## Hail The New Chief—The Kerchief Which Is Finding Favor Every Day

Mrs. Joseph E. Widener, of Philadelphia, gets an original and chic effect with this kerchief-cape. Really quite a novelty!

BY BETSY SCHUYLER  
NEA Service Writer

NEWPORT, R. I., Aug. 8.—Newport seems to be saying "chic" with kerchiefs. Everyone is wearing them. Kerchiefs in plain colors, geometric designs, flowered prints or even gold or silver lace decorate smart necks for golfing, sailing, lounging, tea, dinners and even formal evening wear.

The Beauville handkerchief, that really seems to have become a Newport craze, I can think of no single detail of dress that has staged such a smart broadside since the small felt hat made its invasion.

But the kerchiefs go far beyond one border. For kerchiefs in filmy lace and delicate gauze appear for evening wear.

Personally, I think the Beauville kerchief's popularity entirely justified. What if it was designed to give dash to the collarless sports costume or keep the sun from blistering the delicate neck of some So-called Registar? It makes a real contribution this summer with its color and feminine touch.

Mrs. Jerome Napoleon Bonaparte is one Newporter who seems to get the most out of every kerchief she wears. They always either pick out some unusual shade, such as fuchsia, for emphasis, or else they add a delicate dash of color to a costume of white.

I saw her the other day achieving remarkable results with a smart white costume with the new fuller lines and a soft white kerchief featuring gold and green flowers scattered with studied carelessness on her left shoulder. Her rouch straw hat with its wide, slightly drooping brim, was of the gold shade.

Mrs. James Denison Sawyer wears kerchiefs with everything. From a black bathing suit to a shimmering evening gown of silver

Mrs. James Denison Sawyer, New York society woman, snapped at the moment she is wearing the kerchief closely about the throat.

lary and green chiffon—of course the kerchief of the latter costume was almost a shawl of filmy lace and chiffon.

With a neat tweed and jersey ensemble in beige and russet colors, Mrs. Sawyer picked a small kerchief in russet shade and wore it with her fashion, knotted in the back.

Some of the most petite women sponsor the large kerchief that is almost enveloping in its voluminous folds. I noted that Mrs. Joseph E. Widener, of Philadelphia, chose this type. It was a lovely plaid, in grays and white, the same material as the lining of her pearl gray kasha coat. She threw the scarf around her shoulders nonchalantly and knotted it down on her right hip.

Of course every kerchief worn at Newport matches the costume in compliments. Figured frocks are apt to take plain kerchiefs and vice versa. One exception to the plain-kerchief-with-figured-frock rule was Mrs. Gustave J. S. White. With a pleated black skirt and belted over-blouse of Persian patterned silk, she wore a kerchief in the patterned silk that seemed to catch the magic loveliness of old Persian rugs.

This fad will probably not last forever. But I did see a remarkably smart looking fur coat with a collar of fur that knots on the side. So whether the kerchief stays with Newport or not, its influence on the boudoir to dance floor and from the bathing costumes to ocean cois.

# Merchants and Manufacturers Owe Lubbock Certain Obligations

Occupying an enviable geographical location as to the South Plains' territory, a center of transportation, Lubbock is expected to render services to its trade territory unlike and excelling, that of any other town.

That this City may live up to its obligation to it is essential that Lubbock industries keep the people of the South Plains in mind as well as those of the City of Lubbock.

That approximately one-half of the total production of Butter-Nut bread produced in Lubbock goes to consumers in all vicinities of the South Plains, indicates two established facts: i. e. that Lubbock is serving them quickly—and the overwhelming preference for Butter-Nut bread means that Lubbock is serving them well.

Butter-Nut Bread bears the name "Martin" on each wrapper—a name that has been connected with the advancement of Lubbock for nearly twenty years. Butter-Nut bread is produced in West Texas' finest bakery—a Lubbock institution.

# BUCS WIN EIGHTH STRAIGHT TO TAKE BIG LEAD OVER PIRATES

## PIRATES ARE AS CARDS FEATBRAVES

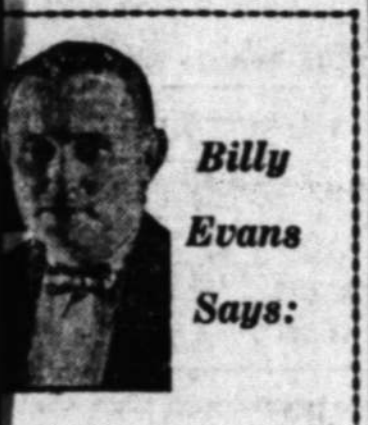

### LIANT FITCHING WIVES REDS DOUBLE WIN OVER PHILS

(By Associated Press)  
Chicago Cubs were three and half games ahead of Pittsburgh Pirates today for leadership of the national league. While the Pirates made the Cubs won another of annual victories over Brooklyn yesterday, but the wintry team had a struggle 11 in- to take the long end of a 5 score. Brooklyn has won only one game from the Cubs this sea-

**Eighth Straight Win**  
was Chicago's eighth consecutive victory and Charlie Root's fifth pitching triumph of the season. Hack Wilson's single scorers with the winning run, little Holm's homer in the fifth with one man on base enabled the St. Louis Cardinals to beat Boston Braves, 6 to 4. Fournier hit for the circuit.

Lucas led the Phillies down six hits in the second game 2 to 1 victory. Sweetland, the recruit pitcher, made a bat-

**Yanks Beat White Sox**  
The Yankees ripped the White Sox for a 4 to 3 victory at New York. Babe Ruth went hitless and hit only a single in three at-bats. Aaron Ward, a former ace, pounded out a home run in the second. Muehl misjudged the ball and it bounded into the left stands. Blankenship held New York to seven hits while the Chicago were tapping Shocker and the 11, but a bid fourth in- in which the Yankees scored their runs, proved his undoing. Hadley held Cleveland while Washington was pounded. Lindlin and Grant for a 12 to 3 win. Tate was the only player in Washington lineup who failed at least one safe hit. The American league teams did play.

**Billy Evans Says:**

ver a period of seven or eight years Babe Ruth has reigned supreme as baseball's greatest slug-

ger. At times he has challenged rivals in both leagues but the nation never developed to such extent that Ruth seemed in danger of permanently losing his title. The latest menace has arrived in the person of Lou Gehrig, fellow amateur, who follows him in the line-up of the Yankee lineup. It seems to be made of sterner stuff and for the first time in the Sultan of Swat appears in danger of losing his crown. That is Ruth's reaction to the fact that Gehrig is making to do as he pleases. What sort of a feeling is between the two? Does Ruth think the youth who is trying to top his throne?

The prevailing opinion among the fans is that bad feeling exists between the two super sluggers. Never was anything fiercer than the truth.

There is also a belief among fans that Babe Ruth has an exaltation of himself and a well-to-be plain vulgar—is a swell-head, at is entirely erroneous. Like all stars in any sport, Ruth is supreme confidence in his extraordinary ability. It is that which a lot of people regard as. He believes in himself, is positive no other player can hit a ball far or make as many home runs as Babe Ruth.

Ruth was a temperamental man, a bundle of nerves, the home-run king that Gehrig is making did upset him, would tend to bow him off his stride. However, the Bambino is just the opposite. He is the phlegmatic, who never worries about anything. As I write this article, Gehrig has a lead of two home runs over Ruth. I doubt if the Babe even owns it. In all probability he still owns it two or three in front.

That will best tell you how Ruth is being affected by the struggle that Gehrig is making to take down the home-run honors in the majors. He hardly knows it's on.

## HUBBERS TAKE SHUTOUT GAME OFF AMARILLO

### HAYDEN IS HIT HARD EARLY FOR FINAL COUNT OF 7-0

The Hubbers took a shut out victory over the Amarillo Mets yesterday afternoon at the Merrill park by winning over the northerners with a score of 7 to 0. It was an early rally staged by the homecomings of Guy Hayden, portender of the Mets that started the count against the Amarillo combination. The homecomings tallied four runs and five hits off of Hayden before he was replaced by GIB Jackson who pitched the remainder of the contest allowing but one hit. But as Jackson went in on the mound Lassiter took advantage of his wind-up and stole home base for the fifth run in the initial frame.

**Taylor is Stinky**  
"Procher" Taylor, ace hurler of the local staff, stepped on the mound and tossed the nine frames allowing seven scattered bingles. The Hubbers hustled with men on bases and turned the northerners back at the critical stages of the contest. "Shorty" Hayhurst, Rush Springs, Oklahoma lad, proved a sensation for the local nine yesterday when he stabled a smashing line drive from the bat of Guy Hayden to score an unassisted double play touching the third sack simultaneously with the catch.

It was the first time in three weeks that the original Hubber crew had played together and they exhibited the usual Hubber victory over the Amarillo lineup by romping an early rally.

is, I know that down in his heart he is positive the Babe is just a little better at the job of making home runs. Incidentally, I am sure that Babe feels that no matter how many home runs "Larruping Lou" Gehrig has at the close of the season, Ruth will have just a few more. Gehrig, on the other hand, is just like a kid about the honors that have been suddenly thrust upon him. "Can you imagine anything greater than battling Ruth for the home-run title and doing a pretty good job of it?" asks Gehrig.

## CAST-OFF MAY SWEETSER NOT HALT PIRATES IN FLAG HUNT TOURNEY PLAY

### BUCS MAY RUE SENDING HAL CARLSON TO SPUDDERS

**BY BILLY EVANS**  
The Pittsburgh Pirates, in quest of the National League pennant, may rue the day the club consigned Pitcher Hal Carlson back to the minors with his destination being Wichita Falls, Texas.

Ten years ago Carlson joined the Pirates. At the time there was a controversy as to whether he belonged to the Chicago White Sox or Pittsburgh. He was finally awarded to the latter club. For a little more than six years he tarried with the Pirates, showing flashes of real ability at times but having only one in which he finished better than the .500 mark, and then just one game—the good with 14 victories and 13 defeats.

He earned run average was nothing to brag about, particularly in 1922 when the opposition averaged almost six runs per game off his delivery. Possibly that is what caused Pittsburgh to send him to the Texas League early in 1923. A big noise in the Texas League that year with 20 wins and 19 defeats, the lowly Phillies, in dire need of pitching strength, decided to gamble with Carlson and drafted him for the season of 1924.

With a poor ball club, a tail-end pitcher, Carlson enjoyed greater success than he ever did with a much superior club at Pittsburgh. Last season his record was 17 wins and 12 defeats with a team that finished last with a percentage of only .354.

This year when Manager Joe McCarthy of the Chicago Cubs decided that Pitcher Tony Kauffman no longer fitted into the scheme of things there, he made a deal with Philadelphia that brought Carlson to Chicago. He has performed brilliantly since joining his new club. In early July of this season when the two clubs met in the first crucial series of the year, first place hinging on the outcome, Carlson was the selection of Manager Joe McCarthy to pitch the opening game.

Against the club that four years previous had sent him to the busier, labeled through as a big leaguer, Carlson won a pitcher's battle, by a one run margin, that gave the Cubs the lead and dropped the Pirates to second place.

That one game in the big pinch gave the Cubs an added confidence in their ability and furnished them with the inspiration that may ultimately result in the winning of the National League pennant.

Owner Dreyfus of the Pittsburgh club must suffer much remorse every time he reads where Carlson has pitched the Cubs to another victory, which of late has been a most frequent occurrence. It would be the irony of fate if a Pirate cast-off's superior pitching proved a big factor in defeating Pittsburgh in its pennant quest. Stranger things have happened.

## NEW RECORD IN ATTENDANCE IS SET AT REVIVAL

### TWO LARGE CROWDS SUNDAY GREET HOGG IN CAMPAIGN

Sunday was a busy day at the tabernacle, and two great services were held. At 3:30 in the afternoon the evangelist brought the large crowd of possibly 2500 a great message on the Christian Home. He followed up by a powerful sermon on Sowing and Reaping at the evening hour. The largest crowd was present at the evening revival service here. It is estimated that more than 5000 people heard the evangelist and there were 1200 or more who came and were unable to get a seat and returned to their homes or went some other place to worship.

Monday morning the attendance was not as heavy, but it was a good crowd for Monday. Dr. Hogg brought a stirring message on "Power for Witness." It was a self-searching message. It was a message that brought people to realize that they are not living as close to God in their christian life as they should and he showed that people could get cold and indifferent, and lose their hold on God, even though they were preachers. Tonight the services will be for church-people. It is the intention for all of the nine church organizations participating in the meeting as a church to come in groups, each denomination together and reserved space will be held for them. The evangelist is going to give the superintendent of the Sunday school of the church that makes the best showing tonight a nice bible, and the choir shall be the judge.

Next Sunday a religious census of the city will be taken and this work is expected to be completed within one hour between eight and nine o'clock. The subject for tonight will be "Dry Bones," and the evangelist especially invites the church people of the city to come. He will no doubt rattle the bones, but it will probably be just exactly what you need. Don't miss this service.

**Strictly a "one purpose" tobacco for pipes and nothing else**

**TOBACCOS** which are made both for rolling cigarettes and for pipes are cut fine... you might say they are fine for cigarettes but too fine for pipes. For the finer the cut, the faster (and hotter) it burns.

Granger Tobacco, cut for pipes only, and mellowed by an old-time tobacco secret... burns more slowly lasts longer and smokes cooler

A WORD ABOUT LOADING YOUR PIPE: Instead of pouring Granger in as you would a granulated cut, put in a third of a pipeful, press it down firmly, then another third; then heaping full. Light it around the edges well at in the middle... and you're all set for a long, cool smoke...

When It Boosts

It may interest those who believe in censorship, and it may especially interest those who believe in special censorship of the particular book, "Elmer Gantry," by Sinclair Lewis to know that this book continues to be the best selling book of the month in many cities and towns in America, a record which it has held since the uproar against it began.

Now clean cut decisions against criminals—like that one of Governor Fuller in the Sacco-Vanzetti case—will soon cut America's murder rate.

Mrs. Anna Lebonof, charged with complicity in the murder of her husband, for which her alleged lover, Dr. Thomas Dewber, was held, smiled her way through a grilling cross examination of her testimony.

Everyone else has his idea on Mr. Coolidge's terse statement, "I do not choose to run again," so The Plainsman feels little hesitancy in broad-casting his decision on the question. Here goes: Mr. Coolidge, it will be remembered, has always had the happy faculty of bounding before the public eye just at the time when no one was expecting it—which is to say when it did the most good.

PROFONENTS OF BELIEF NOT MADE TARGETS OF BITTER TRADE

About 4,000 people heard Elder G. C. Brewer lecture last night on "Evolution and its Relation to Religion" in the air dome of the Church of Christ, Broadway and Avenue L.

Many Stand Nearby

Filling all seats of the air dome, the audience overflowed to hundreds who lined the alley ways, the steps, the corridor and many persons flocked into the building to listen from the windows.

Don't Oppose Science

The lecture occupied two hours time. In part, Elder Brewer said "We do not oppose science, or scientists, or the teaching of science in schools. Science has done wonderful things for the world and is destined to do still greater things."

Grain Prices Hit New High Due To Frost In Canada

(By Associated Press) CHICAGO, Aug. 8.—All grain prices went soaring today, largely on account of reports of serious crop damage by frost in Canada. Approaching the close of business for the day wheat quotations were up six cents a bushel and corn more than 4 cents with all deliveries of corn touching the highest level yet this season. Waves of buying orders began to hoist grain values almost from the outset, but confirmation of damage to crops by frost, was not readily

FLOYD SPENDS LIBERALLY ON SCHOOL PLANT

HOMES PROVIDED FOR TEACHERS AND ALSO GOOD BUILDINGS

FLOYDADA, Aug. 8.—In the building of the best cities and towns of West Texas their growth and development can be traced to their interest in education. Described by many writers as the "game of life" in which the highest stakes are paid to the one who plays well and the one who plays poorly is checked without haste but with remorse, education is alone responsible for the development of this great section.

Strong in their belief that education is the right road to the future generation, the citizenship of Floyd County has established a system of schools that is recognized over the State as one of the best. A total of \$525,000 has been expended in an effort to construct school buildings that would be inviting as well as serviceable to the 22,450 school children of the County.

Teachers Homes Provided In the establishment of better schools the trustees of the rural communities as well as the citizens have been constructing near the rural schools for the teachers. There are now seventeen of these homes in the County and before the beginning of the 1927-28 term it is thought there will be several more.

The days of the "little red school house" are passed for Floyd County. In their stead stand modern brick buildings that would be a credit to any county in the state. Sixteen brick buildings, home to approximately \$215,000, are now under construction near the rural schools for the teachers. There are now seventeen of these homes in the County and before the beginning of the 1927-28 term it is thought there will be several more.

2306 Rural Scholastics The rural scholastics of the county now number 2296, according to Price Scout County school superintendent. The number has increased practically every year in keeping with the increase of the city schools. Adopting their motto, "No rest, until our schools are the best," the trustees of the different school districts have encouraged the voting of bonds for new school buildings and teachers' homes.

Seventy-eight teachers have been employed for the coming term in the rural schools and will begin their work the latter part of September. Within a short distance of every rural school in the county is located a school where the pupils may finish their high school training preparing them for any college or university in the State. Twenty-three and one-half credits of affiliation offered by either the Floydada or Lockney public schools permits the graduate to enter the State institutions without the necessity of entrance examinations.

Floydada Builds Schools Floydada has especially been interested in the welfare of the "future generation" in that more than \$215,000 has been spent in constructing brick school buildings. The most recent structure is that of the Andrews Ward school named in honor of Dr. R. C. Andrews, for many years a citizen of Floydada and a strong believer in better schools. This building is equipped with every convenience. The new

gym solves the citizenship in many different ways. Indoor sports are carried throughout the year and different entertainments are held in the same gym. Seats are arranged so as to slide underneath the large stage when not in use. It was in this building that the annual Chamber of Commerce banquet was held and of which one of the best known educators of the state made the remark: "It is one of the best if not the best I have ever seen in a community of this size."

Increase Courses Not content to offer just twenty-three and one-half credits of affiliation the school board of the Floydada Independent School District recently employed Mr. O. T. Williams to teach vocational agriculture, and Mr. Williams will begin his work immediately. There is as much education and teaching in the analysis of a complex sentence, in the belief of Mr. Williams, and his work will be along the line of agricultural education.

Included in the curriculum of the Floydada schools are home economics and a commercial department. The entire curriculum has about thirty-one subjects, which includes twenty-six credits. A part of the high school annual "The Hesper" this past term was dedicated to the evaluation of the Floydada schools. This shows the scholastic population of Floyd county to be ninety-seven the first year after its organization and the state apportionment 14.12 per cent. The present fund raises approximately 7.00 per cent of the scholastic enrollment of the Floydada Independent School District is now 2600. Twenty-six teachers and a superintendent are employed by this district alone.

W. R. Patten, for many years superintendent of the Plains vocational school, has been employed to take the place made vacant by J. C. Wrester, who resigned to go into business here, and has arrived to take up his duties. Mrs. Patten comes to Floydada, having been employed by the school board to consider themselves fortunate in being able to secure this man.

In their desire to promote better education and at the same time advertise the advantages offered by the Floydada schools, the Floydada chamber of commerce has adopted rather an unusual plan. A copy of the high school annual is placed in every rural school in the county by the organization. This book is given to the school for their library with the one request that it not be taken from the school building. Thus the pupils are given an opportunity of studying the qualifications of their high school even as the high school student is given the opportunity of selecting his college or university by reading of its qualifications. Copies of the 1925-27 annual will be delivered by the secretary of the Chamber of Commerce during the 1927-28 term.

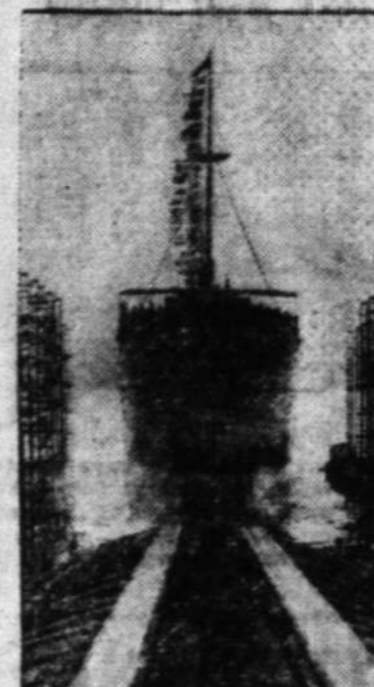

Citizens of Floydada are not content with the rapid development of their schools and are building and planning for additional work at all times.

WOOD TO REST BY COMRADES

'ROUGH RIDERS' PLOT IN ARLINGTON TO RECEIVE BODY

(By Associated Press) WASHINGTON, Aug. 8.—The little plot in Arlington cemetery, set aside for the "rough riders" of the Spanish-American war tomorrow will receive the remains of the regiment's commander, Major General Leonard Wood, who died early yesterday at Boston.

At the request of his widow, the distinguished soldier and late governor-general of the Philippines will be laid at rest beside his comrades of the sterner days of '98.

Burial in Arlington The body accompanied from Boston by Mrs. Wood and a military escort, will arrive in Washington early in the day and, following the present plans, be taken at once to Arlington for the interment ceremonies.

High officials of the war department and of the government generally will accompany the funeral cortege along the winding road to the cemetery, while the military guard of honor will be augmented here by the third cavalry, the sixteenth artillery, a battalion of infantry and a detachment of engineers.

### NEWS AND VIEWS OF OIL OPERATIONS ON THE SOUTH PLAINS

EDITED BY EARL THOMPSON, PHONES 13 OR 14

#### SEMINOLE OPERATORS TO ADHERE TO CONSERVATION

TULSA, Okla., Aug. 8 (AP)—United in their determination to curb Greater Seminole's menacing flood of oil operations of the district at a special meeting here today again declared their adherence to the conservation plan put into effect last Friday and agreed that it would be continued.

#### ACREAGE IN BAILEY AND COCHRAN BEING BLOCKED

Along the west line of Bailey and Cochran counties, running up to the New Mexico line, Ward Powell, formerly with the Texas and Pacific Coal & Oil Company has been taking two blocks the past week. Ward Powell has taken all of league 143 of Garza county school lands; all of league 144, of Hansford county school lands; and all of leagues 154, 159, and 160 Hall county school lands, and the north half of league 157, in the same area.

#### ROXANA GEOLOGISTS BUSY ON BIG SPRING LINE

The Roxana Petroleum Corporation now has four crews of Geologists working from Big Springs, Lubbock. A line from the Marlins Quilan well in Howard county, Moss Springs has been surveyed, and with this as a base line the four crews will work out the territory between Big Springs and Lubbock. These lines will be about eight miles apart through the 10 mile stretch. It is necessary to station the instruments for a period of five hours in order to secure the desired data; the crew plan on making about one mile per day this survey.

#### BOLES DRILLING AGAIN

Talbot (The Coles oil company) No. 1 Bole, northwest of the southeast of section 21, block S. G. C. S. F. survey has resumed drilling below 1200 feet.

#### NEW LOCATION

Talbot and Simms have made location on the 23000 land in Lamb county three miles north of the Keegan well. The exact location is the northwest of the northwest of section 14, block B. R. M. Thompson survey, Lamb county.

#### Houston Man Held After Wife's Death

HOUSTON, Tex., Aug. 8 (AP)—Mrs. Thomas E. Whiteside, 24, wife of a young attorney, died here today of injuries received at her home a month ago in a fall. Whiteside is being questioned in connection with the fall.

#### Hungarian Minister Hurt In Auto Wreck

PARIS, Aug. 8 (AP)—Count László Széchenyi, Hungarian minister to the United States, has been seriously injured in an automobile accident, says a Havas dispatch says that attending surgeons have decided that it will be necessary to operate on the count's left eye.

### Demonstrations Gain In Intensity For Two Radicals As Execution Nears

Prepared to be a foreigner, and bearing Massachusetts license plates was seen driving away from one of the wrecked subway stations. Police are in possession of the license number.

A general 24 hour protest strike declared in Paris was recognized by most of the taxi drivers, but otherwise conditions in the French capital were little affected, although there were several small scale demonstrations in various parts of the city.

More Buildings Guarded The Pennsylvania state capital buildings and the executive mansion at Harrisburg were added to the long list of government buildings under guard.

In Utica, N. Y., two buildings in the Italian section of the city were wrecked by mysterious explosions. Both were unoccupied but several persons in adjoining buildings were slightly injured by flying glass. Police declare, however, that there was nothing to indicate the blasts were work of Sacco-Vanzetti sympathizers.

Radical letters in New York prompted to draw 500,000 workers from their employment tomorrow in protest against sending the two men to the electric chair at Charlestown Mass. next Thursday morning, and in other parts of the world sympathizers of the two internationally known radicals continued plans for further demonstrations up to the fifth hour.

Many Demonstrations Demonstrations were staged yesterday in Paris, London, Munich, Chicago, and in Boston and other cities of the United States. No serious disorders occurred, although some arrests were made.

Increased police vigilance against disorder was established in the chief cities of the world. Public officials and public buildings in the United States were under special guard while in other countries extra precautions were thrown about United States representatives and American property. In New York Police Commissioner Warren prohibited parades but said he would permit a mass meeting in public squares, arranged for tomorrow by the socialists party, the I. W. W., and the Sacco-Vanzetti emergency committee.

Meanwhile Commissioner Warren said the mobilization of 14,000 policemen on guard throughout the city and at a large number of public buildings and in subway and elevated line stations would continue "until further notice," and that the hunt for those responsible for the explosion in two subway stations Friday night would go on with unabated vigor.

Speaking Prohibited From about ten thousand persons gathered excitedly about Boston common yesterday when police revoked speaking permits on stand where Sacco-Vanzetti sympathizers had been substituted for speakers to whom permits had been issued. One man was arrested for refusing to obey police orders to cease talking.

### COTTON CROP

(Continued From Page 1)

152,878 running bales compared with 47,776 bales of that date last year and 161,632 on August first, 1925, the census bureau announced today in its first ginning report of the season. As in previous years ginnings by states were not given.

#### Prices Jump \$10 At New Orleans

NEW ORLEANS, Aug. 8 (AP)—Prices on the New Orleans cotton exchange jumped upward 200 points, or \$10 a bale, on the publication of the government cotton forecast today.

The rise, the most sensational market has known in several years, swept all months to the full trading limit for the day.

The forecast of 13,492,000 bales was 1,500,000 bales fewer than the trade had expected and when trading opened the fact that ginnings to August 1 had been large, totaling 152,878 bales.

The rise carried October from 16.84 to 18.84 and December from 17.10 to 19.10.

#### 200 Point Rise Is Scored In New York

NEW YORK, Aug. 8 (AP)—The government crop report on cotton showing a yield of about 1,000,000 bales under general expectation caused a wild buying movement when trading was resumed at the cotton exchange, sending the price up the full limit of 200 points from the low of the morning.

#### Three Lose Lives In Scranton Blaze

SCRANTON, Pa., Aug. 8 (AP)—Three persons lost their lives in a fire at Aversy, near here, early today when William Owens, 49, prominent hotel man and sportsman, failed in an attempt to rescue his two sons, William, Jr., 15, and Allen, 6. Their bodies were found by firemen against a door on the second floor of the Owens dwelling.

#### Two Children Die When Tar Explodes

CORINTH, Miss., Aug. 8 (AP)—Sprayed with flaming tar when a barrel about which they were playing exploded, Fred, 7 years old, and Dorothy, 5, children of Mr. and Mrs. Ed Jordan, of Belmont, Miss., died in a hospital today. Mrs. Jordan was burned seriously while attempting to save them.

Jack Lockwill at Summer Camp

(Creator of Frank Merriwell)

By Gilbert Patten

Though the rotten limb broke over Longpoin's head, the Indian boy was struck down, stunned by the blow. When he recovered, he found himself bound in a standing position with his face to a tree, round the trunk of which his arms were clasped. His wrists were held together by a leather belt. Another belt held his knees to the tree. His shirt had been stripped from his back.

Buke Saunders had cut a long, stout switch from a hickory bush. When he had trimmed the switch, he came toward the helpless prisoner, grinning malevolently.

"Now you dirty injun," said the young ruffian. "I'm going to skin you alive! I'll make you squeal like a stuck pig!" "Not if you kill me!" said Tom.

"Now don't you do it, Buke!" cried the boy who had taken no part in the fight. "It's going too far!" "Oh, shut up, 'Peewee'!" snapped the bully. "Didn't we see him knock a hole in our canoe? I'm going to pay him for that!" But as he lifted the hickory switch to strike, still another boy dashed out of the woods, and snatched it from his hand. "You coward!" cried Jack Lockwill. Pioneer Town Of Fort Davis, Long A Land Mark, Is Soon To Have Its Own Modern Electric Light Plant

(By Associated Press) FORT DAVIS, TEXAS, Aug. 8.—Memories of the great gold trek of '49, whose mysterious magic drew thousands across the plains and mountains of Texas to the far Pacific, are revived with announcement that Fort Davis for the first time in its history, is to have a modern electric light and power plant.

Founded to protect and nourish the plodding trains of the gold seekers, this Alamo town of 1,100, nestling high among the peaks of the Davis mountains, has gone its quiet way for many decades, far distant from the thunder of railroads and the current of swiftly moving commerce.

It has had no public utilities except the telephone. Its lack of gas plant, and such utilities as electric, water, and sewerage, has been compatible with its quaint and pastoral atmosphere.

Stirring Frontier Times The history of Fort Davis breathes the breath of stirring frontier times, of Indian fights and wagon trains, of famished travelers and seekers for the distant promised land.

After the gold rush started in California in 1849, a great many trains of gold seekers were sent in the direction of westward and many died of thirst or were killed by Indians. Many of these trains passed across the Davis mountains and through El Paso on their way to the Pacific.

Reward for Scalps The governor of Chihuahua had offered rewards for the scalps of Indians and some enterprising Americans engaged in the business, rustling scalps where they could be found.

Abandoned in 1891 The fort was abandoned in 1891, but its sturdy building still stands as reminders of a colorful and vital past.

50,000 Expected At Lindbergh Visit

Arrangements are being made by the aeronautics committee of the local chamber of commerce to care for 50,000 out of town visitors on September 26, the day on which Col. Chas. A. Lindbergh, trans-Atlantic flier, will stop at Kinsolving field, this city, for an hour's stay while on his way from El Paso to Fort Worth.

Mayor Thos. E. Hayden, Jr., has placed the entire program for the occasion in the hands of the chamber of commerce.
