PORTALES HIGH WINS DOUBLE-HEADER

Last Saturday night the Portales High girls and boys met the girls and boys of Ranchvale in two fast games of basketball. The Ranchvale teams are considered among the strongest of this section of the state, the Ranchvale. boys team having won every game this season before encountering defeat at the hands of Portales. The Ranchvale girls defeated the strong Melrose girls in one game and were in turn defeated in another by Melrose. Both of these girl's teams claimed to be out after the state championship. The Ranchvale boys have gone into the semi-finals in the District Tournament for the last two years, and are considered strong contenders this year.

The girls game was fast and interesting, the Portales girls working their teamwork like a machine. The first half was a walk-away for Portales as far as scoring was concerned, the score being 15 to 2, but Ranchvale's teamwork was fast and only by even faster work was Portales able to run up this score. In the second half, two substitute guards and a substitute center replaced the regular and Ranchvale took advantage of the opportunity to run up her score to 16 while Portales increased her end of the tallies to 26 by the end of the game. Iris Perciful did most of the scoring for the local girls but no player could be said to be the star of the team as all played an excellent game, proving themselves in state championship class. Hill did most of the scoring for the visitors.

The boys game was doubtful during the first half, Ranchvale trailing close at the heels of the Comets in the score. The Comets began to show their superiority in teamwork, however, by the end of the first quarter. The Portales five man defense was almost impenetrable. The Comets were quick in forming their defense and held tight with the exception of the second quarter when they loosened long enough for Ranchvale to count a large part of their scores. During the second half the Comets came back even stronger and decidedly outclassed their opponents bringing the score up to 26 while the visitors were counting 14. Tolbert Smith was probably the outstanding star of the game counting 16 of the Comets 26 points but he was ably assisted by his team mates. Hatch scoreed 8 points and Wilson two. Fletcher and Lyons were on the job in defending the Locals Goal.

Two games have been arranged for this week-end. The boys will play Montezuma College on the home court Monday night, and both boys and girls play Melrose here Saturday night. Let's be there.

RESULTS OF JUSTICE PEACE ELECTION

The Justice of the Peace Election in Portales Monday resulted in the election of V. J. Campbell for Justice of the Peace and Coleman Pendley for Constable.

The vote was as follows:

For Justice of the Pace:

V. J. Campbell, 177.

J. A. Fairley, 168.

For Constable:

Coleman Pendley, 146.

J. B. Cutler, 106.

S. B. Boone, 75.

There was a small scattering vote for other names for Constable.

The people of Portales precinct have made their choice, and they now owe it to the officers elected to give them their undivided support that they may make efficient officers. These gentlemen will doubtless do their part if you do yours.

TWO MORE NEW BRICK BUSINESS HOUSES

Coe Howard is making arrangements to build two new brick business houses on the lots on the square next to his real estate office.

11 BALES OF COTTON DESTROYED BY FIRE

Last Saturday night about two o'clock fire was discovered in the Portales cotton yard. The alarm was given, but before the fire department could get there, eleven bales belonging to the Portales Gin Company, were almost a total loss. Three other bales belonging to different individuals were damaged, one almost destroyed and two slightly. All was covered by insurance.

MYSTERY GIRL IS IDENTIFIED

Chicago, Ill., Jan. 12.—After fifty-three days spent in the Cook county hospital, her memory apparently lost, "Charlotte Norris," the mystery girl of Chicago, yesterday was identified by relatives as Charlotte Maguire a student in a St. Louis College.

Miss Maguire was indentified by Mrs. Annie Griffith, an aunt.

The 20 year old student was returned home last night to her mother.

WILL SUE FORD FOR MILLION

Chicago, Jan. 8.—Suit for $1,000,000 will be filed against Henry Ford within 30 days unless he retracts certain statements made in the Dearborn Independent against Aaron Sapiro, it was announced Thursday.

Sapiro has mailed Ford the preliminary document required by Michigan Laws which require the formal demands for retraction be made before the filing of the suit. He alleges the magazine charged him and others with trying to organize the farmers in the interests of communism.

TWO HURT AS AUTO HITS TRUCK OF HOGS

Springer, N. M., Dec. 30.—Frank Culberson, cashier of the bank of Roy, and Fank Yates of Roy were injured when the Oldsmobile of Mr. Culberson collided with a truck loaded with hogs on the Clayton-Springer highawy. Mr. Culberson received a severe cut on his neck and Mr. Yates was cut on the face. The injured were taken to Springer, where their wounds were dressed. Mr. Culberson was unable to see the truck, which di dnot have any lights.

Cross Word Puzzle.

With this issue the Portales Valley News gives its readers a new feature, The Cross Word Puzzle. All are cautioned not to attempt the solution of these puzzles until after supper or they will develop cross words from a hungry family, which will in no way help in the solution of these puzzles.

Above is a picture of a trench silo on the farm of Mr. Alvord (the old Hicks place 6 miles west of Portales). The picture was taken after a part of the ensilage had been used at one end of the silo.

The trench silo is proving to be a practical way of storing feed in the plains section and in some places in Eastern New Mexico and West Texas they are quite numerous. The big advantage in them are that they are cheap of construction, cheaply and easily filled, and the ensilage is easily removed for feeding.

The cost of construction of this type of silo consists, for a 200 ton capacity silo, in the labor of 2 men and four horses for 5 days. The slip scraper is used in digging. Ordinarily they are dug about 8 feet wide and 7 feet deep and as long as desired. The ends are sloped so that dirt can be easily removed in digging and the silage easily taken out.

The cost of filling is low because live stock can be used in tramping. For taking out the silage, a cart or wagon can be backed down the slope at the end and the silage thrown in.

If the silage is thoroughly wet and well tramped when put in and a cover of a few inches of dirt placed on top, it will keep well. The walls can be smoothed down and used without plastering or they may be plastered.

Mr. Alvord says that he is well pleased with his trench silo and intends to improve it and use it next year.

LOVINGTON HIGHWAY DESIGNATED FOR COUNTY MAINTENANCE

J. H. Carrol was in Roswell the past week in conference with District Highway Engineer, Davidson and states that the Lovington highway has been designated for county aid in maintainance.

Now it is up to the Couty Commissioners and the people of Portales and the territory served to get the crooks straightened out of this road. This will have to be done before work can begin on same. At present there are a number of crooks and turns which will have to be eliminated. This should be done without cost to the county or state, as it will be the means of giving this section of the county a splendid highway, upon which there will be considerable money spent within the next few month.

Lee county will be required to get the road straightened through that county.

It is estimated that 75 per cent of the farm traffic coming into Portales, comes over this highway, and the building of a good road will mean much to Portales as well as the farmers of the county.

PRESIDENT LOOKS INTO PROHIBITION ENFORCEMENT HERE

Washington, Jan. 8.—With the the whole nation stirred by the charges of drinking in official life at the capitol, President Coolidge turned his attention Thursday to the prohibition law enforcement question in conference with John D. Rockefellow, Judge Elbert Gary and others of the Couzen's committee for law enforcement.

Members of the committee expressed themselves well pleased with the results so far obtained in stopping the liquor flow into New York, New Jersey and other seaboard places.

FORMER CITIZEN COMES BACK

G. J. Rose, a former citizen of this county, but for the past four or five years a citizen of Lorenza, Texas, has purchased Anderson Austin farm near Richland, and has moved back to the best county in the west. Mr. Rose says that he will grow cotton. He is a real farmer, and will be an asset to the county.

COMPTROLLER ASKS OFFICERS TO PASS UP MICHIGAN AUTOS

To the Sheriff and other Peace Officers.

Gentlemen:

The following letter has been received from the Secretary of State of the Sate of Michigan:

"State of Mich., Department of State,

Lansing, Dec. 2, 1925.

Dear Sir:

Pending legislation in Michigan makes it necessary to defer issuing of 1925 license plates until February 15, or March 1. Michigan has therefore authorized the use of 1924 license plates of all kinds until such time as the legislature passes on the proposed new tax bills.

A number of Michigan cars will doubtless be operated in your state, and we request that you extend the courtesy to Michigan motor vehicle owners the recognition of 1924 plates, until these car owners can secure their plates.

Please have the kindness to pass this information along to your motor vehicle division and to the press representatives of your state.

I assure you that Michigan will be only too pleased to extend similar courtesy ,should the occasion arise for same.

Very respectfully,

(Signed) Charles J. Deland,
Seeretary of State."

In view of the request contained in the letter above quoted, this office is disposed to extend the courtesy requested, and respectfully recommends that all Peace officers of the state shall be governed accordingly.

Yours very truly,
R. H. CARTER,
State Comptroller.

MALLERY APPOINTED BRIDGE ENGINEER

Santa Fe, Dec.7.—E. T. Mallery has been appointed bridge engineer for the State Highway Department by Chief Engineer James A. French. Mallery has been a resident of the state for about five years.—State Tribune.

Mrs. J. R. Boyd, of Carlsbad, sister of Mrs. Jim Burleson, and Mr. and Mrs. C. T. Harkey and Mrs. W. R. Farris of Carlsbad came up Friday to attend the funeral of Lewis Burleson. Mrs. Harkey is a neice of Mrs. Jim Burleson.

LITTLEFIELD LIVESTOCK COMPANY INCORPORATED

Santa Fe, Jan. 10.—Articles of incorporation have been filed with the Corporation Commission by the Littlefield Livestock Company of Roswell. The incorporators are W. P. Littlefield and G. T. Littlefield of Elida, and R. L. Malone of Roswell.

COMPLETE STILL IS SEIZED WITHIN TWO BLOCKS OF CAPITOL

Santa Fe, Jan. 10.—Continuing their drive against the liquor traffic in the capital city federal prohibition enforcement officers today seized what they described as one of the finest and most complete stills ever found in New Mexico.

The plant seized was on the premises of Buck Ross, on West De Vargas street, within two blocks of the capitol. It was motor driven and had connections with the city sewer to carry off the fumes. The still was of 100-gallon capacity. In the place were 250 gallons af mash and two gallons of whiskey, the officers said.

Ross, arrested at the plant, indicated he would enter a plea of "guilty," officers said. Officers said also that Ross admitted he had had previous experience in making moonshine liquor in the state of Illinois. The case will be handled in the state courts, before a Santa Fe justice of the peace.

SEPERATE DEPARTMENT ADVISED TO COLLECT AUTOMOBILE LICENSES

That the collection of auto licenses and gasoline tax be placed in a "seperate department" is a recommendation by State Auditor Juan N. Vigil in his annual report.

He says:

"As it is now the state comptroller has all the work that one department should undertake without assuming the collection of these taxes. The state comptroller receives large amounts of money from collections under these two sources and no one is authorized to audit his department."

Recommending that the state's fiscal year be made to begin July 1, instead of December 1, to correspond to Uncle Sam's fiscal year, the auditor adds:

"At the National Convention of State Auditors, Comptrollers and Treasurers held at Salt Lake City ,Utah, July last, the date June 30 for close of fiscal year was recommended by the convention to be made uniform in all of the states, in fact twenty-five of the states now use this date a sthe end of the fiscal year."

ORPHANS HOME RECEIVES DONATION

The Baptist Orphan's Home has received a check signed by D. F. Kester for $280 which was the proceeds derived from the sale of the Langton Church building, which sold on Dec. 29th.

The membership was very generous in asking that this money be given the Home, and Rev. and Mother McRrthur and the children are very grateful to these good people.

U. S. MAY SHARE PAYMENT OF WAR CLAIMS

Washington, Jan. 8.—An agreement between Great Britian and the United States under which the latter will receive payments on war claims out of the reparations fund is in sight. Officials said Thursday after reading Ambassador Herrick's report at Wednesday's sessions.

According to a tentative agreement the United States foregoes immediate payments on the costs of the army of occupation and receives payments on other war costs.

PRESIDENT APPOINTS BRITISH AMBASSADOR

Washington, Jan. 13.—President Coolidge made another rearangement today in the cabinet-deplomatic organization he will take with him March 4, into his elected term of office, by selecting Alanson R. Houghton of N. Y., now ambassador to Germany, to succeed Ambassador Kellogg at London.

The tranfer of Mr. Houghton to the London post, the ranking assignment in the diplomatic ser- the White House after the am- vice, was formally announced at bassador had advised the President he would accept the new appointment and after the British government had informed the state department that Mr. Houghton would be persona grata in London.

KING OF SAN MIGUEL DIES HARD

The Las Vegas Optic says:

"The impending suits of the contest will come up for a setting of the trial hearing at an early date. All suits of contests have been answered by the contestees and on Wednesday afternoon a final motion of attorneys and order of the court was filed petitioning the supreme court to appoint a trial judge for the hearing of the suits it being stated by the petitions and the courts that the presiding judge, D. J. Leahy, would probably enter quo warranto proceedings against Luis E. Armijo, contesting the latter's right to hold the office. The affirmative ruling of the supreme court would bring i na trial judge from some other district for the hearing of the cases. In the contest entered by Cleofes Romero against Lorenzo Delgado for the office of sheriff, Judge Armijo would be disqualified by reason of his relationship to the defendant but in other cases unless his office is contested would be qualified to sit as trial judge, according to the general opinions of attorneys.

SENATE O. K.'S IMPROVEMENT OF CARLSBAD CAVE

The senate last night accepted an amendment to the Interior appropriation bill carrying $46.980, of which $25,000 will be available for the improvement of the Carlsbad Cave when the state surrenders title to it, according to a wire from Senator A. A. Jones to Governor Hannett.

The message does not indicate what the rest of the appropriation is for, but Governor Hannett expressed the hope that it might be for improvement of the road to the cave. He is as much interested in this natural wonder as Governor Hinkle.

As the bill has already passed the house the amendment, being added in the senate goes to a conference committee. It is expected now, however, owing to the campaign that Governor Hinkle, Senator Jones and Congressman Morrow have been waging for the improvement of the cavern, that there will be little difficulty in getting the house to agree to it.—New Mexican.

SON BORN TO 71 YEAR OLD SON OF PRESIDENT TYLER

Richmond, Va., Jan. 5.—Friends of Dr. Lyon G. Tyler, 71 year old son of former President Tyler, and President-emeritus of William and Mary College, are congratulating him today on the birth yesterday of an eight pound son. Mrs. Tyler is Dr. Tyler's second wife, and is 35 years his junior. They were married two years ago.

President Tyler was 68 when Dr. Tyler was born, and 70 when a daughter was born.

DEMOCRATIC IN POLITICS

(NUMBER 5306.)

OUR WASHINGTON LETTER

(By National Editorial Ass.)

Washington, Jan, 14.—The folks back home find it difficult to keep abreast of changes in Washington. There is a peculiar fascination in the shifting scenes when great men and women intimately known in their respective communities rise and fall in the public eye with kaleidoscopic swiftness. It is these changes which provide conversation in the cloak room of the Senate and House and in the drawing rooms over the tea cup. This week, for instance, the talk centers on the new Attorney General, the speakesrhip of the House, LaFollatte, party loyalty and inaugural plans

The elevation of Harlan Stone from the Department of Justice to the Supreme Court brings some heavy bidding for the attorney-generalship. Though Senator Couzens and some members of the Michigan delegation have voiced their objections to Charles B. Warren, he is the leading candidate for the office. Mr. Warren has been the American Ambassador to Japan and Mexico and was temporary chairman of the Republican convention in Cleveland last year. While he is not very intimate with the President, it is known that Mr. Coolidge has a deep respect for Mr. Warren's ability as a lawyer and diplomat. The objections of Senator Couzens will not weigh heavily with the President because the later has never been known as an Administration supporter.

Various state delegations are taking an active interest in the struggle for speakership of the House. Nicholas Longworth, the present Republican floor leader, and Martin B. Madden, Chairman of the all-powerful House Appropriations Committee are the leading contenders for the honor. The struggle is complicated by the fact that each candidate has a strong following among the Democrats. There is a possibility that Representative Tilson, of Connecticut, may be the compromise candidate.

In political circles there is considerable speculation as to the effect of Senator LaFollette's temporary retirement from politics. He has been ill for a number of years and recently contracted a heavy cold which brought back some old ailments. On advice from his physicians he will spend several weeks in Florida. It is said that LaFollette has practically abandoned hopes for a third party movement. He will endeavor to bolster his standing as a so-called radical wing of the Republican party.

Those who followed the leadership of Mr. LaFollette in the Senate have been unusually quiet since the elections. Senator Brookhart, whose high position is still in jeopardy by reason of an election contest, has made only one, and rather ineffectual speech against the railroads. Senator Wheeler, Mr. LaFollettes running mate has confined his oratory to answering roll calls.

It seems that the plans of small groups of legislators to obstruct fiscal legislation and force an extra session have been abandoned. Minority leaders have indicated that they will place only such obstacles in the way of the Administration's program as is deemed necessary from the standpoint of party politics. The prospect of winding up the business of the Senate and House on March 4, are daily improving. The fact that the Senate sustaind the President on his veto of the postal salary bill had its effect.

Senator Dial, of South Carolina, and Senator Bruce, of Maryland, in giving vent to their real opinions as to the underlying causes of the Democratic defeat, have brought out feuds in the party. The family quarrel has become very bitter and provoked uneasiness among Democratic leaders. As the minority party it is the privilege of the Democratic Senators to criticize the majority for their sins of omission or commistion. Considerable pressure was brought to bear upon Senator Dial for he publicily withdrew the criticism which he read into the Congressional Record a few days previous. Senator Bruce, who has a few things to say concerning alliances of his Democratic colleges with Senator LaFollette last year, refuses to be spanked for his opinions and is still in bad with the other members of the family.

The fact that the administration foisted the Couzens committee to hold their investigation of the prohibition enforcement unit behind closed doors has provoked widespread discussion in Congress. Some claim that this move indicates a deplorable condition. Others insist that executive sessions are essential to prevent misinterpretation of charges and countercharges which may in the end prove baseless. Senator Couzens, Chairman of the subcommittee wanted open hearings, but the Administration, moving under Senator Watson, Republican of Indiana, forced the secret meetings.

While the average person pays little heed to the exports and movement of gold, Government officials say that these items have a direct effect upon the nation. It is officially stated that the return of gold from the United States to Europe is a good sign that the world has made progress in the return to normal conditions. Redistribution of the world's gold supply indicates quite clearly that other nations are returning to the gold standard and that will mean actual crurency deflation.

Record of Week's Failures

As usual at this period, failures show a considerable increase in number, a total of 552 for the United States being reported to R. G. Dunn & Co. this week. This is only 9 more, however, than the 543 defaults of a year ago. Of this week's failures, 325 had liabilities of more than $5,000 in each case, which compares with 306 similar defaults in this week of 1924.

Canadian failures this week, although larger in number than those of recent preceding weeks, are less than those of a year ago 67 comparing with 71. There were 39 defaults this week with liabilities of more than $5,000 in each instance, which is 7 more than the number of similar failures in this week last year.

With a woman as secretary of state, a woman as state superintendent of public instruction and another as state game warden, New Mexico further crowns milady in politics this year by electing four women to the state-legislature two Democrats an dtwo Republicans. Mrs. Louise H. Coe of Carrizozo represents Lincoln and Otero counties in the state senate; in the house, Mrs. R. W. D. Bryan, Democrat, represents Bernalillo; Mrs. R. R. Larkin, Republican, San Miguel; Mrs. H. W. Palmer, Republican, Taos.—New Mexican.

To let grudge embitter your spirit?

To let gossipers ruin your friendship?

To let your suspicions warp your judgment?

To let your friends do your thinking for you?

To let your imagination invent trouble?

To let the world get the best of you?

To criticize others so much and yourself so little?

To envy the success of others when you should emulate the process by which that success comes?

To repeat all you hear, or believe half you see?—Crosbyton Review.

The two women had not met for some time and, as they were the sort who are always vitally interested in each other's welfare, they had a good deal to talk about, you may be certain.

After discussing numerous domestic details, the first woman remarked: "I hope your health is better than when I saw you last."

"No, I grow worse every day," was the doleful response.

"Too bad—too bad! what seems to be the matter?"

"Nobody knows," said the long-sufferin gone. "And the doctors say they can't tell until after a postmortem."

"Why ,how awful! You poor, dear thing! In your state of health you can never live through that," said the other woman.

IS YOUR WORK HARD

Many Portales Folks Have Found How to Make Work Easier.

What is so hard as a day's work with an aching back?

Or sharp stabs of pain at every sudden twist or turn?

There is no peace from that dull ache.

No rest form the soreness, Lameness and weakness.

Many folks have found relief through Doan's Pills. They are a stimulant diuretic to the kidneys.

Portales people recommend Doan's.

Mrs. Saran A. Hawkins, Portales, says: "I had sharp pains in the small of my back. My back became lame and it was hard for me to do my housework. I felt tired and run down, too. I became dizzy and everything went dark before me. My kidneys acted too freely and annoyed me a great deal. I used Doan's Pills from Pearce's Pharmacy and the results were remarkable."

Price 60c, at all dealers. Don't simply ask for a kidney remedy —get Doan's Pills—the same that Mrs. Hawkins had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Baptist W. M. U. Holds Meeting.

W. M. U. of the First Baptist church held an all day meeting, Thursday January 8, at the home of Mrs. N. F. Wollard, with twenty-four present.

The week of Prayer was observed with an interesting program on Missions.

Those taking part on the program, were: Mrs. N. F. Wollard, Mrs. Joe Grizzle, Mrs. A. G. Troutt, Mrs. W. B. Oldham, Mrs. T. E. Mears, Mrs. Coe Howard and Mrs. C. W. Nelson.

Mrs. Christoe of Alaska and Mrs. Bishop who has recently come to Portales spent the day in the meeting.

Mrs. Christoe told of some of the Missions in Alaska, and Mrs. Bishop gave a short talk on cooperation of Denominations.

The W. M. U. enjoyed these visitors and is always glad to have any one interested in this work attend the meetings.

A new book on How to Pray, will be taken up at the next meeting and we hope to have every member take this study. A liberal Lottie Moon offering was taken.

The W. M. U. voted to hold an Easter Bazaar and Pantry Sale on Saturday before Easter. Proceeds to go to the building fund. Everybody of the church is asked to cooperate in this work and make it a success.

Woamn's Club Program.

There is a splendid friendly rivalry between the ladies of the Woman's Club, as to who gets up the best program, during the year, each lady is supposed to be responsible for one program.

Mrs. G. W. Carr's program was rendered Wednesday afternoon in the auditorium of the High School building with every seat taken, at least seven hundred were present. The subject of the program was Health, and the children of the Grade school were the performers. Each child did well, and the program was distinctly a success, so much so that the ladies have all given Mrs. Carr the premium as having the best program of the year.

The following was the program:

1. Song, By Unit One, A Health song, By Mrs. Jacksons room.
2. Mother Goose Health Play, by Mrs. Cannon's room.
3. Reading, by Emmit White, entitled, The Grip Germ.
4. Health Fairy Play, by the children in Miss Autrey's and Miss Galloway's rooms.
5. Musical Reading, by Jewel Hill, entitled, I've Got the Mumps.
6. Tooth Brush Fantasy, by Miss Ethel Crawfords romm.
7. Male Quartet, by Messers Krattli, Hunter, Fletcher, and Monroe.
8. Aesthetic, Butterfly Dance by twelve girls.

The Masonic Hall was the scene of a very pleasant occasion last Thursday evening when the members of Portales Chapter No. 26 Order of the Eastern Star gathered to celebrate Jackson Day in connection with their regular meeting. A very interesting and instructive address on the life of Andrew Jackson was made by Judge J. C. Compton. This was followed by addresses by Mrs. Rose McDowell, Mrs. Whitmore, a visiting brother from Tucumcari and Mr. Christoe who bought greetings from Douglas Alaska. At the close of the meeting delicate refreshments were served, after which the remainder of the evening was spent in playing forty-two.

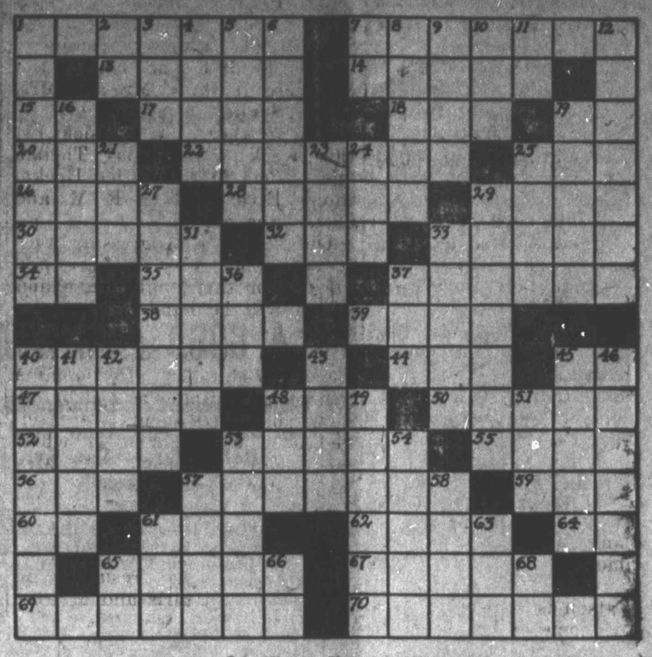

The Workers Council of the M. E. church met in the Sunday school room of the church Tuesday evening in a very profitable meeting. A Teacher Training Class to meet at 6 o'clock each Sunday will probably start in a couple of weeks, and those desiring to take this are urged to make the fact known to the M. E. pastor.

HAMILTON CAMP NO. 17, Woodmen of the World

POULTRY FACTS

PLAN TO PICK OUT GOOD LAYING HENS

"If you were going bird hunting, you wouldn't take a hound. Starting a dairy, you wouldn't buy beef cattle. Or if you wanted to go into horse racing, it would not be desirable to get a Shetland pony. Yet many people seem to think that a chick is a chicken, regardless of its individual qualities and purposes."

While some varieties of chickens are better layers than others, yet individual selection will greatly increase the laying qualities of any variety.

H. B. Lansden, of the Florida Agricultural college, says: "When a bird has laid through one season, you can judge some of her performance qualities by color of her legs and condition of beak and plumage." The explanation continues: "Select a hen that has a large space for manufacturing and carrying eggs, and you get one that will produce more eggs than another with less carrying space, even though of the same variety.

"It is no trouble to detect which has the greater ability to perform by examining the body outlines. The body should be wide and deep and well-proportioned, the back broad and rather flat, the breast bone rather short, rocker-shaped and sharp, not round and plump as in a quail.

"The comb and wattle indicate the condition of the reproductive organs. A hen with a healthy, well-developed reproductive organ, has a large full comb and wattle, with full circulation indicated by warmth and softness of texture. The hen with a small, crowded or diseased organ has a small, shriveled, scaly, cold and coarse comb and wattle. The distance between pelvic bones and the pliability of the skin and abdomen indicate the present performing condition of the hen and not her ability to lay."

Demand for Guineas Is Increasing in the East

Wild game, such as partridge, quail and pheasant, are becoming scarce in many localities. Besides, most states have laws which prohibit the sale of game birds as a measure to discourage hunters from killing more than they and their friends can conveniently use. There is, however, a good substitute for game birds and it is found in the guinea. The guinea is more than half wild anyway and has many of the characteristics of game birds found in the woods and fields. The demand from hotels and clubs is increasing. This is particularly true in the East and the taste for this bird is growing in the Middle West.

When well cooked, guineas are attractive in appearance, although darker than common fowls, and the flesh of young birds is tender and of especially fine flavor, resembling that of wild game. Like all other fowl, old guineas are very likely to be tough and rather dry.

Feed More Meat Scraps and Sour Milk to Hens

The use of more meat scraps and sour milk in the rations for the farm flock will help to keep up the egg production through the hottest season of August and early September. The laying hen's diet to be full of all the necessary material should consist of grain, mash, animal feed, mineral feed, and water. The grain is usually taken care of, as is the water supply.

The difference which a mash can make in the laying is surprising, when the mash contains besides grain an abundance of milk and meat scrap material. These two foods supply the animal matter, while cracked oyster shells or grit furnish the mineral matter. Green food is essential, and if the flock does not have range, green grass or weeds are specially good for layers during the hot weather.

Provide Shade for Hens During Hot Summer Days

The poultry industry is being developed in many sections where there is very little natural shade. Summers are long and hot and poultry is certain to suffer unless adequate shade is provided. To overcome the absence of trees in the poultry yards, some plant castor beans, which grow rapidly and produce large leaves, thus providing shade for the chickens which they so thoroughly enjoy during the hot hours of summer days. Others erect low sheds, or provide shade by stretching gunny sacks and blankets over frames constructed for that purpose.

Poultry should be provided both shade and plenty of clean fresh water. It is not only a humane act, but will pay in increased egg yield and more rapid development of young birds.

Big Mortality of Chicks

Poor methods of feeding and brooding are the chief reasons given for the heavy mortality of chicks. In the state of Iowa, it is said, nearly one-half of the chicks hatched on farms are never raised to maturity. Iowa farmers are probably no more careless in their methods of handling chicks than farmers in other states. This is a warning to the poultryman who neglects to use well-balanced rations in feeding his chicks, and watch the temperature of the brooder.

HALF OF HOUSE MEMBERS SEEK SPEAKERSHIP

Santa Fe, Jan. 11.—Because so many members were unable to reach Santa Fe in time the Democratic caucus was unable to make any organization of the state legislature on Tuesday.

The republicans will meet again tomorrow afternoon and the democrats will meet tomorrow night.

The republicans said no names were mentioned for president pro tem of the Senate. Adolph Fischer, Santa Fe, appears to have the lead for chief clerk of the Senate.

Edward Sargent, lieutenant governor and president of the Senate arrived here today. As he was not present for the inaugural ceremonies he has not yet taken the oath of office.

Senators laughingly say that about one-half of the members of the House are candidates for the speakership. Among these candidates for the speakership are several members who have had no legislative experience.

Governor Hannett has completed his message, which will be delivered to a joint session Tuesday afternoon.

U. S. WAITS TWO YEARS

Paris, Jan. 10.—The American delegation at the conference of allied finance ministers has agreed that the beginning of payments on United States war damage claims can wait for two years until the Belgian reparation priority is paid, according to Frnch sources.

The first provisional agreement on the settlement of the United States war damage claims was reached this afternoon by the British and American representatives in attendance at the conference of allied finance ministers here according to announcement made by Winston Churchill the British chancellor of the exchequer.

In addition, it was stated, the delegates of the six big powers, including the United States, have practically reached an accord on all the questions before them. These solutions will be put in shape by the experts for consideration by Tuesday's planary session of the conference.—New Mexican.

THIS BIRD ALWAYS MANAGES TO BE THERE WHEN THERE'S EATING

Colonel Sam G. Davis, who started for his home at Tucumcari, N. M., on Monday, after a visit here with relatives of Mrs. Davis, lost his "goat" in this immediate vicinity. He was victimized on an invitation to dinner, which had been extended to everybody at his domicile except him, but he recovered from the shock. But here is another: On his way back Sam proposed to stop at Brownfield, and visit J. Hie McKinney, Mrs. McKinney and James, their son, being here also visiting. Just before he left Same xpressedsy mpathy with Mrs. McKinney because she could not be at Brownfield when he arrived, but that Mrs. Davis, who is Mrs. McKinney's sister, would see to it that Hie was looked after while she was there. He was very sympathetic. The sequel comes out in the fact that after Sam left, James was called home on business, and Mrs. McKinney decided to go back with him. They will leave this afternoon, and are scheduled to reach Brownfield before Sam, who is traveling overland, can get there. Unless something not expected happens, Sam will find Mrs. McKinney awaiting him when he reaches Brownfield, and thus will depart the last of his goats.—Van Alstyne (Texas) Leader.

COOLIDGE AND DAWES FINALLY GET ELECTED

Washington, D. C., Jan. 12.—Calvin Coolidge and Charles G. Dawes were elected president and Vice-president respectively today.

The electors for whom the American voters directly cast their ballots last November, met in the respective states, canvassed the popular vote and in accordance with the constitution, cast their ballots for president and vice president.

This vote of the electors will be certified to the president of the senate by each of the 48 state meetings and will be opened at a joint session of the senate and house Feb. 18.—New Mexico.

NEW MEXICO WEEKLY INDUSTRIAL REVIEW

1925 starts with less unemployment than usual for January with more building in progress and in prospect, with more orders in Mills and Factories, with more money in the banks, with more confidence in the pubile heart. 1925 should be a banner year in the United States.

Roswell—New York No.1 oil well strikes oil that rises 150 feet at 2297 feet depth.

Dawson—Lorita Club building doubled in size for community gatherings.

Fort Sumner—Sumner oil well spudded in for prospecting test.

Santa Fe—Midwest No. 11 well at 665 feet promises to yield 1000 barrels daily. Out of 11 wells, Midwest has 10 producers, yielding 12,000 barrels daily. Company refinery at Farmington will cost $250,000.

Mid-Western company ships 2,000 calves from Artesia.

Tucumcari—Kiwanis Club plans campaign for 60 blocks city paving.

Albuquerque—Sawmill moves to San Pablo canyon to cut lumber for 3158 feet of bridges on Cuba Extension railroad. Farmington is ultimate railroad goal.

Luna—210 bales of cotton ginned here, bringing about $115 per bale.

Artesia—Piping of natural gas for light and fuel will make Artesia second town in state to be so served.

Otero—Tri-State Telephone Company will spend large sum in new equipment and service.

Santa Fe—Southern New Mexico Association plans intensive tourist campaign.

Tucumcari—Increasing activity in railroad shops, train crews, offices.

KING COTTON THEN FERTILIZER

When King Cotton comes, the use of fertilizer must follow, says H. W. Titus of the New Mexico Agricultural College. Any experienced cotton grower will verify this statement. The truth of it is also borne out by the fact that the bulk of purchased fertilizer is used in the states east of the Mississippi River, and particularly in those states along the Atlantic coast where much cotton is raised. In general, it is also true that more fertilizer is used in the older agricultural states than in the new.

The amount of purchased fertilizer used depends to a large extent upon the type of farming, but it also depends somewhat upon the acreage of improved land. In 1907 only 827 farms in New Mexico reported the use of fertilizer, while in 1919 its use was reported by 1,458 farms; in 1909 the value of the purchased fertilizer used was $25,371, while in 1919 the value was $118,483. Taking various factors into consideration, it is estimated that more than $250,000 was spent for fertilizer by New Mexico farmers during 1924. Within the next six years it is probable that the amount of money spent for fertilizer in this state will be close to a million dollars.

With these facts staring us in the face it is obvious that the fertilizer situation demands more than passing attention at the present time. If land is to produce cotton, or almost any crop, year after year, the use of fertilizer becomes a necessity if the land is to return a worth-while profit. It is clear, then that an increase-a rather rapid increase in the amount of fertilizer used in New Mexico is to be expected.

In the use of fertilizer the two following warning are given the farmer: be sure that you use the proper kind of fertilizer for the crops you sow, and be sure that you get the kind and quality of fertilizer you need. You lose money when you use the wrong kind of fertilizer and you lose money when you fail to get the quality of fertilizer which you pay for. However at the present time New Mexico has no law making provision for the inspection and analysis of commercial fertilizer and there is no assurance that the purchaser gets what he pays for. Until such laws are passed, the best the farmer can do is to place his faith in standard brands and in the products of older and better known manufacturers of fertilizer.

A GOOD LAXATIVE

Black-Draught Recommended by an Illinois Lady, Who Says It Helps Her.—"Fine for the Liver."

St. Elmo, Ill.—"I have used Black-Draught for three years," says Mrs. J. W. Boyd, a well-known member of this community. "I was visiting a friend who had used it for some time. I was in need of a laxative and I had a burning in my stomach. I was constipated. She gave me a dose of Black-Draught and it helped me, so I used it from then on. It certainly benefited me. I think it is fine for the liver, too. I am glad to recommend it.

"One day our pastor was visiting us, and he said his system seemed clogged and asked me to give him something to take. I gave him Black-Draught. He was much pleased with the results and bought a package, himself."

Constipation forces the system to absorb poisons that should be thrown out, causing pain, discomfort and tending to undermine your health. Black-Draught helps to relieve this condition by acting on the bowels, and by regulating the liver when it is torpid, thus helping to drive out many poisons in an easy, natural way.

Don't take chances! At the first indication of constipation, take Black-Draught. Costs only a cent a dose.

Your local druggist, or dealer, sells Black-Draught. NC-153

Not Wise for Anyone to Neglect Pleasure

Many persons are ill, mentally and physically, because they are suspicious of pleasure. The hardy races hold pain in high esteem as a personal discipline, and inducing pain in oneself has even been inculcated as an act of virtue.

We speak of pain as "holy." But pleasure may be no less holy than pain. Many devout men and women have realized pleasure is essential for moral self-development and conduct, says Walter M. Gallighan in the London Mail. The physical reaction of pleasure makes the body resistant to disease, aids in recovery of sickness, tends to the lengthening of life, and prevents morbid manifestations in old age.

An ascetic fear of pleasure is incompatible with a sense of bodily efficiency and well-being. Some people appear to believe that nature has evolved the complicated nervous system simply as an instrument for producing pain or discomfort. A pleasant surprise, such as receiving cheering news, immediately excites the heart to vigorous action. "A merry heart goes all the way." Death may come prematurely because a man has neglected pleasure.

It is not easy to define pleasure in a general sense. The pleasure that the Spartan winter bathers in the Serpentine enjoy suggests pain to less robust persons. Fishing may be a man's passion, but his friend may regard that recreation as a form of acute boredom. If you have found the pleasure that energizes the body and refreshes the mind, cherish it as one of the chief assets of health. If you have lost the play-instinct, you are exposed to physical and mental peril.

Famous Old Canal

The Chesapeake and Ohio canal originated in a project formed by Washington as early as 1774 to make the Potomac navigable from tidewater to Cumberland, and to connect it by common roads and portages with the Ohio. The war of the Revolution postponed the scheme, but it was taken up again in 1784, and the company was incorporated. Of this company Washington was president until his election as president of the United States. The project encountered many obstacles, and 1820 was abandoned as impracticable. A new company was later organized which constructed to Cumberland, completing it in 1850. The whole length of the canal is 184 miles; its depth, 6 feet; its width to Harper's Ferry, 60 feet at the surface and 42 feet at the bottom. By means of 74 locks an elevation of 609 feet is gained. The cost of the work was over $11,000,000.

Poisonous Plants

The foliage, roots and seeds of some of our loveliest and commonest garden flowers contain poisons. The plants with poisonous fruits, such as the deadly nightshade, with its brilliant scarlet berries, cause the most harm, especially to curious children. Poisonous fungi, mistaken for true edible mushrooms, often cause death.

Some plants are poisonous even to the touch, the most familiar of which is probably the stinging nettle, says London Tit-Bits. Some greenhouse favorites of the primrose genus, too, have to be handled with care. If you have a sensitive skin you should not touch the hairy leaves, for they may produce a painful rash.

NOTICE, TAX PAYERS!

NOTICE IS HEREBY GIVEN TO THE TAXPAYERS OF ROOSEVELT COUNTY, NEW MEXICO, THAT THE TAX ASSESSOR OR A DEPUTY WILL VISIT THE PRECINCTS OF THE COUNTY AT THE TIME AND PLACE DESIGNATED BELOW, FOR THE PURPOSE OF MAKING THE ASSESSMENTS OF ALL TAXABLE PROPERTY FOR THE YEAR 1925. I HAVE ARRANGED WITH THE STATE TAX COMMISSION WHEREBY I CAN ASSESS THE LIVESTOCK AND FARM PRODUCTS AND SAVE THE TOTAL EXPENSE OF THE SECOND ASSESSMENT.

Assessor's Notice to the Public!

"The laws of the State of New Mexico require that every inhabitant in the State of full age and sound mind, shall, in each year, make a list of all property subject to taxation of which he is the owner or has the control or management. Such list must be on the form prescribed by law by the State Tax Commission and must be made and filed in the office of the County Assessor on or after the first day of January and not later than the first business day of February of each year."

In compliance with law and for the convenience of taxpayers I will be at the various places in Roosevelt county on the respective dates as follows, for the purpose of making lists of property:

Office Will Be Open All Month of January

Mon. 12—Arch, morning. Inez, evening.	Wed., 21—Valley View, morning. Kenna, evening.
Tues., 13—Emsy, morning. Lingo, evening.	Thurs., 22—Claudell, morning. Floyd, evening.
Wed., 14—Bluit, morning. Center Point, evening.	Fri., 23—Dereno, morning. Tolar, evening.
Thurs., 15—Milnesand, morning. Richland evening.	Sat., 24—Perry, morning. Rock Lake, evening.
Fri., 16—Garrison, morning. Causey, evening.	Mon., 26—Fairfield, morning.
Sat., 17—Rogers.	January 27, 28, 29 and 30—Elida.
Mon., 19—Dora, morning. Redlake, evening.	Portales—All Month.
Tues., 20—New Hope, morning. Eagle Hill, evening.	

Any person failing to meet me at these appointments may make return to my office in Portales at any time within the limits fixed by law as given above, or blank for making rendition will be sent upon application, by mail or in person, to my office.

"A penalty of twenty-five per cent in addition to the regular valuation, must be added to the value of all property not listed for assessment within the time and in the form prescribed by law. No exceptions can be made to this law."

I would advise each taxpayer to bring a true description of their real estate and their School District to help eliminate many errors that get on the rolls by incorrect descriptions, and non-rendering.

Having visited the State Tax Commission this month there will be some changes made in the way of assessments and I must insist that you make a rendition before me or my Deputy in person rather than by mail. If valuation of land is changed it will be by order of the State Tax Commission. In case of weather conditions, and I miss appointments, come to my office.

Respectfully yours,

C. S. Turner, Assessor

THIS SECTION MAKING COTTON COUNTRY

That this section of the country is destined to become a real cotton country, is demonstrated by the gin returns for this season. Portales has ginned over 2,000 bales of cotton. The Elida gin has ginned around 400 bales. The Farwell gin has ginned 974 bales.

1925 will see a bigger acreage of cotton than was ever expected two years ago when the first cotton crop of Roosevelt county was ginned at Portales. This seasons crop will exceed 2500 bales for the county, which may look small to the West Texas counties which have been producing from 10,000 to 50,000 bales but it fortells what this section will do. 10,000 bales for 1925 would be a very reasonable estimate if the season is favorable to get the cotton up. Thousands of acres will be planted which have been in grass in the past. Many prospectors are in the county looking for farm lands to buy or to rent. The more farmers that become citizens the more prosperity for the county as a whole.

HIGH SCHOOL NOTES

Thursday morning, Jan. 8, Rev. Thurston, Pastor of the M. E. church gave a very interesting talk to the student body on the subject of "Physics and Chemistry, illustrating Morals." It was made up of a number of large words and their definitions, mixed with the right degree of honr, and was beneficial a swell as enjoy by all.

The Juniors have been very busy this week having their pictures made for the Annual.

A new Freshman, Lucile Kiker of Bronte, Texas, was enrolled in school this week. Three more have given in their names and will start to school at the beginning of the next semester.

On the night of Jan. 6, 1925, a number of the school friends of the newly wedded couple, Mr. and Mrs. Sanders gave them a surprise shower in their new home.

The school board has bought five beautiful new paintings to be placed in the different rooms of the school building.

Debating Club, postponed their regular meeting this week because of the nearness of exams.

Saturday night, Jan. 17, the Melrose Basket Ball Teams, both boys and girls, will play Portales teams on the Portales court. Melrose girls have sent word to us, that if we want to see the future State Champions in action to come and see them play next Saturday night. We send this same message to you but we guarantee that these "future State Champions, in action," will not be the Melrose team.

On Monday night, Jan. 19, we have a game scheduled with the boys team of Montezuma College. This is the first time in the history of Portales High School, that Portales has had the opportunity of playing a College team, and they feel highly honored over it. Come help Portales win both games.

National Hymn of the Math II Students.

My math, it is of thee,
Sweet road to lunacy
Of thee I rave.
Long may our minds be bright,
If free from mathematics blight
Protect me from its sight,
T'will send me to the grave.
My terrible Math. 'tis thee
Who's author of lunacy.
Of thee did Pythagoras sing
Math, which our elder tried
Math of the teachers pride
All thy pages long and wide
Do hardships bring.

NATURE is the Chiropractor's only aid—adjustments remove the pinch on the nerves and enable Nature to do her part in making and keeping the body well. Ninety-five per cent of diseases are due to pressure upon nerves along the side of the vertebral column. This pressure interferes with their functions; hence inflamation, unnatural action pain and distress are manifested where these nerves end. All diseases are prolonged until this pressure upon these nerves leading to the affected parts is adjusted. It is the business of the Chiropractor to release this pressure with the hands.

EATING OF RAW OYSTERS FORBIDDEN FULL OF TYPHOID

Chicago, Ill., Jan. 10.—As a precaution against typhoid fever Director Isaac D. Rawling of the Illinois Department of Health last night issued an order forbidding the eating of raw oysters in Illinois after Jan. 15.

The order, said to be the most drastic of its kind ever issued, holds dealers responsible for its enforcement and compels them to obtain a written agreement when selling oysters, that they are not to be eaten raw.

T. B. ASSOCIATION TO SEEK LEGISLATION

At a recent meeting of the executive board of the New Mexico Tubercular association, W. C. Reid, president; Mrs. C. C. Meacham, secretary and Mrs. Emily La Belle, were named as a legislative committee to represent the association at the coming session of the legislature.

The association is particularly interested in efforts to safeguard health of children and in legislation tending toward prevention of disease.—State Tribune.

KUKLUXES BRING ABOUT MARRIAGE

Denver, Jan. 8.—The police are investigating the charges brought by Beith Boehm, a Denver High School student that on Tuesday night he was kidnapped and taken to the office of Dr. John Locke, Grand Dragon of the Colorado Klu Klux Klan and forced to marry Miss Mae Nash. Locke denied that any coercion was used. He said that Boehm admitted procuring the license a year ago to deceive the girl who is to become a mother soon. He said he had talked to Boehm and that he had agreed to marry the girl.

Lewis Henry Burleson.

Lewis Henry Burleson, son of Mr. and Mrs. Jim Burleson of Portales, Born July 18th, 1898, died January 2nd, 1925 at Mexia, Texas.

Funeral services were held at the family residence on Sunday afternoon, January 11th, 1925, Elder Barnhill of the Church of Christ conducting the last sad rites, after which the remains were laid to rest in the Portales cemetery.

The bereaved family have the heartfelt sympathy of the entire community in their loss.
