BEEF STEERS.

...lk of the offerings today were ...ers, from common to good quali...

Local buyers were bidding so much lower that it evidenced no demand for this class of cattle, and up to the time of going to press almost nothing had been done. Some of the inferior kind were sold to outside butchers, the salesmen quoting them on about a steady basis with yesterday. The top price $3.10 for those averaging 900 pounds. Generally, the bids were considerably lower than yesterday, and there was very little bidding.

Choice heavy fed steers are quoted today from $3.50 to $4, with the medium kinds and good grass from $3 to $3.50, and light thin from $2.25 to $2.75.

AROUND THE STOCK YARDS.

The official receipts at the yards yesterday were: Cattle, 2,055; hogs, 183; sheep, 421.

P. Wilson of Ennis sold on today's market 44 steers, averaging 900 pounds, which brought $3.10.

J. D. Hudgins of Hungerford, Tex., marketed 89 calves, averaging 163, that sold to Swift & Co. at $3.25.

J. R. Rich, one of the regular shippers to this market from Graham, marketed 68 calves, averaging 169 pounds, which sold at $3.65.

Chas. A. Miller of Ballinger was on the market with one load of good steers. Mr. Miller is one of the prominent cattle men and land agents of his county.

T. J. Moore of Llano, Tex., was on the market yesterday with 160 calves, averaging 199 pounds, which sold at $3.85, and 22 cows, averaging 848 pounds, which sold at $2.15.

G. W. Mansfield of Crafton sold a yearling steer, weighing 840, on today's market, at $3. This yearling was raised on grass and nothing else. The seller handling it said it was the best yearling he ever sold, and he has been in the business a good many years. It had Durham and Hereford blood, and was fairly well graded.

This added to the amount received from mohair made a total of $2,450, which was $250 more than the cost of the original flock. He still has on his farm 380 head of the goats, with which he expects to repeat the oueration.

Prefers Snappy Sauce.

The King of Siam is quoted as saying he has no idea that "benevolent assimilation" will let him alone. "I know," he said, "that I shall be eaten one day with English or French sauce. The latter is too tasteless. I prefer the English sauce mixed with the famous Japanese sauce."

A Terrapin's Wanderings.

Five years ago C. H. Taylor of Ashland, Mo., found a land terrapin. He engraved his name on its shell and turned it loose, speculating whether he would ever run across it again. The other day he captured it a second time. It has grown one-third, but Mr. Taylor's name was still plain visible. Other initials were engraved on its back and it was turned again.

Shortly before a recent election in Dercolo, Tyrol, adherents of the Clerical party cut some vines in the vineyards and posted up warnings that if the peasants gave the Liberals a majority all their vines would be cut and ruined.

Blow to a College Man.

The Columbia man looked crestfallen. "What's the matter?" asked the sympathetic girl. "I'm simply crushed," he replied hopelessly. "I went to a college bazaar yesterday, and at the Columbia table they were selling aprons."

Owned by a Few.

More than 2,000,000 persons live in Manhattan and the Bronx. About 19,000 persons own all the land in these two boroughs. The number of property holders is 8,000 less than it was eight years ago.—New York World.

NO MARKET SATURDAY.

There will be no market next Saturday, on account of Fourth of July holiday. Shippers to Fort Worth will please bear this in mind, and make their shipments accordingly. They should be careful not to overload the market on Friday. For all purposes of business, Saturday will be the same as Sunday.

MOVEMENT OF TEXAS CATTLE.

The Colorado Stockman says: D. N. Arnett has returned from a trip to the Spade ranch, and reports conditions on the Plains very satisfactory at this time. He has purchased about 1,000 2-year-old steers this spring, and will buy 1,000 yearling steers this summer. Mr. Arnett says there has been a large number of cattle passed through the Spade pasture this spring en route to Hereford and Bovina, the total aggregating about 35,000 head, composed of the following: Connell & Clark, 3,600; Brownfield, 1,400; Scott & Robertson, 3,... ...; Conley, 1,800; A. B. Robertson, 800; Glass, 900; Godair & Bishop, 2,900; W. A. Pierce, 750; Tom D. Love, 800; W. T. Petty, 1,000; Hudgins, 1,500; John B. Slaughter, 2,050; McCartney, ... BROOM CORN ADVANCING.

Chariton, Ia., June 29.—Broom corn jumped from $85 to $100 a ton Saturday, ... & Co. of Louisville paying that ... for fifty-five tons of choice brush. ...rise in price has been expected for the ...ast month, but it was not known what ...turn the market would take until the bulk of the crop was planted. The acreage is estimated at one-third less than last year, and, as nearly every factory is reported as having a short supply, it is believed that the price will not stop at $100.

The only broom corn now in the hands of the growers is held by farmers in this immediate vicinity, and those who had the nerve to hold their crops and plant in the face of a late season and prices are very much elated over the prospects of high prices. One hundred and fifty dollars a ton is freely predicted.

LIVE STOCK RUN FOR JUNE.

Cattle, Hogs and Sheep at the Five Leading Markets.

Except at Kansas City and St. Louis, the receipts of cattle were much larger at all points in June than for the same month in 1902. The floods at those places were, of course, the cause of their falling off, and also caused the diversion of stock to other markets, accounting for the large increase in receipts at Chicago, Omaha and St. Joseph.

The figures are as follows:

HOG FED COWPEAS.

The Alabama station experimented with corn, cowpeas and a mixture of both, and find the last ration the best. The food quired to make a pound of gain with these pigs on the different rations was follows, says the Michigan Farmer: corn, 4.87 pounds; cowpeas, 4.81 pounds; corn and cowpeas, half and half, 4.3... pounds, and corn and wheat bran, half and half, 5.21 pounds. In these experiments the manure from the hogs fed cowpeas contained about 70 per cent more protein than that from the hogs fed corn. On an exclusive corn diet 2.3 per cent of the weight of the hogs consisted of intestinal fat, while on the cowpeas 1.1 per cent was intestinal fat. The liver, kidneys, heart and spleen of the hogs fed on cowpeas were considerably larger than the same organs in corn-fed hogs and the bones were stronger. On the whole there was a greater proportion of lean meat in the hogs fed cowpeas than in the hogs fed corn. This work shows the value of cowpeas as a food for fattening hogs and the necessity of some such nitrogenous food as cowpeas in building up healthy, vigorous internal organs and a strong framework.

TEXAS SCHOOLS FOR TEXAS YOUTH

Soon the time will be at hand for parents to make a selection of schools for their children. In making up their minds, it would be as well for them to keep in view the fact that Texas has many good schools, and that their children can get as thorough training near at home as by going a thousand miles away.

"Going off to school" is a serious thing for a boy or girl who has never been away from home except to spend a week or two with a relative. Sending such inexperienced young things to Northern or Eastern schools, where everything is not only new and strange, but the very air is foreign, is a cruelty that has no excuse. "Homesickness" is bad enough when the victim is a hundred miles away from home, but when a thousand miles separate child from home it is intensified. To the young mind this is an immeasurable gulf that divides it from father and mother, leaving them in another world.

There are not many places in Texas, except in the western counties, where a good school is more than a hundred miles away, and such schools generally are as capable of imparting an education and caring for their charges as those outside the state. By preferring them, parents will be doing a commendable act of helping to build up institutions of learning at home, as well as keeping their children within easy reach if illness or other misfortunes overtake them.

MINERS OUT.

No Agreement Has Been Reached in Regard to New Wage Scale.

Birmingham, Ala., July 2.—All the miners who are members of the United Mine Workers of America in this district, to the number of about 13,000, have suspended work, the old wage contract having expired Tuesday night and a new contract not having been agreed upon. No formal strike has been declared, the situation being referred to as a suspension. This status will presumably be maintained until an agreement is reached on the new wage scale. When the first session of the joint convention of miners and operators came to an end Tuday evening with a failure to agree on a new wage scale it adjourned subject to the call of the chairman, who is Ed Flynn, president of the Mine union. No call for another meeting has been issued and there is no immediate prospect of renewal of efforts to reach a settlement. It is not believed that anything will be attempted until next week at the earliest. Both sides are siding firm, but there is a very widespread feeling that negotiations will be renewed in the near future. As work is slack at the industries and the weather very warm, there is no disposition on the part of either side to press matters. All is quiet at the mines. Cort mines are running, as are also a few mines wehere union labor is not employed.

AN ASSISTANT.

This Was Brought About by Ill Health of Charles M. Schwab.

New York, July 2.—Reports prevalent for months past that Charles M. Schwab will retire from the presidency of the United States Steel Corporation culminated in the appointment of an assistant to the president of W. E. Corey president of the Carnegie Steel company. The formal announcement was made by Richard Trimble, secretary of the finance committee, in the following form:

In consequence of the continued ill health of the president, he has requested the appointment of an assistant to perform the active duties of the presidency, and at a meeting of the finance committee Mr. W. E. Corey, president of the Carnegie Steel company, was appointed to such position.

Announcement of Mr. Corey's appointment occasioned no surprise in financial circles, where it had been a matter of common knowledge that at least some change was pending in the personnel of the corporation affairs.

The finance committee of the steel corporation is dominated, according to popular belief, by Mr. Morgan and his friends. One of its leading members is H. C. Frick.

IOWA REPUBLICANS.

They Meet in State Convention at Des Moines to Nominate a Ticket.

Des Moines, Ia., July 2.—About 1000 delegates are in attendance at the Republican state convention. But two propositions are before the convention, the platform and nomination of a candidate for superintendent of public instruction. All the other state officials have no opposition for re-nomination. There are three candidates for superintendent of public instruction. R. C. Barrett, the present incumbent, seeks a fourth term. Senator Allison prepared the platform planks pertaining to the tariff and trusts.

Several Shots Were Fired.

Chicago, July 2.—A serious riot occurred on West Van Buren street between a number of strikers who walked out of the plant of the Kellogg Switchboard company some time ago and three men who were escorting home a number of girls who had gone to work in the factory. During the trouble a number of shots were fired and four persons are known to be hurt.

Serious Collision.

Brussells, July 2.—A serious collision occurred at the railroad station at Schaerbeck, a suburb of this city. A train from Antwerp filled with leading grain merchants who were on their way to attend the weekly grain market collided with a train which was leaving Schaerbeck. Many persons were injured, but none fatally.

Many are satisfied to live in Northwest Texas, having proved the value of the land in this region as a good Crop Raiser. Not only Cattle, but Wheat, Cotton, Corn, Feed-Stuffs, Cantaloupes, Garden Truck and Good Health flourish here—in a district where Malaria is impossible and very little doing for Jails and Hospitals.

Land, which is being sold at really low figures—tho the constantly increasing demand is steadily boosting values—is still abundant; and Farms and Ranches of all sizes, very happily located, are being purchased daily.

ALLISON UPON TARIFF

Republican State Convention of Iowa Indorses His Idea.

TRUST QUESTION

Party Adopts the Views of the Senator Likewise Upon This Matter and Indorses Administration of President.

Des Moines, Ia., July 2.—The [illegible]lican state convention nominated the following ticket:

Governor—A. B. Cummins.
Lieutenant Governor—John Herriott.
Supreme Judge—Charles A. Bishop.
State Superintendent of Education—F. J. Riggs.
Railroad Commissioner—David Palmer.

All the candidates were nominated by acclamation with the exception of the state superintendent.

Harmony marked the proceedings of the convention. After the ticket had been completed and the platform adopted, speeches were made which indicated that the Republican leaders of the state were not entirely agreed as to the details of tariff policy.

The tariff plank adopted was one prepared by Senator Allison, after conference with representative Republicans of the state. No objection was made to it by the committee on resolutions or in its preseentation to the convention. Governor Cummins, in his speech accepting re-nomination, approved the platform in its entirety, but announced that he would continue to hold to all the views expressed in his speeches within the last two years.

Senators Allison and Dolliver, who made speeches, endorsed the platform as a correct statement of Republican principles, but Congressmen Lacy and Cousins spoke in opposition to tariff changes.

Senator Allison's tariff trust plank, which was adopted, is as follows:

"We reiterate our faith in the historic principle of protection. Under its influences our country, foremost in the bounties of nature, has become foremost in production. It has enabled the laborer to successfully insist upon good wages and has induced capital to engage in production with a reasonable hope of a fair reward.

SENATOR WILLIAM B. ALLISON.

"Its vindication is found in the history of its success and rapidity with which our national sources have been developed and our industrial independence secured and we heartily renew our pledge to maintain it.

"Tariff rates enacted to carry this policy into effect should be just, fair and impartial, equally opposed to foreign control and Democratic monopoly to sectional discrimination and individual favoritism, and must, from time to time, be changed to meet the varying conditions incident to the progress of our industries and their changing relations in our foreign and democratic commerce. Duties that are too low should be included, and duties that are too hight should be renewed.

"We indorse the policy of reciprocity and the natural complement of protection. Reciprocity between nations is trade for mutual advantage, and both sides must give and take. Protection builds up democratic industry and trade, and secures our own markets for ourselves; reciprocity builds up foreign trade and finds an outlet for our surplus.

"We approve the treaty [illegible] recently ratified, as co[illegible] stantial benefits upo[illegible] and urge that [illegible] and the necessary [illegible] taxable promptly [illegible]on. We do

"We [illegible] out insist that [illegible]dlated and con[illegible]tent monopoly and [illegible]tion, and the fullest [illegible] and advance the pub[illegible] [illegible]triotic and resolute course [illegible] resident of the United States, [illegible] recommendations to congress [illegible] this subject and upon the related subject of further regulation of interstate commerce, commands our confidence and admiration, and recent legislation of congress in harmony with his recommendations meets our hearty approval."

Hanna, Wyo., July [illegible] was received Wednesday fro[illegible] perienced miner, who penetra[illegible] Union Pacific mine to the six[illegible] level, that the workings below the [illegible] enteenth level are a mass of flam[illegible] where, a few hours ago, it was believed the rescuers would reach the bodies of the entombed miners not later than Thursday noon. The efforts of those working below the surface are now confined to the work of walling up the entries and the slope and putting up fire proof barriers which will prevent the flames from reaching the seventeenth and other levels above. This is taken as an indication that the rescuers realize the fruitlessness of further attempts to rescue the entombed miners below the seventh level.

Tornado Lore.

The months of greatest tornado frequency in the United States, as shown by the reports of Lieut. John Finley of the United States Signal Corps, are May, April, June and July, in the order named. The hours of greatest frequency during the day are from 3:30 to 5 p. m., just after the hottest part of the day, when warm ascending-air currents are most liable to meet cooler descending ones.

Wasted Effort.

It was in the summer at a far-away resort and the clergyman on this particular Sunday was very much in earnest and very young. He got up and preached energetically in the heat to twelve old women, two decrepit men, and four children on the heinousness of playing golf on the Lord's day—and there weren't any links within ten miles at that.

Religions in India.

The Christian population of India, including Europeans, does not n[illegible] 3,000,000, while the Moslem conti[illegible] has increased in twenty years [illegible] 12,000,000 souls. Islam is not a native but a foreign religion in India and has not had large sums of money to spend in its propogation as has Christianity.

Early Devotion to Art.

We read of Mr. Betts, who has won an art scholarship, that he was born in Little Rock thirty years ago "and has given his entire time to art ever since." If true this certainly indicates a degree of precocity eminently deserving of the scholarship.

A WEDDING AMONG THE CROWS.

An Interesting Reminiscence of Indian Days, by Coho Smith.

Editor of The Citizen:

When I was about 14 I had a "scrap" with my stepfather. He got the best of the scrap, so I ran away to Mrs. Cross' Her son Thomas was just geting ready to start to the Rocky Mountains. He got me a pony and I went with him. When we got to the Crow Indians Jim Beckwith was head chief. Tom Cross turned me over to Beckwith and said that he wanted no harm to come to me; that I was an orphan, etc. Jim Beckwith made me welcome on Tom's account. Tom had lived with Beckwith a year, some two ... Tom was a nephew ... We had been with ... or four days when an old Indian came into the chief's tent and had a talk with Jim. After he went out, Jim turned to us and said, "What do you fellers suppose that ... did he ... "He wanted to know if you two fellers did not want a wife apiece." Tom said, "Yes, of course we do." Jim stepped out and hallooed something to the old Indian. Tom and myself were both laughing, thinking it was a joke. Presently I heard a vast amount of a kind of tinkling noise and the next moment five Indian girls entered. Jim said, "Here they are, boys." Tom said, "I see them, but what does it mean?" "Why," says Jim, "that old fellow has set up his five daughters for you to choose your wives." "Good Lord!" said Tom, "I was only joking. I thought you were trying to put up some kind of a joke on me and sonny, here." "Well," said Jim, "Indians don't joke, and you better choose your wives or you'll have to fight the old man and all his boys. You could not offer a greater insult to a Crow than to ask for a wife and then refuse her."

The girls ranged themselves in a row in front of Tom and myself, and they were dressed "loud," I tell you. All had red broadcloth leggins, with a row of small brass bells on the outside of each leg, and their skirts just came to their knees. The skirts were trimmed with a broad band of beadwork at the lower edge, and calico was their chemise. Their hair was shining with bear's oil, and beautiful beaded moccasins were on their feet.

"Well," said Tom, "if I have to, why I have to, that's all. What would you do, Sonny?" I said, "Do as you please, but as for me, I don't want a wife." (A huge lie, but I was ashamed.)

"Which one would you choose, ...?" said Tom.

"I don't know much about them," ... Jim ... his wife went out and talked ... time, and when they returned, Jim said, "My little wife says the oldest is the best of the bunch." "But," says ... "she's so blamed ugly." "Oh," says Jim, "that's nothing; she is a good ... dresser and good bead worker, of good disposition. You had better take her. Tom. And as for you, Sonny ... are too young to marry, and ... I can get you off without insulting the old Indian."

"How will I ..." said ... "Take her by the hand and lead her to your side of the lodge and ... on your buffalo robe." ... so, and said, "I reckon ... now, eh, Jim?" "No, not ...

TREE PLANTING IN NEBRASKA.

One hundred acres of land in the sand hills of the Dismal River forest reserve, Nebraska, were planted this spring by the Bureau of Forestry. On 80 acres 100,000 pine seedlings were set out; the other 20 acres were sowed with seed. The work will continue this summer. The nursery will be enlarged so as to cover two acres, which will hold 2,000,000 seedlings. The bureau intends to increase the size of the nursery gradually so as to make it grow enough seedling trees every year to furnish sufficient stock for the planting. It is intended ultimately to turn the whole of the Niobrara and Dismal River reserves, which are now barren sand hills, into forest by planting. The Dismal River reserve includes 86,000 acres, the Niobrara reserve 126,000. A survey of the boundaries of the Niobrara reserve will be made this summer by E. ... Moore, of the Bureau of Forestry.

TRANSFERS MADE.

Various Bureaus Now In Department of Commerce and Labor.

Washington, July 2.—The transfer of the various bureaus which are to be assembled under the act creating the department of commerce and labor to the new department took place Wednesday. The transfer was attended by a pleasant ceremony in the office of Secretary Cortelyou. The chiefs of all bureaus, the control of which passed to the new department gathered in the secretary's office, and in addition there were a number of visiting people present, including Secretary Moody of the navy department. Secretary Cortelyou made a brief address concerning the objects and aims of the department and there were several responses. In addition to the bureaus of corporations and manufacturers created by the new law the department of commerce, beginning now, embraces control of the following:

The census bureau, formerly under control of the interior department; the light house establishment, steamboat inspection service, bureau of navigation, United States shipping commissioners, national bureau of standards, coasts and geodetics survey bureau of immigration and bureau of statistics from the treasury department, bureau of labor, fish commission and the bureau of foreign commerce, the latter being transferred from the state department.
