

First Pennsylvanian Well Is Completed In Midland Parks Field

Magnolia Petroleum Company has completed its No. 1 H. S. Collins as the first producer from the Pennsylvanian line in the Parks multiphase field in Central-West Midland County.

The development flowed 567 barrels of 44.3-gravity oil in a full 24-hour potential test. The flow was through a 28/64th-inch tubing choke, and was natural. There was no water.

Gas-oil ratio was 1,753-1. Flowing tubing pressure was between 75 pounds and 425 pounds. Shut-in casing pressure was between 300 pounds and 975 pounds.

The production was through perforation in the casing at 10,375-385 feet and at 10,400-425 feet.

The prospecter drilled to a total depth of 13,302 feet in the Ellenburger. That zone flowed oil and water and operator decided against trying to produce that formation and plugged back for the Pennsylvanian completion.

Location is 660 feet from south and 888.6 feet from east lines of the southwest quarter of section 7, Matt Daugherty survey, SF 4,169.

It is one location north of Magnolia No. 2 Parks, the owner of the Parks-Ellenburger field, which had also shown flowing oil in the Pennsylvanian, but that pay cased off when it completed from the deeper pay.

Texaco To Offset Midland Discovery

The Texas Company is to drill a one-location diagonal northwest offset to Ralph Lowe No. 1 Hill, indicated discovery from two sections of the Permian in Northwest-Central Midland County.

It will be dug as the No. 1-D Clarence Scharbauer, 1,980 feet from south and west lines of section 19, block 39, T-2-S, T&P survey.

The No. 1 Hill is now on a drill-stem test in the Passelman from total depth of 12,588 feet. No top has been called on that formation.

The No. 1 Hill developed possible commercial production from the Dean sand and the Wolfcamp of the Permian. It is contracted to be drilled to the Ellenburger.

Operator has not decided on a possible bottom for the No. 1-D Scharbauer.

The No. 1 Hill is 660 feet from north and 1,980 feet from east lines of section 30, block 39, T-2-S, T&P survey.

San Andres Opener Is Fialed In Crane

Placid Oil Company has completed its No. 1 A. R. Eppanauer as a discovery and a producer from the San Andres in Southeast Crane County.

The strike potentialized for 134 barrels of 38-gravity oil daily through a three-eighths-inch choke and perforations at 2,710-2,730 feet. Total depth of the discovery is 3,001 feet.

The potential was based on an actual 24-hour flowing test. No water was made. Gas-oil ratio was 818-1.

Location of the opener is 660 feet from north and east lines of section 14, block 6, H&C survey, and three and one-half miles west of the McCamey field.

West Outpost Staked To Tex-Harvey Pool

A one-location west outpost to production in the Tex-Harvey field of Central-East Midland County has been spotted by Magnolia Petroleum Company.

The company will drill its No. 1 John Snowden, 1,980 feet from north and 660 feet from east lines of section 17, block 37, T-3-S, T&P survey.

The venture will try for production in the Spraberry pay for the Tex-Harvey field.

Operations are to start immediately. Drill-site is about 11 miles southeast of the City of Midland.

Offset Spotted In Terry Adair Field

Amerada Petroleum Corporation has staked location for a one-location due west offset to Sinclair Oil & Gas Company No. 2 Golden, producer in the Adair-Wolfcamp field of Central-South Terry County.

It will be drilled as the No. 1-A N. W. Willard, 660 feet from east and south lines of the southeast quarter of section 6, block C-36, pal survey.

It is contracted to be drilled to around 9,000 feet to test the regular pay of the field. Drill-site is 20 miles northeast of Seagraves.

Reds Capture Seoul, Pursue Allied Forces

INCHON, KOREA—(P)—United Nations forces protecting this supply port west of Seoul withdrew by sea Thursday night while Naval runs shelled the path of the approaching Reds.

Even as men and equipment still were pouring aboard ship, Army demolition experts were setting off thunderous charges that left the railway yards and docking facilities in flaming ruins.

The enemy would not be able to find a thing it could use.

The troops who boarded ship were for the most part the men whose job it was to keep the port operating to handle Allied supplies.

More than 10,000 were moved out Thursday night, and the rescue job still was on.

TOKYO —(P)—Red Chinese hordes seized abandoned, fire-gutted Seoul Thursday and smashed across the frozen Han River to battle retreating Allied forces west of the abandoned capital.

The Reds were moving swiftly in a giant pincer movement aimed at shoving United Nations troops into the Yellow Sea at Inchon.

Seoul's big port 18 miles to the west.

U. S. Eighth Army headquarters said Reds in estimated battalion strength were across the Han and fighting an Allied unit one mile west of Seoul. Other Reds were in contact two miles west of the city.

Two Allied roadblocks were reported under attack. Their locations were not given.

The swift followup of the Reds' seizure of the flame-swept South Korean capital—the crossing of the frozen Han—underlined General MacArthur's report on the danger of a pincer enveloping Inchon.

It was from an amphibious landing at Inchon that the Allies crushed most of the North Korean Red Army in a vise last September.

Seoul was retaken from the Reds then and the Korean war seemed in its final phase.

But the sheer weight of shrieking and seemingly endless Chinese Red manpower forced Allied troops to quit the ancient, devastated South Korean capital Thursday.

They blew the last bridges over the Han at noon. Nearby Kimpo airfield was abandoned after its installations went up in an awesome tower of smoke and flame.

A United Nations fleet stood off the West coast ready to evacuate UN forces south and west of Seoul. Only a frightened fragment of Seoul's normal 1,500,000 population remained in the ruined city. Among the bewildered civilians unable or unwilling to leave were lost children, wandering aimlessly. Dusty roads to the south were choked with military traffic and a pitiful mass of humanity.

Lay Explosive Shield

Carrier planes joined Fifth Air Force bombers and fighters in laying an explosive curtain to shield the withdrawals.

At 4:50 p.m. Thursday (1:50 a.m. CST), the U. S. Eighth Army announced.

15-Year-Old Mother Kills Father With Gun

HOUSTON —(P)—A 15-year-old mother of a month-old baby shot and killed her 44-year-old father Thursday with a shotgun given her about a year ago by her father.

Ernest E. Hollingsworth, of Mobile, was shot four times as he lay asleep with a combination 22 caliber and 410 gauge shotgun on the floor of his daughter's garage apartment.

Well Is Completed In Gulf Of Mexico

HOUSTON —(P)—Continental Oil Company announced Thursday completion of a Louisiana wildcat oil well in the Gulf of Mexico, 15 miles offshore from Terrebonne Parish.

The well, owned jointly with Magnolia Petroleum Company and Newmont Oil Company, made initial daily production of 510 barrels through a 2 1/8 inch choke.

Family Of Five Believed Victims Of Mass Murder

TULSA —(P)—The probable mass murder of an Illinois couple and their three children by a hitchhiker spurred Oklahoma officers into a fearful investigation Thursday.

Officers said they faced the task of trying to solve one of the state's most ghastly crimes.

A blood-splattered automobile, riddled with bullets, was found on a backroad near the city's outskirts Wednesday by Osage County Deputy Sheriff Warren Smith.

Bloody clothes, a blood-stained pocketknife and several exploded .32 caliber revolver cartridges were found in the car owned by Carl Mosser, 35, well-to-do farmer of Atwood, Ill.

A search was started immediately for the bodies of Mosser, his wife, 29, and their children, Ronald Dean, seven, Gary Carl, five, and Pamela Sue, three.

Relatives told Illinois authorities the family was enroute to Albuquerque, N. M., to visit Mosser's twin brother, Chris, an Army lieutenant.

Spectacle Is Presented By Dying Seoul

By WILLIAM C. BARNARD
AN AIRBASE IN KOREA —(P)—Seoul died quickly, loudly and spectacularly. We saw it from an airplane.

The Chinese Communists moved into the South Korean capital Thursday as Allied troops blasted the last escape bridges out of the city.

A great pall of smoke hung over the city. It rose from demolition explosions and scores of scattered fires.

Lt. James A. Diebold of Louisville, circling low over Seoul, commented:

"The city is crawling with Chinks. They are running up and down the streets."

Diebold said the Chinese used mortars and small arms fire as they moved in on Seoul, adding:

"They came over the hills and they are swarming like ants over the racetrack east of the city."

Patrolmen Odds Davidson and Jack Tranum were hurriedly dispatched to the address.

A short time later they returned and disgustfully filled out their report:

"Cat scared away. Light globe screwed in tight. All quiet."

State's Polio Cases Set Record In 1950

AUSTIN —(P)—Polio harassed 1950 right up to the New Year's horn blowing.

The State Health Department reported Thursday eight new Texas cases in the final week of the year pushed 1950's grand total to 2,778 cases.

It is 423 cases above the previous all-time record set in 1949.

Not a single week passed in 1950 without at least one Texas case of polio—the so-called hot-weather disease, the Health Department report noted.

Wounded were evacuated by ambulance and helicopter.

Broad Price, Wage Curbs Being Drawn

WASHINGTON —(P)—President Truman said Thursday across-the-board price and wage controls are going to be put on wherever necessary and possible as soon as it can be done.

He told a news conference the Administration is working with that in view.

Truman noted it would require legislation to clamp controls on food, but said as soon as it is physically possible wage-price controls will be set "wherever it is legally possible."

Asked if he would seek to amend a 1950 law which restricts controls on food prices, Truman replied by suggesting that reporters wait for his "State of the Union" message next Monday.

The 1950 Defense Production Law, which gave Truman wage and price control powers, stipulates price ceilings on farm products must not be lower than the highest prices in the month before the war in Korea or "parity" prices—whichever were higher.

Some labor unions have contended the restrictions on ceilings for farm prices make it impossible to have effective control of food prices.

Truman remarked during his discussion that rising costs of food had contributed to the rising cost of living.

Truman said also United States (Continued On Page Nine)

Damage \$10,000,000 In Evansville Blaze

EVANSVILLE, IND. —(P)—Fire swept by a stiff wind roared through eight buildings in the center of the business district Thursday. Damage was estimated at more than \$10,000,000.

Three firemen were burned slightly while fighting the fire.

Fire Chief Clarence Bassemmer estimated the damage. The cause was not determined immediately.

The fire broke out at 1:30 a.m. and was out of control for almost four hours. Three and two-story stores on both sides of Main Street, between Third and Fourth Streets, were destroyed. Some of the structures house offices on the upper floors.

Firemen from nearby communities in Indiana, Illinois and Kentucky helped fight the blaze.

Donnie, Not Johnnie, Is 'Mister 1951'

It is Donnie Fane Overstreet and not Johnnie Fain Overstreet—Midland County's "Little Mister 1951."

The confusion of the New Year and the record number of entries in the 1951 Baby Derby perhaps were responsible for the error in the little king's name.

An alert attendant at the Midland Memorial Hospital called attention to the error.

At any rate, Mr. and Mrs. D. D. Overstreet are the parents of Donnie Fane.

The per diem rate paid by National Foundation chapters for treatment at Gonzales is \$10, exclusive of payments for braces and appliances.

"Gonzales is one of the leading Texas facilities for the treatment of polio convalescents," said Stewart.

"The cost of this care at Gonzales, as at other hospitals, is met by county chapters of the National Foundation for Infantile Paralysis through funds received from the March of Dimes."

Average Monthly Bill

"The average monthly bill at Gonzales for National Foundation for Infantile Paralysis patients has been \$20.874 for the first nine months of 1950."

"Under an agreement between the Gonzales Foundation and the National Foundation for Infantile Paralysis, the former does not raise money to pay the per diem cost of treating polio patients at Gonzales, since the March of Dimes organization, through its Texas chapters, assumes responsibility for the cost of whatever care is needed by the polio patient."

"The National Foundation for Infantile Paralysis works with Gonzales Warm Springs Foundation as well as with other hospital facilities to extend treatment to Texas polio patients, and NFIP compensates Gonzales and other agencies for such care."

"Exhaustion of March of Dimes funds raised by Texas chapters has meant that all hospitals are extending credit to the National Foundation for Infantile Paralysis until after the 1951 March of Dimes, January 15-31."

DEMOCRATS PICK SENATE LEADERS

Democrats in Washington, in a caucus held the day before opening of 82nd Congress, picked a new majority leader and majority whip for the coming session of Congress.

Wreathed in smiles, are left to right: Senator Ernest McFarland, Democrat from Arizona, new majority leader; Senator Virgil Chapman, Democrat from Kentucky, and Senator Lyndon Johnson, Democrat from Texas, newly elected majority whip.

Figure At End Of Year Is More Than 48 Million Dollars

Bank deposits in ever-growing Midland soared to an all-time high of \$48,373,121.53 at the close of business Dec. 30, 1950, officials of the two Midland banks—The First National and The Midland National—reported Thursday in response to a year-end, national bank call by the comptroller of the currency.

The figure represents increases of \$12,133,748.41 over the same date a year previous and \$7,351,403.28 since Oct. 4, 1950.

Combined deposits Dec. 30, 1949, amounted to \$36,239,378.12, and last October 4, \$41,021,718.25.

Loans and discounts of the two financial institutions also are at a record high. The combined total last Saturday was \$10,556,146.06, an increase of \$2,837,621.28 since Dec. 30, 1949, and \$427,779.84 since October 4. The 1949 year-end figure was \$7,718,524.78, while loans and discounts three months ago totaled \$10,128,366.22.

Tremendous Increases

Just 10 years ago Midland bank deposits totaled only \$4,982,968.65, the tremendous increases recorded during the last decade reflecting the unprecedented growth of the city and area in dollars population and general development. The deposit total in 1932 was \$1,273,832.01.

One bank official Thursday attributed the remarkable gains to the rapid expansion of the oil industry in the city and section. Recent real estate deals and livestock sales also have brought additional wealth to prosperous Midland, the banker said.

Deposits of The First National Bank last Saturday totaled \$31,881,528.43, as compared with \$25,428,936.61 twelve months ago, and \$27,181,781.97 last October 4. The Midland National Bank deposits were \$16,491,593.10, as compared with \$10,810,436.51 on Dec. 30, 1949, and \$13,839,936.28 three months ago.

Loans and Discounts

Loans and discounts of The First National Bank Saturday totaled \$6,300,388.90, and of The Midland National Bank, \$4,255,757.16. The First National on Dec. 30, 1949, reported loans totaling \$4,556,460.54, and on Oct. 4, 1950, \$6,126,337.66.

Midland National Bank loans totaled \$3,162,044.14 on Dec. 30, 1949, and \$4,000,028.56 last October 4.

Dimes Fund Covers Gonzales Treatment

AUSTIN—The cost of polio patient care at Gonzales Warm Springs Foundation is borne by Texas chapters of the National Foundation for Infantile Paralysis, Ed S. Stewart, chairman of the 1951 Texas March of Dimes, pointed out Thursday.

NFIP chapters in Texas have spent \$187,000 in March of Dimes revenue at the Texas Warm Springs institution through September of this year, Stewart said.

Gonzales Foundation officials reported to Stewart that the total of NFIP patient days as listed by months was as follows: January, 2,895; February, 2,349; March, 2,028; April, 1,805; May, 1,937; June, 1,694; July, 1,927; August, 2,206; and September, 1,976.

The per diem rate paid by National Foundation chapters for treatment at Gonzales is \$10, exclusive of payments for braces and appliances.

"Gonzales is one of the leading Texas facilities for the treatment of polio convalescents," said Stewart.

"The cost of this care at Gonzales, as at other hospitals, is met by county chapters of the National Foundation for Infantile Paralysis through funds received from the March of Dimes."

Congress Will Get Request To Extend Draftees' Service

WASHINGTON —(P)—Congress will be asked to extend from 21 to 27 months the time to be served by draftees, Chairman Vinson (D-Ga.) of the House Armed Services Committee said Thursday.

Vinson told reporters he expects the Department of Defense to send up to Congress an overall universal military service measure within the next few days. His committee will begin hearings on January 18.

Vinson said many details of the proposal have not yet been definitely worked out but it is "pretty well settled" that the service extension will be asked.

The Pentagon still is debating whether to ask Congress to lower the draft age so as to call 18-year-olds to active duty, he related.

Under the present Selective Service Act, men between the ages of 18 through 25 are liable to service. They are required to register when they reach their eighteenth birthday.

Under Consideration

Vinson reported further the military leaders have under consideration the possibility of asking that the top age bracket be raised with the new top to apply to single men and to married men without children.

However, Vinson stressed there will be no changes in the draft act to permit the call-up of veterans whose service in the past excludes them under the present law.

"We have told the Defense Department veterans are not to be drafted," Vinson said, apparently speaking the committee's mind.

Republican Has Cinch For Post

DALLAS —(P)—Edward T. Dicker of Dallas, who will be the lone Republican in the coming session of the Legislature, doesn't think he will have any trouble finding himself a niche at Austin.

"I guess I'll elect myself minority leader," he grinned.

Combined Fire And Police Department Setup Of City Rare

Midland is one of the comparatively few cities in the United States which has combined fire and police departments under one department of public safety.

City Manager W. H. Oswalt duly reported this fact at a recent convention of the International City Managers Association.

His report made an impression for Wednesday he received a request from the city manager of Carolina Beach, N. C., on details of the plan adopted here and the success of its operation.

City 'Better' In December Than In November Of 1950

The happy city of Midland, in spite of record-breaking shopping crowds and plans for gala Christmas and New Year's celebrations, was a better little city in December than it was in November.

That cheerful report came Thursday from Police Jack Ellington. It accompanied a quarterly report on the police activities as compiled by Lt. Robert Branson's bureau of identification and records.

The police chief's report showed that in December there were fewer complaints and arrests, not so many traffic violations and a decrease in the number of traffic accidents.

More Travel—More Fines. All this was accomplished, too, with the police department patrol cars traveling fewer miles and the corporation court collecting more fines than were levied during the preceding month.

The police department, according to the report, received a total of 604 complaints during December, compared with 617 in November and 570 in October.

These complaints resulted in 181 arrests, compared with 183 for November and 179 for October. There were 78 moving traffic violations reported in December, compared to a staggering 185 in November and only 39 in October. Accidents reported during December totaled 51, with 79 in November and 79 in October.

The largest number of complaints received by police involved checking of automobile licenses. Aside from that, the largest number involved disturbances, of which 66 were reported during December. There were 23 cases involving drunkenness in public places and 19 involving drunkenness in an automobile.

During December, fines collected through Judge J. M. DeArmond's corporation court totaled \$3,230, compared to \$2,151 collected in November and \$2,903 in October.

Recover Stolen Property. During the quarter the police department recovered \$10,608 worth of stolen property. In December, \$8,135 in November and \$11,889 in October.

The police department traveled 15,300 miles in December, 15,082 in November and 15,190 in October.

Among the arrests, the drunks were the most frequent with 85 brought in during December. Although December has traditionally been the holiday spirit, that month's drunks could not compare with the 98 picked up in November or the 51 in October.

The "Magic Touch"

Chase the Winter doldrums from your home with beautiful draperies and slipcovers. MRS. L. S. HENRY, Andrews Highway, is an experienced decorator who will come to your home for a pointment, measure windows and furniture. She skillfully transforms dull, drab rooms to the decorator effect you desire. Her expertly tailored slipcovers fit like gloves and she gives a "magic touch" with custom made draperies. Call 1184.

Livonia—

You'll set your table with elegance when you use china from MIDLAND HARDWARE AND FURNITURE COMPANY, GIFT DEPARTMENT. Livonia is created to give you modern, not extreme styling. This is a pattern adaptable to contemporary as well as traditional settings. The china is of a soft ivory body and a most translucent dinnerware. The styling is graceful and the pattern one you'll never tire of. Livonia is an exclusive china, imported from Japan.

Longer Lasting Curls—

You'll get many compliments when expert hair dressers at FOSTER'S BEAUTY SHOP, 505 North Main, style your coiffure and enhance your love with a longer-lasting, soft, manageable permanent. Cold waves, machine and machineless permanents are offered. Miss Mary Lou Edwards is now associated with Foster's Beauty Shop. She is an experienced beautician and hair stylist. Call 2460 for appointments. The shop also features a complete selection of gorgeous costume jewelry to spice up your winter wardrobe.

Special On Art Objects—

HESTER GALLERIES, 321 North Colorado, is featuring a special on art objects this week. Many rare and beautiful ornaments are being sold at reduced prices. Also, the antique shop has received a new shipment of unusual prints and picture moldings for framing pictures. The shop features many exotic objects in Chinese art.

Designed For Growing Feet—

If you have reason to be concerned about your child's foot health, we recommend Pied Piper Posture Shoes, featured by PELLETIER SHOES, 404 West Illinois. These shoes are specially designed for children with weak feet. Patented construction and distinctive design insure a measure of foot protection to help overcome foot weakness. Only Pied Piper Posture Shoes can give your child so much sound help toward better posture. There are no fillers to shift, bunch or stiffen and the shoes are built to avoid crowding toes.

Polio Insurance—

We can't prevent it, but we can give our children the best of medical care if polio should strike our homes. Take steps to assure your children of hospitalization and proper care should this specter strike in your home. NEELY AGENCY offers a policy covering medical care for polio victims. It is indeed inexpensive when you consider that for less than 3c a day you are protecting your family's future. Call 1850.

Colored Flagstone For Rustic Charm—

Flagstones, when used for patios, floors or dens and in the garden, create a rustic charm that is enhanced by the years. You can get them in colors for novel effects. HELBERT and HELBERT, BUILDING CONTRACTORS, will sell you the stones and lay them for you. There are so many ways they can be used—sidewalks, barbecue pits, flower boxes, curbs and fish ponds, all easily constructed with colorful flagstones. Call 2524 for more information.

Start A New Year And A New Life—

Start a new year and a new life in a home of your own. The easiest way to achieve this dream is to contact LEONARD MILLER, REAL ESTATE. The firm is always ready to "talk terms." Call 3778-J and ask for Leonard Miller, who will help you find a home that suits you. If you have property to sell, get maximum value by having Mr. Miller handle the transaction.

Build For Permanency—

An honest contractor knows that if a home is to withstand the tests of time, it must be constructed soundly and good materials used! In other words, go to a reliable contractor with your specifications of your dream home. LLOYD PONDER, BUILDING CONTRACTOR, is right "on top" of every new development in the building field. He builds homes which are in the \$12,000 to \$25,000 class. Call 4478 for a consultation. Mr. Ponder's office is located on Andrews Highway.

Take The Children To The Movies—

It's almost like seeing a movie from your favorite chair—when you sit in the TEXAN DRIVE-IN THEATRE, West Highway 80. The whole family enjoys a clear, unobstructed view from the privacy of your own car. Even the children come along and enjoy healthful entertainment in the open air. There are individual speakers for every car and you see the latest in motion picture entertainment. Call 2787-J-1 for information on features.

Give Your Home A Grand Entrance—

Let ABELL-McHARGUE, MILLWORK DIVISION, show you how a deluxe door frame can enhance the appearance of your home... add to its value. The cost is moderate. Call 3380 for more information. Millwork is the outstanding feature of your home. Front entrance, fireplace mantel, china cabinet, etc. can be bought ready-made at Abell-McHargue, Millwork Division, 1800 North West Front.

Eliminate Household Pests—

Get rid of those household pests with Johnson's No-Roach, available at MIDLAND HARDWARE in pints for \$1.88, also 8-ounce bottles for \$3c. Johnson's No-Roach knocks 'em dead. It's so easy to use, too. Completely odorless and tasteless, it's perfectly safe to use in the home, and the effect lasts for months. Just brush on Johnson's No-Roach wherever roaches, ants and water bugs gather.

Building And Interior Decorating—

It's a wise homeowner who has any building, remodeling or repairing done while the materials and skilled labor are available. For any kind of building, repairing or interior decorating, contact H. B. FRASURE, CONTRACTOR, 2408 West Washington, or call 4286-W for free estimates. Whether it's a new fence, a new room, garage, painting or papering job, these men are prepared to give you satisfactory service.

Custom Made Draperies—

Frame your windows in made-to-measure drapes designed to match or contrast with your upholstery. MIDLAND HARDWARE AND FURNITURE COMPANY, DECORATING DEPARTMENT, will help you inject new form and color into your home with custom made draperies. The decorators will visit your home, measure your windows and design draperies and cornice boards from your choice of materials.

Prompt Delivery At Regular Intervals—

Convenience is the key to the key to bottled gas—and B. & B. BUTANE SERVICE delivers at regular intervals to assure you of an ample supply. When you need this fuel, call 2102 for prompt delivery. Mr. Snyder, owner of the company, has a diploma in the LP industry from the University of Texas. The company features a complete line of Dearborn Heating Stoves and also a selection of kitchen ranges and hot water heaters.

Radiator And Battery Service—

Don't wait for a sudden cold spell to endanger your engine and possibly end up with a cracked engine block. Have your radiator serviced by PETERS RADIATOR SHOP, West Highway. Radiator and battery attention mean money in the bank by giving longer service. The shop specializes in radiator cleaning, recoring, repairing and rebuilding and also battery service and replacements. Don't take chances with a weak battery or defective radiator. Call 4170.

Where Cook's Tours End—

JOMAC CAFE, in the Greyhound Bus Terminal, serves the kind of food that makes good cooks ask for its recipes—and good cooks glad they found the place. For the best meal of the day, try the tempting, flavorful lunches. The menu is prepared for folks with hearty appetites and with a real appreciation of good food. Whether it's a sandwich or a complete dinner, the same fine food, efficient service and low prices always prevail.

Weatherstrip Now—

Let WEST WEATHERSTRIP COMPANY, 407 West Kentucky, install all metal waterproof thresholds and no sand or rain will blow under your doors to ruin your carpets. Metal thresholds add to the appearance of your home and keep dust, rain and cold wind out. You have a choice of brass or aluminum. At present, the company has a full stock of materials but there is no assurance these materials will be available in the future. Have your windows and doors weatherstripped now.

Shop The Drive-In Way—

Europeans marvel at the way we get things done here in the good old U.S.A. They're amazed at the convenience we enjoy, and now we add the convenience of a modern drive-in grocery and market to our list. Here in Midland we just drive up to BERT'S DRIVE-IN GROCERY, 301 North Big Spring, and without getting out the car, we shop for a week's supply of food. How just hand a list to the attendant, and he will fill your order with quality groceries and place them in your car.

Snakes Work Charms—

Clogged pipes mean danger! Play safe by letting a licensed plumber clean up the trouble... safely, rapidly, clearly. Call 1555 and GOODE PLUMBING COMPANY will send over a plumber with the proper tools and know-how to make any emergency repairs. No job is impossible for Goode Plumbing Company with its "do all" tools and experienced men to insure perfect service. The surest way to hold repair costs down is to do them while they are still small.

Safe, Clean Heating—

The safe, convenient way to heat your home is with a G-E Wall Heater from PHILLIPS ELECTRIC COMPANY. They have highly polished corrugated aluminum reflectors that radiate heat in a wide zone and a protective guard of high quality steel wire, easily removed for cleaning, two long-life heating elements of nichrome wire-ceramic cores. They are in beautiful hammered-tone gray finish with switch located at the bottom.

Protection! Good Looks, Too!—

Keep your home in perfect condition with high-quality paints. They're a sure guarantee against rapid deterioration—a sure promise of increased attractiveness. Brighten and freshen your home inside and out with famous DuPont Paints from J. C. VILVIN LUMBER COMPANY, 304 North Fort Worth. You'll find materials for those repair jobs and also all kinds of builder's hardware.

Have You Been Putting Off Seat Covers?—

Now is the time to put them on—while you can have a complete selection of patterns and fabrics. MILLER BROTHERS TRIM SHOP, 114 East Wall (near), has a tremendous selection of new patterns in Saran, both bold and conservative and Boltax is featured in its beautiful patterned patterns and a choice of vivid colors. When the interior of your car is upholstered with Saran or Boltax, it has beauty that lasts as long as the car. Plastic is also sold for home decorating.

Save On Appliance Repairs—

The secret is: make minor repairs now before they become bigger and more expensive. If your refrigerator is not working at top efficiency, you are gambling with food spoilage. Whether it's a large refrigerator, washing machine or any type motor driven appliance or tool, you can depend on BUDDY'S ELECTRIC SHOP, 203 South Main, to have the proper equipment at all times and the proper know-how to do the repair or rewinding job efficiently. The shop also features new and used motors for sale.

Housework Easy Without Nagging Backache

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JAN. 4, 1951—3

Association Will Have Meeting In Little House

The Midland Girl Scout Association will make plans for 1951 at its annual meeting Monday in the Girl Scout Little House. The meeting will be held at 8 p.m.

Officers and directors will be elected, including a president, vice president, secretary, treasurer, registrar, historian, nominating committee and the chairmen of the standing committees. The seven committees deal with organization, training, program, building, finance, public relations and camp.

The board is responsible for the administration of the scouting movement in Midland as well as for extending the opportunity of membership to other Midland County girls between the ages of seven and 17. As further work, the board makes plans for organizing and serving troops, providing meeting places, training for adults, camping facilities and the out-door program, and participating in community planning with other agencies serving children.

The meeting will be open to all who are interested in the Girl Scout movement.

Palette Club Will Have Art Exhibit

The Palette Club Art Center will start the new year with an exhibition to be on display Sunday. The exhibit will be Circuit No. 3 from the Texas Fine Arts Association.

Texas artists represented in this exhibit include Margaret Adams, Ben Smith, Everett Spruce, Loren Mosley, Constance Forsyth and Maxine Welch of Austin, Travis L. Rhea, Fort Worth; M. L. Norvell and Felisa A. Owens, Corpus Christi; Margaret Dreyer and Jerre Swain, Houston.

Amelia Urbach, Robert Reed, Alice Naylor and Florence Coleman, San Antonio; Juanita Tittle and Willie Reed Rowe, Abilene; Henrietta Ringhoffer, Stanton; E. Caballero, Canyon; Vera Wise, El Paso; Janet E. Turner, Nacogdoches; Bess Bigham Hubbard, Lubbock; Merritt Mauser, Dallas and Della Landers, Ovalo.

The studio will be open to the public all day Sunday. The Winter Painting School is open for registration. Persons interested may call No. 3888 or 14. The school will be taught by R. E. Cronyn, sculptor, painter and instructor.

Allied Sabotage Program

It's taken for granted that in the event of war, Com-
 munist and Red sympathizers in Europe and America
 would commit countless damaging acts of sabotage
 against us.

We were fortunate in World War II that the vigilance
 of the FBI, combined with the Nazis' apparent inability
 to recruit saboteurs on a broad scale, eliminated this behind-
 the-front warfare. No one imagines we'd be so lucky again.

It goes without saying that we must prepare to com-
 bat sabotage as we never have before. The preparation
 isn't something that can be put off. Defense contracts are
 being let steadily. The men who work on them must be
 tightly screened, and every safeguard must be erected to
 keep the affected plants free of trouble.

Some responsible people are suggesting that we ought
 to go much further and get into the sabotage business our-
 selves. Those who urge it admit at the start that it's a
 sordid, dirty sort of game; but they believe that playing it
 would be of vital assistance to us in a conflict with the
 Soviet Union.

In the Western European nations which might be
 overrun in a Russian drive to the sea, thousands and thou-
 sands of stout-hearted lovers of liberty would serve their
 cause at risk of their lives behind enemy lines.

Any build-up of European defenses might be viewed
 as incomplete if it did not make plans to utilize the dis-
 ruptive force these people could bring to bear in a Europe
 under Russian heel.

The advocates of an Allied sabotage program argue,
 too, that there are many brave recruits for this dangerous
 duty in countries already behind the Iron Curtain. Free-
 dom is not a dead issue to people in Hungary, Romania,
 Czechoslovakia, Poland and Bulgaria.

These people await the day when they shall be lib-
 erated. Though they dare not speak out, they are with
 us. Many would do anything asked of them to advance the
 birth of freedom in their lands. They need only to be
 told what sort of future would really be in store for them
 in a world of Russian domination. Men who have hope
 will die, if they must, trying to realize it.

There are probably even people in Russia itself who
 would be willing to join the army of saboteurs. The
 Ukrainians are notoriously a rebellious group, and others
 hear little of might seize any fair chance to do their
 ruthless masters in. The problem of reaching these people
 and helping to organize and guide them is obviously more
 difficult than elsewhere.

Whether we should undertake to embark on an in-
 tensive sabotage program is a question for study in the
 highest levels of government. And it will no doubt be
 judged in the light of the fact that our prospective enemy,
 the Soviet Union, is sure to throw away the rule book and
 fight foul if it comes to a test.

An Illinois judge told police that large cities were hav-
 ing too many robberies. Just how many would he call
 enough?

DREW PEARSON ON THE WASHINGTON MERRY-GO-ROUND

(Copyright, 1951, By The Bell Syndicate, Inc.)
 Drew Pearson says: Truman letter-writing may pay unexpected dividends; Congress to consider draft law changes; Price cars stymied by under-parity farm prices.

WASHINGTON — It looks as if the "man of letters" in the White House is going to make a lot of money for the recipients of those letters.

Out in Denver, Dr. Neal Bishop, who suggested to Truman that John L. Lewis be appointed ambassador to Russia, is going to auction off his Trumanesque reply for the benefit of the Denver Community Chest.

The reply, which stated that he, Truman, would not even appoint John L. as dogcatcher, should bring a large amount of money—although Bishop generously has given the letter to the Community Chest and it will make the profit.

Meanwhile, in Washington, Paul Hume, the Washington Post music critic, has turned down various offers for his letter regarding Margaret Truman's singing. One offer is reported to be in five figures.

If Hume ever does decide to sell this coveted letter, it can make him much more money than he realizes, for he will have only to pay a capital gains tax of 25 per cent on the sale. In other words, the Truman letter is not earned income, but a special personal gift from the President of the United States. A gift is not taxable until it is sold, and as long as Hume keeps the letter more than six months, his tax will be only 25 per cent.

If Treasury agents argue about this, Hume can tell them quite truthfully that his letter is something which happens only once in a lifetime, that it was an unsolicited gift from the President, and that if any gift tax is paid it should come out of Harry Truman's pocket, not his.

Other people who got indignant letters from the President also can cash in on this nice low-bracket tax. In brief, the President has been awfully kind to Hume, to Bernie Byrnes, to Dr. Bishop, to Jimmie Byrnes and others. The only one he has hurtled the "Servant of Brotherhood" charge in my direction, he did it orally. He did not write a letter.

Someday, if I can get up nerve enough, I am going to ask Mr. Truman to put it in writing, so I can have something either to hand down to my children or else sell under a capital gains tax. Having been the first to arouse public indignation, I think the President owes it to me to put it in writing.

Note — Anyone who wants to bid on the Truman letter black-balling John L. Lewis as dogcatcher can wire the Denver Press Club.

New Order of Draft
 Selective Service Director Lewis Hershey is recommending the following changes in the draft law to the new session of Congress:

1. That the draft age be lowered from 19 to 18 years, with the maximum age limit kept at 25.

2. That deferment of enlistees in the Organized Reserves and the National Guard be stopped.

3. The draft eligibles between 18 and 25 be taken in the following order: First, all unmarried college students except the top third in their classes; second, married non-vets without children; third, unmarried veterans; last, non-vets with children.

 One thing that has stumped price Czar Alan Valentine and Mike DiSalle is that they cannot impose over price controls on certain farm products until the cost of living goes up even more.

This is because the farm bloc in

Pioneer Resident Of Dallas Is Dead

DALLAS —(AP)—Robert K. Gaston, 61, one of Dallas' oldest native sons, died at his home here Wednesday night.

Gaston was a lieutenant colonel in the Spanish-American War and was on the staffs of Gov. James S. Hogg and Gov. Charles A. Culberson after the war.

He served as vice president and director of the Exchange National Bank, secretary-treasurer of the Max Hahn Packing Company, vice president of the Gaston National Bank and the Commonwealth National Bank and assistant treasurer of the Armstrong Baking Company.

"Please answer a question about a very 'lucky hand,'" asks a Milwaukee correspondent. "We are wondering just how lucky the player was on this hand."

"East played the queen of clubs on his partner's opening lead of the king. West obediently continued with a low club, and dummy ruffed with the three of diamonds."

"South decided that if West had paired with the ace and king of clubs, he could not have much else. Moreover, East's anxiety to shorten dummy's trumps was an additional indication of the location of the queen of diamonds. Therefore declarer cashed the king of diamonds and led the jack of diamonds for a finesse."

"South's troubles were not over. He entered his hand with a heart to draw the last trump, discarding a low spade from dummy. Then he led the ten of spades to the ace and ruffed a spade. He entered dummy

with a heart to ruff another spade with his last trump. Since the king and queen of spades dropped during this process, the dummy was now established.

"What we would like to know is this: Are the chances ordinarily so favorable to set up the jack of spades for the twelfth trick—or do you call this South just plain lucky?"

The chances are not ordinarily so favorable. The jack of spades will become established only if one opponent has the blank king-queen of spades of the king-queen of one small spade. This will happen just slightly more than 10 per cent of the time. The odds, to put it another way, are about 9 to 1 against such a fortunate break in spades.

I would not, however, say that this particular South player was just plain lucky. He bid his hand properly and played it for all it was worth. Angels can do no more.

If I were pressed, I would say that North was the lucky player. He overbid his hand and then was lucky enough to have a partner good enough to make the most of the partnership assets.

If North was so determined to bid a slam, he should have bid it in hearts. That slam would be made with a successful diamond finesse, even if the spades didn't become established!

For example, suppose a trump is led against a contract of six hearts (as good a lead as any). South wins with the ace, cashes the ace of spades, and ruffs a spade in the South hand. North wins the next trick with the king of diamonds and ruffs another spade in the South hand. (We will assume that this does not set up the rest of the spades.)

South now leads his last heart to North, and North leads a third heart to draw the last trump. South can discard a club on this trick

WASHINGTON COLUMN

Need To Expand Defenses Against Germ And Gas War

By PETER EDSON

NEA Washington Correspondent

WASHINGTON—Officials of the new Federal Civil Defense Administration now have recognized a couple of new horrors of war. They are not nice. They are the much discussed biological warfare and nerve gases.

First official discussion of these new weapons is contained in CDA's new handbook on "Health Services and Special Weapons Defense."

It is volume two and a companion to CDA's Civil Defense handbook issued last September. This earlier work covered principally organization of local civil defense against attacks by conventional weapons.

Says Dr. Norvin C. Kleiser, of National Security Resources Board, which supervised preparation of the two handbooks:

"This information is presented not to spread horror stories or to cause alarm. But here is a challenge which has to be met. We have the means to combat chemical warfare and the nerve gases. There is nothing new about them. Their effects can be treated by the usual medical means. But we do need certain basic training for technicians, better reporting on disasters, better organized stockpiling of medical supplies."

Biological warfare which a nation must be prepared to meet is of three types — against humans, against animals and against food and fiber crops. The means of delivery considered most likely would be by aerial bomb, by guided missile, by submarine or by sabotage. Saboteurs could introduce germs into water, food or milk supplies, or into the air. By bomb, the attack would release aerosol, or mist spray clouds of particles containing germs.

Detection is first defense — consists of sampling air, water and food supplies for micro-organisms. The next step is a better system of reporting on epidemic diseases caused by biological warfare.

Rapid immunization of the population after detection is considered the best defense, then decontamination. Among the diseases against which effective vaccines have been developed are tularemia, plague, typhus, Q fever, yellow fever, and cholera.

U. S. Bureau of Animal Industry and the state agricultural agencies provide the natural preventive services for bacteriological warfare against food supplies. Animal and plant quarantine services are now on guard against foreign diseases like rinderpest, foot and mouth disease, fowl pest and insect.

Biological warfare is sometimes considered the absolute weapon, capable of destroying whole populations. But civil defense planners point out that nature has been waging biological warfare against man and beast for centuries. And so far man has won. All that is needed is more intensive defense against planned biological war.

Chemical or gas warfare was not used in World War II, but its use in World War III is considered more probable. It now is considered that the weapon most likely to be used would be a form of the so-called "nerve gases" developed by the Germans. They are colorless and odorless.

(having used up two of his trumps ruffing spades). The diamond is then finessed, and South runs the rest of the diamond suit, discarding two of North's three losing cards in the black suits. And that would be that.

DADDY RINGTAIL

by WESLEY DAVIS

Daddy Ringtail And Somebody's Grandma

Daddy Ringtail, your monkey friend, was standing on the ground beneath the tree with the little house of the marmoset in the top. Mugwump Monkey was with him.

"Phew!" said Mugwump about the marmoset. "She really gave me a talking to about my bugling bugle music."

Daddy Ringtail explained that marmosets are little old monkeys who are quite, quite cross, people say. The little old lady marmoset hadn't smiled a friendly smile at all like Grandmother Ringtail was always smiling.

Yes, but Daddy Ringtail said there is something good about everyone. If only you can wait a long enough time to see what it is. Why, the little old marmoset lady had a good and kindly heart, Daddy Ring-

tail was sure. The little old lady had a kind face, and surely a someone with a face so kind must somehow have some kindness about

them. Why, that little old lady could be somebody's grandma.

"Uh-oh," said Mugwump. "There comes Grandma."

Sure enough, again the little old marmoset lady had opened the door to her little house. Again she slid to the ground, and again she

was standing with her little apron in front of our friends.

She explained she had heard the talk they had said about her. No, she wasn't a grandma, but she had always wanted to be one. She had always wanted a boy or girl to call her grandma; she wanted someone to tell the things the someone should or shouldn't do. And all for the fun of saying it like the grandma she wasn't, she had said for Mugwump not to bugle his bugle music any more.

Oh, but he could bugle it again right now if he wanted. Now was the time when she wanted to play like a grandma who said that things could be done. Yes, and now was the time when she wanted to give away scrambled coconut cookies like a grandma play-like, and she did give them to Mugwump from her apron pockets. And Mugwump did bugle some bugle music, and he ate the cookies, and he bugled some bugle music some more. Grandma even bugled some herself, and our friends were all very happy, all on a very fine day.

Damages Asked In Death Of Husband

LOS ANGELES—(AP)—Mrs. Helen P. Prichard of San Antonio has filed a \$300,000 damage suit because her husband died July 14 aboard a burning plane.

Lev H. Prichard, Jr., 42, a wealthy oil well supplies dealer, was enroute home from Southern California where he contracted pneumonia. The plane caught fire at an emergency landing at Hachita, N. M. The suit alleges Prichard died in the flames when he was unable to untie the straps that held him to his bed.

The widow and her son, Lev III, 13, contended in their suit the Schaefer Ambulance Service, Inc., was negligent. They named Jacob Walker Schaefer, an officer of the company, and male nurse Albert J. Ford co-defendants in the suit. They alleged both were able to save themselves from the fire.

Prominent Texas Contractor Dies

HOUSTON—(AP)—W. E. Woodruff, 85, prominent Houston contractor who once miscalculated the number of bricks needed in a hotel building by one brick, died here Wednesday.

Woodruff received national publicity a number of years ago because of the brick episode. He could find no other brick to match those in the hotel and had to place a special order for the manufacture of the one brick needed to finish the building.

Texas Democrats Split 10-6 In Voting

WASHINGTON—(AP)—Texas Democrats split 10-6 Wednesday in voting to give the rules committee of the House tighter control of legislation to be considered. The roll call was 244-179 in favor of the proposal.

Voting for the rule change were Texas Reps. Burleson, Fisher, Gossett, Mahon, Pickett, Poage, Regan, Rogers, Teague and Wilson.

Against the measure were Reps. Beckworth, Benitez, Combs, Thomas, Thompson and Thornberry.

Congratulations To

Mr. and Mrs. J. P. Cook of Stanton on the birth Wednesday of a son weighing seven pounds, four ounces.

Ex-Champion Louis Stops Beshore In Fourth Round

DETROIT (AP)—Joe Louis' tremendous home town following argued vociferously Thursday—in the wake of Joe's smashing victory over outclassed Freddie Beshore Wednesday night—that the old Brown Bomber still is the best heavyweight in the business.

Louis took another step up the comeback ladder by stopping Beshore handily in two minutes and 48 seconds of the fourth round of a scheduled 10-rounder.

Referee Johnny Weber halted the one-sided battle to save the bloodied Beshore, his left eyelid badly cut and his nose battered, from further punishment.

Ex-champion Louis' many rosters—13,000 fans paid \$41,425 to see the scrap—pointed out it took current champion Ezzard Charles 14 rounds to finish Beshore last August.

That Beshore's crowding, wild-swinging tactics were tailor-made for Louis nobody would deny. Shows improvement.

But the experts virtually were unanimous in their belief that Louis showed remarkable improvement in disposing of the Harrisburg, Pa., ex-sailor in such workmanlike fashion.

Joe's lethal right hand, seldom thrown in his losing battle with Charles last summer or in his most recent so-so bout with Cesar Brion, was powerful. It equally was effective in six-inch straight punches or in uppercuts. His famous left jab was sharp and shattering.

At the finish the 36-year-old Louis was unmarked and not even breathing heavily. His trim weight of 210 1/2 testified to his good condition. This was almost eight pounds less than he weighed for his post-retirement title fight with Charles Beshore, 10 years younger than Louis and almost 19 pounds lighter at 191 1/2, had no quarrel with Weber's decision. Neither did his manager, Harry (Champ) Segal, who said he would have asked to have the fight stopped after the fourth round because of Beshore's cut eye.

Three Stitches Taken
Three stitches were required to mend the gash. At first it was thought Beshore's nose was broken. But doctors said his severe nose-bleed was caused by rupture of an off-injured nose cartilage, not from any bone fracture.

Beshore sided with Louis' supporters in saying the ex-champ is still a better fighter than Charles. "Joe hits you square," Beshore said. "Charles just cuffs you."

Louis got 40 per cent of the net gate and Beshore 20 per cent. Each also received a \$1,000 fee for television rights.

Whitesboro Handed Suspension For 1951
AUSTIN (AP)—Whitesboro High School has been suspended from football competition in 1951 because Whitesboro fans attacked officials during a game last November 2.

The action came at the end of a hearing Wednesday before the Texas Interscholastic League's State Executive Committee.

The suspension does not involve any other interscholastic activities of the school, in district 15-B.

Testimony at the hearing showed Denison Assistant Coach Truman Wright, who was officiating for a game between Whitesboro and the Denison B team, was knocked unconscious and two other officials were hit but not injured. Whitesboro fans rushed on the field after the Denison B team scored a touchdown in the closing seconds of the game to tie the score at 13-13.

Before the game Whitesboro officials had agreed to the use of members of the Denison A team coaching staff as had been the custom in previous years.

Army To Get Aggie Grid Star Monday
COLLEGE STATION (AP)—Andy Hillhouse, Texas A&M football star, will be inducted in the Army Monday at Houston.

Hillhouse, who played end for the Aggies, was to leave Thursday with 19 other inductees, but the Brazos County draft board held him five days to visit his mother in Alvin.

New Orleans Will Hold Mardi Gras
NEW ORLEANS (AP)—Carnival Season and Mardi Gras will be held in New Orleans as usual this year. But its size still is undetermined.

A quartet of the oldest carnival organizations—called Krewe—called off their part in the annual dazzling string of parades and balls which left the size and success of the celebration in question.

Rez, one of the four withdrawing, is the oldest Krewe and its king traditionally is the king of the Mardi Gras and the annual Mardi Gras Night Masked Ball is one of the select events of the social season.

WELL-NAMED
The Duke of Windsor bears seven baptismal names; Edward Albert Christian, after his grandfather, King Edward VII, and two great-grandfathers, the Prince Consort and King Christian of Denmark; George Andrew Patrick David, in honor of the patron saints of England, Scotland, Ireland and Wales.

BASKETBALL BALLET—Looking like something out of a dance routine, New York University's Dick Bunt jumps to snag a pass during a game with Stanford at Madison Square Garden. Others, are, left to right, Bob Gronachon, Jim Ramstead and Ed Tucker. The Violet rolled over the previously undefeated Indians, 84-70.

King's Row

By LARRY KING

Apparently the super conference boys—the AAAA group—are calling off games with the "inferior" AAA teams by the score (No pun intended). Several reports have reached our desk concerning this.

The latest comes from Lamesa sports writer Marvin Vail. It seems that Lubbock has declined to play the Golden Tornadoes in 1951, saying much the same as did Odessa: "We have everything to lose and nothing to gain by playing you 'little fellows'."

But Lubbock might well remember that the "little fellows" gave them quite a time of it during 1950. Lamesa held the Westerners to 3-0 count. Big Spring was defeated only 13-7, and Midland ousted the high and mighty Lubbock eleven 38-33.

But it seems that the big boys refuse to pick on their little AAA brothers.

Now aren't they considerate?

F. D. (Red) Rutledge tells us he is pretty pleased with the Midland basketball team at this point. Coach Rutledge said he "saw some things I liked" when Midland ousted Brownfield Tuesday night.

"We looked a little better," Rutledge commented, "and I liked the way our scoring was evenly distributed. If we continue like that, the team still can win some more ball games."

And not only was the scoring evenly distributed against Brownfield, it has been so throughout the entire season thus far. We keep promising you the Bulldogs will win some cage games. And we think they will. District 3-AA teams may be in for a surprise.

Crane Independent Invite Tournament To Open Thursday
CRANE—Crane's Independent basketball tournament gets under way with two games Thursday night.

Western Plastic of Midland and the Crane Sheriff's posse meet in the first game at 7:30 p.m. Ozona and Imperial cagers tangle at 9 p.m.

The powerful Rotary Engineers of Midland will vie with tough Phillips 66 of Crane at 7:30 p.m. Friday. Holder Grocery of Odessa and Odessa Bill Hale Motors tangle in the night-cap.

A new entry—The McCamey News Publishing Company—drew a bye in the first round. The McCamey team will play the Ozona-Imperial winner.

The championship finals will be played Saturday night. All games are to be in the Crane High School gym.

Tax Stamps' Yield Shows Big Increase
AUSTIN (AP)—The state collected almost a million dollars more from tax stamps last month than in December a year ago. State Treasurer Jesse James has reported.

Last month's collections from cigarette, liquor, prescription and wine stamps totaled \$3,771,961. The year-ago December collection was \$2,789,582.

Increases were distributed among all categories of the stamps except prescription stamps.

JONES POSTS BONDS
DALLAS (AP)—Nathan L. Jones, president of Town & Country Builders, Inc. of Dallas, was released from jail here Wednesday after posting bonds totaling \$17,750.

Jones was arrested and jailed last Thursday after 17 theft indictments were returned against him in Livingston, Polk County.

Bauers Entered In Florida Meet
PONTE VEDRA BEACH, FLA. (AP)—Leading women golfers tuning-up for the 54-hole Ponte Vedra Club Open tournament which starts Friday reported several good practice scores.

Patty Berg, one of the favorites, scored 36-39—75 over the par 39-47—78 Oceanside Course Wednesday.

Other pros include Alice and Marlene Bauer of Midland, Texas.

Bulldogs-Lamesa Open Loop Play

From now on the Midland basketball team will be playing the ones that count—conference games. The Bulldogs and the Lamesa Golden Tornadoes will open the 3-AA conference basketball season in the Midland High School gym Friday night.

'B' teams of the two schools will tangle at 6:30 p.m. The Midland-Lamesa varsity tilt is carded for 8 p.m.

The Tornadoes have won the district basketball championship for the last two years. And despite heavy graduation losses, the Dawson County team seems to be loaded again. Playing tough competition, the Tornadoes have posted an 8-5 won-lost record. And the Lamesa five won consolation honors at the H-SU cage tournament in December.

Those were the only games played as the conference race opened. Thursday night Rice and Texas A&M swung into action at College Station.

Saturday night Arkansas, the last team to start the grind, plays Texas Christian at Fort Worth while Southern Methodist and Baylor get together at Waco and Rice and Texas clash at Houston.

The Texas-Baylor game, matching two of the teams not expected to cut much ice in the conference championship race, was quite a thriller. With only two seconds left in the second overtime, Joe Ed Falk dropped a free throw in for the Longhorn victory.

The teams were tied at the end of the regulation contest 49-49 and at the end of the first overtime 54-54.

Eleven Schools Get Men On Class AA Texas All-State Team
DALLAS (AP)—Eleven schools, three of which did not win their district championships, landed players on the Class AA Texas high school all-state football team.

The team, selected by the Texas Sports Writers Association through assistance of the Texas High School Coaches Association, was announced Thursday with state champion Wichita Falls putting on one player—Ed Beach, its great running and passing back.

Port Neches, Corsicana and Palestine, which did not win district titles, had men good enough to make the team anyway. Port Neches contributed Don Miller, a guard; Corsicana, Duane Nutt, a back; and Palestine, Jerry Hall, a back.

Others making the team were: Ed Bernet, Highland Park (Dallas); and Paul Parkinson, Baytown; ends; Jerry Fitzpatrick, Harlingen; and Dick Van Fleet, Austin; tackles; Sam Walker, Breckenridge; guard; Doyle Nix, Texarkana; center; and Frank Eldom, Port Arthur; back.

Wichita Falls and Highland Park each landed two on the second team.

The Class AA all-state teams:

FIRST TEAM
Player School Position
Ed Bernet H. Park End
Paul Parkinson Baytown End
Jerry Fitzpatrick Harlingen Tackle
Dick Van Fleet Austin Tackle
Don Miller P. Neches Guard
Sam Walker Breckenridge Gr. Guard
Doyle Nix Texarkana Center
Duane Nutt Corsicana Back
Jerry Hall Palestine Back
Frank Eldom Port Arthur Back
Ed Beach Wichita F. Back

SECOND TEAM
Player School Position
David Buchanan Breckenridge End
Weldon Holley Odessa End
Layton Goldman Kerrville Tackle
Al Appel H. Park Tackle
Marvin Tate Abilene Guard
C. Huddleston Austin Guard
Billy Harris Wichita F. Center
Malcolm Bowers H. Park Back
James Self Wichita F. Back
Raborn Mathews Corsicana Back
Mack Taylor Lubbock Back

The committee from the Texas Sports Writers Association assembling the all-state teams was headed by Jinx Tucker of the Waco News-Tribune. Representatives in the various districts sent in recommendations and the coaches submitted votes. All told, close to 1,000 persons made recommendations.

Rose Bowl Game Fate Is Uncertain
RIVERSIDE, CALIF. (AP)—The fate of the historic Rose Bowl football game hangs in suspense Thursday—and it will continue to hang that way for another two weeks.

Officials of the Pacific Coast Conference electrified the world of college football by disclosing that it is considering seriously discontinuing, or modifying its annual participation in the oldest and richest post-season game.

The conference will hold a special, unprecedented meeting "shortly after" the NCAA convention in Dallas next week to decide whether it will continue to participate in the New Year's Day grid classic.

The decision was made for one simple reason.

College football, said President H. P. Everest of the Pacific Coast Conference, is getting too big for its trousers.

"We must take steps to relieve the tensions, and this is the first step," were the words of the University of Washington professor.

The pressure to join football games, as crystallized in any post-season bowl game—Rose, Sugar or Squash Bowl—is too much, said the learned Professor Everest, in effect, as he issued a formal statement adopted by the Coast Conference.

SMU Can't Stand Prosperity, Bows To Frogs 57 To 46

By The Associated Press
Southern Methodist, which had gone through two weeks without a defeat and beat the team that beat Texas, Christian, couldn't stand prosperity Wednesday night.

The Mustangs, co-favorites with Arkansas for the Southwest Conference basketball title, tripped in their first conference game—to Texas Christian.

The Horned Frogs won easily, whipping the Methodists 57-46. Only last week TCU had lost to Texas Tech, a team SMU licked in the Dallas Cotton Bowl tournament.

Down at Austin Wednesday night Texas and Baylor played quite a game. It went through two overtime periods with Texas winning 58-58.

Those were the only games played as the conference race opened. Thursday night Rice and Texas A&M swung into action at College Station.

Saturday night Arkansas, the last team to start the grind, plays Texas Christian at Fort Worth while Southern Methodist and Baylor get together at Waco and Rice and Texas clash at Houston.

Midlander Among New Challengers In Open Tourney
LOS ANGELES (AP)—Golfing veterans challenged by up-and-coming youngsters took their last practice rounds Thursday for the \$15,000 Los Angeles Open starting Friday at Riviera Country Club.

The course will be closed Thursday afternoon to get it in best possible shape for the tournament attack by a field of 150.

Sam Snead, the perfection swinger from White Sulphur Springs, W. Va., is the defending titlist and the man to beat.

Among the new crop of challenging golfers are Jack Burke, Jr., Houston, Texas; Fred Hawkins, Jr., El Paso, Texas; and Morris Williams, Jr., Midland, Texas.

The first picture postcard was made in 1777.

Program Plans Made For Annual Council Meeting, Banquet

Program arrangements for the Annual Meeting of the Buffalo Trail Council, Boy Scouts of America, have been completed, Scout Executive P. V. Thorsen announced Thursday.

The meeting will be held in Hotel Statler at Big Spring January 19. Arno Nowotny, dean of student life at the University of Texas, will be the principal speaker. Nowotny is listed in the Who's Who in America and Who's Who in American Education.

Special recognition, in the form of Silver Beaver awards, will be given to Scout leaders who have given distinguished service to boyhood. Special music will round out the program.

Tickets for the banquet, which will begin at 6:30 p.m., now are available at the Scout headquarters office, 318 North Colorado Street.

Sponsor Institutions

Within the Council, 133 different institutions sponsor one or more units. Each sponsoring group has a council representative, and the remainder of the 200 members come from the executive board and members-at-large.

Midland members of the council who are qualified to attend the business session are: Melvin M. Haney, American Legion; Frank Segrest, Terminal Lions Club; J. L. Kendrick, I.O.O.F. Post 151; W. R. Upham, Rotary Club; R. J. Smith, Episcopal Church; C. C. Boles, First Baptist Church; R. C. Spivey, Presbyterian Men; E. L. Jordan, Negro Chamber of Commerce. James R. Cotton, Methodist Men; W. P. Z. German, First Christian Church; Randy Rubin, Rotary Club; Carl O. Hyde, Lions Club; Robert D. Fanning, Kiwanis Club; A. H. Vineyard, First Presbyterian Church; L. N. Campbell, St. Mark's Methodist Church.

Rites Held Here For Winborne

Funeral services for John Winborne were held at 3:30 p.m. Thursday in the Newell W. Ellis Chapel. Interment was to be in Fairview Cemetery.

The Rev. Clyde Lindsey, pastor of the First Christian Church here, and the Rev. C. A. Johnson of Odessa were to officiate at the services.

Winborne died in a Clovis, N. M., hospital Sunday. He and Mrs. Winborne were injured in an automobile accident between Clovis and Fort Sumner, N. M.

Survivors include the widow, three daughters and four grandchildren.

Slot Machines Are Turned Into Scrap

ORANGE —(P)—A dozen slot machines which formerly relieved officers and enlisted men at the Orange Naval Installations of their spare nickles, dimes and quarters were turned into scrap here Wednesday.

A spokesman for the Navy announced the machines had been destroyed. He said their destruction was carried out under a directive from Washington which ordered all slot machines and other mechanical gambling devices on military installations be broken up.

The Navy spokesman said the directive was issued immediately after President Truman signed a bill passed by the 81st Congress which made the interstate shipment of such machines illegal.

Meeting Of DAV Chapter Scheduled

The J. O. Roten Chapter 48 of the Disabled American Veterans will hold a semi-monthly meeting at 8 p.m. Thursday in the American Legion Hall.

E. N. Beauchamp, commander of the chapter, said all members and prospective members are invited to attend the meeting.

Permian Basin Oil And Gas Log—

(Continued From Page One)
per hour for an extended period from open hole in the Pennsylvania time at 9,500-9,675 feet.

The water was cut with two per cent oil. Operator is now taking electric log survey.

The project probably will be plugged back to 9,500 feet, where casing is cemented.

After that is done the pipe will likely be perforated between 9,400 feet and 9,500 feet and the section tested.

That zone had some good shows of possible production when it was tested on the drillstem.

Location is 1,980 feet from north and west lines of section 14, block 34, T&P survey, T-2-N.

It is three quarters of a mile northwest of Brinkerhoff Drilling Company No. 1 Jones, which has also shown some possibilities of production in the Pennsylvania time, and which is now preparing to deepen.

Sutton Opener Gets Southwest Flanker

C. L. Norsworthy, Jr. and Lone Star Producing Company of Dallas, has staked location for a southwest flanker to the operators' shallow discovery in Central-North Sutton County.

It is No. 2 Thomson and is located 2,310 feet from east and 330 feet from south lines of section 67, block A, H&A-WT survey.

That makes it eight and one-half miles northeast of Sonora.

Rotary contract is to 2,000 feet to test the pay found from 930 to 1,018 feet in the operators' No. 1 Thomson, the discovery which produced 56 barrels of 36.2-gravity oil on latest 20-hour pumping test.

Discovery Indicated In Stonewall Sector

In Southeast-Central Stonewall County, Skelly Oil Company No. 1 William Flowers has indicated as a discovery from a Canyon sand at 4,010-4,088 feet.

Oil flowed from that section on a drillstem test. Mud flowed to the surface 12 minutes after the tool was open and oil in 14 minutes.

It flowed 44 barrels of oil to tanks in the first hour. At last report, the tester was still in the hole.

The sand section was topped at 4,010 feet.

The No. 1 Flowers is 467 feet from north and east lines of section 54, block D, H&A-WT survey. That makes it 1,500 feet southwest of a dry hole bottomed at 3,815 feet.

The prospector is contracted to go to 6,500 feet to test the Ellenburger.

Wildcat Scheduled In NE Concho Area

Skelly Oil Company has spotted its No. 1 S. A. Hartgrove as a 3,900-foot rotary wildcat in Northeast Concho County three and one-half miles northeast of Millersview.

Location is 3,310 feet from north and 1,450 feet from east lines of E. F. Lewis survey No. 88. It is one and one-quarter miles south and slightly west of Arkansas Fuel Oil Company No. 1 S. A. Hartgrove, gas well completed several years ago at 3,236 feet.

The gasser at one time furnished gas for Millersview, Melvin and Eden.

Operations on the new explorer will begin immediately. Drillate is about one mile southeast of two failures drilled by The Texas Company.

N-C Nolan Offset Is To Test Canyon

Rowan & Hope No. 2 City of Sweetwater, north offset to a Canyon sand discovery eight miles south of Sweetwater and in North-Central Nolan County, failed in the Ellenburger at 6,944 feet and has been plugged back to 5,320 feet.

Operator set casing at 5,209 feet.

Property Value—

(Continued From Page One)
additional funds will not be available until after October 1, when the tax rolls are certified and payments can be made.

Speed points out there is a three per cent discount for October payments, two per cent for November payments and one per cent for December payments.

"There will be no discounts nor penalties on payments made in January," he said.

"However, about 75 per cent of the county's taxes are paid during the first three-month period."

If the same rate of \$9.50 per \$1,000 is adopted, the county would derive an additional \$85,000 from its ad valorem taxes, based on the estimated increase in valuations.

Speed pointed out that all valuations are determined on the basis of about one-third of normal values and one-sixth of present day values.

"New construction, with its inflated costs," he said, "is entered on the tax rolls at about one-sixth of its present-day value."

Record Building Permits
With a record-breaking \$11,750,000 in building permits issued in Midland during 1960, this would mean a sizeable increase in valuations, in addition to that contributed by oil activity.

Of the \$9.50 per \$1,000 valuation collected in taxes during the last year, the county's general fund received \$2.50.

Other recipients included jury expenses \$1.50, roads and bridges \$1.50, permanent improvements \$1, court house and jail \$1.50 and road bonds \$1.50.

The Ellenburger, which was topped at 6,780 feet, developed water. Location is 467 feet from south and 1,400 feet from east lines of section 92, block 22, T&P survey and one-location west of the No. 1 City of Sweetwater, the discovery well.

Adair-Wolfcamp In Terry Gets Oilier

Amerada Petroleum Corporation No. 1 Elmer Miller, one-half mile south offset to the same company's No. 1 Willard, discovery well of the Adair-Wolfcamp field of extreme Central-South Terry County, has been completed.

The well flowed 292.96 barrels of 44-gravity oil through a three-eighth-inch choke in 12 hours. That makes a calculated 24-hour potential of 585.93 barrels of oil.

Gas-oil ratio was 476-1. There was no basic sediment or water.

Top of pay is at 8,482 feet and total depth is 8,565 feet. Five and one-half oil string is cemented at 8,488 feet. The section was treated with 500 gallons of acid.

Location is 660 feet from north and east lines of the southwest quarter of section 8, block C-37, pal survey and 20 miles northeast of Seagraves.

Scurry Canyon Area Gets Two Locations

Sun Oil Company staked two new locations for immediate drilling in the Diamond M-Canyon field of Southwest Scurry County.

Sun No. 12 J. W. Voss is located 1,980 feet from north and east lines of section 203, block 97, H&A-WT survey and nine miles west of Snyder.

Rotary tools will be used to drill to projected depth of 6,950 feet.

Location for Sun No. 8 H. M. Elland is nine miles west of Snyder and 2,013 feet from west and 660 feet from south lines of section 203, block 97, H&A-WT survey.

Scheduled depth is 7,000 feet. Rotary tools will be used to drill the test.

In the Cogdell field of Central-North Scurry County, Standlind Oil & Gas Company spotted its No. 9-A Dora E. Cunningham.

Drillate is 1,927 feet from north and 2,161 feet from west lines of section 613, block 97, H&A-WT survey. That puts it eight miles north of Snyder.

Projected depth is 7,200 feet. Rotary tools will be moved in and drilling will begin immediately.

NW Coke Prospector Plugged, Abandoned

Sun Oil Company No. 1 R. H. Harris estate, 12 miles northwest of Robert Lee in Northwest Coke County, has been plugged and abandoned at 7,206 feet in the Ellenburger.

That formation was topped at 7,082 feet, elevation 2,042 feet.

The failure was drilled 660 feet from south and east lines of Winfield Scott survey No. 10.

That puts it one and one-half miles southeast of the Lyggy field.

Spindletop Fete Gets Underway

BEAUMONT —(P)—The eight-day celebration of the 50th anniversary of the discovery of the Spindletop oil field began here Thursday.

As symbols of the festivities two oil rigs have been erected in downtown Beaumont.

One is a replica of the wooden rig on the original Lucas gusher, the Spindletop discovery well.

The other is a modern oil rig to show the advance the oil industry has made in the last 50 years.

The modern rig—the Spindletop Commission Sunset Park No. 2—will be spudded in Saturday morning by a five-man drilling crew as a part of the ceremonies.

Gift Tea To Honor Mrs. J. D. Dillard

A gift tea, honoring Mrs. J. D. Dillard, will be given from 3 to 5 p.m. Friday in the Midland Country Club. Friends and acquaintances of Mrs. Dillard are invited.

Mrs. Dillard's home burned December 23 destroying practically everything in the home.

Jimmy Chauncey Enlists In AF

Jimmy Chauncey, former Midland High School athlete, left Midland at 11 a.m. Thursday for Abilene where he will be inducted into the U. S. Air Force. 7/8gt. Shelby Wheeler, Army and Air Force recruiter here, made the announcement.

Chauncey will undergo basic training at Lackland Air Force Base in San Antonio.

Chauncey is the son of Mr. and Mrs. J. G. Chauncey, 1509 Bedford Street. He graduated from Midland High in May, 1960. He had attended Odessa Junior College since his graduation from high school.

While attending Midland High, Chauncey gained two letters each in football and baseball, and earned one numeral in basketball. He was a halfback on the grid team, a catcher in baseball and played guard in basketball.

He was field captain of the Midland baseball team in 1959 and led the team in hitting with a .391 mark, which was the third highest in the district.

Chauncey was vice president of the freshman class at Odessa JC, where he was majoring in radio speech.

He added in response to questions as to what point would have to be reached before he would have to consult Congress on a declaration of war, that if the proper time arrived, the proper action would be taken.

He hopes the time will never come when he would have to ask for a declaration of war, he said, adding that the time has not come yet.

He said the action in Korea is proceeding under the direction of the United Nations and this country always is willing to negotiate.

But, as to the Russian reply to a proposal for a Big Four foreign ministers conference, he said he would stand by secretary of State Acheson's statement Wednesday.

Acheson said Wednesday further clarification is needed as to what the Russians are proposing.

At the Pentagon Thursday, Secretary of Defense Marshall said the situation in Korea is developing "almost exactly as anticipated" and that UN forces have been deployed to meet this anticipation.

blood trails were found. Officers believe the bodies were wrapped in blankets and carried away.

Discovery of the car prompted Oklahoma County officers to link the robbery of a Texas man near Oklahoma City Saturday with the family's disappearance.

The gunman last was seen flagging a ride in an Illinois car near Luther, in Northeast Oklahoma County. Kermit Mackey, a farmer who lives near Luther, said he saw a man leave the Texan's car while it was parked on the shoulder.

The Texan, L. B. Archer, said the man robbed him of about \$100 and forced him into the trunk compartment. He told officers he escaped while the car was driven slowly over a bumpy road near U. S. Highway 66.

Officers later found the car abandoned. A small duffel bag containing clothing, an empty box for a new 32 caliber colt automatic, a partly-filled box of ammunition and a receipt for the pistol from an El Paso, Texas, store were found in the car. The receipt for the pistol was made out to "W. E. Cook, St. Louis."

Mrs. DeArmond's Condition Serious

Mrs. J. M. DeArmond, 1000 West Missouri Street, wife of the judge of the city corporation court, was reported in a serious condition Thursday in Midland Memorial Hospital.

Mrs. DeArmond, who has been ill for some time, was taken to the hospital Wednesday afternoon.

Congressional Medal Will Be Presented To Officer's Wife

WASHINGTON —(P)—President Truman will give the nation's highest military decoration next Tuesday to the wife of First Lt. Frederick P. Henry, who is missing after a heroic rearward stand in Korea.

Truman will present the Congressional Medal of Honor, in a White House ceremony, to Mrs. Lavon Henry, of Salt Lake City. It will be the first such award to result from the Korean fighting.

Lieutenant Henry, 33, was last seen, painfully wounded and with a collection of weapons taken from fallen men, holding off a North Korean attack near Am Dong September 1, while his men withdrew to safety.

Klettke Due To Die In Chair Thursday

MCALISTER, OKLA.—(P)—Max Eugene Klettke—a coffin ready to receive him—was to walk to the death chamber cell Thursday to await his execution at 10 p.m.

The 24-year-old Lansing, Mich., youth—his calm and poised gone and reported near the breaking point—then will wait in bitter silence just a few feet from the death chair until 2,300 volts of electricity race through his body.

Klettke's execution will be the penalty for his part in the 1948 hitch-hike slaying in Oklahoma County of Carl Beach, a retired Corfu, N. Y., railroadman.

Gov. Roy J. Turner rejected Klettke's third plea for clemency Wednesday as he waited nervously in death row — his questionable home for two years.

Family Night Event Slated By Legion

Family Night is scheduled January 15 by the Woods W. Lynch Post 19, American Legion, Adjutant Floyd Rhoden announced Thursday.

Supper will be served to members and their families. Family night is a monthly affair, which was replaced in December by a Christmas party.

Rhoden also reminded that members who do not renew their membership by February 1 will be dropped from the rolls.

CHILD IN HOSPITAL

Terry Jack Schreiner, son of Mr. and Mrs. C. S. Schreiner, underwent a tonsillectomy Thursday in Western Clinic-Hospital.

WHAT PART DOES ADVERTISING PLAY IN YOUR FUTURE?

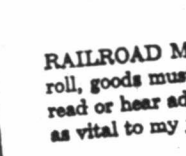

Here's How Advertising Helps Make Your Income Safe and Sure; Helps Create Good Jobs for Your Daughter and Son

WHAT OTHERS SAY:

MINER—Practically every business uses what I mine. When their sales slack off, mines slow down. Some close. So when I see advertising—almost every kind—I know it's selling goods for firms that use what I mine—and so make my income steadier.

RAILROAD MAN—For freight to roll, goods must be sold. So when I read or hear advertising I know it's as vital to my job as steel rails.

HOUSEWIFE—Some folks seem to forget that there's no use of a firm's making goods unless it can sell them. I like all advertising because I can understand its job is to sell. And I can see that no sales at the plant where my husband works would mean no pay check for us.

TODAY producing goods is no longer America's big problem. In most fields selling the goods is the big job.

You know of dozens of businesses right in your neighborhood that could be twice as big as they now are if they could sell twice as much. And if they were twice as big, they'd employ twice as many people.

One of the lowest-cost methods of selling goods on a big scale is through advertising. Advertising sells goods. When more goods are sold, often prices come down—so more people buy those goods more often.

That means more jobs at the factory—and at all the firms that do business with that factory; the mines, mills, transportation companies, dealers, stores, banks, insurance companies, real estate firms, etc.

All along the line there are more and better jobs for everyone.

That's how advertising—by stimulating business—makes for a more secure present and brighter future for you and yours.

Other Ways Advertising Helps You:

1. Brings you better goods for less money.
2. Makes shopping more pleasant and easier.
3. Has given us the world's highest standard of living.

THE BEST INVESTMENT FOR YOUR ADVERTISING DOLLAR

Explanation Given Of New Program For Civil Defense

By JAMES MARLOW

WASHINGTON—(AP)—This is an explanation of the new program for civil defense against an enemy attack on this country, such as an air raid.

It calls for spending \$3,000,000,000 in the next three years, with the states and federal government each putting up about half.

And the program will be directed by a new agency, the Federal Civil Defense Administration.

To head it, President Truman has named a former Florida governor, Millard F. Caldwell, Jr.

This new law has two main parts: what the government is permitted to do before an attack and the great power it can use after an attack.

1. Before an attack—
Acting as guide and helper, the federal government aids the states to prepare. But it can't compel any state to take part. Maybe all will. But those which might be prime targets undoubtedly will.

What kind of aid can the government give?

Any real civil defense requires planning on what to do if an attack comes: setting up a warning system; training emergency crews—like police, firemen, doctors—and crews to clear wreckage or restore lights and water or crews to get people out of a ruined city.

So the FCDA can work out a national defense plan; help the states fit their plans into the national one; lay away—stockpile—great supplies of blood plasma; give the states money for building bomb-shelters, but only if they put up an equal amount of their own money for such work; open schools (but no more than four) for training people in civil defense so they can go home and train others; and it can help the states make agreements for helping one another in case of attack. For example:

New York and New Jersey might agree if New York is bombed, New Jersey will pour its fire engines and ambulances into New York to help out.

2. After an attack—
After an attack, or after the government has proclaimed a civil emergency because it believes an attack is coming, the government becomes full boss. The states then are no longer on a take-it-or-leave-it basis. The government can tell them what to do. For example:

Suppose New York and New Jersey hadn't reached an agreement on helping one another. And suppose New York was bombed. After an attack, the government could order New Jersey to send its fire engines and ambulances into New York.

Could issue order.

Further, the government can throw any of its employees or resources into helping out for example; it could order the staff of a veterans hospital to aid the victims of a bombing.

The government doesn't have to declare a civil defense emergency for the whole country if it thinks an attack may be coming in, say, just one spot. For example: it could place the island of Guam under a state of civil emergency but no other place.

(This civil emergency, to be used only in case of an expected attack, is not to be confused with the state of national emergency declared by President Truman.)

For civil defense purposes the country will be divided into regions, 13 in all. FCDA can put a field office and staff into each region to help work with the states in its region.

Caldwell, as head of FCDA, won't work entirely alone. The law says an advisory defense council will work with FCDA. It will have 13 people: Caldwell, as chairman, and 12 others chosen this way:

COMPLETE COMFORT AT THE RIGHT PRICE

A short bike ride to elementary if your child is in school, and you won't have to worry about busy street crossings. Should you have two children, perhaps you'd like to use the den for a third bedroom. Of course, you could extend the living room by removing part of a partition. Anyway, it is versatile property, with storage room galore. On Cushman Street. Full price, \$14,400.

GOOD TASTE

Would you like to have servants quarters? Two spacious bedrooms, and a kitchen you'll love to work in—dish washer and disposal unit. Living room and dining room are carpeted. Twin coat closets on each side of entrance hall. Well located in West End addition. You should see the shrubbery, surrounding trees and beautiful fenced-in lawn. Price, \$18,900.

ELEGANT

Two bedrooms, two baths, separate dining room, wall-to-wall carpeting. Central heating, plus wood-burning fire — place in the large living room. Beautiful room across the back features barbecue pit. Just completed by owner, who is being transferred. If you're interested in something for around \$45,000, let's go take a look at this one.

Investment

Brick duplex, less than 2 years old, with excellent little rental unit in rear. If you would like \$240 per month income, this one is the right one for you. Not far from downtown. \$5,000 will handle, balance is in long-term loan.

Immediate Possession

Two bedroom home, with paneled den. Completed in August. Large kitchen, with lots of cabinet space. Tully room behind attached garage. Corner lot. Out-of-town owner has other investments requiring quick sale of this property.

Where Home-Shopping Is A Pleasure

Here's your chance to really enjoy living! A well-planned, comfortable extra — large 2-bedroom home just out of town on the Andrews highway. Two acres of land, and facilities to care for a big flock of chickens. Plenty of room for an orchard, a big garden or a swimming pool — and still leave all the lawn you'll want to mow! Reasonably priced, too — let us show it to you!

If you need only two bedrooms, but want them large, and if you like a large living room and plenty of closet and storage space, then here's the home for you! Some very nice features, including venetian blinds, electric range, wiring and automatic washer plumbing. It's well located in the West part of town, and on a corner lot. Already financed—no closing costs.

G. I. loans are still available, as well as F. H. A. financing, on the homes now being built in Midland's most popular residential section. Solid construction, good materials and quality workmanship make these home outstanding values. Selections of sites and floor plans are still good—come out today and let us show them to you!

WHY I SHOULD GIVE MY ALLEGIANCE TO THE CHURCH

In order to give full inner consent to allegiance to the Church perhaps you can take these steps:

1. There is no such thing as solitary religion. If it is solitary, it is not religion; for Jesus expressed religion as love to God and love to man. There can be no love to man unless life is lived out in relationships. "To be is to be in relationships." The Christian's life can be lived only in the give-and-take of corporate relationships.

2. The Christian Church is founded on a necessity in human nature. The three great driving urges are self, sex, and the herd. The herd, or social drive or instinct, is frustrated if I do not work out my spiritual life in a corporate fellowship. If the Church were wiped out today it would have to be replaced tomorrow by something similar, for human nature demands it. Those who try to cultivate their spiritual lives alone, apart from the Church, are attempting to live a vertical spiritual life, without the horizontal—they are attempting the impos-

Solons Will Get Petitions About Bowie Reopening

BROWNWOOD —(P)— Texas senators and congressmen will get two petitions from residents of this Central Texas area—one for, and one against the possible reactivation of Camp Bowie.

The controversy began Tuesday when a group organized at a mass meeting to protest any move toward reopening the World War II training camp.

Wednesday a second group began circulating a petition which urged that Camp Bowie be used again. Both groups plan to send their petitions to Texas Senators Conally and Johnson and Rep. O. C. Fisher (D-Tex.). Camp Bowie was declared surplus in 1946 and is mostly privately-owned now.

The group against reactivation of the camp said reopening would invite atomic destruction of Brownwood and said the land should be used for pasturing cattle and sheep. The petition urging the camp be reopened said in part:

"We believe the nation is in grave peril. We hereby pledge our undivided loyalty in the fight against Communist aggression. . . . We believe the wonderful facilities at Bowie should be utilized at the earliest possible moment. These facilities were built with tax funds of the people of the U. S., whose investments far exceed those of any individual or group of local property owners."

Dr. Kenneth Walker, noted lecturer and author who is known to many Midlanders as Thane, visited here this week while enroute from the West Coast to Washington, D. C., where he will attend a seminar of outstanding lecturers of the nation.

Secretary Dean Acheson and other State Department officials will be heard at the seminar, along with other U. S. and foreign diplomats.

Dr. Walker addressed several service clubs and conducted a series of lectures here last year. He attached much significance to the Washington seminar, which is said to be the first such meeting held since 1941.

"Much responsibility rests upon writers and lecturers in helping to bring peace from war and peace of mind to our confused world," he stated.

Outlook Good For \$82,000,000 Loan To Lone Star Firm

WASHINGTON —(P)— President Steel Company of Texas says "everything is looking very good" for an \$82,000,000 RFC loan.

Lone Star wants to expand its Daingerfield plant and make steel oil pipe. It now has a pig iron blast furnace.

Germany said expansion plans have been enlarged because of the crisis.

John D. McCall, attorney, and Vice President W. H. Johnson were here with company officials from Dallas. They have talked with Representative Patman of Texas and officials of various agencies.

Months ago the RFC proposed to put up \$34,000,000 for a \$53,000,000 expansion. This did not suit Lone Star, which wants \$82,000,000.

Anti-Truman Group Demonstrates New Grip On New House

WASHINGTON —(P)— A coalition of Republicans and Southern Democrats was entrenched firmly in control of the 82nd Congress Thursday, biding its time to smack down many of President Truman's "fair deal" proposals.

Its leaders promised clear sailing, however, for anything the coalition considers vital to national defense. The tight hold the anti-Truman group has on the new House was demonstrated clearly on the opening day Wednesday.

There was no comparable show of strength as the Senate held a routine 38-minute organization session. But the party division there—49 Democrats and 47 Republicans—plus the fact Administration Democrats previously had been unable to elect an all-out Truman supporter as a majority leader, indicated rough going for the President there.

A similar informal GOP-Dixie coalition bottled up or rejected much of Truman's domestic program in the last Congress. Because of increased Republican strength in the new Congress, it promised to be even more potent in the next two critical years.

This was pointed up in the House when the coalition, by a lopsided 244 to 179 vote, again vested in the rules committee a virtual stranglehold on the legislative program.

Dominated By Coalition

The rules committee is dominated by a coalition of four Republicans and four Southern Democrats, the minority actually being four Northern Democrats. It is the rules committee's function to decide when—if ever—bills are to be acted upon in the House.

To clip the group's wings, Democrats two years ago changed the House code to permit by-passing the rules committee 21 days after a bill's approval by other regular committees.

It was that change which the coalition erased Wednesday.

Voting to return to the old system, which Democratic Leader McCormack of Massachusetts claimed gave "dictatorial" power to the coalition, were 152 Republicans and 92 Democrats. Against it were 136 Democrats, 42 Republicans and one Independent.

Advocates of the change claimed it was necessary to prevent action on undesirable and costly non-defense bills. Opponents argued a majority of the rules group should not be allowed to tell the House what it can consider.

Size Is Surprising

The surprising thing was the size of the vote the coalition polled. Most observers had expected the rule to be changed, but not by such a big margin.

The rule change will make it extremely difficult for the House even to consider such "fair deal" measures as federal health insurance, labor law revisions and other social proposals.

After the brief Senate session, GOP senators reflected their top leaders and then got into a discussion about who will get some choice committee assignments resulting from their increased ranks. No decision was reached.

The Senate session brought a tart criticism of Truman from Senator Taft of Ohio, chairman of the GOP Policy Committee.

Taft didn't like the decision of Democratic Leader McFarland of Arizona to conduct no business until after the President's annual message is delivered Monday. He complained the Senate should not have to mark time "because the President is not willing, or not able, to deliver his message" sooner.

But Taft didn't insist and the Senate quit until Friday.

Re-Districting Plan Is Being Distributed

AUSTIN —(P)— One re-districting plan already is being distributed to legislators and others soon will be ready, but a long fight is foreseen by incoming representatives before the task is completed.

Rep. Harley Sadler of Abilene has devised a reapportionment plan which will be co-sponsored by Rep. R. E. (Peppy) Blount of Big Spring. A number of other West Texas members of the House had a hand in its preparation.

Rep. S. J. Isaacs of El Paso, who also will submit a re-districting proposal, called Sadler's effort "a very fine bill with a few glaring exceptions."

Sadler would give Harris County (Houston) eight representatives; Bexar (San Antonio) and Dallas (Dallas), seven each. His big city population average would be slightly more than 80,000 per representative.

He proposes to re-district elsewhere to give medium-size cities an average of one representative per slightly less than 60,000 population and rural areas about one per 43,000.

Isaacs was not optimistic about how good a job of re-districting the Legislature may do.

"I'm mighty afraid of the result. Some men will vote for anything just to keep the commission from doing it," he commented.

Creation of the commission to which he referred was the result of a constitutional amendment adopted by Texas voters in 1948 to force re-districting, a job put off by Legislature since 1930. The commission is a five-member board of state officials directed to re-district if the Legislature fails to do so immediately after the U. S. decennial census is published.

Rites For Thrane Scheduled Friday

ABILENE —(P)— Funeral services are scheduled here at 10 a. m. Friday for O. P. Thrane, 70, executive vice president of McMurry College, who died in a Dallas hospital Wednesday.

Interment will be in Snyder. Thrane died four days after undergoing brain surgery.

He was with the Snyder National Bank for 30 years, retiring in 1935 as executive vice president. He came to McMurry College as business manager in 1936. In 1941 he was named vice president and business manager and in 1949 became executive vice president.

Knowledge Of Hygiene Needed To Rid Children Of Pinworms

By EDWIN P. JORDAN, M. D.
Written for NEA Service

Tiny white worms in the lower intestines are usually pinworms or seatworms. These are only one kind of animal parasite which can lodge in the bowl, but like the others pinworms often interfere with the general health and are difficult to get rid of.

Pinworms are most common in children, especially among those in large families or in children living in institutions. They are comparatively rare in families in which separate bedrooms are used.

This is because the worms get on the bed linen, pajamas and other clothing and are picked up by others who come in contact with such objects. When children live in an institution or dormitory or when several use the same bedroom the spreading of the worms from one person to another is easy.

The eggs from pinworms usually

are laid on the skin and mucous membrane near the outlet of the bowel. This causes severe itching. In fact the itching can be so bad that it produces nervousness, sleeplessness, and even convulsions. The exact diagnosis is made by taking swabs from the place where the worms are likely to be and examining the material under the microscope.

Although infection with pinworms is common, it is frequently confused with other parasites and the diagnosis must be clarified by accurate examination. Once this has been done, proper treatment can be started.

Treatment is reasonably satisfactory but should be given to all infected persons in a family or to all children in a dormitory. About nine out of 10 are cured by this means although the treatment may have to be repeated several times.

Plenty Of Soap

As soon as an outbreak of infection with pinworms has been discovered, treatment should be prompt and thorough. Children who are exposed as well as those who have the worms must be given information on hygiene measures. Without care, the danger of reinfection is great. Careful and frequent washing of the hands with soap and water is the most important.

With the improvement in knowledge of hygiene and how to take care of one's body and better methods of treatment, pinworm infections have become less frequent. Once established, however, pinworms rarely or never die off of themselves without treatment.

SHEPHERD POTATOES—Enriched at little cost with non-fat, dry milk and leftover meat.

By GAYNOR MADDOX
NEA Staff Writer

Stuffed baked potatoes take on extra nutrition at little cost if you add non-fat dry milk.

This is milk with fat and water removed and contains the important milk nutrients—protein, calcium, riboflavin and lactose. Your grocer has it in one-pound packages.

Shepherd Potatoes (Makes 6 servings)

Six medium baking potatoes, washed and dried, 6 tablespoons melted butter, 1 teaspoon salt, about 1/4 teaspoon pepper, 4 tablespoons non-fat dry milk, 1 tablespoon finely chopped onion, 1/4 cup hot water, about 1 1/2 cups finely chopped leftover cooked meat.

Rub potatoes with fat. Bake in oven (450 Deg. F.) until done, about 50 to 60 minutes. Remove from oven. Cut a slice off the top of each potato. Scoop out potatoes, saving shells.

Mash potatoes. Beat in 5 table-

spoons melted butter, salt and pepper. Gradually beat in non-fat dry milk; add onion, and then enough water to make smooth and fluffy.

Place 1/4 cup meat in each shell; fill with mashed potatoes. Brush tops with remaining 1 tablespoon melted butter and sprinkle with paprika if desired. Place on baking sheet and bake in moderately hot oven (400 Deg. F.) until golden brown (about 20 minutes). Serve immediately.

It is easy to extend protein value of your meat sauce by adding non-fat dry milk. Serve it over fluffy potatoes with some non-fat dry milk added and you have a low cost main dish with high food value.

Savory Meat Sauce (Makes 3 1/3 cups)

One pound ground lean beef, 2 cups cold water, 1 teaspoon salt, 1/4 teaspoon pepper, dash of celery salt, dash of garlic powder, 6 tablespoons non-fat dry milk, 6 tablespoons flour, 1/2 cup water, 3/4 teaspoon Worcestershire sauce, 2 tablespoons sugar, caramelized.

Add ground beef to cold water in deep saucepan. Add salt, pepper, celery salt and garlic powder. Stir over medium heat to remove lumps. Bring to boiling point and simmer 20 minutes, stirring often.

Meanwhile combine non-fat dry milk and flour. Mix with the 1/2 cup water to make a smooth paste. Add Worcestershire sauce. Gradually add meat mixture to flour mixture.

Return to heat and cook, stirring constantly, about 10 minutes. Add caramelized sugar for color. Serve hot over fluffy hot potatoes.

To caramelize sugar, place 1 in small skillet over high heat. Stir constantly until dark brown.

Headquarters For 'Ike' Established In Astoria Hotel

PARIS —(P)—General Dwight D. Eisenhower's first headquarters as supreme Atlantic army commander will be ready for business Friday, the day before the general is to fly to Europe.

Wednesday the headquarters, Paris Astoria Hotel, was a mess of ladders, painters, repairmen and telephones that won't work.

Sharply-uniformed military policemen, sent here from Heidelberg, Germany, for the purpose, guard the entrances and check visitors' passes. Across the street four French policemen loiter in the damp cold—just in case French Communists try to raise their own morale with a little picketing demonstration.

"We'll be in shape for SHAPE in plenty of time for the boss," said an officer, referring to the Atlantic Pact designation of "Supreme Headquarters Allied Powers in Europe."

The Astoria is to serve only as temporary headquarters for the International Army created December 1 by the Atlantic Pact Foreign Ministers' Council in Brussels. Eisenhower himself is due to pick a permanent site for SHAPE from a list now being surveyed by an Army planning board.

Andrews News

ANDREWS — The fellowship groups of Andrews and Fullerton enjoyed an evening of fun recently when they met in the Phillips recreation hall. Refreshments were served by Mrs. E. G. Stephenson and Mrs. Percy Morrison.

Mrs. Grace Johnson was elected president of the Shell Gals Club at a recent meeting in the home of Mrs. Trilby Gerber.

Mr. and Mrs. Roger Heinrich, Mr. and Mrs. L. Z. Brown and Mr. and Mrs. O. D. Hycabee hosted an open house recently at the Heinrich home.

Suzanne Smith and Barbara Roach entertained recently with a party in the Humble Recreation Hall. Games and folk dancing provided the entertainment.

Dr. and Mrs. Z. W. Hutcheson, Jr., and daughter have returned from a trip to Bolivar, Mo., where they visited the doctor's parents.

The following Andrews firms will give presents to the first baby born here this year: First State Bank, St. Clair's Department Store, Walker Cleaners, Piggy Wiggly, Bennett's Furniture and Appliance, Farmer's Super Market, City Grocery, Singleton's Department Store, Turner's Drug, Fashion Shoppe, Western Lumber, The Andrews County News, Banner Dairies, Smith's Drug, Forrest Lumber Company, Andrews Insurance Agency and Dean Jewelers.

Home On Furrows — Over 1,100 bags of candy and fruit were handed out at the recent Rose Theater party, sponsored by the Lions Club here.

Corp. Benny Farmer of Fort Benning, Ga., is spending a month furlough with his parents, Mr. and Mrs. C. A. Farmer, in the Humble Camp.

Janie Earl, daughter of Mr. and Mrs. H. S. Earl, suffered an eye injury when struck in the eye by a dart during the holidays. It was reported that she may lose the sight in the injured eye.

Mrs. Homer Tindle and daughter Anita have returned from San Diego, Calif., where they visited Spud Tindle, their son and brother who is in the Navy.

DESSERT OR SNACK

There's nothing better than a crisp crunchy apple or a juicy sweet pear with a wedge of Roquefort cheese for dessert at lunch or dinner, or as a snack in mid-morning, afternoon or evening. Genuine Roquefort cheese is imported from France, and comes in bulk or in convenient individual foil-wrapped portions. Its delicious and distinguished flavor makes it a perfect accompaniment for an end-of-the-meal apple or pear.

Eighth Army Patrols Wade Icy Streams To Check Red Plans

By HAL BOYLE
KOREAN FRONT —(P)— They call themselves "The Icebox Brigade" and "The Frozen Foot."

They are the Eighth Army patrols which wade barefoot across icy streams into enemy territory to check on Red movements near the United Nations defense lines.

Added these rugged Allied heroes have been operating in freezing weather by day and by night along the entire 150-mile battle front.

Besides locating enemy positions they have found evidence the North Koreans have created "vengeance squads" to track down and destroy freezing civilian refugees who helped or had contact with the UN forces in any way.

In some cases the death squad uses girl spies to locate and trap victims.

One such daring patrol which crossed half a dozen frozen streams was led by Maj. Walter Simonovitch, a former semipro football player from Larksville, Pa. The patrol saved eight Korean civilians marked for execution.

Take Off Shoes
To ford the stream you have to take off your shoes and socks, wade over, then dry your feet on the other side — otherwise you freeze," said Simonovitch.

"Soon after we got across at daylight we sighted a small group of enemy soldiers on the crest of a hill about 400 yards away. They fired at us and we fired at them. But we had to be careful as we could see there were civilians among them."

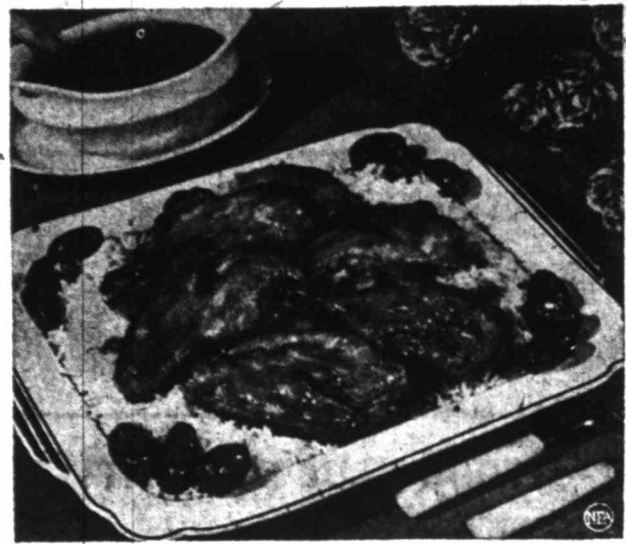

When Simonovitch and his men scattered and began working up the hill, the enemy fled, leaving eight civilian youths behind.

One told him gratefully: "If you hadn't come when you did we would all be dead. We had to try to escape from our home or their revenge agents would have killed us all. Any South or North Korean they suspect of having associated with your troops—his life is ended."

The patrol led the happy fugitives across the river to safety.

LONGER WEAR
If you store your kitchen knives properly, the chances are they'll wear longer and keep a sharp blade. Special racks or holders for kitchen knives may be fitted into drawers or hung on the wall.

Duck Is Kind To Your Budget

MANDARIN DUCK—A superb treat that you can enjoy at a moderate cost.

By GAYNOR MADDOX
NEA Staff Writer

There are plenty of ducks waiting to help you cut a little on food costs. Here's a recipe every duck fancier is going to like.

Mandarin Duck

Five- to six-pound Long Island duckling, dressed weight, 2 tablespoons kitchen bouquet, 1 tablespoon sugar, 1 teaspoon salt, 1 teaspoon ginger, 2 tablespoons salad oil, 1 clove garlic, minced, 1 cup water, 1 1/2 cup sherry wine, or orange juice, 3 tablespoons cornstarch, 3 tablespoons cold water.

Cut duck in serving size pieces, cutting out backbone, using a sharp knife or poultry shears. Save backbone and neck to cook with giblets to make soup stock. Place serving pieces of duck in bowl and sprinkle with kitchen bouquet, sugar, salt and ginger. Toss lightly with fork to coat all pieces evenly. Cover and let stand 15 minutes.

Heat salad oil in frying pan or chicken fryer over moderate heat. Add garlic and let cook a few seconds. Add pieces of duck, skin side down, and brown lightly on all sides. Add the water and sherry. Cover and bring to boil. Let cook over low heat until the duck is tender, about 45 minutes. Remove pieces of duck to warm serving platter. Pour off fat, reserving broth.

Return broth to frying pan. Blend together and add the cornstarch and cold water to the broth.

Cook, stirring constantly, until the sauce thickens. Correct seasoning if necessary and pour some of the sauce over the pieces of duck to glaze them.

Serve with fluffy hot cooked rice and garnish with preserved kumquats. Accompany with the remaining sauce. Yield: 4 generous servings.

You may want fluffy mashed potatoes, instead of rice. Here's a recipe that puts extra food value at low cost into the potatoes and adds color with green peppers.

Fluffy Potatoes

(Makes 6 servings)

Six to eight medium-sized potatoes, peeled, 6 tablespoons butter, melted, 6 tablespoons non-fat dry milk, 1 1/2 teaspoon salt, 1/4 teaspoon pepper, 1 tablespoon minced green pepper.

Cook potatoes in salted water until tender. Drain. Beat until smooth and fluffy. Mix in butter, non-fat dry milk, salt and pepper. Fold in green pepper. Serve hot with Savory Meat Sauce.

MRS. ANDERSON ADMITTED

Mrs. Paul Anderson, 612 Cuthbert Street, was admitted to Midland Memorial Hospital Wednesday as a medical patient.

PRACTICAL CENTERPIECE

A bowl of fresh fruit always makes an attractive and practical centerpiece. Choose red-skinned apples, russet or yellow-green pears, red or black grapes, oranges.

SCOUT ANNIVERSARY PLANS ARE MAPPED

Boy Scouts of America will celebrate their 41st anniversary with a week-long observance February 4-12.

J. M. McDonald is chairman of the El Centro Midland District committee which will formulate plans for the observance here.

Boy Scout Week is set each year to include February 8, which was the day in 1910 when BSA was incorporated.

The Scout charter was granted by Congress June 15, 1916.

ADMITTED FOR TREATMENT

Mrs. A. J. Betts, 1207 North Michigan Street, was admitted to Midland Memorial Hospital Tuesday for medical treatment.

ADMITTED TO HOSPITAL

E. C. Robertson of Terminal was admitted to Midland Memorial Hospital Tuesday as a medical patient.

Gulf Plans 440-Mile Pipe Line From West Texas To Gulf Coast

PITTSBURGH —(P)— Gulf Oil Corporation plans a 440-mile crude oil pipeline from West Texas to the Gulf coast.

The 26-inch line would carry 300,000 barrels a day and be completed early in 1952. Plans filed Tuesday with petroleum defense officials, said work would start by next fall.

The line would have a connection with the northbound crude lines in East Texas. These extend to refineries in the Ohio Valley and Great Lakes Region.

Participating in the ownership and construction of the 26-inch carrier will be the Gulf Oil Corporation, The Pure Oil Company, Cities Service Company, Sun Oil Company and Standard Oil Company of Ohio. Gulf, owning more than 50 per cent of the carrier, will be the operator.

The 26-inch, 440-mile line, surpassing the size of the existing large diameter pipelines in the nation, will extend from Colorado City in Mitchell County to Wortham in Freestone, where the size will be reduced to 24 inches in extending to Sour Lake, north of the Beaumont-Port Arthur refining area.

It will have a capacity of 300,000 barrels per day out of West Texas. However, not all of the oil will be moved to the Gulf Coast, as plans call for utilization of existing carriers or construction of a new line from Wortham to Longview to feed into the Mid-Valley Pipe Line Company's 20 and 22-inch system to the Sohio refinery at Lima, Ohio.

Will Move Sun Crude

Sun and Standard of Ohio are owners of the Mid-Valley line, placed in operation during 1950. Gulf has been delivering in excess of 32,000 barrels of oil per day from

the Permian Basin to the Mid-Valley line at Longview.

By participating in the 26-inch pipeline, Sun will be able to move its own production out of Oklahoma and other West Texas counties, where it now has a six-inch system feeding into Colorado City. The six-inch system extends through Scurry County into Kent County.

Completion in 1952 Planned

Right-of-way already is being purchased, and construction is expected to start in late summer or early fall, with completion due in mid-1952. It is understood that priority will be granted for the steel necessary to construct the carrier, which will afford necessary relief for West Texas, only area in the nation able to materially increase its allowable.

In fact, the current allowable approaches the pipeline capacity out of the Permian Basin and any

material increase would result in transportation bottlenecks such as existed in September and resulted in a reduction in the flow to correct the situation.

The diameter of the proposed line surpasses that of Big Inch pipeline (24 inches), constructed by the federal government during World War II to move oil from Texas to the East when water transportation was hampered by Nazi submarines.

The Little Inch, also constructed during the war, is a 22-inch line.

STEWART IN HOSPITAL

William Melvin Stewart, Route 1, Midland, was admitted to Midland Memorial Hospital Tuesday for surgery.

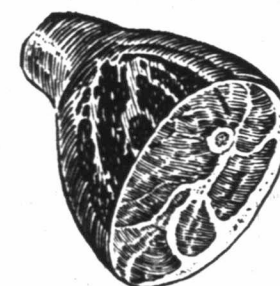

SEMINOLE MAN ADMITTED

H. M. Mayo of Seminole was admitted to Western Clinic-Hospital Tuesday for surgery.

Youth Center Chatter

By JOYCE HOWELL
and JUNE HAZLIP

It hardly seems possible that the year has changed since we last brought you the weekly edition of news from the Youth Center. It has, though, so BEST OF LUCK DURING 1961!

After all the dances during the holidays and all the parties—and the late hours kept by many—no one was ready for school to open Tuesday. Unfortunately, the school officials, teachers, and others won't accept that as an excuse so all the high school students could be seen early Tuesday plodding their way to school.

Students soon were "sobered" up when the teachers informed them six-week and mid-term exams are on the way. Cheerful way to begin the New Year, isn't it?

Of course, the college students already have begun their trips back to their respective schools. A lot of college students were bemoaning the fact they hadn't done any studying during the holidays and thoughts of term themes, book reports, and essays haunted them the last few days of vacation.

Uncle Sam really is breathing down the necks of a lot of our Youth Center members. Of course, the college students are much more bothered right now than the high school students and a lot of the boys returned to school with the hope they will be able to complete this year of school.

In case you noticed the by-line this week and are wondering—here's a word of explanation. June Hazlip, who originally was a co-author of this column, was home from college (she is attending Texas State College for Women in Denton) during the holidays and she helped this week. Glad to have your help, June, and we hope you will write more when you are home for Easter vacation.

A week ago Thursday many of the teenagers were getting ready for a dance at the country club. Camille Birkhead, Markor Sevier, Madelon Schabrum, Sue Ann Francis, Emily Hamilton, Peggy Simmons, Joan Turner and Mary Ann McRae were the hostesses for this party. Music was furnished by Jimmy Furman and his orchestra.

Another dance given last week was the DeMolay and Rainbow Dance in the Crystal Ballroom of Hotel Scharbauer. This dance was held Tuesday, December 26.

Our apologies go to Watson LaForce. In mentioning a dance held recently at the Scharbauer, we left out Watson's name. Watson and George Glass were the hosts for this dance.

Dances were really in the air last week, and of course, the Youth Center held one too. Last Friday was the night of the formal Youth Center dance. Green and red punch and fruit cake were served. Music was furnished by Jimmy Furman during the evening, and the juke box took over during the intermissions.

Happy New Year!

The New Year arrived with a BANG—that's for sure, and Midland teenagers seemed to have more parties than they knew what to do with! Gloria Anguish, Bill Evans, Tony Chapple, Bill Franklin, Jo Ann Nelson, Earl Chapman, Shirley Harrison, Jerry Webb, Sue Johnson, Ed Monroe, Joe Dorsey and Nick Harrison were just a few of the celebrants that we saw. Some attended parties—and some had their own. A few teenagers made ev-

ery party and get-together in town—they seemed to be everywhere at once! We wonder if Jackie Statton has a twin or if she just gets around fast! We saw her first at David Weaver's, then later she was riding around with a gang of teenagers, and then she was back at David's.

Many of the teen-agers attended the gala New Year's previews at the various theaters. Nell Sutton, Penny Jones, Sarah Cameron, Glenda McNeal, Rex Wilkes, Lavonne Bell, Don Dickinson, Ruth Ann Dickinson, Dale Jobe, Jack Harris, Wayne Cooper, Louis Brooks and Jimmie Hunt were some of the "younger teenagers" who took advantage of the preview to welcome the New Year.

It seems that we are losing more and more faithful Y. C. members via the U. S. Armed forces! This week Dick Monroe and Roy Mann will head "navyward" while Richard Patton will be off for the Army.

Roxy Gets Around
Roxy Leonard really has been jumping about this last week. She left Tuesday for a visit to her old home, Freeport. Then she went to Houston and returned to Midland for a day. Wednesday she boarded a Denton bound train to return to Texas State College for Women where she is a freshman.

By now all of the exes have returned to school. Some of them will be back for Easter, some before then, and some won't be home until next June. We said all—there seems to be one straggler! Jerelen Jowell remains here and will stay until Sunday! Some people are just lucky. Jerry will return to Saint Catherine's in Richmond, "a" where she is a senior in high school.

The record sale at the Youth Center last weekend certainly drew a crowd. Records at ten cents each went like hotcakes. Mr. Gildewell tells us this won't be the last sale. We're all for it—"How about you? The proceeds go back into more new records to that makes it an even better idea.

Meeting Place

We've discovered the Y.C. doesn't have to be open to serve as a meeting place. The other day we noticed several cars parked there and since the Center was closed, we were a little curious. Wandering over we found ourselves in the midst of a real reunion. There were at least ten cars parked there and everyone was running from car to car. Tom Caruthers, Madelon Schabrum, Jo Ann Ragan, Gwen Roberts, Goss Yeager, Kent Miller, Margie Cramer, "Christmas" Barber, Lew Grounds, Carlos Sims, Nancy Steadman and Emily Hamilton were just a few who were taking advantage of the crowd to do a little visiting.

Our best wishes for a quick recovery go to Jerry Hoffman, high school band director. Mr. Hoffman had an emergency operation during the holidays and won't be back at school for a few weeks. He is at the Western Clinic Hospital.

Have you noticed Preston Conner's unusual laugh? It's really very different. We mentioned this to him a few nights ago—"Oh," replied Preston, "at schools they tell me jokes just to hear me laugh!" (Preston is in his freshman year at Hardin-Simmons in Abilene.) Visitor From H-SU

Speaking of Hardin-Simmons, we are reminded the Youth Center had another visitor during the holidays. Here are a few facts: Name: Cecil Smith; Age: 17; Height: 6 feet; Last place of residence: Fort Worth; Interests: Basketball; At present Cecil is attending Hardin-Simmons. This is his first year of college.

Another new-comer to Midland is Glenda Craze. Really, though, Glenda isn't a newcomer for she used to live in Midland. The last four years, she has been in Venezuela. She is a sophomore in high school. Glad to have you back, Glenda.

Guess we've just about done all the damage possible for this week, so we'll just say "Goo-bye 'til next!"
