

Administrator

Sir Lyman Duff (above), Chief Justice of the Canadian Supreme Court, assumed the title of "Administrator of Canada," following the recent death of Governor General Tweedsmuir. He will represent the British throne in the Dominion until King George appoints new Governor General.

Officials Protest Fire Rating Penalty Against Big Spring

BIG SPRING, Feb. 15.—Protest against the imposition of a 15 per cent penalty on Big Spring's fire rating in the place of a 20 per cent credit was made Wednesday by E. V. Spence, city manager and chairman of the League of Texas Municipalities cotton hazard insurance committee, to Marvin Hall, state fire insurance commissioner.

In a telegram to Hall, Spence reminded the commissioner that league representatives had been promised a "hearing before any action was taken" on fixing of rates involving loss on government loan cotton.

The manager requested that such a hearing be called and that the imposition of the penalty be withheld pending outcome of the hearing.

Spence, in his communication to Hall, said in part: "I appeared before you last year with E. E. McAdams of the League of Texas Municipalities regarding loss of government cotton by fire and protest assessment of penalty, and you assured us we would be given a hearing before any action was taken on same." He then asked that a hearing be called and that the penalty be withheld.

Copies were sent to W. L. Marr, Lamesa mayor, H. P. Kucera, Dallas city attorney, members of the league committee, and to McAdams, who is executive secretary of the league, asking that they press for the hearing.

A resolution by the league was cited by Spence. Adopted last year, it contended that loss of government cotton did not constitute normal fire record or experience of cities.

Big Spring's rate change was based on a \$500,000 compress and cotton (\$440,000 of the amount) loss here in 1938.

Lenten Services to Be Held Tonight

Lenten services will be held at Trinity Episcopal church this evening at 7:30 o'clock, conducted by Rev. Oliver C. Cox of Big Spring. Mr. Cox will also conduct Holy communion service at the church Friday morning at 10 o'clock.

The services tonight will be followed by an informal period of church instruction. Anyone who is interested is invited to attend both the service and the instruction period, Episcopalians announced today.

Dutch Demanding Full Pay for Sunken Liner

AMSTERDAM, Feb. 15. (AP).—The Netherlands announced today that she would demand full indemnification from Germany for the torpedoing last Saturday of the 6,853-ton Holland-American liner Burgeidijk.

O-36-U6 HERE.

One landing for today and two additional ones made late Wednesday were reported from Midland Municipal Airport early this afternoon. Capt. F. H. Schwable, flying an O-36-U6, landed today. He came from Abilene en route to El Paso.

The others were: Lieut. L. J. Dow in a TBD-1, who came from Barksdale Field, La., and went to Tucson, Ariz., and Lieut. Rohrbough, in a C-39, who came from Barksdale Field and went to El Paso.

BUYS MIDLAND LAND.

J. C. Franklin of Mitchell county has purchased two sections of land in the southeast part of Midland county and is moving here. He will engage in both farming and stock raising.

Storm Toll Reaches 36 Along Coast

Gales at Sea Bring
New Menace to Life,
Property in New York

NEW YORK, Feb. 15. (AP).—Gales at sea brought a new menace to life and property today in the wake of winter's heaviest snowstorm which left 36 known dead, scores injured and drifts piled high throughout the east.

The weather bureau reported "a storm of great intensity attended by gales over a wide area" was raging 150 miles east of Nantucket, Massachusetts.

NEW YORK, Feb. 15. (AP).—The worst blizzard of the year pounded the Atlantic seaboard all day and last night with a blinding mixture of snow, rain, sleet, wind, and fog.

The storm, screaming up from the south and funneling as it spread, reached a 100-mile an hour crescendo at the Empire State building and dropped a burden of deepening snow and ice over a dozen states.

The freezing gale winds, strong since the 1938 hurricane ripped a \$500,000,000 path of destruction across Long Island and New England, left a trail of traffic deaths and wrecked power lines and harried shipping. The storm blocked highways with snowdrifts up to 20 feet deep and grounded commercial air traffic from Ohio to Boston.

Hundreds were hurt in storm accidents. In New York City, faced with the possibility of its most serious traffic clean in years, emergency police details were kept busy caring for more than 100 injured. A wind gust swept one man to his death from a fourth floor scaffolding on the Criminal Courts building. A woman, blown against a building in the financial district, suffered a fractured skull.

Several newspapers featured reports that Germany was sending a large number of troops to the Caucasus to help Russia defend the oil supplies.

All this coincided with reports that large forces of British Indian and Moslem troops had arrived in French-ruled Syria from Egyptian bases.

This would free French troops now quartered there, and was interpreted in foreign military quarters as meaning that the British-French near-eastern army, already more than 500,000 strong, was being concentrated even closer to Turkey.

The entire press carried descriptions of Russia's new fortifications on the Caucasus frontier and said the Russians were fortifying Odessa and other ports in this part of the world.

The arrival this week of more British troops in the Near East—30,000 Australian and New Zealand troops reached Egypt Monday—was applauded as showing that "the Allies are ready for any eventuality in this region."

Miss Estes, who appeared in Midland last year as accompanist for the violinist, Josef Piastor, is a native Texan but for many years has been a resident of the East and the West Coasts. She is outstanding because of her playing of the works of Bach, Beethoven, Brahms, and Chopin. The musician made her New York debut in Town Hall and has made many appearances with orchestra and chamber music ensembles.

Following is the program for tonight:

I. Fantasia and Fugue in G minor, Bach.

II. Rhapsody in B minor, Brahms; Intermezzo—Op. 117 No. 2, Brahms; Scherzo—No. 4, Brahms.

III. Sonata in B Minor Op. 58, Chopin; Allegro maestoso; Scherzo—molto vivace; Largo; Finale—presto non tanto.

IV. Chant d'Amour, Stojowski; The Fountain of the Acqua Paola, Griffes; Paraphrase on the Flower

Waltz, Tchaikowsky-Grainger.

Tickets for the concert, at 50 cents and 35 cents, are on sale today at the Petroleum pharmacy and the Midland Drug store. They will also be sold at the door tonight.

Virgean Englande Estes to Present Piano Concert Here This Evening

Virgean Englande Estes, known as one of the leading women pianists of the day, will present a comprehensive program of piano literature when she plays a full concert program at the North Ward school auditorium tonight at 8 o'clock. She will appear under auspices of the Civic Music club.

MORE RESERVES ARE CALLED TO COLORS BY FINLAND

American "Awkward Squad" in Finland

This "awkward squad" of ski troops is part of the first contingent of army volunteers from Canada and the United States to arrive in Finland. They are being instructed by a Finnish expert. Photo taken by Eric Calcraft, NEA staff photographer in Finland.

Allowable in the Wasson Pool Hiked By RR Commission

AUSTIN, Feb. 15. (AP).—Railroad Commissioner Jerry Sadler reported today the commission had increased the daily allowable of the Wasson pool in Gaines and Yauk counties from 22,000 to 38,935 barrels daily.

State Hospital Supervisor Out

SAN ANTONIO, Feb. 15. (AP).—Samuel R. Hines, outside supervisor at the San Antonio State Hospital, has been discharged, Superintendent W. J. Johnson said Wednesday.

Dr. Johnson said Hines had been discharged prior to receipt of a copy of a resolution passed by the Board of Control yesterday seeking to prevent dismissal of hospital employees without the board's approval.

In confirming Hines' dismissal, Dr. Johnson said two other employees had been discharged recently "for deserting their duties in order to play poker." He estimated dismissals since Jan. 1 would total four.

Discharge of Hines was not to be regarded as an answer to the Board of Control resolution, Dr. Johnson said. He added he saw "no reason why I should not" make further dismissals should such measures become necessary.

A Board of Control hearing on morals charges questioning the fitness of Dr. Johnson to continue as head of the institution is in temporary adjournment.

Golden Glovers Off To State Tourney

Three boys representing the Midland district in the state Golden Gloves tournament to be held in Fort Worth, tonight through Monday night left this afternoon. The three, Walt Stone of Crane, Earl Pace of Midland and Ray McKinnon of Big Spring, were accompanied by Mrs. Stone, Jess Rodgers, director of the district tournament here, and Bob Royall, trainer.

McKinnon is to fight tonight while Pace and Stone will not fight until tomorrow night.

Three other members of the team, Ruffin Rhone, Wickett, Dexter Jay, Monahans, Bob Weaver, Kamit, left Tuesday for Fort Worth. Two other members of the team were unable to make the trip.

New Pecos Ordovician Producer Is Gauged at 129 Barrels in 9 Hours

BY FRANK GARDNER.

Skelly Oil Company No. 1 J. S. Masterson, new Ordovician producer extending the Apco Ellenberger pool of northern Pecos county one-quarter mile southwest, responded to first-stage acid treatment with 1,500 gallons by flowing 129 barrels of 42-gravity oil in nine hours. It made 44 barrels the last three hours of the test.

Flow was through open 2-inch tubing set on bottom at 4,616, 56 feet in the Ellenberger, lower Ordovician, which was topped high structurally. A second treatment, of 3,000 gallons, was scheduled today for the well, which is located in section 194, block 10, H&G.N. survey.

An Ordovician test eight and one-half miles northwest of the Apco pool, Humble Oil & Refining Company No. 1 Mrs. Bertha D. Young, this morning was drilling at 5,070 feet in Permian lime.

It is reported that Phillips Petroleum Company No. 1 Sarah Byrne, "tight" wildcat several miles southwest of Owego in north central Pecos, is being plugged and abandoned. The well tested only a slight showing of gas while bottomed at 1,665 feet in lime after shooting with 20 quarts of nitro from 1,648-58 and attempting to acidize with 1,750 gallons. Last definitely known depth was 1,680 feet.

Richmond Drilling Company and Tom F. Hunter No. 1 University, scheduled 5,400-foot deep Permian try in southwestern Andrews county, recovered 13½ feet of hard, non-porous lime bleeding a little oil by coring from 1,345-59 feet. Core from 4,359-72 feet returned 13 feet of hard, oil-stained lime, bleeding in streaks. The well is drilling ahead below 4,376 feet in lime.

Landreth Production Corporation and Shell Oil Corporation No. 1-A J. L. Johnson, deep Permian test in central Ector county, showed only black shale in cores from 5,116-20 and from 5,120-26 and this morning was coring ahead below 5,141 feet in black shale.

Matt A. Grisham et al No. 1 R. B. Cowden, deep Permian wildcat in extreme northwestern Ector, is drilling below 4,100 feet in lime.

J. D. Bodkins et al Midland No. 1-J Johnson, cemented 5½-inch casing on bottom at 4,013 feet in lime, and rig is being skidded to the same operator's No. 1-E Johnson. The tests are at the west side of the Johnson pool in Ector.

Stanolind Oil & Gas Company No. 1 W. F. Cowden, deep test in northwestern Ector, is testing for shut-off bottom-hole sulphur water after plugging back with lead wool to 5,215 feet from total depth of 5,237. Wristen Is Tested.

A 45-minute drillstem test of Gulf Oil Corporation No. 5 Wristen Brothers, southeastern Ward county Ordovician test, showed rise of 900 feet of oil and gas-cut drilling mud. Wall packer was set from 3,970-80 feet, and total depth at the time was 4,260. This morning, the wildcat was drilling ahead at 4,270 feet in lime.

Gulf No. 5 M. B. McKnight, western Crane county Ordovician wildcat, is fishing, bottomed at 6,086 feet in an unreported formation.

HERE ON BUSINESS.

Carroll F. Hinners of Fort Worth, city sales manager of the American Airlines, and W. H. Scott of Big Spring, station manager for American Airlines, were business visitors here today.

CONTACTS FAIR MEN.

Lynn Beutler of Elk City, who with his brother, Jake, has furnished broncos and bucking steers for the Midland Rodeo two seasons, was here this morning and expects to return late today from Colorado City. He is contacting officials of rodeos relative to furnishing stock for the next shows.

FROM STANTON.

Mrs. J. E. Kelly, co-editor of the Stanton Reporter, was in Midland this morning on business.

Another Divorce for
FDR's Family Looms

NEW YORK, Feb. 15. (AP).—The New York Times said today that James Roosevelt, eldest son of the president, and his wife, formerly Betsy Cushing, to whom he was married ten years ago, are planning divorce action in California courts.

POET TO BE IN ODESSA.

Lexie Dean Robertson, Texas poet laureate, will be presented in a recital at the high school auditorium in Odessa this evening. Her appearance is sponsored by the Odessa Women's Forum. Tickets are 50 cents each and the recital-lecture is open to the public.

Two German Submarines Declared
Sunk by British Off East Coast

LONDON, Feb. 15. (AP).—Destruction of two more German U-boats, one of which had sunk a big, meat-laden freighter half an hour before, was stamped on the credit side of Britain's sea warfare ledger by the admiralty last night.

In British eyes such a triumph against undersea marauders—making four submarines announced sunk within five days—overshadowed the government's action in giving formal approval to recruitment and enlistment of thousands of British volunteers for Finland.

Scouting Officials
Will Meet Tonight

Regular monthly meeting of officials and committeemen of the Midland district of the Buffalo Trail Council, Boy Scouts of America, will be held at the Scout Hall this evening at 7:30 o'clock, it has been announced by W. Raymond Upham, district chairman. Several highly important matters are scheduled for discussion, a full attendance of all officers and committeemen being urged. An invitation has also been extended all Scouts of the Midland district to attend the session.

Germans Threaten
U. S. Shipping to
Neutral Nations

BERLIN, Feb. 15. (AP).—Germany informed the Americas Wednesday that the British and French viewpoints must be "fundamentally revised" before she could consider the American "safety zone."

The Nazi position was stated in a note handed to the foreign minister of Panama by the German charge d'affaires there in reply to a protest from the Pan-American Service store here, Messrs. Firestone and Wylie left for Big Spring, San Antonio, Brownwood and other points in the Dallas territory.

After visiting Marshall Crawford, manager of the Firestone Service store here, Messrs. Firestone and Wylie left for Big Spring, San Antonio, Brownwood and other points in the Dallas territory.

Younger Firestone Visits Midland on Tour of Southwest

Making his farthest western stop, Raymond Firestone, president of the Memphis, Tenn., factory of the Firestone Tire & Rubber Co., visited Midland last night and early this morning, accompanied by S. W. Wylie, assistant manager of the Dallas branch.

The Memphis factory employs from 1,500 to 2,000 workers, Mr. Firestone said, and consumes vast quantities of the south's cotton products. He expressed much liking for the southern territory and the southwest, declaring labor conditions to be better and the citizenship of the finest. The Memphis area, from which his employees are secured, has a citizenship only three per cent foreign, Mr. Firestone said.

The young executive is one of five sons of the rubber pioneer, the late Harvey S. Firestone. Three of his brothers, Harvey Jr., Russell and Leonard, are executives on the Akron plant, or home factory, Roger is in charge of the Fall River plant. The only sister, Elizabeth, whom he jokingly said "should have been placed in charge of one of the factories, married Ray Graham of Long Island, member of the Graham motors family.

After visiting Marshall Crawford, manager of the Firestone Service store here, Messrs. Firestone and Wylie left for Big Spring, San Antonio, Brownwood and other points in the Dallas territory.

Announcement was made by Norman L. Woody today of his candidacy for the office of county sheriff, tax assessor and collector. Woody is the son of a pioneer West Texas family, spent much of his life on a cattle ranch and has had experience as a peace officer, having served for several months as a deputy sheriff. In connection with his race for sheriff, Woody said:

"Before entering the race for sheriff, tax assessor and collector, I have talked with many citizens representing various interests and vocations and have received sufficient encouragement, I believe, to make this effort.

"I have had sufficient experience as a peace officer to know that the work is largely with the apprehension of criminals to be brought to trial for violations already committed. I am also much impressed with the idea that a great deal of work can be done to good advantage in the prevention of crime. I like the work of a peace officer and will try to work with parents in their problems of erring and delinquent youth. I expect to keep in close touch with schools and civic organizations looking to the welfare of the community and prevention as well as punishment of crime.

"In the tax department I will maintain efficient assistants so that this work will go forward with accuracy and dispatch.

"My whole time will be devoted to the office. I expect to make a sincere effort to be elected and try to see each voter if possible."

Association Radio
Speaker Scheduled

Monday evening, February 19th, at 6:45 to 7 o'clock, the Permian Basin Association will present the sixth of its series of educational broadcasts to the radio listeners of the Permian Basin over the joint facilities of KGKL, Big Spring, KJST, San Angelo, KPYO, Lubbock, and KRLL, Midland.

The speaker for this broadcast will be Harry Ratliff, outstanding West Texas attorney from Colorado City, and an authority on the problems confronting the oil industry. The subject of Mr. Ratliff's talk will be "The Major Industry and Its Burdens."

The Permian Basin Association urges that every radio listener tune in on this outstanding broadcast.

CATTLEMEN VISIT HERE.

Cattlemen visiting in Midland today included Jax M. Cowden and Gilbert H. Cowden of Crane and John H. Edwards of Monahans.

58,000 Tons Said
Sunk by Germans
On Sea Yesterday

BERLIN, Feb. 15. (AP).—The German government today reported 58,000 tons of shipping yesterday in a "particularly successful day from the German sea war."

Regarding land activities, the communiqué said:

"As a result of patrol activity south of Saarbruecken numerous prisoners were taken."

Another Divorce for
FDR's Family Looms

Invaders Repulsed Along Karelian Isthmus Front

HELSINKI, Feb. 15. (AP).—Finland today called another class of reserves to the colors—the second in 24 hours—as furious fighting on the Karelian isthmus was reported to have cost Russians 3,500 dead.

The class of 1896 was called up today. A Finnish communiqué described heavy fighting on the isthmus, now in the fifteenth day of battle, and declared invaders had been repulsed on numerous sectors.

In one attack the Finns said they had captured two tanks, turned them around and put them into immediate service against the Russians.

The first air raid alarm in weeks sounded in Helsinki today but no bombs were dropped although 27 soviet planes dived over the capital.

16 SOVIET PLANES
REPORTED SHOT DOWN.

HELSINKI, Feb. 15. (AP).—Finns shot down 16 soviet planes yesterday and Russian fliers, fighting among themselves, downed one of their own aircraft, a communiqué asserted without shedding any further light on the incident.

Finland, calling more men to the colors and still holding an unbroken Mannerheim Line against the greatest assaults since the World War, has no choice but to fight on, regardless of how the battle goes, President Kyosti Kallio declared last night.

"Everyone knows we are outnumbered fifty to one," the veteran chief executive told news correspondents in an informal chat at the presidential residence.

"But the issues at stake are clear. We appreciate the sympathy shown us by Americans in our struggle to be free—indeed to live at all—but we really hope our cause might stir onlookers abroad to offer us material help.

"For after all we are defending the interests common to all civilized peoples.

"If, however, such help does not arrive we cannot change our course. Regardless of the overwhelming odds we would still carry on our fight—if it must be alone.

"The alternative is extinction for our nation.

"If the world ignores us in our need, we have no choice but to fight to the last man."

Before the president spoke to the newspaper men, Vihuri, Finland's Karelian city, was bombed repeatedly by Soviet Russian planes, which also raided other Finnish civilian centers—Hamina, Lapencranta, among them.

Numerous buildings were burned in all three towns.

Russian gains in the Karelian snows—lashed up to dirty red by the steady churning of concentrated Russian artillery fire and stained by the blood of thousands of soldiers—were conceded by a Finnish army communiqué today after 14 days of battle.

The communiqué

News from warring countries is subject to censorship. It may sometimes be misleading. It is the right and duty of every American citizen to do his own thinking, hold to his own beliefs, and not permit himself or his country to become a victim of emotionalism or propaganda.

Arnold Wanted More

Official recognition, of a sort, was given Thurman Arnold's sweeping campaign into illegal combines among contractors and unionists in the building trades when the House appropriations committee praised the assistant attorney-general for his work.

The committee acknowledged the obvious fact that Mr. Arnold's drive against building trusts has already saved the country considerable sums and predicted that continuation of the drive will mean "savings of hundreds of millions of dollars to the consuming public."

And after this charming eulogy, the committee promptly cut off something like \$50,000 from Mr. Arnold's appropriations request, although the sum allocated was \$41,000 more than original budget estimates.

The committee knows it is true that building costs for the small home owner will fall substantially if Mr. Arnold can continue and broaden his campaign. Billions of United States dollars have been spent far more carelessly than Mr. Arnold is spending his comparatively small allotment. It would have been better to give the assistant attorney-general what he needs and let him return it a hundredfold by reducing building costs.

It Might Have Been

The infant republic of the United States didn't know about Fascists, Nazis, and Communists back in 1810. Had the people of that distant era been able to foresee the events of today, they might have given more serious consideration to the following proposed constitutional amendment, approved by Congress but rejected by enough states to kill it:

"If any citizen of the United States shall accept, claim, receive or retain any title of nobility or honor, or shall, without the consent of Congress, accept and retain any present, pension, office or emolument of any kind whatever, from any emperor, king, prince or foreign power, such person shall cease to be a citizen of the United States and shall be incapable of holding any office of trust or profit under them or either of them."

Had the amendment passed 130 years ago, it might have proved a bit tough for modern heiresses who collect foreign titles and who value their American citizenship.

But it would have been a lot tougher for the boys and girls who get their orders and their pay checks from Hitler and Stalin and who cling tenaciously to the benevolent protection Uncle Sam gives his citizens.

The President says he is getting tired of the third-term question. And how, Mr. Roosevelt, do you suppose we feel?

The navy is sending blimps along the New Jersey coast to feed ducks. They've got to be saved so they can be shot in the fall.

The annual beer and whisky bill in the United States is \$4,000,000,000. That doesn't include tomato juice and bromide powders.

Father Coughlin stirred up more attention by not speaking than he has through most of his broadcasts. That might be a hint.

The Balkans intend to mind their own business—if they can get used to all those people looking over their shoulders.

With the 4-H Club Girls

Prairie Lee.

"A club girls' bedroom is the room in which she herself sleeps," Miss Alpha Lynn, county home demonstration agent, explained to the Prairie Lee 4-H club girls in their meeting at the school house Tuesday.

The meeting dealt with the floors, wall and ceiling of the bedroom. Miss Lynn said the first thing each girl should do to her room is to get the floor, wall, and ceiling clean. She explained the floor should be scrubbed until all the dirt is out of the cracks. She said that sand paper, or fine sand and cloth covered brick, could be used to smooth down splintered floors.

A good inexpensive finish for the floor was given as hot boiled linseed-oil applied to the thoroughly clean floor and mopped up with a clean dry rag 20 minutes after applying it. The floor should then be waxed about two days later. The floor will be a golden color. It will be a little oily at first, but it will continue to improve with time and monthly waxing. Additional information on this finish may be obtained from Miss Lynn's office.

Club members present were: Lillie Rose Meissner, Robine Sells, Rita Mearl Livingston, Billie Jean Taylor, Ila Merle Franks, Gladys Lay, Avelene and Lavada Crump, Healy Ruth Harris, Doris Preston, Evelyn Wafe, Betty Floyd.

The club adjourned to meet Feb. 27 when the program will be on the "Poultry Situation as It Is Today." Mrs. W. L. Pigg, the sponsor, and Lillie Rose Meissner, poultry demonstrator, will be in charge of the meeting at that time.

In constructing the White Bones Tower of Liang Chow, China, the bones of 1,000,000 men were ground up and used as building material.

James E. West has served as Chief Scout Executive of the Boy Scouts of America since the early days of the movement's organization.

LEGAL

AN ORDINANCE PROHIBITING CERTAIN VEHICLES TO TRAVEL THAT PORTION OF MISSOURI AVENUE FROM THE POINT SAID AVENUE INTERSECTS STATE HIGHWAY NO. 1 ON THE WEST, TO THE POINT SAID AVENUE INTERSECTS MARIENFELD STREET ON THE EAST, AND PROVIDING A PENALTY FOR THE VIOLATION OF THE PROVISIONS THEREIN.

Whereas, it is deemed advisable by the City Council, for the purpose of promoting the public health, safety, order, convenience, prosperity, comfort, and general welfare of the people of the City of Midland, Texas, to regulate and control and prohibit the use of said portion of Missouri Avenue by certain vehicles, which are deemed hazardous, as well as hurtful, to the safety, health, good-order, comfort and welfare of the people of said city; therefore,

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF MIDLAND, TEXAS:

Section 1. That no commercial bus, moving van, truck or truck and trailer, or pick-up truck, whether loaded or unloaded, whose standard maximum load capacity exceeds one-half ton, shall use that portion of Missouri Avenue from the point said Avenue intersects State Highway No. 1, on the West, to the point said Avenue intersects Marienfeld Street on the East.

Section 2. There is excepted from the prohibition of Section 1 hereof all said vehicles therein named which cross said portion of said Missouri Avenue from a northerly or southerly direction, without going easterly or westerly along said Avenue, to deliver passengers or loads within the immediate residential section of the vicinity of said Missouri Avenue; or which travel easterly or westerly along said Missouri Avenue to deliver passengers or loads to property abutting said Avenue; provided said property to which said delivery is destined does not also abut upon said State Highway No. 1, locally known as Wall Street.

Section 3. Any ordinance or part of ordinance or other provisions in conflict herewith, are hereby repealed.

Section 4. Any person, firm or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than \$5.00, and not to exceed \$100.00; and each violation shall constitute a separate offense and be punishable as such.

Section 5. If any provision of this ordinance violates any Statutes or the Constitution of the State of Texas, or if any court holds such provision for naught for any reason, the remaining provisions shall not be affected thereby, and shall continue in effect.

Section 6. Whereas, the provisions regulating the use of said Missouri Avenue in the City of Midland, Texas, are inadequate to protect the life, property, safety, health, and well-being of the public and of the citizens of the City, thereby creating an emergency and a necessity for such regulation immediately, and the suspension of the rule requiring ordinances to be read on separate dates; and such emergency is declared to exist and the said rule is hereby suspended; and this ordinance shall become effective from and after its passage and publication.

Passed and approved this 6th day of February, 1940.

M. C. ULMER,
Mayor.

Attest:
J. C. Hudman,
City Secretary.

Ranges and Stock Suffer Somewhat as Result of Freezes

AUSTIN. — Abnormally low temperatures covering a twelve day period set Texas ranges back materially. The condition of 67 percent of normal as reported to the Agricultural Marketing Service on Feb. 1, 1940, compares with 73 percent on January 1, 1940, and 73 percent the 10-year (1930-39) average February 1 condition. The low temperatures, however, were accompanied by snow and rain covering practically the entire state. Much of the damage to range feeds will be quickly offset by this additional moisture, providing weather conditions continue favorable. The most serious damage to range feeds occurred through central, eastern, and southern portion of the state, where winter grass and weeds were sappy and susceptible to the freezing temperatures. With warm weather, however, new growth should be fairly rapid. In the Northwest and Western Districts, moisture conditions are favorable and the outlook is good for spring range feeds. Although the snow covering and low temperatures have been beneficial to the small grain crop in the Northwest district and have promoted a good root growth, the top crop has been retarded. Very little grazing from grain fields is in prospect for the balance of the winter.

While cattle lost flesh during the cold spell of late January, death losses were very light. With favorable conditions from now on, they should mend rapidly. In most of the areas where snowfall was heavy, the wind velocity was low and the snow was dry. The areas along the coast and through Central and East Texas, where temperatures were abnormally low, cattle suffered more than in other areas, but even in these sections losses were limited to young calves that were dropped during the period. Feeding has been quite general, and in many areas the supply of supplemental feeds is sufficient for average needs. Shipments of cattle and calves from the state during December were light, with total shipments of both cattle and calves amounting to only 138,000 head compared with 206,000 head moving during December, 1939. Contracting for spring delivery has been very light, but with the present favorable outlook for early spring grass, the available supply of grass-fat cattle should be larger than last year's supply.

Sheep were in good condition on January 1, 1940, and were able to withstand the low temperatures of late January with light losses. Early lambs that were dropped during the period suffered and some losses were recorded, but in most cases these losses were relatively small. The outlook for early range feeds throughout the sheep area is very good, and prospects are favorable for a large lamb crop this year. The available supply of grass-fat yearlings for next spring's delivery should be fairly large, and relatively early. There has been very little contracting of next spring's wool clip, but mohair contracting has been quite active.

Spanked Wife Has The Last Laugh

Mrs. Valerie Porter, who was spanked by her husband in argument over her enlistment in British army, smiles cheerfully as she leaves London court. Reason: She won \$14,000 settlement from hubby's parents, who, she claimed in suit, caused him to leave her.

Negroes in Mississippi To Have First Park

VICKSBURG, Miss. (U.P.) — The first park for negroes in Mississippi soon will be constructed here and plans for another one, to be laid out in Clinton, have been submitted to National Youth Administration officials in Washington.

"There is a great need for recreational facilities in Mississippi," L. J. Folse, executive director of the state planning commission said. "It would pay the state in dollars and cents to provide adequate recreational facilities for the negro, because there is little doubt but that the high homicide rate could be reduced by the right kind of leisure." The park here will be of 400 acres; the one at Clinton will only be 150 acres.

Although their skeletons were 39 per cent water, jellyfish that lived on the earth millions of years ago, left fossil record of themselves.

Coming Events

FRIDAY.

City-County Federation will meet Friday afternoon at 3 o'clock in the private dining room of Hotel Scharbauer. Mrs. P. R. Schenck will be in charge of the program, assisted by members of the Twentieth Century Study Club. A skit will be produced, entitled "I Know My Rights," based on the Bill of Rights.

Women's Golf Association will meet at the Country Club Friday morning at 10 o'clock for play.

Belmont Bible class will meet with Mrs. C. G. Murray, 701 N. Colorado, Friday afternoon at 3:30 o'clock. The lesson will be the eleventh chapter of Exodus.

Friday Needle club will meet with Mrs. A. G. Bohannon, Friday afternoon at 3 o'clock.

SATURDAY.

Treble Clef Juvenile Music club will meet at the Watson studio, 210 W. Ohio, Saturday morning at 9:30 o'clock.

Story Hour will be held in the children's library at the courthouse, Saturday morning at 10 o'clock.

Child Study club will meet with Mrs. S. P. Hadlip, 1007 W. Tennessee, Friday morning at 10 o'clock.

Children's Service League will meet with Mrs. L. S. Page, 1409 W. Ohio, Friday afternoon at 2 o'clock.

Lieut. William Brewer chapter D. A. R. will entertain with a tea at the Country Club Saturday afternoon from 4 o'clock until 6 o'clock. All members of the City-County Federation and of the various study clubs of the town are invited to attend.

Letters to the Editor

In behalf of the Boy Scouts and Scouters of the Midland District, I wish to thank those individuals and business firms who cooperated in such a fine way in our observance of NATIONAL BOY SCOUT WEEK, February 8th and 14th.

We especially wish to thank The Reporter-Telegram for the fine publicity given Scouting, Radio Station K.L.H., the local theatres and their management, Addison Wadley Company, Mayor M. C. Ulmer and all others who assisted in such an influential way.

We feel that Scouting in this area has been given a boost that will result in a greater growth and more activity than has been experienced in some time.

A boost to Scouting is a boost to a million and a half young men who are being trained in character building and citizenship and who are having adventure and fun while getting the fundamentals for leadership "tomorrow."

W. R. Upham,
District Chairman.

Tues., Feb. 20

"Gone With the Wind" Coming to Yucca for 7 Days on March 3

"GONE WITH THE WIND," which opens at the Yucca Theatre in Midland, for seven days, starting Sunday, March 3, is undoubtedly the most faithful filmization of a novel in Hollywood history. It is Margaret Mitchell's great story of the Old South without deviation and practically without elimination. After this has been recorded, little more need be said as an unqualified recommendation for the picture. Millions of readers consider the novel one of the greatest stories of all time; a faithful filmization of that story must necessarily make the picture one of the greatest in moving picture history.

Screen patrons and lovers of the book will want to know only one more thing; what about the characterizations? They are perfect, from Scarlett and Rhett down to the tiniest bit. Clark Gable is, of course, the perfect Rhett Butler. Technicolor enhances his personality, which already is the most amazing personality on the screen today. His work is the best of his whole career. Equally brilliant is the work of Vivien Leigh. How any living girl can so closely resemble Scarlett and duplicate that fictional character in temperament and action is astounding. Miss Leigh does all this and more. She need not be said to be "going places." She is the screen's newest and greatest star.

Seats will be reserved at the Yucca Theatre for Sunday Matinee and all night performances. There will be two shows daily, matinee starting at 2:15 and evening shows at 8 p.m. Admission prices as established by the producers, reserved seats \$2.00 including tax. Week-day matinees, not reserved, 75c including tax.

The Town Quack

be! They do not plan to kill—but they are ruthless in their killing. Their victims, blinded, are strewn in the ditches, impacted on bridges and culverts, like insects on windshield!

Murderers? Yes, but nice people! Every road must be seen by them, alone. With their bright lights they bedazzle their victims as a candle does the moth.

Two-cylinder chariots and ten-cylinder jalopies—they roar down every road, scattering fear and death.

With winking lights, I beg for mercy, for life! But to no avail. As soon implore the planets to swerve from their course. I begged—they glared!

Murderers? Yes! They are the motorists who drive every road with glaringly bright lights—and dim for no man—nor God!

I fear them—these nice people who become murderous, road-hogging fiends at night!

"Real" Jaycee Ball Club Lined Up; Two of The "Players" Saw a Game Played One Time

Ten cents, one-tenth of a dollar, will get each and everybody in Friday night to see the "whackiest" basketball game that has been scheduled since the players originally pitched the ball into a peach basket, then climbed a ladder to recover it.

The game, (speaking very, very optimistically) will be played between teams of the Midland and Odessa junior chambers of commerce at the high school gymnasium Friday night, starting at eight o'clock.

As a prelude to what will be (in more ways than one) a "spectacle," a picked team of Midland All-Stars will engage the L-H Drug company team of Odessa, generally rated the best amateur outfit in West Texas. Persons who want to see some real basketball for their money are urged to be on hand at seven o'clock to see the game between these two teams, but those who will find a good comedy worth a dime may go ahead and skip it.

Curt Inman is in charge of lining up the team for the Jaycees, and so far he is doing a good job—two or three of the boys he has signed up have seen a game or two. He is also in charge of the All-Star team and is doing a good job on it, too—he has signed up some real basketball players.

The thoroughness of Inman's work at assembling the Jaycee team is shown by the "players" he has acquired: Wright Cowden, Don Oliver, Ted Washington, Bill Davidson, Joe Mims, Riley Parr and John Colvin, plus himself. Any other who think they can beat one of the above mentioned out of their jobs are invited to call Inman at telephone number 440.

For the All-Star team, Inman has signed Charles Lanahan, Jess, Jay and Toby Hart, Bill Stanley, Conn Thomas, "Red" Moore, Buddy Grant, Charles Word, Bill Dahlberry.

Doors of the gymnasium will be thrown open at 6:30 and the admission will be only ten cents to either adults or children.

Iowa State Tank Team Gets New Breakfast Menu

AMES, Ia. Beryl Taylor, Iowa State athletic trainer, is experimenting with a new breakfast menu for swimmers on the day of their meets. Instead of cereals and fruit juice the paddlers will get steak, baked potato and honey.

CHURCHILL DOWNS TO BE AN AMPHITHEATER.

Col. Matt Winn plans to make an amphitheater of Churchill Downs by 1942. Alterations now being made increase the Louisville track's seating capacity.

Bulldogs Capture Fifteenth in Row Over Big Lake Owls

The Midland Bulldogs, despite ragged playing throughout, last night came through with their fifteenth straight victory without defeat by capturing a 19-12 decision over the Big Lake Owls.

Both clubs were greatly off form last night, missing far more shots than they were able to make. The Bulldogs were hampered by the loss of guard Horace Brown throughout most of the game. He is suffering from a badly sprained thumb but was forced to play when Big Wendell Williams was ejected from the game on fouls.

Two Big Lake boys, Webb and Beach, were forced out on four personals late in the final period and the Bulldogs pulled away after the game had been close most of the way.

The Bulldogs get another severe test tonight when they journey to Wink to meet the improved Wildcats, strengthened through return to eligibility of three players.

Americanism Greatest "Ism" of All, Mims Declares in Address

EDITOR'S NOTE: The following is the complete text of an address given before the Lions club Wednesday at noon by Joe Mims, stressing importance of Americanism Week, now being observed and backed by junior chambers of commerce over the nation.

Not long ago I stood in the Library of Congress, and gazed upon the Declaration of Independence. This document was so faded by time that it was hard to read, but in the House of Representatives and in the Senate, and in every circumstance of our national life, I saw the living reality of that historic document, bright beyond the power of time to dim. When night had fallen over the capital city, I looked upon the huge dome of the capitol building, and thrilled at the sight of its stately beauty dazzling under the splendor of hidden lights. As I stood before that magnificent temple of freedom, I realized that its great blocks of hewn granite were held together by a stronger bond than mortar. I knew that they were held together by the wisdom, courage, and blood of an innumerable host of men, long since dead, who envisioned a nation dedicated to the liberty and brotherhood of man. On that hallowed ground I saw anew, and understood anew, the deep and enriching influences of our democratic form of government.

Then a vision slowly rose before my eyes, and I saw the evidence of these influences, like the strands of a web, spread over every section of the United States.

I saw morning break upon a pulseless countryside, and impart its life-giving properties to growing fields of cotton, grain, and vegetables; and brighter landscapes dotted with farm houses and bulging barns. I saw long ribbons of highway crossing an endless expanse of plains and meadows; spanning rivers, and lakes, and bays; and meaning through the verdure and bloom of mountains, I saw the rising sun's pattern of shadow and light on forest canyon, and cliff. Where, I thought, in all of the world can there be found a background of equal warmth and color for the expansion of agriculture and commerce?

I saw cities and villages nestled on plains, by winding streams, and on hilltops where people held elections and sat on juries; where they walked, talked, and slept like freemen, in harmony, and without dread. I saw boys and girls pouring out of public schools, and men and women filing out of churches, reminders of the fact that American citizens still control the education of their children, and that their church doors still stand ajar, which is no longer true in those countries where liberty has perished.

I heard the chug-chug of engines, the hum and whirr of factory wheels, the roar of turbines, the hiss of Bessemer furnaces, and the shock of hot blocks of steel being into the teeth of cruching presses. The bustle and vigor of industry were everywhere in evidence; and told the story that our system of government has manufactured and distributed more goods, and enabled the people to live more comfortably, than any other system of government in the history of the world has ever been able to do.

Then I saw Democracy of the fire-side. A happy husband and father sat before the embers smoking his pipe, curling ribbons of smoke wove love and care among the threads of reverie, until his home became a palace, wherein he and his family were secure from all the world. There on the rug dozed his cat, homely symbol of the quiet and peace of the simple things; opposite sat his wife spinning the story of the day; while his children gathered at his knee prattling of their little sorrows and triumphs. As long as Democracy sat at their fire-side no troops could be billeted there; no searches and seizures could be made there without a warrant; no one would dare enter without first finding the latch strings on the outside.

But there is another picture, familiar to all, not a picture of civic vigor and domestic charm, but a ghastly, lurid picture of murder and destruction. The madmen of Europe are sending the four horsemen of the Apocalypse to scorch the earth with conquest, war, famine, and death. What do they care about the healing these past twenty years of peace has brought to the world? They are ambitious. What do they care that they strew the path of their ambition with widows and orphans? What do they care that loved ones, waiting at the depot for the living to come back, will visualize the living as they went away: well and strong and happy, and then the joy of them who will give way to weeping when their eyes at last rest on the broken heroes who pull into the depot: men embittered and calloused by hate and slaughter, men trembling with shell-shock, men with diseased stomachs and wheezing lungs, men with sightless eyes and mutilated features, men with stubs for arms and stubs for legs?

Would you give a tenth part of the errors of democracy for the whole of totalitarianism? A good tree bringeth forth good fruit. But what are the fruits of the totalitarian picture? Sabotage, espionage, armed robbery, arson, fraud, lying, and murder. They agitate for the overthrow of capitalism and constitutional government, and urge us to substitute, not something better, but something offensive and degrading.

Look at the conditions existing in the countries which are hard-riden by the treacherous ideology of these madmen. Instead of improving what is bad, they have betrayed what is good. For the laws and constitution of the realm, they have substituted the personal pronoun "I." The people are minions of their states, and their states are the pawn of tyrants. The citizenry is reduced to the ignominious level of serfdom. Minorities are pillaged,

spies lurk everywhere. A man's very neighbors are often spies in the hope of receiving party favors. A man's very children, tainted with the bigotry of party leaders, find filial duty no restraint to betrayal of the confidential utterances of the fireside. Those rights which we hold inviolable—freedom of religion, of speech, and of the press; the right of peaceable assembly; the right to petition the government for redress of grievances; the right to be secure in person, house, papers, and effects, against unreasonable searches and seizures; the right to trial by jury; and the right not to be subjected to cruel or unusual punishments—not only are not guaranteed to the people, but the acrid and despotic laws in force are administered with extreme severity. The dread of firing squads, the fear of concentration camps, where men are left to languish in hunger and filth, hush the people into a grim silence. Thus, he executing an unwilling and frightful half-loyalty, dictators have turned back the leaves of history to the Age of Feudalism, and degraded the people to a state of vassalage, galling not more by the fact that it has sprung into being long since the serfdom of the Feudal Age was overthrown, than by the fact that the system is pressed with a thoroughness beyond the dream of the most brazen overlord of that dead and unremembered Age. Such is the scourge of the people where tyranny has vaulted into the saddle.

Sometimes we are prone to take for granted the goodness we enjoy here in America, but no patriot can remain ungrateful if he sets this bounty over against the withering blight of dictatorship. Consider! Do we not say what we please, when we please; gather where we wish, in whatever numbers we wish; and criticize freely whatever we think wrong or unjust? Does our government seek to warp national judgment by telling the press what it may or may not print, or by forbidding the people to listen to foreign radio broadcasts? With all our unemployment, where is there a laboring class who can say with equal effect, "The sweat of my brow for a crust of bread?" While other nations exploit the mass power, wealth, and resources to build war machines for imperial aggrandizement, we harness our man-power, wealth, and resources to advance the arts, sciences, and industries. Instead of compelling men to leave the blessings of liberty to serve in formidable armies, the United States is content to provide only that degree of preparedness necessary to insure the inviolability of our shores and to guarantee the perpetuation of our liberties. I say that the people of the United States, having the most complete measure of peace, liberty, and power in the world, can rule themselves in blunder better than any dictator on earth can rule them in wisdom!

Yet these boasting usurpers propose to foist their deadly isms upon our country. The Dies Committee has brought to light the efforts of Nazism, Fascism, and Communism to substitute the materialistic, Godless philosophy of Marxism for constitutional democracy. This Committee has unearthed the fact that the Communists have raised \$25,000,000 from the people of this country to further their program of un-American activities; and that Nazi and Fascist organizations have raised money from American citizens, and used it to agitate for the overthrow of this government. They would destroy the Bill of Rights, yet they utilize the sacred guarantees of that Bill to preach their pernicious doctrines. To put it another way, they crouch behind the Goddess of Liberty to sling mud at this government, and then wipe their driving noses on her immaculate gown! Do not doubt it: the dictators would not hesitate for a minute to spoliolate this country, just as they did Czechoslovakia, Albania, Poland, Estonia, Latvia and Lithuania, and just as Russia is now trying to do to Finland, if it were not for the fact that we can match them bayonet for bayonet, and bomb for bomb. Be strong, and they respect you; be weak, and they spit in your face.

No country on earth can invade a prepared United States. But what our enemies can not do openly with arms, they try to do undercover with propaganda. There is the danger. They know that the only way to subdue this mighty nation is to discredit democracy in the hearts of the people. This can never be done of our country has a new baptism with the fire, not of blind patriotism, but of an alert, thinking patriotism. Blind, unquestioning loyalty to our form of government is not enough. Patriotism which goes so deeper than mob psychology is fatal in the hour of crisis. Mobs, whipped into a fierce unity, stand triumphant for an hour; but mobs cannot think, and soon fall apart. The only patriotism, then, that en-

dures is a well-reasoned patriotism. We must do more than hate what is bad in foreign governments; we must cherish what is good in our own. We must fortify ourselves with reasons for our faith, and the conclusion of these reasons must necessarily be that we have the best form of government in the world, because it insures us the greatest happiness and security. Therefore, we must guard liberty not less with our brains and hearts, than we would with powder and cannon.

Over a century and a half ago, that staunch patriot, John Rutledge, said, "The eyes of Europe, nay of the whole world, are on America." These words, true in that age when our fore-fathers were carving an empire out of a wilderness, are no less true in this age, when we, their descendants, are seeking to maintain, amid a world torn with strife, the great Republic which has risen on the foundations of self-government laid by their hands. Here on the western hemispheres burns the torch of freedom, and if we let it perish, the world will lapse into the slavery of the tyrannous past. Did you know that in the last twenty years seventeen constitutional governments have fallen? Indeed, where else can the eyes of mankind turn for hope, if free government dies in America?

The American people have been traveling too fast. They have become their worst enemy by losing sight of some of the eternal and fundamental values necessary for a proper leveling of existence. We need to stop long enough for these basic principles again to become a part of our progress. Love of country, appreciation of country, old fashioned, fourth-of-July patriotism, must again take their place in the consciousness of the American people, for we need to build Americanism as much as we need to tear down un-Americanism. Who dares to say democracy is so cheap, or freedom as common, that they no longer deserve a prominent place in the national mind?

When that day, in which our civic organizations, our churches, and schools and newspapers make the masses realize that democracy is a "pearl of great price," when that day, in which our citizenry is swept with a righteous indignation against those who would cast this pearl before swine; when that day, in which the people protect this gem with a jealous concern; when that day comes, and only then, will this country be a safe depository for its keeping.

Therefore, from one end of this country to the other, once more let the drums of patriotism rumble until the hills catch the martial echoes and fling them back again and again. Let our civic and business clubs contribute to the rising cadence. Let our churches join in the measured tones of this patriotic music. Let our schools and homes add to the swelling rhythm, until this country becomes the safe and unassailable fortress of freedom which destiny has appointed for it. The people of the United States can, and must, tower into a glorious and invincible unity. Let the people draw themselves to their full stature, a nation so thoroughly aroused that it will be proof against the subversive isms now lurking within its borders; a nation of one mind, not only loving freedom, but pledging anew its faith in the principles of representative government; a nation inspired with the realization that its constitutional form of government is priceless, not only because it guarantees "life, liberty, and the pursuit of happiness," but also because this heritage, once lost, may never be regained.

Four Sons Carry on For Two-War Veteran

MONTREAL (U.P.)—Adam Smith, veteran of two wars, with 21 years of army service, can't make the age requirements for service in the C.A.S.F., but four sons will carry on.

One of them already is overseas. He is Howard Smith, 26, with the Royal Montreal Regiment. Adam, Jr., 18, is with the Black Watch (Royal Highland Regiment), in training. Douglas, 19, is in training with the Royal Canadian Army Medical Corps, and Billy, 14, is sure that the best he can do is get in the Sea Cadets.

Sporting Goods Store Is Opened Wednesday

Jeff's Sporting Goods store, located at 210 W. Texas, was opened yesterday by its proprietors, Owen Jeffers and Ben Murray, both young men residents of Midland. The store is fully equipped to handle all orders for sporting goods, including golf equipment, fishing supplies, tennis rackets, guns and ammunition, softballs, baseballs and camp equipment. Midland residents, especially sports followers and participants, are urged to visit the new store.

America's Social Companion

• BRUCE CATTON IN WASHINGTON

BY BRUCE CATTON
Reporter-Telegram
Washington Correspondent

WASHINGTON. — Back of the fight over Communism in the American Youth Congress there was an attempt to establish a new American youth movement on a broader and much more conservative basis.

Murray Plavner, the young

New Yorker who came to town and led the fight to drive Communists out of the Congress, was really seeking far more than a simple "purge" of the organization.

What he had in mind was a Youth Congress which would contain no Communists or "fellow travelers," but which would contain such groups as the Boy Scouts and the Catholic youth groups, and which would enjoy the sup-

port of the American Legion and substantial business interests.

GETS BACKING IN YOUTH FIGHT

PLAVNER did not make his fight as an unsupported free lance. For some years he has worked for Victor Ridder, New York publisher and former WPA administrator in New York, as a writer and advertising representative. On his arrival in Washington, he issued a long statement denouncing the Youth Congress' record in regard to Communism—a statement signed by Ridder and a number of prominent citizens.

Plavner did not have definite, binding promises of adherence or support from the groups which he hoped to see given dominant places in the Youth Congress; but he was in intimate touch with people who are highly important in these groups.

Ridder, for instance, is a director both of the Boy Scouts and of Catholic Youth, as well as of the Boys' Clubs of America. Homer L. Chaillaux, another signer of the statement Plavner issued, directs the Legion's National Americanism Commission. Another signer was John M. Schiff, a director of the Boy Scouts; another was Gene Tunney, who like Ridder is a director of the Boy Scouts, Catholic Youth, and Boys' Clubs of America.

DROPS PLAN FOR SEPARATE ORGANIZATION

DURING the fall, Plavner had in mind setting up a rival group to the American Youth Congress. He discarded that plan, however. Now he says:

"There can't be two youth movements. There's only room for one."

"It can continue to be a Communist front, or it can be truly representative of all American youth and make a real effort to solve youth's problems instead of simply trying to undermine youth's confidence in our institutions. I hope it can be a genuinely representative group."

SHIES AWAY FROM U. S. SUBSIDIES

ONE often-overlooked item in the whole Youth Congress argument is the federal youth-aid program demanded by the Congress, and presently embodied in the bill recently introduced by Senator Murray of Montana.

This bill would set up a new National Youth Administration, would guarantee public works jobs to all unemployed youths (at minimum wages of \$12.50 a week) and would provide for an elaborate system of educational aids—all at a cost of around \$500,000,000 a year.

Plavner remarks that this program is just too expensive to be practical right now, and looks forward to a Youth Congress which would be enough in the good graces of business and industrial leaders to be able to work out re-employment programs in industry without government subsidies.

There are more than 1,400,000 gasoline pumps in use in the 48 states now in the United States. An estimated one pump for every 20 motor vehicles in the country.

KIDNEYS MUST REMOVE EXCESS ACIDS

Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste

If you have an excess of acids in your blood, your 15 miles of kidney tubes may be overworked. These tiny filters and tubes are working day and night to help Nature rid your system of excess acids and poisonous waste.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause muscle backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

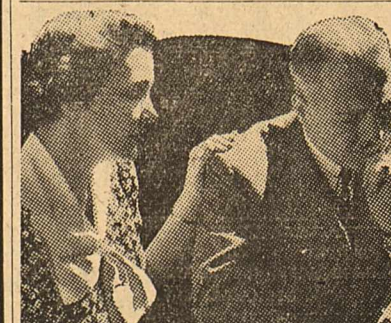

Kidneys may need help the same as bowels, so ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Lead by a Finnish officer, some of the thousands of captured Russian soldiers plod around the exercise square of a military prison camp in central Finland.

Mother Okays New Incubators for Alabama Quads

New incubator homes are tried out by Alabama's famous quadruplets, pictured above for first time with their mother, Mrs. Clyde Short. Crowds gather daily to view the babies in glass-enclosed nursery.

Smokers Found To Cause Most Forest Blazes

ST. PAUL, Minn. (U.P.) — Man, and chiefly his cigarette, was responsible for 97 per cent of the forest fires that have denuded millions of acres of land in the Lakes states timber area since 1928.

That is the conclusion of Dr. Raphael Zon, University of Minnesota forestry official, in a report analyzing some 73,740 forest fires over Michigan, Wisconsin and Minnesota.

"It is strange," Dr. Zon remarked, "that man, who profits most from nature's wooded wonderland, is its most dangerous enemy."

Ninety-seven per cent of the fires, he said, were due to human agencies and could have been prevented.

Chief causes were listed as: smokers, 34 per cent; debris and brush burning, 20 per cent; incendiaries, 10 per cent; campfires, 7 per cent; railroads, 6 per cent, and lumbering, 1 per cent.

The forester's report said that lightning, often credited with starting a good many blazes, had caused only 3 per cent of the fires in the lake states region.

Will to Be Preserved As Historic Document

PHILADELPHIA, (U.P.) — The Board of City Trust has voted to spend \$350 out of the \$86,000,000 estate of Stephen Girard to restore and preserve the original will, which is becoming dangerously brittle and discolored with age.

The century-old document, one of the prized records of the office of the Register of Wills, is more than 100 pages long. Each page is covered with an invisible preparation to protect it from light and wear.

Home Heating By Rays Tried

CLEVELAND, O. (U.P.) — A new type heating system now in the process of development may make possible comfortable winter living in house temperatures ranging down to 50 degrees, according to Dr. C. E. A. Winslow, of Yale University.

Addressing a joint meeting of the Rotary Club and the American Society of Heating and Ventilating Engineers, in convention here, Dr. Winslow termed the new system the pleasantest and perhaps the most economical form of winter heating for residences.

He explained that the new method depends on rays which cause warmth when they strike the human body, thus differing from the usual method which depends primarily on warming the air.

Most of the efficiency lost in current heating systems, Dr. Winslow pointed out, is derived from the fact that a large percentage of the heat energy produced goes to warm the air rather than the human body.

In the new system the air temperature can be as low as 50 degrees with perfect comfort to dwellers, because the heat that is generated radiates directly to the human body.

Speaking of "the air-cooled human body," Dr. Winslow emphasized that the general objective of air-conditioning "is to maintain a desirable rate of heat loss from the surface of the human body."

"What we desire," he said, "is atmospheric conditions which produce an active sense of physical well-being such as is experienced on the mountain top or sea beach." Although not commercially available as yet, three radiant heating systems are now operating successfully in and near New Haven and the British have made extensive use of the method, he said.

World Bloc Forecast Centering on Canada

TORONTO, Ont. (U.P.) — A learned man has a greater dream of Canada than any Canadian has yet voiced.

He is Prof. George Catlin and he sees Canada as the buckle and the center of a belt that will embrace a world bloc comprising almost everything but Russia, China and Japan, Italy and Germany.

Short Period License For Marriage Asked

WILMINGTON, Del. (U.P.) — A man entered the office of Clerk of the Peace Irving Craig and asked an aide, Seth M. Long, for a marriage license.

"All right," said Long. "I want it for three months," the visitor explained. The man left without the license when Long explained that permits for short-term nuptials were not legal.

Youth Nearly Sightless Becomes Good Archer

LA GRANDE, Ore. (U.P.) — Art Watson, an honor student at the Eastern Oregon College of education here, although nearly blind, teaches a class in archery and is rated a good archer himself.

Watson, who has only a 5 per cent vision, became interested in archery two years ago and soon developed a system of hitting the target similar to that used by artillerymen.

"Just because you can't see the target is no drawback," Watson said. "It's just like the army artillery. They can't see their target, but firing is directed by a group of officers who can see it, and the gunners keep changing their range and projectile of the projectile until they can make a direct hit."

Woman, 80, Receives Free Hunting License

PITTSFIELD, Mass. (U.P.) — Perhaps out-door life accounts for the longevity of the hunters and fishermen to this city.

Mrs. Ida Baker, 80, became the oldest woman holder of the free combination license when she visited the city clerk's office.

Albert Smith, 84, is the oldest sportsman. He and his wife, 72, both hold 1940 permits.

For the past four years the state has issued free licenses to those past 70 who wish to enjoy these outdoor activities.

Student Whittles Way To College Education

CLEVELAND, O. (U.P.) — Ernest H. Lockwood, 18, is paying his way through college by whittling.

"It's the only way I could think of," he said. "All I had was a knife and some white pine, so I started carving about two years ago."

He has earned \$528 from carving in his spare time and is using the money to help defray his expenses at Western Reserve University.

"I guess you might say I'm trying to carve a niche for myself," he said.

Engineers state that automobile fires most frequently are caused by backfire into an air cleaner and intake silencer that happens to be filled with gasoline from overchoking the carburetor.

Wadley's

Canadian on War Board Dollar-a-Year Man

OTTAWA, (U.P.) — There's at least one "dollar-a-year" man serving the Canadian war effort who is getting just what the term would imply.

He is Aubrey Davis, of Newmarket, Ont., a member of the War Supply Board, in charge of leather production.

After he was appointed to the board, an order-in-council provided him with a living allowance of \$15. He refused to accept it and is paying his own way.

Baldness Is Hereditary, Says University Doctor

MINNEAPOLIS, Minn. (U.P.) — It's hereditary—if your father has a bald head, so you will, according to a professor.

"Most bald men today, with some exceptions, of course, had bald fathers," he said.

"If your dad lost his hair at an early age, chances are you'll also

acquire a shiny pate at an early age.

"Men worried about their thinning locks ought to take it easy and wait for the inevitable."

How To Hold
FALSE TEETH
More Firmly In Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug store. (Adv.)

Relief At Last For Your Cough

Even if other medicines have failed you may get relief now with Creomulsion. Chronic bronchitis can develop if your chest cold is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding that you are to like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. See that the name Creomulsion is on the bottle and you will get the genuine product and the relief you want.

Libby Holman and Family

Rarely seen in public, Christopher Smith Reynolds is pictured with his mother, throaty-voiced torch singer Libby Holman and her husband, Ralph Holmes, as they recently attended the theatre in New York. The boy's father was the late Smith-Reynolds, tobacco heir.

Deodorized Skunk Makes Neckpiece

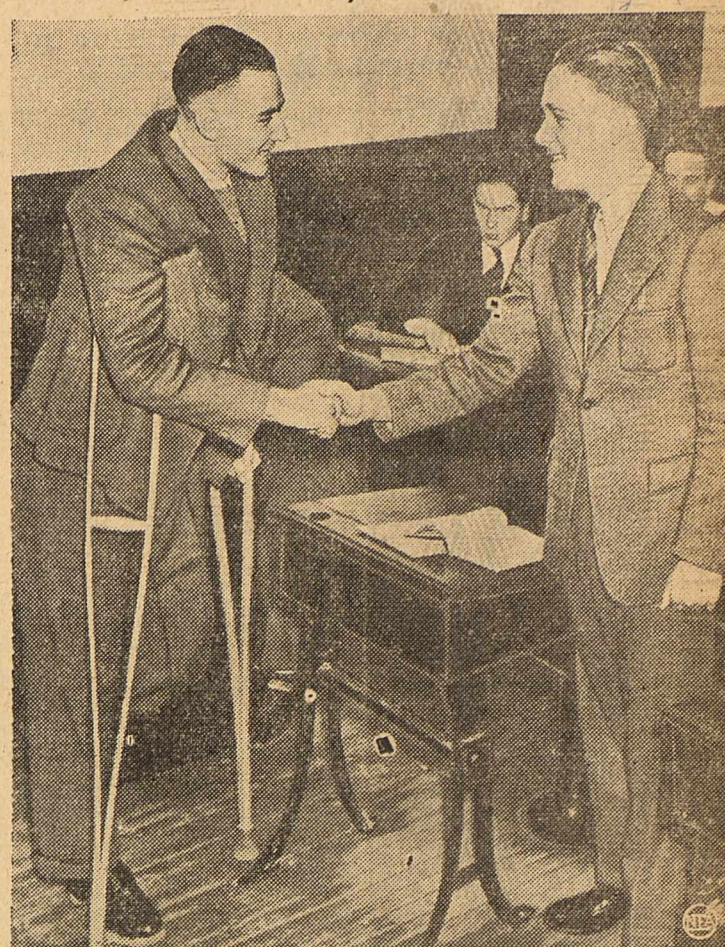

Even her best friends scattered when Mrs. Leo Dunlap walked into Zanesville, O., puppy show with this little wood pussy in her arms. But there was no need for fumigation, for the living neckpiece was pure skunk, and had been deodorized.

So Ferdinand Got to Smell the Flowers After All

Ferdinand, the steer, was probably just out hunting flowers when he escaped from a truck driver and began wandering around St. Louis, Mo. But flowers are rare in St. Louis this time of year, and in his wanderings, Ferdinand crashed through an ice-covered quarry. He was rescued, above, by humane society officials.

Football Casualty Returns to School

Recovered from the leg amputation suffered as a result of a football injury, Edwin ("Rip") Collins, of Kearney, N. J., is welcomed back to St. Benedict's School at Newark by classmate William Warring, of Maplewood. Grinning cheerfully, Collins said he will try out as catcher on school baseball team in spring.

Destination—War!

In sharp contrast to the holiday spirit with which troops marched off to the last World War are the solemn, determined-looking Canadian soldiers above. They are part of the Third Contingent pictured in Ottawa recently as they marched to the boat for embarkation to England and war. Soldiers' wives and children accompany them for final farewell.

Out of Jail for Father's Funeral

Death cut short former Burlington County, N. J., detective, Ellis H. Parker Sr.'s six-year sentence in the Lewisburg Federal Prison for conspiracy to kidnap Paul H. Wendel in an attempt to solve Lindbergh kidnapping. His son, Ellis H. Parker Jr., convicted in 1937 with him, is pictured above accompanied by his wife and a prison guard, as he attended his father's funeral in a Mount Holly, N. J., cemetery.

Patrol Pictures Taken From Plane

Pictures from above are taken by R. A. F. photographer in one of flying boats that accompany convoys to protect them from Nazi U-boats.

Says He Can Find Long-sought Wife

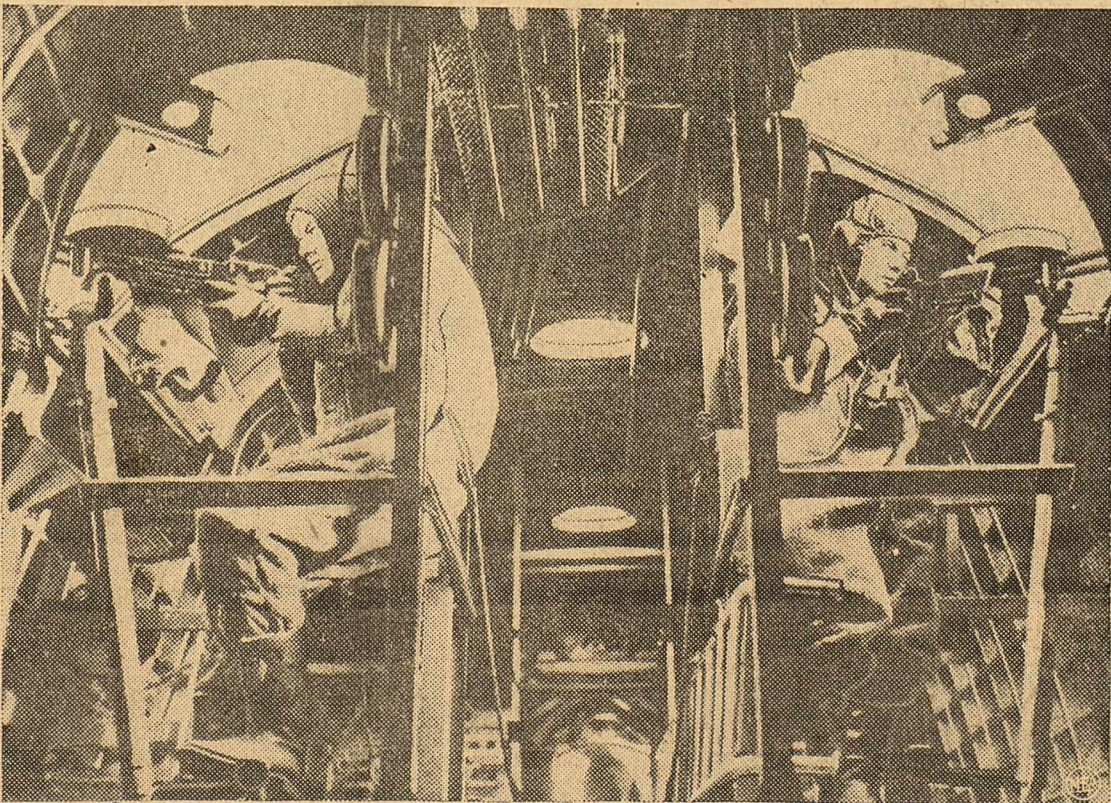

"I'll find her in 60 days", Ivan Poderjay, former Yugoslav army captain, was saying when this photo was snapped. He referred to his wife, Agnes Tufverson, successful New York corporation lawyer, missing since he married her in 1933, and thought murdered. He served 5 years for the bigamous marriage, and is pictured at Ellis Island, N.Y., awaiting deportation to Yugoslavia.

Finnish Reindeer Get Notice—Must Evacuate

Reindeer join women and children on the Finnish evacuation list as war moves dangerously close to Lapland feeding grounds. Valued for the transport, food and clothing they provide, thousands of these four-footed aimes have been rounded up at Petkula for movement to regions safe from the Russians.

Searching for Nazis From Aerial Fighting Top

Business end of a British patrol plane looks like this as men of the Royal Air Force Coastal Command maintain vigil over the ocean on the lookout for enemy aircraft or submarines. Four-engined Sunderland flying boats are used on coastal patrol against Nazi attacks on shipping.

Doomed, He Devotes Life to Needy

Warned by physicians that he has but a few years to live, Rev. George Winniman, of Atlanta, Ga., founded the Atlanta Home Mission, where he devotes himself to aiding poor children. He solicits no funds, but prays for the necessities of his work. Rev. Winniman is pictured above with some of the youngsters he feeds, clothes and

Head Men at Democrats' Pow-wow

After an exchange of significant compliments, Postmaster General James A. Farley (left) and Vice-president Garner, both possible Presidential candidates, get their heads together over political matters at Washington meeting of Democratic National Committee. Chairman, Farley presided while committee chose Chicago as the party's convention city.

To Stamp Out Cotton Surplus

King Cotton is too fat—by millions of bales. Secretary of Agriculture Wallace plans to reduce the King's surplus by the same method food surpluses were shrunk—with stamps good for free cotton merchandise. Relief families will be able to purchase \$1.00 worth of green stamps, receiving, free, an additional \$1.00 worth of the brown stamp pictured above. With the \$2.00 total they may buy new cotton goods at retail stores.

A Victim of Public Enemy Number One
Washington survived shot and shell through years of war—and fell a victim of Public Enemy Number One, a common cold which, through neglect, led to fatal complications. Take warning. Treat a cold at the first warning sneeze or sniffle. If it persists, summon the aid of your physician. He, alone, is competent to diagnose and prescribe for you.
