## Two Day Rain Soaks Ochiltree County and Plains Country; Two Inches on Sunday, Monday

A general soaking rain again visited Ochiltree county and the plains country on Sunday and Monday, bringing enough moisture to the crops well into the winter without more rain or snow. The maximum recorded in Perryton for the two days was 1.92 inches, but reports from other sections of the county indicated a heavier rainfall.

This makes a total of 3.66 inches of rain received in Perryton during the past ten days. There were but three school days able to make their routes today, indicating the heavy nature of rain.

Wheatman reported rainfall of 1.44 inches, Lipscomb county 1.54 inches, Hemphill 1.75 inches, 3 inches and Hutehinson county had 2.15 inches.

## Rev. Gaines to Open Revival Meeting Sunday

Rev. Raymond Campbell, minister of the People's Chapel, announces that the fall revival of the church will begin on Sunday, November 7, with Rev. Homer Gaines of Tulsa, Okla., as the guest.

Rev. Gaines will be remembered as conducting a very successful revival at the Chapel last year. He is well known and

REV. HOMER GAINES

known throughout this community. The Chapel purchased a bus and is maintaining a bus service for those who do not have transportation to the church. Those who care to take advantage of this free bus service call 437-W and the bus will call at their door, stated Rev. Campbell.

Services in the revival will be each night at 7:30 o'clock. Free will contributions are invited.

## JUST HERE and THERE

It should be of great interest to patrons of the Perryton schools to know that every precaution has been taken at the school to safeguard against fire hazards and accidents. Fire Marshal Lester Morris tells us that he and Fire Chief Tom Wough made a thorough inspection of the school plant recently and found everything in first class condition.

The Herald is without a society editor this week due to the resignation of Mrs. Vivian Lee who was forced to leave our staff on account of poor health. We are grateful to Mrs. Clem Gerard who is pinch hitting for us. . . . If you have news about comings and goings or society doings. . . . just hand it to Clem or give her a ring at the Herald office, phone 57.

Colvin Flowers was telling us the other day about the wonderful time he had a few weeks ago when he flew with the T. C. U. team to Indianapolis for their game with Indiana State. They made the trip in a big chartered plane. Colvin's oldest son, Clyde, is assistant coach at T. C. U. and another son, Keith, is a member of the Freshman team.

## Rotary Club to Fete Teachers

Members of the Rotary Club and their wives will have as their guests on Thursday night, November 11, the entire faculty of the Perryton school system.

The dinner and party will be held in the Lake Fryer clubhouse, and a short program will be held.

This is an annual affair of the Rotary Club, and one which affords much pleasure for both the faculty and the club.

No formal speeches are planned, stated Jack Todd, president of the club, but a good time is guaranteed to all.

## Ochiltree Wheat to Be Entered in International Show

Two Ochiltree county wheat samples will be sent to the International Wheat Show in Chicago, to be held the latter part of this month, where they will compete for prizes with samples from all over the wheat growing areas of the nation.

Cecil Begier is submitting a Westar sample, and Leonard Wright is sending a sample of his Triumph wheat.

Wright won second in the open class at the Texas Wheat Show held at the Tri-State Fair in Amarillo this year.

## To Construct New Building For Phone Co.

Workmen of the Beverage Construction company of Fort Worth are scheduled to start breaking ground Thursday for the new office building of the Southwest Associated Telephone Co. C. J. Beverage of the firm was in Perryton early this week making final arrangements for beginning construction of the building.

The new building will be located across the street south from the A. & B. Motor Co., at the corner of Amherst St. and S. W. 3rd Ave.

It will be 48 by 60 feet, one story, constructed of masonry and steel. The exterior will be finished in light brick, trimmed in Austin limestone. There will be commercial offices, terminal rooms for the equipment, a lobby and other office rooms. The building will be air-conditioned for winter and summer, using the latest equipment.

Terms of the contract call for completion of the building within 130 days, or February 10, 1949. Beverage stated that all necessary materials have been secured and that he anticipated no delay in the construction. The firm plans to use the local men on the construction job, as far as possible.

## Stores Will Close For Armistice Day

Perryton business firms will observe Thursday, November 11, Armistice Day, as a day for general closing. This date was set aside for closing by the retail merchants committee of the Chamber of Commerce at the first of the year. No Armistice Day program is planned by either of the veterans organizations in Perryton, however.

## Herald to Publish Early Next Week

The Herald will be printed and put in the mails on Wednesday night next week in order that the entire plant may close for Armistice Day on Thursday, Nov. 11. Our advertisers and reporters are reminded that all news and advertising copy must be received by 5 p. m. Tuesday next week in order to insure publication.

## Legion Cage Team to Meet

Basketball players who are interested in playing on the American Legion team are invited to attend the initial meeting of the year at the American Legion Hall on Monday night, Nov. 8.

The Legion team had a successful season last year, and will open practice sessions within the next week or so to get in condition for the winter cage season.

## County Court Opens Tuesday

Petit jurors for the November term of county court have been named and will report at the courthouse at 10 o'clock Tuesday morning, November 9 for jury duty.

Several jury cases are on the docket for this term of county court.

Petit jurors are Carl Hurter, Robert Holt, Phillip Carroll, Alex Barlow, J. P. Bostick, Phillip Dalry, O. O. Cox, Malcolm Bealmer, J. E. Barnard, Ike Vernon, Ray Thomas, Tom Waugh, Wilford Lance, Dean McLarty, C. N. McGarrugh, Dan Manning, J. W. Jines and Barney Tevis.

## Rangers Seek Fourth District Win Friday Night at Dumas

The Rangers journey to Dumas Friday night and will try to keep their undefeated conference record unblemished in their game with the winless Dumas Demons. Dumas, with a season record of one victory in seven games, is currently the cellar dweller in district 1-A.

They have lost games this year to Spearman, Lockney, Hereford, Tulla, Dalhart and Phillips, while winning, 18-7, over White Deer. Phillips blasted them, 43-0, last Friday night.

Before the season opened, there was a rumor among rival schools that the Demons would have a powerhouse this year. However, such has not proved to

THE COLLEGE PRESIDENT THAT FORGOT—Dr. James P. Cornette, new president of West Texas State College, takes what he termed "the briefest and most effective refresher course I ever had." Students dunked him in a water tank Oct. 27 when he came to work in everyday business suit in violation of the traditional school order to wear western clothes as part of the college's annual homecoming celebration. Dr. Cornette issued the order and had purchased a complete western outfit for the occasion. (AP Photo)

## VFW Auxiliary to Sell Poppies On Perryton Streets Saturday

Members of the VFW Auxiliary will sell poppies on Perryton streets all day Saturday, Nov. 6, as an observance of Buddy Poppy Day.

The money collected from the sale of these poppies is spent for assistance of veterans, especially in hospitals. Last year, the money from the sale of poppies was spent for a collapsible wheel chair for the Veterans Hospital in Amarillo.

Money from poppy sales is also used for local assistance of needy veterans, and part of the money is sent each year to the veterans' orphanage in Eton Rapids, Michigan.

## To Elect Three Supervisors Tuesday for Standard District

Ochiltree county landowners are reminded that Tuesday, Nov. 9, is the date for the election of supervisors for the Standard Soil Conservation district in the county. The election will be held in the district courtroom at 2 p. m.

Three supervisors will be elected, and these three will serve with the two who were appointed when the standard district was formed several months ago.

The two appointed supervisors are Harlan Hawk, from the west part of the county, and Martin McCartor, from the southeast quarter of the county. Supervisors must be chosen

## McCartor is Elected Head Farm Bureau

Martin McCartor was elected president of the Ochiltree Farm Bureau at the annual meeting at the VFW Hall Thursday night which was highlighted by the appearance of Congressman Eugene Worley of Shamrock. Cecil Tevis was elected vice-president. Mrs. Cecil Tevis, secretary, Virgil Oimstead and E. N. Flathers, directors.

Theme of Rep. Worley's talk to the Farm Bureau members was that our domestic economy now depends almost entirely upon the world situation, and that the biggest question mark facing our nation's lawmakers today is "What will Russia do?"

Until we know what the future brings in the field of international affairs, we won't know what our own future holds, stated Worley. For that reason, the

## Signal Lights Are Installed

Two signal traffic lights, the first in Perryton's history, have been installed at intersections in front of the Perryton schools. The lights were purchased by the City of Perryton, the North Plains REA, and the Community Public Service Corp.

One is located at the intersection of S. W. 5th Ave. and Eton street, and the other one is one block south, at the intersection of 6th Ave. and Eton.

Present plans call for operation of the lights from 8:30 to 9:30 a. m. and from 3:30 to 4:30 p. m. City officers will keep a check on traffic at the signal lights to make sure the signals are observed by motorists.

Primary reason for installing the lights is to provide more safety for school children who must cross the streets at a time when traffic is very heavy around the school buildings.

Pedestrian lanes have been

## Ochiltree County Voters Give Truman 3 to 1 Majority; Total Of 1,400 Votes Cast in Election

Ochiltree county voters supported the Democratic presidential nominee, Harry S. Truman, by a 3 to 1 majority in the general election held November 2, but didn't give Democratic Senatorial candidate Lyndon Johnson such thumping support.

## County Agent and 4-H Winner Get Fort Worth Trip

Dickie Hail, county 4-H Club boy, and Hood Willis, county agent, returned Sunday from a two-day, all-expense trip to Fort Worth as guests of the Tex-O-Kan Wheat Improvement Assn. Young Hail won the trip by winning second place in the Texas 4-H Wheat contest at the Tri-State Fair several weeks ago.

There were 12 boys and 11 adults in the party, and they were taken through the Burrus Mills, Universal mills, terminal elevators, packing plants, and inspected the mill laboratories.

They were presented on two radio programs over radio station WBAP, and were taken to the TCU-Baylor football game Saturday night.

Ochiltree voters cast 1,025 votes for the Truman-Barkley ticket, compared with 344 for Dewey-Warren, 24 for Thurmond on the States Rights ticket, 3 for Prohibition candidate Claude A. Watson, 1 for Progressive Henry A. Wallace, and 3 for Socialist Norman Thomas.

The 1,400 votes cast bore out conclusively the pre-election prediction of a heavy vote in Ochiltree county.

Lyndon B. Johnson received 959 votes to 401 for his Republican Senatorial rival, Jack Porter. Sam Morris, Prohibition candidate, received 23 votes, and Coke Stevenson received 5 write-in votes.

Two boxes in the county went solidly Republican. Voters at Alfalfa cast 14 Republican votes and 7 Democratic, while the Taz box cast 2 Republican and 1 Democratic. Republican Porter also received more votes in the Senate race at the Notia box than Johnson.

All eight of the proposed constitutional amendments carried in Ochiltree county by a large majority, except the amendment providing for judges' retirement, which squeezed by, 446 votes to 384.

## Services Held Wednesday for Pvt. Anderson

## Phagan to Attend School in Austin

Deputy sheriff Ray Phagan will leave Sunday for Austin to attend a two-week school for law enforcement officers at Camp Mabry, Department of Public Safety headquarters.

This is a school offered for sheriffs, deputies, constables and other peace officers over the state.

Miss Mary Dean Dozier and Miss Jean Ann Essex, Pampa, former teachers in the Perryton schools, spent the weekend here with friends.

## The Victor . . . . . and the Vanquished

HISTORICAL UPSET—Harry S. Truman, Democratic presidential nominee, left, stunned the political "experts" of the nation, along with the poll takers, newspapers, magazines, and radio commentators Tuesday by sweeping to an unexpected landslide victory over his Republican presidential opponent, Thomas E. Dewey, governor of New York. Truman took an early lead as the returns began to come in Tuesday night, and had piled up such a lead by 11 o'clock Wednesday morning that Dewey conceded defeat. Not only that, the Democrats won important victories in both houses of Congress, assuring a Democratic 81st Congress when it convenes in January.

## Real Early American Map

(AP) Newsfeatures  
NEW YORK—Schoolboys would not recognize the maps of North America whipped up by Prof. Marshall Kay of Columbia University. Kay is interested in how it looked 400,000,000 years ago. He is developing a theory that the continent was only about half its present size. Off the ancient coasts, approximately following present coast lines, were chains of volcanic islands, he believes.  
The rocks of present coasts are extremely changed from their original state. Kay believes that the Paleozoic era was a time of great mountain building. It eventually raised the bottoms of the shallow seas around the half-size continent above water.

## WHY SHOULD YOU Join the Farm Bureau

Within the next few years, probably the next few months, agriculture will be faced with some very grave problems. Legislation, such as the Aiken bill which discriminates against agriculture, has already been passed. The Aiken bill should be amended or revised. Other legislation will be proposed at our next session of Congress and unless we as farmers have some organization to represent our interests, agriculture will suffer.

The Ochiltree County Farm Bureau, through the State Farm Bureau and on up through the American Farm Bureau, can and will carry the fight for EQUALITY FOR AGRICULTURE, but in order to carry on effectively it must have your support.

Farm Bureau is the only farm organization in Ochiltree County, and it is by far the strongest and most active farm organization in the state or nation.

Farm Bureau, through its county, state, and national organizations, has led, and with your support, will continue to lead the fight for parity prices, protection of farmers cooperatives, farm to market roads, retention of our present tax law on tractor gasoline and many other things of benefit to farmers.

Farm Bureau is not a perfect organization and its policies may not be satisfactory to every individual, but I can assure you that the Ochiltree Farm Bureau has no political obligations and that the over-all efforts of county, state, and national organizations is for EQUALITY FOR AGRICULTURE.

Officers of Farm Bureau in Ochiltree County do not receive compensation except the satisfaction of doing their bit for the benefits of agriculture.

Farm Bureau membership in Ochiltree County is about 300, but it should be at least 500.

The Texas Farm Bureau goal this year is 60,000 members in the state.

The national goal, of course is several millions.

If you are not a member, let me urge you to JOIN NOW! Help your neighbor by helping yourself.

The annual dues are \$5.00 and they can be left or mailed to the R. E. A. office in Perryton.

# Texas Story Repeats in Professional Football; Pete Layden Delegates Spec Sanders to Second String on Yankee Team

By FRANK ECK  
Special Features Sports Editor

NEW YORK—Peter J. Layden, the new backfield star with the New York football Yankees, came up to the grid Yanks after missing every pre-practice session because he was playing the outfield for the St. Louis Browns. When the Browns started he was just a replacement player, but he had never played professional football and had played all at all since 1943 when he was on an Army team in Honolulu.

## Johnson Rites Held Sunday

Services were held Sunday afternoon in the First Baptist church for Ray T. Johnson, former Ochiltree county resident, who died October 25 in a Colorado Springs hospital. He had lived near Callahan, Colo., for the past three years, engaged in ranching.

Rev. O. C. Curtis conducted the final services. Pallbearers were Add Brillhart, Giltner LaMaster, Gerold Tindle, Glen Tindle, Roy Orrill, Noel Keith, Roy Hogland and Alton Will. Interment was in the Ochiltree cemetery. Military services were conducted at the graveside.

**Obituary**  
Raymond Truitt Johnson was born Sept. 18, 1909 at Lonewolf, Okla., to Mr. and Mrs. A. A. Johnson. When he was but a small boy of six years, he moved with his parents to Ochiltree county, and they made their home in the New Hope community.

He attended Perryton high school, finishing in 1929. Ray enlisted in the Sea Bees on July 25, 1942, and served until the end of 1945. Prior to entering the service, he engaged in farming and ranching in Ochiltree county, with his father. After his discharge, he moved to Colorado. He was unmarried.

Survivors include his parents, Mr. and Mrs. A. A. Johnson, Boulder, Colo.; four brothers, Wade of Denver, Sherwood and

## Mays Produce to Hold Open House Friday, Saturday

The Mays Produce will observe their 11th anniversary in Perryton on Friday and Saturday, serving free hot dogs and coffee to those who visit the concern on these two days. This will also mark the opening of the livestock and poultry feed department of the Mays Produce, and a poultry specialist, R. H. Walton, will be present to help local poultry raisers with their problems.

Walton is employed by the Spear Mills, Inc., of Kansas City. The Mays Produce is now distributor of Spear Feeds for the northeast Texas Panhandle, the Oklahoma Panhandle and South-

west Kansas, handling both wholesale and retail lines. The public is cordially invited to attend the open house on Friday and Saturday.

Dr. and Mrs. D. B. Pearson Jr. and Mr. and Mrs. Oscar Blank are in Dallas this week attending a Scottish Rite meeting.

## Why Join the Farm Bureau?

We're not farmers, but we think it would be a good idea for Ochiltree farmers to join the Ochiltree County Farm Bureau. It would also be a good thing for us, and other Perryton business firms.

The dollars that come into Ochiltree county and are distributed through trade channels to the thousands of pocketbooks in Perryton have their origin in only one place—from Ochiltree county soil.

Where else, besides from farming and ranching, does the county get its income?

Within the next few years, and quite probably the next few months, American agriculture will be faced with some very grave problems. The gains that agriculture has made towards a stable and secure economy may be wiped out, if American farmers do not join together in protecting that which they have gained through favorable legislation.

Other groups in our American economy have joined together to secure protection and advantages of one kind or another. Why not the farmer?

Eastern industry has been protected for years by high tariffs. The Wagner Act protects labor. American ship builders receive subsidies for building ships, and shipping companies receive subsidies for operating them. The airlines receive subsidies. American railroads were subsidized through land grants when they were first built. The National Association of Manufacturers is a powerful group which influences legislation.

Farmers have been notably lax in organizing. Today the Farm Bureau is the strongest farm organization in the nation, and through it farmers may press for favorable legislation. The strength of the Farm Bureau is measured in the halls of Congress, as elsewhere, by membership. A strong membership means a strong voice when the farm program comes up for consideration at the next session of Congress.

Membership in the Farm Bureau is of vital concern to all of us who earn our living in Ochiltree county. Designed primarily for farmers, the Farm Bureau aids us all. The Farm Bureau takes memberships from farmers, ranchers and business men alike. Why not join today?

## Babson's Christmas Comments

ROGER W. BABSON, Editor-in-Chief

BABSON PARK, Mass., Oct. 29—Once again we approach the Christmas season with prices high although inventories are again in good supply. All stores have reduced their stocks of shoddy merchandise and we now find better materials in most lines. In some cases, better than pre-war goods are now available. Continued high prices will not stop the usual late Christmas shopping rush. So begin your purchases now and save yourself and your dollars.

**Shopping Trends**  
Service and courtesy of employees has improved considerably, thus reflecting the slow trend from a sellers' to a buyers' market. Manufacturers are beginning to tempt the general public with luxury items such as television sets, deep freeze chests and electric blankets. In fact a real demand has been created for this type of merchandise by wide advertising. So fast are sales in television climbing that domination of the home entertainment field may be looked for within two years. These and like luxury items will be bought in part with income-tax rebates.

With this year's bumper crops and accompanying lowered prices we might expect the volume of Christmas buying in farm areas to slide. Yet, the annual total of the farmers' income is nearly as good as last year, the larger crops partially offsetting the lower prices. Let us not forget, however, that a good part of this continued high income is due to the price support program.

**Effects of Election**  
Although a Republican victory in November will undoubtedly brighten the outlook of business in general, it is unlikely to have much effect on Christmas shopping except among government employees. Christmas shopping in Washington will surely be less this coming December than it has been for many years. However, taken all in all, merchants may expect another bumper Christmas.

The expected business optimism following a Republican victory will be somewhat restrained this year. For business already knows, in the light of international dis-harmony, that it must do without unlimited quantities of steel and certain other raw materials. For we must never be caught disarmed again. The stock market, however, should look more cheerful this coming Christmas than it did a year ago.

The Yuletide Spirit  
A woman said to me this sum-

mer that she hated to read the evening newspaper because it made her too "blue" to go to sleep. Since her remark I have been conscious of looking for what was optimistic in the evening news and I have found what I looked for. It isn't just at Christmas that parties are given for the kids. They occur throughout the year. Fishing competitions, skilled demonstrations in outdoor sports, club activities are going on all the year to brighten peoples lives.

Helpful new drugs have been discovered this year and the uses of others improved. Deaths from pneumonia and some other diseases have been less in 1948. While the Russians were blockading Berlin all summer—the

United States was showing famed old Masters from German Museums to United States art lovers. The admissions were collected to benefit unfortunate German children. And now I have been pleased to read that a prominent Japanese communist has admitted that his handsome new double-breasted suit (a rare item in Japan) came from the United States and not from Soviet Russia.

**Let Us Remember Others**  
The Christmas season and the New Year bring us hope of better solving our domestic problems,—problems concerned with such issues as juvenile delinquency, public health, debt reduction and labor relations. Let us show our gratitude by sending gifts to the children of the world. Let us pray that truth and fair dealing in international relations may add to the flood of goodwill generated by this season here in the United States.

## Wolf Creek Philosopher

### Television Won't Affect Our Way of Life Much

(Ed. note: The Wolf Creek Philosopher fails to get very enthusiastic over television, but with the price of television sets the way they are now, we believe he is a bit premature about the whole deal.)

Dear editor:  
I was reading in a magazine the other day which I picked up in town at Burk's Drug and will return if I found out Otis Burk saw me take it where television is spreading fast and it won't be too long before I can sit out here on Wolf Creek and watch Congress in action in Washington or see what's going on in England, provided some method is worked out for financing the purchase of the sets, although there is some who argue Congress ain't gonna be very interested in furnishing any aid in this direction as what goes on in Congress ain't always of any benefit to Congressmen if the picture got flashed on television screens all over the country.

But what amused me about the article was a statement by an expert that television is gonna revolutionize the habits of the people, is gonna change our way of life. If you ask me, I don't believe it.

They said the same thing about the oil lamp, then about the electric light bulb, about the steam engine, the gasoline engine, the automobile, the train, the airplane, the telephone, the radio, etc.

Understand, it's a great thing to have these conveniences, but they don't never change life much. Ain't no gadgets revolutionized nothing. You take a man from out here who ain't never seen a television set and one from New York who has been seen television for two or three years and put em side by side in front of a broiled steak and what happens? I'll bet next year's crop against next week's issue of your paper, about an even bet, you couldn't tell which one had been revolutionized by television and which hadn't.

I can remember when wives would swoon at the thought of a hand pump to draw water with instead of a rope and bucket, and the idea of ridin when you plowed was a impossible dream, but all these things has taken place, includin electricity and atomic energy, but as far as I can tell ain't none of us changed much. We still sleep, eat work when we have to, and get taken in by politicians year after year.

Television is gonna be a fine thing, but I doubt if it has any

The magazine "Aeroplane," authoritative publication in that field, sent one of its observers with the Superforts in last week's full-scale air exercise over southern England. The B-29s staged mock attacks from the continent.

After detailing performance of the American planes which never appeared in the European theater during the war, the magazine's representative wrote: "The B-29 superfortress, although it is considered a little dated by the Americans, is still one of the finest strategic weapons in the world."

**Rangers Win Over Canyon by 19-6 Score Friday Afternoon**

The Rangers won their third conference game Friday afternoon against the Canyon Eagles but they displayed their poorest form of the season in gaining the victory. Apparently looking ahead several games, the Rangers showed little to the scouts from other teams, and their play was anything but pleasing to the fans who journeyed to Canyon for the game.

Perryton took the lead in the opening quarter, and never lost it, although they were ahead by 13-0.

Canyon then made their score, marking up the counter on a 20-yard pass, Richard Walters to Mickey King. Walters' pass was partially deflected by defending Ranger halfback Johnny Revis, but the alert King caught the ball in the end zone before it hit the ground. Their attempted end run for the extra point was stopped.

The Rangers made another touchdown in the final period, sweeping to the 3-yard-line on a 40 yard pass from Powell to only six points at the half.

Raymond Powell scored in the initial quarter to put the Rangers out front, crashing over from the 3-yard line after the scoring play had been set up by a 40 yard pass, Powell to Olinstead. The attempted kick for extra point was no good.

The second score came after the half, when Jerry Key plunged across from the 5 to climax a Ranger drive from midfield. Powell kicked the extra point this time to bring the score to 13-0.

**From The SIDELINE**  
with HAROLD HUDSON

We didn't see the Ranger-Canyon game, but have heard about it, anyway. The Ranger coaches were among the ones most displeased with the spiritless, sloppy playing of their charges and have reminded the boys about it several times during practice this week.

However, the coaches' attitude is that it was a good thing to get that kind of a game out of the players' systems and now the team is ready to play their customary brand of ball. They are not taking the Dumas game so lightly, in spite of the fact that the Demons have won but one game out of seven this year.

The open date had some effect on the play of the Rangers in the Canyon game, we're sure. We remember last year when that fine Ranger team played the West Texas Cowboys after an open date, and the layoff showed up in their style of play.

We saw the mighty Deak Walker and company from SMU defeat our alma mater, Texas University, last Saturday and are ready to report that the Deaker is all they say he is, and more. We've seen him play several times, and he always does just the right thing at the right time. And he has such a wide variety of football abilities from which to choose the right one.

The question boomed around the Southwest sports pages before season opened was whether Paul Campbell could fill Bobby Layne's shoes at Texas this year. The answer, of course, is "no."

We arrived in Austin too late to see the SMU-Texas freshman game, but saw the team rosters in the paper. The SMU team had Gene Stinson and David Hummer listed on the roster, but we

Revis, Powell plunged across from the 3 to make the score 19-6. His attempted kick for extra point was not good.

found out neither of them made the trip. The Texas freshmen won the wild scoring game, 28-26.

Wonder if the gym will be finished by the time basketball season opens this year?

### TEXANS IN WASHINGTON

BY TEX EASLEY

(P) Special Washington Service

WASHINGTON, Nov. 3 (AP)—Results of the Nov. 2 election in half dozen states may have a very important bearing on Texas as unusual senatorial contest.

With Senate control hanging in the balance the issues and personalities in the Texas race become of increasingly greater national importance.

The question which arises will Rep. Lyndon B. Johnson of

Washington, D. C., be seated?

Such a question is based first, of course, on the assumption that he will win over his Republican opponents.

Republicans and a lot of Democrats hesitate to declare that nothing of the kind can be presumed since a strong coalition is backing his opponent of men Jack Porter of Missouri.

But, for the sake of discussion, let us assume that Johnson de-

### Dean Slaughter on Wentworth Honor Roll

LEXINGTON, Mo., Oct. 29—Cadet Lloyd Dean Slaughter, son of Mr. and Mrs. J. S. Slaughter of Perryton, has been cited for his superior academic work for the first six weeks grading period at Wentworth Military Academy here. Major Leon H. Ungles, dean, reports that Dean has earned a place on the dean's honor roll.

To earn this scholastic honor a cadet must do better than average work in all his courses during the current grading period. Extra privileges are granted to cadets who excel in their studies.

Mr. and Mrs. Russell Bevis left Sunday for Oklahoma City, where he will enroll in Deaughon's Business College.

The composition roller for ink type was invented in 1813.

### RESOLUTIONS OF RESPECT

In memory of Brother C. S. McGarragh, who died Oct. 27, 1948.

Once again a Brother Mason, having completed the designs written for him on life's trestle board, has passed through the portals of eternity and entered the Grand Lodge of the New Jerusalem and hath received as his reward, the white stone with the new name written thereon.

And Whereas, the all-wise and merciful Master of the Universe has called from labor to refreshments our beloved and respected

Brother, and he having been a true and faithful member of beloved Order, therefore it is RESOLVED, that our Lodge, No. 915, A. F. & A. depend on the outcome of senatorial elections of six other states. In other words, whether the new senate is controlled by Republicans or Democrats.

The states are Kentucky, Minnesota, Montana, Wyoming, New Mexico and West Virginia.

While Senate contests are pending in a third of the states, the results are in doubt in the six named.

If the Republicans retain unquestioned control, they may promptly pass upon the question of recognizing the credentials of Johnson.

If the Democrats should get control by a single vote, there is little doubt but what Johnson would be sworn in immediately.

If the senate membership should appear to be heading for a political tie, the Republicans very likely would avail themselves of the opportunity afforded by the challenge raised as to Johnson's primary victory. They could seek to ask Johnson to stand aside while they investigated Stevenson's charges.

Since Stevenson has supported openly the Republican nominee Porter, it is natural to assume that his grievances would get far greater attention from Senate Republicans than otherwise might be accorded them.

Another point is that the names of senators are called alphabetically. If at the time roll call reached the "J's" the Democrats were in the majority, Johnson might be seated promptly. The reverse might hold true if the picture were reversed.

Nelson B. Deranian, chief counsel for the Senate Rules subcommittee on elections, says:

"The Senate makes its own rules as it goes along. It is not necessarily bound by precedent,

nor by any past rules, so there is no way of forecasting what will happen when any case arises in the Senate."

Another interesting question is whether Senator W. Lee O'Daniel will concern himself over the seating of his successor.

He likely will be on hand when the present 80th Congress is called into session on Dec. 31 to adjourn itself.

O'Daniel sided with the Republicans numerous times in his nearly eight years in the senate. Should he decide to do so, he probably could butt-hole Republican senators whom he knows well and influence their decisions.

What position O'Daniel would take, however, is in itself quite a question.

He was opposed by Johnson in the special election which sent him to Senate in 1941, and the two have been at odds ever since. And he hasn't been any more friendly with Stevenson, who announced for the Senate at a time when O'Daniel's own future political plans were still undisclosed. And before Stevenson announced, O'Daniel said Stevenson would be an "ingrate" if he should come out for the senate in opposition to himself (O'Daniel). It was on the basis of this remark that many persons erroneously predicted O'Daniel would seek reelection.

Whether Texas House members will try to influence Republican senators on behalf of their erst-

## Rural Carrier Position Open At Waka Office

The U. S. Civil Service Commission has announced an examination to fill the position of rural carrier at Waka. The examination will be held in Perryton and the final date for receiving applications is Nov. 24.

This is the rural mail route carried by Lester Stump.

Salary for this position is \$2,470 a year, for a standard route of 30 miles, with an additional \$30 a year in excess of 30 miles. All rural carriers must furnish their own vehicle and are allowed an equipment maintenance of 7 cents a mile in addition to the basic salary.

Rural carriers are promoted in the various civil service grades after the completion of one year's service.

All applicants must reside in the territory of the Waka post office.

## Speaker Secured For C. of C. Fete On January 18

BOYS' RANCH CHAPEL—Young cowhands at Boy's Ranch, Amarillo, are bursting with pride over their newest building—the non-denominational chapel. Jack Dempsey, former world champion heavyweight boxer and a true friend of boys, recently visited the Ranch and a group of boys took him to the new chapel, moved to the Ranch from Dalhart Air Base. The building was given two coats of paint by members of the Amarillo Junior Chamber of Commerce. Non-denominational services are conducted every Sunday in the new chapel. "Now the Ranch has everything," Dempsey said. "It's wonderful that the boys have a place to worship."

future of the government farm program is uncertain, he added. Worley stated that an attempt would be made at the next session to remedy the present farm support bill, which was "hastily conceived and hastily passed" in the closing hours of the last session of the 80th Congress.

The Farm Bureau passed ten resolutions, substantially as follows:

1. That freight rates be equalized to stop discrimination against the Southwest;
2. That labor costs be included in computing the parity formula;
3. That the state gasoline tax be refunded on farm machinery be continued;
4. That more power generating facilities be made available to the REA;
5. That cooperatives be retained and encouraged;
6. That a research program be started to devise means of eliminating bindweed and other noxious weeds;
7. That the Farm Bureau assist the Ochiltree Wheat Improvement Association in their program and that assistance be given in the collecting of the 1/10 cent per bush-

### Former Chaplain To Speak Sunday, Church of Christ

Frank Traylor, former chaplain in the 41st Infantry Division, now minister of the Oak Park Church of Christ of Sacramento, Calif., will speak at the Perryton Church of Christ on Sunday evening, Nov. 7, at 7:30 p. m., it has been announced. He will speak of the work accomplished and the opportunities now present for the spreading of the Gospel of Christ there.

Mr. Traylor was with the 41st Division that liberalized the Zamboanga Peninsula, the southwestern province of the Island of Mindanao, from the Japanese domination in the spring of 1945. In addition to his duties as chaplain after that liberation, he was privileged to speak to the Filipinos every Sunday. Scores of persons were baptized and steps were taken at that time to purchase a house and several acres of land for future missionary activities before Mr. Traylor was transferred to Japan.

Since the war, the activities in the Philippines have gone forward with an increasing momentum.

Mr. Traylor will have with him motion pictures about the work in the Philippines. The title of the picture which he will show is "Zamboanga—Land of Opportunity for the Churches of Christ." He also will have on hand an additional film showing in natural color the environs of Zamboanga City, some activities of the congregation there, and the chapel which has just been completed in that place.

Mr. and Mrs. Bill Carpenter, formerly of McLain, are new residents of Perryton. Mr. Carpenter is employed at the Meadows Electric Company in sales and service work. He was formerly employed by the Phillips Petroleum Company at McLain. He is a brother of Clyde Carpenter, owner of the Carpenter Jewelry Co.

The best linemen are Dale Schuman, who played a good game against Perryton last year, at center, and Richard White, 170-lb. letterman tackle.

The Rangers are in fairly good physical shape for the game, having come out of the Canyon encounter with nothing worse than the usual collection of minor bruises. Raymond Powell was nursing a charley horse in his leg this week, but expects to work it out by Friday. Louis Flowers will probably see little action because of a severely bruised leg, received this week when a horse kicked him.

Marvin Smith, regular right end, is still sidelined with the broken foot, and won't take the cast off for at least another week.

Newsfeatures  
Isn't it just ducky to get all dressed up in your super-formal and then draw a dud for a date? Besides the fact that he is poor company, he probably can't dance either. Worse than that, neither can his friends. Why is it that drips always stick together? Of course some jerky turkeys just can't help themselves and they have to be admired for trying to learn how to get help. You should be kind to these pathetic creatures.  
Try to refrain from saying "ouch" when he steps on your foot. He'll know that he probably has hurt you and will be careful next time.  
Don't embarrass him by suggesting a "cute little dancing school" that can teach him a step or so in 23 easy lessons.

If you are unfortunate enough to draw a cowboy as a dancing partner, change your tactics. There's the clutch artist who squeezes so tight that you think you'll be smothered to death. With him you must change your corsage from left to right shoulder before he crushes it to pieces.  
If he gallops, hold your skirt up slightly, so it will not be torn to tatters.  
If his hands perspire, he probably is nervous. This may annoy you, but try to be sweet about it.  
The "creeper" is the biggest bone of contention. He is the annoying critter who holds his hand flat on your back, unconsciously pushing your dress up as he dances. You can handle him by calling his attention to it in a nice way—say "My gosh, my ankles are showing," or some such facetious remark. Then you won't hurt his feelings.  
Of course you can always ditch any of these high-flyin' trapeze Romeos merely by suggesting, "Let's sit this one out and talk" or "let's have a snack or a drink."  
Of course your own dance floor manners may not be perfect. Here are some pointers on how to retain your dignity when dancing:  
1. Don't try to lead your dance partner. As bad as he is it will look better for him to do the honors.  
2. Never leave him on the dance floor while you dash over

## Entre Nous Club Is Entertained at LeMaster Home

The Entre Nous Bridge Club was entertained Wednesday afternoon, October 27, at 2:00 o'clock, by Mrs. H. J. LeMaster, 805 S. Grinnell. The flowers consisted of an arrangement of yellow chrysanthemums. ## Birthday Party for Lee Ann Austin

Lee Ann Austin observed her eighth birthday anniversary last Sunday with a party in the home of her aunt, Mrs. Ervil Hoots. Games were played and refreshments in keeping with the Halloween spirit were served to the guests by the hostess, assisted by Mrs. Carl Wilson, Mrs. Ray Chase, Mrs. Ferd Koehn and Mrs. Perry Austin. Mrs. Koehn took several pictures of the girls while they played.

## Junior M. Y. F. Meets in Aldon Bell Home

The Junior MYF met Sunday evening in the Aldon Bell home and heard a program devoted to a study of the modern translation of the Bible, given by the host, Don Bell. Following the program, the election of officers was held, with all officers being re-elected. These officers are Kay Caylor, president; Don Bell, vice president; and Ann Osborne, reporter. Refreshments were served to Joy Lynn Lovett, Bob Beck, Kent Apple, Lois Beck, Jane Malone, Ann Osborne, Don Bell and Kay Caylor. The meeting next Sunday will be in the Fred Osborne home, with Ann Osborne as hostess.

Ochiltree county veterans are served by county service officer Tom Davis, whose office is in the courthouse annex. The daytime phone number is 36 and at night or in an emergency, the phone number is 487. Veterans who need assistance in any way are urged to make use of the services provided by the county service officer.

Qualified persons in Texas, Louisiana and Mississippi can now obtain jobs as clerk stenographers with the Veterans Administration in Washington, D. C. VA has announced.

VA is extending its recruiting into most parts of the nation because of the current shortage of qualified stenographers in the nation's capital.

Entrance salary for these positions is \$2,498 per year with a very good chance for quick promotion to higher grades, VA said. Travel to Washington will be at government expense.

An adequate number of rooms for single persons are available in Washington at rates from \$5 a week and up. Government quarters at Arlington Farms in dormitories are also available

for girls. Employment may be obtained through any regional office, hospital or center of the Veterans Administration.

A savings in insurance premiums is available to World War II veterans who still are paying their GI insurance premiums on a monthly basis, VA said.

Pointing out that approximately 90 percent of the veterans are paying premiums on a monthly basis, VA explained that they may receive a three percent annual discount by paying their premiums on a quarterly, semi-annual or annual basis.

In addition, the fewer premiums due lessens the chance of a policy lapsing.

Veterans can take advantage of the saving by visiting any VA office or writing to the VA Dallas Branch Office insurance service, requesting the type of premium payment desired.

## Ran Wilde and Band to Play in Spearman

RAN WILDE

One of the top names in music—Ran Wilde—will be featured at Spearman Memorial Building, Spearman, Texas, when the famous pianist-trumpeter-maestro brings his orchestra there on Friday, Nov. 5.

Wilde heads up one of the best-known and best-liked hotel theatre ballroom bands in the country. With an outstanding record from coast to coast, the genial maestro has risen steadily from his modest beginning as featured artist with school bands on the West Coast to a national favorite.

Spotlighted feature of the orchestra is lovely Camilla Lane, pianist-vocalist who joined the band in 1942 while Ran was playing at the Olympic Hotel in Seattle.

It was while going to school in Oakland and junior college in Berkeley that Ran first affiliated himself with other young musicians in dance orchestras. He later joined various campus bands at the University of California and Stanford, and then and there made up his mind to a life of music and his own crew. The first Wilde band was

booked into the MacFadden Ballroom in Oakland in 1933, and remained there 18 months. From there the next step was to Alhambra Club, the same spot where the Horace Heidt band started in 1935. The band stayed there for nine straight months, and eventually branched out to other spots on the West Coast.

This was followed by several U. S. tours, and the Ran Wilde organization played theaters, hotels, ballrooms and night clubs in all the larger cities of the country. The group is now back in this territory after a long absence, and their better-than-ever musical renditions will once more be in the spotlight.

## Veteran Forum

Q. My husband is a World War II veteran suffering from a service incurred disability and is in need of a prosthetic appliance. Will Veterans Administration pay for the appliance?

A. VA will furnish a prosthetic appliance if the veteran has a service-connected or service-aggravated disability requiring an appliance.

Q. I enlisted in the war during July, 1947. Am I entitled to loan benefits under the GI Bill?

A. If you served at any time between Sept. 16, 1940 and July 25, 1947 and you were discharged under conditions other than dishonorable after at least 90 days of active service, or for service incurred disability less than 90 days, you may qualify for a GI loan.

Q. What is the last date at which a veteran of World War II may apply for a GI loan?

A. Such veterans have until July 25, 1957 in which to apply for GI loans. Armed Forces Recruitment Act enlistees will have 10 years after their period of enlistment is ended where the discharge date is later than July 25, 1947.

Q. My son was disabled during World War II. Will Veterans Administration pay him an additional sum for dependents?

A. If your son is rated 60 percent or more disabled, he is entitled to an additional sum for his dependents.

## A sweetheart for a winter start!

Want to get off to a good start? Then let your Conoco Mileage Merchant steer you right... He'll tell you that when it comes to fast, smooth winter starts, a lot depends on having the right kind of oil in your engine. He'll tell you, too, the right oil is winter-grade Conoco N# Motor Oil. For two reasons:

First, because winter-grade N# is specially refined for cold-weather performance. It's lighter... freer-flowing. Saves wear on your

battery... and on your nerves... because it gives you faster starts.

And second, N# oil extra-protects against "dry" friction starts... saves wear on engine parts... because it contains a special, added ingredient that actually OIL-PLATES metal surfaces. And this extra film of lubricant stays up... won't all drain down, even overnight!

So, if you want to start off right—and right off—on the next wintry morning...

Make a date to Oil-Plate!

### Texas Farmers to Receive Less in 1949, but Their Costs Will Go Up

COLLEGE STATION, Nov. 1.—On the average, prices paid for Texas farm products will go down a little in 1949; prices farmers pay for things they buy will probably be a little higher than they were this year. It all adds up to an expected 1949 net income on Texas farms and ranches of some 5 to 10 per cent below that of 1948, but still greatly above any prewar year. That's a two-sentence summary of the 1949 farm prospects as seen by Tyrus R. Timm, extension economist and professor at Texas A. & M. College, who returned last week from the National Agricultural Outlook Conference in Washington, D. C. As to farm commodities, livestock and livestock products seem to hold the most favorable price position. The most speculative situation is indicated for fruits and vegetables. No sharp decline generally is expected, but certain individual commodities in this grouping may experience serious "short-run" seasonal declines. In between, these

two groups of commodities is the outlook for cotton and grain, with cotton holding a more favorable spot. Meanwhile he expects prices of automobiles, farm equipment and building materials to be as high or perhaps even higher than in 1948. Some economists, he says, think a general increase of 5-8 percent may be expected. You may pay a little less for radios, some items of household equipment and textiles. The outlook interpretations are based on present supply and demand situations and requirements of existing government programs. Timm points out. Drastic changes from normal weather conditions, or a major overhauling of the government's programs, could change the picture completely. Mr. and Mrs. John T. Scogin of Dallas visited two days last week with their daughter and family, Mr. and Mrs. Lawrence Ellzey.

### Argentinian Considers 29-Mile Bridge

BUENOS AIRES (AP)—Congress agrees, Argentina may make history with a 29 miles long bridge. Deputy Teodoro, a government supporter from the inland province of Jujuy, proposed a bridge across the River Plate estuary. It would connect Argentina and Uruguay and eliminate a four-hour ferry trip. The proposed bridge would be supported on piles 12 or 15 feet above the waters of the shallow estuary. Where it crosses the main ship

channels, there would be lift bridges. Saravia's bill did not estimate the cost or say how heavy piers for the lift section could rest on the mud bottom. The first paper established as an organ of the government was the Gazette of the United States in 1789.

### Red Cross Unit Gives Program at Veterans Hospital

The Ochiltree Red Cross chapter gave the special music for religious services at the Veterans Hospital in Amarillo last week. Those on the musical program were Janice Miller, Kay Cayler, Mrs. C. E. Presnell, and Bertabea Clark. They sang four numbers.

Several members of the American Legion and VFW posts also attended the church services and assisted the patients to and from the chapel from the wards.

Those attending from Perryton were Mr. and Mrs. Alvin Koehn, Mr. and Mrs. C. E. Presnell, Mr. and Mrs. J. F. Cox, Omar Truax, Sidney Jines, Harold Hudson, Ben Peckenpaugh, Clinton Hearne, O. P. Graves, Coke Harlow and Ellamona Organ.

### Inspector Praises PHS Homemaking Department

The homemaking department of Perryton high school, with Mrs. O. L. Anderson as teacher, received a commendation from Gladys Armstrong, district supervisor of the State Board for Vocational Education after an inspection visit made last week.

Mrs. Armstrong stated that the equipment was superior, and that the course of study offered in the local homemaking department is excellent. She especially commended the work the girls did during the summer, when they re-decorated the bedroom and bathroom and added a silver tea service in the dining room.

### 'Humanity' Pledge For Physicians

GENEVA (AP)—Physicians of the future will take a new graduation pledge not to use their medical knowledge "contrary to the laws of humanity." The pledge, part of which was inspired by the gruesome revelations of medical experiments on human beings in Nazi Germany, was adopted unanimously by the World Medical Association in session here. Seventy national associations took part in the meeting.

The pledge, which will be taken by the young physicians upon graduation from medical school, declares:

"Now being admitted to the profession of medicine I solemnly pledge to consecrate my life to the service of humanity. I will give respect and gratitude to my deserving teachers. I will practice medicine with conscience and dignity. The health and life of my patient will be my first consideration. I will respect all that my patient confides in me. I will maintain the honor and the noble traditions of the medical profession. My colleagues will be as my brothers. I will not permit considerations of race, religion, nationality, party politics or social standing to intervene between my duty and my patient. I will maintain the utmost respect for human life from the time of its conception. Under threat I will not use my knowledge contrary to the laws of humanity. These promises I make freely and upon my honor."

The World Medical Association heard reports on the state of medical practice throughout the world, on improvements in post-graduate medical education and the standardization of undergraduate medical education.

German physicians, seeking membership in the body, were requested to form new democratic national organizations and to apologize for actions undertaken during the war before they could be admitted to the association.

### Price Daniel To Speak at Legion Meet

PRICE DANIEL

Price Daniel, Attorney General of Texas, will be the principal speaker at the American Legion District Convention to be held at Dalhart on November 13-14. The 38-year-old Attorney General was Speaker of the House of Representatives in 1943, and when the 48th session of the House ended that year, Daniel waived his legislative exemption from military service and entered the Army as a private.

After serving one year as an enlisted man, he graduated from the Judge Advocate General's Officer Candidate School as a 2nd lieutenant, and was discharged from the service as a captain in May, 1946. He served in the Pacific Theater of Operations with the Marine Corps.

Daniel is co-owner of three Texas newspapers, and has served as president of the Gulf Coast Press Association.

Members of the Pierce Johnson Post of Perryton who will attend the district convention are Robert Barlow, Jerry Shelton, Ike Vernon, E. W. Thomas, Elliott Lee and Sidney Jines.

### First Induction Call Received; Two Men to Go

Two men in the four-county area of local board No. 99 have been sent induction notices, and will be inducted into the Army on November 30. This is the first induction call issued by the local board since the peacetime draft became law.

These two, Buddy Ray Wright of Canadian and James C. Taylor of Perryton, are the only two registrants who have passed the pre-induction physical examination this far.

Eight more men will leave on November 18 for their pre-induction physical.

### Perry is Elected President Photo Club of Panhandle

Mr. and Mrs. W. E. Perry, owners of the Perry Studio, were in Amarillo Sunday, October 31, for the annual meeting and election of officers of the Professional Photographers Club of the Panhandle. This was the second meeting of the club, as it was organized last in 1947.

During the election, Mr. Perry was named president for the coming year. He had served as vice president. Mrs. Perry was elected secretary and treasurer. This club, which includes professional photographers of the Panhandle, has approximately 100 members.

Copper engravings originated in Germany in 1430.

### New Patrolman Is Assigned to Perryton Station

Robert E. Loving, new State Highway Patrolman, has been assigned to the Perryton station and will assist patrolman Jack Shields. Loving arrived in Perryton Monday morning.

Loving was one of the 66 new patrolmen who finished the training school at Austin on Oct. 23.

He is no stranger to Perryton, having lived here from 1929 to 1935. He was a senior in Perryton high school when he moved to Gainesville with his family in the spring of 1935. His father, E. B. Loving, operated the North Side garage in Perryton.

He spent 46 months in the Army, attached to the 10th Air Force, and spent 16 months overseas in India.

He is married, and has a two-year-old daughter, Polly Ann.

### Three Counties Ask for Paving On Highway 70

Max Boyer of Perryton represented the Ochiltree county commissioners court at the meeting of representatives from Gray, Roberts and Ochiltree county with the State Highway Commission in Austin last Friday.

The three counties appeared before the commission asking that state highway 70 be paved from the six-mile junction with U. S. highway 83 south of Perryton south to the 21-mile corner, and that the highway be paved from Pampa north to the Canadian River.

The counties had previously agreed to apply any future appropriation for farm-to-market paving for the next two-year period toward this paving.

While no definite action was taken by the commission, the representatives expressed their belief that the proposal would receive favorable consideration.

RECIFE, Pernambuco (AP)—A 60-year-old teacher at a public school in Recife submitted a request to the government asking for a three month leave.

**Television Spreading In Great Britain**

LONDON (AP)—The British television audience is growing steadily. The General Post Office reports 3,450 persons took out television receiving licenses in August in run the total up to 61,700 in Great Britain and Northern Ireland.

Radio receiving license including television numbered 11,324,400. There were 500 prosecutions during August for listening in without them.

Broadcasting is a government monopoly in the United Kingdom. Ordinary radio licenses cost a pound (\$4.) a year. Television is a pound extra.

**League of Nations Museum Has Ghosts**

GENEVA (AP)—One end of the United Nations European headquarters building here is haunted. In a small room with heavy drapes just off the library is the League of Nations museum. There are no cobwebs, no rustling curtains, no long shadows. Here, in the beribboned elements, the fading photographs in the once bold, now meaningless autographs, lie buried the high hopes of another generation.

A modest, almost meager, display of busts, paintings, photographs and paper portrays the slow strangulation and death of the League of Nations. Andrew Wilson and Paul Bonaville look down from their frames in the wall. There is Leonid Brezhnev looking young and active and Paul-Henri Spaak looking younger. Maxim Litvinoff, the Soviet Union's foreign minister, now retired, shares a spot with frowning Gustav Stresemann, Lord Halifax and Benito Mussolini.

Jess Neely, coach of Rice Institute, thinks television won't alter the game of football, despite the fact that opposing coaches and scouts can sit in their living rooms and watch their next week's opponents at close range. You still need players to win, he says, pointing out that in the mid-1930's, Rice knew TCU's plays as well as the Horned Frogs, yet couldn't beat them.

It's Hard to Take

Releases of Great Ballplayers Recall Their Days of Glory

By FRANK ECK
NEW YORK — Baseball's annual fall housecleaning is in full swing. It's always interesting to see changes made in major league player personnel but when some of the game's outstanding stars pass over the hill it's a bit hard to take.

catches in a World Series against the Yankees. In the 1942 Series he made 15 putouts, many of them sensational grabs. In the 1946 classic with the Red Sox he had 17 putouts.

But the last two years Terry's 6-year-old legs lost their spryness. He hit only .227 this year against a lifetime average of .283. Moore realized he was at the end of the trail when he misjudged a fly ball in Brooklyn. It was his second such offense in 1,300 League games. The game loses a great competitor in Moore.

losing cause. He won the opening game with a 10th inning home run to beat Howie Pollet, 3-2. He also won the third game when he homered with two on in the first inning to beat Murry Dickson, 4-0.

In York's greatest year—1940—he hit 33 homers, batted .316 and drove in 134 runs for the Tigers. Some team may yet use his big bat even though Rudy is past his peak at 35.

Walters, one of the most popular players to ever wear a Cincinnati uniform, has called it quits as a pitcher. Bucky, of course, may change his mind. He needed only two wins at the start of the season to crash the elite 200 circle. He failed in his few starts this year.

The former third baseman, a three-time 20-game winner with the Reds, reached his peak with a pair of victories over the Tigers in the 1940 Series. After a great season in 1944 when he won 23 and lost only 8 he hurt his pitching arm in a 2-0 shut out against the Cardinals and his service was limited.

Another grand competitor who has called finik to his pitching career is Fritz Ostermueller. At 41 he won eight games for the Pirates to run his lifetime total to 114 against 115 setbacks. However, Manager Bill Meyer of the Pirates thinks Fritz will be back. "He loves the game too much to retire," says Meyer.

Other stars who passed out of the picture before the season ended were Joe Medwick, Bobo Newsom and Bill Lee. For some of these fellows there may be a place in baseball but as far as playing the game goes their hitting or pitching deeds will long be remembered.

Woman Studies Mayan Calendar

GAINESVILLE, Fla. (AP)—A 57-year-old grandmother is hard at work here on the solution to a problem which has vexed others for a quarter of a century—a correlation of the Maya and Christian calendars. She is Miss Maude Makemson, an astronomer with a quarter-century of achievements in Who's Who and head of the Astronomy Department at Vassar College for 16 years.

She says little is known about the superstitions of the Maya—who, incidentally, invented the zero—but there is reason to believe they differ little from those of the Mexicans. Mrs. Makemson said there is abundant evidence that the first appearance of the morning star Venus so terrified the Mexicans that they stopped up chimney vents and other openings in their homes to prevent the rays from entering. She said:

"My correlation is based on astronomical predictions of solar eclipses and the risings of the planet Venus, given in the hieroglyphic manuscript known as the Dresden Codex. It makes the starting point of the Maya time-count a day in 3773 B. C., and goes through the great period of Maya civilization between 400 and 800 A. D. This is not completely established. It is still a question. There is need for more study. For instance, there are 20 day-names (instead of our seven) in the Maya calendar."

Scat! ROCKFORD, Ill. (AP)—Oscar Skogsberg was driving a truck down Charles Street. A cat leaped up on his shoulder. The truck veered to the left side of the street, collided with an automobile and slanted off into a parked car. Skogsberg turned his eyes on the cat in a high voltage look of disgust. Sure enough. It was black.

White Mice Claim "First" Honor From Ferret

AUCKLAND, New Zealand (AP)—Auckland's white mice are laughing at this city's proudest ferret.

They're laughing because the ferret claimed to have made animal history by doing an electrician's job in a factory.

The ferret hit the news when it followed the smell of a dead rabbit through a maze of glazed piping under the factory. Behind it, the ferret trailed a length of fishing line. This enabled electric wires to be pulled through. But the city's white mice are NOT impressed. "Old stuff," they say.

Their most famous ancestor, they claim, did a similar job 20 years ago. Wires had to be got through a long length of conduit under a building in the city. The tame white mouse was borrowed a length of thread was tied to its tail, and it was sent scampering down the narrow pipe to appear a few minutes later at the other end. By the cotton a string was pulled through the pipe and with the string the electric wire was threaded.

"Definitely old stuff," say the white mice.

Home Castle Status Disputed

TIVERTON, Eng. (AP)—Is an Englishman's home his castle? Not any more, says Councillor C. W. White, of Tiverton Rural Council. Of farmer William Edwards, who twice refused to permit an official into his home to measure rooms for a housing survey, White said:

"This man is living in the past. He still imagines an Englishman's home is his castle, but those days are gone." The council decided to ask Edwards again.

His Master's Voice

SYDNEY, Australia (AP)—When his hunting dogs began disturbing his rest, a Sydney racehorse trainer put a loudspeaker in their kennels and connected it to the public address system he uses to reach his employees. Now when the dogs bark in the middle of the night, he whispers, "Lie down," and they stop.

Films Bid For Princess

STOCKHOLM (AP)—Five-year-old Princess Christina may soon become the heroine of a fairy-tale.

The princess, who is the daughter of Sweden's widowed Princess Sibylla and Prince Gustaf Adolf, killed in a plane accident last year, has been considered for the lead in a motion picture for Venek Filmindustri, the Swedish artist Einar Nerman said. So far, Princess Sibylla has not decided whether to accept the offer, he added.

Nerman will be co-director of the picture, which will be filmed in color and probably based on a fairy-tale by the Danish Hans Christian Andersen. Princess Christina would play the title role "Liza Thumb," a female equivalent to "Tom Thumb."

Nerman sailed for the United States aboard the Swedish American liner "Stockholm." He is going to New York to work as a cartoonist.

In 1638 the first printing press in the United States was set up at Cambridge, Massachusetts. The Gazette of the United States was the first newspaper to serve as a political weapon.

# Spirit of Benjamin Franklin Rules at Unique Texas School

DALLAS, Texas—When Benjamin Franklin was rising to the top of American history as a printer's apprentice in Philadelphia, Texas was a little-known far-off land of vast open spaces.

Franklin, printer, publisher and statesman, would be at home today following some modern twists under a particular Texas roof. The school would be a big yellow-and-stone structure on a campus on the far outskirts of Dallas.

As a matter of fact, old Ben Franklin's portrait looks down contentedly from one of the walls as you enter.

The building houses the Southwest School of Printing, a unique institution that is winning wide notice in the publishing and graphic arts field regionally and nationally.

This school is a progressive center in vocational instruction. "Lads" are newspaper publishers and commercial printers plus other points.

Says E. W. Jackson, head of a large printing company at Austin and president of the school: "With the support of the printing industry and the publishers in Texas, Oklahoma and neighboring states, it is our intention to make the school one of the great printing schools of the nation."

"It is also my firm belief that the Southwest area one day will become the printing headquarters of this country."

Going strong since its reopening after the war, the school has a student body one hundred per cent veteran. Painted trailers and a Quonset hut to the rear of the building provide homes for the students, their wives and kiddies.

Gradually, however, the vets now finding new careers at the Southwest School of Printing will give way to a student body of youths out of Texas and elsewhere, seeking to become craftsmen in the typographic and allied arts.

And the sponsoring publishers and printers of the non-profit institution will "pay the freight."

The fact is that the printing industry in Texas has been outgrowing the supply of craftsmen. All signs point to even more growth ahead.

Once the school taught everything, from hair-dressing to paper-hanging. That was nearly 25 years ago, when it was set up as the Southwest Vocational School.

But it spread too thin. About 10 years ago the publishers and the printers were invited to take over.

The present single-story building, a spacious two hundred by seventy-five feet, was put up in 1930. It stands on about 20 acres of breeze-swept grounds that used to be a farm at the edge of the Cockrell Hill community.

Ray Abel, who became director of the school when it started up again in June, 1946, after a four year wartime shutdown, is a youthful, friendly South Dakotan. He was teaching printing at Omaha, Nebraska, Technical High School before the war. An

## 'Little' Fires

UP Newsfeatures  
**FREAK FIRES** and fires that take heavy tolls of life and property value get the most public attention. But the National Fire Protection Association says the bulk of losses are traced to small fires, due to familiar causes—fires that

snuff out a life here and there largely go unnoticed. "Thirty persons are dying every day in fires that attack homes every minute-and-a-half," the association finds out. Matches not kept out of the reach of children, careless smokers, furnaces in need of repair are among causes of 90 per cent of all fires, the association reports. Here are some examples.

A **READING GLASS** slipped from a window sill, lodged in an eaves-trough and focused the sun's rays on dried shingles. Result: \$10,000 in damage. Fish bowls and bottles cause similar fires.

**STATIC ELECTRICITY** can cause sparks that set fires. These sparks are visible in the dark when rubbing a cat's fur the wrong way. When a cat was put in a gas chamber the lethal gas exploded.

A **MAN PERSPIRED** while weighing sodium peroxide. A few drops of sweat fell on the explosive chemical used in bleaching textiles. The dye-house, guarded against moisture, went up in flames.

**WATER STARTS FIRES** sometimes. Workmen left unslaked on the porch of a two-story home. A sudden shower soaked the lime, which boiled over, set fire to the woodwork, damaged the house.

A **LIGHTED PIPE** in the pocket of a coat in a wooden locker started a fire. Workers tried in vain to open a left-handed fire hydrant. By the time they sounded the alarm, the fire caused \$35,000 in damage.

**AN ELECTRIC IRON** was left connected and resting flat on an ironing board, while a housewife talked with a neighbor. When she returned, the iron had burned through ironing board and floor.

Former students of the school are now working for weeklies, dailies, and small and large printing establishments in all parts of Texas.

## Aussie Fishermen Settle a Dispute

SYDNEY, Australia (AP)—Sydney's spear fishermen are trying to make peace with the rod and line anglers.

The amateur Fishermen's Association (the rod and line boys) had protested that spear fishermen interfered with their sport.

The Underwater Spear Fishermen's Association called a general meeting. The meeting adopted rules providing that no member may:

- Point a loaded spear gun at anyone.
- Use a gun or spear above the surface of the water.
- Spear fish within 50 yards of swimmers or rod and line anglers.

## No 'Fore'—Golfer Fined

CARLSLE, Eng. (AP)—A golfer who failed to yell "fore" was assessed damages of 873 pounds (\$3,492) in favor of a fellow player who was struck in the right eye with the ball and blinded.

Ordering George Alderson to pay the damages to Daniel Watson, Justice Sir Frederic Sellers, ruled: "The law is clear that on a golf course there is a duty to take reasonable care that no injury is done to those who are on the course or taking part in the game."

## Russians Salvage Hitler's Steel

BERLIN (AP)—The Russians, who have already removed the marble from Hitler's ruined Reichschancellery, are now taking its steel ceiling struts.

The pink marble from chancellery walls and granite from its foundations went into construction of huge Red Army war memorials. The steel is to be used in construction of a theater at Karshorst, headquarters of the Soviet military administration.

## Red Paper Backs High Pay

PRAGUE (AP)—Even a Communist-run state is troubled by complaints about high salaries paid to top industrial executives. But the Prague trade union daily "Prace", says that such complaints about "privileged persons" are the work of "reactionary instigators."

In an editorial, "Prace" said it received complaints about the high salaries of factory managers. The editorial answered these letters by saying that some of the high officials of the nationalized industries could not be paid enough, even if given their weight in gold. It added that a floor sweeper who works only eight hours a day can enjoy life more than the executive who is working "even in his bed—if he manages to get to bed at all" after long conferences.

## \$1,000,000 Aid For Finland's Children

HELSINKI (AP)—The United Nations International Children's Emergency Fund (UNICEF) plans to spend more than \$1,000,000 in Finland before July 1, 1949.

The chief of the UNICEF European committee, Alfred E. Davidson, announced that the organization will provide all Finnish school children with supplementary food such as dehydrated milk, lard and canned meat. The money will also be used to fight tuberculosis among Finnish children.

TELEVISION already has boomed beyond expectations of its most optimistic prophets. In the few years since V.J. ### Former Residents Killed in Wreck in California

Ward has been received in Perryton of the tragic death in an automobile accident of Mr. and Mrs. George L. Hyde, former Perryton residents. Mr. and Mrs. Hyde were killed on Oct. 27 near Orland, Calif., when their sedan was struck by a loaded semi-trailer truck at a highway intersection. Mrs. Hyde died instantly, and Mr. Hyde died a few hours later in a hospital.

Funeral services were held Sunday at the Baptist church in Orland, their home.

Survivors include a daughter, Mrs. Glen Laughlin, a son, Lee Hyde, and a grandson, George

Hyde.

Mr. Hyde was formerly Perryton high school band director, and also directed the town band for several years. They left Perryton in the late 1920's.

The first color printing on a rotary press in America was done by the Chicago Inter Ocean in 1892.

### Mrs. Cox Attends Area Red Cross Meet at Plainview

Mrs. J. F. Cox, home service secretary of the Ochiltree Red Cross chapter, attended an area Red Cross meeting in Plainview on October 25 and 26. The meeting dealt with various administrative problems, chapter operations, finances, fund raising, discussion of chapter programs and the role of the Red Cross in the local community.

The conference was conducted by Robert Smola and A. L. Gilbreth, from the Midwestern Area Office of St. Louis.

Those who attended the meeting included Miss Sophia Thigpin, Dumas; Mrs. Lily Brandon, Littlefield; Mrs. Bonnie Burt, Colorado City; Mrs. Lillian Corbet, Midland; Mrs. Vera Dean Sweetwater; Mrs. Moree Sawtelle, Big Spring; Mrs. E. R. Steward, Dalhart; Mrs. Dyalitha Brandley, Hereford; Miss Helen Johnson, Borger; Miss Bertha King, Odessa; Mrs. Maude Earhman, Plainview; Mrs. Paul Hill, Pampa; and Mrs. Cox of Perryton.

Offset printing was discovered in Munich in 1799.

The first English Bible was printed in America in 1782.

### Baby with Outside Liver Survives

LONDON (AP)—A girl, born with liver and intestines outside her body, has made an "uneventful recovery" from an operation—carried out two hours after birth—to put these organs in their normal place.

Two London doctors, B.S.S. Acharya and E. W. Burslem, reported the case in the "British Medical Journal." They said they believed the child "was the youngest to be anesthetized successfully with cyclopropane."

### London Aids Moscow Zoo

MOSCOW (AP)—The newest shipment of animals, birds and snakes from the London Zoo to the Moscow Zoo are on display and attracting crowds. The shipment—which is part of an exchange arrangement worked

between the London and Moscow zoos—arrived here by train from Leningrad after coming from London by ship.
