Lonnie Howell Holds Edge, Earns Contest Top Win

Lonnie Joe Howell hung onto a narrow lead and this week laid claim to a crisp \$50 bill for his pigskin predictions in the annual Hart Beat football contest.

Howell finished the 15-weeks competition with 152 correct guesses with Ted Averitt wrapping up the season with 150 points.

Entries of all contending contestants were re-checked for the entire season before Howell was declared the winner. Final standings are listed elsewhere in this issue.

For the week, Lanny Tucker proved to be the best predictor, missing just three games. He claims the final week's top win of \$5.

Debra Ford and Everette Heller claimed second and third place wins by virtue of their tie-breaker predictions. Missing four games each, Ms. Ford was 11 points off the actual score of the DeLeon-Seagraves match with a 28-8 prediction. She wins second place's \$3.

Girlstown Slides Presented Monday At Lions' Luncheon

Carroll Lanier of Girlstown USA showed a slide presentation of the three Girlstown campuses at Monday's luncheon meeting of Hart Lions Club.

Emphasis was placed on the main campus at Whiteface which consists of 1425 acres. Color slides showed present and projected facilities.

Approximately 1500 referrals are received each year by the home. Expanded facilities of the future would allow more girls to be accepted and aided, Lanier explained.

Cost of keeping a girl at Girlstown averages approximately \$400 per month but few girls are able to supply even a

portion of that amount.

Lions tabled the lighting project for the tennis courts until construction is completed.

Discussion of the ambulance project was tabled until the next meeting.

The regularly scheduled

meeting Dec. 27 was cancelled. The club's next meeting will be Jan. 10, 1977.

Monday's meeting was the first held in the new community room of Farmers State Bank. Approximately 22 persons attended.

There's more to Asgrow hybrids than just high yields.

Asgrow resistant hybrids meet head smut head-on.

Corn growers in this area have learned that head smut means sizable losses in yield and profit.

That's why next planting season you need *more* than hybrids with just claims for

high yields. You need the *complete performance* of Asgrow hybrids...with head smut resistance...with harvestable high yield potential.

Now's the time to make plans to protect corn yield and profit

next time you plant. See your Asgrow dealer and reserve head smut resistant hybrids while supplies last. Because Asgrow resistant hybrids meet head smut head-on.

RX 90

RX 100

RX 4589

These corn growers meet head smut head-on with Asgrow hybrids.

James Cook—Olton, Texas

In 1975, Mr. Cook used RX 100 for the first time on 50 acres and had a yield of 10,640 lbs. dry corn. In '76, he expanded use of RX 100 to 120 acres. "I like RX 100 better than anything I've planted. I like the way it stands—good stalk with no lodging. I have no head smut in my fields."

Paul Chisholm—Sudan, Texas

Over the past three years, Mr. Chisholm averaged over 10,000 lbs. on 310 acres of RX 100. Much of this was grown under stress conditions including hail damage and minimum irrigation. "This RX 100 has the ability to pollinate under adverse conditions. This is particularly important under stress conditions like this year. And, they sure like RX 100 at the elevator because it's such a clean corn to bring in. Head smut has been observed in this area, but I've had absolutely none."

Bob Jones—Muleshoe, Texas

This is Mr. Jones's fourth year with RX 100. He reports, "My yields

have been good and consistent. Last year, even with hail damage, it made just over 8,000 lbs., but '76 looks like it's going to be my best year ever. It stands well, too—no trouble with lodging. And, I've had no head smut whatsoever."

Dale Widner—Frona, Texas

Mr. Widner was one of the first on the High Plains to plant RX 90, and he also uses RX 100. "This year I had eleven different hybrids on my farm for testing, but I keep coming

back to proven winners like RX 90 and RX 100. RX 100 has consistently yielded in the 9,500 to 10,000 lb. range. There's no comparison to other hybrids in grain quality. This year I have 120 acres of RX 100 and 40 acres of RX 90. I have no head smut that I know about."

O.L. (Mac) McMurtrey—Manager, Hub Grain Company—Hub, Texas

Mr. McMurtrey sees a lot of corn during a year's harvest and is a good judge of quality. "Of all the grain that comes across our scales, I've never seen better than RX 100. It's always of consistent good quality."

Jim Clements—Dumas, Texas

Mr. Clements is a cash grain farmer. In 1976 he planted 200 irrigated acres of RX 90 in 40 inch rows at a population of 24,000 plants per acre. Average yield per acre was 13,552 lbs. dry weight. "This was the best corn I've ever planted, and no head smut."

Jerry Goheen—Fieldton, Texas

Mr. Goheen is a user of both RX 90 and RX 100. "Last year my RX 90 made 9,600 lbs. with two waterings. That was a good year. This year it looks like it's doing just as good and this is a bad growing year. It stands good and has no head smut. The grain quality of my RX 100 is so good that I got a 40¢ premium from the grain buyer. And, I had no head smut."

MRS. JOE SCOTT

Cook Of The Week

Cook of the Week honors this week go to a young homemaker and mother whose household has never a dull moment. Turning two years old last month, Patsy and Patricia keep life exciting for their mother, Mrs. Joe Scott.

June and Joe moved to Hart two and a half years ago. Joe is employed with Sun-Vue Fertilizer. They are Baptists.

One of June's hobbies, piecing quilt blocks, came about when she was expecting the twins. Wistfully admiring a baby quilt, June recalls her mother's reassurance that it would be "easy to make". Learning the expected arrival would be twins, she had to hurriedly make a second.

June hasn't tackled a full sized quilt. She is currently working on a dacron quilt bedspreads for the girls' beds. She likes to sew, especially on the craft type things. She made the twins Christmas stockings to hang for Santa's filling.

Spur is June's home town; Joe grew up on a farm near Roaring Springs.
