LBJ Plans More Trade, Fewer Men In Europe

NEW YORK (AP) — President Johnson, announcing a broad new program to improve East-West relations, called today for a "gradual and balanced" reduction of armed forces in central Europe.

In a major speech on European policy, Johnson announced that the United States is cutting trade restraints on "hundreds of non-strategic items" which this country may now export to Eastern European nations.

This was one of seven new steps, as the President described them, designed to strengthen ties between Communist Eastern Europe, the United States and other Western nations.

Johnson, in his text prepared for delivery at the National Conference of Editorial Writers, strongly re-emphasized U.S. policy to keep the Western alliance — NATO — "strong and abreast of the times." He also reconfirmed U.S. support for European unity declaring "a united Western Europe can be our equal partner in helping to build a peaceful and just world order."

But, the central and dramatic thrust of his first comprehensive declaration of European policy since the conclusion of an extensive, secret review of U.S. positions on major European questions, seemed to be his veiled bid for a reciprocal reduction of U.S. and Soviet troops ranged along the boundary line between the Communist and Western worlds through the heart of Europe.

After declaring U.S. intention to maintain "effective Western deterrents," Johnson said:

"The Atlantic Allies will continue together to study the strengths NATO needs, in light of changing technology and the current threat.

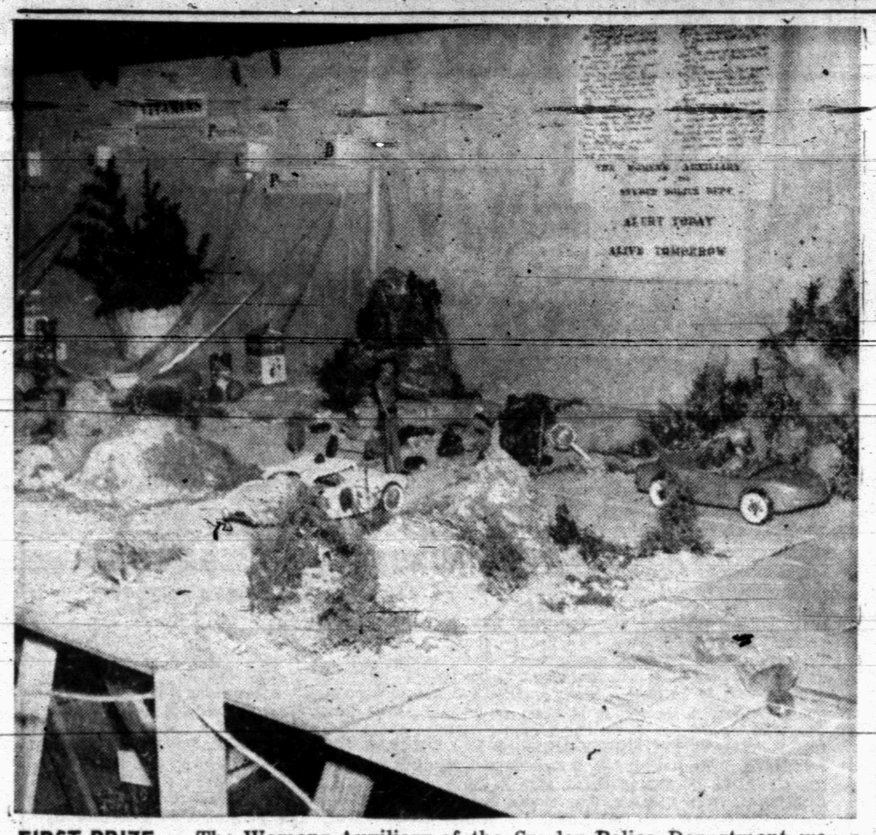

"Reduction of Soviet forces in central Europe, would, of course, affect the extent of the threat.

"If changing circumstances should lead to a gradual and balanced revision in force levels on both sides, revision could — together with the other steps that I have mentioned — help gradually to shape a new political environment."

Johnson is scheduled to meet in Washington next Monday with Soviet Foreign Minister Andrei Gromyko. The policy he spelled out today gave unusual importance to that forthcoming White House session.

Administration officials said that behind the policy statement was six months of review and debate within the government. They denied that it had any immediate significance in timing. Yet, a new move on the Soviet Union's part to improve relations had recently become apparent and, furthermore, Johnson is already reviewing with U.S. allies, Britain and West Germany, the question of whether U.S. and British troops in Germany might be cut.

The Soviets were reported by Western experts to have 26 divisions totaling 375,000 men in Eastern Europe west of the Soviet border. The United States has six divisions or equivalent in Germany, now totaling about 218,000 men. The real military balance rests basically on nuclear weapons.

FIRST PRIZE — The Womens Auxiliary of the Snyder Police Department won a blue ribbon prize for taking a first place in educational exhibits competition at the Second Annual Scurry County Fair. The exhibit shows a policeman directing traffic.

GIRL SCOUTS — These mannequins and cards point out the opportunities available to local girls through the Girl Scouts. The exhibit is on display at the County Fair in the Towle Park county barn.

Fair Attracts Crowd Here Opening Day

The second annual Scurry County Fair had an enthusiastic crowd on hand Thursday as it began a three - day run at the county barn and National Guard Armory in Towle Park.

There were not as many entries in the cattle and sheep divisions this year, but fair officials were pleased with the turnout, and they praised the quality of the animals. Judging of cattle and sheep, rabbits and chickens was held Thursday. Swine were to be judged this morning.

The womens division attracted hundreds of top entries, and there also was an outstanding art show held in conjunction with the fair. Competition in community and educational exhibits was close as the area communities placed some fine exhibits.

Fluvanna copped first place in the Community Exhibit division, and the Fluvanna Young Farmers won first among Young Farmers in educational exhibits. The same community took first in the FFA division, and Inadale 4-H's entry in educational exhibits was judged best among 4-H entries.

Judging of educational entries was based on the following guidelines: teaching agriculture practices, 20 per cent; conveying the message, 20 per cent; attracting attention, holding interest, workmanship and simplicity, each 10 per cent. In addition, general appearance counted for 15 per cent and reference for 5 per cent.

The Murphy Home Demonstration Club, the Union 4-H Club, and the Fluvanna FHA all won top awards for their educational exhibits in the women's division. In the "other organizations" category, the Women's Auxiliary of Snyder Police won first place.

Bob Daugherty's 800 - pound Hereford steer was judged grand champion of the steer division. The reserve, a 710 - pound Angus, was shown by Sharon Pieper.

Bob's champion animal placed first in the 751 and over class, and he also took second with a 900 - pound animal. Sharon's Angus was judged best in the 601 to 750 pound class, and her brother, Robert Pieper, won second place. Cindy Beaver's 740 - pound Hereford was awarded a blue ribbon in the same class, Don Schattel's 680-pound Hereford took a red ribbon, and Bo Robinson's 680 -

Committee Has No Funds

The Community Action Committee here has been denied planning funds because of a lack of appropriations, Buford Browning, chairman, has been advises.

Browning received a letter from the Office of Economic Opportunity citing the lack of funds. However, the committee here still will be recognized as a panel and it was suggested that individual projects, such as Operation Head Start, be continuel, or initiated, on an individual basis.

Browning said the recommendation for developing projects was essentially the same plan followed before the Community Action Committee was organized.

Chrysler's Walkout Ends

DETROIT (AP) — Chrysler Corp. moved toward full production of its 1967 model cars today as workers returned to their jobs, ending an eight-day strike at a key stamping plant.

The walkout at Twinsburg, Ohio, had idled more than 46,000 workers around the country after it cut off the flow of vital parts to assembly lines.

A company spokesman said full production in the United States would resume Monday at six assembly and four stamping plants idled by the strike.

Operations at Chrysler of Canada Ltd., at Windsor, Ont., across the river from Detroit were to resume Tuesday.

The first of three shifts totaling 4,200 workers returned to their jobs at Twinsburg today following an overwhelming approval by United Auto Workers Local 122 of a negotiated agreement.

Soviets To Pull Students From China

MOSCOW (AP)— The Soviet Union today ordered all students from Red China out of the country.

The government said it was taking the step in retaliation against the ouster of Soviet students from China in September.

All Chinese students are to be out of the Soviet Union before the end of October.

The move brought already strained Soviet-Chinese relations to a new low.

But the government here said it would be ready to resume student exchanges "as soon as the Chinese side displays readiness" to do this.

The Soviet position was laid down in a statement made today at the Ministry of Higher and Special Secondary Education to a representative of the Red Chinese Embassy.

North Carolina Firm Low Bidder On Dam

BIG SPRING — The Colorado River Municipal Water District cleared the last major hurdle Thursday between it and the construction of a dam to impound a 488,000 - acre foot lake on the Colorado River near Robert Lee.

For a time as bids from 10 contractors were read at the Settles Hotel before some 250 contractors, suppliers and subcontractors, it appeared that the project would be too far above the estimates.

Then W. L. Eeds, representing Freese, Nichols and Endress, project engineers, read: "Clement Bros., Hickory, N.C., total bid $8,686,440." A ripple and then a roar ran through the crowd.

Later the board awarded the contract to Clement Bros. subject to a check by the engineers The low bidder was $1,264,560 under the second low bid by H. B. Zachry Co. of San Antonio in the amount of $9,951,000. Third bid was R. N. Adams, Kaufman, for $10,271,140. The 10 bids ran to a top of $13,549,660 by Heldenfeld Bros. of Corpus Christi. This was $4,863,220 or 56 per cent over the low bid.

Richard Goodwin, vice president of Clement Brothers, told officials of the district later that "we're satisfied. Of course we would like to have had a little more money, but we decided to make a bare-bones bid. Looks like we did."

Engineer estimates on the project had been pegged roughly at $8,432,000.

"We'll begin moving equipment in about two weeks from now," said Goodwin. "We'll be started on or before Nov. 1 and in full swing by the end of the year."

Completion of the dam and spillway is set for March 1, 1969.

The district's three member cities, Odessa, Big Spring and Snyder will be supplied from the new lake as will Midland, which has contracted to buy surface water from the CRMWD starting in 1970.

Of the total bid, Clement included $2,875,000 for construction of the huge concrete spillway which will carry excess water through the center of the dam. The remainder was for excavating 1,587,000 cubic yards from a core trench 30 feet deep, installing 11,488,000 cubic yards of wetted and rolled embankment for the dam proper, plus 83,000 yards of 10-in. gravel blanket and 209,000 yards of rock rip-rap two feet thick to protect the dam. The dam will be 22,000 feet long, will rise 143 feet from the river channel or 123 from the second river bank, will be 850 feet wide at the base and 20 feet wide at the top.

The big spillway will be a morning glory type with adjustable gates on top. It will resemble the bell of a sousaphone 66.3 feet wide from lip to lip, feeding water into a main conduit 28 feet wide (with walls 6½-ft. thick) down and under the dam to a stilling basin — a big concrete box with walls two feet thick and rising 58 feet from a floor which is eight feet thick.

One 60-inch pipe will run into the lake well beyond the spillway and will feed into a wet well (which resembles a silo) from whence water can be discharged either into the main outet or through a 24-in. pipe to serve downstream customers.

In other matters considered by the board, a contract for $5,269 was awarded to M. C. Sissom, Bronte, for construction of fences at the dam site two miles northwest of Robert Lee. A budget of $2,781,000 was approved for 1967, subject to bondholder approval. The board provided a total of $10,000 for salary adjustments, which will be distributed as soon as a personnel policy is completed.

U. S. Urged To Cease Bombings

UNITED NATIONS, N.Y. (AP)—Foreign Minister Swaran Singh of India urged today a cessation of U.S. bombing of North Viet Nam as the best way to induce Hanoi to enter peace negotiations.

"We feel confident that if the bombing of North Viet Nam is ended, a way out could perhaps be found to move the parties from the battlefield to the conference table," Singh said in a policy speech to the U.N. General Assembly.

Marko Nikezic, the Yugoslav foreign minister, called upon the United States to take the first step in bringing about negoations. Like Singh, he urged a halt to bombing of the North. He said also the United States should recognize the Communist Viet Cong as a party to any negotiations and offer a commitment to withdraw troops from the South within a given period.

The statements on Viet Nam came as U.S. Secretary of State Dean Rusk prepared to return to Washington. Apparently he found no encouragement for peace hopes in three days of talks with Communist and neutralist diplomats.

If the Communist or nonaligned nations have had any hint from North Viet Nam that it is prepared to ease its conditions for negotiations, there is no sign that they passed the information on to Rusk.

It became clear that the Americans were making little headway after the secretary of state talked Thursday with Foreign Ministers Vaclav David of Czechoslovakia and Janos Pete of Hungary.

The Americans apparently had centered their hopes on David, whose Premier Jozef Lenart conferred recently in Hanoi with North Vietnamese President Ho Chi Minh.

Asked about Lenart's mission to North Viet Nam, David told newsmen he had no message to relay to Rusk.

The Hungarian foreign minister told newsmen only that he and Rusk had touched on Viet Nam along with other world problems.

Inez Pounds Villages On North Coast Of Yucatan

By CHARLES GREEN

MERIDA, Mexico (AP) — Hurricane Inez pelted villages on the northern coast of the Yucatan Peninsula today with heavy winds, high tides and rain, then headed for the southwestern Gulf of Mexico packing 125-mile-an-hour winds.

Property damage in the port of Progreso, about 22 miles from Merida, was reported heavy.

Up to midmorning, however, there were no reports of deaths or serious injury.

In a noon advisory the New Orleans Weather Bureau said Inez was about 155 miles north of Merida, moving toward the west-southwest about 10 miles an hour.

"Inez is expected to move on a west-southwestward course for the next 12 to 24 hours at a slower rate of speed," the advisory said. "Little change in size or intensity is expected."

About three-quarters of the 15,000 resident of Progreso were evacuated to Merida Thursday. Some who came to Merida from Progreso this morning reported heavy damage in the port because of wave action on waterfront construction and because of wind and rain against the poorly built houses in some sections of the city, though the wind and rain had been lighter than expected.

Heavy rain started in Merida about 7 p.m. Thursday. There was some fear of flooding in lower sections of the Yucatan capital, but no serious damage has been reported here.

Inez roared into the Yucatan Peninsula early today after 14 days of battering Caribbean and Bahama islands and the coast of Florida.

Gov. Luis Torres Mejias pleaded for federal aid. Trucks, trains and a caravan of buses evacuated refugees from Progreso.

Those who stayed sought shelter in the port's stronger buildings or on high ground as the steadily increasing winds kicked up high seas off the port.

Federal troops, sailors and police patrolled the city to aid those who remained and to guard against looting.

Yucatan juts from Mexico into the gulf like a swollen foot. A low, rolling tableland of tropical rain forests, farms and ranches, most of its people are called Ycatecos, descendants of the Maya Indians whose advanced civilization flourished shortly after the time of Christ.

Inez bore down on the peninsula after flouting the usual route taken by hurricanes. Most storms, once they reach the gulf, turn oward the U.S. mainland. But a cool air mass blocked Inez on the north.

Earlier the hurricane struck Guadeloupe, the Virgin Islands, Puerto Rico, the Dominican Republic, Haiti, Cuba, the Bahamas and Florida. In her wake lay damage, flooding, homeless thousands and more than 150 dead. The final death toll in Haiti still is not known.

Apartment Is Ordered Demolished

BRUSSELS, Belgium (AP)— Brussels' highest court has ordered one of the city's luxurious apartment blocks demolished because neighbors don't like its looks.

The block, which cost $1.4 million to build, is in Brussels' most fashionable and expensive section. It is surrounded by a park, stands next to a forest, and includes a private swimming pool.

But it did not please 33 owners of neighboring villas, and they sued the builders for failing to comply with a city regulation banning construction of anything other than villas in that area.

An appeal court decided last year that the 10-story block had to be demolished. The higher court rejected Thursday night the buildiers' claim that the block was a villa, since it had four front walls and was located in a park.

Owners of the 40 apartments in the block, who claim they acted in good faith in buying, hurriedly called a conciliation meeting with their protesting neighbors, but a majority still was in favor of demolition.

Rhodesian Policy Ok'd

BRIGHTON, England (AP)— The British government won a decisive vote of confidence for its Rhodesian policy from the Labor party convention today. The count was 4,368,000 to 1,801,000.

Delegates to the convention vote proxies for the entire membership of party branches of labor unions they represent, and thus delegates from some major unions have votes running into six figures.

Mrs. Eirene White, minister of state for foreign affairs, had outlined official British aimes in the rebel African territory, emphasizing time after time a one-man one-vote, democratic system is the whole "object of the exercise." This would give the country's 4 million Africans ultimate power, with the interests of 225,000 whites protected.

Mrs. White stressed that Britain will not negotiate formally with Prime Minister Ian Smith's rebel regime until it repudiates its declaration of independence.

Surface Casings Ordered At Pecos

AUSTIN (AP)— The Railroad Commission ordered operators of all oil and gas leases in Pecos County today to set and cement surface casings to protect adequately the Pecos underground water aquifer.

The order states that casings must be set at a point not less than 20 feet into the Permian or Traiassic redbeds with sufficient cement to obtain returns at the surface.

Evidence at a Feb. 16 hearing, the commission said, indicated that failure to cement adequately the surface casings can cause pollution of fresh water.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: My husband has had 5 years of college. He works long hours (no overtime pay) in a position of responsibility with a large, highly respected firm. His judgment is heavily relied upon. But some of the men who operate the machinery make more money than my husband. This hurts.

For instance, our neighbor never even finished high school, but because he has a unionized job of manual labor, his income far outstrips my husband's. It doesn't seem fair that with all my husband's education he isn't able to give his family as much as some uneducated laborers.

I am not saying common laborers should make less, but in a society screaming for youngsters to get an education, it's ironical that uneducated laborers should make more than college graduates. I hope you aren't too frightened by big business to answer.

EDUCATED BUT HUNGRY

DEAR EDUCATED: I don't blame you for being resentful, but perhaps what you term "common laborers" are skilled laborers in their fields. Many men who have never seen the inside of a college (or high school) have a technical knowledge equal in importance to some college educations.

I, too, would like to see higher education bring greater rewards, but don't confuse a man's worth with his college education or the lack of it.

* * *

DEAR ABBY: Men think nothing of wearing a suit for 4 and maybe 5 years. Some even longer. So can you please tell my why a woman won't wear last year's dress?

CURIOUS

DEAR CURIOUS: Some don't want to. Others can't.

* * *

DEAR ABBY: I am a 28-year-old man who needs some womanly advice. About a year ago I got a little drunk and hooked up with a 40-year-old married woman. We were intimate right away and to make a long story short, she and her two sons, 12 and 14, moved into my apartment.

Her divorce came thru shortly after and we made plans to marry. Then I started finding out things about her that didn't add up. She said she lost her first husband in the war. I found out they were divorced and he's still living. She told me her parents were both dead. I found out they are living right in town, but she never sees them. She said she had no other children except the boys. I found out she has two older daughters, living with relatives.

When I brought up these things she said it is all in the past and she doesn't want to talk about it. Now I am wondering what kind of person would lie about things like that, and why!—I care for her, Abby, but should I marry a woman if I can't believe a word she says!

WONDERING

DEAR WONDERING: If you do, you ought to have your head examined.

New Pact Turned Down By Installers

WASHINGTON (AP)— About 22,000 Western Electric installers have turned down a proposed new labor contract negotiated by the company and with the AFL-CIO Communications Workers of America, a union spokesman said today.

Exact figures on the ratification vote counted here Thursday night were not expected until later today, the spokesman said.

But, the results were certain enough, he said. The installers rejected the contract which would have provided for basic wage increases of $5.50 to $8 per week, additional hospitalization, health and pension benefits.

A spokesman for the union said the turn-down actually was based more on local issues than on the over-all national provisions of the proposed contract.

He indicated, for example that installers in nine Southeastern states wanted to be upgraded as a region. Similar matters, including holidays, influenced the West and Midwest voting.

Western Electric is the manufacturing and supply arm of the Bell Telephone systems. Its contract with the union expired July 28 and a contract was negotiated with the aid of a federal mediator.

Current wages, according to company figures, average $3.21 hourly, but vary according to the area.

Huge Crane Has Surgery

WASHINGTON (AP) — A team of veterinary surgeons has amputated part of the injured wing of Canus, a 2-year-old whooping crane.

The 20-minute operation was performed Thursday at Colorado State University, Ft. Collins, after X rays showed the bird would never regain use of the wing, the Interior Department said. The wing was removed at the elbow.

Canus had been found in Canada in 1964 unable to fly because of the injured wing. Since whooping cranes are rare — officials said last year there were 44 — the young bird was rescued by helicopter and later turned over to the Interior Department's Bureau of Sports Fisheries and Wildlife.

Dr. Ray Erickson, direct of the bureau's endangered species station near Laurel, Md., said Canus had difficulty keeping his balance because of the injured wing. It would cause him to fall and hamper his efforts to get up, Erickson said.

Draft Card Burner Draws Five Years

BOSTON (AP) — David Benson, 18, of Cambridge, Mass., has been sentenced to five years in prison for destroying his draft card.

Federal Judge Anthony Julian said Thursday Benson must undergo psychiatric tests. He said the sentence will be reviewed by the court after the study.

Benson told the court he is a pacifist and that the Selective Service System "perpetuates violence."

Benson was convicted by a jury Sept. 22 of burning his draft card and of destroying his draft classification notice at pacifist demonstrations in March.

UFO Seen At Houston

HOUSTON (AP) — Deputies sheriff in three separate sections of Houston and suburban Spring Valley police reported seeing a slow moving light high over southeast Houston early today.

Lt. Dann Brock, one who saw the strange light, said it moved slowly back and forth and the coloring of the light changed from red to white to green. He estimated it was 3,000 and 5,000 feet.

Armand Yramategui, director of the Burke Baker Planetarium searched the southeast sky but said he was unable after daybreak to find the object reported by the officers. He said they might have seen the planet Jupiter which was in that position in the sky.

Airport officials said no unidentified objects had appeared on radar here.

Mrs. Cloud Speaks To Cosmorama

Cosmorama Study Club met Wednesday afternoon at Martha Ann Woman's Club, with Susie Reed and Skipper Westbrook hostesses.

Peggy Koonsman introduced Mrs. P. W. Cloud, who spoke on the General Federation of Women's Clubs. Mrs. Cloud, who has been a member of a federated club since 1931, showed a film about the organization of federated women's clubs and the women who have worked together for the country.

The theme, "Unity in Diversity," was prominent throughout the film.

Believing that no cause is too small or too large, the federation has been responsible for creating concern about many problems of interest to the public. To this organization, much credit is attributed for such things as passage of a Pure Food and Drug Law, compulsory education, a minimum wage bill, an 8-hour work day and the establishing of public libraries.

Through the years, American clubwomen have had the realization that the strength of the nation depends on the education of its people. Perhaps the Federation's greatest belief is that through unity world peace will be realized.

Virginia Clark, Cosmorama president, presided at the business meeting. Jo Flynn, treasurer, presented the club budget for the coming year.

Mrs. Clark announced that the Mesquite District workshop will be held at Stamford on Oct. 15.

Cosmorama's next meeting will be Oct. 27 at which time Dr. J. P. Gibson, pediatrician from Abilene, will be the guest speaker.

Baked Fondu

3 large eggs, separated
1 cup milk, scalded
6 thin slices bread, crusts removed and crumbed (from a 1-pound loaf containing 20 slices)
½ teaspoon salt
1 cup grated cheddar cheese
1 can (1 pound) and 1 ounce creamstyle golden corn
1 can (4½ ounces) shrimp, drained and rinsed in cold water

Beat egg yolks until thickened and lemon color; gradually beat in scalded milk, then bread crumbs and salt. Stir in cheese, corn and shrimp. Beat egg whites until stiff; fold into yolk mixture. Turn into a buttered ovenglass baking dish (10 by 6 by 2 inches) and bake in a slow (325 degrees) oven for 45 minutes or until fondu seems firm when gently shaken. Makes 6 servings.

Fluvanna 4-H Meets

FLUVANNA — Beginning a series on picnic demonstrations the Fluvanna 4-H Club held their Sept. meeting in the Home Economics Dept. of Fluvanna School.

Following the call to order by Rebecca White, business transacted included the reading and approving of the minutes; roll call, with four names being added, those of Brenda Mason, Lorene Beaver, Donelle Jones and Karen Potter; a bake sale discussion to help in the buying of supplies for 4-H meetings; and the reading of a card of thanks from Lou Alice Mathis for a charm bracelet given her by the club.

Mrs. Fowler Mathis, leader, discussed with the girls the electric booth at the Scurry County Fair, a project of the girls.

Mrs. Bob Jordan, in charge of the program, was assisted by members giving demonstrations. They were Gwen Stansell, Renetta Jordan, the use of measuring cups; Carla Showmaker and Rebecca White discussed the nutrition of milk, and Lynda Hall and Pamela Shoemaker demonstrating the making of strawberry milk.

Renetta Jordan showed an exhibit on science.

Members and leaders present were Mrs. Bill Stansell, Mrs. Bob Jordan, Mrs. Sam Shoemaker, Mrs. Robert White and Mrs. Fowler Mathis; Pam Shoemaker, Rebecca White, Ann Smith, Danita Jordan, June Stansell, Lynda Hall, Renetta Jordan, Rhonda Patterson, Tammy Munday, Gwen Stansell, Sara Price, Cindy Beaver, Belinda Potter, Dian White, Anita Smith, Kim Braken, Lorinda Jordan, Carla Shoemaker and Rhonda Braken.

Curry-Broiled Chicken Wings

8 meaty (1½ pounds) chicken wings
2 tablespoons butter, soft
¼ teaspoon salt
½ teaspoon each dry mustard, paprika and curry powder
1 small clove garlic, crushed

Clip tips from chicken wings; wash and thoroughly dry wings. Blend together the remaining ingredients. Spread one side of wings with half of mixture. Place wings, seasoned side up, on a rack in a small shallow pan on second rack under (or 6 inches from) high broiler heat. Broil until browned — about 10 minutes; turn and spread with remaining butter mixture. Continue to broil until browned and cooked through — about 10 minutes. Makes 4 small servings.

President Has Problems With His News Conferences

By JAMES MARLOW
AP News Analyst

WASHINGTON (AP) — President Johnson is restless about news conferences. He has tried a variety of them, as if looking for one that suits him or as if he doubts any one of them will.

Other recent presidents treated them as a kind of institution, whether they liked them or not. But not Johnson, judging from the way he switches them around and the fact that he only holds them now and again.

He has tried the ambulatory conference, strolling around the White House lawn with reporters taking notes and skipping to keep up; the televised, the non-televised, and the radio-only kind; the spur of the moment and the announced in advance kind.

He has tried conferences with a microphone around his neck or in front of him; with the camera close up or at a distance; in big rooms and in his office.

When he talks he could be any one of many senators talking at a hearing in a committee room. He has no unique style but gives the impression of searching for one.

If he seems different from recent presidents, they were different from one another too.

He lacks the charm of Franklin D. Roosevelt, the ease of John F. Kennedy. But he is more coherent than Dwight D. Eisenhower and far less cocky and belligerent than Harry S. Truman.

While he is no wit and his utterances are not on the same plane as the delicate sonority of the King James Bible, he has a keen dramatic sense which he employs, not for the conflict implicit in drama, but for surprise.

Some times the way he springs a surprise is more surprising than the surprise itself, which is one of the uses he makes of a news conference by wrapping the surprise in an announcement.

A president could make an announcement in written form, handed to reporters. But this lacks the bang of making the same announcement to a mob of newsmen close up.

This explains, perhaps, why Johnson likes to use a news conference for a surprise announcement, which at times seems the main reason for calling the conference in the first place since not all his conferences sparkle with news.

For example: It had been known for months that George W. Ball, undersecretary of state, was leaving. This started the usual Washington guessing game which, in this case, lasted for months.

Johnson played mum and the name of Ball's successor was one of the best kept secrets of Johnson's almost three years in the White House. Then he arranged a news conference which was at first billed as simply a news briefing but turned into a news conference.

He announced he had chosen Atty. Gen. Nicholas Katzenbach for Ball's place. This was a surprise, since it meant Katzenbach was stepping down a notch (and who would ever have thought of that?), but less of a surprise than the way Johnson chose to reveal this extremely important appointment.

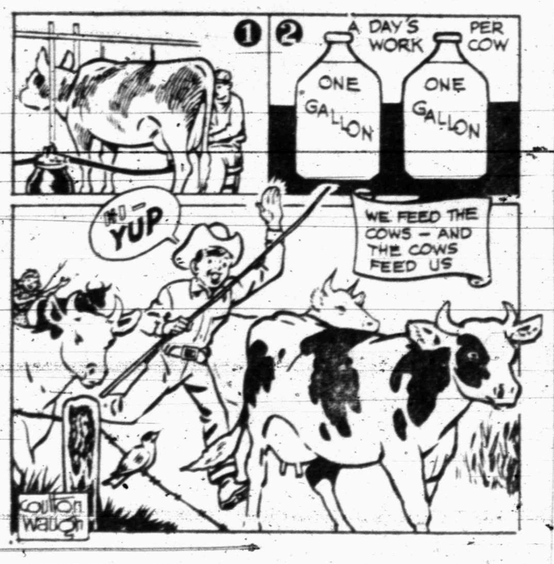

He didn't announce it formally. It was only near the end of the conference, when a reporter happened to ask who'd get Ball's job, that Johnson said it would be Katzenbach.

Yet, the announcement was probably Johnson's main reason for calling the conference since everything else he said was secondary to this news.

At his televised conference Thursday, Johnson switched the technique, rattling off before reporters could ask a question a list of men he had just selected for high government posts at home and abroad.

Again this seemed the main reason for calling the conference. Johnson's answers to most of the questions the reporters finally asked were vague or negative. He made few positive statements.

Junior Editors Quiz on COWS

QUESTION: When does a cow begin to give milk? How much does she give?

ANSWER: Dairy cows begin to give milk after they have had their first calf, which is usually when they are between 2 and 3 years old (1). As a rule there is only one calf, although there may be twins. A cow starting to give milk is called a "fresh" cow and can be milked steadily for about 10 months. For more milk, breeding must be arranged so she gives birth to another calf, for without this, a cow cannot produce milk. As a rule, dairy cows can go on producing good quantities of milk for five or six years, but exceptionally good ones may continue for as long as 20 years.

Farmers think of milk production in pounds, because creameries pay for the milk by the pound. It is easier for the rest of us if we measure a cow's production in gallons; a gallon representing 8.6 pounds. Figured this way, we may say that two gallons a day might be an average cow's production (2). The individual cow will vary from this, especially since some breeds, such as Holsteins, give more milk than others.

FOR YOU TO DO: See if you can tell the breed of the next cow you see. If you can't, look up cattle in an encyclopedia. 10-7

Quinn Likes To Compete With Himself

By HAL BOYLE

NEW YORK (AP) — Social protest against today's false values can take strange forms.

Actor Anthony Quinn, for example, is now collecting and decorating old Italian ox yokes, an uncrowded field if ever there was one.

Tony, a gifted sculptor and artist, started buying modern paintings as a youth.

"Now art is a big world cartel. I can't afford it anymore," he said.

"They now are forming syndicates and corporations to buy paintings, just as they do racehorses. I was recently offered a chance to buy one thirty-second of a Renoir. Think of that!

"These people should hang their tax returns or bank statements on their walls rather than pictures.

"So now I collect Italian ox yokes and decorate them myself. That's the solution — to create your own art. If I ever get tired of them, I can always put them back on the oxen."

Being adaptable is the life creed of the husky Quinn, twice an Academy Award winner, who at 50 recently completed his 51st film, "It's What's Happening!"

"Society demands compromise, and I'm not a man who will compromise," he remarked. "But adaptability is another thing. You have to adapt to the changing rhythms of life to stay young.

"Life rarely goes the way we plan it. It has a way of dictating its course. You stay young only as long as you can adapt and seek new things."

Quinn, born of an Irish father and Mexican mother, has a face like a map of mankind — a United Nations face—that enables him easily to play almost anything from an Arab to a Zulu. Self-educated, he has a mind like a torrent that seeks to penetrate every crevice of life.

Besides English, he is fluent in Spanish and Italian, "half-fluent" in French, and can get by in Greek, German and Eskimo.

Like many financially successful people, Tony believes the biggest mistake most people make is to hold up success as the greatest goal.

"The word success is the falsest god in life," he said. "It has made more unhappy people, driven more of them to pills and psychiatrist than any other single thing.

"I would like to take the idea of competition out of success. I don't want to be better than anybody else, just as good as anybody else. But" — he paused, waved his brawny arms — "of course, I don't want anybody else to be better and lording it over me."

Quinn feels the world would be better off if each man competed with himself rather than against others.

Columbus Has Many Challengers

WASHINGTON (AP) — Oh, the good old days when teacher said Christopher Columbus discovered America in 1492 and that was that.

Bad enough, this later complication that perhaps the Vikings arrived half a century or so earlier.

But now, five days away from the 474th anniversary of Columbus' arrival in the New (to him at least) World, the list of his possible challengers reads like an index page in an atlas.

Only Thursday:

The chairman of the U.S. Atomic Energy Commission, Glenn T. Seaborg, said it may have been a Japanese who discovered the New World.

Welsh author Richard Deacon claimed the Welsh were first.

Seaborg's nomination of the Japanese was made before the Leif Erikson Foundation, which has its own ideas on who discovered America. Seaborg said recent archaeological investigations on the coast of Ecuador "strongly suggest that the Japanese may have crossed the Pacific and landed in that area around 3000 B.C."

Deacon's claim is that a Welshman named Madoc, son of Owain, king of Gwynedd, founded a colony in America in 1170. After 20 years research, Deacon will publish his ideas in a book next month.

Trinity Methodist

Church School will begin at 9:45 a.m. with classes meeting for all age groups. The morning worship service will begin at 11 a.m. This is Laymen's Day in the Methodist Church, and the laymen of Trinity congregation will be in charge of the morning services. John Jarrell, lay leader of Trinity congregation, will be in charge of leading the morning service, and Mrs. Fred Bullard and Ken Babcock will assist him.

Guest speaker for the day will be Dr. Virgil Bottom, Chairman of the Department of Physics at McMurry College. Dr. Bottom is an active layman from the St. James Methodist Church in Abilene. From June 1964 - July 1965, Dr. Bottom was the Fulbright Lecturer at the Escola de Engenharia, Sao Carols, Brazil. In the summer, 1966 Dr. Bottom was at the University of Sao Paulo, Sao Carlos, Brazil.

Dr. Bottom has been an active member of the Methodist Church in which he has taught a Sunday School class almost continuously during the past thirty years. He has served his church as chairman of the Official Board for a total of four years, and as a steward for over 20 years. He is currently a Trustee and Steward of St. James Methodist Church in Abilene. He has helped to organize three Boy Scout Troops, and he has spoken numerous times to service clubs, PTA organizations, and church groups on topics related to science, education, and Brazil. Dr. Bottom's topic for this Sunday morning will be "Everyman's Servant" based on the text from I Cor. 9: 19-23.

The evening program will begin at 5:30 p.m. with the Methodist Youth Fellowship supper and program. The evening worship will begin at 7 p.m. The topic for the evening sermon is "The Body of Christ". This is the second in a series of sermons dealing with the theme, "The Nature of the Christian Church."

Choir Practice will be Wednesday evening, Oct. 12 at 7:30 p.m.

Bethel Baptist

Rev. R. Virgil Mott's Sunday topic will be "Is Doctrine Really Needed Today?" Scripture reference 1 Timothy 1:9-10, at the 11 a.m. worship service. "His Eye Is On The Sparrow," a vocal solo will be sung by Mrs. Kathleen Norsworthy, from Indianola, Iowa.

"The Facts of Life" will be the sermon subject of the pastor for the 7 p.m. worship service. The scripture reference may be found in James 4:14-17.

Shade McGinty, the newly elected Sunday School Superintendent, will open the school at 9:45 a.m.

The Training Union will begin at 6:30 p.m.

Candidate Proves He's At Least Honest

SACRAMENTO, Calif. (AP) — California Secretary of State Frank M. Jordan, 78-year-old Republican, was asked recently why he refused to appear on the same platform with his Democratic challenger, Norbert Schlei. Jordan replied:

Moon Due To Show Its Better Side

HAMPTON, Va. (AP) — Its pock-marked profile already photographed extensively by Lunar Orbiter 1, the moon will soon have a chance to show off its creamy side.

Scientists said Thursday Lunary Orbiter 2 would be launched between Nov. 6 and Nov. 11 to take pictures of the moon's smoother areas.

Dr. Lawrence Rowan of the U.S. Geological Survey said each of nine possible landing sites for America's Apollo astronauts, photographed by Lunar Orbiter 1, hold "some promise." However, the first mission did not transmit enough information to determine an exact landing site.

Thus the announcement of the next Lunar Orbiter mission, made at a news conference at the National Aeronautics and Space Administration's Langley Research Center.

Results of the pictures transmitted by Lunar Orbiter between Aug. 23 and Aug. 29 — 211 frames — were disclosed at the conference.

Lunar Orbiter scanned 2 million square miles of the moon's surface, including 16,000 square miles in the nine landing sites of primary interest.

The moon also disclosed some other surprises — mainly it trembles and shakes just like mother earth. Volcano activity also was noted.

Rowan said the photographs disclosed evidence of dynamic processes on the moon, including faults or slippages on the surface.

War On Crime Gets Slow Start

DETROIT (AP) — The Detroit Police Department's war on crime got off to a slow start recently.

Within hours after a departmental announcement of a beefed-up staff in the Holdup Bureau to quell a rash of crime, five businesses, including three banks, were robbed.

More than $4,000 was taken in three bank holdups within a three-hour period.

Police reported a $200 stickup at a loan company and a $220 robbery at a bakery.

Couple Observing 76th Anniversary

RANKIN, Ill. (AP) — Mr. and Mrs. Sid Davis observe their 76th wedding anniversary today.

Their two daughters and two sons are at their parents' small farm home for the family party. Some of the Davis' 12 grandchildren, 29 great-grandchildren and five great-great-grandchildren also are present.

Davis at one time operated a farm of 1,300 acres near Oxford, Ill., and later he had another farm in the Hoopeston, Ill., area. He retired in 1938 and moved to this eastern Illinois community of about 800 persons. Davis was 97 years old last Wednesday. His wife is 94.

Reserves To Continue Fast Signups

By SEYMOUR M. HERSH

WASHINGTON (AP) — Barring a major change in Pentagon policy, the National Guard and Army Reserve will continue this fiscal year to induct enlistees at a faster rate than they can be trained, figures showed today.

The Reserve units, which had 133,000 untrained men on hand last June 30, the end of fiscal 1966, revealed they inducted 7,474 men in July and 8,826 in August to fill vacancies caused by normal attrition.

But it also was learned that the Army now plans to train about 85,000 Reserve enlistees by next June — an average of roughly 7,000 per month.

National Guard officials further reported that more than 16,000 guardsmen had signed up in fiscal 1966 for training this year and up to now have not been included in the June 30 untrained totals.

These figures indicate that the Army, at the present induction and training levels, will be faced with a backlog of more than 130,000 men — enlistees who are untrained — by the end of this fiscal year June 30.

The huge backlogs have been sharply criticized by some congressmen who charge that the Reserve program provides a haven for many men who otherwise would be drafted for service in Viet Nam. Legislation that would give President Johnson the authority to call up the untrained reservists for active duty without declaring a national emergency now is pending. He hasn't asked for such authority.

Pentagon officials reportedly are considering a cutback in enlistments in an effort to reduce the huge training backlogs. But so far no action has been taken and, as a National Guard official put it, "There are no plans to cut back."

Cancer Patient Realizes Dream

CENTREVILLE, Mich. (AP) — Larry Rink's three wishes have come true. Rink is the 21-year-old cancer amputee who now has no evidence of the disease remaining in his body.

He learned last July, after cancerous tissue from other persons was transplanted to him, that tests showed no traces of his cancer remaining.

He said then, "Now I'll get my new leg and then I hope I can find a good job and take care of my wife and baby."

Within days, Rink was fitted with an artificial leg. His right leg was amputated more than a year ago because of bone cancer.

Three weeks ago he began his first job in more than a year — as a stock clerk at H. G. Wells & Co., a tool firm in nearby Three Rivers.

And on Sept. 24, Rink's wife, Jeannie, 20, gave birth to their first child, Tina Ann.

Dr. Ray Houghton, the family physician who first advised Rink to undergo the experimental cancer transplants, delivered Tina.

Rink was undergoing x-rays at South Bend (Ind.) Osteopathic Hospital to check for any evidence of cancer at the same time his wife was delivering the child there. The Xrays showed no trace of cancer, Dr. Houghton said.

The 6-foot-1 cancer patient now weighs 150 pounds, up from 140 last July.

Hundreds of persons from across the nation have telephoned and sent letters and telegrams to Rink and Houghton, asking for cancer cures.

"I refer them back to their own doctors. Houghton said. "with advice that they contact Roswell Park Memorial Institute," the Buffalo, N.Y. hospital where the cancer transplants were undertaken. Three other persons involved in the experiments died.

Houghton says that Rink has not been pronounced cured of cancer.

"You don't call a cancer patient cured until they go five to ten years without any evidence. It takes just a few cells to lie dormant and pop up again."

Road Plans Are Revised

AUSTIN (AP) — The State Highway Commission approved Thursday revision of the proposed location of Texas 288 in Brazoria County.

The Brazoria County Commissioners Court requested the relocation of the route further to the east in the northern part of the county.

The approved routing begins at the Harris County line and continues due south about four or five miles, then southwesterly about four or five miles. The route then goes south parallel to Airline Road nine miles to intersect with the existing Texas 288 location. The route continues south along the previously approved route to connect with Texas 322 at Lake Jackson.

Mexico City Thieves Roll Roller Away

MEXICO CITY (AP) — A pavement roller weighing 10 tons and worth more than $3,200, was stolen recently from a street where it had been parked for the night.

Contractor Enrique Aceves Aguayo said the machine was left in a street where pavement was being repaired, with a night watchman in charge.

The watchman said "some men" had started the engine and rolled away. And he was not able to stop them.

Police arrested the watchman for investigation.

Just Say, "CHARGE IT"

Whosoever Will may come to Church may come to God...

LOVE at FIRST SIGHT

Remember, when you watch small children play, that they are among the greatest of God's gifts to the world. He holds a special love for them all... *love at first sight*. "Take heed," Jesus once said, "that ye despise not one of these little ones." Divine regard was also made clear when the Disciples ask of Jesus: "Who is the greatest in the kingdom of Heaven?" Every man should well know the parable Jesus used that day to teach them the place He holds in His kingdom for our little ones. Oh, Lord, may we show our love by taking them to church, by teaching them that God's way should be their way, that they are the greatest in the kingdom of heaven.

7th Leaders Tie, 6-6

The two leaders in 7th grade football fought to a standoff Thursday afternoon, while another game was won decisively.

The Lamar Colts and the Travis Giants battled to a 6-6 deadlock in the first game of the twinbill on the Lamar gridiron. In the second game, the Travis Packers romped to a 36-0 decision over the Lamar Cowboys.

The Colts and Giants are tied for the season lead with one win and one tie each. The Giants scored their touchdown early in the second period when Billy Clayton went over from the 8 yard line. The try for extra points failed.

The Colts, who handled the ball for only two plays in the first half and fumbled it away on both occasions, came back strong in the third period. Travis Bunch climaxed a Colt drive to score from ? yards out. The try for two extra points was unsuccessful and that was the end of the scoring.

In the second game Jackie Murray went over from the 1 and Gary Durst picked up the two extra points to put the Packers ahead early in the first quarter. A few moments later, Tommy Early blocked a Cowboy punt and covered it in the end zone for six more points and Durst again got the extra points.

In the second period, Murray shocked the Cowboys with a sudden quarterback sneak that caught the defense napping and the Packer quarterback rambled 55 yards for another touchdown. Then, Durst shook loose on a 28 yard scoring scamper to give the Packers a 28-0 bulge at half-time.

Murray lofted a pass to Johnny McComb for another touchdown in the fourth period, with the play covering 35 yards. Durst added the extra points.

The Standings:

Team	W.	L.	T.
Giants	1	0	1
Colts	1	0	1
Packers	1	1	0
Cowboys	0	2	0

Cowboys Get Grid Nod

By JACK HAND

BALTIMORE (AP) — If the Orioles can beat Don Drysdale, can the Colts handle Gale Sayers?

This mixed-up weekend of conflict between pro football and the World Series catches a pro picker suspended in mid-air between Los Angeles and Baltimore, hoping he doesn't wind up with Sandy Koufax throwing passes for the Rams and Frank Robinson hitting the line for the Colts.

Four of the weekend games are to be played Saturday night and seven on Sunday. Let's take another try (all games Sunday unless otherwise indicated):

NATIONAL LEAGUE

Cleveland 27, Pittsburgh 21—(Saturday night) Frank Ryan will have to go to the bombs against Steelers, who do a good job on defense against rush.

Washington 24, Atlanta 14—Sonny Jurgensen gets his turn to work out on Falcons' defense, which has been had for 13 touchdowns. Jurgy and Bobby Mitchell on target new.

Baltimore 22, Chicago 17—Colts haven't played since they beat 49ers Sept. 25 and have had two weeks to get ready for the Bears.

Green Bay 24, San Francisco 10—Packers appear capable of throttling everybody's offense.

Los Angeles 17, Detroit 14—Two of toughest defenses in league. A Bruce Gossett field goal could win it for Rams. It should be a low-scoring struggle with win going to team getting breaks.

St. Louis 28, New York 14—Charley Johnson should have a field day with New York defense which has given up 20 touchdowns.

Dallas 31, Philadephia 14—Cowboys riding high on passing of Don Meredith and running of Dan Reeves.

Minnesota has a bye.

AMERICAN LEAGUE

Buffalo 28, Boston 21 (Saturday night)—Bills have gained running punch with Bobby Burnett and Wray Carlton and Jack Kemp appears back on beam.

Kansas City 31, Denver 17 (Saturday night)—Len Dawson has thrown 12 TD passes and Broncs' defense leaky, despite upset 40-38 win over Houston last week.

New York 24, San Diego 21 (Saturday night)—A tight fit. Could go either way, especially with big home crowd rooting for Joe Namath and Co.

Oakland 28, Miami 7—Raiders long overdue to burst loose and the Dolphins come along just in time. Art Powell should have a big day against Miami secondary.

Houston has a bye.

TO COP WORLD SERIES

Happy Orioles Fly Home As Favorites

By MIKE RATHET

BALTIMORE (AP) — The Los Angeles Dodgers, who have their backs to the wall because of the sun in their eyes, flew into Baltimore today after what Manager Walt Alston termed the worst two-day World Series performance during his 13-year reign.

And Alston had another 24 hours to think about it on an off-day before the Series resumes Saturday with Claude Osteen scheduled to pitch against Baltimore's Wally Bunker.

Alston, however, didn't have to dig down in his memory to classify the Dodgers' performance in dropping 5-2 and 6-0 decisions to the Orioles while making just seven hits and committing six errors.

"We've been two down before but we didn't look this bad," Alston said. "I never saw us look so bad two days in a row."

If the Dodgers looked bad Wednesday in collecting only one hit off Moe Drabowsky in 6 2-3 innings of relief pitching, they looked worse when the returns were all in on Thursday's game.

The Dodgers collected only four hits as Jim Palmer became the youngest pitcher in Series history to post a shutout—and they collected a record-tying six errors.

Willie Davis was the No. 1 culprit, committing errors in such rapid succession during the fifth inning that he not only surpassed the one-inning individual record with three but also tied the team record for an inning.

"I just lost them in the sun," Davis explained after the game. "There's nothing you can do about a case like that. I got a quick peek at the ball the second time. I made a stab at it but it was no use.

"If I could see the ball, you know I'm gonna catch it."

Paul Blair, the Orioles' center fielder, also said he had difficulty picking up the ball and explained:

"The screen in back of home plate gives off a funny kind of golden glare, and it's hard to pick up the ball. When a fly ball gets in the sun, there's nothing you can do about it but hope it falls in the glove."

The golden glare proved the complete undoing of the Dodgers' golden left arm—Sandy Koufax. Koufax and Palmer, the Orioles' 20-year-old right-hander, were locked in a scoreless duel when the sun fell in on the Dodgers in the fifth inning.

Boog Powell started things with an opposite field single, only the second hit off Koufax, and then Dave Johnson fouled out. It hardly seemed time to do anything more than stifle a yawn when Blair lofted a fly to center.

Davis cruised under the ball, then lost it in the sun. He made a grab around his knees, but couldn't hold the ball and it fell for a two-base error.

Andy Etchebarren came up and hit the fourth pitch to him into short center. Davis chugged in again but motioned his arms for help as he again lost the ball for another error, then picked it up and compounded his mistake by throwing wild to third.

Luis Aparicio's double drove Etchebarren home with a third run—and it was all over but the cheering which greeted Davis when he returned to the outfield and caught a ball he and Lou Johnson were warming up with.

Palmer, meanwhile, was putting his name in the record book, allowing only one Dodger to reach third base in a performance as surprising as the Dodgers' defensive collapsed since he had completed only two of his last 20 regular-season games.

Palmer, who had pancakes for breakfast and the Dodgers for lunch, said he got the job done mostly with two pitches.

"I had a good fast ball and a good curve," he said, "and that's what we're supposed to pitch to them."

The way Palmer pitched to them left the Orioles with thoughts of finishing the Series at home.

"We're not coming back here next week," said Coach Billy Hunter. "I said before the Series started that we'd only make one trip to Los Angeles, and that we'd win in five games."

Then he chuckled and added: "Now I don't know who's going to win one for them."

LA Is Hurt By Palmer

By MURRAY CHASS

BALTIMORE (AP) — Max Palmer played only bit parts in Route 66 and Highway Patrol, but his son Jim played the starring role in the Saga of Chavez Ravine.

Palmer, the younger, pitched a four-hitter and became the youngest player ever to record a shutout in World Series play as the Baltimore Orioles whipped the Los Angeles Dodgers 6-0 Thursday and took a 2-0 lead before the teams moved to Baltimore.

In completely befuddling the Dodgers, Palmer threw another shock into a capacity crowd at Dodger Stadium in scenic Chavez Ravine.

Palmer, who will be 21 years old Oct. 15, at one time lived in Beverly Hills, which is only about 20 miles west of Chavez Ravine. His father was an actor then, playing small parts in such television productions as Route 66, Highway Patrol, Climax and Playhouse 90.

Tech Frosh Upend Rice

BY THE ASSOCIATED PRESS

A 53-yard field goal by Jerry Don Sanders of Texas Tech that bettered the varsity record by a yard and a 90-yard kickoff return by Jerral Landers of Baylor headlined Southwest Conference freshman football Thursday night.

Sanders made his great kick in a 17-14 victory by Tech over Rice.

Landers' team got beat, however. Texas whipped Baylor 13-7 with two long touchdown drives in the third period.

Southern Methodist shut out Arkansas 14-0 in the other freshman game played Thursday night.

The race started Wednesday night when Texas Christian beat Texas A&M 35-12.

All eight of the teams were in action, leaving Texas Christian, Texas, Southern Methodist and Texas Tech leading the field.

Ponies Edge Travis 8th

SWEETWATER—The host 8th graders turned back Travis Junior High's 8th grade grid crew, 8-0, here Thursday night in a tight defensive battle.

Sweetwater drove 50 yards for the only TD in the final quarter. It came on a power sweep around left end from the 15.

Travis threatened only once, marching to the Pony 20 in the 3rd period before the drive fizzled.

Stewart Sims, defensive cornerback, was outstanding on defense for the Blue Devils along with linebackers Stephen Crane and Joey Allen.

Travis hosts Goliad of Big Spring here at 6 p.m. Thursday in their next outing.

Walt Witowski of St. John's in New York led the nation's major college pitchers this year with an earned run record of 0.37 for 48 innings.

"B" CLASH SET HERE SATURDAY

The Snyder High School "B" team will host Lamesa in a football battle at Tiger Stadium Saturday night. Kickoff is set for 7:30 p.m. Fans who attend the game probably will see a close, hard-fought tussle.

Rugged Travis Raps Pony 9th, 22 To 8

Travis' 9th grade football team exploded for touchdowns in the 1st, 2nd and 4th periods here Friday night to score a 22-8 triumph over a determined Sweetwater Junior High eleven.

Travis marched 74 yards for a touchdown the first time it got the ball, covering the distance in 11 plays. Merce Hernandez sliced over right guard from the two after quarterback Mark Gilstrap faked the defense out of their socks on a false move to the left. The pass for extra points failed to connect.

Willie Harrison ripped off two nice gainers in the march, including a 29-yarder in which he almost broke loose. Howard Murphree and Gilstrap also added important yardage as the Blue Devils struck swiftly from the inside.

Sweetwater fought back and took the lead, 8-6 on an 8-yard 4th down pass from Tucker, left - handed Pony quarterback, to Rivera. Rivera set up the tally with a 23-yard burst after the Ponies recovered a fumble at the Travis 30. Rivera ran over for the extra points.

With 1:26 remaining before halftime, substitute quarterback Jim Patrick and Wesley Bishop teamed up for a pass and run play that covered 81 yards and put Travis back in the lead, 14-8.

Patrick threw the ball long and high over the heads of three secondarymen. Bishop made the catch near the east sidelines a couple of steps behind the safety, and he went all the way.

Patrick then fired a strike to Merce Hernandez for the two-pointer.

Neither team could muster a scoring punch in the third quarter as the Blue Devil defense began to put the rush on Tucker. Sweetwater did a good job of containing Travis' sweeps.

Two big plays in the 4th quarter resulted in the final Blue Devil score. Gilstrap tossed a 22-yarder to Bishop, who won a tug-of-war for the ball with Sweetwater's defensive right halfback. On the next play Ricky Glasscock charged over the middle and kept digging until he got in the clear. There was just no stopping him as he drove over the goal on a 26 yard run. Gilstrap then passed to Hernandez for the final two points.

Willis Harrison ripped off a brilliant 80-yard run to the goal later in the period, but it was nullified by a clipping penalty.

It was a hard - fought ball game, and Travis won the battle up front. Eddie McClain was outstanding on defense for the Blue Devils.
