Jets Batter Red Convoys

By THOMAS A. REEDY

SAIGON, South Viet Nam (AP) — U.S. jet pilots reported today they struck heavy blows at trucking and shipping in North Viet Nam, blasting more than half of a 50-vehicle convoy in a mountain pass and sinking or damaging five gunboats.

Marine spokesmen reported that the Leathernecks killed at least 205 Communists in expanding ground operations in South Viet Nam's northern provinces. But 10 Leathernecks were killed in the crash of a Marine helicopter, and an A4 Skyhawk crashed on a bombing run in support of the Marines. The pilot was rescued.

As the weather cleared over North Viet Nam, U.S. spokesmen said they were highly pleased with the results of Monday's raids by Air Force and Navy fighter-bombers. However, the successes cost the Air Force a needle-nosed RF101 Voodoo reconnaissance jet which was shot down northeast of Vinh. The pilot was listed as missing.

The Viet Cong gave another demonstration of their guerrilla tactics, hitting the airport at Dalat before dawn and damaging a number of planes. Two platoons of about 50 Reds penetrated the airport grounds after a mortar barrage.

On the political front, Buddhist students in Da Nang and Hue demonstrated peacefully against the government of Premier Nguyen Cao Ky. In Saigon, Thich Tam Chau, a leader of the Buddhist political movement, personally halted a student demonstration although the National Buddhist Institute he heads issued a communique making clear it is unhappy with Ky.

A flight of Air Force F105 Thunderchiefs spotted the truck convoy parked near the Mugia Pass 60 miles south of Vinh in the North Vietnamese panhandle. Flying through heavy flak, the jet pilots said they destroyed or damaged 27 trucks in three passes and knocked out 14 antiaircraft guns.

Navy pilots from the carriers Ranger and Enterprise hit 59 targets and reported they destroyed or damaged five gunboats 46 miles north of Dong Hoi, three junks 37 miles south of Vi hna ntdwo bridges and a ferry crossing astride a route linking with the Ho Chi Minh Trail.

In the South, Navy and Air Force planes pounded what was described by intelligence sources as a Viet Cong rest area 75 miles northeast of Saigon. Air spotters said 60 Viet Cong were killed and an automatic-weapons site, a small bridge and a number of buildings were destroyed.

A wounded captive who identified himself as a North Vietnamese lieutenant told American newsmen in Saigon: "Your fire power is too big for us."

The prisoner, Dao Van Giong, 39, said he decided to surrender and was picked up by an American helicopter which brought him to a medical aid station during the U.S. 1st Cavalry, Airmobile, Division's recent campaign around Bong Son.

Cold Front Due To Cool State

By The Associated Press

Stout March winds tugged at Texas again today, tossing dust aloft in some areas and whipping warm air inland from the Gulf of Mexico to collide with a fresh norther.

With spring's official arrival less than two days past, the Weather Bureau issued a cold wave warning for the north part of Northwest Texas, predicting a few snow flurries and temperatures down to 25 degrees tonight.

The wind switched to the north, hitting nearly 20 miles per hour in gusts, as the latest cold front whipped past Dalhart in the Panhandle shortly before 5:30 a.m., kicking up dust in the process. It was still comparatively warm there, however, with a 40-degree reading at that hour.

Forecasts warned of blowing dust through tonight and Wednesday in Southwest Texas but dropped a similar prediction issued earlier for the Panhandle-Plains sector.

Road Safety Is Discussed

Possible methods for improving traffic safety on the U. S. Highway 84 by-pass around Snyder was discussed at a conference of city and State Highway Department personnel here Monday

City Manager George Patterson said concern had been expressed over the number of accidents at intersections on the by-pass and that several possibilities for improving warning and information signs were discussed.

Highway department personnel, as well as city officials are interested in any improvements which might help reduce the number of accidents..

Personnel of the highway department who sat in on the conference included Joe Middleton, maintenance foreman here, and A. L. McKee and George Williams of the district engineer's office in Abilene.

WEATHER

SNYDER TEMPERATURES: High Monday, 89 degrees; low, 55 degrees; reading at 7 a.m. today, 56 degrees.

North Central Texas: Considerable cloudiness and windy this afternoon with scattered thunderstorms and east portion tonight. Decreasing cloudiness west tonight. Much colder west and north tonight and turning colder southeast. Wednesday fair and colder. Low tonight 35 northwest to 50 southeast. High Wednesday 52 to 62.

Northeast Texas: Cloudy and windy this afternoon and tonight. Scattered afternoon and nighttime thundershowers. Clearing Wednesday. Turning colder west and north tonight. Colder Wednesday. Low tonight 40 northwest to 60 southeast. High Wednesday 55 to 65.

Northwest Texas: Cold wave warning extreme north. Strong northerly winds and much colder temperatures extreme north spreading across the remainder of the area this afternoon and tonight with near cold wave conditions extreme north. A few snow flurries northern half Panhandle this afternoon. Partly cloudy. Fair Wednesday. Colder Wednesday. Low tonight 25 northwest to 38 southeast. High Wednesday 52 to 62.

Southwest Texas: Clear to partly cloudy this afternoon and tonight. Turning cooler north this afternoon. Colder north and cooler south tonight. Wednesday fair and cooler. Low tonight 35 northeast to 55 southeast. High Wednesday 66 to 76.

C-C Panel Work Is Discussed

A group of Chamber of Commerce officers and committee chairmen met this morning to discuss plans for implementing the organization's program of work.

Activity budgets for the various committees are limited considerably this year since the chamber has gone on a firm pay-as-you-go budget. However, Bill Seale, president, said the organization is highly optimistic over prospects that committee work can even be increased. Much of the work and some special projects normally are self-sustaining anyway, and activities requiring funds likely will fall in that category.

Seale said the chamber needs additional finances, but that the organization does not believe that deficit financing is the answer.

"With people working on these committees we feel that we can accomplish a lot without any big expenditures, and after all getting people involved in the Chamber of Commerce program is one of our major aims," the chamber president said.

Sitting in on the session this morning along with Seale were Bentley Baize, vice president, H. F. Clark, George Patterson, Roy Burgess, Les Francis and Chamber of Commerce Manager Jim Heath.

Reports indicated that several committees already have begun work on their respectives programs. One of these, the panel in charge of plans for the community July 4th observance, already has completed most of its preliminary work.

CONCERT ASSN. SET FOR DRIVE

The Scurry Concert Association has set up headquarters in the community room of the West Texas State Bank in preparation for its annual spring membership drive.

The membership drive will begin officially next Monday. However, persons interested in the concert series may obtain information and sign up for membership at the headquarters at any time.

Political Crisis Brews In Saigon

By JOHN T. WHEELER

SAIGON (AP) — Premier Nguyen Cao Ky tried today to placate a rising tide of Buddhist anger at his 9-month-old military regime, but fears were voiced in Saigon that he may be unable to head off a full-scale political crisis.

The Buddhists escalated their sniping at Ky by charging that he had accused them in a speech over the weekend of being traitors, unreasonable and generally suspect.

This was coupled with anti-government demonstrations by largely Buddhist crowds in Saigon and in the northern political hotbeds of Da Nang and Hue.

Ky, in a widely publicized denial, said he had "never thought the Buddhist wishes were illogical and unpatriotic," His speech, he said in a statement, was aimed at "feudalists, colonialists and Communists" who were seeking to disrupt national unity and weaken fighting spirit rather than the Buddhist leadership.

The Buddhists are publicly demanding national elections to select a civilian government that would replace Ky's directorate of generals as well as other reforms. But diplomatic sources read the Buddhist demands as essentially a power play. In virtually every change of government in the country's recent history, the Buddhists have played a key role.

What Else Goes After Batman Book?

SAVANNAH, Ga. (AP)—What would you put in a time capsule to be opened 100 years from now?

In the year 2066, if all goes as planned, a group of pupils will dig up a time capsule on the playground at the White Bluff Elementary School — if it still exists.

Pupils at the Savannah school have been busy for a week accumulating what they think should go in the capsule.

So far they've picked a Batman comic book, a black-and-white television set, and a skate board.

Statewide Oil Allowable Gets 7th Straight Hike

Percentage Set At 33.7

AUSTIN (AP) — The Texas Railroad Commission, ending a week's delay Monday, pushed the statewide oil allowable to an all-time percentage high of 33.7 per cent of potential in April, usually the month when crude oil demand slacks off.

The commission emphasized Texas can meet "any foreseeable demand for Texas crude (oil)," and added it is watching closely areas of under-production and transportation facilities for moving oil.

The April percentage factor, postponed from the commission's regular monthly hearing last Tuesday in Midland, permits Texas' oil wells to produce a maximum of 3,199,550 barrels daily.

It was the seventh monthly allowable hike in a row.

The March allowable of 33.2 per cent permits, as of March 15, production of 3,170,316 barrels a day.

The April allowable, only the second time in 20 years for that month's production factor to be raised over March, is the highest since the commission started using percentage proration in January 1963. It is expected to provide the highest flow rate since May 1959.

The commission, in a statement, said:

"It is emphasized that Texas has considerable excess producing capacity to meet any foreseeable demand for Texas crude and is closely watching areas of underproduction so as to make available underproduced allowable to the many fields capable of producing larger quantities of future oil without waste.

"Transporation facilities from the various oil producing areas have thus far been adequate and are now being closely watched to insure that all of the oil produced under increasing market demand factors can be handled."

The commission, admittedly worried about the gap between allowables and production, said the state's underproduction percentage which approached 16 per cent in January was materially reduced in February.

The commission estimated actual production in April at 1,761,212 barrels a day, or less than 13 per cent under production.

The calendar day allowable for April, by districts:

Dist. 1, 61,094 barrels; Dist. 2, 144,725; Dist. 3, 383,128; Dist. 4, 247,596; Dist. 5, 35,981; Dist. 6 (outside East Texas field), 154,316; Dist. 6 (East Texas Field), 128,539; Dist. 7B, 147,728; Dist. 7C, 159,057; Dist. 8, 887,313; Dist. 8A, 441,987; Dist. 9, 267,599 and Dist. 10, 141,487.

Panel Eyes Discovery Allowable

AUSTIN (AP)—Oilmen said Monday they liked the Texas Railroad Commission's proposal to extend the discovery allowable period from 18 to 24 months, but several said it did not go far enough in providing stimulus or oil exploration.

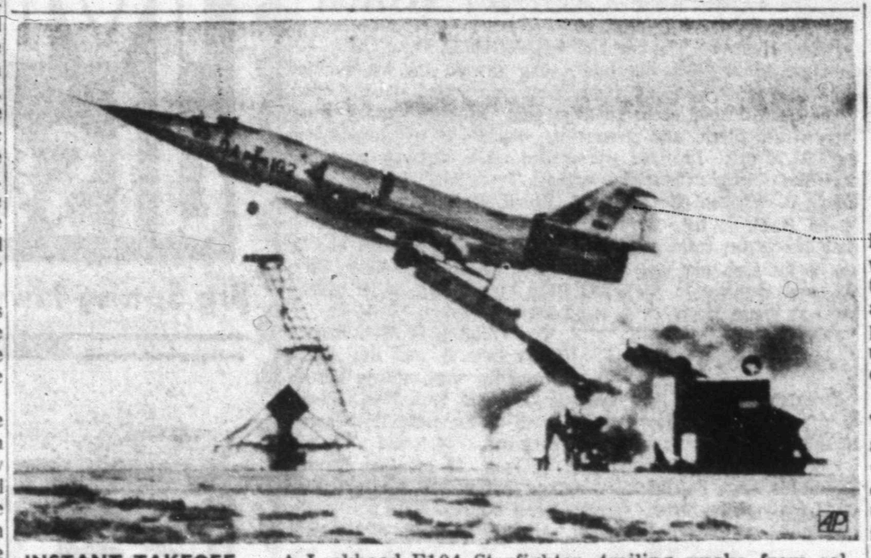

Shell Oil Co., for example, said commission rules should be amended to permit a total of 10 wells in a new field before a discovery allowable ends.

Elmer Patman, speaking for Superior Oil Co., said to extend the discovery allowable period without first finding a way to reduce the gap between allowables and production would be "an exercise in futility."

He said the structure of the oil industry has changed greatly since the original discovery allowable rules were adopted in 1946.

Those rules state that during a discovery allowable period a well may produce more oil than normally is allowed and also is exempt from the market demand factor set each month by the commission. The discovery allowable period now is for 18 months or until the sixth well in the reservoir is completed.

Shell supported extending the period to 24 months, but said it is more important to increase the number of wells that may be completed before the period terminates.

INSTANT TAKEOFF — A Lockheed F104 Starfighter, trailing smoke from solid-propellant rocket motor, leaps into the air during "instant takeoff" test of ZELL launching apparatus at Edwards Air Force Base, Calif. Test, made in 1963 and secret until now, was made for the German Air Force, which now is conducting its own tests near Munich. Test of the Zero Length Launch apparatus was to determine capability of combat takeoff without runways for takeoff. Rocket motor beneath plane is jetisoned after launch. (AP Wirephoto)

Senate To Approve Vietnam War Funds

By HARRY KELLY

WASHINGTON (AP) — The Senate is expected to give overwhelming approval today to a $13.1-billion Viet Nam war chest — after a warning that Americans may show their frustrations at the polls if the Communists aren't forced to the peace table soon.

The blunt election-year warning came Monday from Sen. Richard B. Russell, chairman of the Armed Services Committee and one of President Johnson's strongest supporters on Capitol Hill.

Declaring that "the American people will not tolerate indefinitely the kind of war we are waging there," Russell urged harder blows at the North Vietnamese, including the closing of the port of Haiphong.

Russell indicated he had expressed these views to President Johnson. The Georgia Democrat said he saw little danger of the Chinese marching into the conflict "as long as we do not land forces near the China border." In any case, he said, "we will be compelled to take a calculated risk to bring this war to a close."

Russell gave his views as the Senate opened debate on the $13.1-billion supplemental appropriation with Sen. Joseph S. Clark, D-Pa., urging the United States to end the war by negotiating with the Viet Cong.

The appropriation bill was sought by President Johnson to provide U.S. forces with a bigger arsenal of men, money and firepower to carry on operations in Southeast Asia.

Senate leaders had hoped to complete action on the measure Monday but put off a vote until today after Clark urged that more time was needed for speeches.

As for the Viet Cong, Russell said he had concluded "we should push this war until the North Vietnamese would at least be willing to permit their alter egos or Charlie McCarthys, or whatever they are, to join them at the conference table and bring this war to a conclusion."

Drumming at the political situation, Russell expressed belief that "it is going to be necessary to have a change in policy in some direction in the very near future or, in my opinion, this war will assume political proportions that will absolutely force it upon any man who has to go before the electorate of this country and seek public office."

Russell said the present search-and-destroy tactics may bring the Viet Cong to their knees after 10 or 12 years.

Train Wreck Proves Costly

Total damage estimates in the 16-car derailment of a Santa Fe freight train here Sunday morning ranged to $100,000 Tuesday as workmen continued their cleaning up operations.

Damage to the cars, various merchandise, and track in addition to the cost of repair and replacement and delay in shipping could boost the estimate even higher.

Prompt and efficient wrecker crews restored service on the main line Sunday after a disruption of only about eight hours.

The cattle were returned to the line by Ezell-Key employes. Only one of the animals died as a result of the accident, although several were bruised and sore. They were re-loaded onto Santa Fe cars and continued on their destination to Slaton.

Considerable wreckage and debris remained at the scene of the accident near the Twenty-sixth Street crossing this morning as the crews continued their operations with a Wednesday goal for completion still a possibility.

SUKARNO'S WAR

Military Regime May End Raids

By JOHN CANTWELL

SINGAPORE (AP) — Diplomats in Singapore predicted today that Indonesia's new military regime will gradually call off President Sukarno's three-year-old undeclared war against Malaysia.

Diplomatic sources said they expect Indonesian armed raids against Malaysia will end but the propaganda campaign against the federation of former British territories probably will continue for some time.

Lt. Gen. Suharto's new regime realizes it must improve Indonesia's economy if it is to avoid widespread opposition from the people, one diplomat said, and one of the quickest ways of doing this would be to reopen trade with Singapore and Malaysia.

President Sukarno's "confrontation" with Malaysia disrupted his country's shipment of tin and rubber through Singapore and Malaysia, the main source of Indonesian foreign exchange. The tin mines and rubber plantations in Indonesia have been allowed to run down during the past two years, the sources said, but Radio Jakarta said today rubber plantation workers have been ordered to step up their output.

"The people of Indonesia are tired of going hungry," one diplomat commented.

"One of the main reasons for the student demonstrations that led to the downfall of Sukarno and his aides, Subandrio and Saleh, was the economic chaos in the country."

Until they were fired by the army last week, Subandrio was first deputy premier and foreign minister and Chaerul Saleh was third deputy premier. Both were regarded as pro-Peking.

The diplomats' predictions of a softer line against Malaysia were also based on a statement by the new foreign minister, Adam Malik, Monday that Indonesia's foreign policy under the previous government was undignified.

The new regime's task "is heavy because we must bring back the nation's prestige in the eye of the people and the outside world," Malik declared.

Recovering Market Continues Climb

NEW YORK (AP) — The high-stepping glamour stocks made further strides today as the stock market extended its recovery into the fifth straight session. Trading was heavy.

Color televisions, other electronics, airlines, aerospace issues and other fast-moving stocks ran up sizable gains.

Around midsession some of the biggest gainers among them were clipped by profit taking but many others remained well ahead.

MIDGET DOES AN 'H' OF A JOB — This in the U.S. midget submarine Alvin that found the long and anxiously sought hydrogen bomb lost two months ago in an American bomber-tanker plane crash over Spain. Alvin is reported to have spotted the bomb, with its parachute still attached, 2,500 feet under the surface of the Mediterranean about five miles offshore from Palomares Beach, Spain. (AP Wirephoto)

Texas Loses As A-Smasher Site

WASHINGTON (AP) — The government narrowed to six locations today its search for a site for a $375-million atom-smasher, the world's largest.

The National Academy of Sciences, after appraisal of 85 proposed sites, recommended further study of sites at:

Ann Arbor, Mich.; Brookhaven National Laboratory, N.Y.; Madison, Wis.; the Sierra foothills near Sacramento, Calif.; South Barrington or Weston, near Chicago, and Denver, Colo.

As to the first five sites, the selection committee said they all have "either the nucleus of a strong accelerator design group or one of the nation's outstanding universities nearby."

Denver, the report said, "has neither the university strength nearby nor the existing design group that is considered desirable." But it said the combined advantages of geology, accessibility, good climate and an area readily available large enough to accommodate any conceivable experiment or expansion are such as to make the Denver site merit serious consideration.

The recommendation is not binding on either the Atomic Energy Commission, which would operate the 200-billion-electron-volt particle accelerator, or Congress, which has not yet authorized the new atomic research laboratory.

The reduced list goes to the Atomic Energy Commission for the final site selection.

At one time more than 200 applicants were in the running.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: I have just experienced one of the most uncomfortable afternoons of my whole life. I had a luncheon for three close friends, one of whom is a widow. The other two women spent the entire afternoon bragging about the gifts their husbands had given them, the trips they had taken, and their plans for future trips. The little widow had nothing to contribute to the conversation, so she just sat and listened. I could tell she was hurt. Don't women realize how often they do this? I am furious because this happened in my home. I haven't as yet had the opportunity to tell these two women how inexcusably rude they were, but I hope you will mention it in your column because they both read it.

BINGHAMTON

DEAR BINGHAMTON: You could have steered the conversation to another subject. Why didn't you? Before condemning others for their "sins,"—consider for a moment the "sin" of omission.

* * *

DEAR ABBY: My nephew was going with a very sweet girl and they planned to get married in the near future but no date was set. In the meantime he got his draft papers and the kids decided to get married right away. I suppose to some it looked like he got married to avoid being drafted. Well, the girl got pregnant soon after they were married and a big shower was held for her. I went and took a nice gift against my husband's wishes. He says draft-dodgers who have babies right away to keep out of the service don't deserve parties and presents. Abby, these young people are very much in love, and I honestly think they would have married soon anyway. My husband refuses to have anything to do with my nephew or his wife, and he has a fit when I do. HE says, "I served my country in World War II, so why should your nephew get out of going when his turn came?" Am I wrong or is my husband?

UNHAPPY AUNT

DEAR UNHAPPY: Nobody loves a "draft-dodger," but what qualifications does your husband possess to judge this boy and to indict him? I think your husband just plain doesn't like your nephew and is trying to justify it.

* * *

DEAR ABBY: A man who has been our friend for 40 years has taken up painting as a hobby, and he's pretty good. He has sold several of his paintings, so it's not just our opinion. For our anniversary gift, he painted a picture to hang over our fireplace. It's a winter scene showing a New England farm house under a blanket of freshly fallen snow, a typical blue-cold Vermont day. Well, he put a clothes line back of the house, and clothes are on it. This spoiled the whole picture for me. He should know that when it's that cold no one would hang the wash outdoors! I want to ask him to take the painting back and take the clothes line out. My husband says it can't be done without hurting the painting as it's done in oils. Can it? I just don't enjoy looking at it this way.

MARY C.

DEAR MARY: The artist can remove the clothes line without "hurting" the painting, but I can't guarantee that you won't hurt the artist's pride. Ask him, anyway. A friendship of 40 years permits certain privileges.

Pleas Are Entered In County Court

Three persons appeared in County Court Monday on charges of driving while intoxicated.

Two of them entered "no contest" pleas and were assessed $100 fines and 30-day probated They are George William Lewis of Snyder and Clifford Joe Durham of O'Donnell.

The third person, Alfred N. Carrizalez of Lubbock, pleaded guilty to the charge and received the same sentence as the other two.

Pioneer Female Legislator Dies

DALLAS (AP) — Mrs. Edith Wilmans, 83, one of the first women Texas legislators, died Monday night. She was elected to the House of Representatives from Dallas County in 1923.

Mrs. Wilmans, one of the first practicing lawyers in Dallas, County in 1923.

Mrs. Wilmans, one of the first practicing lawyers in Dallas, was an unsuccessful candidate for governor in 1924 and 1926.

Lung cancer killed 47,000 men and women in 1965. About 75 per cent of these deaths could have been avoided if the patients had not smoked cigarettes, according to the American Cancer Society.

3 Mishaps Are Logged

City Police investigated three motor vehicle accidents Monday involving damages totaling $1,195.

The most damage resulted from a two-car mishap at 7:33 p.m. in the 900 block of Twenty-fifth Street. Involved were the 1965 El Camino of Allie R. Phariss, Jr., 1301 Avenue R, and the 1956 Model Plymouth of Don Milton McCauley, P. O. Box 1002. Damage to Phariss' car was estimated at $650, and damage to the other vehicle was set at $300.

A 1962 Model White Truck operated by George Maynard Caraway of Abilene was involved in a collision with a 1953 Model Oldsmobile driven by Robert H. Merritt Sr. of Snyder. The accident occurred at 1:56 p.m. in the 200 block of the East Highway. The car had damages totaling $125, but damage to the truck was negligible.

The third mishap occurred at Twenty-fifth Street and Avenue S at 11:56 a.m. Involved were the 1964 Model Chevrolet of Harry B. Winston and the 1965 Model Buick of Inez G. Teaff. Both are Snyder residents. Damage to the Chevrolet was set at $75, and damage to the other car was about $5.

Grass Fires Put Out

Firemen answered two calls to grass fires Monday within 10 minutes.

The first call—at 7:25 p.m.—was to the Santa Fe right-of-way at Twenty-sixth Street where workmen are cleaning debris from a train wreck. The second one came 10 minutes later when the grass on a vacant lot at Avenue O and Twenty-first Street caught fire.

Faubus Steps To Political Sideline

By JOHN R. STARR

LITTLE ROCK, Ark. (AP) — For the second time in his career, Orval E. Faubus, six-term governor of Arkansas, stood voluntarily on the political sidelines today. Leaving an opening in the doorway, Faubus has announced that he will not seek a seventh term.

The only thing that could lure him back into the race, Faubus said, would be failure of the Democratic party to produce a candidate capable of challenging Republican Winthrop Rockefeller, multimillionaire brother of New York Gov. Nelson A. Rockefeller.

Faubus pleaded in a lengthy statement for a unified Democratic effort against Rockefeller in November.

Then he relaxed, smiled and said, "I'll sleep better tonight, although I've never had any difficulty."

His statement was taken with a grain of salt by many who remembered that he had retired in 1962, then changed his mind at the last minute.

He can qualify as a candidate any time before the Democratic primary ticket closes at noon April 27.

Rockefeller, reached at Pine Mountain, Ga., where he is attending a Republican school for candidates, said he would believe Faubus is out on April 27.

Republicans had predicted, even before the announcement, that Faubus would pull his 1962 switch again.

Faubus said the only announced Democratic candidate, State Rep. Kenneth Sulcer, cannot challenge Rockefeller.

He declined to assess the stature of others whose names have been mentioned.

Airman And Sister Killed

MARSHALL, Tex., (AP) — A young airman and his married sister were killed and five other persons injured Monday when his sports car overturned and rolled on a highway near this East Texas city.

Killed were Airman Roger B. Dickerson, 18, on leave from Cannon Air Force Base at Clovis, N. M., and his sister, Mrs. Reba Lois Brown, 24, of nearby Longview, Tex.

Two children of Mrs. Brown, Ronda Lois, 3, and Ray Lynn, 19 months, were among the injured, along with two younger sisters of the fatalities, Sharon Dickerson, 14, and Tammy Dickerson, 17 months. Jimmie Faye Wilson, 17, was the fifth person injured.

All were residents of Marshall except Mrs. Brown and her children.

The accident occurred on Texas 154 about six miles outside the Marshall city limits.

Lubbock Miss To Edit School Paper

AUSTIN (AP)—Gloria Brown of Lubbock was elected Monday as editor of the Daily Texan, student newspaper at the University of Texas, in a run-off against John Economidy of Wichita Falls.

Miss Brown's winning margin was 99 votes, 1,388 to 1,789, as only 14 per cent of the university's student body voted.

SWEETHEART HONORED — Mr. Roy Rogers, "Sweetheart" of Gay Twenty Social Club was honored at the annual dance Saturday evening at Snyder Country Club. Pictured above are Roy Rogers, his date Cynthia Westbrook, and the Club President, June Westfall.

WOMEN

Texas Underground Is Topic At 20th Club Meet

The Twentieth Century Club met recently in the home of Mrs. G. W. Hicks.

Mrs. Hicks was coordinator for a Texas Day program entitled "Texas Underground." She discussed the natural resources of Texas saying, "The greater part of the stored wealth, which makes Texas one of the leading states in mineral resources is conveyed through pipes. With the exception of oil, the greatest variety of minerals is found in the trans-Pecos area".

Some of the products mentioned were sulphur, iron, gas, quicksilver, copper, monganese, lead, zinc, tin, granite asphait and gypsum.

Mrs. Guy Stoker discussed a new underground plant in San Angelo. The new Ethican plant which is a branch of Johnson & Johnson, opened in 1964.

"Although Ethican's plant is of experimental design, it is natural for any industry where quality control is a watch word. The plant has 80,000 square feet of floor space. There is a parking lot capable of accomodating 170 vehicles. The lower floor of the building is devoted primarily to the manufacturing of sutures and plant service equipment. Perfection is a by word with this company, beginning with raw materials and following through until the finished product is on its way to the hospital".

Mrs. Idolph Crooks discussed a program of underground schools saying: "Students at Lake Worth Junior High near Fort Worth have been learning the hard way for years. The approach path of S.A.C.'s Carswell Air Force Base has resulted in a 10 percent loss in learning ability as B52 jet bombers thundered overhead.

"In January 1965 Lake Worth solved the problem with a new $495,000 school underground. The school is two stories deep with 18 classrooms and is completely sound proof".

Mrs. H. J. Brice discussed the Caverns of Sonora, Texas saying: "The original discovery of the 18-inch natural entrance to the 'Mother' cave was made about the turn of the century by a sheep herder. In 1955, members of the American Speleological Society discovered the active portion of the cavern.

"The Cavern was opened July 15, 1960 with beautifully lighted, broad smooth trails. The walls and floor in the diamond room are so sparkling-that a diamond which was lost by landowner, Stanley Mayfield, has never been found. Some of the cave formations include common stalogmites and stalactities and draperies. Also in un-heard of profusion are belictites, some forming loops, horseshoe and elks horns, coral in tremendous masses, forest of Christmas trees, waterfalls, war clubs, and soda straws.

"It has been described as being the most beautiful cavern in the world. It's beauty cannot be exaggerated—even by Texans".

Refreshments were served by the hostess to 16 members.

An important 1919 book that did not make the bestseller lists was Robert H. Goddard's "A Method of Reaching Extreme Altitudes," issued by the Smithsonian Institution. Goddard described his rocket experiments, and closed with this prophetic remark: "It remains only to perform certain necessary preliminary experiments before an apparatus can be constructed that will carry recording instruments to any desired altitude."

Sweetheart Dance Held Saturday

The Gay Twenty Social Club held their annual "Sweetheart Dance" Saturday evening at the Snyder Country Club. Musical entertainment was provided by the Vibrations of Lubbock.

Senior members and their escorts attending were: Pam Cole and Powers Boothe, Barbara Scarbrough, (treasurer) and Johnny Nokes, June Westfall (president) and Terry Williamson.

Senior guests were: Arnetta Cooper and Scooter Harbor, Diane Cumbie and Whit Boren, Diane Hargrove and Tommy Lay.

Junior members and escorts: Dottie Denson and George Norris, Sue Sealy and Jimmy Kubala, Cynthia Westbrook (vice president) and Roy Rogers.

Junior guests, Lana Bell and Bill Galloway, Vanna Butler and Frankie Grimmitt.

Sophomore members, Susie Hendrix (historian) and Doug Pitner, Murray Anne Jackson and Larry Hartwell, Debbie McCants and Jim Rannefeld, Debbie Mebane and Ray Kizer, Shannon Traugott and Jerry Wilson, Judy Williamson and Bobby Beard, Janet Womack and O. L. Cooper.

Sophomore guests, Betse Ashley and John Rosson, Belva Shipp and Iky Roberson.

Chaperones for the evening were Mr. and Mrs. R. L. Scarbrough, Mr. and Mrs. Don Sealy and Mr. and Mrs. Jack Craft.

Members of the club attended a slumber party after the dance at the home of Debbie McCants.

Mrs. J. D. Hinton is club sponsor.

BREAKFAST COCOA: Cocoa powder with at least 22 per cent cocoa butter.

WOMEN'S CALENDAR

TUESDAY

B&PW Club meet at Martha Ann Woman's Club. Hostesses Verba Williamson, Sallie Blythe and Mollie Pinkerton.

LADIES FABULOUS NEW CONTROL

Are you a woman whose figure is on the good side but might look perfect with just a little help? You'll be thrilled by the new easy way science has discovered for you to acquire this kind of figure perfection . . . and yet feel vibrant and young. You may have already guessed . . . combine the creative styling genius of the leader in the industry PLAYTEX with the fabulous new coolness and durability of "Lycra" and you have the brand new Playtex Lycra Girdle. Can you imagine—only four and one-half ounces and made completely without rubber. It's machine washable with your favorite detergent or bleach—won't pucker, yellow or stretch out of shape. We guarantee you that you'll be pleased with the softer, cooler, durable, wonderful control that it gives—and you'll find them exclusively in Snyder in the lingerie department at Rogers — on the west side of the square.

TRAVELING SLOW

It was thirty years ago my father traveled over precinct 2 in a 1928 Chevy. The roads were narrow and dusty. Now and then he electioneered to a man in a wagon. The car would slow up, going up a rocky hill. At the top he could see about four men plowing with a team. He always told me he went to the ones nearest the end because it took so long to turn around. Then the flies would bite the mules and they wouldn't stand still.

Plan May Fall In Guns-Butter Rift

By WILLIAM F. ARBOGAST

WASHINGTON (AP) — A proposal to build a Washington home for the vice president may get caught today in the crossfire of a House "guns versus butter" battle.

The bill was scheduled for a showdown last week but its backers postponed the test until today in hopes of building up sufficient strength to win.

The bill would authorize the expenditure of $750,000 to build an official residence for the vice president on 10 acres of land now owned by the government at the site of the U.S. Naval Observatory next door to the British Embassy. Additional money would be provided annually for maintenance and operation.

Leading the fight against the bill are House Republican Leader Gerald R. Ford and all 11 GOP members of the House Public Works Committee.

In a recent statement, Ford said the Republican opposition had no relation to the fact that Vice President Hubert H. Humphrey is a Democrat.

But this is not the time, Ford said, to spend money on any nonwar project that could be delayed until the Viet Nam war's drain on the Treasury slows down.

"This goes far beyond even 'butter' at a time when this nation also has to provide 'guns'," the 11 Republican committee members said in a joint statement.

They said there was no justification for spending the money when the administration has proposed cuts in the school milk program, military housing and educational programs.

The Democratic majority on the Public Works Committee said construction of a residence for the vice president is "long overdue" because of "the accelerating burden upon the office of the vice president."

Congress has been toying with the idea of a "little White House" for almost 50 years. In the past, several prominent citizens have offered to donate mansions in Washington as an official residence for the vice president.

The Senate last year passed a bill to set up a commission to study the whole subject.

Asks Study On Pollution

HOUSTON (AP) — House Speaker Ben Barnes said Monday the Legislature must determine whether enough is being done at the state level to control air and water pollution "or the federal government will become more restrictive in its controls."

He said pollution, education and crime are among the important problems which will require consideration by the upcoming 60th Legislature.

Barnes also told the Houston Restaurant Association's committee for good government that the next legislature will use more than half of a $3½ billion budget for education.

He said Texas, now second to New York in attracting new industry, has a good opportunity to move into the lead.

SERVICE AWARDS PRESENTED — J. P. Timmons presented service pins to a group of employes of Cogdell Hospital at ceremonies Monday afternoon. Refreshments were served by the Hospital Auxiliary. Top picture from left, seated, are Maggie Blalock and Ruth Cowan, who receive 10-year pins, Opaline Richardson, Mabelle Marsh, Caroline Wilkenson, Ethel Stewart, all 5-year pins; standing, Dixie Blackwell, Audrea Proctor, Mary Beckham, Edna Gann, Mattie Barnes, Pearl Schwartz, Mollie Hart and Jane Kuss, 5-year pins; bottom picture, Cy Miller, Rosa Starnes, Gloria Browning and Dorothy Cox, 5-year pins. Qualifying for awards but not present at the ceremony were Cellia Flournoy, Norma Franks, Maurine King, Maxine Melton, Pauline Parker, Benny Robertson, Inez Steven, Hazel White, Millie Tutor and Margarie Tyer.

Michigan Congressman Asks Probe Of Returning UFOs

ANN ARBOR, Mich. (AP)—A Michigan congressman planned today to ask the Defense Department to investigate reports of unidentified flying objects sighted near Ann Arbor.

Rep. Weston Vivian, D-Mich., left for Washington, D.C., Monday after conferring with Sheriff Douglas Harvey of Washtenaw County. Harvey said Weston also planned to talk with the Air Force.

Three times within a week residents of the nearby community of Dexter have reported flying objects in the night sky.

"I didn't believe these reports," said Harvey. "But with so many trained police personnel and reliable citizens having seen them, I must believe something is in the Washtenaw County skies."

Harvey said he failed in efforts to reach the Defense Department personally.

The latest sightings were more than a score of persons, including police officers.

With the aid of Geiger counters, officers searched the nearby Dexter area and said they found nothing.

Dexter policeman Robert Hunawell said the object he saw had red and green flashing lights and at one time zipped down to hover within 10 feet of a patrol car. He added that when the object rose again, it was joined by a similar object.

A composite description, made by police from reports of witnesses, pictured the object as triangular with a V-shaped antenna protruding from its undercarriage.

"It was almost flat on the bottom, and kind of high and peaked on top," said Frank Mannors, 47, who rents a farm house near Dexter.

"We couldn't see much except the outline and the lights at the ends, because the whole thing was wrapped in a light like a halo, and it kept shimmering.

"It was like watching something across the desert. You know how the heat waves keep changing what you see."

Mannors and his son Ronald, 19, spotted the object near a swamp and about 500 yards away.

"We went down into the swamp," Mannors said, "but there was nothing. No smell of exhaust."

Sees Inflation As Issue

DALLAS (AP) — Rep. Gerald Ford of Michigan, minority leader of the U.S. House of Representatives, says the prime cause of two per cent inflation in 1965 was the irresponsible fiscal policies of the Johnson-Humphrey Administration.

He also said a continuing increase in prices can be attributed to that administration.

Ford was here to address the Republican Men's Club and the Republican County Executive Committee.

"If Congress were to adopt the budget submitted by the President in January we will have higher taxes, higher prices and wage and price controls," he declared Monday.

"Taxes and prices are already high, and there are prospects the President will ask Congress for direct controls on the economy and an increase in taxes before the end of the year."

Ford predicted that inflation will be the No. 1 domestic issue in the 1966 elections and that the GOP will gain 40 or 50 seats in Congress.

Boys Club Cage Victors

The Bears and Wolves won the 5th grade and the Bullets the 6th grade divisions of the Boys Club basketball program.

A single elimination tournament will be held this Friday and Saturday to wind up the season. The schedule and pairings are being worked out now. The tilts will be held in Tiger gym Friday and Saturday.

J. D. Hinton is coach of the Bears. Jack Tucker heads the Wolves. The two teams tied for the crown in the 5th grade division with 9-1 records. Mickey Nunley's Bullets took the 6th grade title with a 9-1 mark.

Fifth grade standings follow: Bears and Wolves, Tigers, Steers, Mustangs, Wildcats. Sixth grade standings are: Bullets, Destroyers and Bombers, Pistols, Jets, Rockets.

Other coaches in the 5th grade division are Joe Pate, Bruce Herley, Bill Mayfield and Guy White. Sixth grade coaches include Selby Johnson and Sig Line, Dan Cotton, Ira Riggs, Dub Wright and Pinky Ferguson.

Ag Nine Is 10-0

By The Associated Press

Texas A&M puts its 10-0 record on the line Tuesday against Baylor in the Southwest Conference baseball campaign.

The Aggies also will be 2-0 in conference play to Baylor's 1-1.

Rice and Southern Methodist meet at Dallas in another conference test with each seeking its first victory.

Texas, leading the race with a 3-0 record, plays Minnesota for the second straight day and will be trying to keep its intersectional record unblemished.

The Longhorns won their third game Monday when they beat Minnesota 13-9. It also was Texas' ninth straight victory of the season.

Baylor blasted Arkansas, which does not compete for the conference championship, 9-3, scoring all nine runs in three innings.

Arkansas will be at Fort Worth today to play Texas Christian.

Minton White hit a grand-slam home and batted in five runs for the day to furnish the Texas punch in beating Minnesota's first team. The second unit was at Seguin taking a 3-2 licking from Texas Lutheran.

Girls Cage Tourney Set

GALLUP N.M. (AP) — The five-day 1966 National AAU Women's Basketball Tournament starts today with seven games.

Denison, Iowa, and Columbus, Ohio, square off in the first game at 12 p.m., EST.

Championship and third-place games will be held Saturday after semifinals are played Friday night.

Top-seeded Nashville, Tenn., seeking its fifth straight title, drew a bye in the first round with eight other teams. Eight games are slated in Wednesday's second round.

Other games today:

Silverton, Tex., vs. Cleveland, Ohio; Westchester, Pa., vs. Pasadena, Tex.; Broadview, Ill., vs. Ranger, Tex., Junior College; Salt Lake City vs. Milwaukee, Wis.; Temple, Tex., Junior College vs. Gallup, and Albuquerque vs. Phoenix, Ariz.

Wayland, Tex., Baptist College, the 1965 runner-up and last year's third place team, Raytown, Mo., are seeded second and third, respectively, and are touted to give Nashville the most competition. The defending champions, however, defeated both teams in the regular season.

THE WINNER — Catcher Roy Kizer congratulates Bobby Clardy following the Tigers' recent 6-4 verdict over Andrews in the first game of a doubleheader in Towle Park. Bobby had a few shaky moments but came on strong and went the distance on the mound. First sacker Robert Hobbs appears in the background headed for the dugout. Kizer will miss action today when Abilene Cooper takes on the Snyder High nine in a 4 p.m. contest. He has an infected knee, but will return to action this weekend. (Staff Photo).

Ford Allows Only 2 Hits In Six Frames

By HAL BOCK
Associated Press Sports Writer

It was the first day of spring so Jim Maloney ended the winter of his discontent, and Whitey Ford, Bill Monbouquette and Dean Chance served notice that it could be a long, hot summer for American League hitters.

Maloney had been spending spring training at Fresno, Calif., which was fine except that the Cincinnati Reds train in Tampa, Fla. He argued that his 20-9 record and two no-hitters last season were worth $50,000 contract in 1966.

Cincinnati's assistant general manager, Phil Seghi, who had been saying $40,000 yes, $50,000 no, flew to Fresno Monday after weeks of telephone bargaining. He talked for about three hours and finally emerged with Maloney's signature on a $46,000 pact.

While Seghi and Maloney were negotiating, Ford, Monbouquette and Chance were pitching and doing quite a job of it.

Ford, the 37-year-old dean of the New York Yankees' pitching corps, worked six innings and allowed just two hits as New York blanked the Los Angeles Dodgers 3-0.

Monbouquette, who was traded to Detroit after eight seasons with Boston, worked seven shutout innings as the Tigers rocked Baltimore 7-0.

Chance, hoping to bounce back after a so-so 15-10 record last season, hurled three-hit ball for six innings in California's 1-0 victory over Cleveland.

Elsewhere Monday, Minnesota ripped Kansas City 10-1, the Chicago White Sox whacked Boston 10-4, St. Louis downed Pittsburgh 6-3, Cincinnati shaded Houston 5-4, the Chicago Cubs defeated San Francisco 4-2 and the New York Mets ripped Atlanta 7-2. Cincinnati's B squad dropped a 2-1 decision in 11 innings at Mexico City.

Ford allowed the only Dodgers hits — singles by Lou Johnson in the second and Jeff Torborg in the fifth. The veteran left-hander now has a string of 10 consecutive scoreless innings.

Pete Ramos and rookie Dooley Womack worked the last three innings and Lou Clinton homered for the Yankees. Maury Wills, who signed his contract five days ago, made his first start at shortstop for the Dodgers. He was hitless in three at bats and walked once.

Monbouquette, 10-18 with the Red Sox last year, combined with Orlando Pena to blank the Orioles while Detroit pounded Wally Bunker and Frank Bertaina for 12 hits. Shortstop Dick McAuliffe led the attack with a triple, double and two singles.

Chance struck out five and walked one in his six-inning stint against the Indians. The Angels scored the game's only run in the fifth inning when Jackie Warner doubled and came around on an infield out and a wild pitch.

Snyder Girls Nip Stamford

The Snyder High School girls volleyball team beat Stamford in two matches there Monday night.

Coach Janet Wesson's "B" girls bombed Stamford, 15-7 and 15-3. The varsity emerged with a 15-7, 15-13 win. Mary Kitchens paced the "B" attack with nine points, and Cheryl Green tallied seven points for the varsity.

Snyder's girls will enter the district tournament Saturday at Lamesa. Sweetwater will be the foe for the first tilt at 10 a.m.

Red Raider Relays Set April 30

LUBBOCK, Tex. (AP) — The Red Raider Relays are being reinstated after a year's lapse.

The track and field meet, sponsored by the Lubbock Amateur Track Association, will go on again April 30 and will have only one division.

This time, also, it will be open to all schools rather than to only qualifiers to the State schoolboy meet.

Lack of interest and failure to get larger schools in the field were reasons for discontinuing it last year.

Daryl Spencer, former player with several major league clubs, has played infield for the Hankyu Braves of Osaka, Japan, in recent seasons but maintains a home in his native Wichita, Kan., and spends a part of each winter there.

Arteaga Reaches Quarterfinals

KANSAS CITY (AP) — Featherweight Jimmy Arteaga of Fort Worth and flyweight Roland Olivares of Houston have reached the quarterfinals of the National Golden Gloves, survivors of four Texans who started competition Monday night.

Four other Texas fighters swing into action tonight with Freedy Caram of Fort Worth in the welterweight class, Ronny Wright of Fort Worth in the Middleweight ranks, Daryl Stark of Dallas among the light heavyweights and Joe Ramey of Tyler trying in the heavyweight division.

Arteaga advanced to the quarterfinals by scoring a technical knockout over Francisco Negrin of Buffalo. Arteaga drew a bye in the first round then beat Negrin in the second round of the next.

Olivares had to win two bouts to make it. He beat Paul Lezon of Knoxville, Tenn., and Richard Calhoun of Louisville, Ky., the latter on a technical knockout in the first round.

Gilbert Avalos of Corpus Christi, the Texas lightweight champion, and Mike Andrade of Fort Worth, the bantamweight king, lost Monday night. Avalos was decisioned in the opening round by Crosby Fulbright of Los Angeles and Andrade, who had a bye in the first round, was outpointed by Leroy Gilmore of Detroit.

The quarterfinals are scheduled Wednesday night.

Cougar Ends Are Tough

HOUSTON (AP) — University of Houston defensive ends Carl Cunningham and Royce Berry and tackle Paul Otis favorably impressed Pop Ivy, New York Giants defensive backfield coach.

"Cunningham has good speed. So has Otis," the former Houston Oiler coach commented. "Berry looks like a football player to me."

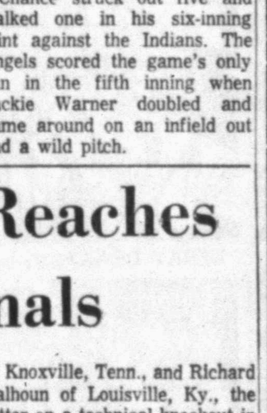

The three upperclassmen were among 89 men who showed up Monday for Houston's first spring football workouts.

"A lot of size out there. But most of it is inexperienced," said Ivy, who was in Houston on a routine scouting tour of colleges and universities.

Bill Yeoman, head coach for Houston, said his squad will "get a little better picture of things Thursday. We'll take movies and hit Thursday."

The Cougars hold their second day of spring workouts Wednesday.

Strong Cooper Nine Challenges Bengals

The talented Abilene Cooper Panthers invade Towle Park at 4 p.m. today to challenge the Snyder Tigers.

Cooper has one of the best records in the area, having won seven of eight starts. Coach Speedy Moffett's boys are 5-4 for the year.

The Panther record includes a doubleheader victory over a strong Lubbock Monterey team which earlier defeated the Tigers.

The Bengal hopes dimmed today with the discovery that Roy Kizer, senior catcher, will miss the tussle due to an infected knee. He skinned it while sliding into second and an infection set in.

Dink Foree will handle the backstop chores for the ailing Kizer. Roy Hunter, big right-hander, has been named as the starting pitcher.

The Snyder pitching has improved lately. Both hurlers—Bobby Clardy and Freddie Benitez—who opened in the doubleheader here Saturday went the distance.

Probable starters were listed, as follows: Tommy Bullard lf, Mac Galyean 2b, Robert Hobbs 1b, David Cadena cf, Ray Kizer rf, David Holt 3b, Terry Holt ss, Dink Foree c, and Roy Hunter p.

This weekend, the Tigers will be at Andrews for a baseball tournament. Their first opponent will be Lovington at 8:30 p.m. Friday. Other teams in the tourney are Big Spring, Eunice, Lamesa, Dumas, Alpine and Andrews.

West Cage Squad Has The Height

LEXINGTON, Ky. (AP)—The West added to its height advantage today as it named its final four players for Saturday's East-West All-Star college basketball game here.

Included among the last players named were 6-foot-11 Walt Wesley of Kansas and 6-7 Carroll Hooser of Southern Methodist.

Tech Begins Drills

LUBBOCK, Tex. (AP) — Texas Tech was opening spring football practice today with 35 lettermen in the 85-man squad.

Coach J. T. King said workouts will be held Tuesday, Wednesday, Thursday and Saturday each week and training will wind up with the annual intrasquad game April 30.

SPORTS

Braves Had To Move Franchise?

By HARRY CHANDLER

MILWAUKEE, Wis. (AP) — Baseball's defense against anti-trust charges brought by the State of Wisconsin appears to be based on three salient points of contention.

The National League and its members claim that:

1. The move of the Braves to Atlanta was necessary and fully justified.

2. Expansion at this time is unfeasible.

3. There was no conspiracy or agreement to abandon Milwaukee as a big league city.

Testimony to support these claims will be offered mainly in the form of depositions taken before the trial from National League officials, club owners and officials of the Braves. The testimony will be offered in absentia. Defense attorneys say the executives fear further law suits if they visit Milwaukee in connection with the trial.

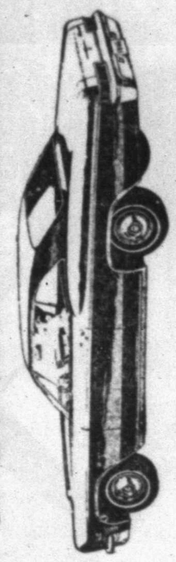

The pattern of the defense became apparently Monday — the 17th day of the trial before Circuit Judge Elmer Roller. Depositions previously taken from National League President Warren Giles, Los Angeles Dodgers' President Walter F. O'Malley and New York Mets' Board Chairman W. Donald Grant were read into the record via the question-and-answer method.

O'Malley's testimony, covering two days of questioning, was scarcely half completed when court adjourned Monday. At least half a dozen other depositions reportedly were still to come.

Giles and O'Malley cited much the same reasons for their approval of the Braves' transfer to Atlanta. They mentioned gradually decreasing Milwaukee attendance, the advent of the Minnesota Twins into big league ball with its consequent shrinking of the Braves' area of fan interest and the radio-TV market, trouble over the stadium lease and the alleged deterioration of Braves' relations with local politicians and the press.

The witnesses stated emphatically that there was no agreement to boycott Milwaukee as a big league city as the state contends.

De Gaulle Pictures Himself As Man On The Mountain

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — In the Western world there could hardly be two men more different than President Johnson and French President Charles de Gaulle. Each has a strong will. How they use it makes the difference.

Johnson is a symbol of soothing syrup, De Gaulle of sandpaper. Johnson's idea of getting people to go along with him is persuasion of one kind or another. De Gaulle's is to belt them with a mallet.

The President was the greatest Senate majority leader in this century because, in a chamber full of independent and temperamental spirits, he was able to accomplish so much.

He persuaded, cajoled, did favors, persisted, kept his voice down. The Frenchman would have been a disaster in Johnson's Senate job since he seems to regard himself as the man on the mountain giving orders on stone tablets.

When the French faced chaos in the 1950s, the need for a strong man to keep the country together was only one of the reasons for calling De Gaulle from retirement.

There was this one, too: in his lifetime he had become a legend representing the spirit of France, its refusal to be crushed, and perhaps a bridge between a golden past and a possible golden future.

Unlike so many other French leaders in World War II, he refused to yield to the Nazis and from England led the opposition to the Nazis. He would have been a ludicrous nothing if he hadn't had the Allies on which to rely.

But in his dreams of grandeur about himself and France he seems to have lost touch with reality: not only in World War II but in World War I France would have perished if the Allies had not bailed her out.

As French president he has ignored that reality and, instead of cherishing a strong alliance, has splintered it by acting as if a rearmed France could now stand alone against any enemy, which it couldn't.

He kept his British ally out of the European Common Market; he called the war in Viet Nam "stupid,' thus ignoring the fact that France fought there to hold the country as a colony until defeated and forced to withdraw; he refused to join the United States, Britain and the Soviet Union in a limited nuclear test-ban treaty; he suggested France could be leader of a third world; he recognized Red China over American protest.

His government warned Europe against trusting its security indefnitely to the United States and on March 9 France announced it would pull all its troops out of the North Atlantic Treaty Organization, which has been Western Europe's first big barricade against Communist invasion, and said France would assume control of all U.S. bases on French soil by 1969.

When De Gaulle set out his views in a letter to Johnson, he got a fast answer: De Gaulle's insistence that foreign bases on French soil should come under French command was striking at the heart of NATO and should be discussed within NATO.

De Gaulle's action could destroy NATO unless the other 14 members united to stand firm. They did so quickly and last Friday answered de Gaulle.

They said NATO and the organization established under it "are both alike essential to the security of our countries. We are convinced that this organization is essential and will continue."

Johnson would never have acted like that. And it's doubtful De Gaulle ever would have, either, if he didn't know that even if he left NATO the other members would rush to his defense if France needed them.

Even Cats Rebel At Middle Age

By HAL BOYLE

NEW YORK (AP)—Middle age must be hard on cats, too.

This theory is based on the increasingly erratic behavior of our cat, Lady Dottie.

In kittenhood and early youth her deportment was model. She was dainty, playful, affectionate and so intelligent that I was considering trying to get her into Harvard—on an athletic scholarship.

She learned early to use her box in my bathroom. She let the children on our apartment floor lug her around as if she were a doll. She rarely scratched them, even when they tweaked her tail.

Lady Dottie went through infancy, adolescence and early adulthood without suffering any really noticeable personality change.

But now that she is on the threshold of middle age and her whiskers are turning grayer, something seems to have come over her. Not being a cat psychiatrist, I can see it only as a kind of rebellion against life—so often seen in middle-aged human beings.

Lady Dottie looks long at herself in the mirror, shakes her head grimly, and stalks away.

She is full of whims and melancholy, as moody and unpredictable as March weather.

Having lost her own youth, she seems to resent youth in others. If any of the kids try to hug her, she growls like a tiger, and they drop her quickly.

She has a preference for older people. She seems to have adopted me lately. She likes to sleep at the foot of my bed. In the morning she follows me into the bathroom, rubs against my legs, and gravely watches me shave.

"I do believe Lady Dottie has got a crush on you," said my wife, Frances.

Lady Dottie quixotically seeks and evades attention.

Like many aging people, she has become finicky about her meals. If at night we give her canned fish instead of freshly warmed beef kidney, she takes a subtle revenge. After we are asleep, she goes into the living room and throws up the canned fish squarely in the middle of the rug.

She isn't allergic to it. She is just determined to have her own way—in this as in everything.

The other day I was complaining that Lady Dottie was becoming simply too temperamental to put up with. Frances heard me out, gave a wifely smile and replied:

"Oh, dry up, Rover. You used to be middle-aged yourself once, and you acted twice as bad."

Used to be? Now, what could she have meant by that?

Shanghai, with 6,900,000 people, remains the most populous city in Communist China despite its decline as a world trade center. Shanghai's colorful waterfront was once jammed with merchantmen from all over the world; now it is strangely quiet.

Junior Editors Quiz on Sewing Machine

QUESTION: How did the first sewing machine come to be invented?

• • •

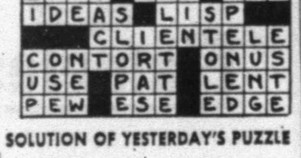

ANSWER: A crude sewing machine was made in England in 1790, another in France, in 1830. But neither of these turned out to be practical. The first machine that really worked was built by a poor American machinist, Elias Howe, and was patented in 1845. Our picture suggests the romantic origin of this great invention. Howe was an industrious man, although in poor health. Luck seemed against him. He had great difficulty supporting his wife and the three children. To help her husband, Mrs. Howe took in sewing; and it was while watching his wife work in the evening that Howe was seized with the idea of inventing a machine to make sewing easier. Working it out in his mind, he set up a machine shop in the attic and began to build a model. He lacked money to buy materials, but a friend came to his help. The two produced a machine. Although Howe proved his machine would work, no one seemed interested. Then others began to pirate Howe's ideas. But he had secured the basic patents and defeated their efforts to become a rich and successful man. Another inventor, Isaac M. Singer, created the first rigid-arm sewing machine and improved the shuttle. He also made a large fortune. 3-22

• • •

FOR YOU TO DO: Many inventions have been made by people who saw needs and filled them. Keep your eye open for some need which might be filled. You may not turn out to be an Elias Howe—but then, again, who knows?

(Joan Dunlop of Menominee, Mich., wins today's combined prize of Compton's Illustrated Science Dictionary plus $10 cash for this question. Mail yours on a postcard to Junior Editors in care of this newspaper.)

Hand, who resigned. Symington is the son of Democratic Senator Stuart Symington of Missouri. (AP Wirephoto)

Voter Rolls Up Over Half Million

AUSTIN (AP)—Texas' 15-day emergency registration period brought in 575,421 new voters in 228 counties, Atty. Gen. Waggoner Carr reports.

Carr said he still lacked reports from 26 counties and his total included estimated figures from six counties—including 100,000 for Harris County and 90,000 for Dallas County.

The turnout, Carr said, reflected the "enthusiasm and wholehearted support by state and local officials in seeing that full and adequate opportunity was given to all qualified Texans to register for the 1966 elections."

In another development, Stanley Woods, a gubernatorial candidate in the May 7 Democratic primary, released a letter to him from the U.S. Justice Department.

The brief letter, signed by John Doar, assistant U.S. attorney general in charge of the civil rights division, said the department is reviewing the 15-day registration to determine "Whether further action by the federal government is warranted."

Woods has asked a three-judge federal court to let him present arguments for extending the free registration period to 30 days before each election.

The court gave Woods until today to file briefs supporting his request.

Carr gave credit in his statement to news media for informing the public of the registration period.

"Our Texas media have once again demonstrated their willingness to assume great responsibility to their individual communities. Without the complete cooperation of each of these media the success of this undertaking would have been diminished," he said.

Airman Not Indicted

DALLAS (AP)—The Dallas County grand jury refused to indict a 20-year-old airman Monday in the Jan. 30 murder of a Seagoville woman.

Mason Gene Smith of Eustace was arrested Feb. 17 in Henderson County and charged with the rape of a 17-year-old school girl there.

Dallas County authorities then charged him with murder in the death of Mrs. Winnie Mae Vann, 45, of Seagoville. He made a statement in the Seagoville case and then repudiated it.

The Dallas jury did indict him for the theft of a pickup truck. Henderson County authorities said he was driving the stolen vehicle when arrested.

Smith was stationed at Sheppard Air Force Base, Wichita Falls, when he was apprehended. He has not been indicted by the Henderson County grand jury for the rape.

LIGHTEST MEXICO

BY JOHN ABNEY

MEXICO CITY — A lady reader from Lorain, Ohio, writes that she is planning a junket to Veracruz and Yucatan and she wants to know if there are any real jungles on hand. Also, should she wear a dress or what?

Ma'am, you will find some of the realest jungles in Veracruz State to be found anywhere. Lush, tropical rain forests. In the part of Yucatan where you are headed (to see the Mayan ruins) there are some dense forests but not the regular jungle type. That lies further south.

As to clothes you see the tourist ladies wearing just about anything but it depends largely on how far off the beaten path you plan to get. Sticking to the guide trails, a dress or khaki skirt and some kind of a blouse will do all right. If you get in the sticks, you should wear slacks or jeans to protect your legs against scratches. Jungles are nice if you dress for them. Just figure it like if you were going for a walk in some thick weeds up home. You wouldn't put on a cocktail dress for the boondocks (would you?). There will be guides around the ruins and it's a good idea to pick one up to show you through. You'll find good hotel accomodations at Chichen Itza in Yucatan and you will enjoy a stay right at the ruins. Chichen Itza in Yucatan was the capital of the ancient Mayan Empire. No point in listing all the ruins to visit there because the guides will show you through the whole place. Of outstanding interest, however, is the huge sacrificial well — about 200 feet across—into which Maya maidens were flung to become wives of the rain god. Until the tribe decided it was a shameful waste of talents and took to offering other items instead. Loads of jewelry (worn by the sacrificed senoritas) have been taken from the big well and what wasn't pilfered by private enterprise is now in museums around Mexico.

Could you tell me of the naturalization laws of Mexico?

That is something involved in any country. I have two suggestions. One, you can write to Relaciones Exteriors, Ave. Juarez, Mexico City. Second, you can check with the nearest Mexican consul and pick up all the information he has. Possibly, he can give you the whole story and set you on the trail to becoming a Mexican citizen.

* * *

An elementary school with which my students can exchange letters in Spanish?

You might write to The Superintendent, The American School, Calle Perfirio Diaz, Mexico City. He will line you up with students of the grades you need. The American School is taught in both English and Spanish and has classes of Mexican children who should get a charge out of writing to your Ojai (Calif.) students.

* * *

Information about institutions offering instruction in painting or drawing outside Mexico City?

The best known is the Art Institute at San Miguel de Allende. It is recognized as tops in its field and has some excellent instructors. The climate of San Miguel is warm in the summer and cool (but not cold) in the winter months. Days are always warm. The institute itself is a remodeled old convent and has plenty of charm and personality. I don't think you'd go wrong in giving this place a whirl. Plenty of Americans study there and are delighted with it.

(Questions on Mexico? Write John Abney, Damas 106, Mexico City, 19, Mexico.)

ON 3-MAN APOLLO

Grissom Due Third Space Ride

By RONALD THOMPSON
AP Aerospace Writer

SPACE CENTER, Houston, Tex. (AP)—One of the United States' original astronauts, Virgil I. Grissom, almost drowned in 1961 when his Mercury capsule sank after he became the second American to rocket into space.

About four years later, he took his second space ride — the first man to do so — as command pilot on the maiden mission of the two-man Gemini program.

Now, he is back again, to launch another project. The short, crewcut Air Force lieutenant colonel will be commander aboard the nation's first three-man spaceship, an Apollo craft like one designed to carry men to the moon.

Grissom, Air Force Lt. Col. Edward H. White II and Navy Lt. Roger B. Chaffee were named Monday to take an Apollo spacecraft on a shakedown cruise of up to 14 days in earth orbit.

The flight will be the first of at least four manned Apollo flights planned before the United States attempts to shoot three men to the moon before 1970, perhaps by late 1968.

The space triplets are officially slated to take the first flight in early 1967, but if all goes well in training and spacecraft preparation for the mission, it could be launched as early as November.

Their mission might be sort of a ringing out the old, and ringing in the new in the staging a space rendezvous between the Apollo ship and the last two-man Gemini spacecraft, currently Gemini 12.

Such a rendezvous, Dr. Robert Gilruth, director of the Manned Spacecraft Center, said Monday "would have many purposes. It's always nice to have someone take a look at you (in space)."

Gemini would be taking an orbiting glance at Apollo, a possibility Apollo officials would like to see come about. Dr. Joseph Shea, Apollo program manager, said "a study is going on but it's too early to say (if the rendezvous would be attempted). The purpose of the mission is to exercise the spacecraft and the crew."

A crew has not been named for Gemini 12. However, while announcing the three-man team, Gilruth also released names of the prime crew for Gemini 11, a two-or-three-day mission to include a rendezvous, a link-up in space and a space walk.

Command pilot on Gemini 11 will be Navy Cmdr. Charles Conrad Jr., veteran pilot of the eight-day flight of Gemini 5, and Navy Lt. Cmdr. Richard F. Gordon Jr., who has not taken a flight. The two served as backup crewmen on Gemini 8.

Gilruth lauded Grissom when announcing his selection.

"Gus Grissom made the second Mercury flight back in 1961 and was the first of the astronauts to make two space flights," he said. "He was command pilot on GT-3 (Gemini 3) and now will be commander of the first Apollo mission. It is always good to have cool heads in this business."

California Probes Abortion Reports

By RALPH DIGHTON
AP Science Writer

LOS ANGELES (AP) — A number of California physicians are under investigation for performing abortions which they believe necessary, but which some authorities say are illegal.

This was disclosed at a panel meeting of the California Medical Association Monday by Dr. James McNulty, a member of the State Board of Medical Examiners.

Dr. McNulty, Los Angeles obstetrician and husband of actress Ann Blythe, declined to reveal the number of cases under investigation but said they were widespread in the state.

California law, he said, permits abortion only to save the life of the mother. He said some physicians are performing abortions, however, on the grounds that childbirth could affect the mother's mental health or that she had German measles during pregnancy, believed to cause a percentage of defective children.

"This is hypocrisy," Dr. McNulty said. "If the law is wrong, it is up to the people to change it. It is not up to the doctor to circumvent it, no matter how much he may disagree or want to change the law."

His statement drew sharp comment from Dr. Keith P. Russell, Los Angeles obstetrician who is chairman of the CMA Committee on Maternal and Child Health.

Dr. Russell, moderator of the panel discussion on abortions, at which Dr. McNulty spoke, later told newsmen:

"The State Board of Medical Examiners is appointed by the governor. It is not a group elected by the State Medical Association and does not necessarily represent the association's views.

"It is to be hoped that the board would be of help in finding solutions to problems that the majority of physicians can agree with, but this is not always the case."

The exchange reflected a growing dispute among California's 22,000 physicians over proposals to liberalize abortion laws.

The conflict is expected to break into the open Wednesday, when the CMA's House of Delegates votes on resolutions asking the association to back what they describe as "more realistic and human abortion laws."

One resolution offered by the Marin County Medical Society urges that abortion be made legal (1) if the mother has a serious physical or mental ailment, (2) if she can be shown to be morally or mentally incompetent to rear a child, (3) if the pregnancy resulted from rape or incest, (4) if the mother is unmarried and under 16 or (5) if there is a risk the baby will be malformed.

TEC Office Here Places Farm Workers

The Texas Employment Commission office here has found permanent work for seven farm workers in Scurry and Fisher Counties this month, according to Bill Estep, director.

He said eight workers also have been transported to Burlington, Colo. for work in the sugar beet fields. In addition, temporary employment for eight workers has been arranged locally.

Phelan New Sun Tax Head

DALLAS—Thomas F. Phelan, Sun veteran of 29 years, will succeed Charles D. Freeman as tax commissioner for Sun Oil Company's Production Department on April 1, John D. Pew of Philadelphia, senior vice president, has announced.

Freeman's retirement will be effective on the same date.

Thomas H. Sharp, senior taxman, will succeed Phelan as assistant tax commissioner.

Phelan and Sharp will continue to maintain offices in Sun's Southwest Production Division headquarters at Dallas and also will serve other production divisions throughout the United States and Canada.

Crash Kills Five Of San Antonio Family

WAELDER, Tex. (AP)—Five members of a San Antonio family were killed Monday when their car slammed into a pine tree just off U.S. 90 between San Antonio and Houston.

The mother and her four children were identified by a justice of the peace as:

Maria Doria, 30; Frank, 4; Andie, 2; Palacio, 3; and Rosa Marie, 9.

A fifth child, Pablo, 6, was listed in critical condition.

Investigators said the woman's car smashed into a tree four miles west of Waelder in Gonzales County.

Buick's $1,000,000.00 Sweepstakes.
How would it feel to have an extra $2,332 in cash?

A new list every week from now until March 31st. 429 first prizes.

If you take a minute to check our list of winning vehicle identification numbers, you may know how it feels this week.

The contest's in its last week. So hurry. Here's how it works. Look at the first symbols (the prefix) on your vehicle identification slip. Then look at the symbols listed above. If you find yours on the list, you've taken the first step toward being a winner. Now go see your Buick dealer. He has a list of 72 winners posted in his showroom. If you see your entire vehicle identification number on the poster—the symbols plus the rest of the numbers—$2332 cash is yours. (If your prefix isn't listed in this ad, don't give up. Your numbers may have been posted during the past six weeks. Every week 72 winners were posted on the showroom wall. You may have missed your number before.) No slogan to invent, no puzzles to solve. In fact, you don't even have to own a Buick to have a winning number.

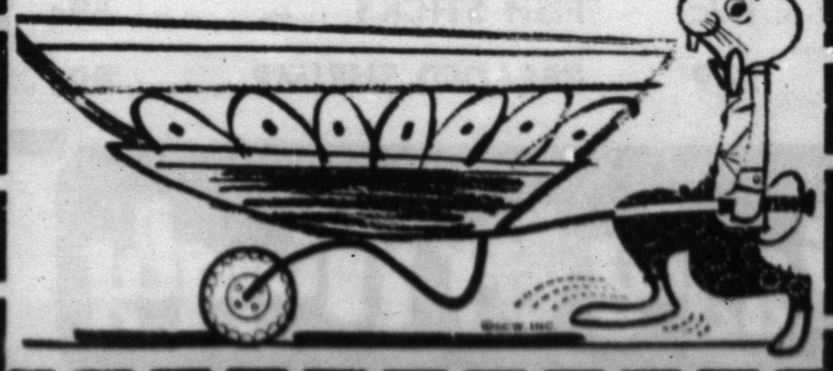

Contest Rules: Residents of Kansas, Missouri and Nebraska may, if they prefer, send in a postcard to R. L. Polk and Co., P.O. Box 1347, Detroit, Michigan 48231 and receive the weekly list of winning numbers by mail for comparison with their own vehicle identification number. An official entry form will be included. Sweepstakes limited to persons over 21 living in the continental U.S. Not valid in Florida or states where prohibited by law.

Hurry. Buick's $1,000,000.00 Sweepstakes is in its last week.

There's an authorized Buick dealer near you. See his Double-Checked used cars, too.
