

## On The BEAM

By J. W. King, Sr.

We were delightfully surprised last Saturday when so many people attended open house in our new location. More than a hundred people came and inspected our plant and learned how a newspaper is produced.

We are grateful to those who thought of us and had flowers sent, and we are grateful, too, for the many kind words for our newspaper and the admiration of our building and plant.

Some came who had never paid much attention to their home newspaper other than to read it. They were delighted at seeing the Linotype, the machine that set these words, operate. Some were amazed at the amount of work it takes to make a newspaper, of the many operations necessary to be done to produce a newspaper.

Segregation of white and negro children in the schools of the United States will no longer be lawful, according to a ruling handed down by the Supreme Court this week.

What arrangements will be made in our district to handle the situation is not yet known.

## April and May Rains Total 7.45 Inches

The earth is thoroughly soaked in this part of the country and over a great portion of the state that has been suffering from the drought for several years.

The rain Monday night and Tuesday morning deposited 1.20 inches in Loraine at the official rain gauge and left moisture in the same proportion over a wide area of the territory. Southeast of town toward Champlain the rain measured from four to five inches. G. B. Tarrt says the place near Champlain was a sea of water. At his place his gauge, which measured only 4 inches, was full and he guessed the fall at 5 inches.

Farmers are anxious for the sun to shine for a few days now so they can get on with planting of their crops. Some had planted before the May rains started but in many cases will have to be re-planted.

Money for the program is from a federal emergency fund recently authorized for Texas, Oklahoma, New Mexico, Colorado and Kansas.

The allotment will be paid to county farmers and ranchers in cost-sharing benefits who carry out wind erosion control practices in accordance with provisions administered by ASC committee.

Each individual is limited to \$1500. And no farmer or rancher can duplicate a practice for both this emergency program and the regular ACP program and be paid for both.

Practices listed that are practical for Mitchell County include the following:

1. Contour listing with maximum federal cost share of 50 cents per acre.  
2. Field strip cropping with perennial grasses or sorghums with maximum cost share of \$1.25 per acre.

3. Seeding of grain sorghums and certain grains and grass after July 10, for purpose of wind control with maximum cost share of \$1 per acre for row crop and \$1.25 per acre for drilled and broadcast.

4. Deferred grazing on land where deferment of grazing is necessary to natural reestablishment of grass cover needed for protection of soil. Maximum cost share is 25 cents per acre.

5. Pitting or chiseling grazing land for wind erosion control with maximum cost share of 75 cents per acre.

According to regulations of the emergency program, anyone who listed land on contour since last March 31, is eligible for cost share payments.

Application for the cost-share benefit should be made immediately to the ASC office, according to the county committee. To be eligible for the contour payment application must be made before June 1.

Those in the Loraine area wish to plant castor beans may obtain Cimarron variety seed at the Producers Gin Co., according to Jack Linam, who plans to plant several acres to the crop.

There is no limit to the number of acres an individual may plant. The price the farmer can expect for the hulled castor beans is \$6.00 per hundred (support price) or the market price whichever is the greater.

Harvesting and hulling equipment will be available in the county.

## Seniors Feted At Barbecue

What a gala time the seniors had last Saturday night. The sponsors, Miss Kitchens and Mr. Shipman, gave an ice cream party at the Shipman home. All had a big laugh when pictures taken on the senior trip were shown, then thoroughly stuffed on ice cream and a very pretty cake and fruit punch. The cake was white and held the words "Congratulations Seniors" and all agreed that it was too pretty to eat. Along with this, games were played and all talked which is a custom of the seniors.

Good time for the seniors over the weekend wasn't over by any means for Sunday at 11 a. m. all met at the First Church of Christ for the annual church visit. Minister Gary Freeman brought a very inspirational sermon. The seniors enjoyed their visit to such a friendly church. After church services Supt. and Mrs. Homsley entertained the seniors with a wonderful dinner of barbecue with all the trimmings. This was topped off by freezer cream and cakes of all kinds. After eating here the seniors can truly say they are not top heavy, but middle heavy and a long way from being trim.

Late in the afternoon Sunday the seniors went to the Baptist Church and rehearsed for the Baccalaureate service which was held that night when Rev. Hartley brought a very inspirational message.

Friday night the seniors will receive their diplomas at the Dona-Lin Drive-In Theatre. A spokesman for the class said: "We want to say that we are one class of seniors that have had the 'best yet' and believe we are sure thankful to many people for making our school years so pleasant."

## Ragain Martin Tells of Japan Tour

Lt. Ragain Martin is visiting his mother, Mrs. Doris Martin, and among Lorraine friends since arriving in the States after 17 months in Japan on duty as Pilot of a C-46.

Ragain, a graduate of Lorraine High School, and only lacks a short time having a degree from McMurry College, received his wings and commission at Reese Air Force Base, Lubbock, October 25, 1952, and three weeks later was in Japan ready for his new assignment which proved to be almost daily trips from his base to Korea, flying supplies, men and passengers over, and wounded personnel back.

One mission in particular was interesting: the time his was one of five crews who carried the Chinamen, originally communists and had refused to return to communism, and were taken to Formosa where they were met and entertained by Generalissimo Chiang Kai Shek, who ordered a royal reception be given the crew members in the city of Tiwan at the Friends of China Hotel which proved to be a very royal affair.

Most of the Chinese men taken to Formosa were tubercular. Among the places he was privileged to visit on sightseeing trips were Hong Kong, Indo China, Okinawa, Wake Island, and the Philippine Islands. He also made a trip to Manila, visiting silk factories, laquer ware factories, churches, and schools. From Formosa he brought back a star sapphire and rubies from Hong Kong.

In Tokyo riots are very prevalent, always trouble from some source. Also in Tokyo no tipping is allowed, and always too, the American will pay double price in making a purchase unless he is accompanied by one who knows the price, and calls the merchant on his hold-up prices.

Japan, where we think of rice being the first item on their diet, Ragain says they export their rice which is first class, and import rice of an inferior grade for their own consumption.

Enroute home he spent four days in the Hawaiian Islands with a friend who lived there.

Why FARM PROPERTY INSURANCE is your most dependable hired hand

You know best how Mother Nature can play havoc with your house and other farm buildings, machinery, livestock and crops. Fire, lightning, windstorm, tornadoes, flood and hail, cause tremendous property losses.

Sufficient insurance coverage can give you all the protection you need. Then, when trouble comes, the promises of your reliable hired hand, your insurance policy, will relieve you of financial worries.

When you're in town, drop in and we'll discuss how this "hired hand" can work for you.

## To A Request for Payment of a Bill

The News is indebted to J. E. Reddin for a copy of an oldy that is still capable of bringing a smile or two. Under the above heading it goes like this:

In reply to your request to send a check, I wish to inform you that the present condition of my bank account makes it almost impossible. My shattered financial condition is due to Federal laws, State laws, County laws, City laws, Corporation laws, Liquor laws, Mother-in-laws, Brother-in-laws, Sister-in-laws, and Outlaws.

Through these laws I am compelled to pay a business tax, amusemen' tax, head tax, school tax, gas tax, light tax, sales tax, liquor tax, carpet tax, income tax, food tax, furniture tax, and excise tax. Even my brains are taxed. I am required to get a business license, car license, hunting license, and fishing license, truck license, not to mention a marriage' license and dog license.

I am also required to contribute to every society and organization which the genius of man is capable of bringing to life; to woman's relief, the unemployed relief, and the gold diggers relief. Also to every hospital and charitable institution in the city, including the Red Cross, the black cross, the purple cross and the double cross.

For my own safety I am required to carry life insurance, property insurance, liability insurance, burglar insurance, accident insurance, unemployment insurance, old age and fire insurance.

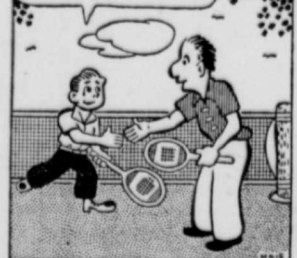

My business is so governed that it is no easy matter for me to find out who owns it. I am inspected, expected, suspected, dispected, rejected, dejected, examined, re-examined, informed, required, summoned, fined, commanded, and compelled until I provide an inexhaustible supply of money for every known need of the human race.

Simply because I refuse to donate to something or other I am boycotted, talked about, lied about, beat up, held down, and robbed until I am almost ruined.

I can tell you honestly that except for the miracle that happened, I could not enclose this check. The Wolf that comes to many doors nowadays just had pups in my kitchen. I sold them and here is the money.

## Farm Income Up For This Year

Austin, Texas, May 12—Texas farmers' cash income for the first quarter of 1954 was 4 per cent higher than the same period last year, the University of Texas Bureau of Business Research reports.

Income from peanuts was up 109 per cent, sheep and lambs 106 per cent, oats 64 per cent, grain sorghums 46 per cent, and cattle and wool, both 14 per cent.

Wheat income dropped 40 per cent and cottonseed and mohar incomes, each 39 per cent.

March crop prices averaged 3 per cent higher than February but prices for livestock and products dropped 3 per cent.

The Texas agricultural picture brightened during April as rains ranging from light to drenching fell over the state, the Bureau says. By late April, however, no general re- of had alleviated the droughty conditions, resulting from the driest January-March quarter ever recorded in Texas history.

Rainfall particularly helped the North Texas wheat crop, labeled "near disaster" only hours before rains set in, the researchers report, in the state's eastern, central and southern portions moisture also helped the crop outlook. Lower Rio Grande Valley conditions, particularly were encouraging in spite of damaging floods in some fields.

Mr. and Mrs. Paul Geron and family of Sweetwater and Mrs. Curtis Baker and sons of Midland were weekend guests of Mr. and Mrs. Charlie Lee.

## HINTS From Home Ec. Dept.

Pretty shoes are in the limelight this season. You can give plain pumps or ballet slippers a bit of glamor by adding some fresh or artificial flowers to match your dress. Just tie or wire a few flowers to the large loop of a paper clip, then slip the smaller loop of the clip inside your shoe.

Do you yearn for a curly bang while wearing a straight one? Just take a piece of cotton, finger length and wind your bang around it catching it at each end with a bobby pin. When you brush out your hair you will be surprised by the soft fluffy bang this achieves.

Talon announces a new zipper with a magic tab which is the result of 12 years of research. When fabric or thread jam the slider or catch in zipper teeth, the tab is flipped up and pressed gently so that the slider rocks back from its position on the chain to release the fabric. The new slider cannot come off the chain or mesh incorrectly, and is simple and swift in operation.

Whether you are an experienced home sewer or one who only reverts to needle and thread when absolutely necessary, you should consider using plastic food storage boxes for your sewing aids. The many sizes and shapes of these transparent boxes can be readily adapted to accommodate various types of sewing equipment and notions and one can see at a glance what is inside.
