades seven and eight, should register in the principal's office of the Junior High School August 23rd, 24th, 25th or 26th.

The office will be open from 8:30 to 12:00 and 1:00 to 4:00 on these days.

New students are those students who did not attend any of the Aransas County Public Schools, such as Fulton Elementary, Rockport Elementary or Aransas County Junior High School, during the last school year.

Those students who satisfied requirements for promotion by completing work in summer school should register at the time specified for new students if they have not already done so.

Students who attended Aransas County Junior High School last year and did not receive their report cards because of non-payment of fees should pay these fees on the dates listed in order to be properly registered.

New students should bring their report cards, book card, health record showing proof of having immunization for small pox, whooping cough, and diphtheria.

All students should be enrolled before September 6th, as school will begin on this date and pupils should be prepared to attend all their classes on this day.

Hit-and-Run Driver Smashes Into Car

A car driven by Anthony Del Rocco was hit Aug. 15 by an auto operated by a woman who pulled over to the curb, paused a moment and then fled from the scene, according to Chief of Police Bob Hewes.

The crash occurred at Austin and North Streets and resulted in about $100 in damage to Del Rocco's car.

Del Rocco said the hit-and-run driver was in a light colored car and was wearing a big straw hat.

In another accident Aug. 16, cars driven by Annette Griffith of Rockport and Rex McPeters of Pittsburg, Texas, collided at Highway 35 and Market Street. Total damage to the two cars was estimated by Chief of Police Bob Hewes to be approximately $1,250.

Golf Instruction For Juniors Set

Golf instruction for boys and girls will be held at Live Oak Country Club Aug. 23, 24, 25 and 26 from 9 to 10 a.m. under direction of Speck Howery, club pro.

The instruction is open to children of club members and will be followed by a junior tournament a week later. Those planning to participate should register with Howery.

Fulton Students Register Aug. 29-30

Regular registration of students new to the George Fulton Elementary School this year will be held on Aug. 29 and 30. Office hours will be from 8:00 until 11:30 a.m. and from 1:00 until 3:30 p.m.

By calling prior to bringing students for registration, parents may enroll students on any day prior to the opening of school on Sept. 6.

Needing to register will be those new to this area, those transferring from other local schools, and new first graders not registered in the spring.

All first graders need proof of birth prior to Sept. 2, 1960. All new students need proof of required shots and innoculations.

All transfer students must have report cards and book cards or proof of clearance from schools previously attended.

It is urged that all students be registered prior to Sept. 6, as this will enable them to be in class all the first day.

Airline Service Comes to Rockport

Starting Thursday, Aug. 18, the first regularly scheduled airline service will be available to Rockport and surrounding area residents.

Houston Commuter Airlines, with home offices in Houston, announced they are starting scheduled service with four flights to Rockport daily, Monday through Friday, and two flights on Sunday.

HCA's scheduled air service to Rockport, starting Thursday, marks the airline's first expansion of their routes since starting operations. And, coincidentally, HCA's first expansion comes exactly one month to the day after their inaugural flight on July 18.

Although Rockport has long had adequate airport facilities, the area's only airport activity since World War II when it served the Navy, has been limited to corporate and private aircraft.

Now commercial air service will be available to Houston, Alice and Laredo, the other cities served by HCA.

Tom Garanflo, president and general manager, says HCA will offer two morning flights, departing Rockport: a 7:45 a.m. flight to Laredo with an intermittent stop at Alice, and a 10:15 a.m. flight to Houston.

HCA's afternoon and evening service consists of a 5:45 p.m flight to Laredo and an 8:15 p.m. flight to Houston.

Not only will HCA's service to Rockport be a tremendous boon to the area, but passengers flying HCA are in for a special treat. Initially, HCA is utilizing new twin engine turbo charged Cessna 411's, outfitted with luxurious "corporate-styled" interiors, complete with foam rubber reclining seats, plush carpeting, vista windows and stero music.

HCA's 411's are fully equipped with the most sophisticated electronic equipment identical to that used in jet aircraft. In addition to having the finest equipment available HCA's captains are airline transport rated, and tops in their field.

Looking to the future, Garanflo believes that increasing interest in the fabulous Gulf Coast area, both from a commercial standpoint and from tourist activity, will mean eventual expansion of air service and larger, faster airliners.

In fact, Garanflo says the month-old airline is considering the purchase of additional and larger 20-passenger jet-powered aircraft immediately and may have them in operation within the next two weeks. This would also enable the airline to increase their routes sooner than they anticipated and will make more cities available by air to Rockport area residents.

The fare on HCA to Houston is $15, plus tax; to Alice, $6 plus tax; and to Laredo, $15 plus tax. HCA offers 10 per cent off on round trip tickets.

Roy Snyder of Thunderbird Aviation is handling the passenger operations at Aransas County Airport for Houston Commuter Airlines. For reservations and information, call SO 4-6638.

County Fund Balance $40,911 Over 1965

The Aransas County fund balance as of July 31 was $40,911.71 higher than a year ago, according to the monthly financial report of County Auditor Robert Mosier.

The figure this year was $386,638.17 compared to $345,-726.46 on July 31, 1965.

However, from the standpoint of the 1966 budget, Mosier's figures showed that during the first seven months of 1966 the county spent $11,-384.64 more than the amount budgeted for this period.

The budget called for spending $293,723.40, whereas the actual amount spent was $305,-108.04.

County Commissioners Asked to Change Subdivision Rule

R. L. Irwin met with the Commissioners Court Aug. 12 in regard to the resolutions made by the county on subdivisions.

He requested that in certain marina type areas where there are dead-end streets that the requirements be changed to 50-foot streets instead of 60. After discussion, the matter was tabled until the next meeting.

Next topic considered was the electricity bill at the airport. After discussion, it was voted to contact the Central Power and Light Company and have a meter placed on county-owned houses, and ask that John P. Mitchell, Jr., be contacted in regard to metering houses owned by Rockport Yacht & Supply Co.

Attending the meeting were Commissioners W. B. Allen, Raymond Owens and Albert Wofford, and County Clerk W. E. Beasley.

12-Under Wins Golf Tourney

A team shooting 12 under par won the Scotch foursome competition at Live Oak Country Club Sunday and a team scoring 11 under took second place last Sunday.

Members of the winning team were Virgil Doggett, A. W. Wrinkle, Tommy Summerlin, Lynn Kelso and Tom Tiner.

On the second place team were Jim Dupnik, L. W. Tuer, Wilson Wehring, Ollie Rogero and Bill Kelso.

Speck Howery, the club pro, announces that there will be no Scotch foursome tournament Sunday.

Shrimper With Leak Moored at Rockport

The shrimper Southern Star was safely moored at Johnson's Dock in Rockport at 6:20 p.m. Wednesday, according to the Corpus Christi Coast Guard Air Station.

A Coast Guard plane dropped a pump to the vessel after a report that it had a leak and needed assistance.

Another fishing boat, the Jamboree, towed the boat into port.

Chamber of Commerce Employs John Kinsey

John E. Ross, president of the Chamber of Commerce, announced today that the Board of Directors of the Chamber has employed John R. Kinsey, reporter on the Rockport Pilot, as manager of the Chamber on a part-time basis.

While continuing to be the Pilot reporter, Kinsey will devote Thursday afternoon, Friday and Saturday morning to Chamber activities. He also will attend all luncheon and evening Chamber meetings.

An enthusiastic booster of Rockport, Kinsey said he is convinced that this area has great potential and added:

"I appreciate this opportunity to help spread the word that here truly is a great place to live, work, vacation or retire.

"Also, I welcome the chance to work with community leaders in plans and projects designed to help bring about continuous progress here."

RIDING ASSOCIATION TO MEET FRIDAY

The Aransas County Riding Association will meet at the riding area at 8 p.m., Friday to discuss the rodeo to be held Sept. 4 and 5. All members are urged to attend.

WSCS HONORS DEPARTING MEMBERS

Mrs. R. G. Stafford and Mrs. Root M. Hill were honored at a coffee Aug. 12 by the Woman's Society of Christian Service in the Fellowship Hall of First Methodist Church.

Coffee, orange juice, doughnuts and fruit bars were served by Mrs. H. A. Waner and Miss Beth Bohmfalk to 30 members and guests.

The table was laid with linen cutwork cloth centered with an arrangement of zinnias and queen's crown designed by Mrs. Leeroy Young.

Mrs. Bill Straley presented the honorees with a plate on which a picture of the church was painted. Mrs. I. E. Allemang read an original poem expressing the appreciation of the society for the service and fellowship of the honorees, and a prayer was given for their continued happiness and success.

A special treat was enjoyed when Miss Bohmfalk, youth delegate to the Woman's Society Southwest Conference, gave a report on the activities.

Vets Should Act Now For G.I. Education Bill

Veterans planning to attend school this fall under the new GI Bill should take immediate action with the school and Veterans Administration.

P. J. Mims, manager of the Houston Veterans Administration Regional Office, advised today that a large fall enrollment at institutions of higher learning is anticipated, and veterans who wait until the last minute run the risk of being too late. Veterans should contact the school of their choice now, arrange for completion of any necessary entrance examinations, and acceptance for fall enrollment.

As soon as the veteran has selected the school, he should make application to the Veterans Administration for a "Certificate of Eligiblity."

Applications are available at colleges, universities, Veterans Service Organizations, County Service Officers, VA Office at 307 Dwyer Avenue in San Antonio, and at VA Regional Office at 515 Rusk Avenue in Houston. The Certificate of Eligibility will be used by the veteran when he enrolls.

To be eligible, a veteran must have served at least 181 days on active duty or have been discharged or separated from military service because of service-connected disability. Veterans may pursue training at a college, university, vocational school, high school, business or technical School, or in correspondence courses.

Veterans who do not live in the immediate vicinity of a VA Office can receive information by contacting their Veterans County Service Officer or a representative of the Veterans Organizations.

Since this educational program is an assistance program, veterans are reminded that they should have sufficient funds to meet the initial and necessary expenses for at least 90 days.

Mr. and Mrs. Van Forshee and children have returned from Garner State Park where they have been vacationing.

We Came . . . We Saw . . . We Stayed!

In fact we liked the Rockport area so much we built a brand new subdivision here for others like us. We selected a quiet wooded area west of town between Copano and Aransas bays—put in paved roads and city conveniences—added a large pool and tennis courts—and then programmed additional country club facilities for you to use when you're not on the bay fishing.

We named this exciting subdivision (PENINSULA OAKS) because of the many oak trees shading our homesites. We priced them low too, with prices starting at $750, and then made them easy to buy with only $25 down and $15 monthly. We believe that if you COME and SEE, you just might get like us and STAY too!

All About Trout

By

L. D. Nuckles,

Texas Parks & Wildlife Dept.

Trout—the magic word to anglers from all over Texas and for many people from all over the United States. Trout—the staple catch of anglers who visit the coast of Texas by the tens of thousands every year. Trout — the best-known of our coastal battlers, but who really knows anything about trout?

In the first place he is not a speckled trout. He is a weakfish, first cousin to the sand trout and second cousin to the croaker and whiting.

Trout are slow growing, yet reach sexual maturity early in life. Under normal conditions they grow about 6 or 7 inches the first year, 4 or 5 the second year, 3 or 4 the third year, and about 2 inches per year after that. The females grow much more rapidly that the male who rarely reaches 24 inches. The name "sow" trout, when applied to the large fish, is completely accurate. Big trout are females.

The predator nature of the trout shows up at an early age. Almost by the time he can swim he is catching and eating small grass shrimp and other fish including other trout. As he reaches the "school trout" stage 12 to 14 inches, his primary food is shrimp, but examination of the stomachs of big trout reveals his preference for other fish.

If the angler is trying to catch really big trout and he is not particularly interested in numbers caught, he would do well to remember this. The use of piggy perch, finger mullet or other small fish might yield better results than shrimp. An artificial lure that resembles a small fish sometimes pays off too.

The trout is an accommodating fellow and not as 'spooky" as the redfish, but the wade fisherman will still do well to move slowly and as quietly as possible. When working artificial lures, move very slowly and work all the water in front of you thoroughly. If you don't, there is a good chance that you'll wade right past your quarry.

There is no danger, at the present time, of overfishing our trout. We could take four times as many trout as we now do and still be on bilogically sound footing. However, biologists admit that there may be a basis for the "controlled waste" theory of underharvest in order to keep the numbers at a high peak all the time. This might allow more people to harvest fish consistently, even though some were being wasted through the underharvest.

CARD OF THANKS

To our many friends, Bope and I wish to extend the old, but tried and true expression, "Thank You" for numerous acts of kindness shown to us during my recent hospital stay and convalenscense. To those who offered prayers, gave blood, visited in the hospital and at home, sent cards and flowers or brought food, we offer our deepest gratitude and appreciation.

One sometimes forgets the value of friendship in this hectic world, but when the need is there, so are your friends.

May God bless each of you and keep watch over you always.

'Gold' In The U. S. Shoreline

The continental shelf includes all coastal land extending out to a water depth of 600 feet. By international agreement, it belongs to the bordering country.

For the United States, that means 23 per cent of its land size, even if the land is under water. It also means a multi-billion dollar asset.

The Gulf of Mexico coast, in terms of continental shelf area, has 135,000 square miles.

This means that future wealth produced by the Gulf shelf near here should be of interest to people in the Rockport area.

Shedding light on future possibilities is a new study made for the U. S. Coast & Geodetic Survey by the Battelle Memorial Institute of Columbus, Ohio, which estimated that economic activity in the American continental shelf in 1964 amounted to $21.4 billion. That was about 3.5 per cent of the total value of goods and services produced in the American economy that year.

More important, the study predicts a significant increase in economic activity in the continental shelf area of more than one million square miles. A 10 to 15 per cent annual growth rate over the next 10 years in research and development, recreation, mining and petroleum is not unreasonable, the study said.

Smaller increases—3 to 5 per cent yearly—were predicted in marine engineering, seaweeds, commercial fishing and transportation.

Estimates of economic activity ranged from the value of crude oil and gas from offshore wells—$779 million in 1964—to the price of beach balls, sun tan lotions and swim suits bought by an estimated 33 million salt water bathers.

In connection with mining, the study noted that salt, bromide, magnesium, sulphur, sand, gravel and oyster shells (to make cement and road material) are already extracted from the sea.

But the report said such metals as gold, platinum, tin, calcium carbonate, manganese and phosphorite also have economic potential. They are found in the sediment of the ocean floor.

The study recommends federal action now to encourage offshore development. Directors by private industry to develop areas of high risk—such as the continental shelf—can involve lead times of as much as 20 years.

The Environmental Science Services Administration, of which the Coast Geodetic Survey is a part, should initiate appropriate efforts to minimize private risk, the study advised. Federal agencies should also consider cooperating with coastal states in programs that would result in added incentive for private investment.

Specifically, the study called for more precise data on ocean currents and waste disposal, surveying of the sea botton, topographic maps of the shelf information on mineral composition and the properties of bottom sediment and areas beneath the floor.

JOHN KINSEY

The longer I live here, the more convinced I become that Rockport is bound to grow and enjoy greater prosperity.

The enthusiasm that newcomers display is perhaps somewhat of a "recording meter" indicating what the future holds. It is not uncommon to hear a first-time visitor rave about the Rockport-Fulton area, using such phrases as:

"Why didn't somebody tell me about this place years ago?"

"It's got most of the things Florida offers, plus more space to move around in, and a friendliness on the part of local residents which makes you feel at home."

"Talk about fishing, I never caught so many fish in my life."

"The beaches are beautiful."

"You got a nice golf course out there at Live Oak Country Club that's a lot of fun to play.'"

"I've found some real nice eating places here."

"Our kids water ski from early morning until it's almost dark."

And so it goes . . . sincere compliments from people who visit here.

They know and we know that the Rockport-Fulton area is not perfect, that a number of things should be done to make our community more attractive, more inviting.

Some steps have been taken in recent months, and some plans are being made to bring about certain improvements.

Private enterprise is moving into the picture more and more, with shrewd investors backing with dollars their confidence in the future. Governmental bodies are taking progressive steps.

It seems to me that one thing the community must avoid is a cynical attitude that "things are going to stay just about the way they've been for years." Such an attitude can stifle imagination and delay progress.

I'll even stick my neck out and predict that one change Rockport-Fulton will see in the not-too-distant future is a great increase in the number of winter vacationers coming here . . . more of the one, two and the three week variety.

Mrs. Grady Suttles arrived home Monday after spending a week with her daughter, Mrs. Joe Rhodes in Kilgore. Grady Wayne Rhodes accompanied his grandmother home for a visit.

How Medicare Works

This is the last in a series of articles from H. M. Cleveland, district manager, Social Security Administration, Corpus Christi, on how medicare will work. The information is based on "Your Medi-Care Handbook," the guide that was mailed to all medicare beneficiaries.

By H. M. Cleveland
District Manager

Even after everything about medicare has been explained, people are still apt to have questions about specific parts of the program. Therefore, this final article is devoted to some of the questions that may arise. If you have questions about these "questions," get in touch with the social security office.

Hospital Insurance Plan

Q. What if I am away from home in another State—will my hospital insurance still pay for my care?

A. Yes. Your hospital insurance protects you no matter where you are in the United States but not in a foreign country. Your health insurance card is the proof of your protection.

Q. Will hospital insurance pay for my care no matter where I go to get the services?

A. Your hospital insurance will pay for covered services you receive from any hospital that is participating in the medicare program.

Also, in an emergency, if you are taken to a hospital which is not participating, your hospital insurance will pay for covered services you receive until emergency services in the nonparticipating hospital are no longer necessary from a medical standpoint.

Q. Will hospital insurance help to pay for my care if I am in a general hospital on July 1, 1966, when hospital insurance starts?

A. Yes. Your first "spell of illness," which provides up to 90 days of inpatient hospital benefits, will start on that day, and hospital insurance will begin paying toward your care. However, no payment will be made for days of hospitalization before July 1, and the deductible for which you will be responsible for the first $40 of expenses incurred July 1 or after.

Q. If my doctor says I can go home from the hospital before I have used up the 90 days, will my hospital insurance continue to pay for my care if I want to stay in the hospital a few days?

A. No. Hospital insurance covers only those services that are medically necessary. Your doctor would need to certify that the hospital services are required before medicare can make payment.

Q. If I don't pay my share of the hospital bill, will medicare pay its share of the hospital bill anyway.

A. Yes. If you find that you are unable to pay your part of the hospital bill, get in touch with the people in your local State Department of Public Welfare office. You may qualify for help under a State assistance program.

Medical Insurance Plan

Q. Is there a dollar limit to the amount my medical insurance will pay each year?

A. No. There is no dollar limit on the amount that your medical insurance will pay for necessary care. The only exception is the yearly limit for treatment outside of a hospital for mental illness.

Q. If I have a number of small medical bills, should I wait until they go over the $50 deductible to put in a claim for medical insurance.

A. Yes. We believe that most people will prefer to wait until the bills go over $50 since no payment can be made until the $50 deductible is met. Also, by waiting you avoid filling out extra claim forms.

Q. What happens if I want to assign my medical insurance benefit to a doctor, but he doesn't want to accept an assignment?

A. A doctor is not under any obligation to accept an assignment of your medical insurance benefits. If he prefers to have you pay him directly, you should either get an itemized receipted bill from him or ask him to complete Part II of your Request for Payment form. Then send in the claim for payment.

This concludes the series on "Your Medicare Handbook." If you have more questions, write, call, or visit the social security office at 1802 South Staples, Corpus Christi, Texas, telephone TU-3-5511.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 6, Article XVI, Constitution of the State of Texas, be amended to read as follows:

"Section 6. (a) No appropriation for private or individual purposes shall be made, unless authorized by this Constitution. A regular statement, under oath, and an account of the receipts and expenditures of all public money shall be published annually, in such manner as shall be prescribed by law.

"(b) State agencies charged with the responsibility of providing services to those who are blind, crippled, or otherwise physically or mentally handicapped may accept money from private or federal sources, designated by the private or federal source as money to be used in and establishing and equipping facilities for assisting those who are blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, in rehabilitating and restoring the handicapped, and in providing other services determined by the state agency to be essential for the better care and treatment of the handicapped. Money accepted under this subsection is state money. State agencies may spend money accepted under this subsection, and no other money, for specific programs and projects to be conducted by local level or other private, nonsectarian associations, groups, and nonprofit organizations, in establishing and equipping facilities for assisting those who are blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, in rehabilitating and restoring the handicapped, and in providing other services determined by the state agency to be essential for the better care or treatment of the handicapped.

The money may not be expended for any purpose other than the purpose for which it was given. Notwithstanding any other provision of this Constitution, the state agencies may expend money accepted under this subsection without the necessity of an appropriation, unless the Legislature, by law, requires that the money be expended only on appropriation. The Legislature may prohibit state agencies from accepting money under this subsection or may regulate the amount of money accepted, the way the acceptance and expenditure of the money is administered, and the purposes for which the state agencies may expend the money. Money accepted under this subsection for a purpose prohibited by the Legislature shall be returned to the entity that gave the money.

"This subsection does not prohibit state agencies authorized to render services to the handicapped from contracting with privately-owned or local facilities for necessary and essential services, subject to such conditions, standards, and procedures as may be prescribed by law."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed on them the following:

SENATE JOINT RESOLUTION NO. 4 proposing an Amendment to the Constitution of Texas by adding to Section 62 of Article XVI a new subsection to be denominated subsection (c), of said Section 62; authorizing the Legislature to enact laws establishing, subject to the limitations stated, a State-wide System of Retirement, Disability and Death Compensation benefits for the officers and employees of the counties and other political subdivisions of the state, and of the political subdivisions of any county.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 62 of Article XVI of the Constitution of the State of Texas be amended by adding thereto a subsection (c) which shall read as follows:

"(c) The Texas Legislature is authorized to enact appropriate laws to provide for a System of Retirement, Disability and Death Benefits for all the officers and employees of a county or other political subdivision of the state, or a political subdivision of a county; providing that when the Texas Legislature has passed the necessary enabling legislation pursuant to the Constitutional authorization, then the governing body of the county, or other political subdivision of the state, or political subdivision of the county shall make the determination as to whether a particular county or other political subdivision of the state, or subdivision of the county participates in this System; providing further that such System shall be operated at the expense of the county or other political subdivision of the state or political subdivision of the county electing to participate therein and the officers and employees covered by the System; and providing that the Legislature of the State of Texas shall never make an appropriation to pay the costs of this Retirement, Disability and Death Compensation System.

"The Legislature may provide for a voluntary merger into the System herein authorized by this Constitutional Amendment of any System of Retirement, Disability and Death Compensation Benefits which may now exist or that may hereafter be established under subsection (b) of Section 62 of Article XVI of the Texas Constitution; providing further that the Texas Legislature in the enabling statute will make the determination as to the amount of money that will be contributed by the county or other political subdivision of the state or political subdivision of the county to the State-wide System of Retirement, Disability and Death Benefits, and the Legislature shall further provide that the amount of money contributed by the county or other political subdivision of the state or subdivision of the county shall equal the amount paid for the same purpose from the income of each officer and employee covered by this State-wide System.

"It is the further intention of the Legislature, in submitting this Constitutional Amendment, that the officers and employees of the county or other political subdivision of the state or political subdivision of a county may be included in those systems regardless of whether the county or other political subdivision of the state or political subdivision of the county participates in the Retirement, Disability and Death Benefit System authorized by this Constitutional Amendment, or whether they participate in a System under the provisions of subsection (b) of Section 62 of Article XVI of the Texas Constitution as the same is herein amended."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at the General Election in November, 1966, at which all ballots shall have printed thereon:

"FOR the Constitutional Amendment authorizing the Texas Legislature to establish a State-wide Cooperative System of Retirement, Disability and Death Benefits for the officials and employees of the various counties or other political subdivisions of the state, or political subdivisions of a county; authorizing the Legislature to provide for a voluntary merger into the system authorized by this Amendment by those officers and employees covered by the provisions of subsection (b) of Section 62 of Article XVI of the Texas Constitution as now existing or may hereafter be established; providing that costs of this System shall be borne by the counties and other political subdivisions of the state and political subdivisions of the county electing to participate therein and the officers and employees covered by the System; and forbidding the Legislature from making any appropriations for the operation of this System."

"AGAINST the Constitutional Amendment authorizing the Texas Legislature to establish a State-wide Cooperative System of Retirement, Disability and Death Benefits for the officials and employees of the various counties or other political subdivisions of a county; authorizing the Legislature to provide for a voluntary merger into the system authorized by this Amendment by those officers and employees covered by the provisions of subsection (b) of Section 62 of Article XVI of the Texas Constitution as now existing or may hereafter be established; providing that costs of this System shall be borne by the counties and other political subdivisions of the state and political subdivisions of the county electing to participate therein and the officers and employees covered by the System; and forbidding the Legislature from making any appropriations for the operation of this System."

If it appears from the returns of said election that a majority of the votes have been cast in favor of such amendment, the same shall become a part of the Constitution of the State of Texas.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and have notice of said proposed Amendment and of said election published as required by the Constitution of Texas, and laws of this state.

HOUSE JOINT RESOLUTION NO. 13 proposing an Amendment to Sections 2 and 4 of Article VI of the Constitution of the State of Texas so as to repeal the provision making payment of the poll tax a requirement for voting and so as to authorize the Legislature to provide for the registration of all voters.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 2 of Article VI of the Constitution of the State of Texas be amended, effective February 1, 1968, by deleting the following language:

"and provided further, that any voter who is subject to pay a poll tax under the laws of the State of Texas shall have paid said tax before offering to vote at any election in this State and hold a receipt showing that said poll tax was paid before the first day of February next preceding such election. Any legislation enacted in anticipation of the adoption of this Amendment shall not be invalid because of its anticipatory nature. The Legislature may authorize absentee voting. TEAL HUNT TRIGGERS VISA RUSH

Austin. — A vertible blizzard of requests for information followed announcement by the Texas Parks and Wildlife Department that another special teal season will be held this fall.

A Department spokesman said the first mail after the word was released brought 317 inquiries.

Requests for applications have been arriving at the rate of 150 per duty day since.

Sportsmen interested in the experimental shoot, Sept. 10-18, are requested to send complete names and addresses and the county of residence.

There is no fee for the permits and no limit on the number issued. But persons hunting teal during the assigned period must have the special teal permit, as well as a valid state hunting license and a Federal duck stamp.

At the present rate of inquiry, the spokesman estimated that the 1966 participants will exceed the 12,943 issued permits for the first test hunt last fall.

The U. S. Fish and Wildlife Service, cooperating with the states in staging the experimental harvest, is eager to have a number of hunters participating in this hunt.

This, they said, will aid in the studies to determine if a special season is feasible to enable sportsmen to harvest some of the teal as they speed southward well ahead of the regular fall waterfowl migration.

The three-year experimental program also is to establish whether hunter cooperation will make a regular early season practicable.

Hunt managers point out that participants' ability to distinguish between the teal and other wild duck species, then present in smaller numbers, will weigh heavily in the final decision.

They stress the need for permit applicants to stress identification studies.

Almost 13,000 Texas hunters shared in the 1965 shoot with a minimum of violations, according to authorities.

Section 1. That Section 9, Article IX of the Constitution of the State of Texas be amended to read as follows:

"Section 9. The Legislature may by law provide for the creation, establishment, maintenance and operation of hospital districts composed of one or more counties or all or any part of one or more counties with power to issue bonds for the purchase, construction, acquisition, repair or renovation of buildings and improvements and equipping same, for hospital purposes; providing for the transfer to the hospital district of the title to any land, buildings, improvements and equipment located wholly within the district which may be jointly or separately owned by any city, town or county, providing that any district so created shall assume full responsibility for providing medical and hospital care for its needy inhabitants and assume the outstanding indebtedness incurred by cities, towns and counties for hospital purposes prior to the creation of the district, if same are located wholly within its boundaries, and a pro rata portion of such indebtedness based upon the then last approved tax assessment rolls of the included cities, towns and counties if less than all the territory thereof is included within the district boundaries; providing that after its creation no other municipality or political subdivision shall have the power to levy taxes or issue bonds or other obligations for hospital purposes or for providing medical care within the boundaries of the district; providing for the levy of annual taxes at a rate not to exceed seventy-five cents (75c) on the One Hundred Dollar valuation of all taxable property within such district for the purpose of meeting the requirements of the district's bonds, the indebtedness assumed by it and its maintenance and operating expenses, providing that such district shall not be created or such tax authorized unless approved by a majority of the qualified property taxpaying electors thereof voting at an election called for the purpose; and providing further that the support and maintenance of the district's hospital system shall never become a charge against or obligation of the State of Texas nor shall any direct appropriation be made by the Legislature for the construction, maintenance or improvement of any of the facilities of such district.

Provided, however, that no district shall be created except by act of the Legislature and then only after thirty (30) days' public notice to the district affected, and in no event may the Legislature provide for a district to be created without the affirmative vote of a majority of the taxpaying voters in the district concerned.

The Legislature may also provide for the dissolution of hospital districts provided that a process is afforded by statute for:

(1) determining the desire of a majority of the qualified voters within the district to dissolve it;

(2) disposing of or transferring the assets, if any, of the district; and

(3) satisfying the debts and bond obligations, if any, of the district, in such manner as to protect the interest of the citizens within the district, including their collective property rights in the assets and property of the district, provided, however, that any grant from federal funds, however dispensed, shall be considered an obligation to be repaid in satisfaction and provided that no election to dissolve shall be held more often than once each year. In such connection, the statute shall provide against disposal or transfer of the assets of the district except for due compensation unless such assets are transferred to another governmental agency, such as a county, embracing such district and using such transferred assets in such a way as to benefit citizens formerly within the district.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the constitutional amendment providing the method and manner for dissolution of hospital districts.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.

SENATE JOINT RESOLUTION NO. 19 proposing an Amendment to Section 49-d, Article III of the Constitution of the State of Texas, declaring state policy regarding optimum development of water reservoirs; providing for the use of the Texas Water Development Fund under such conditions as the Legislature may prescribe by General Law in the acquisition and development of storage facilities and any system of works properly appurtenant thereto; providing for the sale, lease or transfer of such facilities under General Laws; providing for long-term contracts for water storage facilities; authorizing the issuance of an additional $200,000,000 in bonds by the Texas Water Development Board upon a two-thirds (2/3) vote of the elected members of each house; providing that anticipatory legislation shall not be invalid because of its anticipatory character; providing for the necessary election, form of ballot; and proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-d of Article III of the Constitution of the State of Texas be amended to read as follows:

"Section 49-d. It is hereby declared to be the policy of the State of Texas to encourage the optimum development of the limited number of feasible sites available for the construction or enlargement of dams and reservoirs for conservation of the public waters of the state, which waters are held in trust for the use and benefit of the public. The proceeds from the sale of the additional bonds authorized hereunder deposited in the Texas Water Development Fund and the proceeds of bonds previously authorized by Article III, Section 49-c of this Constitution, may be used by the Texas Water Development Board, under such provisions as the Legislature may prescribe by General Law, including the requirement of a permit for storage or beneficial use, for the additional purposes of acquiring and developing storage facilities, and any system or works necessary for the filtration, treatment and transportation of water from storage to points of treatment, filtration and/or distribution, including facilities for transporting water therefrom to wholesale purchasers, or for any one or more of such purposes or methods; provided, however, the Texas Water Development Fund or any other state fund provided for water development, transmission, transfer or filtration shall not be used to finance any project which contemplates or results in the removal from the basin of origin of any surface water necessary to supply the reasonably foreseeable future water requirements for the next ensuing fifty-year period within the river basin of origin, except on a temporary, interim basis.

"Under such provisions as the Legislature may prescribe by General Law the Texas Water Development Fund may be used for the conservation and development of water for useful purposes by construction or reconstruction or enlargement of reservoirs constructed or to be constructed or enlarged within the State of Texas or on any stream constituting a boundary of the State of Texas, together with any system or works necessary for the filtration, treatment and/or transportation of water, by any one or more of the following governmental agencies: by the United States of America or any agency, department or instrumentality thereof; by the State of Texas or any agency, department or instrumentality thereof; by political subdivisions or bodies politic and corporate of the state; by interstate compact commissions to which the State of Texas is a party; and by municipal corporations. The Legislature shall provide terms and conditions under which the Texas Water Development Board may sell, transfer or lease, in whole or in part, any reservoir and associated system or works which the Texas Water Development Board has financed in whole or in part.

"Under such provisions as the Legislature may prescribe by General Law, the Texas Water Development Board may also execute long-term contracts with the United States or any of its agencies for the acquisition and development of storage facilities in reservoirs constructed or to be constructed by the Federal Government. Such contracts when executed shall constitute general obligations of the State of Texas in the same manner and with the same effect as state bonds issued under the authority of the preceding Section 49-c of this Constitution, and the provisions in said Section 49-c with respect to payment of principal and interest on state bonds issued shall likewise apply with respect to payment of principal and interest required to be paid by such contracts. If storage facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the state's investment.

"The aggregate of the bonds authorized hereunder shall not exceed $200,000,000 and shall be in addition to the aggregate of the bonds previously authorized by said Section 49-c of Article III of this Constitution. The Legislature upon two-thirds (2/3) vote of the elected members of each House, may authorize the Board to issue all or any portion of such $200,000,000 in additional bonds herein authorized.

"The Legislature shall provide terms and conditions for the Texas Water Development Board to sell, transfer or lease, in whole or in part, any acquired storage facilities or the right to use such storage facilities together with any associated system or works necessary for the filtration, treatment or transportation of water at a price not less than the direct cost of the Board in acquiring same; and the Legislature may provide terms and conditions for the Board to sell any unappropriated public waters of the state that might be stored in such facilities. As a prerequisite to the purchase of such storage or water, the applicant therefor shall have secured a valid permit from the Texas Water Commission or its successor authorizing the acquisition of such storage facilities or the water impounded therein. The money received from any sale, transfer or lease of storage facilities or associated system or works shall be used to pay principal and interest on state bonds issued or contractual obligations incurred by the Texas Water Development Board, provided that when moneys are sufficient to pay the full amount of indebtedness then outstanding and the full amount of interest to accrue thereon, any further sums received from the sale, transfer or lease of such storage facilities or associated system or works may be used for the acquisition of additional storage facilities or associated system or works or for providing financial assistance as authorized by said Section 49-c. Money received from the sale of water, which shall include standby service, may be used for the operation and maintenance of acquired facilities, and for the payment of principal and interest on debt incurred.

"Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such Acts shall not be void by reason of their anticipatory character."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment authorizing the issuance of an additional $200,000,000 in Texas Water Development Bonds and providing for further investment of the Texas Water Development Fund in reservoirs and associated facilities."

"AGAINST the Constitutional Amendment authorizing the issuance of an additional $200,000,000 in Texas Water Development Bonds and providing for further investment of the Texas Water Development Fund in reservoirs and associated facilities."

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this state.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article IX of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as Section 12, reading as follows:

"Section 12. The Legislature may by law provide for the creation, establishment, maintenance and operation of Airport Authorities composed of one or more counties, with power to issue general obligation bonds, revenue bonds, either or both of them, for the purchase, acquisition by the exercise of the power of eminent domain or otherwise, construction, reconstruction, repair or renovation of any airport or airports, landing fields and runways, airport buildings, hangars, facilities, equipment, fixtures, and any and all property, real or personal, necessary to operate, equip and maintain an airport; shall provide for the option by the governing body of the city or cities whose airport facilities are served by certificated airlines and whose facility or some interest therein, is proposed to be or has been acquired by the Authority, to either appoint or elect a Board of Directors of said Authority; if the Directors are appointed such appointment shall be made by the County Commissioners Court after consultation with and consent of the governing body or bodies of such city or cities, and if the Board of Directors is elected they shall be elected by the qualified taxpaying voters of the county which chooses to elect the Directors to represent that county, such Directors shall serve without compensation for a term fixed by the Legislature not to exceed six (6) years, and shall be selected on the basis of the proportionate population of each county based upon the last preceding Federal Census, and shall be a resident or residents of such county; provide that no county shall have less than one (1) member on the Board of Directors; provide for the holding of an election in each county proposing the creation of an Authority to be called by the Commissioners Court or Commissioners Courts, as the case may be, upon petition of five per cent (5%) of the qualified taxpaying voters within the county or counties, said elections to be held on the same day if more than one county is included, provided that no more than one (1) such election may be called in a county until after the expiration of one (1) year; in the event such an election has failed, and thereafter only upon a petition of ten per cent (10%) of the qualified taxpaying voters being presented to the Commissioners Court or Commissioners Courts of the county or counties in which such an election has failed, and in the event that two or more counties vote on the proposition of the creation of an Authority therein, the proposition shall not be deemed to carry unless the majority of the qualified taxpaying voters in each county voting thereon vote in favor thereof; provided, however, that an Airport Authority may be created and be composed of the county or counties that vote in favor of its creation if separate propositions are submitted to the voters of each county so that they may vote for a two or more county Authority or a single county Authority; provide for the appointment by the Board of Directors of an Assessor and Collector of Taxes in the Authority, whether constituted of one or more counties, whose duty it shall be to assess all taxable property, both real and personal, and collect the taxes thereon, based upon the tax rolls approved by the Board of Directors, the tax to be levied not to exceed Seventy-Five Cents (75c) per One Hundred Dollars ($100) assessed valuation of the property, provided, however, that the property of state regulated common carriers required by law to pay a tax upon intangible assets shall not be subject to taxation by the Authority, said taxable property shall be assessed on a valuation not to exceed the market value and shall be equal and uniform throughout the Authority as is otherwise provided by the Constitution; the Legislature shall authorize the purchase or acquisition by the Authority of any existing airport facility publicly owned and financed and served by certificated airlines, in fee or of any interest therein, or to enter into any lease agreement therefor, upon such terms and conditions as may be mutually agreeable to the Authority and the owner of such facilities, or authorize the acquisition of same through the exercise of the power of eminent domain, and in the event of such acquisition, if there are any general obligation bonds that the owner of the publicly owned airport facility has outstanding, the same shall be fully assumed by the Authority and sufficient taxes levied by the Authority to discharge said outstanding indebtedness; and likewise any city or owner that has outstanding revenue bonds where the revenues of the airport have been pledged or said bonds constitute a lien against the airport facilities, the Authority shall assume and discharge all the obligations of the city under the ordinances and bond indentures under which said revenue bonds have been issued and sold. SENATE JOINT RESOLUTION NO. 26 proposing an Amendment to Sections 4 and 5 of Article V of the Constitution of the State of Texas to provide for a Court of Criminal Appeals of five members; prescribing their qualifications; elections, appointments, tenure of office and compensation; and prescribing the term of court of said court.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 4 of Article V of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 4. The Court of Criminal Appeals shall consist of five Judges, one of whom shall be Presiding Judge, a majority of whom shall constitute a quorum, and the concurrence of three Judges shall be necessary to a decision of said court. Said Judges shall have the same qualifications and receive the same salaries as the Associate Justices of the Supreme Court. They shall be elected by the qualified voters of the state at a general election and shall hold their offices for a term of six years. In case of a vacancy in the office of a Judge of the Court of Criminal Appeals, the Governor shall, with the advice and consent of the Senate, fill said vacancy by appointment until the next succeeding general election.

"The Judges of the Court of Criminal Appeals who may be in office at the time when this Amendment takes effect shall become Judges of the Court of Criminal Appeals and continue in office until the expiration of the term of office for which each has been elected or appointed under the present Constitution and laws of this state, and until his successor shall have been elected and qualified.

"The two members of the Commission of Appeals in aid of the Court of Criminal Appeals who may be in office at the time when this Amendment takes effect shall become Judges of the Court of Criminal Appeals and shall hold their offices, one for a term of two years and the other for a term of four years, beginning the first day of January following the adoption of this Amendment and until their successors are elected and qualified. Said Judges shall by agreement or otherwise designate the incumbent for each of the terms mentioned.

"The Governor shall designate one of the five Judges as Presiding Judge and at the expiration of his term and each six years thereafter a Presiding Judge shall be elected."

Sec. 2. That Section 5 of the Article V of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 5. The Court of Criminal Appeals shall have appellate jurisdiction coextensive with the limits of the state in all criminal cases of whatever grade, with such exceptions and under such regulations as may be prescribed by law.

"The Court of Criminal Appeals and the Judges thereof shall have the power to issue the writ of habeas corpus, and under such regulations as may be prescribed by law, issue such writs as may be necessary to enforce its own jurisdiction. The Court of Criminal Appeals shall have power upon affidavit or otherwise to ascertain such matters of fact as may be necessary to the exercise of its jurisdiction.

The Court of Criminal Appeals may sit for the transaction of business at any time from the first Monday in October to the last Saturday in September in each year, at the State Capitol. The Court of Criminal Appeals shall appoint a clerk of the court who shall give bond in such manner as is now or may hereafter be required by law, and who shall hold his office for a term of four years unless sooner removed by the court for good cause entered of record on the minutes of said court.

"The Clerk of the Court of Criminal Appeals who may be in office at the time when this Amendment takes effect shall continue in office for the term of his appointment."

Sec. 3. Said proposed Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held throughout the state on the first Tuesday after the first Monday in November, A.D. 1966, at which election each voter opposing said proposed Amendment shall scratch off the ballot with a pen or pencil the following words printed on said ballot:

Would you believe that 80 per cent of the world's knowledge has been acquired in the last 10 years? If so, you will find it easy to believe still another startling estimate — that the scope of human knowledge will double each 10 years in the future.

This new knowledge will serve you in many ways. One benefit will be more and better electric service, making your work lighter and your life more enjoyable.

That's why Central Power and Light Company — while paying its full share of taxes to maintain South Texas schools — also has an expanding program of scholarship awards designed to help deserving students advance their education in engineering, business administration, home economics and electric technology. CPL scholarships have been awarded for studies at Texas A&I College, Pan American College, Del Mar Technical Institute and Southwest Texas Junior College.

This year's scholarship winners are pictured here. In addition, there are 14 young South Texans continuing their studies with the aid of CPL scholarships granted in previous years.
