

Town Talk

By MAC MCKINNON

The weather may not have set any records for low temperatures but it seems like years since it has been warm. The last time I remember being warm was on Christmas Day.

Looking on the brighter side of things, the cold weather should hold down the bug population next summer which will be beneficial to farmers. In addition, the moisture we have received will provide a good base for crops this year. This is what we sorely needed last winter and never received.

Hopefully, we'll get some good rains between now and April and build up water levels in both lakes.

In relation to farming, there has been a lot of speculation about cattle prices. Some people have told me they believe the market has topped out. However, they also said that several months ago.

As far as I know, cattle have never ever been this high before, but this is also of concern to cattlemen. They don't want any more boom and bust situations like happened in 1973 and 1974.

Have you seen any of the new shows on TV? I've tried to catch most of them and only found a couple I really liked. One of those is Salvage with Andy Griffith, one of my favorite actors. Backstairs at the White House seems to be an interesting miniseries and Sweepstakes has possibilities.

Several of the new shows seem to be total bombs, including Brothers and Sisters, Turnabout, Dukes of Hazard and Hello, Larry. Most of these new shows based on comic strip heroes aren't just real exciting either.

My favorite shows are Paper Chase, MASH, Lou Grant, Quincy, Incredible Hulk, The White Shadow and Battlestar Galactica.

If you get a pencil out and figure on President Carter's new budget, you'll find in most categories he has violated his own guidelines to fight inflation.

And there is one thing you can depend on Congress doing—increasing the budget.

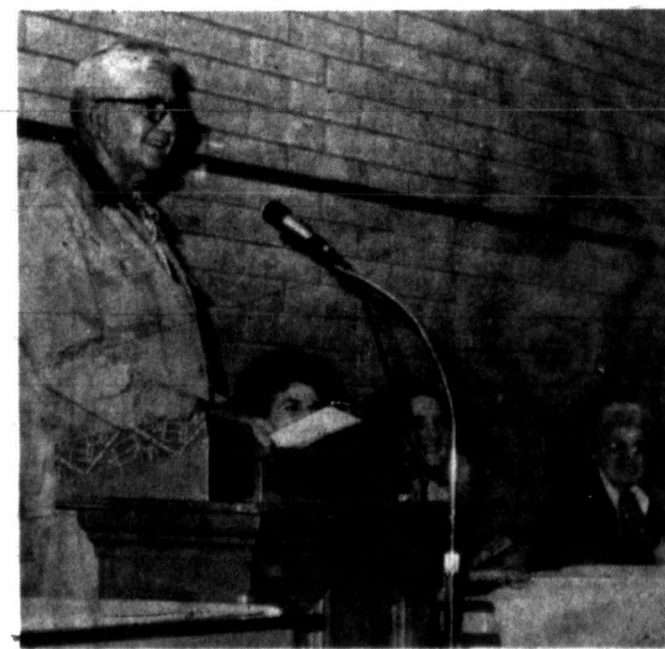

A number of people have asked why certain pictures taken at local livestock shows have not appeared in the Record. The one simple answer to that is that they didn't come out.

The cold weather has a very detrimental effect on photography and chemistry involved and that is one of the reasons we have had difficulty with our pictures in the paper in recent editions.

We're working on the problem and we do apologize for not being able to print some of the winners in the stock shows as well as other events we have attempted to photograph.

NEW BOARD members of the Col-Tex Credit Union board are Larry Blasingame, left, and Billie Apperson. The board was expanded by two members and these two were named to those positions. H. P. Ball, Credit Union president, said expansion of the board was necessary due to increasing business.

Also pictured are right to left, Auta Doss, head of the Credit Union's Supervisory Committee, Karen Halsell, Credit Union employee, and Joyce Tolle, Credit Union treasurer and manager. It was reported during the meeting that the Credit Union has 1,443 members with deposits of \$1,231,000 and assets of \$1,352,000. Some 350 persons attended the meeting.

1979 Collections Indicate Increase

Wednesday was the last day Mitchell County taxpayers could pay their property taxes without a penalty tacked on. A check of three Mitchell County tax offices Tuesday afternoon revealed that the collections were coming along as well or better than last year.

Colorado Independent School District Tax Assessor-Collector J. S. Craddock Jr., stated that thus far in January, his office had collected about \$460,000 in taxes as compared with about \$382,000 for January 1978.

Craddock went on to say that as of Tuesday his office had collected about 73 per cent of the taxes. He added that this may sound like a low percentage but that most of the oil companies and other corporations owning land in the area choose to make half payments of their taxes. They pay half in October and the rest in June.

He stated that he expected a final collection rate of about 96 per cent.

Mike Burt, county tax assessor-collector said Tuesday that he had collected about 96 per cent of the taxes due. He added that most of the

big accounts had come in and that he expected about a 98 per cent final collection rate.

Burt stated that if the property taxes aren't paid by the end of January, the property owner must pay a 1.5 per cent penalty in February. The rate increases by 1.5 per cent each month thereafter until July when it jumps to 11 per cent and the account is turned over to delinquent tax attorneys.

Gins Complete 39,079 Bales

Texas sunshine is what Mitchell County cotton producers are hoping for to complete the 1978 harvest by Feb. 9.

"We need lots of pretty weather," said Johnny Hillhouse, manager of Buford Co-op Gin.

Hillhouse noted that many producers had completed the harvest and some have started to prepare the ground for the 1979 cotton crop.

Earnest Walker, manager of Farmers Gin, said that ginning was completed Friday with 3,030 bales.

A spokesman for Westbrook Gin said that

if clear weather prevails, ginning will be completed within 10 days. With good weather, Producers Co-op expects to be finished with ginning this week. Mitchell County gins are keeping up with the cotton flow with only 123 bales on the yard, according to a report late Tuesday afternoon.

If cotton production for the 1978 crop goes according to reports—including bales ginned, bales on the yard and expected bales—Mitchell County gins should chalk up a 40,652 total. Of that total, 37,997 bales will be from Mitchell County fields.

Presently, Mitchell County gins have completed ginning 39,079 bales with 36,579 from local fields.

Gins are expecting 1,450 more bales with 1,350 of these from Mitchell County fields.

Area gins reported the following bale counts: —Buford Co-op Gin, 3,503 ginned, none on the yard and 100 more bales expected.

—China Grove Co-op, 5,001 ginned with 2,501 from Mitchell County fields, 110 on the yard with 55 from local fields and 200 more bales expected with 100 from local fields.

—Colorado Gin Com-

pany, 1,960 ginned, three on the yard and 50 more bales expected.

—Farmers Gin, 3,030 ginned upon completion of the 1978 harvest.

—Loraine Co-op, 9,559 ginned, none on the yard and 400 more bales expected.

—Mitchell County,

4,552 ginned, none on the yard, and 300 more bales expected.

—Westbrook Gin, 3,674 ginned, none on the yard and 200 more bales expected.

—Producers Co-op, 7,800 ginned, 10 on the yard and 400 more bales expected.

Loraine Coach Resigns Post

Loraine School Superintendent L. R. Dunn stated Tuesday that thus far no replacement had been named for high school basketball coach Caddo Matthews but that the school hoped to have the position filled soon.

Matthews, who was in his first season as coach of the boys varsity and junior high basketball teams, resigned Friday. According to Dunn, his resignation was for health reasons and was on the advice of his doctor.

Dunn said that Ken

Lightfoot will coach the boys varsity basketball team for the remainder of the season. Lightfoot is also the girls varsity basketball coach. He will also coach the boys junior high team and is being assisted by Mrs. Sandra Phillips.

Dunn stated that at present Mrs. Phillips is teaching Matthews' other classes, including a high school American History class, a high school government class and a seventh grade social studies class.

HEADACHES AND CHIROPRACTIC

Did you ever stop to think what headache pain means? There is a good reason for pain—just as there is a good reason for the red light and siren on a police emergency vehicle. Headache pain is nature's signal warning you that something is wrong—perhaps something quite serious. It is a signal, also, to do something about it—to remove the cause of the headache before more serious damage occurs. Although few laymen are capable of diagnosing their own ills, millions will gulp pain relievers to deaden headaches. They will do this day after day, ignoring

nature's danger signals. To do this is like cutting the wires to your brake lights so it will not shine and bother you. Disaster could result!

There are many types of headaches. Some, such as those following over indulgence in food or drink, have simple explanations. One of the most frequent cause of headaches is misalignment of one or more of the cervical vertebrae. These small spinal bones in the neck region, when displaced by unusual stress, can affect the function of the nerve fibers passing between them from the spinal cord, thereby producing pain in the cranial region. The intermediate causes of some types of headaches may include eye

trouble, digestive, eliminative, kidney, or heart troubles, infected tonsils, meningitis, and, in rare cases brain trouble itself. Your doctor of chiropractic will examine you and determine if your pain is due to an irritated nerve caused by a displaced vertebrae. If it is not, he will then refer you to a specialist, whether it be an internist, orthopedic surgeon, dentist or a neurologist. This will eliminate using a drug in your body that is not needed.

Chiropractors explain that the activity of every part of the body is controlled by the brain. The function of every cell, tissue, gland, muscle, and organ in your body ultimately depends on the commands

of your brain—given automatically and without conscious effort on your part. These commands, or nerve impulses are first transmitted from the brain through the spinal cord and then along various nerve trunks to a vast multitude of smaller nerves throughout the body.

If all parts of the body receive their proper amounts of nerve energy, transmitted from the brain without interference, your body will function at maximum health. Oftentimes, however, the stresses of daily activity, bodily jolts, or sudden twists will cause one or more of your spinal vertebrae, which serve to protect the spinal cord, to slip over so

position and become subluxated.

Subluxated vertebrae cause an impediment in the amount of nerve energy flowing through one or more nerve trunks emanating from the spinal cord. When the part of your body served by the affected nerves receives an abnormal amount of energy—either too much or too little—it is unable to function properly and usually will cause pain to the signal that something is wrong. The chiropractor, by careful examination of his patient and making skilled adjustment of the spine, helps to restore the troublesome vertebrae to their proper positions, thereby eliminating the cause of nerve interference.

Women Promote Beef Industry

What are CowBelles? CowBelles are composed of women representing every segment of the beef industry and many related fields.

CowBelles work to promote the beef industry by providing accurate facts concerning the nutrition of beef, stressing the importance of the industry on the economy and general education of the public about all parts of the production of beef.

To successfully accomplish this the CowBelles sponsor beef gift certificates, beef for Father's Day, Ag Day, Farm City Week and educational booths at fairs, malls and supermarkets. Many pieces of beef education mate-

rial are distributed annually by the CowBelles.

Other activities performed by CowBelles include sending letters and placing many phone calls to appropriate offices in Washington to assist in efforts to obtain better legislation for the beef industry.

The Texas CowBelles are affiliated with state and national CowBelles. They work closely with Texas and Southwestern Cattle Raisers Association and the Texas Cattle Feeders Association.

Since the number of people in the beef business decreases each year it is important for them to join together to speak out for beef.

The eighth graders in art have been working with leather almost all six weeks. The leather did not come in in time for us to begin as scheduled, but we made good use of the extra time. We learned all the tools, took notes and were tested on what we learned.

We started our first project two weeks before Christmas vacation. We started another one the very next week. The first project was a key case for two keys. The next was a key case also, but bigger this time to hold five keys or more. After Christmas vacation we continued working on still another project. We have been

putting a lot of enthusiasm into our work and have been enjoying working with leather this six weeks. We are looking forward to whatever our next project will be.

Recording Secretary Rosanne Jameson called the roll and read the minutes of the previous meeting. Toni Raesener then summarized official communications and asked chapter members to submit suggestions for a State-wide Service Project. Anna Lee Dillard reported on the chapter's financial status, and Ways and Means Chairperson Donna Clark presented various ideas for money-raising projects for '79. Members then decided to honor Valentine Sweetheart Patrice McKinney with a party on February 3. With the completion of business, the meeting was adjourned and members stood for the Closing Ritual.

Karen Rose presented the cultural program for the night entitled "Teaching Others." Karen prefaced her presentation by defining various means of teaching.

With the conclusion of the program, hostess Sean Wright and co-hostess Becky Helms served breads, cheeses and spreads to the following members: Karen Rose, Nancy Baumann, Judy Bennett, Donna Clark, Rosanne Jameson, Rita Latimer, Carolyn Godsey and Toni Raesener.

Pledges of Texas Alpha Sigma Iota met Thursday night with vice president Patrice McKinney for regular pledge training. The pledges must complete study of the official manual of the organization, "The Book of Beta Sigma Phi," as well as the official pledge training manual, "Invitation to Life," before receiving the Ritual of Jewels degree. The pledges will meet one more time before taking the final examination.

The Hot Air Balloon Cookie Patch to be awarded this year carries out the theme of the sale, "Looking Up-Aiming High."

Income from the Cookie Sale is used to build the troop treasury, provide camperships and awards, help members attend national and international events and training, maintain established camp, promote troop camping, make improvements at Camp Boothe Oaks and maintain the Council properties.

Friday afternoon at 4 p.m. Girl Scout Cookies will go on sale. The cookies will sell for \$1.25 per box. There are two new kinds of cookies this year. They are Granola cookies and crunchy Sesame Wheat Crackers. In addition they will be selling peanut butter patties, sandwich creams, mints, shortbread and peanut butter sandwich.

With the conclusion of the program, hostess Sean Wright and co-hostess Becky Helms served breads, cheeses and spreads to the following members: Karen Rose, Nancy Baumann, Judy Bennett, Donna Clark, Rosanne Jameson, Rita Latimer, Carolyn Godsey and Toni Raesener.

We'll Be Happy To Explain Value and Economy For Your Tire Dollar

Every Michelin 'X' tire is backed by a 40,000 mile warranty for tread wear on domestic cars. That's just about twice the mileage you'd expect from a conventional tire under the same driving conditions. Also, because of its radial design the Michelin 'X' rolls with less road resistance than conventional tires, and that means you can save up to 10% on your present gas consumption (pretty good considering today's fuel crisis.) Plus, every Michelin 'X' tire gives you all the distinctive radial tire advantages over conventional bias-ply tires: smoother ride, easier handling, better traction and firmer road holding. And, they add up to a lot of comfort and safety. Invest in better driving. Stop in and have a set of Michelin 'X' radials installed today.

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams
TEXAS PRESS ASSOCIATION

Austin - Texas' 41st governor, Republican William P. Clements Jr., took over the reins of state government and immediately served notice he intends to "persist" and "prevail" in battling for his programs.

Clements, after a week on the job, spelled out his initial recommendations to the legislature this week. He earlier had ticked off his priorities in his inaugural speech.

The 61-year-old Clements and Democratic Lt. Gov. Bill Hobby were installed Jan. 16 in the first bi-partisan inauguration ceremonies in state history.

Businessman Clements said he expects to conduct government in a businesslike manner and make it accountable to the taxpayers.

"I must be a governor who puts quality, excellence, achievement and the best interests of this state above partisan loyalties," said Clements.

He served notice he will do battle for these causes:

-An additional \$1 billion tax cut.

-Constitutional amendments to give Texas citizens power to initiate and veto legislation and to provide other safeguards against excessive taxation and wasteful government spending.

-A reduction in the state bureaucracy. Clements has set as a goal a 25,000 member reduction in the ranks of state employees over a four-year period.

-Improvements in the quality of the education system.

Texas Leads
Land Commissioner Bob Armstrong reported a survey of states receiving income from lease of state lands shows Texas led the nation in 1978 with \$1,400 million in oil and gas royalties, bonuses and rentals.

Armstrong prepared the survey for presentation at a meeting of western state land commissioners.

Texas received \$261 million in oil and gas royalties from production on state-owned lands last year, \$6 million in other mineral royalties, \$93 million in bonuses paid by oil and gas companies to obtain leases on state lands, and \$8 million for oil and gas rentals of state lands.

Other states with ma-

for revenues from oil and gas production on state lands were Alaska, with \$180 million; California with \$97 million and Louisiana with \$201 million.

Plan Halted
Former Gov. Dolph Briscoe, just before leaving office, ordered work stopped on a coastal zone management plan which has been in the works five years and cost \$5 million.

The outgoing governor reportedly acted on advice of his natural resources advisor Hugh Yantis.

Mid-Continent Oil and Gas Association had been among leaders in opposition to the land-use plan which sought to

reduce impact of commercial development on state-owned coastal lands.

Clements could alter the decision and ask an extension from the federal government of time for submitting the plan.

Courts Speak
The Court of Criminal Appeals reversed the conviction for murder of parents in a Dallas child abuse case in which a two-year-old died of burns.

At the same time, the court affirmed 99-year prison terms assessed in deaths of three other children.

The State Supreme Court upheld a 1972 Lubbock ordinance restricting billboards to com-

mercial and manufacturing zones.

The Court of Criminal Appeals affirmed a 50-year sentence given a Dallas woman in the shooting death of a Georgia man. Two other men were wounded.

The court also reversed an Ector County sentence of a man in the death of his wife.

The Supreme Court freed an 80-year-old woman of responsibility for an \$1,850 loss as the result of a bogus repairman's altering her check. A Hart bank must pick up the loss, said the court.

Appointments
Gov. Clements appointed George Strake of Houston as his new

secretary of state. Clements also named Omar Harvey of Dallas to succeed Ben McDonald of Corpus Christi as director of the Texas Department of Community Affairs.

And he picked Brig. Gen. Willie Scott of Austin to replace retiring Maj. Gen. Thomas Bishop as Texas adjutant general and head of state military operations.

The senate promptly confirmed appointments of former Gov. Dolph Briscoe were Ruben Torres of Port Isabel to the Board of Pardons and Paroles,

James D. Startwell Sr. of Sealy to the Texas Animal Health Commission and Joe Bishop of Arlington to the University System of South Texas board of directors.

James Powell of Fort McKavett, Jon Newton of Austin and Howard Richard of Beaumont were Briscoe's choices to The University of Texas board of regents.

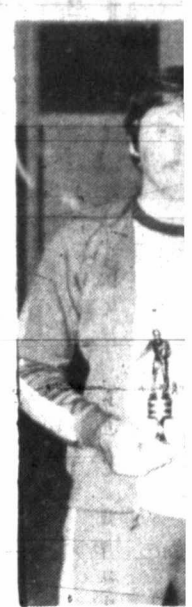

Short Snorts
The local option one per cent sales tax will yield Texas cities more than \$18.1 million, according to Comptroller Bob Bullock—\$300,000 less than last year. The tax brought a record take of \$424.8 million last year.

Bids up to \$11 million were taken for 3 highway projects at week.

The governor's office awarded Public Utility Commission \$150,000 grant to examine a process which captures and uses some of the utilized energy in a conventional electric power plant.

Gov. Briscoe asked lawmakers to approve more than \$3 million in emergency appropriations.

Oral arguments will be heard by the Railroad Commission Feb. 12 in an application of United Parcel Service Inc. to transport packages weighing less than 50 pounds between all points in Texas.

INFLATION FIGHTING ideas A Safeway service in support of suggestion from the U.S. Office of Consumer Affairs 2 "What's in a Name?" The U.S. Office of Consumer Affairs states: "Most large supermarket chains sell private label foods and household products. These private label or house brands are usually less expensive and equal in quality to national brands. In many cases supermarkets purchase their house brand goods from the same companies that manufacture nationally advertised brands." Because of various cost savings, including lower promotional costs, house brands can be sold for less. Each product in the entire (S) Brand line is identified with the red (S) and the words "FINEST SAFEWAY QUALITY". Rigorous quality specifications must be met before the familiar (S) goes on the label. Customers acquainted with (S) Brands know the products are comparable to top national brands... but they cost less. Get to know Safeway's family of (S) Brands, including Town House, Bel-air, Lucerne, Edwards, Safeway Mrs. Wright's, and many others. They're your staunch allies in the battle against inflation! Wildcats Mop Up On Hapless Highland

Westbrook Wildcats took a big step toward the District 10-B basketball title Tuesday night when they wiped out Highland to the tune of 75-39.

The win gave Westbrook a 2-0 record in the second half of district play. Highland was the only school which Westbrook had not yet beaten in district. The first round game between the two schools, originally scheduled for Jan. 5, was postponed because of the weather and will be played Saturday in

Highland. If the Wildcats defeat Highland Saturday, they will wind up the first half of district competition unbeaten.

Ricky Reyes led the Wildcats with 22 points but he had lots of help from Terry Webb with 21 points.

Coach Gary Womack's squad jumped out to a 21-8 lead at the end of the first quarter and increased their advantage each period. They led by a score of 39-14 at halftime and

enjoyed a 57-28 margin when the third quarter buzzer blew.

Westbrook's varsity girls weren't quite so fortunate as they dropped their first contest in the second half of district play by a score of 59-57.

Westbrook pulled out to a 15-4 lead after the first quarter and still enjoyed leads of 29-21 at halftime and 43-36 at the end of the third quarter.

Teresa Dorn and Rosemary Lopez led Westbrook with 24 and 15 points respectively.

☆☆ Sports Action ☆☆

Colorado City's boys teams took two easy wins over Anson while the local girls teams were barely edged out by Tiger teams at Wolf Stadium Tuesday night.

The boys junior varsity game, Colorado City took an easy 57-35 victory with Chuck Claxton scoring 12 points and Clay Hammond and Russell Noel each scoring eight points.

In the girls junior varsity, Anson won the narrow margin of 30-26 with Monique Taplin scoring 14 and Sherri Uselton dropping in eight points for Colorado City.

In the girls varsity contest, Colorado City's team had a cold night, shooting but still kept the game close with good defense as they lost by only nine points 51-42.

Top scorer for Colorado City was Anne Marcom with 13 points while Vikki Uselton had nine.

In the boys varsity contest, Colorado City led all the way, taking the win by the score of 76-36. Scoring for Colorado City were Tony Truelove with 16, Dwayne Staats with 15, Gene Carter with 12, Jay Feaster with 11, David Rivera and Rodney Wheeler with eight each and Ronald Proctor with six points.

RTA Has Nutrition Program

The Mitchell County Retired Teachers Association met Tuesday at 3 p.m. in the Wallace Center. Mrs. Juanita Coker, Cecil Smith, Mattie Hines and Inez Cope were hostesses.

There was a short business meeting presided over by Mrs. Dona Reed, acting president in the absence of Mrs. Olsen Sweet, president. Project plans discussed were to get more people to attend the meetings.

The program was a round table discussion led by Mrs. Dona Reed and Mrs. Della Fox on "Are You Making Nutrition Exciting?"

Refreshments of sandwiches, crackers and cakes were served from a table overlaid with a yellow tablecloth.

Those attending the meeting were Mrs. Floyd Coffee, Fern Coon, Swan Cramer, Della Fox, Elizabeth Gary, Alma Horton, Dona Reed, Jewell Richter, Clara Shoemaker and Mrs. Calrine Kennedy.

Also Edith Wilkerson, Mrs. T. D. Wiman, Mary Womack, Cecil Smith, Mattie Hines and Juanita Coker.

The next meeting will be at the Wallace Center at 3 p.m. February 13.

Clemmer Named Chairman

Mrs. Charlotte Clemmer was named Chairman of Bike-A-Thon in Colorado City by Reuben D. Duke, President of the Lone Star Chapter of the Cystic Fibrosis Foundation.

She will be conducting the Bike-A-Thon to raise funds which will support research and care for children affected by cystic fibrosis, severe asthma, chronic bronchitis, bronchiectasis and other related lung-damaging diseases.

Cystic Fibrosis, an incurable genetic disease, is inherited by one in every 1,500 babies born in the United States. Both parents carry the recessive gene for CF and number among one in twenty persons in the U.S. who may be carriers, usually without knowing it. With improved therapy and constant research, many CF patients are now living into early adulthood.

"Most people do not realize there are millions of children affected by lung-damaging diseases, and by participating in our Bike-A-Thon, you can help these children who can't take breathing for granted," said Duke.
