City Tax Rate, Valuation Cause Increase In Taxes

Routine business was first in line Tuesday evening at the regular session of the city council.

Council members set the tax rate at 65 cents per $100 of assessed valuation on property as appraised by McMorries and Company. A notice of the proposed tax increase is printed in this issue.

Ordinance 210 was approved granting Southwestern Public Service a franchise to provide electrical service for a period of thirty years.

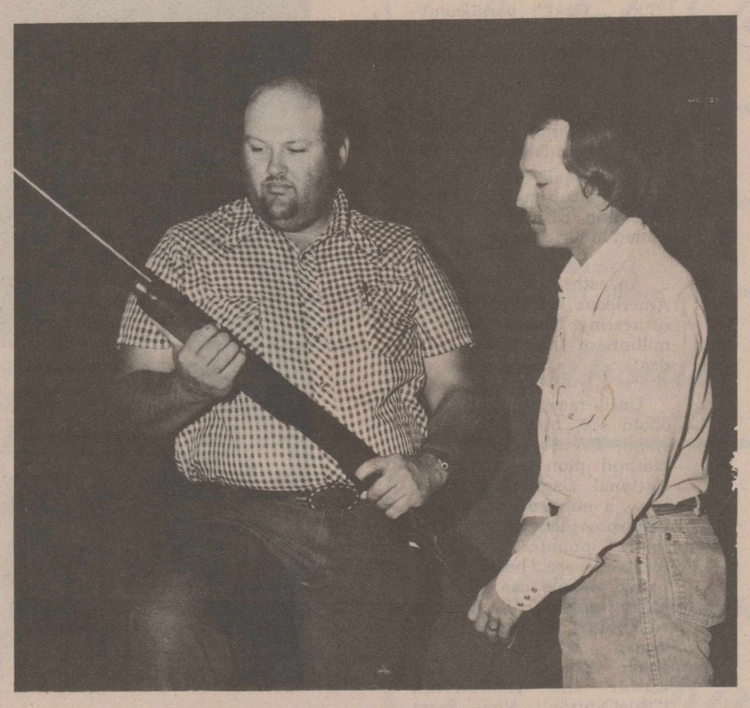

A bid from Thompson Chevrolet in the amount of $6,589 was accepted for a 1980 Malibu Chevrolet to be used as a city patrol car.

Council authorized the city's development of a block grant program pre-application to the U.S. Department of Housing and Urban Development.

Approval was given to engage Gary Traylor and Company to file for the grant which would be used for sewer and paving improvements. Stipulation was made that the city would not be charged for their services if the grant was not obtained.

Resignation of Bill Morris as a member of the council was accepted.

In final action, council voted to accept the M.R. Cavett property on the suggested one year trial basis. Given to the city by the children of the late M.R. and Emma Cavett, the property includes the family home at 301 Main Street and accompanying lots.

QUALIFIED BABY SITTERS NOW - These 26 girls completed two nights of training for the job of baby sitting, learning how to deal with almost every situation that could arise during the duties as a baby sitter. They were all presented awards Tuesday night.

'Baby Sitters' Complete Classes

The "Baby Sitting Clinic" held Monday and Tuesday of this week was well attended and pronounced a marked success by Mrs. Archie Sorley, Olton representative of the sponsoring committee. This unusual opportunity to develop a standard of excellence among young people desiring to serve as 'baby-sitters' was under the auspices of Lamb County Family Living Subcommittee.

Upon completion of the required eight hours of training, some 30 awards were presented at the close of the Tuesday night session.

Names of these young people so qualified have been compiled by Olton Young Homemakers as a baby-sitting service. Names and recommendations will be furnished to inquiring parents upon request from Mrs. Billy Carson. As soon as the service has been fully organized a calling number will be listed.

Contributions Needed For 'Jaws'

Contributions are still needed for the Jaws of Life Fund. Purchase of that life-saving equipment was made through faith - the belief that the necessary $7,828.59 could be raised within one month.

Time for the final payment is at hand and not enough funds have been raised. Persons wishing to help may make donations to the Jaws of Life Fund at Olton State Bank or to Mayor K.Y. Givens.

Contributions may be mailed to Box 533, Olton, Tx. 79064.

Mustangs Defeat Bobcats In Penalty-Ridden Game

By Freddy Stockdale

Last Friday night, while J.R. Ewing was trying to recover from his six-month-old gunshot wound, the Olton Mustangs, who had been outscored 57-0 during their last two outings, were trying to heal some wounds of their own.

Even though they didn't cure all of their offensive and defensive woes, a 21-0 blanking of the Dimmitt Bobcats was enough to lift the sagging spirits of the Mustangs, who have had more than their share of troubles since racing out to a surprising 4-0 record at the beginning of the season. The win gave them a respectable 6-3 mark going into the season finale against Friona.

Make no mistake about it, the game won't be remembered as one of the best played contests ever. Overworked referees threw their flags so many times — 24 in all — that one sideline observer was moved to remark that he hadn't seen so many flags since since the time he visited the U.N. And the nine fumbles that both teams coughed up didn't help matters much.

Both offenses had trouble moving the ball. Olton finished with 155 total yards compared to Dimmitt's 61, but most of the blame can be laid on good defensive play rather than offensive inadequacy. In fact, the Mustang defense had a hand in 14 of the team's 21 points.

A fumble recovery with 2:27 left in the first quarter led to the Mustangs' first score. A Johnny Hutson punt rolled out of bounds at Dimmitt's seven-yard line. Then, on first down, Doug Smith caught running back Adrian Stanton in the backfield for a one-yard loss. On the next play, the Bobcats fumbled. The ball slipped through the arms of Olton's Junior Casares and into the arms of a Bobcat. However, a referee signalled that Olton recovered and the Mustangs had the ball at the five.

Roy Luera, who had been converted from flanker to running back for the game, took a handoff from Mart Cordova, who had been promoted from backup to starter, and found his way into the endzone to put the Mustangs out in front. The kick failed.

The Bobcats missed a golden opportunity to score late in the first half. A reverse/pass from Ricky Gonzales to Jay Nelson caught the Olton's secondary asleep and would have been good for a 60-yard touchdown, but a holding penalty nullified the play, and the Mustangs were able to take a 6-0 lead into the locker-room at intermission.

The defense came through again for the Mustangs early in the third stanza. Roy Luera swiped a pass and raced 30 yards for his second score of the night to give the Mustangs a 12-0 lead with 9:45 showing on the clock. Again the PAT was no good.

Five minutes later, the Bobcats were forced into a punting situation. The snap from center sailed over Ricky Gonzales' head and out of the endzone for a safety. The Mustangs were now out in front 14-0, and with the way both offenses were playing, that lead looked insurmountable.

It was.

Fumbles, penalties and an interception by Junior Casares killed any chance for a Dimmitt comeback.

Mart Cordova finally redeemed Olton's offense with a 28-yard touchdown on a quarterback bootleg run that put the game on ice. Mike Williams booted the extra-point to close out the scoring.

Two Grid Guessers Tied For Season's Top Spot In Contest

Two contests remain to be counted and it's "still anybody's ball game" in the annual Enterprise football contest. At the top of the season ladder this week are Kevin Workman and Alan Williams, each with 154 correct predictions.

(Last week's Enterprise listed Workman and Gary Davis in the season lead with 128 points each. That was the status of the two, a week earlier when in reality Workman led with 143.)

Every contestant (except the three persons who turned in blank entries) gained an additional point for last week's contest. Graded from the box scores of a daily newspaper to the south, all contestants were given a miss for the Abernathy-Lockney game which was reported in Lockney's favor.

Contestants with 144 points or more are listed elsewhere in this issue. None of these should give up even though they feel they cannot win the grand prize.

For the week, Eric Lee proved the most proficient at predicting football. He missed just six games and claims the week's top money.

Two contestants missed seven games each with the tie-breaker determining Mark Watt as second place victor. He was 15 points off the actual score of the Mustangs-Bobcats game with a prediction of 13-7. Genio Garcia was off 21 with 28-14.

FACTS & FIGURES

The first permanent school for the deaf in the U.S. was founded in 1817 in Hartford, Connecticut, by Thomas H. Gallaudet, the father of deaf-mute education in America. Gallaudet College, founded in 1857 in Washington, D.C., the foremost institution for higher education of the deaf, is named in his honor.

* * *

An estimated 14 million Americans suffer from loss of hearing. However, only 2 million of these are totally deaf.

* * *

Until recently, the deaf could see, but not understand, TV programs. A new method pioneered by the National Captioning Institute, a nonprofit organization, provides captioning of many popular television programs so hearing impaired people can read the audio portion. Equipment to convert TV sets to this system is marketed by Sears, Roebuck and Co. under the tradename "TeleCaption". Now, Sears also has sets with the equipment built in. The system is demonstrated at Sears stores. Most TV listings indicate captioned shows.

Everything But The Kitchen Sink!

By Mozelle Trotter

There's a big wide worderful world out there and it's ours to claim. We can go anywhere, do anything, be anybody -- just by picking up a book and losing ourselves within its words.

Through the pages of a book - - -

We can be quickly transported to a sunny, tropical paradise, climb towering mountains, tread teeming jungles, tromp frozen tundras, sail mighty waters, fly limitless heavens, walk across America!

We can fight bears with Davy Crockett, the battle of Valley Forge with George Washington, rustlers with Zane Grey, poverty with George Washington Carver, disease with Pasteur, the untried with Marco Polo, woman's inequality with Susan B. Anthony!

The written word has power to give us all this and more!

We can walk through history and make this day any time we desire. We can be spellbound with the drama of mysteries or carried away with the fantasies of fiction. We can devour waiting-to-be-claimed knowledge in any field we may imagine.

All this, through the pages of a book!

An now, for many, this priceless privilege is to be denied. Without the visit of the Bookmobile, many opportunities will be denied.

Casting votes to kill the Bookmobile program was a severing that will be felt time and countless time again.

Stopping the Bookmobile may have saved $10,000 next year. The cost of stopping it cannot be counted.

Muleshoe Runs Over 8th Grade Colts

The Eighth Grade was defeated by a hard running Muleshoe team, 22-0. The Colts had their chances as they were within the Mule 10 yard line twice in the first half. Richard Trevino tucked away a Freddy Sifuentes pass in the first quarter and raced to the Muleshoe nine yard line, but the ball was fumbled back to the Colts on the ten yard line. The Colts gave it right back, however, blowing a second opportunity to score.

The defense was unable to stop the straight ahead running of Muleshoe and found themselves down 22-0 at the half.

A warm intermission loosened the Colts up as they held the Mules scoreless the second half. Mario Pedroza and Ernest Alcala ran very well. Alcala broke on for fifty yards late in the fourth quarter. The line blocked much better.

Alcala, Pedroza, Melvin Carter and Monty Digby stood out defensively for the Colts.

7th Grade Gridsters Down Muleshoe, 30-20

Olton's Seventh Grade made it 6-0 Thursday as it downed Muleshoe 30-20. Alfred Russell got things rolling for the Colts on the first play from scrimmage as he galloped 55 yards for the first score. Mark Brown added the two extra points. Duane Eby added the next two touchdowns averaging approximately 30 yards on each sprint. Mark Brown and Troy Don Allcorn supplied the bonus points. The defense played characteristically and provided for the 24-0 half time score.

The second half provided a lot of action as the Mules came roaring back with 20 points. But, Olton put the icing on the cake when, in the third quarter, Kelly Cure scored from four yards out.

Gus Finney, Russell, Kevin Hukill and Mark Brown played very well defensively. Finney recovered one Muleshoe fumble.

Read-A-Thon Campaign To Aid Mutiple Sclerosis

Mrs. Nancy Hamrin of Lubbock, executive director of National Multiple Sclerosis Society, South Plains Chapter, made her second annual call upon Olton schools Wednesday.

She came with a challenge to students, grades two through six, to join in the MS Read-a-thon. This educational and fund raising program, started by the National Multiple Sclerosis Society in 1974, now has school children all over the world becoming "Mystery Sleuth" who "Read for the Need of Others".

These "Mystery Sleuths" improve their reading skills and at the same time are helping to solve the mystery of MS...the crippler of young adults.

For about four weeks Mystery Sleuths read as many books as they can and ask parents, relatives and friends to sponsor them. When the reading period is over, the students collect from their sponsors for each book read, and bring their completed Read-a-thon kits and money back to school.

This money is used for patient services, such as wheelchairs, crutches, leg braces, patient programs and the free MS Clinic at Methodist Hospital, to serve the 23 county area of the South Plains Chapter. It also goes to support the very necessary research that is endeavoring to find the cause and cure of MS.

Each student who completes the MS Read-a-thon receives an official "Mystery Sleuth" certificate and is eligible for prizes as follows:

The student who reads five books and collects at least $10 wins a pen;

The reader of 10 books, who collects at least $40 wins a Dog Tag I.D. and a Frisbee and a Pen.

The student who reads the greatest number of books wins an MS T-shirt; and the student who collects the most money wins an MS stuffed dog.

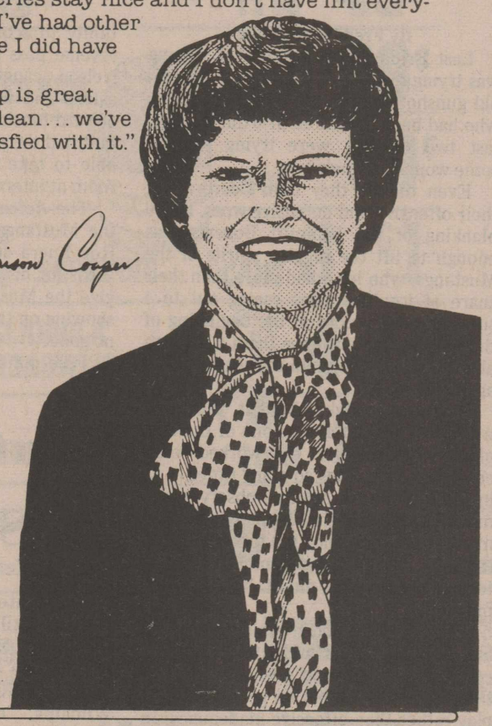

Read-a-thon period for Olton Schools began Nov. 12. It will end Dec. 10.

Mrs. Hamrin was pleased to have met with such enthusiasm in Olton students. She left with the hope that each would have happy "Reading for the Need of Others".

It's True.

"I built a new home about two years ago and decided to use the heat pump because it is energy efficient. Number 1, I like the idea of electric heating and air conditioning because it's cleaner. The heat pump system is clean and I like to maintain a place that stays clean. My walls stay nice, my draperies stay nice and I don't have lint everywhere... and I've had other systems where I did have that problem.
The heat pump is great because it is clean... we've been very satisfied with it."

Lynda Harrison Cooper

The things said about the heat pump are true. Find out more about the heat pump. It can save for you.

One way to get rid of the boll weevil may be to beat him with a tree. Actually, it's a product of the tree. The Tung tree. Deterrent 1 is the name of the product which is derived from tung oil. Tung oil is relatively easy to extract from the trees and the trees grow well nearly anywhere with a warm climate. Now back to the boll weevil. USDA scientists, determined to get rid of the expensive pest, started working with tung oil nearly 20 years ago and finally have discovered a mixture that works. They say you can dip a plump-and-juicy cotton boll (that's how it looks to the weevil) in Deterrent 1 and drop it in front of some nearly starved weevils. Hardly any of them will take even a second look. If all goes well, it should be avilable soon.

MRS. RAY GABEHART

Recipe Revue

By Mozelle Trotter

Row upon row of canned goods and an overflowing deep freezer attest the busy life of Mrs. Ray Gabehart, homemaker and career woman.

An Avon representative for 16 years (14 here and two in Shallowater), Louise manages to combine that work with the filled life of a homemaker who grows a garden and preserves its produce.

Ray and Louise have raised large gardens each year of their marriage. This year's garden was no exception in providing many good meals through the wintry months. All the available space for canned goods in the Gabehart basement is filled. The freezer is abundantly laden.

Louise's "green thumb" is not limited to her garden and yard. Inside her home, pot plants provide living green in every room.

Arthritis has made it necessary for Louise to give up some needlework but she's improvised to make up for that loss. With her sewing machine, she has become adept at quilting and has ventured and succeeded with more intricate designs than mere patchwork.

Crocheting is a pastime that Louise still manages. She has made six afghans this year and is presently working on a pretty one in the pine tree pattern. She has also crocheted pretty pillow tops.

With the United Methodist Women's annual Christmas Bazaar coming up, Louise has been busily crocheting items which she'll contribute to that project. The afternoon Bible class she attends each week has been making pretty felt Christmas tree skirts for the annual event.

Louise has always enjoyed sewing and makes most of her own clothing.

A member of Olton Extension Homemakers Club, Louise is serving as secretary.

Louise and Ray moved into town in 1975 from the family farm south of Circle. They have just recently "redecorated" with paneling and textured ceilings in the bedrooms.

Together, they have 10 grandchildren; the newest born late in August. Louise's son, Preston Leggitt, lives with his family in Lubbock. Ray's daughter, Jeanie and her family live close by at Quarter Way. His sons, Troy and Kenneth, live in Dumas and Amarillo, respectively.

Card Of Thanks

During our time of sorrow the kindness and concern that you have shown the family has been extremely helpful and we appreciate it very much. Thank you for all you have done and may God bless you all.

The family of Theo Grimsley

Words fail to fully express the gratitude and appreciation I feel toward this community for your love during the recent loss of my father.

The cards, flowers, prayers and words of concern meant so much and were so thoughtful and appreciated. Also, those who traveled to attend the funeral will always hold a dear spot in my heart.

Each word of condolence - written or spoken - and every act of kindness will always be remembered.

Thank you so much for your acts of love.

Our Spotlight Is On:

Dee Ann Lawson

one of our friendly employees

Greeting patrons from the "Notes and Savings Window" is another friendly employee of Olton State Bank, Dee Ann Lawson. This capable young lady is willing and anxious to help those who call upon her in this capacity.

Having been a member of the Bank staff for three and one-half years, Dee Ann first worked as switchboard operator, then in bookkeeping, and as a teller before arriving at this post.

To increase her efficiency she has taken courses at Texas Tech University in Commercial Lending; has attended several American Banking Institute seminars; and has studied Selling Bank Services. She has also had some Accounting and Office Machines courses through South Plains College.

Dee Ann moved to this vicinity from Plainview. Having been reared in Kress, she moved with her family when she was a sophomore to Plainview where she was graduated from high school.

When questioned about the use of her free time she was quick to say "I don't really have hobbies as a lot of people do. My favorite thing to do is to be at home and keep my house."

Dee Ann's husband, Gary, is a farmer, and the couple lives on the farm he owns and operates northeast of the city.

JUST BEYOND

I've feasted on rich sunsets
That were gorgeous as could be,
And yet the rarest sunset
Is the one I'll never see.
As footprints spoil the beauty
Of a smooth and silver beach,
So nature's wondrous music
Is destroyed by human speech.
The birds and forests disappear
When civilization comes -
Enchanting landscapes are replaced
By narrow streets and slums.
Man's touch defiles the lovely things
And ravishes the lands ...
That's why God keeps His Heaven
Just beyond our mortal hands!

LADY OF WEALTH

She does not mind her poorness,
For that is no disgrace;
Nor does she know self-pity,
Cheerful smiles line her face.
She does not wish for riches
Or things with fancy flair.
Her wealth is in her giving;
Her pleasures are to share.

Leona Martin returned recently from a two week vacation. She left Thursday, drove to Abilene and spent the night with an aunt, Mrs. Pearl Fulfer and daughter, Mr. and Mrs. Dubs Newberry. Then she went to Thurber and visited a cousin, Mrs. Willie Fulfer and on to Stephenville, where she visited a cousin, Mrs. Alma Lutrell and her son, Mr. and Mrs. David Lutrell and Betty Yarbrough of Fort Worth. Mrs. Freddie Mae Hysinger received a call Monday night that she has a new great grandson. His mother and daddy are Jimmy and Vicky Bolz of Pampa and grandson of Vie (Hysinger) Ward and the late Joe Hysinger of Hereford.

A fellow walked into a doctor's office and the receptionist asked him what he had. He said, "Shingles." So she took his name, address and medical insurance number and told him to have a seat. Ten minutes later a nurse's aide asked him what he had. He said, "Shingles." So she took his height, weight, medical history, and told him to wait. An hour later a nurse came in and asked him what he had. He said, "Shingles." So she gave him a blood test, an electrocardiogram, took his blood pressure, and told him to take off his clothes for the doctor. A half hour later the doctor came in and asked what he had. He said, "Shingles." The doctor asked, "Where?" He said, "Outside in the truck. Where do you want them?"

INSUR-MATION

Because of my business, I am on the road a great deal. I feel my risks are higher and am concerned whether my auto liability coverage is enough.

In most instances, your coverage would be sufficient. However, in the event of a catastrophic accident, ordinary coverage might not be enough. For your greatest protection, a Personal Umbrella Policy is available. The Personal Umbrella Policy, considered "excess" insurance, takes up where the basic policy leaves off. To be able to utilize the Umbrella, you are required to carry the maximum limits under your basic policy. The Umbrella usually extends a basic policy to a million dollars or more. Since this "excess" coverage is infrequently used, the premiums are very low.

Nobody makes them tougher.
Valley gearboxes.

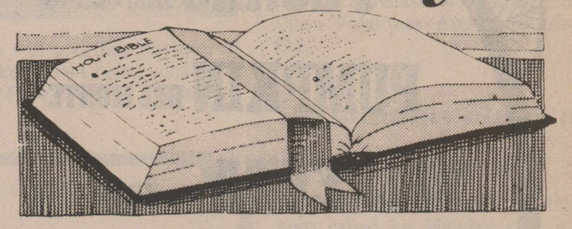

That's why thousands are used on center pivots other than ours.
- Withstands 60,000 in.-lbs. of torque.
- Low gear ratio moves the system with less strain.
- Built-in expansion chamber keeps out condensation. Not an add-on so it can't be knocked off.
- Special gear tooth design spreads the load, reducing friction.
- Big, tough bearings and double-lip seals.

Valley dominates the field.
