

A BIG SEND OFF for the Mustangs was held by team supporters prior to their departure for Plainview last

Friday, where they met the Floydada Whirlwinds and brought home a Bi-District Title.

Cotton Harvest Nearly Finished

A frigid wintry blast knifed through the area Tuesday to put an abrupt halt to operation of cotton harvest. No moisture was contained in the storm, however, and pulling was resumed Wednesday.

A check with area ginner provides an estimate of cotton harvest standing between one-half and two thirds complete, with the area harvest nearing 10,000 bales.

According to Jack Straw, local ginner, the harvest of cotton has been a disappointment, filling only about half the expectations of the producers. He stated the

light crop may be a combination of cool summer nights and the early cold rain in September.

Lloyd Graham, manager of Olton Co-op Gin, agrees that yields have been disappointing. He reasoned "The September rains hurt us more than we really thought. The warm October weather made the crop rally and put on good appearance but the damage had been done."

When questioned about grades he stated that they are holding up well, a little better than normal, but 'mike' readings are only fair because of the premature

state of the cotton when the cold hit.

In checking other areas of the agricultural situation this reporter learned that quite a big of fall fertilization has already, been done and

much shredding and deep breaking has been accomplished. One grain handler estimates that the whole area is 60 days ahead of normal plowing schedule because of the nice, dry weather of the fall.

HONORED AT DINNER - Members of the First Baptist Church honored their minister and his wife, the Rev. and Mrs. John E. Lewis Sunday at a dinner marking twenty

years of service by the couple. They were presented a camera by the congregation.

Sunday Dinner Honors Minister For Twenty Years' Service

Some 200 members of First Baptist Church and their guests were present Sunday for a church-wide dinner served in the school cafeteria.

Honored at the event were the Rev. and Mrs. John E. Lewis. The Rev. Lewis was celebrating twenty years of service in the capacity of pastor of the church.

The informal dinner was served buffet style. Dinner music was provided by Miss

Jenny Lynn Gunter at piano. In a short program following the meal special music was presented by Mr. and Mrs. Barry Feriend and also by a male quartet composed of Duward Price, Uil Gunter, Don Franks and Feriend.

Words of commendation and appreciation were spoken by Dr. Strauss Adkinson, area missionary, Plainview; and by Robert Fancher of Seymour, long time friend of the pastor;

and by James Cowart and Uil Gunter, members of the church. Joe Hall, president of Baptist Men, served as

emcee. Opening prayer was spoken by W.E. Andrew and closing prayer by Rev. Lewis.

Carl McClure Still Ahead In Grid Guessing Game

Three contestants missed three games each in a frustrating contest for Enterprise pigskin predictors last week.

Kregg Hukill was off just one point with his prediction of the Mustangs-Whirlwinds bi-district contest, guessing 22-15, to nail down first place for the week.

Second place money goes to Ricky Smith who missed by nine points with a prediction of 24-7. Harold Lloyd finished third with a miss of 14 points, predicting the game at 28-6.

All contestants this week received three automatic correct guesses regardless of how their entry may have been marked. A typographical error called for district 4A champions to play district 3AA champs rather than 3A. Notre Dame's game was placed in the contest twice but their opponents were Miami of Florida rather than Miami, Ohio as listed in the contest.

Carl McClure edged into a four point lead for the season with 150 correct picks for the 12 contests thus counted. His son,

Caleb, is in second place with 146 points. Jim Cutsinger of Lubbock has 145 correct guesses.

The contest continues as long as the Mustangs are in competition and no contestant should give up seeking for the season grand prize - a check for \$50. Contestants with 140 or more points are listed elsewhere.

Remember, too, that any one can be a winner for the week so no one should give up the contest.

Cagers Win Some, Lose Some

Freshman girls met Hale Center on the courts here Monday night and won 42-33. High point scorers were Jimmie Kay Sanders with 17; Jan Spain, 15; and Sharissa Hamby, 10.

Defensive standouts were Susan Reed, who had 8 defensive rebounds; Janis Burgess, 5 and Lori Barnett, 2. Coach Ledbetter said the freshmen played pretty well, shooting a lot outside and were really hustling, making a total of 30 steals.

JV basketball girls met Tulia at Tulia Tuesday night and won a squeaker, 27-26. High scorers were Lorenda Couch 8 points; Ann Criswell, 7; and Nancy Britton, 6.

Ledbetter said offensively it was not a very good job, but defensively, it was the best game that either JV or varsity had played this year.

Standouts in the defensive game were Toni Brown, 3 rebounds and 3 steals; Janet Huguley, 9 rebounds and 9 steals; and Lisa Brimhall, coming off the bench, 6 rebounds.

Other offense plays were attributed to Debbie Lacy, 4 free throws and Dusty Kinnison, 2.

Varsity girls dropped their game at Tulia, 59-53, maintaining a lead in the game up until the last minute and half.

Coach Ledbetter said, "Fouls hurt us. They had 21 free throws to our seven. They had a six foot forward and our tallest girl is 5' 7". The guards played as well as they possibly could. Actually, the girls just need to play some more and gain some experience. Again, most of the girls were on the court, 10 or the 11 got to see action. The pressure just got to us."

High point scorers were Elaine Rodriguez, 28; Kathy Ahrens, 12; and Faye

Merlin the Magician
on how to solve
your heating problem

"Those drafty old castles are notorious even today for being dreadfully hot in summer and frigidly cold in winter. We didn't have the heat pump in those days, of course. I think what I like - just about the heat pump is its simplicity. One unit provides heating and cooling... complete comfort in any kind of weather with one setting of the thermostat. And the heat pump is environmentally sound... when heating, it actually provides more energy than it uses. Yes, if I'd had a heat pump, I wouldn't have been so cranky about passing on my magic secrets..."

MRS. DALE WILLIAMS

Cook Of The Week

Recipes shared this week by a recent newcomer to Olton who enjoys this column and particularly likes reading and collecting cookbooks. But Mrs. Dale Williams does not stop with reading and collecting recipes, she also enjoys cooking. Dale and Linda Williams with their daughter, Tammy and Shelli, moved here last March from Friona. Dale is manager of Toro Grain; Linda is secretary for Dale Cary at Olton State Bank. Linda began working in September but is not new as a banking secretary. She has worked in that field about five years. She took legal courses at West Texas State University and has completed some AIB courses in banking.

Tammy, a junior at OHS, is a Mustang Band twirler. Shelli, a sixth grader, also loves twirling and is taking lessons. Both girls are involved in piano studies. Linda likes to sew and especially enjoys painting although she has had just a few lessons. She finds there is little time to indulge that hobby. She is a member of Young Homemakers. The family attends First Baptist Church. Linda shares two recipes which cooks will find "very handy" - one for biscuit mix and another for brownie mix. Both are time savers for the busy housewife.

"I'd rather explain higher gas bills than why you don't have gas."

Your natural gas bill is higher. And, you have every right to know why.

One reason is lower temperatures brought on by winter.

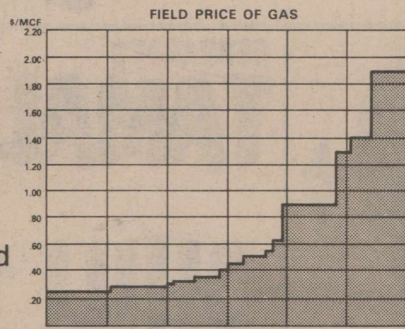

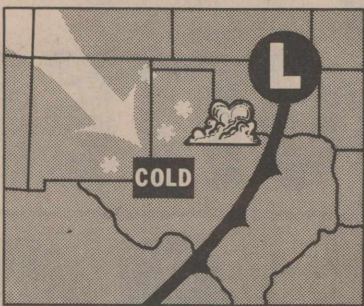

The main reason, however, is simply that you are paying more for natural gas. Because we are paying more. This chart shows how much:

This increase hurts both you and Pioneer. It adds to your bill and to our cost . . . a cost for which Pioneer is not entirely compensated. It is passed through without mark-up or additional charges.

Why does gas cost more? Competition . . . particularly from petrochemical and other industries. The competition for gas has never been so fierce.

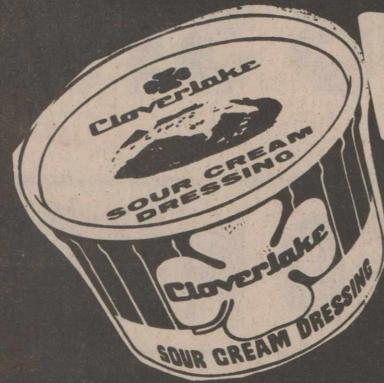

We will have to pay more for gas than in the past. But by working together, and without outside interference, you'll have the gas you need today and in the future.

Young Homemakers have chosen the Cookbook Project for the year and hope to make it both worthwhile and interesting to all residents of the community.
