Number 23

## Clint Breedlove, Lubbock C.A.P. Operator May Take Over The Lamesa Field

It is reported by reliable authorities that the Lamesa Field will probably be reopened in the very near future. Clint Breedlove, Lubbock civilian operator was in Lamesa during the week talking with local officials concerning the local field and reports that he has his legal representative now in Washington and the matter will probably be closed today, Monday.

If Mr. Breedlove secures the local field, he will move his Plainview school, intact, to Lamesa, where he will open a Lamesa School for the training of communications pilots.

The only objection Mr. Breedlove has with moving his school to Lamesa is the housing situation, he asked that 120 houses be made available, as that many families would be moved to Lamesa.

A number of Plainview residents, anticipating moving to Lamesa came here on Saturday and Sunday looking over the housing problem, and indicated that if they moved here they would do so about April 10.

Mr. Breedlove is operator of a C.A.P. School at Lubbock and was civilian operator of the Plainview Pre-Glider School, the personnel of that school is the group that will be moved to Lamesa if he signs the contract with the government for the local field.

## Dorothy E. Crow Stationed With WAAC In Georgia

Auxiliary Dorothy Ellen Crow of Lamesa, daughter of Mrs. Annie Crow, has been transferred from the First Women's Army Auxiliary Corps Training Center at Fort Des Moines, Iowa, and ordered to Recruiting duty in the Fourth Service Command.

Miss Crow will report to the Commanding General at Atlanta, Georgia, and will then be assigned to a particular station in the Service Command territory for service in a WAAC Recruiting Office.

### PVT. TOMMIE ROBERTS RECEIVES PROMOTION

Pvt. Tommie Roberts, son of Mr. and Mrs. C. C. Roberts, who is stationed at Chanute Field, Ill., received his promotion to Private First Class this past week. Pfc. Roberts has served in the Army seven months.

## NOTICE

Beginning on Monday, April 5 the Dawson County War Price and Rationing Board Office will open at 10 a. m., and close promptly at 5 p. m., the board announced this week.

The public is requested to please cooperate with the ration board by calling at the office only between 10 a. m. and 5 p. m. This new opening and closing time is necessary so that clerks may have time to do a lot of detail work, which is impossible for them to do with the office open, they hope it will not inconvenience anyone.

## Four Lamesa Boys Training At A.&M. College

Four Lamesa boys, Pvt. Billy V. Dixon, Pvt. Elmore D. Rhoades, Pvt. Obie M. Cates, and Pvt. Fred M. Flaniken, are now stationed at A. & M. College, Bryan, where they will receive a five months course in Army Air Force instruction prior to their appointment as an Aviation Cadet in the Army Air Force.

During this period these boys will take numerous academic courses, as well as elementary flying training. Upon completion of the course they will be classified as a pilot, navigator or bombardier and go on to schools of the Flying Training Command for training in these specialties.

Pvt. Dixon is the son of Mrs. W. R. Dixon, 512 S. Wasson St., Pvt. Rhoades, is the son of Mr. and Mrs. R. Rhoades of Star Route 2, Pvt. Cates is the son of Mr. and Mrs. T. W. Cates, 1101 S. 5th St., and Pvt. Flaniken is the son of Mr. and Mrs. J. R. Flaniken, 212 Taft St.

## Presbyterian Church To Have Social Wed. Night

The congregation of the First Presbyterian Church will hold a social and business meeting Wednesday night according to an announcement by Moderator, D. J. Murray. The church year ends with the month of March and the reports of the year's work will be reviewed. Plans recommended by the Session will be announced and if any changes are desired by the congregation these will be acted upon and a working program established for the new church year.

The custom of congregation meetings each quarter has been handicapped by prevailing circumstances but the ladies of the church have devised means of holding this one to which all persons affiliated with the Sunday School or Church or both, directly are urged to attend.

Among other items of business will be that of selecting delegates to attend the semi-annual meeting of Abilene Presbytery at Albany next week.

## Harold Lambeth Again On Duty

Harold Lambeth, fireman first class, USN, is now somewhere on duty in the South Pacific with the United States fleet, according to letters received by his parents, Mr. and Mrs. Ocie Lambeth. A survivor of the sinking of the USS Astoria, last August, Lambeth was given new assignment some time ago. His latest letters home say, "Looks like I'm going to get another crack at the Japs." He is a graduate of Lamesa High School and an ex-student of Texas Tech.—Colorado Record.

## Subscribers Are Asked To Check Expiration Dates

Courier readers are asked to watch their expiration dates on their subscriptions in order that they not miss a single issue of their home town newspaper.

In other words, if the numbers following your name on your paper read 4-43, that means that your subscription will expire on April 1, 1943, and that unless you renew your subscription will be stopped at that time.

The subscription price of the Courier is now \$2.00 per year in Dawson, Martin, Gaines, Borden and Lynn Counties, \$1.25 for six months, or \$3.00 for two years. The subscription price outside this territory is \$3.00 per year.

## James Smith Starts Training In Air Corps

Dr. and Mrs. A. H. Smith were notified this past week that their son, James A. Smith, has been selected by the Classification Board, Santa Ana Army Air Base, Santa Ana, California, for pilot training in the Army Air Corps.

James will soon be transferred to one of the West Coast Army Air Forces Training Center elementary flying schools and will then begin his flight training. Upon successful completion of his flying training, he will receive his wings and the rating of airplane pilot.

James joined the Air Force several weeks ago, before that time he was employed with the Border Patrol.

## Twenty-Two Men Reclassified By Draft Board

At meetings of the Selective Service Board on Tuesday, March 23 and Wednesday, March 24 the following Dawson County men were given new classifications.

Men designated for local physical examination, Fred Hunter, Curtis H. Richardson, Pr. Stanley Wilkes, Pr. Orlee B. Morrison, Kenneth Lindsey.

Men now 1-A, Ollie Morrison, Frank Pennington, Ernesto Tiperino, Howard Davis, Albert Crawford, Walter Harper, Henry McQuen Jr.

Frustrato Amaro 2-C; Robert Hardeberger 2-B; William D. Brothers 2-C; Tommy Anderson 2-C; Charles Stogner 3-B; Harrell Hornbeck 3-B; Josh Haney Jr., 3-C; Howard Miller 3-C; David Garcia 3-C; Lorenzo Watson 4-F.

Sgt. Paul Morgan of Florida, is visiting with his parents, Mr. and Mrs. Hardy Morgan.

Miss Marjorie Ferguson of Lubbock spent Sunday here visiting in the home of Mr. and Mrs. Irvin Wright.

## Fruit Juices Point Value Cut; Prunes, Raisins Unrationed

WASHINGTON, March 27. (AP)—Fruit juices will require fewer of your blue ration coupons starting Monday, and prunes and raisins will take none at all, the Office of Price Administration disclosed Saturday night in a revision of the point values of processed foods.

The point value of dried soups is being slashed 50 per cent, but more points will be needed for canned beans, catsup and chili sauce, tomato paste and sauce, applesauce, fruit cocktail, peaches and pineapple.

The fruit juice reductions range up to 60 per cent. These and the cuts on dried soup were made because the products were not selling up to expectations, officials said. The greatest reductions are on 46-ounce cans of juice. This size can of grapefruit juice, posted for 23 points in March, will take only 9 starting today (Monday). A 46-ounce can of tomato or pineapple juice will require 22 points instead of 32.

Apple juice was opened to unrestricted sale along with raisins, prunes and other dried fruits. Officials explained that the dried fruits are in danger of spoiling in the coming warm months, while the country has a surplus of apples that can be turned into cans or jugs of apple juice.

Dried fruits were left on the official chart at zero value as a reminder that they may be rationed again when the new crop is packed.

OPA said no overall increase in rations is possible at present.

Sample changes in point values:

Item, Size	Points New	Points Old
Applesauce, No. 2	14	10
Fruit Salad or Cocktail, No. 2	16	14
Peaches, No. 2 1-2	24	21
Pineapple, No. 2 1-2	28	24
Grape Juice, pint	4	8
Grapefruit Juice, No. 2	5	10
Grapefruit Juice, 46 oz	9	23
Pineapple Juice, 46 oz.	22	32
Other Fruit Juice, 46 oz.	9	23
Canned Fresh Lima Beans, No. 2	19	16
Canned Dry Beans (including baked beans and Pork and Beans, No. 2	14	10
Tomato Catsup and Chili Sauce, 14 oz.	10	8
Tomato Juice, 46 oz.	22	32
Other Vegetable Juices, pint	8	11
Dried Soups, 2 1-2 oz	2	4

The new values go into effect simultaneously with the inauguration Monday morning of the rationing of meat, cheese, canned fish and edible fats and oils. The new chart will be used in making purchases on any unused March or April fruit and vegetable stamps. These are the blue A, B and C (March—expire March 31) or D, E and F (April) stamps in ration book No. 2. The basic ration remains at 48 points per month per person.

### The Meat Stamps

The meat stamps that become usable Monday are the red A stamps in the same book. The following week unused red A's plus the red B stamps will be usable, accumulating until the first four weeks' meat stamps expire together on April 30.

Among the lesser changes in the new chart were these: Some large size packages of frozen foods were increased slightly in point values, although the

## Teachers To Hear Dr. W. A. Sutton Tues. Afternoon

The Public School teachers of Dawson and adjoining counties will attend a lecture Tuesday afternoon at 3 p. m., in Lamesa High School Auditorium by Dr. Willis A. Sutton, Supt. of Schools, Atlanta, Georgia. About 125 teachers including the Lamesa faculty will be in attendance. The teachers invite trustees and patrons and citizens interested in public education to hear this noted educator. Dr. Sutton will spend the entire week in West Texas making two addresses daily through Saturday when his schedule for the area ends with an address in Abilene.

The Victory Corps of Lamesa High School invites the public to witness an open air showing of their execution of military drill which members take as part of their organization requirements. This portion of their school work is better adapted to out-door showing than demonstrations in mathematical or scientific skills which they are also required to master. This program will begin at 2:15 on McCollum Field and will last for one half hour.

## School Trustees Election Will Be Held On Saturday

The names of three members of the Lamesa School Board whose terms end this Spring will be the only names on the printed ballot for Saturday's school trustee election according to E. W. Renner, Board Secretary. A petition containing the proper number of names for the printing of names of Messrs. J. H. Harp and John Allen, Jr., and Caryl Baldwin was the only request filed. The election in the Lamesa District will be held at the School District Tax Office in the E. C. Nix building on North Street with M. Hatch as election judge. The voting hours are the same as for general elections in Texas.

### MR. AND MRS COLLINS HAVE NEW GRANDSON

Mr. and Mrs. Wilson Collins of Brownfield are the parents of a baby boy born Monday, March 29. Mr. Collins is the son of Mr. and Mrs. W. B. Collins.

### —BUY WAR BONDS AND STAMPS—

cost of most popular size packages were unchanged.

Canned tomato soup was put in a separate classification without any change in point values. This was said to mean a possible differential between tomato and other soups in the future.

Another new classification is for canned or frozen corn on the cob, priced at 2 points per ear.

The chart, which will be posted Monday in all stores, also lists the things that are not rationed, so as to lessen confusion on some borderline items. The unrationed list include cereals, corn syrup, dates and figs, mushrooms, gravy mixes, jams and jellies, milk, pickles, peanut butter, soft drinks and spices.

The mythical All-American Duroc Herd for 1942, selected from photographs by a committee of judges, packer-buyers, swine specialists and breeders, is shown here. In left-to-right order by show classes, they are: Aged Boar, Tazewell Trademark; Aged Sow, Superba Wave Lady; Sr. Yearling Boar, Sturde-bitt; Sr. Yearling Sow, Red Beauty; Jr. Yearling Boar, Superba Cherry King; Jr. Yearling Sow, Cherry Lass; Sr. Boar Pig, Square Deal; Sr. Sow Pig, Glamour Lady; Junior Boar Pig, General Doug; Junior Sow Pig, H & W's Victory Queen. The selection of an ideal Duroc herd is sponsored annually by the United Duroc Record Association, of Peoria, Ill., and the pictures are printed through the courtesy of Mrs. Gus Schmidt, Duroc breeder of this community.

**CARD OF THANKS**

We wish to express our thanks and appreciation to our many friends and neighbors for all the kind deeds and help that we have received during the sad time, over the loss of our dear brother. Also we thank you for the nice food and the lovely flowers.

Mrs. Hazel Williams and family,  
D. G. Henry and family,  
Mrs. Avah Guye and daughter.

**CARD OF THANKS**

We wish to take this means of expressing our thanks and appreciation to our many friends who have so graciously helped us since our home was destroyed by fire.

Words can not express how grateful we are for everything money, household articles, clothing, and the many other things too numerous to mention.

We wish to publicly thank the carpenters, Mr. Ball, and Mr. Russell and the neighbors for labor on the house and the one for hauling the lumber.

May God bless every one of you.  
**Mrs. Ida McReynolds.**

and Mrs. Nolan J. Robinett.

Miss Helen Ruth Cope of Hardin-Simmons University, spent the week end here visiting with her parents, Mr. and Mrs. Nelson Cope.

Mr. and Mrs. Sid Thompson of Port Neches moved this past week to Lamesa, where they will make their home.

Mr. and Mrs. L. Walker of Grassland spent Sunday here visiting in the home of Mr. and Mrs. L. G. Wood.

Miss Earnestine Gambill of Tech, Lubbock, spent the week end here visiting with Mr. and Mrs. Earnest Gambill.

Mr. and Mrs. Ray Barrett and children of San Angelo, Mr. and Mrs. R. J. Barrett of Anson, and Mr. and Mrs. Mike Barrett and daughter of Brownfield spent the week end here visiting in the home of Mr. and Mrs. J. M. Barrett.

Ernest Dennis of Levelland spent the week end here visiting with Mr. and Mrs. Woodie Smith.

**MEMBERS OF T. E. L. CLASS ENTERTAINED THURSDAY**

Members of the T. E. L. Class of the First Baptist Church were entertained last Thursday afternoon at their regular monthly social and business meeting, at the home of Mrs. G. W. Hyatt. Hostess for the occasion were Mrs. C. C. Morton, Mrs. W. H. Derstine and Mrs. G. W. Hyatt.

During the afternoon Mrs. J. W. McDonald gave a very interesting talk on "Ruth and Naomi," after which a short business meeting was held.

Guest attending were Mesdames Tom Boyd, A. B. Heffernan, J. W. McDonald, C. C. Coleman, Bertha Mitchell and the hostesses.

**PERSONALS**

Cadet Homer Simpson left Saturday for Pasadena, California, after a weeks visit here with his mother, Mrs. R. E. Simpson.

Miss Evelyn Story of Laredo was the house guest of Mrs. R. E. Simpson this past week.

Mrs. Clay Ross and son of Lubbock spent Sunday here visiting in the home of Mrs. H. M. Meek.

Mr. and Mrs. John Hardy Morgan and children of Slaton spent the week end here visiting with Mr. and Mrs. Hardy Morgan and Mrs. H. M. Meek.

Miss Betty Hurt a student at Tech Lubbock, spent the week end here visiting with her parents, Mr. and Mrs. Swanson Hurt.

Miss Mary Horten of Tech Lubbock, spent the week end here visiting with her mother, Mrs. Laura Horten.

Miss Jimmie Jean Baldwin a student of John Tarleton, Stephenville, spent the week end here visiting with her parents, Mr. and Mrs. Caryl Baldwin.

Misses Peggy and Sarah Eiland of Tech Lubbock spent the week end here visiting with her parents, Mr. and Mrs. C. A. Eiland.

Miss Doris Richardson of Tech Lubbock spent the week end here visiting with her parents, Mr. and Mrs. Sam Richardson.

Miss Helen Pope of Hobbs, New Mexico, has moved to Lamesa, where she will make her home.

Malcolm Harp of Roswell, New Mexico, is visiting here this week with his parents, Mr. and Mrs. J. H. Harp.

Mr. and Mrs. Gene Smith of Plainview are visiting here this week with relatives before Mr. Smith leaves for the Army.

Mr. and Mrs. A. B. Heffernan spent the week end in Gail visiting with relatives.

Mr. and Mrs. Grover Wilkes returned this past week from Washington, where they visited with their son, Pvt. Garvin Wilkes and with their nephew, Sgt. Tom Wilkes.

Mr. and Mrs. Raymond Hatch and Mrs. George Canon spent Sunday in Tahoka visiting with Mr. and Mrs. D. B. English.

Mrs. Ted Sanders of Big Spring spent Sunday here visiting with her parents, Mr. and Mrs. J. M. Ranson.

Miss Georgia Mae Williams of Ozona, spent the week end here visiting with her parents, Mr. and Mrs. Ray Williams.

Captain and Mrs. Aubrey Boswell of Oregon, are visiting here this week with relatives and friends.

Edward L. Davis, son of Mr. and Mrs. E. M. Davis, who was a junior trainee radio repairman at the Mississippi State University in Stackville, has completed his course there and has been transferred to Chicago, Ill., for advanced training.

Sgt. and Mrs. Sterling Stovall and Miss Lillie Stovall will leave Tuesday for El Paso, where Sgt. Stovall is stationed at Fort Bliss.

Mr. and Mrs. R. R. House of Elida, New Mexico, spent the week end here visiting in the home of her sister, Mrs. R. E. Simpson.

Mrs. C. P. Petty of Lubbock is spending the week here visiting with her sister, Mrs. R. E. Simpson and Mrs. Leck Cowden.

J. W. Smith of San Angelo is a visitor in Lamesa for a few days.

Cpl. Clyde Bailey of Camp Barkley, Texas, spent the week end here visiting with his wife and other relatives.

J. T. Craddock of Gatesville is visiting here this week with Mr. and Mrs. E. L. Craddock.

Donna Merle Poteet of Big Lake, is visiting here in the home of Mr. and Mrs. E. L. Craddock.

Cadet James Farmer and Cadet Jack Fulkerson of Big Spring spent the week end here visiting relatives and friends.

Restricting the use of iron and steel in wood furniture is saving about 22,000 tons of the metals for war use annually.

Since 1919 more than one-third of the British population has been rehoused, mostly in projects financed by the government.

**Food Limit Set On Restuarants**

WASHINGTON, March 24 (AP)—OPA tonight limited restaurants and other institutional eating places, effective next Monday, to 75 per cent or less of the amount of meat, butter, cheese and similar products they used in December of last year, but did not restrict the portions they may serve individual customers. However, the agriculture department is considering such a limitation.

Restaurants will buy meats and other products on the same point system as householders, but the number of points they may spend will be determined by a mathematical formula. A restaurant must make two calculations. Under the first formula, the number of persons served during December of last year is multiplied by .93. In the second formula, the point value of the actual meats and other products used last December is reduced by 25 per cent. The formula that gives the restaurant the smallest total of points determines its allotment for one month.

**Initial Allotment**  
The initial allotment, however, will be for 1.1 months to cover the last few days of March and the month of April, and thereafter allotments will be made on a two month basis.

Because of the complexity of these formulas, OPA authorized local ration boards to give emergency point allotments to restaurants to carry them for a few days until they can get a regular allotment.

The formulas announced tonight will be used to ration meat and allied products to all institutional users including restaurants, hotels, hospitals, lunch counters, prisons, and dining cars. Small boarding houses, are excepted however. They will merely pool the individual ration books of their customers.

The microscope was invented more than 300 years ago.

Britons consume 30 per cent more fresh green vegetables than they did before the war.

**WIVES AT CUT PRICE IN THE SOLOMONS**

WOODWARD, Okla. (AP) — The price of a bride in the Solomons is \$16.50 a head, Maj. Emmet N. Carter has written.

Color of the brides is saddle brown. There are strings attached to the purchase of one, such as:

1. The soldier must promise to marry her before he flirts with her.
2. He must get the consent of parents and the village chief.
3. He must promise not to take her home with him, across the seas.

**SOLDIER FILLS HIS DAD'S HAT**

RATON, N. M. (AP) — Tommy Dominguez, now with U. S. forces on one of the world's battlefronts, is wearing the same overseas hat that his father, Tom Dominguez, Sr., wore in World War No. 1.

Tom picked up the hat while he was home on a furlough before being assigned to overseas duty and he took it with him. Later he sent his family a photo showing him in a foreign land wearing the World War No. 1 hat.

**Bedding Law Is Aid In Protection To People In State**

A law passed by the State Legislature several years ago is checking the spread of disease through secondhand bedding. Persons who are buying second-hand mattresses or the like should take advantage of this protection, says Mrs. Bernice Claytor, specialist in home improvement for the A and M. College Extension Service.

She explains that the purchaser should demand to see a sterilization tag which must be attached to all such articles offered for sale. The law covers re-sale not only of mattresses and pillows, but also of feather beds, studio couches, or other similar articles. Only after the bedding has been germicidally treated by an approved method, can the tag be attached.

In one recent month, 5,863 second hand mattresses and other articles of bedding were sterilized in Texas under the law, according to reports of the State Health Department. The job is done in 59 privately owned sterilization vaults which are regularly inspected and approved by health officials.

Mrs. Claytor says then such second-hand bedding should be given the best possible care if it is to prove a sound investment. A

**BLACKOUT FELLS NAVY FLIER**

LONDON (AP) — Emmett Egbert Edwards, 27, of Globe, Arizona, flew in combat with the RAF without suffering a scratch — but he wasn't so lucky in an American dimout.

Edwards, former University of Arizona athlete, was one of 19 young Americans who recently transferred from the RAF and RCAF to the U. S. Navy for flight duty.

After reporting at Jacksonville, Fla., for indoctrination and refresher course, he looked forward eagerly to a two week's leave.

On his eve of departure, he caught his foot at the top of a blacked out flight of steps, fell and shattered a leg in three places.

The 6,000-mile run from the United States to Australia is the world's longest bomber ferry route.

It has been estimated that 15 million tons of feed will be needed this year to make U. S. chickens lay their quota of 5 billion dozen eggs.

Tiny white ants in Australia build ant hill 3 times the height of a man.

a mattress pad are equipment which will prolong the life of a mattress. Sunning and beating once a week also are recommended. A brief leaflet on the care on mattresses and bedding has been prepared by Mrs. Bernice Claytor and is available from county home demonstration agents.

Several U. S. aircraft companies are now employing more workers than the entire industry did three years ago.

Since the beginning of the century Wisconsin has dropped from first to fifteenth place as a lumber-producing state.

## Highway Patrolmen Join Air Corps

Seven former members of the Texas State Highway Patrol are in the Army Air Forces and stationed at Blackland Army Flying School, Waco. Capt. Percy R. Follis, sixth from left, formerly a highway patrolman at Houston, now intelligence officer at BAFS, is shown with three highway patrol visitors and the former patrolmen. Left to right: Pvt. Jack Higginbotham, Georgetown; Pvt. Brady Pamplin, Austin; Patrolman E. K. Browning, Jr., Hillsboro; Corp. Geo. Caldwell, Houston; Pvt. Woodrow Lehman, Littlefield; Capt. Follis; Pvt. Willie E. Renfrow, Waco; Pvt. Norwood Woerner, Austin; Patrolman Robert H. Pecot, Tyler; Sgt. Guy Smith, state highway patrol, Austin.

## MEANINGS OF THE COMMON TERMS USED IN THE ARMY AND NAVY

**AP Features**  
**WASHINGTON** — Do front line terms baffle you? Then tack this handy glossary of military and naval terms up beside your global maps:  
**BATTLESHIPS** — Most powerful type of war vessel, named after states. Carries about 1,500 men, is between 20,000 and 50,000 tons.  
**BATTALION** — Four infantry companies of four artillery batteries.  
**BATTERY** — (Army) four pieces of artillery and their crews; (Navy) the armament of a ship.  
**BELT ARMOR** — A thick steel plate along the waterline of a war

ship, protecting the magazines.  
**BIVOUAC** — To camp in the open at night.  
**BOATSWAIN** — Navy warrant officer who superintends work about the deck.  
**BRIGADE** — Two regiments of infantry or three regiments of artillery.  
**CAISSON** — A two-wheeled ammunition cart pulled by horses.  
**COMPANY** — Four platoons of infantry. Corresponding terms in artillery and cavalry are battery and troop.  
**CORPS** — Generally two or more divisions plus "corps troops" attached to corps headquarters as

conditions call for them.  
**CORVETTE** — A war vessel similar to a destroyer but smaller and slower.  
**COXSWAIN** — Technically a boatswain's mate, third class, who steers small boats, launches, gigs, etc.  
**CRUISER** — (Heavy). Warship of about 10,000 tons, rated about 32 knots. Carries about nine 8-inch guns. (Light) Warships of between 6,000 and 10,000 tons, also rated about 32 knots. Mount 16 six-inch guns. The difference between light and heavy cruisers is in the guns they carry.  
**DEPLOY** — Change from a formation of movements to a formation of battle, whether of ships or troops.  
**DESTROYER** — Smallest surface fleet unit. Standard speed 30-37 knots, main battery usually four to eight five-inch guns.  
**DIVISION** — (Square) two infantry brigades, one artillery brigade, one engineer regiment, one quartermaster regiment, one medical regiment plus special troops as needed. (Triangular) three infantry regiments, three battalions light artillery, one battalion medium artillery, one reconnaissance troop, one engineer battalion, one medical battalion, one quartermaster battalion, plus special troops. Both consist of from 20,000 to 30,000 men.  
**ECHELON** — A formation in which ships or troops are staggered diagonally to the rear; (Army) a part of a larger unit.  
**FLAG OFFICER** — Used freely in the Navy to mean any officer of the line above the rank of captain, but technically any officer (not below the rank of commander) appointed by the President to command a squadron.  
**FLEET TRAIN** — All ships essential to the maintenance of the fighting fleet.  
**FORECASTLE** — Upper deck forward of the mainmast of a ship.  
**G. I.** — Government issue, applied to equipment and to supplies issued to enlisted men.  
**GIG** — Ship's boat used by commanding officer.  
**GUNBOAT** — Carries about 150 men and is used for patrol work.  
**HOWITZER** — Artillery weapon with a high angle of fire. Its shell falls almost vertically.  
**MACHINE GUN** — (Light) air cooled, .30-caliber, shoots 525 bullets per minute at a distance of about 3,500 yards. (Heavy) water cooled, .50-caliber, shoots about 600 bullets per minute up to about four miles.

## You Should Not Be Careless With S. S. Cards

A man's first duty is to his family and his country and "we do not believe there is a wage earner in America today who would not think twice before permitting himself to lapse into a period of thoughtlessness and neglect where either is concerned," said Elliott W. Adams, manager of the Big Spring office of the Social Security Board, who recently called at our office to discuss a problem which has already become both costly in time and expenditure of government funds.  
 Mr. Adams had reference to the carelessness and thoughtlessness on the part of social security account number holders who, without considering the seriousness of the matter, have either lost, misplaced or neglected to keep track of their social security account numbers, and are thereby making it pretty tough on the Board. Many workers only think of their social security number when they are considering a job when they should also be considering the value of the number and the protection it represents. The cost of issuing a duplicate number equals that of thirteen war bullets; the time consumed by the account number clerical staff is considerable and manpower as well as womanpower is becoming more acute from day to day," Adams said.  
 A national campaign is now in progress to reduce the number of applicants for duplicate account cards and Adams asks your cooperation in helping to solve this problem which is becoming more expensive to the people of America all the time. He emphasized his statement when he said that "it can only be solved by the workers being more careful with their cards, which, after all, represent insurance policies for their families. An insurance policy is valuable—so is your social security card."

Dehydration in 1943 will take four times as many vegetables as in 1942 and most of this dehydrated food will go for Army and Lend-Lease needs.

**KNOT** — About 1 1/6 statute or land miles.  
**MORTAR** — A short, large caliber cannon which shoots high into the air, dropping its shell behind an embankment, wall, etc.  
**O. D.** — Officer of the day.  
**PETTY OFFICER** — Specialist in the Navy, such as machinist's mate, yeoman, torpedoman, etc.  
**PLATOON** — Three or four squads (which consist of eight to 12 soldiers).  
**PORT** — Left side of a ship, facing forward. Right side is starboard.  
**QUARTERMASTER** — (Navy) steersman of a ship. (Army) Quartermaster Corps supplies everything except weapons and ammunition, which are supplied by the Ordnance Department.  
**QUARTERDECK** — Part of the upper deck of a warship, abaft (behind) the main mast. Reserved for officers.  
**REGIMENT** — Three battalions.  
**SALENT** — Bend or bulge in a battle line.  
**SCUPPERS** — Openings along the deck of a ship to carry off water.  
**SERVICE COMMAND** — A military area established for purposes of Army housekeeping and administration.  
**SICK BAY** — A ship's hospital.  
**S. P.** — Shore police of the Navy.  
**TALKER** — Navy enlisted man who stands next to the officer of the deck and repeats his orders to whatever section of the ship the order is intended for. Most common on aircraft carrier.  
**TORPEDO BULGE** — A 1 s o known as "bilster." A bulge built into the side of a ship to protect it from torpedoes.  
**WARRANT OFFICER** — A rank just between commissioned and non-commissioned officers. Holds such jobs as boatswain, gunner, electrician, pay clerk and carpenter in the Navy and comparable jobs in the Army.

Liberia is the only independent republic on the continent of Africa.

Japanese residents of Brazil total about 180,000.

# Seek — Strike — Destroy!

At the entrance to Camp Hood, Texas, where Uncle Sam is training tank destroyer crews, the purpose of the center is depicted in a sign bearing its motto and emblem. The motto is "Seek! Strike! Destroy!" The emblem, which also is the shoulder patch of the new force, is the head of a black panther crunching a tank in its jaws.

## How To Be Happy Though Rationed Control Of Insects Will Aid Home Garden Yield

By MRS. ALEXANDER GEORGE  
AP Food Editor

There's a great deal of talk in the United States these days about how to eat well, through rationed. Most of this talk is not complaining. It has a far greater element of bewilderment. Americans will be glad to manage with less foods because they know that's a major contribution they can make to the war effort.

How to manage is the problem.

We can take great heart, in this connection, from the example of Britain. Seventy-five cents of every dollar spent on food in Britain is spent on rationed food. And the British record of public health has risen amazingly since her population went on rations. You see, we really "don't know nothin' yet." But from a purely selfish standpoint we can get some splendid tips from knowing how the British housewife gets a balanced, adequate diet out of a very few foods.

Here are the points the British Food Ministry stresses regarding good nutrition:

1. Use the cheese, milk and dried eggs to take the place of meat. Dried peas, beans or lentils, oatmeal and National Wholemeal bread to supplement the meat ration.
2. A cooked fresh vegetable every day.
3. A raw vegetable or raw salad every day to take the place of fresh fruit.
4. Potatoes — at least one pound per day.
5. Use of dried milk for making puddings and soups.

The press and radio give British women lots of help on keeping the few foods they have interesting. Emphasis is put upon saving work and preventing waste. Here are a couple of typical waste-preventers to which we might well give attention:

1. If milk sours, leave it for two days, strain it through muslin or a handkerchief. Use the curds as cheese in sandwiches and the whey in making cakes and buns or in soups, sauces and stews.
2. Keep bread in a tin in a cool place. Thus if it becomes stale it doesn't mold. Stale bread may be toasted or made into rusks for eating with non-meat meals or for making Wheatmealies for use in place of porridge as a breakfast cereal. Wheatmealies are made

The mortality of destructive insects will keep pace with the vast increase in home gardens in 1943 if sprays and dusts are used skillfully. Old hands will know what to do when the bugs move on their corn and beans, but the amateurs with the hoe and fork need guidance to get the best results from their investment in liquid and solid poisons. To help these, Paul Gregg of the

by cutting bread into cubes and drying it in the oven. They are then stored in an air-tight tin.

3. Use all left-over porridge, minced in soups or stews.

4. Scrub, rather than peel, root vegetables; and cook all the leaves of green vegetables.

British women are advised to spend two-thirds of their ration points on canned meat or fish, one-fourth on dried fruit, and one-twelfth on dried peas and beans. The only important foods in the United Kingdom not covered by rationing are bread, flour, poultry, fresh fruits and vegetables and fresh fish.

The British find, as we doubtless shall find also, that the most trying problem of living on rations is that of catering for a single person. The government issued recently a suggested list of menus for one person for one week. Here are those for a typical day:

**BREAKFAST:** Porridge, Sacoury Potato on Toast, National Bread, Margarine, Tea; **DINNER:** Cheese Pudding, Baked Jacket Potato, Watercress, Fruit Charlotte; **SUPPER:** Potato and Cabbage Milk Soup, Parsley Sandwiches, Tea. Most Americans couldn't imagine living on such a diet, and so far don't have to. We needn't, for instance, depend so much upon potatoes for vitamins that we have to eat them three times a day.

We have, however, obvious difficulties ahead in keeping on the very high nutrition standards we've set for ourselves in this country. But we may be greatly encouraged, through the example of Britain, in the thought that we can build a strong, healthy America on a considerably curtailed diet. Plenty of bulk and food value, but far, far, less variety, that's what we have to look forward to. It's a great challenge to the American cook. But if the British can do it, surely we can.

A. and M. College Extension Service, offers these tips in using insecticides. He's the assistant Extension entomologist. Always use soap or some other

activator with nicotine sulphate spray.

Use a good grade of hydrated lime with nicotine sulphate when used as a spray.

Nicotine sulphate dusts are more effective if applied when plants are moist.

Pyrethrum of pyrocyde dusts should be put out early in the morning or late afternoon in the form of flakes. Not lumps.

Never use lime with cryolite or rotenone, or combine cryolite or rotenone with any other insecticide which has lime in it.

Never use sulphur or any sulphur mixture on cucurbits such as squash, cucumbers, melons, etc.

To remove arsenical residues from fruits and vegetables wash in acid solution. To remove flourine residues, wash in alkaline solution.

Never use lead arsenate or any other arsenical substances on stony fruit such as peach and plum without adding lime.

Never apply a dormant spray just before a freeze.

Three teaspoonsful equal one tablespoonful, and two tablespoonsful equal one fluid ounce.

### NAVY MOVEMENT LEAVES MARINE OUT IN COLD

PUEBLO, Colo. (AP) — Sergt. E. D. Rickords of the Marine recruiting office was transferred to Alamosa, Colo., and so he rented his apartment in Pueblo to a Navy man, Chief Torpedoman H. K. McLellan. No sooner had he reached Alamosa than he received another order telling him to return to Pueblo. Now he's back and hunting an apartment. That's quite a task in Pueblo. Meanwhile Chief McLellan is very comfortable, thank you.

### Hospital News

Mrs. L. M. Browning underwent major surgery March 18.

Mr. and Mrs. Joe F. Rogers are the parents of a baby boy born March 18.

**NATIVE MEBANE COTTON**— I am placing again this year a limited amount of my State Registered Native Mebane Cottonseed on sale at Snell & Jacobs gin at Lamesa, both fuzzy and delinted. I am doubling my acreage this year in registered cotton and hope another year to supply the Lamesa trade with all the seed you want. If you keep your seed pure at the gin you need not buy new seed each year as the outstanding qualities of early maturity, high lint turnout and drought resistance, with large easily picked bolls and storm proof. The staple is strong, fifteen-sixteenths to an inch that meets all government requirements. These qualities were all developed right here at Knott in Howard County over a period of twenty years by my method of cotton breeding, and as its name implies, it is a native of this climate and does not quickly run out. Last year was a very dry year in Howard County and yet I made a 517 pound bale for every acre of my allotment, planted in May and all ginned by October 30th, some two weeks or more before frost, and my seed tested 97 per cent germination. Get a start this year and save your own seed next fall. SAM LITTLE 20-27 pd

FOR SALE: National Cash Register, practically new. CALDWELL HARNESS SHOP. 22 tfc

FOR SALE: Large size wash tubs. HUGHES SHEET METAL AND PLUMBING, Old Gresham Motor Co., building. 20-24 pd

## Gordon Treadway Promoted To Capt. At Lubbock School

Gordon Treadway of Dallas, intelligence officer at the Lubbock Army Flying School since June 20 of last year, has been promoted from First Lieutenant to Captain, it was announced Monday.

A son of Mr. and Mrs. James W. Treadway of Rosebud, Capt. Treadway was an attorney in the U. S. Department of Labor at Washington for five years before receiving his commission last summer. He holds degrees from Texas Tech College and the Dallas School of Law.

A graduate of Lamesa High School, he later taught here and at Texas Tech. From 1943 to 1936 he was assistant director of the Dallas Y. M. C. A. schools, after which he practiced law in Dallas a short time before going to Washington.

Mrs. Treadway is the former Frances Gilley, daughter of Mr. and Mrs. F. A. Gilley of Post. They have a ten-month-old son, Frank Gordon. The family is residing at 2208 Twenty-second Street in Lubbock.

## Navy Will Now Take SeaBee Applications

Word has just been received by the Navy Recruiting Office in Big Spring that applicants for SeaBee ratings may again be processed by the local Recruiting Office. This has been discontinued for some time now except in the cases of men who were over the draft age. The new orders permit the recruiting service to send men into the Main-Station at Dallas for an interview with the Civil Engineer of the Navy relative to assignment of rating. All men are to see the local recruiting office for preliminary processing.

To be recommended for a rating in the Navy and sent in to the Main-Station for an interview, a man should present to the local recruiters authentic evidence of ability. Bring letter of recommendation showing exactly what you have been doing and how long you have worked at your trade. Also, the amount of salary you are making. These are not to be personal references but WORK RECORDS. This is the only way the Navy will be able to tell you what you are qualified for in the Naval Service.

There are a great many ratings open at the present time and any man who prefers the Naval Service and is between the ages of 17 and 50 is eligible to make application. If found qualified for any rating that is open at the present time and can pass the physical examination each applicant will be given a letter to his local board giving them authority to enlist the man IN THE NAVY. Expenses of the trip to Dallas will be borne by the Navy Department. If rejected for any reason applicant will be returned home at government expense. Applicant must also agree to accept any rating offered if lower than the local Recruiter recommends, or refund the cost of transportation.

### ADOLF AND TOJO MOAN WHEN U.S. HORSES DIE

LEXINGTON, Ky. (AP)—If your horse dies, the loss may be felt more severely by the Germans or Japs, according to a farm bulletin issued by the University of Kentucky. In reducing the value of dead animals no terms of waste fat for glycerine, farmers were told a dead horse would supply enough fat to make glycerine for 75 anti-aircraft shells; a dead sheep, 15 shells; 1,100-pound pig, 50 shells; a cow, 80 shells; a small calf, five shells.

Special collectors pick up stock which dies on farms.

Dried persimmon leaves boiled in water have been found to yield large quantities of vitamin C.

## Ten Per Cent Overplanting Of Cotton Announced

Texas farmers in higher producing areas will make a more complete contribution to the 1943 production program under the increased acreage plan.

Announced by Secretary of Agriculture Wickard several days ago, farmers may exceed their acreage allotments by 10 per cent this year without loss of AAA payments, without being liable for cotton marketing quota penalties, and without forfeiture of cotton loan privileges.

Under the plan, market quotas will be retained and individual acreage allotments will not be increased over present allotments. All cotton produced on the additional acreage, however, may be sold without penalty.

Additional payments will not be made for the acreage planted in excess of allotments and the increase does not relax provisions which require the planting of at least 90 per cent of warcrop goals to qualify for payments.

At the same time farmers in higher producing cotton areas were encouraged to plant ten per cent more cotton, George Slaughter, chairman, Texas AAA committee, asked farmers in other sections of the state who could grow them to plant for maximum production of soybeans and peanuts.

Although cottonseed meal is an important source of protein feed for livestock and cottonseed oil is one of the best edible oils, the AAA official said that seed is a by-product of cotton and that in adapted areas more meal and more oil per acre per hour of labor could be obtained from peanuts and soybeans.

Under the 1943 AAA program, the state cotton allotment is approximately 9,800,000 acres and a flat 10 per cent increase would approximate 10,780,000 acres. According to state office records, Texas cotton farmers normally underplant their cotton allotments by 10 to 15 per cent.

Sgt. and Mrs. James Harp of Ft. Worth are visiting here this week with relatives and friends.

Sgt. and Mrs. Oliver Cates and daughter of Lubbock spent the week end here visiting with friends.

## Farm Families To Receive Awards For Production

Certificates of enlistment for all-out food production will be awarded Texas farm families who have enlisted in this year's Food for Freedom program.

The 11x14 inch certificate, which has been signed by Secretary of Agriculture Claude Wickard, will be presented to farm families by local county USDA war boards after the completion of the 1943 farm sign-up campaign.

The 1943 farm plan, which Texas farmers and ranchers now are filling out in all sections of the state, will be the basis for making the award. This drive, aimed at obtaining maximum production of food and feed from each farm and ranch is to be completed this month.

"It is a simple word of appreciation and encouragement to the fighting units of the food front, the nation's farm families," B. F. Vance, chairman, Texas USDA War Board, said in explaining the purpose of the certificate. He point-

ed out that for three years in a row farm operators and their families have broken all production records with emphasis on the war-needed crops and meats.

Although working under handicaps, such as shortages of labor, machinery and transportation, goals of many commodities have been set still higher for 1943 than they were during 1942.

"In spite of these handicaps, if the weather is generously favorable, I believe Texas farmers and ranchers will reach new goals and break production records once more," the chairman said.

### THIS MAN THISTLES WHILE HE WORKS

CHATTANOOGA, Tenn. (AP)—Tom O. Selman of Chattanooga has devoted a large portion of his farm to the production of blessed thistles, a plant needed in large quantities for certain pharmaceutical preparations.

The war has shut off the source of supply in Europe, which held a virtual monopoly on blessed thistle for many years, so Selman increased his production to 82,000 pounds last year. He expects another bumper crop this season.
