# US Bombers Hit Supply Routes

By GEORGE ESPER
Associated Press Writer

SAIGON (AP) — U.S. B52 bombers stepped up their attacks on North Vietnamese supply routes today as American artillery bombarded enemy troop positions along the southern edge of the demilitarized zone.

In the south, Viet Cong terrorists struck on the outskirts of Saigon and Da Nang. A grenade hurled into a government office building killed three civilians and wounded 10 others.

Military sources said that the B52, used for tactical support to South Vietnamese troops during their campaign in Laos, are shifting their attacks back to the mountains north of the DMZ.

Meanwhile, U.S. 175mm guns and 8-inch howitzers shelled North Vietnamese troops recently deployed further south in the DMZ.

The U.S. Command said that a forward air controller directed artillery onto enemy positions spotted four miles northwest of Gio Linh, the eastern end of the 46-mile-long DMZ.

Fifteen North Vietnamese troops were killed and nine bunkers were destroyed, the command said.

U.S. and South Vietnamese forces trying to pull out of Khe Sanh and Ham Nghi were bombarded by North Vietnamese artillery. About 40 rounds slammed into Khe Sanh, the U.S. forward base for helicopter operations into Laos, and several Americans were reported killed and wounded.

Terrorists also destroyed 10 houses and kidnaped six civilians in attacks eight miles northwest and 15 miles south of Da Nang, headquarters announced.

In Cambodia, military spokesmen said government troops have launched a major drive aimed at driving enemy forces from a 10-mile section of Highway 4, the route banking Phnom Penh and the seaport of Kompong Son.

Lt. Col. Am Rong said that 13 of 14 trucks in a convoy were destroyed in an enemy ambush last Thursday on the highway southwest of the capital. Earlier he had reported only three trucks were knocked out.

Am Rong said that in some instances trucks were set afire by allied warplanes called in to bomb and strafe the abandoned convoy to prevent munitions from falling into enemy hands.

In Laos, government soldiers retreated to the outskirts of Luang Prabang today as Communist forces continued their advance on the royal Laotian capital 130 miles north of Vientiane.

Communist troops were reported as close as four miles to the city.

Government artillery shelled Communist-controlled hills north of the city and T28 bombers attacked enemy positions in an effort to halt the advance.

U.S. Advised Guerrilla Units, withdrawing to the capital, said they were forced to abandon Ban Denche when Communist troops occupied Phou Lauang Mountain overlooking their positions.

Ban Donchio, four miles north of Luang Prabang's airport, was the forward most position occupied by government forces in their recent sweep against Pathet Lao and North Vietnamese units.

Laotian officers in Luang Prabang said their troops had suffered some casualties but no figures were available.

# Thousands Killed In Pakistan Fight

By MYRON L. BELKIND
Associated Press Writer

NEW DELHI (AP) — United News of India reported thousands dead in fierce fighting in East Pakistan today and said West Pakistan-dominated army units were battling civilians in Dacca, the provincial capital.

The agency also reported that Lt. Gen. Tikka Khan, chief martial law administrator of East Pakistan, died of injuries received when supporters of the province's political leader, Sheik Mujibur Rahman, stormed his residence in Dacca.

With tight censorship, there was no confirmation on any of the reports.

Radio Pakistan announced that Sheik Mujib was under arrest, but monitors in India also reported the sheik broadcast over a clandestine radio station that he was free and urged East Pakistanis to continue fighting for independence.

United News said a fight to control the Dacca radio station was raging and 2,000 persons had been killed on both sides in that battle.

It also reported Pakistani Air Force Bombers destroyed a hospital in Dacca, killing most of the patients.

The government radio in West Pakistan claimed the situation in the eastern province, separated by 1,000 miles of India, was "well under control." It said the 24-hour curfew imposed in Dacca Friday had been lifted for nine hours.

Sheik Mujib said in another broadcast that he offered Pakistani troops safe conduct out of the eastern region if they laid down their arms but warned their safety would not be guaranteed if they resisted.

The earlier broadcast claimed that the Pakistani air force was dropping bombs on "liberation fighters" and the army was using tanks.

Monitors in India quoted Sheik Mujib as saying he was in the port city of Chittagong, which unconfirmed reports reaching India said was in control of the Sheik's Awami League.

"I am okay, comrades—go ahead with your program to achieve the goal of freedom," the broadcast said. "Do not be misguided by enemy propaganda."

Supporters of the 51-year-old Awami League leader had already denied the report of his arrest and Prime Minister Indira Gandhi suggested the report "might be just propaganda."

Reports carried by Indian news agencies said casualties on both sides in the bloody civil war already run into the tousands.

United News said heavy fighting was raging throughout the province for the second straight day.

The Indian news agency said at least 50 persons were killed in Saidpur and that the streets of Rangpur were strewn with bodies of civilians.

# Nixon To Reveal Wage-Price Plan

By BILL NEIKIRK
Associated Press Wrier

WASHINGTON AP — Administration sources say President Nixon will announce Monday a plan for stabilizing wage and establishing complex inflation-fighting machinery in the construction industry.

The plan will stop short of a national price-wage stabilization board. But it will be another step toward the wage-guideline approach Nixon's economic advisers have counseled against using to combat inflation, even in an industry in which costs are soaring.

In the executive order calling on the construction industry to carry its own fight against inflation, Nixon also will reinstate the Davis-Bacon Act, the sources say.

That law, setting union-scale wage standards on federal construction projects, was suspended by the President last month in a move to control the industry's wage-price spiral.

Public members of the Construction Industry Collective Bargaining Commission recommended Friday that Nixon set wage criteria and establish craft-by-craft review boards to oversee wage movements and a wage stabilization board for enforcement action.

The wage standards would center around the level of pay raises negotiated in the mid-1960s and take into account cost-of-living changes.

If any part of the industry does not submit to self-regulation, administration sources say, the White House will consider suspending Davis-Bacon again and withholding construction projects from the offenders.

Meanwhile, the Commerce Department reported Friday the government's leading economic indicators rose by six-tenths of one per cent last month to a record 118.6 per cent of the 1967 base year. Observers termed it a moderate gain.

Unemployment-insurance claims, equipment orders, industrial material prices, stock prices and the labor-price cost ratio improved in February, the department said.

Three other major indicators—the average work week, new orders for durable goods and housing permits declined.

DRAWING IN EXHIBIT — This charcoal drawing, titled "Sam Billie, A Navajo," by Brownell McGrew of Cottonwood, Ariz., is in the Cowboy Hall of Fame traveling exhibit today at the Scurry County Coliseum.

# Hall Of Fame Art On Exhibit Here

A traveling exhibit of prize-winning western art from the National Cowboy Hall of Fame and Western Heritage Center in Oklahoma City will be on exhibit at the Scurry County Coliseum this afternoon.

The public is invited to view the exhibit between the hours of 1 p.m. and 5 p.m.

Dean Krakel, managing director of the center, said that the national center of Western Americana has its traveling exhibit of 16 of the country's top western artists here for the showing under sponsorship of the Diamond M Foundation. The Diamond M Museum also will be open to the public between 1 p.m. and 5 p.m. today.

The exhibit will remain here through Wednesday, with local organizations to host special events at the coliseum the first three days of the coming week. Monday will be "Palette Club Day" at the coliseum, while Tuesday will be "Ranch Headquarters Day" and Wednesday will be "Garden Clubs Day." These organizations will have guests in to see the exhibit between the hours of 2 p.m. and 8 p.m. each day.

The cowboy art reveals that there is still plenty of life in the Old West. Mechanization has brought about many changes in Western life, but the basic work unit is still the horse and rider—the West always will have cowmen and cowponies.

Twenty-one works of art by 16 painters in the traveling exhibit afford a panorama of the West, both past and present. Oil paintings, bronze scupltures, watercolors and drawings are featured. The range of subjects is as diverse as the West itself, including all kinds of cowboy action scenes, Indian life, historic scenes, pastoral landscapes, desert and mountain settings.

The art of Joe Beeler, James Boren, John Clymer, Charlie Dye, John Hampton, Ned Jacob, Robert Lougheed, George Marks, Brownell McGrew, William Moyers, Tom Ryan, Robert Scriver, Irwin "Shorty" Shope, Gordon Snidow, Jack Swanson and Melvin Warren comprises the exhibit. All are members of the Cowboy Artists of America, a 30-man organization which has an exhibit every summer at the National Cowboy Hall of Fame.

All of the artists are represented in many private and gallery collections.

## Rain Storm Hits Eastern Seaboard

By THE ASSOCIATED PRESS

A fierce rain storm retreated off the North Carolina coast today, but gale warnings were hoisted for much of the Eastern Seaboard including Virginia, Maryland and Delaware.

Winds of more than 50 m.p.h. battered Hatteras, N.C., while scattered snow fell from Virginia to South Carolina.

Icy weather snapped temperatures over much of the Northeast with the mercury plunging below zero in portions of northern New York and New England. Cold-wave warnings stretched as far south as the Carolinas.

Showers sprinkled the Pacific Coast states, while a few patches of snow and rain chilled an area from the Northern Rockies to the Northern Plains.

## Inflation Cited For F111 Cuts

WASHINGTON (AP) — Inflated costs have been cited for the Air Force's decision to cut back 12 more F111s from planned purchases of the controversial swing-wing fighter-bomber.

Each of the 12 craft would have cost about $8.6 million, compared with original estimates of about $3.4 million each.

The decision Friday will reduce Air Force purchases from General Dynamics Corp. to 519 aircraft plus seven bought for a since-canceled Navy program.

The Air Force said the cutback "was prompted by inflationary effects on the overall F111 program and some technical difficulties, primarily in aircraft avionics."

A total of 17 F111s have crashed. The entire fleet of F111s, numbering 230 in December 1969, were grounded after a wing fell off one of the planes during a flight over Nevada.

Seven years ago Congress and then Secretary of Defense Robert McNamara tangled over plans to buy more than 2,400 TFXs, later called F111s, for both the Navy and the Air Force. The Navy criticized the plane as being unsuited for aircraft carriers.

## You Must Dial All 7 Digits

Seven-digit dialing of Snyder telephone numbers will be necessary as of Monday.

"On the effective date, any local call dialed with less than seven digits will not be completed," said Bill Gilliland, manager for Southwestern Bell.

"The change is being made because of necessary technical improvements," Gilliland pointed out. "We realize that Snyder customers have been dialing only five digits for many years and breaking the dialing habits may not be easy."

The first two digits of all Snyder numbers are "5".

# The SDN Column

Cowboy Artists of America is one of the most exclusive organizations in America, and many people are amazed over "who is not in it" as well as those who are members.

The members are 30 western artists who have won top awards in the annual summer exhibit at the National Cowboy Hall of Fame.

Now, a western artist need not reside in the west, but he must paint the west or sculpt the west. For example, Robert Lougheed lives in Newton, Conn., real Yankee country. But his painting, "The Bell Remuda" is as western as Albuquerque or Amarillo.

Anyway, 16 of these Cowboy Artists of America are represented in the art on exhibit this afternoon at the Scurry County Coliseum under sponsorship of the Diamond M Foundation.

As Dean Krakel, managing director of the National Cowboy Hall of Fame and Western Heritage Center says, "This exhibit will give visitors a chance to see what the modern-day Charlie Russells are doing to set down contemporary Western ways."

★ ★ ★

Tomorrow is the day we have to start dialing all seven telephone numbers to get connected with other telephones in Snyder. Heretofore, telephone subscribers on the same exchange did not have to include the first two numbers to dial each other.

That changes Monday, and we must dial the 57 for the first time here on local calls.

Telephone numbers and the way you use them have changed considerably over the past 30 to 40 years. In fact, there was a time in rural America when there were no numbers at all. There were "rings" for all phones on a given party line. You only went through "central" to get someone who was not on your line, and mostly you merely asked by name, rather than number. Theoretically you only answered the telephone when it sounded your ring, which might be two longs and a short, three longs, two shorts and a long, etc. But in those days the rings sounded on all phones on the line and nearly everybody took his, (or more likely it was her) telephone down to listen in. The telephone was almost as popular in those days as radio and television became later on. Some of the conversations were as interesting as most soap operas of today, and some of the audiences probably were nearly as large.

Now, if you happen to pick up your phone and hear multiple conversations going on, you know it must be an electronic snafu.

— WACIL McNAIR.

## Today In Historv

By THE ASSOCIATED PRESS

Today is Sunday, March 28, the 87th day of 1971. There are 278 days left in the year.

Today's highlight in history:

On this date in 1939, the Spanish Civil War ended as Madrid fell to the forces of Francisco Franco.

On this date:

In 1660, King George I of England was born.

In 1797, Nathaniel Briggs of New Hampshire received a patent for his washing machine.

In 1942, during World War II, British naval forces raided the Nazi-occupied port of St. Nazaire in France and blew up the harbor installations.

In 1945, Gen. Douglas MacArthur announced the Allied invasion of Cebu Island in the Philippines.

In 1946, the United States proposed an international agency with a world monopoly on uranium as a means of controlling atomic weapons.

Ten years ago: President John F. Kennedy and Soviet Foreign Minister Andrei Gromyko met in Washington and announced afterward they were in agreement on a policy of neutrality for Laos.

Five years ago: The National Assembly in Turkey elected Gen. Cevdet Sunay to a seven-year term as president.

One year ago: The government radio in Cambodia called all army veterans and reservists to active duty in the face of anti-government disturbances.

Good Adverse Neutral

OUCH, IT HURTS! — Peggy, the toy poodle of Mrs. Novella Shifflett, Claire Route, was one of the many dogs that received an innoculation from Dr. R. J. (Pop) Kidd during Dog Registration and Vaccination Day at the Central Fire Station Saturday. Fireman Tommy Guynes (left) is ready to assist.

# 'Granny' talk too much for him

By Abigail Van Buren

(c 1971 by Chicago Tribune-N. Y. News Synd., Inc.)

DEAR ABBY: I have a mother-in-law problem, but not the usual kind. She is not meddlesome, gossipy or anything like that. She is practically perfect — or she was, until 18 months ago when her daughter [my wife] made a grandmother of her. Now, I realize that all grandmothers think their grandchildren are the cutest, smartest, prettiest, etc., but my mother-in-law has overdone it until I want to gag.

She carries dozens of pictures with her and shoves them under everybody's nose whether he is interested or not. And, no one has a chance to talk about anything else when she's around. It is positively nauseating. She bores everyone to tears with her "granny" talk. I have sat in a group wanting to crawl under the carpet when she takes off about "my" grandchild. The worst part of it is, she doesn't realize how sickening it is to others.

How can I let this otherwise dear, sweet woman know that everyone is not as eager to listen to her "granny" talk as she is to spout it? EMBARRASSED IN ATLANTA

**DEAR EMBARRASSED: What's wrong with telling her?**

DEAR ABBY: My boy friend has been after me to prove my love. I tried to tell him what you said in an article about this, but it didn't come out right. If you can remember what you said, I would very much appreciate seeing it in your column. I am 15. Sign me . . .

"WEAKENING"

**DEAR WEAKENING: Here it is: Girls need to "prove their love" thru illicit sex relations like a moose needs a hatrack. Why not "prove your love" by sticking your head in the oven and turning on the gas? Or playing leap-frog out in traffic? It's about as safe. Any fellow who asks you to "prove your love" is trying to take you for the biggest, most gullible fool who ever walked. That proving bit is one of the oldest and rottenest lines ever invented!**

**Does he love you? It doesn't sound like it. Someone who loves you wants what is best for you. But now figure it out: He wants you to surrender your virtue. Throw away your self-respect. Risk the loss of your precious reputation. And risk getting into trouble and hurting yourself and hurting your family.**

**Does that sound as tho he wants what's best for you? That's the laugh of the century: He wants what's best for him . . . and he wants a thrill he can brag about at your expense.**

**Love? Who's kidding whom? A boy who really loves a girl would sooner cut off his right arm than hurt her. If you want my opinion, this self-serving so-and-so has already proved that he doesn't love you. [P. S. It wasn't an "article," it was from my book, "Dear Teenager."]**

DEAR ABBY: My husband [I'll call him Mel] is an excellent dancer. Recently while we were attending a dinner-dance, an acquaintance, sitting at another table, sent a note over to Mel requesting that he dance with his wife. Mel danced with her.

Later on, another man came over and told Mel that his wife was "dying" to dance with him. So Mel danced with her.

The men who asked my husband to dance with their wives did not ask me to dance, so while Mel was dancing I was left sitting alone at our table. Do you care to comment? CRUSHED WALLFLOWER

**DEAR CRUSHED: The men who recruited your husband for their wives should have had the good manners to ask you to dance. But since they didn't, your husband should have suggested it. A gentleman does not leave his lady sitting alone while he dances.**

**What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.**

**Hate to write letters? Send $1 to Abby, Box 69700, Los Angeles, Cal. 90069, for Abby's booklet, "How to Write Letters for All Occasions."**

## HOSPITAL NOTES

ADMISSIONS: Leah Bladwin, 742 East Ninth, Colorado City; Robert Sims, Rt. 2; Henry Wenetschlaeger, 221 Thirty-fifth; Valta Hataway, 211 Thirty-third; Veona Worrell, 809 Twenty-seventh.

DISMISSALS: Mrs. William Powell and baby girl, Micefisa Jalomas, Gerald Snider, Cynthia Aristead, Vallie Wall, Loy Forbes.

## Winds Are Bewildering

WASHINGTON (AP) — Blustery spring winds that delight kite flyers fill the weatherman with nostalgia.

From the late 1800's to the mid-1930's, kites gathered information on wind, temperature and pressure vital to weather bureau forecasts.

Sophisticated weather balloons check the winds now. More than 200 soar aloft daily from different parts of the United States to test wind direction and velocity. Altitudes sometimes exceed 100,000 feet.

Despite scientific advances, the winds still bewilder and mystify, the National Geographic Society says.

## Bonds Sold For Tulia Lake

TULIA, Tex. (AP)—A 2,000-acre lake to supply water for four South Plains towns was nearer reality Saturday with sale of $3.5 million in bonds in Austin.

The bonds would finance the dam, lake, a pump station and water treatment plant.

The operation will be by the Mackenzie Municipal Water Authority. The president is Lon Davis of Floydada.

Voters turned down a package proposal in 1966, but then approved in 1969 when pipelines were deleted from the main project. The new plan calls for each town to build its own pipelines.

The Texas Water Development Board granted $300,000 last November for purchase of the land and negotiations for the acreage is under way.

## Wedding To Be Held In Jail

ST. JOSEPH, Mo. (AP) — Wedding bells are scheduled next week at the Buchanan County jail here.

The prospective bridegroom is William Ledinski, a jail trusty awaiting trial on a burglary charge. His intended bride is Gilda Johnson, serving a sentence for possesssion of stolen credit cards.

The couple applied for a marriage license Friday in the custody of a deputy and a jail matron.

Sheriff H.C. (Sonny) Myers said he pointed out to the couple that the jail has no bridal suite and they will return to individual cells after the ceremony. The sheriff said that as for a wedding cake, "That might be up to the groom, he is the jail cook."

TOP RATINGS — Snyder students won Division I ratings at the University Interscholastic League Choir contests in Midland. Holding plaques they won are, from left to right, Travis student, Sue Jane Sullivan; Snyder High School students, Travis Angel, Jana Bullard and Dennis Willi[illegible]son; and Lamar Junior High students, Susan [illegible]ves and Greg Patterson.

## *Honors Won By Choirs*

Each of the local secondary schools earned at least one first division rating at the UIL Choir Concert-Sight Reading Contest on March 23-24. The Travis Junior High Girls Choir received a I in concert and II in sight reading, with the Mixed Choir receiving III in both events. The Lamar Junior High Girls Choir and Mixed Choir both earned I in sight reading and II in concert. The Snyder High School Choirs each received a I rating and a II rating.

The Travis Girls Choir, under the direction of Patsy Elliott, was the only Class CC Girls Group to earn a concert I. The Lamar Girls and Mixed Choirs, under Maribeth Vestal's direction, were the only choirs in their Class CC contests to earn sight-reading I Ratings.

The Snyder High Boys Choir was the only Class AAA Boys Choir to earn a sight reading I rating. The Snyder Mixed Choir earned a sight reading I and concert II, while the SHS Girls earned a concert I and sight reading II. This year's results bring total first division winnings to 16 for the past four years, which is more than any other AAA school in the region.

Local audiences can see the SHS choirs perform at the All-School Talent Show on April 5 and again during the "Tour of Broadway," April 19-20.

## Bravo Troop Transferred

YELLOW BRICK ROAD, Vietnam (AP) — The men of Bravo troop, who last week refused an order to advance down a highway near the Laotian border, are being transferred back to their parent unit "with their heads up and flags flying."

"They fought just like any American outfit should," said Lt. Col. Robert B. Osborne, commander of the 3rd Squadron, 5th Cavalry, who described the armored company's return to battle the past few days.

The 3rd Squadron took over Bravo troop after its 83 members refused to move out to retrieve some damaged equipment, claiming they would be risking an ambush.

No disciplinary action was taken against the men, but the troop commander was relieved for making what was called an "error in tactics." The troop was given a new commander and attached to the 3rd squadron for reorientation.

## Attitudes Important Kiwanis Group Told

Sometimes it helps if a person bites off more than he can chew, Dr. James H. Granberry of Lubbock, told a Kiwanis Club Ladies Night audience Friday evening at the Scurry County Coliseum.

Infact, Dr. Granberry said, this type of ambition helped develop America into the powerful nation it has become.

However, he cautioned that attitudes are important—such things as tolerance, appreciation, humility, etc. These must not be neglected if a person truly desires to live the good life, Dr. Granberry declared.

He said that the type of tolerance he recommended was not leniency for wrong-doing, but respect for people who are different and from backgrounds other than our own.

Dr. Granberry emphasized the importance of spiritual convictions.

"If you know of anything better, I wish you would tell me about it," he challenged, "So that I can take the message to others as I speak over the state."

Entertainment was presented by a girls ensemble, directed by Mrs. Patsy Elliott, choral music director at Travis Junior High School.

A number of visitors were on hand, including Kiwanis District Lt. Gov. John A. Coffey and Mrs. Coffey of Big Spring and other out-of-town delegations from Sweetwater, Midland and Lubbock as well as Big Spring.

Jack Riley was master of ceremonies and Ken Allred, president of the local club, presented perfect attendance pins to several club members. These were topped by a 21-year pin to Frank D. Stephenson, a 15-year pin to Roy J. McCloskey and a 14-year pin to Roy Meador.

Dr. Granberry was introduced by Franklin B. Pruitt. Arel Faver led the group in the pledge of allegiance to the flag, while the Rev. John Gordon gave the invocation and Garth Austin the bendiction.

## TRA Makes Changes

ARLINGTON, Tex. (AP) — David H. Brune, general manager of the Trinity River Authority of Texas, has reported management reassignments designed to speed up and streamline Trinity River development.

The changes were authorized by the executive committee of Board of Directors.

Albert E. Hall, an engineer who has been regional manager of TRA's southern division, Huntsville, becomes projects construction manager. He will review the design of all projects, acquire land rights and manage all construction activities.

James L. Strawn, regional manager of the Northern Division, Grand Prairie, becomes projects development manager in charge of evaluation development, planning, designing and funding of all TRA projects, maintaining liaison with all state, federal, regional and local agencies involved in Trinity River development.

Danny F. Vance, assistant to Hall in the Huntsville office, becomes administrative services manager in charge of general administrative activities.

Hall, Strawn and Vance will continue to serve under Asst. General Manager George D. Janning along with Richard S. Williams, controller, and T.R. McMillian Jr., public affairs officer.

Others reporting directly to Janning will be the four operating superintendents: L.C. Carlton Jr., Dallas, in charge of regional sewerage systems; C. Grady Manis, Huntsville, Livingston's recreation facilities project; Walter R. Clark, Stowell, Devers Canal system; and Dave L. Burford, Point Blank, Livingston Dam and Reservoir project.

## Rockefeller Sued For Divorce

LITTLE ROCK, Ark. (AP) — Former Gov. Winthrop Rockefeller has been sued for divorce by his wife of more than 14 years, Jeannette Edris Rockefeller.

When the couple announced Feb. 19 that they were going to be divorced, Mrs. Rockefeller said their private lives had led them in different directions making a "traditional home life impossible."

The grounds for divorce stated in the suit on Friday allege what usually is referred to as general indignities, a common basis of asking for a divorce. Mrs. Rockefeller asked for alimony, maintenance, a division of Rockefeller's property and attorney's fees.

They were married June 11, 1956—a second marriage for each.

There are 600,000 members of Future Homemakers of American in 12,000 local high school chapters.

## Ira Juniors Plan Plays

IRA—The Ira High School Junior Class will sponsor two one-act plays here Monday night to raise money to finance the annual junior-senior banquet.

The first play, "The Old Lady Shows Her Medals," is the drama which Ira students will put on in the University Interscholastic League drama contests.

The second play, to be presented by the junior class, is titled "It's Cold in Them Hills."

The curtain will go up on the first play at 7:30 p.m. Monday in the Ira gym.

Admission prices are $1 per person for adults and 50 cents per person for students. Children under school age will be admitted free of charge. Tickets will be sold at the door, and the public is invited to attend.

## UTSA To Teach Bilingual Courses

SAN ANTONIO (AP) — When the University of Texas branch opens here in 1973, it will offer a major innovation in college curriculum.

Most courses will be taught in both Spanish and English.

Dr. Arleigh Templeton, president, said it will be the first bicultural and bilingual university in the nation.

He said it also will be the first "to show interest in raising the economic and esthetic levels of its students."

He noted that some courses are offered in Spanish at UT-El Paso and Pan-American College at Edinburg.

However, he said, "We will try to offer every course at UTSA in Spanish and see if that isn't part of the hangup with some Mexican-American students."

He said all courses in the freshman year will be available in both Spanish and English.

He indicated plans call for teaching all courses in both languages, with students taking the Spanish courses gradually moving into English-taught courses and vice-versa.

"We hope that after 30 years or so we will have brought these two cultures together," he said.

# Truce Called In Union Battle

SALINAS, Calif. (AP) — A truce has been called in Cesar Chavez' battle with the teamsters union over representation of farm workers.

But a Teamsters Union local says it doesn't plan to give up two major lettuce growers' contracts as Chavez' union and national Teamsters officials agreed. And a spokesman said growers would not accept contracts with Chavez' union.

A two-year agreement for ending the union jurisdictional dispute was announced Friday by Chavez, head of the United Farm Workers Organizing Committee, and by George Meany, AFL-CIO president.

Meany said in Washington he and the Teamsters' acting president, Frank E. Fitzsimmons, have agreed to machinery for deciding which union will organize field hands.

Chavez announced a 30-day moratorium of UFWOC's nationwide boycott of lettuce picked by non-UFWOC members while negotiations get under way.

But Ray Burditt, secretary-treasurer of Teamsters Local 890, which has represented field workers for two of the largest lettuce growers since 1961, said in an interview.

"I'm not agreeing to talk. The only thing I'll agree to is that as far as this local union is concerned, we're not going to organize any more farm workers. I'm not arbitrating my contracts. I intend to keep my contracts, period."

Local 890 holds a contract with Bud Antle, Inc., the largest Salinas Valley lettuce grower with about 1,000 workers, and Mapes Produce Co., which employes about 400 workers in the Salinas and Imperial valleys of California.

About 75 other contracts were signed by Salinas Valley growers last summer with the Western Conference of Teamsters shortly after Chavez won his five-year boycott-strike to represent California table grape workers.

## Two Vehicles Are In Mishap

Minor damage resulted from a two-car collision in the 2200 block of Forty-third Street at 12:27 p.m. Friday.

Involved were the 1971 Model Chrysler of Eva Leona Fallis, 2202 Forty-fourth Street, and the 1969 Model Dodge of Sandra Orr Norris, 2208 Forty-third Street.

Officer Gary Sutton investigated the mishap.

APRIL WEDDING — Mr. and Mrs. D. W. Chandler of Baton Rouge, La., announce the engagement and approaching marriage of their daughter, Sara B., to Thomas Eugene Shelburne, II, son of Mr. and Mrs. D. D. Shelburne. The wedding date has been set for April 10 at the First United Methodist Church Chapel of Baton Rouge, La.

## Women's Comments

Some quotable quotes from women during the week:

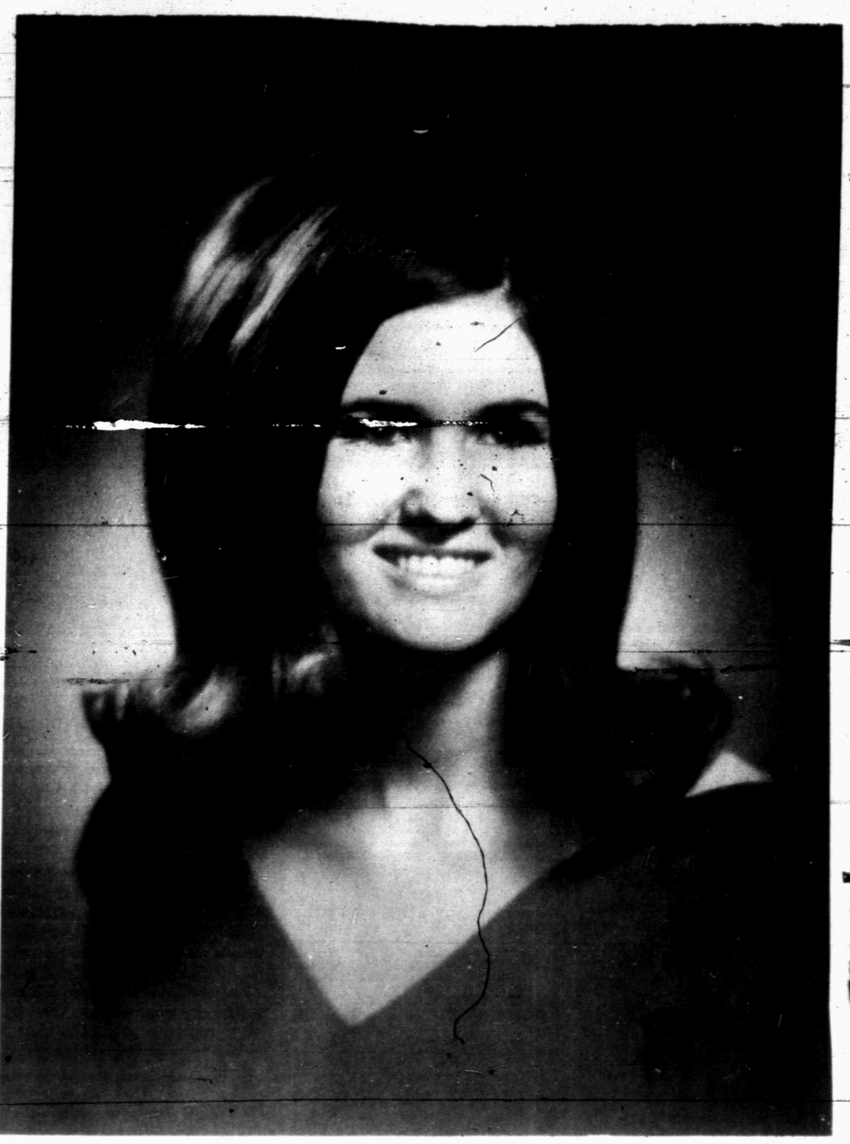

"I feel very disillusioned, disheartened, demoralized. I really didn't until the last six months or year. But I find myself getting bitter and cynical—which is unlike me."—Karen Butler, wife of a Navy lieutenant captured in Vietnam nearly six years ago.

"I am too ambitious just to be content with the glory of nobility. I want to make it as an actress."—Princess Ira von Furstenberg, in an interview.

"I feel there's a terrible injustice somewhere. Other people, particularly property owners, are hearing a disproportionate share of the taxes. And I'm paying nothing at all or $4 when vital services—like aid to crippled children—are being curtailed for lack of sufficient state revenue."—Mrs. Alfred Silva, complaining she doesn't pay enough California state income tax.

"I like all parts, that is the problem. If I had a prejudice, I could say, 'No, that part is wrong, this kind of part is not for me.' I like to play parts that are causative, rather than parts that are followtive."—Actress Karen Black, in an interview.

"It's beautiful. The big thing is that I don't have to worry about people breaking in or waiting in the hallway for you or the elevator breaking down or taking forever to come."—Anibal Martinez, mother of the first of 1,100 families to be moved by New York City from a welfare hotel to an apartment.

JULY WEDDING — Mr. and Mrs. Alfred Davis of Hermleigh, announce the engagement of their daughter, Margie Sue, to Michael David Rose, son of Mr. and Mrs. M. R. Rose of Abilene. A July wedding is planned in the First Baptist Church in Hermleigh.

## Flower Talk

By HERSHEL HINSHAW

SPRINGTIME'S DOGWOOD BLOSSOMS

The flowering dogwood is probably the most welcome blossom in America. When it appears we all know that springtime has arrived. Blooming early in the spring before the leaves appear, the blossom is really a tiny cluster of flowers surrounded by four white leaves that only look like petals.

**Whether we are** looking at **leaves or blossoms** — it is still **America's most beautiful sight in early spring.**

Flowers or potted plants are always most welcome to a shut-in, and sending them is a very special way to say, "Get well soon." Call 573-9600, we'll deliver them.

HINSHAW'S

## FHA Week March 28-April 3

FHA CARES is the theme of National Future Homemakers of America Week, March 28-April 3. During this week 600,000 members in over 12,000 local FHA chapters throughout the United States and its territories will carry out special projects and activities to show that FHA members do care.

National President, Ruth Ann Lockenbroch, a high school senior at Middleburg, Pennsylvania put it this way: "Future Homemakers of America do care. We care about what's happening to our country today, and we care about preparing ourselves for the future. Today we are teenagers, tomorrow we become The Establishment. Through our FHA activities and oriented learning experiences we are preparing to take our place in that establishment. In this, our twenty-fifth anniversary year as a national organization, we want National FHA Week to be a showcase for what 600,000 teenagers are doing constructively to find solutions to some of the problems confronting today's society in preparation for a better life tomorrow."

This national organization of high school home economics students provides opportunities for developing individual and group initiative in planning and carrying our activities related to the home and the community. Throughout the country FHA members are learning by doing. They contribute to the community by working as volunteers. They assist in local head start programs or with the mentally retarded and handicapped through county health and welfare departments. They organize reading classes and tutorial programs for migrant or underprivileged children. They visit and assist the elderly or work with other groups on community service projects.

They serve as hospital candy stripers, hold career seminars, survey for job opportunities for youth, conduct sessions on preparation for marriage, hold moral discussions, and carry out many other projects which give practical application to their classroom learning.

Future Homemakers of America was founded June 11, 1945 as an incorporated, nonporfit organization supported by membership dues. Nationwide in membership and effort it is co-sponsored by the U. S. Office of Education and the American Home Economics Association and was developed for the purpose of providing experiences that broaden the home economics education program in the high school. High school home economics teachers, members of the state home economics education staff, and leading home economists serve as advisors to chapter, state, and national youth officers, giving guidance and counseling to the program.

Activities at all levels-national, state, and local-are youth directed. Twelve national youth officers elected yearly help develop and promote the national program of work and plan and preside over the annual national meetings. The FHA members themselves decide on their goals and purposes, and plan their own activities and projects. This provides an opportunity to develop leadership, express creativeness, and become aware of approaching responsibilities as adult citizens.

The annual state meeting of Future Homemakers of America, an organization of high school homemaking students, will be held in Memorial Auditorium, Dallas, Texas, April 23-24, 1971.

More than 3,000 members and advisors representing almost 76,000 members in 1600 chapters throughout the state will attend.

The theme of the meeting is FHA Steps Into Action." Keynote speakers will be Reverend Logan Cummings, Brownwood, who will speak on youth involvement in today's society and Miss Barbara Baley, former FHA Area IV President who will tell of her experiences with involvement in standing up for America.

## When Buying New Carpet Check Old Under Padding

By AP Newsfeatures

The key to carpet longevity doesn't meet the eye—a great deal depends on the under padding.

If you are buying a new carpet, it is a good idea to inspect the cushion under the old carpet. Putting a new carpet over an old cushion is not a good way to save money.

The carpet industry has made great strides in the area of carpet paddings. Springiness underfoot is one advantage and noise reduction and some insulation against the cold are provided. New paddings such as Ornalon, an undercarpet cushion of poly-meric foam are being touted as prolonging the life expectancy of a carpet because of its long wearing possibilities.

There are some good quality rubber cushions available and these are supposed to resist spot wearing, but many of these pads have an odor, and offer low resistance to heat and moisture damage. Some crumble with use. When carpet padding buckles in a heavily trafficked area, the carpet will begin to sag and wear out.

For young couples, in particular, carpet is a major item on the home furnishings budget. It is always wise when purchasing new carpeting, to consult reputable dealers servicing your community.

Future Homemakers of America was founded June 11, 1945 as an incorporated self-supporting, non-profit organization, co-sponsored by the U. S. Office of Education and The American Home Economics Association.

## Humans Have Own Rhythm

NEW YORK (AP) — The husband who leaves in the morning a growling grouch, only to return in the evening all smiles and good cheer, may be following his own particular "circadian rhythm" — the human cycle of sleeping, waking and activity which repeats itself roughly every 24 hours.

Researchers at Bulova Watch Co. have found that humans each have their own rhythm, and never are the same, say, at 10 a.m. as at 4 p.m. In fact, most of our physiological "rates" such as metabolism, heart beat and blood pressure are different at various times during the day and affect our psychological outlook as well.

## Young Flutist Has Famous Assistant

NEW YORK (AP) — When flutist Eugenia Zukerman made her New York recital debut March 8, as one of the winners of the 1970 Young Concert Artists auditions, she had an internationally acclaimed violinist as her "assisting artist."

He was her husband, Israeli virtuoso Pinchas Zukerman, who joined his wife and Michael Tree, violist of the Guarneri Quartet, in the Beethoven "Serenade for Flute, Violin and Viola," which constituted the second half of Mrs. Zukerman's Town Hall program.

In the first half of the program, she was accompanied by young Korean pianist, Kun-Woo Paik, who is 1971 winner of the Naumburg Competition.

## Arts School Is Planned

HOUSTON (AP) — The building hasn't been selected nor has the staff been assigned, but the curtain is rising on a high school for the performing arts in Houston.

And as director of planning the performer's dream of a public school, Mrs. Ruth Denney is all smiles about the possibilities.

The plan has not yet received final approval from the school board, but Mrs. Denney is confident it will open, possibly as early as next fall.

The school will be a place where regular academic training leading to an accredited diploma will be centered around the arts.

She said special training will be given in dance, theatre, music, lighting, direction, television and radio.

Mrs. Denney is not new to theatre education. She taught drama for 15 years at Lamar High School.

Her classes there included such now well known names as Tommy Sands and Paula Prentiss.

MR. AND MRS. RONALD G. BOGLE

(Photo By Craft)

# Hudson, Bogle Wed In Rites Here

**Sharon** Eileen Hudson and **Ronald** G. Bogle exchanged **wedding** vows March 4 in the **home** of the bride's parents. **Lynn Fisher**, minister of 30th St. **Church** of Christ officiated in the **double** ring ceremony.

**Parents** of the couple are Mr. **and** Mrs. J. W. Hudson, 313 **Thirty**-fifth St. and Mr. and Mrs. Arnold Bogle of Spearman, Tex.

**The** bride carried out the traditional something old, something new by carrying a 100 year-old prayer book which once belonged to her maternal great grandmother. She wore a necklace borrowed from a friend, Gaylan Band and a blue garter made by her mother. Her dress was something new.

Mr. and Mrs. Richard K. Butler of Spearman, Tex., sister and brother-in-law of the groom served as matron of honor and best man.

A reception followed immediately after the ceremony with only the parents, a few relatives and close friends of the couple attending. The bride's chosen colors of blue and white were used in the decorations with appointments of silver and china.

After a short wedding trip to Houston, the couple will make their home at 2904 Ave. V.

The bride is employed in the office of Bernard Longbotham, Jr. and the groom is employed by Permian Oil Corp.

## Artists Presents Black Woodstock

ACCRA, Ghana (AP) — A movie, "Soul to Soul," was filmed during the 14th independence celebration in Ghana.

American artists who went to Ghana to present a "black Woodstock," were Ike and Tina Turner, Santana, Wilson Pickett, the Voices of East Harlem, the Staple Singers, Roberta Flack. Les McCann and Eddie Harris and Marion Williams.

There was one all-night concern.

## Good Lunch

**FAMILY GNOCCHI**

A small size-recipe for one of our favorite Italian-style dishes.

½ cup farina
2 tablespoons cornstarch
¼ teaspoon salt
2 cups milk
¼ cup butter
½ cup grated Parmesan cheese
1 large egg, beaten until thickened

In a 2-quart saucepan stir together the farina, cornstarch and salt; gradually stir in milk. Cook over medium heat, stirring constantly, until mixture comes to a boil and boils 3 minutes. Remove from heat: Stir in the butter, Parmesan and egg, blending well after each addition. Spread evenly in buttered square cake pan 8 by 8 by 2 inches). Chill 1 hour or until firm—may be left, covered, overnight. Cut into 2-inch squares. Place squares about 1 inch apart on lightly buttered cookie sheet. Dot each square with extra butter and sprinkle with extra Parmesan. Bake in a preheated 400-degree over about 15 minutes. Makes 4 servings.

## WOMEN'S CALENDAR

**TUESDAY**

Ladies Golf Association will meet at the Snyder Country Club. Tee-off time is at 10:30 a.m., weather permitting. All ladies interested in golf are welcome.

Toperettes will meet at p.m. at Stanfield Elementary.

**WEDNESDAY**

The Snyder and Twilight Garden Clubs will host a tea at the Cowboy Hall of Fame exhibit at the Scurry County Coliseum from 2 to 4 p.m. All area garden club members are invited to attend.

**THURSDAY**

Board of Directors of Martha Ann Woman's Club will meet at 10 a.m. at the club house.

**FRIDAY**

Altrurian Club will host a Federation Day Tea for Snyders federated clubs. Hostesses are Mmes. Dave Harlin, Alvie Dolen and R. L. Gray.

## Physician Suing Howard Hughes

LOS ANGELES (AP) — A physician who contends he had a commitment to be Howard Hughes' personal doctor until 1988 at $50,000 a year is suing the billionaire for $1.8 million.

Dr. Robert Buckley filed the Superior Court suit Thursday saying he was fired without cause last Dec. 31. Buckley said he was hired in 1968 and moved to Las Vegas, Nev.

**ADVANCE GIFTS** — Workers in the Advance Gifts Area of the American Cancer Society met March 24 in the home of Mrs. Travis Hatter, chairman, for their kick-off meeting for the advance Drive which will be conducted March 29, 30 and 31. Pictured are (from left) Mmes. Ted Crenwelge, co-chairman; Travis Hatter, Herbert Reed and Max von Roeder. Other workers are Mr. Pete Greene, Mrs. Dalton Walton and Dr. Carl Dillaha.

## Story On Crime And Corruption

**KILL THE DUTCHMAN! By Paul Sann. Arlington House. $8.95.**

Back in the 1930's there was the gangster era. In New York one of the major figures of that violent period was Dutch Schultz—whose real name happened to be Arthur Flegenheimer.

This is Dutch's story, against the background of crime and corruption that grew out of Prohibition. He began in his teens as a petty thief, became a minor mobster and then graduated into the role of "Beer Baron of the Bronx." After the repeal of Prohibition he muscled into control of the policy racket in Harlem, collecting hundreds of thousands of dollars of policy bets, bribing police and politicians, dodging taxes and defying the law. But his underworld associates, feeling he was too erratic, sent hired gunmen to rub him out in a bloody, messy assault in a cheap bar in Newark.

Sann documents the whole story in all its ramifications, down to the point where Dutch's killer was convicted six years later. The book contains a thorough sequence of photographs of the period.

There is a massive amount of detail, a sort of play-by-play scenario, which may slow up the general reader who may be familiar with only a few gangster movies on the late, late show. But for crime buffs this should be prime material. And for serious students of the whole zany era of night life, crime, corruption and the aberrations of the 1930's this is an engrossing account.

Miles A. Smith

## Sunday Supper

**CAPER CUCUMBERS**

You can serve this dish shortly after it is made.

1 large thick cucumber
1 tablespoon sugar
2 tablespoons distilled white vinegar
½ teaspoon salt
1 tablespoon drained capers

Peel cucumber; cut in half lengthwise; with a teaspoon scoop out and discard seeds; slice thin crosswise. In a shallow bowl stir together the sugar, vinegar and salt; add cucumbers and mix thoroughly. Cover and refrigerate, mixing a few times, for ½ hour or as long as overnight. Sprinkle with capers. Serve with a slotted spoon or drain. Makes 4 servings.

MAKES FINANCIAL STATEMENT

# Bentsen Keeps Pledge

WASHINGTON (AP) — Keeping a campaign pledge, Sen. Lloyd M. Bentsen Jr., D-Tex., made public Friday a financial statement showing he's worth $2.3 million.

Although senators are not required to disclose such information, he reported total assets of $3,613,873, accounts payable of $66,157 and mortgages and other long-term debts amounting to $1,199,225.

Bentsen said before he was sworn into office he resigned all salaried positions, resigned from boards of profit-making corporations and withdrew from the practice of law.

He said he gets no pay for service on boards of non-profit corporations and foundations.

Bentsen listed $1,287,356 in stocks, one fourth of them in family industries located mostly in the Rio Grande Valley of Texas.

He listed $1,801,070 in real estate and $6,102 in mineral interests. He has $37,112 cash in banks, $110,709 worth of personal property, $268,755 in homes and furnishings in Brazoria, Tex., and Washington, and could get $57,957 for life insurance if he surrendered his policies.

His stock listed on market exchanges, valued at $917,138, includes:

2,000 shares of Allied Stores Corp., valued at $64,000; 1,200 shares of Babcock-Wilcox, valued at $37,650; 1,200 shares of Combustion Engineering, valued at $70,500; 1,000 shares of Continued Care Facilities, valued at $11,000) 850 shares of Dresser Industries, valued at $28,050; 68,517 shares of Lincoln Consolidated Inc., valued at $633,782; 2,000 shares of McDonough Co., valued at $63,500, and 199 shares of Southwest Bancshares Inc., valued at $8,656.

He didn't put a market value on his stock in family owned investments but said the overall cost value comes to $370,218.

This includes:

100,000 shares in Dixie Mortgage Loan Co.; 150 shares in a shopping center, El Centro; 5,477 shares in First National Bank of McAllen; 1,275 shares in the First National Bank of Mission; 85 shares in the Highway Pipeline Co.; 62,500 shares in an oil and real estate firm, Investors Syndicate of the SW, Inc.

Also, 66 shares in Johnson LPG Co., 48 shares in Johnson Sales and 370 shares in Tide LPG Inc., all three liquefied petroleum gas concerns; 3,000 shares in Optic-Electronics Inc.; 1,437 shares in Security State Bank of Pharr; 237 shares in Southwest Equipment Rentals Inc., and 1,175 shares in Tide Products Inc., an agricultural services firm.

His real estate includes: 48.8 acres in Pasadena, Tex.; 91.4 acres in Houston; 608.5 acres west of Lake Jackson in Brazoria County, and 331.8 acres in Engleman Gardens subdivision in Hidalgo County.

His mineral interests are for 24.3 acres in McAllen, 59 acres in Hidalgo County and 573 acres in LaFourche Parish, La.

### *Smelly Crash*

PERTH, Scotland (AP) — A truck carrying 2,200 gallons of Scotch whiskey and a truck carrying chemical fertilizer collided head-on near Perth, injuring both drivers and causing what police described as "a distinctive odor" as the split whisky and chemical fertilizer mingled.

## Drive Supported

WASHINGTON (AP) — Michigan Democratic Chairman James McNeely says party leaders of at least 18 other states support his drive to assure the 1972 convention is not held in Chicago, scene of the riot-scarred 1968 meeting.

"I don't give a damn what Mayor Daley has to offer in the way of inducement, financial or otherwise," McNeely said Friday.

Chicago has offered the Republicans $800,000 to bring their 1972 presidential nominating convention there.

"The history of Chicago was obviously no plus to our candidates in 1968," McNeely said. "Why hang that stone around our candidates' necks again?"

He said he was not predicting disturbances would break out again in Chicago, but, "Why give any appearance at all of the same kinds of problems?"

McNeely made his comments while attending a meeting of the Association of Democratic State Chairmen in Washington, where a Democratic reform commission Friday sidestepped a proposal to ban television cameras on the 1972 convention floor but approved a prohibition on any floor demonstrations.

The commission headed by James G. O'Hara of Michigan decided to leave the question of TV cameras to the convention's arrangements committee.

## Oil Activity Concentrated In West Texas

AUSTIN AP — The state's wildcat oil activity was concentrated in West Texas during the past week, the Railroad Commission reported Saturday.

The commission said two wildcat oil wells were drilled in the Midland District and two in the Lubbock District, raising the year state total to 62, or 44 fewer than a year ago.

Nine wildcat gas wells were drilled during the week, the commission said, raising the year total to 117, or 23 fewer than a year ago.

The new gas wildcats included seven in the Corpus Christi District and one each in the Houston and San Antonio No. 2 districts.

The commission reported 97 oil wells were completed during the week, raising the year total to 1,335, or 18 fewer than a year ago. Gas wells completed totaled 27 for a year total of 429, or 33 fewer than a year ago.

The commission said 228 wells were plugged during the week, including 46 dry holes.

### Fly To Fly Home

MONTEVIDEO, Uruguay (AP) — U.S. Agronomist Claude L. Fly, who was released by Tupamaro terrorists when he suffered a heart attack after being a captive for seven months, soon will fly home to Fort Collins, Colo.

His son, John Fly, said Friday a special flight was being arranged by the U.S. Embassy for "sometime fairly soon." A spokesman for the embassy said precautions were being taken to avoid any excitement for the 65-year-old cardiac patient connected with the departure.

**MEDAL PRESENTED — Yeoman Second Class Mickey Chamness, U. S. Navy, right, is congratulated by Commander G. W. Horsely, director of administration, after he received his first Navy Good Conduct Medal at NATO Headquarters in Norfolk, Va.**

## Yeoman Chamness Is Awarded Navy Medal

NORFOLK, Va. — Yeoman Second Class Mickey Dale Chamness, U. S. Navy, son of Mr. and Mrs. John Wesley Chamness of 301 Thirty-sixth Place, Snyder, was awarded the U. S. Navy Good Conduct Medal last week at the Norfolk Headquarters of NATO's Supreme Allied Commander Atlantic, Admiral Charles K. Duncan, U. S. Navy.

The U. S. Navy Good Conduct Medal is awarded to those enlisted members who, in the opinion of their supervisors, and approved by the Navy Department, have completed four years of "faithful, zealous and obedient Naval service." Yeoman Chamness entered the U. S. Navy in February 1967, after attending Loraine Independent School District.

Yeoman Chamness serves in the Outgoing Mail section of this, the only, North Atlantic Treaty Organization Headquarters in the United States.

Married to the former Miss Linda Kay Schroedter of Sweetwater, Petty Officer Chamness reported to this international NATO headquarters from U. S. Naval Station, Kodiak, Alaska.

The Allied Command Atlantic was commissioned in Norfolk, in April, 1952, and is the first permanently established allied military headquarters in the United States. It is composed of about 140 officers from nine of the 15 NATO nations—Canada, Denmark, France, Italy, The Netherlands, Norway, Portugal, the United Kingdom and the United States—and 180 enlisted men and women of the U. S. Navy and Marine Corps.

The headquarters staff of the Allied Command Atlantic generates defense plans for more than 12 million square miles of the North Atlantic Basin and they can establish instant communications with all NATO ships and aircraft in the vast expanse of the North Atlantic Ocean.

### *Engineer Finds The Trouble*

DAYTON, Ohio (AP) — A session of the Ohio Society of Professional Engineers meeting here was delayed because the light on the speaker's podium would not work.

As hundreds of engineers looked on Friday, a few members of the group tried to solve the problem. One finally did—he found that the light was not plugged in.

# Youth Flocking To Santa Fe

SANTA FE, N.M. (AP) — New Mexico's capital city is attracting runaway young people from throughout the nation.

Police say more than 200 already are in town and more are expected as the weather gets warmer.

Many of the youngsters are shunning the communes in the area.

"Most of the young people don't want that type of thing where everyone depends on each other for life support," a 17-year-old girl from Detroit said.

"Helping each other is a groove, but living off one another is a drag," she said.

Another 17-year-old said: "It's going to be a groovy summer. I feel the vibrations already."

A boy from Portland, Ore., said: "I think this summer will be the beginning of about five years in which we begin building new life styles that put even more emphasis on love and feelings rather than hatred and fear like we have now.

"Kids are more aware of personalities. Like they see someone who is stuck on himself and they will come right out and tell him so," he said. "It may be brutal but at least it's honest. Some of the kids who fit the general hippie pattern come on like a real pain to me."

The youngsters were interviewed by reporter Joan Soper of The Santa Fe New Mexican.

This city of 35,000 population long has prided itself on its tolerance for people with eccentric life styles. And this tolerance is one reason given by the runaways for coming here.

In the words of one young man: "The cops are really groovy. They don't go around busting (arresting) people just because they are different."

A 15-year-old Boston girl said: "The people here are so beautiful. They don't give you a hard time and there are as many groovy old people here as kids my age."

### Cards Cheaper Than Postage

KANSAS CITY (AP) — It's still possible to buy a greeting card for less than the postage.

Hallmark's "pansies for thoughts" card, after 30 years and more than 12 million copies, still sells for five cents.

## FINANCIAL BIND!

### DEVOTION REPLACED BY DIVERSIONS

# Weekend Holiday Is Changing In Europe

By DAVID LANCASHIRE
Associated Press Writer

LONDON (AP) — The Englishman sips a pint of beer in his local pub and then flies a kite in the park. The Frenchman places a bet on a horse and heads for the movies.

A Scandinavian family puts on its ice skates or sails to an island cottage. Berliners go for walks; Viennese tend their gardens, and Romans watch soccer games.

Or else they all pile into the family car and go for a drive.

That's Sunday for city-dwellers in Europe.

From Stockholm to Madrid, the weekend holiday is changing. The church is challenged by the automobile and Sunday is a day of diversion instead of devotion.

The traditional diversions are changing too. Instead of promenading on the boulevards, Parisians drive to Orly Airport to watch the jets come and go. Spaniards leave Madrid's Sunday bullfights to the tourists and spend the day on wheels. Many a Viennese coffee house, once a Sunday gathering place, has been converted into a self-service cafeteria.

Church remains a Sunday tradition in the villages—the small towns of France look deserted during morning Mass and English villagers still flock to hear the vicar—but attendance in the capitals has faded since Europeans began earning enough money to buy cars.

"Now that we have the car," said a London suburbanite, his arms in a bucket of suds, "I wash it Sunday morning and take the family for a spin to the seaside in the afternoon."

Sunday means more to the average Italian or German than to an American. Many Europeans still work a six-day week, so they pack the whole weekend's activities into one day.

Driving into the country—for lunch at a rustic restaurant, beer at a village pub, or just for the scenery—is probably the most popular weekend pasttime in Europe. But for those who stay in town there's a range of recreations as varied as the capitals themselves.

Sunday for countless Londoners starts with wading through the sex, sensation and profundities of the thick Sunday newspapers and then off to the neighborhood pub for a couple of hours' drinking.

Some pubkeepers say Sunday noon is the busiest time of the week. About a dozen London pubs have jazz bands wailing away at midday. Then comes the traditional lunch of roast beef—the "Sunday joint"—and a sleep.

Others browse through the weekly sidewalk art exhibition that blooms for blocks along the edge of Hyde Park, or pack the museums. Kite fliers and model boat sailors congregate in the parks and at Kensigton's Round Pond.

An attraction for both tourists and natives is Speakers' Corner at Hyde Park, where heckling crowds and soapbox orators—some of them crackpots but some worthy of the House of Commons—debate communism, flying saucers, the world monetary system or religion.

Demonstrating has become another Sunday tradition. As regular as church bells, the protesters troop by the hundreds—sometimes thousands—into Trafalgar Square to shout about arms for South Africa, the war in Vietnam, or other issues.

Theaters and professional sports have been banned in Britain since King Charles I passed the Sunday Observance Act in 1625—even movie theaters can't open their doors until 4 p.m. But a new bill for more Sunday entertainment is coming up in Parliament. Professional cricket thrives despite the law—spectators get in free but pay a hefty price for programs.

In Paris and Rome, movie houses draw their biggest crowds on Sunday. But in Vienna, many movie theaters and coffee shops have closed because the old Sunday crowds now stay at home to watch television.

Sunday is sports day in Paris, with major soccer and rugby games. The month-long Tour de France bicycle race—which draws more paying fans than any sports event in the world—always ends on Sunday.

French horse bettors gather in bars Sunday morning to put down their francs in a nationwide "tierce" (triple bet) system, and much wine-drinking goes on in the process.

France has the highest automobile density in Europe and the roads in and out of Paris clog up on Sunday with the week's biggest traffic jams.

Many rural restaurants do their biggest trade at Sunday lunchtime in France and Italy, where a good meal is regarded as worth a lengthy car ride. The French Sunday dish is "gigog d'agneau"—roast leg of lamb spiced with garlic.

Sunday picnics are a summer feature in France. Parisian families unfold elaborate picnic tables and chairs right at the edge of the highway and watch the traffic roll by, swallowing gasoline fumes along with their vin rouge.

Orly Airport attracts hordes of Parisians who pay 35 cents a head admission to stare at the planes.

The Flea Market near the Porte de Clignancourt is another weekend attraction with rows of stalls selling antiques and junk, but Parisians say it's on the decline—prices are rising and the chance of discovering an old master for a few francs is zero.

An estimated one-third of Rome's three million people still go regularly to Sunday Mass, but the crowds jammed into St. Peter's Square for the Pope's midday blessing are mostly tourists, pilgrims, priests and nuns.

Like Paris, Rome has a Flea Market, and Italians flock by the thousands to the outdoor stalls around Porta Portese, shopping for clothes, kitchen utensils or even suits of living room furniture.

Sunday soccer games in Rome draw 50,000 to 70,000 fans every week in winter.

With mountains and beaches within easy reach, Rome's roads writhe with Sunday traffic. More and more Romans are also taking up Sunday skiing in the Appennines.

For stay-at-home Romans, a high point of the day is "the ride"—driving downtown to window shop or to a park where the children can watch a puppet show.

## A Junior Editors Quiz About FOSSILS

**QUESTION:** *What were the first plants like?*

* * *

ANSWER: Animals live by eating plants or other animals. Once, all plants are thought to have been very minute, something like the bacteria living today. But these tiny plants left few traces behind, so we know little about them. The first distinct record of plant life dates from about 2.1 billion years ago; these were probably algae, something like the algae you will find today around the edges of ponds. We know hardly anything more until about 360 million years ago (the Silurian Period), when plants, in the form of mosses, lichens and liverworts, appeared on land. In the time shown in our picture, 30 million years later, plants and animals were rapidly spreading and developing. As the picture shows, these ancient plants had a queer, stiff, primitive look. At first small, as on left, they grew very tall, like the tree fern and the queer scale tree. The animal pulling himself out of the water is an ancient salamander, the type from which the reptiles developed. Strange ancestors of modern fishes are swimming in the water.

# Brew Cosmetics In Kitchen

## Career Corner

by Joyce Lain Kennedy

**Dear Joyce: I have noted the increased interest in "natural" products, and I think I might like to try my hand at making old-fashioned cosmetics at home, using foods and other easily obtained ingredients. I was thinking of selling my cosmetics to friends, and through church bazaars and boutiques. Can you tell me where to get recipes, and bottles or other containers? -- E.J.B., Cincinnati**

Violet bath lotions, rose perfumes, onion-lily-honey wrinkle creams, raw egg-honey-barley face masks, orange flower skin food, strawberry cold creams . . . sounds good enough to eat. I'm dubious about the profit potential in marketing home made cosmetics, but many customers like distinctive products, and you could have a ball checking out your idea – with little investment.

**RECIPES.** Ask your librarian to help you find cosmetic formula books. Three such books are: "Natural Beauty Secrets" by Deborah Rutledge (Hawthorn Books, 70 Fifth Ave., New York, N.Y. 10011, 1967, $5.95); "Here's Egg On Your Face - How To Make Your Own Cosmetics" by Beatrice Traven (Hewitt House, Old Tappan, N.J., 1970, $5.95); "The International Beauty Book," by Beulah Roth (Price/Stern Sloan, 410 N. LaCienega, Los Angeles, Calif. 90048, 1970, $2.95 in paperback).

**MOST RECIPES** are for skin or hair care or fragrances. As an example, here's Miss Rutledge's suggestion for cucumber face cream: 1 lb. peeled cucumbers, 1 lb. melon pulp, 1 lb. pure white lard, 1/2 pint milk. Cut the cucumber and melon into small pieces; add lard and milk and head in a double boiler for 10 hours without boiling. Strain through a cloth over a sieve, into a bowl. Let drip and congeal, put into jars.

**TO LOCATE SUPPLIERS** of containers if you wish to buy a quantity of jars or bottles (use dime store containers until you're sure you want to invest in a larger quantity), look in the telephone Yellow Pages under "bottle dealers." If your directory doesn't list any, check a New York City Yellow Page directory. Write to the dealers, giving them an idea of the type of container you have in mind. If you can't describe it, compare it to a commercial bottle or jar you've seen on store shelves, or send a picture from an advertisement. Ask about minimum orders. Some container dealers will send you samples, and some will accept minimum orders of only one carton. For labels, consult a local printer.

**YOUR KITCHEN "LABORATORY"** must be as immaculate as if you were preparing meals for sale. To find out about the Federal Food Drug and Cosmetic Act, write to the US Food and Drug Administration, 5600 Fisher's Lane, Rockville, Md. 20852 – or check your phone book for a field office of this agency. Also, inquire about any local or state cosmetic manufacturing regulations by contacting your state department of health, city or county health officer, and city or county clerk. Although none of the ingredients you're likely to use would harm most people, a customer can always have an allergy to a particular everyday thing such as lemons or eggs, and let's be practical – you don't want to be sued. So, if you actually get into "cottage industry" cosmetic manufacturing, you would be wise to consult a dermatologist concerning your formulas, and a lawyer and insurance man concerning your legal liabilities.

**FUN-AND-GAMES RECIPES.** I have compiled a 1-page mimeographed sheet of home made food-based cosmetic recipes and ideas supplied by friends and readers. You may have a free copy by sending a stamped, self-addressed return envelope to Joyce Lain Kennedy at this newspaper. Write "cosmetics" on your outside envelope.

((c) 1971, McNaught Syndicate, Inc. All rights reserved.)

CAUGHT IN THE ACT — This raccoon is not ordinary by any means. He steals ketchup & apple butter from a near by warehouse. Allentown Morning Call Photographer Dick Mantz set up a camera and caught him in the act. And it is said he even puts the cap back on the bottle when he is done. (AP Wirephoto)

## Easter Seals Going Well

Scurry County's Easter Seal Representative reported that the 1971 Easter Seal Appeal of the Easter Seal Society for Crippled Children and Adults is going well. Cecil Boren serves as Easter Seal Appeal Treasurer for Scurry County.

The 1971 Easter Seal Appeal will finance the Easter Seal Society's rehabilitation program for crippled children and adults in Texas. Last year the Society helped over 21,000 disabled persons through its program of assistance in finding and making effective use of services for the disabled and their families.

The Easter Seal Society helps support 20 treatment facilities in Texas where children and adults are treated, regardless of ability to pay. These centers offer physical therapy, medical diagnosis, speech and hearing programs and ralated services to help the disabled build happier and more useful lives.

As Easter Seal Representative, Boren is the person to contact for services from the Easter Seal Society. He can be contacted at the Snyder National Bank.

## Physicians Attending 3 Day Conference

By GARY GARRISON
Associated Press Writer

MCALLEN, Tex. (AP)—Houston heart surgeon Dr. Denton Cooley discussed cardiovascual surgery Saturday at the medical-surgical conference attended by 400 general practice physicians.

The three-day conference is sponsored by the Lower Rio Grande Valley Chapter of the Texas Academy of General Practice.

A forum on athletic injuries is the final topic Sunday. Taking part in the forum will be Calvin Hill of the Dallas Cowboys; assistant Dallas coach Jim Myers; Dr. Joseph Godfrey, physician for the Buffalo Bills; and Bobby Brown, head trainer for the Houston Oilers.

Drug abuse is going to increase, Dr. Beverly Mead of Creighton University told the opening session Friday.

Solutions to the drug problem include the lowering of tensions in our society and an early drug abuse education, he said.

"Early education not only gives information, but is calculated to change the image of drugs," Mead said.

"We have to get rid of the image of drug abuse as 'the many sport.'"

Dr. Maynard Shapiro of Chicago said Texas is the top state in the nation in reporting venereal disease.

Venereal disease in the United States is out of control, Shapiro said.

Some 5,000 children under 15 are treated for venereal disease each year and one out of five pupils will have gonorrhea before graduating from high school, he said.

Doctors should carefully manage exercise programs for their patients, said Dr. Kenneth Cooper, author of "Aerobics and Physical Fitness."

Cooper said 14 million Americans have diagnosed heart diseases and an estimated 13 million others have undiagnosed cases.

# Hoffa Up For Parole

WASHINGTON (AP) — Reliable Justice Department sources report that because of heavy political pressure the odds now favor freedom for Teamsters President James R. Hoffa when the question of his release from prison comes before the federal parole board next week.

The board is scheduled to meet here Wednesday to study the Hoffa case, the sources, said, the Justice Department will offer no opposition to a parole.

An official Justice Department spokesman, Robert L. Stevenson, branded the reports "absolutely and totally inaccurate," and said, "Any report that he will or will not be paroled is premature and based on uniformed information."

However, other sources said Friday the pressure to release the 58-year-old union leader has been building for months. As early as last January one source reported, "Unless something happens to dampen this thing, Hoffa is going to get out, take over the union, take over the pension fund and be right back where he was before."

Hoffa has been in the federal penitentiary at Lewisburg, Pa., since 1967 serving an eight-year sentence for jury tampering. In January, the Supreme Court upheld a second five-year sentence given Hoffa for mail fraud.

Under the terms of the jury tampering sentence, Hoffa was not eligible for parole until he served one-third of the term, a point he reached last October. At that time, the parole board denied his petition for freedom and set next Wednesday as a date for rehearing the case.

The five-year mail fraud sentence is an indeterminate sentence.

## America Is Land Of Commuters

NEW YORK AP — America has become the land of the commuter as more and more families retreat to the suburbs to avoid the hazards of big city living. According to researchers at Bulova Watch Co., the average commuter spends approimately 520 hours a year getting to and from work. Add this to the approximately 2,080 hours a year spent working and the 2,920 hours spent sleeping and a man is left with only 3,460 hours to spend with his family, read, or pursue hobbies.

# Judge's Daughter On Goodwill Ship

MAXINE WILSON

Maxine Wilson, 24, the daughter of County Judge Preston Wilson, is serving aboard the S. S. Hope, a goodwill hospital ship, as an electroencephalographic technician. She also is teaching three days a week at the University of Kingston, Jamaica.

The 15,000-ton ship, operated by Project Hope, a nonprofit foundation, arrived in Jamaica last February. It will remain until next November, when it sails for Baltimore, Maryland. It is a 108-bed floating hospital with 130 persons--American volunteer doctors, nurses and technologists--to treat patients and to teach their Jamaican counterparts the latest techniques in medicine.

The ship is a former naval hospital ship which saw service during World War II and the Korean War. Project Hope leases the ship from the U. S. Navy for $1 a year.

The Hope made its maiden voyage in 1960 to Indonesia and to South Vietnam. It has since visited Peru, Ecuador, Guinea, Nicaragua, Colombia, Ceylon and Tunisia.

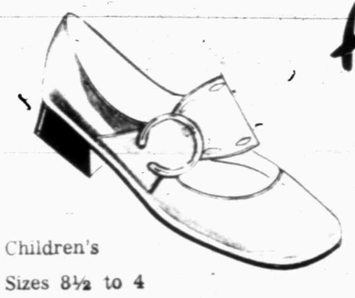

Project officials say the ship's staff has trained more than 5,500 local medical personnel and given medical services to more than three million people.

The ship carries 7,000 tons of supplies--90 per cent of them donated--and has its own vehicles, blood bank, pharmacy, library and brace shop.

The Hope staff estimates there is only one doctor for every 1,900 people in Jamaica. Similar shortages are reported among health personnel at lower levels.

After the Hope leaves Jamaica, a continuing land-based program is planned at the University of West Indies campus to provide postgraduate medical courses for students from all over the Caribbean. The faculty of volunteer doctors will be provided by the Project Hope.

Maxine is a graduate of Deer Park, Washington, High School. She attended Spokane Community Junior College and graduated from the University of Iowa on a government grant to study electroencephalographic technology. She was an assistant instructor in EEG techniques at Iowa for two years, and in 1970-71 she was the senior EEG technician at the University of California hospital in Dan Diego.

# Letters To Editor

To The Daily News:

My congratulations to the people of Scurry County for their wonderful response in the Heart Fund Drive. You have given more this year to this very worthy cause than ever before in a campaign. Scurry County has been placed on the State Heart Association Honor Roll on two accounts, first for meeting our Fair Share, and second for exceeding this by $2,000. A phone call was received from the State office congratulating our County for the good work that has been accomplished. According to the latest report, our county has gone over previous amounts collected by a higher percentage than any county in Texas.

As you know, this money will be used for research in the fields of heart and vascular diseases. There are many people in our community who have benefited by this research which has developed such devices as the pacemakers, plastic arteries, artery transplants, heart monitoring machines and new medications that have added years of their lives. This is only an example of what is being done with the money you contibute to your Heart Fund.

All who worked with the drive are to be commended for a job well done and a special "Thank You" goes to Mrs. W. B. McSpadden, Heart Sunday Chairman; Mrs. F. G. Sears, Special Gift Chairman; Dillard Teal, Chairman in charge of the businesses; and Joe Sentell, Memorial Gifts Chairman, Others who worked as captains and organizations are Mrs. Glenn Stephens, Mrs. Frank Love, Dr. W. B. McSpadden, Mrs. Margaret West, Mrs. Cloyce Talbott and the Atheneun Study Club, Mrs. Charles Tyer and the Twentieth Century Study Club, Mrs. Larry Bills and the Beta Sigma Phi Sorority Mrs. David Lunsford and the Jaycee-ettes, Mrs. John Voelkel and the Altar Society of St. Elizabeth's Catholic Church, Mrs. Kenneth Wood and the Lota Psi Chapter of Epsilon Sigma Alpha Soririty, Mrs. Inez Wilson, Mr. and Mrs. Martin Murphy and Mrs. H. B. Lemons. Other groups who helped were Boy Scout Troop 177, Gay Twenties and Lucky 13 Girls.

I appreciate the people of Scurry County for a job well done and I am happy to have had a part in a project that you have made a great success.

If at any time you would like to donate to the Heart Fund just send your contirbutions to Heart Fund, P. O. Box 1185, Snyder, Texas.

Mrs. Charles Jones
Scurry County Heart
Champaign Chairman

## Garden Planned

DUMBARTON, Scotland (AP) — Polar bears, grizzlies and brown bears, elk, timber wolves and moose are to be imported for a bear garden planned for the Loch Lomond area to boost tourism.

# Hobbs Nips SHS, 10-7

EUNICE, N. M. —Hobbs' first baseman, Burleson, poked a three run home run in the bottom of the 8th inning to lead his team to a 10-7 victory over Snyder in the second round of the Eunice Baseball Tournament Friday night.

Burleson's big blow broke a 7-7 tie. The hit scored Reed, who had singled, and Wallace, who had walked ahead of him.

The Tigers had taken a 2-0 lead in the 1st and boosted in to 4-0 in the 3rd. Two more runs in in the 4th made it 6-0, but Hobbs tallied three runs in the bottom of the 4th, a single run in the 5th and three in the 6th to tie it up.

Lopez went the distance for the Eagles, and he was credited with the victory. Marvin McClanahan relieved Jackie Murray for Snyder in the 6th, and he was tagged with the loss.

Snyder got its first two runs on a single by Stewart Sims and back-to-back doubles by McClanahan and David Thompson.

Thompson hit a two run home run in the 3rd, scoring Larry Wall ahead of him. Larry had singled to get on base.

In the 4th, Sims doubled and McClanahan walked. Both came in on a single by Thompson. In the 7th, Tommy Washington walked and scored on a double by Albert Hernandez.

For Hobbs, Reed cracked a three run home run in the 4th, and Wallace socked a solo homer in the 5th. Mitchell doubled in Harrington and Black in the 6th. Both runners had singled to get on base. Mitchell scored himself on a wild pitch.

Snyder was to meet Euncie for third place at 5:30 p.m. Saturday. The Bengal record now is 9-5.

# Jim McMillian Boosts Lakers

By TED MEIER
Associated Press Sports Writer

Jim McMillian has surprised himself and most everyone else by the efficient way he has stepped into the shoes of the injured Jerry West for the Los Angeles Lakers in the National Basketball Association playoffs.

The 6-foot-5 rookie from Columbia again was the key as the Lakers beat the Chicago Bulls 105-95 Friday night for a 2-0 lead in the best-of-7 Western Conference semifinals.

The Baltimore Bullets evened their Eastern Conference semifinals with Philadelphia at 1-1 by whipping the 76ers 119-107 in the other scheduled NBA playoff game.

McMillian scored 26 points in the Lakers' 100-99 squeaker over Chicago Wednesday and added 24 Friday for a two game total of 50. Not only that, but he did a great defensive job on Chet Walker of the Bulls.

"Maybe I underestimated myself," said the former Ivy League star who averaged only 8.4 points during the regular season. "Since these are my first playoffs I kinda surprised myself the way I shot."

As in the first game Wednesday, the Lakers came from behind to win. They were down 76-72 starting the last quarter, but pulled it out in the last four minutes as Gail Goodrich threw in 10 of his total 29 points. Veteran Wilt Chamberlain got 26 points and grabbed 20 rebounds.

Bob Love topped the Bulls with 34 points.

Earl "The Pearl" Monroe, who injured a rib and played only 11 minutes in Baltimore's first game 126-112 defeat by Philadelphia, turned the tables on the 76ers for the Bullets. He scored 24 points and took control of the game from the start.

Wes Unseld, who has a bad ankle, grabbed 18 rebounds and scored 13 points. Gus Johnson, also hampered by injuries, played rugged defense and contributed eight points.

Kevin Loughery, with 27 points, and Jack Marin, with 24, combined for 51 to do the main scoring for the Bullets. Archie Clark topped the 76ers with 26.

"For us to beat Baltimore, we have to be aggressive or both ends of the court," said coach Jack Ramsay of the 76ers. "We have to outhustle them and we didn't do it."

The Lakers, Bulls, Bullets and 76ers are idle today awaiting the third game of their series Sunday. Tonight the New York Knicks, the NBA champions, try to make it two straight over Atlanta and Milwaukee opens its semifinal series against San Francisco.

## D'Lynn Is Doing Well

D'Lynn Damron, the granddaughter of Mr. and Mrs. H. M. Murphy, 2112 Forty-first Street, is the fifth ranking girl diver in the United States.

She was accorded this honor after competing in a National contest in Ft. Lauderdale, Florida recently. D'Lynn often competes against male divers, and had beaten several of them. She and her father, Frazier Damron, visited the Snyder Daily News office last August when they were here to visit realtives.

D'Lynn has been training recently with Joel O'Connell, a girl from California, who has won 10 national diving championships and has represented the United States at the Pan American games.

Next year, D'Lynn is hoping to compete in the Olympics at Munich, Germany. Her college coach at Wisconsin University—Jerry Darda--will be an assistant coach-manager of the American diving team.

D'Lynn's mother, Mrs. Laura Damron, was raised at Dunn. Her maiden name was Laura Murphy.

## Bass Tourney Set In April

LAKE WHITNEY, Tex. (AP) —For fishermen getting ready for the upcoming State Bass Tournament April 22-25, angler Eddie Braun has a word of advice. Best fishing, he says, will probably be found on the upper end of the lake.

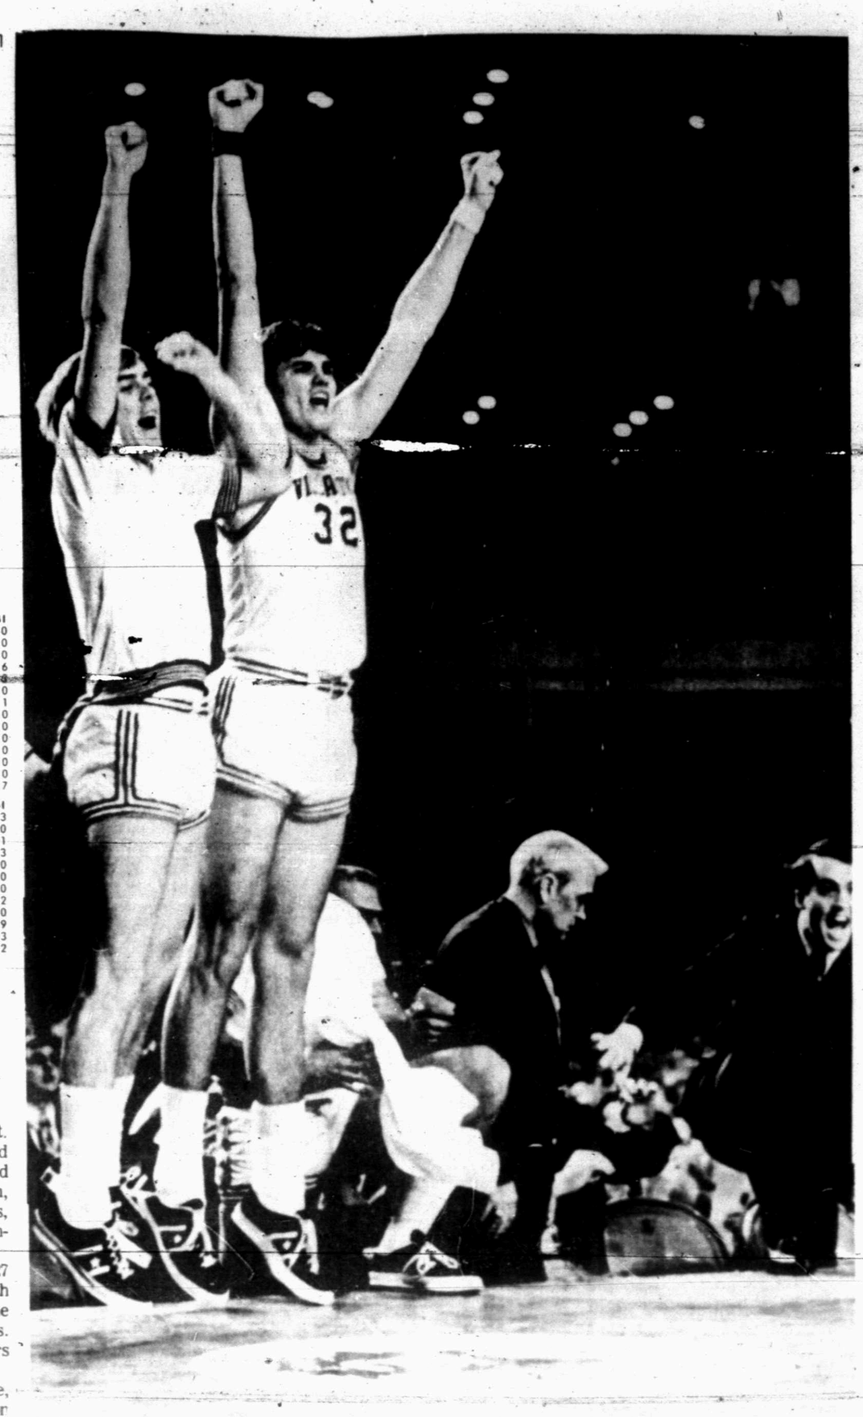

Eddie qualified as an authority on both the tournament and the lake.

He's fished every state tournament since the meet got underway on this same lake in 1956. He and Leon Vick, a Wacoan, have twice missed winning the team championship by a matter of ounces and Eddie has been voted All-State recognition in the annual poll of Texas fishermen.

He also owns and operates King Creek Lodge.

And as far as he's concerned, the lake's best catches will probably be made on the upper end of the lake although his place is down lake. "The lake has been re-planted with small bass several times in recent years," Braun says, "and the fish have always been released above the old Katy Bridge. It has really made a difference."

Headquarters for the tournament this year will be at Redwood Lodge, which is above the Katy bridge. As usual, each team or individual must attempt to qualify during one and only one of the first three days. Finals will be on Sunday, April 25.

VICTORY IS THEIRS — Hank Siemiontkowski (32) center, and another Villanova University player, leap with joy as the Wildcats won the Eastern Championship of the NCAA Tournament in Houston Thursday night defeating Western Kentucky 92-89. Coach Jack Kraft, center, and another member of the Villanova staff, start to climb onto the court. (AP Wirephoto)

# ROBYN IS TALLEST, PRETTIEST JOCKEY

NEW YORK (AP) — The tallest jockey at Aqueduct this season also is the prettiest.

The 5-foot-7 rider with the kind of face that gets one a screen test is 26-year-old Robyn Smith, a television actress—commercials only.

But her career is racing, and that she is serious about it can be seen by the fact that she is the first of her sex to attempt to ride regularly on the New York circuit—the Big Apple of racing.

"New York is the safest place in the world for a new jockey to break in because of the high caliber of riders and the strict supervision," said Miss Smith, who launched her invasion of New York after fewer than 60 races in two years.

"I wanted to be a jockey all my life, but I also wanted to be a cowboy all my life," said the Stanford University graduate, with a degree as an English major, who earned a screen test and contract at MGM but who abhors the tag "former Hollywood starlet."

Being a cowboy will remain a fantasy but being a jockey became a reality for Miss Smith who decided to try for a career in racing after "I read about Kathy Kusner getting the first girl jockey's license."

She quit acting school—she never has appeared on the stage or in the movie—and earned her jockey's license.

Being the first regular female rider in New York means nothing to Miss Smith except a chance to become better at her chosen profession.

"I'm not a symbol of anything," said the apprentice rider. "The only cause I'm fighting for is my own—and not as a woman, but as an individual who thinks she has the ability to earn a livelihood as a race-rider."

An agent to get her more mounts will help Miss Smith earn her living as will her determination.

"All I think about is racing right now," she said. "I have absolutely no social life but that's of my own doing."

So except for some television commercials to supplement her income, racing is the life of the San Francisco native who was raised in Hawaii.

She has set no goals except to win more races—she has one winner at Aqueduct—and to ride in stakes, and she feels she has inborn support and communication with horses that a good rider needs."

She also feels she is strong enough at 108 pounds and scoffs at critics who say girl riders don't have the strength to compete with males on a regular basis.

"Look at (Bill) Shoemaker. I could throw him across the room," Miss Smith said in pointing out she is bigger than the record-winning rider who is noted for his finesse with a horse.

# NCAA Will Not Fight Pro Draft

By MICHAEL A. LUTZ
Associated Press Sports Writer

HOUSTON, Tex. (AP) — Walter Byers, executive director of the NCAA, says he has no plans to fight the pros if they continue to sign collegians who have not completed their collegiate eligibility.

Byers said he had only "benign concern" for a recent federal ruling that labeled unconstitutional the NCAA's rule prohibiting a player from continuing his college athletic career after signing a pro contract.

The ruling already has resulted in the signing of collegiate basketball's leading scorer this season, sophomore Johnny Neumann of Mississippi by the Memphis pros for an estimated $2 million.

"I don't propose to fight it at all," Byers said Friday. "Ive had proposals that we go down to Congress and fight this thing, but we're not about to do that. I don't think we ought to fight."

"We've made a lot of millionaires in pro football and basketball and we will be here later to make more," Byers said. "If they (pros) want to hurt us by signing our players, that's their business."

Byers said if a player under financial hardship felt it in his best interest to sign a pro contract, he could see the temptation. "You start putting enough zeroes on those contracts and you can't turn them down."

Byers said the entire device for signing undergraduates, was a pro plan.

"We have no rule to keep a student athlete from signing a pro contract," Byers said. "But when he does sign with the pros, he forfeits his college eligibility. And if a player participates after signing such a contract, his team's games are forfeited."

Although Byers said he had other things that worried him more than the pro situation, he didn't let the pros off without a few verbal blasts.

"The pros say they are signing these players to help the colleges," Byers said. "I say it is an economic armlock on the athlete. With one or two exceptions, I've never seen any pro felt any concern for college athletics."

Byers said the pros started signing student athletes as hardship cases.

"But I notice their concern ends when they sign the player," Byers said. "They merge (referring to pro football) the prices go down and they go back to the reserve clause."

Byers said he hoped the federal judge who rules against the NCAA's eligibility rule also would take a look at the pros' draft and reserve clause.

## Relay Team Places 2nd

SAN ANGELO — The Snyder High School track team qualified two relay teams and two individuals at the preliminaries of the San Angelo Relays here Friday.

The sprint medley relay team of Norman Davis, David McCommas, Freddy Murphy and David Wittie toured the oval in 3:44.9, good enough for a second place.

Gary Patterson and Norman Davis qualified in both the high hurdles and the intermediate hurdles. Gary was second in the highs with 15.0 and second in the lows with a 41.7. Norman was sixth in the highs with a 15.8 and third in the lows with 41.9.

The 880 yard relay team comprised of David McCommas, Freddy Murphy, Gary Patterson and David Wittie finished seventh with a 1:35.3 clocking.

## Horn Golf Tourney Set

AUSTIN (AP)—Tom Kite Jr. and Ben Crenshaw will lead the Texas Longhorn golf team against some of the top college teams in the South, West and Midwest at the Morris Williams Tournament April 30 and May 1.

Challengers to the Longhorns in their home tournament include the perennial NCAA champions, the University of Houston, and LSU, Arizona State, Oklahoma, Oklahoma State, New Mexico State, North Texas State, Wichita State and SMU.

Kite, captain of the 1971 Longhorn golf squad, was runnerup in the 1970 U.S. amateur and has been selected to play in the 1971 Walker Cup matches and invited to the 1971 Masters tournament.

Crenshaw climaxed a brilliant high school career last summer by sharing the low amateur's score in the U.S. Open.

The 54-hole Morris Williams tournament is named for Lt. Morris Williams Jr., a Longhorn golfer who died in an Air Force jet crash in 1953.

The tournament will be played on a course also named for Williams.

## Cougars Rewrite Record Book

HOUSTON (AP) — The University of Houston golf team rewrote a number of its own records Friday while taking the 8th annual El Dorado Intercollegiate tournament.

The Cougars finished with a 1087 total, 77 strokes ahead of second-place Minnesota. Houston Baptist College was third with 1172.

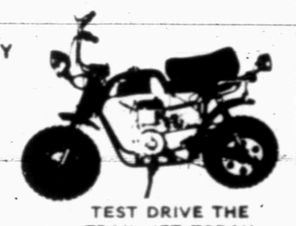

The winning total was three strokes below the previous record set by the Cougars, in 1969.

It also marked their 16th consecutive tournament win, a new national record, and they have now beaten 96 teams in a row.

Tom Jenkins carded a five-under-par 67 Friday and tied the medalist record with a 211 total. Teammates John Mills wound up at 214 and Jim McLean was third with 216. Bruce Ashworth of Houston who first established the medalist record in 1969, was fourth at 222.

The Hunds are from left, Mr. Hund, Tim holding Janet, Mary Ann, Annette, Joe, Alan, Tom Teresa, Matthew, Patrick, and Loren. Four of the Ebert family were not present. (AP Wirephoto)

# Apollo 14 Moon Rocks Older

SPACE CENTER, Houston (AP) — Rocks gathered by the Apollo 14 astronauts may be older than any others brought to earth from the moon, scientists report.

And they're certainly more complicated and different in other ways from the lunar samples of Apollo 11 and 12, Dr. Robin Brett, chief of geochemistry at the Manned Spacecraft Center told newsmen Friday.

"The chances of finding 4.6 billion-year-old material among the samples appear to be very good," said Dr. Paul Gast, chief of planetary sciences at the center.

Experts believe a rock that ancient would date back to the very formation of the moon—possibly of the solar system.

Gast said preliminary study of the 94 pounds of Apollo 14 material just completed, detected "the characteristics of what we expected to find" in the mountainous Fra Mauro terrain where Apollo 14 landed in February. Earlier landings were on plains.

Brett said scientists were particularly surprised at how many of the rocks were fragments of older rocks, which in turn broke off still earlier ones.

"This just indicates their extremely complicated history," he said.

Tests of cosmic radiation soaked up by three of the Apollo 14 samples indicate they lay on the lunar surface only nine to 14 million years and were hurled up by meteorites crashing through the moon's crust, Brett said.

In contrast, it's estimated that rocks from the previous Apollo missions were on the surface 50 million to 500 million years.

The latest samples will be processed for distribution, starting April 4, to 176 principal investigators in the United States and 13 other countries, said Dr. Michael Duke, curator of the Lunar Receiving Laboratory.

Scientists have found the Apollo 14 stones contain 23 minerals, some still not identified positively-more than in the Apollo 11 and 12 collections combined.

# USO Getting Relevance Test

By MARGARET SCHERF
Associated Press Writer

WASHINGTON (AP) — Marking its 30th year, the USO still is serving doughnuts and Bob Hope to American servicemen, but it's also dishing out soul food and advice on kicking drugs.

Like many other American institutions, it's undergoing the relevance test.

"During 1970 there was uneasiness among some sincere people about the war in Southeast Asia and about United States military activities," noted national Chairman Harvey S. Firestone Jr. in a speech at USO's 30th anniversary meeting.

"The USO, as a wholly civilian organization devoted entirely to serving the military, was in a unique position to be a bridge of understanding between a concerned civilian population and a dedicated military organization," he said.

"What has happened is that troops removed from the combat areas now have more free time," the handout states. "The door count, by which USO determines how often its facilities are visited, remains at about 750,000 per month, the same level as when there was full troop strength."

But it's in the realm of show business that the USO probably is most widely known. It "presents more live entertainment shows than Broadway," claims one promotional sheet.

Last year, under USO auspices, more than 1,000 entertainers gave 8,000 performances seen by about 8 million U.S. servicemen.

The most famous was Hope's Christmas tour—his 20th. A veteran of some of his World War II tours, singer Frances Langford told troops in Vietnam: "You had better like me. I played for your fathers."

Making some effort to keep up with the times, the USO has sent Miss Black America to Vietnam two years in a row; has expanded its menus to include soul food, and now counsels GI' on dangers of drugs and how to kick the habit. She followed Miss America by several years.

# Judge To Rule On Alimony

HOUSTON (AP) — A district judge is expected to rule Tuesday on a plea for $15,000 a month in alimony sought by the wife of Houston oilman J. Collier Hurley.

Mrs. Miller King Hurley asked the temporary alimony, pending a final divorce, from her husband of 18 years at a temporary hearing Friday.

He contended he can only afford to pay $300 per month.

Mrs. Hurley also asked Judge Wells Stewart to appoint a receiver to handle the community and separate estates of her husband and a master of chancery to inquire into the nature and extent of the community estate.

Hurley filed the original divorce petition, and also asked that his wife be restrained from disposing of community property.

Mrs. Hurley claimed in testimony that her husband was seeing a woman "nearly 50 years his junior" and would not give up the relationship. She has also filed a separate action against the woman.

Among assets she listed were intersts in oil and gas rights on the north slope of Alaska, a venture in North Africa, a garnet mine in North Carolina and oil and gas leases in West Texas.

# Defense Report Pressured

WASHINGTON (AP) — Rep. Bob Eckhardt, D-Tex., says a congressional report on defense profits was changed at the recommendation of a high Defense Department official.

Eckhardt Friday released a letter from Asst. Secretary of Defense Barry J. Shillito, which called for "subordination" of a General Accounting Office analysis of contracts to a tally of questionnaire responses from contractors.

But Comptroller General Elmer B. Staats said the questionnaire responses took precedence in the final report not because of the Shillito request, but because the questionnaires represented $125 billion worth of defense contracts, while the GAO analysis was on projects worth only $4.3 billion.

Eckhardt said, however, "I think there were pressures, or at least influence exerted to change the direction of the report, and the direction was changed."

Staats told a House military operations subcommittee there were no pressures. "I've been around this town for a long time and I know a pressure attempt when I see it," he said.

There were changes such as emphasizing the contractors' questionnaires, Staats said, but the conclusion remained the same: Contract profit objectives have been based too much on costs with too little attention to the profit return on companies' own capital investment in the work involved.

Eckhardt and 12 other House members charged the GAO report was softened in its final version, and said the revisions recommended by the Logistics Management Institute, a defense research agency, were followed almost word-for-word.

# Status Of Bills

Austin (AP)—Here is the status of major legislation in the 62nd Legislature:

HB 43, raising non-resident state college tuition, House and Senate passed, conference committee considering differences.

SJR 6, lowering voting age to 18, passed Senate.

SJR 8, replace annual voter registration with automatic re-registering, passed Senate.

SJR 3, annual legislative sessions, passed Senate.

SJR 16, so-called Women's rights amendment, passed Senate.

SB 13, creating the Texas Commission on the Status of Women, passed Senate.

SB 27, requiring additional innoculations for public school children, passed Senate.

SB 346, liquor by the drink, passed Senate.

SB 79, Fair Employment Practices Commission, passed Senate committee.

HB 448, state college tuition increases, House passed.

HB 730, general tax bill, House passed, Senate committee hearing in progress.

HB 506, exempting Texas from Daylight saving time, killed by House vote.

SB 140, creating Texas motor Vehicle Commission, passed Senate and House, returned to Senate for approval of House amendments.

SB 86, establishing State Ethics Commission, passed Senate.

SJR 7, tax exemptions for those 65 or older, Senate passed.

SB 51, permanent voter registration, tentatively approved by Senate.

SCR, 65, ratifying U. S Constitution amendment lowering voting age to 18, passed Senate.

## Hope Is No Blue Blood

MOBILE, Ala. (AP) — Comedian Bob Hope says he hopes a [illegible] the geneal- ist who traced his family tree back 200 years and found not one drop of blue blood.

Genealogist Richard Austin-Cooper released his finding to the press before informing the comedian, here for a benefit performance Friday night.

Newsmen told Hope Austin-Cooper said he had sent the findings to Hope and was waiting for instructions on whether he should continue the study.

In London, Austin-Cooper said his study of the Hope family origins turned up two ancestors, laborer George Hope, born in 1799, and another 18th century workman, William Collard.

## Rock Group On $2 Million Tour

NEW YORK (AP) — Grand Funk Railroad, a U.S. hard rock group, will embark on a spring tour encompassing 38 appearances in 52 days. They have a guarantee-exclusive of percentages of the gate—of $760,000 and—with percentages— a potential take of $2,060,000 on an anticipated gross of nearly $4 million.

Every arena on the tour will have a minimum of 10,000 seats. There is a potential audience of three-quarter million fans. Tickets will be scaled from $4 to $6.

One group will travel with Grand Funk throughout the tour, Bloodrock, from Dallas.

The tour will cover 26,326 miles and Grand Funk will carry 8,000 pounds of equipment and 75 luggage trunks. The equipment includes a 4,000 watt sound system, electronic cabling and portable recording facilities. Equipment and more than 20 full-time employes, not counting film and TV crews going along, will fly in a chartered jet.

## Negro Woman Named Judge

LINCOLN, Neb. (AP) — A 49-year-old woman, Elizabeth D. Pittman, is the first black person ever selected to serve as a judge in Nebraska, says State Supreme Court Clerk George Turner.

Mrs. Pittman was appointed to the Omaha Municipal Court bench by Gov. J.J. Exon on Friday. She will succeed the late Judge Jay Gibbs.

# Cross To Head P&WD

AUSTIN (AP) — The Texas Parks and Wildlife Commission voted unanimously today to hire retiring Brig. Gen. James Cross, pilot of Air Force One under President Lyndon Johnson, as executive director of the Parks and Wildlife Department.

Chairman Pearce Johnson said Cross will assume the $25,000 job as soon as he retires from the Air Force April 30.

The decision to hire Cross was made in a closed-door session prior to the commission's regular meeting.

Cross, 45, is now commander of Bergstrom Air Force Base near Austin.

Cross takes over from Ron Jones, 30, who has been acting executive director since Robert Mauermann was fired recently after taking sides in the Mustang Island controversy.

Mauermann succeeded J. R. Singleton, who resigned in January.

Singleton's resignation reportedly also had to do with the argument over whether the state should buy part of Mustang Island, near Corpus Christi, for a state park.

The commission voted, 2-1, to buy the land, but Johnson blocked it with a federal suit. A ruling favorable to Johnson is now on appeal.

STAR IS 'ANOTHER MOTHER FOR PEACE' — Academy Award winning actress Donna Reed explains her role as co-chairman of Another Mother for Peace, a Beverly Hills-based organization claiming worldwide membership of 225,000. The group encourages letter writing to Congressmen and raises money to support candidates who have voted against war appropriations. (AP Wirephoto)

# Magnets Damaging To Big Firms' Computers

GARLAND, Tex. (AP) — If you really want to hit a big firm where it hurts, sock it to 'em right in the computer. They'll be for ever straightening out the mess. And all you need for ammunition is a magnet.

Tom Allen, president of SPS Inc., a local firm manufacturing sensitive metal detectors, carries a magnet in his briefcase just to illustrate the point. He thinks the vulnerability of big firms to saboteurs, industrial spies or just disgruntled or careless employes often verges on madness.

"There are probably something like 300,000 computer rooms in the nation," he said last week, "and few of them are adequately protected. One tape can be worth $500,000."

There are hair-raising tales about what can be done by erasing an inch or two of magnetic tape or by switching the label on a can containing it.

Years of research can be lost in seconds, bank accounts scrambled, personnel and credit files erased, long-range corporate plans wiped out. All because some workman forgot to leave his screwdriver outside or stuck his magnetic flashlamp on a steel cabinet while cleaning up in the computer room.

Since there's nothing so useless as a memory bank without a memory, the lost data has to be re-programmed from the start. And the cost may run into thousands of dollars, apart from all the time it takes.

An anonymous article in an underground publication called the Broadside Free Press tells how to make punched cards useless, how to damage tapes, and how and where to snip each wire. It's called "The Technology of Computer Destruction" and will doubtless soon be in every anti-establishment kit.

Allen is currently urging chambers of commerce around the country to hold seminars where businessmen can discuss their computer security problems.

He is convinced that the main need is to educate staffs in the dangers facing them computer-wise.

Dow Chemical, IBM, the Bank of America and Chase Manhattan Bank are known to have suffered damage to their data-processing plants. There are probably many more.

Allen offers what he claims is as neat, clean and silent as the crime itself—a device that just won't let a magnet in without sounding an alarm.

Anything from a forgotten screwdriver in the pocket to the knife of a visiting Boy Scout will be detected, Allen claims. And the electronic detector can be installed inside a wall, invisible or in a simple briefcase.

The metal detector has already been used to protect courtrooms, to scan parcels in the Garland, Tex.

## ANNOUNCEMENTS A

### SPECIAL NOTICES A-2

IF YOU drink, that's your problem if you want to stop, that's our problem. Alcoholics Anonymous. 573-9980 or 573-5337.

EMPLOYES HONORED — Chevron Oil Co., operator for the SACROC Unit, held a dinner Thursday night at the Snyder Country Club to honor two of its employes for long term service. Jerry Ronquille and Bill Williams received tie clasps for 10 years and 15 years service, respectively, with Chevron Oil. Pictured above from left to right are T. L. Perryman, J. D. Ronquille, C. O. Williams, J. A. Thompson and T. D. Cramer.

# Nixon Asks Churchmen To Help In Drug Fight

By GEORGE W. CORNELL
AP Religion Writer

WASHINGTON (AP) — President Nixon has turned to the nation's religious leaders for help in combatting the spread of drug abuse.

"If there's an answer to it, you have it," he told them Friday in an unusual White House gathering of most of America's top denominational officials.

It was the first time the Nixon administration had called in a full cross-section of religious leadership—Protestant, Roman Catholic, Orthodox and Jewish—to enlist cooperation on a major national problem.

The clerics said it had not happened since the late President John F. Kennedy called in religious leaders to muster their support for civil-rights legislation.

Many of them voiced keen approval of Nixon's initiative for such joint efforts and expressed hope for continued and widened dialogue between government and churches.

"It is a basic implementation of the President's recognition of the spiritual character of the crisis of our times," said the Rev. Dr. A. Dale Fiers, chief executive of the Christian Church (Disciples).

The approximately 80 church leaders spent all day hearing reports from half a dozen government officers in addition to the President, including Atty. Gen. John N. Mitchell and Secretary of Housing and Urban Development George W. Romney.

The head of the armed forces office of information, John C. Broger, said the drug problem threatens the world with its "worst crisis in a thousand years."

Nixon called it basically a spiritual problem and told the churchmen "we have to get at the cause of the frustration, anxiety or whatever it is that is leading the young to give up on the system" and turn to drugs.

"The spiritual needs of the individual have to be filled one way or another," he said. Nixon added that aside from government and educational efforts the churchmen bear a chief responsibility in dealing with the "heart of the problem."

## Litter Items Are Numerous

LONG BEACH, Calif. (AP) — The litter people fling out of their cars can include almost anything.

So observes Keep America Beautiful Inc., the national litter-prevention organization, in noting that a volunteer cleanup crew here discovered the following items among trash they picked up on a one-mile stretch of highway:

Six pairs of women's panty hose, a typewriter, several girdles, a love letter, a court summons, a dollar bill, old tires, bent fenders, empty beer cans, mangled cartons and other discarded junk.

# Annual Bike Month To Stress Safety

"If every parent in our area made sure that his youngster's bike was in safe operating condition, and that his child knew and observed the rules of the road, bicycle accident's could be reduced by 35 percent," according to Chief Bobby J. Goodwin, of the Snyder Police Department.

"Safe bike, safe driver," Chief Goodwin said, "is the goal announced by the American bicycle industry for the 15th annual observance of American Bike Month in May. I think that's a worthwhile goal, and I'm happy to support it."

Chief Goodwin said that a recent survey by the National Safety Council indicates that as much as 85 percent of all bicycle accidents were the result of young cyclists violating one of the basic rules of the road, and that in about one out of eight of these accidents, the bicycle involved was in need of repair.

"As the weather turns good around the county," Chief Goodwin continued, "more and more youngsters and adults will be using their bikes for fun, fitness, recreation and transportation. Now is the time to get those bicycles inspected by a trained mechanic. They should be repaired and readjusted...made ready for the riding ahead.

"But just as important," he said, "every parent should be sure in his own mind that his children know the basic rules of traffic safety before thay take their bikes out into traffic. That good feeling of freedom that bicyclists enjoy doesn't mean freedom from the responsibility of driving their bikes safely."

Chief Goodwin noted that thousands of bicycles retailers around the country were cooperating with schools, police, civic, service and vetrans organizations in conducting bicycle safety compaigns during American Bike Month in May. Many retailers, he said, are offering free bicycle inspections, and giving away a free bike safety booklet which contains the rules of the road and other safety information.

"With more people of all ages riding bikes than ever before, it becomes more and more important that a safety education campaign like this be successful," Chief Goodwin said.

He then listed the rules for safe cycling as distributed by the Bicycle Institute of America.

1. Obey all traffic regulations, lights, stop signs, one-way streets.
2. Keep right. Ride single file. Don't weave in and out, swerve, race or stunt in traffic. Never hitch a ride on a truck or other vehicle.
3. For night riding, be sure to have a white light in front and a red light or state approved reflector in the rear. Have a clear-sounding horn or bell to warn others of your approach.
4. Slow down at all intersections, look both ways, then proceed with caution.
5. Always give pedestrians the right of way.
6. Watch out for cars pulling into traffic or for doors opening.
7. Don't carry passengers or packages that interfere with your vision or control.
8. Always use proper hand signals for stopping and turning.

"Safe bike, safe driver," Chief Goodwin said. If we can get that message across, it will mean more cycling pleasure and fewer accidents. I think that's a worthwhile community goal."

## 10 Taken By Ad

AUSTIN (AP) — Ten young men who thought they were headed for adventure and a new job in Alaska found out painfully Friday morning they were victims of a confidence game.

Hank Dunlop, Austin Better Business Bureau manager, said the 10 men were told to wait at the municipal airport for a private jet plane that a bearded, sophisticated man said would take them to Alaska.

All had answered a newspaper classified advertisement for young men "not afraid to work," with an unusually good salary mentioned.

The ad led them to an Austin motel where the bearded man got their names and telephone numbers and their signatures on an agreement to work in Alaska for an oil company.

The man attempted to get the men to cash his personal checks, drawn on a Phoenix bank, or to take them to a local bank to be cashed. All were for $200 and $300.

Not all the men cashed the checks but all had given up their jobs, moved their wives home to mother and given up their apartments, Dunlop said. Then they went to wait for the plane that never came.

## Refund Check Mailed Twice

PARIS, Tex. (AP) — Theo Griffie got his income tax refund check in the mail twice.

Griffie received the check from the postman and went to the bank in downtown Paris to cash it. On the way, he lost it.

Three days later, Griffie found the check in his mailbox again. An anonymous but honest person had found the check and mailed it back to Griffie.

## Community Wants To Share

MOUNTAIN VIEW, Ark. (AP) — Residents of this Ozark Mountains community are proud of their hill tradition and want to share it with others.

Not only do they show their handicrafts at a yearly fair, but each Friday night residents converge on the county courthouse where a makeshift stage, complete with lighting is in place on the lawn year around. For three hours they pick, sing, and square dance for the pleasure of anyone who assembles.

During foul weather the festivities move to the second-floor courtroom.
